D. "Allowable Expense" means a necessary, reasonable and customary item of expense for health care; when the item of expense is covered at least in part by one or more plans covering the person for whom the claim is made.

The difference between the cost of a private hospital room and the cost of a semiprivate hospital room is not considered an Allowable Expense under the

above definition unless the patient's stay in a private hospital room is medically necessary either in terms of generally accepted medical practice, or as specifically defined in the plan.

When a plan provides benefits in the form of services, the reasonable cash value of each service rendered will be considered both an Allowable Expense and a benefit paid.

When benefits are reduced under a Primary Plan because a covered person does not comply with the plan provisions, the amount of such reduction will not be considered an Allowable Expense. Examples of such provisions are those related to second surgical opinions, precertification of admissions or services, and preferred provider arrangements.

E. "Claims Determination Period" means a calendar year. However, it does not include any part of a year during which a person has no coverage under This Plan, or any part of a year before the date this COB provision or a similar provision takes effect.

III. ORDER OF BENEFIT DETERMINATION RULES

A. General. When there is a basis for a claim under This Plan and another plan, This Plan is a Secondary Plan which has its benefits determined after those of the other plan, unless:

- (1) The other plan has rules coordinating its benefits with those of This Plan; and
- (2) Both those rules and This Plan's rules, in Subsection B below, require that This Plan's benefits be determined before those of the other plan.

B. Rules. This Plan determines its order of benefits using the first of the following rules which applies:

- (1) Non-dependent/Dependent. The benefits of the plan which covers the person as an employee, member, or subscriber (that is, other than as a dependent) are determined before those of the plan which covers the person as a dependent.
- (2) Dependent Child/Parents not Separated or Divorced. Except as stated in Paragraph B.
- (3) below, when This Plan and another plan cover the same child as a dependent of different persons, called "parents:"

(a) The benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in that year; but

(b) If both parents have the same birthday, the benefits of the plan which covered one parent longer are determined before those of the plan which covered the other parent for a shorter period of time.

However, if the other plan does not have the rule described in (a) immediately above, but instead has a rule based upon the gender of the parent, and if, as a result, the plans do not agree on the order of benefits, the rule in the other plan will determine the order of benefits.

(3) Dependent Child/Separated or Divorced. If two or more plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in this order:

(a) First, the plan of the parent with custody of the child;

(b) Then, the plan of the spouse of the parent with the custody of the child.

(c) Finally, the plan of the parent not having custody of the child.

However, if the specific terms of a court decree state that one of the parents is responsible for the health care expense of the child, and the entity obligated to pay or provide the benefits of the plan of that parent has actual knowledge of those terms, the benefits of that plan are determined first. The plan of the other parent shall be the Secondary Plan. This paragraph does not apply with respect to any Claim Determination Period or Plan Year during which any benefits are actually paid or provided before the entity has that actual knowledge.

(4) Joint Custody. If the specific terms of a court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the plans covering the child shall follow the order of benefit determination rules outlined in Paragraph III B.(2).

(5) Active/Inactive Employee. The benefits of a plan which covers a person as an employee who is neither laid off nor retired (or as that employee's dependent) are determined before those of a plan which covers that person as a laid off or retired employee (or as that employee's dependent). If the other plan does not have this rule, and if, as a result, the plans do not agree on the order of benefits, this Rule (5) is ignored.

(6) Longer/Shorter Length of Coverage. If none of the above rules determines the order of benefits, the benefits of the plan which covered an employee, member or

subscriber longer are determined before those of the Plan which covered that person for the shorter term.

IV. EFFECT ON THE BENEFITS OF THIS PLAN

A. When this Section Applies. This Section IV applies when, in accordance with Section III "Order of Benefit Determination Rules," This Plan is a Secondary Plan as to one or more other plans. In that event the benefits of This Plan may be reduced under this section. Such other plan or plans are referred to as "the other plans" in B immediately below.

B. Reduction in this Plan's Benefits. The benefits of This Plan will be reduced when the sum of:

(1) The benefits that would be payable for the Allowable Expense under This Plan in the absence of this COB provision; and

(2) The benefits that would be payable for the Allowable Expenses under the other plans, in the absence of provisions with a purpose like that of this COB provision, whether or not claim is made; exceeds those Allowable Expenses in a Claim Determination Period. In that case, the benefits of This Plan will be reduced so that they and the benefits payable under the other plans do not total more than those Allowable Expenses.

When the benefits of This Plan are reduced as described above, each benefit is reduced in proportion. It is then charged against any applicable benefit limit of This Plan.

V. RIGHT TO RECEIVE AND RELEASE NEEDED INFORMATION

Certain facts are needed to apply these COB rules. [Insurer] has the right to decide which facts it needs. It may get needed facts from or give them to any other organization or person. [Insurer] need not tell, or get the consent of, any person to do this. Each person claiming benefits under This Plan must give [insurer] any facts it needs to pay the claim.

VI. FACILITY OF PAYMENT

A payment made under Another plan may include an amount which should have been paid under This Plan. If it does, [insurer] may pay that amount to the organization which made that payment. That amount will then be treated as though it were a benefit paid under This Plan. [Insurer] will not have to pay that amount against. The term "payment made" includes providing benefits in the form

of services. in which case "payment made" means reasonable cash value of the benefits provided in the form of services.

VII. RIGHT OF RECOVERY

If the amount of the payments made by [in surer] is more than it should have paid under this COB provision, it may recover the excess from one or more of:

- A. The persons it has paid or for whom it has paid;
- B. Insurance companies; or
- C. Other organizations.

The "amount of the payments made" includes the reasonable cash value of any benefits provided in the form of services.

Rule 120-2-49-.03. License; Application; Issuance; Net Worth; Probationary License; Exemption.

- (1) It is unlawful for any business entity to act as or hold itself out to be an administrator in this State without a valid license issued by the Commissioner of Insurance. To qualify for and hold a license to act as an administrator in this State, an administrator must otherwise be in compliance with Article 2 of Chapter 23 of Title 33 of the Official Code of Georgia Annotated, this Regulation, and with its organizational agreement.
- (2) The administrator shall file with the Commissioner an application for a license upon a form to be furnished by the Commissioner, which application shall include or have attached the following information and documents and any other materials the Commissioner deems necessary to adequately assess the merits of the application:
 - (a) All basic organizational documents of the administrator, the articles of incorporation, articles of association, partnership agreement, trade name certificate, trust agreement, shareholder agreement, and other applicable documents, and all amendments to those documents.
 - (b) The bylaws, rules and regulations or similar documents regulating the conduct or the internal affairs of the administrator.
 - (c) The names, addresses, official positions, and professional qualifications of the individuals who are responsible for the conduct of the affairs of the administrator, including all members of the board of directors, board of trustees, executive committee, or other governing board or committee, the principal officers in the case of a corporation, the partners or members in the case of a partnership or association, and any other person who exercises control or influence over the affairs of the administrator.

- (d) Financial statements certified by the President, Chief Financial Officer or Treasurer or audited reports for the two most recent years, or such other information as the Commissioner may require in order to review the current financial condition of the applicant.
 - (e) If the applicant is not currently acting as an administrator, a statement of the amounts and sources of the funds available for organizational expenses and the proposed arrangements for reimbursement and compensation of incorporators or other principals.
 - (f) Proof that the applicant possesses a minimum net worth of \$200,000; however, the Commissioner may, in his or her discretion, require a higher net worth if he or she deems such higher net worth necessary for the protection of the public. Letters of credit, backstop guarantees and special corporate structures will not be taken into consideration by the Commissioner in determining the net worth requirement.
 - (g) An application for an administrator's license or an application for renewal of such license shall be accompanied by fees as provided in O.C.G.A. § [33-8-1](#).
- (3) The applicant shall make available for inspection by the Commissioner or his or her authorized representative copies of all contracts with insurers, self-insurers, or other persons utilizing the services of the administrator.
 - (4) The Commissioner shall not issue a license if he determines that the administrator or any principal thereof is not competent, trustworthy, financially responsible, or has had an insurance license refused, revoked, or suspended by any state.
 - (5) A license issued under this section may be issued on a probationary basis in the discretion of the Commissioner. The probationary license may be issued for not longer than 12 months and not less than 3 months and is subject to revocation without a hearing. The Commissioner, at his/her discretion, shall prescribe the terms of probation, may extend the probationary period, or refuse to grant a license at the end of any probationary period.
 - (6) Nonresident applicants for licenses under this chapter shall execute in a form acceptable to the Commissioner an agreement to be subject to the jurisdiction of the Georgia Commissioner of Insurance and courts of this state on any matter related to their insurance activities in Georgia, on the basis of service of process under Title 33 of the Official Code of Georgia Annotated or other service authorized in the Georgia Rules of Civil Procedure.
 - (7) Any business entity acting as an administrator that claims an exemption from the licensure requirements as defined by O.C.G.A. § [33-23-100\(b\)](#)(1 - 12) shall file an annual claim of exemption each December 31 on a form as prescribed by the Commissioner.

Rule 120-2-49-.04. Written Agreement Necessary.

- (1) No administrator shall act as such without a written agreement between the administrator and an insurer or self-insurer, and such written agreement shall be retained as part of the official records of an insurer or self-insurer and the administrator for the duration of the agreement and five years thereafter. Such written agreement shall contain provisions which meet the requirements of Rules [120-2-49-.05](#), [120-2-49-.08](#), [120-2-49-.09](#), [120-2-49-.10](#), [120-2-49-.12](#), [120-2-49-.13](#), [120-2-49-.14](#), and [120-2-49-.15](#), except insofar as those requirements do not apply to the functions performed by the administrator.
- (2) Where a policy is issued to a trustee or trustees, a copy of the trust agreement and any amendments thereto shall be furnished to the insurer or self-insurer by the administrator and shall be retained as part of the official records of both the insurer and the administrator for the duration of the policy and five years thereafter.

Rule 120-2-49-.05. Maintenance of Information; Books and Records; Reporting Requirements; Return Credits; Correction o.

- (1) Every administrator shall maintain at its principal administrative office for the duration of the written agreement referred to in Rule [120-2-49-.04](#) and five years thereafter books and records of all transactions between it, insurers, self-insurers and insured persons. The Commissioner shall have access to such books and records for the purpose of examination, audit and inspection. Any trade secrets contained therein, including but not limited to the identity and addresses of policyholders and certificate holders, shall be confidential, except the Commissioner may use such information in any proceedings instituted against the administrator. The insurer shall retain the right to continuing access to such books and records of the administrator sufficient to permit the insurer to fulfill all of its contractual obligations to insured persons, subject to any restrictions in the written agreement between the insurer and administrator on the proprietary rights of the parties in such books and records.
- (2) Administrators shall maintain detailed books and records that reflect all administered transactions specifically in regard to premiums, premium taxes, agent's commissions,

administrator's fees, contributions received and deposited and claims and authorized expenses paid.

- (3) The detailed preparation, journalizing, and posting of such books and records shall be made in accordance with the terms and conditions of the service agreement between the administrator and the insurer, self-insurer, or plan sponsor, and in accordance with the "Employee Retirement and Income Security Act of 1974," 88 Stat. 829, [29 U.S.C. § 1001](#) *et seq.*, as amended and to enable the insurer to complete the National Association of Insurance Commissioners' annual financial statement.
- (4) All books and records maintained by an administrator on behalf of an insurer, self-insurer or plan sponsor for a calendar or fiscal year shall be maintained for the period in which the administrator is providing service for the insurer, self-insurer or plan sponsor and for five years thereafter.
- (5) Administrators shall maintain a cash receipts register of all premiums or contributions received. The minimum detail required in the register shall be:
 - (a) Date received and deposited;
 - (b) The mode of payment;
 - (c) The policy number;
 - (d) Name of group policyholder;
 - (e) Names of certificate-holders;
 - (f) Individual premium amounts; and
 - (g) Agent.
- (6) The description of a disbursement shall be in sufficient detail to identify the source document substantiating the purpose of the disbursement, and shall include all of the following:
 - (a) The check number;
 - (b) The date of disbursement;
 - (c) The person to whom the disbursement was made;
 - (d) The amount disbursed. If the amount disbursed does not agree with the amount billed or authorized, the administrator shall prepare a written record as to the application for the disbursement; and
 - (e) Ledger account number.

- (7) If the disbursement is for the earned administrative fee or commission, the disbursement shall be supported by a written record reflecting the identifying deposit from which the fee was matched.
- (8) All journal entries for receipts and disbursements shall be supported by evidential matter. The evidential matters must be referenced in the journal entry so that it may be traced for verification.
- (9) The administrator shall prepare and maintain monthly financial institution account reconciliations if such service is requested by an insurer or plan sponsor as provided in the service agreement by and between the administrator and the insurer or plan sponsor.
- (10) The administrator shall prepare a report to be filed with the insurer and plan sponsor within ninety days of the end of the fiscal year of the plan, which discloses at least all of the following:
 - (a) The total premiums or contributions received from the plan sponsor, covered persons, or beneficiaries;
 - (b) The total administration fees withdrawn by the administrator pursuant to the written service agreement;
 - (c) The total claim payments made during the reporting period;
 - (d) A copy of the annual report shall be retained as part of the official record of the third party administrator for at least five (5) years;
 - (e) Any additional information required by the written agreement; and
 - (f) The names of all insurers, reinsurance carriers or ultimate risk bearers providing any type of insurance coverage to the plan sponsor.
- (11) Return premiums or contributions shall be paid to the insurer, or self-insurer or plan sponsor or credited to the account of the insurer, self-insurer or plan sponsor within thirty days after receipt by the administrator. If the return premium or contribution is credited to the insurer, self-insurer or plan sponsor, the credit must be shown and applied to the next billing statement sent to the insurer, self-insurer or plan sponsor.

Rule 120-2-49-.06. Payment to Administrator.

Whenever an insurer utilizes the services of an administrator under the terms of a written contract as required in Rule [120-2-49-.04](#), the payment to the administrator of any premiums or charges for insurance by or on behalf of the insured shall be deemed to have been received by the insurer, and the payment of return premiums or claims by the insurer to the administrator shall not be deemed payment to the insured or claimant until such payments are received by the insured or claimant. Nothing herein shall limit any right of the insurer against the administrator resulting from its failure to make payments to the insurer, insureds or claimants.

Rule 120-2-49-.07. Administrator Bond; Errors and Omissions Coverage.

- (1) Every administrator shall file a bond with the Commissioner. The administrator shall file a certificate of such bond, in a form acceptable by a corporate surety insurer authorized to transact insurance in this state in favor of Commissioner of Insurance of the state of Georgia, continuous in form and in an amount equal to at least ten percent of the amount of the funds handled or managed annually by the administrator based on the preceding year, or if no funds were handled during the preceding year, ten percent of the amount of funds reasonably estimated to be handled during the current calendar year. In no event will the bond be less than \$100,000.
- (2) The bond shall inure to the benefit of any person damaged by any fraudulent act or conduct of the administrator and must be conditioned upon faithful accounting and application of all money coming into the administrator's possession in connection with its activities as an administrator.
- (3) The bond remains in force until released by the Commissioner or canceled by the surety. Without prejudice to any liability previously incurred, the surety may cancel the bond upon 30 days' advance notice to the administrator and the Commissioner. An administrator's license shall be suspended if it does not file with the Commissioner a replacement bond before the date of cancellation of the previous bond. A replacement bond must meet all requirements of this section for the initial bond.
- (4) Each administrator shall obtain errors and omissions coverage or other appropriate liability insurance, written by an insurer authorized to transact insurance in this state, in an amount of at least \$100,000.
- (5) Any policy written in accordance with paragraph (4) of this Rule shall be for a term of at least one year and shall contain provisions that:

- (a) Cancellation or termination of the policy is not effective except upon sixty (60) days written notice by registered or certified mail to the other party to the policy and to the Commissioner; and
 - (b) The policy is automatically renewable at the expiration of the policy period except upon sixty (60) days written notice by registered or certified mail by the party not renewing the policy to the other party to the policy and to the Commissioner.
- (6) Upon approval by the Commissioner, bonds or policies may be written by an eligible surplus lines insurer.
- (7) Compliance by the administrator with paragraph (4) of this Rule is a prerequisite to approval of its application by the Commissioner.
- (8) Any bond and errors and omissions coverage required for licensure and renewal purposes shall be maintained in place by the administrator for a period of at least one year immediately following the surrender, non-renewal or revocation of the license.

Rule 120-2-49-.08. Premium Collection.

All insurance charges, fees, or premiums collected by an administrator on behalf of or for an insurer, insurers, or self-insurer, and return premiums received from such insurer, insurers, or self-insurer, shall be held by the administrator in a fiduciary capacity. Such funds shall be immediately remitted to the person or persons entitled thereto, or shall be deposited promptly in a fiduciary bank account established and maintained by the administrator. If charges or premiums so deposited have been collected on behalf of or for more than one insurer, or self-insurer, the administrator shall cause the bank in which such fiduciary account is maintained to keep records clearly recording the deposits in and withdrawals from such account on behalf of or for each insurer and for each self-insurer. The administrator shall promptly obtain and keep copies of all such records and, upon request of an insurer, or self-insurer, shall furnish such insurer or self-insurer with copies of such records pertaining to deposits and withdrawals on behalf of or for such insurer or self-insurer. The administrator shall not pay any claim by withdrawals from such fiduciary account. Withdrawals from such account shall be made, as provided in the written agreement between the administrator and the insurer, or self-insurer, for

- (a) Remittance to an insurer, or self-insurer, entitled thereto;

- (b) Deposit in an account maintained in the name of such insurer or self-insurer;
- (c) Transfer to and deposit in a claims paying account, with claims to be paid as provided in [120-2-49-.09](#);
- (d) Payment to a group policyholder for remittance to the insurer or self-insurer entitled thereto;
- (e) Payment to the administrator of its fees or charges; or
- (f) Remittance of return premiums to the person or persons entitled thereto.

Rule 120-2-49-.10. Compensation for Adjusting or Settling Claims.

- (1) Compensation to an administrator for any policies in which the administrator adjusts or settles claims shall in no way be contingent on claims experience. This section does not prevent the compensation of an administrator from being based on premiums or charges collected or the number of claims paid or processed.
- (2) An administrator shall not receive from any plan sponsor, insurer, self-insurer, covered individual or beneficiary under a plan any compensation or other payments except as expressly set forth in the written agreement between the administrator and the plan sponsor, insurer, or self-insurer.

Repealed: New Rule of same title adopted. F. Dec. 9, 2005; eff. Dec. 29, 2005.

Rule 120-2-49-.11. Annual Renewal.

- (1) Each authorized administrator shall file with the Commissioner an annual renewal of its license on a form prescribed by the Commissioner which sets forth the administrator's transactions, and affairs. The statement shall be filed annually on or before March 1. The annual renewal shall be in such form and contain such matters as the Commissioner prescribes and shall be verified by at least one officer of the administrator. For good cause shown the Commissioner may extend the time for filing of the annual renewal of the license conditioned upon payment of a fee prescribed therefore.
- (2) At the time of filing its annual renewal, the administrator shall pay a filing fee as provided in O.C.G.A. § [33-8-1](#).
- (3) The annual renewal shall include the complete names, addresses, N.A.I.C. company and N.A.I.C. group number of all insurers with which the administrator had an agreement during the preceding fiscal year, and the complete names and addresses of all self-insurers where such agreement existed during the preceding fiscal year.
- (4) The administrator shall at all times maintain a net worth of \$200,000. If the administrator fails to maintain a net worth of \$200,000 the Commissioner, in his/her discretion, may enter any disciplinary order as he/she deems appropriate pursuant to Title 33 of the Georgia Insurance Code.

Repealed: New Rule entitled "Annual Renewal" adopted. F. Dec. 9, 2005; eff. Dec. 29, 2005.

Rule 120-2-49-.12. Underwriting Provisions.

- (1) The written agreement between the administrator and an insurer shall make provision with respect to the underwriting or other standards pertaining to the business underwritten by such insurer. The written agreement between the administrator and a self-insurer shall make provision with respect to any underwriting requirements or other standards pertaining to the benefit coverage to be provided.

- (2) As to the administration of coverage insured by an insurance company, the insurance company, and not the administrator, shall be responsible for determining the benefits, rates, underwriting criteria, and claims payment procedures applicable to such coverage and for securing reinsurance, if any.
- (3) No administrator shall place any insurance or reinsurance coverage on behalf of a plan sponsor with an insurer that is not authorized or approved to do business in Georgia.
- (4) No administrator shall have the authority to move the coverage of a group or subgroup to a new insurer unless such action is at the request of the current insurer or the group policyholder following notice of termination of the group coverage by the insurer or group policyholder, and the new insurer must hold a Certificate of Authority to do business in Georgia.
- (5) Any insured individual whose group insurance coverage terminates, regardless of the situs of the group policy, shall be entitled to conversion rights as required under O.C.G.A. §§ [33-24-21.1](#) and [120-2-10-.11](#) of the Rules and Regulations of the Office of Commissioner of Insurance, or as provided in the group insurance policy, if more favorable.
- (6) Where group insurance coverage is discontinued and replaced, the individual insureds shall be entitled to all takeover rights provided under Rule [120-2-10-.10](#) of the Rules and Regulations of the Office of Commissioner of Insurance.

Rule 120-2-49-.13. Approval of Advertising.

- (1) An administrator may use only such advertising pertaining to the business underwritten by an insurer as has been approved by such insurer in advance of its use.
- (2) Each administrator shall maintain at its principal administrative office a complete file of all advertisements, regardless of by whom written, created or designed, which are used in the course of the administrator's business in this state, with a notation indicating the manner and extent of distribution and the form number of any policy advertised. Such file shall be subject to inspection by the Office of Commissioner of Insurance. All such advertisements shall be maintained in said file for a period of not less than five (5) years.
- (3) Each administrator shall file with the Commissioner of Insurance on or before March 1 in each year, a certification executed by an authorized officer of the administrator attesting that to the best of his or her knowledge, information and belief, the advertisements

disseminated by the administrator during the preceding calendar year complied, or were made to comply in all respects, with the advertising regulations of this state.

Rule 120-2-49-.15. Notification Required.

- (1) Where the services of an administrator are utilized, the administrator shall provide a written notice approved by the insurer, or self-insurer, to insured or self-insured individuals, advising them of the identity of and relationship among the administrator, the group policyholder and the insurer or self-insurer. Where an administrator collects funds, it must identify and state separately in writing to the person paying to the administrator any charge or premium for insurance coverage or self-funded benefits, the amount of any such charge or premium specified by the insurer or self-insurer for such insurance coverage or self-funded benefits.
- (2) Each administrator shall identify to the Commissioner any ownership interest or affiliation of any kind with any insurance company responsible for providing benefits directly or through reinsurance to any plan for which the administrator provides administrative services.

Rule 120-2-49-.16. Examination by Commissioner; On-Site Examinations.

- (1) An administrator shall, at the request of the Commissioner, respond in writing within fifteen (15) working days to any complaint received by the Commissioner concerning the administrator. Complaints shall include those pertaining to improper adjudication of claims and any complaints or concerns, by any other state agency, relating to the administrator. If, in the Commissioner's discretion, the frequency or severity of such complaints or infractions justifies an examination of the administrator's practices and procedures, any such examination by the Commissioner, or any person designated by him or her, shall be at the expense of the administrator. The Commissioner may, in addition to any other remedy available, suspend, revoke or refuse to renew a license in the event that the administrator does not fully cooperate with the Commissioner's office relating to this rule.
- (2) The Commissioner or his or her designated representative is authorized to make a complete on-site examination of the affairs of each administrator as often as is deemed necessary. Whenever the Commissioner shall deem it expedient, he or she shall examine by use of an examiner duly authorized by him or her the affairs, transactions, accounts, records, documents, assets, liabilities, of an administrator and any other facts relative to its business methods, management, and dealings with policyholders, certificate holders, and members.
- (3) Any administrator being examined shall provide to the Commissioner or his or her designee convenient and free access, at all reasonable hours at their offices, to all books, records, documents and other papers relating to such administrator's business affairs.
- (4) At the direction of the Commissioner the administrator shall pay the fees and expenses of the examination. A consolidated account for the examination shall be filed by the examiner with the Commissioner.
- (5) Nothing in this rule shall limit or abridge any other investigatory powers of the Commissioner vested in him or her by Title 33 of the Official Code of Georgia Annotated.

Rule 120-2-49-.17. Unfair Practices; Marketing of Unapproved Products.

- (1) No administrator, nor their officers, directors, partners, trustees, agents or employees shall engage in any unfair trade practice defined in Chapter 6 of Title 33 of the Official Code of Georgia Annotated, or determined pursuant to this rule to be an unfair or

deceptive act or practice. The provisions of Chapter 6 apply to administrators and their officers, directors, partners, trustees, agents or employees.

- (2) In addition to the practices deemed unfair and deceptive in Chapter 6 of Title 33 of the Official Code of Georgia Annotated, it shall be deemed an unfair or deceptive practice for any administrator, officer, director, partner, trustee, agent or employee to commit or perform any of the following:
 - (a) Misrepresenting or withholding any data or information that has been provided by the plan sponsor and is pertinent to underwriting conditions for a contract of insurance between the plan sponsor and any insurer, reinsurer or ultimate risk bearer, or for a contract of self-insurance between the plan sponsor and the administrator.
 - (b) Misrepresenting the existence or the terms of any actual or proposed insurance or reinsurance policy, or self-insurance contract.
 - (c) Failing to make an appropriate reply within fifteen working days to any inquiries of the Office of Commissioner of Insurance as they pertain to this regulation or O.C.G.A. §§ [33-23-100](#) to [33-23-104](#).
 - (d) Failing to submit requested documentation to the Office of Commissioner of Insurance as it applies to any complaints or inquiries regarding the business practices of an administrator.
- (3) A licensed administrator is not permitted to market or administer any insurance product not approved in this state or that is issued by a non-admitted insurer or unauthorized multiple employer self-insured health plan.

Rule 120-2-49-.18. Change of Management; Acquisition; Affiliation; Relationships with Third Parties.

- (1) The administrator shall, within 30 days after the event, notify the Commissioner of any material change in its management.
- (2) An administrator's license shall not be sold or transferred to a non-affiliated or otherwise unrelated party.

- (3) An administrator may not contract or sub-contract any of its negotiated services to any unlicensed business entity unless specifically approved by the Commissioner.

Subject 120-2-50. MULTIPLE EMPLOYER SELF-INSURED HEALTH PLANS.

Rule 120-2-50-.01. Purpose.

The purpose of this Regulation is to implement the provisions of O.C.G.A. Chapter 33-50 and to ensure the safe and proper operation of multiple employer self-insured health plans in Georgia.

Cite as Ga. Comp. R. & Regs. R. 120-2-50-.01

Authority: O.C.G.A. Secs. [33-2-9](#), [33-50-10](#).

History. Original Rule entitled "Purpose" adopted. F. Mar. 19, 1993; eff. Apr. 8, 1993.

Rule 120-2-50-.02. Definitions.

- (1) "Employee" means any person in the service of another under any contract of hire, express or implied, oral or written, where the employer has the power or right to control and direct the employee in the material details of how the work is to be performed.
- (2) "Employer" means any person who employs the services of others or for whom the employees work.
- (3) "Premium" means the consideration for insurance, by whatever name called. Any assessment, or any membership, policy, survey, inspection, or similar fee or charge in consideration for an insurance contract is deemed part of the premium.

Rule 120-2-50-.03. Disclosure.

Any person who advertises, solicits, sells, transacts, or administers coverage, or who in any manner secures, helps or aids in the placing or administration of coverage with any multiple employer self-insured plan in Georgia shall prominently disclose in writing to every participating employer, covered employee, and employer being solicited for participation, in a form to be filed with and approved by the Commissioner at the time of licensing, the following: that the plan is a self-insured plan and that benefits are not guaranteed by a licensed insurer; that the plan is not covered by the Georgia Life and Health Guaranty Association which provides protection to Georgia residents from insolvent insurers; and that certain other major protections offered to Georgia residents under the Georgia Insurance Code and Rules and Regulations, such as

conversion rights and certain mandated or required benefits, may not be available through the multiple employer self-insured plan.

Rule 120-2-50-.04. Filing Requirements.

- (1) All communications and filings must be made with the Regulatory Services Division, Georgia Insurance Department. To Complete the application for a license, the following items pertaining to the plan must be submitted:
 - (a) Each applicant for license shall make application on form ME-2, entitled "Application for License for Multiple Employer Self-Insured Health Plan," attached hereto as "Exhibit A" and incorporated herein.
 - (b) A copy of the plan's bylaws, all schedules of benefits, and all management, administration and trust agreements which the plan has made or proposes to make for the conduct of its business and affairs, certified to by a majority of the trustees. Any proposed change or amendment to the foregoing must also be filed with the Commissioner not less than sixty (60) days before the effective date of the change or amendment.
 - (c) An audited financial statement prepared by a certified public accountant (CPA), on form ME-3, entitled "Financial Statement," attached hereto as "Exhibit B" and incorporated herein.
 - (d) Signed and notarized biographical affidavits by all trustees of the plan on form ME-4, entitled "Biographical Questionnaire," attached hereto as "Exhibit C" and incorporated herein.
 - (e) A complete list of names, addresses, and telephone numbers of employers participating in the plan and the number of employees of each employer participating in the plan.
 - (f) A statement of the reasons for applying for a Georgia license, a description of exactly how the plan proposes to develop and Supervise its operations in Georgia, the name, title and qualifications of the person who will be responsible for the plan's operation in Georgia, and the location of and a description of the office facilities that will be provided by the plan in Georgia.
- (2) After the plan has complied with the above requirements, the application file will be reviewed and the Commissioner will request any additional information as in his discretion he may deem proper for considering the plan's application for a license.

- (3) While an application is pending, it is the responsibility of the plan to keep all required statements, documents and materials current.
- (4) An application for a license in Georgia is not complete until the plan has complied, to the Commissioner's satisfaction, with all of the above requirements. The Commissioner is not required to act formally on an incomplete application.

Rule 120-2-50-.05. Stop-Loss Coverage Requirements.

- (1) A multiple employer self-insured health plan is required to obtain individual and aggregate excess stop-loss coverage from an insurer authorized to transact insurance in Georgia. Such coverage must be submitted for approval by the Commissioner.
- (2) Plan participants are required to fund benefits up to the point at which the excess stop-loss insurer assumes one hundred percent of the liability to pay benefits. In reviewing an excess stop-loss agreement for approval, the Commissioner will closely scrutinize the agreement to determine whether the levels of individual and aggregate risk retained by the plan are such as will put the plan in an unsound condition or will render its proceedings hazardous to the public or to persons covered under the plan. In making his determination, the Commissioner will consider all relevant factors including, but not limited to, reserving practices, adequacy of employer/employee contributions, benefits provided under the plan, administrative and other expenses, and management. If the Commissioner is of the opinion that the excess stop-loss agreement will put the plan in an unsound condition, will render the plan's proceedings hazardous to the public or persons covered under the plan, or is otherwise not in compliance with the law, the Commissioner will disapprove the agreement.

History. Original Rule entitled "Surplus" adopted. F. Mar. 19, 1993; eff. Apr. 8, 1993.

Rule 120-2-50-.11. Loss Reserves.

The plan must establish and maintain loss reserves in an amount deemed appropriate by the Commissioner. Plans in existence and actually operating in a sound manner for a period of at least 3 years prior to July 1, 1991, may maintain a reserve amount, which combined with surplus, will be 35% of claims paid by such plan in the immediate preceding year. The 35% level combined surplus/reserve may be deemed appropriate by the Commissioner so long as a determination is made that the insured employees/employer plan is in sound financial condition.

OFFICE OF COMMISSIONER OF INSURANCE STATE OF GEORGIA

APPLICATION FOR LICENSE FOR MULTIPLE EMPLOYER SELF-INSURED HEALTH PLAN

To the Commissioner of Insurance of the State of Georgia:

(Name of Plan) domiciled in the State of _____ and whose home or principal office is located in the City of _____ and State of _____ by its Trustees hereby make application for a license to transact business as a Multiple Employer Self-Insured Health Plan in the State of Georgia for the period ending June 30, 19____.

1. Name of Plan and Federal Employer Identification (EIN) number _____.
2. Street Address _____
3. Post Office Box (if applicable) _____
4. City _____ State _____ Zip _____
5. Date plan organized _____ Has the plan been in continuous operation since that time?

Yes _____ No _____ If "no," explain why not _____

6. Form of Organization: _____ (Trust, Corporation, Partnership, etc.)

7. Date Plan began business: _____

8. Number of employers participating _____

9. Type(s) of business(es) of participating employers _____

10. Name and address of sponsoring organization or association, if any

11. Number of employees covered _____

12. Give the names and addresses of plan trustees, the employers which they represent, and the licensed surety company(ies) by which they are bonded (including bond numbers):

Name	Address	Employer	Surety	Bond
------	---------	----------	--------	------

Represented Name	Number
------------------	--------

- a. _____
- b. _____
- c. _____
- d. _____
- e. _____
- f. _____
- g. _____

13. Name and address of licensed investment manager _____

14. Name and address of plan administrator, if any _____

Describe the duties which the administrator performs on behalf of the plan

15. In what states is the administrator licensed? (Please provide all license numbers) _____

16. Has this plan ever been the subject of any administrative investigation or disciplinary action, by any insurance regulatory authority? Yes _____ No _____.

If "yes", provide details and attach copies of all orders and pertinent documentation.

17. Has this plan ever surrendered a license or entered into a Consent Order to avoid disciplinary proceedings by any insurance regulatory authority? Yes _____ No _____. If "yes", provide details and attach copies of all surrenders, orders, and other pertinent documentation.

18. List all states other than Georgia where the plan transacts business

19. List all states other than Georgia in which the plan is licensed in any manner by any regulatory authority, giving the type of license held and the name of the official or agency issuing the license:

State Type of license Issuing official or agency

a. _____

b. _____

c. _____

d. _____

(use additional page if necessary)

20. Identify benefits provided employees:

Accident and Health ☐ Dental ☐

Short-Term Disability ☐ Other ☐

Specify _____

21. State the reasons the plan is applying for a Georgia license, a description of exactly how the plan proposes to develop and supervise its operations in Georgia, the name, title and qualifications of the person who will be responsible for the plan's operation in Georgia, and the location of and a description of the office facilities that will be provided by the plan in Georgia.

(Attach additional sheets if needed)

22. Attached to this Application, and incorporated herein by reference, are the following:

- a. Copy of the plan's bylaws, all schedules of benefits, and all management, administration and trust agreements which the plan has made or proposes to make for the conduct of its business and affairs, certified by a majority of the trustees.
- b. An audited financial statement, prepared by a certified public accountant (CPA), on form ME-3.
- c. A complete list of the names, addresses, Federal Employer Identification Numbers, and telephone numbers of all employers participating in the plan, and the number of employees of each employer.
- d. A copy of individual and aggregate excess stop-loss policy or policies covering the plan.
- e. A power of attorney appointing a Georgia resident to receive legal process (Form ME-5).
- f. Proof of bonding of trustees as required in Rule [120-2-50-.09](#).
- g. Proposed disclosure statement as required in Rule [120-2-50-.03](#).
- h. A check for the applicable filing fee, made payable to the Georgia Commissioner of Insurance.

CERTIFICATION

We, _____,
_____, the
undersigned, constituting a majority of the Trustees of

(Name of Multiple Employer Self-Insured Health Plan) swear that to the best of our knowledge and belief, the statements contained in the foregoing application for license, including all documents attached hereto, are true and complete.

EXHIBIT B

OFFICE OF COMMISSIONER OF INSURANCE STATE OF GEORGIA

FINANCIAL STATEMENT MULTIPLE EMPLOYER SELF-INSURED HEALTH PLANS

INSTRUCTIONS _____

General Instructions. The financial statement consists of four basic statements:

- 1) balance sheet;
- 2) statement of income, expenses and surplus;
- 3) statement of changes in financial position; and
- 4) schedule of investments.

A plan's financial statements must be in conformance with these instructions. They may deviate from the prescribed format for the purpose of increasing the quality of the information. For example, an entry may be broken into more detailed subparts. Blank lines are provided for this purpose, or for adding entries. In general, whenever the meaning of an entry may be unclear, a footnote explanation should be provided. Footnotes are an integral part of the financial statement.

BALANCE SHEET

1. **Cash on hand and on deposit.** This is coin, currency, and the balance in accounts with banks or other financial institutions.

2. **Bonds.** This is the value of all fixed period, interest bearing securities, including bonds, certificates of deposit, commercial paper, and similar investments. Such securities shall be valued at their actual cost, excluding accrued interest.

3. **Stocks.** This is the value of all securities representing equity interest in commercial entities, including common stock and preferred stock. Such securities shall be valued at their market value.

4-6. List here any investments not fitting the other categories in this section.

7. Enter the total of items 1 through 6.

8. **Premiums due and unpaid.** This is the amount of premiums owed by plan members but not yet paid. Premium should not be considered due until the inception of the period to which the premium applies.

9. **Assessments due and unpaid.** This is the amount of assessments owed by plan members but not yet paid. Assessments may be to increase plan surplus or to correct a deficit.

10. **Penalties due and unpaid.** This is the amount of penalties levied against plan members pursuant to the plan's rules and bylaws, but not yet paid.

11. **Investment income due and accrued.** This is the amount of dividends declared and interest accrued on plan investments, but not yet received or credited to plan accounts.

12. **Third party reimbursements receivable.** This is the amount owed the plan on account of losses it has paid, for which it is entitled to reimbursement through subrogation, coordination of benefits, return of overpayments, or similar recovery actions.

13. **Amounts recoverable from stop loss insurers.**

This is the amount the plan is entitled to recover under its stop loss insurance, but which has not yet been paid. This is the total recoverable under both individual and aggregate access coverage, based on the plan's current level of losses paid and incurred but unpaid claims.

14. **Prepaid expenses.** This is the portion of any expenses which the plan has paid, for which the value has not yet been received. Prepaid expenses for services applicable to fixed periods of time, such as stop loss insurance, shall be valued according to the percentage of unelapsed time in the period to which the payment is applicable. Other prepaid expenses shall be valued according to the portion of the service which has not yet been received.

15-16. List here any assets not fitting the other categories in this section.

17. Enter the total of items 8 through 16.

18. Enter the total of items 7 and 17.

19. Reserve for unearned and advance premiums. This is the portion of all premiums which have not yet been earned. Premium is earned as the period of time to which the premium applies elapses. This reserve includes:

(A) All advanced premiums, namely, premiums paid prior to the inception of the period to which they apply.

(B) For coverage in force, the percentage of premium corresponding to the unelapsed time in the period to which the premium applies. For example, if premiums are paid monthly, half-way through any month one-half of the corresponding premium payment would be unearned.

20. Reserve for outstanding losses - reported. This is the plan's best estimate of the amount it will be obligated to pay for known loss occurrences or continuing courses of treatment. This reserve includes:

(A) Claims awaiting payment, for which checks have not yet been issued.

(B) The estimated final cost of claims subject to investigation, litigation, or negotiations (explain in footnote). For claims where liability is disputed or the amount uncertain, the estimated cost should be a weighted value of the possible outcomes. For example, if there is a 51% chance the plan will win a dispute and owe nothing, but a 49% chance it will lose and owe \$10,000, the estimated cost should be closer to \$5,000 than to zero.

(C) The estimated cost associated with covered persons undergoing a continuing course of treatment or a continuing disability for which the plan will likely be liable, notwithstanding that treatment has not yet been provided or that the period of disability has not yet occurred. For example, a person covered by the plan develops cancer and will undergo a lengthy course of treatment. If it is likely that the plan will continue to have responsibility for the person during the course of treatment, an appropriate reserve should be established.

21. Reserve for outstanding losses - IBNR. This is the plan's best estimate of the amount it will be obligated to pay for loss occurrences that have not yet been reported (incurred but not reported). At any given time, persons covered by the plan will be incurring treatment and submitting bills or becoming disabled, and claims staff will be at various stages of evaluating claims that have been received. The IBNR reserve should be reasonably sufficient to cover such outstanding liability, based on staff judgment and the plan's actual experience overtime.

22. List here any reserve not fitting the other categories in this section.

23. Enter the total of items 19 through 22.

24. Stop loss premiums due and unpaid. This is the amount of all stop loss premiums, for individual excess, aggregate excess, and incurred runoff excess if applicable, that the plan owes but has not yet paid.

25. Stop loss aggregate advancement. This applies only to plans with an aggregate advancement clause in their stop loss insurance contract. This is the amount of funds advanced or loaned to the plan from the stop loss insurer, that have not yet been repaid, or that have not yet been determined to be an actual obligation of the aggregate excess stop loss insurer.

26. Commissions due or accrued. This is the amount of commissions to agents or brokers that the plan owes but has not yet paid.

27. Other expenses due or accrued. This is the amount of all expenses not listed elsewhere that the plan owes but has not yet paid.

28. Georgia license fees due or accrued. This is the amount of license fees that the plan owes to the State of Georgia but has not yet paid.

29. Federal income taxes due or accrued. This is the amount of federal taxes on the plan's income that the plan owes but has not yet paid.

30. Federal capital gains taxes due or accrued.

This is the amount of federal taxes on capital gains on plan investment transactions, that the plan owes but has not yet paid.

31. Dividends declared and unpaid. This is the amount of dividends that have been declared, but that have not yet been paid to or claimed by members.

32-34. List here any liabilities not fitting the other categories in this section.

35. Enter the total of items 24 through 34.

36. Enter the total of items 23 and 35.

37. Contributed surplus. This is the amount contributed by the members to provide capital for operation, to correct a deficit; to increase the plan's working capital to forestall a deficit; or to otherwise ease operations.

38. Retained earnings. This is the amount of plan earnings from operations and unrealized capital gains that is retained and not paid out as dividends. This amount is initially zero, and is subsequently adjusted by each year's statement of income, expenses and surplus, item 38.

39. List here any surplus item not fitting the other categories in this section.

40. Enter the total of items 37 through 39.

41. Enter the total of items 36 and 40.

STATEMENT OF INCOME, EXPENSES AND SURPLUS

This statement contemplates that income and expenses will be calculated on an accrual basis, rather than a cash basis.

For income, this generally means that income is recognized for the current fund year if the service was provided or the payment was earned during the fund year, regardless of whether cash has been received. For expenses, this generally means that losses or expenses are recognized for the current fund year if the obligation was incurred during the fund year, regardless of whether cash has been paid. Even if not explicitly stated in each instruction, all income and expenses should be taken to apply to transactions occurring during the current fund year.

1. **Gross premiums written.** This is the amount of premiums written by the plan for coverage during the current fund year. This amount should be net of any discounts or adjustments to premium. Premium should not be considered written or booked until the inception of the period to which the premium applies.

2. **Individual excess stop expense.** This is the amount of premiums paid or incurred for individual excess stop loss insurance.

3. **Aggregate excess stop loss expense.** This is the amount of premiums paid or incurred for aggregate excess stop loss insurance, including extended or runoff aggregate excess coverage.

4. **Change in reserve for unearned and advance premiums.** This is the net change in the amount reported one year ago on line 19 of the balance sheet. This and items 9, 10, 38, and 39 are negative entries only if the net change is an increase, otherwise they would be positive.

5. Enter the total of items 1 through 4.

6. **Losses paid.** This is the total amount of losses (claims) paid during the current fund year.

7. **Third party reimbursements.** This is the amount determined during the current fund year of reimbursements owed to the plan and which the plan expects to recover, through subrogation, coordination of benefits, return of over payments, or similar recovery actions. Cash need not have been received during the current fund year.

8. **Recovered from stop loss insurers.** This is the amount determined during the current fund year of reimbursements owed to the plan on account of its stop loss insurance policies. Cash need not have been received during the current fund year.

9. **Change in reserve for outstanding losses - reported.**

This is the net change in the amount reported one year ago on line 20 of the balance sheet. If there is a net increase, enter the amount as a negative number. A net decrease would be a positive entry.

10. Change in reserve for outstanding losses - IBNR. This is the net change in the amount reported one year ago on line 21 of the balance sheet. If there is a net increase, enter the amount as a negative number. A net decrease would be a positive entry.

11. Enter the total of items 6 through 10.

12. Enter the total of items 5 and 11.

13. Interest income. This is the amount of interest earned during the current fund year on the accounts and investments of the plan.

14. Dividend income. This is the amount of dividends earned during the current fund year on investments of the plan.

15. Net realized capital gains (losses). This is the total net gain or loss on the disposition of any plan assets during the current fund year. For the purpose of calculating a net gain or loss, the base value of the asset should be its carrying value on the balance sheet. Unrealized capital gains reported online 36 of previous statements should not be double-counted in reporting realized capital gains.

16. Penalties assessed. This is the amount of penalties levied against plan members pursuant to the plan's rules and bylaws during the current fund year.

17-18. List here any income not fitting the other categories in this section.

19. Enter the total of items 13 through 18.

20. Enter the total items 12 and 19.

21. Service company expenses. This is the amount incurred during the current fund year for the services of the plan's service company and subcontractors.

22. Financial administrator expenses. This is the amount incurred during the current fund year for the services of the plan's financial administrator.

23. Agent commissions expenses. This is the amount incurred during the current fund year for agent and broker commissions.

24. Board of trustees expenses. This is the amount incurred during the current year for board of trustees expenses.

25. **Fidelity bond expenses.** This is the amount incurred during the current fund year for fidelity bonds and similar coverages.

26. **License fees incurred.** This is the amount incurred during the current fund year for Georgia license fees.

27. **Federal capital gains taxes incurred.** This is the amount of federal taxes on capital gains on plan investment transactions incurred during the current fund year.

28-29. List here any expenses not fitting the other categories in this section.

30. Enter the total of items 21 through 29.

31. Enter the result of subtracting item 30 from item 20.

32. **Federal income taxes incurred.** This is the amount of federal taxes on the plan's income incurred during the current fund year.

33. Enter the results of subtracting item 32 from item 31.

34. **Total surplus, end of previous year.** This is the amount from item 47 of the previous year's statement of income, expenses and Surplus.

35. **After tax gain from operations.** From item 33 of this statement.

36. **Net unrealized capital gains (losses).** This is the total net gain or loss on plan assets owned as of this reporting, that is, not disposed of. For the purpose of calculating a net gain or loss, the base value of the asset should be whatever value it was carried at on the balance sheet as of the last reporting. The initial base value would be the purchase price; subsequently the balance sheet base value would be adjusted each year the asset was held to reflect unrealized capital gains and losses as the asset's value changes.

37. **Dividends declared.** This is the amount of dividends declared by the plan during the current fund year.

38. Enter the total of items 35 through 37.

39. **Contributed surplus and assessments.** This is the amount levied against or pledged by plan members during the current fund year to correct a deficit and/or increase the surplus.

40-44. List here any items affecting surplus not fitting the other categories in this section.

45. Enter the total of items 39 through 44.

46. Enter the total of items 38 and 45.

47. Enter the total of items 34 and 46.

STATEMENT OF CHANGES IN FINANCIAL POSITION

1. Before tax gain (loss) from operations. This is the amount from line 31 of the statement of income, expenses and surplus.

2-9. Increase (decrease) in various liabilities. This is the net change in the amount reported one year ago on the balance sheet for these liabilities. Changes in these liabilities affect income and expenses, but do not affect funds.

10-11. List here any other liabilities affecting income and expenses but not funds, not fitting the other categories in this section.

12-16. Decrease (increase) in various assets. This is the net change in the amount reported one year ago on the balance sheet for these assets. Changes in these assets affect income and expenses, but do not affect funds.

17-18. List here any other assets affecting income and expenses but not funds, not fitting the other categories in this section.

19. Enter the total of items 1 through 18.

20. Bonds. This is the amount received upon the sale, maturation, or disposition of all fixed period, interest bearing securities, including bonds, certificates of deposit, commercial paper, and similar investments. Such investments acquired and disposed of during the year should be reported in item 22.

21. Stocks. This is the amount received upon the sale or disposition of all securities representing equity interest in commercial entities, including stock and preferred stock. Such investments acquired and disposed of during the year should be reported in item 22.

22. Net gain (loss) on investments acquired and disposed of during year. This is the total net gain or loss on assets acquired and disposed of during the year. For the purpose of calculating a net gain or loss, the base value of the asset should be its purchase price.

23-24. List here any investments sold, matured, or repaid, not fitting the other categories in this section.

25. Enter the total of items 20 through 24.

26. Decrease (increase) in prepaid expenses. This is the net change in the amount reported one year ago on line 14 of the balance sheet.

27. Increase (decrease) in federal income taxes due or accrued. This is the net change in the amount reported one year ago on line 31 of the balance sheet.

28. **Stop loss aggregate advancement received (repaid).** This is the net amount of funds advanced or loaned to the plan from the stop loss insurer that have not yet been determined to be an actual obligation of the aggregate excess stop loss insurer, and funds repaid to the stop loss insurer pursuant to such an advance.

29. **Contributed surplus and assessments.** This is the amount of funds received during the fund year from assessments or other contributions to surplus from plan members. This should be equal to the net decrease (increase) in item 9 of the balance sheet, plus item 39 of the statement of income, expenses and surplus.

30-31. List here any other sources of funds provided not fitting the other categories in this section.

32. Enter the total of items 26 through 31.

33. Enter the total of items 19, 25, and 32.

34. **Bonds.** This is the amount expended for the acquisition of all fixed period, interest bearing securities, including bonds, certificates of deposit, commercial paper, and similar investments. This should include the amount expended for accrued interest, and exclude the amount expended for investments acquired and disposed of during the fund year.

35. **Stocks.** This is the amount expended for the acquisition of all securities representing equity interest in commercial entities, including stock and preferred stock. This should exclude the amount expended for investments acquired and disposed of during the fund year.

36-37. List here any investments acquired not fitting the other categories in this section.

38. Enter the total of items 34 through 37.

39. **Dividends paid.** This is the amount of dividends paid to members during the fund year. This should be equal to the net decrease (increase) in item 31 of the balance sheet, plus item 37 of the statement of income, expenses and surplus.

40-41. List here any other uses of funds not fitting the other categories in this section.

42. Enter the total of items 39 through 41.

43. Enter the total of items 38 and 42.

44. **Cash on hand and on deposit, beginning of year.** This is the amount from item 1 of the balance sheet as of the end of the previous year.

45. **Increase (decrease) in cash.** This is the result of subtracting item 43 from item 33.

46. **Cash on hand and on deposit, year to date.** This is the total of items 44 and 45.

SCHEDULE OF INVESTMENTS

No form is provided for the schedule of investments. Plans should submit the required information using their own format. Please note that under O.C.G.A. Chapter 33-11 and Section [33-50-6\(3\)](#), plans are restricted in the types of depositories, bonds, stocks, and other investments they may employ.

Cash on hand and on deposit. The schedule must contain a description of all accounts or depositories maintained by the plan at banks or other financial institutions. The description must contain:

- (1) the institution's name and location;
- (2) the account balance as of this reporting;
- (3) the type of account;
- (4) the interest rate, if any, that money in the account earns;
- (5) a statement as to whether funds in the account are wholly or partially insured; and
- (6) a statement as to which plan contractors have access to the account or depository, and on what conditions.

Bonds. The schedule must contain a description of all fixed period, interest bearing securities, including bonds, certificates of deposit, commercial paper, and similar investments. The description must contain:

- (1) the issuer's name and location;
- (2) the type of security;
- (3) the interest rate, and the months in which interest is paid;
- (4) the year of acquisition, and the security's maturity month/year;
- (5) the actual cost of the security, excluding accrued interest;
- (6) the security's par value; and
- (7) the month sold or disposed of; for all securities sold or disposed of during the current fund year, including securities acquired during the year.

Stocks. The schedule must contain a description of all securities representing equity interest in commercial entities including common stock and preferred stock. The description must contain:

- (1) the entity's name and location;
- (2) the type of security;
- (3) the year of acquisition;
- (4) the number of shares;
- (5) the current market value per share;
- (6) the total market value of identical securities;
- (7) the actual cost of the security; and
- (8) the month sold or disposed of; for all securities sold or disposed of during the current fund year, including securities acquired during the year.

Other investments. The schedule must contain a description of all investments not fitting the above categories. The information provided about such investments should be comparable to the information required above.

OFFICE OF COMMISSIONER OF INSURANCE STATE OF GEORGIA

APPLICATION FOR DISSOLUTION

To the Commissioner of Insurance of the State of Georgia:

(Name of Plan)

hereby applies for dissolution pursuant to O.C.G.A. Section [33-50-9](#). The following information is submitted:

1. Name, address, and state of domicile.
2. Date plan was first licensed in Georgia.
3. Number of employers participating.
4. Name and address of sponsoring organization, if any.
5. Number of employees covered.
6. (If applicable) Name and address of licensed insurer which has made an irrevocable commitment which provides for payment of all outstanding liabilities and for providing all related services, including payment of claims, preparation of reports, and administration of transactions associated with the period when the plan provided coverage.

The following items must be attached:

- a) A current, audited financial statement, form ME-3, certified by a Certified Public Accountant.
- b) A current list of names, addresses, telephone numbers, and current number of employees for each employer covered under the plan.
- c) Evidence of an irrevocable commitment from a licensed insurer, if application is made pursuant to O.C.G.A. Section [33-50-9\(a\)\(2\)](#).
- d) A proposed plan for distribution of assets to participating employers in accordance with O.C.G.A.

Section [33-50-9\(b\)](#).

NOTE: If the Commissioner approves this application for dissolution, the plan must submit evidence satisfactory to the Commissioner that said distribution has been made, within sixty (60) days of such approval. Failure to submit said evidence shall be deemed to be dissolution without authority.

CERTIFICATION

We, _____ the undersigned,
constituting a majority of the Trustees of _____ swear that to the best
of our knowledge and belief, the statements contained in the foregoing application for
dissolution, including all documents attached hereto, are true and complete.

Repealed: New Rule entitled "Scope and Purpose" adopted. F. Mar. 24, 2016; eff. Apr. 13, 2016.

Rule 120-2-51-.03. Definitions.

As used in this Regulation, the term:

- (1) "Continuing care" means furnishing pursuant to a continuing care agreement:
 - (a) Lodging that is not:
 - (i) In a skilled nursing facility, as such term is defined in O.C.G.A. Section [31-6-2\(34\)](#);
 - (ii) An intermediate care facility, as such term is defined in O.C.G.A. Section [31-6-2\(22\)](#);
 - (iii) An assisted living community, as such term is defined in O.C.G.A. Section [31-7-12.2](#); or
 - (iv) A personal care home, as such term is defined in O.C.G.A. Section [31-7-12](#);
 - (b) Food; and
 - (c) Nursing care provided in a facility or in another setting designated by the agreement for continuing care to an individual not related by consanguinity or affinity to the provider furnishing such care upon payment of an entrance fee including skilled or intermediate nursing services and, at the discretion of the continuing care provider, personal care services including, without limitation, assisted living care services designated by the continuing care agreement, including such services being provided pursuant to a contract to ensure the availability of such services to an individual not related by consanguinity or affinity to the provider furnishing such care upon payment of an entrance fee.

The term "continuing care" shall not include continuing care at home.

- (2) "Continuing care agreement" means a contract or agreement to provide continuing care, continuing care at home, or limited continuing care. Continuing care agreements include agreements to provide care for any duration, including agreements that are terminable by either party.
- (2.1) "Continuing care at home" means the furnishing of services pursuant to a continuing care agreement at a location other than at a facility and which includes the obligation to provide nursing care, assisted living care, or personal care home services. A continuing care at home agreement may, but is not required to, include an obligation to provide food.
- (3) "Entrance fee" means an initial or deferred payment of a sum of money or property made as full or partial payment to assure the resident continuing care, limited continuing care, or continuing care upon the purchase of a resident owned living unit; provided, however, that any such initial or deferred payment which is greater than or equal to 12 times the

monthly care fee shall be presumed to be an entrance fee so long as such payment is intended to be a full or partial payment to assure the resident lodging in a residential unit. An accommodation fee, admission fee, or other fee of similar form and application greater than or equal to 12 times the monthly care fee shall be considered to be an entrance fee. Such term shall not include any portion of the purchase or sale of a resident owned living unit, including, but not limited to, any down payment or earnest money payment for the purchase and sale of a resident owned living unit.

- (4) "Facility" means a place which is owned or operated by a provider and provides continuing care or limited continuing care. Such term includes a facility which contains resident owned living units.
- (5) "Licensed" means that the provider has obtained a Certificate of Authority from the Department.
- (6) "Limited continuing care" means furnishing pursuant to a continuing care agreement:
 - (a) Lodging that is not:
 - (i) In a skilled nursing facility, as such term is defined in O.C.G.A. Section [31-6-2\(34\)](#);
 - (ii) An intermediate care facility, as such term is defined in O.C.G.A. Section [31-6-2\(22\)](#);
 - (iii) An assisted living community, as such term is defined in O.C.G.A. Section [31-7-12.2](#); or
 - (iv) A personal care home, as such term is defined in O.C.G.A. Section [31-7-12](#);
 - (b) Food; and
 - (c) Personal services, whether such personal services are provided in a facility such as a personal care home or an assisted living community or in another setting designated by the continuing care agreement, to an individual not related by consanguinity or affinity to the provider furnishing such care upon payment of an entrance fee.

Such term shall not include continuing care at home.

- (7) "Monthly care fee" means the fee charged to a resident for continuing care or limited continuing care on a monthly or periodic basis. Monthly care fees may be increased by the provider to provide care to the resident as outlined in the continuing care agreement. Periodic fee payments or other prepayments shall not be monthly care fees.

- (8) "Nursing care" means services which are provided to residents of skilled nursing facilities or intermediate care facilities.
- (9) "Personal services" means, but is not limited to, such services as individual assistance with eating, bathing, grooming, dressing, ambulation, and housekeeping; supervision of self-administered medication; arrangement for or provision of social and leisure services; arrangement for appropriate medical, dental, nursing, or mental health services; and other similar services which the department may define. Personal services may be provided at a facility or at a home on or off site of a facility. Personal services shall not be construed to mean the provision of medical, nursing, dental, or mental health services. Personal services provided, if any, shall be designated in the continuing care agreement.
- (10) "Provider" means the owner or operator, whether a natural person, partnership, or other unincorporated association, however organized, trust, or corporation, of an institution, building, residence, or other place, whether operated for profit or not, which owner or operator undertakes to provide continuing care, limited continuing care, or continuing care at home for a fixed or variable fee, or for any other remuneration of any type for the period of care, payable in a lump sum or lump sum and monthly maintenance charges or in installments.
- (11) "Resident" means a purchaser of or a nominee of or a subscriber to a continuing care agreement. Such an agreement may permit a resident to live at a home on or off site of a facility but shall not be construed to give the resident a part ownership of the facility in which the resident is to reside unless expressly provided for in the agreement.
- (12) "Resident owned living unit" means a residence or apartment, the purchase or sale of which is not included in an entrance fee, which is a component part of a facility and in which the resident has an individual real property ownership interest.
- (13) "Residential unit" means a residence or apartment in which a resident lives that is not a skilled nursing facility as defined in O.C.G.A. Section [31-6-2\(34\)](#), an intermediate care facility as defined in O.C.G.A. Section [31-6-2\(22\)](#), an assisted living community as defined in O.C.G.A. Section [31-7-12.2](#), or a personal care home as defined in O.C.G.A. Section [31-7-12](#).
- (14) Unless the context otherwise requires, terms found in this Regulation shall be used as defined in O.C.G.A. Sections [33-1-2](#) and [33-45-1](#) *et seq.* Other terminology shall be used in accordance with the Georgia Insurance Code or industry usage, if not otherwise defined in the Georgia Insurance Code.

Rule 120-2-51-.04. License; Application; Issuance; Renewal; and Revisions to Agreements.

- (1) No person may engage in the business of providing continuing care, limited continuing care, continuing care at home, issue continuing care agreements in Georgia, or hold oneself out to the public as a provider without first obtaining a valid certificate of authority issued by the Commissioner of Insurance.
- (2) Each applicant shall file with the Commissioner an application for a certificate of authority upon a form to be furnished by the Commissioner, which will be available on the Georgia Insurance Department's website. Such application shall include or have attached the following information and documents:
 - (a) All basic organizational documents of the applicant, including, but not limited to, the articles of incorporation, articles of association, partnership agreement, trade name certificate, trust agreement, membership agreement, or other applicable documents, and all amendments to those documents;
 - (b) The bylaws, rules and regulations or similar documents regulating the conduct or the internal affairs of the applicant;
 - (c) Proof from the Georgia Secretary of State's Office that the applicant is qualified to do business in this state;
 - (d) Organizational chart that accurately reflects the relationship of the applicant to any parent, subsidiary, or affiliated person or organization;
 - (e) A list of all individuals who are the officers, directors, partners, members, administrators, stockholders owning more than 10 percent of the stock of the applicant, or any person occupying a similar position or performing similar duties or functions, as applicable. Include the full name, business address and position held for each of these individuals. Also include a list containing the same information for any parent or affiliated person or organization that is controlling, controlled by, or under common control with the applicant;
 - (f) A biographical affidavit and background report for each natural person listed in Regulation 120-2-51-.04(2)(e) above;
 - (g) Copies of proposed agreements to be used in furnishing continuing care, including but not limited to continuing care agreements and escrow agreements; disclosure statements; addenda; and amendments;
 - (h) A list of all Facilities currently or previously owned, managed or developed by applicant, an affiliate of applicant, or any principal thereof. Provide the name,

address, city and state of each Facility listed and explain the Facility's existing or past relationship with applicant, an affiliate of applicant, or any principal thereof. Specify the current status of each Facility listed and include any administrative actions or financial problems that existed while applicant, an affiliate of applicant, or any principal thereof, was associated with the Facility, including any such occurrences up to one year after the relationship was terminated;

- (i) The latest financial statement, audited by an independent CPA, of the applicant and any parent company. Also include the latest unaudited financial statements attested to by the Chief Financial Officer for each quarter ended subsequent to the date of the last audit;
 - (j) Fee as provided in O.C.G.A. Section [33-8-1](#) for a continuing care provider; and
 - (k) Any other materials the Commissioner deems necessary to adequately assess the merits of the application.
- (3) Upon issuance, a license pursuant to this Regulation is valid until June 1, and is to be renewed annually on or before May 31 of the first year issued, and each year thereafter, on a form to be prescribed by the Commissioner. This form will be available on the Georgia Insurance Department's website prior to May 31 each year. Failure to file a renewal application, and any required documents or information, on or before May 31 will result in the non-continuance of the license. Licensees that fail to renew their licenses in a timely manner and that desire to be relicensed will be required to reapply. Along with the renewal application, each licensed provider shall file the following with the renewal package:
- (a) An annual statement to be submitted on a form prescribed by the Commissioner, which shall be available on the Georgia Insurance Department's website;
 - (b) Annual revised disclosure statement pursuant to O.C.G.A. Section [33-45-6](#);
 - (c) An actuary's opinion as to the actuarial financial condition of the provider's continuing care or limited continuing care operations, which shall include, but not be limited to, an estimate of the capacity of the provider to meet its contractual obligation to the residents or prospective residents with consideration given to expected rates of mortality and morbidity, expected refunds, and expected capital expenditures, unless the provider requests in writing an exemption from this requirement and the Commissioner determines that there is good cause to permit such request; and
 - (d) Fee as provided in O.C.G.A. Section [33-8-1](#) for a continuing care provider.
- (4) Should a licensed provider revise or amend any agreements submitted pursuant to Regulation 120-2-51-.04(2)(g), such revisions or amendments must be submitted to the Department for approval prior to being used by the provider.

Authority: O.C.G.A. §§ [33-1-2](#), [33-2-9](#), [33-45-4](#), [33-45-5](#), [33-45-6](#), [33-45-7](#).

History. Original Rule entitled "License; Application; Issuance; Renewal; and Revisions to Agreements" adopted. F. Mar. 24, 2016; eff. Apr. 13, 2016.

Rule 120-2-51-.05. Escrow Account, Escrow Agreement and Certain Minimum Provisions Required.

- (1) Any portion of the entrance fee paid by a resident or prospective resident to the provider shall be held in an escrow account which shall be governed by an escrow agreement, unless the provisions set forth in O.C.G.A. Section [33-45-8](#) regarding the release of escrow funds have been met at the time the entrance fee for a resident owned living unit is paid by the resident to the provider. If an escrow agreement is required, such agreement shall include in writing at least the following minimum provisions:
 - (a) The purpose of the escrow agreement pursuant to O.C.G.A. Section [33-45-8\(a\)](#);
 - (b) Any portion of the entrance fee paid by a resident to the provider shall be held in an escrow account governed by the escrow agreement;
 - (c) Definitions set forth in O.C.G.A. Section [33-45-1](#) *et seq.* shall be incorporated into the escrow agreement;
 - (d) Any portion of the entrance fee paid by a resident or prospective resident to the provider is subject to the terms of the escrow agreement and shall be deposited by the provider with the bank promptly after receipt;
 - (e) The bank shall be appointed as escrow agent;
 - (f) The bank shall hold and distribute all entrance fees deposited with the bank in accordance with the escrow agreement;
 - (g) Any portion of the entrance fee paid by a resident or prospective resident to the provider that is held for ninety (90) days or more shall earn interest. Such interest shall be credited at least quarterly to the resident's account(s) and shall belong to the resident;
 - (h) The bank shall disburse funds from the escrow account payable to the resident or prospective resident upon the receipt of documentation signed by a representative of the provider certifying that such funds may be released in accordance with the terms of the escrow agreement and any applicable law or regulations, a copy of which shall be attached to the escrow agreement, or upon the bank's determination that such funds may be released to the resident in accordance with O.C.G.A. Section [33-45-8](#). The bank may rely upon the total disbursement amount included in such signed documentation from the provider and shall have no obligation to verify the accuracy of any such documentation. Upon receipt by the bank of such

documentation, the bank shall disburse funds to the resident or prospective resident within five (5) banking business days;

- (i) The bank shall disburse funds from the escrow account payable to the provider upon the receipt of documentation signed by a representative of the provider certifying that such funds may be released in accordance with the terms of the escrow agreement and any applicable law or regulations, a copy of which shall be attached to the escrow agreement. The bank may rely upon the total disbursement amount included in such signed documentation from the provider and shall have no obligation to verify the accuracy of any such documentation. Upon receipt by the bank of such documentation, the bank shall disburse funds to the provider in accordance with the provider's instructions within five (5) banking business days;
- (j) The bank shall be entitled to rely upon the written notices, instructions and directions of the provider and shall have no liability for any action taken based upon such reliance;
- (k) The bank shall not be liable for the following if done in good faith: any errors of judgement, any act committed, any step taken or omitted, any mistake of fact or law, or for anything that the bank may do or refrain from doing in connection therewith. However, the bank shall be liable for its own negligence or willful misconduct;
- (l) The bank may consult with legal counsel of its own choice should any dispute or question arise pursuant to the escrow agreement, or bank's duties thereunder. Should a dispute arise related to the proper disbursement of funds by the bank, the bank, upon ten (10) days prior notice to the provider, may file a suit in interpleader for the purpose of determining the rights of the parties to any funds held in escrow and may deposit such funds with the court. The provider shall reimburse the bank for its reasonable and legitimate legal expenses so incurred to the extent allowed by Georgia law;
- (m) The escrow agreement may be terminated by either the bank or the provider. Upon termination, the bank shall deliver the escrow agreement and all funds held in the escrow account(s) (including any income earned thereon) and any and all related instruments or documents to a successor escrow agent. Such termination shall become effective upon the date such funds and any related instruments or documents are delivered to the successor escrow agent. Upon delivery of all funds and any related instrument or documents in accordance with this paragraph, the bank shall thereafter be discharged from any further obligations pursuant to the escrow agreement. All power, authority, duties and obligations of the bank shall henceforth apply to the successor escrow agent; and
- (n) Contact information, including name and address, for the provider, bank and Department for notice, instruction and direction purposes.

- (2) In addition to the required minimum provisions to be included in an escrow agreement pursuant to Regulation 120-2-51-.05(1), as set forth above, the following documents must be attached as exhibits to such escrow agreement:
- (a) A document setting forth the bank's fees in connection with the escrow agreement;
 - (b) A form to be used to request disbursement of funds from the bank to the resident or prospective resident pursuant to Regulation 120-2-51-.05(1)(h). Such form must list the total disbursement amount and must certify that the resident or prospective resident has sent written notice to the provider requesting a refund and that either (i) such resident or prospective resident has rescinded his or her reservation agreement or continuing care agreement within the period provided in such agreements, or (ii) the reservation agreement or continuing care agreement has been terminated by the resident, prospective resident or provider in accordance with its stated terms; and
 - (c) A form to be used to request disbursement of funds from the bank to the provider pursuant to Regulation 120-2-51-.05(1)(i). Such form must list the total disbursement amount and certify the following:
 - (i) The provider has presold at least fifty (50) percent of the residential units, having received at least a ten (10) percent deposit on each residential unit presold; AND
 - (ii) The provider has received a commitment for any first mortgage loan or other financing, and any conditions of the commitment prior to disbursement of funds thereunder have been substantially satisfied; AND
 - (iii) Aggregate entrance fees received or receivable by the provider pursuant to binding continuing care agreements, plus the anticipated proceeds of any first mortgage loan or other financing commitment, are equal to not less than ninety (90) percent of the aggregate cost of constructing or purchasing, equipping, and furnishing the facility, and not less than ninety (90) percent of the funds estimated in the statement of cash flows submitted by the provider as part of its disclosure statement, to be necessary to fund start-up losses and assure full performance of the obligations of the provider pursuant to continuing care contracts shall be on hand; OR
 - (iv) The continuing care facility is fully financed or open and operational, the continuing care facility is compliant with the minimum financial reserves required by O.C.G.A. Section [33-45-11](#), and sufficient funds are maintained in escrow to meet the provider's refund obligations under O.C.G.A. Sections [33-45-8\(b\)\(1\),\(2\) or \(3\)](#).

Rule 120-2-51-.06. Resident Owned Living Unit.

(1) Continuing Care Agreements

- (a) The lodging component of a continuing care agreement for resident owned living units may be expressed in a real estate purchase agreement for a resident owned living unit or other documents that govern the purchase and sale of such resident owned living unit, including, but not limited to, condominium declarations, homeowners association rules, and any other documents required for compliance with real property law related to the purchase and sale of resident owned living units. However, such documents must be incorporated by reference into the continuing care agreement for the resident owned living unit and a copy of each referenced documents must be attached as an exhibit.
- (b) Continuing care agreements for resident owned living units may provide that the entrance fee can be collected simultaneously with the closing of the purchase and sale of a resident owned living unit.

(2) Funds or Property for Purchase and Sale

Funds or property transferred for the purchase and sale of a resident owned living unit shall not be considered to be funds or property transferred for the care of a resident and, therefore, shall not be subject to the requirements set forth in OCGA [33-45-7\(a\)\(6\)](#). Such funds or property shall be governed by applicable real property law related to the purchase and sale of resident owned living units.

(3) Commissions

Funds payable to a duly licensed real estate broker as commissions related to the purchase and sale of the real property interest in a resident owned living unit shall not be considered to be a fee charged by the provider for the transfer of membership or sale of an ownership right.

(4) Reporting and Disclosure

When reporting or disclosure of any information is required under any other body of law governing the purchase and sale of resident owned living units, including, but not limited to, real property law or condominium law, all documents required for such reporting and disclosure shall be made available to the Department of Insurance immediately upon request.

History. Original Rule entitled "Resident Owned Living Unit" adopted. F. Mar. 24, 2016; eff. Apr. 13, 2016.

Rule 120-2-51-.07. Penalties.

Any provider, or any agent, counselor, representative, officer, or employee of such provider, failing to comply with the requirements of this Regulation shall be subject to such penalties as may be appropriate under the insurance laws of this State.

History. Original Rule entitled "Penalties" adopted. F. Mar. 24, 2016; eff. Apr. 13, 2016.

Rule 120-2-51-.08. Severability.

If any provision of this Regulation or the application of it to any person or circumstance is held invalid, such invalidity shall not affect the provisions or applications of the rules herein which can be given effect without the invalid portion. To that end, the provisions of this Regulation are declared to be severable.

Rule 120-2-52-.03. Standards for Prompt and Fair Settlements of First Party Property Damage Claims.

- (1) Every insurer, upon receiving notification of a claim shall, within fifteen (15) days, acknowledge the receipt of such notice by the insured, unless payment is made within that time period. If an acknowledgment is made by means other than writing, a notation of the acknowledgment shall be made in the claim file of the insurer and dated. Notification of a claim given to an agent of an insurer shall be notification to the insurer.
- (2) Every insurer, upon receiving notification of a claim shall, within fifteen (15) days, provide the insured with the proof of loss forms, if applicable, with reasonable explanations regarding their use. The providing of these forms will constitute an acknowledgement of receipt of the claim referred to in paragraph (1) above.
- (3) The insurer shall affirm or deny liability on claims within fifteen (15) days of receiving the completed proof of loss from the insured for losses arising from motor vehicle policies, and sixty (60) days of receiving the completed proof of loss from the insured for losses arising from fire or extended coverage type policies. If the insurer does not require the proof of loss to be completed, a coverage investigation as is reasonably necessary to affirm or deny shall take place within thirty (30) days from the day communication of the claim was received by the insurer.
- (4) Payment shall be tendered within ten (10) days after coverage is confirmed and the full amount of the claim is determined and not in dispute. In claims where multiple coverages are involved, payments for individual coverages, which are not in dispute and where the payee is known, shall be tendered within ten (10) days, if such payment would terminate the insurer's known liability under that individual coverage.
- (5) If the insurer needs more time than that specified in paragraph (3) above, to determine whether a first party claim should be accepted or denied, it shall notify the claimant within five (5) business days after the time limitation has elapsed in paragraph (3) above giving the reason that more time is needed and an estimate of additional time needed to establish liability. This can be accomplished in writing or if by other means, a proper notation shall be made in the claim file and dated. The total time the insurer has to accept or deny liability shall not exceed 60 days from the company being notified of the claim, unless the company has documented the claim file where information that has been requested necessary to determine liability has not been submitted.
- (6) If the insurer has affirmed liability on a claim, or affirmed liability for individual coverages where the claim involves multiple coverages and the amount payable is in dispute, the insured, or the insurer, may submit to the Commissioner a request for their case to be arbitrated. The request must be in writing and must include the facts of the case to include where each party currently stands in the negotiations. The Commissioner may

establish a panel of arbitrators consisting of attorneys authorized to practice law in this State and insurance adjusters licensed to act as such in this State. The arbitrators will be charged with the duty of establishing a fair and equitable monetary settlement of the case. If an arbitration panel has been established, three (3) individuals from the panel of arbitrators, at least one of whom shall be an attorney authorized to practice law in this State and at least one of whom shall be an insurance adjuster licensed to act as such in this State, will be designated to hear each request for arbitration. Any claim settled pursuant to this Chapter shall be binding on both parties and fulfill any arbitration provision currently contained in the motor vehicle insurance policy, but shall not preclude or waive any other rights either party has under common law. The decision of the arbitration panel shall in no way be construed as a decision of the Commissioner. If an arbitration panel has been established, the Commissioner shall forward the written request for arbitration to the three (3) individuals selected to hear such request. The cost of the arbitration shall be borne equally by the parties to the arbitration.

- (7) No insurer shall deny a claim on the grounds of a specific policy provision, condition or exclusion unless reference to such provision, condition, or exclusion is included in the denial. The denial shall be given to the insured in writing and the claim file of the insurer shall contain documentation of the denial.
- (8) The insurer shall pay according to the terms of its policy for the covered loss up to the actual cash value to repair or to replace the damaged or stolen property subject to any deductibles. However, the insured has the right to choose the place of repair and pay the difference in cost, if the cost of the repair shop selected by the insured is greater than that obtained by the insurer.
 - (a) Unless permitted pursuant to the provisions of the policy of insurance, no insurer shall require an insured to utilize a particular person, firm, or corporation to repair a motor vehicle in order to settle a first party claim if the insured can obtain the repair work on the motor vehicle at the same cost from another source.

Amended: F. Sept. 5, 1997; eff. Sept. 25, 1997.

Amended: F. June 29, 2022; eff. July 1, 2022, as specified by the Agency.

Note: Correction of non-substantive typographical error in paragraph (2), "... referred to in paragraph (1) above. 18, 1994." corrected to "... referred to in paragraph (1) above.", as requested by the Agency. Effective August 12, 2022.

Rule 120-2-52-.04. Vehicle Repairs.

- (1) If losses are settled on the basis of a written estimate prepared by or for the insurer, the insurer shall supply, upon request of the insured, a copy of the estimate upon which the settlement is based. The estimate prepared by or for the insurer shall be reasonable, and of

an amount which will allow for repairs to be made in a workmanlike manner which would restore the damaged vehicle to its preaccident condition relative to quality, safety, function and appearance. If the insured subsequently shows, based upon a written estimate which he obtains, that necessary repairs will exceed the written estimate prepared by or for the insurer, the insurer shall review and respond within fifteen (15) days. The insurer shall either provide the insured with the name of a repair shop that will make the repairs according to the written estimate obtained by the insurer which are commercially acceptable and conform with industry standards, or pay the difference between the written estimate and the one obtained by the insured.

- (2) When the monetary amount claimed by the insured is reduced because of betterment or depreciation, all reasons for such reduction shall be contained and documented in the insurer's claim file. Such deductions shall be itemized and specified as to dollar amount and shall be appropriate for the amount of deductions. Deductions for betterment and depreciation shall be allowable only if:
 - (a) They reflect a measurable decrease in market value attributable to the poorer condition of; or prior damage to, the vehicle;
 - (b) They reflect the general overall condition of the vehicle considering its age, for either or both:
 1. The wear and tear, or rust, limited to no more than a deduction of \$1,000, and/or
 2. Missing parts, limited to no more of a deduction than the replacement cost of such part or parts.
 - (c) The deductions set forth in subparagraphs (2)(a) and (b) above shall be limited to 20% of the market value of the vehicle prior to the loss.
- (3) No insurer shall require the insured to supply parts for replacement.

History. Original Rule entitled "Vehicle Repairs" adopted. F. Mar. 29, 1994; eff. Apr. 18, 1994.

Rule 120-2-52-.05. Aftermarket Crash Parts.

- (1) Purpose. The purpose of this section is to set forth standards for the use of aftermarket crash parts. It sets forth certain requirements relative to the identity, quality and disclosure of after market crash parts.

- (2) Definition. For purposes of this regulation, the term "aftermarket crash part" shall mean a replacement for any of the non-mechanical sheet metal or plastic parts which generally constitute the exterior of a motor vehicle, including inner and outer panels.
- (3) Identification. All aftermarket crash parts which are subject to this section and manufactured after the effective date of this section, shall carry sufficient permanent identification so as to identify their manufacturer. Such identification shall be accessible to the extent practicable after installation.
- (4) The price of nonoriginal manufacturer aftermarket crash parts may be used by insurers to determine repair costs, provided the use of such parts would restore the damaged vehicle to its preaccident condition relative to quality, safety, function and appearance. If an insurer includes nonoriginal manufacturer aftermarket crash parts in its repair estimate, the insurer shall notify the insured in writing as follows:
- (a) The written repair estimate shall clearly identify each such part.
 - (b) A disclosure document containing the following information in no smaller print than 10 point type shall appear on or be attached to the insurers copy of the estimate:

"THIS ESTIMATE HAS BEEN PREPARED BASED ON THE USE OF
AFTERMARKET CRASH PARTS SUPPLIED BY A SOURCE OTHER THAN
THE MANUFACTURER OF YOUR MOTOR VEHICLE.

THE AFTERMARKET CRASH PARTS USED IN THE PREPARATION OF
THIS ESTIMATE ARE WARRANTED BY THE MANUFACTURER OR
DISTRIBUTION OF SUCH PARTS RATHER THAN THE MANUFACTURER
OF YOUR VEHICLE."
- (5) No insurer, as part of a claims settlement, may require an insured to authorize the use of nonoriginal manufacturer aftermarket crash parts in the repair of a damaged vehicle.

Rule 120-2-52-.06. Total Loss Vehicle Claims.

If the insurer determines the insured vehicle to be a total loss, and the insurance policy provides for the adjustment and settlement of first party vehicle claims on the basis of actual cash value or replacement, the insurer may elect to pay a cash equivalent settlement or replace the insured vehicle. The insurer shall use one of the following methods:

(a) Cash Equivalent Method. The insurer may elect to pay a cash equivalent settlement based upon the actual cost less any deductible provided in the policy, to purchase a comparable automobile by the same manufacturer, same model year, with similar body style, similar options and mileage, including all applicable taxes, license fees and other fees incident to the transfer of ownership of a comparable automobile. The amount payable on taxes, license fees, and transfer fees shall be limited to the amount that would have been paid on the totaled, insured vehicle at the time of settlement. Such cost shall be based on one or more of the following methods:

1. The cost of two or more comparable automobiles in the local market area, defined in this subsection as fifty (50) miles from the county seat where the insured vehicle was principally garaged, when comparable automobiles are available or were available within the last thirty (30) days to consumers in the local market area. These sources may include dealer's sales price, any established printed automobile sales publication or newspaper.
2. The cost of two (2) or more comparable automobiles in areas proximate to the local market area defined in this subsection as 100 miles from the county seat where the insured vehicle was principally garaged, including the closest major metropolitan area within or without the state, that are available or were available within the last thirty (30) days to consumers when comparable automobiles are not available in subparagraph (a)1. above. These sources shall include the same as in subparagraph (a)1. above.
3. One of two or more quotations obtained by the insurer from two or more licensed dealers located within the local market area defined in this subparagraph as 50 miles from the county seat where the insured vehicle was principally garaged, when the cost of comparable automobiles are not available in subparagraphs (a)1. and 2. above.
4. Any source for determining statistically valid fair market values that meet all of the following criteria which may be in electronic or printed format:
 - (i) The source shall give primary consideration to the values of vehicles in the local market area, or may consider data on vehicles outside the area when comparable vehicles have not been available for data collection in the local market area.
 - (ii) The source's database shall produce values for at least 85% of all makes and models for at least the last fifteen (15) model years, taking into account the values of all major options for such vehicles.
 - (iii) The source shall produce fair market values based on current data available from the area surrounding the location where the insured vehicle was principally garaged or a necessary expansion of parameters (such as time and area) to assure statistical validity.

(b) Replacement Vehicle Method. The insurer may elect to replace the insured vehicle, including all applicable taxes, license fees, and other fees necessary to transfer ownership. The following requirements and standards shall apply if the insurer elects the replacement vehicle method:

1. The replacement vehicle must be comparable to the insured vehicle in that it is the same manufacturer model, same or newer model year, similar body style, similar options and mileage as the insured vehicle and in good overall condition.
2. The replacement vehicle shall be available for inspection by the insured within fifty (50) miles of the insured's residence or further if agreeable to the insured.
3. The insurer's claim file shall contain a full description of the replacement vehicle, including, but not limited to, the vehicle identification number and the schedule of options.
4. A replacement vehicle of the same or newer model year must be available for purchase through a licensed dealer or through an established printed sales publication.
5. In the event that a replacement vehicle meeting the requirements in subparagraphs 1. through 4. above is not available, the cash equivalent method should be used.
6. If the insured rejects a replacement vehicle, the option to replace the insured vehicle may not be exercised. The rejection shall be documented in the claim file. The insurer need only pay the amount it would have otherwise paid if the insured had accepted the replacement vehicle, including the applicable taxes, license fees, or other fees to transfer ownership.
7. If the insured selects another vehicle substantially similar in value, the insurer may either replace the insured vehicle with this substitute, or only pay the amount it would have otherwise paid if the insured had accepted the replacement vehicle, including the applicable taxes, license fees or other fees to transfer ownership.

History. Original Rule entitled "Total Loss Vehicle Claims" adopted. F. Mar. 29, 1994; eff. Apr. 18, 1994.

Rule 120-2-52-.07. Loss of Use.

If a policy provides loss of use or rental reimbursement coverage, reimbursement is limited to actual expenses incurred while an insured vehicle is inoperable due to a loss payable under either comprehensive or collision coverage. It is not necessary that the policy include coverage for the kind of loss itself (i.e., a comprehensive loss, but no comprehensive coverage), as long as rental reimbursement is applicable to the loss.

- (a) Actual expenses include reasonable fares for substitute transportation. If a rental car is used, the expenses can include daily charges, mileage expenses and taxes, subject to policy limitations.
- (b) The insurer may apply daily or aggregate monetary limitations to the actual expenses subject to policy provisions.
- (c) The insurer may limit the benefits to the period the vehicle is inoperable or under repair, or ending when an offer to pay for a total loss is made. The offer to pay for the total loss must be made in accordance with these rules, and the date of the offer must be clearly documented in the insurer's claim file.

Rule 120-2-53-.03. Notice Requirements for Cancellations and Nonrenewals.

- (1) Each notice of cancellation or nonrenewal shall include the following:
 - (a) Each notice of nonrenewal, except for those exceptions contained within these rules, shall advise the insured of the opportunity of review of the nonrenewal by the Commissioner, as set forth herein, if the insured believes that his or her policy has been nonrenewed in violation of O.C.G.A. § [33-24-45](#). Notice in the following form shall satisfy the notice requirement in O.C.G.A. § [33-24-45\(e\)\(5\)\(B\)](#) and serve to notify the insured of his or her opportunity for review of the nonrenewal. This notice shall only be used for nonrenewals.

NOTICE OF NONRENEWAL

"Code Section [33-24-45](#) of the Official Code of Georgia Annotated provides that this insurer must upon request, furnish you with the reasons for the failure to renew this policy. If you wish to assert that the nonrenewal is unlawful, you must file a written notice with this insurer before the time at which the nonrenewal becomes effective. The notice must specify the manner in which the failure to renew is alleged to be unlawful.

If you do not file the written notice, you may not later assert a claim or action against this insurer based upon an unlawful nonrenewal.

Additionally, within fifteen (15) days of receipt of this Notice of Nonrenewal, you may mail or deliver a written request for a review of the nonrenewal by the Commissioner if you believe your policy has been nonrenewed in violation of O.C.G.A. § [33-24-45](#). Your request must state the reasons why you believe the nonrenewal is in violation of O.C.G.A. § [33-24-45\(e\)](#).

- (b) Each notice of cancellation, except for those exceptions contained within these rules, shall advise the insured of his or her opportunity to request, in writing, a review of the cancellation by the Commissioner, as set forth herein, if the insured believes that his or her policy has been canceled in violation of O.C.G.A. § [33-24-45](#). This notice shall only be used in the case of cancellation. Such cancellation notice to the insured shall be in substantially the following form:

NOTICE OF CANCELLATION

Within fifteen (15) days of receipt of this Notice of Cancellation, you may mail or deliver a written request for a review of the cancellation by the Commissioner if you believe your policy has been canceled in violation of O.C.G.A. § [33-24-45\(c\)](#). Your request must state the reasons why you feel the cancellation is in violation of this Code Section.

- (c) The notice of cancellation or nonrenewal shall specifically state any and all reasons for such cancellation or nonrenewal in clear, easy to understand language.
 - (d) The notice of cancellation or nonrenewal shall specifically state the tender of premium requirements contained in Rule [120-2-53-.04](#).
 - (e) The notice required by this rule shall not be mandated for policies canceled in compliance with O.C.G.A. § [33-24-45\(c\)\(1\)](#) or those canceled in compliance with O.C.G.A. § [33-24-45\(k\)](#).
- (2) No request for a review by the Commissioner shall be valid unless a written request is delivered or mailed with sufficient postage to the Commissioner within fifteen (15) days after receipt by the insured of the notice of cancellation or nonrenewal. A post office receipt of mailing to the named insured, at the insured's last known address according to the policy records, shall be conclusive proof of receipt of notice by the named insured on the fourth calendar day after mailing.

Rule 120-2-53-.05. Disposition and Penalties.

- (1) If the Commissioner determines the cancellation or nonrenewal is lawful, termination under the policy shall be effective as of the date and time originally set forth under the notice of cancellation or nonrenewal. Termination of the interim coverage provided pursuant to O.C.G.A. § [33-24-45\(o\)](#) during the pendency of the Commissioner's review shall not be effective less than five (5) days following the date of the Commissioner's decision. The Commissioner's decision shall establish the effective date of the termination of the interim coverage provided during the review of the cancellation or nonrenewal and shall serve as the official notice of termination of coverage referenced in O.C.G.A. § [33-24-45\(e\)\(1\)](#).
- (2) In the event that the cancellation or nonrenewal is upheld by the Commissioner,
 - (a) the insurer shall retain that portion of the pro rata premiums tendered for the period of time beginning with the original date of cancellation or nonrenewal and ending with the date of the termination of the interim coverage as established by the Commissioner pursuant to Rule 120-2-53-.05(1); and
 - (b) the insurer shall refund all remaining premiums to the insured within ten (10) working days of receipt of the Commissioner's decision establishing the effective date of the termination of the interim coverage.
- (3) A penalty may be assessed against the insurer in all cases where the Commissioner has determined that the cancellation or nonrenewal was not lawful. If the Commissioner makes such a determination, the insurer shall reinstate or renew the policy. The Commissioner may also order such other remedies and penalties as he or she deems appropriate and as are authorized by law in the event of an abusive nonrenewal or cancellation or in the event of a determination that the insurer has engaged in a pattern or practice of improper policy nonrenewal or cancellation procedures.

Rule 120-2-54-.02. Purpose.

The purpose of this regulation is to set forth the standards which the Commissioner may use for identifying insurers found to be in such condition as to render the continuance of their business hazardous to their policyholders, creditors, or the general public.

This regulation shall not be interpreted to limit the powers granted the Commissioner by any laws or parts of laws of this State, nor shall this regulation be interpreted to supersede any laws or parts of laws of this State.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-2-11](#), [33-3-17](#), [33-3-18](#).

History. Original Rule entitled "Purpose" adopted. F. Aug. 19, 1993; eff. Sept. 8, 1993.

Amended: F. Jan. 3, 2013; eff. Jan. 23, 2013.

Rule 120-2-54-.03. Standards.

The following standards, either singly or a combination of two or more, may be considered by the Commissioner to determine whether the continued operation of any insurer transacting an insurance business in this State might be deemed to be hazardous to its policyholders, creditors, or the general public. The Commissioner may consider:

- (a) Averse findings reported in financial condition and market conduct examination reports, audit reports, and actuarial opinions, reports or summaries;
- (b) The National Association of Insurance Commissioners Insurance Regulatory Information System and its other financial analysis solvency tools and reports;
- (c) Whether the insurer has made adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual

obligations and related expense of the insurer, when considered in light of the assets held by the insurer with respect to such reserves and related actuarial items including, but not limited to, the investment earnings on such assets, and the considerations anticipated to be received and retained under such policies and contracts;

- (d) The ability of an assuming reinsurer to perform and whether the insurers reinsurance program provides sufficient protection for the insurer's remaining surplus after taking into account the insurer's cash flow and the classes of business written as well as the financial condition of the assuming reinsurer;
- (e) Whether the insurer's operating loss in the last twelve-month period or any shorter period of time, including but not limited to net capital gain or loss, change in non-admitted assets, and cash dividends paid to shareholders, is greater than fifty percent (50%) of the insurer's remaining surplus as regards policyholders in excess of the minimum required;
- (f) Whether the insurer's operating loss in the last twelve-month period or any shorter period of time, excluding net capital gains, is greater than twenty percent (20%) of the insurer's remaining surplus as regards policyholders in excess of the minimum required;
- (g) Whether a reinsurer, obligor or any entity within the insurer's insurance holding company system, is insolvent, threatened with insolvency or delinquent in payment of its monetary or other obligations, and which in the opinion of the Commissioner may affect the solvency of the insurer;
- (h) Contingent liabilities, pledges or guarantees which either individually or collectively involve a total amount which in the opinion of the Commissioner may affect the solvency of the insurer;
- (i) Whether any controlling person of any insurer is delinquent in the transmitting to, or payment of, net premiums to the insurer;
- (j) The age and collectability of receivables;
- (k) Whether the management of an insurer, including officers, directors, or any other person who directly or indirectly controls the operation of the insurer, fails to possess and demonstrate the competence, fitness, and reputation deemed necessary to serve the insurer in such position;
- (l) Whether the management of an insurer has failed to respond to inquiries relative to the condition of the insurer or has furnished false and misleading information concerning an inquiry;
- (m) Whether the insurer has failed to meet financial and holding company filing requirements in the absence of a reason satisfactory to the Commissioner;
- (n) Whether the management of an insurer either has filed any false or misleading sworn financial statement, or has released false or misleading financial statement to lending

institutions or to the general public, or has made a false or misleading entry, or has omitted an entry of a material amount in the books of the insurer;

- (o) Whether the insurer has grown so rapidly and to such an extent that it lacks adequate financial and administrative capacity to meet its obligations in a timely manner;
- (p) Whether the insurer has experienced or will experience in the foreseeable future cash flow or liquidity problems;
- (q) Whether management has established reserves that do not comply with minimum standards established by State insurance laws, regulations, statutory accounting standards, sound actuarial principles, and standards of practice;
- (r) Whether management persistently engages in material under-reserving that results in adverse development;
- (s) Whether transactions among affiliates, subsidiaries, or controlling persons for which the insurer receives assets or capital gains, or both, do not provide sufficient value, liquidity, or diversity to assure the insurer's ability to meet its outstanding obligations as they mature;
- (t) Any other finding determined by the Commissioner to be hazardous to the insurer's policyholders, creditors, or general public.

Rule 120-2-54-.04. Commissioner's Authority.

- (a) For the purposes of making a determination of an insurer's financial condition under this regulation, the Commissioner may:
 - (1) Disregard any credit or amount receivable resulting from transactions with a reinsurer that is insolvent, impaired, or otherwise subject to a delinquency proceeding;
 - (2) Make appropriate adjustments including disallowance to asset values attributable to investments in or transactions with parents, subsidiaries, or affiliates consistent with the NAIC Accounting Practices And Procedures Manual, State laws, and regulations;

- (3) Refuse to recognize the stated value of accounts receivable if the ability to collect receivables is highly speculative in view of the age of the account or the financial condition of the debtor; or
 - (4) Increase the insurer's liability in an amount equal to any contingent liability, pledge, or guarantee not otherwise included if there is a substantial risk that the insurer will be called upon to meet the obligation undertaken within the next twelve-month period.
- (b) If the Commissioner determines that the continued operation of the insurer licensed to transact business in this State may be hazardous to its policyholders, creditors, or the general public, then the Commissioner may, upon a determination, issue an order requiring the insurer to:
- (1) Reduce the total amount of present and potential liability for policy benefits by reinsurance;
 - (2) Reduce, suspend, or limit the volume of business being accepted or renewed; or
 - (3) Reduce general insurance and commission expenses by specified methods;
 - (4) Increase the insurer's capital and surplus;
 - (5) Suspend or limit the declaration and payment of dividend by an insurer to its stockholders or to its policyholders;
 - (6) File reports in a form acceptable to the Commissioner concerning the market value of a security;
 - (7) Limit or withdraw from certain investments or discontinue certain investment practices to the extent the Commissioner deems necessary;
 - (8) Document the adequacy of premium rates in relation to the risks insured;
 - (9) File, in addition to regular annual statements, interim financial reports on the form adopted by the National Association of Insurance Commissioners or in such format as promulgated by the Commissioner;
 - (10) Correct corporate governance practice deficiencies, and adopt and utilize governance practices acceptable to the Commissioner;
 - (11) Provide a business plan to the Commissioner in order to continue to transact business in the State; or
 - (12) Notwithstanding any of the other provisions of law limiting the frequency or amount of premium rate adjustments, adjust rates for any non-life insurance

product written by the insurer that the Commissioner considers necessary to improve the financial condition of the insurer.

If the insurer is a foreign insurer the Commissioner's order may be limited to the extent provided by statute.

- (c) An insurer subject to an order under paragraph (b) may request a hearing to review that order. All requests for hearings and all hearings shall be conducted in a manner consistent with O.C.G.A. § [33-2-17](#).

Rule 120-2-55-.03. Definitions.

- (1) "Exceeded its Powers" means, including but not limited to, the following conditions:
 - (a) The insurer has refused to permit examination of its books, papers, accounts, records of affairs by the Commissioner;
 - (b) A domestic insurer has unlawfully removed from this State books, papers, accounts or records necessary for an examination of the insurer;
 - (c) The insurer has failed to promptly comply with the applicable financial reporting statutes or rules and departmental requests relating thereto;
 - (d) The insurer has neglected or refused to observe a requirement or order of the Commissioner to make good, within the time prescribed by law, any prohibited deficiency in its capital, capital stock, surplus.
 - (e) The insurer is continuing to transact insurance or write business after its license has been revoked or suspended by the Commissioner;
 - (f) The insurer, by contract or otherwise, has unlawfully or has in violation of a requirement or order of the Commissioner or has without first having obtained written approval of the Commissioner if approval is required by law:
 - 1. Totally reinsured its entire outstanding business; or
 - 2. Merged or consolidated substantially its entire property or business with another insurer.
 - (g) The insurer engaged in any transaction in which it is not authorized to engage under the laws of this State;
 - (h) The insurer has failed to comply with a lawful requirement or order of the Commissioner.
- (2) "Consent" means agreement to administrative supervision by the insurer.

Rule 120-2-55-.05. Requirements to Comply; Administrative Supervision.

- (1) If the Commissioner determines that any of the conditions exist as set forth in Section [33-3-17](#) or [33-3-18](#) of the Official Code of Georgia Annotated relating to administrative supervision, the Commissioner may proceed with the administrative supervision of the insurer.
- (2) If placed under administrative supervision, the insurer shall have such period of time as deemed necessary by the Commissioner to comply with the requirements of the Commissioner subject to the provisions of this Regulation.
- (3) If it is determined by the Commissioner that the conditions giving rise to the supervision still exist at the end of the supervision period specified above, the Commissioner may extend such period.
- (4) If it is determined by the Commissioner that none of the conditions giving rise to the supervision exist, the Commissioner may release the insurer from supervision.

History. Original Rule entitled "Requirements to Comply; Administrative Supervision" adopted. F. Aug. 19, 1993; eff. Sept. 8, 1993.

Rule 120-2-55-.06. Powers.

The Commissioner may take such action as deemed necessary or appropriate to reform the insurer under supervision and the expense for such action shall be borne by the insurer. The Commissioner shall have all the powers of the shareholders, policyholders, members, subscribers, directors, committees of the board of directors, officers, managers, and attorneys-in-fact whose authority shall be subordinate to him. He shall have full power to direct and manage, to hire and discharge employees, officers and directors, notwithstanding any by-laws of the insurer or any contracts that may exist. The Commissioner may deal directly with the property and business affairs of the insurer.

- (a) Administrative supervision consists of supervision of the actions of the Board of Directors of the company and the employees of the company. Any resolutions by the board of Directors shall be subject to the approval of the Commissioner. All actions and transactions of the employees and officers of the company are subject to the approval of the Commissioner as the administrator.
- (b) The Commissioner shall have control over the cash receipts and cash disbursements of the company. All company decisions shall be subject to the approval of the Commissioner.
- (c) The Commissioner shall be able to act for the company in connection with any of its custodian agreements.
- (d) The Commissioner may require the insurer to:
 - 1. Reduce the total amount of present and potential liability for policy benefits by reinsurance;
 - 2. Reduce, suspend or limit the volume of business being accepted or renewed;
 - 3. Reduce general insurance and commission expenses by specified methods;
 - 4. Increase the insurer's capital and surplus;
 - 5. Suspend or limit the declaration and payment of dividend by an insurer to its stockholders or to its policyholders;
 - 6. File reports in a form acceptable to the Commissioner concerning the market value of an insurer's assets;
 - 7. Limit or withdraw from certain investments or discontinue certain investment practices to the extent the Commissioner deems necessary;
 - 8. Document the adequacy of premium rates in relation to the risks insured; or
 - 9. File, in addition to regular annual statements, interim financial reports on the form adopted by the National Association of Insurance Commissioners or on such format as promulgated by the Commissioner.

Rule 120-2-55-.07. Prohibited Acts During Period of Supervision.

During the period of supervision, the Commissioner or his designated appointee shall serve as the Administrator. The Commissioner may provide that the insurer is prohibited from doing any of the following things during the period of supervision, without the prior approval of the Commissioner or his appointed supervisor:

- (a) Dispose of; convey or encumber any of its assets or its business in force;
- (b) Withdraw any of its bank accounts;
- (c) Lend any of its funds;
- (d) Invest any of its funds;
- (e) Transfer any of its property;
- (f) Incur any debt, obligation or liability;
- (g) Merge or consolidate with another company;
- (h) Approve new premiums or renew any policies;
- (i) Enter into any new reinsurance contract or treaty;
- (j) Terminate, surrender, forfeit, convey or lapse any insurance policy, certificate or contract, except for nonpayment of premiums due;
- (k) Release, pay or refund premium deposits, accrued cash or loan values, unearned premiums, or other reserves on any insurance policy, certificate or contract;
- (l) Make any material change in management;
- (m) Increase salaries and benefits of officers or directors or the preferential payment of bonuses, dividends or other payments deemed preferential; or
- (n) Any other action the Commissioner deems may impair the safety or security of the insurer's policyholders or certificate holders, its creditors, or the public.

History. Original Rule entitled "Purpose" adopted. F. May 23, 1996; eff. June 12, 1996.

Rule 120-2-58-.02. Definitions.

- (1) "Active Practice" means activities including, but not limited to, the review of medical records and charts, participation in utilization review and medical management, evaluating medical necessity, monitoring patient therapy, graduate medical education, or maintenance of board certification.
- (2) "Adverse Determination" means a determination based on medical necessity made by a private review agent or utilization review entity not to grant authorization to a hospital, surgical or other facility admission, extension of a hospital stay or other health care service or procedure based on medical necessity or appropriateness.
- (3) "Appeal" means a formal request, either orally, or in writing or by electronic transmission, to a private review agent to reconsider a determination not to certify an admission, extension of stay, or other health care service or procedure.
- (4) "Authorization" means a determination by a private review agent or utilization review entity that a healthcare service has been reviewed and, based on the information provided, satisfies the utilization review entity's requirements for medical necessity.
- (5) "Claim Administrator" means any entity that reviews and determines whether to pay claims to covered persons on behalf of the healthcare plan. Such payment determinations are made on the basis of contract provisions including medical necessity and other factors. Claim administrators may be insurers or their designated review organization, self-insured employers, management firms, third-party administrators, or other private contractors.
- (6) "Clinical Criteria" means the written policies, decisions, rules, medical protocols, or guidelines used by a private review agent or utilization review entity to determine medical necessity.

- (7) "Clinical Peer" means a healthcare provider who is licensed without restriction or otherwise legally authorized and currently in active practice in the same or similar specialty as that of the treating provider, and who typically manages the medical condition or disease at issue and has knowledge of and experience providing the healthcare service or treatment under review.
- (8) "Complaint" is a communication either orally, in writing or by electronic transmission concerning matters related to utilization review including, but not limited to, health care services, denials, accessibility, and confidentiality.
- (9) "Concurrent Review" means utilization review conducted during a patient's hospital stay or course of treatment.
- (10) "Covered Person" means an individual, including, but not limited to, any subscriber, enrollee, member, beneficiary, participant, or his or her dependent, eligible to receive healthcare benefits by a health insurer pursuant to a healthcare plan or other health insurance coverage.
- (11) Emergency healthcare services means healthcare services rendered after the recent onset of a medical or traumatic condition, sickness, or injury exhibiting acute symptoms of sufficient severity, including, but not limited to, severe pain, that would lead a prudent layperson possessing an average knowledge of medicine and health to believe that his or her condition, sickness, or injury is of such a nature that failure to obtain immediate medical care could result in:
 - (A) Placing the patient's health in serious jeopardy;
 - (B) Serious impairment to bodily functions; or
 - (C) Serious dysfunction of any bodily organ or part.
- (12) "Facility" means a hospital, ambulatory surgical center, birthing center, diagnostic and treatment center, hospice, or similar institution. Such term shall not mean a healthcare provider's office.
- (13) "Health insurer" or "insurer" means an accident and sickness insurer, care management organization, healthcare corporation, health maintenance organization provider sponsored healthcare corporation, or any similar entity regulated by the Commissioner.
- (14) "Healthcare plan" means any hospital or medical insurance policy or certificate, qualified higher deductible health plan, stand-alone dental plan, health maintenance organization or other managed care subscriber contract, the state health benefit plan, or any plan entered into by a care management organization as permitted by the Department of Community Health for the delivery of healthcare services.
- (15) "Healthcare service" means healthcare procedures, treatments, or services provided by a facility licensed in this state or provided within the scope of practice of a doctor of

medicine, a doctor of osteopathy, or another healthcare provider licensed in this state. Such term includes but is not limited to the provision of pharmaceutical products or services or durable medical equipment.

- (16) "Medical necessity" or 'medically necessary' means healthcare services that a prudent physician or other healthcare provider would provide to a patient for the purpose of preventing, diagnosing, or treating an illness, injury, or disease or its symptoms in a manner that is:
- (A) In accordance with generally accepted standards of medical or other healthcare practice;
 - (B) Clinically appropriate in terms of type, frequency, extent, site, and duration;
 - (C) Not primarily for the economic benefit of the health insurer or for the convenience of the patient, treating physician, or other healthcare provider; and
 - (D) Not primarily custodial care, unless custodial care is a covered service or benefit under the covered person's healthcare plan.
- (17) "Pharmacy benefits manager" means a person, business entity, or other entity that performs pharmacy benefits management. Such term includes a person or entity acting for a pharmacy benefits manager in a contractual or employment relationship in the performance of pharmacy benefits management for a healthcare plan. Such term shall not include services provided by pharmacies operating under a hospital pharmacy license. Such term shall not include health systems while providing pharmacy services for their patients, employees, or beneficiaries, for indigent care, or for the provision of drugs for outpatient procedures. Such term shall not include services provided by pharmacies affiliated with a facility licensed under Code Section [31-44-4](#) or a licensed group model health maintenance organization with an exclusive medical group contract and which operates its own pharmacies which are licensed under Code Section [26-4-110](#).
- (18) "Prior authorization" means any written or oral determination made at any time by a claim administrator or an insurer, or any agent thereof, that a covered person's receipt of healthcare services is a covered benefit under the applicable plan and that any requirement of medical necessity or other requirements imposed by such plan as prerequisites for payment for such services have been satisfied. The term 'agent' as used in this paragraph shall not include an agent or agency as defined in Code Section [33-23-1](#).
- (19) "Private review agent" means any person or entity which performs utilization review for:
- (A) An employer with employees who are treated by a health care healthcare provider in this state;
 - (B) An insurer; or

- (C) A claim administrator.
- (20) "Reconsideration" means a request either orally, in writing or by electronic transmission to the private review agent to reconsider an adverse determination.
- (21) "Review Criteria" means the written policies, decisions, rules, medical protocols or guidelines used by the private review agent to determine medical necessity or appropriateness.
- (22) "Urgent healthcare service" means a healthcare service with respect to which the application of the time periods for making a nonexpedited prior authorization, which, in the opinion of a physician or other healthcare provider with knowledge of the covered person's medical condition:
- (A) Could seriously jeopardize the life or health of the covered person or the ability of such person to regain maximum function; or
 - (B) Could subject the covered person to severe pain that cannot be adequately managed without the care or treatment that is the subject of the utilization review. Such term shall include services provided for the treatment of substance use disorders which otherwise qualify as an urgent healthcare service.
- (23) "Utilization review entity" means an insurer or other entity that performs prior authorization for one or more of the following entities:
- (A) An insurer that writes health insurance policies;
 - (B) A preferred provider organization or health maintenance organization; or
 - (C) Any other individual or entity that provides, offers to provide, or administers hospital, outpatient, medical, behavioral health, prescription drug, or other health benefits to a person treated by a healthcare provider in this state under a health insurance policy, plan, or contract.
- (24) "Utilization Review Determination" means a recommendation by a private review agent regarding medical necessity or appropriateness of the health care services given or proposed to be given to a patient.

- (1) Applications for certification shall be submitted to the Office of the Commissioner of Insurance on Forms GID-57, GID-65(UR) and GID-72, attached hereto and incorporated herein, along with the original license or certificate fee and application fee required for private review agents under O.C.G.A. [33-8-1](#).
- (2) Private review agents operating in Georgia prior to the effective date of this Chapter of the Rules and Regulations of the Office of Commissioner of Insurance and which have not applied for certification within sixty (60) days of such effective date shall be in violation of Chapter 46 of Title 33 of the Official Code of Georgia Annotated and this Chapter of the Rules and Regulations of the Office of Commissioner of Insurance and are prohibited from operating as a private review agent until such private review agent has applied for certification and has been certified.
- (3)
 - (a) Any private review agent not operating in Georgia on the effective date of this Chapter of the Rules and Regulations of the Office of Commissioner of Insurance may apply for certification at any time prior to doing business in Georgia.
 - (b) A private review agent or utilization review entity may not conduct utilization review of healthcare services provided in this state unless the Commissioner has granted the private review agent or utilization review entity a certificate pursuant to this chapter.
- (4) A certificate shall expire on the second anniversary of its effective date unless renewed, suspended or revoked. Renewal for an additional two (2) year term may be applied for no sooner than ninety (90) days prior to the certification expiration date. Application for renewal shall be submitted on Forms GID-57, GID-65(UR) and GID-72 with the renewal license or certificate fee of \$500 required for private review agents under O.C.G.A. § [33-8-1](#).
- (5) On initial application for certification, all advertising materials to be used in Georgia by private review agents shall be filed with the Office of the Commissioner of Insurance.
- (6) Each application for certification or renewal must include the following:
 - (a) A utilization review plan;
 - (b) Documentation that the private review agent has received full accreditation or certification by the Utilization Review Accreditation Commission (URAC) or the National Committee for Quality Assurance (NCQA). Reason or reasons should be stated if the organization is not presently fully accredited or certified by URAC or NCQA.
 - (c) The type, qualifications and number of the personnel, either employed or under contract, to perform the utilization review;

- (d) A copy of the materials designed to inform applicable patients and health care providers of the requirements of the utilization review plan;
- (e) A written description of an ongoing quality assessment program;
- (f) The written policies and procedures to ensure that an appropriate representative of the private review agent is reasonably accessible to patients and health care providers five (5) days a week during normal business hours in this State;
- (g) The written policies and procedures to ensure that information obtained in the course of utilization review is maintained in a confidential manner. Such policies and procedures shall include, but not be limited to, the following:
 - 1. Assurances that information obtained during the process of utilization review will be kept confidential in accordance with any applicable state or federal laws and regulations;
 - 2. Assurances that the information collected for purposes of utilization review will be limited to the information necessary for the claims administrator to adjudicate the claim and used solely for the purposes of utilization review, quality management, discharge planning and case management;
 - 3. Assurances that information obtained for purposes of utilization review will be shared only with those agents (such as the claims administrator) who have authority to receive such information;
 - 4. Guidelines to prevent unauthorized release of individual enrollee information to the public. Information pertaining to the diagnosis, treatment or health of an enrollee shall be disclosed only to authorized persons. Release of information otherwise shall only be permitted with the express written consent of the covered enrollee, or pursuant to court order for the production of evidence or discovery, or as otherwise provided by state or federal law.
- (h) The written policies and procedures establishing and maintaining a complaint system; and
- (i) A sample John Doe copy of each type of contract or agreement to be executed between the private review agent and payor, employer, claim administrator, or other entity with certification that the private review agent shall not enter into any incentive payment provision contained in a contract or agreement with a payor which is based on reduction of services or the charges thereof, reduction of length of stay, or utilization or alternative treatment settings to reduce amounts of necessary or appropriate medical care.

Amended: F. June 29, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-2-58-.04. Refusal, Suspension and Revocation.

The Office of Commissioner of Insurance may refuse to issue or renew and may suspend or revoke a certificate if a private review agent:

- (a) Violates any provision or otherwise fails to comply with any provision of Chapter 46 of Title 33 of the Official Code of Georgia Annotated or this Chapter of the Rules and Regulations of the Office of Commissioner of Insurance;
- (b) Has intentionally misrepresented or concealed any material fact in any application for certification or on any form filed with the Commissioner of Insurance;
- (c) Has obtained or attempted to obtain the certification by misrepresentation, concealment, or other fraud or uses a certification without proper authority; or
- (d) Has failed to produce records in response to a written request by the Office of Commissioner of Insurance sent to the last known address of the private review agent.

History. Original Rule entitled "Refusal, Suspension and Revocations" adopted. F. May 23, 1996; eff. June 12, 1996.

Rule 120-2-58-.05. Requirements for Utilization Review.

- (1) Private review agents shall have sufficient staff to facilitate review in accordance with review criteria and shall designate one or more individuals able to effectively communicate medical and clinical information.
- (2) Private review agent shall provide access to its review staff by a toll free or collect call telephone line during normal business hours. A private review agent shall have an established procedure to review timely call backs from health care providers and shall establish written procedures for receiving after-hour calls, either in person or by recording.
- (3) Private review agent shall collect only the information necessary to certify the admission, procedure or treatment, length of stay, frequency and duration of services. All requests for information shall be made during normal business hours.

- (4) Private review agents shall identify themselves prior to collecting necessary information.
- (5) Private review agents shall establish and follow procedures and rules for on-site medical facility review.
- (6) In the event a private review agent questions the medical necessity or appropriateness of care, the following procedures will apply:
 - (a) The attending health care provider shall have the opportunity to discuss a utilization review determination promptly by telephone with a clinical peer, an identified health care provider representing the private review agent and trained in a related healthcare specialty. If the determination is made not to certify, an adverse determination exists.
 - (b) Reconsideration of an adverse determination occurs when any questions concerning medical necessity or appropriateness of care are not resolved under subparagraph (a) above. The right to appeal an adverse determination shall be available to the enrollee and the attending physician or other ordering health care provider. The enrollee or enrollee's representative shall be allowed a second review by another identified health care provider in an appropriate medical specialty who represents the private review agent.
- (7) The private review agent shall have written procedures for providing notification of its determinations regarding all forms of certification in accordance with the following:
 - (a) When an initial determination is made to certify, notification shall be provided promptly either by telephone, in writing or electronic transmission to the attending health care provider, the facility rendering service as well as to the enrollee. Written notification shall be transmitted within two (2) business days of the determination.
 - (b) When a determination is made not to certify, the attending physician and/or other ordering health care provider or facility rendering service shall:
 - 1. Be notified by telephone within one (1) business day.
 - 2. Be sent a written notification within one (1) business day, which also shall be sent to the enrollee. The written notification shall include: principal reason(s) for the determination and instructions for initiating an appeal of the adverse determination.
 - (c) The private review agent shall establish procedures for appeals to be made in writing and by telephone. The private review agent shall notify the health care provider and enrollee in writing of its determination on the appeal as soon as possible, but in no case later than sixty (60) days after receiving the required documentation to conduct the appeal.

- (d) The appeals procedure does not preclude the right of an enrollee to pursue legal action.

Amended: F. June 29, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-2-58-.06. Complaint Procedure.

Private review agents shall establish and maintain a complaint system which includes, at a minimum, the following:

- (a) Establishes and maintains a complaint system which has been approved by the Commissioner and which provides reasonable procedures for the resolution of written complaints initiated by enrollees covered persons or health care healthcare providers concerning utilization review;
- (b) Maintains records of such written complaints for five years from the time the complaints are filed and submits to the Commissioner a summary report at such times and in such format as the Commissioner may require; and
- (c) Permits the Commissioner to examine the complaints at any time
- (d) All complaints shall be directed to the private review agent; and
- (e) The private review agent shall contact the complainant, gather all pertinent facts regarding the complaint, and attempt to resolve the complaint as soon as reasonably possible within the context of written policies and procedures.

Amended: F. June 29, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-2-58-.07. Reporting Requirements.

- (1) By March 1, 2023, and annually thereafter on or before the same date, each private review agent shall submit to the Office of the Commissioner of Insurance a list of all complaints by type and disposition, and an analysis of such complaints files against them during the past calendar year.

- (2) By March 1, 2023, and annually thereafter on or before the same date, the annual report information regarding utilization review activities for the preceding calendar year shall be submitted to the Office of Commissioner of Insurance on Form GID-73 which is attached hereto and incorporated herein.
- (3) The Commissioner of Insurance shall require any other reporting requirements that are necessary to fully evaluate utilization review compliance with Chapter 46 of Title 33 of the Official Code of Georgia Annotated and this Chapter of the Rules and Regulations of the Office of Commissioner of Insurance and the impact of utilization review programs on patient access to care.
- (4) Each private review agent shall notify the Office of Commissioner of Insurance in writing within sixty (60) days of any changes to information last filed with the Office of Commissioner of Insurance under Form GID-57.

_____ 21. Are all the appropriate areas in the application signed and notarized or certified? If you are an individual with a disability and wish to acquire this document in an alternative format, please contact the ADA Coordinator, Office of Commissioner of

insurance, 2 Martin Luther King, Jr., Dr., Atlanta, Georgia 30334. (404) 656-2056 - TDD (404) 656-4031.

OFFICE OF COMMISSIONER OF INSURANCE STATE OF GEORGIA

ATLANTA, GEORGIA

ANNUAL REPORT INFORMATION FOR UTILIZATION

REVIEW ACTIVITIES

FOR THE YEAR ENDED _____

(Typewritten Only)

If you are an individual with a disability and wish to acquire this application in an alternative format, please contact the ADA Coordinator at the Georgia Insurance Department, 2 Martin Luther King, Jr. Drive, Atlanta, Georgia 30334 (404) 656-2056 / TDD (404) 656-4031 This information is necessary for the annual report which is required under *O.C.G.A. Section 33- 46-14* to assess utilization review operations and the extent to which these practices actually affect patients in Georgia. This form is distributed to each private review agent. The information obtained will be summarized providing an overall picture of the "State of Utilization Review in Georgia."

Background Information

1. Legal name and address of private review agent:

2. Telephone number: (____)_____

Fax number: (____)_____

3. Name, title and phone number of designated contact person responsible for this information:

4. Indicate the year in which your organization was established:_____Indicate the year in which your organization began operations in Georgia:_____

5. Is your organization independently owned or is it a subsidiary of or owned by another organization? Independently owned_____(SKIP TO NEXT SECTION)

A subsidiary of or owned by another organization_____

6. Does the parent organization or any of its subsidiaries provide direct patient care?

yes_____no_____

7. Is the parent organization or any of its subsidiaries a health insurer?

yes_____no_____

8. Has the parent organization or any of its subsidiaries ever purchased any of your utilization review services?

yes_____no_____

Services Performed

1. Indicate the estimated percentage distribution of clinical services reviewed:

2. Indicate the total acute care hospital admissions reviewed:

3. Indicate the percent of proposed admissions diverted for outpatient care:

4. Indicate the volume of reviews annually performed: prospective (precertification)

_____concurrent (continued stay) _____

retrospective_____other _____

5. Indicate the total number of Georgia lives covered for each entity for whom the private review agent performs utilization review services:

Entity # Georgia lives covered

a. Employers _____

- b. Payors (Insurers) _____
 - c. Claim administrators _____
 - d. Others _____
6. Indicate if your organization performs the following types of review and the percentage performed telephonically and/or on-site;
- Telephonic On site
- Prospective Review yes no _____ % _____ %
- Concurrent Stay Review yes no _____ % _____ %
- Discharge Planning yes no _____ % _____ %
- Case Management yes no _____ % _____ %
7. How many reviews does your organization conduct on average, per episode of care?
- prospective _____
- concurrent _____
- retrospective _____
- other _____

Utilization Review Staff

1. Personnel who conduct reviews.
 - (A) For each type, please indicate if, at any phase of the utilization review process, any of that staff type made decisions about the necessity or the appropriateness of requested medical or surgical care for your organization for the preceding calendar year.
 - (B) If "yes," please enter the total number of staff of each type that made these decisions, and the number of staff that were full-time employees of your organization, part-time employees of your organization who worked on the premises of your organization, part-time employees of your organization who worked off the premises of your organization, and consultants/advisors to your organization. (IF NONE, ENTER "o")

Form GID-73

2. List the board specialties (as recognized by the American Board of Medical Specialists) for the number of staff physicians and the number of consultants/advisors for the organization. (i.e. Family Practice, Internal Medicine, Pediatrics, etc.) Also, indicate the same for staff recognized by the Advisory Board of Osteopathic Specialist.

Utilization Review and Appeals

1. CASE MANAGEMENT

- a. During the preceding calendar year, did your organization review any catastrophic medical or surgical cases to determine the need for case management services; that is, determine the need for coordinated care for patients requiring expensive or extended care?

yes_____no_____ (SKIP TO QUESTION 2)

- b. How many cases did you screen for case-management?_____

- c. How many of these cases were recommended for case-management?

- d. How many were ultimately case-managed?

2. Please list the top five surgeries or procedures that your organization most often did not authorize during the preceding calendar year because of unsubstantiated medical need.

-
-
3. Indicate the number and outcome by clinical service (i.e. medical, surgical, maternity, etc.) of each appeal as addressed in Rule [120-2-58-.05](#), entitled "Requirements for Utilization Review", paragraph (6)(b).

-
-
-
-
-
-
-
-
4. The average number of days required to complete each level of appeal:

Repealed: New Rule, same title, adopted. F. Apr. 30, 1999; eff. May 20, 1999.

Rule 120-2-59-.04. Definitions.

For the purposes of O.C.G.A. [33-24-10.1](#) and this Regulation Chapter:

- (a) "HCFA" means the Health Care Financing Administration of the United States Department of Health and Human Services.

- (b) "HCFA Form 1450" means the health insurance claim form maintained by HCFA for use by institutional care practitioners.
- (c) "HCFA Form 1500" means the health insurance claim form maintained by HCFA for use by health care practitioners.
- (d) "Health Care Practitioner" means a health care provider duly licensed by the Secretary of State of the State of Georgia pursuant to the Official Code of Georgia Annotated and the Rules and Regulations of the State of Georgia.
- (e) "Institutional Care Practitioner" means a hospice, hospital, skilled nursing facility, extended care facility, intermediate care facility, convalescent nursing home, and personal care facility licensed pursuant to the Official Code of Georgia Annotated and the Rules and Regulations of the State of Georgia.
- (f) "Insured" means an individual covered under a policy of insurance or the provider to which that individual has assigned benefits.
- (g) "Issuer" means an insurance company, fraternal benefit society, health care service plan, health maintenance organization, third party administrator, and any other entity reimbursing the costs of health care expenses.
- (h) "J512 Form" means the uniform dental claim form approved by the American Dental Association for use by dentists.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND CHAMPUS PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and confirms that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any release to Medicare medical and nonmedical information, including employment status, and whether the person has employer group health insurance, liability, no fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 8 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or CHAMPUS participation cases, the physician agrees to accept the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary as the full charge, and the patient is responsible only for the deductible, coinsurance and noncovered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary if this is less than the charge submitted. CHAMPUS is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned as "Insured," i.e., items 1A, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER, MEDICARE, CHAMPUS, FECA AND BLACK LUNG

I certify that the services shown on this form were medically indicated and necessary for the health of the patient and were personally furnished by me or were furnished incident to my professional service by my employee under my immediate personal supervision, except as otherwise expressly permitted by Medicare or CHAMPUS regulations.

For services to be considered as "incident" to a physician's professional service, 1) they must be rendered under the physician's immediate personal supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of nonphysicians must be included on the physician's bill.

For CHAMPUS claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5536). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, CHAMPUS, FECA, AND BLACK LUNG INFORMATION

(PRIVACY ACT STATEMENT)

We are authorized by HCFA, CHAMPUS and OWCP to ask you for information needed in the administration of the Medicare, CHAMPUS, FECA, and Black Lung programs. Authority to collect information is found in 42 USC 1395 and 1395a of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(a) (b), and 44 USC 3101-11 CFR 101 et seq and 10 USC 1076 and 1086, 5 USC 8101 et seq, and 30 USC 901 et seq; 28 USC 613, E.O. 9087.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, "Carrier Medicare Claims Record," published in the *Federal Register*, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republishing of Notice of Systems of Records," *Federal Register* Vol. 55 No. 40, Wed. Feb. 28, 1990. See EISA-5, EISA-6, EISA-12, EISA-20, or as updated and republished.

FOR CHAMPUS CLAIMS (PUBLIC LAW 100-667): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

(ROUTINE USES): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims, and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of CHAMPUS.

DISCLOSURES: Voluntary. However, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to document fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. Understanding that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact may be prosecuted under applicable Federal or State laws.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to HCFA, Office of Financial Management, P.O. Box 26664, Baltimore, MD 21207, and to the Office of Management and Budget, Paperwork Reduction Project (0985-0038), Washington, D.C. 20503.

Subject 120-2-60. CPA ANNUAL AUDITED FINANCIAL REPORTS.

Rule 120-2-60-.01. Authority.

This rule is promulgated by the Commissioner of Insurance pursuant to Sections [33-2-9](#) and [33-3-21](#) of the Georgia Insurance Code.

Cite as Ga. Comp. R. & Regs. R. 120-2-60-.01

Authority: O.C.G.A. Secs. [33-2-9](#), [33-3-21](#).

History. Original Rule entitled "Authority" adopted. F. Oct. 7, 1994; eff. Oct. 27, 1994.

Repealed: New Rule of same title adopted. F. June 25, 2015; eff. July 15, 2015.

Rule 120-2-60-.02. Purpose and Scope.

- (1) The purpose of this rule is to improve the Georgia Insurance Department's surveillance of the financial condition of insurers by requiring an annual examination by independent certified public accountants of the financial statements reporting the financial position and the results of operations of insurers.
- (2) Every insurer (as defined in [120-2-60-.03](#)) shall be subject to this rule. Insurers having direct premiums written in this state of less than \$1,000,000 in any calendar year and less than 1,000 policyholders or certificate holders of directly written policies nationwide at the end of such calendar year shall be exempt from this rule for such year (unless the Commissioner makes a specific finding that compliance is necessary for the Commissioner to carry out statutory responsibilities) except that insurers having assumed premiums pursuant to contracts and/or treaties of reinsurance of \$1,000,000 or more will not be so exempt.
- (3) Foreign or alien insurers filing audited financial reports in another state, pursuant to such other state's requirement of audited financial reports which has been found by the Commissioner to be substantially similar to the requirements herein, are exempt from this rule if:
 - (a) A copy of the Audited Financial Report, Report on Significant Deficiencies in Internal Controls, and the Accountant's Letter of Qualifications which are filed with such other state are filed with the Commissioner in accordance with the filing dates specified in [120-2-60-.04](#) and .11 and .12, respectively (Canadian insurers may submit accountants' reports as filed with the Canadian Dominion Department of Insurance); or

- (b) A copy of any Notification of Adverse Financial Condition Report filed with such other state is filed with the Commissioner within the time specified in [120-2-60-.10](#).
- (4) This rule shall not prohibit, preclude or in any way limit the Commissioner of Insurance from ordering and/or conducting and/or performing examinations of insurers under the rules and regulations of the Georgia Department of Insurance and the practices and procedures of the Georgia Department of Insurance.

Cite as Ga. Comp. R. & Regs. R. 120-2-60-.02

Authority: O.C.G.A. Secs. [33-2-9](#), [33-2-11](#), [33-3-21](#).

History. Original Rule entitled "Purpose and Scope" adopted. F. Oct. 7, 1994; eff. Oct. 27, 1994.

Repealed: New Rule of same title adopted. F. June 25, 2015; eff. July 15, 2015.

Rule 120-2-60-.03. Definitions.

- (1) "Accountant" or "independent certified public accountant" means an independent certified public accountant or accounting firm in good standing with the American Institute of Certified Public Accountants (AICPA) and in all states in which they are licensed to practice; for Canadian and British companies, it means a Canadian-chartered or British-chartered accountant.
- (2) An "affiliate" of, or person "affiliated" with, a specific person, is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.
- (3) "Audit committee" means a committee (or equivalent body) established by the board of directors of an entity for the purpose of overseeing the accounting and financial reporting processes of an insurer or Group of insurers, the internal audit function of an insurer or group of insurers (if applicable), and external audits of financial statements of the insurer or Group of insurers. The Audit committee of any entity that controls a Group of insurers may be deemed to be the Audit committee for one or more of these controlled insurers solely for the purposes of this regulation at the election of the controlling person. Refer to [120-2-60-.14\(5\)](#) for exercising this election. If an Audit committee is not designated by the insurer, the insurer's entire board of directors shall constitute the Audit committee.
- (4) "Audited financial report" means and includes those items specified in [120-2-60-.05](#) of this rule.
- (5) "Indemnification" means an agreement of indemnity or release from liability where the intent or effect is to shift or limit in any manner the potential liability of the person or firm for failure to adhere to applicable auditing or professional standards, whether or not resulting in part from knowing or other misrepresentations made by the insurer or its representatives.

- (6) "Independent board member" has the same meaning as described in [120-2-60-.14\(3\)](#).
- (7) "Insurer" means a licensed insurer as defined in Section [33-3-2\(a\)](#) of the Georgia Insurance Code.
- (8) "Group of insurers" means those licensed insurers included in the reporting requirements of Section [33-13-4](#) of the Georgia Insurance Code, or a set of insurers as identified by management, for the purpose of assessing the effectiveness of Internal control over financial reporting.
- (9) "Internal audit function" means a person or persons that provide independent, objective and reasonable assurance designed to add value and improve an organization's operations and accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.
- (10) "Internal control over financial reporting" means a process effected by an entity's board of directors, management and other personnel designed to provide reasonable assurance regarding the reliability of the financial statements, i.e., those items specified in [120-2-60-.05\(2\)\(b\) - \(g\)](#) of this regulation and includes those policies and procedures that:
 - (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets;
 - (b) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements, i.e., those items specified in [120-2-60-.05\(2\)\(b\) - \(g\)](#) of this regulation and that receipts and expenditures are being made only in accordance with authorizations of management and directors; and
 - (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on the financial statements, i.e., those items specified in [120-2-60-.05\(2\)\(b\) - \(g\)](#) of this regulation.
- (11) "SEC" means the United States Securities and Exchange Commission.
- (12) "Section 404" means Section 404 of the Sarbanes-Oxley Act of 2002 and the SEC's rules and regulations promulgated thereunder.
- (13) "Section 404 Report" means management's report on "internal control over financial reporting" as defined by the SEC and the related attestation report of the independent certified public accountant as defined in [120-2-60-.03\(1\)](#).
- (14) "SOX Compliant Entity" means an entity that either is required to be compliant with, or voluntarily is compliant with, all of the following provisions of the Sarbanes-Oxley Act of 2002: (i) the preapproval requirements of Section 201 (Section 10A(i) of the Securities Exchange Act of 1934); (ii) the Audit committee independence requirements of Section 301 (Section 10A(m)(3) of the Securities Exchange Act of 1934); and (iii) the

Internal control over financial reporting requirements of Section 404 (Item 308 of SEC Regulation S-K).

Rule 120-2-60-.04. Filing and Extensions for Filing of Annual Audited Financial Reports.

- (1) All insurers shall have an annual audit by an independent certified public accountant and shall file an Audited financial report with the Commissioner on or before June 1 for the year ended December 31 immediately preceding. The Commissioner may require an insurer to file an audited financial report earlier than June 1 with ninety (90) days advance notice to the insurer.
- (2) Extensions of the June 1 filing date may be granted by the Commissioner for thirty (30) day periods upon showing by the insurer and its independent certified public accountant the reasons for requesting such extension and determination by the Commissioner of good cause for an extension. The request for extension must be submitted in writing not less than ten (10) days prior to the due date in sufficient detail to permit the Commissioner to make an informed decision with respect to the requested extension.
- (3) If an extension is granted in accordance with the provisions in paragraph 2, a similar extension of thirty (30) days is granted to the filing of Management's Report of Internal Control over Financial Reporting.
- (4) Every insurer required to file an annual Audited financial report pursuant to this regulation shall designate a group of individuals as constituting its Audit committee, as defined in [120-2-60-.03\(3\)](#). The Audit committee of an entity that controls an insurer may be deemed to be the insurer's Audit committee for purposes of this regulation at the election of the controlling person.

Rule 120-2-60-.05. Contents of Annual Audited Financial Report.

- (1) The annual Audited financial report shall report the financial position of the insurer as of the end of the most recent calendar year and the results of its operations, cash flows and changes in capital and surplus for the year then ended in conformity with statutory accounting practices prescribed, or otherwise permitted, by the Department of Insurance of the state of domicile.
- (2) The annual Audited financial report shall include the following:
 - (a) Report of independent certified public accountant;
 - (b) Balance sheet reporting admitted assets, liabilities, capital and surplus;
 - (c) Statement of operations;
 - (d) Statement of cash flows;
 - (e) Statement of changes in capital and surplus;
 - (f) Notes to financial statements. These notes shall be those required by the appropriate NAIC Annual Statement Instructions and the NAIC Accounting Practices and Procedures Manual. In addition these notes shall also include:
 1. A reconciliation of differences, if any, between the audited statutory financial statements and the Annual Statement filed pursuant to O.C.G.A. Section [33-3-21](#) of the Georgia Insurance Code with a written description of the nature of these differences;
 2. A summary of ownership and relationships of the insurer and all affiliated companies; and
 - (g) The financial statements included in the Audited Financial Report shall be prepared in a form and using language and groupings substantially the same as the relevant sections of the Annual Statement of the insurer filed with the Commissioner, and the financial statement shall be comparative, presenting the amounts as of December 31 of the current year and the amounts as of the immediately preceding December 31. (However, in the first year in which an insurer is required to file an audited financial report, the comparative data may be omitted.)

Rule 120-2-60-.06. Designation of Independent Certified Public Accountant.

- (1) Each insurer required by this rule to file an annual Audited financial report must within sixty (60) days after becoming subject to such requirement, register with the Commissioner in writing the name and address of the independent certified public accountant or accounting firm retained to conduct the annual audit set forth in this rule. Insurers not retaining an independent certified public accountant on the effective date of this rule shall register the name and address of their retained independent certified public accountant not less than six (6) months before the date when the first audited financial report is to be filed.
- (2) The insurer shall obtain a letter from the accountant, and file a copy with the Commissioner stating that the accountant is aware of the provisions of the insurance code and the rules and regulations of the insurance department of the state of domicile that relate to accounting and financial matters and affirming that he or she will express his opinion on the financial statements in terms of their conformity to the statutory accounting practices prescribed or otherwise permitted by that Department, specifying such exceptions as he or she may believe appropriate.
- (3) If an accountant who was the accountant for the immediately preceding filed audited financial report is dismissed or resigns the insurer shall within five (5) business days notify the Commissioner of this event. The Commissioner shall also request that the insurer furnish the Commissioner with a separate letter within ten (10) business days of the above notification stating whether in the twenty-four (24) months preceding such event there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure; which disagreements, if not resolved to the satisfaction of the former accountant, would have caused him or her to make reference to the subject matter of the disagreement in connection with his or her opinion. The disagreements to be reported in response to this section include both those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this section are those that occur at the decision-making level, i.e., between personnel of the insurer responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report. The insurer should also in writing request the former accountant to furnish a letter addressed to the insurer stating whether the accountant agrees with the statements contained in the insurer's letter and, if not, stating the reasons for which he or she does not agree; and the insurer should furnish the responsive letter from the former accountant to the Commissioner together with its own.

Rule 120-2-60-.07. Qualifications of Independent Certified Public Accountant.

- (1) The Commissioner shall not recognize any person or firm as a qualified independent certified public accountant if that person or firm:
 - (a) Is not in good standing with the AICPA and in all states in which the accountant is licensed to practice, or, for a Canadian or British company, that is not a chartered accountant; or
 - (b) Has either directly or indirectly entered into an agreement of indemnity or release from liability (collectively referred to as indemnification) with respect to the audit of the insurer.
- (2) Except as otherwise provided herein, an independent certified public accountant shall be recognized as qualified as long as he or she conforms to the standards of his or her profession, as contained in the Code of Professional Ethics of the AICPA and Rules and Regulations and Code of Ethics and Rules of Professional Conduct of the Georgia Board of Public Accountancy, or similar code.
- (3) A qualified independent certified public accountant may enter into an agreement with an insurer to have disputes relating to an audit resolved by mediation or arbitration. However, in the event of a delinquency proceeding commenced against the insurer under Chapter 37 of the Georgia Insurance Code, the mediation or arbitration provisions shall operate at the option of the statutory successor.
- (4) The lead (or coordinating) audit partner, having primary responsibility for the audit, may not act in that capacity for more than five (5) consecutive years. Following any period of service such person shall be disqualified from acting in that or a similar capacity for the same company or its insurance subsidiaries or affiliates for a period of five (5) years. An insurer may make application to the Commissioner for relief from the above rotation requirement on the basis of unusual circumstances. This application should be made at least thirty (30) days before the end of the calendar year. The Commissioner may consider the following factors in determining if the relief should be granted:
 - (a) Number of partners, expertise of the partners or the number of insurance clients in the currently registered firm;
 - (b) Premium volume of the insurer; or
 - (c) Number of jurisdictions in which the insurer transacts business.
- (5) The insurer shall file, with its annual statement filing, the approval for relief from paragraph 4 with the states that it is licensed in or doing business in and with the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.
- (6) The Commissioner shall not recognize as a qualified independent certified public accountant, nor accept any annual Audited financial report, prepared in whole or in part by, any natural person who:

- (a) Has been convicted of fraud, bribery, a violation of the Racketeer Influenced and Corrupt Organizations Act, [18 U.S.C. Section 1961- 1968](#), or any dishonest conduct or practices under federal or state law;
 - (b) Has been found to have violated the insurance laws of this state with respect to any previous reports submitted under this rule; or
 - (c) Has demonstrated a pattern or practice of failing to detect or disclose material information in previous reports filed under the provisions of this rule.
- (7) The Commissioner, as provided in Chapter 2 of Title 33 of the Official Code of Georgia Annotated and the applicable Rules and Regulations of the Georgia Insurance Department, may hold a hearing to determine whether an independent certified public accountant is qualified and, considering the evidence presented, may rule that the accountant is not qualified for purposes of expressing his or her opinion on the financial statements in the annual Audited financial report made pursuant to this regulation and require the insurer to replace the accountant with another whose relationship with the insurer is qualified within the meaning of this regulation.
- (8) The Commissioner shall not recognize as a qualified independent certified public accountant, nor accept an annual Audited financial report, prepared in whole or in part by an accountant who provides to an insurer, contemporaneously with the audit, the following non-audit services:
 - (a) Bookkeeping or other services related to the accounting records or financial statements of the insurer;
 - (b) Financial information systems design and implementation;
 - (c) Appraisal or valuation services, fairness opinions, or contribution-in-kind reports;
 - (d) Actuarially-oriented advisory services involving the determination of amounts recorded in the financial statements. The accountant may assist an insurer in understanding the methods, assumptions and inputs used in the determination of amounts recorded in the financial statement only if it is reasonable to conclude that the services provided will not be subject to audit procedures during an audit of the insurer's financial statements. An accountant's actuary may also issue an actuarial opinion or certification ("opinion") on an insurer's reserves if the following conditions have been met:
 - (1) Neither the accountant nor the accountant's actuary has performed any management functions or made any management decisions;
 - (2) The insurer has competent personnel (or engages a third-party actuary) to estimate the reserves for which management takes responsibility; and

- (3) The accountant's actuary tests the reasonableness of the reserves after the insurer's management has determined the amount of the reserves;
 - (e) Internal audit outsourcing services;
 - (f) Management functions or human resources;
 - (g) Broker or dealer, investment adviser, or investment banking services;
 - (h) Legal services or expert services unrelated to the audit; or
 - (i) Any other services that the Commissioner determines, by regulation, are impermissible.
- (9) In general, the principles of independence with respect to services provided by the qualified independent certified public accountant are largely predicated on three basic principles, violations of which would impair the accountant's independence. The principles are that the accountant cannot function in the role of management, cannot audit his or her own work, and cannot serve in an advocacy role for the insurer.
- (10) Insurers having direct written and assumed premiums of less than \$100,000,000 in any calendar year may request an exemption from paragraph 8. The insurer shall file with the Commissioner a written statement discussing the reasons why the insurer should be exempt from these provisions. If the Commissioner finds, upon review of this statement, that compliance with this regulation would constitute a financial or organizational hardship upon the insurer, an exemption may be granted.
- (11) A qualified independent certified public accountant who performs the audit may engage in other non-audit services, including tax services, that are not described in paragraph 8 or that do not conflict with paragraph 9, only if the activity is approved in advance by the Audit committee, in accordance with paragraph 12.
- (12) All auditing services and non-audit services provided to an insurer by the qualified independent certified public accountant of the insurer shall be preapproved by the Audit committee. The preapproval requirement is waived with respect to non-audit services if the insurer is a SOX Compliant Entity or a direct or indirect wholly-owned subsidiary of a SOX Compliant Entity or:
- (a) The aggregate amount of all such non-audit services provided to the insurer constitutes not more than five percent (5%) of the total amount of fees paid by the insurer to its qualified independent certified public accountant during the fiscal year in which the non-audit services are provided;
 - (b) The services were not recognized by the insurer at the time of the engagement to be non-audit services; and

- (c) The services are promptly brought to the attention of the Audit committee and approved prior to the completion of the audit by the Audit committee or by one or more members of the Audit committee who are the members of the board of directors to whom authority to grant such approvals has been delegated by the Audit committee.
- (13) The Audit committee may delegate to one or more designated members of the Audit committee the authority to grant the preapprovals required by paragraph 12. The decisions of any member to whom this authority is delegated shall be presented to the full Audit committee at each of its scheduled meetings.
- (14) The Commissioner shall not recognize an independent certified public accountant as qualified for a particular insurer if a member of the board, president, chief executive officer, controller, chief financial officer, chief accounting officer, or any person serving in an equivalent position for that insurer, was employed by the independent certified public accountant and participated in the audit of that insurer during the one-year period preceding the date that the most current statutory opinion is due. This section shall only apply to partners and senior managers involved in the audit. An insurer may make application to the Commissioner for relief from the above requirement on the basis of unusual circumstances.
- (15) The insurer shall file, with its annual statement filing, the approval for relief from paragraph 14 with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.

Rule 120-2-60-.08. Consolidated or Combined Audits.

An insurer may make written application to the Commissioner for approval to file audited consolidated or combined financial statements in lieu of separate annual audited financial statements if the insurer is part of a group of insurance companies which utilizes a pooling or one hundred percent reinsurance agreement that affects the solvency and integrity of the insurer's reserves and such insurer cedes all of its direct and assumed business to the pool. In such cases, a columnar consolidating or combining worksheet shall be filed with the report, as follows:

- (a) Amounts shown on the consolidated or combined Audited Financial Report shall be shown on the worksheet;
- (b) Amounts for each insurer subject to this section shall be stated separately;
- (c) Noninsurance operations may be shown on the worksheet on a combined or individual basis;
- (d) Explanations of consolidating and eliminating entries shall be included; and
- (e) A reconciliation shall be included of any differences between the amounts shown in the individual insurer columns of the worksheet and comparable amounts shown on the Annual Statements of the insurers.

Rule 120-2-60-.09. Scope of Examination and Report of Independent Certified Public Accountant.

Financial statements furnished pursuant to [120-2-60-.05](#) hereof shall be audited by an independent certified public accountant. The audit of the insurer's financial statements shall be conducted in accordance with generally accepted auditing standards. In accordance with AU Section 319 of the Professional Standards of the AICPA (Consideration of Internal Control in a Financial Statement Audit), the independent certified public accountant should obtain an understanding of internal control sufficient to plan the audit. To the extent required by AU 319, for those insurers required to file a Management's Report of Internal Control over Financial Reporting pursuant to [120-2-60-.17](#), the independent certified public accountant should consider (as that term is defined in Statement on Auditing Standards (SAS) No. 102, Defining Professional Requirements in Statements on Auditing Standards or its replacement) the most recently available report in planning and performing the audit of the statutory financial statements. Consideration shall also be given to such other procedures illustrated in the Financial Condition Examiner's Handbook promulgated by the National Association of Insurance Commissioners as the independent certified public accountant deems necessary.

Rule 120-2-60-.10. Notification of Adverse Financial Condition.

- (1) The insurer required to furnish the annual Audited financial report shall require the independent certified public accountant to report, in writing, within five (5) business days to the board of directors or its Audit committee any determination by the independent certified public accountant that the insurer has materially misstated its financial condition as reported to the Commissioner as of the balance sheet date currently under audit or that the insurer does not meet the minimum capital and surplus requirement of the Georgia Insurance Code as of that date. An insurer who has received a report pursuant to this paragraph shall forward a copy of the report to the Commissioner within five (5) business days of receipt of such report and shall provide the independent certified public accountant making the report with evidence of the report being furnished to the Commissioner. If the independent certified public accountant fails to receive such evidence within the required five (5) business day period, the independent certified public accountant shall furnish to the Commissioner a copy of its report within the next five (5) business days.
- (2) No independent certified public accountant shall be liable in any manner to any person for any statement made in connection with the above paragraph if the statement is made in good faith in compliance with paragraph 1.
- (3) If the accountant, subsequent to the date of the Audited financial report filed pursuant to this rule, becomes aware of facts which might have affected his report, the Commissioner notes the obligation of the accountant to take such action as prescribed in Volume 1, Section AU 561 of the Professional Standards of the AICPA.

Rule 120-2-60-.11. Communication of Internal Control Related Matters Noted in an Audit.

- (1) In addition to the annual audited financial Statements, each insurer shall furnish the Commissioner with a written communication as to any unremediated material weaknesses in its Internal control over financial reporting noted during the audit. Such communication shall be prepared by the accountant within sixty (60) days after the filing of the annual Audited financial report, and shall contain a description of any unremediated material weakness (as the term material weakness is defined by Statement on Auditing Standard 60, Communication of Internal Control Structure Matters Noted in an Audit, or its replacement) as of December 31 immediately preceding (so as to coincide

with the Audited financial report discussed in [120-2-60-.04\(1\)](#) in the insurer's Internal control over financial reporting noted by the accountant during the course of their audit of the financial statements. If no unremediated material weaknesses were noted, the communication shall so state.

- (2) The insurer is required to provide a description of remedial actions taken or proposed to correct unremediated material weaknesses, if the actions are not described in the accountant's communication.

[Rule 120-2-60-.12. Accountant's Letter of Qualifications.](#)

The accountant shall furnish the insurer in connection with, and for inclusion in, the filing of the annual Audited financial report, a letter stating:

- (a) That the accountant is independent with respect to the insurer and conforms to the standards of his or her profession as contained in the Code of Professional Ethics and pronouncements of the AICPA and the Rules of Professional Conduct of the Georgia Board of Public Accountancy, or similar code;
- (b) The background and experience in general, and the experience in audits of insurers of the staff assigned to the engagement and whether each is an independent certified public accountant. Nothing within this rule shall be construed as prohibiting the accountant from utilizing such staff as he or she deems appropriate where use is consistent with the standards prescribed by generally accepted auditing standards;
- (c) That the accountant understands the annual Audited financial report and his or her opinion thereon will be filed in compliance with this rule and that the Commissioner will be relying on this information in the monitoring and regulation of the financial position of insurers;
- (d) That the accountant consents to the requirements of [120-2-60-.13](#) and that the accountant consents and agrees to make available for review by the Commissioner, or the Commissioner's designee or appointed agent, the workpapers as defined in [120-2-60-.13](#);
- (e) A representation that the accountant is properly licensed by an appropriate state licensing authority and is a member in good standing in the AICPA; and

- (f) A representation that the accountant is in compliance with the requirements of [120-2-60-.07](#) of this regulation.

Rule 120-2-60-.13. Definition, Availability and Maintenance of CPA Workpapers.

- (1) Workpapers are the records kept by the independent certified public accountant of the procedures followed, the tests performed, the information obtained, and the conclusions reached pertinent to the audit of the financial statements of an insurer. Workpapers, accordingly, may include audit planning documentation, work programs, analyses, memoranda, letters of confirmation and representation, abstracts of company documents and schedules or commentaries prepared or obtained by the independent certified public accountant in the course of his or her audit of the financial statements of an insurer and which support his or her opinion thereof.
- (2) Every insurer required to file an Audited financial report pursuant to this rule shall require the accountant to make available for review by insurance department examiners all workpapers prepared in the conduct of the accountant's audit and any communications related to the audit between the accountant and the insurer, at the offices of the insurer, at the insurance department or at any other reasonable place designated by the Commissioner. The insurer shall require that the accountant retain the audit workpapers and communications until the insurance department has filed a report on examination covering the period of the audit but no longer than seven (7) years from the date of the audit report.
- (3) In the conduct of the aforementioned review by insurance department examiners, it shall be agreed that photocopies of pertinent audit workpapers may be made and retained by the Department. Such reviews by the Department examiners are examinations and all working papers and communications obtained during the course of such examinations shall be afforded the same confidentiality as other examination workpapers generated by the Department or Department examiners.

Rule 120-2-60-.14. Requirements for Audit Committees.

This section shall not apply to foreign or alien insurers licensed in this state or an insurer that is a SOX Compliant Entity or a direct or indirect wholly-owned subsidiary of a SOX Compliant Entity.

- (a) The Audit committee shall be directly responsible for the appointment, compensation and oversight of the work of any accountant (including resolution of disagreements between management and the accountant regarding financial reporting) for the purpose of preparing or issuing the Audited financial report or related work pursuant to this regulation. Each accountant shall report directly to the Audit committee.
- (b) The audit committee of an insurer or group of insurers shall be responsible for overseeing the insurer's Internal audit function and granting the person or persons performing the function suitable authority and resources to fulfill their responsibilities if required by [120-2-60-.15](#) of this regulation.
- (c) Each member of the Audit committee shall be a member of the board of directors of the insurer or a member of the board of directors of an entity elected pursuant to paragraph (f) and [120-2-60-.03\(3\)](#).
- (d) In order to be considered independent for purposes of this section, a member of the Audit committee may not, other than in his or her capacity as a member of the Audit committee, the board of directors, or any other board committee, accept any consulting, advisory or other compensatory fee from the entity or be an affiliated person of the entity or any subsidiary thereof. However, if law requires board participation by otherwise non-independent members, that law shall prevail and such members may participate in the Audit committee and be designated as independent for Audit committee purposes, unless they are an officer or employee of the insurer or one of its affiliates.
- (e) If a member of the Audit committee ceases to be independent for reasons outside the member's reasonable control, that person, with notice by the responsible entity to the state, may remain an Audit committee member of the responsible entity until the earlier of the next annual meeting of the responsible entity or one year from the occurrence of the event that caused the member to be no longer independent.
- (f) To exercise the election of the controlling person to designate the Audit committee for purposes of this regulation, the ultimate controlling person shall provide written notice to the commissioners of the affected insurers. Notification shall be made timely prior to the issuance of the statutory audit report and include a description of the basis for the election. The election can be changed through notice to the Commissioner by the insurer, which shall include a description of the basis for the change. The election shall remain in effect for perpetuity, until rescinded.

- (g) (1) The Audit committee shall require the accountant that performs for an insurer any audit required by this regulation to timely report to the Audit committee in accordance with the requirements of SAS 61, Communication with Audit Committees, or its replacement, including:
- i. All significant accounting policies and material permitted practices;
 - ii. All material alternative treatments of financial information within statutory accounting principles that have been discussed with management officials of the insurer, ramifications of the use of the alternative disclosures and treatments, and the treatment preferred by the accountant; and iii. Other material written communications between the accountant and the management of the insurer, such as any management letter or schedule of unadjusted differences.
- (2) If an insurer is a member of an insurance holding company system, the reports required by paragraph (g)(1)) may be provided to the Audit committee on an aggregate basis for insurers in the holding company system, provided that any substantial differences among insurers in the system are identified to the Audit committee.

- (h) The proportion of independent Audit committee members shall meet or exceed the following criteria:

Prior Calendar Year Direct Written and Assumed Premiums		
\$0 - \$300,000,000	Over \$300,000,000 - \$500,000,000	Over \$500,000,000
No minimum requirements. See also Note A and B.	Majority (50% or more) of members shall be independent. See also Note A and B.	Supermajority of members (75% or more) shall be independent. See also Note A.

Note A: The Commissioner has authority afforded by state law to require the entity's board to enact improvements to the independence of the Audit committee membership if the insurer is in a risk based capital action level event, meets one or more of the standards of an insurer deemed to be in hazardous financial condition, or otherwise exhibits qualities of a troubled insurer.

Note B: All insurers with less than \$500,000,000 in prior year direct written and assumed premiums are encouraged to structure their Audit committees with at least a supermajority of independent Audit committee members.

Note C: Prior calendar year direct written and assumed premiums shall be the combined total of direct premiums and assumed premiums from non-affiliates for the reporting entities.

- (i) An insurer with direct written and assumed premium, excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than \$500,000,000 may make application to the Commissioner for a waiver from the 120-2-60-.14 requirements based upon hardship. The insurer shall file, with its annual statement filing, the approval for relief from 120-2-60-.14 with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.

Repealed: New Rule of same title adopted. F. June 25, 2015; eff. July 15, 2015.

Rule 120-2-60-.15. Internal Audit Function Requirements.

- (1) Exemption - An insurer is exempt from the requirements of this section if:
 - (a) The insurer has annual direct written and unaffiliated assumed premium, including international direct and assumed premium but excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than \$500,000,000; and,
 - (b) If the insurer is a member of a group of insurers, the group has annual direct written and unaffiliated assumed premium including international direct and assumed premium, but excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than \$1,000,000,000.
- (2) Function - The insurer or group of insurers shall establish an internal audit function providing independent, objective and reasonable assurance to the Audit committee and insurer management regarding the insurer's governance, risk management and internal controls. This assurance shall be provided by performing general and specific audits, reviews and tests and by employing other techniques deemed necessary to protect assets, evaluate control effectiveness and efficiency, and evaluate compliance with policies and regulations.
- (3) Independence - In order to ensure that internal auditors remain objective, the internal audit function must be organizationally independent. Specifically, the internal audit function will not defer ultimate judgment on audit matters to others, and shall appoint an individual to head the internal audit function who will have direct and unrestricted access to the board of directors. Organizational independence does not preclude dual-reporting relationships.
- (4) Reporting - The head of the internal audit function shall report to the audit committee regularly, but no less than annually, on the periodic audit plan, factors that may adversely

impact the internal audit function's independence or effectiveness, material findings from completed audits and the appropriateness of corrective actions implemented by management as a result of audit findings.

- (5) Additional Requirements - If an insurer is a member of an insurance holding company system or included in a group of insurers, the insurer may satisfy the internal audit function requirements set forth in this section at the ultimate controlling parent level, an intermediate holding company level or the individual legal entity level.

Amended: F. Oct. 1, 2015; eff. Oct. 21, 2015.

Rule 120-2-60-.16. Conduct of Insurer in Connection with the Preparation of Required Reports and Documents.

- (1) No director or officer of an insurer shall, directly or indirectly:
- (a) Make or cause to be made a materially false or misleading statement to an accountant in connection with any audit, review or communication required under this regulation; or
 - (b) Omit to state, or cause another person to omit to state, any material fact necessary in order to make statements made, in light of the circumstances under which the statements were made, not misleading to an accountant in connection with any audit, review or communication required under this regulation.
- (2) No officer or director of an insurer, or any other person acting under the direction thereof, shall directly or indirectly take any action to coerce, manipulate, mislead or fraudulently influence any accountant engaged in the performance of an audit pursuant to this regulation if that person knew or should have known that the action, if successful, could result in rendering the insurer's financial statements materially misleading.
- (3) For purposes of paragraph 2 of this section, actions that, "if successful, could result in rendering the insurer's financial statements materially misleading" include, but are not limited to, actions taken at any time with respect to the professional engagement period to coerce, manipulate, mislead or fraudulently influence an accountant:
- (a) To issue or reissue a report on an insurer's financial statements that is not warranted in the circumstances (due to material violations of statutory accounting

principles prescribed by the Commissioner, generally accepted auditing standards, or other professional or regulatory standards);

- (b) Not to perform audit, review or other procedures required by generally accepted auditing standards or other professional standards;
- (c) Not to withdraw an issued report; or
- (d) Not to communicate matters to an insurer's Audit committee.

Rule 120-2-60-.17. Management's Report of Internal Control over Financial Reporting.

- (1) Every insurer required to file an Audited financial report pursuant to this regulation that has annual direct written and assumed premiums, excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, of \$500,000,000 or more shall prepare a report of the insurer's or Group of insurers' Internal control over financial reporting, as these terms are defined in [120-2-60-.03](#). The report shall be filed with the Commissioner along with the Communication of Internal Control Related Matters Noted in an Audit described under [120-2-60-.11](#). Management's Report of Internal Control over Financial Reporting shall be as of December 31 immediately preceding.
- (2) Notwithstanding the premium threshold in paragraph 1, the Commissioner may require an insurer to file Management's Report of Internal Control over Financial Reporting if the insurer is in any RBC level event, or meets any one or more of the standards of an insurer deemed to be in hazardous financial condition as defined in 120-2-54.
- (3) An insurer or a Group of insurers that is
 - (a) directly subject to Section 404;
 - (b) part of a holding company system whose parent is directly subject to Section 404;
 - (c) not directly subject to Section 404 but is a SOX Compliant Entity; or

- (d) a member of a holding company system whose parent is not directly subject to Section 404 but is a SOX Compliant Entity;

may file its or its parent's Section 404 Report and an addendum in satisfaction of this requirement provided that those internal controls of the insurer or Group of insurers having a material impact on the preparation of the insurer's or Group of insurers' audited statutory financial statements (those items included in [120-2-60-.05\(2\)\(b\) - \(g\)](#)) were included in the scope of the Section 404 Report. The addendum shall be a positive statement by management that there are no material processes with respect to the preparation of the insurer's or Group of insurers' audited statutory financial statements (those items included in [120-2-60-.05\(2\)\(b\) - \(g\)](#)) excluded from the Section 404 Report. If there are internal controls of the insurer or Group of insurers that have a material impact on the preparation of the insurer's or Group of insurers' audited statutory financial statements and those internal controls were not included in the scope of the Section 404 Report, the insurer or Group of insurers may either file (i) a [120-2-60-.16](#) report, or (ii) the Section 404 Report and a [120-2-60-.16](#) report for those internal controls that have a material impact on the preparation of the insurer's or Group of insurers' audited statutory financial statements not covered by the Section 404 Report.

(4) Management's Report of Internal Control over Financial Reporting shall include:

- (a) A statement that management is responsible for establishing and maintaining adequate Internal control over financial reporting;
- (b) A statement that management has established Internal control over financial reporting and an assertion, to the best of management's knowledge and belief, after diligent inquiry, as to whether its Internal control over financial reporting is effective to provide reasonable assurance regarding the reliability of financial statements in accordance with statutory accounting principles;
- (c) A statement that briefly describes the approach or processes by which management evaluated the effectiveness of its Internal control over financial reporting; and
- (d) A statement that briefly describes the scope of work that is included and whether any internal controls were excluded;
- (e) Disclosure of any unremediated material weaknesses in the Internal control over financial reporting identified by management as of December 31 immediately preceding. Management is not permitted to conclude that the Internal control over financial reporting is effective to provide reasonable assurance regarding the reliability of financial statements in accordance with statutory accounting principles if there is one or more unremediated material weaknesses in its Internal control over financial reporting;

- (f) A statement regarding the inherent limitations of internal control systems; and
 - (g) Signatures of the chief executive officer and the chief financial officer (or equivalent position/title).
- (5) Management shall document and make available upon financial condition examination the basis upon which its assertions, required in paragraph 4 above, are made. Management may base its assertions, in part, upon its review, monitoring and testing of internal controls undertaken in the normal course of its activities.
- (a) Management shall have discretion as to the nature of the internal control framework used, and the nature and extent of documentation, in order to make its assertion in a cost effective manner and, as such, may include assembly of or reference to existing documentation.
 - (b) Management's Report on Internal Control over Financial Reporting, required by [120-2-60-.16\(1\)](#) above, and any documentation provided in support thereof during the course of a financial condition examination, shall be kept confidential by the state insurance department.

Rule 120-2-60-.18. Exemptions and Effective Dates.

- (1) Upon written application of any insurer, the Commissioner may grant an exemption from compliance with this rule if the Commissioner finds, upon review of the application, that compliance with this rule would constitute a financial or organizational hardship upon the insurer. An exemption may be granted at any time and from time to time for a specified period or periods. Within ten (10) days from a denial of an insurer's written request for an exemption from this rule, such insurer may request in writing a hearing on its application for an exemption. Such hearing shall be conducted in accordance with Chapter 2 of Title 33 of the Official Code of Georgia Annotated and the applicable Rules and Regulations of the Georgia Insurance Department.
- (2) Domestic insurers retaining a certified public accountant on the effective date of this regulation who qualify as independent shall comply with this regulation for the year ending December 31, 2010, and each year thereafter unless the Commissioner permits otherwise.

- (3) Domestic insurers not retaining a certified public accountant on the effective date of this rule who qualify as independent may meet the following schedule for compliance unless the Commissioner permits otherwise.
- (a) As of December 31, 2010, file with the Commissioner:
 - 1. Report of independent certified public accountant;
 - 2. Audited balance sheet;
 - 3. Notes to audited balance sheet.
 - (b) For the year ending December 31, 2010, and each year thereafter, such insurers shall file with the Commissioner all reports required by this regulation.
- (4) Foreign insurers shall comply with this Regulation for the year ending December 31, 2010, and each year thereafter, unless the Commissioner permits otherwise.
- (5) The requirements of [120-2-60-.07\(4\)](#) shall be in effect for audits of the year beginning January 1, 2010 and thereafter.
- (6) The requirements of [120-2-60-.14](#) are to be in effect January 1, 2010. An insurer or Group of insurers that is not required to have independent Audit committee members or only a majority of independent Audit committee members (as opposed to a supermajority) because the total written and assumed premium is below the threshold and subsequently becomes subject to one of the independence requirements due to changes in premium shall have one (1) year following the year the threshold is exceeded (but not earlier than January 1, 2010) to comply with the independence requirements. Likewise, an insurer that becomes subject to one of the independence requirements as a result of a business combination shall have one (1) calendar year following the date of acquisition or combination to comply with the independence requirements.
- (7) The requirements of [120-2-60-.17](#) and other modified sections [i.e., [120-2-60-.03](#), .04, .05, .06, .07, .09, .10, .11, .12, .13, .15, .17, .18, and .19], except for [120-2-60-.14](#) covered above, are effective beginning with the reporting period ending December 31, 2010 and each year thereafter. An insurer or Group of insurers that is not required to file a report because the total written premium is below the threshold and subsequently becomes subject to the reporting requirements shall have two (2) years following the year the threshold is exceeded (but not earlier than December 31, 2010) to file a report. Likewise, an insurer acquired in a business combination shall have two (2) calendar years following the date of acquisition or combination to comply with the reporting requirements.
- (8) The requirements of [120-2-60-.15](#) are to be in effect January 1, 2016. If an insurer or group of insurers that is exempt from the [120-2-60-.15](#) requirements no longer qualifies for that exemption, it shall have one year after the year the threshold is exceeded to comply with the requirements of this article.

Rule 120-2-61-.02. Preamble.

- (1) The Georgia Insurance Department recognizes that licensed insurers routinely enter into reinsurance agreements that yield legitimate relief to the ceding insurer from strain to surplus.
- (2) However, it is improper for a licensed insurer, in the capacity of ceding insurer, to enter into reinsurance agreements for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business being reinsured. In substance or effect, the expected potential liability to the ceding insurer remains basically unchanged by the reinsurance transaction, notwithstanding certain risk elements in the reinsurance agreement, such as catastrophic mortality or extraordinary survival. The terms of such agreements referred to herein and described in Section [120-2-61-.04\(1\)](#) (excluding the provisions found in [120-2-61-.04\(1\)\(g\)1.](#) and [120-2-61-.04\(1\)\(g\)2.](#)) violate:
 - (a) O.C.G.A. Section [33-3-21](#) relating to financial statements which do not properly reflect the financial condition of the ceding insurer;
 - (b) O.C.G.A. Section [33-7-14](#) relating to reinsurance reserve credits, thus, resulting in a ceding insurer improperly reducing liabilities or establishing assets for reinsurance ceded; and
 - (c) O.C.G.A. Section [33-3-17](#), relating to creating a situation that may be hazardous to policyholders and the people of this State.

History. Original Rule entitled "Preamble" adopted. F. Sept. 8, 1993; eff. Sept. 28, 1993.

Rule 120-2-61-.03. Scope.

This Regulation shall apply to all domestic life and accident and health insurers and to all other licensed life and accident and health insurers which are not subject to a substantially similar regulation in their domiciliary state. This regulation shall also similarly apply to licensed property and casualty insurers with respect to their accident and health business. This regulation shall not apply to assumption reinsurance, yearly renewable term reinsurance or certain nonproportional reinsurance such as stop loss or catastrophe reinsurance.

History. Original Rule entitled "Scope" adopted. F. Sept. 8, 1993; eff. Sept. 28, 1993.

Rule 120-2-61-.04. Accounting Requirements.

- (1) No insurer subject to this regulation shall, for reinsurance ceded, reduce any liability or establish any asset in any financial statement filed with the Department if, by the terms of the reinsurance agreement, in substance or effect, any of the following conditions exist:
- (a) Renewal expense allowance provided or to be provided to the ceding insurer by the reinsurer in any accounting period are not sufficient to cover anticipated allocable renewal expenses of the ceding insurer on the portion of the business reinsured, unless a liability is established for the present value of the shortfall (using assumptions equal to the applicable statutory reserve basis on the business reinsured). Those expenses include commissions, premium taxes and direct expenses including, but not limited to, billing, valuation, claims and maintenance expected by the company at the time the business is reinsured;
 - (b) The ceding insurer can be deprived of surplus or assets at the reinsurer's option or automatically upon the occurrence of some event, such as the insolvency of the ceding insurer, except that termination of the reinsurance agreement by the reinsurer for nonpayment of reinsurance premiums or other amounts due, such as modified coinsurance reserve adjustments, interest and adjustments on funds withheld, and tax reimbursements, shall not be considered to be such a deprivation of surplus or assets;
 - (c) The ceding insurer is required to reimburse the reinsurer for negative experience under the reinsurance agreement, except that neither offsetting experience refunds against current and prior years' losses under the agreement nor payment by the ceding insurer of an amount equal to the current and prior years' losses under the agreement upon voluntary termination of in force reinsurance by the ceding insurer shall be considered such a reimbursement to the reinsurer for negative experience. Voluntary termination does not include situations where termination occurs because of unreasonable provisions which allow the reinsurer to reduce its risk under the agreement. An example of such a provision is the right of the reinsurer to increase reinsurance premiums or risk and expense charges to excessive levels forcing the ceding company to prematurely terminate the reinsurance treaty;
 - (d) The ceding insurer must, at specific points in time scheduled in the agreement, terminate or automatically recapture all or part of the reinsurance ceded;
 - (e) The reinsurance agreement involves the possible payment by the ceding insurer to the reinsurer of amounts other than from income realized from the reinsured policies. For example, it is improper for a ceding company to pay reinsurance premiums or other fees or charges to a reinsurer which are greater than the direct premiums collected by the ceding company;
 - (f) The treaty does not transfer all of the significant risk inherent in the business being reinsured. The table following subparagraph (vi) identifies for a representative sampling of products or type of business, the risks which are considered to be

significant. For products not specifically included, the risks determined to be significant shall be consistent with this table.

1. Risk categories:

- (i) Morbidity.
- (ii) Mortality.
- (iii) Lapse - This is the risk that a policy will voluntarily terminate prior to the recoupment of a statutory surplus strain experienced at issue of the policy.
- (iv) Credit Quality - This is the risk that invested assets supporting the reinsured business will decrease in value. The main hazards are that assets will default or that there will be a decrease in earning power. It excludes market value declines due to changes in interest rate.
- (v) Reinvestment - This is the risk that interest rates will fall and funds reinvested (coupon payments or monies received upon asset maturity or call) will therefore earn less than expected. If asset durations are less than liability durations, the mismatch will increase.
- (vi) Disintermediation - This is the risk that interest rates rise and policy loans and surrenders increase or maturing contracts do not renew at anticipated rates of renewal. If assets durations are greater than the liability durations, the mismatch will increase. Policyholders will move their funds into new products offering higher rates. The company may have to sell assets at a loss to provide for these withdrawals.

TABLE

	+ - Significant		0 - Insignificant

*LTD = Long Term Disability Insurance						

(g) The credit quality, reinvestment, or disintermediation risk is significant for the business reinsured and the ceding company does not (other than for the classes of business excepted in 120-2-61-.04(1)(g)1.) either transfer the underlying assets to the reinsurer or legally segregate such assets in a trust or escrow account or otherwise establish a mechanism satisfactory to the Commissioner which legally segregates, by contract or contract provision, the underlying assets.

1. Notwithstanding the requirements of 120-2-61-.04(1)(g), the assets supporting the reserves for the following classes of business and any classes of business which do not have a significant credit quality, reinvestment or disintermediation risk may be held by the ceding company without segregation of such assets:
 - (i) Health Insurance - LTC/LTD;
 - (ii) Traditional Non-Par Permanent;
 - (iii) Traditional Par Permanent;
 - (iv) Adjustable Premium Permanent;
 - (v) Indeterminate Premium Permanent;
 - (vi) Universal Life Fixed Premium (no dump-in premiums allowed).
2. The associated formula for determining the reserve interest rate adjustment must use a formula which reflects the ceding company's investment

earnings and incorporates all realized and unrealized gains and losses reflected in the quarterly and annual statements of the insurer. The following is an acceptable formula:

$$\text{Rate} = 2 (I + CG)$$

$$X + Y - I - CG$$

Where: I is the net investment income

(Exhibit 2, Line 16, Column 7)

CG is capital gains less capital losses

(Exhibit 4, Line 10, Column 6)

X is the current year cash and invested assets

(Page 2, Line 104, Column 1) plus investment income due and accrued (Page 2, Line 16, Column 1) less borrowed money (Page 3, Line 22, Column 1)

Y is the same as X but for the prior year

- (h) Settlements are made less frequently than quarterly or payments due from the reinsurer are not made in cash within ninety (90) days of the settlement date;
 - (i) The ceding insurer is required to make representations or warranties not reasonably related to the business being reinsured;
 - (j) The ceding insurer is required to make representations or warranties about future performance of the business being reinsured;
 - (k) The reinsurance agreement is entered into for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business reinsured and, in substance or effect, the expected potential liability to the ceding insurer remains basically unchanged.
- (2) Notwithstanding 120-2-61-.04(1), an insurer subject to this regulation may, with the prior approval of the Commissioner, take such reserve credit or establish such asset as the

Commissioner may deem consistent with the Georgia Insurance Code and Rules and Regulations, including actuarial interpretations or standards adopted by the Department.

- (3) Agreements entered into after the effective date of this regulation which involve the reinsurance of business issued prior to the effective date of the agreements, along with any subsequent amendments thereto, shall be filed by the ceding company with the Commissioner within thirty (30) days from its date of execution. Each filing shall include data detailing the financial impact of the transaction. The ceding insurer's actuary who signs the financial statement actuarial opinion with respect to valuation of reserves shall consider this regulation and any applicable actuarial standards of practice when determining the proper credit in financial statements filed with this Department. The actuary should maintain adequate documentation and be prepared upon request to describe the actuarial work performed for inclusion in the financial statements and to demonstrate that such work conforms to this regulation;
 - (a) Any increase in surplus net of federal income tax resulting from arrangements described in 120-2-61-.04(3) shall be identified separately on the insurer's statutory financial statement as a surplus item (aggregate write-ins for gains and losses in surplus in the Capital and Surplus Account, page 4 of the Annual Statement) and recognition of the surplus increase as income shall be reflected on a net of tax basis in the "Reinsurance ceded" line, page 4 of the Annual Statement as earnings emerge from the business reinsured.
 - (b) For example, on the last day of calendar year N, company XYZ pays a \$20 million initial commission and expense allowance to company ABC for reinsuring an existing block of business. Assuming a 34% tax rate, the net increase in surplus at inception is \$13.2 million (\$20 million - \$6.8 million) which is reported on the "Aggregate write-ins for gains and losses in surplus" line in the Capital and Surplus account. \$6.8 million (34% of \$20 million) is reported as income on the "Commissions and expense allowances on reinsurance ceded" line of the Summary of Operations.
 1. At the end of year N+1 the business has earned \$4 million. ABC has paid \$.5 million in profit and risk charges in arrears for the year and has received a \$1 million experience refund. Company ABC's annual statement would report \$1.65 million (66% of (\$ million - \$1 million - \$.5 million) up to a maximum of \$13.2 million) on the "Commissions and expense allowance on reinsurance ceded" line of the Summary of Operations, and -\$1.65 million on the "Aggregate write-ins for gains and losses in surplus" line of the Capital and Surplus account. The experience refund would be reported separately as a miscellaneous income item in the Summary of Operations.

Rule 120-2-61-.05. Written Agreements.

- (1) No reinsurance agreement or amendment to any agreement may be used to reduce any liability or to establish any asset in any financial statement filed with the Department, unless the agreement, amendment or a letter of intent has been duly executed by both parties no later than the "as of date" of the financial statement.
- (2) In the case of a letter of intent, a reinsurance agreement or an amendment to a reinsurance agreement must be executed within a reasonable period of time, not exceeding ninety (90) days from the execution date of the letter of intent, in order for credit to be granted for the reinsurance ceded.
- (3) The reinsurance agreement shall contain provisions which provide that:
 - (a) The agreement shall constitute the entire agreement between the parties with respect to the business being reinsured thereunder and that there are no understandings between the parties other than as expressed in the agreement; and
 - (b) Any change or modification to the agreement shall be null and void unless made by amendment to the agreement and signed by both parties.

NOTICE OF TRANSFER

IMPORTANT: THIS NOTICE AFFECTS YOUR CONTRACT RIGHTS.

PLEASE READ IT CAREFULLY.

Transfer of Policy

The ABC insurance Company has agreed to replace us as your insurer under {insert policy/certificate name and number} effective {insert date}.

The ABC Insurance Company's principal place of business is {insert address}. You may obtain financial information concerning ABC Insurance Company by contacting your Commissioner of Insurance at {insert address}.

This transfer is necessary due to {insert detailed statement explaining the reason[s]}.

The ABC Insurance Company is licensed to write this coverage in the following states: {insert states)

If the ABC Company is not licensed in the state in which you reside, this transfer may affect your guaranty fund protection or your Insurance Commissioner's ability to assist you with any matters concerning the company.

Your Rights

You may choose to reject the transfer and novation of your policy to ABC Insurance Company. If you do *not* want your policy transferred, you *must* notify us in writing no later than 60 days after the date this notice was mailed to you by signing and returning the enclosed pre-addressed, postage-paid card or by writing to us at:

{Insert name, address and facsimile number of contact person.}

IF WE DO NOT RECEIVE YOUR WRITTEN REJECTION WITHIN THE 60 DAY PERIOD, YOU WILL BE SENT A SECOND NOTICE. IF WE DO NOT RECEIVE YOUR WRITTEN REJECTION WITHIN 30 DAYS AFTER THE DATE OF THE SECOND MAILING, YOU SHALL BE DEEMED TO HAVE ACCEPTED THE TRANSFER.

If you reject the transfer, you may keep your policy with us or exercise any option under your policy.

Effect of Transfer

If you do not reject this transfer and novation, ABC

Insurance Company will be your insurer. It will have direct responsibility to you for the payment of all claims, benefits and for all other policy obligations. We will no longer have any obligations to you.

{Insert a summary of any effect that rejecting the transfer and novation will have on the policyholder's rights including, for participating policyholders, dividend payments or payments under the contract of insurance.}

If you have any further questions about this agreement, you may contact XYZ Insurance Company or ABC Insurance Company.

Sincerely,

President

Subject 120-2-64. PRODUCER CONTROLLED PROPERTY AND CASUALTY INSURERS REGULATION.

Rule 120-2-64-.01. Purpose.

The purpose of this regulation is to provide minimum standards for contracts between controlling producers and controlled insurers.

Cite as Ga. Comp. R. & Regs. R. 120-2-64-.01

Authority: O.C.G.A. Secs. [3-2-9](#), [33-48-8](#).

History. Original Rule entitled "Purpose" adopted. F. Sept. 8, 1993; eff. Sept. 28, 1993.

Rule 120-2-64-.02. Required Contract Provisions.

The contract between controlled insurer and controlling producer must be in writing, must be approved by the board of directors, and must contain the following minimum provisions:

- (a) The controlled insurer may terminate the contract for cause, upon written notice to the controlling producer. The controlled insurer shall suspend the authority of the controlling producer to write business during the pendency of any dispute regarding the cause for the termination;
- (b) The Controlling producer shall render accounts to the controlled insurer detailing all material transactions, including information necessary to support all commissions, charges and other fees received by, or owing to, the controlling producer;
- (c) All funds collected for the controlled insurer's account shall be held by the controlling producer in a fiduciary capacity, in one or more appropriately identified bank accounts in banks that are members of the Federal Reserve System. (However, funds of a controlling producer not required to be licensed in this state shall be maintained in compliance with the requirements of the controlling producer's domiciliary jurisdiction);
- (d) The controlling producer shall maintain separately identifiable records of business written for the controlled insurer;
- (e) The contract shall not be assigned in whole or in part by the controlling producer;
- (f) The controlled insurer shall provide the controlling producer with its underwriting standards, rules and procedures, manuals setting forth the rates to be charged, and the conditions for the acceptance or rejection of risks. The controlling producer shall adhere to the standards, rules, procedures, rates and conditions. The standards, rules, procedures, rates and conditions shall be the same as those applicable to comparable business placed with the controlled insurer by a producer other than the controlling producer;
- (g) The rates and terms of the controlling producer's commissions shall be no greater than those applicable to comparable business placed with the controlled insurer by producers other than controlling producers. For purposes of this subparagraph and subparagraph (f) above, examples of comparable business" include the same line of insurance, same kinds of insurance, same kinds of risks, similar policy limits, and similar quality of business;
- (h) If the contract provides that the controlling producer, on insurance business placed with the insurer, is to be compensated contingent upon the insurers profits on that business, then such compensation shall not be determined and paid until at least five (5) years after the premiums on liability insurance are earned and at least one (1) year after the premiums are earned on any other insurance. In no event shall the commissions be paid until the adequacy of the controlled insurer's reserves on remaining claims has been independently verified pursuant to O.C.G.A. Sec. [33-48-3\(a\)\(4\)](#);

- (i) The controlled insurer shall establish limits on the controlling producer's writings in relation to the insurer's surplus and total writings. The insurer may establish a different limit for each line or sub-line of business. The controlled insurer shall notify the controlling producer when the applicable limit is approached and shall not accept business from the controlling producer if the limit is reached; and
- (j) The controlling producer may negotiate but shall not bind reinsurance on behalf of the controlled insurer on business the controlling producer places with the controlled insurer, except that the controlling producer may bind facultative reinsurance contracts pursuant to obligatory facultative agreements if the contract with the controlled insurer contains under writing guidelines including, for both reinsurance assumed and ceded, a list of reinsurers with which such automatic agreements are in effect, the coverages and amounts or percentages that may be reinsured and commission schedules.

Subject 120-2-65. PROHIBITED CRITERIA FOR PRIVATE PASSENGER AUTOMOBILE UNDERWRITING GUIDELINES.

Rule 120-2-65-.01. Intent and Purpose.

- (1) The intent of this Regulation Chapter is to prohibit insurers from engaging in unfair discrimination due to the fictitious grouping of risks based on criteria which are not actuarially supported and shown to be relevant to risk. As such, it is the purpose of this Regulation Chapter that no insurer shall condition the issuance, renewal or other continuation of a private passenger automobile insurance policy by placing a risk in a fictitious group based on characteristics enumerated herein.
- (2) Nothing containing herein is intended to invalidate actuarially sound rating variables not in conflict with any portion of O.C.G.A. Title 33.
- (3) Nothing contained herein is intended to limit or diminish the scope of prohibited underwriting practices found elsewhere in the Georgia Insurance Code or the Rules and Regulations of the Georgia Insurance Department.

Cite as Ga. Comp. R. & Regs. R. 120-2-65-.01

Repealed: New Rule of same title adopted. F. Aug. 8, 1996; eff. Aug. 28, 1996.

Rule 120-2-65-.02. Definitions.

For the purpose of this Regulation Chapter, the following definitions shall apply:

- (a) "Commissioner" shall mean the Commissioner of Insurance of the State of Georgia.
- (b) "Policy" or "policies" shall mean any private passenger automobile policy as defined in O.C.G.A. § [33-24-45\(b\)\(1\)](#).
- (c) "Underwriting guidelines" shall mean the written, oral or electronic statements, guidelines, or criteria of an insurer which describe the standards used by an insurer to determine whether to issue a policy, decline to issue a policy, non-renew a policy, discontinue or cancel a policy, or restrict coverages provided by a policy of automobile insurance to persons within this State.

Rule 120-2-65-.03. Prohibited Practices.

- (1) No insurer, broker or agent shall use underwriting criteria or guidelines to determine an applicant's or insured's acceptability for policy issuance or continuation of coverage which result in the fictitious grouping of risks and result in unfair discrimination.
- (2) An insurer, broker or agent engages in the grouping of risks when a determination is made concerning an applicant's or insured's acceptability for policy issuance or continuation thereof based upon, but not limited to, any of the following:
 - (a) Marital status of the applicant, insured or anyone residing in the applicant's or insured's household;
 - (b) The applicant's or insured's length of time at an address;
 - (c) Employment status or lawful occupation of the applicant or insured, including the length of time employed with present employer, unless vehicle is used in the course of business;
 - (d) Credit reports of an applicant or insured or other credit history by whatever manner obtained;
 - (e) Number of vehicles to be insured;
 - (f) Status of the applicant or insured as a tenant or homeowner;
 - (g) Level of education of the applicant or insured;
 - (h) Lack of, lack of potential for or failure of applicant or insured to agree to a writing of additional business, which includes but is not limited to any additional coverages or increased liability limits on an automobile which are not compulsory according to O.C.G.A. § [40-9-37](#);
 - (i) That the applicant or insured has never purchased or been covered by a private passenger automobile policy during any specified period preceding the date of application when the need for coverage did not exist, or that the applicant or insured has previously been covered by a non-standard or residual market issuer;
or
 - (j) The individual's status as a member of the United States Armed Forces, the Reserves of the United States Armed Forces or the National Guard. Nothing herein shall prohibit the use and enforcement of a war exclusion clause if included in the policy at time of issuance.
- (3) Any grouping specified in the foregoing subparagraph (2) is fictitious and results in unfair discrimination if:
 - (a) it is:

1. not actuarially supported;
 2. not relevant to risk; and
 3. not based on a reasonable consideration allowed under O.C.G.A. § [33-9-4\(7\)](#); or
- (b) it is based in whole or in part, directly or indirectly, upon race, creed or ethnic extraction.

Subject 120-2-66. PROHIBITED CRITERIA FOR RESIDENTIAL PROPERTY UNDERWRITING GUIDELINES.

Rule 120-2-66-.01. Intent and Purpose.

- (1) The intent of this Regulation Chapter is to prohibit insurers from engaging in unfair discrimination due to the fictitious grouping of risks based on criteria which are not actuarially supported and shown to be relevant to risk. As such, it is the purpose of this Regulation Chapter that no insurer shall condition the issuance, renewal or other continuation of a residential property insurance policy by placing a risk in a fictitious group based on characteristics enumerated herein.
- (2) Nothing contained herein is intended to invalidate actuarially sound rating variables not in conflict with any portion of O.C.G.A. Title 33.
- (3) Nothing contained herein is intended to limit or diminish the scope of prohibited underwriting practices found elsewhere in the Georgia Insurance Code or the Rules and Regulations of the Georgia Insurance Department.

Rule 120-2-66-.02. Definitions.

For the purpose of this Regulation Chapter, the following definitions shall apply:

- (a) "Commissioner" shall mean the Commissioner of Insurance of the State of Georgia.
- (b) "Policy" or "policies" shall mean any policy issued to a natural person or persons as the named insured which provides coverage for residential property at a specifically described location. The term "policy" shall include but not be limited to homeowner's, dwelling fire, manufactured housing, tenant, condo-unit owners and farmowners policies.
- (c) "Underwriting guidelines" shall mean the written, oral or electronic statements, guidelines, or criteria of an insurer which describe the standards used by an insurer to determine whether to issue a policy, decline to issue a policy, nonrenew a policy, discontinue or cancel a policy or restrict coverages provided by a residential property policy issued to persons residing in this State.

Rule 120-2-66-.03. Prohibited Practices.

- (1) No insurer, broker or agent shall use underwriting criteria or guidelines to determine an applicant's or insured's acceptability for policy issuance or continuation of coverage which result in the fictitious grouping of risks and result in unfair discrimination.
- (2) An insurer, broker or agent engages in the grouping of risks when a determination is made concerning an applicant's or insured's acceptability for policy issuance or continuation thereof based upon, but not limited to, any of the following:
 - (a) Marital status of the applicant, insured or anyone residing in the applicant's or insured's household;
 - (b) The applicant's or insured's length of time at an address;
 - (c) Employment status or lawful occupation of the applicant or insured, including the length of time employed with present employer;
 - (d) Level of education of the applicant or insured;
 - (e) Failure of applicant or insured to agree to purchase an additional policy which is not requested by the insured or applicant;
 - (f) Age of dwelling without proper consideration of updated mechanical and structural systems;

- (g) The individual's status as a member of the United States Armed Forces, the Reserves of the United States Armed Forces or the National Guard. Nothing herein shall prohibit the use and enforcement of a war exclusion clause if included in the policy at time of issuance.
- (3) Any grouping specified in the foregoing subparagraph (2) is fictitious and results in unfair discrimination if:
- (a) it is:
 - 1. not actuarially supported;
 - 2. not relevant to risk; and
 - 3. not based on a reasonable consideration allowed under O.C.G.A. § [33-9-4\(7\)](#); or
 - (b) it is based in whole or in part, directly or indirectly, upon race, creed or ethnic extraction.

Repealed: Permanent Rule, same title, adopted. F. Feb. 17, 1998; eff. Mar. 9, 1998.

Rule 120-2-67-.03. Definitions.

For the purpose of this Regulation Chapter, the following definitions shall apply:

- (a) "Association" shall mean an organization as defined in O.C.G.A. § [33-30-1\(b\)](#) and the Rules and Regulations of the Office of Commissioner of Insurance.
- (b) "Creditable Coverage" shall mean any hospital, surgical, or medical expense coverage, or any combination of these coverages, as defined in O.C.G.A. § [33-30-15\(a\)\(2\)](#), regardless of exclusions or waivers related to such coverage, other than coverage under a disability income policy, a long-term care insurance policy, a medicare supplement policy, a health insurance policy written as part of workers' compensation equivalent coverage or supplemental to a liability policy, a specified disease policy, a credit insurance policy, a dental or vision benefit policy which is not an integral part of creditable coverage, a fixed indemnity policy, or a limited accident policy. Creditable coverage shall include coverage under a short-term, limited duration policy or a blanket accident and sickness policy which includes basic or comprehensive hospital, surgical, or medical expense coverage, or any combination of these coverages, which is (are) not exclusively contingent on accident or injury resulting from particular activities or limited to liability arising from such activities.
- (c) "Employer based accident and sickness insurance or health benefit arrangement," as used in O.C.G.A. § [33-30-15\(a\)\(2\)\(B\)](#) and in this Regulation Chapter, shall mean any insured plan or self-funded plan, regardless of whether such plan is, or claims to be, subject to the Employee Retirement Income Security Act of 1974, [29 U.S.C. Section 1001](#), *et seq.*
- (d) "Group Member" shall mean any individual in a group eligible for coverage under a group health insurance policy or contract.
- (e) "Health Insurance" shall mean, for purposes of this Regulation Chapter, any creditable coverage as defined in paragraph (b) issued by an insurer on a group or individual basis, other than a blanket accident and sickness policy or a short-term, limited duration policy which limits coverage to a maximum of twelve month. Such blanket or short-term policies which constitute creditable coverage shall be considered health insurance in this Regulation Chapter only for the purposes of Rule [120-2-67-.12](#).
- (f) "Health Status Related Factor" shall mean any of the factors described in Rule [120-2-67-.13\(a\)\(1\)](#).

- (g) "Insured" shall mean:
- (1) with regard to group health insurance coverage, any employee, group member, subscriber, enrollee or dependent covered under a group health insurance policy or contract; or
 - (2) with regard to individual health insurance coverage, any covered person.
- (h) "Late Enrollee" shall mean an employee, group member, or enrollee who enrolls other than:
- (1) when first eligible under the terms of the group health insurance policy or contract, taking into account eligibility only during the most recent continuous period of employment or group coverage; or
 - (2) when eligible for special enrollment.
- (i) "Placement for adoption" shall mean the assumption and retention by an employee, member or enrollee covered or eligible for coverage under a group health insurance policy or contract of a legal obligation for total or partial support of a child in anticipation of adoption of such child. The child's placement with such employee, member or enrollee terminates upon the termination of such legal obligation.
- (j) "Policyholder" shall mean, with respect to group health insurance coverage, the entity to which a group health insurance policy or contract is issued in accordance with O.C.G.A. § [33-30-1](#), including, but not limited to, an employer, an association, or employer members issued certificates of coverage through a trust.
- (k) "Portability" shall mean that any employee, group member, subscriber, enrollee, or dependent who was enrolled under prior "creditable coverage" and who meets the eligibility requirements under Rule [120-2-67-.04](#) shall be eligible immediately, subject to applicable waiting or affiliation periods, for the same coverage provided other employees, group members, subscribers, enrollees, or dependents under a new group insurance health benefit plan without limitations for preexisting conditions, subject to the requirements of O.C.G.A. § [33-30-15](#) and this Regulation Chapter.
- (l) "Preexisting Condition" shall mean any physical or mental condition, sickness, impairment, or ailment, regardless of cause, for which medical advice, diagnosis, care, or treatment was received within the six month period ending on the effective date of coverage under a group health plan, the date of enrollment under a group health insurance plan, or the first date of a waiting period for a group health insurance plan, whichever is earliest. In no case shall any of the following be considered a preexisting condition:
- (1) pregnancy, or
 - (2) genetic information in the absence of a diagnosis related to such information.

- (m) "Small Employer" shall mean any employer that employed an average of at least two but not more than 50 employees on business days during the preceding calendar year and that employs at least two employees on the first day of the rating period. All employers treated as a single employer under subsection (b), (c), (m), or (o) of Section 414 of the Internal Revenue Code of 1986 shall be treated as one employer. In the case of an employer which was not in existence throughout the preceding calendar year, the determination of whether or not an employer is a small employer shall be based on the average number of employees that it is reasonably expected that the employer will employ on business days in the current calendar year.
- (n) "Waiting Period" shall mean any period of time which must pass before a newly eligible employee, group member, or enrollee is first covered by a group health insurance policy or contract, provided an employee or group member elects coverage when first eligible under the terms of the group health insurance plan. With regard to coverage under an individual health insurance policy or contract, the waiting period shall mean the period of time beginning with the date a substantially completed application for coverage is received by an insurer, and ending with the effective date of coverage; however, such a waiting period exists only if the application results in the actual purchase of an individual health insurance policy or contract. A waiting period shall not constitute a gap in coverage for the purposes of determining any previous creditable coverage.

Repealed: Permanent Rule, same title, adopted. F. Feb. 17, 1998; eff. Mar. 9, 1998.

Rule 120-2-67-.04. Portability Eligibility.

The requirements for an insured to be eligible for portability under a group health insurance benefit plan as required in O.C.G.A. § [33-30-15](#) are as follows:

- (a) The newly eligible insured was enrolled under similar coverage within the previous 90 days and is a "newly eligible employee" as defined in O.C.G.A. § [33-30-15\(a\)\(4\)\(A\) and \(B\)](#), or a late enrollee subject to all provisions of this Regulation Chapter which apply to late enrollees and subject to the terms of coverage; or
- (b) The insured was subject to an exclusion or waiver for a preexisting condition under the group health insurance policy or contract prior to the effective date of the Rule for that policy or contract.

Repealed: Permanent Rule, same title, adopted. F. Feb. 17, 1998; eff. Mar. 9, 1998.

Rule 120-2-67-.05. Preexisting Conditions.

Group health insurance policies subject to O.C.G.A. § [33-30-15](#) and this Regulation Chapter shall not include a limitation for preexisting conditions for individuals without previous creditable coverage in excess of twelve (12) months following the eligibility date of a newly eligible insured's coverage or the first day of any applicable waiting period, whichever is earlier, and eighteen (18) months following the effective date of coverage for late enrollees. Limitations on coverage include any form of exclusion rider or waiver for preexisting conditions. Conditions pertaining to preexisting limitations are as follows:

- (a) The time period applicable to preexisting condition limitations under the new group health insurance benefit plan shall be reduced by the amount of time any newly eligible insured was previously covered by creditable coverage, or a combination of creditable coverages not separated by any gap in coverage greater than 90 days;
- (b) If an insured was covered under prior creditable coverage, or a combination of creditable coverages, for twelve (12) months when first eligible, or eighteen (18) months if a late enrollee, no preexisting conditions limitation or exclusion period shall be applicable to any preexisting condition under the group health insurance benefit plan;
- (c) An insurer may provide a maximum limitation of less than twelve months for preexisting conditions;
- (d) Any preexisting exclusion or limitation must run concurrently with any applicable waiting period; and
- (e) No preexisting condition exclusion or limitation may be placed on a newborn child or newly adopted child, if that child is enrolled within thirty (30) days following the date of birth, adoption, placement for adoption, or within thirty-one (31) days following such dates if dependent or family coverage was not previously elected or payment of additional specific premium is required to provide coverage for the child.

Repealed: Permanent Rule, same title, adopted. F. Feb. 17, 1998; eff. Mar. 9, 1998.

Rule 120-2-67-.06. Affiliation Periods.

A group health insurance policy offered by a health maintenance organization may impose an affiliation period to employees, enrollees, or group members in lieu of any and all pre-existing condition exclusions or limitations only if the following are satisfied:

- (a) The affiliation period is applied uniformly to all employees, enrollees, or members of the group, without regard to any health status related factor;
- (b) The affiliation period does not exceed two months for newly eligible employees, group members and dependents, or three months for late enrollees;
- (c) The affiliation period begins on the first day of any waiting period, or on the first day of employment, whichever is earlier, and runs concurrently with any waiting period;
- (d) No premium is charged for the affiliation period; and
- (e) A health maintenance organization electing to use an affiliation period in their group health policies or contracts must fully disclose the terms of such affiliation period in all policies or contracts and certificates.

Rule 120-2-67-.07. Alternative Method of Crediting Coverage.

- (a) Pursuant to O.C.G.A. § [33-30-15\(c\)\(2\)](#), insurers offering group health insurance coverage may apply the preexisting condition exclusion crediting method described in this Rule within any category of benefits described in paragraph (b) and not based on coverage for any other benefits. Insurers may elect to use all or any of the categories in counting certain benefits within a category against a preexisting condition exclusion related to such benefits.
- (b) The alternative method for counting creditable coverage may be used for the following categories of benefits:
 - (1) mental health;
 - (2) substance abuse treatment;

- (3) prescription drugs;
 - (4) dental care; and
 - (5) vision care.
- (c) All other benefits, and all associated conditions, not related to the categories of benefits outlined in paragraph (b) are subject to the preexisting condition exclusion and limitation provisions of Rule [120-2-67-.05](#).
- (d) The time period applicable to a preexisting condition exclusion within a particular category under the new group health insurance plan shall be reduced by the amount of time any newly eligible insured was previously covered by creditable coverage, or a combination of creditable coverages, which included any level of benefits within that category maintained under such previous creditable coverage or coverages. A lapse of coverage for benefits within a category shall not be treated as a significant break in coverage if, during such a lapse, creditable coverage was maintained except for coverage in a category, or a break of 90 days or less occurred in which no creditable coverage was maintained.
- (e) If an insured was covered for benefits within a particular category under prior creditable coverage, or a combination of coverages, for twelve (12) months, no preexisting condition exclusion period for benefits within that category shall be applicable to any preexisting condition under the new group health insurance benefit plan.
- (f) An insurer may provide a maximum exclusion of less than twelve months for benefits within a category because of preexisting conditions related to that category of benefits.
- (g) If an insurer uses the alternative method with a particular policy, the insurer must state prominently in any disclosure statement concerning the coverage, and to each employer at the time of the offer or sale of the coverage, that the insurer is using the alternative method, and include in such statements a description of the effect of using the alternative method. This applies separately to each type of coverage offered by the insurer.
- (h) An insurer may require an eligible employee, group member, or enrollee to document previous creditable coverage within a category or categories and to cooperate in obtaining such documentation. An insurer may also request information on categories of benefits included in previous creditable coverage from any previous insurer, administrator, employer, or employer health benefit arrangement and solicit corroboration documentation for the purposes of crediting coverage under the alternative method.
- (i) An insurer, upon the request of another insurer, administrator, employer, or employer health benefit arrangement providing coverage to a former insured, must promptly disclose specific information needed by the other insurer, administrator, employer, or employer health benefit arrangement in order to determine an insured's or former insured's previous creditable coverage with respect to any category or categories of benefits

creditable coverage with respect to any category or categories of benefits permitted for consideration under the alternative method. An insurer furnishing this information may charge the reasonable cost of disclosing such information.

Rule 120-2-67-.08. Special Enrollment.

- (a) Individuals who decline group health insurance coverage when first eligible and satisfy subparagraphs (1) or (2) shall be considered newly eligible employees and not late enrollees, and must be offered coverage under the group policy or contract as newly eligible employees in accordance with paragraph (b), if such eligible individuals elect to enroll within the specified period in each subparagraph. Such individuals are:
 - (1) Existing employees or group members, and existing dependents of such existing employees or group members, who declines coverage when first eligible or when first offered because of coverage under other creditable coverage, provided that:
 - (A) the employee or group member stated in writing that existing creditable coverage was the reason for the employee, group member, or dependent declining enrollment, but only if such statement is required by the insurer, and the insurer has provided the employee or group member notice of such a requirement at the time of declination and included in such notice the consequences of not making a statement;
 - (B)
 - (i) federal or state continuation coverage has been exhausted; or
 - (ii) other coverage unrelated to continuation has terminated as a result of loss of eligibility for such other coverage under the terms of that coverage or; (iii) contributions for such other coverage from a former or current employer have terminated;
 - (C) such other creditable coverage was not terminated in accordance with the Rules and Regulations of the Office of Commissioner of Insurance Rule [120-2-67-.10\(b\)\(2\)](#) or for failure of the employee, group member, or dependent to pay premiums or contributions on a timely basis in accordance with the terms of coverage and the Georgia Insurance Code or

the Rules and Regulations of the Office of Commissioner of Insurance;
and

- (D) the employee or group member requests enrollment for the employee or group member and/or dependents not later than thirty (30) days after the effective date of the event described in subparagraph (B).
- (2) Any of the following as a result of marriage, birth, adoption or placement for adoption:
 - (A) the employee or group member, if not enrolled under the group policy as a result of declining coverage when first eligible;
 - (B) the spouse of an employee or group member, provided the employee or group member is covered or elects coverage with the spouse; or
 - (C) the dependent or dependents of an employee or group member, provided the employee or group member is covered or elects coverage with the dependent or dependents.
 - (3) Coverage must be elected for any individual or individuals specified in paragraph (2) no later than thirty (30) days after the date of marriage, birth, adoption or placement for adoption, or, only for newborns or adopted children, thirty-one (31) days after the date of birth, adoption or placement for adoption if dependent or family coverage was not previously elected or payment of additional specific premium is required to provide coverage for such children.
 - (4) Coverage must be elected no later than thirty (30) days after a group policy is modified to make dependent coverage available for all employees or group members.
- (b) Special enrollment date is to be determined as follows:
- (1) In the event an employee, group member, or dependent becomes eligible in accordance with paragraph (a)(1) of this Rule, enrollment must become effective no later than the first day of the first calendar month after the date the completed request for enrollment is received by the insurer.
 - (2) In the event an employee, group member, or dependent becomes eligible in accordance with subparagraph (a)(2) of this Rule, enrollment must become effective on the date of birth, adoption or placement for adoption, or in the case of marriage, no later than the first day of the first calendar month after the date the completed request for enrollment is received.

Rule 120-2-67-.09. Renewability and Modification of Coverage under Group Health Insurance.

- (a) On and after July 1, 1997, all insurers which issue, issue for delivery, deliver, or renew existing group policies, certificates, or contracts of health insurance in the State of Georgia shall renew or continue such coverage at the option of the policyholders.
- (b) Notwithstanding paragraph (a), an insurer may cancel or nonrenew coverage in the following instances:
 - (1) The policyholder has failed to pay premiums or contributions in accordance with the terms of the group health insurance policy or contract, including any timeliness requirements, subject to applicable State law;
 - (2) The policyholder has performed an act or practice that constitutes fraud or intentional misrepresentation of material fact in applying for or procuring coverage under the terms of the group health insurance policy or contract;
 - (3) The policyholder has violated an insurer's minimum employer contribution or group participation rules, provided that the insurer submits written notice to each affected policyholder and provides each policyholder sixty (60) days in which to bring the group into compliance prior to cancellation;
 - (4) None of the policyholder's employees, group members, or enrollees live, reside, or work in the service area of the provider network, only if the group policy or contract is issued by a health maintenance organization or a provider-sponsored health care corporation, unless there is at least one insured employee, group member, or enrollee who has agreed to return to the service area of a health maintenance organization in accordance with the Rules and Regulations of the Office of Commissioner of Insurance [120-2-33-.06\(5\)](#).
 - (5) An insurer terminates, cancels, or does not renew all coverage under a particular policy form, provided that:
 - (A) the insurer provides at least ninety (90) days notice prior to the termination of the policy form to all policyholders and certificate holders;

- (B) for a policy form used by small employers, the insurer offers to such small employer policyholders the option to purchase all other group policies from the insurer currently being offered to or renewed by small employers in this State for which the small employer policyholders would otherwise be eligible;
 - (C) for a policy form used by large employers, the insurer offers to such large employer policyholders the option to purchase any other group policy from the insurer currently being offered to or renewed by a large employer in this State; and
 - (D) the insurer acts uniformly without regard to the claims experience of any or all policyholders, covered employers, or any healthstatus related factor relating to any enrollees or other eligibles covered by or eligible for coverage under the policy.
- (6) An insurer discontinues offering and terminates, cancels, or does not renew all coverage in either the small employer market or the large employer market, or both, provided that:
 - (A) the insurer provides at least 180 days notice prior to the discontinuance or nonrenewal of a policy or contract to all policyholders and certificate holders,
 - (B) the insurer provides at least 180 days notice to the Commissioner prior to the earliest date of termination or non-renewal related to the discontinuation in the market and indicates in such notice the date described in subparagraph (6)(C), and
 - (C) the insurer does not issue coverage in such market for five (5) years beginning with the date of the last health insurance policy or contract in that market not renewed.
- (7) An employer ceases membership in an association through which health insurance coverage is issued, provided that the insurer was still issuing coverage through that association, or the association was still making such coverage available, and the coverage cancellation or non-renewal is uniform without regard to any health status related factor relating to any insured. If the association ceases to make coverage available under any health insurance policy or contract, or ceases to exist, employers covered under such association policies shall be considered policyholders and shall be guaranteed renewability by the insurer.
- (c) Insurers may modify group policies only at the time of renewal, provided that, for all small employers covered under a policy, such modifications to that policy are effective on a uniform basis among all small employers with that policy.

- (d) Notwithstanding paragraph (c), an insurer may modify a group policy other than at renewal only if a policyholder elects to modify its coverage at such other time.
- (e) For the purposes of this section "large employer" shall mean all employers or other groups not meeting the definition of "small employer" as set forth in this Regulation Chapter.

Rule 120-2-67-.10. Renewability and Modification of Coverage under Individual Health Insurance.

- (a) On and after July 1, 1997, all insurers which issue, issue for delivery, deliver, or renew existing individual policies or contracts of health insurance in the State of Georgia shall renew or continue such coverage at the option of the insured.
- (b) Notwithstanding paragraph (a), an insurer may cancel or nonrenew coverage only in the following instances:
 - (1) The insured has failed to pay premiums in accordance with the terms of the individual health insurance policy or contract, including any timeliness requirements, subject to applicable State law;
 - (2) The insured has performed an act or practice that constitutes fraud or intentional misrepresentation of material fact in applying for or procuring coverage, subject to the time limit specified in O.C.G.A. § [33-29-3\(b\)\(2\)\(A\)](#); or
 - (3) Subject to the Rules and Regulations of the Office of Commissioner of Insurance Rule [120-2-33-.06\(6\)](#), the insured no longer lives, resides, or works in the service area of the network if the individual policy or contract is issued by a health maintenance organization or a provider-sponsored health care corporation, but only if coverage is canceled or non-renewed uniformly without regard to any health status related factor of the insureds.
 - (4) An insurer terminates, cancels, or does not renew all coverage under a particular policy form, provided that:
 - (A) the insurer provides at least ninety (90) days notice prior to the discontinuance of the policy form to all insured and to the Commissioner;

- (B) the insurer offers to such insured all other individual policies currently being offered or renewed by the insurer in this State for which the insured are otherwise eligible without regard to any health status related factor; and
 - (C) the insurer acts uniformly without regard to the claims experience or any health-status related factor of individuals insured or eligible to be insured.
- (5) An insurer discontinues offering and terminates, cancels, or does not renew all coverage under all policy forms in the individual market, provided that:
 - (A) the insurer provides at least 180 days notice prior to the discontinuance or nonrenewal of a policy or contract to all insured under that policy or contract;
 - (B) the insurer provides at least 180 days notice to the Commissioner prior to the earliest date of termination or non-renewal related to the discontinuation in the market and indicates in such notice the date described in subparagraph (5)(C);
 - (C) the insurer does not issue coverage in such market for 5 years beginning with the date of the last health insurance policy or contract in that market not renewed; and
 - (D) the insurer acts uniformly without regard to the claims experience or any health status related factor of individuals insured or eligible to be insured.
- (6) An insured ceases membership in an association through which health insurance coverage is issued, provided that the insurer was still issuing coverage through that association, or the association was still making such coverage available, and the coverage cancellation or non-renewal is uniform without regard to any health status related factor relating to any insured. If the association ceases to make coverage available under any health insurance policy or contract, or ceases to exist, individuals insured under such association policies shall be guaranteed renewability by the insurer.
- (c) Insurers may modify individual policies at the time of renewal, provided that:
 - (1) such modifications to that policy are effective on a uniform basis among all individuals with that policy form; and
 - (2) such modifications are accepted and signed by the insured.
- (d) The term "accident and sickness insurance" as used in O.C.G.A. § [33-29-21](#) shall have the same meaning as the term "health insurance" used in this Regulation Chapter.

Rule 120-2-67-.12. Certification of Creditable Coverage.

- (a) Any insurer issuing a group health insurance policy or contract or individual insurance policy or contract must furnish a certification of creditable coverage described in subparagraph (1) in accordance with subparagraphs (2) through (6) of this paragraph.
 - (1) The certification of creditable coverage must be in writing and include the following information:
 - (A) the date the certification is issued;
 - (B) the name of the insurer that provided the coverage described in the certification;
 - (C) the name of the insured (including any covered dependents) with respect to whom the certification applies, and any other information necessary for the

insurer providing the coverage specified in the certification to identify the insured, such as the insured's insurance identification number and the name of the employee or group member under group health insurance coverage, or the policyholder under individual health insurance coverage, if the certification is for (or includes) a dependent;

- (D) the name, address, and telephone number of the insurer or plan administrator required to provide the certification;
 - (E) the telephone number to call for further information regarding the certification;
 - (F) either;
 - (i) a statement that an insured has at least eighteen (18) months of creditable coverage, or
 - (ii) the date any applicable waiting or affiliation period began, and the date creditable coverage began; and
 - (G) the date creditable coverage ended, unless the certification indicates that creditable coverage is continuing as of the date of the certification.
- (2) An insurer issuing a group health insurance policy or contract must provide a written certification for (i) the most recent period of continuous creditable coverage ending with events described in (A) and (B) of this subparagraph, or (ii) each period of continuous coverage as permitted in (C) of this subparagraph without charge, to insureds or former insureds, or any other person designated by an insured or former insured, or any other individual, insurer, employer health benefit arrangement, or administrator requesting on behalf of an insured or former insured. An insurer must issue such certification within fourteen (14) days after receipt of notice that any of the following events have occurred:
- (A) Coverage for an insured has ceased or terminated for any reason;
 - (B) An insured has terminated or exhausted federal or state continuation of benefits; or
 - (C) A request has been made within twenty-four (24) months after coverage ceased, regardless of whether the former insured has previously received a certification from the insurer. An insurer must make reasonable efforts to ascertain whether any of the above events have occurred.
- (3) An insurer issuing an individual health insurance policy or contract must provide a written certification for (i) the most recent period of continuous creditable

coverage ending with an event described in (A) of this subparagraph, or (ii) each period of continuous coverage as permitted in (B) of this subparagraph without charge, to insureds or former insureds, or any other person designated by an insured or former insured, or any other individual, insurer, employer health benefit arrangement, or administrator requesting on behalf of an insured or former insured. An insurer must issue such certification within fourteen (14) days after receipt of notice that any of the following events have occurred:

- (A) Coverage for an insured has ceased or terminated for any reason; or
 - (B) A request has been made within twenty-four (24) months after coverage ceased, regardless of whether the former insured has previously received a certification from the insurer.
- (4) A certification may provide information with respect to an insured and the insured's covered dependents if the information is identical for each individual. If not, certifications may be provided on one form if the form provides all the required information for the insured and covered dependents and separately states the information that is not identical.
- (5) The insurer may satisfy the requirement to provide a certification of creditable coverage by sending a certification via first-class mail to the last known address of the insured or former insured for all covered individuals residing at that address. If a covered dependent's or spouse's last known address is different than the former insured's last known address, a separate certification is required to be provided to the covered dependent or spouse at the dependent's or spouse's last known address. If separate certifications are being provided by mail to insureds or former insureds who reside at the same address, separate mailings of each certification are not required.
- (6) An insurer must use reasonable efforts to determine any information needed for a certification relating to coverage of a dependent. In any case in which a certification is required to be furnished with respect to a dependent for events described in subparagraphs (a)(2)(A) or (B) or (a)(3)(A), no dependent certification is required to be furnished until the insurer knows, or making reasonable efforts, should know, of the dependent's cessation of coverage under the policy or contract. The following transition rules apply to certifications for termination or cessation of coverage occurring before June 30, 1998:
- (A) an insurer that cannot provide the names (or related coverage information) of dependents of an insured or former insured for purposes of providing a certification of coverage for a dependent may satisfy the requirements of subparagraph (a)(1)(C) by providing the name of the insured or former insured and specifying that the type of coverage described in the certification is for dependent coverage, such as, for example, family coverage or enrollee and spouse coverage;

- (B) an insurer must make reasonable efforts to obtain and provide the names of any dependent covered by the certification where such information is requested to be provided; and
 - (C) an insurer providing a certification for an insured in accordance with subparagraph (6)(A) must furnish a certification within twenty-one (21) days after the insured ceases to be covered under an individual health insurance policy or contract.
- (b) An insurer is not required to provide a written certification to individuals as required in paragraph (a) if:
 - (1) An insurer did not provide the creditable coverage, in which case the insurer is not required to provide information regarding coverage provided to an individual by another party;
 - (2) An insured or former insured entitled to receive a certification requests that the certification be sent to another insurer, administrator, or employer health benefit arrangement and such insurer, administrator, or employer health benefit arrangement agrees to accept, and actually receives from the insurer within fourteen (14) days, the information in subparagraph (a)(1) telephonically or by other means;
 - (3) There is a written agreement or contract in which an employer, administrator, or other third party is made responsible for the issuing of certifications of creditable coverage, or otherwise, if another party provides the certifications, but only to the extent that information relating to the individual's creditable coverage and waiting or affiliation period is provided by the other party; or
 - (4) With regard to certification requirements relating to paragraphs (a)(2)(A) and (B), an insured's coverage under the group health insurance policy or contract ceases prior to the cessation of coverage under the employer health benefit arrangement, or because of the election of any other group health insurance option offered therein, although in any event the insurer must provide sufficient information reflecting the insured's or former insured's period of creditable coverage under the policy or contract to the employer health benefit arrangement or its delegate to enable a certification to be provided by the arrangement or its delegate after cessation of the individual's coverage under the arrangement. An insurer may presume that an insured whose coverage ceases at a time other than the group's effective date for changing enrollment options is concurrently ceasing coverage under the employer health benefit arrangement and must consequently issue certifications as required by paragraph (a)(2) for events described in paragraphs (a)(2)(A) and (B).

- (c) For the purposes of demonstrating previous creditable coverage upon becoming eligible for coverage under a group health insurance policy or contract, if there is no available certification demonstrating prior creditable coverage with an insurance company or employer health benefit arrangement, or if the accuracy of a certificate is contested, it shall be the responsibility of the newly eligible insured to provide an insurer with the information necessary to verify the type of plan and the effective date of his or her previous coverage.
- (d) An insurer shall take into account all information that it obtains or that is presented on behalf of a newly eligible insured, based on the relevant facts and circumstances, to determine whether an individual has creditable coverage and is entitled to offset all or a portion of any preexisting condition exclusion period. An insurer shall accept an attestation from a newly eligible insured as to periods of creditable coverage, or periods spent in affiliation or waiting periods, if such attestation is accompanied by evidence of some form of creditable coverage during the period, and the insured cooperates with the insurer's efforts to verify the insured's previous creditable coverage. Such evidence includes the following:
 - (1) explanations of benefit claims;
 - (2) correspondence from an insurer, administrator, or employer health benefit arrangement indicating coverage;
 - (3) pay stubs showing a payroll deduction for health coverage;
 - (4) a health insurance identification card;
 - (5) a certificate of coverage under a group health insurance;
 - (6) records from medical care providers indicating health coverage;
 - (7) statements from third parties verifying periods of coverage;
 - (8) telephone calls by the insurer to a previous insurer, administrator, employer, or other third party verifying coverages; and
 - (9) any other relevant documents that demonstrate coverage at any point during the period of time to which the insured attests coverage.
- (e) Provisions of this subsection permitting attestation, evidence, and verification shall be applicable to demonstrating categories of creditable coverage relating to the alternative method as permitted in this Regulation Chapter, and in demonstrating coverage as a dependent under another individual's coverage.
- (f) If relevant information is not provided by the insured or otherwise obtained by the insurer after reasonable attempts, or if the insured fails to cooperate with the insurer's efforts to

verify coverage, the insurer may apply a twelve (12) month preexisting exclusion period provision.

- (g) In the event an insurer receives information via a certification or through means permitted in paragraph (c) of this Rule and intends to impose any preexisting condition exclusion or limitation under the terms of a group health insurance policy or contract, the insurer is required, within a reasonable time period following receipt of the information, to disclose to the insured in writing a determination regarding the insured's period of creditable coverage which includes the basis for such determination, a written explanation of any appeal procedures established by the insurer, and a reasonable opportunity to submit additional evidence of creditable coverage. A time frame for disclosure is considered reasonable if it is based on the relevant facts and circumstances of the case, including whether the application of a preexisting condition exclusion would prevent an insured from having access to urgent medical services.
- (h) An insurer may modify an initial determination of creditable coverage if it determines, upon verification or the discovery of additional evidence, that the insured did not have the claimed creditable coverage, provided that:
 - (1) a notice of the reconsideration is provided to the insured; and
 - (2) until the final determination is made, the insurer, for purposes of approving access to medical services (such as pre-surgery authorization) acts in a manner consistent with the initial determination.
- (i) Any administrator or designee of an insurer responsible for the provision of certifications of creditable coverage under this section must comply with all the relevant provisions of this section as they apply to the issuing of certifications of creditable coverage by insurers.
- (j) The term "certification" as used in this section shall have the same meaning as "certification" as used in the federal Public Health Service Act, Section 2701(e). Nothing in this section shall be construed to prevent insurers from using model certificate forms approved by the Health Care Financing Administration for the purposes of complying with certification requirements.

Rule 120-2-67-.13. Prohibitions on Use of Health Status; Rating.

- (a) Except for the use of preexisting condition exclusions as permitted by this Regulation Chapter, no insurer may impose a limitation of benefits on, or impose or condition the length of any waiting period on, or condition rules for eligibility, late, or special enrollment for, or decline any employee or group member, or any dependents of any employee or group member, for coverage under a group health insurance policy or contract solely on the basis of any of the following health status related factors:
- (1) health status;
 - (2) medical condition or history;
 - (3) claims experience;
 - (4) receipt of health care;
 - (5) genetic information;
 - (6) evidence of insurability (such as consideration of an avocational factor or conditions arising out of acts of domestic violence); or
 - (7) disability.
- (b) No insurer may impose a rating methodology which requires an individual employee, group member, or dependent of an employee or group member covered by a group health insurance policy or contract to pay a higher premium than other group members solely on the basis of any health status related factor relating to that employee, group member, or dependent of an employee or group member, except that insurers shall be allowed to offer premium reductions or discounts for legitimate disease prevention or health promotion programs.
- (c) Nothing in this section shall be construed to require insurers to accept late enrollees for coverage under a group policy, provided that an insurer may not establish terms for late enrollment based on any health status related factor. Nothing in this Regulation Chapter shall be construed to prevent an insurer from permitting late enrollees only during an annual or other periodic open enrollment period in accordance with the terms of the group health insurance policy or contract.
- (d) At any time during the first policy year, or the renewal period during which this Regulation Chapter becomes effective, employees, group members, or dependents of employees or group members who are otherwise eligible for coverage under the terms of the group health insurance plan but were previously declined coverage upon application when first eligible to enroll based on any health status related factor must be offered an opportunity to enroll in the group health insurance policy or contract. If an insurer does not have a record of denials under its term of coverage for a group, the insurer must accept all reasonable forms of proof submitted by such employees, group members, or dependents for whom records are unavailable. An insurer may verify denials with a policyholder, but must provide prior notice to a policyholder of its intention to offer

coverage to declined employees, group members, and dependents during a specified period of enrollment. If such employees, group members, or dependents decline coverage that is offered as required in this paragraph, they may be considered late enrollees for the purposes of this Regulation Chapter.

- (e) An insurer replacing health insurance coverage for a group must count all previous creditable coverage under the prior insurer and any other previous creditable coverage against any preexisting condition limitations imposed by the succeeding insurer upon group members as required by this Regulation Chapter.

Repealed: Permanent Rule entitled "Filing Requirements" adopted. F. Feb. 17, 1998; eff. Mar. 9, 1998.

Rule 120-2-67-.15. Effective Dates.

- (a) All portability provisions in Rules [120-2-67-.03](#) through [120-2-67-.08](#) and Rule [120-2-67-.13](#) shall become effective for a group health insurance policy or contract as of the first day of the policy year or renewal date of the policy on or after July 1, 1997.
- (b) Rule [120-2-67-.12](#) shall become effective in accordance with the transition rules specified by the Health Care Financing Administration in the Federal Register, [45 CFR § 146.125](#).

Specifically, the following apply to insurers with regard to their obligations to insureds or former insureds in delivering certifications of creditable coverage:

- (1) No insurer is required to issue certifications for termination or cessation of coverage occurring prior to July 1, 1996, nor is any insurer required to document coverage prior to July 1, 1996 on any certification;
 - (2) For termination or cessation of coverage occurring on or after July 1, 1996, and before October 1, 1996, a certification is required to be provided in accordance with Rule [120-2-67-.12](#) only upon a written request by or on behalf of the former insured to whom the certification applies;
 - (3) For termination or cessation of coverage occurring on or after October 1, 1996, and before June 1, 1997, a certification must either be furnished in accordance with Rule [120-2-67-.12](#) on June 1, 1997, or upon request in accordance with Rule [120-2-67-.12](#) if written notice was delivered on June 1, 1997, indicating the availability of such certification upon request; and
 - (4) For termination or cessation of coverage occurring on or after June 1, 1997, a certification must be delivered as required by Rule [120-2-67-.12](#).
- (c) Not including the provisions specified in paragraphs (a) and (b), the effective date of this Regulation Chapter with regard to all health insurance policies or contracts in this state shall be July 1, 1997.

Rule 120-2-68-.05. Basic Coverage for Child Wellness Services.

Benefits for the preventive care of children from birth through the age of five (5) years shall be consistent with the prevailing Recommendations for Preventive Pediatric Health Care. The following services shall be included in basic coverage for child wellness services:

- (a) Medical history;
- (b) Measurement of height, weight and head circumference;
- (c) Testing of blood pressure;
- (d) Sensory screening including vision and hearing;
- (e) Hereditary and metabolic screening in accordance with state law;
- (f) Developmental/behavioral assessment;
- (g) Immunizations consistent with prevailing American Academy of Pediatric Committee statements;
- (h) Tuberculin test;
- (i) Hematocrit or hemoglobin;

(j) Urinalysis;

(k) Anticipatory guidance.

Rule 120-2-69-.02. Definitions.

When used in this regulation, the term:

- (a) "Agent" shall mean a national bank, state bank or trust company that maintains an account in its name in a clearing corporation or that is a member of the Federal Reserve System and through which a custodian participates in a clearing corporation or the Federal Reserve book-entry system, except that with respect to securities issued by institutions organized or existing under the laws of any foreign country or securities used to meet the deposit requirements pursuant to the laws of a foreign country as a condition of doing business therein, "agent" may include a corporation which is organized or existing under the laws of a foreign country and which is legally qualified under those laws to accept custody of securities;
- (b) "Clearing corporation" shall mean a corporation as defined in Section 8-102(3) of the Uniform Commercial Code that is organized for the purpose of effecting transactions in securities by computerized book-entry, except that with respect to securities issued by institutions organized or existing under the laws of any foreign country or securities used to meet deposit requirements pursuant to the laws of a foreign country as a condition for doing business therein, "clearing corporation" may include a corporation that is organized or existing under the laws of any foreign country and which is legally qualified under such laws to effect transactions in securities by computerized book-entry;
- (c) "Commissioner" shall mean the Insurance Commissioner of the State of Georgia;
- (d) "Custodian" shall mean a national bank, state bank or trust company that shall at all times during which it acts as a custodian pursuant to this regulation be no less than adequately capitalized as determined by the standards adopted by United States banking regulators and that is regulated by either state banking laws or is a member of the Federal Reserve System and that is legally qualified to accept custody of securities in accordance with the standards set forth below, except that with respect to securities issued by institutions organized or existing under the laws of any foreign country, or securities used to meet the deposit requirements pursuant to the laws of a foreign country as a condition of doing business therein, "custodian" may include a bank or trust company incorporated or organized under the laws of a country other than the United States that is regulated as such by that country's government or an agency thereof which shall at all times during which it acts as a custodian pursuant to this Regulation Chapter be no less than adequately capitalized as determined by the standards adopted by international banking authorities and that is legally qualified to accept custody of securities. Such definitions also shall apply to subcustodians selected by the custodian and disclosed to and approved by the principal;
- (e) "Federal Reserve book-entry system" shall mean the computerized systems sponsored by the United States Department of the Treasury and certain agencies and instrumentalities of the United States for holding and transferring securities of the United States government and the agencies and instrumentalities, respectively, in Federal Reserve

Banks through banks which are members of the Federal Reserve System or which otherwise have access to such computerized systems;

- (f) "Securities" shall mean certificated securities and uncertificated securities as defined in Section 8-102(1)(a) and (b) of the Uniform Commercial Code.

Authority: O.C.G.A. Sec. [33-2-9](#).

History. Original Rule entitled "Definitions" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-69-.03. Custody Agreements; Requirements.

- (1) An insurance company may, by written agreement with a custodian, provide for the custody of its securities with a custodian. The securities may be held by the custodian or its agent or in a clearing corporation or in the Federal Reserve book-entry system. Securities so held, whether held by the custodian or its agent or in a clearing corporation or in the Federal Reserve book-entry system, are referred to herein as "custodied securities."
- (2) The agreement shall be in writing and shall be authorized by a resolution of the board of directors of the insurance company or of an authorized committee thereof. The terms of the agreement shall comply with the following:
 - (a) Certificated securities held by the custodian shall be held either separate from the securities of the custodian and all of its other customers or in a fungible bulk of securities as part of a Filing of Securities by Issue (FOSBI) arrangement;
 - (b) Securities held in fungible bulk by the custodian and securities in a clearing corporation or in the Federal Reserve book-entry system shall be separately identified on the custodian's official records as being owned by the insurance company. The records shall identify which custodied securities are held by the custodian or by its agent and which securities are in a clearing corporation or in the Federal Reserve book-entry system. If the securities are in a clearing corporation or in the Federal Reserve book-entry system, the records shall also identify where the securities are and if in a clearing corporation, the name of the clearing corporation and if through an agent, the name of the agent;
 - (c) All custodied securities that are registered shall be registered in the name of the company or in the name of a nominee of the company or in the name of the custodian or its nominee or, if in a clearing corporation, in the name of the clearing corporation or its nominee;
 - (d) Custodied securities shall be held subject to the instructions of the insurance company and shall be withdrawable upon the demand of the insurance company, except that custodied securities used to meet the deposit requirements set forth in

Chapter 12 of the Georgia Insurance Code shall, to the extent required by that section, be under the control of the Georgia Insurance Department and shall not be withdrawn by the insurance company without the express written approval of the Georgia Insurance Department. Nothing in this section, however, shall prohibit an insurance company from effecting a valid substitution of securities to maintain compliance with Chapter 12 of the Georgia Insurance Code;

- (e) The custodian shall be required to send or cause or make available to the insurance company a confirmation of all transfers of custodied securities to or from the account of the insurance company. In addition, the custodian shall be required to furnish no less than monthly to the insurance company reports of holdings of custodied securities at times and containing information reasonably requested by the insurance company;
- (f) During the course of the custodian's regular business hours, and upon reasonable notice, an officer or employee of the insurance company, an independent accountant selected by the insurance company, and a representative of an appropriate regulatory body shall be entitled to examine, on the premises of the custodian, the custodian's records relating to custodied securities, but only upon furnishing the custodian with written instructions to that effect from an appropriate officer of the insurance company;
- (g) The custodian and its agents shall be required to send to the insurance company:
 - 1. All reports which they receive from a clearing corporation or the Federal Reserve book-entry system on their respective systems of internal accounting control, and
 - 2. Reports prepared by outside auditors on the custodians or its agent's accounting control of custodied securities that the insurance company may reasonably request;
- (h) The custodian shall maintain records sufficient to provide identifying information relating to custodied securities that may be reported in the insurance company's annual statement and supporting schedules and information required in an audit of the financial statements of the insurance company;
- (i) the custodian shall provide, upon written request from an appropriate officer of the insurance company, the appropriate affidavits, substantially in the form attached to this Regulation Chapter, with respect to custodied securities;
- (j) The custodian shall secure and maintain insurance protection in an adequate amount covering the custodian's duties and activities as custodian for the insurer's assets, and shall state in the custody agreement that protection is in compliance with the requirements of the custodian's banking regulator. The Commissioner may

determine whether the type of insurance is appropriate and the amount of coverage is adequate;

- (k) The custodian shall be obligated to indemnify the insurance company for any loss of custodied securities, except that the custodian shall not be required by this regulation to be so obligated to the extent that the loss was caused by other than the negligence or dishonesty of the custodian;
- (l) In the event that there is a loss of custodied securities for which the custodian shall be obligated to indemnify the insurance company as provided in Paragraph (k) above, the custodian shall promptly replace the securities or the value thereof and the value of any direct loss of rights or privileges resulting from the loss of securities;
- (m) The agreement may provide that the custodian will not be liable for a failure to take an action required under the agreement in the event and to the extent that the taking of the action is prevented or delayed by war (whether declared or not and including existing wars), revolution, insurrection, riot, civil commotion, act of God, accident, fire, explosion, stoppage of labor, strikes or other differences with employees, laws, regulations, orders or other acts of any governmental authority, or any other cause whatever beyond its reasonable control;
- (n) In the event that the custodian gains entry in a clearing corporation or in the Federal Reserve book-entry system through an agent, there shall be an agreement between the custodian and the agent under which the agent shall be subject to the same liability for loss of custodied securities as the custodian. However, if the agent shall be subject to regulation under the laws of a jurisdiction that is different from the jurisdiction the laws of which regulate the custodian, the Commissioner of Insurance of the state of domicile of the insurance company may accept a standard of liability applicable to the agent that is different from the standard of liability applicable to the custodian.

EXHIBIT D

MODEL CUSTODIAN AGREEMENT

[For use by a custodian bank who holds all or a majority of the assets of a domestic insurer.]

GEORGIA _____ COUNTY

THIS AGREEMENT, made and entered into between _____

_____,
incorporated under the laws of the State of Georgia (hereinafter referred to as "Principal"), and

_____, _____ County, Georgia
(hereinafter called "Custodian").

WITNESSETH:

WHEREAS, Principal is the owner of certain property, including book-entry securities, identified in Exhibit "1" attached hereto and made a part hereof which property Principal wishes to place in custody of Custodian in order that such properties may be preserved and serviced in the manner hereinafter specified, and Custodian is willing to undertake to preserve and service the same as hereinafter provided;

NOW THEREFORE, it is agreed between the parties hereto as follows:

1. Powers and Duties of Custodian. Custodian shall:

- (a) Hold and safekeep the assets either in its custody and control or, for a reasonable time, in the custody and control of an agent bank whenever the Custodian determines that custody by an agent bank will expedite the delivery of securities when purchased or sold. The record of all assets held in the custody and control of Custodian shall at all times be identified separately and apart from all other assets held by the Custodian, and such records must clearly identify these assets as belonging solely to the Principal.

Notwithstanding the foregoing:

- (i) Custodian may deposit or arrange for the deposit of securities with a Federal Reserve Bank or with the Depository Trust Company or any other clearing corporation approved for this purpose by the Commissioner of Insurance of the State of Georgia ("Commissioner") and by the Securities and Exchange Commission, notwithstanding that such securities may be commingled in a book-entry account with, or may be merged and held in bulk in the name of such depository or its nominee with, other similar securities not belonging to Principal or held by Custodian.
- (ii) Custodian shall have liability or responsibility for any losses incurred with respect to securities deposited with a Federal Reserve Bank, approved clearing corporation or agent bank pursuant to the foregoing clause only to the extent provided in Paragraph 5.
- (iii) Custodian shall be entitled to rely on receipts, confirmations, statements, reports and other documentation concerning securities so deposited which Custodian shall receive from such Federal Reserve Bank, approved clearing corporation or agent bank electronically and shall have no responsibility to inquire into the validity or accuracy of such documentation unless it is reasonably apparent from the face thereof that such documentation is

invalid or inaccurate, or that there is a possibility of invalidity or inaccuracy which reasonably warrants further inquiry.

- (iv) Custodian shall not be required to hold securities which would otherwise be within its custody or control or within the custody or control of an agent bank when such securities are in transit as a result of a sale, purchase or corporate action, and in the normal course of business would temporarily not be in the actual possession of Custodian. Custodian shall be required to insure such securities as they may be required to deliver during the period such securities are in transit.
- (v) Custodian shall be authorized to deposit and hold assets consisting of securities of foreign issuers and obligors in the custody and control of subcustodian agents appointed by Custodian upon such terms as Custodian may reasonably agree with such subcustodian agents, including terms granting to subcustodian agents the power to deposit and hold securities in the custody and control of other subcustodians selected by subcustodian agents appointed by Custodian.
- (b) Collect the dividends, interest, issues and income from the assets, and the principal at maturity as the same becomes due and payable. Custodian shall promptly forward to Principal information received by Custodian and requiring action by Principal, such as rights offerings, proxies, and calls or redemption of funds.
- (c) Keep accurate books of the custody account and render to Principal monthly a statement accounting for the assets and their market value as of the date of such statement, and all receipts and disbursements in connection with the assets.
- (d) Accumulate and hold all income or other cash receipts, from proceeds of sales or otherwise, collected or received by Custodian, subject to such disbursement and disposition as Principal may direct, or subject to such investment or reinvestment as Principal may direct from time to time.
- (e) Take such action respecting sales of any assets and the investment or reinvestment of the proceeds thereof as Principal may direct from time to time.
- (f) Except for securities held in bearer form or at an approved depository, be authorized to register any stock, bond or other security held in the custody and control of Custodian in nominee form provided such nominee is listed with the American Society of Corporate Secretaries, Inc., or any similar body publishing lists of nominees. Accurate records shall be maintained showing that any such security is a custodial asset hereunder. Assets physically held by Custodian in bearer or registered form, in nominee registration or at a Federal Reserve Bank, agent bank, Depository Trust Company or other approved clearing corporation shall at all times remain under the direction and control of Principal.

2. Return of Assets. Principal shall have the right at any time to direct Custodian to return to Principal all or any part of the Custodian assets, except that custodied securities used to meet the deposit requirements set forth in Chapter 12 of the Georgia Insurance Code shall, to the extent required by that section, be under the control of the Commissioner and shall not be withdrawn by Principal without the express written approval of the Commissioner.
3. Limitations on Duties. In performing said duties, Custodian shall serve Principal's interest with loyalty. Custodian, however, shall not be required to prepare or file any tax returns, render any legal services or institute or defend any legal proceedings in connection with this Agreement or the assets hereunder.
4. Notices; Reliance. Any notice, direction or instruction of Principal to Custodian shall be in writing, signed by at least one authorized person or shall be given orally, in person, by telephone, by facsimile or other electronic means by an authorized person followed promptly by written confirmation, or by acceptable electronic authorization signed by at least one authorized person. A person shall be deemed to be authorized to act for Principal for purposes hereof if his or her name, specimen signature and authority have been certified to Custodian by the Secretary or an Assistant Secretary of Principal over its corporate seal, and such person shall continue to be an authorized person until Custodian receives written notice to the contrary from the Secretary or an Assistant Secretary of the Principal over its corporate seal. Custodian shall act and be fully protected in acting in accordance with notice, direction or instruction reasonably believed by Custodian to have been given by an authorized person, and shall not be obligated to take any corrective action with respect thereto unless and directed to do so by Principal.
5. Indemnity. Custodian shall be responsible for losses or damage to the assets in its care, custody and control, including assets held at an agent bank, approved clearing corporation, Federal Reserve Bank, subcustodian bank or any other agent of Custodian, if such loss is occasioned by the dishonesty, willful acts or negligence of Custodian's officers or employees, fire, burglary, robbery, theft or mysterious disappearance. Under no circumstances shall Custodian be liable for consequential damages under this Agreement or for any cause whatsoever beyond its reasonable control including, but not limited to, acts of governmental authority, war, insurrection, nuclear reaction, or acts of God such as hurricane, tornado, earthquake or volcanic eruption. This indemnity provision shall survive the termination of this agreement.
6. Replacement of Losses. In the event there is an injury to or loss of assets while under the care, custody and control of Custodian or one of its agents or nominees, a Federal Reserve Bank or an approved clearing corporation, Custodian shall, promptly and upon demand by Principal, cause said securities to be replaced with securities of like kind and quality, together with all rights and privileges pertaining thereto or, if acceptable to Principal, replace the value thereof at the time of loss, together with the value at such time of any loss of any rights or privileges hereunder.
7. Termination of Agreement. This Agreement may be terminated at any time by either party upon thirty (30) days written notice to the other party. Upon such termination, all assets

remaining in the care, custody and control of the Custodian shall be delivered to Principal, its authorized agent or a successor custodian.

8. Compensation of Custodian. For its services hereunder, custodian shall be paid such compensation as may be provided in a separate agreement between Principal and Custodian or, in the absence of such agreement, shall receive the fees it normally charges for similar custodian services under its regularly published fee schedule as the same may from time to time be amended.
9. Inspection by Regulatory. The books and records of Custodian pertaining to its actions under this Agreement and assets held by the Custodian under this Agreement shall be open to inspection and audit at reasonable times by Principal's officers and auditors or by representatives of the Commissioner or any bank regulatory authority.
10. Regulatory Reporting. Custodian agrees to cooperate with Principal in providing the information necessary for the preparation of routine reports to Principal's stockholders, the Securities and Exchange Commission under forms N-1R and N-1Q, state "blue sky" authorities and other governmental agencies in connection with audits of Principal or other similar matters requiring access to the assets held by Custodian and all records applicable hereunder.
11. Modifications; Governing Law. This Agreement, together with any agreement regarding the compensation of Custodian referred to herein, shall constitute the entire agreement of the parties and no modifications shall be effective unless in writing signed by Custodian and Principal. The construction and interpretation of this Agreement and the rights, duties and liabilities of the parties hereunder shall be determined in accordance with the laws of the State of Georgia.

IN WITNESS WHEREOF, the parties have hereunto caused this Agreement to be executed by their duly authorized officers and their seals to be affixed and duly attested this _____ day of _____, 19____.

History. Original Rule entitled "Severability" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Subject 120-2-71. SALE OF ANNUITIES BY FINANCIAL INSTITUTIONS.

Rule 120-2-71-.01. Sale of Annuities by Financial Institutions.

- (1) Fixed and variable annuities may be sold by certain lending institutions, bank holding companies, or subsidiaries or affiliates of either of the foregoing doing business in this State. However, fixed and variable annuities are underwritten by insurers and sold by insurance agents. Therefore, the purpose of this Regulation Chapter is to specify the requirements for the sale of fixed and variable annuities by lending institutions, bank holding companies, and their subsidiaries and affiliates.
- (2) Nothing in this Regulation Chapter shall authorize any of the following activities by a lending institution, bank holding company, or subsidiary or affiliate of either.
 - (a) The sale of any fixed or variable annuity that is not underwritten by an insurer which has a certificate of authority to transact business in Georgia;
 - (b) The sale of any insurance product, not including a fixed or variable annuity, except as specifically authorized pursuant to O.C.G.A. § [33-3-23](#);
 - (c) Failure to comply with the licensing requirements for agents and agencies;
 - (d) Failure to comply with any other provisions of this Regulation Chapter with respect to the sale of fixed or variable annuities.
 - (e) Failure to comply with Title 33 of the Official Code of Georgia Annotated or the Rules and Regulations of the Commissioner of Insurance of the State of Georgia.
 - (f) Failure to comply with Title 7 of the Official Code of Georgia or the Rules and Regulations of the Department of Banking and Finance.

History. Original Rule entitled "Sale of Annuities by Financial Institutions" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-71-.02. Definitions.

As used in this Regulation Chapter, the term:

- (a) "Agent" means a person, including corporations, subsidiary corporations, partnerships, non-natural persons, etc., associated with or in the form of a financial institution who represents one or more insurers and is engaged in the business of soliciting or procuring or accepting applications for annuity sales;
- (b) "Agent" means an individual appointed or employed by an insurer who solicits or procures applications for insurance; who in any way, directly or indirectly, makes or causes to be made any insurance contract for or on account of an insurer, or who as a representative of an insurer receives money for transmission to the insurer for an insurance contract, anything in the application or contract to the contrary notwithstanding, and who has on file with the Commissioner a certificate of authority from each insurer with whom the agent places insurance;
- (c) "Insurance/Annuity Agents" means an individual appointed or employed by a financial institution who solicits or procures applications for annuities; who in any way, directly or indirectly, makes or causes to be made any annuity contract for or on account of an insurer; and who has on file with the Commissioner a certificate of authority from each insurer with whom the agent places annuities;
- (d) An "annuity" is a contract of insurance underwritten by an insurance company that pays an income benefit (monthly, quarterly, semiannually, or annually) for: 1.) the life of a person (annuitant), 2.) the lives of two or more persons, or 3.) a specified period of time. Payments are made for a stated period of time or for the life or lives of the person or persons specified in the contract. The term does not cover the proceeds of life insurance no matter how payable;
- (e) "Financial Institution" means a state or national bank, building and loan or savings and loan association, bank holding company, or a subsidiary or affiliate of any of the above;
- (f) A "fixed annuity" means one party agrees to pay to the annuitant a stipulated amount (monthly, quarterly, semiannually, or annually, as desired) throughout the annuitant's lifetime whereby the dollar amount will not fluctuate regardless of adverse changes in the insurance company's mortality experience, investment return, and expenses;
- (g) A "variable annuity" means a contract that pays an annuitant income payments of which the amounts vary in accordance with the market value of the securities in the separate account of the insurer on the respective valuation days;
- (h) An "annuitant" is a person who receives an income benefit from an annuity for life or for a specified period of time.

Rule 120-2-71-.03. Notification to Department of Intent to Sell Annuities In or Through Financial Institutions.

- (1) Prior to marketing annuities, a financial institution shall provide notification to the Department of Insurance on Form GID 323FI and a copy to the Department of Banking and Finance (DBF). Such report shall:
 - (a) Identify any financial institution location where an insurance/annuity agent will be physically present. Each branch must be identified specifically in the registration;
 - (b) Acknowledge that the financial institution has read and understands these rules; and
 - (c) Identify any insurance company and the policy form numbers of the annuities which will be marketed in association with the financial institution.
- (2) An Amended Form shall be filed within thirty (30) days if there is a change in any information previously submitted to the Department.

Rule 120-2-71-.04. Financial Institutions Registering as an Agency.

- (1) The conduct of annuity transactions in association with a financial institution shall be subject to the requirements of O.C.G.A. § [33-23-3](#) and Georgia Insurance Department Regulation [120-2-3-.05](#).
- (2) Each financial institution where a licensed and appointed insurance/annuity agent is engaged in transactions with respect to annuity products shall be considered an insurance agency for purposes of O.C.G.A. § [33-23-3](#) and must register with this Department pursuant to Georgia Regulation Chapter [120-2-3-.05](#) using Form GID 130FI.
- (3) GID Form 323FI must identify all locations or branches from which annuities will be sold.

Rule 120-2-71-.05. Licensure of Agents.

- (1) Any individual soliciting, selling or marketing annuities to individuals permanently or temporarily residing in this state must be licensed and appointed as an insurance agent in accordance with the provisions of the Georgia Insurance Code and Georgia Insurance Department Regulation Chapter [120-2-22-.07](#).
- (2) No licensed and appointed insurance/annuity agent shall, while working from within and on behalf of a financial institution, transact any lines of insurance other than annuities except to the extent permitted by O.C.G.A. § [33-3-23](#).

Rule 120-2-71-.07. Location for the Sale of Annuities.

- (1) If annuities are sold on the premises of a financial institution, the area utilized by an insurance agent for such transactions must be sufficiently segregated and distinct from areas utilized by the financial institution for accepting insured deposits so as to avoid confusion as to the separate identities and activities of the financial institution and the licensed agent.
- (2) No insurance agent or employee of the financial institution shall under any circumstances conduct annuity transactions from the teller area. See DBF Regulation [80-5-3-.05](#)

Rule 120-2-71-.08. Insurer Reporting.

- (1) Any insurer marketing annuities in association with one or more financial institutions shall report the existence of such program and the volume of premium written when the

gross annualized premium for such program or programs exceeds or is projected to exceed 10% of the gross annual premium for that line.

- (2) Such report shall be made to the Commissioner of Insurance on Form GID 323INS and shall include:
 - (a) the program name;
 - (b) the name of the associated financial institution (including branches);
 - (c) the form number of each annuity offered; and
 - (d) the total annualized premium.

Rule 120-2-71-.09. Agent Activities.

- (1) Only a licensed and appointed agent shall:
 - (a) solicit the sale of annuities or describe the benefits of the annuity contract or otherwise describe the terms of coverage including premiums or rates of return;
 - (b) provide an application, enrollment form or other document by which a purchaser effectuates coverage; or
 - (c) accept an initial premium payment from the annuity purchaser.
- (2) In connection with the marketing of fixed or variable annuities, employees of a financial institution who are not licensed and appointed as insurance agents shall not:
 - (a) make general or specific recommendations as to fixed or variable annuities;
 - (b) qualify or screen a purchaser for such products;
 - (c) respond to questions from prospective purchasers regarding annuity products. Any individual seeking general or specific information about annuity contracts shall be advised as to the location of the licensed agent or otherwise advise as to how the agent may be contacted; or
 - (d) refer to fixed or variable annuities as any type of deposit product or insured deposit.

- (3) The licensed and appointed insurance/annuity agent shall be identified as an insurance/annuity agent on stationery and business cards utilized by the licensee, on other materials provided to the purchaser as well as in any verbal discussions with the annuity purchaser. If the agent is licensed as a securities broker, the additional license may be disclosed on the materials as well as in any verbal discussions with the annuity purchaser regarding annuity products, provided the marketer is also identified as an insurance/annuity agent.

Rule 120-2-71-.10. Disclosure of Employment Status for Agents Employed by Financial Institutions.

If employees of the financial institution that have contact with the general public or financial institution customers with respect to lending, checking, deposit taking, or trust activities are licensed as insurance agents to sell annuities, in addition to the other disclosures required by this section, the employee shall disclose verbally at the time a solicitation is made or an application is taken that the employee is acting as an insurance agent representing one or more specifically identified insurance companies, and that the annuity is not issued or guaranteed by the financial institution.

Rule 120-2-71-.11. Premium Collection.

- (1) Only a licensed agent or insurance/annuity agent may accept the initial premium paid for an annuity contract.
- (2) A financial institution or affiliate may, at the request of the annuity purchaser, send premium billings or notices to annuity purchasers and debit the purchaser's account or credit arrangement for the payment of annuity premiums subsequent to the initial payment. Upon the written request of the annuity purchaser or insurer to discontinue this form of premium payment, the financial institution shall immediately discontinue such debits.

History. Original Rule entitled "Premium Collection" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-71-.12. Utilization of Independent Agents in Financial Institutions.

- (1) Any financial institution may contract with agents or an insurance agency on a full-time or part-time basis for the sale of annuity products from bank locations. Such agents shall be appointed by the licensed insurers issuing and underwriting the annuity product. Commissions shall be paid to the agent or agency and may be paid to the financial institution subject to the conditions of paragraphs 2 and 3 of this section.
- (2) An insurance agent or agency may not share any commissions with the financial institution and the financial institution shall not accept any such commission unless the financial institution has registered as an agency using the GID Form 130FI.
- (3) Any lease of space by a financial institution to an insurance agent under which the amount of the rent is based directly or indirectly on the volume of premium written by the insurance agent entails the sharing of commission.

History. Original Rule entitled "Compensation of Agents" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-71-.14. Access to Records and Premises.

- (1) An insurance agent marketing annuities is responsible for maintaining such records as are necessary to enable the Department to determine that transactions under his or her license comply with all applicable requirements of the insurance code and for making such records available to the Georgia Insurance Department.
- (2) If the licensed insurance agent markets other products, provides other services, or maintains other information regarding the customer which related to other than annuity transactions, all records relating to annuity transactions shall be separately maintained.
- (3) The Commissioner of Insurance shall have access to the books and records relating to the sale of annuities irrespective of the physical location of such books and records.

- (4) A contract or agreement regarding the sale of annuities between the financial institution and any independent insurance agent or other person conducting annuity transactions shall be in writing and available for inspection by the Georgia Insurance Department.

Cite as Ga. Comp. R. & Regs. R. 120-2-71-.14

Rule 120-2-71-.15. Advertising.

- (1) Advertisements of fixed and variable annuities marketed pursuant to this regulation shall be subject to the provisions of O.C.G.A. § [33-6-1](#) *et seq.* and Georgia Insurance Department Regulation 120-2-11 and the applicable provisions of Department of Banking and Finance Regulation [80-5-3-.07](#).
- (2) No licensed or unlicensed person shall in connection with the marketing of annuities refer to coverage available by the Georgia Life and Health Insurance Guaranty Association, unless specifically asked by the annuity purchaser.
- (3) If annuity advertisements directed to prospective purchasers are included in mailings of bank statements or other documents generated by the financial institution relating to products or services provided by the financial institution, the mailings shall clearly identify the separate sources of the materials.
- (4) If the product or program named under which an annuity is marketed includes the name of a financial institution or the name of a program associated with the financial institution, the product or program name must also identify the insurance company which is issuing and underwriting the annuity.
- (5) Premiums shall not be referred to as "deposits." Terminology used in connection with annuities must be sufficiently different than that used in connection with traditional banking products and services so as to avoid confusion.
- (6) Advertisements of annuities are the responsibility of the insurer and are subject to review by the Georgia Insurance Department. If an advertisement describes annuity products and other types of financial services or investments, the entire advertisement must be submitted to the Georgia Insurance Department in the form in which it will be communicated to consumers.
- (7) An unlicensed employee of a financial institution may distribute an advertisement describing an annuity product to a prospective annuity purchaser or may refer a customer to a display containing such advertisements. However, that employee shall not recommend the purchase of an annuity, describe the features of an annuity, or respond to questions regarding the content of the advertisement. In response to any questions, the employee must indicate that the consumer should pose that question to the licensed agent.

Rule 120-2-71-.19. Anti-Tying Provisions.

- (1) No person may by words, actions, or distribution of written materials require or create the impression that the purchase of an annuity by a borrower or prospective borrower is required as a condition of or is in any way related to the lending of money or the extension of credit, the establishment or maintenance of a trust account, the establishment or maintenance of an insured deposit account, or the provision of services related to such activities.

- (2) If annuities are marketed in connection with or in conjunction with any activities described in this section:
- (a) The marketer shall disclose both verbally and in writing that the purchase of an annuity is unrelated to and not a condition to the provision or term of any banking services or activity. The written disclosure required by this section shall be part of the disclosures required by the Department of Banking and Finance Regulation [80-5-3-.08](#).
 - (b) If an annuity product is offered in a package with other services described in (1) above, the financial institution shall offer the annuity product available separately, subject to the terms and conditions no less favorable to the consumer than in the package

Amended: F. Dec. 4, 2008; eff. Dec. 24, 2008.

[Rule 120-2-72-.02. Purpose.](#)

The purpose of this Regulation Chapter is:

- (a) to provide for the proper and expeditious investigation and prosecution of fraudulent insurance acts through the establishment of a Special Insurance Fraud Fund;
- (b) to establish guidelines for the administration of the Special Insurance Fraud Fund, including the annual assessment of insurers doing business in this State;
- (c) to provide terms and conditions for the use of the funds of the Special Insurance Fraud Fund.

Amended: F. Dec. 4, 2008; eff. Dec. 24, 2008.

Rule 120-2-72-.04. Definitions.

For the purposes of this Regulation Chapter, the following words shall be defined as follows:

- (a) "Commissioner" shall mean the Commissioner of Insurance of the State of Georgia; and
- (b) "Special Insurance Fraud Fund" shall mean the fund established by O.C.G.A. § [33-1-17](#) for the purpose of funding the investigation of insurance fraud.

Cite as Ga. Comp. R. & Regs. R. 120-2-72-.04

Authority: O.C.G.A. Secs. [33-1-17](#), and [33-2-9](#).

History. Original Rule entitled "Definitions" adopted. F. Feb. 18, 1997; eff. Mar. 10, 1997.

Amended: F. Dec. 4, 2008; eff. Dec. 24, 2008.

Repealed: New Rule of same title adopted. F. Jun. 7, 2013; eff. Jun. 27, 2013.

Rule 120-2-72-.05. Participation in Fund.

- (1) On or before July 1 of the year of the approval of the appropriation specified in O.C.G.A. § [33-1-17](#), the Commissioner shall assess each foreign, alien and domestic insurance company doing business in Georgia on the following basis:
 - (a) Each insurer whose Georgia written premium is less than \$1,000,000.00, including those insurers whose Georgia written premium is zero or less than zero, will each be assessed a fixed amount not more than the minimum amount assessed an insurer with Georgia written premium of \$1,000,000.00 or greater;
 - (b) Each insurer whose Georgia written premium is \$40,000,000.00 or greater but less than \$100,000,000.00, an assessment equal to .0035 times the appropriated amount;
 - (c) Each insurer whose Georgia written premium is \$100,000,000.00 or greater but less than \$500,000,000.00, an assessment equal to .0045 times the appropriated amount;
 - (d) Each captive insurer - other than the following domestic captive insurance companies: an agency captive insurance company, dormant captive insurance company, industrial insured captive insurance company, sponsored captive insurance company (including a protected cell thereof), or pure captive insurance company - shall be assessed a fixed amount of \$100.00, without regard to the amount of premium written;

- (e) Each insurer whose Georgia written premium is \$500,000,000.00 or greater but less than \$1,000,000,000.00, an assessment equal to .0055 times the appropriated amount;
 - (f) Each insurer whose Georgia written premium is \$1,000,000,000.00 or greater, an assessment equal to .0065 times the appropriated amount;
 - (g) Regarding each insurer not included in (a) through (f) herein, an assessment shall be computed on a pro-rata basis of the remainder of the appropriation for each insurer whose Georgia written premium is \$1,000,000.00 or greater but less than \$40,000,000.00.
- (2) Written premium is premiums written in GEORGIA ONLY, including annuity considerations and is determined prior to reinsurance transactions. Written premium is determined from the most recent annual statement on file with the Commissioner at the time the assessment calculations are made.
 - (3) Assessments based on the annual appropriation shall be due on September 1 of the year of the assessment.
 - (4) In the event of a supplemental appropriation, the assessment will be made as soon as practicable after approval of the appropriation, and will be due thirty (30) days after assessment.
 - (5) Any assessment levied pursuant to this Regulation Chapter which is not remitted to the Georgia Insurance Department on or before the due date shall be deemed delinquent and subject to a penalty of 10% of the amount owed, together with interest on the principal at the rate of 1% per month, or any part of a month, from the date due until the date paid. Such penalty and interest, if any, shall be transmitted by the Commissioner to the State Treasury and shall not act to increase the funds available for the purposes described in O.C.G.A. § [33-1-17](#).

Rule 120-2-72-.06. Terms and Conditions for Use of Funds.

- (1) The Commissioner may utilize the funds from the Special Insurance Fraud Fund for the investigation of insurance fraud. For purposes of this Regulation, investigation of insurance fraud shall include but not be limited to investigations carried out under official authority by law enforcement personnel employed by the Commissioner, and examinations of annual or other required statements by personnel employed or appointed by the Commissioner to identify any false material statement therein. In addition, the Commissioner may utilize a portion of said funds to reimburse prosecuting attorneys for some or all of the costs of retaining assistant prosecuting attorneys to prosecute insurance fraud cases when it is determined by the Commissioner that extraordinary circumstances exists necessitating such reimbursement.
- (2) In an effort to spend the funds from the Special Insurance Fraud Fund responsibly and in a manner that will lead to proper and expeditious investigation and prosecution of fraudulent insurance acts, the following conditions apply:
 - (a) Expenses of independent contractors reimbursed with funds from the Special Insurance Fraud Fund shall be calculated in accordance with Georgia Insurance Department procedures regarding expense accounts;
 - (b) All items submitted for reimbursement must be fully documented and are subject to audit by the Georgia Insurance Department;
 - (c) Any independent contractors utilized by the Georgia Insurance Department for the purposes outlined in O.C.G.A. § [33-1-17](#) must receive advance written authorization from the Commissioner before any request for reimbursement will be considered.

Subject 120-2-73. Appendix - .05.

Rule 120-2-73-.01. Purpose.

- (1) The purpose of this Chapter of the Rules and Regulation of the Office of Commissioner of Insurance is to require insurers to deliver to prospects for annuity contracts, for annuity riders to life insurance policies, or for deposit funds accepted in conjunction with life insurance policies or annuity contracts, information which helps the prospect select an annuity or deposit fund, or both, appropriate to the prospect's needs; improves the prospect's understanding of the basic features of the plan under consideration; and improves the prospect's ability to evaluate the relative benefits of similar plans.
- (2) This regulation does not prohibit the use of additional material which is not in violation of this regulation or any other Georgia statute or regulation.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-6-12](#).

History. Original Rule entitled "Purpose" adopted. F. Nov. 25, 1996; eff. Dec. 15, 1996.

Amended: F. Oct. 8, 2014; eff. Jan. 1, 2015, as specified by the Agency.

Rule 120-2-73-.02. Scope.

- (1) To the extent hereinafter provided, this regulation shall apply to any solicitation, negotiation or procurement of annuity contracts, or deposit funds accepted in conjunction with individual life insurance policies or with annuity contracts which are subject to this regulation, occurring within this state. The regulation shall apply to any issuer of life insurance policies or annuity contracts, including fraternal benefit societies. For the purpose of this regulation, annuity contracts include annuity riders to life insurance policies.
- (2) This regulation shall apply to:

- (a) Individual deferred annuities and group annuities.
 - (b) Deposit funds (i.e. arrangements under which amounts to accumulate at interest are paid in addition to life insurance premiums or annuity considerations under provisions of individual life insurance policies or annuity contracts).
- (3) This regulation shall not apply to:
- (a) Group annuity contracts whose cost is borne in whole or in part by the annuitant's employer or by an association of which the annuitant is a member. The cost of a contract shall be deemed to be borne by an annuitant's employer to the extent the annuitant's salary is reduced or the annuitant forgoes a salary increase;
 - (b) Immediate annuity contracts;
 - (c) Policies or contracts issued in connection with employee benefit plans as defined by Section 3(3) of the federal Employee Retirement Income Security Act of 1974 (ERISA) as amended from time to time;
 - (d) Individual retirement accounts and individual retirement annuities as described in Section 408 of the federal Internal Revenue Code;
 - (e) A single advance payment of specific premiums equal to the discounted value of such premiums;
 - (f) A policyholder's deposit account established primarily to facilitate payment of regular premiums and where the anticipated balance of such account does not exceed twice the sum of the premiums payable in one year on all policies for which premiums are being paid from such account.

Rule 120-2-73-.03. Buyer's Guide to Annuities.

For purposes of this regulation, "Buyer's Guide to Annuities" means the document which contains, and is limited to, the language set forth in the Appendix to this regulation or language approved by the Commissioner of Insurance.

Rule 120-2-73-.04. Contract Summary.

- (1) The Contract Summary must be a separate document. All information required to be disclosed must be set out in such a manner as not to minimize or render any portion thereof obscure. Any amounts which remain level for two or more contract years may be represented by a single number if it is clearly indicated what amounts are applicable for each contract year. Amounts in subparagraphs (2)(f), (g), (i) and (k)3 of this section shall, in the Case of flexible premium annuity contracts, be determined either according to an anticipated pattern of consideration payments or on the assumption that considerations payable will be \$100 a month or \$1,000 per year. If not specified in the contract, annuity payments shall be assumed to commence at age sixty-five or ten years from issue, whichever is later. Zero amounts shall be displayed as zero and shall not be displayed as blank spaces.
- (2) For purposes of this regulation, "Contract Summary" means a written statement describing the elements of the annuity contract and deposit fund, including but not limited to, where applicable, the following:
 - (a) A prominently placed title as follows: "Contract Summary" (This shall be followed by an identification of the annuity contract or deposit fund, or both, to which the summary applies);
 - (b) The name and address of the insurance agent or, if no agent is involved, a statement of the procedure to be followed in order to receive responses to inquiries regarding the Contract Summary;
 - (c) The full name and home office or administrative office address of the insurer which will issue the annuity contract or administer the deposit fund;
 - (d) One of the options under the contract available for annuity payout. This form of annuity payout should be used for providing information in subparagraphs (2)(f), (g) and (i) of this section;
 - (e) A prominent statement that the contract does not provide cash surrender values if such is the case;
 - (f) The amount of the guaranteed annuity payments at the scheduled commencement of the annuity, based on the assumption that all scheduled considerations are paid and there are no prior withdrawals from or partial surrender of the contract and no indebtedness to the insurer on the contract;
 - (g) On the same basis as for subparagraph (2)(f) of this section except for guarantees, illustrative annuity payments not greater in amount than those based on
 1. the current dividend scale and the interest rate currently used to accumulate dividends under such contracts, or the current excess interest rate credited by the insurer, and

2. current annuity purchase rates.

A dividend scale or excess interest rate which has been publicly declared by the insurer with an effective date not more than two months subsequent to the date of declaration shall be considered a current dividend scale or current excess interest rate;

- (h) For annuity contracts or deposit funds for which guaranteed cash surrender values at any duration are less than the total considerations paid, a prominent statement that such contract or fund may result in loss if kept for only a few years, together with a reference to the schedule of guaranteed cash surrender values required by subparagraph (2)(i)3. of this section;
- (i) The following amounts, where applicable, for the first ten contract years and representative contract years thereafter sufficient to clearly illustrate the patterns of considerations and benefits, including but not limited to, the twentieth contract year and at least one age from 60-70 and at the scheduled commencements of annuity payments:
 - 1. The gross annual or single consideration for the annuity contract. Any additional considerations for optional benefits, such as disability premium waiver, should be shown separately;
 - 2. Scheduled annual or single deposit for the deposit fund, if any;
 - 3. The total guaranteed death benefit and cash surrender value at the end of the year; or, if no guaranteed cash surrender values are provided, the total guaranteed paid-up annuity at the end of the year. Values for a deposit fund must be shown separately from those for a basic contract;
 - 4. The total illustrative death benefit and cash surrender value or paid-up annuity at the end of the year, not greater in amount than that based on:
 - (i) the current dividend scale and the interest rate currently used to accumulate dividends under such contracts or the current excess interest rate credited by the insurer, and
 - (ii) current annuity purchase rates.

A dividend scale or excess interest rate which has been publicly declared by the insurer with an effective date not more than two months subsequent to the date of declaration shall be considered a current dividend scale or current excess interest rate.

- (j) For a Contract Summary which includes values based on the current dividend scale or the current dividend accumulation or excess interest rate, a statement that such values are illustrations and are not guaranteed.
- (k) The following should be shown with regard to the consideration for the basic annuity contract or deposit fund. Considerations applicable to optional benefits, such as disability premium waiver, should be excluded.
 - 1. A statement of all fees, charges and loading amounts that are or may be deducted from initial or subsequent considerations paid or that are or may be deducted from the contract or fund values prior to or at contract maturity, including but not limited to any surrender penalties, discontinuance fees, partial surrender or withdrawal penalties or fees, transaction fees, and account maintenance fees.
 - 2. A statement of the interest rates used in calculating the guaranteed and illustrative contract or fund values.
 - 3. The yield on gross considerations at the end of ten years (if the annuity payments have not yet commenced) and at the scheduled commencement of annuity payments. For contracts without surrender values, only the yield at the scheduled commencement of annuity payments need be shown. The yield shall be figured on the basis of the contract value used to determine the annuity payments. These yield figures shall be shown on both a guaranteed and illustrative basis. They represent the effective annual interest rates at which the accumulation of 100% of all gross considerations would be equal to the guaranteed and illustrative cash surrender values at the points specified. For contracts without surrender values the yields shall be figured on the basis of the contract values used to determine annuity payments at the points specified.
- (l) The date on which the Contract Summary is prepared.

Rule 120-2-73-.05. Disclosure Requirements.

- (1) The insurer shall provide to all prospective purchasers a Buyer's Guide to Annuities and a Contract Summary prior to accepting the applicant's initial consideration for the annuity contract, or in the case of a deposit fund, prior to acceptance of the applicant's initial consideration for the associated life insurance policy or annuity contract, unless the annuity contract or associated life insurance policy for which application is made

provides for an unconditional refund period of at least ten days or unless the Contract Summary contains such an unconditional refund offer, in which event the Buyer's Guide to Annuities and the Contract Summary must be delivered with or prior to the delivery of the annuity contract or associated life insurance policy.

- (2) The insurer shall provide a Buyer's Guide to Annuities and a Contract Summary to any prospective purchaser or present policyholder upon request.

Rule 120-2-73-.06. General Rules.

- (1) Each insurer shall maintain at its home office or principal office, a complete file containing one copy of each document authorized by the insurer for use pursuant to this regulation. Such file shall contain one copy of each authorized form for a period of at least three years following the date of its last authorized use.
- (2) An agent shall inform the prospective purchaser, prior to commencing a sales presentation, that the agent is acting as a life insurance agent and shall inform the prospective purchaser of the full name of the insurance company which the agent is representing to the buyer. In sales situations in which an agent is not involved, the insurer shall identify its full name.
- (3) Terms such as financial planner, investment advisor, financial consultant or financial counseling shall not be used in such a way as to imply that the insurance agent is generally engaged in an advisory business in which compensation is unrelated to sales, unless such is actually the case.
- (4) Any reference to dividends or to excess interest credits must include a statement that such dividends or excess interest credits are not guaranteed.
- (5) A presentation of benefits shall not display guaranteed and nonguaranteed benefits as a single sum unless guaranteed benefits are shown separately in close proximity thereto and with equal prominence.
- (6) Sales promotion literature and contract forms shall not state or imply that annuity contracts or deposit funds are the same as savings accounts or deposits in banking or savings institutions. The use of passbooks which resemble savings bank passbooks is prohibited.

Appendix (120-2-73) Buyer's Guide to Annuities

The "Buyer's Guide to Annuities" exists in three versions. Those versions are titled "Buyer's Guide for Deferred Annuities - Fixed," "Buyer's Guide for Deferred Annuities - Variable," and simply "Buyer's Guide for Deferred Annuities." The last of these three versions addresses both fixed and variable deferred annuity products. The annuity salesperson (the agent, producer, broker, or advisor) is required to provide the consumer with at least one of these three versions appropriate to the consumer's interests.

The information in the Buyer's Guide is meant to be helpful to consumers but does not constitute legal, financial, or tax advice. Consumers may want to consult independent advisors that specialize in those areas.

The information in the Buyer's Guide focuses on some of the most common features of annuity products. An annuity selected may have unique features that are not covered by the information provided.

It is important that consumers carefully read the material provided and ask their annuity salesperson questions. Each version of the Buyer's Guide contains questions that consumers should ask their annuity salesperson. Consumers should be satisfied with their salesperson's

answers before purchasing annuity products. This overview of the Buyer's Guide is not required to be distributed to consumers.

What Is an Annuity?

An annuity is a contract with an insurance company. All annuities have one feature in common, and it makes annuities different from other financial products. With an annuity, the insurance company promises to pay you income on a regular basis for a period of time you choose—including the rest of your life.

When Annuities Start to Make Income Payments

Some annuities begin paying income to you soon after you buy it (an immediate annuity). Others begin at some later date you choose (a deferred annuity).

How Deferred Annuities Are Alike

There are ways that most deferred annuities are alike.

- * They have an accumulation period and a payout period. During the accumulation period, the value of your annuity changes based on the type of annuity. During the payout period, the annuity makes income payments to you.

- * They offer a basic death benefit. If you die during the accumulation period, a deferred annuity with a basic death benefit pays some or all of the annuity's value to your survivors (called beneficiaries) either in one payment or multiple payments over time. The amount is usually the greater of the annuity account value or the minimum guaranteed surrender value. If you die after you begin to receive income payments (annuitize), your chosen survivors may not receive anything unless: 1) your annuity guarantees to pay out at least as much as you paid into the annuity, or 2) you chose a payout option that continues to make payments after your death. For an extra cost, you may be able to choose enhanced death benefits that increase the value of the basic death benefit.

- * You usually have to pay a charge (called a surrender or withdrawal charge) if you take some or all of your money out too early (usually before a set time period ends). Some annuities may not charge if you withdraw small amounts (for example, 10% or less of the account value) each year.

- * Any money your annuity earns is tax deferred. That means you won't pay income tax on earnings until you take them out of the annuity.

- * You can add features (called riders) to many annuities, usually at an extra cost.

- * An annuity salesperson must be licensed by your state insurance department. A person selling a variable annuity also must be registered with FINRA ¹ as a representative of a broker/dealer that's a FINRA member. In some states, the state securities department also must license a person selling a variable annuity.

- * Insurance companies sell annuities. You want to buy from an insurance company that's financially sound. There are various ways you can research an insurance company's financial strength. You can visit the insurance company's website or ask your annuity salesperson for more information. You also can review an insurance company's rating from an independent rating agency. Four main firms currently rate insurance companies. They are A.M. Best Company, Standard and Poor's Corporation, Moody's Investors Service, and Fitch Ratings. Your insurance department may have more information about insurance companies. An easy way to find contact information for your insurance department is to visit www.naic.org and click on "States and Jurisdictions Map."

- * Insurance companies usually pay the annuity salesperson after the sale, but the payment doesn't reduce the amount you pay into the annuity. You can ask your salesperson how they earn money from the sale.

Sources of Information

Contract: *The legal document between you and the insurance company that binds both of you to the terms of the agreement.*

Disclosure: *A document that describes the key features of your annuity, including what is guaranteed and what isn't, and your annuity's fees and charges. If you buy a variable annuity, you'll receive a prospectus that includes detailed information about investment objectives, risks, charges, and expenses.*

Illustration: *A personalized document that shows how your annuity features might work. Ask what is guaranteed and what isn't and what assumptions were made to create the illustration.*

How Deferred Annuities Are Different

There are differences among deferred annuities. Some of the differences are:

- * Whether you pay for the annuity with one or more than one payment (called a premium).
- * The types and amounts of the fees, charges, and adjustments. While almost all annuities have some fees and charges that could reduce your account value, the types and amounts can be different among annuities. Read the Fees, Charges, and Adjustments section in this Buyer's Guide for more information.
- * Whether the annuity is a fixed annuity or a variable annuity. How the value of an annuity changes is different depending on whether the annuity is fixed or variable.

Fixed annuities guarantee your money will earn at least a minimum interest rate. Fixed annuities may earn interest at a rate higher than the minimum but only the minimum rate is guaranteed.

The insurance company sets the rates.

Fixed indexed annuities are a type of fixed annuity that earns interest based on changes in a market index, which measures how the market or part of the market performs. The interest rate is guaranteed to never be less than zero, even if the market goes down.

Variable annuities earn investment returns based on the performance of the investment portfolios, known as "subaccounts," where you choose to put your money. The return earned in a variable annuity isn't guaranteed. The value of the subaccounts you choose could go up or down.

If they go up, you could make money. But, if the value of these subaccounts goes down, you could lose money. Also, income payments to you could be less than you expected.

- * Some annuities offer a premium bonus, which usually is a lump sum amount the insurance company adds to your annuity when you buy it or when you add money. It's usually a set percentage of the amount you put into the annuity. Other annuities offer an interest bonus, which

is an amount the insurance company adds to your annuity when you earn interest. It's usually a set percentage of the interest earned. You may not be able to withdraw some or all of your premium bonus for a set period of time. Also, you could lose the bonus if you take some or all of the money out of your annuity within a set period of time.

How Does the Value of a Deferred Annuity Change?

Fixed Annuities

Money in a fixed deferred annuity earns interest at a rate the insurer sets. The rate is fixed (won't change) for some period, usually a year. After that rate period ends, the insurance company will set another fixed interest rate for the next rate period. That rate could be higher or lower than the earlier rate.

Fixed deferred annuities do have a guaranteed minimum interest rate-the lowest rate the annuity can earn. It's stated in your contract and disclosure and can't change as long as you own the annuity. Ask about:

* The initial interest rate - What is the rate? How long until it will change?

* The renewal interest rate - When will it be announced? How will the insurance company tell you what the new rate will be?

Fixed Deferred Indexed Formulas

Annual Point-to-Point - *Change in index calculated using two dates one year apart.*

Multi-Year Point-to-Point - *Change in index calculated using two dates more than one year apart.*

Monthly or Daily Averaging - *Change in index calculated using multiple dates (one day of every month for monthly averaging, every day the market is open for daily averaging). The average of these values is compared with the index value at the start of the index term.*

Monthly Point-to-Point - *Change in index calculated for each month during the index term. Each monthly change is limited to the "cap rate" for positive changes, but not when the change is negative. At the end of the index term, all monthly changes (positive and negative) are added. If the result is positive, interest is added to the annuity. If the result is negative or zero, no interest (0%) is added.*

Fixed Indexed Annuities

Money in a fixed indexed annuity earns interest based on changes in an index. Some indexes are measures of how the overall financial markets perform (such as the S&P 500 Index or Dow Jones Industrial Average) during a set period of time (called the index term). Others measure how a specific financial market performs (such as the Nasdaq) during the term. The insurance

company uses a formula to determine how a change in the index affects the amount of interest to add to your annuity at the end of each index term. Once interest is added to your annuity for an index term, those earnings usually are locked in and changes in the index in the next index term don't affect them. If you take money from an indexed annuity before an index term ends, the annuity may not add all of the index-linked interest for that term to your account.

Insurance companies use different formulas to calculate the interest to add to your annuity. They look at changes in the index over a period of time. See the box "Fixed Deferred Indexed Formulas" that describes how changes in an index are used to calculate interest.

The formulas insurance companies use often mean that interest added to your annuity is based on only part of a change in an index over a set period of time. Participation rates, cap rates, and spread rates (sometimes called margin or asset fees) all are terms that describe ways the amount of interest added to your annuity may not reflect the full change in the index. But if the index goes down over that period, zero interest is added to your annuity. Then your annuity value won't go down as long as you don't withdraw the money.

When you buy an indexed annuity, you aren't investing directly in the market or the index. Some indexed annuities offer you more than one index choice. Many indexed annuities also offer the choice to put part of your money in a fixed interest rate account, with a rate that won't change for a set period.

How Insurers Determine Indexed Interest

Participation Rate- *Determines how much of the increase in the index is used to calculate index-linked interest. A participation rate usually is for a set period. The period can be from one year to the entire term. Some companies guarantee the rate can never be lower (higher) than a set minimum (maximum). Participation rates are often less than 100%, particularly when there's no cap rate.*

Cap Rate- *Typically, the maximum rate of interest the annuity will earn during the index term. Some annuities guarantee that the cap rate will never be lower (higher) than a set minimum (maximum). Companies often use a cap rate, especially if the participation rate is 100%.*

Spread Rate - *A set percentage the insurer subtracts from any change in the index. Also called a "margin or asset fee." Companies may use this instead of or in addition to a participation or cap rate.*

Variable Annuities

Money in a variable annuity earns a return based on the performance of the investment portfolios, known as "subaccounts," where you choose to put your money. Your investment choices likely will include subaccounts with different types and levels of risk. Your choices will affect the return you earn on your annuity. Subaccounts usually have no guaranteed return, but you may have a choice to put some money in a fixed interest rate account, with a rate that won't change for a set period.

The value of your annuity can change every day as the subaccounts' values change. If the subaccounts' values increase, your annuity earns money. But there's no guarantee that the values of the subaccounts will increase. If the subaccounts' values go down, you may end up with less money in your annuity than you paid into it.

An insurer may offer several versions of a variable deferred annuity product. The different versions usually are identified as share classes. The key differences between the versions are the fees you'll pay every year you own the annuity. The rules that apply if you take money out of the annuity also may be different. Read the prospectus carefully. Ask the annuity salesperson to explain the differences among the versions.

What Other Information Should You Consider?

Fees, Charges, and Adjustments

Fees and charges reduce the value of your annuity. They help cover the insurer's costs to sell and manage the annuity and pay benefits. The insurer may subtract these costs directly from your annuity's value. Most annuities have fees and charges but they can be different for different annuities. Read the contract and disclosure or prospectus carefully and ask the annuity salesperson to describe these costs.

A surrender or withdrawal charge is a charge if you take part or all of the money out of your annuity during a set period of time. The charge is a percentage of the amount you take out of the annuity. The percentage usually goes down each year until the surrender charge period ends. Look at the contract and the disclosure or prospectus for details about the charge. Also look for any waivers for events (such as a death) or the right to take out a small amount (usually up to 10%) each year without paying the charge. If you take all of your money out of an annuity, you've surrendered it and no longer have any right to future income payments.

Some annuities have a Market Value Adjustment (MVA). An MVA could increase or decrease your annuity's account value, cash surrender value, and/or death benefit value if you withdraw money from your account. In general, if interest rates are lower when you withdraw money than they were when you bought the annuity, the MVA could increase the amount you could take from your annuity. If interest rates are higher than when you bought the annuity, the MVA could reduce the amount you could take from your annuity. Every MVA calculation is different. Check your contract and disclosure or prospectus for details.

Annuity Fees and Charges

Contract fee - *A flat dollar amount or percentage charged once or annually.*

Percentage of purchase payment - *A front-end sales load or other charge deducted from each premium paid. The percentage may vary over time.*

Premium tax - *A tax some states charge on annuities. The insurer may subtract the amount of the tax when you pay your premium, when you withdraw your contract value, when you start to receive income payments, or when it pays a death benefit to your beneficiary.*

Transaction fee - *A charge for certain transactions, such as transfers or withdrawals.*

* * *

Mortality and expense (M&E) risk charge - *A fee charged on **variable annuities**. It's a percentage of the account value invested in subaccounts.*

Underlying fund charges - *Fees and charges on **variable annuity's** subaccounts; may include an investment management fee, distribution and service (12b-1) fees, and other fees.*

How Annuities Make Payments

Annuitize

At some future time, you can choose to annuitize your annuity and start to receive guaranteed fixed income payments for life or a period of time you choose. After payments begin, you can't take any other money out of the annuity. You also usually can't change the amount of your payments. For more information, see "Payout Options" in this Buyer's Guide. If you die before the payment period ends, your survivors may not receive any payments, depending on the payout option you choose.

Full Withdrawal

You can withdraw the cash surrender value of the annuity in a lump sum payment and end your annuity. You'll likely pay a charge to do this if it's during the surrender charge period. If you withdraw your annuity's cash surrender value, your annuity is cancelled. Once that happens, you can't start or continue to receive regular income payments from the annuity.

Partial Withdrawal

You may be able to withdraw some of the money from the annuity's cash surrender value without ending the annuity. Most annuities with surrender charges let you take out a certain amount (usually up to 10%) each year without paying surrender charges on that amount. Check your contract and disclosure or prospectus. Ask your annuity salesperson about other ways you can take money from the annuity without paying charges.

Living Benefits for Fixed Annuities

Some fixed annuities, especially fixed indexed annuities, offer a guaranteed living benefits rider, usually at an extra cost. A common type is called a guaranteed lifetime withdrawal benefit that guarantees to make income payments you can't outlive. While you get payments, the money still in your annuity continues to earn interest. You can choose to stop and restart the payments or

you might be able to take extra money from your annuity. Even if the payments reduce the annuity's value to zero at some point, you'll continue to get payments for the rest of your life. If you die while receiving payments, your survivors may get some or all of the money left in your annuity.

Payout Options

You'll have a choice about how to receive income payments. These choices usually include:

- * For your lifetime*
- * For the longer of your lifetime or your spouse's lifetime*
- * For a set time period*
- * For the longer of your lifetime or a set time period*

Living Benefits for Variable Annuities

Variable annuities may offer a benefit at an extra cost that guarantees you a minimum account value, a minimum lifetime income, or minimum withdrawal amounts regardless of how your subaccounts perform. See "Variable Annuity Living Benefit Options" at right. Check your contract and disclosure or prospectus or ask your annuity salesperson about these options.

Variable Annuity Living Benefit Options

Guaranteed Minimum Accumulation Benefit (GMAB) - *Guarantees your account value will equal some percentage (typically 100%) of premiums less withdrawals, at a set future date (for example, at maturity). If your annuity is worth less than the guaranteed amount at that date, your insurance company will add the difference.*

Guaranteed Minimum Income Benefit (GMIB) - *Guarantees a minimum lifetime income. You usually must choose this benefit when you buy the annuity and must annuitize to use the benefit. There may be a waiting period before you can annuitize using this benefit.*

Guaranteed Lifetime Withdrawal Benefit (GLWB) - *Guarantees you can make withdrawals for the rest of your life, up to a set maximum percentage each year.*

How Annuities Are Taxed

Ask a tax professional about your individual situation. The information below is general and should not be considered tax advice.

Current federal law gives annuities special tax treatment. Income tax on annuities is deferred. That means you aren't taxed on any interest or investment returns while your money is in the

annuity. This isn't the same as tax-free. You'll pay ordinary income tax when you take a withdrawal, receive an income stream, or receive each annuity payment. When you die, your survivors will typically owe income taxes on any death benefit they receive from an annuity.

There are other ways to save that offer tax advantages, including Individual Retirement Accounts (IRAs). You can buy an annuity to fund an IRA, but you also can fund your IRA other ways and get the same tax advantages. When you take a withdrawal or receive payments, you'll pay ordinary income tax on all of the money you receive (not just the interest or the investment return). You also may have to pay a 10% tax penalty if you withdraw money before you're age 59 1/2.

Finding an Annuity That's Right for You

An annuity salesperson who suggests an annuity must choose one that they think is right for you, based on information from you. They need complete information about your life and financial situation to make a suitable recommendation. Expect a salesperson to ask about your age; your financial situation (assets, debts, income, tax status, how you plan to pay for the annuity); your tolerance for risk; your financial objectives and experience; your family circumstances; and how you plan to use the annuity. If you aren't comfortable with the annuity, ask your annuity salesperson to explain why they recommended it. Don't buy an annuity you don't understand or that doesn't seem right for you.

Within each annuity, the insurer may guarantee some values but not others. Some guarantees may be only for a year or less while others could be longer. Ask about risks and decide if you can accept them. For example, it's possible you won't get all of your money back or the return on your annuity may be lower than you expected. It's also possible you won't be able to withdraw money you need from your annuity without paying fees or the annuity payments may not be as much as you need to reach your goals. These risks vary with the type of annuity you buy. All product guarantees depend on the insurance company's financial strength and claims-paying ability.

Questions You Should Ask

- * Do I understand the risks of an annuity? Am I comfortable with them?
- * How will this annuity help me meet my overall financial objectives and time horizon?
- * Will I use the annuity for a long-term goal such as retirement? If so, how could I achieve that goal if the income from the annuity isn't as much as I expected it to be?
- * What features and benefits in the annuity, other than tax deferral, make it appropriate for me?
- * Does my annuity offer a guaranteed minimum interest rate? If so, what is it?
- * If the annuity includes riders, do I understand how they work?

* Am I taking full advantage of all of my other tax-deferred opportunities, such as 401(k)s, 403(b)s, and IRAs?

* Do I understand all of the annuity's fees, charges, and adjustments?

* Is there a limit on how much I can take out of my annuity each year without paying a surrender charge? Is there a limit on the total amount I can withdraw during the surrender charge period?

* Do I intend to keep my money in the annuity long enough to avoid paying any surrender charges?

* Have I consulted a tax advisor and/or considered how buying an annuity will affect my tax liability?

* How do I make sure my chosen survivors (beneficiaries) will receive any payment from my annuity if I die?

If you don't know the answers or have other questions, ask your annuity salesperson for help.

When You Receive Your Annuity Contract

When you receive your annuity contract, carefully review it. Be sure it matches your understanding. Also, read the disclosure or prospectus and other materials from the insurance company. Ask your annuity salesperson to explain anything you don't understand. In many states, a law gives you a set number of days (usually 10 to 30 days) to change your mind about buying an annuity after you receive it. This often is called a free look or right to return period. Your contract and disclosure or prospectus should prominently state your free look period. If you decide during that time that you don't want the annuity, you can contact the insurance company and return the contract. Depending on the state, you'll either get back all of your money or your current account value.

Subject 120-2-74. ACTUARIAL OPINION AND MEMORANDUM REGULATION.

Rule 120-2-74-.01. Purpose.

The purpose of this regulation is to prescribe:

- (1) requirements for statements of actuarial opinion that are to be submitted in accordance with O.C.G.A. § [33-10-13](#)(b.1), and for memoranda in support thereof;

- (2) rules applicable to the appointment of an appointed actuary; and
- (3) guidance as to the meaning of "adequacy of reserves."

Authority: O.C.G.A. Secs. [33-2-9](#), [33-10-13](#).

History. Original Rule entitled "Authority" adopted. F. Jul. 9, 1997; eff. July 29, 1997.

Repealed: New Rule of the same title adopted. F. Dec. 17, 2010; eff. Jan. 6, 2011.

Rule 120-2-74-.03. Scope.

- (1) This regulation shall apply to all life insurance companies and fraternal benefit societies doing business in this State and to all life insurance companies and fraternal benefit societies that are authorized to reinsure life insurance, annuities or accident and health insurance business in this State. This regulation shall be applied in a manner that allows the appointed actuary to utilize his or her professional judgment in performing the asset analysis and developing the actuarial opinion and supporting memoranda, consistent with relevant actuarial standards of practice. However, the Commissioner shall have the authority to specify specific methods of actuarial analysis and actuarial assumptions when, in the Commissioner's judgment, these specifications are necessary for an acceptable opinion to be rendered relative to the adequacy of reserves and related items.
- (2) This regulation shall be applicable to all annual statements filed with the office of the Commissioner after the effective date of this regulation. A statement of opinion on the adequacy of the reserves and related actuarial items based on an asset adequacy analysis in accordance with [120-2-74-.06](#) of this regulation, and a memorandum in support thereof in accordance with [120-2-74-.07](#) of this regulation, shall be required each year.

Repealed: New Rule of the same title adopted. F. Dec. 17, 2010; eff. Jan. 6, 2011.

Rule 120-2-74-.04. Definitions.

- (1) "Actuarial Opinion" means the opinion of an appointed actuary regarding the adequacy of the reserves and related actuarial items based on an asset adequacy analysis in accordance with [120-2-74-.06](#) of this regulation and with applicable Actuarial Standards of Practice.
- (2) "Actuarial Standards Board" means the board established by the American Academy of Actuaries to develop and promulgate standards of actuarial practice.
- (3) "Annual statement" means that statement required by O.C.G.A. § [33-3-21](#) to be filed by the company with the office of the Commissioner annually.
- (4) "Appointed actuary" means an individual who is appointed or retained in accordance with the requirements set forth in [120-2-74-.05\(3\)](#) of this regulation to provide the actuarial opinion and supporting memorandum as required by O.C.G.A. § [33-10-13\(b.1\)](#).
- (5) "Asset adequacy analysis" means an analysis that meets the standards and other requirements referred to in [120-2-74-.05\(4\)](#) of this regulation.
- (6) "Commissioner" means the Insurance Commissioner of this State.
- (7) "Company" means a life insurance company, fraternal benefit society or reinsurer subject to the provisions of this regulation.
- (8) "Qualified actuary" means an individual who meets the requirements set forth in [120-2-74-.05](#) B of this regulation.

Cite as Ga. Comp. R. & Regs. R. 120-2-74-.04

Authority: O.C.G.A. Secs. [33-2-9](#), [33-10-13](#).

History. Original Rule entitled "Definitions" adopted. F. Jul. 9, 1997; eff. July 29, 1997.

Repealed: New Rule of the same title adopted. F. Dec. 17, 2010; eff. Jan. 6, 2011.

Rule 120-2-74-.05. General Requirements.

- (1) Submission of Statement of Actuarial Opinion.
 - (a) There is to be included on or attached to Page 1 of the annual statement for each year beginning with the year in which this regulation becomes effective the statement of an appointed actuary, entitled "Statement of Actuarial Opinion," setting forth an opinion relating to reserves and related actuarial items held in support of policies and contracts, in accordance with [120-2-74-.06](#) of this regulation.
 - (b) Upon written request by the company, the Commissioner may grant an extension of the date for submission of the statement of actuarial opinion.

- (2) Qualified Actuary. A "qualified actuary" is an individual who:
- (a) Is a member in good standing of the American Academy of Actuaries;
 - (b) Is qualified to sign statements of actuarial opinion for life and health insurance company annual statements in accordance with the American Academy of Actuaries qualification standards for actuaries signing such statements;
 - (c) Is familiar with the valuation requirements applicable to life and health insurance companies;
 - (d) Has not been found by the Commissioner (or if so found has subsequently been reinstated as a qualified actuary), following appropriate notice and hearing to have:
 - 1. Violated any provision of, or any obligation imposed by, the Insurance Law or other law in the course of his or her dealings as a qualified actuary;
 - 2. Been found guilty of fraudulent or dishonest practices;
 - 3. Demonstrated his or her incompetency, lack of cooperation, or untrustworthiness to act as a qualified actuary;
 - 4. Submitted to the Commissioner during the past five (5) years, pursuant to this regulation, an actuarial opinion or memorandum that the Commissioner rejected because it did not meet the provisions of this regulation including standards set by the Actuarial Standards Board; or
 - 5. Resigned or been removed as an actuary within the past five (5) years as a result of acts or omissions indicated in any adverse report on examination or as a result of failure to adhere to generally acceptable actuarial standards; and
 - 6. Has not failed to notify the Commissioner of any action taken by any Commissioner of any other state similar to that under Paragraph (4) above.
- (3) Appointed Actuary. An "appointed actuary" is a qualified actuary who is appointed or retained to prepare the Statement of Actuarial Opinion required by this regulation, either directly by or by the authority of the board of directors through an executive officer of the company other than the qualified actuary. The company shall give the Commissioner timely written notice of the name, title (and, in the case of a consulting actuary, the name of the firm) and manner of appointment or retention of each person appointed or retained by the company as an appointed actuary and shall state in the notice that the person meets the requirements set forth in Subsection B. Once notice is furnished, no further notice is required with respect to this person, provided that the company shall give the Commissioner timely written notice in the event the actuary ceases to be appointed or retained as an appointed actuary or to meet the requirements set forth in Subsection B. If

any person appointed or retained as an appointed actuary replaces a previously appointed actuary, the notice shall so state and give the reasons for replacement.

- (4) Standards for Asset Adequacy Analysis. The asset adequacy analysis required by this regulation:
 - (a) Shall conform to the Standards of Practice as promulgated from time to time by the Actuarial Standards Board and on any additional standards under this regulation, which standards are to form the basis of the statement of actuarial opinion in accordance with this regulation; and
 - (b) Shall be based on methods of analysis as are deemed appropriate for such purposes by the Actuarial Standards Board.
- (5) Liabilities to be Covered.
 - (a) Under authority of 33-10-13(b.1), the statement of actuarial opinion shall apply to all in force business on the statement date, whether directly issued or assumed, regardless of when or where issued, e.g., reserves of Exhibits 8, 9 and 10, and claim liabilities in Exhibit 11, Part 1 and equivalent items in the separate account statement or statements.
 - (b) If the appointed actuary determines as the result of asset adequacy analysis that a reserve should be held in addition to the aggregate reserve held by the company and calculated in accordance with methods set forth in the Standard Valuation Law, the company shall establish the additional reserve.
 - (c) Additional reserves established under Paragraph (2) above and deemed not necessary in subsequent years may be released. Any amounts released shall be disclosed in the actuarial opinion for the applicable year. The release of such reserves would not be deemed an adoption of a lower standard of valuation.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-10-13](#).

History. Original Rule entitled "General Requirements" adopted. F. Jul. 9, 1997; eff. July 29, 1997.

Repealed: New Rule of the same title adopted. F. Dec. 17, 2010; eff. Jan. 6, 2011.

Rule 120-2-74-.06. Statement of Actuarial Opinion Based On an Asset Adequacy Analysis.

- (1) General Description. The statement of actuarial opinion submitted in accordance with this section shall consist of:
 - (a) A paragraph identifying the appointed actuary and his or her qualifications (see Subsection (2)(a));

- (b) A scope paragraph identifying the subjects on which an opinion is to be expressed and describing the scope of the appointed actuary's work, including a tabulation delineating the reserves and related actuarial items that have been analyzed for asset adequacy and the method of analysis, (see Subsection (2)(b)) and identifying the reserves and related actuarial items covered by the opinion that have not been so analyzed;
 - (c) A reliance paragraph describing those areas, if any, where the appointed actuary has deferred to other experts in developing data, procedures or assumptions, (e.g., anticipated cash flows from currently owned assets, including variation in cash flows according to economic scenarios (see Subsection (2)(c)), supported by a statement of each such expert in the form prescribed by Subsection (5); and
 - (d) An opinion paragraph expressing the appointed actuary's opinion with respect to the adequacy of the supporting assets to mature the liabilities (see Subsection (2)(f)).
 - (e) One or more additional paragraphs will be needed in individual company cases as follows:
 - 1. If the appointed actuary considers it necessary to state a qualification of his or her opinion;
 - 2. If the appointed actuary must disclose an inconsistency in the method of analysis or basis of asset allocation used at the prior opinion date with that used for this opinion;
 - 3. If the appointed actuary must disclose whether additional reserves as of the prior opinion date are released as of this opinion date, and the extent of the release;
 - 4. If the appointed actuary chooses to add a paragraph briefly describing the assumptions that form the basis for the actuarial opinion.
- (2) Recommended Language. The following paragraphs are to be included in the statement of actuarial opinion in accordance with this section. Language is that which in typical circumstances should be included in a statement of actuarial opinion. The language may be modified as needed to meet the circumstances of a particular case, but the appointed actuary should use language that clearly expresses his or her professional judgment. However, in any event the opinion shall retain all pertinent aspects of the language provided in this section.
- (a) The opening paragraph should generally indicate the appointed actuary's relationship to the company and his or her qualifications to sign the opinion. For a company actuary, the opening paragraph of the actuarial opinion should include a statement such as:

"I, [name], am [title] of [insurance company name] and a member of the American Academy of Actuaries. I was appointed by, or by the authority of, the Board of Directors of said insurer to render this opinion as stated in the letter to the Commissioner dated [insert date]. I meet the Academy qualification standards for rendering the opinion and am familiar with the valuation requirements applicable to life and health insurance companies." For a consulting actuary, the opening paragraph should include a statement such as:

"I, [name], a member of the American Academy of Actuaries, am associated with the firm of [name of consulting firm]. I have been appointed by, or by the authority of, the Board of Directors of [name of company] to render this opinion as stated in the letter to the Commissioner dated [insert date]. I meet the Academy qualification standards for rendering the opinion and am familiar with the valuation requirements applicable to life and health insurance companies."

- (b) The scope paragraph should include a statement such as:

"I have examined the actuarial assumptions and actuarial methods used in determining reserves and related actuarial items listed below, as shown in the annual statement of the company, as prepared for filing with state regulatory officials, as of December 31, 20[]. Tabulated below are those reserves and related actuarial items which have been subjected to asset adequacy analysis.

Notes:

- (a) The additional actuarial reserves are the reserves established under [120-2-74-.05 E\(2\)](#).
 - (b) The appointed actuary should indicate the method of analysis, determined in accordance with the standards for asset adequacy analysis referred to in Section [120-2-74-.05\(4\)](#) of this regulation, by means of symbols that should be defined in footnotes to the table.
 - (c) Allocated amount of Asset Valuation Reserve (AVR).
- (3) If the appointed actuary has relied on other experts to develop certain portions of the analysis, the reliance paragraph should include a statement such as:
- "I have relied on [name], [title] for [e.g., "anticipated cash flows from currently owned assets, including variations in cash flows according to economic scenarios" or "certain critical aspects of the analysis performed in conjunction with forming my opinion"], as certified in the attached statement. I have reviewed the information relied upon for reasonableness." A statement of reliance on other experts should be accompanied by a statement by each of the experts in the form prescribed by Subsection 6E.
- (4) If the appointed actuary has examined the underlying asset and liability records, the reliance paragraph should include a statement such as:
- "My examination included such review of the actuarial assumptions and actuarial methods and of the underlying basic asset and liability records and such tests of the actuarial calculations as I considered necessary. I also reconciled the underlying basic

asset and liability records to [exhibits and schedules listed as applicable] of the company's current annual statement."

- (5) If the appointed actuary has not examined the underlying records, but has relied upon data (e.g., listings and summaries of policies in force or asset records) prepared by the company, the reliance paragraph should include a statement such as:

"In forming my opinion on [specify types of reserves] I relied upon data prepared by [name and title of company officer certifying in force records or other data] as certified in the attached statements. I evaluated that data for reasonableness and consistency. I also reconciled that data to [exhibits and schedules to be listed as applicable] of the company's current annual statement. In other respects, my examination included review of the actuarial assumptions and actuarial methods used and tests of the calculations I considered necessary."

The section shall be accompanied by a statement by each person relied upon in the form prescribed by Subsection E.

- (6) The opinion paragraph should include a statement such as:

"In my opinion the reserves and related actuarial values concerning the statement items identified above:

- (a) Are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;
- (b) Are based on actuarial assumptions that produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with all other contract provisions;
- (c) Meet the requirements of the Insurance Law and regulation of the state of [state of domicile]; and are at least as great as the minimum aggregate amounts required by the state in which this statement is filed;
- (d) Are computed on the basis of assumptions consistent with those used in computing the corresponding items in the annual statement of the preceding year-end (with any exceptions noted below); and
- (e) Include provision for all actuarial reserves and related statement items which ought to be established.

The reserves and related items, when considered in light of the assets held by the company with respect to such reserves and related actuarial items including, but not limited to, the investment earnings on the assets, and the considerations

anticipated to be received and retained under the policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the company. (At the discretion of the Commissioner, this language may be omitted for an opinion filed on behalf of a company doing business only in this state and in no other state.) The actuarial methods, considerations and analyses used in forming my opinion conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis of this statement of opinion.

This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion.

Or

The following material changes which occurred between the date of the statement for which this opinion is applicable and the date of this opinion should be considered in reviewing this opinion: (Describe the change or changes.)

Note: Choose one of the above two paragraphs, whichever is applicable. The impact of unanticipated events subsequent to the date of this opinion is beyond the scope of this opinion. The analysis of asset adequacy portion of this opinion should be viewed recognizing that the company's future experience may not follow all the assumptions used in the analysis.

Signature of Appointed Actuary

Address of Appointed Actuary

Telephone Number of Appointed Actuary

Date"

C. Assumptions for New Issues

The adoption for new issues or new claims or other new liabilities of an actuarial assumption that differs from a corresponding assumption used for prior new issues or new claims or other new liabilities is not a change in actuarial assumptions within the meaning of this Section 6.

D. Adverse Opinions

If the appointed actuary is unable to form an opinion, then he or she shall refuse to issue a statement of actuarial opinion. If the appointed actuary's opinion is adverse or qualified, then he or she shall issue an adverse or qualified actuarial opinion explicitly stating the reasons for the opinion. This statement should follow the scope paragraph and precede the opinion paragraph.

E. Reliance on Information Furnished by Other Persons

If the appointed actuary relies on the certification of others on matters concerning the accuracy or completeness of any data underlying the actuarial opinion, or the appropriateness of any other information used by the appointed actuary in forming the actuarial opinion, the actuarial opinion should so indicate the persons the actuary is relying upon and a precise identification of the items subject to reliance. In addition, the persons on whom the appointed actuary relies shall provide a certification that precisely identifies the items on which the person is providing information and a statement as to the accuracy, completeness or reasonableness, as applicable, of the items. This certification shall include the signature, title, company, address and telephone number of the person rendering the certification, as well as the date on which it is signed.

F. Alternate Option

- (1) The Standard Valuation Law gives the Commissioner broad authority to accept the valuation of a foreign insurer when that valuation meets the requirements applicable to a company domiciled in this state in the aggregate. As an alternative to the requirements of Subsection B(6)(c), the Commissioner may make one or more of the following additional approaches available to the opining actuary:
 - (a) A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and the formal written standards and conditions of this state for filing an opinion based on the law of the state of domicile." If the Commissioner chooses to allow this

alternative, a formal written list of standards and conditions shall be made available. If a company chooses to use this alternative, the standards and conditions in effect on July 1 of a calendar year shall apply to statements for that calendar year, and they shall remain in effect until they are revised or revoked. If no list is available, this alternative is not available.

- (b) A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have verified that the company's request to file an opinion based on the law of the state of domicile has been approved and that any conditions required by the Commissioner for approval of that request have been met." If the Commissioner chooses to allow this alternative, a formal written statement of such allowance shall be issued no later than March 31 of the year it is first effective. It shall remain valid until rescinded or modified by the Commissioner. The rescission or modifications shall be issued no later than March 31 of the year they are first effective. Subsequent to that statement being issued, if a company chooses to use this alternative, the company shall file a request to do so, along with justification for its use, no later than April 30 of the year of the opinion to be filed. The request shall be deemed approved on October 1 of that year if the Commissioner has not denied the request by that date.
- (c) A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have submitted the required comparison as specified by this state."
 - (i) If the Commissioner chooses to allow this alternative, a formal written list of products (to be added to the table in Item
 - (ii) below) for which the required comparison shall be provided will be published. If a company chooses to use this alternative, the list in effect on July 1 of a calendar year shall apply to statements for that calendar year, and it shall remain in effect until it is revised or revoked. If no list is available, this alternative is not available.

- (ii) If a company desires to use this alternative, the appointed actuary shall provide a comparison of the gross nationwide reserves held to the gross nationwide reserves that would be held under NAIC codification standards. Gross nationwide reserves are the total reserves calculated for the total company in force business directly sold and assumed, indifferent to the state in which the risk resides, without reduction for reinsurance ceded. The information provided shall be at least:

(1) Product Type	(2) Death Benefit or Account Value	(3) Reserves Held	(4) Codification Reserves	(5) Codification Standard

- (iii) The information listed shall include all products identified by either the state of filing or any other states subscribing to this alternative.
- (iv) If there is no codification standard for the type of product or risk in force or if the codification standard does not directly address the type of product or risk in force, the appointed actuary shall provide detailed disclosure of the specific method and assumptions used in determining the reserves held.
- (v) The comparison provided by the company is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum.
- (2) Notwithstanding the above, the Commissioner may reject an opinion based on the laws and regulations of the state of domicile and require an opinion based on the laws of this state. If a company is unable to provide the opinion within sixty (60) days of the request or such other period of time determined by the Commissioner after consultation

with the company, the Commissioner may contract an independent actuary at the company's expense to prepare and file the opinion.

Repealed: New Rule entitled "Statement of Actuarial Opinion Based On an Asset Adequacy Analysis" adopted. F. Dec. 17, 2010; eff. Jan. 6, 2011.

Rule 120-2-74-.07. Description of Actuarial Memorandum Including an Asset Adequacy and Regulatory Asset Adequacy Issues.

(1) General.

- (a) In accordance with O.C.G.A. § [33-10-13](#)(b.1), the appointed actuary shall prepare a memorandum to the company describing the analysis done in support of his or her opinion regarding the reserves. The memorandum shall be made available for examination by the Commissioner upon his or her request but shall be returned to the company after such examination and shall not be considered a record of the insurance department or subject to automatic filing with the Commissioner.
- (b) In preparing the memorandum, the appointed actuary may rely on, and include as a part of his or her own memorandum, memoranda prepared and signed by other actuaries who are qualified within the meaning of [120-2-74-.05\(2\)](#) of this regulation, with respect to the areas covered in such memoranda, and so state in their memoranda.
- (c) If the Commissioner requests a memorandum and no such memorandum exists or if the Commissioner finds that the analysis described in the memorandum fails to meet the standards of the Actuarial Standards Board or the standards and requirements of this regulation, the Commissioner may designate a qualified actuary to review the opinion and prepare such supporting memorandum as is required for review. The reasonable and necessary expense of the independent review shall be paid by the company but shall be directed and controlled by the Commissioner.
- (d) The reviewing actuary shall have the same status as an examiner for purposes of obtaining data from the company and the work papers and documentation of the reviewing actuary shall be retained by the Commissioner; provided, however, that any information provided by the company to the reviewing actuary and included in the work papers shall be considered as material provided by the company to the Commissioner and shall be kept confidential to the same extent as is prescribed by

law with respect to other material provided by the company to the Commissioner pursuant to the statute governing this regulation. The reviewing actuary shall not be an employee of a consulting firm involved with the preparation of any prior memorandum or opinion for the insurer pursuant to this regulation for any one of the current year or the preceding three (3) years.

- (e) In accordance with O.C.G.A. § [33-10-13](#)(b.1), the appointed actuary shall prepare a regulatory asset adequacy issues summary, the contents of which are specified in Subsection C. The regulatory asset adequacy issues summary will be submitted no later than March 15 of the year following the year for which a statement of actuarial opinion based on asset adequacy is required. The regulatory asset adequacy issues summary is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(2) Details of the Memorandum Section Documenting Asset Adequacy Analysis.

When an actuarial opinion is provided, the memorandum shall demonstrate that the analysis has been done in accordance with the standards for asset adequacy referred to in [120-2-74-.05\(4\)](#) of this regulation and any additional standards under this regulation. It shall specify:

- (a) For reserves:
 - 1. Product descriptions including market description, underwriting and other aspects of a risk profile and the specific risks the appointed actuary deems significant;
 - 2. Source of liability in force;
 - 3. Reserve method and basis;
 - 4. Investment reserves;
 - 5. Reinsurance arrangements;
 - 6. Identification of any explicit or implied guarantees made by the general account in support of benefits provided through a separate account or under a separate account policy or contract and the methods used by the appointed actuary to provide for the guarantees in the asset adequacy analysis;
 - 7. Documentation of assumptions to test reserves for the following:
 - (i) Lapse rates (both base and excess);
 - (ii) Interest crediting rate strategy;

- (iii) Mortality;
- (iv) Policyholder dividend strategy;
- (v) Competitor or market interest rate;
- (vi) Annuitization rates;
- (vii) Commissions and expenses; and
- (viii) Morbidity.

(b) The documentation of the assumptions shall be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions.

(c) For assets:

1. Portfolio descriptions, including a risk profile disclosing the quality, distribution and types of assets;
2. Investment and disinvestment assumptions;
3. Source of asset data;
4. Asset valuation bases; and
5. Documentation of assumptions made for:
 - (i) Default costs;
 - (ii) Bond call function;
 - (iii) Mortgage prepayment function;
 - (iv) Determining market value for assets sold due to disinvestment strategy; and
 - (v) Determining yield on assets acquired through the investment strategy.
6. The documentation of the assumptions shall be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions.

(d) For the analysis basis:

1. Methodology;
2. Rationale for inclusion or exclusion of different blocks of business and how pertinent risks were analyzed;
3. Rationale for degree of rigor in analyzing different blocks of business (include in the rationale the level of "materiality" that was used in determining how rigorously to analyze different blocks of business);
4. Criteria for determining asset adequacy (include in the criteria the precise basis for determining if assets are adequate to cover reserves under "moderately adverse conditions" or other conditions as specified in relevant actuarial standards of practice); and
5. Whether the impact of federal income taxes was considered and the method of treating reinsurance in the asset adequacy analysis;
 - (i) Summary of material changes in methods, procedures, or assumptions from prior year's asset adequacy analysis;
 - (ii) Summary of results; and
 - (ii) Conclusions.

(3) Details of the Regulatory Asset Adequacy Issues Summary

(a) The regulatory asset adequacy issues summary shall include:

1. Descriptions of the scenarios tested (including whether those scenarios are stochastic or deterministic) and the sensitivity testing done relative to those scenarios. If negative ending surplus results under certain tests in the aggregate, the actuary should describe those tests and the amount of additional reserve as of the valuation date which, if held, would eliminate the negative aggregate surplus values. Ending surplus values shall be determined by either extending the projection period until the in force and associated assets and liabilities at the end of the projection period are immaterial or by adjusting the surplus amount at the end of the projection period by an amount that appropriately estimates the value that can reasonably be expected to arise from the assets and liabilities remaining in force.
2. The extent to which the appointed actuary uses assumptions in the asset adequacy analysis that are materially different than the assumptions used in the previous asset adequacy analysis;

3. The amount of reserves and the identity of the product lines that had been subjected to asset adequacy analysis in the prior opinion but were not subject to analysis for the current opinion;
 4. Comments on any interim results that may be of significant concern to the appointed actuary. For example, the impact of the insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods;
 5. The methods used by the actuary to recognize the impact of reinsurance on the company's cash flows, including both assets and liabilities, under each of the scenarios tested; and,
 6. Whether the actuary has been satisfied that all options whether explicit or embedded, in any asset or liability (including but not limited to those affecting cash flows embedded in fixed income securities) and equity-like features in any investments have been appropriately considered in the asset adequacy analysis.
- (b) The regulatory asset adequacy issues summary shall contain the name of the company for which the regulatory asset adequacy issues summary is being supplied and shall be signed and dated by the appointed actuary rendering the actuarial opinion.
- (4) Conformity to Standards of Practice. The memorandum shall include a statement:
- "Actuarial methods, considerations and analyses used in the preparation of this memorandum conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis for this memorandum."
- (5) Use of Assets Supporting the Interest Maintenance Reserve and the Asset Valuation Reserve.
- (a) An appropriate allocation of assets in the amount of the interest maintenance reserve (IMR), whether positive or negative, shall be used in any asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the asset valuation reserve (AVR); these AVR assets may not be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support.
 - (b) The amount of the assets used for the AVR shall be disclosed in the table of reserves and liabilities of the opinion and in the memorandum. The method used

for selecting particular assets or allocated portions of assets shall be disclosed in the memorandum.

- (6) Documentation. The appointed actuary shall retain on file, for at least seven (7) years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions and the results obtained.

Subject 120-2-75. REGULATION OF PROVIDER SPONSORED HEALTH CARE CORPORATIONS.

Rule 120-2-75-.01. Authority.

This Regulation Chapter is adopted and promulgated by the Commissioner of Insurance pursuant to authority set forth in O.C.G.A. §§ [33-2-9](#), [33-20-5](#) and [33-20-32](#).

Cite as Ga. Comp. R. & Regs. R. 120-2-75-.01

History. Original Rules entitled "Authority" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-75-.02. Intent and Purpose.

The intent of this Regulation is to set forth those requirements for provider sponsored health care corporations which are established in accordance with the provisions of Chapter 20 of Title 33 of the Official Code of Georgia Annotated for the purpose of providing medical services to citizens of this State. This Regulation is intended to protect the interests of the enrolled public and to ensure the fiscal stability of such organizations.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-20-2](#), [33-20-5](#), [33-20-13](#).

History. Original Rules entitled "Intent and Purpose" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-75-.03. Definitions.

Unless otherwise provided, terms referenced in this Regulation are used as defined in O.C.G.A. §§ [33-1-2](#) and [33-20-3](#). Other terms are used in accordance with the Georgia Insurance Code and the Rules and Regulations of the Office of Commissioner of Insurance.

- (a) "Basic Rates" is defined as rates for various categories of individuals that are calculated by or certified by a qualified actuary using reasonable assumptions as to expected medical expenses, administrative expenses and margins for contingencies;
- (b) "Commissioner" is defined as the Commissioner of Insurance;
- (c) "Enrollee" is defined as an individual who has been enrolled in a health care plan;
- (d) "Provider sponsored health care corporation" ("PSHCC") is defined as a corporation formed pursuant to O.C.G.A. § [33-20-5](#) and which provides medical services to enrollees or subscribers;
- (e) "Subscriber" is defined as a person to whom a subscriber's certificate is issued by a health care corporation;
- (f) "Subscriber's Certificate" is defined as the certificate issued to a subscriber which sets forth the kinds and extent of the health care services which may be all or part of the total health care services used by or provided to a subscriber for which the corporation is liable to make total or partial payment.

Rule 120-2-75-.04. Authorization for Health Care Corporations.

A provider sponsored health care corporation may be established by providers for the purpose of providing health care services to enrollees or subscribers in this State under the provisions of Chapter 20 of Title 33 of the Official Code of Georgia Annotated. Such entity may be a licensed hospital, physician or other provider sponsored entity as the Commissioner may consider. Pursuant to O.C.G.A. §§ [33-1-2](#) and [33-20-32](#), provider sponsored health care corporations are insurers and are subject to all provisions of Title 33 which are not in conflict with Chapter 20 of Title 33.

History. Original Rules entitled "Authorization for Health Care Corporations" adopted. F. Jul. 19, 1996; eff. Aug. 8, 1996.

Rule 120-2-75-.05. Participation in Fund.

- (1) Each provider sponsored health care corporation shall obtain a certificate of authority from the Commissioner prior to establishing, maintaining and operating a health care plan in this State. In addition to the documents and information set forth in O.C.G.A. § [33-20-8](#), each provider sponsored health care corporation must also accompany its application for a certificate of authority with the following documents and information:
- (a) A copy of the applicant's Charter or Articles of Incorporation, and all amendments thereto;
 - (b) A copy of the Applicant's Bylaws or other similar document regulating the conduct of the internal affairs of the applicant;
 - (c) A list of the names, addresses, official positions and biographical information of the persons who are to be responsible for the conduct of affairs and day-to-day operations of the applicant, including all members of the Board of Directors or the governing body or committee and the principal officers of the applicant and the names and addresses of each person entitled to cast five percent (5%) or more of the votes for selection of members of applicant's governing body;
 - (d) A copy of any contract form made or to be made between any provider, facility, class or providers and the applicant, and a copy of any contract made or to be made between the applicant and persons listed in subparagraph (c) above;
 - (e) A detailed description of the type of benefits to be furnished, including information concerning division of benefits into classes or kinds and reasons for division of benefits into classes and kinds;
 - (f) Every contract, policy, certificate or evidence of coverage, rider, endorsement, application or outline of coverage which it intends to use prior to use;
 - 1. Basic rates and rating methodology accompanied by an actuarial certification, including assumptions upon which proposed levels and methods of reimbursement or other considerations for the health care services are based. The Actuarial Certification should state that the consideration for services is adequate, and makes provision for expected medical expenses, administrative expenses and margins for contingencies.
 - (g) Financial and other statements showing the applicant's assets, liabilities, sources of financial support, and sources of ability to cause health care services to be delivered to its enrollees, subscribers and covered dependents;
 - (h) A statement or map reasonably describing the counties or geographic area or areas to be served; listings of the providers by category and specialty within those counties or areas and such other detail as the Commissioner may reasonably require to ensure that services are available and accessible and to ensure continuity of service;

- (i) A description of the internal grievance procedures to be utilized for the investigation and resolution of complaints and grievances by enrollees or subscribers and covered dependents;
 - (j) A description of the proposed quality assurance program, including the formal organizational structure, methods for developing criteria, and procedures for comprehensive evaluation of the quality of care rendered to enrollees, subscribers and covered dependents;
 - (k) A security deposit in the amount of at least \$100,000.00 as required pursuant to O.C.G.A. § [33-3-8\(b\)\(1\)](#);
 - (l) Form GID-3 Appointment of Attorney for Service of Process naming a natural person who is a resident of the State of Georgia, giving business and home address;
 - (m) A signed agreement stating that the provider sponsored health care corporation shall distribute certain information on a periodic basis to enrollees and subscribers regarding wellness services and preventive care offered by the provider sponsored health care corporation. Such information shall be submitted to the Office of Commissioner of Insurance for approval at least ninety (90) days before it is expected to be distributed to enrollees and subscribers.
- (2) Within one hundred eighty (180) days of receipt of the completed application and a fee of \$600.00, the Commissioner shall issue a certificate of authority; deny said application; or provide a written description of deficiencies in the application to the applicant.
- (3) Before a certificate of authority can be issued, the Commissioner must be satisfied that:
- (a) The persons responsible for the conduct of the affairs of the applicant are competent and trustworthy;
 - (b) The provider sponsored health care corporation has medical, administrative and financial capability to effectively provide the range of health care services as proposed in its application on a prepaid basis, except for copayments and/or deductibles; and
 - (c) The provider sponsored health care corporation is in compliance with the applicable provisions of the Georgia Insurance Code and the Rules and Regulations of the Georgia Insurance Department.
- (4) The burden of proving compliance with the requirements necessary for issuance of a certificate of authority shall be and remain on the applicant at all times.

Rule 120-2-75-.06. Protection Against Insolvency.

(1) Subscriber Surplus Requirements.

- (a) A provider sponsored health care corporation shall have an initial net worth of at least one million dollars (\$1,000,000) and shall thereafter maintain the minimum subscriber surplus required pursuant to O.C.G.A. § [33-20-13\(d\)](#).
- (b) The Commissioner may require additional subscriber surplus of provider sponsored health care corporations, which in the Commissioner's opinion is warranted by the volume of business written or such other factors as the Commissioner may deem relevant.
- (c) In determining subscriber surplus, debt which is fully subordinated according to the terms applicable to domestic stock and mutual insurers as stipulated by O.C.G.A. § [33-14-15](#) shall not be considered on the financial statements of the corporation as a legal liability. Any interest obligation relating to the repayment of any subordinated debt must be similarly subordinated.

(2) Reinsurance Requirements. In order to further protect against insolvency and protect the subscribers of provider sponsored health care corporations, each provider sponsored health care corporation shall obtain and thereafter maintain an aggregate excess reinsurance policy that is acceptable to the Commissioner. Such policy must be procured from a company licensed and authorized to transact business in this State and must have a retention amount that is commensurate with the financial strength of the provider sponsored health care corporation.

(3) Assets and Investments. In determining the financial condition of provider sponsored health care corporations, admitted assets will be limited to those assets described in O.C.G.A. § [33-10-1](#). Pursuant to O.C.G.A. § [33-20-22](#), provider sponsored health care corporations shall invest their funds in the same manner as domestic life insurers pursuant to O.C.G.A. § [33-11-1](#)*et seq.*

(4) Liabilities. Every provider sponsored health care corporation shall, when determining liabilities, include an amount estimated in the aggregate to provide for any unearned premium or subscription fees and reserves for the payment of all claims for health care expenditures which have been incurred, whether reported or unreported, which are unpaid and for which the health care corporation is or may be liable, and to provide for the expense of adjustment or settlement of such claims.

(5) Hold Harmless.

- (a) Every contract between a provider sponsored health care corporation and a participating provider shall be in writing and shall set forth that in the event the

health care corporation fails to pay for health care service as set forth in the contract, the enrollee or subscriber shall not be liable to the provider for any sums owed by the provider sponsored health care corporation.

- (b) In the event that the participating provider contract has not been reduced to writing as required by this subsection or that the contract fails to contain the required prohibition, the participating provider shall not collect or attempt to collect from the enrollee or subscriber sums owed by the provider sponsored health care corporation.
- (6) Continuation of Benefits. Each provider sponsored health care corporation shall have a plan satisfactory to the Commissioner for handling insolvency which guarantees the continuation of benefits to enrollees or subscribers who are confined on the date of insolvency in an inpatient facility until the earlier of their discharge or expiration of benefits.

Rule 120-2-75-.07. Financial Reports.

Any provider sponsored health care corporation issued a license shall file annual and quarterly financial statements using forms prescribed by the Commissioner pursuant to O.C.G.A. § [33-20-24](#). The annual financial report is due March 1 each year and the quarterly statements are due 45 days after the end of each calendar quarter. The Commissioner may also require additional financial reports as are required of other insurers including but not limited to an annual audit from a certified public accountant.

Rule 120-2-75-.08. Regulation of Agents.

- (1) An agent representing a provider sponsored health care corporation must comply with all of the requirements for a life, accident and sickness agent in O.C.G.A. § [33-23-1](#) *et seq.* and have a current license and certificate of authority to represent the health care corporation.
- (2) The provider sponsored health care corporation must comply with the provisions of O.C.G.A. § [33-23-26](#) with regard to obtaining a certificate of authority for each agent representing the provider sponsored health care corporation as required by O.C.G.A. §

[33-23-26\(d\)](#), filing a certified listing of agents whose certificates of authority are to be renewed along with the appropriate fees, and maintaining a list of authorized agents as required in O.C.G.A. § [33-23-26\(d\)](#).

- (3) All provider sponsored health care corporation agents shall act in a fiduciary capacity in regard to monies collected or held by such agent.

Subject 120-2-76. SALE OF INSURANCE BY FINANCIAL INSTITUTIONS.

Rule 120-2-76-.01. Sale of Insurance by Financial Institutions.

- (1) Insurance may be sold by certain lending institutions, bank holding companies, or subsidiaries or affiliates of either of the foregoing doing business in this State. However, insurance is underwritten by insurers and sold by insurance agents. Therefore, the purpose of this Regulation Chapter is to specify the requirements for the sale of insurance products by lending institutions, bank holding companies, and their subsidiaries and affiliates.
- (2) Nothing in this Regulation Chapter shall authorize any of the following activities by a lending institution, bank holding company, or subsidiary or affiliate of either:
 - (a) The sale of any insurance product that is not underwritten by an insurer which has a certificate of authority to transact business in Georgia;
 - (b) Failure to comply with the licensing requirements for agents and agencies;
 - (c) Failure to comply with any other provisions of this Regulation Chapter with respect to the sale of insurance.
 - (d) Failure to comply with Title 33 of the Official Code of Georgia Annotated or the Rules and Regulations of the Commissioner of Insurance of the State of Georgia.
 - (e) Failure to comply with Title 7 of the Official Code of Georgia or the Rules and Regulations of the Department of Banking and Finance.
- (3) These regulations do not negate or affect the following: exceptions set out in O.C.G.A. § [33-3-23](#) such as sale and underwriting of credit insurance (O.C.G.A. § [33-3-23\(b\)](#)); sale of products regulated by O.C.G.A. § [33-23-12\(b\)\(3\)](#); and insurance sold pursuant to Regulation §120-2-11, all of which are otherwise regulated by the Office of Commissioner of Insurance.

1997.

Rule 120-2-76-.02. Definitions.

As used in this Regulation Chapter, the term:

- (a) "Agency" means a person, including corporations, subsidiary corporations, partnerships, non-natural persons, etc., associated with or in the form of a financial institution who represents one or more insurers and is engaged in the business of soliciting or procuring or accepting applications for insurance or countersigning, issuing, or delivering contracts of insurance for one or more insurers;
- (b) "Agent" means an individual appointed or employed by an insurer who solicits or procures applications for insurance; who in any way, directly or indirectly, makes or causes to be made any insurance contract for or on account of an insurer; or who as a representative of an insurer receives money for transmission to the insurer for an insurance contract, anything in the application or contract to the contrary notwithstanding, and who has on file with the Commissioner a certificate of authority from each insurer with whom the agent places insurance;
- (c) "Financial Institution" means a domestic state bank, national bank, building and loan or savings and loan association or other federally insured depository institution which is authorized to accept deposits in the State of Georgia; a bank holding company; or a subsidiary or affiliate of any of the above;
- (d) "Insurance Agent" means an individual appointed or employed by a financial institution who solicits or procures applications for insurance; who in any way, directly or indirectly, makes or causes to be made any insurance contract for or on account of an insurer; and who has on file with the Commissioner a certificate of authority from each insurer with whom the agent places insurance;
- (e) "Insurance" means a contract which is an integral part of a plan for distributing individual losses whereby one undertakes to indemnify another or to pay a specified amount or benefits upon determinable contingencies. The term does not include credit insurance products referenced in O.C.G.A. § [33-23-12\(b\)](#).

Rule 120-2-76-.03. Notification to Department of Intent to Sell Insurance In or Through Financial Institutions; Registration of Bank Holding Company with the Department of Banking and Finance.

- (1) Prior to marketing insurance products, a financial institution shall provide notification to the Department of Insurance on Form GID 423FI and file a copy with the Department of Banking and Finance (DBF). Such report shall:
 - (a) Identify any financial institution location where an insurance agent will be physically present. Each branch must be identified specifically in the registration;
 - (b) Acknowledge that the financial institution has read and understands these rules; and
 - (c) Identify any insurance company and the policy form numbers of the insurance which will be marketed in association with the financial institution.
- (2) An Amended Form shall be filed within 15 days after the end of the month in which it learns of each change or addition.
- (3) Any financial institution with a holding company, which is marketing or selling insurance products in this state, shall register said holding company with the Department of Banking and Finance pursuant to DBF Regulation § [80-5-4-.02](#).

Rule 120-2-76-.04. Financial Institutions Registering as an Agency.

- (1) The conduct of insurance transactions in association with a financial institution shall be subject to the requirements of O.C.G.A. § [33-23-3](#) and Georgia Insurance Department Regulation [120-2-3-.05](#).
- (2) Each financial institution where a licensed and appointed insurance agent is engaged in transactions with respect to insurance products shall be considered an insurance agency for purposes of O.C.G.A. § [33-23-3](#) and must register with this Department pursuant to Georgia Regulation Chapter [120-2-3-.05](#) using Form GID 130FI.
- (3) GID Form 423FI must identify all locations or branches from which insurance will be sold.

Rule 120-2-76-.05. Licensure of Agents.

- (1) Any individual soliciting, selling or marketing insurance products to individuals permanently or temporarily residing in this state must be licensed and appointed as an insurance agent in accordance with the provisions of the Georgia Insurance Code and Georgia Insurance Department Regulation Chapter [120-2-22-.07](#).
- (2) No licensed and appointed insurance agent shall, while working from within and on behalf of a financial institution, market or sell insurance, except to the extent permitted by O.C.G.A. § [33-3-23](#).

Rule 120-2-76-.07. Location for the Sale of Insurance.

- (1) If insurance is sold on the premises of a financial institution, the area utilized by an insurance agent for such transactions must be sufficiently segregated and distinct from areas utilized by the financial institution for accepting insured deposits so as to avoid confusion as to the separate identities and activities of the financial institution and the licensed agent.
- (2) No insurance agent or employee of the financial institution shall under any circumstances conduct insurance transactions from the teller area. The acceptance of mortgage payments which include insurance escrow payments will not be considered to be conducting an insurance transaction. See DBF Regulation [80-5-4-.05](#).

Rule 120-2-76-.09. Agent Activities.

- (1) Only a licensed and appointed agent shall:
 - (a) solicit the sale of insurance or describe the benefits of the insurance contract or otherwise describe the terms of coverage including premiums or rates of return;
 - (b) provide an application, enrollment form or other document by which a purchaser effectuates coverage; or
 - (c) accept an initial premium payment from the insurance purchaser.
- (2) In connection with the marketing of insurance, employees of a financial institution who are not licensed and appointed as insurance agents shall not:
 - (a) make general or specific recommendations as to insurance products;
 - (b) qualify or screen a purchaser for such products;
 - (c) respond to questions from prospective purchasers regarding insurance products.
Any individual seeking general or specific information about insurance products shall be advised as to the location of the licensed agent or otherwise advised as to how the agent may be contacted; or
 - (d) refer to insurance products as any type of deposit product or insured deposit.
- (3) The licensed and appointed insurance agent shall be identified as an insurance agent on stationery and business cards utilized by the licensee, on other materials provided to the purchaser as well as in any verbal discussions with the purchaser. If the agent is licensed as a securities broker, the additional license may be disclosed on the materials as well as in any verbal discussions with the purchaser regarding insurance products, provided the marketer is also identified as an insurance agent.

Rule 120-2-76-.11. Premium Collection.

- (1) Only a licensed agent or insurance agent may accept the initial premium paid for an insurance contract.
- (2) A financial institution or affiliate may, at the request of the purchaser, send premium billings or notices to purchasers and debit the purchaser's account or credit arrangement for the payment of insurance premiums subsequent to the initial payment. Upon the written request of the purchaser or insurer to discontinue this form of premium payment, the financial institution shall immediately discontinue such debits.

Rule 120-2-76-.12. Utilization of Independent Agents in Financial Institutions.

- (1) Any financial institution may contract with agents or an insurance agency on a full-time or part-time basis for the sale of insurance products from bank locations. Such agents shall be appointed by the licensed insurers issuing and underwriting the insurance product. Commissions shall be paid to the agent or agency and may be paid to the financial institution subject to the conditions of paragraphs (2) and (3) of this section.

- (2) An insurance agent or agency may not share any commissions with the financial institution and the financial institution shall not accept any such commission unless it has registered as an agency using the GID Form 130FI.
- (3) Any lease of space by a financial institution to an insurance agent under which the amount of the rent is based directly or indirectly on the volume of premium written by the insurance agent entails the sharing of commission.

History. Original Rule entitled "Compensation of Agents" adopted. F. Feb. 18, 1997; eff. Mar. 10, 1997.

Rule 120-2-76-.14. Access to Records and Premises.

- (1) An insurance agent marketing insurance is responsible for maintaining such records as are necessary to enable the Department to determine that transactions under his or her license comply with all applicable requirements of the insurance code and for making such records available to the Georgia Insurance Department.
- (2) If the licensed insurance agent markets other products, provides other services, or maintains other information regarding the customer which relate to other than insurance transactions, all records relating to insurance transactions shall be separately maintained.
- (3) The Commissioner of Insurance shall have access to the books and records relating to the sale of insurance irrespective of the physical location of such books and records.
- (4) A contract or agreement regarding the sale of insurance between the financial institution and any independent insurance agent or other person conducting insurance transactions shall be in writing and available for inspection by the Georgia Insurance Department.

History. Original Rule entitled "Access to Records and Premises" adopted. F. Feb. 18, 1997; eff. Mar. 10, 1997.

Rule 120-2-76-.15. Advertising.

- (1) Advertisements of insurance products marketed pursuant to this regulation shall be subject to the provisions of O.C.G.A. § [33-6-1](#) *et seq.* and other applicable Georgia law and Insurance Department and Department of Banking and Finance regulations.
- (2) No licensed or unlicensed person shall in connection with the marketing of insurance refer to coverage available by the Georgia Life and Health Insurance Guaranty Association, Georgia Insurers' Insolvency Pool, or any other guaranty association, unless specifically asked by the purchaser.
- (3) If insurance product advertisements directed to prospective purchasers are included in mailings of bank statements or other documents generated by the financial institution relating to products or services provided by the financial institution, the mailings shall clearly identify the sources of the materials.
- (4) If the product or program name under which an insurance product is marketed includes the name of a financial institution or the name of a program associated with the financial institution, the product or program name must also identify the insurance company which is issuing and underwriting the product.
- (5) Premiums shall not be referred to as "deposits". Terminology used in connection with insurance must be sufficiently different than that used in connection with traditional banking products and services so as to avoid confusion.
- (6) Advertisements of insurance are the responsibility of the insurer and subject to review by the Georgia Insurance Department. If an advertisement describes insurance products and other types of financial services or investments, the entire advertisement must be submitted to the Georgia Insurance Department in the form in which it will be communicated to consumers.
- (7) An unlicensed employee of a financial institution may distribute an advertisement describing an insurance product to a prospective purchaser or may refer a customer to a display containing such advertisements. However, that employee shall not recommend the purchase of an insurance product, describe the features of an insurance product, or respond to questions regarding the content of the advertisement. In response to any questions, the employee must indicate that the consumer should pose that question to the licensed agent.

Rule 120-2-76-.16. Communication with Customers.

- (1) Premium notices, notices of cancellation, renewal notices, statements of values or other communications relating to in-force insurance shall be separated from financial institution account information.
- (2) A financial institution shall not provide to an affiliated insurance agency or an insurance agent, insurance policy specific information to be used to solicit or sell the same line or type of insurance to a financial institution customer, unless the customer has authorized such use in writing on a document independent of any other information provided to the customer. This prohibition shall not be applicable to renewal business nor shall it apply when the financial institution must use the information to insure its collateral because the customer has failed to keep the policy in force. A customer's name, address and telephone number shall not be considered insurance policy specific information.

Rule 120-2-76-.19. Prohibition Against Tying; Prohibition Against Rebating and Impermissible Discounting.

- (1) Tying availability of credit, establishment or maintenance of a trust account or deposit account, or the provision of other traditional bank products from a lending institution to the purchase of insurance from that lending institution is not permitted. Federal bank on these activities.
- (2) If insurance is marketed in connection with or in conjunction with any activities described in this section, any marketing to a loan applicant on bank premises shall not occur until the financial institution discloses both verbally and in writing that the purchase of an insurance product is unrelated to and not a condition to the provision or term of any banking service or activity and has committed to such banking service or activity. The written disclosure required by this section shall be a part of the disclosures required by the Department of Banking and Finance Regulation § [80-5-4-.08](#).
- (3) No rebating of premiums or discounting except in accordance with an applicable rate filing, rating plan, or rating system filed with and approved by the Commissioner of Insurance shall be permitted.

Subject 120-2-77. LARGE COMMERCIAL INSURANCE RISK RATING.

Rule 120-2-77-.01. Purpose.

The purpose and intent of this Regulation Chapter is to specifically recognize that the adherence to manual rules may not adequately service the unique needs of certain large commercial insurance risks and to permit, but not mandate, negotiated departure from manual rates for certain large commercial insurance risks. Nothing contained herein authorizes noncompliance with the rate making standards codified in O.C.G.A. § [33-9-4](#).

Cite as Ga. Comp. R. & Regs. R. 120-2-77-.01

Authority: O.C.G.A. Secs. [33-2-9](#), [33-9-3](#), [33-9-4](#).

History. Original Rule entitled "Purpose" adopted. F. Dec. 22, 1998; eff. Jan. 11, 1999.

Rule 120-2-77-.02. Compliance.

Classifications, rates, and premiums developed in full compliance with this Regulation Chapter shall not be considered as filed and approved for the purpose of interpreting O.C.G.A. § [33-6-5\(6\)\(B\)](#).

History. Original Rule entitled "Compliance" adopted. F. Dec. 22, 1998; eff. Jan. 11, 1999.

Rule 120-2-77-.03. Definitions.

For purposes of this Regulation Chapter:

- (1) "Commissioner" shall mean the Commissioner of Insurance of the State of Georgia.

- (2) "Large Commercial Risk" shall mean a single legal entity (or a combination of legal entities controlled by the same person or group of persons by majority interest in such entities) that meets all of the following criteria:
- (a) 25 or more full-time employees at the time of application;
 - (b) assets in excess of \$1,500,000 at the time of application;
 - (c) annual revenues in excess of \$2,500,000; and
 - (d)
 - (i) annual property and casualty premium threshold from Georgia operations in excess of \$50,000; or
 - (ii) an annual written property and casualty premium threshold for risks having multistate locations or operations in excess of \$250,000.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-9-3](#), [33-9-4](#).

History. Original Rule entitled "Definitions" adopted. F. Dec. 22, 1998; eff. Jan. 11, 1999.

Amended: F. Aug. 25, 2000; eff. Sept. 14, 2000.

Rule 120-2-77-.04. Determining Premium Threshold.

- (1) When determining annual premium threshold, all premiums shall be calculated by the use of filed manual rates or rating systems including all objective discounts (credits) or surcharges (debits), but not including any discretionary rating.
- (2) When determining the thresholds referred to in Section [120-2-77-.03\(2\)\(d\)\(i\) and \(ii\)](#), the following premiums shall be excluded:
 - (a) premiums written by unauthorized insurers;
 - (b) primary and/or excess workers compensation premiums, including all premiums derived from policies which lawfully satisfy O.C.G.A. § [34-9-1](#) *et seq.*;
 - (c) premiums from any type of coverage which lawfully utilizes uncontrolled rates including certain inland marine, ocean marine, and aviation;
 - (d) employee benefits premiums;
 - (e) premiums from errors and omissions coverages including medical malpractice;
 - (f) accident and sickness premiums; and
 - (g) any premiums for coverage provided by residual market mechanisms.

Rule 120-2-77-.05. Filed Manual Rates, Rating Plans, Rating Systems or Underwriting Rules.

- (1) Insurers are not required to adhere to filed manual rates, rating plans, rating systems, or underwriting rules to price a large commercial risk. However, this section shall not apply with respect to:
 - (a) primary or excess workers compensation, including any alternative products which lawfully satisfy O.C.G.A. § [34-9-1](#) *et seq.*, and
 - (b) all errors and omissions insurance including medical malpractice.

History. Original Rule entitled "Filed Manual Rates, Rating Plans, Ratings Systems or Underwriting Rules" adopted. F. Dec. 22, 1998; eff. Jan. 11, 1999.

Rule 120-2-77-.06. Statistical Reporting Requirement.

- (1) Each insurer shall maintain records concerning all data, statistics, or underwriting rules so that the Commissioner is able to determine whether that insurer is in compliance with applicable laws and Rules and Regulations. Such information shall also be reported through a recognized statistical agency or advisory organization pursuant to O.C.G.A. § [33-9-20](#). As a minimum requirement, an insurer shall maintain annual experience on number of risks, written premiums, written premiums at manual level, paid losses, and outstanding losses.
- (2) The Commissioner may request an insurer to provide the data referenced in paragraph (1) at any time. Any insurer which fails to produce the data within thirty (30) days of such request shall forfeit the privilege afforded by this Regulation for a period of no less than eighteen (18) months.
- (3) Reports submitted to demonstrate compliance with the Rules and Regulation of the Office of Commissioner of Insurance Chapter 120-2-41 shall omit the premiums written pursuant to this Regulation Chapter.
- (4) Information collected pursuant to this Rule may be requested at any time in connection with a rate filing.

Rule 120-2-77-.07. Finding by the Commissioner.

With respect to large commercial risks, upon a finding by the Commissioner that a sufficient degree of competition does not exist for a particular line, class or type of insurance, he or she may suspend all or part of this Regulation Chapter.

Rule 120-2-78-.05. Credit for ReinsuranceAccredited Reinsurers.

- (1) Pursuant to O.C.G.A. § [33-7-14\(a\)\(2\)](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that is accredited as a reinsurer in this state as of the date on which statutory financial statement credit for reinsurance is claimed. An accredited reinsurer must:
 - (a) File a properly executed Form AR-1 (attached as an exhibit to this regulation) as evidence of its submission to this state's jurisdiction and to this state's authority to examine its books and records;
 - (b) File with the commissioner a certified copy of a certificate of authority or other acceptable evidence that it is licensed to transact insurance or reinsurance in at least one state, or, in the case of a U.S. branch of an alien assuming insurer, is entered through and licensed to transact insurance or reinsurance in at least one state;
 - (c) File annually with the commissioner a copy of its annual statement filed with the insurance department of its state of domicile or, in the case of an alien assuming insurer, with the state through which it is entered and in which it is licensed to transact insurance or reinsurance, and a copy of its most recent audited financial statement; and
 - (d) Maintain a surplus as regards policyholders in an amount not less than \$20,000,000, or obtain the affirmative approval of the commissioner upon a finding that it has adequate financial capacity to meet its reinsurance obligations and is otherwise qualified to assume reinsurance from domestic insurers.
- (2) If the commissioner determines that the assuming insurer has failed to meet or maintain any of these qualifications, the commissioner may upon written notice and opportunity for hearing, suspend or revoke the accreditation. Credit shall not be allowed a domestic ceding insurer under this section if the assuming insurer's accreditation has been revoked by the commissioner, or if the reinsurance was ceded while the assuming insurer's accreditation was under suspension by the commissioner.

Credit for Reinsurance Regulation

FORM AR-1

CERTIFICATE OF ASSUMING INSURER

I, _____,

(name of officer) (title of officer)

of _____, the
assuming insurer (name of assuming insurer)

under a reinsurance agreement with one or more insurers domiciled in

_____,
hereby certify that (name of state)

_____, ("Assuming
Insurer"):

(name of assuming insurer)

1. Submits to the jurisdiction of any court of competent jurisdiction
in _____

(ceding insurer's state of domicile)

for the adjudication of any issues arising out of the reinsurance agreement, agrees to comply with all requirements necessary to give such court jurisdiction, and will abide by the final decision of such court or any appellate court in the event of an appeal. Nothing in this paragraph constitutes or should be understood to constitute a waiver of Assuming Insurer's rights to commence an action in any court of competent jurisdiction in the United States, to remove an action to a United States District Court, or to seek a transfer of a case to another court as permitted by the laws of the United States or of any state in the United States. This paragraph is not intended to conflict with or override the obligation of the parties to the reinsurance agreement to arbitrate their disputes if such an obligation is created in the agreement.

2. Designates the Insurance Commissioner of

(ceding insurer's state of domicile)

as its lawful attorney upon whom may be served any lawful process in any action, suit or proceeding arising out of the reinsurance agreement instituted by or on behalf of the ceding insurer.

3. Submits to the authority of the Insurance Commissioner of
_____ to examine

(ceding insurer's state of domicile)

its books and records and agrees to bear the expense of any such examination.

4. Submits with this form a current list of insurers domiciled in

(ceding insurer's state of domicile)

reinsured by Assuming Insurer and undertakes to submit additions to or deletions from the list to the Insurance Commissioner at least once per calendar quarter.

Rule 120-2-78-.06. Credit for Reinsurance Reinsurer Domiciled and Licensed in Another State.

- (1) Pursuant to O.C.G.A. § [33-7-14\(a\)\(3\)](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that as of any date on which statutory financial statement credit for reinsurance is claimed:

- (a) Is domiciled in (or, in the case of a U.S. branch of an alien assuming insurer, is entered through) a state that employs standards regarding credit for reinsurance substantially similar to those applicable under the Act and this regulation;
 - (b) Maintains a surplus as regards policyholders in an amount not less than \$20,000,000; and
 - (c) Files a properly executed Form AR-1 with the commissioner as evidence of its submission to this state's authority to examine its books and records.
2. The provisions of this section relating to surplus as regards policyholders shall not apply to reinsurance ceded and assumed pursuant to pooling arrangements among insurers in the same holding company system. As used in this section, "substantially similar" standards means credit for reinsurance standards that the commissioner determines equal or exceed the standards of the Act and this regulation.

Rule 120-2-78-.07. Credit for Reinsurance Reinsurers Maintaining Trust Funds.

- (1) Pursuant to O.C.G.A. § [33-7-14\(a\)\(4\)](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer which, as of any date on which statutory financial statement credit for reinsurance is claimed, and thereafter for so long as credit for reinsurance is claimed, maintains a trust fund in an amount prescribed below in a qualified U.S. financial institution as defined in O.C.G.A. § [33-7-14\(c\)\(2\)](#), for the payment of the valid claims of its U.S. domiciled ceding insurers, their assigns and successors in interest. The assuming insurer shall report annually to the commissioner substantially the same information as that required to be reported on the National Association of Insurance Commissioners (NAIC) annual statement form by licensed insurers, to enable the commissioner to determine the sufficiency of the trust fund.
- (2) The following requirements apply to the following categories of assuming insurer:
 - (a) The trust fund for a single assuming insurer shall consist of funds in trust in an amount not less than the assuming insurer's liabilities attributable to reinsurance ceded by U.S. domiciled insurers, and in addition, the assuming insurer shall maintain a trusteed surplus of not less than \$20,000,000, except as provided in paragraph (2) of this subsection.

- (b) At any time after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least three full years, the commissioner with principal regulatory oversight of the trust may authorize a reduction in the required trustee surplus, but only after a finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of U.S. ceding insurers, policyholders and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and shall consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trustee surplus may not be reduced to an amount less than thirty percent (30%) of the assuming insurer's liabilities attributable to reinsurance ceded by U.S. ceding insurers covered by the trust.
- (c) (1) The trust fund for a group including incorporated and individual unincorporated underwriters shall consist of:
- (i) For reinsurance ceded under reinsurance agreements with an inception, amendment or renewal date on or after January 1, 1993, funds in trust in an amount not less than the respective underwriters' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any underwriter of the group;
 - (ii) For reinsurance ceded under reinsurance agreements with an inception date on or before December 31, 1992, and not amended or renewed after that date, notwithstanding the other provisions of this regulation, funds in trust in an amount not less than the respective underwriters' several insurance and reinsurance liabilities attributable to business written in the United States; and
 - (iii) In addition to these trusts, the group shall maintain a trustee surplus of which \$100,000,000 shall be held jointly for the benefit of the U.S. domiciled ceding insurers of any member of the group for all the years of account.
- (2) The incorporated members of the group shall not be engaged in any business other than underwriting as a member of the group and shall be subject to the same level of regulation and solvency control by the group's domiciliary regulator as are the unincorporated members. The group shall, within ninety (90) days after its financial statements are due to be filed with the group's domiciliary regulator, provide to the commissioner:
- (i) An annual certification by the group's domiciliary regulator of the solvency of each underwriter member of the group; or

- (ii) If a certification is unavailable, a financial statement, prepared by independent public accountants, of each underwriter member of the group.
- (d)
 - (1) The trust fund for a group of incorporated insurers under common administration, whose members possess aggregate policyholders surplus of \$10,000,000,000 (calculated and reported in substantially the same manner as prescribed by the annual statement instructions and *Accounting Practices and Procedures Manual* of the NAIC) and which has continuously transacted an insurance business outside the United States for at least three (3) years immediately prior to making application for accreditation, shall:
 - (i) Consist of funds in trust in an amount not less than the assuming insurers' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any members of the group pursuant to reinsurance contracts issued in the name of such group;
 - (ii) Maintain a joint trusteed surplus of which \$100,000,000 shall be held jointly for the benefit of U.S. domiciled ceding insurers of any member of the group; and
 - (iii) File a properly executed Form AR-1 as evidence of the submission to this state's authority to examine the books and records of any of its members and shall certify that any member examined will bear the expense of any such examination.
 - (2) Within ninety (90) days after the statements are due to be filed with the group's domiciliary regulator, the group shall file with the commissioner an annual certification of each underwriter member's solvency by the member's domiciliary regulators, and financial statements, prepared by independent public accountants, of each underwriter member of the group.
- (3)
 - (a) Credit for reinsurance shall not be granted unless the form of the trust and any amendments to the trust have been approved by either the commissioner of the state where the trust is domiciled or the commissioner of another state who, pursuant to the terms of the trust instrument, has accepted responsibility for regulatory oversight of the trust. The form of the trust and any trust amendments also shall be filed with the commissioner of every state in which the ceding insurer beneficiaries of the trust are domiciled. The trust instrument shall provide that:

- (1) Contested claims shall be valid and enforceable out of funds in trust to the extent remaining unsatisfied thirty (30) days after entry of the final order of any court of competent jurisdiction in the United States;
 - (2) Legal title to the assets of the trust shall be vested in the trustee for the benefit of the grantor's U.S. ceding insurers, their assigns and successors in interest;
 - (3) The trust shall be subject to examination as determined by the commissioner;
 - (4) The trust shall remain in effect for as long as the assuming insurer, or any member or former member of a group of insurers, shall have outstanding obligations under reinsurance agreements subject to the trust; and
 - (5) No later than February 28 of each year the trustee of the trust shall report to the commissioner in writing setting forth the balance in the trust and listing the trust's investments at the preceding year-end, and shall certify the date of termination of the trust, if so planned, or certify that the trust shall not expire prior to the following December 31.
- (b)
- (1) Notwithstanding any other provisions in the trust instrument, if the trust fund is inadequate because it contains an amount less than the amount required by this subsection or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner with regulatory oversight over the trust or other designated receiver all of the assets of the trust fund.
 - (2) The assets shall be distributed by and claims shall be filed with and valued by the commissioner with regulatory oversight over the trust in accordance with the laws of the state in which the trust is domiciled applicable to the liquidation of domestic insurance companies.
 - (3) If the commissioner with regulatory oversight over the trust determines that the assets of the trust fund or any part thereof are not necessary to satisfy the claims of the U.S. beneficiaries of the trust, the commissioner with regulatory oversight over the trust shall return the assets, or any part thereof, to the trustee for distribution in accordance with the trust agreement.

- (4) The grantor shall waive any right otherwise available to it under U.S. law that is inconsistent with this provision.
- (4) For purposes of this section, the term "liabilities" shall mean the assuming insurer's gross liabilities attributable to reinsurance ceded by U.S. domiciled insurers excluding liabilities that are otherwise secured by acceptable means, and, shall include:
 - (a) For business ceded by domestic insurers authorized to write accident and health, and property and casualty insurance:
 - (1) Losses and allocated loss expenses paid by the ceding insurer, recoverable from the assuming insurer;
 - (2) Reserves for losses reported and outstanding;
 - (3) Reserves for losses incurred but not reported;
 - (4) Reserves for allocated loss expenses; and
 - (5) Unearned premiums.
 - (b) For business ceded by domestic insurers authorized to write life, health and annuity insurance:
 - (1) Aggregate reserves for life policies and contracts net of policy loans and net due and deferred premiums;
 - (2) Aggregate reserves for accident and health policies;
 - (3) Deposit funds and other liabilities without life or disability contingencies; and
 - (4) Liabilities for policy and contract claims.
- (5) Assets deposited in trusts established pursuant to O.C.G.A. § [33-7-14\(a\)](#) and this section shall be valued according to their current fair market value and shall consist only of cash in U.S. dollars, certificates of deposit issued by a U.S. financial institution as defined in O.C.G.A. § [33-7-14\(c\)\(1\)](#), clean, irrevocable, unconditional and "evergreen" letters of credit issued or confirmed by a qualified U.S. financial institution, as defined in O.C.G.A. § [33-7-14\(c\)\(1\)](#), and investments of the type specified in this subsection, but investments in or issued by an entity controlling, controlled by or under common control with either the grantor or beneficiary of the trust shall not exceed five percent (5%) of total investments. No more than twenty percent (20%) of the total of the investments in the trust may be foreign investments authorized under Paragraphs (a)(5), (c), (f)(2) or (g) of this subsection, and no more than ten percent (10%) of the total of the investments in the trust may be securities denominated in foreign currencies. For purposes of applying the

preceding sentence, a depository receipt denominated in U.S. dollars and representing rights conferred by a foreign security shall be classified as a foreign investment denominated in a foreign currency. The assets of a trust established to satisfy the requirements of O.C.G.A. § [33-7-14\(a\)](#) shall be invested only as follows:

- (a) Government obligations that are not in default as to principal or interest, that are valid and legally authorized and that are issued, assumed or guaranteed by:
 - (1) The United States or by any agency or instrumentality of the United States;
 - (2) A state of the United States;
 - (3) A territory, possession or other governmental unit of the United States;
 - (4) An agency or instrumentality of a governmental unit referred to in Subparagraphs (2) and (3) of this paragraph if the obligations shall be by law (statutory or otherwise) payable, as to both principal and interest, from taxes levied or by law required to be levied or from adequate special revenues pledged or otherwise appropriated or by law required to be provided for making these payments, but shall not be obligations eligible for investment under this paragraph if payable solely out of special assessments on properties benefited by local improvements; or
 - (5) The government of any other country that is a member of the Organization for Economic Cooperation and Development and whose government obligations are rated A or higher, or the equivalent, by a rating agency recognized by the Securities Valuation Office of the NAIC;
- (b) Obligations that are issued in the United States, or that are dollar denominated and issued in a non-U.S. market, by a solvent U.S. institution (other than an insurance company) or that are assumed or guaranteed by a solvent U.S. institution (other than an insurance company) and that are not in default as to principal or interest if the obligations:
 - (1) Are rated A or higher (or the equivalent) by a securities rating agency recognized by the Securities Valuation Office of the NAIC, or if not so rated, are similar in structure and other material respects to other obligations of the same institution that are so rated;
 - (2) Are insured by at least one authorized insurer (other than the investing insurer or a parent, subsidiary or affiliate of the investing insurer) licensed to insure obligations in this state and, after considering the insurance, are rated AAA (or the equivalent) by a securities rating agency recognized by the Securities Valuation Office of the NAIC; or
 - (3) Have been designated as Class One or Class Two by the Securities Valuation Office of the NAIC;

- (c) Obligations issued, assumed or guaranteed by a solvent non-U.S. institution chartered in a country that is a member of the Organization for Economic Cooperation and Development or obligations of U.S. corporations issued in a non-U.S. currency, provided that in either case the obligations are rated A or higher, or the equivalent, by a rating agency recognized by the Securities Valuation Office of the NAIC;
- (d) An investment made pursuant to the provisions of Paragraph (a), (b) or (c) of this subsection shall be subject to the following additional limitations:
 - (1) An investment in or loan upon the obligations of an institution other than an institution that issues mortgage-related securities shall not exceed five percent (5%) of the assets of the trust;
 - (2) An investment in any one mortgage-related security shall not exceed five percent (5%) of the assets of the trust;
 - (3) The aggregate total investment in mortgage-related securities shall not exceed twenty-five percent (25%) of the assets of the trust; and
 - (4) Preferred or guaranteed shares issued or guaranteed by a solvent U.S. institution are permissible investments if all of the institution's obligations are eligible as investments under Paragraphs (b)(1) and (b)(3) of this subsection, but shall not exceed two percent (2%) of the assets of the trust.
- (e) As used in this regulation:
 - (1) "Mortgage-related security" means an obligation that is rated AA or higher (or the equivalent) by a securities rating agency recognized by the Securities Valuation Office of the NAIC and that either:
 - (i) Represents ownership of one or more promissory notes or certificates of interest or participation in the notes (including any rights designed to assure servicing of, or the receipt or timeliness of receipt by the holders of the notes, certificates, or participation of amounts payable under, the notes, certificates or participation), that:
 - (I) Are directly secured by a first lien on a single parcel of real estate, including stock allocated to a dwelling unit in a residential cooperative housing corporation, upon which is located a dwelling or mixed residential and commercial structure, or on a residential manufactured home as defined in [42 U.S.C.A. Section 5402\(6\)](#), whether the manufactured home is considered real or personal property under the laws of the state in which it is located; and

(II) Were originated by a savings and loan association, savings bank, commercial bank, credit union, insurance company, or similar institution that is supervised and examined by a federal or state housing authority, or by a mortgagee approved by the Secretary of Housing and Urban Development pursuant to [12 U.S.C.A. Sections 1709 and 1715](#) -b, or, where the notes involve a lien on the manufactured home, by an institution or by a financial institution approved for insurance by the Secretary of Housing and Urban Development pursuant to [12 U.S.C.A. Section 1703](#); or

(ii) Is secured by one or more promissory notes or certificates of deposit or participations in the notes (with or without recourse to the insurer of the notes) and, by its terms, provides for payments of principal in relation to payments, or reasonable projections of payments, or notes meeting the requirements of Items (i)(I) and (i)(II) of this subsection;

(2) "Promissory note," when used in connection with a manufactured home, shall also include a loan, advance or credit sale as evidenced by a retail installment sales contract or other instrument.

(f) Equity interests

(1) Investments in common shares or partnership interests of a solvent U.S. institution are permissible if:

(i) Its obligations and preferred shares, if any, are eligible as investments under this subsection; and

(ii) The equity interests of the institution (except an insurance company) are registered on a national securities exchange as provided in the Securities Exchange Act of 1934, [15 U.S.C. §§ 78a to 78kk](#) or otherwise registered pursuant to that Act, and if otherwise registered, price quotations for them are furnished through a nationwide automated quotations system approved by the Financial Industry Regulatory Authority, or successor organization. A trust shall not invest in equity interests under this paragraph an amount exceeding one percent (1%) of the assets of the trust even though the equity interests are not so registered and are not issued by an insurance company;

- (2) Investments in common shares of a solvent institution organized under the laws of a country that is a member of the Organization for Economic Cooperation and Development, if:
 - (i) All its obligations are rated A or higher, or the equivalent, by a rating agency recognized by the Securities Valuation Office of the NAIC; and
 - (ii) The equity interests of the institution are registered on a securities exchange regulated by the government of a country that is a member of the Organization for Economic Cooperation and Development;
 - (3) An investment in or loan upon any one institution's outstanding equity interests shall not exceed one percent (1%) of the assets of the trust. The cost of an investment in equity interests made pursuant to this paragraph, when added to the aggregate cost of other investments in equity interests then held pursuant to this paragraph, shall not exceed ten percent (10%) of the assets in the trust;
- (g) Obligations issued, assumed or guaranteed by a multinational development bank, provided the obligations are rated A or higher, or the equivalent, by a rating agency recognized by the Securities Valuation Office of the NAIC.
- (h) Investment companies
 - (1) Securities of an investment company registered pursuant to the Investment Company Act of 1940, 15 U.S.C. § 80 a, are permissible investments if the investment company:
 - (i) Invests at least ninety percent (90%) of its assets in the types of securities that qualify as an investment under Paragraph (a), (b) or (c) of this subsection or invests in securities that are determined by the commissioner to be substantively similar to the types of securities set forth in Paragraph (a), (b) or (c) of this subsection; or
 - (ii) Invests at least ninety percent (90%) of its assets in the types of equity interests that qualify as an investment under Paragraph (f)(1) of this subsection;
 - (2) Investments made by a trust in investment companies under this paragraph shall not exceed the following limitations:
 - (i) An investment in an investment company qualifying under Subparagraph (1)(i) of this paragraph shall not exceed ten percent

(10%) of the assets in the trust and the aggregate amount of investment in qualifying investment companies shall not exceed twenty-five percent (25%) of the assets in the trust; and

- (ii) Investments in an investment company qualifying under Subparagraph (1)(ii) of this paragraph shall not exceed five percent (5%) of the assets in the trust and the aggregate amount of investment in qualifying investment companies shall be included when calculating the permissible aggregate value of equity interests pursuant to Paragraph (f)(1) of this subsection.

(i) Letters of Credit

- (a) In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement (as duly approved by the commissioner), to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.
 - (b) The trust agreement shall provide that the trustee shall be liable for its negligence, willful misconduct or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where such draw would be required shall be deemed to be negligence and/or willful misconduct.
- (6) A specific security provided to a ceding insurer by an assuming insurer pursuant to Regulation [120-2-78-.09](#) shall be applied, until exhausted, to the payment of liabilities of the assuming insurer to the ceding insurer holding the specific security prior to, and as a condition precedent for, presentation of a claim by the ceding insurer for payment by a trustee of a trust established by the assuming insurer pursuant to this section.

Repealed: New Rule entitled "Credit for Reinsurance- Reinsurers Maintaining Trust Funds" adopted. F. May 23, 2013; eff. June 12, 2013.

Rule 120-2-78-.08. Credit for ReinsuranceCertified Reinsurers.

- (1) Pursuant to O.C.G.A. § [33-7-14\(a\)\(5\)](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that has been certified as a reinsurer

in this state at all times for which statutory financial statement credit for reinsurance is claimed under this section. The credit allowed shall be based upon the security held by or on behalf of the ceding insurer in accordance with a rating assigned to the certified reinsurer by the commissioner. The security shall be in a form consistent with the provisions of O.C.G.A. §§ [33-7-14\(a\)\(5\)](#) and [33-7-14\(b\)](#) and Sections 11, 12 or 13 of this Regulation. The amount of security required in order for full credit to be allowed shall correspond with the following requirements:

(a)

Ratings	Security Required
Secure - 1	0%
Secure - 2	10%
Secure - 3	20%
Secure - 4	50%
Secure - 5	75%
Vulnerable - 6	100%

- (b) Affiliated reinsurance transactions shall receive the same opportunity for reduced security requirements as all other reinsurance transactions.
- (c) The commissioner shall require the certified reinsurer to post one hundred percent (100%), for the benefit of the ceding insurer or its estate, security upon the entry of an order of rehabilitation, liquidation or conservation against the ceding insurer.
- (d) In order to facilitate the prompt payment of claims, a certified reinsurer shall not be required to post security for catastrophe recoverables for a period of one year from the date of the first instance of a liability reserve entry by the ceding company as a result of a loss from a catastrophic occurrence as recognized by the commissioner. The one year deferral period is contingent upon the certified reinsurer continuing to pay claims in compliance with its contractual terms and obligations as set forth in the reinsurance agreement under which the claims are ceded. Reinsurance recoverables for only the following lines of business as reported on the NAIC annual financial statement related specifically to the catastrophic occurrence will be included in the deferral:
1. Line 1: Fire
 2. Line 2: Allied Lines
 3. Line 3: Farmowners multiple peril
 4. Line 4: Homeowners multiple peril
 5. Line 5: Commercial multiple peril

6. Line 9: Inland Marine

7. Line 12: Earthquake

8. Line 21: Auto physical damage

- (e) Credit for reinsurance under this section shall apply only to reinsurance contracts entered into or renewed on or after the effective date of the certification of the assuming insurer.
- (f) Nothing in this section shall prohibit the parties to a reinsurance agreement from agreeing to provisions establishing security requirements that exceed the minimum security requirements established for certified reinsurers under this section.

(2) Certification Procedure.

- (a) The commissioner shall post notice on the insurance department's website promptly upon receipt of any application for certification, including instructions on how members of the public may respond to the application. The commissioner may not take final action on the application until at least thirty (30) days after posting the notice required by this paragraph.
- (b) The commissioner shall issue written notice to an assuming insurer that has made application and been approved as a certified reinsurer. Included in such notice shall be the rating assigned the certified reinsurer in accordance with Subsection (1) of this section. The commissioner shall publish a list of all certified reinsurers and their ratings.
- (c) In order to be eligible for certification, the assuming insurer shall meet the following requirements:
 - (1) The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a Qualified Jurisdiction, as determined by the commissioner pursuant to Subsection (3) of this section.
 - (2) The assuming insurer must maintain capital and surplus, or its equivalent, of no less than \$250,000,000 calculated in accordance with Subparagraph (d)(8) of this subsection. This requirement may also be satisfied by an association including incorporated and individual unincorporated underwriters having minimum capital and surplus equivalents (net of liabilities) of at least \$250,000,000 and a central fund containing a balance of at least \$250,000,000.
 - (3) The assuming insurer must maintain financial strength ratings from two or more rating agencies deemed acceptable by the commissioner. These

ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information. These financial strength ratings will be one factor used by the commissioner in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies include the following:

- (i) Standard & Poor's;
- (ii) Moody's Investors Service;
- (iii) Fitch Ratings;
- (iv) A.M. Best Company; or
- (v) Any other Nationally Recognized Statistical Rating Organization.

(4) The certified reinsurer must comply with any other requirements reasonably imposed by the commissioner.

(d) Each certified reinsurer shall be rated on a legal entity basis, with due consideration being given to the group rating where appropriate, except that an association including incorporated and individual unincorporated underwriters that has been approved to do business as a single certified reinsurer may be evaluated on the basis of its group rating. Factors that may be considered as part of the evaluation process include, but are not limited to, the following:

(1) The certified reinsurer's financial strength rating from an acceptable rating agency. The maximum rating that a certified reinsurer may be assigned will correspond to its financial strength rating as outlined in the table below. The commissioner shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two financial strength ratings from acceptable rating agencies will result in loss of eligibility for certification:

<u>Ratings</u>	<u>Best</u>	<u>S&P</u>	<u>Moody's</u>	<u>Fitch</u>
Secure - 1	A++	AAA	Aaa	AAA
Secure - 2	A+	AA+, AA, AA-	Aa1, Aa2, Aa3	AA+, AA, AA-
Secure - 3	A	A+, A	A1, A2	A+, A
Secure - 4	A-	A-	A3	A-

-------------------	---	--	--	--

- (2) The business practices of the certified reinsurer in dealing with its ceding insurers, including its record of compliance with reinsurance contractual terms and obligations;
- (3) For certified reinsurers domiciled in the U.S., a review of the most recent applicable NAIC Annual Statement Blank, either Schedule F (for property/casualty reinsurers) or Schedule S (for life and health reinsurers);
- (4) For certified reinsurers not domiciled in the U.S., a review annually of Form CR-F (for property/casualty reinsurers) or Form CR-S (for life and health reinsurers) (attached as exhibits to this regulation);
- (5) The reputation of the certified reinsurer for prompt payment of claims under reinsurance agreements, based on an analysis of ceding insurers' Schedule F reporting of overdue reinsurance recoverables, including the proportion of obligations that are more than ninety (90) days past due or are in dispute, with specific attention given to obligations payable to companies that are in administrative supervision or receivership;
- (6) Regulatory actions against the certified reinsurer;
- (7) The report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in paragraph (8) below;
- (8) For certified reinsurers not domiciled in the U.S., audited financial statements (audited U.S. GAAP basis if available, audited IFRS basis statements are allowed but must include an audited footnote reconciling equity and net income to a U.S. GAAP basis, or, with the permission of the state insurance commissioner, audited IFRS statements with reconciliation to U.S. GAAP certified by an officer of the company), regulatory filings, and actuarial opinion (as filed with the non-U.S. jurisdiction supervisor). Upon the initial application for certification, the commissioner will consider audited financial statements for the last three (3) years filed with its non-U.S. jurisdiction supervisor;

- (9) The liquidation priority of obligations to a ceding insurer in the certified reinsurer's domiciliary jurisdiction in the context of an insolvency proceeding;
 - (10) A certified reinsurer's participation in any solvent scheme of arrangement, or similar procedure, which involves U.S. ceding insurers. The commissioner shall receive prior notice from a certified reinsurer that proposes participation by the certified reinsurer in a solvent scheme of arrangement; and
 - (11) Any other information deemed relevant by the commissioner.
- (e) Based on the analysis conducted under Subparagraph (d)(5) of a certified reinsurer's reputation for prompt payment of claims, the commissioner may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to U.S. ceding insurers, provided that the commissioner shall, at a minimum, increase the security the certified reinsurer is required to post by one rating level under Subparagraph (d)(1) if the commissioner finds that:
 - (1) more than fifteen percent (15%) of the certified reinsurer's ceding insurance clients have overdue reinsurance recoverables on paid losses of ninety (90) days or more which are not in dispute and which exceed \$100,000 for each cedent; or
 - (2) the aggregate amount of reinsurance recoverables on paid losses which are not in dispute that are overdue by ninety (90) days or more exceeds \$50,000,000.
- (f) The assuming insurer must submit a properly executed Form CR-1 (attached as an exhibit to this regulation) as evidence of its submission to the jurisdiction of this state, appointment of the commissioner as an agent for service of process in this state, and agreement to provide security for one hundred percent (100%) of the assuming insurer's liabilities attributable to reinsurance ceded by U.S. ceding insurers if it resists enforcement of a final U.S. judgment. The commissioner shall not certify any assuming insurer that is domiciled in a jurisdiction that the commissioner has determined does not adequately and promptly enforce final U.S. judgments or arbitration awards.
- (g) The certified reinsurer must agree to meet applicable information filing requirements as determined by the commissioner, both with respect to an initial application for certification and on an ongoing basis. All information submitted by certified reinsurers which are not otherwise public information subject to disclosure shall be exempted from disclosure under O.C.G.A. § [50-18-70](#), *et. seq.* and shall be withheld from public disclosure. The applicable information filing requirements are, as follows:

- (1) Notification within ten (10) days of any regulatory actions taken against the certified reinsurer, any change in the provisions of its domiciliary license or any change in rating by an approved rating agency, including a statement describing such changes and the reasons therefore;
 - (2) Annually, Form CR-F or CR-S, as applicable.
 - (3) Annually, the report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in Subsection (4) below;
 - (4) Annually, audited financial statements (audited U.S. GAAP basis if available, audited IFRS basis statements are allowed but must include an audited footnote reconciling equity and net income to a U.S. GAAP basis, or, with the permission of the state insurance commissioner, audited IFRS statements with reconciliation to U.S. GAAP certified by an officer of the company), regulatory filings, and actuarial opinion (as filed with the certified reinsurer's supervisor). Upon the initial certification, audited financial statements for the last three (3) years filed with the certified reinsurer's supervisor;
 - (5) At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers;
 - (6) A certification from the certified reinsurer's domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction's highest regulatory action level; and
 - (7) Any other information that the commissioner may reasonably require.
- (h) Change in Rating or Revocation of Certification.
- (1) In the case of a downgrade by a rating agency or other disqualifying circumstance, the commissioner shall upon written notice assign a new rating to the certified reinsurer in accordance with the requirements of Regulation 120-2-78-.08(2)(d).
 - (2) The commissioner shall have the authority to suspend, revoke, or otherwise modify a certified reinsurer's certification at any time if the certified reinsurer fails to meet its obligations or security requirements under this section, or if other financial or operating results of the certified reinsurer, or documented significant delays in payment by the certified reinsurer, lead the commissioner to reconsider the certified reinsurer's ability or willingness to meet its contractual obligations.

- (3) If the rating of a certified reinsurer is upgraded by the commissioner, the certified reinsurer may meet the security requirements applicable to its new rating on a prospective basis, but the commissioner shall require the certified reinsurer to post security under the previously applicable security requirements as to all contracts in force on or before the effective date of the upgraded rating. If the rating of a certified reinsurer is downgraded by the commissioner, the commissioner shall require the certified reinsurer to meet the security requirements applicable to its new rating for all business it has assumed as a certified reinsurer.
- (4) Upon revocation of the certification of a certified reinsurer by the commissioner, the assuming insurer shall be required to post security in accordance with Regulation [120-2-78-.10](#) in order for the ceding insurer to continue to take credit for reinsurance ceded to the assuming insurer. If funds continue to be held in trust in accordance with Regulation [120-2-78-.07](#), the commissioner may allow additional credit equal to the ceding insurer's *pro rata* share of such funds, discounted to reflect the risk of uncollectibility and anticipated expenses of trust administration. Notwithstanding the change of a certified reinsurer's rating or revocation of its certification, a domestic insurer that has ceded reinsurance to that certified reinsurer may not be denied credit for reinsurance for a period of three (3) months for all reinsurance ceded to that certified reinsurer, unless the reinsurance is found by the commissioner to be at high risk of uncollectibility.

(3) Qualified Jurisdictions.

- (a) If, upon conducting an evaluation under this section with respect to the reinsurance supervisory system of any non-U.S. assuming insurer, the commissioner determines that the jurisdiction qualifies to be recognized as a qualified jurisdiction, the commissioner shall publish notice and evidence of such recognition in an appropriate manner. The commissioner may establish a procedure to withdraw recognition of those jurisdictions that are no longer qualified.
- (b) In order to determine whether the domiciliary jurisdiction of a non-U.S. assuming insurer is eligible to be recognized as a qualified jurisdiction, the commissioner shall evaluate the reinsurance supervisory system of the non-U.S. jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits and the extent of reciprocal recognition afforded by the non-U.S. jurisdiction to reinsurers licensed and domiciled in the U.S. The commissioner shall determine the appropriate approach for evaluating the qualifications of such jurisdictions, and create and publish a list of jurisdictions whose reinsurers may be approved by the commissioner as eligible for certification. A qualified jurisdiction must agree, in

writing, to share information and cooperate with the commissioner with respect to all certified reinsurers domiciled within that jurisdiction. Additional factors to be considered in determining whether to recognize a qualified jurisdiction, in the discretion of the commissioner, include but are not limited to the following:

- (1) The framework under which the assuming insurer is regulated.
 - (2) The structure and authority of the domiciliary regulator with regard to solvency regulation requirements and financial surveillance.
 - (3) The substance of financial and operating standards for assuming insurers in the domiciliary jurisdiction.
 - (4) The form and substance of financial reports required to be filed or made publicly available by reinsurers in the domiciliary jurisdiction and the accounting principles used.
 - (5) The domiciliary regulator's willingness to cooperate with U.S. regulators in general and the commissioner in particular.
 - (6) The history of performance by assuming insurers in the domiciliary jurisdiction.
 - (7) Any documented evidence of substantial problems with the enforcement of final U.S. judgments in the domiciliary jurisdiction. A jurisdiction will not be considered to be a qualified jurisdiction if the commissioner has determined that it does not adequately and promptly enforce final U.S. judgments or arbitration awards.
 - (8) Any relevant international standards or guidance with respect to mutual recognition of reinsurance supervision adopted by the International Association of Insurance Supervisors or successor organization.
 - (9) Any other matters deemed relevant by the commissioner.
- (c) The Commissioner shall consider any publicized list of jurisdictions that may be published through the NAIC Committee Process. If the commissioner approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the commissioner shall provide thoroughly documented justification with respect to the criteria provided under Regulation Subsections 120-2-78-.08(3)(b)(1) to (9).
- (d) U.S. jurisdictions that meet the requirements for accreditation under the NAIC financial standards and accreditation program shall be recognized as qualified jurisdictions.
- (4) Recognition of Certification Issued by an NAIC Accredited Jurisdiction.

- (a) If an applicant for certification has been certified as a reinsurer in an NAIC accredited jurisdiction, the commissioner has the discretion to defer to that jurisdiction's certification, and to defer to the rating assigned by that jurisdiction, if the assuming insurer submits a properly executed Form CR-1 and such additional information as the commissioner requires. The assuming insurer shall be considered to be a certified reinsurer in this State.
 - (b) Any change in the certified reinsurer's status or rating in the other jurisdiction shall apply automatically in this State as of the date it takes effect in the other jurisdiction. The certified reinsurer shall notify the commissioner of any change in its status or rating within 10 days after receiving notice of the change.
 - (c) The commissioner may withdraw recognition of the other jurisdiction's rating at any time and assign a new rating in accordance with Subparagraph 2(g)(1) of this section.
 - (d) The commissioner may withdraw recognition of the other jurisdiction's certification at any time, with written notice to the certified reinsurer. Unless the commissioner suspends or revokes the certified reinsurer's certification in accordance with Subparagraph (2)(g)(2) of this section, the certified reinsurer's certification shall remain in good standing in this State for a period of three (3) months, which shall be extended if additional time is necessary to consider the assuming insurer's application for certification in this State.
- (5) **Mandatory Funding Clause.** In addition to the clauses required under Regulation 120-2-78.-14, reinsurance contracts entered into or renewed under this section shall include a proper funding clause, which requires the certified reinsurer to provide and maintain security in an amount sufficient to avoid the imposition of any financial statement penalty on the ceding insurer under this section for reinsurance ceded to the certified reinsurer.
- (6) The commissioner shall comply with all reporting and notification requirements that may be established by the NAIC with respect to certified reinsurers and qualified jurisdictions.

Credit for Reinsurance Regulation

FORM CR-1

CERTIFICATE OF CERTIFIED REINSURER

I, _____,

(name of officer) (title of officer) of _____, the assuming insurer

(name of assuming insurer)

under a reinsurance agreement with one or more insurers domiciled in _____, in order to be considered for approval in this state, hereby certify that (name of state)

_____("Assuming Insurer"):

(name of assuming insurer)

1. Submits to the jurisdiction of any court of competent jurisdiction in _____ (ceding insurer's state of domicile) for the adjudication of any issues arising out of the reinsurance agreement, agrees to comply with all requirements necessary to give such court jurisdiction, and will abide by the final decision of such court or any appellate court in the event of an appeal. Nothing in this paragraph constitutes or should be understood to constitute a waiver of Assuming Insurer's rights to commence an action in any court of competent jurisdiction in the United States, to remove an action to a United States District Court, or to seek a transfer of a case to another court as permitted by the laws of the United States or of any state in the United States. This paragraph is not intended to conflict with or override the obligation of the parties to the reinsurance agreement to arbitrate their disputes if such an obligation is created in the agreement.

2. Designates the Insurance Commissioner of _____

(ceding insurer's state of domicile) as its lawful attorney upon whom may be served any lawful process in any action, suit or proceeding arising out of the reinsurance agreement instituted by or on behalf of the ceding insurer.

3. Agrees to provide security in an amount equal to 100% of liabilities attributable to U.S. ceding insurers if it resists enforcement of a final U.S. judgment or properly enforceable arbitration award.

4. Agrees to provide notification within 10 days of any regulatory actions taken against it, any change in the provisions of its domiciliary license or any change in its rating by an approved rating agency, including a statement describing such changes and the reasons therefore.

5. Agrees to annually file information comparable to relevant provisions of the NAIC financial statement for use by insurance markets in accordance with [cite relevant provision of the state equivalent of the Credit for Reinsurance Model Regulation].

- 6. Agrees to annually file the report of the independent auditor on the financial statements of the insurance enterprise.
- 7. Agrees to annually file audited financial statements, regulatory filings, and actuarial opinion in accordance with [cite relevant provision of the state equivalent of the Credit for Reinsurance Model Regulation].
- 8. Agrees to annually file an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers.
- 9. Is in good standing as an insurer or reinsurer with the supervisor of its domiciliary jurisdiction.

[illegible]

- (2) A "Reciprocal Jurisdiction" is a jurisdiction, as designated by the commissioner pursuant to 120-2-78-.09(4), that meets one of the following:
- (a) A non-U.S. jurisdiction that is subject to an in-force covered agreement with the United States, each within its legal authority, or, in the case of a covered agreement between the United States and the European Union, is a member state of the European Union. For purposes of this subsection, a "covered agreement" is an agreement entered into pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, [31 U.S.C. §§ 313 and 314](#), that is currently in effect or in a period of provisional application and addresses the elimination, under specified conditions, of collateral requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in this state or for allowing the ceding insurer to recognize credit for reinsurance;
 - (b) A U.S. jurisdiction that meets the requirements for accreditation under the NAIC financial standards and accreditation program; or
 - (c) A qualified jurisdiction, as determined by the commissioner pursuant to O.C.G.A. § [33-7-14\(a\)\(5\)\(C\)](#) and 120-2-78-.08(3), which is not otherwise described in Paragraph (a) or (b) above and which the commissioner determines meets all of the following additional requirements:
 - (1) Provides that an insurer which has its head office or is domiciled in such qualified jurisdiction shall receive credit for reinsurance ceded to a U.S.-domiciled assuming insurer in the same manner as credit for reinsurance is received for reinsurance assumed by insurers domiciled in such qualified jurisdiction;
 - (2) Does not require a U.S.-domiciled assuming insurer to establish or maintain a local presence as a condition for entering into a reinsurance agreement with any ceding insurer subject to regulation by the non-U.S. jurisdiction or as a condition to allow the ceding insurer to recognize credit for such reinsurance;
 - (3) Recognizes the U.S. state regulatory approach to group supervision and group capital, by providing written confirmation by a competent regulatory authority, in such qualified jurisdiction, that insurers and insurance groups that are domiciled or maintain their headquarters in this state or another jurisdiction accredited by the NAIC shall be subject only to worldwide prudential insurance group supervision including worldwide group governance, solvency and capital, and reporting, as applicable, by the commissioner or the commissioner of the domiciliary state and will not be subject to group supervisions at the level of the worldwide parent undertaking of the insurance or reinsurance group by the qualified jurisdiction; and

- (4) Provides written confirmation by a competent regulatory authority in such qualified jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated entities, if applicable, shall be provided to the commissioner in accordance with a memorandum of understanding or similar document between the commissioner and such qualified jurisdiction, including but not limited to the International Association of Insurance Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda of understanding coordinated by the NAIC.
- (3) Credit shall be allowed when the reinsurance is ceded from an insurer domiciled in this state to an assuming insurer meeting each of the conditions set forth below:
 - (a) The assuming insurer must be licensed to transact reinsurance by, and have its head office or be domiciled in, a Reciprocal Jurisdiction.
 - (b) The assuming insurer must have and maintain on an ongoing basis minimum capital and surplus, or its equivalent, calculated on at least an annual basis as of the preceding December 31 or at the annual date otherwise statutorily reported to the Reciprocal Jurisdiction, and confirmed as set forth in Subsection 3(g) according to the methodology of its domiciliary jurisdiction in the following amounts:
 - (1) No less than \$250,000,000;
 - (2) If the assuming insurer is an association, including incorporated and individual unincorporated underwriters:
 - (i) Minimum capital and surplus equivalents (net of liabilities) or own funds of the equivalent of at least \$250,000,000;
 - (ii) A central fund containing a balance of the equivalent of at least \$250,000,000.
 - (c) The assuming insurer must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, as follows:
 - (1) If the assuming insurer has its head office or is domiciled in a Reciprocal Jurisdiction as defined in 120-2-78-.09(2)(a), the ratio specified in the applicable covered agreement:
 - (2) If the assuming insurer is domiciled in a Reciprocal Jurisdiction as defined in 120-2-78-.09(2)(b), a risk-based capital (RBC) ratio of three hundred percent (300%) of the authorized control level, calculated in accordance with the formula developed by the NAIC: or

- (3) If the assuming insurer is domiciled in a Reciprocal Jurisdiction as defined in 120-2-78-.09(3), after consultation with the Reciprocal Jurisdiction and considering any recommendations published through the NAIC Committee Process, such solvency or capital ratio as the commissioner determines to be an effective measure of solvency.
- (d) The assuming insurer must agree to and provide adequate assurance, in the form of a properly executed Form RJ-1 (attached as an exhibit to this regulation), of its agreement to the following:
 - (1) The assuming insurer must agree to provide prompt written notice and explanation to the commissioner if it falls below the minimum requirements set forth in Paragraphs (b) or (c) of this subsection. or if any regulatory action is taken against it for serious noncompliance with applicable law.
 - (2) The assuming insurer must consent in writing to the jurisdiction of the courts of this state and to the appointment of the commissioner as agent for service of process.
 - (i) The commissioner may also require that such consent be provided and included in each reinsurance agreement under the commissioner's jurisdiction.
 - (ii) Nothing in this provision shall limit or in any way alter the capacity of parties to a reinsurance agreement to agree to alternative dispute resolution mechanisms, except to the extent such agreements are unenforceable under applicable insolvency or delinquency laws.
 - (3) The assuming insurer must consent in writing to pay all final judgments, wherever enforcement is sought, obtained by a ceding insurer, that have been declared enforceable in the territory where the judgment was obtained.
 - (4) Each reinsurance agreement must include a provision requiring the assuming insurer to provide security in an amount equal to one hundred percent (100%) of the assuming insurer's liabilities attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists enforcement of a final judgment that is enforceable under the law of the jurisdiction in which it was obtained or a properly enforceable arbitration award, whether obtained by the ceding insurer or by its legal successor on behalf of its estate, if applicable.
 - (5) The assuming insurer must confirm that it is not presently participating in any solvent scheme of arrangement. which involves this state's ceding

insurers, and agrees to notify the ceding insurer and the commissioner and to provide one hundred percent (100%) security to the ceding insurer consistent with the terms of the scheme, should the assuming insurer enter into such a solvent scheme of arrangement. Such security shall be in a form consistent with the provisions of O.C.G.A. § [33-7-14\(a\)\(5\)](#) and 120-2-78.12, 120-2-78-.13, or [120-2-78-.14](#). For purposes of this Regulation, the term "solvent scheme of arrangement" means a foreign or alien statutory or regulatory compromise procedure subject to requisite majority creditor approval and judicial sanction in the assuming insurer's home jurisdiction either to finally commute liabilities of duly noticed classed members or creditors of a solvent debtor, or to reorganize or restructure the debts and obligations of a solvent debtor on a final basis, and which may be subject to judicial recognition and enforcement of the arrangement by a governing authority outside the ceding insurer's home jurisdiction.

- (6) The assuming insurer must agree in writing to meet the applicable information filing requirements as set forth in Paragraph (e) of this subsection.
- (e) The assuming insurer or its legal successor must provide, if requested by the commissioner, on behalf of itself and any legal predecessors, the following documentation to the commissioner:
- (1) For the two years preceding entry into the reinsurance agreement and on an annual basis thereafter, the assuming insurer's annual audited financial statements, in accordance with the applicable law of the jurisdiction of its head office or domiciliary jurisdiction, as applicable, including the external audit report;
 - (2) For the two years preceding entry into the reinsurance agreement, the solvency and financial condition report or actuarial opinion, if filed with the assuming insurer's supervisor;
 - (3) Prior to entry into the reinsurance agreement and not more than semi-annually thereafter, an updated list of all disputed and overdue reinsurance claims outstanding for 90 days or more, regarding reinsurance assumed from ceding insurers domiciled in the United States; and
 - (4) Prior to entry into the reinsurance agreement and not more than semi-annually thereafter, information regarding the assuming insurer's assumed reinsurance by ceding insurer, ceded reinsurance by the assuming insurer, and reinsurance recoverable on paid and unpaid losses by the assuming insurer to allow for the evaluation of the criteria set forth in Paragraph (f) of this subsection.

- (f) The assuming insurer must maintain a practice of prompt payment of claims under reinsurance agreements. The lack of prompt payment will be evidenced if any of the following criteria is met:
 - (1) More than fifteen percent (15%) of the reinsurance recoverables from the assuming insurer are overdue and in dispute as reported to the commissioner;
 - (2) More than fifteen percent (15%) of the assuming insurer's ceding insurers or reinsurers have overdue reinsurance recoverable on paid losses of 90 days or more which are not in dispute and which exceed for each ceding insurer \$100,000, or as otherwise specified in a covered agreement; or
 - (3) The aggregate amount of reinsurance recoverable on paid losses which are not in dispute, but are overdue by 90 days or more, exceeds \$50,000,000, or as otherwise specified in a covered agreement.
 - (g) The assuming insurer's supervisory authority must confirm to the commissioner on an annual basis that the assuming insurer complies with the requirements set forth in Paragraphs (b) and (c) of this subsection.
 - (h) Nothing in this provision precludes an assuming insurer from providing the commissioner with information on a voluntary basis.
- (4) The commissioner shall timely create and publish a list of Reciprocal Jurisdictions.
- (a) A list of Reciprocal Jurisdictions is published through the NAIC Committee Process. The commissioner's list shall include any Reciprocal Jurisdiction as defined under 120-2-78-.09(2)(a) and (b), and shall consider any other Reciprocal Jurisdiction included on the NAIC list. The commissioner may approve a jurisdiction that does not appear on the NAIC list of Reciprocal Jurisdictions as provided by applicable law, regulation, or in accordance with criteria published through the NAIC Committee Process.
 - (b) The commissioner may remove a jurisdiction from the list of Reciprocal Jurisdictions upon a determination that the jurisdiction no longer meets one or more of the requirements of a Reciprocal Jurisdiction, as provided by applicable law, regulation, or in accordance with a process published through the NAIC Committee Process, except that the commissioner shall not remove from the list a Reciprocal Jurisdiction as defined under 120-2-78-.09(2)(a) and (b). Upon removal of a Reciprocal Jurisdiction from the list credit for reinsurance ceded to an assuming insurer domiciled in that jurisdiction shall be allowed, if otherwise allowed pursuant to O.C.G.A. § [33-7-14](#) or 120-2-78.

- (5) The commissioner shall timely create and publish a list of assuming insurers that have satisfied the conditions set forth in this section and to which cessions shall be granted credit in accordance with this section.
- (a) If an NAIC accredited jurisdiction has determined that the conditions set forth in Subsection C have been met, the commissioner has the discretion to defer to that jurisdiction's determination, and add such assuming insurer to the list of assuming insurers to which cessions shall be granted credit in accordance with this subsection. The commissioner may accept financial documentation filed with another NAIC accredited jurisdiction or with the NAIC in satisfaction of the requirements of Subsection (3).
 - (b) When requesting that the commissioner defer to another NAIC accredited jurisdiction's determination, an assuming insurer must submit a properly executed Form RJ-1 and additional information as the commissioner may require. A state that has received such a request will notify other states through the NAIC Committee Process and provide relevant information with respect to the determination of eligibility.
- (6) If the commissioner determines that an assuming insurer no longer meets one or more of the requirements under this section, the commissioner may revoke or suspend the eligibility of the assuming insurer for recognition under this section.
- (a) While an assuming insurer's eligibility is suspended, no reinsurance agreement issued, amended or renewed after the effective date of the suspension qualifies for credit except to the extent that the assuming insurer's obligations under the contract are secured in accordance with 120-2-789-.11.
 - (b) If an assuming insurer's eligibility is revoked, no credit for reinsurance may be granted after the effective date of the revocation with respect to any reinsurance agreements entered into by the assuming insurer, including reinsurance agreements entered into prior to the date of revocation, except to the extent that the assuming insurer's obligations under the contract are secured in a form acceptable to the commissioner and consistent with the provisions of [120-2-78-.11](#).
- (7) Before denying statement credit or imposing a requirement to post security with respect to 120-2-78-.09(5) of this regulation or adopting any similar requirement that will have substantially the same regulatory impact as security, the commissioner shall:
- (a) Communicate with the ceding insurer, the assuming insurer, and the assuming insurer's supervisory authority that the assuming insurer no longer satisfies one of the conditions listed in 120-2-78-.09(3) of this section;
 - (b) Provide the assuming insurer with 30 days from the initial communication to submit a plan to remedy the defect, and 90 days from the initial communication to

remedy the defect, except in exceptional circumstances in which a shorter period is necessary for policyholder and other consumer protection;

- (c) After the expiration of 90 days or less, as set out in Paragraph (b) of this Subsection, if the commissioner determines that no or insufficient action was taken by the assuming insurer, the commissioner may impose any of the requirements as set out in this Subsection; and
 - (d) Provide a written explanation to the assuming insurer of any of the requirements set out in this Subsection.
- (8) If subject to a legal process of rehabilitation, liquidation or conservation, as applicable, the ceding insurer, or its representative, may seek and, if determined appropriate by the court in which the proceeding are pending, may obtain an order requiring that the assuming insurer post security for all outstanding liabilities.

Rule 120-2-78-.10. Credit for Reinsurance Required by Law.

Pursuant to O.C.G.A. § [33-7-14\(a\)\(6\)](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of O.C.G.A. § [33-7-14\(a\)\(1\)](#) - (5) but only as to the insurance of risks located in jurisdictions where the reinsurance is required by the applicable law or regulation of that jurisdiction. As used in this section, "jurisdiction" means state, district or territory of the United States and any lawful national government.

Rule 120-2-78-.11. Asset or Reduction from Liability for Reinsurance Ceded to an Unauthorized Assuming Insurer not Meeting the Requirements of Sections 4 Through 9.

- (1) Pursuant to O.C.G.A. § [33-7-14\(b\)](#), the commissioner shall allow a reduction from liability for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of O.C.G.A. § [33-7-14\(a\)](#) in an amount not exceeding the liabilities carried by the ceding insurer. The reduction shall be in the amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the exclusive benefit of the ceding insurer, under a reinsurance contract with such assuming insurer as security for the payment of obligations under the reinsurance contract. The security shall be held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer or, in the case of a trust, held in a qualified United States financial institution as defined in O.C.G.A. § [33-7-14\(c\)\(2\)](#). This security may be in the form of any of the following:
 - (a) Cash;
 - (b) Securities listed by the Securities Valuation Office of the NAIC, including those deemed exempt from filing as defined by the Purposes and Procedures Manual of the Securities Valuation Office, and qualifying as admitted assets;
 - (c) Clean, irrevocable, unconditional and "evergreen" letters of credit issued or confirmed by a qualified United States institution, as defined in O.C.G.A. § [33-7-14\(c\)](#), effective no later than December 31 of the year for which filing is being made, and in the possession of, or in trust for, the ceding insurer on or before the filing date of its annual statement. Letters of credit meeting applicable standards of issuer acceptability as of the dates of their issuance (or confirmation) shall, notwithstanding the issuing (or confirming) institution's subsequent failure to meet applicable standards of issuer acceptability, continue to be acceptable as security until their expiration, extension, renewal, modification or amendment, whichever first occurs; or
 - (d) Any other form of security acceptable to the commissioner.
- (2) An admitted asset or a reduction from liability for reinsurance ceded to an unauthorized assuming insurer pursuant to this section shall be allowed only when the requirements of [120-2-78-.15](#) and the applicable portions of [120-2-78-.12](#), [120-2-78-.13](#) or [120-2-78-.14](#) of this regulation have been satisfied.

History. Original Rule entitled "Trust Agreements Qualified under Section 10" adopted. F. May 23, 2013; eff. June 12, 2013.

Repealed: New Rule entitled "Asset or Reduction from Liability for Reinsurance Ceded to an Unauthorized Assuming Insurer not Meeting the Requirements of Sections 4 Through 9" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-78-.12. Trust Agreements Qualified under Section 10.

(1) As used in this section:

- (a) "Beneficiary" means the entity for whose sole benefit the trust has been established and any successor of the beneficiary by operation of law. If a court of law appoints a successor in interest to the named beneficiary, then the named beneficiary includes and is limited to the court appointed domiciliary receiver (including conservator, rehabilitator or liquidator).
- (b) "Grantor" means the entity that has established a trust for the sole benefit of the beneficiary. When established in conjunction with a reinsurance agreement, the grantor is the unlicensed, unaccredited assuming insurer.
- (c) "Obligations," as used Subsection (2)(k) of this section means:
 - (1) Reinsured losses and allocated loss expenses paid by the ceding company, but not recovered from the assuming insurer;
 - (2) Reserves for reinsured losses reported and outstanding;
 - (3) Reserves for reinsured losses incurred but not reported; and
 - (4) Reserves for allocated reinsured loss expenses and unearned premiums.

(2) Required conditions.

- (a) The trust agreement shall be entered into between the beneficiary, the grantor and a trustee, which shall be a qualified United States financial institution as defined in O.C.G.A. § [33-7-14\(c\)\(2\)](#).
- (b) The trust agreement shall create a trust account into which assets shall be deposited.
- (c) All assets in the trust account shall be held by the trustee at the trustee's office in the United States.
- (d) The trust agreement shall provide that:
 - (1) The beneficiary shall have the right to withdraw assets from the trust account at any time, without notice to the grantor, subject only to written notice from the beneficiary to the trustee;
 - (2) No other statement or document is required to be presented to withdraw assets, except that the beneficiary may be required to acknowledge receipt of withdrawn assets;
 - (3) It is not subject to any conditions or qualifications outside of the trust agreement; and

- (4) It shall not contain references to any other agreements or documents except as provided for in Paragraphs (k) and (l) of this subsection.
- (e) The trust agreement shall be established for the sole benefit of the beneficiary.
- (f) The trust agreement shall require the trustee to:
 - (1) Receive assets and hold all assets in a safe place;
 - (2) Determine that all assets are in such form that the beneficiary, or the trustee upon direction by the beneficiary, may whenever necessary negotiate any such assets, without consent or signature from the grantor or any other person or entity;
 - (3) Furnish to the grantor and the beneficiary a statement of all assets in the trust account upon its inception and at intervals no less frequent than the end of each calendar quarter;
 - (4) Notify the grantor and the beneficiary within ten (10) days, of any deposits to or withdrawals from the trust account;
 - (5) Upon written demand of the beneficiary, immediately take any and all steps necessary to transfer absolutely and unequivocally all right, title and interest in the assets held in the trust account to the beneficiary and deliver physical custody of the assets to the beneficiary; and
 - (6) Allow no substitutions or withdrawals of assets from the trust account, except on written instructions from the beneficiary, except that the trustee may, without the consent of but with notice to the beneficiary, upon call or maturity of any trust asset, withdraw such asset upon condition that the proceeds are paid into the trust account.
- (g) The trust agreement shall provide that at least thirty (30) days, but not more than forty-five (45) days, prior to termination of the trust account, written notification of termination shall be delivered by the trustee to the beneficiary.
- (h) The trust agreement shall be made subject to and governed by the laws of the state in which the trust is domiciled.
- (i) The trust agreement shall prohibit invasion of the trust corpus for the purpose of paying commission to, or reimbursing the expenses of, the trustee. In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement (as duly approved by the commissioner), to immediately draw down the full amount of

the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.

- (j) The trust agreement shall provide that the trustee shall be liable for its negligence, willful misconduct or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where such draw would be required shall be deemed to be negligence and/or willful misconduct.
- (k) Notwithstanding other provisions of this regulation, when a trust agreement is established in conjunction with a reinsurance agreement covering risks other than life, annuities and accident and health, where it is customary practice to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:
 - (1) To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement regarding any losses and allocated loss expenses paid by the ceding insurer, but not recovered from the assuming insurer, or for unearned premiums due to the ceding insurer if not otherwise paid by the assuming insurer;
 - (2) To make payment to the assuming insurer of any amounts held in the trust account that exceed 102 percent of the actual amount required to fund the assuming insurer's obligations under the specific reinsurance agreement; or
 - (3) Where the ceding insurer has received notification of termination of the trust account and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the termination date, to withdraw amounts equal to the obligations and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified U.S. financial institution as defined in O.C.G.A. § [33-7-14\(c\)\(2\)](#) apart from its general assets, in trust for such uses and purposes specified in Subparagraphs (1) and (2) above as may remain executory after such withdrawal and for any period after the termination date.
- (l) Notwithstanding other provisions of this regulation, when a trust agreement is established to meet the requirements of [120-2-78-.10](#) in conjunction with a reinsurance agreement covering life, annuities or accident and health risks, where it is customary to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:

- (1) To pay or reimburse the ceding insurer for:
 - (i) The assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of the policies; and
 - (ii) The assuming insurer's share under the specific reinsurance agreement of surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurer, under the terms and provisions of the policies reinsured under the reinsurance agreement;
 - (2) To pay to the assuming insurer amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer; or
 - (3) Where the ceding insurer has received notification of termination of the trust and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the termination date, to withdraw amounts equal to the assuming insurer's share of liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer, and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified U.S. financial institution apart from its general assets, in trust for the uses and purposes specified in Subparagraphs (1) and (2) of this paragraph as may remain executory after withdrawal and for any period after the termination date.
- (m) Either the reinsurance agreement or the trust agreement must stipulate that assets deposited in the trust account shall be valued according to their current fair market value and shall consist only of cash in United States dollars, certificates of deposit issued by a United States bank and payable in United States dollars, and investments permitted by the Insurance Code or any combination of the above, provided investments in or issued by an entity controlling, controlled by or under common control with either the grantor or the beneficiary of the trust shall not exceed five percent (5%) of total investments. The agreement may further specify the types of investments to be deposited. If the reinsurance agreement covers life, annuities or accident and health risks, then the provisions required by this paragraph must be included in the reinsurance agreement.
- (3) Permitted conditions.

- (a) The trust agreement may provide that the trustee may resign upon delivery of a written notice of resignation, effective not less than ninety (90) days after the beneficiary and grantor receive the notice and that the trustee may be removed by the grantor by delivery to the trustee and the beneficiary of a written notice of removal, effective not less than ninety (90) days after the trustee and the beneficiary receive the notice, provided that no such resignation or removal shall be effective until a successor trustee has been duly appointed and approved by the beneficiary and the grantor and all assets in the trust have been duly transferred to the new trustee.
 - (b) The grantor may have the full and unqualified right to vote any shares of stock in the trust account and to receive from time to time payments of any dividends or interest upon any shares of stock or obligations included in the trust account. Any interest or dividends shall be either forwarded promptly upon receipt to the grantor or deposited in a separate account established in the grantor's name.
 - (c) The trustee may be given authority to invest, and accept substitutions of, any funds in the account, provided that no investment or substitution shall be made without prior approval of the beneficiary, unless the trust agreement specifies categories of investments acceptable to the beneficiary and authorizes the trustee to invest funds and to accept substitutions that the trustee determines are at least equal in current fair market value to the assets withdrawn and that are consistent with the restrictions in Subsection (4)(a)(2) of this section.
 - (d) The trust agreement may provide that the beneficiary may at any time designate a party to which all or part of the trust assets are to be transferred. Transfer may be conditioned upon the trustee receiving, prior to or simultaneously, other specified assets.
 - (e) The trust agreement may provide that, upon termination of the trust account, all assets not previously withdrawn by the beneficiary shall, with written approval by the beneficiary, be delivered over to the grantor.
- (4) Additional conditions applicable to reinsurance agreements:
- (a) A reinsurance agreement may contain provisions that:
 - (1) Require the assuming insurer to enter into a trust agreement and to establish a trust account for the benefit of the ceding insurer, and specifying what the agreement is to cover;
 - (2) Require the assuming insurer, prior to depositing assets with the trustee, to execute assignments or endorsements in blank, or to transfer legal title to the trustee of all shares, obligations or any other assets requiring assignments, in order that the ceding insurer, or the trustee upon the direction of the ceding insurer, may whenever necessary negotiate these

assets without consent or signature from the assuming insurer or any other entity;

- (3) Require that all settlements of account between the ceding insurer and the assuming insurer be made in cash or its equivalent; and
 - (4) Stipulate that the assuming insurer and the ceding insurer agree that the assets in the trust account, established pursuant to the provisions of the reinsurance agreement, may be withdrawn by the ceding insurer at any time, notwithstanding any other provisions in the reinsurance agreement, and shall be utilized and applied by the ceding insurer or its successors in interest by operation of law, including without limitation any liquidator, rehabilitator, receiver or conservator of such company, without diminution because of insolvency on the part of the ceding insurer or the assuming insurer, only for the following purposes:
 - (i) To pay or reimburse the ceding insurer for:
 - (I) The assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement because of cancellations of such policies;
 - (II) The assuming insurer's share of surrenders and benefits or losses paid by the ceding insurer pursuant to the provisions of the policies reinsured under the reinsurance agreement; and
 - (III) Any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer;
 - (ii) To make payment to the assuming insurer of amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.
- (b) The reinsurance agreement also may contain provisions that:
- (1) Give the assuming insurer the right to seek approval from the ceding insurer, which shall not be unreasonably or arbitrarily withheld, to withdraw from the trust account all or any part of the trust assets and transfer those assets to the assuming insurer, provided:

- (i) The assuming insurer shall, at the time of withdrawal, replace the withdrawn assets with other qualified assets having a current fair market value equal to the market value of the assets withdrawn so as to maintain at all times the deposit in the required amount; or
 - (ii) After withdrawal and transfer, the current fair market value of the trust account is no less than 102 percent of the required amount.
- (2) Provide for the return of any amount withdrawn in excess of the actual amounts required for Paragraph (a)(4) of this subsection, and for interest payments at a rate not in excess of the prime rate of interest on such amounts;
- (3) Permit the award by any arbitration panel or court of competent jurisdiction of:
 - (i) Interest at a rate different from that provided in Subparagraph (2) of this paragraph;
 - (ii) Court or arbitration costs;
 - (iii) Attorney's fees; and
 - (iv) Any other reasonable expenses.
- (5) Financial reporting. A trust agreement may be used to reduce any liability for reinsurance ceded to an unauthorized assuming insurer in financial statements required to be filed with this department in compliance with the provisions of this regulation when established on or before the date of filing of the financial statement of the ceding insurer. Further, the reduction for the existence of an acceptable trust account may be up to the current fair market value of acceptable assets available to be withdrawn from the trust account at that time, but such reduction shall be no greater than the specific obligations under the reinsurance agreement that the trust account was established to secure.
- (6) Existing agreements. Notwithstanding the effective date of this regulation, any trust agreement or underlying reinsurance agreement in existence prior to [insert date] will continue to be acceptable until [insert date], at which time the agreements will have to fully comply with this regulation for the trust agreement to be acceptable.
- (7) The failure of any trust agreement to specifically identify the beneficiary as defined in Subsection (1) of this section shall not be construed to affect any actions or rights that the commissioner may take or possess pursuant to the provisions of the laws of this state.

History. Original Rule entitled "Letters of Credit Qualified under Section 10" adopted. F. May 23, 2013; eff. June 12, 2013.

Repealed: New Rule entitled "Trust Agreements Qualified under Section 10" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-78-.13. Letters of Credit Qualified under Section 11.

- (1) The letter of credit must be clean, irrevocable, unconditional and issued or confirmed by a qualified United States financial institution as defined in O.C.G.A. § [33-7-14\(c\)\(1\)](#). The letter of credit shall contain an issue date and expiration date and shall stipulate that the beneficiary need only draw a sight draft under the letter of credit and present it to obtain funds and that no other document need be presented. The letter of credit also shall indicate that it is not subject to any condition or qualifications outside of the letter of credit. In addition, the letter of credit itself shall not contain reference to any other agreements, documents or entities, except as provided in Subsection (8)(a) of this section. As used in this section, "beneficiary" means the domestic insurer for whose benefit the letter of credit has been established and any successor of the beneficiary by operation of law. If a court of law appoints a successor in interest to the named beneficiary, then the named beneficiary includes and is limited to the court appointed domiciliary receiver (including conservator, rehabilitator or liquidator).
- (2) The heading of the letter of credit may include a boxed section containing the name of the applicant and other appropriate notations to provide a reference for the letter of credit. The boxed section shall be clearly marked to indicate that such information is for internal identification purposes only.
- (3) The letter of credit shall contain a statement to the effect that the obligation of the qualified United States financial institution under the letter of credit is in no way contingent upon reimbursement with respect thereto.
- (4) The term of the letter of credit shall be for at least one year and shall contain an "evergreen clause" that prevents the expiration of the letter of credit without due notice from the issuer. The "evergreen clause" shall provide for a period of no less than thirty (30) days notice prior to expiration date or nonrenewal.
- (5) The letter of credit shall state whether it is subject to and governed by the laws of this state or the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce Publication 600 (UCP 600) or International Standby Practices of the International Chamber of Commerce Publication 590 (ISP98), or any successor publication, and all drafts drawn thereunder shall be presentable at an office in the United States of a qualified United States financial institution.
- (6) If the letter of credit is made subject to the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce (Publication 500), or any successor publication, then the letter of credit shall specifically address and provide for an extension of time to draw against the letter of credit in the event that one or more

of the occurrences specified in Article 17 of Publication 500 or any other successor publication, occur.

- (7) If the letter of credit is issued by a financial institution authorized to issue letters of credit, other than a qualified United States financial institution as described in Subsection (1) of this section, then the following additional requirements shall be met:
 - (a) The issuing financial institution shall formally designate the confirming qualified United States financial institution as its agent for the receipt and payment of the drafts; and
 - (b) The "evergreen clause" shall provide for thirty (30) days notice prior to expiration date for nonrenewal.
- (8) Reinsurance agreement provisions.
 - (a) The reinsurance agreement in conjunction with which the letter of credit is obtained may contain provisions that:
 - (1) Require the assuming insurer to provide letters of credit to the ceding insurer and specify what they are to cover;
 - (2) Stipulate that the assuming insurer and ceding insurer agree that the letter of credit provided by the assuming insurer pursuant to the provisions of the reinsurance agreement may be drawn upon at any time, notwithstanding any other provisions in the agreement, and shall be utilized by the ceding insurer or its successors in interest only for one or more of the following reasons:
 - (i) To pay or reimburse the ceding insurer for:
 - (I) The assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurers, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of such policies;
 - (II) The assuming insurer's share, under the specific reinsurance agreement, of surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurers, under the terms and provisions of the policies reinsured under the reinsurance agreement; and
 - (III) Any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer;

- (ii) Where the letter of credit will expire without renewal or be reduced or replaced by a letter of credit for a reduced amount and where the assuming insurer's entire obligations under the reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the termination date, to withdraw amounts equal to the assuming insurer's share of the liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer and exceed the amount of any reduced or replacement letter of credit, and deposit those amounts in a separate account in the name of the ceding insurer in a qualified U.S. financial institution apart from its general assets, in trust for such uses and purposes specified in Subsection (8)(a)(2)(i) of this section as may remain after withdrawal and for any period after the termination date.
- (3) All of the provisions of Paragraph (a) of this subsection shall be applied without diminution because of insolvency on the part of the ceding insurer or assuming insurer.
- (b) Nothing contained Paragraph (a) of this subsection shall preclude the ceding insurer and assuming insurer from providing for:
 - (1) An interest payment, at a rate not in excess of the prime rate of interest, on the amounts held pursuant to Subparagraph (a)(2) of this subsection; or
 - (2) The return of any amounts drawn down on the letters of credit in excess of the actual amounts required for the above or any amounts that are subsequently determined not to be due.

Rule 120-2-78-.15. Reinsurance Contract.

Credit will not be granted, nor an asset or reduction from liability allowed, to a ceding insurer for reinsurance effected with assuming insurers meeting the requirements of Sections 4, 5, 6, 7, 8 or 9 of this regulation or otherwise in compliance with O.C.G.A. § [33-7-14\(a\)](#) after the adoption of this regulation unless the reinsurance agreement:

- (1) Includes a proper insolvency clause, which stipulates that reinsurance is payable directly to the liquidator or successor without diminution regardless of the status of the ceding company, pursuant to Section [insert appropriate number] of the Insurance Code;
- (2) Includes a provision pursuant to O.C.G.A. § [33-7-14\(a\)](#) whereby the assuming insurer, if an unauthorized assuming insurer, has submitted to the jurisdiction of an alternative dispute resolution panel or court of competent jurisdiction within the United States, has agreed to comply with all requirements necessary to give the court or panel jurisdiction, has designated an agent upon whom service of process may be effected, and has agreed to abide by the final decision of the court or panel; and
- (3) Includes a proper reinsurance intermediary clause, if applicable, which stipulates that the credit risk for the intermediary is carried by the assuming insurer.

Subject 120-2-79. HEALTH PLAN PURCHASING COOPERATIVES.

Rule 120-2-79-.01. Statutory Authority.

This Regulation applies to any health plan purchasing cooperative as defined in O.C.G.A. § 33-30A-1.

Cite as Ga. Comp. R. & Regs. R. 120-2-79-.01

Authority: O.C.G.A. Secs. [33-2-9](#), [33-30A-1](#) *et seq.*

History. Original Rule entitled "Statutory Authority" adopted. F. Feb. 23, 2000; eff. Mar. 14, 2000.

Rule 120-2-79-.02. Scope and Purpose.

- (1) This Regulation applies to any health plan purchasing cooperative as defined in O.C.G.A. § [33-30A-1](#).
- (2) The purposes of this Regulation include:
 - (a) Providing disclosure of contracts between insurance carriers and health plan purchasing cooperatives, both to potential insureds and to the Commissioner;
 - (b) Promoting the overall responsibility of health plan purchasing cooperatives;
 - (c) Subjecting persons administering health plan purchasing cooperatives to the jurisdiction of the Commissioner of Insurance; and
 - (d) Regulating health plan purchasing cooperatives in conformity with the general purposes of the Georgia Insurance Code.

Rule 120-2-79-.03. Definitions.

As used in this Regulation Chapter, the term:

- (1) "Employer-sponsored Health Benefit Arrangement" means any program of delivery, funding, or sponsorship of major medical, hospital, or medical and hospital expense coverage, or any type of coverage considered a health benefit plan as defined by O.C.G.A. § 33-30A-1(3) offered by an employer for the benefit of its eligible employees and dependents
- (2) "Market Type" means any one of the following types of entities:
 - (a) small employers as defined in O.C.G.A. § [33-30A-1\(7\)](#);

- (b) large employers, which shall mean all employers which do not meet the definition of small employer in O.C.G.A. § [33-30A-1\(7\)](#) because such employers employed more than 50 eligible employees during 50 percent or more of its working days during the previous calendar quarter; or
 - (c) individuals offered membership in the health plan purchasing cooperative pursuant to O.C.G.A. § [33-30A-4\(a\)\(4\)](#).
- (3) "Member" means any employer (or individual pursuant to O.C.G.A. § [33-30A-4\(a\)\(4\)](#)) which has entered into a contract with a health plan purchasing cooperative, has met the membership criteria of the health plan purchasing cooperative, including payment of any applicable membership fees, and maintains at least one health benefit plan offered through the health plan purchasing cooperative as its employer-sponsored health benefit arrangement for its employees.
- (4) "Participating Carrier" means any insurer or carrier as defined in O.C.G.A. § [33-30A-1\(2\)](#), with a certificate of authority to issue insurance in the State of Georgia, which has entered into a contract or agreement with a health plan purchasing cooperative to offer one or more health benefit plans to members of such purchasing cooperative.

History. Original Rule entitled "Definitions" adopted. F. Feb. 23, 2000; eff. Mar. 14, 2000.

Rule 120-2-79-.04. Application and Issuance of Certificate of Authority.

- (1) It is unlawful for any person or entity to act as or hold itself out to be a health plan purchasing cooperative in this State without a valid certificate of authority issued by the Commissioner of Insurance. To qualify for and hold a certificate of authority to act as a health plan purchasing cooperative in this State, a health plan purchasing cooperative must otherwise be in compliance with O.C.G.A. § [33-30A-1](#) *et seq.*, this Regulation Chapter, and the bylaws of the health plan purchasing cooperative.
- (2) The health plan purchasing cooperative shall file with the Commissioner an application for a certificate of authority upon a form to be furnished by the Commissioner. The application shall include or have attached the following information and documents:
- (a) All basic organizational documents of the health plan purchasing cooperative including certificate of existence, the articles of incorporation, and other applicable documents, and all amendments to those documents;
 - (b) The bylaws, rules and regulations, statements of policy or similar documents regulating the conduct or the internal affairs of the health plan purchasing cooperative;

- (c) The names, addresses, official positions, and professional qualifications of the individuals who are responsible for the conduct of the affairs of the health plan purchasing cooperative, including all members of the board of directors, board of trustees, executive committee, or other governing board or committee, the principal officers of the corporation, the membership of any advisory group or groups, and any other person who exercises control or influence over the affairs of the health plan purchasing cooperative;
 - (d) Audited annual statements or reports for each of the three most recent years, compiled by a certified public accountant, or such other information as the Commissioner may require in order to review the current financial condition of the applicant which ultimately reflects a minimum net worth amount of \$200,000;
 - (e) If the applicant is not currently acting as a health plan purchasing cooperative, a statement of the amounts and sources of the funds available for organizational expenses and the proposed arrangements for reimbursement and compensation of incorporators or other principals;
 - (f) Fees required of a health plan purchasing cooperative as provided in the application materials;
 - (g) A business plan detailing the operation of the health plan purchasing cooperative in Georgia that includes the applicant's method(s) of solicitation, names of insurers and insurance products offered through the cooperative and the geographic area(s) the health plan purchasing cooperative is intending to serve;
 - (h) A copy of the guarantee of uninterrupted coverage as stipulated by O.C.G.A. § [33-30A-8\(c\)](#); and
 - (i) Copies of all agreements between the health plan purchasing cooperative and the carrier(s) as stipulated by O.C.G.A. § [33-30A-4\(f\)](#) as well as any administrator agreement(s) and/or agent agreement(s) used in the operations of the applicant.
- (3) The applicant shall make available for inspection by the Commissioner or his or her authorized representative copies of all contracts with participating carriers or members of the health plan purchasing cooperative.
- (4) The Commissioner may not issue a certificate of authority if he or she determines that the health plan purchasing cooperative, or any principal thereof is not competent, trustworthy, financially responsible, has worked as a responsible officer of an insurer whose certificate of authority was refused, revoked, or suspended, has had an agent's license refused, revoked, or suspended by any state, or, pursuant to O.C.G.A. § [33-30A-7\(d\)](#), has or had a financial interest in the operations of the health plan purchasing cooperative. As partial verification, the applicant is required to submit an investigative background report, supplied by any outside agency, directly to the department to support individual biographical affidavit(s) submitted by all directors, officers and/or principals

representing the applicant. The report must include 10 years of data with specific review of all local, state and federal courts in areas where the individual has resided. Furthermore, the report should contain a credit report on the individual.

- (5) A certificate of authority issued under this section shall remain valid, unless suspended or revoked by the Commissioner, so long as the health plan purchasing cooperative continues in business in this state in compliance with O.C.G.A. Title 33, Chapter 30A and this Regulation Chapter, and annually renews its certificate of authority in a timely manner.
- (6) A health plan purchasing cooperative shall, as part of its application for licensure, disclose its written conditions of membership referred to in O.C.G.A. § [33-30A-4\(b\)\(1\)](#) to the Commissioner for approval. Any material change to such conditions shall also be filed with the Commissioner for approval at least sixty (60) days prior to use.

Rule 120-2-79-.05. Health Plan Purchasing Cooperatives Surety Bond and Insurance.

- (1) At application and renewal every health plan purchasing cooperative shall file with the Commissioner a surety bond executed by a corporate surety insurer authorized to transact insurance in this state in favor of the Commissioner of Insurance of the State of Georgia, continuous in form and in an amount equal to at least ten percent of the amount of the funds handled or managed annually by the health plan purchasing cooperative, or if no funds were handled during the preceding year, ten percent of the amount of funds reasonably estimated to be handled during the current calendar year. In no event will the surety bond be less than \$100,000.
- (2) The bond shall inure to the benefit of any person damaged by any fraudulent act or conduct of the health plan purchasing cooperative and must be conditioned upon faithful accounting and application of all money coming into the health plan purchasing cooperative's possession in connection with its activities as a health plan purchasing cooperative.
- (3) The bond remains in force until released by the Commissioner or canceled by the insurer. Without prejudice to any liability previously incurred, the insurer may cancel the bond upon advanced written notice to the health plan purchasing cooperative and by certified mail to the Commissioner (Attn: Regulatory Services Division). A health plan purchasing cooperative's certificate of authority shall be suspended if it does not file with the

Commissioner a replacement bond before the date of cancellation of the previous bond. A replacement bond must meet all requirements of this section for the initial bond.

- (4) Each health plan purchasing cooperative shall obtain and maintain surety bond coverage or other appropriate liability insurance, written by an insurer carrier authorized to transact insurance in this state, in an amount of at least \$100,000. A copy of this policy must be filed with the Commissioner at application and renewal.
- (5) Any policy written in accordance with paragraph (4) of this Rule shall be for a term of at least one year and shall contain provisions that:
 - (a) cancellation or termination of the policy is not effective except upon sixty (60) days written notice by registered or certified mail to the other party to the policy and to the Commissioner (Attn: Regulatory Services Division); and
 - (b) the policy is automatically renewable at the expiration of the policy period except upon sixty (60) days written notice by registered or certified mail by the party not renewing the policy to the other party to the policy and to the Commissioner (Attn: Regulatory Services Division).
- (6) Upon written approval by the Commissioner, an eligible surplus lines carrier may write bonds or policies required by this Rule.
- (7) Compliance by the health plan purchasing cooperative with this Rule is a prerequisite to approval by the Commissioner of its application for a certificate of authority.

Rule 120-2-79-.06. Written Agreement Necessary.

No health plan purchasing cooperative shall act as such without a written agreement between the health plan purchasing cooperative and each participating carrier, and such written agreement shall be retained as part of the official records of the carrier and the health plan purchasing cooperative for the duration of the agreement and five years thereafter. Such written agreement shall contain provisions that comply with the requirements of this Regulation Chapter as they pertain to agreements between the health plan purchasing cooperative and participating carriers.

Rule 120-2-79-.07. Maintenance of Information; Books and Records; Annual Report to the Carrier(s); Return Credits.

- (1) Every health plan purchasing cooperative shall maintain at its principal administrative office for the duration of the written agreement referred to in § [120-2-79-.06](#) and five years thereafter books and records of all transactions between it, carriers and insured persons. The Commissioner shall have access to such books and records for the purpose of examination, audit and inspection. Any trade secrets contained therein, including but not limited to the identity and addresses of policyholders and certificate holders, shall be confidential, except the Commissioner may use such information in any proceedings instituted against the health plan purchasing cooperative. The participating carrier shall retain the right to continuing access to such books and records of the health plan purchasing cooperative sufficient to permit the carrier to fulfill all of its contractual obligations to insured persons, subject to any restrictions in the written agreement between the carrier and health plan purchasing cooperative on the proprietary rights of the parties in such books and records.
- (2) Health plan purchasing cooperatives shall maintain detailed books and records that reflect all transactions specifically in regard to premiums, premium taxes, agent commissions, fees, contributions received and deposited.
- (3) The detailed preparation, journalizing, and posting of such books and records shall be made in accordance with the terms and conditions of the service agreement or contract between the health plan purchasing cooperative and the carrier, and in accordance with the "Employee Retirement and Income Security Act of 1974," 88 Stat. 829, [29 U.S.C. § 1001](#) *et seq.*, as amended and to enable the carrier to complete the National Association of Insurance Commissioners' (NAIC) annual financial statement.
- (4) Health plan purchasing cooperatives shall maintain a cash receipts register of all premiums or contributions received. The minimum detail required in the register shall be date received and deposited, the mode of payment, the policy number, name of policyholder and names of certificate-holders and individual premium amounts and agent.
- (5) The description of a disbursement shall be in sufficient detail to identify the source document substantiating the purpose of the disbursement, and shall include all of the following:
 - (a) The check number;
 - (b) The date of disbursement;
 - (c) The person to whom the disbursement was made;
 - (d) The amount disbursed, provided that if the amount disbursed does not agree with the amount billed or authorized, the health plan purchasing cooperative shall prepare a written record as to the application for the disbursement; and

- (e) Ledger account number.
- (6) If the disbursement is for the earned fee or commission, a written record reflecting the identifying deposit from which the fee was matched shall support the disbursement.
- (7) Evidential matter shall support all journal entries for receipts and disbursements. The evidential matters must be referenced in the journal entry so that it may be traced for verification.
- (8) The health plan purchasing cooperative shall prepare and maintain monthly financial institution account reconciliations if such service is requested by a participating carrier as provided in the agreement by and between the health plan purchasing cooperative and the carrier.
- (9) The health plan purchasing cooperative shall prepare an annual report to be filed with each participating carrier within ninety days of the end of the fiscal year of the plan, which discloses at least all of the following:
 - (a) The total premiums or contributions received from the member employers, covered persons, or beneficiaries;
 - (b) The total fees withdrawn by the health plan purchasing cooperative pursuant to the written service agreement or contract; and
 - (c) Any additional information required by the written agreement or contract.
- (10) A copy of the annual report described in paragraph (9) shall be retained as part of the official record of the health plan purchasing cooperative for at least five (5) years.
- (11) Return premiums or contributions shall be paid to the participating carrier, or credited to the account of the participating carrier within thirty (30) days after receipt by the health plan purchasing cooperative. If the return premium or contribution is credited to the carrier, the credit must be shown and applied to the next billing statement sent by the carrier.

Rule 120-2-79-.08. Payment to Health Plan Purchasing Cooperative.

Payment to the health plan purchasing cooperative of any premiums or charges for a health benefit plan by or on behalf of the insured or member shall be deemed to have been received by the participating carrier, and the payment of return premiums or claims by the carrier to the

health plan purchasing cooperative shall not be deemed payment to the insured or claimant. Nothing herein shall permit or authorize purchasing cooperatives to process or administer claims or to accept claims payments, nor limit any right of a participating carrier to take action against the health plan purchasing cooperative resulting from its failure to make payments to the participating carrier.

Rule 120-2-79-.09. Premium Collection.

- (1) All insurance charges, fees, or premiums collected by a health plan purchasing cooperative on behalf of or for a participating carrier, and return premiums received from such carrier, shall be held by the health plan purchasing cooperative in a fiduciary capacity. Such funds shall be immediately remitted to the person or persons entitled thereto, or shall be deposited promptly in a fiduciary bank account established and maintained by the health plan purchasing cooperative. If charges or premiums so deposited have been collected on behalf of or for more than one carrier, the health plan purchasing cooperative shall cause the bank in which such fiduciary account is maintained to keep records clearly recording the deposits in and withdrawals from such account on behalf of or for each carrier. The health plan purchasing cooperative shall promptly obtain and keep copies of all such records and, upon request of a participating carrier, shall furnish such carrier with copies of such records pertaining to deposits and withdrawals on behalf of or for such carrier. Withdrawals from such account shall be made, as provided in the written agreement or contract between the health plan purchasing cooperative and a participating carrier, for:
 - (1) remittance to a carrier, entitled thereto;
 - (2) deposit in an account maintained in the name of such carrier;
 - (3) payment to a policyholder for remittance to the carrier entitled thereto; or
 - (4) remittance of return premiums to the person or persons entitled thereto.
- (2) In collecting premiums, a health plan purchasing cooperative must bill separately and explicitly to distinguish premium charges from administrative fees collected for the operation of the health plan purchasing cooperative. Any funds collected as premiums shall be held separately and accounted for or reported separately from funds collected from membership or administrative fees charged to members by the health plan purchasing cooperative.

Rule 120-2-79-.10. Renewal; Annual Report; Semi-annual Financial Statements; Membership Reporting.

- (1) Each authorized health plan purchasing cooperative shall file with the Commissioner a full and true report of its financial condition, transactions, and affairs. The report shall be filed annually on or before May 1 or within such extension of time therefore as the Commissioner for good cause may have granted and shall be for the preceding calendar year. The report shall be in such form and contain such matters as the Commissioner prescribes and shall be verified by at least two officers of the health plan purchasing cooperative filing the report. The second financial condition filing shall be filed on or before October 1 or within such extension of time therefore as the Commissioner for good cause may have granted and shall be for the second quarter for the current calendar year.
- (2) Each authorized health plan purchasing cooperative shall file with the Commissioner a semiannual financial statement in such form as the Commissioner prescribes. Such statement shall be verified by at least two officers of the health plan purchasing cooperative filing the report.
- (3) Each authorized health plan purchasing cooperative shall file with the Commissioner an annual independent audit by a certified public accountant in accordance with O.C.G.A. § [33-30A-4\(d\)\(2\)](#).
- (4) The annual report shall include the complete names, addresses, NAIC company and NAIC group number of all participating carriers with which the health plan purchasing cooperative had a contract or service agreement during the preceding fiscal year.
- (5) The annual report shall show a detailed accounting of the specific services offered as well as evidence of proper handling of premium collection and record keeping in accordance with O.C.G.A. § [33-30A-4\(d\)\(3\)](#).
- (6) The annual report shall provide verification of the continuation of the surety bond or other appropriate liability coverage, as stipulated in this regulation.
- (7) Along with the annual report shall be a written disclosure relating to paragraphs (a) through (I) of § [120-2-79-.04](#). This disclosure must include copies of any changes in documentation that occurred during the previous year's operation.
- (8) Each health plan purchasing cooperative shall file with the Commissioner of Insurance on or before May 1st in each year, a certification executed by an authorized officer of the health plan purchasing cooperative wherein it is stated that the advertisements disseminated by the health plan purchasing cooperative during the preceding calendar

year complied, or were made to comply in all respects, with the advertising laws, rules and regulations of this State.

- (9) Fees shall be required for the renewal of the health plan purchasing cooperative as provided in the application materials.
- (10) In addition, the health plan purchasing cooperative shall maintain information on members of the health plan purchasing cooperative on an annual basis, by market type, total individuals enrolled in coverage through the health plan purchasing cooperative, broken down by total employees, total dependents, and total individuals in each category by health benefit plan, or any other reporting information deemed appropriate by the Commissioner. The Commissioner shall prescribe a reporting format for such information. All purchasing cooperatives shall disclose such information in the prescribed format no later than May 1st of every year for every previous year's operations.

Rule 120-2-79-.11. Approval of Advertising and Enrollment Materials.

- (1) A health plan purchasing cooperative shall file any enrollment or marketing materials which provide the standardized information on each health benefit plan as specified in O.C.G.A. § [33-30A-4\(b\)\(2\)](#) for distribution to cooperative members at least ninety (90) days prior to their use. Such materials shall include, but are not limited to, information distributed to members on how to file or appeal grievances with participating carriers or the health plan purchasing cooperative, and any comparisons between health benefit plans using measures of performance such as medical outcomes and consumer satisfaction which clearly describe the indicators of comparison and the approved methodology used for such comparison.
- (2) Each health plan purchasing cooperative shall maintain at its principal administrative office a complete file of all advertisements and enrollment materials, regardless of who wrote or developed them, created or designed, which are used in the course of the health plan purchasing cooperative's business in this state, with a notation indicating the manner and extent of distribution and the form number of any policy advertised. Such file shall be subject to inspection by the Office of Commissioner of Insurance. All such advertisements shall be maintained in said file for a period of not less than five (5) years.

Rule 120-2-79-.13. Notification Required.

The health plan purchasing cooperative shall provide, upon enrollment, a written notice approved by the participating carrier, to individuals covered by such carrier, advising them of the identity of and relationship between the health plan purchasing cooperative, the member employer, and the carrier. Where a health plan purchasing cooperative collects funds, it must identify and state separately in writing to the member or person paying any charge or premium for health benefit plan coverage, the amount of any such charge or premium specified by the carrier for such coverage, and separately, the amount charged for administrative fees by the health plan purchasing cooperative.

Rule 120-2-79-.14. Areas of Service.

- (1) As part of its application for a certificate of authority, a health plan purchasing cooperative shall file with the Commissioner a description of the entire service area of the health plan purchasing cooperative. All changes to a service area shall be filed for approval with the Commissioner at least sixty (60) days prior to such effective change.
- (2) A health plan purchasing cooperative serving any part of a single metropolitan statistical area in Georgia, as most recently defined and established by the U.S. Office of Management and Budget, shall serve every county which is either entirely or partially located within such single metropolitan statistical area. A health plan purchasing cooperative may serve contiguous counties outside of the single metropolitan statistical area; however:

- (a) If such contiguous county is located in another single metropolitan service area not served by the health plan purchasing cooperative (regardless of whether or not it is part of a consolidated metropolitan statistical area), the health plan purchasing cooperative may not serve such county unless it serves the entire single metropolitan statistical area in which it is located; and
 - (b) If such contiguous county is partially located in the single metropolitan service area served by the health plan purchasing cooperative, and partially located in another single metropolitan service area not served by the health plan purchasing cooperative, the health plan purchasing cooperative may then serve only the entire contiguous county that is partially in each single metropolitan service area.
- (3) Nothing in this section shall prevent a health plan purchasing cooperative from serving a consolidated metropolitan statistical area in the state (as defined by the U.S. Office of Management and Budget), or two or more entire single metropolitan statistical areas.
 - (4) All references to metropolitan statistical area in this Rule shall equally apply to a primary metropolitan statistical area as defined by the U.S. Office of Management and Budget.
 - (5) A health plan purchasing cooperative may offer coverage in one or more counties in adjoining states contiguous to the borders of Georgia.

Rule 120-2-79-.15. Choice of Health Benefit Plans; Enrollment.

- (1) A health plan purchasing cooperative shall contract with at least two (2) unaffiliated carriers with Certificates of Authority from the Commissioner for participation in the health plan purchasing cooperative to ensure that employers and enrollees have a choice from among a reasonable number of competing carriers and types of health benefit plans. The Commissioner may, upon a demonstration of good cause by the health plan purchasing cooperative, waive the requirement to have at least two (2) unaffiliated participating carriers throughout any or all portions of the health plan purchasing cooperative's service area.
- (2) A health plan purchasing cooperative may establish criteria relating to choice of health benefit plans offered by the health plan purchasing cooperative. Provided that the criteria is consistent and uniform with regard to market type, a health plan purchasing cooperative may require each member of a specific market type to choose one plan for all eligible employees, or may permit all eligible employees of all members of a specific market type to choose one plan out of all plans offered by the health plan purchasing cooperative, or may permit any additional limitations by members on employee choice of

health benefit plans, provided that such limitations apply consistently to all members in a specific market type without regard to health status related factors.

- (3) Criteria described in paragraph (2) of this Rule shall include procedures for annual or rolling open enrollment periods in which members or employees may elect to enroll in any health benefit plan available through the health plan purchasing cooperative. Such criteria shall describe enrollment procedures for newly eligible employees and late entrants, and shall demonstrate compliance with Rule 120-2-67 regarding crediting of prior coverage.
- (4) Health plan purchasing cooperatives, subject to any written agreement with a participating carrier or licensed third-party administrator to the contrary, shall be responsible for the issuance of certifications of creditable coverage pursuant to Rule [120-2-67-.12](#).

Rule 120-2-79-.16. Additional Powers of and Restrictions on Purchasing Cooperative.

- (1) A health plan purchasing cooperative may do any of the following:
 - (a) Set reasonable fees, which may vary by employer size, for membership in the health plan purchasing cooperative that will finance reasonable and necessary costs incurred in administering the health plan purchasing cooperative;
 - (b) Contract with independent third parties licensed by the Commissioner for any service necessary to carry out the powers and duties authorized or required by Title 33, Chapter 30A of the Official Code of Georgia and this Regulation Chapter;
 - (c) Contract with licensed insurance agents to market and service health benefit plans made available through the health plan purchasing cooperative to its members, provided that compensation for agents shall not vary based on the actual or expected experience or health status of the member or persons to which coverage is sold;
 - (d) Establish written standards to be met by participating carriers, including but not limited to benefit design, access, quality assurance, data collection, and cost, and accept or reject proposals from carriers for participation in the health plan purchasing cooperative based on such articulated standards, provided that carriers

shall be responsible for determining the benefits, rates and underwriting criteria applicable to health benefit plans and for securing reinsurance, if any;

- (e) Negotiate with participating carriers the administrative expense component of the premium rates charged for coverage offered through the health plan purchasing cooperative;
 - (f) Provide other services to members pursuant to O.C.G.A. § 33- 30A-2(b) provided that any insurance coverage offered by the health plan purchasing cooperative shall have complied with all applicable requirements of Title 33 of the Official Code of Georgia; and
 - (g) Establish written standards with participating carriers for the intake, processing, and resolution of member grievances pertaining to a health benefit plan and addressed or appealed to the health plan purchasing cooperative.
- (2) A health plan purchasing cooperative shall not:
- (a) Exclude from membership, or prevent continuation of membership for, a small employer who has met the conditions of membership established pursuant to O.C.G.A. § [33-30A-4\(b\)\(1\)](#), agrees to pay and in fact does pay fees for membership and the premium for health benefit plan coverage through the health plan purchasing cooperative, and abides by the bylaws and rules of the health plan purchasing cooperative;
 - (b) The event that a health plan purchasing cooperative elects to accept other classes of membership pursuant to O.C.G.A. §33-30A- 4(3) or (4), exclude any employer or individual in such a class from membership, or prevent continuation of membership, in the health plan purchasing cooperative, provided that the employer or individual has met the conditions of membership established pursuant to O.C.G.A. § [33-30A-4\(b\)\(1\)](#), agrees to pay fees for membership and the premium for health benefit plan coverage through the health plan purchasing cooperative, and abides by the bylaws and rules of the health plan purchasing cooperative;
 - (c) Exclude from coverage or decline for coverage an eligible employee or dependent of an eligible employee;
 - (d) Place any insurance coverage on behalf of a member with a carrier that is not authorized or approved by the Commissioner to do business in Georgia;
 - (e) Provide for any self-insurance or reinsurance of benefits provided to any member, or collection of members or eligible individuals, or any other arrangement covering health care expenses which is not through a health benefit plan from an insurer, health maintenance organization, or health care corporation holding an appropriate certificate of authority from the Commissioner;

- (f) Charge a fee not directly related to the operation of the health plan purchasing cooperative;
- (g) Engage in any unfair trade practice defined in Chapter 6 of Title 33 of the Official Code of Georgia;
- (h) Fail to submit requested documentation to the Office of Commissioner of Insurance that pertains to this Regulation Chapter, or applicable provisions of the Official Code of Georgia, or any complaints or inquiries regarding the business practices of a health plan purchasing cooperative within a reasonable time frame as determined by the Commissioner; and
- (i) Intentionally misrepresent or withhold any data or information that has been provided by the member and is pertinent to the lawful underwriting criteria of a health benefit plan, or intentionally misrepresent the terms or existence of any such health benefit plan in any way.

Rule 120-2-79-.17. Rating.

- (1) **Small Employer Rating Requirements.** Participating carriers offering coverage to small employers through a health plan purchasing cooperative must comply with the rating requirements of Rule [120-2-10-.12\(5\)](#) and must consistently use the same set of rating factors otherwise used for small group health insurance coverage issued outside of a health plan purchasing cooperative in developing rates for health benefit plans issued or renewed through the health plan purchasing cooperative. Small employer members shall be considered small groups, and experience from health benefit plans issued by a participating carrier to small employer members of a health plan purchasing cooperative shall be part of that carrier's small group pool. Participating carriers shall adhere to every provision of Rule [120-2-10-.12\(5\)](#) in the following manner, unless specifically directed otherwise by the following:
 - (a) Every small employer member covered by a participating carrier shall be treated as a small group for purposes of Rule [120-2-10-.12\(5\)](#), in which premiums for small employers are based on pool rates and deviated by any of the allowable factors, and individual employees are subject to premium quotes made for each small employer; or
 - (b) In lieu of subparagraph (a), all rates for use with all employees and dependents of employees of small employer members in a health plan purchasing cooperative

may be developed on a composite basis for factors specified in Rule [120-2-10-.12\(5\)\(b\)](#), provided that:

- (2) A participating carrier may use small group rating factors for age, sex, and family size or composition to apply to composite rates on an individual or family basis, in standard age ranges approved by the health plan purchasing cooperative, with which employees and dependents may then be quoted standard rates on age, sex, or family characteristics;
- (3) A participating carrier shall develop composite rates by calculating a single, standard deviation from the small group pool rate for the actual or anticipated experience of all employees and dependents of employees of all small employer members covered or expected to be covered by the participating carrier in the health plan purchasing cooperative which is not greater than plus or minus 25 percent of the small group rate (or plus or minus 35 percent if the small group pool is rated in accordance with Rule [120-2-10-.12\(5\)\(h\)\(1\)](#));
- (4) A participating carrier not subject to Rule [120-2-10-.12\(5\)\(h\)\(1\)](#) may use select and substandard rating related to new entrants to the participating carrier's health benefit plan in accordance with Rule [120-2-10-.12\(5\)\(f\)](#) and must apply such rating uniformly and consistently to all individuals covered by that participating carrier through the health plan purchasing cooperative and consistent with the select and substandard rating methodology applied to its entire small group pool;
- (5) If a participating carrier uses select and substandard rating as in subparagraph (1)(b)3 of this Rule, it may impose a waiting period for coverage of new entrants pursuant to Rule [120-2-10-.12\(5\)\(a\)](#) if permitted by the health plan purchasing cooperative; and
- (6) If a participating carrier is not permitted by the health plan purchasing cooperative to impose a waiting period as otherwise permitted in subparagraph (1)(b)(4) of this Rule, the carrier may not impose a select or substandard rate on any purchasing cooperative health benefit plan.
 - (a) For the purposes of Rule [120-2-10-.12\(5\)\(g\)](#), the anticipated group premiums from health benefit plans issued by a participating carrier in one or more purchasing cooperatives using the methodology in either subparagraph (a) or (b) shall be included in the determination of anticipated pool premiums. Premium deviations related to coverage issued to a health plan purchasing cooperative shall be considered in offsetting upward and downward deviations resulting from the application of rating factors to all small groups.
 - (b) The health plan purchasing cooperative and a participating carrier may negotiate only the administrative expense component of the small group pool rate in determining the rate or rates charged for health benefit plans in the health plan purchasing cooperative, where the carrier can demonstrate net administrative cost savings for its health plan purchasing cooperative business. For the purposes of this paragraph, administrative expenses are limited to marketing expenses,

acquisition expenses, the cost of paying claims, commissions, profits, and maintenance expenses.

- (7) Large Employer Rating Requirements. All large employer members covered in a health plan purchasing cooperative shall be considered as separate from the participating carrier's small group pool for compliance with Rule [120-2-10-.12](#), and may be considered separate from small employer members in the health plan purchasing cooperative for rating purposes. In particular:
- (a) If employees are permitted to select a health benefit plan, employees of all large employer members may be rated on composite basis adjusted on by age, sex, and family characteristics, provided that a health plan purchasing cooperative may permit each participating carrier to adjust composite rates applicable to a particular large employer for the specific risk characteristics and expected experience of the large employer, or
 - (b) If an employer selects a health benefit plan on behalf of all eligible employees, each large employer member may be experience rated as otherwise permitted by state law.
- (8) In the event a health plan purchasing cooperative permits enrollment of individuals as permitted in O.C.G.A. § [33-30-4\(a\)\(4\)](#), such individuals shall be subject to Rule [120-2-10-.12\(8\)](#) and shall be rated as a small group, except that carriers subject to subparagraph (1)(b) of this Rule shall offer coverage to such individuals at the same composite rates (adjusted for age, sex, and family size) offered to other employees.
- (9) With regard to compliance with Rule [120-2-10-.12](#) in any respect, a participating carrier offering a health benefit plan in a health insurance purchasing cooperative shall determine compliance based on final rates certified to and accepted by the health plan purchasing cooperative for the duration of the rate guarantee period agreed to by the carrier and purchasing cooperative. A participating carrier may only adjust rates during the negotiated rate guarantee period in accordance with Rule [120-2-10-.12\(5\)\(a\)1](#). Nothing in this Regulation Chapter shall prevent a health plan purchasing cooperative from negotiating any specific rate guarantee period with participating carriers, provided that such periods are at least six months and are established consistently for all participating carriers.
- (10) In the event a health insurance purchasing cooperative and participating carriers agree to apply a different rating methodology from that established by this Rule, or a risk adjustment mechanism to adjust payments to participating carriers based on disproportionate shares of high- or low-risk enrollees, the health plan purchasing cooperative shall file with the Commissioner such proposal, along with certifications from the participating carriers party to such proposal, for approval. The proposal shall demonstrate compliance with the provisions of Rule [120-2-10-.12](#) with regard to rating of small employer members, or employees in small employer members, and assure consistent application of such mechanism to all members of the health plan purchasing

cooperative within each market type. The proposal shall be developed and certified by a qualified actuary. Any risk adjustment mechanism shall be based on valid data from participating carriers and shall utilize factors actuarially related to risk.

- (11) The health insurance purchasing cooperative shall keep all documentation pertaining to choice of benefits, materials used to instruct members of such choices, premium tables and other rating disclosures, and any rating mechanism developed in conjunction with participating carriers, for review by the Commissioner upon request. Such documentation must include rating materials demonstrating compliance with this Rule.
- (12) Upon application and renewal for its certificate of authority, a health plan purchasing cooperative shall provide a certification by a responsible officer of the health plan purchasing cooperative as to compliance with the rating provisions of this Rule. Such certification shall include documentary evidence or certifications from participating carriers that such carriers are also complying with the provisions of this Rule as they apply to small employer members. Additionally, the certification submitted by the health plan purchasing cooperative shall designate whether the health plan purchasing cooperative complies, in its arrangements with participating carriers, with either subparagraph (1)(a) or (1)(b) of this Rule as they apply to small employer members, and shall designate the method of compliance with paragraphs (2) and (3) of this Rule as they apply to members of other market types (if applicable). A health plan purchasing cooperative subject to paragraph (5) of this Rule shall amend its certification as appropriate pursuant to its proposal upon application, and shall certify continued compliance with its originally approved rating proposal upon renewal.

Rule 120-2-79-.18. Contribution and Participation Rules.

- (1) A health plan purchasing cooperative may set contribution rules for members in each market type served by the cooperative, which require a minimum percentage of premium contribution from each member for each eligible employee or dependent. A health plan purchasing cooperative may set separate minimum contribution rules for employees and dependents.
- (2) A health plan purchasing cooperative may set minimum employee participation rules for members of each market type served by the cooperative, and shall consistently require such minimum participation levels for members of each market type. In any case, the minimum participation rule for small employers shall meet the requirements of Rule [120-2-10-.12\(9\)](#).

Rule 120-2-79-.19. Contracts with Members and Participating Carriers.

- (1) Contracts or written service agreements between the health plan purchasing cooperative and a participating carrier shall:
 - (a) Establish, on a consistent and uniform basis, a policyholder, which shall be either the health plan purchasing cooperative or each of its members;
 - (b) Provide that the participating carrier will issue a certificate of coverage, or equivalent document, specifying the essential features of coverage under the health benefit plan to each enrolled employee; and
 - (c) Specify how all premiums will be transmitted, applicable penalties and grace periods for payments, and underwriting criteria or other standards pertaining to the business underwritten by such carrier in the health plan purchasing cooperative.
- (2) On a consistent basis for all members, contracts between the health plan purchasing cooperative and a member shall:
 - (a) For administrative purposes, establish, on a uniform basis for each market type, either the health plan purchasing cooperative, in trust, or the member as the policyholder of the health benefit plan on behalf of eligible employees and dependents;
 - (b) Provide that the participating carrier will issue a certificate of coverage, or equivalent document, specifying the essential features of coverage under the health benefit plan to each enrolled eligible employee;
 - (c) Provide that the member must establish an employer-sponsored health benefit arrangement for its employees (or, in the case of an individual member, obtain coverage for himself or herself) only through health benefit plans offered by the health plan purchasing cooperative;
 - (d) Establish applicable penalties and grace periods for a member to make premium payments to the health plan purchasing cooperative, guidelines on how all premiums will be transmitted, and standards for the collection of membership or administrative fees for the operation of the health plan purchasing cooperative; and
 - (e) Describe the terms of membership and renewal of membership and coverage under a health benefit plan.
- (3) A health plan purchasing cooperative shall file with the Commissioner for approval a sample of each type of contract proposed for use with members and carriers.

- (4) Participating carriers shall file with the Commissioner for approval any contract or policy of insurance to be delivered to a health plan purchasing cooperative or its members as a health benefit plan or as an additional insurance benefit, unless such policy has previously been approved by the Commissioner for use. Any amendments, riders, or exclusions added to a previously approved policy or contract applicable to health plan purchasing cooperative members shall be filed for approval.

Rule 120-2-79-.20. Renewability; Termination of Agreement.

- (1) For purposes of renewability, health plan purchasing cooperatives, members, and participating carriers shall be subject to Rule [120-2-67-.09](#) with regard to renewability and non-termination of coverage, and coverage under a health plan purchasing cooperative shall be considered coverage under a true association for such purposes. In particular:
 - (a) With respect to Rule [120-2-67-.09](#), the health plan purchasing cooperative shall be considered the policyholder;
 - (b) The written agreement or contract between the health plan purchasing cooperative and participating carriers shall specify the terms of renewal and shall define the date of renewal; and
 - (c) The health plan purchasing cooperative is responsible for assuring continuity and renewal of coverage for members under Rule [120-2-67-.09](#) in the event a participating insurer no longer participates in a health plan purchasing cooperative, and shall not exclude a member from coverage under any health benefit plan at any time.
- (2) A member of a health plan purchasing cooperative may have its coverage under a health benefit plan nonrenewed, canceled, or terminated pursuant to the written agreement or contract between the health plan purchasing cooperative and a participating carrier, only if:
 - (a) The member has failed to pay premiums, contributions, membership or administrative fees, as applicable, in accordance with the terms of membership or the health benefit plan, including any timeliness requirements, subject to applicable State law;

- (b) The member has performed an act or practice that constitutes fraud or intentional misrepresentation of material fact in applying for or procuring coverage under the terms of membership or the health benefit plan;
 - (c) The member has violated the applicable minimum contribution or participation rules as set by the health plan purchasing cooperative, provided that the health plan purchasing cooperative or participating carrier submits written notice to each affected member and provides such member sixty (60) days in which to bring the member into compliance prior to cancellation; or
 - (d) None of the member's employees or enrollees live, reside, or work in the service area of the provider network, only if the health benefit plan is issued by a health maintenance organization or a provider-sponsored health care corporation, unless there is at least one insured employee or enrollee who has agreed to return to the service area of a health maintenance organization in accordance with the Rule [120-2-33-.06\(5\)](#).
- (3) If a health plan purchasing cooperative, because of insolvency or nonrenewal, suspension, or revocation of its certificate of authority, fails to continue to make coverage available to member small employers through participating carriers, all participating carriers at the time of such failure shall, subject to guidelines established by the Commissioner for the assumption, rehabilitation, or liquidation of the particular health plan purchasing cooperative, or in any decision to revoke or suspend the certificate of authority, do one of the following:
- (a) In the event of a health plan purchasing cooperative which allowed employer choice, continue covering and renewing each member as a policyholder pursuant to Rule [120-2-67-.09](#); or
 - (b) In the event of a health plan purchasing cooperative which allowed employee choice, not discontinue coverage until the renewal date that otherwise would have applied to the health plan purchasing cooperative or to each member, and then
 - (1) With regard to every small employer member, offer the option to purchase all group policies currently being offered to or renewed by small employers in this State;
 - (2) With regard to every large employer member, offer the option to purchase any other group policy from the carrier currently being offered to or renewed by a large employer in this State; or
 - (3) With regard to every individual member pursuant to O.C.G.A. § [33-30A-4\(4\)](#), offer the option to purchase any other individual policy most similar to the group policy under which the individual was covered, or any other similar group policy currently being offered to or renewed by small employers in this State.

- (4) With regard to compliance with subparagraph (3)(b), a participating carrier which is a health maintenance organization or provider- sponsored health care corporation shall not be required to offer coverage to a member without any employees who live, work, or reside in the service area of the carrier, or offer coverage to an individual member who does not live, work, or reside in the service area of the carrier.
- (5) In the event the participating carrier completes its obligation to issue a health benefit plan under the terms of an agreement with a health plan purchasing cooperative which opts not to renew the agreement, the participating carrier shall:
 - (a) Provide notice of the decision at least 180 days prior to the nonrenewal of any health benefit plan (or the first nonrenewal of any member under such health benefit plan) to the members and enrollees;
 - (b) Not terminate coverage prior to the renewal date of the health benefit plan, or the renewal date of any member covered under the health benefit plan provided that such renewal date is at least 180 days after the date of notice stipulated in subparagraph (5)(a) of this Rule; and
 - (c) Be prohibited from writing new business through the health plan purchasing cooperative consistent with the Portability and Renewability requirements in the federal Health Insurance Portability and Accountability Act of 1996 and applicable laws and Rules and Regulations of the State of Georgia.
- (5) Upon such time as notice is sent by a carrier in accordance with subparagraph (5)(a) of this Rule, the health plan purchasing cooperative shall make available through all other participating carriers any other coverage to affected members and enrollees to assure continuity of coverage within the health plan purchasing cooperative.
- (6) Subject to paragraphs (3) and (4), no health plan purchasing cooperative shall have the unilateral authority to move the coverage of a member group to a new carrier.
- (7) Any individual in this state, insured through a health benefit plan offered by a health plan purchasing cooperative and whose coverage under such plan terminates as a result of termination of employment or cessation of membership or the employer's membership in the health plan purchasing cooperative without replacement group coverage, regardless of the situs of the group policy, shall be entitled to continuation and conversion rights as required under O.C.G.A. § [33-24-21.1](#), Rules [120-2-10-.11](#) and [120-2-10-.11](#) A, and under the federal Consolidated Omnibus Budget Reconciliation Act of 1986.

- (8) Where a health benefit plan is discontinued and replaced, the individual carriers shall be entitled to all takeover rights provided under Rule [120-2-10-.10](#).

Rule 120-2-79-.21. Examination by Commissioner; On-Site Visits.

- (1) A health plan purchasing cooperative shall, at the request of the Commissioner, respond in writing within fifteen (15) working days to any complaint received by the Commissioner concerning the health plan purchasing cooperative. If, in the Commissioner's discretion, the frequency or severity of such complaints or infractions justify an examination of the health plan purchasing cooperative's practices and procedures, any such examination by the Commissioner, or any person designated by the Commissioner, shall be at the expense of the health plan purchasing cooperative. In addition to any other remedy available to the Commissioner, failure by the health plan purchasing cooperative to willingly and fully cooperate with this rule may result in either suspension, revocation or refusal to renew a certificate of authority by the Commissioner.
- (2) The Commissioner or his or her designated representative is authorized to make a complete on-site examination of the affairs of each health plan purchasing cooperative as often as is deemed necessary. Whenever the Commissioner shall deem it expedient, he or she shall examine, by use of an examiner duly authorized by him or her, the affairs, transactions, accounts, records, documents, assets, liabilities, of a health plan purchasing cooperative and any other facts relative to its business methods, management, and dealings with policyholders, certificate holders, and members.
- (3) Any health plan purchasing cooperative being examined shall provide to the Commissioner or his or her designee convenient and free access, at all reasonable hours at their offices, to all books, records, documents and other papers relating to the health plan purchasing cooperative's business affairs.
- (4) At the direction of the Commissioner, the health plan purchasing cooperative shall pay the fees and expenses of the examination. The examiner shall file a consolidated account for the examination with the Commissioner.
- (5) Nothing in this Rule shall limit or abridge any other investigatory powers of the Commissioner vested in him or her by Title 33 of the Official Code of Georgia.

Subject 120-2-80. PATIENT PROTECTION ACT.

Rule 120-2-80-.01. Scope.

- (1) This Regulation Chapter shall apply to licensed insurers, including, but not limited to, health maintenance organizations and health care corporations offering managed care plans in this State.
- (2) Insurers with approved or proposed policy contracts containing preferred provider arrangements subject to O.C.G.A. Title 33, Chapter 30, Article Two, shall be subject to this Regulation Chapter and shall be considered managed care entities. Preferred Provider Organization plans shall be subject to the provisions of this Regulation Chapter as may be reasonably applied to covered benefits and services offered through a managed care entity's contracting, participating preferred providers.
- (3) Where enrollees of managed care plans choose to obtain covered benefits or services outside the panel of contracting or preferred providers, a managed care entity shall not be held responsible for access, credentialing, quality of care or other issues not under the insurer's control because of lack of provider contracting status. Managed care entities should disclose plan provisions and limitations regarding benefits, access and quality issues in these instances.

- (4) Nothing in this Regulation Chapter shall be construed to permit any person other than a licensed insurer to offer a managed care plan or other insurance product or allow an entity or person to transact insurance in this State without a Certificate of Authority as provided in O.C.G.A. Title 33, Chapter 3.
- (5) Nothing in this Regulation Chapter or O.C.G.A. Title 33, Chapter 20A shall be construed to create new classes of insurance pursuant to O.C.G.A. § [33-3-5](#) or new lines of insurance pursuant to Title 33, Chapter 7.

History. Original Rule entitled "Scope" adopted. F. Mar. 20, 1998; eff. Apr. 9, 1998.

Rule 120-2-80-.02. Definitions.

Definitions under this Regulation Chapter shall have the meaning as set forth in the Georgia Insurance Code or the Rules and Regulations of the Office of Commissioner of Insurance, unless indicated below:

- (a) "Appeal" shall mean a formal request, either orally, or in writing or by electronic transmission, to reconsider a determination not to certify an admission, extension of stay, or other health care service or procedure, and shall include both formal standard appeals and expedited appeals.
- (b) "Complaint" shall mean a communication from the enrollee or member either orally, in writing or by electronic transmission concerning dissatisfaction by the enrollee or member with the health plan or its providers.
- (c) "Grievance Procedure" shall mean a hearing provided to the enrollee, pursuant to O.C.G.A. § [33-20A-5\(3\)\(B\)\(ii\)](#), regarding denial of payment in whole or in part for a health care service, treatment or claim, following exhaustion of all standard appeals requirements contained in O.C.G.A. Title 33, Chapter 46 or the Rules and Regulations of the Office of Commissioner of Insurance Chapter 120-2-58.
- (d) "Managed Care Contractor" shall have the meaning set forth at O.C.G.A. § [33-20A-3\(5\)](#) and shall include entities unaffiliated with a managed care entity providing network administrative, credentialing, utilization review or medical management services for the operation of one or more managed care plans.
- (e) "Managed Care Entity" shall have the meaning set forth at § [33-20A-3\(6\)](#) and shall include all insurers, health maintenance organizations, health care corporations, multiple employer welfare arrangements, or other entities which are subject to licensure by the Commissioner.

- (f) "Stabilize", with respect to an emergency medical condition, shall mean to provide such medical treatment of the condition necessary to assure, within reasonable medical probability, that no material deterioration of the condition is likely to result from or occur during the transfer of the individual to or from a facility.

Rule 120-2-80-.03. Application.

- (1) Managed care entities may make application for a managed care plan or plans to be certified under this Regulation Chapter by submitting Form GID PPA-1 with a filing fee of \$500.00.
- (2) The Commissioner shall have ninety (90) days after receipt of the application in which to review the application. During this period the Commissioner may request additional information as necessary. The Commissioner may extend the time in which to review an application by contacting the applicant in writing and he or she is not required to act on an incomplete application.
- (3) Managed care entities with previously approved managed care plans in use in this state as of the effective date of this Regulation Chapter must submit applications for certification no later than ninety (90) days after the effective date of this Regulation Chapter. Managed care entities making timely filing of an application for certification of previously approved managed care plans may continue to offer such plans until the Commissioner determines such plans do not comply with the requirements of the Patient Protection Act or this Regulation Chapter.
- (4) Managed care entities making application for certification of managed care plans which are not yet approved may not offer such managed care plans until the application for certification under this Regulation Chapter is approved and the managed care product is approved in accordance with other requirements under O.C.G.A. § [33-24-9](#) as well as any other applicable laws and Regulation Chapters. This requirement for prior certification shall apply to all managed care plans not offered by the effective date of this Regulation Chapter.
- (5) Within the discretion of the Commissioner, managed care entities which have attained accreditation or which use managed care contractors accredited by national boards, committees or other accepted industry standard setting organizations may satisfy some or all of the requirements for certification.

Rule 120-2-80-.04. Modification of Operation of Plan after Certification.

- (1) A managed care entity shall file supporting documentation for any substantial modification of its managed care plan or plans with the Commissioner. Such documentation shall describe changes in operations and update any previous filings made by the managed care entity for the affected managed care plan or plans. Substantial modification includes, but is not limited to, the following:
 - (a) Broad substitution, merger or other change in hospital, physician network or ancillary services provider or network;
 - (b) Changes in subcontracting providers for utilization review or administrative services; or
 - (c) Other changes affecting the content, rules or procedures of any of the above entities.
- (2) All proposed substantial modifications which are voluntary must be submitted for the Commissioner's approval at least sixty (60) days prior to proposed changes, and must clearly indicate the nature, level and scope of changes. Managed care entities may not adopt substantial modifications which are voluntary prior to receiving approval from the Commissioner.
- (3) Modifications reflecting changes not under the control of the managed care entity should be filed with the Commissioner as soon as possible.

Rule 120-2-80-.05. Reporting Requirements.

- (1) Managed care entities with annual and quarterly statement requirements which report premiums and claims, enrollment, utilization of services, numbers of contracting providers and numbers of complaints and grievances shall continue to capture and report this information on standard financial and other required reporting formats as they relate to managed care plans under this Regulation Chapter.
- (2) Managed care entities not subject to specific reporting requirements for their managed care plans shall gather and prepare such information on a quarterly and annual basis as is necessary to capture and report, including, but not limited to:

- (a) premiums and claims;
- (b) enrollment;
- (c) utilization of services; and
- (d) numbers of contracting providers; and
- (e) numbers of complaints and grievances.

These reports shall be marked as "Patient Protection Act Statistical Reports" and shall bear the name and NAIC number of the reporting entity, and shall be submitted as supplements to normal quarterly and annual financial reports presently required. The Commissioner, at his or her discretion, may specify additional reporting requirements for managed care plans.

Rule 120-2-80-.06. Emergency Services, Stabilization.

- (1) As used in this section, the term "emergency services" or "emergency condition" shall have the same meaning as set forth in O.C.G.A. § [33-20A-3\(2\)](#).
- (2) No managed care plan may require, as a condition of receiving emergency services, that a covered person seek prospective authorization. This prohibition against prior authorization extends to such time as the covered person is stabilized for such emergency condition.
- (3) A managed care entity shall include provisions in its managed care plans describing:
 - (a) Coverage for emergency services;
 - (b) Any out of pocket, copayment, or other expenses which may accrue to a covered person;
 - (c) Provisions for out of network and out of service area emergency services;
 - (d) The terms "authorization" or "prospective authorization" as they relate to the covered person, including how such authorization procedures will apply and be administered if sought by the covered person in an emergency even though not required; and

- (e) A covered person's or provider's review or appeal rights in accordance with O.C.G.A. Title 33, Chapter 46 and the Rules and Regulations of the Office of Commissioner of Insurance Chapter 120-2-58, in the event that the managed care entity does not pay for emergency services obtained by the covered person.
- (4) A managed care entity shall include provisions in its provider contracts defining and describing prospective authorization or other authorization as they relate to a contracting or participating provider.
- (5) A managed care entity which authorizes the delivery of emergency services for evaluation, diagnostic testing or treatment provided as a part of intervention, whether for evaluation or stabilization purposes, shall not subsequently deny payment in accordance with the coverage of the managed care plan.
- (6) A managed care entity may review delivery of emergency services for purposes of payment or reimbursement only if:
 - (a) there is reason to believe, pursuant to subsequent evidence, such services were not medically necessary nor appropriate in accordance with established medical criteria and the requirements of Title 33, Chapter 46 and the Rules and Regulations of the Office of Commissioner of Insurance Chapter 120-2-58; or
 - (b) the individual receiving such care should have known, as a prudent layperson, possessing an average knowledge of medicine and health, that an emergency medical condition did not exist.
- (7) If a participating provider or other authorized representative of a managed care entity authorizes emergency services as permitted by the terms of the managed care plan or the terms of the provider contract, the managed care entity shall not subsequently review such emergency services for purposes of payment or reimbursement or retract its authorization after the emergency services have been provided, unless the authorization was based on a material misrepresentation about the covered person's health condition which was made by the covered person or the provider of emergency services.

History. Original Rule entitled "Emergency Services, Stabilization" adopted. F. Mar. 20, 1998; eff. Apr. 9, 1998.

Rule 120-2-80-.07. Utilization Review.

- (1) All managed care entities offering managed care plans in this state shall have a utilization review program which complies with the requirements of Title 33, Chapter 46 and the Rules and Regulations of the Office of Commissioner of Insurance Chapter 120-2-58. Any managed care entity or contractor providing utilization review services for a

managed care plan must be certified as a Private Review Agent in accordance with Chapter 120-2-58, or otherwise deemed compliant by the Commissioner only if such entity or contractor is an applicant that has been accredited by the Utilization Review Accreditation Commission and is operating as permitted by § [120-2-58-.03\(2\)](#).

- (2) A managed care entity which conducts its own utilization review program, as part of its corporate structure or through another corporation owned and operated by the entity, for the purposes of utilization review of its managed care plans exclusively, must submit a separate application for certification as a Private Review Agent no later than six (6) months from the effective date of this Regulation Chapter to be deemed compliant. A managed care entity must notify the Commissioner in both its managed care plan certification application and its Private Review Agent application that it is conducting its own utilization review program, and must disclose in such notice the corporate arrangement under which such utilization review is occurring. All managed care entities are required to comply with state laws and Regulation Chapters regarding utilization review as of the effective date of this Regulation Chapter, and must obtain certification in order to continue providing utilization review services.
- (3) A managed care entity which uses a managed care contractor or contractors for its utilization review program must notify the Commissioner in its managed care plan certification application of all such contractors for all its managed care plans, and the extent to which each contractor conducts utilization review. The managed care entity must attest that each contractor is either certified as a Private Review Agent or is deemed compliant as a Private Review Agent by the Commissioner.
- (4) A managed care entity must submit materials which inform applicable insureds and providers of the requirements of the utilization review plan to the Commissioner. Such materials shall include, but are not limited to, certificates, policies, member handbook excerpts, and provider contract provisions. The description of the utilization review plan must be clear and comprehensive and include the rights and responsibilities of covered persons and providers. The ultimate responsibility for requesting certification of utilization of health care services must be described in accordance with the terms of coverage. The information must include requirements pertaining to emergency, urgent, or out-of-network services, if applicable.
- (5) A managed care entity conducting utilization review as permitted in paragraph (2) must submit an application for certification as a Private Review Agent no later than the filing date for certification as a managed care plan under the Patient Protection Act. Such managed care entities shall be deemed to have a compliant utilization review program until such time as the Commissioner has made a formal determination on certification as a Private Review Agent.

Rule 120-2-80-.08. Quality Assurance.

- (1) A managed care entity shall disclose the quality assurance program in effect with documentation specified in Form GID PPA-1.
- (2) The managed care entity must demonstrate, to the satisfaction of the Commissioner, that its quality assurance program includes organizational arrangements and ongoing procedures for the identification, evaluation, resolution and follow up of potential and actual problems in health care administration and delivery to enrollees. The program should include, but not be limited to procedures to:
 - (a) monitor and resolve complaints;
 - (b) monitor provider performance;
 - (c) monitor patient satisfaction;
 - (d) establish appropriate quality indicators based on current standards of the relevant health care profession;
 - (e) meet reasonable thresholds with regard to quality indicators;
 - (f) credential network providers according to established standards;
 - (g) ensure access to network providers by maintaining sufficient numbers of primary care physicians and other types of providers within the managed care entity's service area; and
 - (h) detect both under utilization and over utilization of services.

Rule 120-2-81-.03. Definitions.

- (1) For the purpose of this Regulation Chapter, the following definitions shall apply:
- (a) "Assignment System" shall mean the Georgia Health Insurance Assignment System (GHAS) and the Georgia Health Benefits Assignment System (GHBAS) as established by O.C.G.A. § [33-29A-1](#) et seq. and this Regulation Chapter.
 - (b) "Continuation Coverage" shall mean any coverage under the Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA).
 - (c) "Eligible Dependent" shall mean a dependent of a qualifying eligible individual, including a spouse, covered under the qualifying eligible individual's most recent group health plan, or continuation coverage thereof, who meets the requirements of subparagraphs (f)(1) through (6) below. Eligible dependents shall include any dependents who would otherwise not qualify for coverage because they have less than eighteen (18) months previous creditable coverage, provided:
 - (1) they were born, adopted, or placed for adoption during coverage under the most recent group health plan or continuation coverage of the qualifying eligible individual; and
 - (2) were enrolled under such coverage within 31 days of birth, adoption, or placement for adoption.
 - (d) "Group Health Plan" shall mean creditable coverage under an employer sponsored health benefit arrangement which does not provide benefits through a group health insurance policy or contract, or a group health insurance policy or contract subject to the laws of another state and not required to issue conversion policies pursuant to O.C.G.A. § [33-24-21.1](#).
 - (e) "Individual Health Insurance" or "Individual Health Benefits" shall mean any creditable coverage offered by a health insurer or managed care organization in the individual market as defined in Section 2791(e)(1) of the federal Public Health Service Act, issued or actively marketed to an individual in Georgia through a policy or certificate of coverage approved by the Commissioner or otherwise

permitted by state law or the Rules and Regulations of the Office of Commissioner of Insurance, and as determined by the Commissioner pursuant to O.C.G.A. [33-29A-1](#) *et seq.* and Rule [120-2-81-.17](#), but, in any case, not including:

- (1) limited benefit insurance as defined in O.C.G.A. § [33-24-21.1\(I\)](#) or excepted benefits pursuant to [45 CFR 148.220](#); and
 - (2) certificates issued to individuals through a true association as defined in O.C.G.A. § [33-30-1\(b\)](#).
- (f) "Qualifying Eligible Individual" shall mean any Georgia domiciliary who meets all of the following:
- (1) As of the date on which the individual seeks coverage under this section, the aggregate period of previous creditable coverage is 18 months or more;
 - (2) The individual's most recent coverage was under a group health plan, or continuation coverage thereof;
 - (3) The individual's insurance under the group health plan has been terminated for any reason, including discontinuance of the group health plan in its entirety or with respect to a class, except for non-payment of premium contribution pertaining to the qualifying eligible individual;
 - (4) With regard to such an individual's coverage under a group health plan or continuation thereof, a qualifying event has occurred on or after October 30, 1997;
 - (5) The individual is not eligible for, or has not declined, any of the following:
 - (a) Coverage under a group health insurance policy or contract, or other group health plan, including continuation coverage under COBRA or O.C.G.A. §§ [33-24-21.1](#) or [33-24-21.2](#);
 - (b) Medicare;
 - (c) The state plan under Medicaid or any successor program; or
 - (d) Enhanced conversion coverage offered in accordance with O.C.G.A. § [33-24-21.1](#) and the Rules and Regulations of the Office of Commissioner of Insurance;
 - (6) The individual is not enrolled in or covered under any other creditable health insurance coverage, including individual health insurance policies or blanket accident and sickness insurance pertaining to student health coverage; and

- (7) The individual is one of the following:
- (a) A current or former employee, member, or enrollee covered under the group health plan or continuation coverage thereof, if applicable;
 - (b) The surviving spouse, if any, of a deceased covered employee, member, or enrollee, with or without dependents;
 - (c) The spouse, or a former spouse, with or without dependents, of a covered employee, member, or enrollee upon a qualifying event of the spouse while the employee, member, or enrollee remains insured under the group health plan or continuation thereof, by ceasing to be a qualified family member under the group health plan, such as a result of a valid decree of divorce; or
 - (d) An otherwise eligible dependent upon reaching limiting age or otherwise losing dependent status under the group health plan or continuation thereof, or under coverage issued to another qualifying eligible individual in the assignment system.
- (g) "Qualifying Event" shall mean loss of creditable coverage resulting from either:
- (1) Exhaustion of continuation coverage to the maximum extent eligible under federal law; or
 - (2) Termination of coverage under a group health plan, in the event such a qualifying eligible individual is not eligible for continuation coverage.
- (h) "Schedule of Benefits" shall mean the outline of benefit levels for a policy or plan, including but not limited to the types of benefits covered and associated cost-sharing provisions.
- (2) All other terms shall have the same meaning as in O.C.G.A. § [33-29A-1](#) *et seq.* and Section 2791 of the Federal Public Health Service Act.

History. ER. 120-2-81-0.8 adopted. F. Dec. 31, 1997; eff. Jan. 2, 1998, to remain in effect for a period of 120 days or until the effective date of a permanent Rule covering the same subject matter superseding the ER, is adopted, as specified by the Agency.

Amended: Permanent Rule entitled "Definitions" adopted. F. Apr. 29, 1998; eff. May 19, 1998.

Rule 120-2-81-.04. Georgia Health Insurance Assignment System.

- (1) The standard benefit schedules developed by the Commissioner in accordance with O.C.G.A. § [33-29A-4](#) shall be designated as Plan A and Plan B respectively. The model policy form template for Plans A and B is designated as Form GHIAS-1, and schedule of benefits for Plans A and B is designated as Form GHIAS-S.
- (2) A health insurer who participates in the Georgia Health Insurance Assignment System (GHIAS) must file policy forms necessary for providing the coverage required by the GHIAS no later than thirty (30) days following either the effective date of this Regulation Chapter, or the date of notice from the Commissioner that the health insurer is subject to the provisions of O.C.G.A. § [33-29A-1](#) et seq., whichever is later. Coverage provided pursuant to assignment by the GHIAS that is effective prior to the approval of the policy form shall be subject to the requirements of this Regulation Chapter and shall be amended pursuant to any modifications required by the Commissioner for approval of the filing. Such coverage made effective prior to approval of filing shall not be in violation if the policy form is filed within thirty (30) days as required.
- (3) Methods of Filing.
 - (a) A participating health insurer may file policy forms prepared in accordance with Form GHIAS-1 and the schedule of benefits in Form GHIAS-S . Such policy forms shall be deemed approved upon the date the Commissioner receives the filing, provided they conform to the template form; or
 - (b) A participating health insurer may file policy forms with contractual language substantially similar to the model policy form template for approval, but must include the same benefits prescribed in the model policy form template and the same schedule of benefits prescribed in Forms GHIAS-1 and GHIAS-S . Such filings must include a description which specifically outlines the variances in language between the model policy form template and the filed form. A policy form filing with variances from the model policy form template prescribed in Form GHIAS-1 may not contain any provisions which are less beneficial than the relevant template provisions with regard to qualifying eligible individuals or eligible dependents.
- (4) Special Rules for Preferred Provider Arrangements.
 - (a)
 - (a) A participating health insurer which issues health insurance policies with preferred provider arrangements in this state as approved by the Commissioner may offer standard policies with preferred provider arrangements. The out-of-network benefit levels must be at least as comprehensive as the schedule of benefits prescribed in Form GHIAS-S for Plans A and B.
 - (b)

- (b) Health insurers may offer preferred provider arrangements with gatekeeper provisions if such provisions are typically included in health insurance policies approved by the Commissioner and issued by the health insurer in this state outside of the assignment system.
 - (c)
 - (c) Policy forms including preferred provider arrangements may be filed utilizing the model policy form template for preferred provider arrangements described in Form GHIAS-2. Such policy forms shall be deemed approved upon the date the Commissioner receives the filings, provided they conform to the template form. Otherwise, the health insurer must file for approval a policy form that is substantially similar to the preferred provider model policy form template. The health insurer may submit a revised schedule of benefits for approval which reflects in-network and out-of-network benefit levels for Plans A and B.
 - (d)
 - (d) A policy form filing with variances from the model policy form template prescribed in Form GHIAS-1 may not contain any provisions which are less beneficial than the relevant template provisions with regard to qualifying eligible individuals or eligible dependents.
- (5) A health insurer shall file with the Commissioner for approval any and all materials used to offer coverage to a qualifying eligible individual and eligible dependents through the GHIAS. These materials include enrollment forms, forms describing or soliciting an election of benefit options, disclosures regarding coverage under standard and optional policies, and any other documentation issued to qualifying eligible individuals for enrollment in standard or optional policies offered by the health insurer.

Amended: Permanent Rule entitled "Georgia Health Insurance Assignment System" adopted. F. Apr. 29, 1998; eff. May 19, 1998.

Rule 120-2-81-.05. Georgia Health Benefits Assignment System.

- (1) The standard health benefit plans developed by the Commissioner in accordance with O.C.G.A. § [33-29A-5](#) shall be designated as Plan C and Plan D respectively. The model policy form template for Plans C and D are designated as Form GHBAS-1, and the schedule of benefits for Plans C and D is designated as Form GHBAS-S.

- (2) A managed care organization who participates in the Georgia Health Benefits Assignment System (GHBAS) must file policy forms necessary for providing the coverage required by the GHBAS no later than thirty (30) days following either the effective date of this Regulation Chapter, or the date of notice from the Commissioner that the managed care organization is subject to the provisions of O.C.G.A. § [33-29A-1](#) et seq., whichever is later. Coverage provided pursuant to assignment by the GHBAS that is effective prior to the approval of the policy form shall be subject to the requirements of this Regulation Chapter and shall be amended pursuant to any modifications required by the Commissioner for approval of the filing. Such coverage made effective prior to approval of filing shall not be in violation if the policy form is filed within thirty (30) days as required.
- (3) Methods of Filing.
- (a) A participating managed care organization may file policy forms prepared in accordance with Form GHBAS-1 and the schedule of benefits in Form GHBAS-S . Such policy forms shall be deemed approved upon the date the Commissioner receives the filing, provided they conform to the template form; or
- (b) A participating managed care organization may file policy forms with contractual language substantially similar to the model policy form template for approval, but must include the same benefits prescribed in the model policy form template and the same schedule of benefits prescribed in Forms GHBAS-1 and GHBAS-S . Such filings must include a description which specifically outlines the variances in language between the model policy form template and the filed form. A policy form filing with variances from the model policy form template prescribed in Form GHBAS-1 may not contain any provisions which are less beneficial than the relevant template provisions with regard to qualifying eligible individuals or eligible dependents.
- (4) A managed care organization shall file with the Commissioner for approval any and all materials used to offer coverage to a qualifying eligible individual and eligible dependents through the GHBAS. These materials include enrollment forms, forms describing or soliciting an election of benefit options, disclosures regarding coverage under standard and optional plans, and any other documentation issued to qualifying eligible individuals for enrollment in standard or optional plans offered by the managed care organization.

Amended: Permanent Rule entitled "Georgia Health Benefits Assignment System" adopted. F. Apr. 29, 1998; eff. May 19, 1998.

Rule 120-2-81-.06. Optional Policies or Plans.

- (1) A health insurer or managed care organization may offer, in addition to the standard policies or plans, other additional individual health insurance policies or plans approved by the Commissioner for use in this state. A health insurer or managed care organization may also offer additional policies or plans with benefit options based on the standard plans but with different benefit schedules, provided such policies are filed with the Commissioner for approval. In the event a health insurer or managed care organization elects to offer such optional plans to qualifying eligible individuals and eligible dependents, the health insurer or managed care organization must assure that:
 - (a) both the standard and optional policies or plans are presented in a written offer of coverage and there is no unfair inducement to persuade the applicant in his or her selection;
 - (b) all optional policies or plans are made available to all qualifying eligible individuals and eligible dependents applying for coverage under the assignment system and assigned to the health insurer or managed care organization;
 - (c) all optional policies or plans comply with Rules [120-2-81-.11](#), .12, .13, .14, .15, .18, and .19; and
 - (d) all optional policies or plans are accompanied by a certification from the health insurer or managed care organization which asserts the following:

"This policy option is not a standard plan developed by the Commissioner of Insurance of the State of Georgia. Unlike the standard plans, it may not contain maximum rate limitations and benefits as guaranteed by state law and regulation. Should you have questions regarding any differences between this policy and the standard plan, you may contact [name of health insurer or managed care organization] at [phone number]".

Amended: Permanent Rule entitled "Optional Policies or Plans" adopted. F. Apr. 29, 1998; eff. May 19, 1998.

Rule 120-2-81-.07. Premium Rates for Standard Policies or Plans.

- (1) Maximum premium rates are specified in Form GHAS-R for Plans A and B, and in Form GHBAS-R for Plans C and D. All premium rates utilized by the health insurer or managed care organization for standard policies or plans must be filed for approval and shall include premium modes available. All participating health insurers and managed

care organizations shall offer a monthly premium mode and may offer additional, less frequent, modes.

- (2) Actual premiums charged to any eligible individual may not exceed the maximum premium rates specified in Forms GHIAS-R and GHBAS-R . If premium modes that are less frequent than monthly are offered, the actual premiums charged through such modes may not exceed the maximum premium rates specified in Forms GHIAS-R and GHBAS-R discounted by the modal factors that the health insurer or managed care organization would typically apply to other policies for that premium mode.
- (3) If a health insurer offers standard policies with preferred provider arrangements as permitted by this Regulation Chapter, the maximum rate charged may not exceed the maximum premium rates specified in Form GHIAS-R for Plans A and B discounted by the same factor that the health insurer would typically apply to other policies with preferred provider arrangements.
- (4) Premium rates shall reflect, at a minimum, single male and female rating tiers and one family tier for any number of dependents. The Commissioner may prescribe additional tiers on Forms GHIAS-R and GHBAS-R if deemed necessary for the effective maintenance of the GHIAS and GHBAS.

Rule 120-2-81-.08. Individual Applications and Assignments.

- (1) Applications for coverage must be submitted to the Commissioner, or to a designated administrator appointed by the Commissioner, prior to assignment to a participating health insurer or managed care organization. Certificates of creditable coverage sufficient to establish status as a qualified eligible individual shall be submitted with the application if available.
- (2) Qualifying eligible individuals must use application forms for assignment included in Form APP-ASSIGN . The Commissioner, or the Commissioner's designated administrator, shall furnish such applications to licensed insurance agents or to other individuals upon request.
- (3) An application form may be completed and submitted either by a licensed insurance agent or directly by the applicant. If the application for coverage in GHIAS or GHBAS using Form APP-ASSIGN is prepared and submitted by a licensed insurance agent, the

participating health insurer or managed care organization to which the applicant is assigned and who issues a health insurance policy or benefit plan as a result of that assignment shall compensate that agent only for the procurement, preparation, and submission of such application at a commission rate of not less than 3 percent of the premiums received by the issuing health insurer or managed care organization for coverage issued to the applicant.

- (4) After initial review, the Commissioner, or the designated administrator, shall enter the application into either the GHIAS or the GHBAS as appears appropriate.
- (5) An applicant entered into the GHIAS will be assigned to a participating health insurer using a randomized assignment selection process established and maintained by the Commissioner, or an alternate method as deemed necessary by the Commissioner, that is based on the pro rata premium volume of individual health insurance business done in Georgia by each such health insurer. Assignments shall become final, and credited to the health insurer's share, upon final determination of eligibility and payment of the initial premium.
- (6) An applicant entered into the GHBAS will be assigned to a participating managed care organization using a randomized assignment selection process established and maintained by the Commissioner, or an alternate method as deemed necessary by the Commissioner, that is based on the pro rata premium volume of individual health benefits business done in Georgia by each such managed care organization. Assignments shall become final, and credited to the health insurer's share, upon final determination of eligibility and payment of the initial premium. If the applicant does not reside within a geographic area normally served by a participating managed care organization to which the applicant is initially assigned, the assignment selection process shall be repeated until a participating managed care organization is selected that serves the area in which the applicant resides. If no participating managed care organization serves the area in which the applicant resides, the applicant will be entered into the GHIAS and assigned to a participating health insurer.
- (7) The Commissioner or designated administrator shall notify the participating health insurer or managed care organization of an assignment and shall deliver the application to the assigned participating health insurer or managed care organization. The participating health insurer or managed care organization to which the applicant is assigned shall be responsible for verification of the information contained in the application and determining whether the applicant is an eligible individual. Upon determination that the applicant is an eligible individual, the participating health insurer or managed care organization to which the applicant is assigned shall, in writing, promptly offer the applicant a choice of the standard policies or plans (and optional policies or plans, if applicable). A participating health insurer or managed care organization shall make such determination and written offer no later than ten (10) business days after the health insurer or managed care organization is notified by the Commissioner of such assignment.

- (8) If the participating health insurer or managed care organization determines that the applicant is not an eligible individual, the determination, along with a detailed explanation for the decision, must be furnished to the applicant, and to the Commissioner or the designated administrator, no later than ten business (10) days after the health insurer or managed care organization is notified by the Commissioner of such assignment.
- (9) The written offer of coverage by a participating health insurer or managed care organization to an assigned applicant shall include copies of the appropriate schedule of benefits for each standard policy or plan as indicated on Form GHIAS-S or GHBAS-S, as well as a premium rate table for each policy or plan, as found in Forms GHIAS-R or GHBAS-R . The health insurer or managed care organization shall use the enrollment form prescribed in Form GHIAS-E or GHBAS-E for enrolling the applicant. The applicant must select the desired policy or plan and pay the initial premium within thirty (30) days of receiving such offer. Upon selection by the applicant and payment of the initial premium, the policy or plan shall be promptly issued and shall be made effective on the date specified by this Regulation Chapter.
- (10) Upon issuance of each health insurance policy or benefit plan, the participating health insurer or managed care organization shall notify the Commissioner, or the designated administrator, in writing and provide a copy of the completed enrollment form. Assignments will then be adjusted as policies are actually issued to assure that no participating health insurer or managed care organization issues coverage to a significantly disproportionate share of assigned applicants. Failure to promptly process applications, issue policies or benefit plans, and notify the Commissioner, could result in a disproportionate share of applicants being assigned to the participating health insurer or managed care organization. The participating health insurer or managed care organization shall promptly notify the Commissioner when it is determined that no policy or benefit plan will be purchased by the applicant.

Rule 120-2-81-.09. Administration.

- (1) The Commissioner shall administer the GHIAS and the GHBAS or may designate an administrator to perform any specific tasks necessary for the administration of the GHIAS and the GHBAS.

- (2) The Commissioner may require that costs associated with administration of the GHIAS and the GHBAS be reimbursed by the participating health insurers and managed care organizations. The amount of such reimbursement and method of payment shall be specified by the Commissioner and may be included as a share of premium payments made to health insurers or managed care organizations participating in GHIAS or GHBAS.

Amended: Permanent Rule entitled "Administration" adopted. F. Apr. 29, 1998; eff. May 19, 1998.

Rule 120-2-81-.10. Eligibility for Benefits; Time Limit for Application.

- (1) Coverage issued through the assignment system shall cover the qualifying eligible individual and any eligible dependents if coverage for all such individuals is elected pursuant to application as provided for in this Regulation Chapter.
- (2) A qualifying eligible individual or a spouse or former spouse who is an eligible dependent shall have a choice of individual coverage or family coverage to include any or all eligible dependents.
- (3) An election of assignment system coverage by a qualifying eligible individual shall be deemed to be an election on behalf of any eligible dependents covered under the qualifying eligible individual's continuation coverage, unless the application indicates an election of the qualifying eligible individual otherwise. Election shall not be contingent on identical election of any other family member with regard to individual or family coverage.
- (4) The Commissioner or administrator may at any time request additional information from the applicant for initial review of eligibility, and may delegate any part of the eligibility review and solicitation of additional information to health insurers and managed care organizations participating in GHIAS or GHBAS. The qualifying eligible individual must comply with a request for additional information and verification of eligibility to the fullest extent possible. Health insurers and managed care organizations are subject to the provisions of the Rules and Regulations of the Office of Commissioner of Insurance § [120-2-67-.12](#) with regard to accepting attestations and other evidence of coverage during verification if a certification of creditable coverage is not available.
- (5) A substantially completed application for coverage under the assignment system shall be filed with the Commissioner or the delegated administrator not later than sixty-three (63) consecutive days after a qualifying event. Such filing shall toll the sixty-three (63) consecutive day election period for the qualifying eligible individual and all other eligible

dependents for whom coverage is elected, provided that eligibility is ultimately verified and initial premium is paid.

- (6) Notwithstanding paragraph (5), qualified eligible individuals with qualifying events on or after October 30, 1997, but before January 1, 1998, may file a substantially completed application no later than March 3, 1998.

Rule 120-2-81-.14. Reduction of Coverage.

- (1) Any assignment system policy or plan may provide for a reduction or coordination of coverage on any person upon eligibility for coverage under Medicare.
- (2) No assignment system policy or plan may provide for a reduction or coordination of coverage based upon a person's eligibility for coverage under the Medicaid program of the State of Georgia.
- (3) The benefits under the assignment system policy or plan shall be secondary to any group or blanket accident and sickness contract covering any person insured under the assignment system policy.
- (4) The assignment system policy or plan may provide that any hospital, surgical or medical benefits payable thereunder may be reduced by the amount of any such benefits payable under the continuation coverage after the termination of the individual's insurance thereunder.
- (5) A health insurer or managed care organization may request information in advance of any premium due date of such policy or plan of any person covered thereunder only as to whether:
 - (a) The insured is covered for similar benefits under any arrangement of coverage for individuals in a group, whether on an insured or uninsured basis; or
 - (b) Similar benefits are provided for or available to such person, pursuant to or in accordance with the requirements of Medicare.

Rule 120-2-81-.17. Maintenance.

- (1) As deemed necessary, the Commissioner may survey all insurers and managed care organizations issuing or renewing accident and sickness coverage in this state to determine the health insurers and managed care organizations eligible to participate in GHIAS and GHBAS, the pro-rata volume of business in the individual health insurance market issued by each health insurer and managed care organization for the purpose of making fair and equitable assignments, and for any other purpose necessary for the continued implementation and maintenance of GHIAS and GHBAS. The Commissioner may use all authority granted to him or her by law to enforce disclosure of information solicited by this survey. The survey may require disclosure of information pertaining to the following:
 - (a) Premium volume under individual health insurance coverage issued in this state;
 - (b) Premium rates charged;
 - (c) Information regarding the marketing activity of insurers and managed care organizations in the individual health insurance market in this state;
 - (d) Policy form, benefit, and enrollment data for individual health insurance coverage sold or renewed in this state; and
 - (e) Any other information deemed appropriate by the Commissioner for the continued implementation and maintenance of O.C.G.A. § [33-29A-1](#) et seq.
- (2) In lieu of a survey, the Commissioner may require all insurers and managed care organizations issuing or renewing accident and sickness insurance coverage (pursuant to annual reporting data formally collected by the Commissioner) to submit to the Commissioner a supplement to the annual report, designed by the Commissioner, which requires disclosure of certain information for purposes of determining participation in the assignment system.
- (3) The Commissioner may periodically revise and update the standardized policy forms, benefit schedules, and rate tables used for the assignment system based on data collected from insurers and managed care organizations issuing or renewing individual health insurance coverage in this state. The Commissioner shall have discretion in determining fair and equitable methodologies for such revisions in compliance with O.C.G.A. § [33-29A-1](#) et seq. Additionally, the Commissioner may establish periods for which revisions shall take place and notify participating health insurers and managed care organizations of such revisions.
- (4) The assignment selection methodology for assigning qualifying eligible individuals to the GHIAS and GHBAS shall be determined by the Commissioner, shall provide for a reasonable randomized order of assignments based on market share, and shall be revised periodically to assure fair and equitable distribution of assignments among participating health insurers or managed care organizations based on data collected pursuant to this Rule.

Amended: Permanent Rule entitled "Maintenance" adopted. F. Apr. 29, 1998; eff. May 19, 1998.

Rule 120-2-81-.18. Subsequent Optional Choices.

- (1) Any qualifying eligible individual shall have the option of switching from Plan B to Plan A, or from Plan D to Plan C, or to any other optional policy or plan offered by the participating health insurer or managed care organization after enrolling and purchasing coverage under Plan B or Plan D in the assignment system. The participating health insurer or managed care organization shall also permit the privilege of switching from Plan A or Plan C to any other optional policy or plan offer under this Rule after the qualifying eligible individual enrolls for coverage. The participating health insurer or managed care organization may limit such choice to the following events:
 - (a) Once a year within 31 days of the policy anniversary date, with coverage becoming effective on the policy anniversary date;
 - (b) Upon notification of premium increase, with coverage becoming effective on the effective date of the premium increase; and
 - (c) Within 31 days of divorce or marriage, with coverage becoming effective on the first day of the following calendar month.

Repealed: New Rule of same title adopted. F. Oct. 8, 2002; eff. Oct. 28, 2002.

Rule 120-2-82-.04. Definitions.

For the purposes of this Regulation Chapter, the following definitions shall apply:

- (1) "ADA" means the American Diabetes Association;
- (2) "Certification" means the review, approval and assignment of a program site number of an outpatient diabetes education program that meets minimum standards;
- (3) "Certified Diabetes Educator" means a person currently certified by the National Certification Board of Diabetes Educators;
- (4) "Certified, Registered, or Licensed Health Care Professional" means those individuals who make up an interdisciplinary team, including professionals with skills specific to each content area. This team may include any individual of any health care profession, but must include at least:
 - (a) a licensed Dietitian; and
 - (b) a Registered Nurse or other health care professional who is a Certified Diabetes Educator.
- (5) "Diabetes Outpatient Self-Management Training and Education" means a program that sets forth proper self-management and treatment of diabetes, including information on diet.
- (6) "Diabetes Mellitus" includes the following:
 - (a) "Insulin-dependent diabetes," known as Type 1 Diabetes, and characterized by beta cell destruction, usually leading to absolute insulin deficiency and requiring insulin injections to sustain life;
 - (b) "Type 2 Diabetes," characterized by insulin resistance and relative insulin deficiency. Type 2 Diabetes is managed by food plan, exercise, weight control,

and in some instances, oral medications and/or insulin. Type 2 Diabetes has previously been defined as "noninsulin dependent diabetes;"

- (c) "Gestational diabetes" which is diagnosed during pregnancy;
 - (d) "Non-insulin using diabetes" which is controlled by food/meal planning and exercise.
- (7) "Dietitian" means an individual licensed pursuant to the applicable statutes and Rules and Regulations of the State of Georgia;
 - (8) "Pharmacist" means an individual licensed pursuant to the applicable statutes and Rules and Regulations of the State of Georgia;
 - (9) "Physician" means an individual licensed pursuant to the applicable statutes and Rules and Regulations of the State of Georgia and practicing within the scope of such licensure;
 - (10) "Registered Nurse" means an individual who qualifies under the applicable statutes or administrative rules of the licensing or registry board of the state.

Repealed: New Rule of same title adopted. F. Oct. 8, 2002; eff. Oct. 28, 2002.

Rule 120-2-82-.05. Pharmacologic Agent Coverage Defined.

Health insurance policies and plans, except limited benefit insurance policies, shall provide coverage for the following pharmacologic agents when prescribed by a physician licensed to practice medicine pursuant to Title 43:

- (1) Insulin of each class approved by the federal Food and Drug Administration (FDA) including formulations available either in a vial or cartridge;
- (2) Prescription insulin of each class approved by the federal Food and Drug Administration (FDA) including formulations available either in a vial or cartridge formulation;
- (3) Prescription oral medications of each class approved by the federal Food and Drug Administration (FDA) for the management of diabetes;
- (4) Oral products approved by the federal Food and Drug Administration (FDA) for the management of diabetes;
- (5) Glucagon kits;

- (6) Pharmacologic agents approved by the federal Food and Drug Administration (FDA) for the management of diabetes and its complications.

Rule 120-2-82-.06. Minimum Standards for Equipment Coverage Defined.

Health insurance policies and plans, except limited benefit insurance policies, shall provide coverage for the following medical equipment, non-disposable and durable medical equipment when prescribed by a physician licensed to practice medicine pursuant to Title 43:

- (1) Blood glucose monitors and glucose monitors, including commercially available blood glucose monitors designed for patients' use and for persons who have been diagnosed with diabetes;
- (2) Blood glucose monitors and glucose monitors for the legally blind or visually impaired due to diabetes which includes commercially available blood glucose monitors designed for patient use with adaptive devices and for persons who are legally blind and have been diagnosed with diabetes, or are visually impaired due to diagnosed diabetes;
- (3) Injection aids, including those adaptable to meet the needs of the legally blind, to assist with insulin injection;
- (4) Insulin pumps, which includes insulin infusion pumps;
- (5) Medical supplies for use with or without insulin pumps and insulin infusion pumps to include durable devices to assist with the injection of insulin and infusion sets;
- (6) Therapeutic shoes, custom fitted inserts and related orthopedic footwear associated with the prevention and treatment of diabetes and diabetes related complications;
- (7) Pen-like insulin injection devices designed for multiple use;
- (8) Lancing devices associated with the drawing of blood samples for use with blood glucose monitors; and
- (9) Such other medical equipment, non-disposable and durable medical equipment that is medically necessary and consistent with the current standards of care of the American Diabetes Association.

Education, Training, and Medical Nutrition Therapy" adopted. F. Nov. 12, 1999; eff. Dec. 2, 1999. **Repealed:** New Rule entitled "Minimum Standards for Equipment Coverage Defined" adopted. F. Oct. 8, 2002; eff. Oct. 28,

Rule 120-2-82-.07. Minimum Standards for Single-Use Medical Supply Coverage Defined.

Health insurance policies and plans, except limited benefit insurance policies, shall provide coverage for the following single-use medical supplies when prescribed by a physician licensed to practice medicine pursuant to Title 43:

- (1) Test strips for glucose monitors, which include test strips whose performance achieved clearance by the federal Food and Drug Administration (FDA) for marketing;
- (2) Visual reading and urine testing strips, which includes visual reading strips for glucose, urine testing strips for ketones, or urine test strips for both glucose and ketones. Using urine test strips for glucose only is not acceptable as the sole method of monitoring blood glucose levels;
- (3) Lancets and single use lancing devices used in conjunction with the monitoring of glycemic control;
- (4) Syringes, which includes insulin syringes, insulin injection needles for use with pen-like insulin injection devices and other disposable parts required for insulin injection aids;
- (5) Medical supplies for use with insulin pumps and insulin infusion pumps to include infusion sets, cartridges, syringes, skin preparation, batteries and other disposable supplies needed to maintain insulin pump therapy;
- (6) Medical supplies for use with or without syringes, insulin pumps and insulin infusion pumps to include disposable devices to assist with the injection of insulin and infusion sets, alcohol swabs and related preparations and other similar compounds associated with the cleansing of injection sites prior to the administration of insulin; and
- (7) Such other single-use medical supplies that are medically necessary and consistent with the current standards of care of the American Diabetes Association.

Rule 120-2-82-.08. Minimum Standards for Diabetes Self-Management Training Defined.

Health insurance policies and plans, except limited benefit insurance policies, shall provide coverage for diabetes self-management training and medical nutrition therapy when prescribed by a physician licensed to practice medicine pursuant to Title 43. Minimum standards for diabetes self-management training and medical nutrition therapy shall conform to the following:

- (1) Diabetes self-management training and medical nutrition therapy services must be provided by a diabetes self-management training program that meets the following criteria:
 - (a) The program has been recognized by the federal Centers for Medicare & Medicaid Services (CMS), or
 - (b) Obtains or receives approval, accreditation or certification by a national organization assessing standards of quality in the provision of diabetes self-management education.
- (2) Diabetes self-management training programs shall be provided when any of the following criteria are met and when the service is prescribed by a physician licensed to practice medicine pursuant to Title 43.
 - (a) Upon a physician's diagnosis that an insured or dependent has diabetes;
 - (b) Upon a significant change in a health care insurance policyholder's/ dependent's diabetes related condition;
 - (c) Upon a change in a health care insurance policyholder's/dependent's diagnostic levels;
 - (d) Upon a change in treatment regimen;
 - (e) Upon a patient's initiation of insulin therapy;
 - (f) Upon identification of inadequate diabetes control as evidenced by diagnostic laboratory tests falling outside of acceptable ranges;
 - (g) Upon determination that a patient is at high risk for complications based on inadequate glycemic control documented by acute episodes of severe hypoglycemia or acute severe hyperglycemia occurring in the patient's history during which the insured needed emergency room visits or hospitalization;

- (h) Upon determination that a patient is at high risk based on at least one of the documented diabetes related complications including:
 - 1. Lack of feeling in the foot or other foot complications such as foot ulcers, deformities or amputation;
 - 2. Pre-proliferative or proliferative retinopathy or prior laser treatment of the eye;
 - 3. Kidney complications related to diabetes, when manifested by albuminuria without other cause, or elevated creatinine.
- (3) Medical nutrition therapy services shall be provided in addition to diabetes self-management training when prescribed by a physician licensed to practice medicine pursuant to Title 43 when the following criteria are met:
 - (a) Upon a physician's diagnosis that an insured or dependent has diabetes;
 - (b) Upon a significant change in a health care insurance policyholder's/ dependent's diabetes related condition;
 - (c) Upon a change in a health care insurance policyholder's/dependent's diagnostic level;
 - (d) Upon a change in treatment regimen;
 - (e) Upon a patient's initiation of insulin therapy;
 - (f) Upon identification of inadequate diabetes control as evidenced by diagnostic laboratory tests falling outside of acceptable ranges;
 - (g) Upon determination that a patient is at high risk for complications based on inadequate glycemic control documented by acute episodes of severe hypoglycemia or acute severe hyperglycemia occurring in the patient's history during which the insured needed and received emergency room visits or hospitalization;
 - (h) Upon determination that a patient is at high risk based on at least one of the documented diabetes related complications including:
 - 1. Lack of feeling in the foot or other foot complications such as foot ulcers, deformities or amputation;
 - 2. Pre-proliferative or proliferative retinopathy or prior laser treatment of the eye;

3. Kidney complications related to diabetes, when manifested by albuminuria without other cause, or elevated creatinine.
- (4) Instructions in diabetes self-management training shall be provided by healthcare professionals meeting any or all of the following criteria:
 - (a) Certified diabetes educator;
 - (b) A certified, registered or licensed health professional with expertise in diabetes satisfying criteria for Medicare coverage for diabetes education and training pursuant to 42 CFR Part 410.
- (5) Instruction in medical nutrition therapy shall be provided by healthcare professionals meeting any or all of the following criteria:
 - (a) Registered dietitian;
 - (b) A certified, registered or licensed health professional with expertise in medical nutrition therapy satisfying criteria for Medicare coverage for medical nutrition therapy pursuant to 42 CFR Part 410.
- (6) Primary or initial diabetes self-management training and medical nutrition therapy services shall be provided in group settings for a total of 10 hours in the initial year after diagnosis unless the following criteria are met:
 - (a) A group session is not available within 2 months of the date diabetes self-management training or medical nutrition therapy are ordered; or
 - (b) The insured's physician documents that the insured has special needs that will hinder effective participation in a group training session.
- (7) Secondary or follow-up diabetes self-management training and medical nutrition therapy shall be provided during individual patient meetings or sessions within the first 12 months after a primary or initial diabetes self-management training or medical nutrition therapy group session.

Subject 120-2-83. CONSUMER CHOICE OPTION.

Rule 120-2-83-.01. Authority and Purpose.

This Regulation Chapter is adopted and promulgated pursuant to the authority granted to the Commissioner of Insurance pursuant to O.C.G.A. §§ [33-2-9](#) and [33-20A-9.1](#). The purpose and intent of this Regulation Chapter is to provide for the implementation of the consumer choice option as defined in O.C.G.A. § [33-20A-9.1\(b\)](#).

Cite as Ga. Comp. R. & Regs. R. 120-2-83-.01

Authority: O.C.G.A. Secs. [33-2-9](#), [33-20A-9.1](#).

History. Original Rule entitled "Authority and Purpose" was f. as ER. 120-2-83-0.10-.01. F. and eff. on November 24, 1999, the date of adoption, to remain in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter is adopted, as specified by the Agency.

Amended: Permanent Rule of the same title adopted. F. Mar. 3, 2000; eff. Mar. 23, 2000.

Rule 120-2-83-.02. Definitions.

(a) For purposes of this Regulation Chapter and O.C.G.A. § 33-20A-9.1:

- (1) "Accepted provider" shall mean a provider that has been nominated by an enrollee and either accepted by a managed care entity which has chosen not to credential nominated providers or accepted by a managed care entity following credentialing in accordance with Rule [120-2-83-.05](#).

- (2) "Deselected provider" shall mean a provider that has been nominated by an enrollee and provisionally accepted by the managed care entity, but later disapproved for reimbursement because the provider fails to meet one of the criteria for participation set forth in O.C.G.A. § [33-20A-9.1\(c\)](#).
- (3) "Enrollee" shall mean an enrollee of a managed care entity required to offer the consumer choice option pursuant to O.C.G.A. § 33- 20A-9.1(b).
- (4) "Nominated provider" shall mean an out of network provider nominated by an enrollee.
- (5) "Option" shall mean the consumer choice option as defined in O.C.G.A. § [33-20A-9.1\(b\)](#).
- (6) "Managed Care Entity" shall mean any entity identified pursuant to O.C.G.A. § [33-20A-3\(6\)](#) and required to offer the option pursuant to O.C.G.A. § [33-20A-9.1\(c\)](#).
- (7) "Provider" shall mean a health care provider as defined in O.C.G.A. § [33-20A-3\(3\)](#) or a hospital.
- (8) "Provisionally accepted provider" shall mean a provider that has been nominated by an enrollee and provisionally accepted by the managed care entity upon receipt of the nominating form.
- (9) "Rejected provider" shall mean a provider that has been nominated by an enrollee and disapproved because the provider fails to meet one of the criteria for participation set forth in O.C.G.A. § 33- 20A-9.1(c) by a managed care entity which has chosen not to credential nominated providers.
- (10) "Similarly situated provider" shall mean an in network provider located in the same geographic area and providing the same or similar services as the nominated provider.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-20A-9.1](#).

History. Original Rule entitled "Definitions" was f. as ER 120-2-83- 0.10-.02. F. and eff. on November 24, 1999, the date of adoption, to remain in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter is adopted, as specified by the Agency.

Amended: Permanent Rule of same title adopted. F. Mar. 3, 2000; eff. Mar. 23, 2000.

Rule 120-2-83-.03. Notification and Disclosure.

- (a) Notification of the option's availability and explanatory materials regarding the option shall be provided to enrollees at least annually at open enrollment, renewal, time of

solicitation or by direct mail advertising, or upon request. Such information shall be provided to prospective enrollees upon request. Such information shall also be provided to newly eligible employees. Information shall include, but shall not be limited to:

- (1) A one page form to be completed and signed by the enrollee and the nominated provider containing the enrollee's name, identification number, group number, address, date of birth, and telephone number. The form shall also include the provider's name, group name (if applicable), State of Georgia license number, tax identification number, address, identity of the hospital(s) where the provider has privileges, telephone number, and facsimile number;
 - (2) Pricing (including information that allows the enrollee to compare pricing with and without the option so that the enrollee may make an informed choice);
 - (3) The nomination process in accordance with Rule [120-2-83-.04](#); and
 - (4) The credentialing process in accordance with Rule [120-2-83-.05](#).
- (b) Only the enrollee may elect the option on behalf of him/herself and his/her eligible dependents.
- (c) The Commissioner may create a disclosure form for managed care entities to provide to each prospective enrollee or enrollee with the information required in paragraphs (a) and (b) of this Rule. Said form may be changed from time to time as the Commissioner deems necessary.
- (d) Enrollees shall have the right to withdraw from the option in limited situations where their nominated provider is rejected, deselected or declines to participate, effective the first day of the month following written notice to the managed care entity. In the event of withdrawal, the managed care entity shall provide the enrollee with a commensurate decrease in premium for the remainder of the plan year. However, due to federal taxation consequences, the enrollee's right to withdraw shall not apply to cafeteria benefit plans qualified under § 125 of the Internal Revenue Code.

History. Original Rule entitled "Notification and Disclosure" was f. as ER 120-2-83-0.10-.03. F. and eff. on November 24, 1999, the date of adoption, to remain in effect for 120 days or until the effective date of a permanent Rule covering the same subject matter is adopted, as specified by the Agency.

Amended: Permanent Rule of same title adopted. F. Mar. 3, 2000; eff. Mar. 23, 2000.

[Rule 120-2-83-.04. Provider Nomination.](#)

- (a) Managed care entities shall create, and make readily available to nominated providers, a nomination package which shall include, if applicable:

- (1) Information regarding credentialing procedures pursuant to Rule [120-2-83-.05](#). This includes, but is not limited to, all forms required to be completed by the provider for the purpose of credentialing; and
 - (2) A compensation schedule specific to the nominated provider's area of practice.
- (b) Managed care entities shall accept the nomination form referenced in Rule [120-2-83-.03\(a\)](#) by any means that evidences the date and time of receipt.
 - (c) Submission of the nomination form by the enrollee shall not constitute acceptance of the nominated provider by the managed care entity.
 - (d) Within three (3) business days of receipt of the nomination form by the insurer, the managed care entity shall provide notice in writing, to the provider and the enrollee, of the provisional acceptance (in the case of managed care entities which will implement a credentialing process in accordance with Rule [120-2-83-.05](#)), final acceptance (in the case of managed care entities which choose not to implement a credentialing process in accordance with Rule [120-2-83-.05](#)), or the rejection of the nominated provider. In addition, the managed care entity shall make a good faith effort to provide the notice required by this paragraph by facsimile where practicable.
 - (e) For deselected or rejected providers, the notice referred to in paragraph (d) shall contain specific statutory, medical, professional or ethical reasons for deselection or rejection. The provider may not be re-nominated by the enrollee unless the nomination form contains materially different information as determined by the provider or the managed care entity.
 - (f) Nothing in this Rule shall be construed to limit the enrollee's right to emergency care as set forth in O.C.G.A. §§ [33-20A-3](#) and 33- 20A-9.
 - (g) Accepted or provisionally accepted providers and enrollees shall be required to adhere to generally accepted rules of the managed care entity.
 - (h) Accepted or provisionally accepted providers shall be reimbursed at the average contractual rate paid to similarly situated providers and such rates may differ from plan to plan offered by a managed care entity.
 - (i) If a nominated provider will not be providing services at a hospital within the managed care entity's network, the enrollee must submit an additional nomination form for the hospital where services will be provided. Managed care entities shall include information regarding this requirement with the material supplied pursuant to Rule [120-2-83-.03\(a\)](#). Nothing in this Rule shall require a provider to perform services only at hospitals within the managed care entity's network. Pursuant to O.C.G.A. § [33-20A-9.1\(c\)\(1\)\(d\)](#), out of network hospitals must meet all other reasonable criteria as required by the managed care plan of in network hospitals.

- (j) Where a managed care entity provisionally accepts a nominated provider and then later deselects that provider based on the credentialing process in accordance with Rule [120-2-83-.05](#), the managed care entity is responsible for payment for covered services provided during the credentialing review period and before notice of the deselection of the nominated provider is received by the enrollee and the provider.
- (k) Nothing in this Rule shall prohibit a managed care entity from implementing alternate measures which are more beneficial to the enrollee as agreed to by the enrollee and managed care entity, providing the minimum requirements of this Rule are met.

Subject 120-2-87. REGULATIONS GOVERNING THE COLLECTION, USE, AND DISCLOSURE OF INFORMATION GATHERED IN CONNECTION WITH INSURANCE TRANSACTIONS.

Rule 120-2-87-.01. Purpose.

The purpose of this regulation is to implement the provisions of Chapter 39 of Title 33 of the Official Code of Georgia Annotated and to provide an interpretive ruling to carry out the responsibilities of the Office of the Commissioner concerning the collection, use, and disclosure of personal information in connection with insurance transactions in Georgia pursuant to Title V of the Gramm-Leach-Bliley Act ([15 U.S.C. 6801](#)*et seq.*).

[Appendix \(120-2-89\) A. .](#)

FREQUENTLY ASKED QUESTIONS

ABOUT YOUR SURPLUS LINES POLICY

Your broker has placed the insurance you requested in the "surplus lines market" with one or more surplus lines insurers. By definition, such surplus lines insurers are not licensed in the state, but this does not mean that the transaction is not regulated. The surplus lines market is an insurance marketplace that is established for the purpose of insuring unique or hard to place risks. Some of the rules that apply to surplus lines insurance policies and surplus lines insurance companies differ from those that govern coverage obtained from insurance companies licensed in your state. In order for you to better understand the surplus lines market and the rights you have in a surplus lines transaction, the following material is provided.

Please read this brochure carefully, and should you have any questions after reading the material, do not hesitate to ask your broker. If you wish further information, please contact the Regulatory Services Division, Room 604 West Tower, 2 Martin Luther King, Jr. Drive, Atlanta, Georgia 30334 or (404) 656-2074 or toll free at (800) 656-2298 (request Regulatory Services Division).

WHAT IS A SURPLUS LINES POLICY?

A surplus lines policy is a policy placed with an insurer that is not licensed (or 'admitted') in this state, but is nonetheless eligible to provide insurance on property or liability insurance protection to citizens of this state through specially licensed agents or brokers known as surplus lines brokers.

WHY AM I GETTING COVERAGE FROM A SURPLUS LINES INSURER?

Your agent or broker may have been unable to obtain the coverage you requested from insurance companies licensed in this state, but was able to obtain coverage from an eligible surplus lines insurance company. The reason for your agent or broker's action is that the risk or property for which you sought coverage may be unique or have certain risk characteristics that caused licensed insurers to decline to write the policy. In circumstances where licensed insurers will not write the risk, your broker is authorized by state law or regulation to obtain the coverage from a "surplus lines" insurer.

SINCE THE SURPLUS LINES INSURER IS UNLICENSED, IS THE TRANSACTION UNREGULATED?

Surplus lines transactions are regulated by state law that require that surplus lines policies be procured only by specially licensed brokers. These are called surplus lines brokers and they are

authorized to transact business with certain unlicensed insurers that meet financial and other eligibility standards set by the state. These insurers are known as surplus lines insurers. Your agent may have worked with a licensed surplus lines broker in securing your policy. Alternatively, your agent may hold a surplus lines broker's license.

IS MY SURPLUS LINES POLICY COVERED BY THE STATE GUARANTY OR INSOLVENCY FUND?

No. There is no guaranty fund for coverage for surplus lines policies. The guaranty fund, which provides payments in the event that your insurance company becomes insolvent, only covers policies of licensed insurers.

HOW IS THE RATE OR PRICE OF A SURPLUS LINES POLICY DETERMINED?

The rate or premium charged for a surplus lines policy is determined by the surplus lines insurer. As unlicensed insurers, surplus lines insurers do not file their rates or premiums with the state for review or approval.

DOES THE GEORGIA DEPARTMENT OF INSURANCE REVIEW OR APPROVE THE TERMS AND CONDITIONS OF THIS POLICY?

Pursuant to O.C.G.A. § [33-5-21.1](#), policies of surplus lines insurers are not reviewed or approved by the Georgia Department of Insurance.

CAN MY POLICY BE RENEWED OR EXTENDED?

Your surplus lines policy may or may not be renewed or extended when the policy expires. An extension of the policy coverage will be dependent upon the continued unavailability of the policy coverage from insurers licensed in this state and the willingness of the surplus lines insurer to continue to accept the risk. Since a surplus lines policy is generally not subject to the same notice requirements as a policy issued by a licensed insurer, notice of a premium increase for a new policy term or the company's intent not to extend the policy at the same terms and conditions might not be provided until close to the date the policy expires. Therefore, you should keep in contact with your agent or broker, particularly as the expiration of the policy term nears, to ascertain the status of the policy and to assure continuity of coverage.

Rule 120-2-90-.03. Definitions.

(1) As used in this regulation:

- (a) "2001 CSO Mortality Table" means that mortality table, consisting of separate rates for mortality for male and female lives, developed by the American Academy of Actuaries CSO Task Force from the Valuation Basic Mortality Table developed by the Society of Actuaries Individual Life Insurance Valuation Mortality Task Force, and adopted by the NAIC in December 2002. The 2001 CSO Mortality Table is included in the Proceedings of the NAIC (2nd Quarter 2002) and supplemented by the 2001 CSO Preferred Class Structure Mortality Table defined below in subsection (d). Unless the context indicates otherwise, the "2001 CSO Mortality Table" includes both the ultimate form of that table and the select and ultimate form of that table and includes both the smoker and nonsmoker mortality tables and the composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality tables.
- (b) "2001 CSO Mortality Table (F)" means that mortality table consisting of the rates of mortality for female lives from the 2001 CSO Mortality Table.
- (c) "2001 CSO Mortality Table (M)" means that mortality table consisting of the rates of mortality for male lives from the 2001 CSO Mortality Table.
- (d) "2001 CSO Preferred Class Structure Mortality Table" means mortality tables with separate rates of mortality for Super Preferred Nonsmokers, Preferred

Nonsmokers, Residual Standard Nonsmokers, Preferred Smokers, and Residual Standard Smoker splits of the 2001 CSO Nonsmoker and Smoker tables as adopted by the NAIC at the September, 2006 national meeting and published in the *NAIC Proceedings {3rd Quarter 2006}*. Unless the context indicates otherwise, the "2001 CSO Preferred Class Structure Mortality Table" includes both the ultimate form of that table and the select and ultimate form of that table. It includes both the smoker and nonsmoker mortality tables. It includes both the male and female mortality tables and the gender composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality table.

- (e) "Composite mortality tables" means mortality tables with rates of mortality that do not distinguish between smokers and nonsmokers.
 - (f) "Smoker and nonsmoker mortality tables" means mortality tables with separate rates of mortality for smokers and nonsmokers.
 - (g) "Appendix A-830" means Appendix A-830 of the NAIC Accounting Practices and Procedures Manual.
 - (h) "Statistical agent" means an entity with proven systems for protecting the confidentiality of individual insured and insurer information; demonstrated resources for and history of ongoing electronic communications and data transfer ensuring data integrity with insurers, which are its members or subscribers; and a history of and means for aggregation of data and accurate promulgation of the experience modifications in a timely manner.
- (2) In addition to the other requirements of this regulation, a company shall use Appendix A-830 for the valuation of life insurance policies. This regulation does not expand the applicability of Appendix A-830 to include life insurance policies otherwise exempt under Appendix A-830.

Rule 120-2-90-.04. 2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table.

- (1) At the election of the company for any one of more specified plans of insurance and subject to the conditions stated in this regulation, the 2001 CSO Mortality Table may be used as the minimum standard for policies issued on or after the effective date of this regulation and before the date specified in subsection (2) to which O.C.G.A. §§ [33-10-](#)

[13\(d\)\(1\)\(B\)\(iii\)](#) and [33-25-4\(e\)\(8\)\(F\)](#) and Appendix A-830 are applicable. If the company elects to use the 2001 CSO Mortality Table, it shall do so for both valuation and nonforfeiture purposes.

- (2) Subject to the conditions stated in this regulation, the 2001 CSO Mortality Table shall be used in determining minimum standards for policies issued on and after January 1, 2009, to which O.C.G.A. §§ [33-10-13\(d\)\(1\)\(B\)\(iii\)](#) and [33-25-4\(e\)\(8\)\(F\)](#) and Appendix A-830 are applicable.
- (3) At the election of the company, for each calendar year of issue, for any one or more specified plans of insurance and subject to satisfying the conditions stated in this regulation, the 2001 CSO Preferred Class Structure Mortality Table may be substituted in place of the 2001 CSO Smoker or Nonsmoker Mortality Table as the minimum valuation standard for policies issued on or after January 1, 2007. No such election shall be made until the company demonstrates at least 20% of the business to be valued on this table is in one or more of the preferred classes. A table from the 2001 CSO Preferred Class Structure Mortality Table used in place of a 2001 CSO Mortality Table, pursuant to the requirements of this rule, will be treated as part of the 2001 CSO Mortality Table only for purposes of reserve valuation.

Authority: O.C.G.A. Secs. [33-2-9](#), [33-10-13](#), [33-25-4](#).

History. Original Rule entitled "2001 CSO Mortality Table" adopted. F. Jan. 28, 2005; eff. Feb. 17, 2005.

Repealed: New Rule entitled "2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table" adopted. F. Dec. 11, 2006; eff. Jan. 1, 2007, as specified by the Agency.

Rule 120-2-90-.05. Conditions.

- (1) For each plan of insurance with separate rates for smokers and nonsmokers an insurer may use:
 - (a) Composite mortality tables to determine minimum reserve liabilities and minimum cash surrender values and amounts of paid-up nonforfeiture benefits;
 - (b) Smoker and nonsmoker mortality tables to determine the valuation net premiums and additional minimum reserves, if any, required by O.C.G.A. § [33-10-13\(j\)](#) and use composite mortality tables to determine the basic minimum reserves, minimum cash surrender values and amounts of paid-up nonforfeiture benefits; or
 - (c) Smoker and nonsmoker mortality to determine minimum reserve liabilities and minimum cash surrender values and amounts of paid-up nonforfeiture benefits.
- (2) For each plan of insurance with separate rates for Preferred and Standard Nonsmoker lives, an insurer may use the Super Preferred Nonsmoker, Preferred Nonsmoker, and Residual Standard Nonsmoker tables to substitute for the Nonsmoker mortality table

found in the 2001 CSO Mortality Table to determine minimum reserves. At the time of election and annually thereafter, except for business valued under the Residual Standard Nonsmoker Table, the appointed actuary shall certify that:

- (a) The present value of death benefits over the next ten years after the valuation date, using the anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the valuation basic table corresponding to the valuation table being used for that class.
 - (b) The present value of death benefits over the future life of the contracts, using anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the valuation basic table corresponding to the valuation table being used for that class.
- (3) For plans of insurance without separate rates for smokers and nonsmokers the composite mortality tables shall be used.
- (4) For each plan of insurance with separate rates for Preferred and Standard Smoker lives, an insurer may use the Preferred Smoker and Residual Standard Smoker tables to substitute for the Smoker mortality table found in the 2001 CSO Mortality Table to determine minimum reserves. At the time of election and annually thereafter, for business valued under the Preferred Smoker Table, the appointed actuary shall certify that:
 - (a) The present value of death benefits over the next ten years after the valuation date, using the anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the Preferred Smoker valuation basic table corresponding to the valuation table being used for that class.
 - (b) The present value of death benefits over the future life of the contracts, using anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the Preferred Smoker valuation basic table.
- (5) For the purpose of determining minimum reserve liabilities and minimum cash surrender values and amounts of paid-up nonforfeiture benefits, the 2001 CSO Mortality Table may, at the option of the company for each plan of insurance, be used in its ultimate or select and ultimate form, subject to the restrictions of § [120-2-90-.06](#) and Appendix A-830 relative to use of the select and ultimate form.
- (6) When the 2001 CSO Mortality Table is the minimum reserve standard for any plan for a company, the actuarial opinion in the annual statement filed with the commissioner shall be based on an asset adequacy analysis as specified in Georgia Insurance Department Regulation Chapter [120-2-74-.05](#). A commissioner may exempt a company from this requirement if it only does business in this state and in no other state.

- (7) Unless exempted by the commissioner, every authorized insurer using the 2001 CSO Preferred Class Structure Table shall annually file with the commissioner, with the NAIC, or with a statistical agent designated by the NAIC and acceptable to the commissioner, statistical reports showing mortality and such other information as the commissioner may deem necessary or expedient for the administration of the provisions of this regulation. The form of the reports shall be established by the commissioner or the commissioner may require the use of a form established by the NAIC or by a statistical agent designated by the NAIC and acceptable to the commissioner.

Repealed: New Rule of same title adopted. F. Dec. 11, 2006; eff. Jan. 1, 2007, as specified by the Agency.

Rule 120-2-90-.06. Applicability of the 2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table to Life Insurance Policies Valued Pursuant to Appendix A-830 of the NAIC Accounting Practices and Procedures Manual.

- (1) The 2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table may be used in valuing a life policy pursuant to Appendix A-830 in the following manner, subject to the transition dates for use of the 2001 CSO Mortality Table in §120-2-90-04;
- (a) In determining the applicability of Appendix A-830 to any universal life policy, the net level reserve premium for the secondary guarantee period is based on the ultimate mortality rates in the 2001 CSO Mortality Table or the ultimate mortality rates in the 2001 CSO Preferred Class Structure Mortality Table.
 - (b) All calculations under the contract segmentation method are made using the 2001 CSO Mortality Rate, and, if elected, the optional minimum mortality standard for deficiency reserves stipulated in 120-2-90-.06(1)(d) of this regulation. The value of " $qx+k+t-1$ " is the valuation mortality rate for deficiency reserves in policy year $k+t$, but using the unmodified select mortality rates if modified select mortality rates are used in the computation of deficiency reserves.
 - (c) For purposes of general calculation requirements for basic reserves, the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table is the minimum standard.
 - (d) For purposes of general calculation requirements for deficiency reserves, the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table is the minimum standard. If select mortality rates are used, they may be multiplied by X percent for durations in the first segment, subject to the conditions specified

in § 17c of Appendix A-830. In demonstrating compliance with those conditions, the demonstrations may not combine the results of tests that utilize the 1980 CSO Mortality Table with those tests that utilize the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table, unless the combination is explicitly required by regulation or necessary to be in compliance with relevant Actuarial Standards of Practice.

- (e) For calculating the minimum value of basic reserves for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), the valuation mortality table used in determining the tabular cost of insurance shall be the ultimate mortality rates in the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table.
 - (f) For determining the optional exemption for yearly renewable term reinsurance for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), the calculations shall use the maximum valuation interest rate and the ultimate mortality rates in the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table.
 - (g) For determining the optional exemption for attained-age-based yearly renewable term life policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), the calculations shall use the maximum valuation interest rate and the ultimate mortality rates in the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table.
 - (h) For determining the exemption for unitary reserves for certain n-year renewable term life policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), the calculations shall use the ultimate mortality rates in the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table.
 - (i) For flexible premium and fixed premium universal life policies that contain provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period, the one-year valuation premium for purposes of identifying policies with a secondary guarantee shall be calculated using the ultimate mortality rates in the 2001 CSO Mortality Table or 2001 CSO Preferred Class Structure Mortality Table.
- (2) Nothing in this section shall be construed to expand the applicability of Appendix A-830 to include the life insurance policies otherwise exempted under Appendix A-830.

Rule 120-2-90-.07. Gender-Blended Tables.

- (1) For any ordinary life insurance policy delivered or issued for delivery in this state on and after the effective date of this regulation, that utilizes the same premium rates and charges for male and female lives or is issued in circumstances where applicable law does not permit distinctions on the basis of gender, a mortality table that is a blend of the 2001 CSO Mortality Table (M) and the 2001 CSO Mortality Table (F) may, at the option of the company for each plan of insurance, be substituted for the 2001 CSO Mortality Table for use in determining minimum cash surrender values and amounts of paid-up nonforfeiture benefits. No change in minimum valuation standards is implied by this subsection of the regulation.
- (2) The company may choose from among the blended tables developed by the American Academy of Actuaries CSO Task Force and adopted by the NAIC in December 2002.

Amended: Permanent Rule of same title adopted. F. June 24, 2005; eff. July 14, 2005.

Rule 120-2-91-.04. Minimum Values.

- (1) The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to such time at rates of interest as indicated in Subsection (3) of the net considerations (as hereinafter defined) paid prior to such time, decreased by the sum of Paragraphs (a) through (d) below:
 - (a) Any prior withdrawals from or partial surrenders of the contract accumulated at rates of interest as indicated in Subsection (3);
 - (b) An annual contract charge of \$50, accumulated at rates of interest as indicated in Subsection (3);
 - (c) Any premium tax paid by the company for the contract, accumulated at rates of interest as indicated in Subsection (3); and
 - (d) The amount of any indebtedness to the company on the contract, including interest due and accrued.
- (2) The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be an amount equal to eighty-seven and one-half percent (87.5%) of the gross considerations credited to the contract during that contract year.
- (3) The interest rate used in determining minimum nonforfeiture amounts shall be an annual rate of interest determined as the lesser of three percent (3%) per annum and the following, which shall be specified in the contract if the interest rate will be reset:
 - (a) The five-year Constant Maturity Treasury Rate reported by the Federal Reserve as of a date, or average over a period, rounded to the nearest 1/20th of one percent, specified in the contract no longer than fifteen (15) months prior to the contract issue date or redetermination date under Subsection (d);
 - (b) Reduced by 125 basis points;
 - (c) Where the resulting interest rate is not less than one percent (1%); and
 - (d) The interest rate shall apply for an initial period and may be redetermined for additional periods. The redetermination date, basis and period, if any, shall be stated in the contract. The basis is the date or average over a specified period that produces the value of the five-year Constant Maturity Treasury Rate to be used at each redetermination date.
- (4) During the period or term that a contract provides substantive participation in an equity indexed benefit, it may increase the reduction described in Subsection (3)(b) above by up to an additional 100 basis points to reflect the value of the equity index benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction shall not exceed the market value of the benefit. The commissioner may require a demonstration that the present value of the additional reduction does not

exceed the market value of the benefit. Lacking such a demonstration that is acceptable to the commissioner, the commissioner may disallow or limit the additional reduction.

Amended: Permanent Rule of same title adopted. F. Mar. 10, 2005; eff. Mar. 30, 2005.

Rule 120-2-92-.02. Qualifications for Approved Accreditation Organizations.

- (1) An organization may become an approved accrediting organization for purposes of this regulation when it meets the following requirements:
- (a) The organization has been in existence for a minimum of 10 years. An organization in existence for less than 10 years may petition the Commissioner for a waiver of this requirement;
 - (b) The organization is not owned or operated by a health maintenance organization and performs its accrediting functions independently from the control of health maintenance organizations;
 - (c) The organization operates on a national basis;
 - (d) The organization's board of directors is comprised of diverse health care, business and consumer interests, including but not limited to representatives of the medical profession, hospital industry, consumers, and health maintenance organizations;
 - (e) The organization has a process for regularly reviewing its own accreditation standards for health maintenance organizations;
 - (f) The organization has provisions to perform regular on-site reviews of health maintenance organizations;
 - (g) The organization establishes standards for performance and uses those standards to examine and measure the performance of health maintenance organizations in the following areas:
 - 1. Quality Assurance and Improvement
 - 2. Member Satisfaction
 - 3. Appeals Processes
 - 4. Clinical Oversight
 - 5. Provider Credentialing
 - 6. Utilization Review
 - 7. Delegation Oversight
 - 8. Confidentiality of Member Information
 - 9. Access to Services.
 - (h) A copy of the organization's standards for accreditation must be made available to the Department of Insurance upon request. Revisions to such standards shall also be communicated to the Department. Such standards may be reviewed by the

Department of Insurance on a triennial basis. The Department may request additional standards to be included within any approved organization's standards for accreditation.

- (i) In each accreditation review, the organization must utilize a physician experienced in health maintenance organization quality assurance management;
 - (j) Upon request, the Department may review the accreditation review files for a licensed health maintenance organization.
- (2) An organization seeking approval as an accrediting organization shall submit evidence to the Commissioner of its compliance with the standards in subparagraph (1) of this section. Upon submission of such evidence, the Commissioner, in his or her discretion, may include the organization on the Approved Accrediting Organizations List.

Rule 120-2-92-.03. Certification Pursuant to Accreditation by a National Accrediting Organization.

- (1) A health maintenance organization seeking certification for purposes of O.C.G.A. § [33-21-3](#)(b.1) through proof of accreditation by a national accreditation organization shall:
 - (a) Submit to the Commissioner a copy of the certificate of provisional or final accreditation issued by a national accreditation agency qualified under this regulation; and
 - (b) Submit evidence that its services are reasonably available and accessible in its service area or proposed service area according to its written standards for establishing and measuring appropriate member access to health care services.
- (2) For purposes of subparagraph (1)(a) of this section, a health maintenance organization may submit proof of accreditation of a company with which it is formally affiliated, provided that the affiliated company supervises or performs the services for the Georgia health maintenance organization using the same standards and procedures for which it has received accreditation by an Approved Accrediting Organization.

Repealed: New Rule of same title adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

Rule 120-2-93-.02. Scope and Purpose.

- (1) This regulation applies to any Provider of a Life Settlement Contract and any Life Settlement Broker as those terms are defined in O.C.G.A. § [33-59-2](#) as well as any person who enters into a life settlement contract with an owner of a policy or who facilitates any life settlement contract unless that person is defined as being specifically excluded from registration or licensure by O.C.G.A. § [33-59-2\(10\)](#) or O.C.G.A. § [33-59-2\(18\)](#). The purposes of this regulation include:
 - (a) Providing for required disclosures by the provider or life settlement broker to the owner of the life insurance policy in accordance with O.C.G.A. § [33-59-9](#);
 - (b) Providing for the licensure of life settlements providers and registration of a life settlement broker as defined in O.C.G.A. § [33-59-2](#);
 - (c) Regulating life settlements providers' and life settlement brokers' practices in conformity with the general purposes of the Georgia Insurance Code;
 - (d) Regulating the use of forms approved by the Commissioner of Insurance;
 - (e) Regulating the relationship between all persons involved in the business of life settlements including but not limited to life settlement brokers, providers of life settlement contracts and domestic stock life insurance companies; and
 - (f) Making it unlawful for a person to engage in the business of life settlements, act as a provider of life settlement contracts or a life settlement broker with an owner or multiple owners who are residents of this state without first having obtained a provider license or acknowledgment of broker registration from the Commissioner or to otherwise commit a fraudulent life settlement act.

Rule 120-2-93-.04. License; Application and Issuance.

- (1) Except as provided for in O.C.G.A. § [33-59-2\(18\)](#), it is unlawful for any person to enter into a life settlement contract with an owner of a policy or to hold oneself out as a provider in this state without a valid provider license issued by the Commissioner of Insurance. To qualify for and hold a license as a provider in this state, a provider must otherwise be in compliance with Article 3 of Chapter 59 of Title 33 of the Official Code of Georgia Annotated and this Regulation.
- (2) The provider shall file with the Commissioner of Insurance an application for a license upon a form to be furnished by the Commissioner of Insurance, which application should include or have attached the following information and documents and any other materials the Commissioner of Insurance deems necessary to adequately assess the merits of the application:
 - (a) All basic organizational documents of the provider, the articles of incorporation, articles of association, partnership agreement, trade name certificate, trust agreement, shareholder agreement, and other applicable documents, and all amendments to those documents;
 - (b) The bylaws, rules and regulations or similar documents regulating the conduct or the internal affairs of the provider and a detailed plan of operation;
 - (c) The names, addresses, official positions, and professional qualifications of the individuals who are responsible for the conduct of the affairs of the provider, including all stockholders, partners, officers, members, and employees, with exception to those owning fewer than ten percent (10%) of the provider;
 - (d) Financial statements certified by the President, Chief Financial Officer or Treasurer or audited reports for the two most recent years, or such other information as the Commissioner may require in order, to review the current financial condition of the provider. The provider must prove that it possesses and maintains a minimum net worth of \$300,000; however, the Commissioner may, in his or her discretion, require a higher net worth if he or she deems such higher net worth necessary for the protection of the public. If the Provider is an entity, the minimum net worth must be on the balance sheet of the entity holding the license; letters of credit, backstop guarantees and special corporate structures will not be taken into consideration by the Commissioner in determining the net worth requirement;
 - (e) Fees as provided in O.C.G.A. §§ [33-59-3\(b\)](#) and [33-8-1](#);

- (f) A copy of its antifraud plan which shall include but not be limited to the information required under O.C.G.A. § [33-59-14](#);
 - (g) A copy of its life settlements contract and disclosure statement, containing the provisions stipulated at O.C.G.A. § [33-59-9](#), for the Commissioner's review and approval in accordance with O.C.G.A. § [33-59-5](#); and
 - (h) A statement that stipulates that its advertisements shall not be misleading, in fact or by implication, shall not suggest that the purchase of a policy is for the sole purpose of life settling the policy, and shall not use the words "free," "no cost," or words of similar meaning in order to entice an individual to purchase a policy for subsequent life settlement.
- (3) The Commissioner may not issue a license if he or she determines that the provider or any principal thereof is not competent, trustworthy, financially responsible; has had an insurance license refused, revoked or suspended by any state, or otherwise fails to satisfy the requirements of O.C.G.A. § [33-59-3](#) and the Commissioner may suspend, revoke, or refuse to renew a provider's license pursuant to O.C.G.A. § [33-59-4\(a\)](#).
- (4) Before becoming registered as a life settlement broker in this state, the person or entity seeking registration must have a current and valid life license in this state or his or her home state for at least one year. Additionally, non-resident producers shall have a valid non-resident producer license in this state.

Rule 120-2-93-.05. Annual Statement and Renewal.

- (1) Each provider shall file with the Commissioner an annual renewal application by May 1st of every year. The renewal application shall include information and documents and other materials the Commissioner deems necessary to adequately assess the renewal application.
- (2) Each provider shall file with the Commissioner an annual statement by May 1 of every year. The statement shall include all of the following information and documents and any other materials the Commissioner deems necessary.
- (a) For policies settled during the immediately preceding calendar year, where the insured was a Georgia resident:

1. The total number, aggregate face amount, and life settlement proceeds of those policies, together with a breakdown of the information by policy year;
 2. The names of the insurance companies whose policies have been settled;
 3. The life settlement brokers receiving compensation related to those policies;
- (b) An audited financial statement as of the current year proving that the provider possesses and maintains a minimum net worth of \$300,000; unless the Commissioner has required a higher net worth. If the Provider is an entity, the minimum net worth must be on the balance sheet of the entity holding the license. Letters of credit, backstop guarantees and special corporate structures will not be taken into consideration by the Commissioner in determining the net worth requirement; and
- (c) A statement that any advertisement by or on behalf of the provider shall comply with O.C.G.A. § [33-59-8](#).
- (2) Any provider that willfully fails to file an annual renewal application and statement shall be subject to fines and other penalties as set forth at O.C.G.A. § [33-59-6\(a\)\(3\)](#).
- (3) The term of a provider license shall be equal to that of a domestic stock life insurance company and the term of a life settlement broker registration shall be equal to that of an insurance producer license. Licenses or registrations requiring periodic renewal may be renewed on their anniversary date upon payment of the periodic renewal fee as specified in this Chapter. Failure to pay the fees on or before the renewal date shall result in expiration of the license or registration.

Rule 120-2-93-.06. Examination.

- (1) The Commissioner may conduct an examination of the business affairs of any licensee, registrant or applicant under this chapter as often as the Commissioner in his or her sole discretion deems appropriate with all expenses incurred to be paid by the licensee, registrant or applicant. All such examinations shall comply with the requirements of O.C.G.A. § [33-59-7](#) and all other applicable laws and regulations.
- (2) Nothing in this rule shall limit or abridge any other investigatory powers of the Commissioner vested in him or her by Title 33 of the Georgia Insurance Code.

Repealed: New Rule entitled "Examination" adopted. F. Oct. 29, 2009; eff. Nov. 18, 2009.

Rule 120-2-93-.07. General Rules.

- (1) A provider shall comply with the requirements of this Chapter and O.C.G.A. §§ [33-59-1](#) *et seq.* and shall not engage and or deal with any person to perform the functions of a life settlement broker as defined at O.C.G.A. § [33-59-2\(10\)](#) unless such person holds a current, valid registration as a life settlement broker.
- (2) Any person or life settlement broker shall comply with the requirements of this Chapter and O.C.G.A. §§ [33-59-1](#) *et seq.* and shall not present a policy to, solicit bids or offers from, engage and or deal with any person or entity to perform the functions of a provider as defined at O.C.G.A. § [33-59-2\(18\)](#) unless such person or entity holds a current, valid license as a provider.
- (3) Any fee paid by a provider, party, individual, or an owner to a life settlement broker in exchange for services provided to the owner pertaining to a life settlement contract shall be computed as a percentage of the offer obtained, not the face value of the policy.
- (4) No person shall enter into a life settlement contract during a two-year period commencing with the date of issuance of the policy unless the owner provides the provider with the certification required under O.C.G.A. § [33-59-11\(n\)\(1\)](#) or the owner submits to the provider the independent evidence required pursuant to O.C.G.A. § [33-59-11\(n\)\(2\)](#).
 - (a) If the owner submits to the provider the independent evidence required pursuant to O.C.G.A. § [33-59-11\(n\)\(2\)](#) then the provider shall submit copies of such evidence, accompanied by the provider's letter of attestation that the copies are true and correct copies of the documents received by the provider, to the insurer when the provider submits the request for verification of coverage to the insurer.
- (5) It is a violation of this chapter for any person, provider, life settlement broker, or any other party related to the business of life settlements to commit a fraudulent life settlement act, including but not limited to, stranger originated life insurance.
- (6) Within three business days after receipt from the owner of documents to effect the transfer of the insurance policy, the provider shall pay the proceeds of the settlement to an escrow or trust account managed by a trustee or escrow agent in a state or federally chartered financial institution pending acknowledgement of the transfer by issuer of the policy. The trustee or escrow agent shall be required to transfer the proceeds due to the owner within three business days of acknowledgement of the transfer from the insurer.

- (7) All life settlement contracts shall provide that the owner may rescind the contract on or before 15 days after the date it is executed by all parties thereto. If rescission is exercised by the owner, all proceeds, premiums, loans, etc. must be repaid and notice given within the rescission period. If the owner dies during the rescission period subject to all repayments having been made, the contract is deemed to have been rescinded.
- (8) Pursuant to O.C.G.A. § [33-59-14\(c\)\(1\)](#), any person engaged in the business of life settlements shall notify the Enforcement Division of the Commissioner's office if he or she has knowledge or a reasonable belief that a fraudulent life settlement act is being, has been or will be committed. Notification can be made by telephone, electronic or written communication.
- (9) No person shall engage in the business of life settlements unless they have obtained the appropriate license; applied for, or received the appropriate registration; or have been designated as an authorized representative by a properly licensed or registered entity on a form prescribed by the Commissioner. A violation of this section shall be considered an unfair trade practice and a felony.

Rule 120-2-93-.08. Insurance Company Practices.

- (1) Life insurance companies are permitted to ask questions of any life insurance applicant as to whether the proposed owner is intending to finance the premiums with the assistance of financing from a lender that will use the policy as collateral to support the financing. The life insurance company may reject the application if it can be shown that the premium financing provides funds which can be used for a purpose other than paying for the premiums, costs, and expenses associated with obtaining and maintaining the life insurance policy and loan as described in O.C.G.A. § [33-59-10\(b\)](#). If the financing does not violate O.C.G.A. § [33-59-13](#), life insurance companies may issue the disclosures and affirmations set forth in O.C.G.A. § [33-59-10\(c\)](#).
- (2) Life insurance companies authorized to do business in this state shall respond to a request for verification of coverage from a provider within 30 days of the date a request is received. The verification of coverage must be on a form prescribed by the Commissioner's office.
- (3) A life insurance company shall not unreasonably delay effecting either a change of policy ownership or of a beneficiary under a policy that is subject to a life settlement contract lawfully entered into in this state or with a resident of this state.

Rule 120-2-93-.09. Penalties.

- (1) Any person failing to comply with the requirements of this Chapter and O.C.G.A. §§ [33-59-1](#) *et seq.* shall be subject to all such penalties and relief as may be appropriate under the laws of this State. Furthermore, a violation of this Chapter shall be considered an unfair trade practice pursuant to state law and subject to such penalties provided by state law.
- (2) It is unlawful for any person, other than a licensed provider or a registered life settlement broker, to enter into any life settlement contract with an owner of a policy or facilitate any life settlement contract unless that party is defined as being specifically excluded from registration or licensure by O.C.G.A. § [33-59-2\(10\)](#) or O.C.G.A. § [33-59-2\(18\)](#). A violation of this section shall be considered a fraudulent life settlement act and the violator(s) subject to fines and penalties as stipulated at O.C.G.A. § [33-59-15](#) and O.C.G.A. § [33-59-16](#).

Subject 120-2-94. SUITABILITY IN ANNUITY TRANSACTIONS.

Rule 120-2-94-.01. Purpose.

- (1) The purpose of this regulation is to require insurers to establish a system to supervise recommendations and to set forth standards and procedures for recommendations to consumers that result in transactions involving annuity products so that the insurance

needs and financial objectives of consumers at the time of the transaction are appropriately addressed.

- (2) Nothing herein shall be construed to create or imply a private cause of action for a violation of this regulation.

Rule 120-2-94-.04. Exemptions.

Unless otherwise specifically included, this regulation shall not apply to transactions involving:

- (1) Direct response solicitations where there is no recommendation based on information collected from the consumer pursuant to this regulation;
- (2) Contracts used to fund:
 - (a) An employee pension or welfare benefit plan that is covered by the Employee Retirement and Income Security Act (ERISA);

- (b) A plan described by sections 401(a), 401(k), 403(b), 408(k) or 408(p) of the Internal Revenue Code (IRC), as amended, if established or maintained by an employer;
- (c) A government or church plan defined in section 414 of the IRC, a government or church welfare benefit plan, or a deferred compensation plan of a state or local government or tax exempt organization under section 457 of the IRC;
- (d) A nonqualified deferred compensation arrangement established or maintained by an employer or plan sponsor;
- (e) Settlements of or assumptions of liabilities associated with personal injury litigation or any dispute or claim resolution process; or
- (f) Formal prepaid funeral contracts.

Rule 120-2-94-.05. Definitions.

- (1) "Annuity" means an annuity that is an insurance product under State law that is individually solicited, whether the product is classified as an individual or group annuity.
- (2) "Continuing education credit" or "CE credit" means one continuing education credit as described in Rule [120-2-3-.12](#).
- (3) "Continuing education provider" or "CE provider" means an individual or entity that is approved to offer continuing education courses pursuant to Rule [120-2-3-.12](#).
- (4) "FINRA" means the Financial Industry Regulatory Authority or a succeeding agency.
- (5) "Insurer" means a company required to be licensed under the laws of this state to provide insurance products, including annuities.
- (6) "Insurance producer" means a person required to be licensed under the laws of this state to sell, solicit or negotiate insurance, including annuities.
- (7) "Recommendation" means advice provided by an insurance producer, or an insurer where no producer is involved, to an individual consumer that results in a purchase, exchange or replacement of an annuity in accordance with that advice.

- (8) "Replacement" means a transaction in which a new policy or contract is to be purchased, and it is known or should be known to the proposing producer, or to the proposing insurer if there is no producer, that by reason of the transaction, an existing policy or contract has been or is to be:
- (a) Lapsed, forfeited, surrendered or partially surrendered, assigned to the replacing insurer or otherwise terminated;
 - (b) Converted to reduced paid-up insurance, continued as extended term insurance, or otherwise reduced in value by the use of nonforfeiture benefits or other policy values;
 - (c) Amended so as to effect either a reduction in benefits or in the term for which coverage would otherwise remain in force or for which benefits would be paid;
 - (d) Reissued with any reduction in cash value; or
 - (e) Used in a financed purchase.
- (9) "Suitability information" means information that is reasonably appropriate to determine the suitability of a recommendation, including the following:
- (a) Age;
 - (b) Annual income;
 - (c) Financial situation and needs, including the financial resources used for the funding of the annuity;
 - (d) Financial experience;
 - (e) Financial objectives;
 - (f) Intended use of the annuity;
 - (g) Financial time horizon;
 - (h) Existing assets, including investment and life insurance holdings;
 - (i) Liquidity needs;
 - (j) Liquid net worth;
 - (k) Risk tolerance; and
 - (l) Tax status.

Rule 120-2-94-.06. Duties of Insurers and of Insurance Producers.

- (1) In recommending to a consumer the purchase of an annuity or the exchange of an annuity that results in another insurance transaction or series of insurance transactions, the insurance producer, or the insurer where no producer is involved, shall have reasonable grounds for believing that the recommendation is suitable for the consumer on the basis of the facts disclosed by the consumer as to his or her investments and other insurance products and as to his or her financial situation and needs, including the consumer's suitability information, and that there is a reasonable basis to believe all of the following:
 - (a) The consumer has been reasonably informed of various features of the annuity, such as the potential surrender period and surrender charge, potential tax penalty if the consumer sells, exchanges, surrenders or annuitizes the annuity, mortality and expense fees, investment advisory fees, potential charges for and features of riders, limitations on interest returns, insurance and investment components and market risk;
 - (b) The consumer would benefit from certain features of the annuity, such as tax-deferred growth, annuitization or death or living benefit;
 - (c) The particular annuity as a whole, the underlying subaccounts to which funds are allocated at the time of purchase or exchange of the annuity, and riders and similar product enhancements, if any, are suitable (and in the case of an exchange or replacement, the transaction as a whole is suitable) for the particular consumer based on his or her suitability information; and
 - (d) In the case of an exchange or replacement of an annuity, the exchange or replacement is suitable including taking into consideration whether:
 - (i) The consumer will incur a surrender charge, be subject to the commencement of a new surrender period, lose existing benefits (such as death, living or other contractual benefits), or be subject to increased fees, investment advisory fees or charges for riders and similar product enhancements;
 - (ii) The consumer would benefit from product enhancements and improvements; and
 - (iii) The consumer has had another annuity exchange or replacement and, in particular, an exchange or replacement within the preceding 36 months.

- (2) Prior to the execution of a purchase, exchange or replacement of an annuity resulting from a recommendation, an insurance producer, or an insurer where no producer is involved, shall make reasonable efforts to obtain the consumer's suitability information.
- (3) Except as permitted under subsection (4), an insurer shall not issue an annuity recommended to a consumer unless there is a reasonable basis to believe the annuity is suitable based on the consumer's suitability information.
- (4)
 - (a) Except as provided under paragraph (b) of this subsection, neither an insurance producer, nor an insurer, shall have any obligation to a consumer under subsection (1) or (3) related to any annuity transaction if:
 - (i) No recommendation is made;
 - (ii) A recommendation was made and was later found to have been prepared based on materially inaccurate information provided by the consumer;
 - (iii) A consumer refuses to provide relevant suitability information and the annuity transaction is not recommended; or
 - (iv) A consumer decides to enter into an annuity transaction that is not based on a recommendation of the insurer or the insurance producer.
 - (b) An insurer's issuance of an annuity subject to paragraph (a) shall be reasonable under all the circumstances actually known to the insurer at the time the annuity is issued.
- (5) An insurance producer or, where no insurance producer is involved, the responsible insurer representative, shall at the time of sale:
 - (a) Make a record of any recommendation subject to section (.06)(1) of this regulation;
 - (b) Obtain a customer signed statement documenting a customer's refusal to provide suitability information, if any; and
 - (c) Obtain a customer signed statement acknowledging that an annuity transaction is not recommended if a customer decides to enter into an annuity transaction that is not based on the insurance producer's or insurer's recommendation.
- (6)
 - (a) An insurer shall establish a supervision system that is reasonably designed to achieve the insurer's and its insurance producers' compliance with this regulation, including, but not limited to, the following:
 - (i) The insurer shall maintain reasonable procedures to inform its insurance producers of the requirements of this regulation and shall incorporate the

requirements of this regulation into relevant insurance producer training manuals;

- (ii) The insurer shall establish standards for insurance producer product training and shall maintain reasonable procedures to require its insurance producers to comply with the requirements of section 7 of this regulation;
 - (iii) The insurer shall provide product-specific training and training materials which explain all material features of its annuity products to its insurance producers;
 - (iv) The insurer shall maintain procedures for review of each recommendation prior to issuance of an annuity that are designed to ensure that there is a reasonable basis to determine that a recommendation is suitable. Such review procedures may apply a screening system for the purpose of identifying selected transactions for additional review and may be accomplished electronically or through other means including, but not limited to, physical review. Such an electronic or other system may be designed to require additional review only of those transactions identified for additional review by the selection criteria;
 - (v) The insurer shall maintain reasonable procedures to detect recommendations that are not suitable. This may include, but is not limited to, confirmation of consumer suitability information, systematic customer surveys, interviews, confirmation letters and programs of internal monitoring. Nothing in this subparagraph prevents an insurer from complying with this subparagraph by applying sampling procedures, or by confirming suitability information after issuance or delivery of the annuity; and
 - (vi) The insurer shall annually provide a report to senior management, including to the senior manager responsible for audit functions, which details a review, with appropriate testing, reasonably designed to determine the effectiveness of the supervision system, the exceptions found, and corrective action taken or recommended, if any.
- (b)
- (i) Nothing in this subsection restricts an insurer from contracting for performance of a function (including maintenance of procedures) required under paragraph (a). An insurer is responsible for taking appropriate corrective action and may be subject to sanctions and penalties pursuant to section .08 of this regulation regardless of whether the insurer contracts for performance of a function and regardless of the insurer's compliance with subparagraph (ii) of this paragraph.

- (ii) An insurer's supervision system under paragraph (a) shall include supervision of contractual performance under this subsection. This includes, but is not limited to, the following:
 - (A) Monitoring and, as appropriate, conducting audits to assure that the contracted function is properly performed; and
 - (B) Annually obtaining a certification from a senior manager who has responsibility for the contracted function that the manager has a reasonable basis to represent, and does represent, that the function is properly performed.
 - (c) An insurer is not required to include in its system of supervision an insurance producer's recommendations to consumers of products other than the annuities offered by the insurer.
- (7) An insurance producer shall not dissuade, or attempt to dissuade, a consumer from:
 - (a) Truthfully responding to an insurer's request for confirmation of suitability information;
 - (b) Filing a complaint; or
 - (c) Cooperating with the investigation of a complaint.
- (8)
 - (a) Sales made in compliance with FINRA requirements pertaining to suitability and supervision of annuity transactions shall satisfy the requirements under this regulation. This subsection applies to FINRA broker-dealer sales of annuities if the suitability and supervision is similar to those applied to variable annuity sales. However, nothing in this subsection shall limit the insurance commissioner's ability to enforce (including investigate) the provisions of this regulation.
 - (b) For paragraph (a) to apply, an insurer shall:
 - (i) Monitor the FINRA member broker-dealer using information collected in the normal course of an insurer's business; and
 - (ii) Provide to the FINRA member broker-dealer information and reports that are reasonably appropriate to assist the FINRA member broker-dealer to maintain its supervision system.

Rule 120-2-94-.07. Insurance Producer Training.

- (1) An insurance producer shall not solicit the sale of an annuity product unless the insurance producer has adequate knowledge of the product to recommend the annuity and the insurance producer is in compliance with the insurer's standards for product training. An insurance producer may rely on insurer-provided product-specific training standards and materials to comply with this subsection.
 - (a)
 - (i)
 - (A) An insurance producer who engages in the sale of annuity products shall complete a one-time four (4) credit training course approved by the department of insurance and provided by the department of insurance-approved education provider.
 - (B) Insurance producers who hold a life insurance line of authority on the effective date of this regulation and who desire to sell annuities shall complete the requirements of this subsection within six (6) months after the effective date of this regulation. Individuals who obtain a life insurance line of authority on or after the effective date of this regulation may not engage in the sale of annuities until the annuity training course required under this subsection has been completed.
 - (ii) The minimum length of the training required under this subsection shall be sufficient to qualify for at least four (4) CE credits, but may be longer.
 - (iii) The training required under this subsection shall include information on the following topics:
 - (A) The types of annuities and various classifications of annuities;
 - (B) Identification of the parties to an annuity;
 - (C) How product specific annuity contract provisions affect consumers;
 - (D) The application of income taxation of qualified and non-qualified annuities;
 - (E) The primary uses of annuities; and
 - (F) Appropriate sales practices, replacement and disclosure requirements.

- (iv) Providers of courses intended to comply with this subsection shall cover all topics listed in the prescribed outline and shall not present any marketing information or provide training on sales techniques or provide specific information about a particular insurer's products. Additional topics may be offered in conjunction with and in addition to the required outline.
- (v) A provider of an annuity training course intended to comply with this subsection shall register as a CE provider in this State and comply with the rules and guidelines applicable to insurance producer continuing education courses as set forth in Rule [120-2-3-.12](#).
- (vi) Annuity training courses may be conducted and completed by classroom or self-study methods in accordance with Rule [120-2-3-.12](#).
- (vii) Providers of annuity training shall comply with the reporting requirements and shall issue certificates of completion in accordance with Rule [120-2-3-.12](#).
- (viii) The satisfaction of the training requirements of another State that are substantially similar to the provisions of this subsection shall be deemed to satisfy the training requirements of this subsection in this State.
- (ix) An insurer shall verify that an insurance producer has completed the annuity training course required under this subsection before allowing the producer to sell an annuity product for that insurer. An insurer may satisfy its responsibility under this subsection by obtaining certificates of completion of the training course or obtaining reports provided by commissioner-sponsored database systems or vendors or from a reasonably reliable commercial database vendor that has a reporting arrangement with approved insurance education providers.

Rule 120-2-94-.08. Compliance Mitigation; Penalties.

- (1) An insurer is responsible for compliance with this regulation. If a violation occurs, either because of the action or inaction of the insurer or its insurance producer, the commissioner may order: (a) An insurer to take reasonably appropriate corrective action

for any consumer harmed by the insurer's, or by its insurance producer's, violation of this regulation;

- (b) A general agency, independent agency or the insurance producer to take reasonably appropriate corrective action for any consumer harmed by the insurance producer's violation of this regulation; and
 - (c) Appropriate penalties and sanctions.
- (2) Any applicable penalty under O.C.G.A. Section [33-2-24](#) for a violation of this regulation may be reduced or eliminated if corrective action for the consumer was taken promptly after a violation was discovered or the violation was not part of a pattern or practice.

[Rule 120-2-94-.09. Recordkeeping.](#)

- (1) Insurers, general agents, independent agencies and insurance producers shall maintain or be able to make available to the commissioner records of the information collected from the consumer and other information used in making the recommendations that were the basis for insurance transactions for five years after the insurance transaction is completed by the insurer. An insurer is permitted, but shall not be required, to maintain documentation on behalf of an insurance producer.
- (2) Records required to be maintained by this regulation may be maintained in paper, photographic, micro-process, magnetic, mechanical or electronic media or by any process that accurately reproduces the actual document.

Rule 120-2-95-.04. Exemptions.

- (1) This regulation shall not apply to solicitations or sales involving:
 - (a) Credit insurance;

- (b) Group life insurance or group annuities where there is no in-person, face-to-face solicitation of individuals by an insurance producer or where the contract or certificate does not include a side fund;
 - (c) An application to the existing insurer that issued the existing policy or contract when a contractual change or a conversion privilege is being exercised; or, when the existing policy or contract is being replaced by the same insurer pursuant to a program filed with and approved by the commissioner; or, when a term conversion privilege is exercised among corporate affiliates;
 - (d) Individual stand-alone health policies, including disability income policies;
 - (e) Contracts offered by Servicemembers' Group Life Insurance (SGLI) or Veterans' Group Life Insurance (VGLI), as authorized by [38 U.S.C. Section 1965](#)*et seq.*, and contracts offered by State Sponsored Life Insurance (SSLI) as authorized by [37 U.S.C. Section 707](#)*et seq.*;
 - (f) Life insurance contracts offered through or by a non-profit military association, qualifying under Section 501(c)(23) of the Internal Revenue Code (IRC), and which are not underwritten by an insurer; or
 - (g) Contracts used to fund:
 - 1. An employee pension or welfare benefit plan that is covered by the Employee Retirement and Income Security Act (ERISA);
 - 2. A plan described by Sections 401(a), 401(k), 403(b), 408(k) or 408(p) of the IRC, as amended, if established or maintained by an employer;
 - 3. A government or church plan defined in Section 414 of the IRC, a government or church welfare benefit plan, or a deferred compensation plan of a state or local government or tax exempt organization under Section 457 of the IRC;
 - 4. A nonqualified deferred compensation arrangement established or maintained by an employer or plan sponsor;
 - 5. Settlements of or assumptions of liabilities associated with personal injury litigation or any dispute or claim resolution process; or
 - 6. Prearranged funeral contracts.
- (2) Nothing herein shall be construed to abrogate the ability of nonprofit organizations (and/or other organizations) to educate members of the United States Armed Forces in accordance with Department of Defense DoD Instruction 1344.07 - Personal Commercial Solicitation on DoD Installations or successor directive.

- (3) For purposes of this regulation, general advertisements, direct mail and internet marketing shall not constitute "solicitation." Telephone marketing shall not constitute "solicitation" provided the caller explicitly and conspicuously discloses that the product concerned is life insurance and makes no statements that avoid a clear and unequivocal statement that life insurance is the subject matter of the solicitation. Provided however, nothing in this subsection shall be construed to exempt an insurer or insurance producer from this regulation in any in-person, face-to-face meeting established as a result of the "solicitation" exemptions identified in this subsection.

Rule 120-2-95-.05. Definitions.

- (1) "Active Duty" means full-time duty in the active military service of the United States and includes members of the reserve component (National Guard and Reserve) while serving under published orders for active duty or full-time training. The term does not include members of the reserve component who are performing active duty or active duty for training under military calls or orders specifying periods of less than 31 calendar days.
- (2) "Department of Defense (DoD) Personnel" means all active duty service members and all civilian employees, including nonappropriated fund employees and special government employees, of the Department of Defense.
- (3) "Door to Door" means a solicitation or sales method whereby an insurance producer proceeds randomly or selectively from household to household without prior specific appointment.
- (4) "General Advertisement" means an advertisement having as its sole purpose the promotion of the reader's or viewer's interest in the concept of insurance, or the promotion of the insurer or the insurance producer.
- (5) "Insurer" means an insurance company required to be licensed under the laws of this state to provide life insurance products, including annuities.
- (6) "Insurance producer" means a person required to be licensed under the laws of this state to sell, solicit or negotiate life insurance, including annuities.
- (7) "Known" or "Knowingly" means, depending on its use herein, the insurance producer or insurer had actual awareness, or in the exercise of ordinary care should have known, at the time of the act or practice complained of, that the person solicited:
 - (a) is a service member; or

- (b) is a service member with a pay grade of E-4 or below.
- (8) "Life Insurance" means insurance coverage on human lives including benefits of endowment and annuities, and may include benefits in the event of death or dismemberment by accident and benefits for disability income and unless otherwise specifically excluded, includes individually issued annuities.
- (9) "Military Installation" means any federally owned, leased, or operated base, reservation, post, camp, building, or other facility to which service members are assigned for duty, including barracks, transient housing, and family quarters.
- (10) "MyPay" is a Defense Finance and Accounting Service (DFAS) web-based system that enables service members to process certain discretionary pay transactions or provide updates to personal information data elements without using paper forms.
- (11) "Service Member" means any active duty officer (commissioned and warrant) or enlisted member of the United States Armed Forces.
- (12) "Side Fund" means a fund or reserve that is part of or otherwise attached to a life insurance policy (excluding individually issued annuities) by rider, endorsement or other mechanism which accumulates premium or deposits with interest or by other means. The term does not include:
- (a) accumulated value or cash value or secondary guarantees provided by a universal life policy;
 - (b) cash values provided by a whole life policy which are subject to standard nonforfeiture law for life insurance; or
 - (c) a premium deposit fund which:
 - 1. contains only premiums paid in advance which accumulate at interest;
 - 2. imposes no penalty for withdrawal;
 - 3. does not permit funding beyond future required premiums;
 - 4. is not marketed or intended as an investment; and
 - 5. does not carry a commission, either paid or calculated.
- (13) "Specific Appointment" means a prearranged appointment agreed upon by both parties and definite as to place and time.
- (14) "United States Armed Forces" means all components of the Army, Navy, Air Force, Marine Corps, and Coast Guard.

Rule 120-2-95-.06. Practices Declared Dishonest, Unfair, or Deceptive on a Military Installation.

- (1) The following acts or practices when committed on a military installation by an insurer or insurance producer with respect to the in-person, face-to-face solicitation of life insurance are declared to be dishonest, unfair, or deceptive:
 - (a) Knowingly soliciting the purchase of any life insurance product "door to door" or without first establishing a specific appointment for each meeting with the prospective purchaser.
 - (b) Soliciting service members in a group or "mass" audience or in a "captive" audience where attendance is not voluntary.
 - (c) Knowingly making appointments with or soliciting service members during their normally scheduled duty hours.
 - (d) Making appointments with or soliciting service members in barracks, day rooms, unit areas, or transient personnel housing or other areas where the installation commander has prohibited solicitation.
 - (e) Soliciting the sale of life insurance without first obtaining permission from the installation commander or the commander's designee.
 - (f) Posting unauthorized bulletins, notices or advertisements.
 - (g) Failing to present DD Form 2885, *Personal Commercial Solicitation Evaluation*, to service members solicited or encouraging service members solicited not to complete or submit a DD Form 2885.
 - (h) Knowingly accepting an application for life insurance or issuing a policy of life insurance on the life of an enlisted member of the United States Armed Forces without first obtaining for the insurer's files a completed copy of any required form which confirms that the applicant has received counseling or fulfilled any other similar requirement for the sale of life insurance established by regulations, directives or rules of the DoD or any branch of the Armed Forces.
- (2) The following acts or practices when committed on a military installation by an insurer or insurance producer constitute corrupt practices, improper influences or inducements and are declared to be dishonest, unfair, or deceptive:

- (a) Using DoD personnel, directly or indirectly, as a representative or agent in any official or business capacity with or without compensation with respect to the solicitation or sale of life insurance to service members.
- (b) Using an insurance producer to participate in any United States Armed Forces sponsored education or orientation program.

History. Original Rule entitled "Practices Declared Dishonest, Unfair or Deceptive on a Military Installation" adopted. F. Aug. 8, 2007; eff. Sept. 1, 2007, as specified by the Agency.

Rule 120-2-95-.07. Practices Declared Dishonest, Unfair, or Deceptive Regardless of Location.

- (1) The following acts or practices by an insurer or insurance producer constitute corrupt practices, improper influences or inducements and are declared to be dishonest, unfair, or deceptive:
 - (a) Submitting, processing or assisting in the submission or processing of any allotment form or similar device used by the United States Armed Forces to direct a service member's pay to a third party for the purchase of life insurance. The foregoing includes, but is not limited to, using or assisting in using a service member's "MyPay" account or other similar internet or electronic medium for such purposes. This subsection does not prohibit assisting a service member by providing insurer or premium information necessary to complete any allotment form.
 - (b) Knowingly receiving funds from a service member for the payment of premium from a depository institution with which the service member has no formal banking relationship. For purposes of this section, a formal banking relationship is established when the depository institution:
 - 1. provides the service member a deposit agreement and periodic statements and makes the disclosures required by the Truth in Savings Act, [12 U.S.C. § 4301](#) *et seq.* and the regulations promulgated thereunder; and
 - 2. permits the service member to make deposits and withdrawals unrelated to the payment or processing of insurance premiums.
 - (c) Employing any device or method or entering into any agreement whereby funds received from a service member by allotment for the payment of insurance premiums are identified on the service member's Leave and Earnings Statement or

equivalent or successor form as "Savings" or "Checking" and where the service member has no formal banking relationship as defined in subsection (1)(b) above.

- (d) Entering into any agreement with a depository institution for the purpose of receiving funds from a service member whereby the depository institution, with or without compensation, agrees to accept direct deposits from a service member with whom it has no formal banking relationship.
 - (e) Using DoD personnel, directly or indirectly, as a representative or agent in any official or unofficial capacity with or without compensation with respect to the solicitation or sale of life insurance to service members who are junior in rank or grade, or to the family members of such personnel.
 - (f) Offering or giving anything of value, directly or indirectly, to DoD personnel to procure their assistance in encouraging, assisting or facilitating the solicitation or sale of life insurance to another service member.
 - (g) Knowingly offering or giving anything of value to a service member with a pay grade of E-4 or below for his or her attendance to any event where an application for life insurance is solicited.
 - (h) Advising a service member with a pay grade of E-4 or below to change his or her income tax withholding or State of legal residence for the sole purpose of increasing disposable income to purchase life insurance.
- (2) The following acts or practices by an insurer or insurance producer lead to confusion regarding source, sponsorship, approval or affiliation and are declared to be dishonest, unfair, or deceptive:
- (a) Making any representation, or using any device, title, descriptive name or identifier that has the tendency or capacity to confuse or mislead a service member into believing that the insurer, insurance producer or product offered is affiliated, connected or associated with, endorsed, sponsored, sanctioned or recommended by the U.S. Government, the United States Armed Forces, or any state or federal agency or government entity. Examples of prohibited insurance producer titles include, but are not limited to, "Battalion Insurance Counselor," "Unit Insurance Advisor," "Servicemen's Group Life Insurance Conversion Consultant" or "Veteran's Benefits Counselor." Nothing herein shall be construed to prohibit a person from using a professional designation awarded after the successful completion of a course of instruction in the business of insurance by an accredited institution of higher learning. Such designations include, but are not limited to, Chartered Life Underwriter (CLU), Chartered Financial Consultant (ChFC), Certified Financial Planner (CFP), Master of Science in Financial Services (MSFS), or Masters of Science Financial Planning (MS).

- (b) Soliciting the purchase of any life insurance product through the use of or in conjunction with any third party organization that promotes the welfare of or assists members of the United States Armed Forces in a manner that has the tendency or capacity to confuse or mislead a service member into believing that either the insurer, insurance producer or insurance product is affiliated, connected or associated with, endorsed, sponsored, sanctioned or recommended by the U.S. Government, or the United States Armed Forces.
- (3) The following acts or practices by an insurer or insurance producer lead to confusion regarding premiums, costs or investment returns and are declared to be dishonest, unfair, or deceptive:
 - (a) Using or describing the credited interest rate on a life insurance policy in a manner that implies that the credited interest rate is a net return on premium paid.
 - (b) Excluding individually issued annuities, misrepresenting the mortality costs of a life insurance product, including stating or implying that the product "costs nothing" or is "free."
- (4) The following acts or practices by an insurer or insurance producer regarding SGLI or VGLI are declared to be dishonest, unfair, or deceptive:
 - (a) Making any representation regarding the availability, suitability, amount, cost, exclusions or limitations to coverage provided to a service member or dependents by SGLI or VGLI, which is false, misleading or deceptive.
 - (b) Making any representation regarding conversion requirements, including the costs of coverage, or exclusions or limitations to coverage of SGLI or VGLI to private insurers which is false, misleading or deceptive.
 - (c) Suggesting, recommending or encouraging a service member to cancel or terminate his or her SGLI policy or issuing a life insurance policy which replaces an existing SGLI policy unless the replacement shall take effect upon or after the service member's separation from the United States Armed Forces.
- (5) The following acts or practices by an insurer and or insurance producer regarding disclosure are declared to be dishonest, unfair, or deceptive:
 - (a) Deploying, using or contracting for any lead generating materials designed exclusively for use with service members that do not clearly and conspicuously disclose that the recipient will be contacted by an insurance producer, if that is the case, for the purpose of soliciting the purchase of life insurance.
 - (b) Failing to disclose that a solicitation for the sale of life insurance will be made when establishing a specific appointment for an in-person, face-to-face meeting with a prospective purchaser.

- (c) Excluding individually issued annuities, failing to clearly and conspicuously disclose the fact that the product being sold is life insurance.
 - (d) Failing to make, at the time of sale or offer to an individual known to be a service member, the written disclosures required by Section 10 of the "Military Personnel Financial Services Protection Act," Pub. L. No. 109-290, p.16.
 - (e) Excluding individually issued annuities, when the sale is conducted in-person face-to-face with an individual known to be a service member, failing to provide the applicant at the time the application is taken:
 - 1. an explanation of any free look period with instructions on how to cancel if a policy is issued; and
 - 2. either a copy of the application or a written disclosure. The copy of the application or the written disclosure shall clearly and concisely set out the type of life insurance, the death benefit applied for and its expected first year cost. A basic illustration that meets the requirements of Georgia Regulation [120-2-31-.05\(2\)](#) shall be deemed sufficient to meet this requirement for a written disclosure.
- (6) The following acts or practices by an insurer or insurance producer with respect to the sale of certain life insurance products are declared to be dishonest, unfair, or deceptive:
- (a) Excluding individually issued annuities, recommending the purchase of any life insurance product which includes a side fund to a service member in pay grades E-4 and below unless the insurer has reasonable grounds for believing that the life insurance death benefit, standing alone, is suitable.
 - (b) Offering for sale or selling a life insurance product which includes a side fund to a service member in pay grades E-4 and below who is currently enrolled in SGLI, is presumed unsuitable unless, after the completion of a needs assessment, the insurer demonstrates that the applicant's SGLI death benefit, together with any other military survivor benefits, savings and investments, survivor income, and other life insurance are insufficient to meet the applicant's insurable needs for life insurance.
 - 1. "Insurable needs" are the risks associated with premature death taking into consideration the financial obligations and immediate and future cash needs of the applicant's estate and/or survivors or dependents.
 - 2. "Other military survivor benefits" include, but are not limited to: the Death Gratuity, Funeral Reimbursement, Transition Assistance, Survivor and Dependents' Educational Assistance, Dependency and Indemnity Compensation, TRICARE Healthcare benefits, Survivor Housing Benefits

and Allowances, Federal Income Tax Forgiveness, and Social Security Survivor Benefits.

- (c) Excluding individually issued annuities, offering for sale or selling any life insurance contract which includes a side fund:
 - 1. unless interest credited accrues from the date of deposit to the date of withdrawal and permits withdrawals without limit or penalty;
 - 2. unless the applicant has been provided with a schedule of effective rates of return based upon cash flows of the combined product. For this disclosure, the effective rate of return will consider all premiums and cash contributions made by the policyholder and all cash accumulations and cash surrender values available to the policyholder in addition to life insurance coverage. This schedule will be provided for at least each policy year from one (1) to ten (10) and for every fifth policy year thereafter ending at age 100, policy maturity or final expiration; and
 - 3. which by default diverts or transfers funds accumulated in the side fund to pay, reduce or offset any premiums due.
- (d) Excluding individually issued annuities, offering for sale or selling any life insurance contract which after considering all policy benefits, including but not limited to endowment, return of premium or persistency, does not comply with standard nonforfeiture law for life insurance.
- (e) Selling any life insurance product to an individual known to be an active duty service member that excludes coverage if the insured's death is related to war, declared or undeclared, or any act related to military service except for an accidental death coverage, *e.g.*, double indemnity, which may be excluded.

Subject 120-2-96. GEORGIA AFFORDABLE HSA ELIGIBLE HIGH DEDUCTIBLE HEALTH PLAN.

Rule 120-2-96-.01. Authority and Purpose.

O.C.G.A. Section [33-51-2\(1\)](#) authorizes the Commissioner of Insurance to "establish flexible guidelines" for HSA-High Deductible Health Plan filings submitted in connection with products that incorporate health promotion and wellness principles. Within the provisions of Chapter 33-51-4, it is stated that to the extent wellness principles are applied within approved policy contracts, that discounts, refunds, credits or other incentives shall not be considered to be illegal inducements or rebating under applicable provisions of the Georgia Insurance Code, including Unfair Trade Practice provisions. Other provisions of the Act make changes to PPO allowable differentials between classes of providers and product design potential changes. This Rule is intended to amplify and promulgate practical guidelines to carry out the Georgia Affordable HSA Eligible High Deductible Health Plan Act.

Rule 120-2-96-.02. Categories of Products Allowed as High Deductible Health Plan in Wellness Program.

Under this Rule, a health insurance policy, which satisfies Internal Revenue Code requirements for a High Deductible Health Plan, may be used by an insurer in connection with a Wellness Program and with a Health Savings Account program.

Health insurance product categories include, without limitation:

- (1) Comprehensive or major medical health insurance products offered by Life, Accident and Sickness Insurers or Property and Casualty Insurers;
- (2) Comprehensive or major medical health coverage products styled and appropriately disclosed as health maintenance organization coverage when offered by a licensed HMO;
- (3) Preferred Provider Organization comprehensive or major medical health coverage products offered by insurers of any applicable licensure type;
- (4) Point of Service comprehensive or major medical health insurance coverage products (when offered by licensed insurers in connection with approved HMO products); or
- (5) Other comprehensive or major medical health insurance products which do not violate IRS Rules for High Deductible Health Plans under Section 223 of the Internal Revenue Code or related IRS Rules and Regulations.

Filings of product types described in (1) through (5) above may be reviewed and considered for approval by the Commissioner. Such product filings may also be considered for favorable treatment under Georgia provisions relating to taxation and relief from unfair trade practice provisions regarding rebating or illegal inducements with respect to wellness program benefits under O.C.G.A. Sections [33-51-2](#) and [33-51-4](#).

Cite as Ga. Comp. R. & Regs. R. 120-2-96-.02

History. Original Rule entitled "Categories of Products Allowed as High Deductible Health Plan in Wellness Program" adopted. F. Oct. 20, 2009; eff. Nov. 9, 2009.

Rule 120-2-96-.03. Special Provisions for Preferred Provider Organization Products Under O.C.G.A. Section 33-51-5, O.C.G.A. Section 33-51-6 and This Rule.

- (1) Preferred Provider Organization ("PPO") products offered under O.C.G.A. Section [33-51-5](#) may contain greater percentage differentials between preferred and non-preferred providers than the 30% percentage differential limitations under Rule [120-2-44-.04\(5\)](#). Notwithstanding O.C.G.A. Section [33-51-5](#) and Rule 120-2-96-.03(1), plans may not have a coinsurance percentage applicable to benefit levels for services provided by non-preferred providers that is less than 60% of the benefit levels under the policy for such services. This means the maximum coinsurance percentage which may be required by insurers for the enrollee's responsibility for non-preferred provider benefits under PPO products remains at a maximum of 40%.
- (2) O.C.G.A. Section [33-51-6](#) confirms the continuation of the historical requirement under Georgia Law that within PPO coverage, non-preferred dental and/or non-preferred pharmaceutical providers be reimbursed by insurers at the same level as preferred dental

or pharmaceutical providers as stated in O.C.G.A. Section [33-30-23](#) and O.C.G.A. Section [33-51-6](#).

Rule 120-2-96-.04. Categories of Products Not Qualified for Favorable Treatment in Wellness Program.

Examples of plans that will not be allowable or approved under O.C.G.A. Section [33-51-2](#) would include, but not be limited to:

- (1) limited benefit insurance products, as defined in O.C.G.A. Section [33-30-12](#), where the term "limited benefit insurance" means accident and sickness insurance designed, advertised, and marketed to supplement major medical insurance. The term "limited benefit insurance" includes accident only, CHAMPUS supplement, dental, disability income, fixed indemnity, long term care, Medicare supplement, specified disease, vision, and any other accident and sickness insurance other than basic hospital expense, basic medical-surgical expense, or major medical insurance.
- (2) limited duration health insurance products of terms of less than 12 months, regardless of the scope or limitations of benefits within the health insurance coverage.

Rule 120-2-96-.05. Product Filing Standards and Procedures.

- (1) Insurers proposing products for consideration and potential approval under O.C.G.A. Chapter 33-51 and this Rule shall, in cover letters or their equivalent if filed electronically under SERFF, indicate their intent and shall:
 - (a) describe the type of comprehensive or major medical health insurance coverage being proposed,
 - (b) make a clear disclosure on the face page of the Master Policy, if group, and on face pages of Certificates, or on the face page of individual policies to this effect.

- (c) include a clear and conspicuous disclosure that states, in effect, that the health insurer has designed and constructed the evidence of coverage with the intent of satisfying and qualifying the health insurance coverage as a High Deductible Health Plan under applicable provisions of Section 223 of the Internal Revenue Service laws and rules, but that neither the insurer nor the Office of Commissioner of Insurance of the State of Georgia provides federal tax advice, and that consumers should seek their own private tax advice with respect to federal tax treatment beyond the insurance coverage.
- (2) High Deductible Health Plan Policies which contain the appropriate disclosures should receive an expedited review with respect to those coverage issues and the overall filing. All otherwise applicable requirements regarding mandated benefits, limitations, disclosures, notices and other requirements remain in effect to the extent they do not violate IRS Rules for High Deductible Health Plans under Section 223 of the Internal Revenue Code or related IRS Rules and Regulations.
- (3) The Commissioner will consider and may accept a statement from the insurer in a cover letter or its electronic equivalent in the case of SERFF or other electronic filing submission modes accompanying a filing for High Deductible Health Plan coverage, signed by an officer of the company, that indicates the insurer has sought and obtained appropriate advice of counsel familiar with Internal Revenue Service Laws and Rules and that to the best of the company's knowledge and belief, the proposed product qualifies as High Deductible Health Plan coverage under all applicable IRS laws and rules.
- (4) The Commissioner may accept, but is not required to accept, a statement from an officer of the Insurer that the product is similar to a previously approved health insurance product, if so identified by exact form number, date of original or most recent approval, and if accompanied by documentation of differences from any such prior approved form. Such documentation may take the form of a redline version, markup, summary of differences or other clearly designed instrument which helps the reviewer isolate and identify substantive differences from previously approved versions of similar coverage.
- (5)
 - (a) Wellness or Health Promotion Programs should be adequately disclosed by an insurer, either as an integral component of the health insurance product itself, or by attachment of such wellness or health promotion product as a rider to be sold or offered in connection with allowable high deductible health insurance products under Rule [120-2-96-.02](#). Insurers shall be required to clearly disclose the relationship between any proposed health promotion or wellness program and the high deductible health product within application materials, within any advertisement or other solicitation materials and within the evidence of coverage, if applicable. Health Promotion or Wellness Programs shall disclose any and all applicable costs in terms of premium, contribution or other costs, as well as clearly and accurately disclose potential incentives, rewards, discounts or other benefits and how enrollees may claim or otherwise earn and receive any such incentives,

rewards or discounts. Such disclosures must be provided by the insurer to any interested party on request.

- (b) Health Promotion or Wellness programs that are not designed, controlled, operated by and offered by insurers within their health insurance policies must be filed by insurers wishing to use them in connection with High Deductible Health Plan products seeking protection from rebates, illegal inducements or other unfair trade practices under O.C.G.A. Section [33-51-4](#).
- (6) The Commissioner may post enhanced instructions for insurers to use in making formalized SERFF or other electronic or other expedited filings under O.C.G.A. Section [33-51-2](#) on Office of Commissioner of Insurance website materials. The Commissioner will continue to apply applicable policy form filing fees on any such expedited filing methods, but insurers are encouraged to utilize such methods of filing and any such methods of Electronic Funds Transfer to pay applicable policy form and rate filing fees whenever possible or as required in the future for all other SERFF filings.

Repealed: New Rule with same titled adopted. F. Dec. 7, 2020; eff. Jan. 1, 2021, as specified by the Agency.

Rule 120-2-97-.02. Scope and purpose.

- (1) This Regulation applies to any pharmacy benefits manager as defined in O.C.G.A. § [33-64-1](#).
- (2) The purposes of this Regulation include:

- (a) Providing the regulation and licensure of pharmacy benefits managers;
- (b) Promoting the financial responsibility of pharmacy benefits managers;
- (c) To protect the interests of the enrolled public;
- (d) To provide means by which to govern, regulate, and monitor the conduct of pharmacy benefits managers;
- (e) Subjecting those business entities defined in O.C.G.A. § [33-64-1](#) to the jurisdiction of the Commissioner of Insurance; and
- (f) Regulating pharmacy benefits managers' practices in conformity with the general purposes of the Georgia Insurance Code.

Rule 120-2-97-.03. License; application; issuance; renewal; net worth; probationary license.

- (1) It is unlawful for any person, business entity, or other entity to act as or hold itself out to be a pharmacy benefits manager in this State without a valid license issued by the Commissioner of Insurance. To qualify for and hold a license to act as a pharmacy benefits manager in this State, a pharmacy benefits manager must otherwise be in compliance with Chapter 64 of Title 33 of the Official Code of Georgia Annotated and this Regulation.
- (2) The pharmacy benefits manager shall file with the Commissioner an application for a license upon a form to be furnished by the Commissioner.
- (3) An audited financial statement or such other information as the Commissioner may require that demonstrates that the applicant possesses a minimum net worth of \$200,000. Letters of credit, backstop guarantees and special corporate structures will not be taken into consideration by the Commissioner in determining the net worth requirement.
- (4) A Bond and proof of Errors and Omissions coverage must be included in the application and maintained by the pharmacy benefits manager.
- (5) An application for a pharmacy benefits manager's license shall be accompanied by a fee of \$2000.00.

- (6) The Commissioner shall not issue a license or renew an existing license if he or she determines that the pharmacy benefits manager has:
- (a) Misrepresented or concealed any material fact in the application for the license;
 - (b) Has obtained or attempted to obtain the license by misrepresentation, concealment, or other fraud;
 - (c) Has committed fraud;
 - (d) Has failed to obtain for initial licensure or retain for annual renewal a net worth of at least \$200,000; or
 - (e) Has violated any provision of this chapter while on probation, if for license renewal.
- (7) A license issued under this section may be issued on a probationary basis in the discretion of the Commissioner. The probationary license may be issued for not longer than 12 months and not less than 3 months and is subject to revocation without a hearing. The Commissioner, at his or her discretion, shall prescribe the terms of probation, may extend the probationary period, or refuse to grant a license at the end of any probationary period.

Rule 120-2-97-.04. Pharmacy benefits managers bond; and errors and omissions coverage.

- (1) Every pharmacy benefits manager shall file a bond with the Commissioner. The pharmacy benefits manager shall file a certificate of such bond, in a form acceptable by a corporate surety insurer authorized to transact insurance in this state in favor of Commissioner of Insurance of the state of Georgia, continuous in form and in an amount \$100,000.
- (2) The bond shall inure to the benefit of any person damaged by any fraudulent act or conduct of the pharmacy benefits manager and must be conditioned upon faithful accounting and application of all money coming into the pharmacy benefits manager's possession in connection with its activities as an pharmacy benefits manager.
- (3) The bond remains in force until released by the Commissioner or canceled by the surety. Without prejudice to any liability previously incurred, the surety may cancel the bond upon thirty (30) days' advance notice to the pharmacy benefits manager and the

Commissioner. A pharmacy benefits manager's license shall be suspended if it does not file with the Commissioner a replacement bond before the date of cancellation of the previous bond. A replacement bond must meet all requirements of this section for the initial bond.

- (4) Each pharmacy benefits manager shall obtain errors and omissions coverage or other appropriate liability insurance, written by an insurer authorized to transact insurance in this state, in an amount of at least \$250,000.
- (5) Any policy written in accordance with paragraph (4) of this Rule shall be for a term of at least one year and shall contain provisions that:
 - (a) Cancellation or termination of the policy is not effective except upon sixty (60) days' written notice by registered or certified mail to the other party to the policy and to the Commissioner; and
 - (b) The policy is automatically renewable at the expiration of the policy period except upon sixty (60) days' written notice by registered or certified mail by the party not renewing the policy to the other party to the policy and to the Commissioner.
- (6) Compliance by the pharmacy benefits manager with paragraphs (1) and (4) of this Rule is a prerequisite to approval of its application by the Commissioner.
- (7) Any bond and errors and omissions coverage required for licensure and renewal purposes shall be maintained in place by the pharmacy benefits manager for a period of at least one year immediately following the surrender, non-renewal or revocation of the license.

Rule 120-2-97-.05. Annual renewal.

- (1) Each authorized pharmacy benefits manager shall file with the Commissioner an annual renewal of its license on a form prescribed by the Commissioner. The statement shall be filed annually on or before May 1. The annual renewal shall be in such form and contain such matters as the Commissioner prescribes and shall be verified by at least one officer of the pharmacy benefits manager. For good cause shown the Commissioner may extend the time for filing of the annual renewal of the license conditioned upon payment of a late fee of \$15.00 per day as prescribed by law at O.C.G.A. § [33-8-1\(W\)](#). In the event the pharmacy benefits manager does not timely renew its license prior to the expiration of its license, June 30, the pharmacy benefits manager will cease to have a valid license and will need to reapply for a new license prior to commencing its business or initiating new

business in Georgia. If the pharmacy benefits manager fails to renew its license the Commissioner shall provide notice to the pharmacy benefits manager and the pharmacy benefits manager may invoke the right to a hearing.

- (2) At the time of filing its annual renewal, the pharmacy benefits manager shall pay a filing fee of \$1000.00.
- (3) The pharmacy benefits manager shall at all times maintain a net worth of \$200,000. If the pharmacy benefits manager fails to maintain a net worth of \$200,000 the Commissioner, in his or her discretion, may enter any disciplinary order as he or she deems appropriate pursuant to Title 33. In order to verify the net worth of the pharmacy benefits manager, proof that the applicant possesses a minimum net worth of \$200,000 must be included in the annual renewal filing that represents the calendar year end or fiscal year end of the pharmacy benefits manager.

Rule 120-2-97-.06. Examination by Commissioner; on-site visits; access to records; and expenses.

- (1) The Commissioner or his or her designated representative is authorized to conduct financial examinations, compliance audits, and investigate complaints of the affairs of each pharmacy benefits manager as often as is deemed necessary. Whenever the Commissioner shall deem it expedient, he or she shall examine, either directly or by use of an examiner duly authorized by him or her, the affairs, transactions, accounts, records, documents, assets, liabilities, of a pharmacy benefits manager and any other facts relative to its business methods, management, and dealings with a health plan or covered entity.
- (2) Any pharmacy benefits manager being examined shall provide to the Commissioner or his or her designee convenient and free access, at all reasonable hours at their offices, to all books, records, documents and other papers relating to such pharmacy benefits manager's business affairs. In addition to on-site access to records, a pharmacy benefit manager shall, upon written request, make its records available to the Commissioner or the Commissioner's designee, unless otherwise directed by the Commissioner.
- (3) A pharmacy benefits manager shall pay the fees and expenses of the examination whether conducted by the Commissioner or contracted examiner designated by the Commissioner. A consolidated account for the examination shall be filed by the examiner with the Commissioner. When a pharmacy benefits manager is examined as a result of a complaint filed against it and the Commissioner determines that the complaint was not justified, the

expenses incurred as a result of the examination shall not be levied against the pharmacy benefits manager.

- (4) Nothing in this rule shall limit or abridge any other investigatory powers of the Commissioner vested in him or her by Title 33 of the Official Code of Georgia Annotated.

Rule 120-2-97-.07. Forms; reports; and required documentation.

- (1) Standard pharmacy benefits manager forms are required and will be supplied upon request by the Commissioner's office either in paper form or electronically over the internet. Applicants and licensed pharmacy benefits managers shall utilize all applicable forms in preparing applications, statements, notices of required information, and other required submissions required under Chapter 64 of Title 33 of the Official Code of Georgia Annotated.
- (2) A pharmacy benefits manager shall file all methodologies utilized in determining multi-source generic drug pricing reimbursement to pharmacies in this state within 30 days of their use and upon receiving a notice of complaint by the Commissioner in connection with O.C.G.A. § [33-64-9](#), a pharmacy benefits manager shall within 14 calendar days:
 - (a) Identify the methodology and source or sources used to determine the multi-source generic drug price for the drug which is the subject of the complaint; and
 - (b) Identify the reason for the denial of any pharmacy reimbursement appeal and produce relevant documentation in connection with the reimbursement price of the drug the day the claim at issue in the complaint was adjudicated and the preceding 5 days prior to the day the claim was adjudicated including source pricing records as well the national drug code of an equivalent drug product that could have been purchased by the complainant pharmacy at a price at or below the amount the pharmacy was reimbursed;
- (3) A pharmacy benefits manager shall annually file a disclosure statement identifying all affiliate pharmacies holding a Georgia license or non-resident pharmacy and upon receiving a notice of complaint by the Commissioner in connection with steering or a mail order mandate, a pharmacy benefits manager shall provide within five business days:

- (a) Any and all communications sent to the insured within the previous 12 months advertising, marketing, promoting an affiliate pharmacy or the affiliate pharmacy of another pharmacy benefits manager; any communication ordering an insured to use an affiliate pharmacy benefits manager or indicating that an insured's costs will increase when using a non-affiliate pharmacy; and
 - (b) Any and all communications sent to a non-affiliate pharmacy when an insured attempted to fill a prescription including any on-screen rejections or other messaging directing an insured to an affiliate pharmacy or affiliate of another pharmacy benefits manager.
- (4) As required by O.C.G.A. Section [33-64-9.1\(a\)\(2\)](#), a pharmacy benefits manager shall annually file on a form provided by the Commissioner:
 - (a) The required NADAC report for the months of January through April no later than June 15, for the months May through August no later than October 15, and for the months of September through December no later than February 15 of the following year; and
 - (b) on or before March 1, the website domain name where the public can access the pharmacy benefits manager's NADAC reports. Any changes to the domain name thereafter shall be filed with the Commissioner within 14 calendar days of the change.
- (5) As required by O.C.G.A. Code Section [33-64-10\(a\)](#), a pharmacy benefits manager shall, for each health plan client, annually, on or before the first day of April, on a form provided by the Commissioner report all rebates and other payments it received in the preceding calendar year from pharmaceutical manufacturers on behalf of the health plan.
- (6) As required by O.C.G.A. Code Section [33-64-10\(d\)](#), a pharmacy benefits manager shall, report for any health plan administered on behalf of a state agency or political subdivision of the state, state department or subdivision of the state, on or before March first, the aggregate difference between what the pharmacy benefits manager reimbursed pharmacies and what the pharmacy benefits managers were paid by the health plan. Nothing herein shall be construed to authorize a pharmacy benefits manager charging a state health plan or political subdivision of the state health plan more for a prescription drug than it reimburses a pharmacy after July of 2021.
- (7) As required by O.C.G.A. Section [33-64-12](#), a pharmacy benefits manager and a person operating a health plan under Title 33 shall:
 - (a) Annually, on or before March 1, file on a form provided by the Commissioner, an attestation indicating whether or not, in the previous calendar year, it or its contracted pharmacy benefits manager engaged in the practice of steering or imposed point of sale or retroactive fees in connection with its health plans and Georgia insureds; and

- (b) Annually, on or before March 1, file a report detailing all prescription drug claims it or its contracted pharmacy benefits manager administered for Georgia insureds on behalf of each health plan including the date each claim was administered, the amount the pharmacy was reimbursed for the claim, and the aggregate dollar amount it reimbursed pharmacies in the previous calendar year for prescriptions drugs for Georgia insureds on behalf of all its health plan clients.
 - (c) If it has engaged in the practice of steering or has imposed point of sale or retroactive fees, annually, on or before April 1, render to the state of Georgia, a surcharge equal to 10% of the aggregate dollar amount it or its contracted pharmacy benefits manager reimbursed pharmacies in the previous calendar year for prescriptions drugs for Georgia insureds.
 - (d) Any and all claims administered pursuant to the Medicare program shall be exempt from reporting requirements and shall be exempt from the surcharge calculation. All other claims administered on behalf of a Georgia insured shall be subject to reporting and, when a pharmacy benefits manager has engaged in the practice of steering or has imposed a point of sale or retroactive fee, the surcharge.
- (8) upon receiving a notice of complaint by the Commissioner regarding an audit in connection with O.C.G.A. Code Section [26-4-118](#), a pharmacy benefits manager shall identify within 14 calendar days, on a form provided by the Commissioner, the notice given to the pharmacy, the number of claims audited during the audit at issue, the number of claims audited within the past 12 months, the number of audits of the pharmacy within the past 12 months, the discrepancies identified in the audit at issue, the basis for the denial of any internal appeal, and the basis for recoupment.

Rule 120-2-97-.08. Penalties; Commissioner actions; and reimbursements.

- (1) Any person, business entity, or other entity acting as a pharmacy benefits manager without a license shall be subject to a monetary penalty of up to \$2000.00 for each and every transaction in violation of the chapter. Any person, business entity, or other entity willfully acting as a pharmacy benefits manager without a license shall be subject to a monetary penalty of up to \$10,000.00 for each and every act in violation.
- (2) In addition to all other penalties provided for under this title, the Commissioner shall have the authority to place any pharmacy benefits manager on probation for a period of time not to exceed one year for each and every act in violation of the chapter and may subject

such pharmacy benefits manager to a monetary penalty of up to \$2000.00 for each and every act in violation of this chapter. If the pharmacy benefits manager willfully acted in violation of this chapter the monetary penalty may be increased up to \$10,000.00 for each and every act in violation.

- (3) In the event a pharmacy benefits manager is in violation of the chapter while on probation, the Commissioner may suspend the license.
- (4) When a pharmacy benefits manager is taking or threatening to take action in violation of the chapter the Commissioner may issue a cease and desist order.
- (5) When the action of a pharmacy benefits manager is in violation of the chapter the Commissioner may order reimbursement to an insured, pharmacy, or other dispenser for any monetary loss arising as a result of the violation or violations as well as order payment of a fine not to exceed \$1,000.00 per violation to an insured, pharmacy, or other dispenser who has been aggrieved. Such a fine shall be in addition to and not to preclude any other penalties pursuant to the chapter.

Subject 120-2-98. REVIEW OF HEALTH BENEFIT PLAN RATE INCREASES.

Rule 120-2-98-.01. Purpose and Authority.

Section 1003 of the Patient Protection and Affordable Care Act directs the Secretary of the Department of Health and Human Services ("HHS"), in conjunction with the States, to establish a process for the review of unreasonable health insurance rate increases. The federal regulations adopted by HHS at 45 C.F.R. Part 154 set forth criteria for an effective rate review program and

provide that, on and after September 1, 2011, HHS will defer to a State review of certain health insurance rate filings only if that State has been deemed to have an effective rate review program. HHS will assert the authority to review certain health insurance rate filings in States without an effective rate review program. Georgia has been deemed to be an effective rate review State subject to the adoption of the federal rate review criteria on or before September 1, 2011. This Emergency Regulation Chapter is necessary to preserve the Commissioner of Insurance's ability to review certain health insurance rates and preserve the public welfare as contemplated by O.C.G.A. § [33-9-1\(a\)](#) and other applicable provisions of Title 33 cited herein.

This regulation is issued pursuant to the authority vested in the Commissioner under Chapters 2 and 9 of Title 33 and O.C.G.A. §§ [33-21-13](#), [33-21-18](#), and [33-21-28](#).

Cite as Ga. Comp. R. & Regs. R. 120-2-98-.01

Authority: O.C.G.A. Sections [33-2-9](#), [33-9-1](#) *et seq.*, [33-21-13](#), [33-21-18\(a\)](#), [33-21-28](#).

History. Rule entitled "Purpose and Authority" adopted. F. Dec. 6, 2011; eff. Dec. 26, 2011.

Rule 120-2-98-.02. Definitions.

- (1) "CMS" means the Centers for Medicare & Medicaid Services.
- (2) "Health benefit plan" has the same meaning as O.C.G.A. § [33-24-59.5\(2\)](#) as that term is modified by the provisions of O.C.G.A. § [33-1-2\(1.1\)](#) but does not include coverage offered by a person not subject to the jurisdiction of the Commissioner pursuant to O.C.G.A. § [33-1-14](#).
- (3) "Individual market" means the market for health benefit plans where the health benefit plan is issued directly to a natural person and not through coverage under a group, blanket or franchise health benefit plan.
- (4) "Rate increase" means any increase of the rates for a health benefit plan offered in the individual or small group market.
- (5) "Rate increase subject to review" means a rate increase that meets the criteria set forth in [120-2-98-.03](#).
- (6) "Secretary" means the Secretary of the Department of Health and Human Services.
- (7) "Small group market" means the market within which small group coverage is sold as that term is defined in O.C.G.A. § [33-30-12\(a\)](#).
- (8) "Unreasonable rate increase" means a rate increase subject to review that violates applicable laws, regulations, and rules.

Authority: O.C.G.A. Sections [33-2-9](#), [33-9-1](#) *et seq.*, 33-21-13, 33-21-18(a), 33-21-28.

History. Rule entitled "Rate Increases Subject to Review" adopted. F. Dec. 6, 2011; eff. Dec. 26, 2011.

Rule 120-2-98-.04. Rate Filing Requirements.

In addition to other materials that are otherwise required to be filed, each insurer is required to file the following material for a rate increase subject to review:

- (1) The preliminary justification required by [45 C.F.R. § 154.215\(b\)](#);
- (2) The documentary support for all assumptions used by the insurer to develop the proposed rate increase, including historical data underlying the assumptions;
- (3) The documentary support demonstrating the insurer's consideration of the applicable factors set forth in [120-2-98-.05](#);
- (4) Any documentation requested by the Department to the extent that such documentation is pertinent to the filing under review.

Rule 120-2-98-.05. Standards of Review.

In addition to standards or criteria of review that are otherwise applicable to a rate increase subject to review under this regulation, the following standards will apply to the review of rates to the extent applicable to the filing under review:

- (1) The impact of medical trend changes by major service categories;
- (2) The impact of utilization changes by major service categories;

- (3) The impact of cost-sharing changes by major service categories;
- (4) The impact of benefit changes;
- (5) The impact of changes in enrollee risk profile;
- (6) The impact of any overestimate or underestimate of medical trend for prior year periods related to the rate increase;
- (7) The impact of changes in reserve needs;
- (8) The impact of changes in administrative costs related to programs that improve health care quality;
- (9) The impact of changes in other administrative costs;
- (10) The impact of changes in applicable taxes, licensing or regulatory fees;
- (11) Medical loss ratio; and
- (12) The health insurance issuer's capital and surplus.

Subject 120-2-99. SALE OF INDIVIDUAL HEALTH INSURANCE PRODUCTS APPROVED IN OTHER STATES.

Rule 120-2-99-.01. Authority and Purpose.

Article 3 of Chapter 29A of Title 33 directs the Commissioner to adopt implementing rules and regulations governing the filing, approval, and sale of individual health insurance products that have been approved for issuance in other states. This regulation is issued pursuant to the authority vested in the Commissioner under Chapter 2 of Title 33 and O.C.G.A. Sections O.C.G.A. [33-29A-30](#)*et seq.*

Cite as Ga. Comp. R. & Regs. R. 120-2-99-.01

Authority: O.C.G.A. §§ [33-2-9](#) and [33-29A-30](#)*et seq.*

History. Original Rule entitled "Authority and Purpose" adopted. F. Nov. 18, 2011; eff. Dec. 8, 2011.

Rule 120-2-99-.02. Individual Health Insurance Products Approved in Other States.

- (1) An insurer authorized to transact insurance in this state may file for approval and issuance in this state an individual health insurance product currently approved for issuance by the insurer or its affiliate in another state, provided that such product meets the requirements of Article 3 of Chapter 29A of Title 33, other applicable provisions of Title 33, and the regulations of the Commissioner.
- (2) An insurer authorized to transact insurance in this state may offer an individual health insurance product with benefits equivalent to those in any individual health insurance product approved pursuant to Article 3 of Chapter 29A of Title 33.
- (3) Any individual health insurance product offered or sold pursuant to Article 3 of Chapter 29A of Title 33 shall comply with O.C.G.A. § [9-9-2\(c\)\(3\)](#) and shall not require the insured or his or her beneficiary to arbitrate disputes arising under the terms of the policy.

History. Original Rule entitled "Individual Health Insurance Products Approved in Other States" adopted. F. Nov. 18, 2011; eff. Dec. 8, 2011.

Rule 120-2-99-.03. Filing Requirements.

- (1) All individual health insurance products offered or sold pursuant to Article 3 of Chapter 29A of Title 33 shall be filed for prior review and approval and subject to the applicable SERFF filing and policy form filing fees.
- (2) Proof of current approval and product line authority in domicile state is required of foreign insurers.
- (3) Proof of current state approval other than Georgia, if different from domicile state should be furnished and referenced in filing.
- (4) Outlines of coverage must be prepared and filed for approval with the policy forms filing.
- (5) Insurer filings shall conform to applicable actuarial standards set forth by the National Association of Insurance Commissioners or regulations promulgated by the Commissioner including, but not limited to:
 - (a) Assumptions and rating processes;
 - (b) Presumed loss ratio in the pricing of any such product; and

- (c) Any other appropriate actuarial standards of practice under comprehensive major medical coverage for medical and surgical benefits, or for high deductible health plans sold under the applicable provisions of Section 223 of the Internal Revenue Code.
- (6) Insurers shall include a cover letter describing the relationship between the insurer making the filing and the affiliate, if any, which currently has approval for the issuance of the individual health insurance product in another state, the original state where the proposed product was approved, and the date of such approval. Any insurer authorized to transact insurance in this state seeking to offer an individual health insurance product with benefits equivalent to those of individual health insurance product already approved pursuant to Article 3 of Chapter 29A of Title 33 shall disclose the name of the insurer, the policy form number of such insurer, and the date approved in this state.
- (7) All policies delivered or issued for delivery in Georgia are subject to Georgia jurisdiction and all legal disputes arising under the policy shall be resolved in accordance with applicable Georgia law, including specifically the requirements of Title 9 and Title 33.

Rule 120-2-99-.04. Required Disclosures.

- (1) Each policy application for a product offered or sold pursuant to Article 3 of Chapter 29A of Title 33 shall contain the following language in boldface type at the beginning of the document:

"The benefits of this policy may primarily be governed by the laws of a state other than Georgia; therefore, all of the laws applicable to policies filed in this state may not apply to this policy. Any purchase of individual health insurance should be considered carefully since future medical conditions may make it impossible to qualify for another individual health insurance policy."

- (2) Each delivered policy must contain the following language in boldface type at the beginning of the document:

"The benefits of this policy providing your coverage may be governed primarily by the laws of a state other than Georgia. The benefits covered may be different from other policies you can purchase. Please consult your insurance agent or insurer to determine which health benefits are covered under this policy."

- (3) Each policy offered or sold pursuant to Article 3 of Chapter 29A of Title 33 shall also contain the following standard forms for the disclosure and comparison of benefits.

(a) **[INSURER NAME AND ADDRESS]**

Subject 120-2-100. Limited Purpose Subsidiaries.

Rule 120-2-100-.01. Authority.

This regulation is promulgated by the Commissioner of Insurance pursuant to the authority set forth in O.C.G.A. §§ [33-14-100](#)*et seq.*

Cite as Ga. Comp. R. & Regs. R. 120-2-100-.01

Authority: O.C.G.A. §§ [33-2-9](#), [33-14-100](#)*et seq.*

History. Original Rule entitled "Authority" adopted. F. Nov. 8, 2011; eff. Nov. 28, 2011.

Rule 120-2-100-.02. Scope and Purpose.

- (1) This regulation applies to any limited purpose subsidiary as defined in O.C.G.A. § [33-14-100](#).
- (2) The purposes of this regulation include:
 - (a) Providing requirements for the organization of limited purpose subsidiaries;
 - (b) Providing for the requirements for the plan of operation for limited purpose subsidiaries;
 - (c) Providing capital, surplus and risk-based capital requirements for limited purpose subsidiaries;
 - (d) Providing reporting and notification requirements for limited purpose subsidiaries;
 - (e) Providing requirements for reserves of limited purpose subsidiaries;

- (f) Providing requirements for authorized investments of limited purpose subsidiaries;
- (g) Providing requirements with respect to reinsurance ceded or assumed by limited purpose subsidiaries;
- (h) Providing requirements and restrictions for Material Transactions of limited purpose subsidiaries;
- (i) Providing requirements for dividends and distributions;
- (j) Providing requirements for operations of limited purpose subsidiaries;
- (k) Providing conditions of, forms for, and approval of the financing of limited purpose subsidiaries;
- (l) Providing for other regulation of limited purpose subsidiaries.

Rule 120-2-100-.05. Officers and Directors.

- (1) Each limited purpose subsidiary shall have not less than three directors.
- (2) At least one-fourth of the directors of a limited purpose subsidiary must be residents of this state. A majority of the directors must be citizens of the United States.
- (3) The officers and directors of a limited purpose subsidiary may serve as officers and directors of the organizing domestic reinsurer.
- (4) A limited purpose subsidiary shall have the following officers: president; chief financial officer, secretary; and employed appointed actuary. The same individual may simultaneously hold more than one office in a limited purpose subsidiary.

Authority: O.C.G.A. §§ [33-2-9](#), [33-14-100](#) *et seq.*

History. Original Rule entitled "Officers and Directors" adopted. F. Nov. 8, 2011; eff. Nov. 28, 2011.

Rule 120-2-100-.06. Certificate of Authority.

- (1) No limited purpose subsidiary shall do any reinsurance business in this state unless it first obtains from the Commissioner a certificate of authority.
- (2) Before receiving a certificate of authority, a limited purpose subsidiary shall do all of the following:
 - (a) File with the Commissioner a copy of its plan of operation.
 - (b) File with the Commissioner an affidavit of its president- or chief financial officer that includes all of the following statements, to the best of such person's knowledge and belief, after reasonable inquiry:

1. The proposed organization and operation of the limited purpose subsidiary shall comply with all provisions of O.C.G.A. §§ [33-14-100](#)*et seq.* and this Regulation Chapter.
 2. The limited purpose subsidiary's investment policy specifies guidelines as to the quality, maturity, and diversification of investments and other specifications, including investment strategies intended to assure that the investments and investment practices are appropriate for the business conducted by the limited purpose subsidiary, its liquidity needs, and its capital and surplus.
 3. Any reinsurance contract and any arrangement for securing the limited purpose subsidiary's obligations under such reinsurance contract including, but not limited to, any agreements or other documentation to implement such arrangement, comply with the provisions of O.C.G.A. §§ [33-14-100](#)*et seq.* and this Regulation Chapter.
- (c) File with the Commissioner an opinion of legal counsel, in a form acceptable to the Commissioner, that the offer and sale of any limited purpose subsidiary securities comply with all applicable registration requirements or applicable exemptions from or exceptions to such requirements of the federal securities laws and that the offer and sale of securities by the limited purpose subsidiary itself comply with all registration requirements or applicable exemptions from or exceptions to such requirements of the securities laws of this state. Such opinions shall not be required as part of the application if the limited purpose subsidiary includes a specific statement in its plan of operation that such opinions will be provided to the Commissioner in advance of the offer or sale of any limited purpose subsidiary securities.
 - (d) Agree to pay the reasonable expenses and costs incurred incident to an examination of the limited purpose subsidiary's application by a qualified third party selected by the Commissioner.
 - (e) Submit any other statements or documents required by the Commissioner to evaluate the limited purpose subsidiary's application for a certificate of authority.
- (3) In the event of any material change in any item required in 120-2-100-.06(2), the limited purpose subsidiary shall notify the Commissioner at least 30 days prior to the change and submit to the Commissioner for approval any revised documents, opinions, or certifications.
 - (4) The Commissioner may grant a certificate of authority to a limited purpose subsidiary, which shall be valid through the next June 1 following the date of initial issuance and which may be renewed annually thereafter, authorizing the limited purpose subsidiary to

transact reinsurance business as a limited purpose subsidiary in this state upon a finding that:

- (a) The proposed plan of operation provides for a viable operation;
 - (b) The terms of any reinsurance contract and related transactions comply with O.C.G.A. §§ [33-14-100](#)*et seq.* and this Regulation Chapter and all applicable insurance laws and regulations; and
 - (c) The proposed plan of operation is not hazardous to the organizing domestic reinsurer.
- (5) In conjunction with the issuance of a certificate of authority to a limited purpose subsidiary, the Commissioner may issue an order that includes any provisions, terms, and conditions regarding the organization, licensing, and operation of the limited purpose subsidiary that the Commissioner deems appropriate and that are not inconsistent with the provisions of O.C.G.A. §§ [33-14-100](#)*et seq.* and this Regulation Chapter.
- (6) A limited purpose subsidiary issued a certificate of authority may reinsure only risks of an organizing domestic reinsurer. A limited purpose subsidiary shall not otherwise engage in the business of insurance or reinsurance. A limited purpose subsidiary may purchase reinsurance to cede all or a portion of its risks subject to the prior approval of the Commissioner.

Rule 120-2-100-.07. Capital and Surplus.

- (1) The amount of minimum capital and surplus required for each limited purpose subsidiary shall be determined on an individual basis; however, no limited purpose subsidiary shall be issued a certificate of authority unless it shall possess unimpaired capital and surplus of not less than \$10 million. The Commissioner may require additional capital and surplus of any limited purpose subsidiary in an amount he deems appropriate under the circumstances based on the limited purpose subsidiary's plan of operation.
- (2) Each limited purpose subsidiary shall maintain a minimum risk-based capital equal to the product of 2.5 and the number determined under the risk-based capital formula in accordance with risk-based capital instructions prescribed by the National Association of Insurance Commissioners.

History. Original Rule entitled "Capital and Surplus" adopted. F. Nov. 8, 2011; eff. Nov. 28, 2011.

Rule 120-2-100-.08. Plan of Operation.

- (1) A limited purpose subsidiary shall have a plan of operation approved by its board of directors. The plan of operation shall include all of the following:
 - (a) A complete description of all reinsurance transactions, reinsurance security arrangements, securitizations, and any other Material Transactions or arrangements.
 - (b) The source and form of the limited purpose subsidiary's capital and surplus.
 - (c) The investment policy of the limited purpose subsidiary.
 - (d) Pro forma financial statements and risk-based capital projections illustrating one or more adverse case scenarios, as determined under criteria required by the Commissioner, for the performance of the limited purpose subsidiary under all reinsurance contracts. Pro forma financial statements and risk-based capital projections shall be in the format prescribed by the NAIC's Uniform Certificate of Authority Application.
 - (e) Copies of all contracts between the limited purpose subsidiary and affiliated companies.
- (2) Any change in the limited purpose subsidiary's plan of operation shall require prior approval of the Commissioner.

Rule 120-2-100-.09. Dividends and Distributions.

No limited purpose subsidiary shall pay any dividend or make any other distribution to the organizing domestic reinsurer until 30 days after the Commissioner has received notice of the declaration thereof and has not within such period disapproved such payment or other distribution, or the Commissioner shall have approved such payment within such 30 day period. The notice required by this section shall include the amount of the dividend or distribution and a certification signed by an officer of the limited purpose subsidiary stating that the dividend or distribution would not jeopardize the ability of the limited purpose subsidiary to fulfil the limited purpose subsidiary's obligations.

Rule 120-2-100-.10. Reports and Notifications.

- (1) A limited purpose subsidiary shall file on or before March 1 of each year a financial report of its business and affairs as of December 31 of the calendar year immediately preceding. Such report shall be filed on the life and accident and health blank adopted by the NAIC. The financial reports required by this rule shall be prepared in accordance with the NAIC's Annual Statement Instructions and the NAIC Accounting Practices and Procedures Manual unless otherwise prescribed by the Commissioner.
- (2) A limited purpose subsidiary shall file quarterly financial reports on the life and accident and health blank adopted by the NAIC. Such reports shall be as of March 31, June 30 and September 30 and shall be due May 15, August 15 and November 15 respectively.
- (3) All limited purpose subsidiaries shall have an annual audit by an independent certified public accountant and shall file an audited financial report with the Commissioner on or before June 1 for the year ended December 31 immediately preceding. Extensions of the June 1 filing date may be granted by the Commissioner for thirty (30) day periods upon a showing by the insurer and its independent certified public accountant the reasons for requesting such extension and determination by the Commissioner of good cause for an extension. The request for extension must be submitted in writing not less than ten (10) days prior to the due date in sufficient detail to permit the Commissioner to make an informed decision with respect to the extension.
- (4) A limited purpose subsidiary shall provide the Commissioner with a copy of a complete set of executed documentation of an insurance securitization no later than 45 days after the closing of the transactions for such securitization.
- (5) In the event of any material change in the financial condition or any change in the officers or directors of a limited purpose subsidiary, the limited purpose subsidiary shall notify the Commissioner in writing within two business days of any such change.
- (6) A limited purpose subsidiary shall file annually with the Commissioner an actuarial opinion, in compliance with O.C.G.A. § [33-10-13](#) and Regulation 120-2-74, on reserves for all risks retained by the limited purpose subsidiary. The actuarial opinion shall be provided by an appointed actuary that meets the qualification standards prescribed by Regulation [120-2-74-.05](#).(2).
- (7) A limited purpose subsidiary shall file annually with the Commissioner a report of the limited purpose subsidiary's risk-based capital level as of the end of the calendar year immediately preceding containing the information required by the risk-based capital instructions adopted by the NAIC.

- (8) A limited purpose subsidiary shall notify the Commissioner immediately of any action by an organizing domestic reinsurer or any other person to foreclose on or otherwise take possession of collateral provided by the limited purpose subsidiary to secure any obligation of the limited purpose subsidiary.

Rule 120-2-100-.11. Material Transactions.

- (1) In addition to the reporting requirements prescribed by O.C.G.A. §§ [33-55-1](#) *et seq.*, a limited purpose subsidiary shall not take any of the following actions unless the limited purpose subsidiary provides the Commissioner at least 30 days' prior written notice and the Commissioner expressly approves the action:
 - (a) Any assignment, pledge or other transfer or granting of a security interest in over 30 percent of the assets of the limited purpose subsidiary.
 - (b) Any incurrence of material indebtedness by the limited purpose subsidiary.
 - (c) The termination of all or any part of a limited purpose subsidiary's business.
- (2) This Rule shall not apply when a limited purpose subsidiary takes any action in accordance with the limited purpose subsidiary's plan of operation.

History. Original Rule entitled "Material Transactions" adopted. F. Nov. 8, 2011; eff. Nov. 28, 2011.

Rule 120-2-100-.12. Investments.

- (1) The limited purpose subsidiary's investment policy and its investments shall comply with Article 2 of Chapter 11 of Title 33 of the Official Code of Georgia Annotated unless otherwise specified in this Rule or approved by the Commissioner in the limited purpose subsidiary's plan of operation or an amendment to the limited purpose subsidiary's plan of operation.
- (2) In addition to assets permitted by O.C.G.A. § [33-10-1](#), admitted assets of the limited purpose subsidiary shall include letters of credit, guaranties of a parent, and any other assets approved by the Commissioner, which shall be deemed to be, and reported as, admitted assets of the limited purpose subsidiary. The Commissioner shall have the authority to reduce the value of admitted assets, other than assets already covered by the

Accounting Practices and Procedures Manual of the NAIC, if the Commissioner determines that the value of those assets has decreased. At least 30 days prior to reducing the value of such admitted assets, the Commissioner shall notify the limited purpose subsidiary and provide the limited purpose subsidiary an opportunity to remedy the issues identified by the Commissioner.

- (3) A limited purpose subsidiary shall not make a loan to or an investment in any person, other than as permitted in the limited purpose subsidiary's plan of operation, without prior written approval of the Commissioner, and any such loan or investment must be evidenced by documentation approved by the Commissioner.

Rule 120-2-100-.13. Securities.

- (1) A limited purpose subsidiary securitization, the security-offering memorandum or other document issued to prospective investors regarding the offer and sale of a surplus note or other security shall include a disclosure that all or part of the proceeds of such insurance securitization or surplus note transaction will be used to fund the limited purpose subsidiary's obligations to the organizing domestic reinsurer.
- (2) A security issued by a limited purpose subsidiary shall not be subject to regulation as an insurance or reinsurance contract. An investor in such a security or a holder of such a security shall not be considered to be transacting the business of insurance or reinsurance in this state solely by reason of having an interest in the security. The underwriter's placement or selling agents and their partners, commissioners, officers, members, managers, employees, agents, representatives, and advisors involved in an insurance securitization by a limited purpose subsidiary shall not be considered to be insurance producers or brokers or to be conducting business as an insurance or reinsurance company or as an insurance agency, brokerage, intermediary, advisory, or consulting business solely by virtue of their underwriting activities in connection with such securitization.

Rule 120-2-100-.14. Permitted Reinsurance and Credit for Reinsurance.

- (1) A limited purpose subsidiary may reinsure only the risks of the organizing domestic reinsurer.

- (2) Unless otherwise approved in advance by the Commissioner, a reinsurance contract shall not contain any provision for payment by the limited purpose subsidiary in discharge of its obligations as a reinsurer under the reinsurance contract to any person other than the organizing domestic reinsurer or any receiver of the organizing domestic reinsurer.
- (3) A limited purpose subsidiary may cede risks to one or more reinsurers approved by the Commissioner.
- (4) Credit for reinsurance shall be allowed limited purpose subsidiary as either an asset or a reduction from liability on account of reinsurance ceded only when the reinsurance transaction has been approved by the Commissioner.

Rule 120-2-101-.03. Child Only Policy Forms.

- (1) To satisfy the requirements set forth in O.C.G.A. §33-29B-3(a), an indemnity insurer should submit at least one policy of child-only individual health coverage that follows Regulation [120-2-81-.04](#). That coverage form should be updated by the insurer to comply with current federal Patient Protection and Affordable Care Act ("ACA") requirements, including, but not limited to the removal of lifetime limits.
- (2) To satisfy the requirements set forth in O.C.G.A. §33-29B-3(a), a Health Maintenance Organization insurer should submit at least one policy of child-only individual health coverage that follows Rule [120-2-81-.05](#). That coverage form should be updated by the Health Maintenance Organization insurer to comply with current federal ACA requirements, including, but not limited to the removal of lifetime limits.
- (3) Notwithstanding the requirements set forth in subparagraphs (1) and (2) of this section, an insurer may, at its option submit one or more other, previously approved and presently available individual comprehensive or major medical health insurance coverages as alternative products to comply with this regulation.

Cite as Ga. Comp. R. & Regs. R. 120-2-101-.03

History. Original Rule entitled "Child Only Policy Forms" Adopted. F. Dec. 7, 2012; eff. Dec. 27, 2012.

Rule 120-2-101-.04. Child Only Premium Rates.

- (1) Pursuant to O.C.G.A. §33-29B-3(g), insurers shall submit proposed health insurance rates that include current 2012 actuarial supporting assumptions on relevant plan design, benefits and limitations and that are reasonably related to contemporary plan designs and rates on file with and approved by this Office for the subject insurer. Insurers may, but are not required to obtain rate approval, if such rates are currently filed and approved by the Commissioner.
- (2) An insurer may impose a surcharge on any individual who enrolls in a child-only policy and has not had prior creditable coverage in the 63 day period preceding the date of the application. The amount of the surcharge may be up to, but shall not exceed, 50 percent of the premium rate that would be charged to an individual who did have prior creditable coverage in the 63 day period preceding the date of the application.

History. Original Rule entitled "Child Only Premium Rates" Adopted. F. Dec. 7, 2012; eff. Dec. 27, 2012.

Rule 120-2-101-.05. Policy Form and Rate Submissions in SERFF.

- (1) Insurers are required to submit all proposed form and rate filings in the SERFF filing system for advance approval.
- (2) Insurers shall pay all appropriate policy form and rate filing fees, as normally required.
- (3) Insurers shall mark such SERFF policy form and rate filings in cover letter materials as child-only coverage and prominently reference "child-only" in appropriate descriptions to ensure the recognition and timely attention necessary for compliance with these product offering requirements.
- (4) Insurers should include specialized child-only application and enrollment forms with policy form and rate filings. Such applications should make appropriate provisions for parent or guardian authorization and completion of applicant identifying and other relevant information by parent or guardian on behalf of any minor applicant.
 - (a) Applications shall include a prominent disclosure about the 2013 duration of this child-only Georgia coverage program. Such application disclosures should reference evidence of coverage material provisions as to term and termination of the program as provided in O.C.G.A. §33-29B-8.
 - (b) The Commissioner may approve a modification of previously approved forms, provided the changes are clearly marked on the documents submitted to the Commissioner and are consistent with the provisions of this regulation.

(5) Policy form filed materials should make appropriate reference to the temporary nature of the 2013 child-only Georgia individual health coverage program. Insurers should pay specific attention to and address the following issues:

- (a) Enrollment;
- (b) Special Enrollment;
- (c) Limited coverage term of policy during 2013;
- (d) Provisions regarding termination not prejudicing any existing claim and providing a reasonable proposed extension of benefits for covered persons disabled at the end of term of coverage;
- (e) Disclosure about lack of renewability (if applicable); and
- (f) Any provisions about transition to other insurance after 2013 (if applicable).

The items above are appropriate provisions to include in proposed policy materials, endorsements and other parts of the individual health coverage contract for this program.

(6) Specimen Notices as required in O.C.G.A. 33-29B-6 regarding open enrollment opportunity, open enrollment dates, qualifying event references and the proposed plan to display these on the insurer's website should be submitted as part of the policy form and rate filings.

Rule 120-2-102-.03. Definitions.

- (1) "Administrator" means a person, other than an insurer or creditor that performs administrative or operational functions pursuant to guaranteed asset protection waiver programs.
- (2) "Borrower" means a debtor, retail buyer, or lessee under a finance agreement.
- (3) "Creditor" means:
 - (a) The lender in a loan or credit transaction;
 - (b) The lessor in a lease transaction;
 - (c) Any retail installment seller that provides credit to any retail buyer of motor vehicles, provided that such entity complies with the provisions of this chapter;
 - (d) The seller in commercial retail installment transactions; or
 - (e) The assignees of any of the creditors listed in (a) through (d) of this section to whom the credit obligation is payable.
- (4) "Finance Agreement" means a loan, lease, or retail installment sales contract for the purchase or lease of a motor vehicle.
- (5) "Free look period" means the period of time from the effective date of the guaranteed asset protection waiver until the date the borrower may cancel the guaranteed asset protection waiver without penalty, fees, or costs to the borrower. This period of time must not be shorter than 30 days.
- (6) "Guaranteed asset protection waiver" means a contractual agreement wherein a creditor agrees for a separate charge to cancel or waive all or part of amounts due on a borrower's finance agreement in the event of a total physical damage loss or uncovered theft of the motor vehicle, which agreement must be part of or a separate addendum to the finance agreement.
- (7) "Insurer" means an insurance company licensed, registered, or otherwise authorized to do business under the insurance laws of this state.

- (8) "Motor vehicle" means self-propelled or towed vehicles designed for personal or commercial use, including but not limited to automobiles, trucks, motorcycles, recreational vehicles all-terrain vehicles, campers, boats, personal watercraft, and motorcycle, boat, camper, and personal watercraft trailers.
- (9) "Person" includes an individual, company, association, organization, partnership, business trust, corporation, and every form of legal entity.
- (10) "Retail buyer" shall have the same meaning as provided in O.C.G.A. Section [10-1-31](#).
- (11) "Retail installment seller" shall have the same meaning as provided in O.C.G.A. Section [10-1-31](#).

History. Original Rule entitled "Guaranteed Asset Protection Insurance Requirements" adopted. F. Apr. 17, 2013; eff. May 7, 2013.

Rule 120-2-102-.05. General Requirements and Conditions.

- (1) Guaranteed asset protection waivers may be offered, sold, or provided to borrowers in this state in compliance with this chapter.
- (2) Guaranteed asset protection waivers may, at the option of the creditor, be sold for a single payment or may be offered with a monthly or periodic payment option.
- (3) Notwithstanding any other provision of law, any cost to the borrower for a guaranteed asset protection waiver entered into in compliance with the federal Truth in Lending Act, [15 U.S.C. 1601](#) *et seq.*, and its implementing regulations, as they may be amended from time to time, must be separately stated and is not to be considered a finance charge or interest.

- (4) The guaranteed asset protection waiver shall remain a part of the finance agreement upon the assignment, sale, or transfer of such finance agreement by the creditor.
- (5) Neither the extension of credit, the term of credit, nor the term of the related motor vehicle sale or lease may be conditioned upon the purchase of a guaranteed asset protection waiver.
- (6) Any creditor that offers a guaranteed asset protection waiver must report the sale of, and forward funds received on, all such waivers to the designated party, if any, as prescribed in any applicable administrative services agreement, contractual liability policy, other insurance policy or other specified program documents.
- (7) Funds received or held by a creditor or administrator and belonging to an insurer, creditor, or administrator pursuant to the terms of a written agreement must be held by such creditor or administrator in a fiduciary capacity.
- (8) Contractual liability or other insurance policies insuring guaranteed asset protection waivers must state the obligation of the insurer to reimburse or pay to the creditor any sums the creditor is legally obligated to waive under the guaranteed asset protection waivers issued by the creditor and purchased or held by the borrower.
- (9) Coverage under a contractual liability or other insurance policy insuring a guaranteed asset protection waiver must also cover any subsequent assignee upon the assignment, sale, or transfer of the finance agreement.
- (10) Coverage under a contractual liability or other insurance policy insuring a guaranteed asset protection waiver must remain in effect unless cancelled or terminated in compliance with the applicable insurance laws of this state.
- (11) The cancellation or termination of a contractual liability or other insurance policy must not reduce the insurer's responsibility for guaranteed asset protection waivers issued by the creditor prior to the date of cancellation or termination and for which premium has been received by the insurer.

Authority: O.C.G.A. Sec. [33-2-9](#) and O.C.G.A. Chapter 33-63.

History. Original Rule entitled "General Requirements and Conditions" adopted. F. Apr. 17, 2013; eff. May 7, 2013.

Rule 120-2-102-.06. Required Disclosures.

Guaranteed asset protection waivers must disclose, as applicable, in writing and in clear, understandable language that is easy to read the following:

- (1) The name and address of the initial creditor and the borrower at the time of sale and the identity of any administrator if different from the creditor;
- (2) The purchase price and the terms of the guaranteed asset protection waiver including without limitation the requirements for protection, conditions, or exclusions associated with the guaranteed asset protection waiver;
- (3) That the borrower may cancel the guaranteed asset protection waiver within a free look period, as specified in the waiver, and will be entitled to a full refund of the purchase price, provided no benefits have been made; or in the event benefits have been made, the borrower may receive a full or partial refund if the waiver so provides;
- (4) The procedure the borrower must follow, if any to obtain guaranteed asset protection waiver benefits under the terms and conditions of the waiver, including a telephone number and address where the borrower may apply for waiver benefits;
- (5) Whether or not the guaranteed asset protection waiver is cancelable after the free look period and the conditions under which it may be canceled or terminated, including the procedures for requesting any refund due;
- (6) That in order to receive any refund due in the event of a borrower's cancellation of the guaranteed asset protection waiver agreement or early termination of the finance agreement after the free look period of the guaranteed asset protection waiver, the borrower, in accordance with terms of the waiver, must provide a written request to cancel to the creditor, administrator, or such other party within 90 days after the borrower's decision to cancel the waiver or the occurrence of the event terminating the finance agreement;
- (7) The methodology for calculating any refund of the unearned purchase price of the guaranteed asset protection waiver due in the event of cancellation of the guaranteed asset protection waiver or early termination of the finance agreement;
- (8) That neither the extension of credit, the terms of the credit, nor the terms of the related motor vehicle sale or lease may be conditioned upon the purchase of the guaranteed asset protection waiver.

Authority: O.C.G.A. Sec. [33-2-9](#) and O.C.G.A. Chapter 33-63.

History. Original Rule entitled "Required Disclosures" adopted. F. Apr. 17, 2013; eff. May 7, 2013.

Rule 120-2-102-.07. Cancellation Conditions.

- (1) Guaranteed asset protection waiver agreements may be cancelable or noncancelable after the free look period. Guaranteed asset protection waivers must provide that if a borrower cancels a waiver within the free look period, the borrower will be entitled to a full refund

of the purchase price, provided no benefits have been paid; or in the event benefits have been paid, the borrower may receive a full or partial refund if the waiver so provides.

- (2) In the event of a borrower's cancellation of the guaranteed asset protection waiver or early termination of the finance agreement, after the agreement has been in effect beyond the free look period, the borrower may be entitled to a refund of any unearned portion of the purchase price of the waiver unless the waiver provides otherwise. In order to receive a refund, the borrower, in accordance with any applicable terms of the waiver, must provide a written request to the creditor, administrator or other party within 90 days after the borrower's decision to cancel the waiver or the occurrence of the event terminating the finance agreement.
- (3) If the cancellation of a guaranteed asset protection waiver occurs as a result of a default under the finance agreement or the repossession of the motor vehicle associated with the finance agreement, or any other termination of the finance agreement, any refund due may be paid directly to the creditor or administrator and applied as set forth in paragraph (1) herein.
- (4) Any cancellation refund under paragraphs (1), (2), or (3) herein may be applied by the creditor as a reduction of the amount owed under the finance agreement unless the borrower can show that the finance agreement has been paid in full.

Authority: O.C.G.A. Sec. [33-2-9](#) and O.C.G.A. Chapter 33-63.

History. Original Rule entitled "Cancellation Conditions" adopted. F. Apr. 17, 2013; eff. May 7, 2013.

Rule 120-2-102-.08. Exemptions.

Subsection (c) of O.C.G.A. Section [33-63-4](#) and O.C.G.A. Code Sections [33-63-6](#) and [33-63-9](#) shall not be applicable to a guaranteed asset protection waiver offered in connection with a lease or retail installment sale associated with a commercial transaction.

A retail installment seller shall not be required to insure a guaranteed asset protection waiver in connection with the sale of a motor vehicle if the retail installment seller does both of the following:

- (1) Maintains, or has a parent company that maintains, a net worth or stockholders' equity of at least \$50 million, provided the parent company guarantees the obligations of the retail installment seller arising from guaranteed asset protection waivers underwritten pursuant to this subsection; and
- (2) Files a copy of its Form 10-K or Form 20-F disclosure statements, or, if it does not file with the United States Securities and Exchange Commission, a copy of its audited financial statements reported on generally accepted accounting principles. If the retail

installment seller's financial statements are consolidated with those of its parent company, then the retail installment seller may comply with the provisions of this paragraph by filing the statements of its parent company. The statement shall be filed with the Commissioner at least 30 days prior to the retail installment seller's initial offering or delivering a guaranteed asset protection waiver, and thereafter the statement shall be filed with the Commissioner annually.

Rule 120-2-102-.09. Penalties.

The Commissioner of Insurance may take action which is necessary or appropriate to enforce the provisions of this chapter and to protect guaranteed asset protection waiver holders in this state. After proper notice and opportunity for hearing the Commissioner may:

- (1) Order the creditor, administrator, or any other person not in compliance with this chapter to cease and desist from further guaranteed asset protection waiver related operations which are in violation of this chapter; and
- (2) Issue a penalty of not more than \$500.00 per violation and not more than \$10,000.00 in the aggregate for all violations of a similar nature. For purposes of this paragraph, violations are of a similar nature if the violations consist of the same or similar courses of conduct, action, or practice, irrespective of the number of times the conduct, action, or practice occurred.

History. Original Rule entitled "Applicability" adopted. F. May 6, 2013; eff. May 26, 2013.

Rule 120-2-103-.04. Definitions.

For the purpose of this regulation:

- (1) "Certificate" or "certificate of insurance" means any document or instrument, no matter how titled or described, which is prepared or issued by an insurer or insurance producer as evidence of property or casualty insurance coverage. "Certificate" or "certificate of insurance" shall not include a policy of insurance, policy endorsement or insurance binder, including any policy of insurance which may be referred to as a certificate, or any insurance information card or identification card issued in conjunction with a motor vehicle insurance policy.

- (2) "Certificate holder" means any person, other than a policyholder, who requests, obtains, or possesses a certificate of insurance.
- (3) "Commissioner" means the Commissioner of Insurance for the State of Georgia.
- (4) "Insurance Producer" means a person required to be licensed under the laws of this state to sell, solicit, or negotiate insurance.
- (5) "Insurer" means any person engaged as indemnitor, surety, or contractor who issues insurance as defined by Code Sections [33-7-3](#) and [33-7-6](#). Insurer shall not mean any offering of accident, sickness, or disability insurance by a fraternal benefit society, as provided under Code Section [33-15-60](#); nonprofit medical service corporations, as provided under Chapters 18 and 19 of Title 33; health care plans, as provided under Chapter 20 of Title 33; health maintenance organization, as provided under Chapter 21 of Title 33; any provisions of accident and sickness insurance policies generally, as provided under Code Sections [33-24-20](#) through [33-24-31](#); individual accident and sickness insurance, as provided under Chapter 29 of Title 33; or group or blanket accident and sickness insurance, as provided under Chapter 30 of Title 33.
- (6) "Person" means any individual, partnership, corporation, association, or other legal entity, including any government or governmental subdivision or agency.
- (7) "Policyholder" means a person who has contracted with a property and casualty insurer for insurance coverages.

Authority: O.C.G.A. § [33-2-9](#) and [33-24-19.1\(b\)](#).

History. Original Rule entitled "Definitions" adopted. F. May 6, 2013; eff. May 26, 2013.

Rule 120-2-103-.05. Approval of Certificates.

- (1) No person, wherever located, may prepare, issue, or request the issuance of a certificate of insurance unless the form has been filed with and approved by the Commissioner. Forms shall be submitted in the same manner as any other form filing through the SERFF filing system with applicable filing fees submitted electronically. Only insurers may file certificates for approval.
- (2) Only current certificate of insurance forms promulgated by the Association of Cooperative Operations Research and Development (ACORD) or the Insurance Services Office (ISO) are deemed approved by the Commissioner and are not required to be filed if the forms otherwise comply with the requirements of this regulation and Code Section [33-24-19.1](#). Superseded editions of ACORD and ISO certificate of insurance forms shall also be deemed approved, however, as long as ACORD and ISO permit their use during periods of transition.

- (3) The Commissioner shall disapprove a certificate filed under Rule and Regulation [120-2-103-.04](#) or withdraw approval of a form, if the form:
- (a) is unjust, unfair, misleading, or deceptive or violates public policy;
 - (b) fails to comply with the requirements of section (4) of this Section;
 - (c) violates any law, including any regulation adopted by the Commissioner.
- (4) Each certificate of insurance must contain the following or similar statement: **"This certificate of insurance is issued as a matter of information only and confers no rights upon the certificate holder. This certificate does not amend, extend or alter the coverage, terms exclusions and conditions afforded by the policies referenced herein."**
- (5) The Commissioner has authority and may approve a certificate filed under this section which does not state that the form is provided for informational purposes only, if such form contains at a minimum the following statement: **"This certificate of insurance does not amend, extend, or alter the coverage, terms, exclusions, and conditions afforded by the policies referenced herein."** Forms filed under this provision shall state the limited use of the form and the insurer and producer shall only use the form for those stated and approved situations. The limited use provision may include, but not be limited to, mortgagee requirements or lending transactions. Any person requiring or using the limited use certificate outside of its intended use as stated in the filing by the insurer shall be subject to the penalty provisions of this regulation.

History. Original Rule entitled "Approval of Certificates" adopted. F. May 6, 2013; eff. May 26, 2013.

Rule 120-2-103-.06. Requirements.

Insurers shall provide to their producers written instructions clearly outlining the insurer's procedures and each party's responsibilities for issuing and servicing certificates. These instructions shall include but not be limited to:

- (a) The procedure for issuing notice of cancellation to certificate holders when such notice is required by the insurance contract or statute.
- (b) The procedure for retaining copies of all certificates issued by or on the behalf of the insurer by the producer. Retention or providing of copies may be done electronically.
- (c) The procedure to monitor certificates to ensure they have been issued in compliance with the insurer's procedures, applicable statute and this regulation.

History. Original Rule entitled "Requirements" adopted. F. May 6, 2013; eff. May 26, 2013.

Rule 120-2-103-.07. Prohibited Practices.

- (1) No person, wherever located, shall demand or request the issuance of a certificate of insurance from an insurer, insurance producer, or policyholder that contains any false or misleading information, or which purports to affirmatively or negatively amend, extend, modify or alter in any way the coverage or any other term or condition concerning the policy of insurance to which the certificate makes reference. A certificate of insurance shall not confer to a certificate holder new or additional rights beyond what the referenced policy expressly provides.
- (2) No certificate of insurance shall contain references to or language from a construction or service contract, other than that referenced in the contract of insurance. The certificate may contain a reference or contract number from the construction or service contract for identification purposes only. This may include but not be limited to project number, project name, project description or a general description of work to be performed. Nothing in the certificate can refer to any language or contents in the construction or service contracts.
- (3) Neither an insurer nor a producer shall be required to issue an opinion letter or other document in addition to or in lieu of a certificate of insurance. If any opinion letter or other such document is issued, however, it must meet the provisions of this regulation and Code Section [33-24-19.1](#). Insurers and producers may provide the certificate holder with the certificate and an actual copy of the policy, insurance binder or relevant policy provision to demonstrate contractual compliance.

History. Original Rule entitled "Statutory Authority" adopted. F. Sep. 6, 2013; eff. Sept. 26, 2013.

Rule 120-2-104-.02. Purpose and Interpretation.

The purpose of this chapter is to inform the public about the correlation between anticipated health insurance premium rate increases and the Patient Protection and Affordable Care Act ("PPACA"). Nothing in this chapter prohibits an insurer from disclosing to a consumer as a part of its notice a summary of the changes created by PPACA, including enhanced minimum benefits or the possible cost-shifting components of PPACA.

Rule 120-2-104-.03. Individual Accident and Sickness Policies.

- (a) Notice of any premium increase shall be mailed or delivered to each holder of an individual accident and sickness insurance policy not less than 60 days prior to the effective date of such increase.

- (b) Concurrently with any notice of premium increase or offer of new coverage because of discontinuance or termination of an existing plan of coverage, an insurer shall provide an estimate as to the amount or percentage of any premium increase which is attributable to the PPACA. Such notices shall include the following statement: "These increases are due to the federal Patient Protection and Affordable Care Act and not the enactment of any laws or regulations of the Governor of Georgia, the Georgia General Assembly, or the Georgia Department of Insurance."
- (c) When determining estimates of the amount or percentage of premium increases which are attributable to the PPACA, insurers must analyze the following and may include additional relevant factors:
 - (1) The new taxes and fees imposed under PPACA;
 - (2) Policies being guaranteed issue with modified community rating;
 - (3) The Essential Health Benefits;
 - (4) The age rating bands;
 - (5) The effect of a 70% actuarial value (out-of-pocket limit impact factored);
 - (6) The impact of the individual mandate on the risk pool;
 - (7) The impact of subsidies on the risk pool; and
 - (8) The impact of the risk adjustment and reinsurance mechanisms in PPACA.
- (d) Each insurer shall perform an analysis of rate impact upon comprehensive or major medical health coverage according to the following conditions:
 - (1) Each insurer shall estimate the average premium impact upon a 21 year old, 40 year old, and 60 year old male and female; and
 - (2) When determining the average premium impact on each of the individuals listed in subparagraph (1) of paragraph (d), an insurer may use as a basis:
 - (i) A product similar to the one owned by the recipient of the notice;
 - (ii) Each type of product sold by the company in the individual market; or
 - (iii) The most common policy sold in the individual market.
- (e) Each disclosure shall be in a form compliant with the following conditions:
 - (1) An itemized estimate is not required for each factor listed in subparagraphs (1) through (8) of paragraph (c). However, each estimate shall, at a minimum, incorporate the applicable factors listed in that section;

- (2) A notice may show an estimate for each average individual in subparagraph (1) of paragraph (d) or it may include only the age range closest to the recipient;
- (3) Each estimate may be displayed in a range based upon the company's estimates; and
- (4) A notice may use as a basis a product identified by items (i), (ii), or (iii) of subparagraph (2) of paragraph (d) provided that:
 - (i) If a notice uses as a basis the products identified by item (ii) of subparagraph (2) of paragraph (d), then an estimate must be provided for each of those products; and
 - (ii) If a notice uses as a basis the products identified by item (iii) of subparagraph (2) of paragraph (d), then such notice shall include a web address where the recipient can go to the insurer's website to view the disclosure information for each product listed in item (ii) subparagraph (2) of paragraph (d).

Rule 120-2-104-.04. Small Group Accident and Sickness Policies.

- (a) Notice of the maximum amount of a group premium increase shall be mailed or delivered to the group policyholder and to each employer group or subgroup insured under the group policy not less than 60 days prior to the effective date of such increase.
- (b) Concurrently with any notice of premium increase or offer of new coverage because of discontinuance or termination of an existing plan of coverage, an insurer shall provide an estimate as to the amount or percentage of any premium increase which is attributable to the Patient Protection and Affordable Care Act. Such notices shall include the following statement: "These increases are due to the federal Patient Protection and Affordable Care Act and not the enactment of any laws or regulations of the Governor of Georgia, the Georgia General Assembly, or the Georgia Department of Insurance."
- (c) When determining estimates of the amount or percentage of premium increases which are attributable to PPACA, insurers must analyze the following but may analyze additional relevant factors:
 - (1) Policies being issued using modified community rating;

- (2) The Essential Health Benefits;
 - (3) The effect of a 70 percent actuarial value; and
 - (4) Taxes and fees;
- (d) Each insurer shall perform an analysis of rate impact upon comprehensive or major medical health coverage according to the following conditions:
- (1) Each insurer shall estimate the average premium impact upon the average small group;
 - (2) When determining the average premium impact on each small group listed in subparagraph (1) of paragraph (d), an insurer may use as a basis:
 - (i) A product similar to the one owned by the recipient of the notice;
 - (ii) Each type of product sold by the company in the small group market; or
 - (iii) The company's most common policy sold in the small group market.
- (e) Each disclosure shall be in a form compliant with the following conditions:
- (1) An itemized estimate is not required for each factor listed in subparagraph (1) through (4) of paragraph (c). However, each estimate shall, at a minimum, incorporate the applicable factors listed in that section.
 - (2) Each estimate may be displayed in a range based upon the company's estimates; and
 - (3) A notice may use as a basis a product identified by items (i), (ii), or (iii) of subparagraph (2) of paragraph (d) provided that:
 - (i) If a notice uses as a basis the products identified by item (ii) of subparagraph (2) of paragraph (d), then an estimate must be provided for each of those products; and
 - (ii) If a notice uses as a basis the products identified by item (iii) of subparagraph (2) of paragraph (d), then such notice shall include a web address where the recipient can go to the insurer's website to view the disclosure information for each product listed in item (ii) subparagraph (2) of paragraph (d).

History. Original Rule entitled "Purpose" adopted. F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency.

Rule 120-2-105-.03. Definitions.

When used in this regulation, the term:

- (a) "Commissioner" means the Insurance Commissioner of the State of Georgia.
- (b) "Insurance group" means those insurers and affiliates included within an insurance holding company system as defined in paragraph (5) of Code Section [33-13-1](#).
- (c) "Insurer" has the same meaning as set forth in Code Section [33-1-2](#), except that it shall not include agencies, authorities or instrumentalities of the United States, its possessions and territories, the Commonwealth of Puerto Rico, the District of Columbia, or a state or political subdivision of a state.
- (d) "Senior Management" means any corporate officer responsible for reporting information to the board of directors at regular intervals or providing this information to shareholders or regulators and shall include, for example and without limitation, the Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO"), Chief Operations Officer ("COO"), Chief Procurement Officer ("CPO"), Chief Legal Officer ("CLO"), Chief Information Officer ("CIO"), Chief Technology Officer ("CTO"), Chief Revenue Officer ("CRO"), Chief Visionary Officer ("CVO"), or any other "C" level executive.

Authority: O.C.G.A. §§ [33-2-9](#), [33-65-4](#).

History. Original Rule entitled "Definitions" adopted. F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency.

Rule 120-2-105-.04. Filing Procedures.

- (a) An insurer, or the insurance group of which the insurer is a member, required to file a CGAD by Code Section [33-65-1](#) *et seq.*, shall, no later than June 1 of each calendar year, submit to the Commissioner a CGAD that contains the information described in Rule [120-2-105-.05](#).
- (b) The CGAD must include a signature of the insurer's or insurance group's chief executive officer or corporate secretary attesting to the best of that individual's belief and knowledge that the insurer or insurance group has implemented the corporate governance practices and that a copy of the CGAD has been provided to the insurer's or insurance group's Board of Directors ("Board") or the appropriate committee thereof.
- (c) The insurer or insurance group shall have discretion regarding the appropriate format for providing the information required by these regulations and is permitted to customize the CGAD to provide the most relevant information necessary to permit the Commissioner to gain an understanding of the corporate governance structure, policies and practices utilized by the insurer or insurance group.

- (d) For purposes of completing the CGAD, the insurer or insurance group may choose to provide information on governance activities that occur at the ultimate controlling parent level, an intermediate holding company level and/or the individual legal entity level, depending upon how the insurer or insurance group has structured its system of corporate governance. The insurer or insurance group is encouraged to make the CGAD disclosures at the level at which the insurer's or insurance group's risk appetite is determined, or at which the earnings, capital, liquidity, operations, and reputation of the insurer are overseen collectively and at which the supervision of those factors are coordinated and exercised, or the level at which legal liability for failure of general corporate governance duties would be placed. If the insurer or insurance group determines the level of reporting based on these criteria, it shall indicate which of the three criteria was used to determine the level of reporting and explain any subsequent changes in level of reporting.
- (e) Notwithstanding (a) above, and as outlined in Code Section [33-65-3](#), if the CGAD is completed at the insurance group level, then it must be filed with the lead state of the group as determined by the procedures outlined in the most recent Financial Analysis Handbook adopted by the NAIC. In these instances, a copy of the CGAD must also be provided to the chief regulatory official of any state in which the insurance group has a domestic insurer, upon request.
- (f) An insurer or insurance group may comply with this section by referencing other existing documents (*e.g.*, ORSA Summary Report, Holding Company Form B or F Filings, Securities and Exchange Commission ("SEC") Proxy Statements, foreign regulatory reporting requirements, etc.) if the documents provide information that is comparable to the information described in Rule [120-2-105-.05](#). The insurer or insurance group shall clearly reference the location of the relevant information within the CGAD and attach the referenced document if it is not already filed or available to the regulator.
- (g) Each year following the initial filing of the CGAD, the insurer or insurance group shall file an amended version of the previously filed CGAD indicating where changes have been made. If no changes were made in the information or activities reported by the insurer or insurance group, the filing should so state.

History. Original Rule entitled "Filing Procedures" adopted. F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency.

Rule 120-2-105-.05. Contents of Corporate Governance Annual Disclosure.

- (a) The insurer or insurance group shall be as descriptive as possible in completing the CGAD, with inclusion of attachments or example documents that are used in the governance process, since these may provide a means to demonstrate the strengths of their governance framework and practices.

- (b) The CGAD shall describe the insurer's or insurance group's corporate governance framework and structure including consideration of the following:
 - (1) The Board and various committees thereof ultimately responsible for overseeing the insurer or insurance group and the level(s) at which that oversight occurs (*e.g.*, ultimate control level, intermediate holding company, legal entity, etc.). The insurer or insurance group shall describe and discuss the rationale for the current Board size and structure; and
 - (2) The duties of the Board and each of its significant committees and how they are governed (*e.g.*, bylaws, charters, informal mandates, etc.), as well as how the Board's leadership is structured, including a discussion of the roles of CEO and Chairman of the Board within the organization.
- (c) The insurer or insurance group shall describe the policies and practices of the most senior governing entity and significant committees thereof, including a discussion of the following factors:
 - (1) How the qualifications, expertise and experience of each Board member meet the needs of the insurer or insurance group.
 - (2) How an appropriate amount of independence is maintained on the Board and its significant committees.
 - (3) The number of meetings held by the Board and its significant committees over the past year as well as information on director attendance.
 - (4) How the insurer or insurance group identifies, nominates and elects members to the Board and its committees. The discussion should include, for example:
 - (a) Whether a nomination committee is in place to identify and select individuals for consideration.
 - (b) Whether term limits are placed on directors.
 - (c) How the election and re-election processes function.
 - (d) Whether a Board diversity policy is in place and if so, how it functions.
 - (5) The processes in place for the Board to evaluate its performance and the performance of its committees, as well as any recent measures taken to improve performance (including any Board or committee training programs that have been put in place).
- (d) The insurer or insurance group shall describe the policies and practices for directing Senior Management, including a description of the following factors:

- (1) Any processes or practices (*i.e.*, suitability standards) to determine whether officers and key persons in control functions have the appropriate background, experience and integrity to fulfill their prospective roles, including:
 - (a) Identification of the specific positions for which suitability standards have been developed and a description of the standards employed.
 - (b) Any changes in an officer's or key person's suitability as outlined by the insurer's or insurance group's standards and procedures to monitor and evaluate such changes.
- (2) The insurer's or insurance group's code of business conduct and ethics, the discussion of which considers, for example:
 - (a) Compliance with laws, rules, and regulations; and
 - (b) Proactive reporting of any illegal or unethical behavior.
- (3) The insurer's or insurance group's processes for performance evaluation, compensation and corrective action to ensure effective senior management throughout the organization, including a description of the general objectives of significant compensation programs and what the programs are designed to reward. The description shall include sufficient detail to allow the Commissioner to understand how the organization ensures that compensation programs do not encourage and/or reward excessive risk taking. Elements to be discussed may include, for example:
 - (a) The Board's role in overseeing management compensation programs and practices;
 - (b) The various elements of compensation awarded in the insurer's or insurance group's compensation programs and how the insurer or insurance group determines and calculates the amount of each element of compensation paid;
 - (c) How compensation programs are related to both company and individual performance over time;
 - (d) Whether compensation programs include risk adjustments and how those adjustments are incorporated into the programs for employees at different levels;
 - (e) Any clawback provisions built into the programs to recover awards or payments if the performance measures upon which they are based are restated or otherwise adjusted; and

- (f) Any other factors relevant in understanding how the insurer or insurance group monitors its compensation policies to determine whether its risk management objectives are met by incentivizing its employees.
- (4) The insurer's or insurance group's plans for CEO and Senior Management succession.
- (e) The insurer or insurance group shall describe the processes by which the Board, its committees and Senior Management ensure an appropriate amount of oversight to the critical risk areas impacting the insurer's business activities, including a discussion of:
 - (1) How oversight and management responsibilities are delegated between the Board, its committees and Senior Management;
 - (2) How the Board is kept informed of the insurer's strategic plans, the associated risks, and steps that Senior Management is taking to monitor and manage those risks;
 - (3) How reporting responsibilities are organized for each critical risk area. The description should allow the Commissioner to understand the frequency at which information on each critical risk area is reported to and reviewed by Senior Management and the Board. This description may include, for example, the following critical risk areas of the insurer:
 - (a) Risk management processes (An ORSA Summary Report filer may refer to its ORSA Summary Report pursuant to the Risk Management and Own Risk and Solvency Assessment Model Act);
 - (b) Actuarial function;
 - (c) Investment decision-making processes;
 - (d) Reinsurance decision-making processes;
 - (e) Business strategy/finance decision-making processes;
 - (f) Compliance function;
 - (g) Financial reporting/internal auditing; and
 - (h) Market conduct decision-making processes.

History. Original Rule entitled "Authority" adopted. F. Dec. 7, 2020; eff. Jan. 1, 2021, as specified by the Agency.

Rule 120-2-106-.02. Scope and Purpose.

This Regulation is made pursuant to the "Surprise Billing Consumer Protection Act," which was passed to provide a mechanism to resolve billing and payment disputes between insurers and out-of-network providers. It will also establish a fair and equitable arbitration process to handle such disputes. This Regulation applies only to "healthcare plans" and "state healthcare plans," as defined in this Regulation. Nothing in this Regulation shall reduce a covered person's financial responsibilities concerning ground ambulance transportation. Failure of an insurer to comply with the provisions of Chapter 20E of Title 33 shall be deemed an unfair trade practice as defined in 33-6-4.

Rule 120-2-106-.03. Definitions.

For the purposes of this Regulation, the following definitions apply:

- (1) "Balance bill" means the amount that a non-participating provider charges for services provided to a covered person. Such amount equals the difference between the amount paid or offered by the insurer and the amount of the non-participating provider's bill charge but shall not include any amount for coinsurance, copayments, or deductibles due by the covered person.
- (2) "Contracted amount" means the median in-network amount paid during the 2017 calendar year by an insurer for the emergency or non-emergency services provided by in-network providers engaged in the same or similar specialties and provided in the same or nearest geographical area. The Department shall annually adjust such amount for inflation, which may be based on the Consumer Price Index, and shall not include Medicare or Medicaid rates.
- (3) "Covered person" means an individual who is insured under a healthcare plan.
- (4) "Emergency medical provider" means any physician licensed by the Georgia Composite Medical Board who provides emergency medical services and any other healthcare provider licensed or otherwise authorized in this state to render emergency medical services.
- (5) "Emergency medical services" means medical services rendered after the recent onset of a medical or traumatic condition, sickness, or injury exhibiting acute symptoms of sufficient severity, including, but not limited to, severe pain, that would lead a prudent layperson possessing an average knowledge of medicine and health to believe that his or her condition, sickness, or injury is of such a nature that failure to obtain immediate medical care could result in:
 - (a) Placing the patient's health in serious jeopardy;
 - (b) Serious impairment to bodily functions;
 - (c) Serious dysfunction of any bodily organ or part.
- (6) "Facility" means a hospital, an ambulatory surgical treatment center, birthing center, diagnostic and treatment center, hospice, or similar institution.
- (7) "Geographic area" is defined as one of 16 Geo Rating Areas established for ACA purposes by use of Georgia Standardized Metropolitan Statistical Areas, expanded by contiguous counties and which has been in required use by Georgia insurers since 2014.
- (8) "Healthcare plan" means any hospital or medical insurance policy or certificate, healthcare plan contract or certificate, qualified higher deductible health plan, health maintenance organization or other managed care subscriber contract, or state healthcare plan. This term shall not include limited benefit insurance policies or plans listed under paragraph (3) of Code Section [33-1-2](#), air ambulance insurance, or policies issued in

accordance with Chapter 21A or 31 of this title or Chapter 9 of Title 34, relating to workers' compensation, Part A, B, C, or D of Title XVIII of the Social Security Act (Medicare), or any plan or program not described in this paragraph over which the Commissioner does not have regulatory authority. Notwithstanding paragraph (3) of Code Section [33-1-2](#) and any other provision of this title, this chapter this term shall include stand-alone dental insurance and stand-alone vision insurance for purposes of this chapter.

- (9) "Healthcare provider" or "provider" means any physician, other individual, or facility other than a hospital licensed or otherwise authorized in this state to furnish healthcare services, including, but not limited to, any dentist, podiatrist, optometrist, psychologist, clinical social worker, advanced practice registered nurse, registered optician, licensed professional counselor, physical therapist, marriage and family therapist, chiropractor, athletic trainer qualified pursuant to Code Section [43-5-8](#), occupational therapist, speech-language pathologist, audiologist, dietitian, or physician assistant.
- (10) "Healthcare services" means emergency or non-emergency medical services.
- (11) "Insurer" means an entity subject to the insurance laws and regulations of this state, or subject to the jurisdiction of the Commissioner, that contracts, offers to contract, or enters into an agreement to provide, deliver, arrange for, pay for, or reimburse any of the costs of healthcare services, including those of an accident and sickness insurance company, a health maintenance organization, a healthcare plan, a managed care plan, or any other entity providing a health insurance plan, a health benefit plan, or healthcare services.
- (12) "Median" means the middle number of a sorted list of reimbursement amounts paid to in-network providers or facilities with respect to a specific emergency or non-emergency medical service, with each paid claim amount separately represented on the list, arranged in order from least to greatest. If there is an even number of items in the sorted list of paid claim amounts, the median is found by taking the average of the two middlemost numbers. The calculated median paid amount shall include copayment, coinsurance, and deductible as applicable and shall exclude claims in which the insurer is not the primary payer.
- (13) "Non-emergency medical services" means the examination or treatment of persons for the prevention of illness or the correction or treatment of any physical or mental condition resulting from an illness, injury, or other human physical problem which does not qualify as an emergency medical service and includes, but is not limited to:
 - (a) Hospital services which include the general and usual care, services, supplies, and equipment furnished by hospitals;
 - (b) Medical services which include the general and usual care and services rendered and administered by doctors of medicine, dentistry, optometry, and other providers; and

- (c) Other medical services which, by way of illustration only and without limiting the scope of this chapter, include the provision of appliances and supplies; nursing care by a registered nurse; institutional services, including the general and usual care, services, supplies, and equipment furnished by healthcare institutions and agencies or entities other than hospitals; physiotherapy; drugs and medications; therapeutic services and equipment, including oxygen and the rental of oxygen equipment; hospital beds; iron lungs; orthopedic services and appliances, including wheelchairs, trusses, braces, crutches, and prosthetic devices, including artificial limbs and eyes; and any other appliance, supply, or service related to healthcare which does not qualify as an emergency medical service.
- (14) "Out-of-network" refers to healthcare services provided to a covered person by providers or facilities who do not belong to the provider network in the healthcare plan.
- (15) "Non-participating provider" means a healthcare provider who has not entered into a contract with a healthcare plan for the delivery of medical services.
- (16) "Participating provider" means a healthcare provider that has entered into a contract with an insurer for the delivery of healthcare services to covered persons under a healthcare plan.
- (17) "Resolution organization" means a qualified, independent, third-party claim dispute resolution entity selected by and contracted with the Department.
- (18) "State healthcare plan" means:
 - (a) The state employees' health insurance plan established pursuant to Article 1 of Chapter 18 of Title 45;
 - (b) The health insurance plan for public school teachers established pursuant to Subpart 2 of Part 6 of Article 17 of Chapter 2 of Title 20;
 - (c) The health insurance plan for public school employees established pursuant to Subpart 3 of Part 6 of Article 17 of Chapter 2 of Title 20; and
 - (d) The Regents Health Plan established pursuant to authority granted to the board pursuant to Code Sections [20-3-31](#), [20-3-51](#), and [31-2-4](#).
- (19) "Surprise bill" means a bill resulting from an occurrence in which charges arise from a covered person receiving healthcare services from an out-of-network provider at an in-network facility.

Rule 120-2-106-.05. Emergency Services.

- (1) Insurers shall pay covered emergency medical services for covered persons regardless of whether the provider or facility is participating or non-participating in their network according to this Regulation. Such an insurer shall make such payment without prior authorization and without retrospective payment denial for emergency medical services deemed to be medically necessary.
- (2) If a covered person receives emergency medical services from a non-participating provider, such person shall not be liable to the non-participating provider or facility for any amount exceeding such person's deductible, coinsurance, copayment, or other cost-sharing amount as determined by such person's policy. The amount payable by an insurer for emergency medical services paid directly to the provider shall be the greater of:
 - (a) The verifiable median contracted amount paid by all eligible insurers for similar services calculated by a vendor utilized and chosen by the Commissioner;
 - (b) The most recent verifiable amount agreed to by the insurer and the non-participating emergency medical provider for the same services during which time the provider was in-network with the insurer; (if applicable)
 - (c) A higher amount as the insurer may deem appropriate given the complexity and circumstances of the services provided.

Any amount payable by an insurer under this section for emergency medical services shall not include any amount of coinsurance, copayment, or deductible owed by the covered person or already paid by such person.

- (3) Insurers shall not deny benefits or emergency medical services rendered based on a covered person's failure to provide subsequent notification where the insured's medical condition prevented timely notification.
- (4) Emergency medical services received from non-participating providers and/or facilities shall count toward the deductible and any maximum out of pocket policy provisions as if the services were obtained from a participating provider.

- (5) In cases of emergency medical services received from a non-participating facility, the facility shall bill the covered person no more than deductible, coinsurance, copayment, or other cost-sharing as determined by such person's policy.
- (6) Insurer payments made to providers in this Code section shall be in accord with prompt payment requirements under 33-24-59.14. Notification should reflect whether coverage is subject to the exclusive jurisdiction of ERISA (1974), U.S.C. Sec 1001.

Rule 120-2-106-.06. Non-emergency Medical Services.

- (1) If the provisions of 120-2-106.08 are met, an insurer that provides any benefits to covered persons with respect to non-emergency medical services shall pay for such services in the event that such services resulted in a surprise bill regardless of whether the healthcare provider furnishing non-emergency medical services is a participating provider with respect to non-emergency medical services.
- (2) In the event a covered person receives care in a facility that generates a surprise bill for non-emergency medical services from a non-participating medical provider, the non-participating provider shall collect or bill the covered person no more than such person's deductible, coinsurance, copayment, or other cost-sharing amount as determined by such person's policy. The insurer shall directly pay such provider the greater of:
 - (a) The verifiable median contracted amount paid by all eligible insurers for similar services calculated by a vendor utilized and chosen by the Commissioner;
 - (b) The most recent verifiable amount agreed to by the insurer and the non-participating emergency medical provider for the same services during which time the provider was in-network with the insurer; (if applicable)
 - (c) A higher amount as the insurer may deem appropriate given the complexity and circumstances of the services provided.

Any amount that the insurer pays the non-participating provider under this subsection shall not be required to include any amount of coinsurance, copayment, or deductible owed by the covered person or already paid by such person.

- (3) Non-emergency medical services received from non-participating providers and/or facilities shall count toward the deductible and any maximum out of pocket policy provisions as if the services were obtained from a participating provider.

- (4) In cases of non-emergency medical services received from a non-participating facility, the facility shall bill the covered person no more than deductible, coinsurance, copayment, or other cost-sharing as determined by such person's policy.
- (5) All insurer payments made to providers pursuant to this Code section shall be in accord with Code Section [33-24-59.14](#). Such payments shall accompany notification to the provider from the insurer disclosing whether the healthcare plan is subject to the exclusive jurisdiction of the Employee Retirement Income Security Act of 1974, [29 U.S.C. 202](#) Sec. [1001](#), et seq.

Rule 120-2-106-.07. Balance Billing provision for covered benefits from non-participating providers.

No healthcare plan shall deny or restrict covered benefits from a participating provider to a covered person solely because the covered person obtained treatment from a non-participating provider leading to a balance bill. Notice of such protection shall be provided in writing to the covered person by the insurer.

Rule 120-2-106-.08. Covered Person Choosing to receive Non-emergency medical Services from a non-participating provider, Referrals and Procedures.

- (1) Nothing in this chapter shall reduce a covered person's financial responsibilities in the event that such covered person chose to receive non-emergency medical services from an out-of-network provider. Such services shall not be considered a surprise bill for the purpose of this chapter.
- (2) The covered person's choice described in subsection (1) of this Code section must:
 - (a) Be documented through such covered person's written and oral consent in advance of the provision of such services; and
 - (b) Occur only after such person has been provided with an estimate of the potential charges.

- (3) If during the provision of non-emergency medical services, a covered person requests that the attending provider refer such covered person to another provider for the immediate provision of additional non-emergency medical services, such referred provider shall be exempt from the requirements in subsection (b) of this Code section if the following requirements are satisfied:
- (a) The referring provider advises the covered person that the referred provider may be a non-participating provider and may charge higher fees than a participating provider;
 - (b) The covered person orally and in writing acknowledges that he or she is aware that the referred provider may be a non-participating provider and may charge higher fees than a participating provider;
 - (c) The written acknowledgment referenced in paragraph (2) of this subsection shall be on a document separate from other documents provided by the referring provider and shall include language to be determined by the Commissioner (Appendix A) and Regulation; and
 - (d) The referring provider records the satisfaction of the requirements in paragraphs (1), (2), and (3) of this subsection in the covered person's medical file.

Rule 120-2-106-.09. Claims Database.

Pursuant to O.C.G.A. [33-20E-8\(a\)](#) appropriations for an all claims database were not provided, and subsection (b) of O.C.G.A. [33-20E-8](#) will be triggered. The Department will utilize a verifiable median contracted amount paid by all eligible insurers for similar services calculated by a vendor utilized and chosen by the Commissioner.

Rule 120-2-106-.10. Arbitration.

- (1) If an out-of-network provider concludes that payment received from an insurer pursuant to regulation 120-2-106-.05 or 120-2-106-.06 is not sufficient given the complexity and

circumstances of the services provided. Or, if an out-of-network facility concludes that payment received from an insurer pursuant to Regulation 120-2-106-.05 concludes the same, a request for arbitration with the Commissioner may be initiated. A request for arbitration must be submitted within 30 days of receipt of payment for the claim and concurrently provide the insurer with a copy of such request.

- (2) All arbitration requests must be submitted to the Administrative Procedure Division of the Office of Insurance and Safety Fire Commissioner.
- (3) Within 30 days of the insurer's receipt of a provider's or facility's request for arbitration, the insurer must submit to the Administrative Procedure Division all data necessary to determine whether the insurer's payment to such provider or facility complied with regulations 120-2-106-.05 or 120-2-106-.06.
- (4) The Commissioner will dismiss specific arbitration requests if the disputed claim meets certain criteria laid out in O.C.G.A. § [33-20E-10](#) or in Rule 120-2-106-.08. Should an insurer believe one of these criteria is present, they should submit the appropriate data they believe supports this contention. Should the Commissioner dismiss a claim for meeting one of the criteria in O.C.G.A. § [33-20E-10](#), the provider or facility may request a hearing under the rules contained in Regulation 120-2-2.
- (5) Before proceeding with arbitration, the parties will be permitted 30 days from the date the request was received to negotiate a settlement. The parties must notify the Administrative Procedure Division of the result of such negotiation. If the Administrative Procedure Division has not been notified within 30 days of the settlement negotiation's result, the claim will be sent to arbitration. The parties may still reach a negotiated settlement after the claim is referred but before arbitration begins. However, they will be responsible for splitting any costs incurred by the resolution organization due to the referral.
- (6) Disputes are to be reviewed by independent resolution organizations with whom the Department will contract. The disputes will be decided pursuant to the rules as laid out in O.C.G.A. 33-20E *et. seq.*
- (7) A list of the selected organizations and their approved fee schedules will be kept by the Administrative Procedure Division and available for review upon request. In contracting with each dispute resolution organization, the Department will ensure that appropriate safeguards are put in place so that information subject to trade secret protection laws is duly protected.
- (8) Upon the Commissioner's referral of a dispute to a resolution organization, the parties will have five days to select an arbitrator by mutual agreement. If the parties have not notified the resolution organization of their mutual selection before the fifth day, the resolution organization shall select an arbitrator from among its members. Should the parties not agree to the resolution organization's choice of arbitrator, the Commissioner will select one for the parties; this decision will be final.

- (9) Arbitrators should possess training and experience in health care billing, reimbursement, and usual and customary charges in consultation with a licensed doctor in active practice in the same or similar specialty as the doctor providing the service that is the subject of the dispute.
- (10) In addition to the factors found in O.C.G.A. § [33-20E-15](#), in deciding a claim, arbitrators should also consider the following factors:
- (a) Whether there is a gross disparity between the fee charged by the provider and (1) fees paid to the provider for the same services provided to other patients in health care plans in which the provider is non-participating, and (2) the fees paid by the health plan to reimburse similarly qualified out-of-network providers for the same services in the same region;
 - (b) The provider's training, education, experience, and the usual charge for comparable services when the provider does not participate with the patient's health plan;
 - (c) In the case of a hospital, the teaching status, scope of services, and case-mix;
 - (d) The circumstances and complexity of the case;
 - (e) Patient characteristics; and
 - (f) For physician services, the usual and customary cost of the service.
- (11) Following the resolution of arbitration, the Commissioner is permitted to refer the decision of the arbitrator to the appropriate state agency or the governing entity with governing authority over such provider or facility if the Commissioner concludes that a provider or facility has either displayed a pattern of acting in violation of this chapter or has failed to comply with a lawful order of the Commissioner or the arbitrator. However, if the provider or facility's violations or actions fall under the Commissioner's jurisdiction, the Commissioner may investigate and proceed under the provisions of Title 33.
- (12) Each resolution organization contracted with by the Department should submit its quarterly reports to the Administrative Procedure. In addition to the information required by O.C.G.A. § [33-20E-19](#), each resolution organization will also submit in its quarterly report: the name of each arbitrator who settled a dispute and the number of disputes they settled in favor of either the insurer or the provider or facility.
- (13) The Surprise Billing Consumer Protection Act becomes effective on January 1, 2020. The Department has until July 1, 2021, to contract with one or more arbitration organizations. Any arbitration requests received after January 1, 2020, and before the Department has contracted with an arbitration organization will be held until such contract is executed.

Rule 120-2-106-.11. Hospital Surprise Bill Rating.

Insurers shall make available online and in print a health benefit plan surprise bill rating for hospitals as required in Chapter 20C of Title 33. For each hospital, health benefit plans shall clearly display a rating denoting the health benefit plan surprise bill rating factor. This factor shall range from 0, denoting no specialties are in-network, to 4, which means all specialty groups are in-network. For any rating less than 4, the health benefit plan shall display which specialty group is not in-network by marking the specialty with a red **X** and any specialty group that is included by a green checkmark **X**. If a hospital does not provide one of the qualified hospital-based specialties, the absence of that specialty shall be designated by a green N/A. The factor and markings shall be clearly displayed for the covered person or potential covered person to easily understand. Qualified hospital-based specialty groups are medical groups that include anesthesiologists, pathologists, radiologists, or emergency medicine physicians. Any changes in the hospital rating factor shall be changed by the health benefit plan within 30 days.

Rule 120-2-107-.02. General Regulations, All Insurance.

- (1) Evidence of insurance. All insurance authorized and included in or incident to a loan contract made under the provisions of the Georgia Installment Loan Act shall be evidenced by a policy or certificate of insurance which shall be delivered to the borrower at the time the indebtedness is incurred. The policy and the certificate of insurance shall describe the amount and term of the coverage, the amount of the premium and a description of the coverage including any exceptions, limitations or restrictions. If a policy or certificate of insurance is not delivered to the borrower at the time the indebtedness is incurred, the insurer shall cause to be delivered to the borrower a policy or certificate of insurance within 30 days of incurred indebtedness. An application or notice of proposed insurance form shall serve as a binder during the first 30 days of incurred indebtedness.
- (2) If any loan within the Georgia Installment Loan Act is made in conjunction with the sale of insurance authorized and included in or incidental to the advancement of funds at the expense of the borrower, then the licensee shall provide to the borrower a separate written disclosure statement. The disclosure statement shall disclose, in no smaller than twelve-point type, the following:
 - (a) The cost to the borrower of any such insurance.
 - (b) A copy of the signed document shall be provided to the borrower, and the licensee shall retain the original in the loan file.
- (3) Payment of Claims.
 - (a) No licensee under the act shall execute any contract or agreement with any person, firm or corporation which permits such licensee to retain any portion of the premium for payment of losses incurred or to be incurred under policies or certificates of insurance.
 - (b) No plan or arrangement shall be used whereby any person, firm or corporation other than the insurance company or its designated claim agent or representative shall be authorized to settle or negotiate the settlement of claims.
 - (c) Each individual policy, group policy and certificate of insurance shall state that the benefits payable there under shall only be paid to the licensee to reduce or extinguish the borrower's then outstanding loan balance in the case of credit life insurance coverage; or for the exact amount of the borrower's covered installment payment due in the case of credit accident and sickness insurance. Each individual

policy, group policy and certificate of insurance shall further state that if the amount of insurance benefits payable exceeds the borrower's outstanding insured loan balance in the case of credit life insurance; or the exact amount of the borrower's covered installment payment due in the case of credit accident and sickness insurance by an amount of one dollar (\$1) or more, such excess amounts shall be payable either to the borrower or to a beneficiary named by the borrower other than the creditor or to the borrower's estate.

- (d) Payment of any such excess amount to the borrower or to any beneficiary named by the borrower other than the licensee or to the borrower's estate shall be made payable only to such borrower or to such other beneficiary named by the borrower. The delivery of such excess benefit check or draft may be accomplished by the licensee acting as an authorized agent of the insurer. For the purpose of this rule, the term "excess amount" shall mean any amount which is payable to the borrower or to the beneficiaries of the borrower other than the licensee or to the borrower's estate under the credit insurance policy which exceeds the amount necessary to extinguish the borrower's then outstanding insured loan balance in the case of credit life insurance, or the exact amount of the borrower's covered installment payment due in the case of credit accident and sickness insurance by an amount of one dollar (\$1) or more.
 - (e) Where proceeds from insurance written in connection with a loan under the Act prepay an account in full, a refund shall be made on interest, fees, and insurance premiums computed as of the date of the event insured against.
 - (f) Insurance proceeds paid on a loan and credited to the account by the finance company shall have the same effect as if a like amount was paid by the borrower and no late charges shall be charged to any borrower for any such payments or accounts which have been paid by such insurance proceeds.
- (4) Agents and Agents' Commissions.
- (a) All individual insurance solicited, sold and issued in conjunction with a loan contract under the provisions of the Georgia Installment Loan Act shall be solicited, sold and issued by an agent, subagent or limited subagent licensed under the provisions of the Georgia Insurance Code.
 - (b) No licensee or any other person subject to the provisions of the Georgia Installment Loan Act or the Rules and Regulations of the Office of Commissioner of Insurance shall contract for, charge, collect, or accept, directly or indirectly as an insurance agent or general agent or through any contract of credit life or credit accident and sickness insurance written or procured by such licensee pursuant to the Georgia Installment Loan Act as remuneration for the sale of such insurance in this state any commissions, service fees, or other forms of compensation other than those which are contained in the written agency agreement or agency contract between such insurer and its agent.

- (c) No person shall solicit, directly or indirectly, make or cause to be made any contract of credit insurance unless such person holds a valid agent, subagent, or a limited subagent license.
 - (d) All licensees and any other persons subject to the provisions of the Georgia Installment Loan Act or the Rules and Regulations of the Office of Commissioner of Insurance shall be required in the handling of insurance to comply in all respects with the applicable requirements of Title 33 of the Official Code of Georgia Annotated, and of the Rules and Regulations of the Office of Commissioner of Insurance.
- (5) Any agent, subagent, agency or licensee writing credit life or credit accident and sickness insurance in this state shall provide forms necessary to file claims within fifteen (15) calendar days of a request with reasonable explanations regarding their use and shall forward such claim to the insurer within twenty (20) business days of receipt of written proof of loss.
- (6) Quarterly Insurance Reports. Quarterly Insurance Reports shall be filed with this department on a form obtained from the Insurance Commissioner on or before the 20th of each month following the quarters ending March 31, June 30, September 30 and December 31. Such forms shall reflect the number of loans made with insurance coverage, amount of loans, total premiums charged, refunds, net premium charged, the percent of insurance claims paid to net premiums collected, and name of the insuring company as to:
- (a) Life insurance;
 - (b) Accident and sickness insurance;
 - (c) Household goods fire insurance;
 - (d) Automobile insurance;
 - (e) Non-recording insurance.

Authority: §§ [33-2-9](#), [7-3-11\(3\)](#).

History. Original Rule entitled "General Regulations, All Insurance" adopted. F. Dec. 8, 2020; eff. Dec. 31, 2020, as specified by the Agency.

Rule 120-2-107-.03. Credit Life Insurance.

- (1) Coverage.

- (a) Level term life insurance will pay the first beneficiary at the death of the insured the amount of the indebtedness, not exceeding the amount of insurance stated in the policy, and pay the second beneficiary the amount stipulated in excess of the indebtedness; or if there be no indebtedness, the full face amount of the policy shall be paid to the second beneficiary.
- (b) Reducing term life insurance will pay the first beneficiary the amount of indebtedness, if any, owing by the insured to the first beneficiary at the time of the death of the insured.

(2) Rates.

- (a) Credit level term life insurance or group credit level term life insurance may be written as security on all loans made under the provisions of the Georgia Installment Loan Act. Insurance coverage shall not exceed the face amount of the contract. The premium shall not exceed \$.84 per annum per \$100.00 of the face amount of the loan unless otherwise authorized by law and applicable rules and regulations.
- (b) Credit decreasing term life insurance may be written on all loans made under the provisions of the Act. Insurance coverage shall not exceed the face amount of the contract. The premium shall not exceed \$.45 per annum per \$100.00 of the face amount of the loan unless otherwise authorized by law and applicable rules and regulations. For premiums not based on initial insured indebtedness, the premium shall not exceed a monthly rate of \$.70 per \$1,000.00 of outstanding unpaid insured indebtedness.
- (c) Single premiums for credit life insurance covering joint lives on either of the bases in subparagraphs (2)(a) or (2)(b) of this rule shall not exceed 150 percent of the appropriate single life rate specified in subparagraphs (2)(a) or (2)(b) of this rule.
- (d) Single premiums for credit decreasing term life insurance covering joint lives on either of the bases in paragraph (c) of this rule shall not exceed 150 percent of the appropriate single life rate specified in paragraph (c) of this rule.

(3) Policy status at renewal, refinancing or repayment of entire contract.

- (a) If through prepayment the indebtedness is discharged prior to the scheduled maturity date, the insured in all instances (except group credit reducing term life, which must be canceled) shall be given the option either to cancel or to retain such insurance. The option to cancel or to retain shall be set forth in writing either as a part of the policy or certificate or by separate written statement furnished to the debtor.
- (b) In the event of renewal or refinancing accounts where credit life insurance is written on the new loan, any unexpired credit life insurance which was written in

connection with the previous loan or loans, shall be concurrently canceled and proper credit given the borrower by refunding to him the unearned portion of the premium on the former policy or policies.

(4) Refund of Premiums.

- (a) All unearned premiums on credit life insurance shall be made according to the Rule of 78's without regard to a minimum refund provision.
- (b) Refunds will be made in all instances of insurance cancellations due to prepayments, renewals, and refinancing with the exception of a loan prepaid in full by credit life insurance proceeds; in this event life insurance premiums shall be considered earned unless otherwise provided in the insurance contract.

(5) Insured.

- (a) Where a credit life insurance policy or certificate is issued to cover two lives jointly, the amount of credit life insurance shall be made payable upon the death of the first to die during the term of the policy, and the policy or certificate will then terminate. The phrase "two lives" as used in the preceding sentence means only spouses or business partners and such persons must be jointly and severally liable for the repayment of the single indebtedness and be joint signers of the instrument of indebtedness. Endorsers and guarantors are not eligible for such credit insurance coverage covering joint lives. Joint life coverage shall not be written covering more than two lives. Jointly indebted spouses shall not be covered separately at single life rates.
- (b) No disability benefit provisions may be included in such a joint credit life policy, except that disability benefits may be provided on one of the lives insured who is specifically identified by name if the policy provisions clearly indicate that only such person is covered for disability benefits.
- (c) If a credit life policy containing a suicide exclusion is issued on joint lives, the policy must be specific regarding termination of the policy, or continuation of the policy on the life of the survivor, and appropriate refunds to be made in the event suicide does occur.

(6) Principal Party Rule.

- (a) As used in paragraph (3) of O.C.G.A. Section [7-3-11](#), the term "principal party" refers to the person or persons from whom repayment of the loan is expected because such person:
 - 1. has applied for the loan; and

2. possesses assets, income, or indicia of credit-worthiness from which the expectation of repayment is reasonably drawn; and
 3. is not an endorser or guarantor.
- (b) A spouse is not principal party by virtue only of the status of spouse without meeting the criteria of subparagraph (a) of this paragraph.
 - (c) The burden of proving the status of a person as a principal party for purposes of requiring insurance shall be upon the licensee. Such information shall be obtained in writing by the licensee and shall become a part of the loan file.
- (7) The Insurance Commissioner may review the regulations concerning credit insurance and promulgate such changes as are appropriate.

Rule 120-2-107-.04. Credit Accident and Sickness Insurance.

- (1) Coverage. Credit accident and sickness insurance may be written on all loans made under the provisions of the Georgia Installment Loan Act. Provided, however, any such insurance written in connection with such a loan shall not provide for monthly benefits which exceed the amount of one monthly repayment installment loan.
- (2) Rates.
 - (a) On loans where the actual amount of cash advanced is one hundred dollars (\$100.00) or less, no credit accident and sickness insurance shall be written which provides a waiting period in excess of three (3) days, coverage shall be retroactive and no premium shall be charged for such insurance in excess of \$3.06 per annum per five dollars (\$5.00) per month benefit unless otherwise authorized by law and applicable Rules and Regulations.
 - (b) On loans where the actual amount of cash advanced is in excess of one hundred dollars (\$100.00), no credit accident and sickness insurance shall be written which provides a waiting period in excess of seven days. Coverage shall be retroactive and no premium shall be charged for such insurance in excess of \$2.10 per annum for five dollars (\$5.00) per month benefit unless otherwise authorized by law and applicable Rules and Regulations. Provided, however, if the waiting period is three (3) days, no premium shall be charged for such insurance in excess of \$3.06

per annum for five dollars (\$5.00) per month benefit unless otherwise authorized by law and applicable Rules and Regulations.

- (3) Policy status at renewal, refinancing or prepayment of entire contract.
 - (a) If through prepayment the indebtedness is discharged prior to the scheduled maturity date, the insured in all instances (except for group coverage which must be canceled) shall be given the option either to cancel or to retain such insurance. The option to cancel or to retain shall be set forth in writing either as a part of the policy or by separate written statement furnished to the debtor.
 - (b) In the event of renewal or refinanced accounts where credit accident and sickness insurance is written on the new loan, any unexpired credit accident and sickness insurance written in connection with the previous loan or loans shall be concurrently canceled and proper credit given the debtor by refunding to him the unearned portion of the premium on the former policy or policies.
- (4) Refund of Premiums.
 - (a) All unearned premiums on credit accident and sickness insurance shall be refunded according to the Rule of 78's without regard to a minimum refund provision.
 - (b) Refunds shall be made in all instances of insurance cancellations due to prepayments, renewals, and refinancing with the exception of the loan being prepaid in full by accident and sickness insurance proceeds; in this event accident and sickness premiums shall be considered earned unless otherwise provided in the insurance contract.
- (5) Claim Forms. All insurance companies writing accident and sickness insurance in connection with loans made under the Georgia Installment Loan Act shall use medical claim forms wherein a doctor's signature is required in connection with making claims for losses occurring under accident and sickness policies.
- (6) Claims relative to renewals and refinancing. Renewal or refinancing of a loan shall not operate to extinguish an insurance contract when as an incident to such renewal or refinancing another insurance contract is entered into by the same insurer and insured. Any new insurance contract issued incident to such renewal or refinancing shall be a continuation of the original contract and any waiting periods or existing disease provisions shall relate to the date of the initial insurance contract.
- (7) No credit accident and sickness policy shall be issued in this State to cover two lives jointly.

History. Original Rule entitled "Credit Accident and Sickness Insurance" adopted. F. Dec. 8, 2020; eff. Dec. 31, 2020, as specified by the Agency.

Rule 120-2-107-.05. Household Goods Fire Insurance.

- (1) Coverage.
 - (a) Dual interest household goods insurance shall insure both the creditor and the debtor as their interest may appear against loss or damage caused by fire, lightning and collision;
 - (b) Single interest household goods insurance shall insure only the interest of the Creditor Loss Payee or assignees against loss or damage caused by fire, lightning and collision.
- (2) Rates. The rates for both single interest and dual interest household goods insurance shall be approved by the Georgia Insurance Department. Rates may differ between single and dual interest insurance and between protected and unprotected areas.
- (3) No household goods insurance may be written where the maximum premium approved by the Georgia Insurance Department is less than one dollar (\$1.00).
- (4) Refund of premiums. All unearned premiums on single or dual interest household goods insurance included on a loan contract on items pledged as collateral to secure a loan shall be refunded according to the Rule of 78's. Refunds shall be given on all insurance contracts canceled before the expiration date.
- (5) Limitation, Coverage.
 - (a) On loans where household goods are the only collateral and the actual market value is equal to or exceeds the face amount of the note, the insurance written shall not exceed the face amount of the note.
 - (b) On loans where household goods are the only collateral and the actual market value is less than the face amount of the note, insurance, if written, shall be for the actual market value of the household goods.
- (6) Loss Payee. No licensee shall require fire insurance to be written on any household goods pledged as security for a loan if the borrower produces evidence that such pledged property is insured for the term of the loan and endorses the insurance policy to the licensee as assignee or loss payee. A licensee, who requires insurance on collateral pledged to secure a loan and who writes such insurance, shall be liable to the borrower in case of loss covered by the policy in the full amount even though coverage is provided by other insurance. The licensee cannot deny liability, or any part thereof, on the grounds that said collateral is covered by other insurance.

Rule 120-2-107-.06. Automobile Insurance.

- (1) Coverage.
 - (a) Dual interest automobile insurance shall insure both creditor and debtor as their interest may appear against loss or damage caused by fire, theft, and collision.
 - (b) Single interest automobile insurance shall insure only the interest of the creditor loss payee or assignee against loss caused by fire, theft and collision.
- (2) Rates. The rates for both single interest and dual interest automobile shall be those which meet the applicable standards and requirements contained in Chapter 9 of Title 33 of the Official Code of Georgia Annotated and the applicable Rules and Regulations of the Georgia Insurance Department.
- (3) Term and Type Coverage Permitted. Single interest insurance coverage issued in connection with a loan contract made under the provisions of the Georgia Installment Loan Act shall not exceed the term of said loan contract. Automobile insurance coverage issued in connection with loans made under the provisions of the Georgia Installment Loan Act shall be limited to fire, theft, and collision, or comprehensive and collision.
- (4) Refund of premiums.
 - (a) All unearned premiums on single interest automobile insurance shall be refunded according to the Rule of 78's.
 - (b) All unearned premiums on dual interest automobile insurance shall be refunded on a pro-rata basis when canceled by the insurer and on a short rate basis when canceled by the insured.
- (5) Limitation of coverage.
 - (a) Single interest automobile insurance may be written in an amount not to exceed the face amount of the loan or the actual market value of the automobile, whichever is smaller.
 - (b) Dual interest automobile insurance may be written in an amount not to exceed the actual cash value of the automobile as determined by authorized publications of the insurance industry. Coverage is not limited by the face amount of the note.

- (6) Loss Payee. No licensee shall require automobile insurance to be written on an automobile pledged as security for a loan if the borrower produces evidence that such pledged property is insured for the term of the loan and endorses the insurance policy to the licensee as assignee or loss payee.
- (7) Insurance on Dual Collateral.
- (a) When household goods and an automobile are both pledged as security on a loan and the actual cash value of the automobile and the market value of the household goods together are less than the face amount of the loan, the insurance written shall be for the actual market value of the automobile and the household goods. This applies regardless of whether or not single interest or dual interest coverage is written on any of the policies.
 - (b) In the event the actual market value of the automobile and the household goods exceed the face amount of the contract and single interest insurance is written on both types of collateral, the amount of coverage shall not exceed the face amount of the contract.
 - (c) A licensee shall not divide the amount of insurance written on collateral in such a manner as to penalize a borrower in the amount of insurance premium he is required to pay.
 - (d) Insurance written may exceed the face amount of the contract in the event the actual cash value of an automobile exceeds the amount of the contract and dual interest coverage is provided. If household goods are included as security on the loan, insurance coverage shall not be written on such household goods.
 - (e) All insurance written on personal property pledged as security for a loan shall be written in one contract. No licensee shall write fire, theft, and collision insurance with \$50.00, or some other amount, deductible and then write a separate single interest policy on the same automobile for the deductible amount.
 - (f) Where equity in an automobile which has been or is being financed with insurance coverage, is pledged as security for a loan, insurance may be written only to cover that period of the life of the loan that is not covered by the existing contract of insurance.

Rule 120-2-107-.07. Non-Recording Insurance.

- (1) No licensee shall charge any recording fee, or actual premiums on insurance used in lieu of such recording fee unless the amount of such fee or premium be fully set forth in the copy of the loan contract or voucher furnished to the borrower.
- (2) Non-recording insurance may be written on loans with a face amount in excess of \$100.00. Such insurance may be written in lieu of recording the security instrument with the proper "public official or agency of the State" and protects the lender against losses.
- (3) Rates. The rates for such non-recording insurance shall be those which meet the applicable standards and requirements contained in Chapter 9 of Title 33 of the Official Code of Georgia Annotated and the applicable Rules and Regulations of the Georgia Insurance Department.
- (4) Restrictions.
 - (a) If no security exists on a loan, charges for non-recording insurance are illegal.
 - (b) A licensee shall not select non-recording insurance instead of recording if the choice will cost the borrower more money.
- (5) Commissions. A licensee shall not deduct a fee or commission from the borrower's payment of non-recording insurance premiums. Where commissions are returned to the lender, such shall be credited to the customer's account.

Rule 120-2-107-.09. Insurance Claims Register.

Each licensee of the Georgia Installment Loan Act shall maintain on a daily basis an insurance claims register. There shall be recorded on this register, with respect to any and all claims against insurance sold in connection with a loan made under the provisions of the Georgia Installment

Loan Act, the loan account number, the name of the borrower/insured, the type of claim filed, the date of loss, the amount of claim, the date the claim was filed with the insurer, the date the claim was paid, the amount of the claim payment and the name and address of the person or entity to whom the proceeds of the claim payment were disbursed. In addition to the foregoing information, if a claim is filed against credit life insurance coverage, the date of the insured's death shall be shown on the insurance claims register. In addition to the foregoing information, if a claim is filed against credit life insurance coverage, the date of the insured's death shall be shown on the insurance claims register. In addition to the foregoing information, if a claim is filed against credit accident and sickness insurance coverage, the number of days for which the disability claim is filed shall be recorded on the insurance claims register. Register will include all denied claims and all paid claims.

Rule 120-2-107-.10. Insurance Permitted.

- (1) With respect to any consumer loan transaction, the creditor shall not require any insurance other than insurance covering the loss of or damage to any property in which the creditor is given a security interest. Credit life and credit accident and sickness insurance if required by the creditor, may be provided by the creditor through an insurer authorized to issue such insurance in this State.
- (2) If a creditor requires any insurance permitted under subsection (1) above in any consumer loan transaction, the debtor shall be given written notice of the option of providing such insurance through an existing policy or a policy independently obtained and paid for by the debtor. If the creditor requires credit life insurance, the creditor shall give the debtor written notice of the debtor's right to choose either level term life insurance or reducing term life insurance coverage. The creditor may for reasonable cause before credit is extended decline the insurance provided by the debtor.

Rule 120-2-107-.12. Insurance on Property; Amounts; Terms.

- (1) A creditor in a consumer loan transaction may not contract for or receive a charge for insurance against loss or damage to property unless:
 - (a) the insurance covers a substantial risk of loss of or damage to property related to the loan transaction;
 - (b) the amount, terms, and conditions of insurance are reasonable in relation to the character and value of the property insured or to be insured; and
 - (c) the term of the insurance is reasonable in relation to the term of credit.
- (2) The term of the insurance is reasonable if it is customary and does not extend substantially beyond a scheduled maturity.
- (3) No household goods insurance may be written where the maximum premium approved by the Georgia Insurance Department is less than one dollar (\$1.00).

Rule 120-2-108-.03. Applicability.

This regulation shall apply to all life insurance policies, with or without nonforfeiture values, issued on or after the effective date of this regulation, subject to the following exceptions and conditions.

- (1) Exceptions
 - (a) This regulation shall not apply to any individual life insurance policy issued on or after the effective date of this regulation if the policy is issued in accordance with and as a result of the exercise of a reentry provision contained in the original life insurance policy of the same or greater face amount, issued before the effective date of this regulation, that guarantees the premium rates of the new policy. This

regulation also shall not apply to subsequent policies issued as a result of the exercise of such a provision, or a derivation of the provision, in the new policy.

- (b) This regulation shall not apply to any universal life policy that meets all the following requirements:
 - (1) Secondary guarantee period, if any, is five (5) years or less;
 - (2) Specified premium for the secondary guarantee period is not less than the net level reserve premium for the secondary guarantee period based on the CSO valuation tables as defined in Section 4F and the applicable valuation interest rate; and (c) The initial surrender charge is not less than 100 percent of the first year annualized specified premium for the secondary guarantee period.
 - (3) This regulation shall not apply to any variable life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts.
 - (4) This regulation shall not apply to any variable universal life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts.
 - (5) This regulation shall not apply to a group life insurance certificate unless the certificate provides for a stated or implied schedule of maximum gross premiums required in order to continue coverage in force for a period in excess of one year.

(2) Conditions

- (a) Calculation of the minimum valuation standard for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), or both, shall be in accordance with the provisions of 120-2 -.06.
- (b) Calculation of the minimum valuation standard for flexible premium and fixed premium universal life insurance policies, that contain provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period shall be in accordance with the provisions of 120-2 -.07.

History. Original Rule entitled "Applicability" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-108-.04. Definitions.

For purposes of this regulation:

- (1) "Basic reserves" means reserves calculated in accordance with O.C.G.A. § [33-10-13](#).
- (2) "Contract segmentation method" means the method of dividing the period from issue to mandatory expiration of a policy into successive segments, with the length of each segment being defined as the period from the end of the prior segment (from policy inception, for the first segment) to the end of the latest policy year as determined below. All calculations are made using the 1980 CSO valuation tables, as defined in Subsection (5) of this section, (or any other valuation mortality table adopted by the National Association of Insurance Commissioners (NAIC) after the effective date of this regulation and promulgated by regulation by the commissioner for this purpose), and, if elected, the optional minimum mortality standard for deficiency reserves stipulated in 120-2 -.05(2).

The length of a particular contract segment shall be set equal to the minimum of the value t for which G_t is greater than R_t (if G_t never exceeds R_t the segment length is deemed to be the number of years from the beginning of the segment to the mandatory expiration date of the policy), where G_t and R_t are defined as follows:

$$G_t = \frac{GP_{x+k+t}}{GP_{x+k+t-1}}$$

where:

x = original issue age;

k = the number of years from the date of issue to the beginning of the segment;

$t = 1, 2, \dots$; t is reset to 1 at the beginning of each segment;

$GP_{x+k+t-1}$ = Guaranteed gross premium per thousand of face amount for year t of the segment, ignoring policy fees only if level for the premium paying period of the policy.

q_{x+k+t}

$R_t = \frac{q_{x+k+t}}{1 - q_{x+k+t}}$, However, R_t may be increased or $q_{x+k+t-1}$ decreased by one percent in any policy year, at the company's option, but R_t shall not be less than one;

where:

x, k and t are as defined above, and

$q_{x+k+t-1}$ = valuation mortality rate for deficiency reserves in policy year k+t but using the mortality of Section 5B(2) if Section 5B(3) is elected for deficiency reserves. However, if GP_{x+k+t} is greater than 0 and $GP_{x+k+t-1}$ is equal to 0, G_t shall be deemed to be 1000. If GP_{x+k+t} and $GP_{x+k+t-1}$ are both equal to 0, G_t shall be deemed to be 0.

- (3) "Deficiency reserves" means the excess, if greater than zero, of
 - (a) Minimum reserves calculated in accordance with O.C.G.A. § [33-10-13\(l\)](#) Over
 - (b) Basic reserves.
- (4) "Guaranteed gross premiums" means the premiums under a policy of life insurance that are guaranteed and determined at issue.
- (5) "Maximum valuation interest rates" means the interest rates defined in O.C.G.A. § [33-10-13\(f\)](#) (Computation of Minimum Standard by Calendar Year of Issue) that are to be used in determining the minimum standard for the valuation of life insurance policies.
- (6) "1980 CSO valuation tables" means the Commissioners' 1980 Standard Ordinary Mortality Table (1980 CSO Table) without ten-year selection factors, incorporated into the 1980 amendments to the NAIC Standard Valuation Law, and variations of the 1980 CSO Table approved by the NAIC, such as the smoker and nonsmoker versions approved in December 1983.
- (7) "Scheduled gross premium" means the smallest illustrated gross premium at issue for other than universal life insurance policies. For universal life insurance policies, scheduled gross premium means the smallest specified premium described in 120- 2-.07(1)(c), if any, or else the minimum premium described in 120-2 -.07(1)(d).
- (8) (a) "Segmented reserves" means reserves, calculated using segments produced by the contract segmentation method, equal to the present value of all future guaranteed benefits less the present value of all future net premiums to the mandatory expiration of a policy, where the net premiums within each segment are a uniform percentage of the respective guaranteed gross premiums within the segment. The uniform percentage for each segment is such that, at the beginning of the segment, the present value of the net premiums within the segment equals:
 - (1) The present value of the death benefits within the segment, plus
 - (2) The present value of any unusual guaranteed cash value (see 120- 2-.06(4)) occurring at the end of the segment, less
 - (3) Any unusual guaranteed cash value occurring at the start of the segment, plus

- (4) For the first segment only, the excess of the Item (i) over Item (ii), as follows:
- (i) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for in the first segment after the first policy year, divided by the present value, at the date of issue, of an annuity of one per year payable on the first and each subsequent anniversary within the first segment on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one year higher than the age at issue of the policy.
 - (ii) A net one year term premium for the benefits provided for in the first policy year.
- (b) The length of each segment is determined by the "contract segmentation method," as defined in this section.
- (c) The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the sum of the lengths of all segments of the policy.
- (d) For both basic reserves and deficiency reserves computed by the segmented method, present values shall include future benefits and net premiums in the current segment and in all subsequent segments.
- (9) "Tabular cost of insurance" means the net single premium at the beginning of a policy year for one-year term insurance in the amount of the guaranteed death benefit in that policy year.
- (10) "Ten-year select factors" means the select factors adopted with the 1980 amendments to the NAIC Standard Valuation Law.
- (11) (a) "Unitary reserves" means the present value of all future guaranteed benefits less the present value of all future modified net premiums, where:
- (1) Guaranteed benefits and modified net premiums are considered to the mandatory expiration of the policy; and
 - (2) Modified net premiums are a uniform percentage of the respective guaranteed gross premiums, where the uniform percentage is such that, at issue, the present value of the net premiums equals the present value of all

death benefits and pure endowments, plus the excess of Item (i) over Item (ii), as follows:

- (i) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per year payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one year higher than the age at issue of the policy.
 - (ii) A net one year term premium for the benefits provided for in the first policy year.
- (b) The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the length from issue to the mandatory expiration of the policy.
- (12) "Universal life insurance policy" means any individual life insurance policy under the provisions of which separately identified interest credits (other than in connection with dividend accumulations, premium deposit funds, or other supplementary accounts) and mortality or expense charges are made to the policy.

Authority: O.C.G.A. §§ [33-2-9](#), [33-10-13](#).

History. Original Rule entitled "Definitions" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-108-.05. General Calculation Requirements for Basic Reserves and Premium Deficiency Reserves.

- (1) At the election of the company for any one or more specified plans of life insurance, the minimum mortality standard for basic reserves may be calculated using the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this regulation and promulgated by regulation by the commissioner for this purpose). If select mortality factors are elected, they may be:
 - (a) The ten-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law;

- (b) The select mortality factors in the Appendix; or
 - (c) Any other table of select mortality factors adopted by the NAIC after the effective date of this regulation and promulgated by regulation by the commissioner for the purpose of calculating basic reserves.
- (2) Deficiency reserves, if any, are calculated for each policy as the excess, if greater than zero, of the quantity A over the basic reserve. The quantity A is obtained by recalculating the basic reserve for the policy using guaranteed gross premiums instead of net premiums when the guaranteed gross premiums are less than the corresponding net premiums. At the election of the company for any one or more specified plans of insurance, the quantity A and the corresponding net premiums used in the determination of quantity A may be based upon the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this regulation and promulgated by regulation by the commissioner). If select mortality factors are elected, they may be:
- (a) The ten-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law;
 - (b) The select mortality factors in the Appendix of this regulation;
 - (c) For durations in the first segment, X percent of the select mortality factors in the Appendix, subject to the following:
 - (1) X may vary by policy year, policy form, underwriting classification, issue age, or any other policy factor expected to affect mortality experience;
 - (2) X is such that, when using the valuation interest rate used for basic reserves, Item (i) is greater than or equal to Item (ii);
 - (i) The actuarial present value of future death benefits, calculated using the mortality rates resulting from the application of X;
 - (ii) The actuarial present value of future death benefits calculated using anticipated mortality experience without recognition of mortality improvement beyond the valuation date;
 - (3) X is such that the mortality rates resulting from the application of X are at least as great as the anticipated mortality experience, without recognition of mortality improvement beyond the valuation date, in each of the first five (5) years after the valuation date;
 - (4) The appointed actuary shall increase X at any valuation date where it is necessary to continue to meet all the requirements of Subsection (2)(c);

- (5) The appointed actuary may decrease X at any valuation date as long as X continues to meet all the requirements of Subsection (2)(c); and
- (6) The appointed actuary shall specifically take into account the adverse effect on expected mortality and lapsation of any anticipated or actual increase in gross premiums.
- (7) If X is less than 100 percent at any duration for any policy, the following requirements shall be met:
 - (i) The appointed actuary shall annually prepare an actuarial opinion and memorandum for the company in conformance with the requirements of [120-2-74-.06](#);
 - (ii) The appointed actuary shall disclose, in the Regulatory Asset Adequacy Issues Summary, the impact of the insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods; and
 - (iii) The appointed actuary shall annually opine for all policies subject to this regulation as to whether the mortality rates resulting from the application of X meet the requirements of Subsection (2)(c). This opinion shall be supported by an actuarial report, subject to appropriate Actuarial Standards of Practice promulgated by the Actuarial Standards Board of the American Academy of Actuaries. The X factors shall reflect anticipated future mortality, without recognition of mortality improvement beyond the valuation date, taking into account relevant emerging experience.
- (4) Any other table of select mortality factors adopted by the NAIC after the effective date of this regulation and promulgated by regulation by the commissioner for the purpose of calculating deficiency reserves.
- (3) This subsection applies to both basic reserves and deficiency reserves. Any set of select mortality factors may be used only for the first segment. However, if the first segment is less than ten (10) years, the appropriate ten-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law may be used thereafter through the tenth policy year from the date of issue.
- (4) In determining basic reserves or deficiency reserves, guaranteed gross premiums without policy fees may be used where the calculation involves the guaranteed gross premium but only if the policy fee is a level dollar amount after the first policy year. In determining

deficiency reserves, policy fees may be included in guaranteed gross premiums, even if not included in the actual calculation of basic reserves.

- (5) Reserves for policies that have changes to guaranteed gross premiums, guaranteed benefits, guaranteed charges, or guaranteed credits that are unilaterally made by the insurer after issue and that are effective for more than one year after the date of the change shall be the greatest of the following: (1) reserves calculated ignoring the guarantee, (2) reserves assuming the guarantee was made at issue, and (3) reserves assuming that the policy was issued on the date of the guarantee.
- (6) The commissioner may require that the company document the extent of the adequacy of reserves for specified blocks, including but not limited to policies issued prior to the effective date of this regulation. This documentation may include a demonstration of the extent to which aggregation with other non-specified blocks of business is relied upon in the formation of the appointed actuary opinion pursuant to and consistent with the requirements of [120-2-74-.06](#).

Authority: O.C.G.A. §§ [33-2-9](#), [33-10-13](#).

History. Original Rule entitled "General Calculation Requirements for Basic Reserves and Premium Deficiency Reserves" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-108-.06. Calculation of Minimum Valuation Standard for Policies with Guaranteed Nonlevel Gross Premiums or Guaranteed Nonlevel Benefits (Other than Universal Life Policies).

(1) Basic Reserves

Basic reserves shall be calculated as the greater of the segmented reserves and the unitary reserves. Both the segmented reserves and the unitary reserves for any policy shall use the same valuation mortality table and selection factors. At the option of the insurer, in calculating segmented reserves and net premiums, either of the adjustments described in Paragraph (a) or (b) below may be made:

- (a) Treat the unitary reserve, if greater than zero, applicable at the end of each segment as a pure endowment and subtract the unitary reserve, if greater than zero, applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment.
- (b) Treat the guaranteed cash surrender value, if greater than zero, applicable at the end of each segment as a pure endowment; and subtract the guaranteed cash surrender value, if greater than zero, applicable at the beginning of each segment

from the present value of guaranteed life insurance and endowment benefits for each segment.

(2) Deficiency Reserves

- (a) The deficiency reserve at any duration shall be calculated:
 - (1) On a unitary basis if the corresponding basic reserve determined by Subsection (1) is unitary;
 - (2) On a segmented basis if the corresponding basic reserve determined by Subsection (1) is segmented; or
 - (3) On the segmented basis if the corresponding basic reserve determined by Subsection (1) is equal to both the segmented reserve and the unitary reserve.
- (b) This subsection shall apply to any policy for which the guaranteed gross premium at any duration is less than the corresponding modified net premium calculated by the method used in determining the basic reserves, but using the minimum valuation standards of mortality (specified in 120- 2- .05(2)) and rate of interest.
- (c) Deficiency reserves, if any, shall be calculated for each policy as the excess if greater than zero, for the current and all remaining periods, of the quantity A over the basic reserve, where A is obtained as indicated in 120- 2- .05(2).
- (d) For deficiency reserves determined on a segmented basis, the quantity A is determined using segment lengths equal to those determined for segmented basic reserves.

(3) Minimum Value

Basic reserves may not be less than the tabular cost of insurance for the balance of the policy year, if mean reserves are used. Basic reserves may not be less than the tabular cost of insurance for the balance of the current modal period or to the paid-to-date, if later, but not beyond the next policy anniversary, if mid-terminal reserves are used. The tabular cost of insurance shall use the same valuation mortality table and interest rates as that used for the calculation of the segmented reserves. However, if select mortality factors are used, they shall be the ten-year select factors incorporated into the 1980 amendments of the NAIC Standard Valuation Law. In no case may total reserves (including basic reserves, deficiency reserves and any reserves held for supplemental benefits that would expire upon contract termination) be less than the amount that the policyowner would receive (including the cash surrender value of the supplemental benefits, if any, referred to above), exclusive of any deduction for policy loans, upon termination of the policy.

(4) Unusual Pattern of Guaranteed Cash Surrender Values

- (a) For any policy with an unusual pattern of guaranteed cash surrender values, the reserves actually held prior to the first unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the first unusual guaranteed cash surrender value as a pure endowment and treating the policy as an n year policy providing term insurance plus a pure endowment equal to the unusual cash surrender value, where n is the number of years from the date of issue to the date the unusual cash surrender value is scheduled.
- (b) The reserves actually held subsequent to any unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the policy as an n year policy providing term insurance plus a pure endowment equal to the next unusual guaranteed cash surrender value, and treating any unusual guaranteed cash surrender value at the end of the prior segment as a net single premium, where
 - (1) n is the number of years from the date of the last unusual guaranteed cash surrender value prior to the valuation date to the earlier of:
 - (i) The date of the next unusual guaranteed cash surrender value, if any, that is scheduled after the valuation date; or
 - (ii) The mandatory expiration date of the policy; and
 - (2) The net premium for a given year during the n year period is equal to the product of the net to gross ratio and the respective gross premium; and
 - (3) The net to gross ratio is equal to Item (i) divided by Item (ii) as follows:
 - (i) The present value, at the beginning of the n year period, of death benefits payable during the n year period plus the present value, at the beginning of the n year period, of the next unusual guaranteed cash surrender value, if any, minus the amount of the last unusual guaranteed cash surrender value, if any, scheduled at the beginning of the n year period.
 - (ii) The present value, at the beginning of the n year period, of the scheduled gross premiums payable during the n year period.
- (c) For purposes of this subsection, a policy is considered to have an unusual pattern of guaranteed cash surrender values if any future guaranteed cash surrender value exceeds the prior year's guaranteed cash surrender value by more than the sum of:
 - (1) One hundred ten percent (110%) of the scheduled gross premium for that year;

- (2) One hundred ten percent (110%) of one year's accrued interest on the sum of the prior year's guaranteed cash surrender value and the scheduled gross premium using the nonforfeiture interest rate used for calculating policy guaranteed cash surrender values; and
 - (3) Five percent (5%) of the first policy year surrender charge, if any.
- (5) Optional Exemption for Yearly Renewable Term Reinsurance. At the option of the company, the following approach for reserves on YRT reinsurance may be used:
 - (a) Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year.
 - (b) Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in Subsection (3).
 - (c) Deficiency reserves.
 - (1) For each policy year, calculate the excess, if greater than zero, of the valuation net premium over the respective maximum guaranteed gross premium.
 - (2) Deficiency reserves shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Subparagraph (1) above.
 - (d) For purposes of this subsection, the calculations use the maximum valuation interest rate and the 1980 CSO mortality tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this regulation by the NAIC and promulgated by regulation by the commissioner for this purpose.
 - (e) A reinsurance agreement shall be considered YRT reinsurance for purposes of this subsection if only the mortality risk is reinsured.
 - (f) If the assuming company chooses this optional exemption, the ceding company's reinsurance reserve credit shall be limited to the amount of reserve held by the assuming company for the affected policies.
- (6) Optional Exemption for Attained-Age-Based Yearly Renewable Term Life Insurance Policies. At the option of the company, the following approach for reserves for attained-age-based YRT life insurance policies may be used:
 - (a) Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year.

- (b) Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in Subsection (3).
- (c) Deficiency reserves.
 - (1) For each policy year, calculate the excess, if greater than zero, of the valuation net premium over the respective maximum guaranteed gross premium.
 - (2) Deficiency reserves shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Subparagraph (1) above.
- (d) For purposes of this subsection, the calculations use the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this regulation by the NAIC and promulgated by regulation by the commissioner for this purpose.
- (e) A policy shall be considered an attained-age-based YRT life insurance policy for purposes of this subsection if:
 - (1) The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are based upon the attained age of the insured such that the rate for any given policy at a given attained age of the insured is independent of the year the policy was issued; and
 - (2) The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are the same as the premium rates for policies covering all insureds of the same sex, risk class, plan of insurance and attained age.
- (f) For policies that become attained-age-based YRT policies after an initial period of coverage, the approach of this subsection may be used after the initial period if:
 - (1) The initial period is constant for all insureds of the same sex, risk class and plan of insurance; or
 - (2) The initial period runs to a common attained age for all insureds of the same sex, risk class and plan of insurance; and
 - (3) After the initial period of coverage, the policy meets the conditions of Paragraph (e) above.

- (g) If this election is made, this approach shall be applied in determining reserves for all attained-age-based YRT life insurance policies issued on or after the effective date of this regulation.
- (7) Exemption from Unitary Reserves for Certain n -Year Renewable Term Life Insurance Policies. Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met:
- (a) The policy consists of a series of n -year periods, including the first period and all renewal periods, where n is the same for each period, except that for the final renewal period, n may be truncated or extended to reach the expiry age, provided that this final renewal period is less than 10 years and less than twice the size of the earlier n -year periods, and for each period, the premium rates on both the initial current premium scale and the guaranteed maximum premium scale are level;
 - (b) The guaranteed gross premiums in all n -year periods are not less than the corresponding net premiums based upon the 1980 CSO Table with or without the ten-year select mortality factors; and
 - (c) There are no cash surrender values in any policy year.

(8) Exemption from Unitary Reserves for Certain Juvenile Policies

Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met, based upon the initial current premium scale at issue:

- (a) At issue, the insured is age twenty-four (24) or younger;
- (b) Until the insured reaches the end of the juvenile period, which shall occur at or before age twenty-five (25), the gross premiums and death benefits are level, and there are no cash surrender values; and
- (c) After the end of the juvenile period, gross premiums are level for the remainder of the premium paying period, and death benefits are level for the remainder of the life of the policy.

Authority: O.C.G.A. §§ [33-2-9](#), [33-10-13](#).

History. Original Rule entitled "Calculation of Minimum Valuation Standard for Policies with Guaranteed Nonlevel Gross Premiums or Guaranteed Nonlevel Benefits (Other Than Universal Life Policies)" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-108-.07. Calculation of Minimum Valuation Standard for Flexible Premium and Fixed Premium Universal Life Insurance Policies That Contain Provisions Resulting in the Ability of a Policyowner to Keep a Policy in Force Over a Secondary Guarantee Period.

(1) General

(a) Policies with a secondary guarantee include:

- (1) A policy with a guarantee that the policy will remain in force at the original schedule of benefits, subject only to the payment of specified premiums;
- (2) A policy in which the minimum premium at any duration is less than the corresponding one year valuation premium, calculated using the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this regulation by the NAIC and promulgated by regulation by the commissioner for this purpose; or
- (3) A policy with any combination of Subparagraph (1) and (2).

(b) A secondary guarantee period is the period for which the policy is guaranteed to remain in force subject only to a secondary guarantee. When a policy contains more than one secondary guarantee, the minimum reserve shall be the greatest of the respective minimum reserves at that valuation date of each unexpired secondary guarantee, ignoring all other secondary guarantees. Secondary guarantees that are unilaterally changed by the insurer after issue shall be considered to have been made at issue. Reserves described in Subsections (2) and (3) below shall be recalculated from issue to reflect these changes.

(c) Specified premiums mean the premiums specified in the policy, the payment of which guarantees that the policy will remain in force at the original schedule of benefits, but which otherwise would be insufficient to keep the policy in force in the absence of the guarantee if maximum mortality and expense charges and minimum interest credits were made and any applicable surrender charges were assessed.

(d) For purposes of this section, the minimum premium for any policy year is the premium that, when paid into a policy with a zero account value at the beginning of the policy year, produces a zero account value at the end of the policy year. The minimum premium calculation shall use the policy cost factors (including mortality charges, loads and expense charges) and the interest crediting rate, which are all guaranteed at issue.

(e) The one-year valuation premium means the net one-year premium based upon the original schedule of benefits for a given policy year. The one-year valuation

premiums for all policy years are calculated at issue. The select mortality factors defined in 120-2-.05(b), (c) and (d) may not be used to calculate the one-year valuation premiums.

- (f) The one-year valuation premium should reflect the frequency of fund processing, as well as the distribution of deaths assumption employed in the calculation of the monthly mortality charges to the fund.
- (2) **Basic Reserves for the Secondary Guarantees** Basic reserves for the secondary guarantees shall be the segmented reserves for the secondary guarantee period. In calculating the segments and the segmented reserves, the gross premiums shall be set equal to the specified premiums, if any, or otherwise to the minimum premiums, that keep the policy in force and the segments will be determined according to the contract segmentation method as defined in 120-2-108-.04(2).
- (3) **Deficiency Reserves for the Secondary Guarantees** Deficiency reserves, if any, for the secondary guarantees shall be calculated for the secondary guarantee period in the same manner as described in 120-2-108-.06(2) with gross premiums set equal to the specified premiums, if any, or otherwise to the minimum premiums that keep the policy in force.
- (4) **Minimum Reserves** The minimum reserves during the secondary guarantee period are the greater of:
 - (a) The basic reserves for the secondary guarantee plus the deficiency reserve, if any, for the secondary guarantees; or
 - (b) The minimum reserves required by other rules or regulations governing universal life plans.

SELECT MORTALITY FACTORS

This Appendix contains tables of select mortality factors that are the bases to which the respective percentage of 120-2-.05(1)(b) and 120-2-.05(2)(b) and (c) are applied.

The six tables of select mortality factors contained herein include: (1) male aggregate, (2) male nonsmoker, (3) male smoker, (4) female aggregate, (5) female nonsmoker, and (6) female smoker.

These tables apply to both age last birthday and age nearest birthday mortality tables.

For sex-blended mortality tables, compute select mortality factors in the same proportion as the underlying mortality. For example, for the 1980 CSO-B Table, the calculated select mortality factors are eighty percent (80%) of the appropriate male table in this Appendix, plus twenty percent (20%) of the appropriate female table in this Appendix.

Subject 120-2-109. TERM AND UNIVERSAL LIFE INSURANCE RESERVE FINANCING REGULATION.

Rule 120-2-109-.01. Authority.

This regulation is issued under the authority granted by O.C.G.A. § [33-2-9](#) and O.C.G.A. § [33-7-14\(d\)\(2\)\(B\)](#).

Cite as Ga. Comp. R. & Regs. R. 120-2-109-.01

Authority: O.C.G.A. §§ [33-2-9](#), [33-7-14](#).

History. Original Rule entitled "Authority" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-109-.02. Purpose and Intent.

The purpose and intent of this regulation is to establish uniform, national standards governing reserve financing arrangements pertaining to life insurance policies containing guaranteed nonlevel gross premiums, guaranteed nonlevel benefits and universal life insurance policies with secondary guarantees; and to ensure that, with respect to each such financing arrangement, funds consisting of Primary Security and Other Security, as defined in 120-2-109-.05, are held by or on behalf of ceding insurers in the forms and amounts required herein. In general, reinsurance ceded for reserve financing purposes has one or more of the following characteristics: some or all of the assets used to secure the reinsurance treaty or to capitalize the reinsurer (1) are issued by the ceding insurer or its affiliates; or (2) are not unconditionally available to satisfy the general account obligations of the ceding insurer; or (3) create a reimbursement, indemnification or other

similar obligation on the part of the ceding insurer or any of its affiliates (other than a payment obligation under a derivative contract acquired in the normal course and used to support and hedge liabilities pertaining to the actual risks in the policies ceded pursuant to the reinsurance treaty).

Authority: O.C.G.A. §§ [33-2-9](#), [33-7-14](#).

History. Original Rule entitled "Purpose and Intent" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-109-.03. Applicability.

This regulation shall apply to reinsurance treaties that cede liabilities pertaining to Covered Policies, as that term is defined in 120-2-109-.05(2), issued by any life insurance company domiciled in this state. This regulation and 120-2-78 shall both apply to such reinsurance treaties; provided, that in the event of a direct conflict between the provisions of this regulation and 120-2-78, the provisions of this regulation shall apply, but only to the extent of the conflict.

Rule 120-2-109-.04. Exemptions from this Regulation.

This regulation does not apply to the situations described in Sections (1) through (6).

(1) Reinsurance of:

- (a) Policies that satisfy the criteria for exemption set forth in 120-2-108-.06(6) or 120-2-108-.06(7); and which are issued before the later of:
 - (i) The effective date of this regulation, and
 - (ii) The date on which the ceding insurer begins to apply the provisions of VM-20 to establish the ceded policies' statutory reserves, but in no event later than Jan. 1, 2020;
- (b) Portions of policies that satisfy the criteria for exemption set forth in 120-2-108-.06(5) and which are issued before the later of:
 - (i) The effective date of this regulation, and

- (ii) The date on which the ceding insurer begins to apply the provisions of VM-20 to establish the ceded policies' statutory reserves, but in no event later than Jan. 1, 2020;
 - (c) Any universal life policy that meets all of the following requirements:
 - (i) Secondary guarantee period, if any, is five (5) years or less;
 - (ii) Specified premium for the secondary guarantee period is not less than the net level reserve premium for the secondary guarantee period based on the Commissioners Standard Ordinary (CSO) valuation tables and valuation interest rate applicable to the issue year of the policy; and
 - (iii) The initial surrender charge is not less than one hundred percent (100%) of the first year annualized specified premium for the secondary guarantee period;
 - (d) Credit life insurance;
 - (e) Any variable life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts; nor
 - (f) Any group life insurance certificate unless the certificate provides for a stated or implied schedule of maximum gross premiums required in order to continue coverage in force for a period in excess of one year.
- (2) Reinsurance ceded to an assuming insurer that meets the applicable requirements of O.C.G.A. § [33-7-14\(4\)](#); or
- (3) Reinsurance ceded to an assuming insurer that meets the applicable requirements of O.C.G.A. § [33-7-14\(1\)](#), [\(2\)](#), and [\(3\)](#), and that, in addition:
- (a) Prepares statutory financial statements in compliance with the NAIC Accounting Practices and Procedures Manual, without any departures from NAIC statutory accounting practices and procedures pertaining to the admissibility or valuation of assets or liabilities that increase the assuming insurer's reported surplus and are material enough that they need to be disclosed in the financial statement of the assuming insurer pursuant to Statement of Statutory Accounting Principles No. 1 ("SSAP 1"); and
 - (b) Is not in a Company Action Level Event, Regulatory Action Level Event, Authorized Control Level Event, or Mandatory Control Level Event as those terms are defined in O.C.G.A. § [33-56-1](#) et. seq. when its RBC is calculated in accordance with the life risk-based capital report including overview and

instructions for companies, as the same may be amended by the NAIC from time to time, without deviation; or

- (4) Reinsurance ceded to an assuming insurer that meets the applicable requirements of O.C.G.A. § [33-7-14\(1\), \(2\), and \(3\)](#), and that, in addition:
 - (a) Is not an affiliate, as that term is defined in O.C.G.A. § [33-13-1\(1\)](#), of:
 - (i) The insurer ceding the business to the assuming insurer; or
 - (iv) Any insurer that directly or indirectly ceded the business to that ceding insurer;
 - (b) Prepares statutory financial statements in compliance with the NAIC Accounting Practices and Procedures Manual;
 - (c) Is both:
 - (i) Licensed or accredited in at least 10 states (including its state of domicile), and
 - (ii) Not licensed in any state as a captive, special purpose vehicle, special purpose financial captive, special purpose life reinsurance company, limited purpose subsidiary, or any other similar licensing regime; and
 - (d) Is not, or would not be, below 500% of the Authorized Control Level RBC as that term is defined in O.C.G.A. § [33-51-1](#) et. seq. when its Risk-Based Capital (RBC) is calculated in accordance with the life risk-based capital report including overview and instructions for companies, as the same may be amended by the NAIC from time to time, without deviation, and without recognition of any departures from NAIC statutory accounting practices and procedures pertaining to the admission or valuation of assets or liabilities that increase the assuming insurer's reported surplus; or
- (5) Reinsurance ceded to an assuming insurer that meets the requirements of either O.C.G.A. § [33-7-14\(d\)\(4\)\(a\)](#) or O.C.G.A. § [33-7-14\(d\)\(4\)\(b\)](#); or
- (6) Reinsurance not otherwise exempt under Sections (1) through (5) if the commissioner, after consulting with the NAIC Financial Analysis Working Group (FAWG) or other group of regulators designated by the NAIC, as applicable, determines under all the facts and circumstances that all of the following apply:
 - (a) The risks are clearly outside of the intent and purpose of this regulation (as described in 120-2-109-.02 above);

- (b) The risks are included within the scope of this regulation only as a technicality; and
- (c) The application of this regulation to those risks is not necessary to provide appropriate protection to policyholders. The Commissioner shall publicly disclose any decision made pursuant to this Section (6) to exempt a reinsurance treaty from this regulation, as well as the general basis therefor (including a summary description of the treaty).

History. Original Rule entitled "Exemptions from this Regulation" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-109-.05. Definitions.

- (1) "Actuarial Method" means the methodology used to determine the Required Level of Primary Security, as described in 120-2-109-.06.
- (2) "Covered Policies" means the following: Subject to the exemptions described in 120-2-109-.04, Covered Policies are those policies, other than Grandfathered Policies, of the following policy types:
 - (a) Life insurance policies with guaranteed nonlevel gross premiums and/or guaranteed nonlevel benefits, except for flexible premium universal life insurance policies; or,
 - (b) Flexible premium universal life insurance policies with provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period.
- (3) "Grandfathered Policies" means policies of the types described in subsections (a) and (b) of section (2) above that were:
 - (a) Issued prior to January 1, 2015; and
 - (b) Ceded, as of December 31, 2014, as part of a reinsurance treaty that would not have met one of the exemptions set forth in 120-2-109-.04 had that section then been in effect.
- (4) "Non-Covered Policies" means any policy that does not meet the definition of Covered Policies, including Grandfathered Policies.

- (5) "Required Level of Primary Security" means the dollar amount determined by applying the Actuarial Method to the risks ceded with respect to Covered Policies, but not more than the total reserve ceded.
- (6) "Primary Security" means the following forms of security:
- (a) Cash meeting the requirements of O.C.G.A. § [33-7-14\(b\)\(1\)](#);
 - (b) Securities listed by the Securities Valuation Office meeting the requirements of O.C.G.A. § [33-7-14\(b\)\(2\)](#), but excluding any synthetic letter of credit, contingent note, credit-linked note or other similar security that operates in a manner similar to a letter of credit, and excluding any securities issued by the ceding insurer or any of its affiliates; and
 - (c) For security held in connection with funds-withheld and modified coinsurance reinsurance treaties:
 - (i) Commercial loans in good standing of CM3 quality and higher;
 - (ii) Policy Loans; and
 - (iii) Derivatives acquired in the normal course and used to support and hedge liabilities pertaining to the actual risks in the policies ceded pursuant to the reinsurance treaty.
- (7) "Other Security" means any security acceptable to the commissioner other than security meeting the definition of Primary Security.
- (8) "Valuation Manual" means the valuation manual adopted by the NAIC as described in O.C.G.A. § [33-10-13\(o\)\(2\)\(A\)](#), with all amendments adopted by the NAIC that are effective for the financial statement date on which credit for reinsurance is claimed.
- (9) "VM-20" means "Requirements for Principle-Based Reserves for Life Products," including all relevant definitions, from the Valuation Manual.

Authority: O.C.G.A. §§ [33-2-9](#), [33-7-14](#).

History. Original Rule entitled "Definitions" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-2-109-.06. The Actuarial Method.

- (1) Actuarial Method

The Actuarial Method to establish the Required Level of Primary Security for each reinsurance treaty subject to this regulation shall be VM-20, applied on a treaty-by-treaty basis, including all relevant definitions, from the Valuation Manual as then in effect, applied as follows:

- (a) For Covered Policies described in 120-2-109-.05(2)(a) above, the Actuarial Method is the greater of the Deterministic Reserve or the Net Premium Reserve (NPR) regardless of whether the criteria for exemption testing can be met. However, if the Covered Policies do not meet the requirements of the Stochastic Reserve exclusion test in the Valuation Manual, then the Actuarial Method is the greatest of the Deterministic Reserve, the Stochastic Reserve, or the NPR. In addition, if such Covered Policies are reinsured in a reinsurance treaty that also contains Covered Policies described in 120-2-109-.05(2)(b), the ceding insurer may elect to instead use subsection (b) below as the Actuarial Method for the entire reinsurance agreement. Whether subsection (a) or (b) are used, the Actuarial Method must comply with any requirements or restrictions that the Valuation Manual imposes when aggregating these policy types for purposes of principle-based reserve calculations.
- (b) For Covered Policies described in 120-2-109-.05(2)(b) above, the Actuarial Method is the greatest of the Deterministic Reserve, the Stochastic Reserve, or the NPR regardless of whether the criteria for exemption testing can be met.
- (c) Except as provided in subsection (d) below, the Actuarial Method is to be applied on a gross basis to all risks with respect to the Covered Policies as originally issued or assumed by the ceding insurer.
- (d) If the reinsurance treaty cedes less than one hundred percent (100%) of the risk with respect to the Covered Policies then the Required Level of Primary Security may be reduced as follows:
 - (i) If a reinsurance treaty cedes only a quota share of some or all of the risks pertaining to the Covered Policies, the Required Level of Primary Security, as well as any adjustment under paragraph (iii) below, may be reduced to a pro rata portion in accordance with the percentage of the risk ceded;
 - (ii) If the reinsurance treaty in a non-exempt arrangement cedes only the risks pertaining to a secondary guarantee, the Required Level of Primary Security may be reduced by an amount determined by applying the Actuarial Method on a gross basis to all risks, other than risks related to the secondary guarantee, pertaining to the Covered Policies, except that for Covered Policies for which the ceding insurer did not elect to apply the provisions of VM-20 to establish statutory reserves, the Required Level of Primary Security may be reduced by the statutory reserve retained by the

ceding insurer on those Covered Policies, where the retained reserve of those Covered Policies should be reflective of any reduction pursuant to the cession of mortality risk on a yearly renewable term basis in an exempt arrangement;

- (iii) If a portion of the Covered Policy risk is ceded to another reinsurer on a yearly renewable term basis in an exempt arrangement, the Required Level of Primary Security may be reduced by the amount resulting by applying the Actuarial Method including the reinsurance section of VM-20 to the portion of the Covered Policy risks ceded in the exempt arrangement, except that for Covered Policies issued prior to Jan. 1, 2017, this adjustment is not to exceed $[cx / (2 * \text{number of reinsurance premiums per year})]$ where cx is calculated using the same mortality table used in calculating the Net Premium Reserve; and
- (iv) For any other treaty ceding a portion of risk to a different reinsurer, including but not limited to stop loss, excess of loss and other non-proportional reinsurance treaties, there will be no reduction in the Required Level of Primary Security.

It is possible for any combination of paragraphs (i), (ii), (iii), and (d) above to apply. Such adjustments to the Required Level of Primary Security will be done in the sequence that accurately reflects the portion of the risk ceded via the treaty. The ceding insurer should document the rationale and steps taken to accomplish the adjustments to the Required Level of Primary Security due to the cession of less than one hundred percent (100%) of the risk.

The Adjustments for other reinsurance will be made only with respect to reinsurance treaties entered into directly by the ceding insurer. The ceding insurer will make no adjustment as a result of a retrocession treaty entered into by the assuming insurers.

- (e) In no event will the Required Level of Primary Security resulting from application of the Actuarial Method exceed the amount of statutory reserves ceded.
- (f) If the ceding insurer cedes risks with respect to Covered Policies, including any riders, in more than one reinsurance treaty subject to this Regulation, in no event will the aggregate Required Level of Primary Security for those reinsurance treaties be less than the Required Level of Primary Security calculated using the Actuarial Method as if all risks ceded in those treaties were ceded in a single treaty subject to this Regulation;

- (g) If a reinsurance treaty subject to this Regulation cedes risk on both Covered and Non-Covered Policies, credit for the ceded reserves shall be determined as follows:
 - (i) The Actuarial Method shall be used to determine the Required Level of Primary Security for the Covered Policies, and 120-2-109-.07 shall be used to determine the reinsurance credit for the Covered Policy reserves; and
 - (ii) Credit for the Non-Covered Policy reserves shall be granted only to the extent that security, in addition to the security held to satisfy the requirements of paragraph (i), is held by or on behalf of the ceding insurer in accordance with O.C.G.A. § [33-7-14\(a\) and \(b\)](#). Any Primary Security used to meet the requirements of this Subparagraph may not be used to satisfy the Required Level of Primary Security for the Covered Policies.

(2) Valuation used for Purposes of Calculations

For the purposes of both calculating the Required Level of Primary Security pursuant to the Actuarial Method and determining the amount of Primary Security and Other Security, as applicable, held by or on behalf of the ceding insurer, the following shall apply:

- (a) For assets, including any such assets held in trust, that would be admitted under the NAIC Accounting Practices and Procedures Manual if they were held by the ceding insurer, the valuations are to be determined according to statutory accounting procedures as if such assets were held in the ceding insurer's general account and without taking into consideration the effect of any prescribed or permitted practices; and
- (b) For all other assets, the valuations are to be those that were assigned to the assets for the purpose of determining the amount of reserve credit taken. In addition, the asset spread tables and asset default cost tables required by VM-20 shall be included in the Actuarial Method if adopted by the NAIC's Life Actuarial (A) Task Force no later than the Dec. 31st on or immediately preceding the valuation date for which the Required Level of Primary Security is being calculated. The tables of asset spreads and asset default costs shall be incorporated into the Actuarial Method in the manner specified in VM-20.

Rule 120-2-109-.07. Requirements Applicable to Covered Policies to Obtain Credit For Reinsurance; Opportunity for Remediation.

(1) Requirements

Subject to the exemptions described in 120-2-109-.04 and the provisions of section (2), credit for reinsurance shall be allowed with respect to ceded liabilities pertaining to Covered Policies pursuant to O.C.G.A. § [33-7-14\(a\) and \(b\)](#) if, and only if, in addition to all other requirements imposed by law or regulation, the following requirements are met on a treaty-by-treaty basis:

- (a) The ceding insurer's statutory policy reserves with respect to the Covered Policies are established in full and in accordance with the applicable requirements of O.C.G.A. § [33-10-13](#) and related regulations and actuarial guidelines, and credit claimed for any reinsurance treaty subject to this regulation does not exceed the proportionate share of those reserves ceded under the contract; and
- (b) The ceding insurer determines the Required Level of Primary Security with respect to each reinsurance treaty subject to this regulation and provides support for its calculation as determined to be acceptable to the commissioner; and
- (c) Funds consisting of Primary Security, in an amount at least equal to the Required Level of Primary Security, are held by or on behalf of the ceding insurer, as security under the reinsurance treaty within the meaning of O.C.G.A. § [33-7-14\(b\)](#), on a funds withheld, trust, or modified coinsurance basis; and
- (d) Funds consisting of Other Security, in an amount at least equal to any portion of the statutory reserves as to which Primary Security is not held pursuant to Subsection (c) above, are held by or on behalf of the ceding insurer as security under the reinsurance treaty within the meaning of O.C.G.A. § [33-7-14\(b\)](#); and
- (e) Any trust used to satisfy the requirements of 120-2-109-.07 shall comply with all of the conditions and qualifications of [120-2-78-.12](#), except that:
 - (i) Funds consisting of Primary Security or Other Security held in trust, shall for the purposes identified in 120-2-109-.06(2), be valued according to the valuation rules set forth in 120-2-109-.06(2), as applicable; and
 - (ii) There are no affiliate investment limitations with respect to any security held in such trust if such security is not needed to satisfy the requirements of 120-2-109-.07(1)(c); and
 - (iii) The reinsurance treaty must prohibit withdrawals or substitutions of trust assets that would leave the fair market value of the Primary Security within the trust (when aggregated with Primary Security outside the trust

that is held by or on behalf of the ceding insurer in the manner required by 120-2-109-.07(1)(c) below 102% of the level required by 120-2-109-.07(1)(c) at the time of the withdrawal or substitution; and

- (iv) The determination of reserve credit under [120-2-78-.12](#) shall be determined according to the valuation rules set forth in 120-2-109-.06(2), as applicable; and

- (f) The reinsurance treaty has been approved by the commissioner.

(2) Requirements at Inception Date and on an On-going Basis; Remediation

- (a) The requirements of 120-2-109-.07(1) must be satisfied as of the date that risks under Covered Policies are ceded (if such date is on or after the effective date of this regulation) and on an ongoing basis thereafter. Under no circumstances shall a ceding insurer take or consent to any action or series of actions that would result in a deficiency under 120-2-109-.07(1)(c) or (d) with respect to any reinsurance treaty under which Covered Policies have been ceded, and in the event that a ceding insurer becomes aware at any time that such a deficiency exists, it shall use its best efforts to arrange for the deficiency to be eliminated as expeditiously as possible.
- (b) Prior to the due date of each Quarterly or Annual Statement, each life insurance company that has ceded reinsurance within the scope of Section 3 shall perform an analysis, on a treaty-by-treaty basis, to determine, as to each reinsurance treaty under which Covered Policies have been ceded, whether as of the end of the immediately preceding calendar quarter (the valuation date) the requirements of 120-2-109-.07(1)(c) and (d) were satisfied. The ceding insurer shall establish a liability equal to the excess of the credit for reinsurance taken over the amount of Primary Security actually held pursuant to 120-2-109-.07(1)(c), unless either:
 - (i) The requirements of 120-2-109-.07(1)(c) and (d) were fully satisfied as of the valuation date as to such reinsurance treaty; or
 - (iii) Any deficiency has been eliminated before the due date of the Quarterly or Annual Statement to which the valuation date relates through the addition of Primary Security and/or Other Security, as the case may be, in such amount and in such form as would have caused the requirements of 120-2-109-.07(1)(c) and (d) to be fully satisfied as of the valuation date.
- (c) Nothing in 120-2-109-.07(2) shall be construed to allow a ceding company to maintain any deficiency under 120-2-109-.07(1)(c) or
- (d) for any period of time longer than is reasonably necessary to eliminate it.

Subject 120-2-110. RIGHT TO SHOP.

Rule 120-2-110-.01. Definitions.

- (1) Pursuant to O.C.G.A. Section [33-24-59.27\(c\)\(4\)](#) the Commissioner is responsible for promulgating rules and regulations which include definitions for the following terms:

- a) Risk adjusted hospital readmission rates;
- b) Absolute hospital readmission rates;
- c) Admission volume;
- d) Utilization volume;
- e) Risk adjusted rates of adverse events;
- f) Risk adjusted total cost of care; and
- g) Absolute relative total cost of care.

We have researched the federal context of these programmatic terms under 42 CFR Parts 412, 413 and 476 and Title XVIII of the Social Security Act, Section 1801. We have determined that at the present time there are no official federal definitions set out for these terms. It is the intention of the Office of Commissioner of Insurance to establish definitions for these terms in keeping with currently developing federal guidance. At such time as federal guidance in this context develops, our Office will act to officially promulgate rule definitions consistent with federal guidance.

- (2) Pursuant to O.C.G.A. Section [33-24-59.27\(c\)\(5\)](#), the Office of Commissioner of Insurance will work with relevant Georgia governmental, business, and educational partners in development of an All-Payer Health Claims Database and supply Office of Commissioner of Insurance Website links and other information available to Insurers as it is developed and finalized for use in this State. At such time when the All-Payer Claims Database is developed the Department will promulgate final Regulations.

Rule 120-3-3-.02. Application.

- (1)
 - (a) Pursuant to O.C.G.A. [25-2-4](#), rules and regulations adopted by the Safety Fire Commissioner shall have the force and effect of law and shall have statewide application as being the state minimum fire safety standards and shall not require adoption by a municipality or county. The governing authority of any municipality or county in this state is authorized to enforce the state minimum fire safety standards on all buildings and structures except one-family and two-family dwellings, one- and two-family row houses (townhouses) separated by a 2-hour fire wall and two-family townhouses separated by a 2-hour fire wall, and those buildings and structures listed in O.C.G.A. [25-2-13](#), except as may be required or permitted by O.C.G.A. [25-2-12](#) and [25-2-12.1](#).
 - (b) Pursuant to O.C.G.A. [25-2-13\(f\)](#), the municipal governing authority in any incorporated area or the county governing authority in any unincorporated area of the state shall have the authority to enact such ordinances as it deems necessary to perform fire safety inspections and related activities for those buildings and structures not covered by O.C.G.A. [25-2-13](#).
- (2) Whenever the provisions of this chapter of the Rules and Regulations of the Safety Fire Commissioner offer alternatives, as far as fire safety requirements are concerned, that were not permissible under previous editions of any Rules and Regulations of the Safety Fire Commissioner covering the same subject matter, the provisions of this chapter may be used by the authority having jurisdiction in determining whether a building is in compliance with the provisions of O.C.G.A. Title 25, Chapter 2, and the rules and regulations promulgated there under.

Rule 120-3-3-.03. Definitions.

- (1) "Ambulatory Health Care Occupancy." A building or portion thereof used to provide services or treatment simultaneously to four or more patients that (1) provides, on an outpatient basis, treatment for patients that renders the patients incapable of taking action for self-preservation under emergency conditions without the assistance of others; or (2) provides, on an outpatient basis, anesthesia that renders the patients incapable of taking action for self-preservation under emergency conditions without the assistance of others. For the purpose of compliance with Centers for Medicare & Medicaid Services (CMS) an Ambulatory Health Care Occupancy is a building or portion thereof used to provide services or treatment for one or more patients that (1) provides, on an outpatient basis, treatment for patient(s) that renders the patient(s) incapable of taking action for self-preservation under emergency conditions without the assistance of others; or (2) provides, on an outpatient basis, anesthesia that renders the patient(s) incapable of taking action for self-preservation under emergency conditions without the assistance of others "
- (2) "Assistive device" means a device that may restrain movement which has been determined to be required by a licensed physician, nurse practitioner or physician's assistant working under a protocol or job description respectively and is applied for protection from injury or to support or correct the body alignment of the person, for the treatment of a person's physical condition, and may only be used as a treatment intervention where a specific written plan of care has been developed and the resident consents to such use.
- (3) "Assisted living care" means the specialized care and services provided by an assisted living community which includes the provision of personal services, the administration of medications by a certified medication aide and the provision of assisted self-preservation."
- (4) "Assisted Living Community (ALC)" means facility serving 25 residents or more that is licensed by the Georgia Department of Community Health and meets the requirements of an existing health care occupancy found in Chapter 19 of the *Life Safety Code* or the requirements established in Chapter 34 or 35 of the *Life Safety Code* as may be applicable for new or existing facilities."
- (5) "Assisted self-preservation" as applied to an Assisted Living Community (ALC) means the capacity of a resident to be evacuated from an assisted living community to a designated point of safety and within an established period of time as determined by the

Office of the Safety Fire Commissioner. Assisted self-preservation is a function of all of the following:

- (A) the condition of the individual;
 - (B) the assistance that is available to be provided to the individual by the staff of the assisted living community, and
 - (C) the construction of the building in which the assisted living community is housed, including whether such building meets the safety requirements applicable to an existing Health Care Occupancy or an Assisted Living Community as established by Chapter 34 or 35 of NFPA 101, *Life Safety Code*, as may be applicable respectively to a new or existing facility, and other safety to life provisions as adopted by the Rules and regulations of the Safety Fire Commissioner." (Also see the definition for "Self-Preservation")
- (6) "Community Living Arrangement" means for the purpose of this chapter, any residence whether operated for profit or not which is subject to being licensed by the State, that undertakes through its ownership or management to provide or arrange for the provision of daily personal services, supports, care or treatment exclusively for two or more adults who are not related to the owner or manager by blood or marriage and whose residential services are financially supported, in whole or in part, by funds designated through the Department of Human Services, Division of Mental Health, Developmental Disabilities, and Addictive Diseases.
- NOTE: Refer to Modification (72) relating to the 2012 Edition of NFPA 101, *Life Safety Code* for minimum requirements for safety to life from fire and related emergency conditions in Community Living Arrangements, Assisted Living Communities, Health Care Facilities, Limited Care Facilities, Personal Care Homes, and other specialty facilities as defined herein and or through modifications to NFPA 101, *Life Safety Code*.
- (7) "Evacuation Capability, Impractical" Means the total evacuation of all residents from a building or structure cannot be achieved in less than thirteen minutes whether day or night. The evacuation capabilities of residents in all cases are based on the time of day or night when the evacuation of the facility would be most difficult (e.g., sleeping residents and/or fewer staff present).
- (8) "Evacuation Capability, Prompt." Means the total evacuation of all residents from the building or structure can be achieved in three minutes or less whether day or night. The evacuation capabilities of residents in all cases are based on the time of day or night when evacuation of the facility would be the most difficult (e.g., sleeping residents and/or fewest staff present).
- (9) "Evacuation Capability, Slow." Means the total evacuation of all residents from the building or structure can be achieved in over three minutes but not in excess of thirteen minutes whether day or night. The evacuation capabilities of residents in all cases are

based on the time of day or night when evacuation of the facility would be the most difficult (e.g., sleeping residents and/or fewest staff present).

- (10) "Existing Building" means buildings, structures, facilities or conditions which are already in existence or constructed and officially authorized prior to the effective date for the adoption of this Chapter. This definition shall apply to all situations covered by this chapter except where otherwise noted by this chapter."
- (11) "Fire hazard" means for the intents and purposes of this Chapter 120-3-3 and the codes and standards adopted there-under, unless more specifically stated elsewhere in this Chapter, an activity, circumstance, condition, situation, combination of materials, material process, use or improper use of heat sources, or that on the basis of applicable documentation, data, or sources deemed reliable by the authority having jurisdiction, can cause an unwanted fire, a fire out of control, an explosion, or a related condition, such as panic from a fear of smoke, fire, or explosion, that the authority having jurisdiction determines it to be a risk to persons, to property, or to the health, safety and or welfare of the jurisdiction."
- (12) "Fire Wall" means, for the purpose of this chapter and O.C.G.A. Code Sections [25-2-4](#) and [25-2-13](#), walls of any approved noncombustible construction having sufficient structural stability under fire conditions to allow collapse of construction on either side without collapse of the wall for the duration of time indicated by the required fire-resistance rating, and that comply with the provisions for fire walls in accordance with the *International Building Code*, as adopted by the Georgia Department of Community Affairs. (Refer to modifications to the *International Building Code*, as adopted by the Board of Community Affairs regarding provisions for "double fire walls.")
- (13) "ICC Code", means, for the purposes of the Safety Fire Commissioner's Rules and Regulations, any of the codes, or portions thereof, as published by the *International Code Council* (ICC) and as adopted and modified as set forth in this Chapter or any other chapter of the Safety Fire Commissioner's Rules and Regulations.
- (14) "Limited Care (Custodial Care) Facilities". A building, or part thereof, used on a 24-hour basis, for the housing, lodging or boarding of four or more persons who are incapable of self-preservation because of age, physical limitation(s) due to accident or illness, or mental limitation(s) such as mental illness or chemical dependency. This occupancy classification also includes, but is not limited to TBI Facilities or Traumatic Brain Injury Facilities. (See Chapters 18 and 19 of the *Life Safety Code* for minimum requirements. Also see 120-3-3-.03 of Chapter 120-3-3 Rules of the Safety Fire Commissioner for the definitions of "Assisted Living Community" and "Memory Care Unit".)
- (15) Lodging or Rooming House. A building or portion thereof that does not qualify as a one- or two-family dwelling, that provides sleeping accommodations for a total of 15 or fewer people on a transient or permanent basis, with or without meals, but without separate cooking facilities for individual occupants. Foster homes, group homes,

battered spouse shelters, or similar facilities providing lodging and boarding for four but not more than 15 residents or clients, not related by blood or adoption to the owner(s) or operator(s) shall be deemed a lodging or rooming house for purposes of this Chapter 120-3-3.

- (16) "Memory care unit" means the assisted living community, or specialized unit thereof, that either holds itself out as providing additional or specialized care to persons with diagnoses of probable Alzheimer's Disease or other dementia who may be at risk of engaging unsafe wandering activities outside the unit or assisted living community (eloping), or charges rates in excess of those charged other residents because of cognitive deficits which may place the residents at risk of eloping. (Such facilities shall comply with Chapter 34 or 35, as may be applicable, of NFPA 101, *Life Safety Code*, as adopted by this Chapter 120-3-3.)"
- (17) "Mobile/portable classroom structure", means a portable structure built on a chassis, designed as a temporary student classroom structure for educational purposes, and designed to be used with or without a permanent foundation."
- (18) "Mobile/portable classroom structure, Existing", means a mobile/portable classroom structure approved, constructed and placed in use before the effective date of this Chapter 120-3-3."
- (19) "NFPA Code or Standard" means, for the purposes of the Safety Fire Commissioner's Rules and Regulations, any of the codes and/or standards, or portions thereof, as published by the National Fire Protection Association (NFPA) and as adopted and modified in this chapter or any other chapter of the Safety Fire Commissioner's Rules and Regulations.
- (20) "Occupiable Story" means, for the purpose of this chapter and the codes and standards adopted herein, a story occupied by people on a regular basis. Stories used exclusively for mechanical equipment rooms, elevator penthouses and similar spaces are not occupiable stories.
- (21) "Personal Care Home" means, for the purposes of this chapter and O.C.G.A. Section [25-2-13\(b\)\(1\)\(J\)](#), a facility licensed by the Georgia Department of Community Health as a personal care home. A personal care home is further defined as any dwelling, whether operated for profit or not, which undertakes through its ownership or management to provide or arrange for the provision of housing, food service, and one or more personal services for two or more adults who are not related to the owner or administrator by blood or marriage. (Personal Care Homes not designated as an "Assisted Living Community" or a "Memory Care Unit" shall meet the provisions of Chapter 32 or 33, as applicable for Residential Board and Care Occupancies of NFPA 101, *Life Safety Code*, as adopted by this Chapter 120-3-3. See the definition for "Residential Board and Care Occupancies" in 120-3-3-.03)"
- (22) "Primary Level of Exit Discharge" means, for the purpose of this chapter and the codes and standards adopted herein, that story which is level with or above finished grade by

more than 50% of the cubic volume of the occupiable story. Building levels below the primary level shall not count as a story in determining the height of a building.

- (23) "Residential Board and Care Occupancies (Specifically Personal Care Homes/Facilities means a building, or part thereof, which is used for lodging and boarding of four or more residents who are not related by blood or marriage to the owners or operators, for the purpose of providing personal care services. Such facilities may also be utilized as a Community Living Arrangement. Either use must be licensed by the State agency having licensing jurisdiction.) Any facility providing lodging and boarding and personal care for four or more residents who are mostly incapable of self-preservation, except brain injury centers, because of physical or mental disability, shall require relocation of so classified excess residents to an appropriate health care facility meeting, at the least, the provisions, for limited care facilities as set forth by NFPA 101, *Life Safety Code*. (See the definitions in 120-3-3.03 of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner for "Assisted Living Community" and "Memory Care Unit." Also, see the definitions for "Community Living Arrangements", Limited Care Facilities, and "Limited Care (Custodial Care) Facilities" relative to Traumatic Brain Injury (TBI) Facilities.)"
- (24) "Self-Preservation," except as defined in NFPA 101, *Life Safety Code* for day-care occupancies, means the ability to respond to an emergency condition, whether caused by fire or otherwise, and escape the emergency without physical, hands-on assistance from staff. The resident may move from place to place by walking, either unaided or aided by prosthesis, brace, cane, crutches, walker or handrails, or by propelling a wheelchair. (See the definition of "Assisted Self-Preservation).
- (25) "Sleeping Accommodations for Hire" means, for the purpose of this chapter and O.C.G.A. Section [25-2-13\(b\)\(1\)](#), and the adopted codes herein, a bed, whether single, double, queen, or king, which is for hire or rental, whether by the day, week, month, or some other period of time.
- (26) "Stories" means, for the purpose of O.C.G.A. Section [25-2-13\(b\)\(1\)](#) and the codes and standards adopted herein, that level starting at the primary level of exit discharge and ending at the highest occupiable story. A building level below the primary level shall not count as a story in determining the height of a building (see the definition of (20) for occupiable story).

Rule 120-3-3-.04. State Minimum Fire Safety Standards with Modifications.

- (1) Unless otherwise stated in this chapter, the edition of the *International Fire Code (IFC)*, and the following editions of the codes, standards, recommended practices, guides and methods, as published in the *National Fire Codes (NFC)* by the National Fire Protection Association (NFPA), as adopted and modified in this Chapter, shall be the state minimum fire safety standards. Where any of the adopted publications of the NFPA references NFPA 1 or NFPA 5000, or any fire code or building code, it shall be construed that such references apply to the *International Fire Code (IFC)* or the *International Building Code (IBC)* respectively, as adopted by this Chapter 120-3-3, and the Georgia Department of Community Affairs. Where the *IFC* or *IBC* does not specifically address the referenced issue, NFPA 1 or NFPA 5000 may be applied subject to the approval of the authority having jurisdiction.
- (2) Hospitals, hospices, ambulatory surgical centers, nursing homes, assisted living communities, assisted living homes, memory care units or other health care type occupancies or facilities that are regulated by the federal Centers for Medicare and Medicaid Services (CMS) shall comply with the fire and life safety rules and regulations imposed by that agency even though the codes and standards or the editions of codes and standards adopted by that agency may not be specifically addressed or included in this chapter. The codes and standards adopted and modified herein shall also apply where applicable and shall be deemed to be the minimum state fire and life safety standards where they are at least as protective as the CMS rules and regulations.
- (3) ***International Fire Code (IFC), 2018 Edition***

Modifications:

(a) Modifications to Chapter 1:

1. Delete section 101.1 in its entirety and substitute in its place the following:
 - 101.1 **"Title.** The *International Fire Code*, 2018 edition, published by the *International Code Council*, when used in conjunction with this Chapter, shall be known as a *Georgia State Minimum Fire Prevention Code*, hereafter referred to as 'this Code'."
2. Delete section 101.3 in its entirety and substitute in its place the following:

101.3 "Purposes and Intents of This *Code*. The primary purpose of this *Code*, as adopted, is to provide, along with other adopted codes and standards, for the reasonable minimum protection of life and property from the hazards created by fire, smoke, explosion, or panic created from a fear of fire or smoke. It is intended that the purposes of this *Code* be accomplished by:

- (1) Coordinating application and enforcement of its provisions with those of other applicable laws, rules, regulations, codes, and standards; and,
- (2) By coordinating the application of its provisions, where possible, with educational programs or efforts designed to bring about changes in high risk attitudes and behaviors that are the root causes of most fire related problems in Georgia; and
- (3) By encouraging or requiring informational and awareness programs designed to make the citizens of Georgia aware of their responsibilities for compliance with this *Code* as well as the other Rules and Regulations of the Safety Fire Commissioner. The intent of this *Code* is to establish the minimum requirements, consistent with nationally recognized good practice, for providing a reasonable level of life safety and property protection from the hazards of fire, explosion, or dangerous conditions in new and existing buildings, structures, and premises and to provide safety to fire fighters and emergency responders during emergency operations."

3. Add an exception to section 102.1 to read as follows:

"Exception: This Code does not apply to one- and two- family dwellings or one- and two- family row houses (townhouses) separated by a 2-hour fire wall containing not more than three dwelling units per structure."

4. Add an exception to section 102.2 to read as follows:

"Exception: This Code does not apply to one- and two- family dwellings or one- and two- family row houses (townhouses) separated by a 2-hour fire wall containing not more than three dwelling units per structure."

5. Delete section 102.3 in its entirety and substitute in its place the following:

102.3 **"Change of use or occupancy.** No change shall be made in use or occupancy of any building or structure that would place the structure in a different division of the same group or occupancy or in a different group of occupancies, unless such structure is made to comply with the requirements of this *Code*, as may be applicable, as well as those of the *International Building Code (IBC)*, as adopted by the Department of Community Affairs. Pursuant to O.C.G.A. [25-2-14](#), due to a change of use or occupancy of a building or structure the building or structure shall be treated as a proposed (new) building. (Refer to 103.3 of this *Code* regarding the requirements applicable to proposed (new) buildings and structures.)"

6. Delete section 102.4 in its entirety and substitute in its place the following:

102.4 **"Application of the building code.** The design and construction of proposed (new) buildings and structures shall comply with the *International Building Code (IBC)*, as modified and adopted by the Georgia Department of Community Affairs. Repairs, alterations, additions, changes in use or occupancy classification, or changes in buildings or structures required by provisions of the *IFC*, and which are within the scope of the *IBC*, shall be made in accordance with the *IBC*, for purposes of this Chapter."

7. Add a new 102.5.1 to read as follows:

102.5.1 " The provisions of 102.5 shall apply to local authorities having jurisdiction unless there is a change of use or occupancy that would apply under 102.3 and which would bring the new use or occupancy under the jurisdiction of O.C.G.A. [25-2-13\(b\)\(1\)](#)"

8. Delete section 102.6 in its entirety and insert in its place the following:

102.6 **"Historic Buildings, General.** O.C.G.A. [25-2-13\(a\)\(2\)](#) defines a "Historic building or structure" as "any individual building which contributes to the historic character of a historic district, so designated by the state historic preservation officer pursuant to rules and regulations adopted by the Board of Natural Resources, or so designated pursuant to the provisions of Article 2 of Chapter 10 of Title 44, the "Georgia Historic Preservation Act."

(A) Refer to 102.1 and 102.2 regarding the application of this *Code* to existing buildings. Except to the extent required by applicable laws of Georgia (O.C.G.A. [25-2-13\(b\)\(3\)\(D\)](#)

[and \(E\)](#), the provisions of this *Code* are not mandatory for buildings or structures identified and classified by the state, or as appropriate, a local jurisdiction, as historic buildings when such buildings or structures are judged by the fire code official to be safe and in the public interest of health, safety and welfare, based on the criteria established by the referenced provisions of the Official Code of Georgia Annotated. When evaluating the safety of historic buildings the fire official should consult O.C.G.A. Title 8, Chapter 2, Article 3 entitled, 'Uniform Act for the Application of Building and Fire Related Codes to Existing Buildings,' and the provisions of O.C.G.A. Sections [25-2-13\(b\)\(3\)](#) & [25-2-13\(b\)\(4\)](#), and NFPA Standard 914, *Code for Fire Protection of Historic Structures*, as adopted by this Chapter as a recommended practice."

9. Delete section 102.7 in its entirety and substitute in its place the following:

102.7 **"Referenced codes and standards.** Where the provisions of this *Code* or the standards referenced thereby and in Chapter 45 of this *Code* do not apply to the specific subjects, situations or conditions encountered that involve risks to life and property from the hazards of fire, panic from fear of fire or smoke, or related hazards, compliance with the applicable chapters of the Rules and Regulations of the Safety Fire Commissioner shall be evidence of compliance with this *Code*."

10. Add a new section 102.13 to read as follows:

102.13 **"Coordination of provisions.** This *Code* shall apply to all buildings, structures and facilities as provided in subsections 102.1 and 102.2, and shall be utilized in conjunction with codes and standards specified in **Table 102.13** entitled, **"CODES REFERENCE GUIDE."**

Table 102.13 Codes Reference Guide		
Area	Primary	Supplement

11. Delete section 103 and all sections there-under in their entirety and substitute in its place the following:

SECTION 103 "GENERAL PROVISIONS FOR EXISTING AND PROPOSED (NEW) BUILDINGS.

103.1 **General Provisions.** The administration, enforcement and penalty provisions of O.C.G.A. Title 25, Chapter 2, and the administrative provisions of the various chapters of the Rules

and Regulations of the Safety Fire Commissioner shall apply to and regulate the application and enforcement of this *Code* by the Safety Fire Division of the Office of the Safety Fire Commissioner.

NOTE: Nothing herein shall be construed as prohibiting any local jurisdiction from adopting the deleted portions of Chapter 1 of this *Code* for local purposes, provided, however, local amendments shall not be less restrictive than this *Code*, and other codes and standards as adopted by the various chapters of the Rules and Regulations of the Safety Fire Commissioner.

103.1.1 The provisions of O.C.G.A. Title 25, Chapter 2, and other applicable state laws, and the applicable provisions of various chapters of the Rules and Regulations of the Safety Fire Commissioner regarding the requirements for certificates, licenses, permits, plan reviews, inspections, approvals, fees, etc. shall apply and are in addition to any requirements of local jurisdictions. Local authorities having jurisdiction need to be consulted to determine if rules and regulations of the local jurisdiction regarding the requirements for local certificates, licenses, permits, plan reviews, inspections, approvals, fees, etc. also apply.

103.1.1.1 The administrative, operational, and maintenance provisions of this *Code*, with regard to the Safety Fire Division of the Office of the Georgia Safety Fire Commissioner, shall be limited to the scope and intents and purposes of the Official Code of Georgia Annotated (O.C.G.A.) Title 25, Chapter 2, and the Commissioner's Rules and Regulations.

103.1.1.1.1 Pursuant to O.C.G.A. [25-2-13\(d\)](#), every person who owns or controls the use of any building, part of a building, or structure

described in O.C.G.A.
[25-2-13\(b\)\(1\)](#), which
because of floor area,
height, location, use or
intended use as a
gathering place for
large groups, or use or
intended use by or for
the aged, the ill, the
incompetent, or the
imprisoned, constitutes
a special hazard to
property or to the life
and safety on account
of fire or panic from
fear of fire, must so
construct, equip,
maintain, and use such
building or structure as
to afford every
reasonable and practical
precaution and
protection against
injury from such
hazards. No person who
owns or controls the use
or occupancy of such a
building or structure
shall permit the use of
the premises so
controlled for any such
specially hazardous use
unless he has provided
such precautions
against damage to
property or injury to
persons by these
hazards as are found
and determined by the
Commissioner in the

manner described in
O.C.G.A. [25-2-13\(d\)](#) to
be reasonable and
practical.

103.2 **Existing buildings.** Every building and structure existing as of April 1, 1968, which building or structure is listed in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) shall comply with the minimum fire safety standards in the Rules and Regulations of the Safety Fire Commissioner promulgated pursuant to O.C.G.A. 25-2 which were in effect at the time such building or structure was constructed.

Exception 1: Any nonconformance noted under the electrical standards adopted at the time such building or structure was constructed shall be corrected in accordance with the current electrical standards adopted pursuant to O.C.G.A. 25-2.

Exception 2: A less restrictive provision contained in any subsequently adopted minimum fire safety standard pursuant to O.C.G.A. 25-2, may be applied to any existing building or structure.

103.2.1 Existing buildings to be deemed a proposed building. For the purposes of O.C.G.A. [25-2-14\(b\)](#), any existing building or structure listed in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which comes under the jurisdiction of the Office of the Safety Fire Commissioner, pursuant to O.C.G.A. [25-2-12](#), shall be deemed to be a proposed (new) building in the event such building or structure is subject to substantial renovation, a fire or other hazard of serious consequence, or a change in the classification of occupancy, or a change to the occupant load or structure issued as a condition of occupancy. The term "substantial renovation", for purposes of this subsection means any construction project involving exits or internal features of such building or structure costing more than the building's or structure's assessed value according to county tax

records at the time of such renovation (O.C.G.A. [25-2-14](#)). Where a change of classification is involved, also refer to 102.3 of this *Code*.

103.3 Proposed (new) buildings and additions to existing buildings:

103.3.1 Pursuant to O.C.G.A. [25-2-14.1\(b\)](#), every proposed building and structure listed in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) shall comply with the adopted minimum fire safety standards that were in effect on the date that plans and specifications therefore were received by the state fire marshal, the proper local fire official marshal, or state inspector for review and approval. Complete plans for proposed (new) buildings and structures recorded as received by the authority having jurisdiction for review prior to the effective date of this Chapter, may be reviewed under the codes, standards, and Rules and Regulations of the Safety Fire Commissioner in force prior to the effective date of this Chapter.

103.3.1.1 Projects receiving a construction permit under earlier editions of the codes and standards must start construction no later than 360 days from the issue date of the permit in order not to require resubmittal for review under the newer adopted codes and standards.

103.3.2 Plans and specifications for all proposed buildings which come under classification in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which come under the jurisdiction of the Office of the Safety Fire Commissioner pursuant to O.C.G.A. [25-2-12](#) shall be submitted to and receive approval by either the state fire marshal, the proper local fire marshal, or state inspector before any state, municipal, or county building permit may be issued or construction started (O.C.G.A. [25-2-14\(a\)](#)). All such plans and specifications submitted as required by O.C.G.A. [25-2-14\(a\)](#) shall be accompanied by a fee in the amount provided in O.C.G.A. [25-2-4.1](#) and shall bear the seal

and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Commissioner.

- 103.3.3 Pursuant to O.C.G.A. [25-2-37\(a\)](#), it shall be unlawful for any person to begin construction on any proposed building or structure which comes under the classification in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which comes under the jurisdiction of the Office of the Safety Fire Commissioner pursuant to O.C.G.A. [25-2-12](#) without first having plans approved in accordance with O.C.G.A. [25-2-14](#).
- 103.4 Proposed building construction and completion. Pursuant to O.C.G.A. [25-2-14\(b\)](#), a complete set of plans and specifications approved as set forth in 103.3.3 shall be maintained on the construction site, and construction shall proceed in compliance with the state minimum fire safety standards under which such plans and specifications were approved. The owner of any such building or structure or his authorized representative shall notify the state fire marshal, the proper local fire marshal, or state inspector upon completion of approximately 80 percent of the construction thereof and shall apply for a certificate of occupancy when construction of such building or structure is completed.
- 103.5 **Certificate of occupancy required.** Pursuant to O.C.G.A. [25-2-14\(c\)](#), every building or structure which comes under classification in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which comes under the jurisdiction of the Office of the Safety Fire Commissioner pursuant to O.C.G.A. [25-2-12](#) shall have a certificate of occupancy issued by the state fire marshal, the proper local fire marshal, or state inspector before such building or structure may be occupied. Such certificates of occupancy shall be issued for each business establishment within the building, shall carry a charge in the amount provided in O.C.G.A. [25-2-4.1](#), shall state the occupant load for such business establishment or building, shall be posted in a prominent location within such business establishment or building, and shall run for the life of the building, except as provided in O.C.G.A. [25-2-14\(d\)](#). (See 103.2.1 of the *IFC*, as adopted by this Chapter.)"

12. The provisions of section 105, PERMITS, are not adopted for purposes of this Chapter. Local governing authorities may adopt the provisions for local purposes. Refer to section 103.3 with regard to permits required by the Rules and Regulations of the Safety Fire Commissioner.
13. The provisions of section 109, BOARD OF APPEALS, are not adopted for purposes of this Chapter. Local governing authorities may adopt the provisions for local purposes.
14. Delete section 110.4 and all sections there-under in their entirety and substitute in its place the following:
 - 110.4 **"Violation penalties.** Persons who shall violate a provision of this *Code* or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate used under provisions of this *Code*, shall be guilty of violation of Section [25-2-37](#) of the Official Code of Georgia Annotated. Each day that a violation continues after due notice has been served shall be deemed a separate offense.
 - 110.4.1 **Abatement of violation.** In addition to the imposition of the penalties herein described, the fire code official is authorized to institute appropriate action to prevent unlawful construction or to restrain, correct or abate a violation; or to prevent illegal occupancy of a structure or premises; or to stop an illegal act, conduct of business or occupancy of a structure on or about any premises."
15. The provisions of section 113, SERVICE UTILITIES, are not adopted for purposes of this Chapter. Local governing authorities may adopt the provisions for local purposes.

(b) **Modifications to Chapter 2:**

1. Delete section 201.3 in its entirety and substitute in its place the following:
 - 201.3 **"Terms defined in other codes.** Where terms are not defined in [120-3-3-.03](#) of Chapter 120-3-3 or other applicable chapters of the Rules and Regulations of the Safety Fire Commissioner, or this *Code* and are defined in the *International Building Code (IBC)*, the *International Fuel Gas Code (IFGC)*, the *International Mechanical Code (IMC)*, or the codes and standards of the

National Fire Protection Association (NFPA), as adopted by this Chapter and other Rules and Regulations of the Safety Fire Commissioner, such terms shall have the meanings ascribed to them as in those codes and standards."

2. Delete Institutional Group I-2 in its entirety and replace with:

Institutional Group I-2. Institutional Group I-2 occupancy shall include buildings and structures used for medical care on a 24-hour basis for more than five persons who are not capable of self-preservation. This group shall include, but not be limited to, the following:

Foster care facilities

Detoxification facilities

Hospitals

Nursing homes

Psychiatric hospitals

Assisted Living Communities

Memory Care Units

Limited Care Facilities (Limited Healthcare)

(c) **Modifications to Chapter 3:**

1. Delete section 303.5 in its entirety and substitute in its place the following:

303.5 **"Portable Fire Extinguishers.** There shall be at least one portable fire extinguisher complying with Section 906 and with a minimum 2-A:40-B:C rating within 25 feet (7620 mm) of each asphalt (tar) kettle during the period such kettle is being utilized, and a minimum of one additional portable fire extinguisher with a minimum 3-A:40-B:C rating on the roof being covered."

2. Add new exceptions 4, 5, 6, 7 and 8 to section 308.3 to read as follows:

"Exception #4:

In Group A public assembly occupancies having an occupant load greater than 300, a minimum ceiling height of 25 feet and that are protected throughout by an approved, supervised automatic sprinkler system installed in accordance with NFPA 13, as adopted by this Chapter, pyrotechnic special effect devices shall be permitted to be used on stages before proximate audiences for ceremonial or religious purposes, as part of a demonstration in exhibits, or as part of a performance, provided that precautions satisfactory to the authority having jurisdiction are taken to prevent ignition of any combustible material and use of the pyrotechnic device complies with NFPA 1126, *Standard for the Use of Pyrotechnics before a Proximate Audience*, as adopted by Chapter 120-3-22 Rules and Regulations of the Safety Fire Commissioner. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration shot of all types of devices being used in the display.

Exception #5:

In Group A public assembly occupancies having an occupant load greater than 300, a minimum ceiling height of 25 feet and that are protected throughout by an approved, supervised automatic sprinkler system installed in accordance with NFPA 13, as adopted by this Chapter, flame effects before an audience shall be permitted in accordance with NFPA 160, *Standard for Flame Effects Before an Audience*, as adopted by Chapter 120-3-22 Rules and Regulations of the Safety Fire Commissioner. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration of all types of devices being used in the display.

Exception #6

On stages and platforms as a necessary part of a performance in public assembly occupancies having an occupant load greater than 300, a minimum ceiling height of 25 feet and that are protected throughout by an approved, supervised automatic sprinkler system installed in accordance with NFPA 13, as adopted by this Chapter. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration of all types of devices being used in the display.

Exception #7

In Group A public assembly occupancies having an occupant load greater than 100 with fixed seating, a minimum ceiling height of 25 feet and that

have a minimum of two certified fire fighters on site with proper firefighting equipment as determined by the local fire official, pyrotechnic special effect devices shall be permitted to be used on stages before proximate audiences for ceremonial or religious purposes, as part of a demonstration in exhibits, or as part of a performance, provided that precautions satisfactory to the authority having jurisdiction are taken to prevent ignition of any combustible material and use of the pyrotechnic device complies with NFPA 1126, *Standard for the Use of Pyrotechnics before a Proximate Audience*, as adopted by Chapter 120-3-22 Rules and Regulations of the Safety Fire Commissioner. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration shot of all types of devices being used in the display.

Exception #8:

In public assembly occupancies having an occupant load greater than 100 with fixed seating, a minimum ceiling height of 25 feet and that have a minimum of two certified fire fighters on site with proper firefighting equipment as determined by the local fire official, flame effects before an audience shall be permitted in accordance with NFPA 160, *Standard for Flame Effects Before an Audience*, as adopted by this Chapter. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration of all types of devices being used in the display."

3. Delete section 310.1 'General' its entirety and substitute in its place the following:
 - 310.1 **"General.** The smoking or carrying of a lighted pipe, cigar, cigarette or any other type of smoking paraphernalia or material is prohibited in areas indicated in Sections 310.2 through 31.8, buildings, structures, or areas, or portions of buildings, structures, or areas, as indicated is this in any other code or standard as adopted by the Rules and Regulations of the Safety Fire Commissioner, or where prohibited in accordance Chapter 12A of Title 31 of the O.C.G.A."
4. Delete section 319.1 'General' its entirety and substitute in its place the following:
 - 319.1 **General.** Mobile food preparation vehicles that are equipped with appliances that produce smoke or grease-laden vapors shall comply with NFPA 96, *Standard for Ventilation Control and Fire*

Protection of Commercial Cooking Operations as adopted by this Chapter 120-3-3 and this section.

5. Delete section 319.3 'Exhaust hood' in its entirety and substitute in its place the following:

319.3 Exhaust hood. Cooking equipment that produces grease-laden vapors shall be provided with a kitchen exhaust hood that complies with NFPA 96, *Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations* as adopted by this Chapter 120-3-3.

6. Delete section 319.4 'Fire protection' in its entirety and substitute in its place the following:

319.4 **Fire protection.** Fire protection shall be provided in accordance with NFPA 96, *Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations* as adopted by this Chapter 120-3-3.3 -3 of the Rules and Regulations of the Safety Fire Commissioner."

(d) **Modifications to Chapter 4:**

- (4) Add section 403.1.1 to read as follows:

403.1.1 "**Caregiver training.** A minimum of three hours' initial fire safety training for receipt of a certificate of training for successful completion shall be required for all directors, operators and all staff members of day-care facilities (adult and children), and for administrator's, directors, operators and all staff of Group I-1 and Group R-4, assisted living communities, assisted living facilities, community living arrangements, memory care units, personal care homes, and residential board and care homes, as defined in Chapter 2 of this *Code* or as defined by the *Life Safety Code*, and or as adopted by Chapter 120-3-3 of the Rules and Regulations of the Georgia Safety Fire Commissioner. The curriculum for the fire safety training shall receive written approval by the State Fire Marshal's Office and be taught by an instructor registered with the Safety Fire Commissioner's Office. All persons as required herein to obtain such required training shall receive this training within 90 days from receipt of a license, being commissioned or the opening of a new facility. Such new persons shall receive a minimum of three hours' initial fire safety training and

recommendation for receipt of a certificate of training for successful completion of the training within 90 days of employment. In addition, a minimum of two hours of fire safety refresher training shall be required for receipt of a certificate of training for successful completion of the refresher training. The refresher training shall be required for all persons coming under 403.1.1, every three years from the date initial training is received. Registered instructors shall deliver the training based on policies and direction from the State Fire Marshal's Office. Instructors found not to be delivering the training in accordance with the said policies and direction shall be removed from the registry and prohibited from delivering future training."

2. Delete section 403.8.2 in its entirety and substitute in its place the following:

403.8.2 **Group I-2 occupancies.** Group I-2 occupancies to include Assisted Living Communities, Memory Care Units and Limited Care Facilities (Limited Healthcare) shall comply with Sections 401, 403.8.2.1 through 403.8.2.3 and 404 through 406.

(e) **Modifications to Chapter 5:**

1. Add a new section 501.5 to read as follows:

501.5 " Where buildings or facilities fall under the jurisdiction of the Georgia Safety Fire Commissioner as set forth in the Official Code of Georgia Annotated (O.C.G.A.), Title 25, Chapter 2, except for State owned facilities and State occupied facilities, it is intended that the provisions of Chapter 5 that primarily relate to fire department response, access to facilities, access to building interiors, key boxes, premises identification, fire department connection locations, and fire hydrant locations be administered by the local Fire Chief and/or Fire Code Official responsible for providing fire or other emergency response to the buildings or facilities. With regard to State owned State occupied facilities, that are not provided with a facility fire department, it is intended that the local Fire Chief and/or Fire Code Official providing fire protection to such facilities shall have input in the planning of facilities with regard to the noted provisions covered by Chapter 5."

2. Delete section 503.1.1 in its entirety and substitute in its place the following:

503.1.1 **"Buildings and facilities.** Approved fire apparatus access roads shall be provided for every facility, building or portion of a building hereafter constructed or moved into or within the jurisdiction as determined by the local Fire Chief and/or Fire Code Official of the responding fire department or agency. The fire apparatus access road shall comply with the requirements of this section and Appendix D of this *Code*. The fire apparatus access road shall extend to within 150 feet (45.7 m) of all portions of the facility or any portion of the exterior wall of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The local Fire Chief and/or Fire Code Official of the responding fire department or agency is authorized to increase the dimension of 150 feet (45.7 m) where:

1. *The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3.*
2. *The fire apparatus access roads cannot be installed because of location on the property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided.*
3. *There are not more than two Group R-3 or Group U occupancies."*

3. Add a new section 504.1.1 to read as follows:

504.1.1 **"Access Doors.** For fire department emergency access purposes, there shall be at least one access door in each 100 linear feet (30.5 m) or major fraction thereof of the exterior walls which face the access roadways required by Section 503, unless otherwise required in this code section. In exterior walls designed with continuous rolling dock doors, which face access roadways, there shall be at least one access door in each 200 linear feet (61 m) or fraction thereof. Required access doors shall be a minimum of 3 feet (0.9 m) wide and 6 feet 8 inches (2 m) high and shall be accessible without use of a ladder. Rolling doors are acceptable for such purposes in buildings protected throughout by an approved automatic sprinkler system(s) unless

otherwise approved for unsprinklered buildings by the local Fire Chief and /or Fire Code Official."

Exception: The local Fire Chief and / or Fire Code Official of the responding fire department or agency is authorized to increase the 100 linear feet.

4. Delete section 507.5.1 in its entirety and substitute in its place the following:

507.5.1 **"Where required.** Where a portion of the facility or building hereafter constructed or moved into or within the jurisdiction is more than 500 feet (152 m) from a hydrant on a fire apparatus access road, as measured by an approved route around the exterior of the facility or building, on-site fire hydrant and mains shall be provided where required by the local Fire Chief and/or Fire Code Official of the responding fire department or agency.

Exceptions:

1. *For group R-3 and Group U occupancies, the distance requirement shall be 600 feet (183 m).*
2. *For buildings equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1 or 903.3.1.2, the distance requirement shall be 600 feet (183 m)."*

5. Delete subsection 507.5.1.1 in its entirety without substitution. Refer to section 905 of this *Code*.

6. **Add a new section, Appendix D 107.1, as follows:**

Developments of one- or two-family dwellings where the number of dwelling units exceeds 120 shall be provided with two separate and approved fire apparatus access roads.

Exceptions:

1. Where there are more than 120 dwelling units on a single public or private fire apparatus access road and all dwelling units are equipped throughout with an approved automatic sprinkler system in

accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, access from two directions shall not be required.

2. The number of dwelling units on a single fire apparatus access road shall not be increased unless fire apparatus access roads will connect with future development, as determined by the fire code official.
3. The fire apparatus access roads cannot be installed because of location on the property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided. Plans shall accompany the written request that delineate improvements to proposed fire apparatus access roads approved by the fire code official of the local responding fire department. Recommended compliance alternatives for residential developments having less than the minimum of two entrances includes, but is not limited to one of more of the following alternative remedies:
 1. Enhanced turning radii to meet local responding fire department requirements; and/or
 2. Increased road widths to meet local responding fire department requirements; or
 3. Fire Lane signs per D103.6 in locations determined by the Fire Code Official; or
 4. The absence of dead-end streets and cul-de-sacs; and unless the requirements meet or exceed Table D103.4 for Fire Apparatus Access Roads; or
 5. The primary entrance roadway being a boulevard with medians and each lane meeting fire access road widths; or
 6. Single entrance roads providing a dedicated emergency lane separating each drive lane; or
 7. Additional fire apparatus access road which is permitted to be a roadway or approved surface not accessible to motor vehicles, designed by a registered design professional to meet the loading requirements and minimum specifications of Appendix D; and this surface provides all weather conditions capabilities for emergency fire department access; or

8. Statement by Fire Code Official that the Plans submitted meet the requirements of Exception 3 and/or Appendix D for access by local responding fire department

Pursuant to O.C.G.A. Title 25-2-12 (e)(4) the local fire official, building official, or developer may obtain a waiver when adequate access appropriate for the fire apparatus of the local responding fire department is not met or provided by using alternative methods on a waiver form designed and prescribed by the Safety Fire Commissioner. The State Fire Marshal or designated representative shall respond within 30 days for the decision for approval or disapproval or recommendations for modifications to the Plan. If the 30-day time frame is not met, the Plans submitted shall be deemed to be approved.

Add a new section, Appendix D 107.2, as follows:

Where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one-half of the length of the maximum overall diagonal dimension of the property or area to be served, measured in a straight line between accesses.

(f) Modifications to Chapter 6:

1. Add exception number 3 to 603.4 to read as follows:
 3. *In emergency conditions, when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufacturer's instructions and the authority having jurisdiction. Such devices shall be supervised during their period of operation by the establishment of a fire watch system based on the definition of "Fire Watch" in Chapter 2 of this Code. Persons assigned to perform fire watch duties shall be instructed as to their duties.*
2. Delete section 604.4 in its entirety and substitute in its place the following:

604.4 "Multiplug adapters & Relocatable Power Taps (RPTs).

604.4.1 **Multiplug adapters.** The use of multiplug electrical outlet adapters, such as but not limited to cube

adapters or plug strips, or any other similar device that is not UL listed and is not equipped with overcurrent protection shall be prohibited. Such devices that are UL listed and are equipped with overcurrent protection shall only be used in accordance with the UL listing and in accordance with the manufacturer's instructions. Such listed devices shall not be used where specifically prohibited by a provision of NFPA 70, *National Electrical Code*. Where there is any conflict between the UL listing and the manufacturer's instructions, the UL listing provisions shall prevail. The suitability for the use of RTP's shall be based, by the user, on 110.3(A)(1) of the *National Electrical Code*.

604.4.2 **Relocatable Power Taps (RPT's):**

604.4.2.1 Relocatable Power Taps (RPT's) shall be UL listed and labeled in accordance with UL1363. They shall be of the polarized or grounded type, and be equipped with overcurrent protection. RPT's shall be used in accordance with their UL listing and the manufacturer's instructions. [NEC, 110.3(B)] Where there is any conflict between the UL listing and the manufacturer's instructions, the UL listing provisions shall prevail. Such listed devices shall not be used where specifically prohibited by a provision of NFPA 70, *National Electrical Code*.

604.4.2.2 **RPT power supply.** RPT's shall be directly connected to a permanently installed electrical receptacle. An RPT shall not be plugged into another RPT or into an extension cord or flexible cord. A UL listed extension cord or flexible cord having only one outlet and serving only one device may be plugged into an RPT so long as the arrangement does not cause an overcurrent condition in the RPT.

604.4.2.3 **RPT power cords.** Power cords of RPT's shall not be extended through holes in walls, structural ceilings, or floors. Such cords shall not be run under doors or floor coverings. They shall not be run through doorways, windows, or similar openings.

604.4.2.4 **Protection from physical damage.** RPT's shall be mounted off floors to a wall or fixture so as to be protected against physical damage. The method of mounting shall not be permanent so that the devices may be easily relocated as need dictates.

604.4.2.5 **Restricted use in Health Care Occupancies.** "Hospital grade "RPT's listed, based on UL 1363A, for use in "patient care" or "patient sleeping rooms" of a hospital, limited care facility, nursing home, hospice, or ambulatory health care facility may be used in such locations, unless such use is specifically prohibited by this *Code*, NFPA 70, *National Electrical Code*, NFPA 101, *Life Safety Code*, NFPA 99, *Health Care Facilities Code*, or other applicable State or Federal rule or regulation."

3. Insert an Informational Note following section 604.4.2.4 to read as follows:

"Informational Note: Based on UL1363, RPT's are intended for indoor use as an extension of a grounding alternating-current branch circuit for general use. Where such devices are used or intended to be used for voltage surge suppression, the RPT is also required by UL1363 to meet the provisions of UL1449 for Transient Voltage Surge Suppressors. UL1363 incorporates this compliance. Such devices may be utilized for the protection of personal or laptop computers, computer related devices, word processors, memory typewriters, and other low load devices. They are not intended for use with high load equipment such as, but not limited to, refrigerators, coffee pots,

microwave ovens, toasters, toaster ovens, space heaters, and other high power load devices. The labeling and manufacturer's information and instructions need to be consulted to determine if the RPT is also listed for transient voltage suppression. In addition, some RPT devices have additional options included in the device such as "electrical noise" filtration. UL1363 would also require and ensure that component would meet UL1283. The safety requirements relative RPT's regardless of the various extras that may be included in a device covered by UL1363 and the RPT manufacturer's instructions. RPT's have also been referred to as "Temporary Power Taps (TPT's)", "power strips", "Surge/Spike Protectors", or "Portable Outlets" among other designations. NFPA 70, *National Electrical Code* (NEC), 2011 edition, does not utilize the term "Relocatable Power Tap or RPT, however, for safety provisions similar to those utilized by UL, reference can be made to NEC Article 400, Flexible Cords and Cables, Article 406, Receptacles, Cord Connectors, and Attachment Plugs (CAPS), and Article 517 Health Care Facilities."

4. Delete section 604.10 and the exception thereto, and substitute in its place the following: Sections 604.10.1 through 604.10.4 remain unchanged.

604.10 "Portable, electric space heaters. Portable, electric heaters are prohibited in all portions of occupancies in Groups A, E (including day care), I-1, I-3, R-1, R-2, and R-4. Where not prohibited by other chapters of this *Code*, or by provisions of NFPA 101, *Life Safety Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, portable, electrical space heaters shall be permitted to be used in all other occupancy groups. Where use is permitted, portable electric space heaters shall comply with Sections 604.10.1 through 604.10.5 and 604.10.6 where applicable."

5. Add a new section 604.10.6 to read as follows:

604.10.6 "Oil filled radiator type, portable electric space heaters that have a maximum surface temperature restriction of 250° F, may be permitted to be used in staff and employee areas that are located on floors not occupied by patient or staff sleeping areas and that are totally sprinkler protected in I-2 occupancies as defined in Chapter 2 of this *Code*. For single story I-2 occupancies, such devices may be used in staff and employee non-sleeping areas that are totally sprinkler protected and that are separated from staff and patient sleeping room areas by 1-hour fire rated construction. Such space heaters shall comply with 604.10.1 through 604.10.5."

6. Add a new 604.12 to read as follows:

604.12 **"Separation from Transformers.** Space separation for transformers shall be as follows:

- (1) Transformer pad locations shall be a minimum of 10 feet (3 m) from any building, building overhangs, canopies, exterior walls, balconies, exterior stairs and/or walkways connected to the building.
- (2) Transformer pad edges shall be not less than 14 feet (4.3 m) from any doorway.
- (3) Transformer pad edges shall be not less than 10 feet (3 m) from any window or other opening.
- (4) If the building has an overhang, the 10 foot (3 m) clearance shall be measured from a point below the edge of the overhang only if the building is three stories or less. If the building is four stories or more, the 10 foot (3 m) clearance shall be measured from the outside building wall.
- (5) Fire escapes, outside stairs, and covered walkways attached to or between buildings, shall be considered as part of the building.

604.12.1 Transformer pads may be located closer to noncombustible walls than the above required minimum clearances in 605.12(1) upon written approval of the authority having jurisdiction, however, in no case shall the transformer location be less than 3 feet (0.9 m) from the building.

604.12.2 Transformer pads existing prior to December 31, 1994, are exempted from the requirements of 605.11. When buildings are modified, reductions in space separations may be less than the above required minimum clearances upon written approval of the authority having jurisdiction."

7. Delete section 607 in its entirety and substitute in its place the following:

607.1 "General. Commercial kitchen exhaust hoods and residential cooking appliances in commercial and public buildings shall

comply with the requirements of NFPA 96, *Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations*, as adopted by this Chapter 120-3-3."

7. Delete section 609.2 in its entirety and substitute in its place the following:

607.2 **"Where required.** A commercial hood complying with NFPA 96, as adopted by this Chapter 120-3-3, shall be installed in any occupancy at or above all commercial cooking appliances, and domestic cooking appliances used for commercial purposes and which produce grease laden vapors.

607.2.1 The provisions of 607.2 shall not apply where provided for in the scoping provisions of subsection 1.1.4 of NFPA 96, as adopted by this Chapter 120-3-3."

8. Delete 607.3 in its entirety and substitute in its place the following:

607.3 **"Operations and maintenance.** Commercial cooking appliances, and domestic cooking appliances used for commercial purposes and which produce grease laden vapors, and all components of ventilation systems serving such appliances shall be installed, operated and maintained in accordance with the provisions of NFPA 96 as adopted by this Chapter 120-3-3."

(g) **Modifications to Chapter 7:**

1. Add a new 701.2.2 to read as follows:

701.2.2 **"Barrier Identification.** All fire and/or smoke barriers or walls shall be effectively and permanently identified with signs or stenciling above a decorative ceiling and/or in concealed spaces with letters a minimum of 2 inches (51 mm) high on a contrasting background spaced a maximum of 12 feet (3.7m) on center with a minimum of one per wall or barrier. The hourly rating shall be included on all rated barriers or walls. Suggested wording is, "() Hour Fire and Smoke Barrier-Protect All Openings."

(h) **Modifications to Chapter 8:**

1. Delete section 801.1 in its entirety and substitute in its place the following:

SECTION 801 "GENERAL,

801.1 Scope. The provisions of this *Code*, as adopted by this Chapter shall govern furniture, furnishings, decorative vegetation, and decorative materials, as defined in Chapter 2 of this *Code*, in buildings and structures. Section 803 shall be applicable to all existing buildings, structures, or spaces constructed and issued the required certificate of occupancy prior to the effective date of this Chapter 120-3-3. Sections 804 through 808 shall be applicable to such existing buildings, structures, and or spaces, and to proposed (new) buildings, structures, or spaces. For the purposes of this *Code*, wall padding, wall mounted gym pads, crash pads, or other pads mounted or secured to walls shall meet the provisions of this NFPA 101, *Life Safety Code* applicable to interior finish materials. Gym pads or other pads used on floors shall be considered as furnishings. Interior finish and trim in proposed (new) buildings shall be regulated by NFPA 101, *Life Safety Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(i) Modifications to Chapter 9:

1. Delete section 901.3 in its entirety and substitute in its place the following:

901.3 "**Approvals and Permits.** Fire protection systems shall be approved as set forth by the authority having jurisdiction. Local authorities having jurisdiction may require permits as required and set forth in 105.6 and 105.7 of this *Code*."
2. Delete section 901.4.1 in its entirety and substitute in its place the following:

901.4.1 "Required fire protection systems. Fire suppression systems required by this *Code*, the *International Building Code*, the *Life Safety Code*, or other codes and standards adopted by the Rules and Regulations of the Georgia Safety Fire Commissioner, shall be installed, operated, tested, repaired and maintained in accordance with this *Code* and applicable standards adopted by the Rules and Regulations of the Georgia Safety Fire Commissioner."
3. Delete section 901.4.2 in its entirety and substitute in its place the following:

901.4.2 "Provisions in excess of the minimum code requirements shall, as a minimum, be installed to meet the provisions of the currently adopted code(s) and/or standard(s) which may be applicable to the provision at the time of its installation. Any non-required fire protection system which is added onto, interconnected with, any required fire protection system (of a similar type), shall be designed, installed, and maintained in accordance with the provisions of the currently adopted code(s) and/or standard(s) which may be applicable to the provision at the time of its installation.

901.4.2.1 The provisions of 901.4.2 shall not apply to other installations not conforming with the provisions of the currently adopted code(s) and/or standard(s) applicable to the provision at the time of its installation if such installations are reported and filed with the local responding fire department and the authority having jurisdiction. In addition such systems shall be identified as required by the authority having jurisdiction.

901.4.2.2 The provisions of 901.4.2 shall not apply for non-required systems designed, reviewed, installed and approved in accordance with local codes and/or ordinances."

4. Delete section 903.2 in its entirety and substitute in its place the following:

903.2 **"Where required.**

- (a) Approved automatic sprinkler systems for proposed (new) buildings and structures approved for construction as set forth in 103.3.1 of this *Code*, or where specifically required for existing buildings and structures, shall as the minimum level of protection, be that required by the applicable provisions of NFPA 101, *Life Safety Code* and applicable provisions of other codes and standards adopted by Chapter 120-3-3 of the Rules and Regulations of the Georgia Safety Fire Commissioner, and this *Code* section; provided, however, the *International Building Code (IBC)* shall govern the requirements for sprinkler protection that are related to minimum building construction types, or to increases in building area and height limitations imposed

by the *IBC*." (Refer to **Table 102.13, CODES REFERENCE GUIDE**)

- (b) Where a new automatic sprinkler system is required by this *Code* or other code, standard, rule or regulation, the system shall be designed and installed in accordance with the requirements applicable to systems in proposed (new) buildings and structures.
- (c) In addition, an automatic sprinkler system may be required for new or existing buildings, structures, spaces, or conditions by other NFPA standards adopted by this Chapter 120-3-3, or other Rules and Regulations of the Safety Fire Commissioner.
- (d) The requirements for the installation, design, and testing of automatic sprinkler systems shall be as applicable, NFPA 13, *Standard for the Installation of Sprinkler Systems*, NFPA 13R, *Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Height*; and NFPA 13D, *Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes*, or as adopted and modified by this Chapter 120-3-3.

903.2.1 The sprinkler protection provision of 903.2 shall not be mandatory for spaces or areas in telecommunications buildings used exclusively for telecommunications equipment, associated electrical power distribution equipment, batteries and standby engines, provided those spaces or areas are equipped throughout with a supervised automatic fire alarm system, and are separated from the remainder of the building by fire barriers consisting of walls and floor/ceiling assemblies having a fire resistance rating of not less than 2-hours.

NOTE: NFPA 76, *Fire Protection of Telecommunications Facilities*, should be consulted. Refer to the edition adopted by this Chapter 120-3-3."

- 5. Delete section 903.3.7 of this *Code* in its entirety and substitute in its place the following:

903.3.7 **"Fire department connections.** The location of fire department connections shall be approved by the Fire Chief as set forth in subsection 501.5 of this *Code*, adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

6. Delete section 904.2.2 in its entirety and substitute in its place the following:

904.2.2 **"Commercial hood and duct systems.** Each required commercial kitchen exhaust hood and duct system required by Section 607 to have a commercial hood complying with NFPA 96, shall be protected with an approved automatic fire-extinguishing system installed in accordance with this *Code* and applicable provisions of NFPA 96."

7. Delete section 904.12 in its entirety and substitute in its place the following:
"904.12 Fire Protection for Commercial Cooking Operations.

904.12.1 The requirements for, as well as the design, installation, protection and maintenance of cooking equipment, shall be as required by NFPA 101, *Life Safety Code* and NFPA 96, Standard for the Ventilation Control and Fire Protection of Commercial Cooking Operations, as adopted by this Chapter 120-3-3." (Refer to **Table 102.13, CODES REFERENCE GUIDE**)

904.12.2 Fire suppression systems approved for the protection of commercial cooking appliances shall be designed, installed, and maintained in accordance with the applicable standards adopted in this Chapter.

904.12.3 Portable fire extinguishers for commercial cooking appliances. Portable fire extinguishers shall be installed in kitchens or other commercial cooking areas in accordance with NFPA 10 and NFPA 96, as adopted by this Chapter 120-3-3 of the Rules and Regulations of the Georgia Safety Fire Commissioner. Class K portable fire extinguishers and the required operation sequence signage required by NFPA 10, shall be located between 5 feet and 10 feet from the manual release device(s) of the kitchen exhaust hood fire suppression system(s)."

8. Delete section 905.1 in its entirety and substitute in its place the following:

905.1 **"General.** The State's minimum requirements for standpipe systems shall be as required by the *International Building Code*

(IBC) or This *Code*. Standpipe systems shall be designed, installed and tested in accordance with NFPA 14, *Standard for the Installation of Standpipe, and Hose Systems* as adopted by this Chapter 120-3-3. (Refer to **Table 102.13, CODE REFERENCE GUIDE**)"

9. Insert a new subsection 905.13 to read as follows:

905.13 **"Fire department connections.** The location of fire department connections shall be approved by the Fire Chief as set forth in subsection 501.5 of this *Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

10. Delete section 906.1 in its entirety and substitute in its place the following:

906.1 "Portable Fire Extinguishers - General. Portable fire extinguishers shall be installed in all buildings, structures and facilities falling under this *Code* and O.C.G.A. 25-2. For any other building, structure, facility, or condition or special hazard, portable fire extinguishers shall be provided as may be required by this *Code* in Table 906.1, or by various codes and standards adopted by this Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. (Refer to **Table 102.13, CODES REFERENCE GUIDE**)."

11. Delete section 906.2 in its entirety and substitute in its place the following:

906.2 **"General requirements.** The selection, distribution, installation, and maintenance of portable fire extinguishers shall comply with NFPA 10, *Standard for Portable Fire Extinguishers*, as adopted by this Chapter 120-3-3.

906.2.1 The maximum travel distance to reach an extinguisher shall not apply to the spectator seating portions of Group A-5 occupancies.

906.2.2 Thirty-day inspections shall not be required and maintenance shall be allowed to be once every three years for dry-chemical or halogenated agent portable fire extinguishers that are supervised by a listed and approved electronic monitoring device, provided that all of the following conditions are met:

- (a) Electronic monitoring shall confirm that extinguishers are properly positioned, properly charged and unobstructed.
- (b) Loss of power or circuit continuity to the electronic monitoring device shall initiate a trouble signal.
- (c) The extinguishers shall be installed inside of a building or cabinet in a noncorrosive environment.
- (d) Electronic monitoring devices and supervisory circuits shall be tested every three years when extinguisher maintenance is performed.
- (e) A written log of required hydrostatic test dates for extinguishers shall be maintained by the owner to ensure that hydrostatic tests are conducted at the frequency required by NFPA 10.

906.2.3 In Group E - Educational occupancies, in lieu of locating fire extinguishers in corridors and normal paths of travel as specified in NFPA 10, *Standard for Portable Fire Extinguishers*, fire extinguishers may be located in rooms that open directly onto such corridors and pathways provided all of the following are met:

- (a) The room in which such extinguishers are placed are located in close proximity to that portion of the corridor where a fire extinguisher would otherwise be placed in accordance with NFPA 10; *Standard for Portable Fire Extinguishers*,
- (b) A sign which states in white letters at least one inch in height on a red background, 'FIRE EXTINGUISHER LOCATED IN THIS ROOM,' is placed on the corridor wall immediately adjacent to the entrance way of

each such room so that it can be clearly seen at all times;

(c) The rooms in which such extinguishers are placed shall be constantly supervised during school hours; and,

(d) Those rooms cannot be subject to being locked at any time the building is occupied."

12. Delete sections 906.3 through 906.10 without substitution (Refer to NFPA 10).

13. Delete section 907.1 in its entirety and substitute in its place the following, while retaining existing subsections:

907.1 **"Fire Alarm Systems - General.**

(a) The State's minimum requirements for fire alarm systems in proposed (new) buildings and structures approved as set forth in 103.3.1 of this *Code* shall be as required by NFPA 101, *Life Safety Code*, as adopted by this Chapter 120-3-3. Fire alarm systems shall be designed, installed, tested, and maintained in accordance with NFPA 72, *National Fire Alarm and Signaling Code*, as adopted by this Chapter 120-3-3. (b) New fire alarm systems to be installed in existing buildings shall be designed, installed, and maintained in accordance with NFPA 72, as adopted by this Chapter 120-3-3. (Refer to **Table 102. 13 CODES REFERENCE GUIDE**)"

17. Delete sections 907.2 through 907.6.6.2 in their entirety and without substitution.

18. Delete section 909.1 in its entirety and substitute in its place the following:

909.1 **"Scope and purpose.** This section applies to mechanical or passive smoke control systems when they are required for proposed (new) buildings or portions thereof by provisions of the *Life Safety Code* (LSC) or this *Code*, as adopted by this Chapter 120-3-3, or by provisions of the *International Building Code* (IBC), as adopted by the Department of Community Affairs. The

purpose of this section is to establish minimum requirements for the design, installation, and acceptance testing of smoke control systems that are intended to provide a tenable environment for the evacuation or relocation of occupants. These provisions are not intended for the preservation of contents, the timely restoration of operations, or for assistance in fire suppression or overhaul activities. Smoke control systems regulated by this section serve a different purpose than the smoke and heat venting provisions found in Section 910. Mechanical smoke control systems shall not be considered exhaust systems under Chapter 5 of the *International Mechanical Code (IMC)*."

19. Delete section 909.2 in its entirety and substitute in its place the following:

909.2 **"General design requirements.** Buildings, structures, or portions thereof required by provisions of the *Life Safety Code* (LSC) or this *Code*, as adopted by this Chapter, or by provisions of the *International Building Code*, as adopted by the Department of Community Affairs, to have a smoke control system or systems shall have such systems designed in accordance with the applicable requirements of Section 909 of this *Code* and the generally accepted and well established principles of engineering relevant to the design. The construction documents shall include sufficient information and detail to describe adequately the elements of the design necessary for the proper implementation of the smoke control systems. These documents shall be accompanied with sufficient information and analysis to demonstrate compliance with these provisions."

20. Add a new section 909.2.1 to read as follows:

909.2.1 "Smoke Control. For the purposes of 909.2 the following publications shall be considered as providing the generally accepted and well established principals of engineering relevant to design of required smoke control systems.

- (1) NFPA 92, *Standard for Smoke Control Systems*
- (2) NFPA SPP-53, *Smoke Control in Fire Safety Design*
- (3) ASHRAE/SFPE, *Design of Smoke Management Systems*
- (4) ASHRAE, Guideline 5: *Guideline for Commissioning Smoke Management Systems*"

- (5) NFPA 101, *Life Safety Code* (For non-mandatory guidance involving systems for existing detention and correction facilities refer to A.23.3.1.3 of the 2012 Edition)

21. Add a new section 909.2.1 to read as follows:

909.2.1 **"Deactivation of Mechanical Pressurization Systems.** The design of pressurization systems shall ensure that smoke is not introduced into the pressurized enclosure so as to result in the untenable contamination of the fresh air. Approved smoke detectors shall be installed at each intake in such approved manner that the operation of the fan providing mechanical pressurization to the enclosure where smoke is detected shall be deactivated upon detection of smoke."

22. Add a new subsection 912.2.3 to read as follows:

912.2.3 **"Location of fire department connections.** The location of fire department connections for automatic sprinkler systems shall be as approved by the Fire Chief as set forth in accordance with Section 912 and Section 501.5 of this *Code*, as adopted by 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

23. Add a new section 914.7.3 to read as follows:

914.7.3 **"Limited Use Special Amusement Buildings:** Special amusement buildings not open to the public in excess of 45 days in a twelve month period shall be permitted, provided all of the following conditions are met:

1. Portable fire extinguishers with a minimum of a 2A:10B:C rating are placed within 25 feet of each activity or viewing station, so as to be readily accessible and visible to staff;
2. A smoke detection system is placed throughout the facility with a smoke detector located at each activity or viewing station and located throughout corridors and halls not to exceed a spacing more than 15 feet (4.6 m) from a wall or more than 30 feet (9.1 m) on center. Where there is no ceiling or cover over activity or

viewing stations, or over exit access routes, other than the standard ceiling, smoke detectors shall be placed so that their area of coverage does not exceed the approval listing of the detectors;

3. Emergency lighting shall be provided which will cause illumination of the means of egress upon loss of power to lighting circuits for the means of egress routes serving the special amusement building. In addition, all staff shall be provided with flashlights;
4. Personnel dedicated for the sole purpose of performing fire watch duties as defined in Chapter 2 of the *International Fire Code* and as be deemed necessary for specific circumstances by the authority having jurisdiction, shall be provided in such numbers to ensure the entire special amusement space is surveyed at least every 30 minutes starting 30 minutes prior to public occupancy. Such personnel shall be provided with a direct communication device for communication with all viewing or activity stations throughout the facility. In addition such personnel shall be provided with appropriate training for the operation of portable fire extinguishing equipment;
5. Communication to the responding fire department or emergency dispatch center is available from the facility (a regular telephone or at least two cell phones are acceptable);
6. "NO SMOKING" signs shall be posted at entrances to the building. Receptacles for the discard of smoking material shall be located a minimum of 15 feet (9.1 m) from the structure and shall be clearly identified by applicable signage;
7. Documentation of fire watch tours required by item 4 above is maintained. The documentation, at the minimum, shall note the time when the tour was conducted the name of personnel conducting the tour, and information about any hazards identified and actions taken to remove such hazards. Such documentation shall be readily available to the code official upon request."

(j) **Modifications to Chapter 10:**

1. Delete sections 1001 through 1030 in their entirety and substitute in their place the following:

1001.1 **"General.**

- (A) Proposed (new) buildings or portions thereof approved for construction as set forth in 103.3 of this *Code*, shall be provided with means of egress and related safeguards as set forth by NFPA 101, *Life Safety Code*, as adopted this Chapter. (Refer to **Table 102.13, CODES REFERENCE GUIDE**)
- (B) Buildings and structures existing and approved prior the effective date of this Chapter 120-3-3, as set forth in 103.3 of this *Code*, having means of egress and related safeguards conforming to NFPA 101, *Life Safety Code*, under which they were approved and constructed shall be considered as complying with this *Code*. Means of egress and related safeguards in existing buildings constructed without approval, may be considered as complying with this code section if, in the judgment of the authority having jurisdiction, they do not constitute a distinct hazard to life. Where, in the judgment of the authority having jurisdiction, the means of egress or related safeguards provided constitute a distinct hazard to life, the hazardous condition or conditions shall be remedied based on the provisions for existing buildings of the *Life Safety Code* as adopted by this Chapter 120-3-3.
- (C) Exit discharge termination dispersal areas may be utilized where authorized and designed in accordance with 7.7.1.5 of the *Life Safety Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

2. Add the following section 1001.2 to read as follows:

1001.2 **"Overcrowding and Life Safety Hazard Prevention.**

Overcrowding or admittance of any person beyond the approved capacity of a building or a portion thereof shall not be allowed. It is the responsibility of the manager and the person in charge of a building, structure, or portion thereof not to allow an overcrowded condition or any condition which constitutes a life safety hazard to exist, and to take prompt action to remedy an

overcrowded condition or life safety hazard when evidence of such a condition is noted, or when advised or ordered by the Fire Code Official or his/her representative. (Refer to 107.6)

1001.2.1 **Decreases in the Occupant Load.** For authorized decreases in the occupant load approved by the fire code authority having jurisdiction, the actual number of occupants for whom each occupied space, floor or building is designed, although less than those determined by calculation, shall be permitted to be used in the determination of the design occupant load.

1001.2.2 **Increases in the Occupant Load.** For approved increases in the occupant load by the fire code authority having jurisdiction, refer to 7.3.1.5 of Subsection 7.3.1 of NFPA 101, *Life Safety Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.

1001.2.3 **Overcrowded Condition or Life Safety Hazard Determined.** The fire code official, upon finding any overcrowded conditions or obstructions in aisles, passageways or other means of egress, or upon finding any condition which constitutes a life safety hazard, shall be authorized to cause the event to be stopped until such condition or obstruction is corrected. In addition, a structure, building, room or designated portion thereof shall be deemed overcrowded if the total of occupants exceeds the exit capacity of the structure, building, room or area involved."

(k) **Modifications to Chapter 11:**

1. Delete 1101.1 and substitute in its place the following:

1101.1 **"Scope.** The provisions of this chapter shall apply to existing buildings constructed prior to the effective date of this Chapter 120-3-3.

2. Delete 1101.2 and substitute in its place the following:

1101.2 **"Intent.** The intent of this chapter is to provide a minimum degree of fire and life safety to persons occupying buildings by providing for existing building rehabilitation activities including repair, renovation, modification, reconstruction, change of use or occupancy classification, and additions to such buildings.

3. Delete 1101.3 and substitute in its place the following:

1101.3 **"Permits.** Construction permits for buildings falling under State jurisdiction, as set forth in O.C.G.A. 25-2.13, shall be required for the activities noted in 4601.1 when the criteria of O.C.G.A. [25-2-14\(d\)](#) for an existing building to be classified as a proposed (new) building or structure are met. For local jurisdictions, permits shall be required as set forth in Section 105.7 of this *Code* and the *International Building Code*.

4. Delete Sections 1102 through 1104 and substitute in their place a new 1102 to read as follows:

SECTION 1102 **"FIRE AND LIFE SAFETY REQUIREMENTS FOR EXISTING BUILDINGS AND STRUCTURES"**

1102.1 **"General.** The intents and purposes of this section shall be met through the application of the applicable provisions of this *Code*, the *Life Safety Code*, and other codes and standards as adopted by Chapter 120-3-3 of the Rules and Regulations of the Georgia Safety Fire Commissioner, as they apply to existing conditions and routine maintenance of fire and life safety protection systems and devices. For building rehabilitation activities, including repair, renovation, modification, reconstruction, change of use or occupancy classification, and additions to such buildings, the definitions and requirements of Chapter 43, of the *Life Safety Code*, adopted by Chapter 120-3-3 of the Rules and Regulations of the Georgia Safety Fire Commissioner shall apply."

(l) **Modifications to Chapter 20:**

1. Delete section 2003.5 in its entirety and substitute in its place the following:

2003.5 "Dispensing of flammable and combustible liquids. No dispensing, transfer or storage of flammable or combustible liquids shall be permitted inside any building or structure.

Exceptions:

1. *As provided in Chapter 57 of this Code, provided, the provisions are not less protective than the provisions of any applicable Codes and standards adopted by the Rules and Regulations of the Safety Fire Commissioner.*
 2. *When the procedures used follow the guidelines and requirements set forth in NFPA 410 - Standard for Aircraft Maintenance, adopted by this Chapter 120-3-3."*
2. Delete sections 2006.1 through 2006.21.1 in their entirety and substitute in their place a new paragraph 2006.1 to read as follows:

2006.1 "Aircraft motor vehicle fuel-dispensing stations and Airport Fuel Systems. All aircraft motor vehicle fuel-dispensing stations and airport fuel systems shall be in accordance with Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids.'"
 3. Delete section 2007.1 in its entirety and substitute in its place the following:

2007.1 "**General.** Helistops and heliports shall be maintained in accordance with Section 2007. Helistops and heliports on buildings or structures shall be constructed in accordance with the *International Building Code* and the requirements set forth by NFPA 418, Standard for Heliports, adopted by this Chapter 120-3-3."

(m) **Modification to Chapter 23.**

1. Delete sections 2301.1 through 2301.6 in their entirety and substitute in their place a new paragraph 2301.1 to read as follows:

2301.1 "**Scope.** Automotive motor fuel-dispensing facilities, marine motor fuel dispensing facilities, fleet vehicle motor fuel-dispensing facilities and repair garages shall be in accordance with Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids'."

Exception: This chapter shall apply to hydrogen motor fuel-dispensing and generation facilities as specified in section 2309 and repair garages where referenced by subsection 406.6, entitled, 'Repair Garages,' of the International Building Code.

2. Delete sections 2303 through 2308 and all other paragraphs there-under, and section 2310 and all other paragraphs thereunder in their entirety without substitution.

(n) Modification to Chapter 31:

1. Delete 3106.5.2 in its entirety and substitute in its place the following:
3106.5.2 "Cooking Operations. Cooking operations shall be evaluated and comply with NFPA 96, *Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(o) Modification to Chapter 50:

1. Add two new exceptions 12 and 13 to section 5001.1 to read as follows:
 12. "Storage, transportation, use, dispensing, mixing and handling of Flammable and combustible liquids as outlined in Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, "Rules and Regulations for Flammable and Combustible Liquids.
 13. Storage, handling, and transportation of liquefied petroleum gas (LP-Gas) and the installation of LP-gas equipment pertinent to systems for such use as outlined Chapter 120-3-16 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Liquefied Petroleum Gases."
2. In Table 5003.11.1, add superscript "k" to Oxidizers in the Material column and add the following footnote "k" to read as follows:
 - k. "Group M occupancies with Class 2 and Class 3 oxidizers exceeding these quantities shall comply with the applicable provisions of NFPA 400, *Hazardous Materials Code* as adopted by this Chapter 120-3-3."

(p) Modifications to Chapter 56:

2. Delete sections 5601 through 5607 and all related paragraphs there under in their entirety and substitute in their place the following:

5601. **"Explosives and blasting.** The provisions of Chapter 120-3-10 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Explosives and Blasting Agents' shall govern the possession, manufacture, storage, handling, sale and use of explosives, explosive materials and small arms ammunitions."

3. Delete section 5608.1 in its entirety and substitute in its place the following:

5608.1 "GENERAL PROVISIONS. In addition to the requirements of this Section for the display of fireworks the provisions of O.C.G.A. Title 25, Chapter 2, and Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, shall apply. Where there may be a conflict between a provision of this Section and a provision of the above referenced law or regulation, the provision of the above referenced law or regulation shall apply. Nothing in this chapter shall be construed to prohibit the use of fireworks by railroads or other transportation agencies for the signal purposes or illumination, or the sale or use of blank cartridges for a show or theater, or for signal or ceremonial purposes in athletics or sports or for the use by military organizations."

2. Insert a new section 5608.11 to read as follows:

5608.11 "Retail display and sale. (a) Fireworks as defined in the Official Code of Georgia (O.C.G.A.) Title 25, Chapter 10 in 25-10-1(a)(1) shall not be made available for sale at retail or wholesale, except as provided in O.C.G.A. 25-10. (b) Non-explosive sparkling devices as defined in O.C.G.A. [25-10-1\(b\)](#) are permitted for retail sales to the public, provided, however, it is unlawful for any such devices to be sold to any person under 18 years of age (O.C.G.A. [25-10-2\(b\)\(1\)](#)). In addition, it is unlawful to sell such items to any person by any means other than an in-person, face-to-face sale. Further, such person shall provide proper identification to the seller at the time of such purchase. The term 'proper identification' means any document issued by a governmental agency containing a description of the person, such person's photograph, or both, and giving such person's date of birth and includes without being limited to, a passport, military identification card, driver's license, or an identification card authorized under O.C.G.A. Sections [40-5-](#)

[100](#) through [40-5-104](#). (c) In areas where devices are stored or displayed for retail sales, at least one pressurized-water type portable fire extinguisher complying with NFPA 10, as adopted by this Chapter shall be located not more than 20 feet and not closer than 15 feet from the storage or display location. In addition, "NO SMOKING" signs complying with Section 310 shall be conspicuously posted in areas of such storage or display, unless in a building where smoking is clearly marked as prohibited."

(q) Modification to Chapter 57:

1. Add a new non-applicability paragraph number 12 to section 5701.2 to read as follows:
 12. " The storage, transportation, use, dispensing, mixing and handling of Flammable and Combustible Liquids as outlined in Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids.'"

(r) Modifications to Chapter 61:

1. Delete Chapter 61 in its entirety and substitute in its place the following:

"CHAPTER 61 LIQUEFIED PETROLEUM GASES. The provisions relating to the storage and handling of liquefied petroleum gases shall be those in NFPA 58, *Liquefied Petroleum Gas Code*, as adopted by Chapter 120-3-16, Rules and Regulations of the Safety Fire Commissioner. (Refer to **Table 102.13, CODES REFERENCE GUIDE**)"

(s) Modifications to Chapter 80:

1. Add an Explanatory Note at the start of the Chapter to read:

"Replace the NFPA Standard Reference numbers with the year edition with the same NFPA Standard Reference numbers and titles however; each year edition shall be those as adopted by the Rules and Regulations of the Georgia Safety Fire Commissioner Chapters 102-3-3, 120-3-10, 120-3-11 and 120-3-12."

(4) NFPA 2, 2020 Edition Hydrogen Technologies Code

Modifications: None

(5) **NFPA 3, 2018 Edition, *Guide for the Commissioning and Integrated Testing of Fire Protection and Life Safety Systems Modifications*:**

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.3 to read as follows:

1.1.3 "This document is recognized strictly as a recommended practice for fire prevention and fire protection. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, and it is not adopted as a minimum state code or standard. It may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards, or it may be adopted and enforced by a local jurisdiction under local ordinance."

(6) **NFPA 10, 2018 Edition, *Standard for Portable Fire Extinguishers***

Modifications:

(a) **Modification to Chapter 6:**

1. Delete 6.1.3.8.1 in its entirety and insert in its place the following (6.1.3.8.2 and 6.1.3.8.3 remain unchanged:

6.1.3.8.1 "Portable fire extinguishers having a gross weight not exceeding 40 lb. (18.14 kg) shall be installed so that the top of the extinguisher is not more than 48 in (1.19 m) above the floor."

2. Delete 6.1.3.10.5 in its entirety and substitute in its place the following:

6.1.3.10.5 Cabinets or wall recesses for fire extinguishers shall be installed that the top of the opening for the fire extinguisher is at 50 in. (1.27 m) above the finished floor.

6.1.3.10.5.1 The provisions of 6.1.3.10.5 shall not apply to existing installations.

(b) **Modifications to Chapter 7:**

1. Delete 7.1.2.1* in its entirety and insert in its place the following:

7.1.2.1 " Persons performing maintenance and recharging of extinguishers shall be licensed and/or permitted in accordance

with Chapter 12 of Title 25 of the Official Code of Georgia Annotated."

2. Delete subparagraphs 7.1.2.1.1 thru 7.1.2.1.5 in their entirety without substitution.
3. Delete subparagraph 7.1.2.3 in its entirety without substitution.
4. Delete subsection 7.3.4.1.1 in its entirety and substitute in its place the following:
 - 7.3.4.1.1 "Tags shall comply the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."
5. Delete subsection 7.3.4.2 in its entirety and substitute in its place the following:
 - 7.3.4.2 "**Verification-of-Service Collar (Maintenance or Recharging)**. Verification-of-Service Collars shall comply with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."
6. Delete subsection 7.3.6.5.3 in its entirety and substitute in its place the following:
 - 7.3.6.5.3 "The 6 year Maintenance internal examination label shall be blue in color and shall comply with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."
7. Delete subsection 7.11.3 in its entirety and substitute in its place the following:
 - 7.11.3 "Verification-of-Service Collars shall comply with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."

(c) **Modifications to Chapter 8:**

1. Delete subsection 8.1.2.1 in its entirety and substitute in its place the following:
 - 8.1.2.1 "Hydrostatic testing shall be performed by persons who are, licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated, trained in pressure

testing procedures and safeguards complying with 7.1.2, who have testing equipment, facilities, and an appropriate manufacturer's service manual(s) available."

2. Delete subsection 8.1.2.1.2 in its entirety without substitution.
3. Delete subsection 8.1.2.1.3 in its entirety and substitute in its place the following:
 - 8.1.2.1.3 "* Where hydrostatic testing is subcontracted to a facility described in 8.1.2.1.1, the secondary firm actually performing the hydro testing must be listed on the primary firms license(s) application on file in the Georgia State Fire Marshal's Office."
4. Delete subsection 8.7.2.2 in its entirety and substitute in its place the following:
 - 8.7.2.2 "The label shall comply with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."

(7) **NFPA 11, 2016 Edition, Standard for Low-, Medium-, and High-Expansion Foam**

Modifications: None

(8) **NFPA 12, 2018 Edition, Standard on Carbon Dioxide Extinguishing Systems**

Modifications: None

(9) **NFPA 12A, 2018 Edition, Standard on Halon 1301 Fire Extinguishing Systems**

Modifications: None

(10) **NFPA 13, 2019 Edition, Standard for the Installation of Sprinkler Systems**

Modifications:

(a) **Modification to Chapter 4:**

1. Add a new Section 4.2.1 to read as follows:
 - 4.2.1.1 "**Modification of Existing Sprinkler Systems.** In existing sprinkler systems, heads may be relocated from original

installation locations. All alterations or modifications to existing branch lines shall be submitted with hydraulic calculations if work is outside of scope of subsections 4.4.1 through 4.4.4. New hydraulic data nameplate shall be placed on any modified system at the riser or sectional valve along with the existing hydraulic data nameplate.

- 4.2.1.2 One additional sprinkler may be added to an original installation location if the additional sprinkler is in a remotely located or non-communicating compartment from the existing or relocated sprinkler.
- 4.2.1.3 Two sprinklers may be added to an existing branch line if the additional sprinklers are in remotely located or non-communicating compartments from the existing or relocated sprinkler.
- 4.2.1.4 New branch lines added to existing cross mains shall be sized the same as the existing branch lines.
- 4.2.1.5 No more than two heads shall be supplied from 1 inch (25.4 mm) pipe unless the existing system was calculated to supply more than two heads. In such case, the calculated maximum for 1 inch (25.4 mm) pipe shall take precedence."

(b) Modification to Chapter 5:

1. Add a new paragraph 5.2.2.3 to read as follows:

5.2.2.3 "A water test taken to determine the period of highest demand and made not more than six months prior to plan submittal shall be submitted to the authority having jurisdiction with all new system designs."

(c) Modification to Chapter 9:

1. Delete the Annex note A.9.3.5.1 to 9.3.5.1* and insert a revised A.9.3.5.1 to read follows: "A.9.3.5.1 It is the intent of this section to apply the requirement for draft stops and closely spaced sprinklers to openings in fire rated floor/ceiling assemblies. It is not the intent of this section to require draft stops and closely spaced sprinklers to the perimeter around mezzanines, raised platforms, lofts or other places where stairs or escalators ascend to a floor or landing that is open to the space below.

2. Insert a new 9.3.5.2.1 to read as follows:

9.3.5.2.1 "Draft stops required by Section 8.15.4.1 shall not be required in Light and Ordinary Hazard Occupancies utilizing quick response sprinklers throughout."

(d) **Modification to Chapter 16:**

1.) Delete paragraph 16.12.5.7 in its entirety and substitute in its place the following. The annex note shall remain.

16.12.5.7 **"FDC Locations.** The location of fire department connections shall be approved by the Fire Chief as set forth in subsections 501.5 and 912 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. Where there may be conflict between subsection 501 or 912 of the *IFC* and section 8.17.2 of this *Code*, the provisions of 501 and 912 of the *IFC* shall prevail."

(e) **Modification to Chapter 27:**

1. Add a new 27.1.2.1 to read as follows:

27.1.2.1 "Where plan review notes returned with submitted plans or comments on submitted plans by the authority having jurisdiction (AHJ), indicating the need for corrections, such corrections shall be made by the Fire Protection Sprinkler Designer. Only after the needed corrections are made and shown on corrected plans shall changes by installation personnel be allowed. Corrected plans shall be kept at the project site and shall be firmly attached to the set of plans stamped as approved with comments by the AHJ. Submitted plans returned without the approval stamp of the AHJ shall have corrections made and be resubmitted to the AHJ for review and approval. The installation of a system shall not be allowed where plans have been returned without an approval stamp until corrected plans have been submitted, reviewed, and stamped as approved by the AHJ."

2. Add new items (48) through (51) to subsection 27.1.3 to read as follows:

- (48) "Type of construction, (i.e., obstructed or unobstructed as defined in Section 3.7), and the distance between the sprinkler deflector and the structure in exposed structure areas.
- (49) Indicate the system is a NFPA 13 designed system.
- (50) Owner's Certificate, provided in accordance with Section 4.2.
- (51) Name, number and signature of the Certificate of Competency holder & Designer."

3. Add a new subsection 27.2.4.11.2.1 to read as follows:

27.2.4.11.2.1 "There shall be a minimum 10 psi (0.69 bar) cushion between the hydraulically calculated sprinkler system demand and supply when there is a backflow prevention device present.

27.2.4.11.2.1.1 The 10 psi (0.69 bar) cushion may be lowered to not less than 7 psi with written approval of the authority having jurisdiction based on the capability of the fire department to provide support to the system within 10 minutes of the receipt of notification of the alarm of fire in the building."

4. Add a new subparagraph 27.2.4.11.3 to read as follows:

27.2.4.11.3 "There shall be a minimum 15 psi (1.03 bar) cushion between the hydraulically calculated sprinkler system demand and supply in systems that do not have a backflow prevention device.

27.2.4.11.3.1 The 15 psi (1.05 bar) cushion may be lowered to not less than 7 psi with approval of the authority having jurisdiction based on the capability of the fire department to provide support to the system within 10 minutes of the receipt of notification of the alarm of fire in the building."

(i) **Modification to Chapter 28:**

1. Add a new item (5) to 28.1 to read as follows:

(5) "Attach an initial "**GREEN**" inspection tag to the sprinkler system riser.

(a) After installation, acceptance testing, and inspection, at the time the system is initially accepted as being in a state of operational readiness, an Inspection Tag shall be completed and attached to the system at a conspicuous location so as to permit convenient inspection, and not hamper system activation.

(b) Inspection Tags must be **GREEN** in color and have a minimum dimension of 5¼ inches (133 mm) in length and 2 inches (67 mm) in width.

(c) Inspection tags shall bear at least the following information in an easy to read format:

1. "**DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL.**" This order shall be in a minimum of 10pt capital letters.
2. The license number, name, and physical address of the licensed Fire Sprinkler Contractor.
3. The license number, printed name, and signature of the licensed Fire Sprinkler Inspector.
4. The properly punched day, month and year the system was inspected and placed in a state of operational readiness.
5. The name and physical address, including tenant space designation, as applicable of the facility."

2. Add a new Section 28.7 Document Accessibility.

28.7.1 With every new system, a documentation cabinet shall be installed in the system riser room or at another approved location at the protected premises.

28.7.2 The documentation cabinet shall be sized so that it can contain all necessary documentation.

- 28.7.3 Required minimum documentation shall include copies of Approved Hydraulic calculations, Approved Plans, Above and Below ground contractors test, and Inventory of sprinkler heads.
- 28.7.4 Where the documentation cabinet is not in the sprinkler riser room, its location shall be identified at the system control valve.
- 28.7.5 The documentation cabinet shall be prominently labeled **SPRINKLER SYSTEM DOCUMENTS**.
- 28.7.6 The contents of the cabinet shall be accessible by authorized personnel only.

(11) **NFPA 13D, 2019 Edition, *Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes***

Modifications: None

(12) **NFPA 13R, 2019 Edition, *Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Height***

Modifications:

(a) Modification to Chapter 1:

Delete Section 1.1 in its entirety and substitute in its place the following.
Subsection 1.1.1 and 1.1.2 shall remain.

1.1 **"Scope.** This standard deals with the design and installation of automatic sprinkler systems for protection against fire hazards in residential occupancies, personal care homes, day-care centers and group day-care homes, up to and including four stories in height. When a single-story open-air parking structure of fire-restrictive construction having a rating greater than 2-hours is below a four-story residential occupancy, the structure is considered within this scope."

1. Delete Section 1.2 in its entirety and substitute in its place the following:

1.2 **"Purpose.** The purpose of this standard is to provide design and installation requirements for a sprinkler system to aid in the detection and control of fires in residential occupancies, day-care centers, group day-

care homes, and personal care homes, and thus provide improved protection against injury, loss of life, and property damage. A sprinkler system designed and installed in accordance with this standard is expected to prevent flashover (total involvement) in the room of fire origin, where sprinklered, and to improve the chance for occupants to escape or be evacuated. This standard shall not be applied to "new assisted living communities" or new "memory care units" as defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, and as regulated by Chapter 34 or 35, as applicable, of the *Life Safety Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(b) **Modification to Chapter 3:**

1. Delete subsection 3.3.10 in its entirety and substitute in its place the following:
 - 3.3.10 **"Residential Occupancies.** Residential Occupancies, as specified in the scope of this standard and for the purposes of this standard, include the following, as defined by State law, or by the Rules and Regulations of the Georgia Safety Fire Commissioner: (1) Apartment buildings, (2) Lodging and rooming houses, (3) Board and care facilities, (4) Hotels, motels, and dormitories, (5) Personal care homes (prompt and slow evacuation type only), (6) Day-care centers and group day-care homes."
2. Add a new paragraph 3.3.9.1 to read as follows:
 - 3.3.10.1 "Day-care Center - For purposes of NFPA 13R, a day-care facility subject to licensure or commission by the Department of Human Resources where more than 12 clients receive care. A day-care center is within the definition of a dwelling unit."
3. Add a new paragraph 3.3.10.2 to read as follows:
 - 3.3.10.2 **"Group Day-care Home** - For purposes of NFPA 13R, a day-care facility subject to licensure or commission by the Department of Human Resources where at least seven but not more than 12 clients receive care. A group day-care home is within the definition of a dwelling unit."
4. Add a new paragraph 3.3.10.3 to read as follows:

3.3.10.3 "**Dwelling** - For purposes of NFPA 13R, any building which contains not more than one or two 'dwelling units' intended to be used, rented, leased, hired out to be occupied for habitation purposes, or for use as a day-care center, a group day-care home, or as a personal care home or community living arrangement."

5. Add a new paragraph 3.3.10.4 to read as follows:

3.3.10.4 "**Outside Dwelling Unit** - Any area such as, but not limited to, storage, mechanical and equipment rooms and/or other area(s) that, in the opinion of the authority having jurisdiction, constitutes a fire hazard in excess of the hazards normally found within the dwelling unit."

6. Add a new paragraph 3.3.10.5 to read as follows:

3.3.10.5 "**Personal Care Home** - For the purposes of NFPA 13R, any building or part thereof that is used as defined in Chapter 120-3-3 in [120-3-3-.03\(11\)](#) of the Rules and Regulations of the Safety Fire Commissioner."

(c) **Modification to Chapter 4:**

1. Add a new Section 4.6 to read as follows:

4.6 "**Minimum Pipe Sizes.** Minimum pipe sizes shall be $\frac{3}{4}$ inch (19.1 mm) for copper and 1-inch (25.4 mm) for steel. For other approved pipe or tubing used, a minimum size of $\frac{3}{4}$ inch (19.1 mm) for those with a Hazen-Williams 'C' value of 150 or more and 1 inch (19.1 mm) for those less than 150."

(d) **Modification to Chapter 6:**

1. Delete paragraph 6.6.1 in its entirety and substitute in its place the following:

6.6.1 "Sprinklers shall be installed in all areas except where omission is permitted by 6.6.2 through 6.6.9 excluding day-care facilities. Sprinklers shall be installed in all areas of day-care facilities except where omission is permitted by 6.6.4 and 6.6.5."

2. Add a new paragraph 6.8.11 to read as follows:

6.8.11 "A non-multipurpose piping system shall be isolated from the domestic water system by not less than two spring-loaded check valves or equivalent."

3. Add a new paragraph 6.8.12 to read as follows:

6.8.12 "All valves controlling water supplies for sprinkler systems or portions thereof, including floor control valves, shall be easily accessible to authorized persons. Water supply connections shall not extend into or through a building unless such connection is under control of an outside listed indicating valve or an inside listed indicating valve located near an outside wall of the building."

(e) Modification to Chapter 9:

1. Delete subsection 9.6.2.1 in its entirety and substitute in its place the following:

"Where a waterflow test is used for the purpose of system design, the test shall be conducted no more than 6 months prior to working plan submittal unless otherwise approved by the authority having jurisdiction."

2. Add a new subsection 9.7.2.1 to read as follows:

9.7.2.1 "A fire pump not meeting NFPA 20, *Standard for the Installation of Stationary Pumps for Fire Protection*, may be acceptable for small community living arrangements, day-care centers, day-care homes, and small personal care homes based upon documentation and subject to written approval of the authority having jurisdiction."

(f) Modification to Chapter 10:

1. Add a new subsection 10.1.5 to read as follows:

10.1.5 " Upon completion of the acceptance test as set forth in this section, the installer shall attach an initial "**GREEN**" inspection tag to the sprinkler system riser.

(a) After installation, testing, and inspection, at the time the system is initially accepted as being in a state of operational readiness, an Inspection Tag shall be completed and attached to the system at a conspicuous

location so as to permit convenient inspection, and not hamper system activation.

- (b) Inspection Tags must be GREEN in color and have a minimum dimension of 5¼ inches (133 mm) in length and 2 inches (67 mm) in width.
- (c) Inspection tags shall bear at least the following information in an easy to read format:
 - (1) **"DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL."** This order shall be in a minimum of 10pt capital letters.
 - (2) The license number, name, and physical address of the licensed Fire Sprinkler Contractor.
 - (3) The license number, printed name, and signature of the licensed Fire Sprinkler Inspector.
 - (4) The properly punched day, month and year the system was inspected and placed in a state of operational readiness.
 - (5) The name and physical address (including tenant space as applicable) of the facility."

(13) **NFPA 14, 2019 Edition, *Standard for the Installation of Standpipe, and Hose Systems***

Modifications:

(a) **Modifications to Chapter 1:**

1. Delete Section 1-1 in its entirety and substitute in its place the following:

1-1 **"Scope.** The State's minimum requirements for standpipes shall be established by the *IBC* (Refer to **Table 102.13, CODES REFERENCE GUIDE**) of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner). In addition, the requirements for occupant hoses are eliminated for new and existing buildings subject to the approval of the authority having jurisdiction. Where the installation of standpipes and /or hose systems is required, this

standard covers the minimum requirements for the installation of standpipes and hose systems for buildings and structures. This standard does not cover requirements for periodic inspection, testing, and maintenance of standpipe systems. (See NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*.)"

(b) Modification to Chapter 7:

1. Delete 7.8 in its entirety and substitute in its place the following:

7.8 "Minimum and Maximum Pressure Limits

7.8.1 Hydraulically designed standpipe systems shall be designed to provide the waterflow rate required by Section 7.10 at a minimum residual pressure of 100 psi (6.9 bar) at the outlet of the hydraulically most remote 2-1/2 inch (65 mm) hose connection and 65 psi (4.5 bar) at the outlet of the hydraulically most remote 1-1/2 (38 mm) hose connection.

7.8.1.1 Where the local Fire Chief or local Fire Code Official having fire suppression jurisdiction permits lower than 100 psi (6.9 bar) for 2-1/2 inch (65 mm) hose connections, based upon local suppression tactics, the pressure shall be permitted to be reduced to not less than 65 psi (4.5 bar).

7.8.1.2 Where the building is protected throughout by a supervised automatic sprinkler system and the building is not a high-rise, as defined in 3.3.5, the minimum residual pressure provisions shall not be mandatory when the standpipe system piping is a minimum of eight inches (8") nominal diameter.

7.8.1.3 Existing high-rise buildings, as defined in 3.3.5, that are protected throughout by a supervised automatic sprinkler system shall be permitted a reduction of the minimum residual pressure requirement of 100 psi (6.9 bar) at the hydraulically most remote 2-1/2 inch (63.5 mm) hose connection to 65 psi (4.5 bar).

7.8.1.4 Manual standpipe systems shall be designed to provide 100 psi (6.9 bar) at the topmost outlet with the calculations terminating at the fire department connection."

2. Insert a new subsection 7.12.3.4 to read as follows:

7.12.3.4 **"Location.** The location of fire department connections shall be approved by the Fire Chief as set forth in subsection 501.5 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(c) Modification to Chapter 10:

1. Add a new subsection 10.3 to read as follows:

10.3 "A letter certifying that all pressure restricting and pressure reducing equipment is installed and set per NFPA requirements and manufacturer's instructions shall be presented to the inspector along with test certificates at the time of final inspection."

(d) Modification to Annex A:

1. Add a New Annex Note A.7.8.1.4 to read as follows:

A.7.8.1.4 "It is not the intent of this standard to provide an automatic water supply for manual standpipe systems. Manual standpipe systems are designed (sized) to provide 100 psi (6.9 bar) at the topmost outlet using a fire department pumper as the source of flow and pressure."

(14) NFPA 15, 2012 Edition, *Standard for Water Spray Fixed Systems for Fire Protection*

Modifications: None

(15) NFPA 16, 2019 Edition, *Standard for the Installation of Foam-Water Sprinkler and Foam- Water Spray Systems*

Modifications: None

(16) NFPA 17, 2017 Edition, *Standard for Dry Chemical Extinguishing Systems*

Modifications:

(a) **Modification to Chapter 1:**

1. Delete Section 1.6 in its entirety and substitute in its place the following:
 - 1.6 **"* Qualifications.** Only persons who are properly trained and licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated, shall be considered competent to design, install, and service dry chemical systems."

(b) **Modification to Chapter 11:**

1. Delete subsection 11.1.3 in its entirety and substitute in its place the following:
 - 11.1.3 "Only persons trained and licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated, shall be considered competent to design, install, and service dry chemical extinguishing systems, in accordance with this standard and the manufacturer's instructions."
2. Delete paragraph 11.1.3.1 in its entirety without substitution.
3. Delete subparagraph 11.3.1.2.4 in its entirety and substitute in its place the following:
 - 11.3.1.2.4 "The label shall comply with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."
4. Delete subparagraph 11.3.1.2.7 in its entirety and substitute in its place the following:
 - 11.3.1.2.7 "The collar shall comply with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner."
5. Delete paragraph 11.3.1.10 in its entirety and substitute in its place the following:
 - 11.3.1.10 "Each dry chemical system shall have the required tags or labels complying with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner after

each service has been conducted on the system. Only the current applicable tag or label shall remain on the system."

6. Delete subsection 11.4.2 in its entirety and substitute in its place the following:

Systems shall be recharged by persons who are properly trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, in accordance with the manufacturer's listed installation and maintenance manual."

(17) **NFPA 17A, 2013 Edition, *Standard for Wet Chemical Extinguishing Systems***

Modifications:

(a) **Modification to Chapter 1:**

1. Delete Section 1.7 in its entirety and substitute in its place the following:
 - 1.7 **"*Qualifications.** Only persons who are properly trained and licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated, shall be considered competent to design, install, and service wet chemical systems."

(b) **Modification to Chapter 7:**

1. Delete subsection 7.3.1 in its entirety and substitute in its place the following:
 - 7.3.1 "A service technician who performs maintenance on an extinguishing system shall be trained and shall possess a licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated."
2. Delete paragraph 7.3.1.1 in its entirety without substitution.
3. Delete subparagraph 7.3.3.6.1 in its entirety and substitute in its place the following:
 - 7.3.3.6.1 "The owner or owner's representative shall retain all maintenance reports for a period of 3 years after the next maintenance of that type required by the standard."

4. Delete paragraph 7.3.3.7 in its entirety and substitute in its place the following:
 - 7.3.3.7 "* Each wet chemical system shall have a tag or label securely attached, complying with the requirements of Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner. Only the current tag or label shall remain in place."
5. Add a new paragraph 7.5.2.4 to read as follows:
 - 7.5.2.4 "Each stored pressure system agent cylinder that has undergone maintenance or hydrostatic testing that includes internal examination, or that has been recharged shall have 'Verification of Service' collar located around the neck of the cylinder. The collar shall contain a single circular piece of uninterrupted material forming a hole of a size that will not permit the collar assembly to move over the neck of the cylinder unless the valve is completely removed. The collar shall not interfere with the operation and actuation of the system cylinder. The 'Verification of Service' collar shall comply with the requirements of NFPA 10, *Standard for Portable Fire Extinguishers*, as adopted by Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner.
 - 7.5.2.4.1 The provisions of 7.5.2.4 do not apply to stored pressure system cylinders undergoing maintenance before March 1, 2002.
 - 7.5.2.4.2 Non-stored pressure cylinders such as cartridge cylinders for cartridge-operated systems do not require a 'Verification of Service' collar for the cartridge."

(18) **NFPA 18, 2017 Edition, *Standard on Wetting Agents***

Modifications: None

(19) **NFPA 18A, 2017 Edition, *Standard on Water Additives for Fire Control and Vapor Mitigation***

Modifications: None

(20) **NFPA 20, 2019 Edition, *Standard for the Installation of Stationary Pumps for Fire Protection***

Modifications:

(a) **Modification to Chapter 4:**

1. Add new paragraphs 4.6.2.3.4 and 4.6.2.3.5 to read as follows:

4.6.2.3.4 "At 150% rated capacity or below, the pump suction supply shall not drop below 20 psi (1.38 bar).

4.6.2.3.5 Suction supply pressure may be lowered upon approval of the authority having jurisdiction."

(21) **NFPA 22, 2018 Edition, *Standard for Water Tanks for Private Fire Protection***

Modifications: None

(22) **NFPA 24, 2019 Edition, *Standard for the Installation of Private Fire Service Mains and Their Appurtenances***

Modifications:

(a) **Modifications to Chapter 4:**

1. Delete 4.1.3 (10) in its entirety and substitute in its place the following:

(10) "Size, location, and piping arrangement of fire department connections as approved by the local Fire Chief having jurisdiction as set forth in 501.5 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(b) **Modifications to Chapter 13:**

1. Delete Section 13.1 in its entirety and substitute in its place the following:
"13.1* Private Service Mains.

13.1.1 No pipe smaller than a nominal 8 inches (203 mm) in diameter shall be used to supply more than one hydrant or one hydrant on dead end mains over 500 feet (152 m).

13.1.2 No pipe smaller than a nominal 8 inches (203 mm) in diameter shall be used to supply one hydrant and automatic extinguishing systems.

13.1.3 No pipe smaller than a nominal 8 inches (203 mm) in diameter shall be used to supply more than one hydrant and automatic extinguishing systems on looped mains over 1,000 feet (305 m)."

2. Add the following in Annex A, A13.1:

A.13.1 "Pipe sizing should be based upon good engineering practices based on the projected water demand, firefighting capabilities and water supply characteristics. Pipe sizes other than those specified in 13.1 may be acceptable in new or existing installations with the written approval of the authority having jurisdiction."

(23) **NFPA 25, 2017 Edition, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems***

Modifications:

(a) **Modifications to Chapter 4:**

1. Add a new Subsection 4.3.1.2 to read as follows:

4.3.1.2 "On non-compliant or impaired systems, a copy of the inspection report shall be forwarded to the authority having jurisdiction by the owner and/or the occupant."

2. Delete 4.3.3* in its entirety and substitute in its place the following:

4.3.3 "* Records shall be maintained by the property owner for a period of at least three years."

3. Delete Section 4.3.5 and replace with the following:

4.3.5 "Subsequent records shall be retained for a period of 3 years after the next inspection of that type required by the standard."

4. Add a new subsection 4.3.6 to read as follows:

4.3.6 "Tagging.

4.3.6.1 **Inspection Tag.**

- (a) After inspection and testing, an Inspection Tag shall be completed indicating all work that has been done, and then attached to the system in such a position as to permit convenient inspection and not hamper its activation or operation. A new Inspection Tag shall be attached to each system each time an inspection and test service is performed.
- (b) Inspection Tags must be GREEN in color having a minimum dimension of 133 mm (5 1/4 inches) in height and 67 mm (2 5/8 inches) in width.
- (c) Inspection tags shall bear the following information in an easily read format:
 - 1. **'DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL.'** This particular information shall be in a minimum of 10pt type and in all capital letters.
 - 2. The licensed Fire Sprinkler Contractor's name and physical address;
 - 3. The license number of the Fire Sprinkler Contractor;
 - 4. The license number of the fire sprinkler inspector;
 - 5. The licensed fire sprinkler inspector's signature;
 - 6. The day, month and year (to be punched);
 - 7. The facility name and address.
- (d) Inspection Tags may be printed and established for any period of time. After each printing, a

minimum of three sample tags must be forwarded to the State Fire Marshal's office.

- (e) An Inspection Tag shall only be removed by an authorized representative of a licensed fire sprinkler contractor.
- (f) Should impairments or noncompliance items be found, the licensed inspector shall notify the building owner or his representative and the authority having jurisdiction in writing of all noncompliance items and/or impairments found. A fire sprinkler system compliance Inspection Tag shall not be installed on each system until the impairments or noncompliance items have been corrected and each system has been re-inspected and found to be in a state of operational readiness.

4.3.6.2 **Noncompliance Tag.**

- (a) If a fire sprinkler system is found in noncompliance with the applicable NFPA standards, a completed Noncompliance Tag shall be attached to the main control valve of each system to indicate that corrective action is necessary.
- (b) Noncompliance Tags must be YELLOW in color having a minimum dimension of 133 mm (5 1/4 inches) in height and 67 mm (2 5/8 inches) in width.
- (c) Noncompliance Tags shall bear the following information in an easily read format:
 - 1. **'DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL-SYSTEM NOT IN COMPLIANCE WITH NFPA STANDARDS.'** This particular information shall be in a

minimum of 10pt type and in all capital letters.

2. The licensed Fire Sprinkler Contractor's name and physical address;
 3. The license number of the Fire Sprinkler Contractor;
 4. The license number of the fire sprinkler inspector;
 5. The licensed fire sprinkler inspector's signature;
 6. The day, month and year (to be punched);
 7. The noncompliance issue(s);
 8. The facility name and address.
- (d) Noncompliance Tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office.
- (e) The signature of the licensee on a Noncompliance Tag certifies the impairments listed on the label cause the system to be out of compliance with NFPA standards.
- (f) A Noncompliance Tag shall only be removed by an authorized representative of a licensed fire sprinkler contractor upon re-inspection of the fire sprinkler system.
- (g) A letter of noncompliance conditions shall be sent to the building owner or authorized representative within five working days of the date of the inspection.

4.3.6.3 Impairment Tag.

- (a) Should impairments constitute an emergency impairment as defined in this standard, then the inspector shall complete and attach an Impairment Tag to the main control valve of each system and the fire department connection to indicate that corrective action is necessary.
- (b) Impairment Tags must be RED in color having a minimum dimension of 133 mm (5 1/4 inches) in height and 67 mm (2 5/8 inches) in width.
- (c) Impairment Tags shall bear the following information in an easily read format:
 - 1. **'DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL.'** This particular information shall be in a minimum of 10pt type and in all capital letters.
 - 2. The licensed Fire Sprinkler Contractor's name and physical address;
 - 3. The license number of the Fire Sprinkler Contractor;
 - 4. The license number of the fire sprinkler inspector;
 - 5. The licensed fire sprinkler inspector's signature;
 - 6. The day, month and year (to be punched);
 - 7. The emergency impairment(s);
 - 8. The facility name and address.
- (d) Impairment Tags may be printed and established for any period of time. After each

printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office.

- (e) The signature of the licensee on an Impairment Tag certifies the impairments listed on the label cause the system to be out of compliance with NFPA standards.
- (f) An Impairment Tag shall only be removed by an authorized representative of a licensed fire sprinkler contractor upon re-inspection of the fire sprinkler system.
- (g) A letter of emergency impairment conditions shall be sent to the building owner or authorized representative and to the occupant within 24 hours of the time of the inspection. The building owner and/or occupant shall notify the authority having jurisdiction within 24 hours of the time of the impairment notification."

(b) Modifications to Chapter 6:

1. Add a new 6.1.1.1.1 to read as follows:

6.1.1.1.1 "In new and existing buildings, the requirements for hose for occupant use are eliminated, subject to the approval of the local Fire Chief or local Fire Code Official having fire suppression jurisdiction."

(24) NFPA 30, *Flammable and Combustible Liquids Code*

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(25) NFPA 30A, *Code for Motor Fuel Dispensing Facilities and Repair Garages*

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(26) **NFPA 30B, *Code for the Manufacture and Storage of Aerosol Products***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(27) **NFPA 31, *Standard for the Installation of Oil-Burning Equipment***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(28) **NFPA 32, *Standard for Drycleaning Plants***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(29) **NFPA 33, *Standard for Spray Application Using Flammable or Combustible Materials***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(30) **NFPA 34, *Standard for Dipping, Coating and Printing Processes Using Flammable or Combustible Liquids***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(31) NFPA 35, *Standard for the Manufacture of Organic Coatings*

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(32) **NFPA 36, *Standard for Solvent Extraction Plants***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(33) **NFPA 37, *Standard for the Installation and Use of Stationary Combustion Engines and Gas Turbines***

Modifications:

- (a) Refer to Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(34) **NFPA 40, 2019 Edition, *Standard for the Storage and Handling of Cellulose Nitrate Film***

Modifications: None

(35) NFPA 45, 2019 Edition, *Standard on Fire Protection for Laboratories Using Chemicals*

Modifications:

(a) **Modification to Chapter 10:**

1. Delete paragraph 10.2.3.4 in its entirety and substitute in its place the following:

10.2.3.4 **"Emergency shutoff valves for laboratories.** In addition to point of use manual shutoff valves required by 10.2.3, each laboratory space containing two or more gas outlets installed

on tables, benches, or in hoods in business, educational, healthcare, research, commercial, and industrial occupancies shall have a single valve through which all such gas outlets are supplied. This emergency shutoff valve shall be accessible, located within the laboratory or adjacent to the laboratory's primary egress door, and clearly identified by approved signage stating at the least, '**GAS SHUTOFF**'."

(36) **NFPA 51, 2018 Edition, *Standard for the Design and Installation of Oxygen-Fuel Gas Systems for Welding, Cutting, and Allied Processes***

Modifications:

- (a) Refer to Chapter 120-3-13, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(37) **NFPA 51B, 2019 Edition, *Standard for Fire Prevention During Welding, Cutting, and Other Hot Work***

Modifications:

- (a) Refer to Chapter 120-3-13, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(38) **NFPA 52, 2019 Edition, *Gaseous Vehicular Fuel Systems Code***

Modifications:

- (a) Refer to Chapter 120-3-14, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(39) **NFPA 53, 2016 Edition, *Materials, Equipment, and Systems Used in Oxygen-Enriched Atmospheres***

Modifications:

- (a) **Modifications to Chapter 1:**

- 1. Add a new subsection 1.3.1 to read as follows:

1.3.1 "This document is recognized strictly as a recommended practice that may be used in evaluating fire hazards in oxygen-enriched atmospheres. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone code or standard, however, it may be used in conjunction with and in the support of the applicable provisions of other adopted codes or standards."

(40) **NFPA 54, 2018 Edition, *National Fuel Gas Code***

Modifications:

- (a) Refer to Chapter 120-3-14, Rules and Regulations of the Safety Fire Commissioner, and Chapter 120-3-16, Rules and Regulations of the Safety Fire Commissioner, for the adopted edition and any modifications.

(41) **NFPA 55 2020 Edition, *Compressed Gases and Cryogenic Code***

Modifications: None

(43) **NFPA 56, 2017 Edition, *Standard for Fire and Explosion Prevention During Cleaning and Purging of Flammable Gas Piping Systems***

Modifications: None

(44) **NFPA 58, 2017 Edition, *Liquefied Petroleum Gas Code***

Modifications:

- (a) Refer to Chapter 120-3-16, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(45) **NFPA 59, *Utility LP-Gas Plant Code (LNG)***

Modifications:

- (a) Refer to Chapter 120-3-16, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(46) **NFPA 59A, 2019 Edition, *Standard for the Production, Storage, and Handling of Liquefied Natural Gas***

Modifications:

- (a) Refer to Chapter 120-3-16, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(47) **NFPA 61, 2017 Edition, *Standard for the Prevention of Fires and Dust Explosions in Agricultural and Food Processing Facilities***

Modifications:

- (a) Refer to Chapter 120-3-24, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(48) **NFPA 68, 2018 Edition, *Standard on Explosion Protection by Deflagration Venting***

Modifications:

- (a) Refer to Chapter 120-3-24, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(49) **NFPA 69, 2019 Edition, *Standard on Explosion Prevention Systems***

Modifications: None

(50) **NFPA 70, 2020 Edition, *National Electrical Code***

Modifications:

(a) **Modifications to Article 110, I:**

- 1. Add a new section 110.29 to read as follows:

110.29 "Relocatable Power Tap's (RPT's. Relocatable power taps (RPT's) shall comply with the provisions of 605.4.2 of the *International Fire Code (IFC)* as adopted by this Chapter."

(51) **NFPA 70B, 2019 Edition, *Electrical Equipment Maintenance***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.3 to read as follows:

1.1.3 "This document is recognized strictly as a recommended practice that may be used in evaluating the effectiveness of electrical equipment within its scope. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

(52) **NFPA 70E, 2018 Edition, *Standard for Electrical Safety Requirements for Employee Workplaces***

Modifications:

(a) **Modifications to Article 90 Introduction:**

1. Delete 90.1 in its entirety and substitute in its place the following:

90.1 "This standard addresses those electrical safety requirements for employee workplaces that are necessary for practical safeguarding of employees in their pursuit of gainful employment. This document is recognized strictly as a recommended practice that may be used in evaluating electrical safety requirements for employee workplaces. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards. This standard covers:

- (a) Electrical conductors and equipment installed within or on buildings or other structures, including mobile homes and recreational vehicles, and other premises such as yards, carnival, parking and other lots, and industrial substations.
- (b) Conductors that connect the installations to a supply of electricity.
- (c) Other outside conductors on the premises."

(53) **NFPA 72, 2019 Edition, *National Fire Alarm and Signaling Code***

Modifications:

(a) **Modification to Chapter 1:**

1. Delete Section 1.1.1 in its entirety and substitute in its place the following:

- 1.1.1 **"Scope.** This *Code* covers the application, installation, location, performance, inspection, testing, and maintenance of fire alarm systems, supervising station alarm systems, public emergency alarm reporting systems, fire and carbon monoxide detection and warning equipment, and emergency communications systems (ECS), and their components, whether such system or component is required or not.

- 1.1.1.1 Where the requirements of this *Code* have technical differences and requirements from those established, as applicable, by Chapter 120-3-20 or 120-3-20A, of the Safety Fire Commissioner's Rules and Regulations for Accessibility to Buildings and Facilities, the technical provisions and requirements of Chapter 120-3-20 and 120-3-20A shall take precedence over the requirements of this *Code* where applicable."

(b) **Modifications to Chapter 7:**

1. Add a new paragraph (5) to 7.5.3 to read as follows:

- (5) "For software-based systems, all access codes and passwords to grant access to the software by authorized personnel."

(c) **Modifications to Chapter 10:**

1. Add a new subsection 10.4.7 to read as follows:

- 10.4.7 "Protection shall not be required in Existing building installations acceptable to the authority having jurisdiction."

(d) **Modifications to Chapter 17:**

1. Add a new subparagraph 17.7.3.1.4 to read as follows:

- 17.7.3.1.4 "Alternate locations of smoke detectors as allowed by the *International Fire Code*, or where applicable, the *Life Safety Code*, and acceptable to the authority having jurisdiction,

may be utilized and may be considered to be in compliance with this *Code*."

(e) Modification to Annex A:

1. Add a new Annex note A.18.4.4.2 to read as follows:

A.18.4.4.2 "For example, in critical care patient areas, it is often desirable to not have an audible fire alarm even at reduced private mode levels. Another example would be classrooms for small children in day care or educational occupancies, where verbal communication is vital between caregivers or teachers and children during drills or during an actual fire or other emergency condition. Audible alarms often frighten small children and valuable time may be lost while trying to calm such children. Also, audible alarms at or near locations, where clear communications is required, may present a problem. A school office or a receptionist desk common to various occupancies are examples. An additional example of where an audible fire alarm could be a problem would be high noise level work areas where an audible signal needed to overcome background noise at one time of the day would be excessively loud and potentially dangerous at another time of lower ambient noise. A sudden increase of more than 30 dB over 0.5 seconds is considered to cause sudden and potentially dangerous fright. Each case requires individual consideration by the authority having jurisdiction."

(54) NFPA 75, 2017 Edition, *Standard for the Protection of Electronic Computer/Data Processing Equipment*

Modifications: None

(55) NFPA 76, 2016 Edition, *Standard for Fire Protection of Telecommunications Facilities*

Modifications: None

(56) NFPA 77, 2019 Edition, *Recommended Practice on Static Electricity*

Modifications:

(a) Modifications to Chapter 1:

1. Add a new subsection 1.1.9 to read as follows:

1.1.9 "This document is recognized strictly as a recommended practice that may be used in evaluating systems or devices installed for the purposes of safeguarding life and/or property against the hazards of static electricity. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

(57) NFPA 78, 2020 Edition, *Guide on Electrical Inspections*

(a) Modifications to Chapter 1:

1. Add a new subsection 1.1.4 to read as follows:

1.1.4 "This document is recognized strictly as a recommended practice that may be used in evaluating electrical/electronic equipment, apparatus, or systems of industrial machines within its scope. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards. This standard is not meant to add any requirements not found in the NEC, nor change the intent of the intent of the requirements found in the NEC. If any conflict occurs between this standards and the NEC, the NEC shall control."

(58) NFPA 79, 2019 Edition, *Electrical Standard for Industrial Machinery*

Modifications:

(a) Modifications to Chapter 1:

1. Add a new subsection 1.1.3 to read as follows:

1.1.3 "This document is recognized strictly as a recommended practice that may be used in evaluating electrical/electronic equipment, apparatus, or systems of industrial machines within its scope. Recommendations may be based on the document where deemed

appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards. This standard is not meant to add any requirements not found in the *NEC*, nor change the intent of the requirements found in the *NEC*. If any conflict occurs between this standards and the *NEC*, the *NEC* shall control."

(59) **NFPA 80, 2019 Edition, *Standard for Fire Doors and Other Opening Protectives***

Modifications: None

(60) **NFPA 80A, 2017 Edition, *Protection of Buildings from Exterior Fire Exposures***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.5 to read as follows:

1.1.5 "This document is recognized strictly as a recommended practice that may be used in evaluating the exterior fire exposure risks of buildings. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand- alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

(61) **NFPA 82, 2019 Edition, *Standard on Incinerators and Waste and Linen Handling Systems and Equipment***

Modifications: None

(62) **NFPA 85, 2019 Edition, *Boiler and Combustion Systems Hazards Code***

Modifications: None

(63) **NFPA 86, 2019 Edition, *Standard for Ovens and Furnaces***

Modifications: None

(64) **NFPA 87, 2018 Edition, *Standard for Fluid Heaters***

Modifications: None

(65) **NFPA 88A, 2019 Edition, *Standard for Parking Structures***

Modifications: None

(66) **NFPA 90A, 2018 Edition, *Standard for the Installation of Air-Conditioning and Ventilating Systems***

Modifications: None

NOTE: *The International Mechanical Code*, as adopted by the Georgia Department of Community Affairs (DCA), shall be the applicable code replacing 90A with the exception of its application to Hospitals, hospices, ambulatory surgical centers, nursing homes, assisted living homes or other health care type facilities that are regulated by the federal Centers for Medicare and Medicaid Services (CMS) shall comply with the fire and life safety rules and regulations imposed by that agency even though codes and standards adopted by that agency may not be specifically included herein. The codes and standards adopted and modified herein shall also apply where applicable and shall be deemed to be the minimum state fire and life safety standards where they are at least as protective as the CMS rules and regulations. (Refer to **Table 102.13, CODES REFERENCE GUIDE** in the *International Fire Code* adopted by this Chapter 120-3-3.)

(67) **NFPA 90B, 2018 Edition, *Standard for the Installation of Warm Air Heating and Air- Conditioning Systems***

Modifications: None

NOTE: *The International Mechanical Code*, as adopted by the Georgia Department of Community Affairs (DCA), shall be the applicable code replacing 90B with the exception of its application to Hospitals, hospices, ambulatory surgical centers, nursing homes, assisted living communities or other health care type facilities that are regulated by the federal Centers for Medicare and Medicaid Services (CMS) shall comply with the fire and life safety rules and regulations imposed by that agency even though codes and standards adopted by that agency may not be specifically included herein. The codes and standards adopted and modified herein shall also apply where applicable and shall be deemed to be the minimum state fire and life safety standards where they are at least as protective as the CMS rules and regulations. (Refer to **Table 102.13, CODES REFERENCE GUIDE** in the *International Fire Code* adopted by this Chapter 120-3-3.)

(68) **NFPA 91, 2015 Edition, *Standard for Exhaust Systems for Air Conveying of Vapors, Gases, Mists, and Noncombustible Particulate Solids***

Modifications: None

(69) **NFPA 92, 2018 Edition, *Standard for Smoke Control Systems***

Modifications: None

[Note: Also see 909.2.1 (1) of the *International Fire Code*]

(70) **NFPA 96, 2017 Edition, *Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations***

Modifications:

(a) **Modification to Chapter 1:**

1. Delete subsection 1.1.3 in its entirety and substitute in its place the following:
 - 1.1.3 " This standard shall apply to all commercial cooking equipment used for commercial cooking operations."
2. Delete subsection 1.1.4 in its entirety and substitute in its place the following:
 - 1.1.4 " This standard shall not apply to residential cooking equipment located in a single dwelling unit or to cooking equipment in facilities where all of the following are met:
 - (1) Only residential cooking equipment such as: stoves, ranges or cooking surfaces traditionally used in dwelling units are being utilized.
 - (2) The defined residential cooking equipment contains a maximum of four standard surface cooking elements and is not used for frying operations.
 - (3) The defined residential equipment is used for food warming, limited cooking, rehabilitation training or in a home economic education classroom setup.
 - (4) The residential cooking equipment is protected by a listed self-contained residential fire suppression system located in an approved residential hood which is vented directly to the outside and providing protection to each cooking surface The self-contained fire suppression system for the

defined residential cooking equipment need not be provided where protection is provided by an approved automatic sprinkler system protecting the cooking surface, subject to approval of the authority having jurisdiction. The self-contained residential fire suppression system shall automatically disconnect electric power to electric stoves, and shut off the gas supply and electric power to gas fueled stoves, provided, however, this provision shall not be retroactive for installations approved prior to the effective adoption date of this standard.

- (5) The facility is not an assembly occupancy, provided, this shall not apply to church facilities with a single residential stove or range complying with (2) above.
- (6) Fire Extinguishers are located in all kitchen areas in accordance with NFPA 10, *Standard for Portable Fire Extinguishers*, and this *Code*, as adopted with modifications."

1. Add a new subsection 1.1.5 to read as follows:

1.1.5 "This standard, except for operational and maintenance provisions, shall not apply for conditions existing prior to March 9, 2010, subject to the approval of the authority having jurisdiction, and where a notarized statement that no frying operations will be performed is provided. This approval shall be void for cause when the authority having jurisdiction finds cooking operations involve frying operations. (See also 1.4.1)"

(b) Modification to Chapter 10:

1. Delete subsection 10.2.6 in its entirety and substitute in its place the following:

10.2.6 " Automatic fire extinguishing systems shall be installed by competent personnel meeting Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, licensing and permit requirements. In addition, such systems shall be installed in accordance with the terms of their listing, the manufacturer's instructions, and the following applicable standard(s):

- (1) NFPA 12, *Standard on Carbon Dioxide Extinguishing Systems*
- (2) NFPA 13, *Standard for the Installation of Sprinkler Systems*
- (3) NFPA 17, *Standard for Dry Chemical Extinguishing Systems*
- (4) NFPA 17A, *Standard for Wet Chemical Extinguishing Systems"*

2. *Add a New Subsection 10.4.4.1 to read as follows:*

10.4.4.1 Shut off devices shall be located below any ceiling and be accessible.

(c) **Modification to Chapter 13:**

1. Delete Section 13.2 in its entirety and substitute in its place the following:
 - 13.2 **"Design Restrictions.** All recirculating systems shall comply with the requirements of Section
 - 13.2. Recirculating systems shall be limited to outdoor vending areas or rooms that are fully sprinklered."

(d) Add a New Chapter 16:

Chapter 16: Mobile and Temporary Cooking Operations

16.1 General Requirements

- 16.1.1 Annex B shall be adopted as mandatory requirements for mobile and temporary cooking operations.
- 16.1.2 Cooking equipment used in fixed, mobile, or temporary concessions, such as trucks, buses, trailers, pavilions, tents or any form of roofed enclosure shall comply with this chapter.

(71) **NFPA 99, 2018 Edition, *Standard for Health Care Facilities***

Modifications: None

NOTE: Hospitals, hospices, ambulatory surgical centers, nursing homes, or other health care type facilities that are regulated by the federal Centers for Medicare and Medicaid Services (CMS) shall comply with the fire and life safety rules and regulations imposed by that agency even though codes and standards adopted by that agency may not be specifically included herein. The codes and standards adopted and modified herein shall also apply where applicable and shall be deemed to be the minimum state fire and life safety standards where they are at least as protective as the CMS rules and regulations. (Refer to [120-3-3-.03](#) of Chapter [120-3-3-.03](#) of the Rules and Regulations of the Safety Fire Commissioner for definitions of "assisted living communities" and "memory care units. Such facilities are regulated, as appropriate by Chapters 34 or 35 of the *Life Safety Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.)

(72) **NFPA 99B, 2018 Edition, *Standard for Hypobaric Facilities***

Modifications: None

(73) **NFPA 101, 2018 Edition, *Life Safety Code***

Modifications:

The 2018 Edition of the *Life Safety Code* is adopted with modifications so as to be applicable to proposed (new) and existing buildings and structures. Unless noted otherwise herein, operational provisions such as fire drills, emergency egress and relocation drills, development of fire or emergency plans, and regulation of decorations and contents of building and structures of the various provisions of NFPA 101, *Life Safety Code* shall not be applicable to proposed (new) or existing buildings, structures, facilities, or conditions. The operational provisions of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner shall apply to proposed (new) and existing buildings, structures, facilities, and conditions, unless such provisions are less protective than or are in conflict with the rules and regulations of the Centers for Medicare and Medicaid Services (CMS) as they apply to health care related occupancies.

(a) **Modifications to Chapter 1:**

1. Delete paragraph (1) of subsection 1.1.9 in its entirety and substitute in its place the following:
 - (1) " General fire prevention or building construction features are normally a function of fire prevention codes and building codes. The *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, and the *International Building Code (IBC)*, as adopted by the Georgia Department of

Community Affairs, are applicable, and their use along with other codes and standards shall be coordinated with this *Code*, as set forth in 1.4.4 and Table 1.4.4, **CODES REFERENCE GUIDE**

2. Add a new subsection 1.4.4 to read as follows:

1.4.4 **"Code Coordination.** This *Code* shall apply to all proposed (new) and existing buildings, structures and facilities, except as herein provided, and shall be utilized in conjunction with the *IBC*, the *IFC*, the *IMC*, and the *IFGC*, to the degree provided in Table 102.13 **CODES REFERENCE GUIDE**.

1.4.4.1 This *Code* does not apply to one- and two-family dwellings or one-and two-family row houses (townhouses) separated by a 2-hour firewall, except as specified in Chapters 26, 30 and 31."

Table 102.13: CODES REFERENCE GUIDE		
Area	Primary	Supplement
Occupancy Classification	LSC	IBC
Building Construction Types including allowable height, allowable building areas, and the requirements for sprinkler protection related to minimum building construction types.	IBC	LSC
Means of Egress	LSC	NONE
Standpipes	IBC	IFC
Interior Finish	LSC	NONE
HVAC Systems	IMC	NONE
Vertical Openings	LSC	NONE
Sprinkler Systems minimum	LSC	NONE
Fire Alarm Systems	LSC	NONE
Smoke alarms & Smoke Detection Systems	State Statute &	NONE
Cooking Equipment	LSC & NFPA 96	NONE
Portable Fire Extinguishers		NONE
Fuel Fired Appliances	IFGC	NFPA 54

Liquid Petroleum Gas	NFPA 58	NFPA 54
Compressed Natural Gas	NFPA 52	NONE

(b) **Modification to Chapter 3:**

[Note: Refer to [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner for modified or special definitions that apply to this *Code*, unless otherwise advised by the various chapters of this *Code*.]

(c) **Modification to Chapter 4:**

1. Delete Section 4.7 in its entirety (4.7.1 through 4.8.2.3) and substitute in its place the following: "SECTION 4.7 Fire Safety and Evacuation Plans and Emergency Evacuation Drills.

4.7.1 **Fire Safety and Evacuation Plans.** Fire safety and evacuation plans shall be developed, made available, and maintained in various occupancies as required by Section 404 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

4.7.1.1 **Resources for Development of Fire Safety and Evacuation Plans.** The provisions of A.4.7, A.4.7.2, A.4.7.4, A.4.7.6, A.4.8.2.1, and Table A.4.8.2.1(3), and as applicable, A.12.7.6, A.7.7, A.12.7.7.3, A.13.7.6, A.13.7.7, A.14.7.2.1, A.15.7.2.1, A.16.7.1, A.16.7.2.1, A.17.7.1, A.18.7, A.18.7.2.1, A.19.7, A.19.7.2.1, A.20.7, A.20.7.2.1, A.21.7, A.21.7.2.1, A.22.7.1.3, A.23.7.1.3, A.28.7.1.1, and A.29.7.1.1 of this *Code* shall be deemed acceptable resources for use in the development of fire safety and evacuation plans required by the *IFC*, as set forth by the provisions of 4.7.1 of this *Code*.

4.7.2 **Emergency Evacuation Drills.** Emergency evacuation drills shall be conducted in various occupancies as required by Section 405 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

4.7.3 **Employee Training and Response Procedures.** Employees in various occupancies shall be trained in fire emergency procedures and

evacuation procedures as required by Section 406 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(d) Modifications to Chapter 6:

1. Delete subparagraph 6.1.14.4.1 in its entirety and substitute in its place the following:
 - 6.1.14.4.1 "Where separated occupancies are provided, each part of the building comprising a distinct occupancy as described in this chapter, shall be completely separated from other occupancies by fire resistive assemblies as specified in 6.1.14.4.2, and in Section 508 of the *International Building Code*, adopted by the Georgia Department of Community Affairs, as applicable to "separated occupancies", unless separation is provided by approved existing separations."
2. Delete subparagraph 6.1.14.4.3 in its entirety without substitution.
3. Delete Table 6.1.14.4.1(a) in its entirety without substitution.
4. Delete Table 6.1.14.4.1(b) in its entirety without substitution.

(e) Modifications to Chapter 7:

1. Add a new item (8) to subparagraph 7.2.1.4.1 to read as follows:
 - (8) "For conditions or circumstances not covered herein, vertical fire shutters, roll down fire doors, or similar assemblies shall not be installed in means of egress, except where expressly permitted due to special hazards or circumstances by other chapters of this *Code*, or by approval of the Office of the State Fire Marshal for buildings coming under O.C.G.A. [25-2-13](#), or by the fire authority having jurisdiction over other buildings."
2. Add a new subparagraph 7.2.1.8.2.1 to read as follows:
 - 7.2.1.8.2.1 "Where fire doors are used within the means of egress, they shall comply with the applicable provisions of 7.2.1. Spring loaded hinges or spring operated self-closing devices not listed for use with rated fire door assemblies are prohibited for use as closing devices for fire rated doors.
 - 7.2.1.8.2.1.1 Existing applications utilizing spring loaded hinges in existing buildings may be continued in

use where acceptable to the authority having jurisdiction.

7.2.1.8.2.1.2 Spring loaded hinges or spring operated self-closing devices shall not be permitted for use on fire-rated smoke doors, provided, however, spring loaded hinges may be used on non-rated doors designed and installed to resist the passage of smoke, unless otherwise specified in Chapters 11 through 43.

7.2.1.8.2.1.3 Existing installations in existing buildings of spring loaded hinges on fire-rated smoke doors may be continued in use where acceptable to the authority having jurisdiction."

3. 3. Revise 7.2.2.2.1.1 (1) to read as follows.

(1) New stairs shall be in accordance with Table 7.2.2.2.1.1(a) and 7.2.2.2.1.2 and the following shall apply:

(a) Risers shall be solid

4. Revise 7.2.2.2.1.1 (3) to read as follows.

(3) Approved existing stairs shall be permitted to be rebuilt in accordance with the following:

(a) Dimensional criteria of table 7.2.2.2.1.1 (b)

(b) Other stair requirements of 7.2.2

(c) Risers shall be solid

5. Add a new subparagraph 7.2.3.10.3 to read as follows:

7.2.3.10.3 **"Deactivation of Mechanical Pressurization Systems.** The design of pressurization systems shall ensure that smoke is not introduced into the pressurized enclosure so as to result in the untenable contamination of the fresh air. Approved smoke detectors shall be installed at each intake in such approved manner that the operation of the fan providing mechanical pressurization to the enclosure where smoke is detected shall be deactivated upon detection of smoke."

6. Add a new paragraph 7.3.1.2.1 to read as follows:

7.3.1.2.1 "Where substantial evidence and documentation is provided, the authority having jurisdiction may decrease the occupant load for some occupancy use areas. The determined occupant load capacity shall be posted at an obvious location indicating the total occupant load capacity."

7. Add to Table 7.3.1.2 entitled "Occupant Load Factor" the additional use areas to read as follows:

"Locker Rooms	15	(1.4)
Free Weight Rooms	20	(1.9)
Running Tracks	50	(4.7)
Art Museums	30	(2.8)
Pool Halls	75	(6.9)
Multi-Purpose room	7	(0.65)
Airport terminals:		
Concourse	100	(9.3)
Waiting area	15	(1.4)
Baggage Claim	20	(1.9)
Baggage Handling	300	(27.9)"

8. Add a new subparagraph 7.4.1.1.1 to read as follows:

7.4.1.1.1 "Egress stairways from mezzanines shall conform to the requirements of Chapter 7 of this *Code*. They may be open to the floor of the room in which they are located provided all of the following conditions are met:

- (1) The space beneath the mezzanine is totally open and unencumbered by partitioned rooms or spaces. The space beneath the mezzanine may be enclosed provided the enclosed space is protected throughout with a smoke detection system installed in accordance with NFPA 72, *National Fire Alarm and Signaling Code*, which sounds an alarm in the mezzanine.
- (2) The travel distance from the most remote point on the floor of the mezzanine to the building exit or to a protected egress corridor, exit court, horizontal passageway, enclosed stair, or

exterior exit balcony does not exceed the travel distance limitations of Chapters 11 through 42.

- (3) The occupant load of the mezzanine is added to the occupant load of the story or room in which it is located for the purposes of determining the minimum egress requirements.
- (4) The mezzanine is not occupied for sleeping purposes unless there are exterior windows accessible to the mezzanine and located not more than two stories above grade."

9. Add a new paragraph 7.7.1.5 to subsection 7.7.1 to read as follows:

7.7.1.5 "Where the exit discharge termination cannot be at a public way, or the authority having jurisdiction determines it to be a significant hardship to provide the termination at a public way, the authority having jurisdiction may approve the exit discharge termination to be a safe dispersal area that complies with the following:

- (1) The area shall be of an area that accommodates at the least 5 square feet (0.46 m²) for each person calculated to be served by the exit(s) for which the dispersal area is provided.
- (2) The dispersal area shall be located on the same lot at least 50 feet (15240 mm) away from the building requiring egress. A greater distance may be required by the authority having jurisdiction based on the evaluated fire severity or other risk from the building requiring egress.)
- (3) The area shall be clearly identified and permanently maintained as a safe dispersal area.
- (4) The area shall be provided with a clearly identified and unobstructed exit discharge route, and comply with the applicable provisions of 7.1.6 of this *Code*.
- (5) The exit discharge route and the dispersal area shall be illuminated by normal and emergency lighting, where the building requiring egress is occupied during periods of darkness."

10. Add a new subsection 7.7.7 to read as follows:

7.7.7 "Discharge from exits into fenced or walled courtyards or yards.

- 7.7.7.1 For occupancies covered by Chapters 14, 15, 16, 17, 32 and 33, exits shall be permitted to discharge into fenced or walled courtyards or yards, provided the courtyard or yard is provided with a gate at least 32 inches (0.81 m) in clear width. Where the population served exceeds 50, two gates shall be provided. There shall be adequate exit capacity provided for the population served. The requirements of 7.4.1.2 shall apply. Gates are permitted to be locked if adequate provisions are made for the rapid removal of occupants by means such as remote control of locks, keying of all locks to keys carried by staff at all times, or other such reliable means available to the staff at all times that is approved by the authority having jurisdiction. Only one locking device shall be permitted on each gate.
- 7.7.7.2 The provisions of 7.7.7.1 shall not be construed as prohibiting the use of fenced or walled courtyards as components of the discharge of exits as set forth in Chapters 22 and 23.
- 7.7.7.3 The provisions of 7.7.7.1 may be applied, as approved by the authority having jurisdiction, to an "Assisted Living Community" or "Memory Care Unit" as defined in [120-3-3.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.
- 7.7.7.4 The provisions of various occupancy chapters dealing with a "lock-up", as defined in 3.3.164, shall not be construed as applying to the exit discharge provisions of 7.7.7.1, provided, however, exits from approved lock-ups may discharge into fenced or walled areas complying with the provisions of Chapter 22 or 23 as may be applicable, and as approved by the authority having jurisdiction."

(f) **Modification to Chapter 8:**

1. Delete paragraph 8.2.1.2* in its entirety and substitute in its place the following:

8.2.1.2 "* The *International Building Code (IBC)* as adopted by the Department of Community Affairs (DCA) shall be used to determine the requirements for the construction classification."
2. Add a new subparagraph 8.2.1.2.1 and Table 8.2.1.2.1 to read as follows:

- 8.2.1.2.1 **"Construction Conversion Table.** The table noted herein provides a comparison of acceptable construction types as defined in NFPA Standard 220 and the *International Building Code (IBC)*."

Table 8.2.1.2.1 Conversion Table for the IBC and NFPA 220 Construction Types										
NFPA 220	Type I (443)	Type I (332)	Type II (222)	Type II (111)	Type II (000)	Type III (211)	Type III (200)	Type IV (2 HH)	Type V (111)	Type V (000)
IBC	---	IA	IB	IIA	IIB	IIIA	IIIB	IV	VA	VB

3. Add a new to sub-paragraph 8.2.2.2.1 to read as follows:

- 8.2.2.2.1 "Fire barriers/walls required for tenant separation by the *IBC* may terminate at exit access corridors with a lower fire rating including a non-rated smoke resistive barrier, if such barriers are allowed by the requirements for the protection rating of exit access corridors."

4. Delete paragraph 8.2.2.5 and replace with a new paragraph 8.2.2.5

- 8.2.2.5 **Fire and/or Smoke Barrier Identification.** All fire and/or smoke barriers or walls shall be effectively and permanently identified with signs or stenciling above a decorative ceiling and/or in concealed spaces with letters a minimum of 2 inches (51 mm) high on a contrasting background spaced a maximum of 12 feet (3.7 m) on center with a minimum of one per wall or barrier. The hourly rating shall be included on all rated barriers or walls. Wording shall be similar to the following: '(4)' Hour Fire and Smoke Barrier-Protect All Openings. Where signs are utilized, they shall be designed and installed to resist peeling or detaching from the barrier. Other methods acceptable to the authority having jurisdiction shall be deemed approved.

- 8.2.2.5.1 Existing stenciling, acceptable to the authority having jurisdiction, shall be permitted to remain in use. Existing signs that are not peeling or detaching from the barrier shall be permitted to remain in use, subject to the approval of the authority having jurisdiction.

5. Add a new paragraph 8.3.1.2.1 to read follows:

8.3.1.2.1 2-hour fire barriers shall occur at the junction of new and existing construction when the existing construction does not meet the minimum requirements of the code for existing facilities. Such barriers shall not be extended into the new construction.

6. Add a new 8.3.3.6.12 to read as follows:

8.3.3.6.12 Tested and listed fire-rated glazing material installed in separately tested fire-rated frame assemblies not tested in a single unit with fire-rated glazing material may be permitted to be used subject to approval of the authority having jurisdiction in fire-rated barriers that are not part of an exit enclosure or enclosures around unsprinklered hazardous areas not containing flammable liquids or gases, combustible liquids, or other materials having the potential for rapid oxidation or explosion potential.

7. Delete 8.7.3.1 in its entirety and substitute in its place the following:

8.7.3.1 The use, handling and storage of flammable or combustible liquids, flammable gases, or other materials deemed hazardous to the safety of life shall be in accordance with the applicable provisions of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3, of the Rules and Regulations of the Safety Fire Commissioner, or in accordance with the applicable codes or standards adopted by other Chapters of the Rules and Regulations of the Safety Fire

8. Add a new paragraph 8.3.1.2.1 to read follows:

8.3.1.2.1 "2- hour fire barriers shall occur at the junction of new and existing construction when the existing construction does not meet the minimum requirements of the code for existing facilities. Such barriers shall not be extended into the new construction."

9. Add new paragraph 8.3.1.5 to read as follows:

8.3.1.5 "All fire and/or smoke barriers or walls shall be effectively and permanently identified with signs or stenciling above a decorative ceiling and/or in concealed spaces with letters a minimum of 2 inches (51 mm) high on a contrasting background spaced a maximum of 12 feet (3.7 m) on center with a minimum of one per wall or barrier. The hourly rating shall be included on all rated barriers or walls. Wording shall be similar to the following: '() Hour Fire and Smoke Barrier-Protect All Openings. Where signs are utilized, they shall be designed and installed to resist peeling or detaching from the barrier."

8.3.1.5.1 Existing stenciling, acceptable to the authority having jurisdiction, shall be permitted to remain in use. Existing signs that are not peeling or detaching from the barrier shall be permitted to remain in use, subject to the approval of the authority having jurisdiction."

10. Add a new 8.3.3.6.12 to read as follows:

8.3.3.6.12 "Tested and listed fire-rated glazing material installed in separately tested fire-rated frame assemblies not tested in a single unit with fire-rated glazing material may be permitted to be used subject to approval of the authority having jurisdiction in fire-rated barriers that are not part of an exit enclosure or enclosures around unsprinklered hazardous areas not containing flammable liquids or gases, combustible liquids, or other materials having the potential for rapid oxidation or explosion potential."

11. Delete 8.7.3.1 in its entirety and substitute in its place the following:

8.7.3.1 " The use, handling and storage of flammable or combustible liquids, flammable gases, or other materials deemed hazardous to the safety of life shall be in accordance with the applicable provisions of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3, of the Rules and Regulations of the Safety Fire Commissioner, or in accordance with the applicable codes or standards adopted by other Chapters of the Rules and Regulations of the Safety Fire Commissioner."

(g) Modification to Chapter 9:

1. Delete 9.1.1 in its entirety and insert in its place the following:

9.1.1 "Gas. Equipment using gas and related gas piping shall be in accordance with the *International Fuel Gas Code (IFGC)*, NFPA 54, National Fuel Gas Code, or NFPA 58, *Liquefied Petroleum Gas Code*, as may be applicable and as adopted by the applicable Chapters of the Rules and Regulations of the Safety Fire Commissioner. (Refer to **Table 1.4.4, CODES REFERENCE GUIDE**. Existing installations, subject to approval of the authority having jurisdiction, shall be permitted to be continued in service."

2. Delete 9.2.1 in its entirety and substitute in its place the following:

- 9.2.1 "Air Conditioning, Heating, Ventilating, Ductwork, and Related Equipment. Air conditioning, heating, ventilating ductwork, and related equipment shall be in accordance with the *International Mechanical Code (IMC)*, as adopted by the Georgia Department of Community Affairs. (Refer to **Table 1.4.4, CODES REFERENCE GUIDE**)"
3. Delete section 9.3 in its entirety and substitute in its place the following:
- 9.3.1 "*** General.** Smoke control systems, where required or permitted by Chapters 11 through 42, shall be designed, installed, tested, and maintained in conformance with Section 909 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."
4. Add a new subsection 9.3.2 to read as follows:
- 9.3.2 "Detention, holding or processing cell(s) which are used for the containment of an individual for not more than two hours in a 12-hour period shall not be required to be provided with vent openings, smoke shafts, or an engineered smoke control system to provide ventilation provided each cell is monitored by closed circuit television or dedicated personnel located outside the holding area and which have visual supervision of the cell(s)."
5. Delete subsection 9.4.2.1 in its entirety and substitute in its place the following:
- 9.4.2.1 "New elevators, escalators, dumbwaiters, and moving walks shall be installed in accordance with the requirements of ANSI/ASME A17.1, Safety Code for Elevators and Escalators. The elevator lobby of the designated floor and the alternate floor specified by Rule 211.3(a), and determined by the Fire Chief of the fire department having emergency response jurisdiction, shall be separated from the remainder of the building by 1-hour fire-rated construction. In buildings equipped with automatic sprinkler protection, smoke partitions in accordance with Section 8.4 may be used in lieu of 1-hour fire rated construction. Except health care occupancies as approved by the AHJ, openings in the elevator lobby shall be limited to those required for access to the elevators from exit access corridors or exits only. Elevator lobbies may be used as part of the means of egress from the building.

Exception No. 1: Elevator lobbies are not required within an atrium.

Exception No. 2: Elevator lobbies are not required where elevators are installed on open exterior walls.

Exception No. 3: Elevator lobbies are not required where elevators are installed in open air parking structures.

Exception No 4: Elevator lobbies are not required in buildings three stories or less with vertical openings protected in accordance with the applicable occupancy chapter.

Exception No 5: Elevator lobbies are not required in mercantile occupancies that have properly protected openings for escalators or stairs.

Exception No 6: Existing installations acceptable to the authority having jurisdiction."

6. Add a new subparagraph 9.6.2.10.8.1 to read as follows:

9.6.2.10.8.1 "Existing battery-powered smoke alarms as permitted by other sections of this *Code* shall be permitted to remain in use provided the following criteria are met:

1. The device is no older than 10 years of the manufactures date on the device; and,
2. The device is installed in a facility that was legally permitted before July 1, 1987, as a residential occupancy; and,
3. The facility has demonstrated to the authority having jurisdiction that the testing, maintenance, and battery replacement program will ensure reliability of power to the smoke alarms,

7. Add a new subparagraph 9.6.2.10.8.2 to read as follows:

9.6.2.10.8.2 "Existing battery-powered smoke alarms as permitted by other sections of this *Code* and which meet the provisions of subparagraph 9.6.2.10.8.1 shall be replaced with smoke alarms whose device housing is tamper resistant and is powered by a non-replaceable, non-removable energy source capable of powering the alarm for a minimum of ten years from the

manufacture's date on the device when any of the following apply:

1. The device is replaced for any reason; or,
2. The provisions of subparagraph 9.6.2.10.8.1 or not met; or,
3. There is no manufacture's date that exist on the device; or,
4. The device does not meet all of the provisions of subparagraph 9.6.2.10.8.1.

8. Delete 9.6.3.6.3 and its place substitute the following:

9.6.3.6.3 " * Where occupants are incapable of evacuating themselves because of age, dependence on verbal communication with caregivers, physical or mental disabilities, or physical restraint, the private operating mode as described in NFPA 72, *National Fire Alarm and Signaling Code*, shall be permitted to be used. Only attendants, caregivers, and other personnel that are required to relocate or assist in the relocation occupants from a zone, area, floor, or building shall be required to be notified. The notification shall include means to readily identify the zone, area, floor, or building in need of evacuation. Where approved by the authority having jurisdiction, the requirements for audible signaling shall be permitted to be further reduced or eliminated when visible signaling is provided in accordance with NFPA 72.

9. Add an Annex Note to 9.6.3.6.3 to read as follows:

A.9.6.3.6.3 "For example, in critical care patient areas, it is often desirable to not have an audible fire alarm even at reduced private mode levels. Another example would be classrooms for small children in day care or educational occupancies, where verbal communication is vital between caregivers or teachers and children during drills or during an actual fire or other emergency condition. Audible alarms often frighten small children and valuable time may be lost while trying to calm such children. Also, audible alarms at or near locations where clear communications is required may present a problem. A school office or a receptionist desk common to various occupancies are examples. An additional example of where an audible fire alarm could be a problem would be high noise level work areas where

an audible signal needed to overcome background noise at one time of the day would be excessively loud and potentially dangerous at another time of lower ambient noise. A sudden increase of more than 30 dB over 0.5 seconds is considered to cause sudden and potentially dangerous fright. Each case requires individual consideration by the authority having jurisdiction."

10. Add a new subparagraph 9.7.1.1.1 to read as follows:

9.7.1.1.1 "NFPA 13R, *Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Heights*, shall be permitted for use as specifically referenced in Chapters 24 through 33 of this *Code*. This standard shall also be permitted for the design and installation of automatic sprinkler systems in personal care homes, community living arrangements, day-care centers, and day-care homes in buildings up to and including four stories. When a single-story open-air parking structure of fire- restrictive construction is below a four-story residential occupancy the structure is considered within this scope. NFPA 13R automatic sprinkler systems shall not be permitted in assisted living communities or memory care units, as defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, unless authorized by the State Fire Marshal's Office."

11. Delete paragraph 9.9* in its entirety and substitute in its place the following:

9.9 " * Portable fire extinguishers shall be installed in all buildings, structures and facilities as set forth in this *Code* and as established in 906.1 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. (Refer to **Table 1.4.4, CODES REFERENCE GUIDE**)

12. Delete paragraph 9.10 in its entirety and substitute in its place the following:

9.10 "Where required by either the provisions of another section of this *Code*, the *International Building Code (IBC)* as adopted by the Department of Community Affairs or the *International Fire Code (IFC)* as adopted by Chapter 120-3-3 Rules and Regulations of the Safety Fire Commissioner, standpipe and hose systems shall be provided in accordance with NFPA 14, *Standard for the Installation of Standpipe and Hose Systems*. Where standpipe and hose systems are installed in combination with automatic sprinkler systems, installation shall be in accordance with the appropriate provisions established by

NFPA 13, *Standard for the Installation of Sprinkler Systems*, and NFPA 14, *Standard for the Installation of Standpipe and Hose Systems*."

(h) **Modifications to Chapter 10:**

1. Delete SECTION 10.3 in its entirety and substitute in its place the following:

SECTION 10.3 **"Decorations and Furnishings.**

10.3.1 The use of decorative materials (vegetative and non-vegetative), as defined in Chapter 2 of the *International Fire Code*, and furnishings in proposed (new) and existing buildings shall be regulated as set forth by Sections 805, 806, 807, and 808 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(i) **Modifications to Chapter 11:**

1. Delete subsection 11.1.6 in its entirety and substitute in its place the following:
11.1.6 **"Minimum Construction requirements.** The minimum construction requirements for the location of occupants of health care and ambulatory health care occupancies shall be as specified in accordance with the applicable occupancy chapter."
2. Delete paragraph 11.3.3.5 in its entirety and substitute in its place the following:
11.3.3.5 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all enclosed and normally occupied towers in accordance with 9.9 of this *Code*."
3. Add a new item (4) to paragraph 11.7.3.4 to read follows:
(4) "This requirement shall not apply to existing windowless or underground structures, excluding Chapter 15, with an occupant load of 100 or fewer persons in the windowless or underground portions of the structure."
4. Delete subsection 11.8.2.3 in its entirety and substitute in its place the following:
11.8.2.3 **"Smoke Proof Enclosures.** High-rise buildings shall be provided with smoke proof exit enclosures in accordance with 7.2.3."
5. Add a new paragraph 11.8.3.3 to read as follows:

11.8.3.3 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all high- rise buildings in accordance with 9.9."

6. Add a new subsection 11.9.6 to read as follows: "11.9.6 Extinguishing Equipment:

11.9.6.1 **Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all permanent membrane structures in accordance with 9.9."

7. Delete subsection 11.10.3 in its entirety and substitute in its place the following: "11.10.3 Extinguishing Equipment.

11.10.3.1 **Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all temporary membrane structures in accordance with 9.9."

8. Delete subsection 11.11 Tents and all subsections thereunder in its entirety and substitute in its place the following:

11.11.5.1 **Tents.** Tents shall comply with all applicable requirements of Chapter 31 of the International Fire Code as adopted in the Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3."

(j) **Modification to Chapter 12:**

1. Add a new subparagraph 12.1.1.2.1 to read as follows:

12.1.1.2.1 "Pursuant to O.C.G.A. [25-2-13\(b\)\(1\)\(F\), \(G\)](#) and G.1) and 25-2-14(c), "Racetracks, stadiums, grandstands, theaters, auditoriums, restaurants, bars, lounges, nightclubs, dance halls, recreation halls and other places of public assembly having an occupant load of 300 or more, except that the occupant load shall be 100 or more persons where alcoholic beverages are served, shall have a certificate of occupancy issued by the appropriate authority having jurisdiction. For churches the occupant load requirement is 500 or more persons in a common area or having an occupant load greater than 1,000 persons based on the total occupant load of the building or structure."

2. Reserved.

3. Add a new paragraph 12.3.5.5 to read as follows:

12.3.5.5 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all assembly occupancies in accordance with 9.9"

4. Add a note following Table 12.4.2.3 to read as follows:

"Note: See 12.4.2.6 for factors A, B and C in Tables 12.4.2.3 and 12.4.2.4."

5. Delete paragraph 12.4.6.11 in its entirety and substitute in its place the following:

12.4.6.11 **"Scenery, Decorations, and Furnishings.** Combustible decorations and scenery of cloth, film, foam plastic, vegetation, and similar materials shall meet the applicable provisions of 805, 806, 807, and 808 of the *International Fire Code (IFC)*, as set forth in SECTION 10-3 of this Code. Scenery and stage properties not separated from the audience by proscenium openings shall be either noncombustible or limited-combustible."

6. Add a new subparagraph 12.4.8.9 to read as follows:

12.4.8.9 "Special amusement buildings not open to the public in excess of 45 days in a twelve month period shall be permitted, provided all of the following conditions are met:

1. Portable fire extinguishers with a minimum of a 2A:10B:C rating are placed within 25 feet of each activity or viewing station, so as to be readily accessible and visible to staff;
2. A smoke detection system is placed throughout the facility with a smoke detector located at each activity or viewing station and located throughout corridors and halls not to exceed a spacing more than 15 feet (4.6 m) from a wall or more than 30 feet (9.1 m) on center. Where there is no ceiling or cover over activity or viewing stations, or over exit access routes, other than the standard ceiling, smoke detectors shall be placed so that their area of coverage does not exceed the approval listing of the detectors;
3. Emergency lighting shall be provided which will cause illumination of the means of egress upon loss of power to lighting circuits for the means of egress routes serving the special amusement building. In addition, all staff shall be provided with flashlights;

4. Personnel dedicated for the sole purpose of performing fire watch duties as defined in Chapter 2 of the *International Fire Code* and as be deemed necessary for specific circumstances by the authority having jurisdiction, shall be provided in such numbers to ensure the entire special amusement space is surveyed at least every 30 minutes starting 30 minutes prior to public occupancy. Such personnel shall be provided with a direct communication device for communication with all viewing or activity stations throughout the facility. In addition such personnel shall be provided with appropriate training for the operation of portable fire extinguishing equipment;
 5. Communication to the responding fire department or emergency dispatch center is available from the facility (a regular telephone or at least two cell phones are acceptable);
 6. **"NO SMOKING"** signs shall be posted at entrances to the building. Receptacles for the discard of smoking material shall be located a minimum of 15 feet (9.1 m) from the structure and shall be clearly identified by applicable signage;
 7. Documentation of fire watch tours required by item 4 above is maintained. The documentation, at the minimum, shall note the time when the tour was conducted the name of personnel conducting the tour, and information about any hazards identified and actions taken to remove such hazards. Such documentation shall be readily available to the code official upon request.
 8. Interior wall and ceiling finish materials complying with Section 10.2 shall be Class A throughout."
7. Delete subsection 12.7.3 in its entirety and substitute in its place the following:
- 12.7.3 **"Open Flame and Pyrotechnics.** No open flame devices or pyrotechnic devices shall be used in any assembly occupancy, unless otherwise provided by 12.7.3.1 through 12.7.3.4.
- 12.7.3.1 As set forth in the exceptions to 308.3 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

12.7.3.2 This requirement shall not apply to heat-producing equipment complying with 9.2.2.

12.7.3.3 This requirement shall not apply to food service operations in accordance with 13.7.1.

12.7.3.4 Gas lights shall be permitted to be used, provided that precautions subject to the approval of the authority having jurisdiction are taken to prevent ignition of any combustible materials."

8. Delete subsection 12.7.4 in its entirety and substitute in its place the following:

12.7.4 "**Scenery, Decorations, and Furnishings.** Combustible decorations, curtains, draperies, similar furnishings, and scenery of cloth, film, foam plastic, vegetation, and similar materials shall meet the applicable provisions of 805, 806, 807, and 808 of the *International Fire Code (IFC)*, as set forth in SECTION 10-3 of this *Code*. The authority having jurisdiction shall impose additional controls, as he or she deems necessary, on the quantity and arrangement of combustible contents in assembly occupancies to provide an adequate level of safety to life from fire. (Refer to the definition for "decorative materials" in Chapter 2 of the *International Fire Code*."

9. Delete section 12.7.5.4 and subsections 12.7.5.4.1 through 12.7.5.4.4 and substitute in its place the following:

12.7.5.4 "**Vehicles.** Vehicles on display indoors or within an exhibition facility shall comply with 2018 International Fire Code Section 314.4 as adopted in rules and regulations of the Safety Fire Commissioner Chapter 120-3-3.?"

10. Delete subsection 12.7.6 in its entirety and substitute in its place the following:

12.7.6 "**Crowd Managers.** Crowd managers shall be provided as required by 403.12.3 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

11. Delete subsection 12.7.13 in its entirety and substitute in its place the following:

12.7.13 "**Emergency Planning and Preparedness.** Assembly occupancies (Group A) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an

emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(k) **Modification to Chapter 13:**

1. Add a new subparagraph 13.3.5.1.1 to read as follows:

13.3.5.1.1 "The provisions of 13.3.5.1 shall not apply to locations that were approved for occupancy prior to the adoption of the 2012 edition of the *Life Safety Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, adopted 1/1/2014, and provided the conditions approved have not been modified without subsequent required review and approval by the authority having jurisdiction, and provided the provisions of 13.1.1.4 and 13.1.1.5 of this *Code*, as applicable, and the provisions of Section 103 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner, and as applicable to existing buildings are met."

2. Add a new paragraph 13.3.5.5 to read as follows:

13.3.5.5 "**Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all assembly occupancies in accordance with 9.9."

3. Add a note following Table 13.4.2.3 to read as follows:

"Note: See 12.4.2.6 for factors A, B and C in Tables 13.4.2.3 and 13.4.2.4.1."

4. Add a new paragraph 13.4.8.9 to read as follows:

13.4.8.9 "Special amusement buildings not open to the public in excess of 45 days in a twelve month period shall be permitted, provided all of the following conditions are met:

1. Portable fire extinguishers with a minimum of a 2A:10B:C rating are placed within 25 feet of each activity or viewing station, so as to be readily accessible and visible to staff;
2. A smoke detection system is placed throughout the facility with a smoke detector located at each activity or viewing station and located throughout corridors and halls not to

exceed a spacing more than 15 feet (4.6 m) from a wall or more than 30 feet (9.1 m) on center. Where there is no ceiling or cover over activity or viewing stations, or over exit access routes, other than the standard ceiling, smoke detectors shall be placed so that their area of coverage does not exceed the approval listing of the detectors;

3. Emergency lighting shall be provided which will cause illumination of the means of egress upon loss of power to lighting circuits for the means of egress routes serving the special amusement building. In addition, all staff shall be provided with flashlights;
4. Personnel dedicated for the sole purpose of performing fire watch duties as defined in Chapter 2 of the *International Fire Code* and as be deemed necessary for specific circumstances by the authority having jurisdiction, shall be provided in such numbers to ensure the entire special amusement space is surveyed at least every 30 minutes starting 30 minutes prior to public occupancy. Such personnel shall be provided with a direct communication device for communication with all viewing or activity stations throughout the facility. In addition such personnel shall be provided with appropriate training for the operation of portable fire extinguishing equipment;
5. Communication to the responding fire department or emergency dispatch center is available from the facility (a regular telephone or at least two cell phones are acceptable);
6. **"NO SMOKING"** signs shall be posted at entrances to the building. Receptacles for the discard of smoking material shall be located a minimum of 15 feet (9.1 m) from the structure and shall be clearly identified by applicable signage;
7. Documentation of fire watch tours required by item 4 above is maintained. The documentation, at the minimum, shall note the time when the tour was conducted the name of personnel conducting the tour, and information about any hazards identified and actions taken to remove such hazards. Such documentation shall be readily available to the code official upon request.

8. Interior wall and ceiling finish materials complying with Section 10.2 shall be Class A throughout."
5. Delete subsection 13.7.3 in its entirety and substitute in its place the following:
 - 13.7.3 **"Open Flame and Pyrotechnics.** No open flame devices or pyrotechnic devices shall be used in any assembly occupancy.
 - 13.7.3.1 This requirement shall not apply as set forth in the exceptions to 308.3.1 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.
 - 13.7.3.2 This requirement shall not apply to heat-producing equipment complying with 9.2.2.
 - 13.7.3.3 This requirement shall not apply to food service operations in accordance with 13.7.2.
 - 13.7.3.4 Gas lights shall be permitted to be used, provided that precautions subject to the approval of the authority having jurisdiction are taken to prevent ignition of any combustible materials."
6. Delete section 13.7.5.4 and subsections 13.7.5.4.1 through 13.7.5.4.4 and substitute in its place the following:
 - 13.7.5.4 " Vehicle. Vehicles on display indoors or within an exhibition facility shall comply with 2018 International Fire Code Section 314.4 as adopted in rules and regulations of the Safety Fire Commissioner Chapter 120-3-3."
7. Delete subsection 13.7.6 in its entirety and substitute in its place the following:
 - 13.7.6 **"Crowd Managers.** Crowd managers shall be provided as required by 403.12.3 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."
8. Delete subsection 13.7.7 in its entirety and substitute in its place the following:
 - 13.7.7 **"Emergency Planning and Preparedness.** Assembly occupancies (Group A) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training,

and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(l) **Modifications to Chapter 14:**

1. Add a new paragraph 14.1.1.6 to read as follows:

14.1.1.6 "**Mobile/Portable Classrooms.** Each mobile/portable classroom shall not be occupied until the required Certificate of Occupancy has been authorized by the State Fire Marshal's Office, the proper local fire marshal, state inspector, or others authorized by O.C.G.A. Section [25-2-12](#)."

2. Add a new subparagraph 14.1.1.6.1 to read as follows:

14.1.1.6.1 "**Classification.** Mobile/portable classroom structures, as defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner shall also be classified as Group E - Educational occupancies and shall comply with the provisions of this section and other sections applicable to Group E - Educational occupancies, except as may be provided otherwise elsewhere in this *Code* or in Chapter 120-3-3, of the Rules and Regulations of the Safety Fire Commissioner.

3. Add a new paragraph 14.1.1.6.2 to read as follows:

14.1.1.6.2 "Plans and specifications for proposed (new) mobile/portable classrooms shall be submitted to and receive approval by either the State Fire Marshal's Office, the proper local fire marshal, state inspector, or others authorized by O.C.G.A. [25-2-12](#) prior to construction. A Georgia registered architect or engineer must place his or her seal on the plans submitted. Submitted plans must include a site plan that is drawn to scale and showing clearances from other mobile/portable classroom structures and other structures. Such site plan shall also show the exit discharge route(s) to a public way in accordance with this *Code*, or where such is not possible, to an approved area of refuge."

4. Add a new paragraph 14.1.1.6.3 to read as follows:

14.1.1.6.3 "Proposed (new) mobile/portable classrooms shall comply with the various provisions of this *Code* applying to classrooms in

educational occupancies (Group E - Educational), unless otherwise specified."

5. Add a new paragraph 14.1.1.5.4 to read as follows:

14.1.1.6.4 "Locating Mobile/Portable Classroom Structures. Mobile/portable classrooms shall not be installed within 25 feet (7.6 m) of any exposed building or structure, or within 10 feet (3.05 m) of another exposed mobile/portable classroom unit. The mobile/portable classroom unit shall not be connected to any other unit, or to other buildings or structures by a canopy of combustible construction. The distance between a mobile/portable classroom unit and an exposed building or structure, that is totally protected by an approved automatic sprinkler system, may be reduced to 10 feet (3.05 m), provided, the exposed exterior wall is of noncombustible construction, and there are no windows or doors in the exposed wall of the building within 25 feet (7.6 m) of the mobile/portable classroom unit. The distance may be reduced to 0 feet if the exposed wall is of noncombustible construction having a certified fire resistance rating of at least 2-hours and without openings within 25 feet of the exposing mobile/portable classroom unit."

6. Add a new paragraph 14.2.1.4.1, to read as follows:

14.2.1.4.1 "The provisions of 14.2.1.2 and 14.2.1.3 shall not apply to educational facilities that meet the requirements of 16.1.6."

7. Add a new subparagraph 14.2.2.2.2.1 to read as follows:

14.2.2.2.2.1 "Doors serving as exits from mobile/portable classrooms shall not be less than 32 inches (0.91 m) in clear width, swing outward with exit travel onto landings at least 4 feet by 4 feet (1.2 m by 1.2 m), and have steps and/or ramps complying with applicable provisions of this *Code*. This includes guardrails and graspable handrails. Steps and ramps serving fewer than 50 persons may be 36 inches (0.91m) in clear width."

8. Add a new paragraph (5) to 14.2.11.1.1 1 to read as follows:

(5) "Windows may open onto a court or an enclosed court provided all of the following criteria are met:

- (a) The court shall be of sufficient width such that persons exiting through the courtyard will be at a minimum dimension not less

than 10 feet (3 m) from any portion of the building that could present an exposure condition to a fire.

- (b) The court has exits directly to the exterior of the building through an exit passageway that is separated out from all other parts of the building by 2-hour fire-rated construction. No space other than exit corridors protected by 'B' labeled 1½-hour fire doors, whether normally occupied or not, shall open onto this required exit passageway.
- (c) The exit capacity for the exit passageway shall be of sufficient width for the corridors connected to it as well as the enclosed court calculated at 15 square feet (1.4 sq. m) per person or minimum number of students subject to exiting into the court, whichever is the greater of the two.
- (d) The travel distance from any point in a connecting classroom to the exterior of the building through the exit passageway shall not exceed 150 feet (45.7 m).
- (e) The court is provided with emergency lighting to direct occupants to the exit(s) in accordance with Section 5.9.
- (f) The exit(s) from the court is/are clearly marked in accordance with Section 7.10."

9. Add a new paragraph 14.2.11.4 to read as follows:

14.2.11.4 **"School Hallway Interior Emergency Lockdown Defense (SHIELD).** The installation of a School Hallway Interior Emergency Lockdown Defense (SHIELD) shall be permitted in educational occupancies provided all of the following criteria are met:

- (1) Activation shall be by means of depressing a panic button or pull station marked for emergency SHIELD available to school administration at a central location. Additional activation may be by telephone code.
- (2) System activation shall automatically contact law enforcement authorities upon activation.

- (3) Cross corridor doors may be provided with magnetic hold open devices to release upon activation of the system.
- (4) Upon activation of the system, cross corridor doors shall be permitted to be kept in the closed position with magnetic locks.
- (5) System hardware shall be provided with emergency power or battery back-up in event of loss of power.
- (6) Smoke detectors shall be provided within 15 feet of cross corridor doors on the classroom egress side for each corridor zone and be identified distinctly from other required detectors. Such detectors upon activation by smoke shall release door mag locks for the locked zone to freely open. Detectors are not required to be interconnected into the building's fire alarm system.
- (7) Card readers with keypad shall be installed on the ingress side of the doors requiring a PIN code and card swipe to deactivate for the activated corridor zone.
- (8) Keypad shall be installed on the egress side of the doors only requiring a PIN code for deactivation of the door mag locks for the activated corridor zone.
- (9) A blue light strobe and siren, distinct from that of the fire alarm may be provided to deter intruders.
- (10) Staff shall be adequately trained on the intent and operation of the system with the conduction of mock drills.

14.2.11.4.1 **(SHIELD) Activation.** The SHIELD system shall only be activated in the following

- (1) The event of intrusion or active shooter upon school premises.
- (2) For the purposes of testing the system.
- (3) For the purposes of conducting drills related to the intrusion or active shooter upon school premises."

10. Delete subparagraph 14.3.2.1(1)(a) in its entirety and substitute in its place the following:
 - (a) "Boiler and furnace rooms, unless such rooms enclose only air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 Btu. Such rooms shall not be used for any combustible storage. In addition, a minimum of 30 inches (0.76 m) shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."
11. Delete the term "Laundries" from 14.3.2.1(2)(a) and substitute in its place the following:
 - (a) "Laundry areas utilizing commercial equipment, multiple residential appliances, or exceeding 100 square feet (9.3 sq. m)."
12. Add a new subparagraph 14.3.2.2.1 to read as follows:

14.3.2.2.1 "Residential type cooking equipment. Residential type cooking equipment located in food preparation areas of home economic labs may be protected by a listed self-contained residential fire suppression systems located in a residential hood over each cooking surface, with the exhaust hood vented directly to the outside of the building. The fire suppression system shall automatically disconnect electric power to electric stoves or shut off the gas supply to gas fueled stoves. Food preparation areas located in home economics labs need not be so protected where located in a fully sprinklered building or where protection is provided in accordance with 9.7.1.2, provided, however, the exhaust hood shall still be required to be vented to the outside of the building."
13. Add a new subparagraph 14.3.4.2.3.3 to read as follows:

14.3.4.2.3.3 "Manual fire alarm boxes may be located in rooms which open directly onto such corridors and normal paths of travel provided all of the following are met:

 - (1) The rooms in which such manual fire alarm boxes are placed are constantly supervised all school hours.
 - (2) The rooms in which such manual fire alarm boxes are placed are located in close proximity to the to that portion of the corridors and normal paths of travel where

a manual fire alarm box would be placed in accordance with 9.6.2.5.

- (3) A sign is placed on the corridor wall immediately adjacent to the entry door(s) of such room so that it can be readily seen at all times. The sign shall state **"MANUAL FIRE ALARM BOX LOCATED IN THIS ROOM"**. The sign shall have a red background and the letters shall be white and be at least one inch in height."

- 14. Delete subparagraph 14.3.4.3.1.1 in its entirety and substitute in its place the following:

14.3.4.3.1.1 "Occupant notification shall be by means of audible and visual alarm devices in accordance with 9.6.3 and Chapter 120-2-20, Rules and Regulations of the Safety Fire Commissioner. Where visual alarm devices are located inside classrooms the installation of an audible device or component shall not be required, provided the audible alarm signal from alarm devices located in adjacent corridors or compartments is clearly audible in the classrooms, and is subject to the approval of the authority having jurisdiction."

- 15. Add a new subparagraph 14.3.5.6 to read as follows:

14.3.5.6 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in educational occupancies, including mobile/portable classrooms, in accordance with 9.9.

14.3.5.6.1 In lieu of locating portable fire extinguishers in corridors and normal paths of travel as specified in NFPA Standard 10, *Standard for Portable Fire Extinguishers*, portable fire extinguishers may be located in rooms that open directly onto such corridors and paths of travel, provided, all of the following are met:

- (a) The rooms in which such portable fire extinguishers are placed are located in close proximity to that portion of the corridor where a portable fire extinguisher would normally be placed in accordance with NFPA Standard 10.

- (b) A sign which states, in white letters at least one inch in height on a red background, **"PORTABLE FIRE EXTINGUISHER LOCATED IN THIS ROOM,"** is placed on the corridor wall immediately adjacent to the entrance(s) of each such room so that it can be clearly seen at all times."
- (c) The rooms in which such portable fire extinguishers are placed shall be constantly supervised during school hours.
- (d) These rooms cannot be subject to being locked at any time the building is occupied."

16. Add a new item 6 to subsection 14.3.6 to read as follows:

- 6. "Door closing devices are not required on doors in corridor wall openings other than those serving exits or required enclosures of hazardous areas."

17. Add a new paragraph 14.4.3.6 to read as follows:

- 14.4.3.6 "Corridor walls in flexible plan buildings shall comply with subsection 14.3.6 as modified.

18. Add a new paragraph 14.5.2.3 to read as follows:

- 14.5.2.3 "Portable electric and liquefied petroleum gas or liquid fuel fired space heating devices designed to be portable are prohibited in all portions of educational buildings, unless such use is permitted by 603.4 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

19. Add new subparagraph 14.7.1.1 to read as follows:

- 14.7.1.1 "Emergency Planning and Preparedness. Educational occupancies (Group E - Educational) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency situation. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with the applicable provisions of Chapter 4 of the *IFC*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(m) Modifications to Chapter 15:

1. Add a new subparagraph 15.1.1.1.1 to read as follows:

15.1.1.1.1 **"Existing Mobile/Portable Classroom Structures.**

- (a) Existing mobile/portable classroom structures, which have been installed prior to the effective date of this *Code*, and which were deemed to be in compliance with provisions in effect at the time of their installation, shall be permitted to remain in use, if deemed to have been maintained as approved, and meet specific provisions of this chapter applicable to existing mobile/portable classroom structures.
- (b) When an existing mobile/portable classroom structure is removed from a school system, the certificate of occupancy for that structure becomes void, provided, however, the structure shall retain the status of an existing structure if continued in service as a classroom structure in another school system. This shall also apply to leased or rented mobile/portable classroom structures. A new certificate of occupancy shall be required for the relocated structure, and shall be issued provided the structure meets the provisions of this *Code* that are applicable to existing mobile/portable classrooms."

2. Add a new paragraph 15.1.1.6 to read as follows:

15.1.1.6 "Existing mobile/portable classrooms shall comply with the various provisions of this *Code* applying to classrooms in existing educational occupancies, unless otherwise specified in this chapter."

3. Add a new paragraph 15.1.1.7 to read as follows:

15.1.1.7 "When relocated, a mobile/portable classroom structure shall not be placed within 25 feet (7.6 m) of any building or structure or within 10 feet (3.1 m) of another mobile/portable classroom structure. Such mobile/portable classroom structures shall not be connected to any building or other mobile classroom structure by a canopy of combustible construction. An existing canopy of combustible components may be continued in use provided no combustible components are within 25 feet (7.6 m) of any building or structure or within 10 feet (3.1 m) of another mobile/portable classroom structure. The distance between a mobile/portable classroom unit

and an exposed building or structure, that is totally protected by an approved automatic sprinkler system, may be reduced to 10 feet (3.05 m), provided, the exposed exterior wall is of noncombustible construction, and there are no windows or doors of the exposed wall of the building within 25 feet (7.6 m) of the mobile/portable classroom unit. The distance may be reduced to 0 feet if the exposed wall is of noncombustible construction having a certified fire resistance rating of at least 2-hours and without openings within 25 feet of exposing mobile/portable classroom unit."

4. Add a new paragraph 15.2.1.5 to read as follows:

15.2.1.5 "The provisions of 15.2.1.2 and 15.3.2.3 shall not apply to facilities that meet the requirements of 16.1.6."

5. Add a new subparagraph 15.2.2.2.1 to read as follows:

15.2.2.2.1 "Doors serving as exits from existing mobile/portable classrooms shall not be less than 32 inches (0.91 m) in clear width, unless originally approved for a clear width of not less than 28 inches. Such exit doors shall open onto landings 4 feet by 4 feet (1.2 m by 1.2 m) and have stairs and or ramps, as needed, complying with applicable provisions of this *Code*. Landings, stairs, ramps, guardrails, and handrails installed and approved prior to the effective date of this *Code*, if maintained in a state of good repair, may be continued in use. When a mobile/portable classroom structure is moved to another site at the same school or another school, landings, stairs, ramps, guardrails, and graspable handrails shall comply with the applicable requirements of this *Code* for new construction."

6. Delete paragraph 15.2.2.2.4 and replace with a new paragraph 15.2.2.2.4

15.2.2.2.4 * Locking of Classroom Doors and Other Instructional Spaces.

15.2.2.2.4.1 Classroom doors and doors to other instructional spaces shall be permitted to be locked provided that the locking means is approved, and all of the following conditions are met:

- (1) The locking means shall be capable of being engaged from the egress side of the door without opening the door.

- (2) The unlocking and unlatching from the egress side of the door shall be accomplished without the use of a key, tool, or special knowledge or effort.
- (3) * Two non-simultaneous releasing motions shall be permitted where approved by the authority having jurisdiction. The Chief Fire Official of the local responding Fire Department must approve the locking device.
- (4) The releasing mechanism for unlocking and unlatching shall be located at a height not less than 34 in. (865 mm) and not exceeding 48 in. (1220 mm) above the finished floor.
- (5) Locks, if remotely engaged, shall be unlockable from the egress side of the door without the use of a key, tool, or special knowledge or effort.
- (6) The door shall be capable of being unlocked and opened from outside the room with the necessary key or other credential.
- (7) The locking means shall not modify the door closer, panic hardware, or fire exit hardware or impair their operation.
- (8) Modifications to fire door assemblies, including door hardware, shall be in accordance with NFPA 80.
- (9) The emergency action plan, required by 15.7.1, shall address the use of the locking and unlocking means from both sides of the door.

(10) Staff shall be drilled in the engagement and release of the locking means, from both sides of the door, as part of the emergency egress drills required by 15.7.2.

A.15.2.2.2.4.1(3) The installation of new hardware that necessitates two non-simultaneous releasing motions on existing doors in existing educational occupancies in accordance with 15.2.2.2.4.1(3) is permitted where such installation is necessary for compliance with the door locking criteria in 15.2.2.2.4.1. In accordance with 43.1.4.5, rehabilitation work performed for compliance with the Code's existing occupancy requirements is exempt from Chapter 43 and the installation of such new equipment is not subject to Section 43.5, which would require compliance with the new occupancy provisions. Where a new door is installed in an existing educational occupancy, the requirements of 14.2.2.2.4 apply.

15.2.2.2.4.2 Where existing classroom doors and doors to instructional spaces are replaced, they shall comply with the provisions of 14.2.2.2.4.

7. Add a new item (4) to paragraph 15.2.11.1 to read as follows:

- (4) "Windows may open onto a court or an enclosed court provided all of the following criteria are met:
- (a) The court shall be of sufficient width such that persons exiting through the courtyard will be at a minimum dimension not less than 10 feet (3 m) from any portion of the building that could present an exposure condition to a fire.
 - (b) The court has exits directly to the exterior of the building through an exit passageway that is separated out from all other parts of the building by 2-hour fire-rated construction. No space other than exit corridors protected by 'B' labeled 1½-hour fire doors, whether normally occupied or not, shall open onto this required exit passageway.
 - (c) The exit capacity for the exit passageway shall be of sufficient width for the corridors connected to it as well as the enclosed court calculated at 15 square feet (1.4 sq. m) per person or minimum number of students subject to exiting into the court, whichever is the greater of the two.
 - (d) The travel distance from any point in a connecting classroom to the exterior of the building through the exit passageway shall not exceed 150 feet (45.7 m).
 - (e) The court is provided with emergency lighting to direct occupants to the exit(s) in accordance with Section 5.9.
 - (f) The exit(s) from the court is/are clearly marked in accordance with Section 7.10."

8. Add a new paragraph 15.2.11.3 to read as follows:

15.2.11.3 "School Hallway Interior Emergency Lockdown Defense (SHIELD). The installation of a School Hallway Interior Emergency Lockdown Defense (SHIELD) shall be permitted in educational occupancies provided all of the following criteria are met:

- (1) Activation shall be by means of depressing a panic button or pull station marked for emergency SHIELD available to school administration at a central location. Additional activation may be by telephone code.

- (2) System activation shall automatically contact law enforcement authorities upon activation.
- (3) Cross corridor doors may be provided with magnetic hold open devices to release upon activation of the system.
- (4) Upon activation of the system, cross corridor doors shall be permitted to be kept in the closed position with magnetic locks.
- (5) System hardware shall be provided with emergency power or battery back-up in event of loss of power.
- (6) Smoke detectors shall be provided within 15 feet of cross corridor doors on the classroom egress side for each corridor zone and be identified distinctly from other required detectors. Such detectors upon activation by smoke shall release door mag locks for the locked zone to freely open. Detectors are not required to be interconnected into the building's fire alarm system.
- (7) Card readers with keypad shall be installed on the ingress side of the doors requiring a PIN code and card swipe to deactivate for the activated corridor zone.
- (8) Keypad shall be installed on the egress side of the doors only requiring a PIN code for deactivation of the door mag locks for the activated corridor zone.
- (9) A blue light strobe and siren, distinct from that of the fire alarm may be provided to deter intruders.
- (10) Staff shall be adequately trained on the intent and operation of the system with the conduction of mock drills.

15.2.11.3.1 **(SHIELD) Activation.** The SHIELD system shall only be activated in the following situations:

- (1) The event of intrusion or active shooter upon school premises.
- (2) For the purposes of testing the system.

- (3) For the purposes of conducting drills related to the intrusion or active shooter upon school premises."

9. Delete subparagraph 15.3.2.1(1)(a) in its entirety and substitute in its place the following:

- (a) "Boiler and furnace rooms, unless such rooms enclose air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

10. Delete the term "Laundries" from subparagraph 15.3.2.1(2)(a) and substitute in its place the following:

- (a) "Laundry areas utilizing commercial equipment, multiple residential appliances, or exceeding 100 square feet (9.3 sq. m)."

11. Add a new paragraph 15.3.2.2.1 to read as follows:

- 15.3.2.2.1 "Food preparation areas located in home economic labs may be protected by listed self-contained residential fire suppression systems located in a residential hood over each cooking surface, with the exhaust hood vented directly to the outside. Required use of automatic disconnects of fuel source or power source is subject to the approval of the authority having jurisdiction. Food preparation areas located in home economic labs need not be protected where in a fully sprinklered building or where protection is provided in accordance with 9.7.1.2. The exhaust hood is still required to be vented to the outside if installed after July 28, 1998."

12. Add items (3) and (4) to paragraph 15.3.4.2.1 to read as follows:

- (3) "Where each classroom in a mobile/portable classroom structure is provided with a two-way communication system that will permit initiation of the communication from the classroom as well as from a constantly attended location in the main administrative office of the school from which a general alarm can be sounded, if needed, and the

fire department can be summoned. A telephone mounted in each classroom and equipped with speed dialing, or a similar function, to provide contact with the constantly attended location noted above, shall be acceptable as a two- way communication system for purposes of this provision. The procedure for using the system for emergency alerting shall be clearly posted near the system actuation device in each classroom and at the constantly attended location.

- (4) Fire alarm alerting provisions for existing mobile/portable classroom structures approved prior to the effective date of this *Code*, and which are in a state of operational readiness. At the minimum, such provisions shall provide alerting of a fire condition in each mobile/portable classroom structure. Where alerting is by an alarm bell or horn, the sound/signal shall be distinctive from other bells or horns."

13. Add a new subparagraph 15.3.4.2.3.3 to read as follows:

15.3.4.2.3.3 "In lieu of locating manual fire alarm boxes in educational occupancies in corridors and normal paths of travel, the fire alarm boxes may be located in rooms which open directly onto such corridors and normal paths of travel provided all of the following are met:

- (1) The rooms in which such manual fire alarm boxes are placed are constantly supervised all school hours.
- (2) The rooms in which such manual fire alarm boxes are placed are located in close proximity to the to that portion of the corridors and normal paths of travel where a manual fire alarm box would be placed in accordance with 9.6.2.5.
- (3) A sign is placed on the corridor wall immediately adjacent to the entry door(s) of such room so that it can be readily seen at all times. The sign shall state **"MANUAL FIRE ALARM BOX LOCATED IN THIS ROOM". The sign shall have a red background and the letters shall be white and be at least one inch in height."**

14. Add a new paragraph 15.3.5.6 to read as follows:

15.3.5.6 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in educational occupancies, including mobile/portable classrooms, in accordance with 9.9.

15.3.5.6.1 In lieu of locating portable fire extinguishers in corridors and normal paths of travel as specified in NFPA 10, *Standard for Portable Fire Extinguishers*, portable fire extinguishers may be located in rooms that open directly onto such corridors and normal paths of travel provided all of the following are met:

- (a) The room in which such portable fire extinguishers are placed are located in close proximity to that portion of the corridor where a fire extinguisher would otherwise be placed in accordance with NFPA 10; *Standard for Portable Fire Extinguishers*,
- (b) A sign which states in white letters at least one inch in height on a red background, **'PORTABLE FIRE EXTINGUISHER LOCATED IN THIS ROOM,'** is placed on the corridor wall immediately adjacent to the entrance way of each such room so that it can be clearly seen at all times;
- (c) The rooms in which such portable fire extinguishers are placed shall be constantly supervised during school hours; and,
- (d) Those rooms cannot be subject to being locked at any time the building is occupied."

15. Add a new item (6) to subsection 15.3.6 to read as follows:

- (6) "Door closing devices are not required on doors in corridor wall openings other than those serving exits or required enclosures of hazardous areas."

16. Add new paragraph 15.5.2.3 to read as follows:

15.5.2.3 "Portable electric and liquefied petroleum gas or liquid fuel fired space heating devices designed to be portable are prohibited in all portions of educational buildings.

15.5.2.3.1 As permitted by 603.4 of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

17. Delete subsection 15.7.1 in its entirety and substitute in its place the following:

15.7.1 **"Emergency Planning and Preparedness.** Educational occupancies (Group E) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(n) **Modification to Chapter 16:**

1. Add a new 16.1.1.2.1 to read as follows:

16.1.1.2.1 "Pursuant to O.C.G.A. [25-2-13\(b\)\(1\)\(I\)](#) the term Group Day-Care Home applies to day- care facilities where at least seven (7) but not more than twelve (12) children receive care. Further, the term Day Care Center applies where more than twelve (12) children receive care. Where such facilities are required to be licensed or commissioned as set forth by O.C.G.A. [25-2-13\(b\)\(1\)\(I\)](#), the facilities are also required to comply with the Rules and Regulations of the Safety Fire Commissioner and to obtain a Certificate of Occupancy pursuant to O.C.G.A. [25-2-14\(c\)](#)."

2. Add a new subparagraph 16.1.3.1.1 to paragraph 16.1.3.1 to read as follows:

16.1.3.1.1 "The provisions of 6.1.14 shall not apply to one- and two-family dwellings."

3. Delete paragraph 16.1.6.1 and its corresponding table in its entirety and substitute in its place the following:

16.1.6.1 "The location of day-care occupancies and clients of such shall be limited as shown in Table 16.1.6.1.

- 16.1.6.1.1 Day-Care occupancies with exits directly to the outside from each room normally occupied by clients may be of any construction type without being protected throughout by an automatic sprinkler system.

Table 17.1.6.1 Day-Care Occupancy Location					
Type of Construction	Age Group	Number of Stories			
		(Stories are counted starting at the floor of exit)			
		1	2	3	4+
I(443), I(332) and II(222)	0 through 4	YES	YES	YES	YES+
	5 and older	YES	YES	YES	YES+
II(111), III(211) and V(111)	0 through 4	YES	YES+	NO	NO
	5 and older	YES	YES	YES+	NO
IV(2HH)	0 through 4	YES	YES+	NO	NO
	5 and older	YES	YES+	NO	NO
II(000)	0 through 4	YES	YES+	NO	NO
	5 and older	YES	YES+	NO	NO
III(200) and V(000)	0 through 4	YES+	YES+	NO	NO
	5 and	YES	YES+	NO	NO

The types of construction in the Table are from NFPA 220, *Standard on Types of Building Construction*.

Refer to 8.2.1.2 and 8.2.1.2.1 of this *Code* and the conversion chart for cross-referencing to the construction types established by the *International Building Code*.

YES: Day-care occupancy location permitted in type of construction.

YES+: Day-care occupancy location permitted in type of construction if entire building is protected throughout by an approved automatic sprinkler system.

NO: Day-care occupancy location not permitted in type of construction."

4. Add a new paragraph 16.1.6.3 to read as follows:

16.1.6.3 **"Day-Care Facilities Located Below the LED.** The story below the level of exit discharge shall be permitted to be used in buildings of any construction type, other than Type II(000), Type III(200) and Type V(000) provided, the building is protected throughout by an approved automatic sprinkler system."

5. Add a new subparagraph 16.1.6.3.1 to read as follows:

16.1.6.3.1 "Where the story below the level of exit discharge is occupied as a day-care center, both of the following shall apply:

- (1) One means of egress shall be an outside or interior stair in accordance with 7.2.2. An interior stair, if used, shall only serve the story below the level of exit discharge. The interior stair shall be permitted to communicate with the level of exit discharge; however, the required exit route from the level of exit discharge shall not pass through the stair enclosure.
- (2) The second means of egress shall be permitted to be via an unenclosed stairway separated from the level of exit discharge in accordance with 8.6.5. The path of egress travel on the level of exit discharge shall be protected in accordance with 7.1.3.1."

6. Delete subsection 16.2.9 in its entirety and substitute in its place the following:

16.2.9 **"Emergency Lighting.** Emergency lighting shall be provided in accordance with Section 7.9 in the following areas:

1. In all interior stairs and corridors.
2. In all normally occupied spaces
3. Emergency lighting is not required in the following locations:
 - (1) Administrative areas other than receptionist areas.
 - (2) Mechanical rooms, storage areas, and rooms or areas not normally occupied by students."

7. Delete item (a) to paragraph 16.3.2.1(1) (a) in its entirety and substitute in its place the following:

- (a) "Rooms enclosing air handling equipment compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

8. Add an item (4) to paragraph 16.3.2.1 to read as follows:

- (4) "In areas where documentation is provided indicating an unreliable water source, the authority having jurisdiction may accept separation of these areas from the remainder of the building by fire barriers having not less than a 2-hour fire-resistance rating."

9. Delete the term "Laundries" from subparagraph 16.3.2.1 (2) a. and substitute in its place the following:

- a. "Laundry areas utilizing commercial equipment, multiple residential appliances, or exceeding 100 square feet (9.3 sq. m)."

10. Delete paragraph 16.3.2.3 in its entirety and substitute in its place the following:

16.3.2.3 "Food preparation facilities protected in accordance with 9.2.3 are not required to have openings protected between food preparation areas and dining areas. Where domestic cooking equipment is used for food warming or limited cooking, a listed self-contained

residential fire suppression system may be installed in a residential hood to cover the area of the cooking surface, with the exhaust hood vented directly to the outside. The fire suppression system shall automatically disconnect electric power to electric stoves or automatically shut off the gas supply to gas stoves. Such system shall be interconnected to the building fire alarm system where one is provided.

16.3.2.3.1 Subject to the approval of the authority having jurisdiction approval, where domestic cooking equipment is used for food warming or limited cooking, the requirements for a residential fire suppression system may be waived if the room is protected by approved automatic sprinkler protection. The provisions of 9.7.1.2 may be permitted. The exhaust hood is still required to be vented to the outside."

11. Delete subsection 16.3.5 in its entirety and substitute in its place the following:

16.3.5 **"Extinguishment Requirements.** Buildings containing day-care occupancies shall be sprinkler protected throughout for construction types as specified in Table 16.1.6.1 entitled "Day-Care Occupancy Location Limitations" and paragraph 16.1.6.3. Any required sprinkler system based upon Table 16.1.6.1 and paragraph 16.1.6.3 shall be in accordance with 9.7."

12. Add a new paragraph 16.3.5.1 to read as follows:

16.3.5.1 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all daycare occupancies in accordance with 9.9."

13. Add new paragraph 16.5.2.4 to read as follows:

16.5.2.4 "Portable electric and liquefied petroleum gas or liquid fuel fire space heating devices designed to be portable are prohibited in all portions of day-care facilities.

16.5.2.4.1 In emergency conditions when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the

manufacturer's instructions and the authority having jurisdiction."

14. Delete paragraph 16.6.1.6 in its entirety and substitute in its place the following:

16.6.1.6 **"Minimum Construction Requirements.** The minimum construction requirements for new day-care homes shall be limited to the types of building construction permitted by the *IBC* as specified in 8.2.1. Clients of a group day-care home in a multi-story building shall be restricted to the level of exit discharge, unless the provisions of 16.1.6 are met."

15. Add a new paragraph 16.6.3.6 to read as follows:

16.6.3.6 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all daycare home occupancies in accordance with 9.9."

16. Delete subsections 16.7.1 and 16.7.2 in their entirety and substitute in their place the following:

16.7.1 **"Emergency Planning and Preparedness.** Day-care occupancies (Group E and I-4) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(o) **Modifications to Chapter 17:**

1. Delete paragraph 17.1.1.4 in its entirety and substitute in its place the following:

17.1.1.4 "Pursuant to O.C.G.A. [25-2-13\(b\)\(1\)\(I\)](#) the term Group Day-Care Home applies to daycare facilities where at least seven (7) but not more than twelve (12) children receive care. Further, the term Day Care Center applies where more than twelve (12) children receive care. Where such facilities are required to be licensed or commissioned as set forth by O.C.G.A. [25-2-13\(b\)\(1\)\(I\)](#), the facilities are also required to comply with the Rules and Regulations of the Safety Fire Commissioner and to obtain a Certificate of Occupancy pursuant to O.C.G.A. [25-2-14\(c\)](#)."

2. Delete paragraph 17.1.1.5 in its entirety and substitute in its place the following:

17.1.1.5 "This section establishes life safety requirements for existing day-care occupancies, adult day-care facilities, and head start facilities in which more than 12 clients receive care, maintenance, and supervision by other than their relative(s) or legal guardian(s) for less than 24 hours per day. An existing day-care occupancy shall be allowed the option of meeting the requirements of Chapter 16 in lieu of Chapter 17. Any day-care occupancy that meets the requirements of Chapter 16 shall be judged to meet the requirements of Chapter 17."

3. Add a new subparagraph 17.1.3.1.1 to read as follows:

17.1.3.1.1 "The provisions of 6.1.14 shall not apply to one- and two-family dwellings."

4. Add a new subparagraph 17.1.4.1.1 to read as follows:

17.1.4.1.1 "Existing day-care centers that include part-day preschools, head-start programs, kindergartens, and other schools whose purpose involves education primarily for a group of children may continue to meet the requirements of this section or may be allowed the option of meeting the requirements of Chapter 15."

5. Delete subsection 17.1.6.1 and its corresponding table in its entirety and substitute in its place the following:

17.1.6.1 **"Location and Minimum Construction Requirements.** The location of day-care occupancies and clients of such shall be limited as shown in Table 17.1.6.1

17.1.6.1.2 Day-Care occupancies with exits directly to the outside from each room normally occupied by clients may be of any construction type without being protected throughout by an automatic sprinkler system.

17.1.6.1.3 "Centers located on the level of exit discharge in buildings of any construction type without a complete approved automatic sprinkler system, may be continued in use as a child day-care center housing children ages zero through four, or non-ambulatory children, as long as at least one exit door is provided directly to the outside of the building at ground level

from every room or space normally occupied by children, except restrooms. For centers existing prior to April 12, 1985, where direct access to the outside of the building is not possible from interior rooms, and such interior rooms are normally subject to occupancy by children, the interior room may continue to be used provided there are two remote exits from the rooms that provide access to two separate and distinct exits to the outside."

Table 17.1.6.1 Day-Care Occupancy Location

Table 17.1.6.1 Day-Care Occupancy Location					
Type of Construction	Age Group	Number of Stories			
		(Stories are counted starting at the floor of exit)			
		1	2	3	4+
I(443), I(332) and II (222)	0 through 4	YES	YES	YES	YES
	5 and older	YES	YES	YES	YES
II(111), III(211) and V(111)	0 through 4	YES	YES+	NO	NO
	5 and older	YES	YES	YES+	NO
IV(2HH)	0 through 4	YES	YES+	NO	NO
	5 and older	YES	YES+	NO	NO
II(000)	0 through 4	YES	YES+	NO	NO
	5 and older	YES	YES+	NO	NO

III(200) and V(000)	0 through 4	YES+	YES+	NO	NO
	5 and older	YES	YES+	NO	NO

The types of construction in the Table are from NFPA 220, *Standard on Types of Building Construction*. Refer to 8.2.1.2 and 8.2.1.2.1 of this *Code* and the conversion chart for cross-referencing to the construction types established by the *International Building Code*.

YES: Day-care occupancy location permitted in type of construction.

YES+: Day-care occupancy location permitted in type of construction if entire building is protected throughout by an approved automatic sprinkler system.

NO: Day-care occupancy is not permitted in this construction type."

6. Delete paragraph 17.2.2.2.6 in its entirety and replace with a new 17.2.2.2.6

17.2.2.2.6 Locking of Classroom Doors and Doors to Other Client Care Spaces.

17.2.2.2.6.1 Classroom doors and doors to other client care spaces shall be permitted to be locked provided that the locking means is approved, and all of the following conditions are met:

- (1) The locking means shall be capable of being engaged from the egress side of the door without opening the door.
- (2) The unlocking and unlatching from the egress side of the door shall be accomplished without the use of a key, tool, or special knowledge or effort.

- (3) * Two non-simultaneous releasing motions shall be permitted where approved by the authority having jurisdiction. The Chief Fire Official of the local responding Fire Department must approve the locking device.
- (4) The releasing mechanism for unlocking and unlatching shall be located at a height not less than 34 in. (865 mm) and not exceeding 48 in. (1220 mm) above the finished floor.
- (5) Locks, if remotely engaged, shall be unlockable from the egress side of the door without the use of a key, tool, or special knowledge or effort.
- (6) The door shall be capable of being unlocked and opened from outside the room with the necessary key or other credential.
- (7) The locking means shall not modify the door closer, panic hardware, or fire exit hardware or impair their operation.
- (8) Modifications to fire door assemblies, including door hardware, shall be in accordance with NFPA 80.
- (9) The emergency action plan, required by 17.7.1, shall address the use of the locking and unlocking means from both sides of the door.
- (10) Staff shall be drilled in the engagement and release of the locking means, from both sides of the door, as part of the emergency egress drills required by 17.7.2.

A.17.2.2.2.6.1(3) The installation of new hardware that necessitates two non-simultaneous releasing motions on existing doors in existing day care occupancies in accordance with 17.2.2.2.6.1(3) is permitted where such installation is necessary for compliance with the door locking criteria in 17.2.2.2.6.1. In accordance with 43.1.4.5, rehabilitation work performed for compliance with the *Code's* existing occupancy requirements is exempt from Chapter 43 and the installation of such new equipment is not subject to Section 43.5, which would require compliance with the new occupancy provisions. Where a new door is installed in an existing day care occupancy, the requirements of 16.2.2.2.6 apply.

17.2.2.2.6.2 Where existing classroom doors and doors to client care spaces are replaced, they shall comply with the provisions of 16.2.2.2.6.

7. Delete subsection 17.2.9 in its entirety and substitute in its place the following:

17.2.9 **"Emergency Lighting.** Emergency lighting shall be provided in accordance with Section 7.9 in the following areas:

1. In all interior stairs and corridors.
2. In all normally occupied spaces.

17.2.9.1 Emergency lighting is not required in the following areas:

- (1) Administrative areas other than receptionist areas.
- (2) Mechanical rooms, storage areas, and rooms not normally occupied by students."

8. Add a new subparagraph 17.3.2.1(1)(a)(1) to read as follows:

17.3.2.1(1)(a)(1) "Rooms enclosing air handling equipment compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input are not required to comply with 17.3.2.1(1) provided, such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

9. Delete paragraph 17.3.2.3 in its entirety and substitute in its place the following:

17.3.2.3 "Food preparation facilities protected in accordance with 9.2.3 are not required to have openings protected between food preparation areas and dining areas. Where domestic cooking equipment is used for food warming or limited cooking, a listed self-contained residential fire suppression system may be installed in a residential hood to cover the cooking surface, with the exhaust hood vented directly to the outside. Required use of automatic disconnects of the fuel source or power source is subject to the authority having jurisdiction. Upon receipt of a sworn affidavit, no protection is

required for existing domestic cooking equipment used for limited cooking or warming of foods.

17.3.2.3.1 Subject to the approval of the authority having jurisdiction, where domestic cooking equipment is used for food warming or limited cooking, the requirements for a residential fire suppression system may be waived if the room is protected by approved automatic sprinkler protection. The provisions of 9.7.1.2 may be permitted. The exhaust hood is still required to be vented to the outside."

10. Delete the term "Laundries" from subparagraph 17.3.2.1 (2)(a) and substitute in its place the following:

(a) "Laundry areas utilizing commercial equipment, or multiple residential appliances, or having a floor area exceeding 100 square feet (9.3 m)."

11. Add a new paragraph 17.3.5.3.1 to read as follows:

17.3.5.3.1 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all day- care occupancies in accordance with 9.9."

12. Delete subsection 17.4.1 in its entirety and substitute in its place the following:

17.4.1 **"Windowless or Underground Buildings.** Windowless or underground buildings or structures shall comply with the applicable provisions of Section 11.7. All such buildings and structures housing a day-care occupancy shall be protected throughout by an approved automatic sprinkler system.

17.4.1.1 "Buildings or structures existing prior to January 28, 1993, and housing day-care occupancies with an occupant load not greater than 100 may remain in use without being protected throughout by an automatic sprinkler system."

13. Add a subparagraph 17.5.1.2.1 to read as follows:

17.5.1.2.1 "In existing day-care occupancies, in lieu of special protective covers, receptacles may be placed at a minimum of six feet above the finished floor."

14. Add a new paragraph 17.5.2.4 to read as follows:

17.5.2.4 "Portable electric and liquefied petroleum gas or liquid fuel fire space heating devices designed to be portable are prohibited in all portions of day-care facilities.

17.5.2.4.1 "In emergency conditions when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufactures instructions and the authority having jurisdiction."

15. Delete subparagraph 17.6.1.4.1.2 in its entirety and substitute in its place the following:

17.6.1.4.1.2 "This section establishes life safety requirements for group day-care homes, adult daycare homes and head start facilities in which at least seven but not more than 12 clients receive care, maintenance, and supervision by other than their relative(s) or legal guardian(s) for less than 24 hours per day (generally within a dwelling unit). An existing day-care home shall be allowed the option of meeting the requirements of Section 16.6 in lieu of Section 17.2. Any day-care home that meets the requirements of Chapter 16 shall be judged to meet the requirements of Chapter 17."

16. Add an exception to subsection 17.6.1.4.1 to read as follows:

17.6.1.4.1 "Existing day-care homes that include part-day preschools, head-start programs, kindergartens, and other schools whose purpose involves education primarily for a group of children may continue to meet the requirements of this section or may be allowed the option of meeting the requirements of Chapter 15."

17. Delete paragraph 17.6.1.6 in its entirety and substitute in its place the following:

17.6.1.6 "Clients of a group day-care home in a multi-story building shall be restricted to the level of exit discharge, unless the provisions of 17.1.6.1 are met."

18. Add a new paragraph 17.6.3.6 to read as follows:

17.6.3.6 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all daycare home occupancies in accordance with 9.9."

19. Add a new subsection 17.6.3.7 to read as follows:

17.6.3.7 "In existing day-care homes in lieu of special protective covers, receptacles may be placed at a minimum of 6 feet (1.8 m) above the finished floor."

20. Delete subsections 17.7.1 and 17.7.2 in their entirety and substitute in their place the following:

17.7.1 **"Emergency Planning and Preparedness.** Day-care occupancies (Group E and I-4) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(p) **Modifications to Chapter 18:**

1. Delete subsection 18.1.1.1.8 in its entirety and in its place substitute the following:

18.1.1.1.8 "Buildings, or sections of buildings, that house older persons and that provide activities that foster continued independence but that do not include services distinctive to health care occupancies (see 18.1.4.2), as defined in 3.3.196.7, shall be permitted to comply with the requirements of other chapters of this *Code*, such as Chapters 30, 32 or 34 based upon appropriate licensing if required."

2. Add a new subparagraph 18.1.1.4.3.4.1 to read as follows:

18.1.1.4.3.4.1 "Minor renovations, alterations, modernizations or repairs as used in 18.1.1.4.3.4 shall mean that construction is less than 40% of the floor area within a smoke compartment."

3. Add the following to the list of hazardous areas in Subparagraph 18.3.2.1.2 to read as follows:

(8) "Soiled utility rooms also used for combustible storage - 1 hour."

4. Add a new subparagraph 18.3.2.5.2.1 to read as follows:

18.3.2.5.2.1 "Where a residential stove (a maximum of four surface burners or cooking elements), is used for food warming, limited cooking, or rehabilitation training, a residential style hood system ducted to the outside shall be installed to cover each cooking surface. Other protection or segregation shall not be required unless subsequent inspections reveal conditions have changed and a higher level of risk to life is deemed to exist by the authority having jurisdiction."

5. Delete subsections 18.7.1 and 18.7.2 in their entirety and substitute in their place the following:

18.7.1 **"Emergency Planning and Preparedness.** Health care occupancies (Group I-2) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code (IFC)*, and NFPA 99, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

6. Delete subsection 18.7.4 in its entirety and in its place substitute the following:

18.7.4 **"* Smoking.** Smoking regulations shall be adopted and shall include, at the least, the applicable provisions of Section 310 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(q) **Modifications to Chapter 19:**

1. Delete subsection 19.1.1.1.8 in its entirety and in its place substitute the following:

19.1.1.1.8 "Buildings, or sections of buildings, that house older persons and that provide activities that foster continued independence but do not include services distinctive to health care occupancies (see 19.1.4.2), as defined in 3.3.196.7, shall be permitted to comply with the requirements of other chapters of this *Code*, such as Chapters 31, 33 or 35 based upon appropriate licensing if required."

2. Add the following to the list of hazardous areas in subparagraph 19.3.2.1.5 to read as follows:

(9) "Soiled utility rooms used for combustible storage."

3. Add subparagraphs 19.3.2.5.2.1 to read as follows:

19.3.2.5.2.1 " Where residential stove cooking is used for food warming, limited cooking, or rehabilitation training, a residential style hood system ducted to the outside and equipped with a listed self- contained residential fire suppression system shall be installed to cover each cooking surface. Required use of automatic disconnects of fuel source or power source is subject to the approval of the authority having jurisdiction.

19.3.2.5.2.1.1 Other installations acceptable to the authority having jurisdiction shall be acceptable."

4. Add a new subparagraph 19.3.4.3.1.1 to read as follows:

19.3.4.3.1.1 " A Zoned, coded systems shall be permitted."

5. Delete subsections 19.7.1 and 19.7.2 in their entirety and substitute in their place the following:

19.7.1 "**Emergency Planning and Preparedness.** Health care occupancies (Group I-2) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code (IFC)* and NFPA 99, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

6. Delete subsection 19.7.4 in its entirety and in its place substitute the following:

19.7.4 "*** Smoking.** Smoking regulations shall be adopted and shall include, at the least, the applicable provisions of Section 310 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(r) **Modification to Chapter 20:**

1. Delete subsections 20.7.1 and 20.7.2 in their entirety and substitute in their place the following:

20.7.1 "**Emergency Planning and Preparedness.** Ambulatory health care facilities shall develop policies, procedures, plans, staff training, and

safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions for health care occupancies (Group I-2) of Chapter 4 of the *International Fire Code (IFC)* and NFPA 99, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(s) **Modification to Chapter 21:**

1. Delete subsections 21.7.1 and 21.7.2 in their entirety and substitute in their place the following:

21.7.1 **"Emergency Planning and Preparedness.** Ambulatory health care facilities shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions for health care occupancies (Group I-2) of Chapter 4 of the *International Fire Code (IFC)* and NFPA 99, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(t) **Modifications to Chapter 22:**

1. Delete paragraph 22.2.11.1.2 in its entirety and substitute in its place the following:

22.2.11.1.2 "Doors shall be permitted to be locked with approved detention locking mechanisms only in accordance with the applicable use condition. Padlocks are not permitted on housing unit doors or any other door located in the interior means of egress.

22.2.11.1.2.1 Padlocks are permitted on gates and doors located on exterior fencing, and in exterior walls, which are not part of the building, from areas of refuge located outside the building."

2. Delete the words 'fuel fired' from Table 22.3.2.1.
3. Add a note to Table 22.3.2.1 to read as follows:

"[Note: Areas incidental to resident housing will mean any areas that exceed 10% of the resident housing area. This includes sleeping areas, dayrooms, group activity space, or other common spaces for customary access of residents.]"

4. Delete paragraph 22.3.7.5 in its entirety and substitute in its place the following:

22.3.7.5 "Any required smoke barrier shall be constructed in accordance with Section 8.5 Smoke Barriers. Such barriers shall be of substantial construction and shall have structural fire resistance. Smoke barriers may have windows with wire glass in steel frames or tested window assemblies."

5. Delete subsection 22.7.1 in its entirety and substitute in its place the following:

22.7.1 **"Emergency Planning and Preparedness.** Detention and correctional facilities (Group I-3 occupancies) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

6. Delete subsection 22.7.2 in its entirety and substitute in its place the following:

22.7.2 "Policies and procedures shall be established by facility administrators to control and limit the amount of personal property in sleeping rooms and require periodic checks for the collection and storage of such items on a monthly basis. Records of periodic checks shall be kept and made available to the authority having jurisdiction upon request.

22.7.2.1 Facilities which provide closable metal lockers or fire-resistant containers for the storage of books, clothing, and other combustible personal property allowed in sleeping rooms."

(u) **Modifications to Chapter 23:**

1. Delete paragraph 23.2.11.1.2 in its entirety and substitute in its place the following:

23.2.11.1.2 "Doors shall be permitted to be locked with approved detention locking mechanisms only in accordance with the applicable use

condition. Padlocks are not permitted on housing unit doors or any other door located in the means of egress.

23.2.11.1.2.1 Padlocks are permitted on gates and doors located on exterior fencing and walls from areas of refuge located outside the building."

2. Delete the words 'fuel fired' from Table 23.3.2.1.

3. Add a note to Table 23.3.2.1 to read as follows:

"[Note: Areas incidental to resident housing will mean any areas that exceed 10% of the resident housing area. This includes sleeping areas, dayrooms, group activity space, or other common spaces for customary access of residents.]"

4. Delete paragraph 23.3.7.5 in its entirety and substitute in its place the following:

23.3.7.5 "Required smoke barriers shall be constructed in accordance with Section 8.5 Smoke Barriers. Such barriers shall be of substantial construction and shall have structural fire resistance. Smoke barriers may have windows with wire glass in steel frames or tested window assemblies."

5. Delete subsection 23.7.1 in its entirety and substitute in its place the following:

23.7.1 **"Emergency Planning and Preparedness.** Detention and correctional facilities (Group I-3 occupancies) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

6. Delete subsection 23.7.2 in its entirety and substitute in its place the following:

23.7.2 "Policies and procedures shall be established by facility administrators to control and limit the amount of personal property in sleeping rooms and require periodic checks for the collection and storage of such items on a monthly basis. Records of periodic checks shall be kept and made available to the authority having jurisdiction upon request.

23.7.2.1 Facilities which provide closable metal lockers or fire-resistant containers for the storage of books, clothing, and

other combustible personal property allowed in sleeping rooms."

(v) Modification to Chapter 24:

1. Delete the Title of Chapter 24 and retitle it to read as follows:

"Chapter 24 One- and Two-Family Dwellings/Community Living Arrangements"

2. Add a new subparagraph 24.1.1.1.1 to read as follows:

24.1.1.1.1 "In addition, this chapter establishes life safety requirements for facilities licensed by the State of Georgia as a 'Community Living Arrangement' for one to four individuals not related to the owner or administrator by blood or marriage whether the facility is operated for profit or not. Community Living Arrangements for five or more residents shall comply with the applicable requirements of Chapter 32."

3. Add a new paragraph 24.1.1.6 to read as follows:

24.1.1.6 "The use of a one- and two- family dwelling for the purposes of a Community Living Arrangement as licensed by the State, for one to four residents, shall constitute a change of occupancy sub-classification. The new sub-classification shall meet the requirements established in this Chapter for the One- and Two-Family Dwelling and the additional requirements specified under Section 24.4.

4. Add a new subparagraph 24.1.1.6.1 to read as follows:

24.1.1.6.1 The use of a one- and two- family dwelling for the purposes of a Community Living Arrangement as licensed by the State, for one to four residents shall not require automatic sprinkler protection.

5. Delete 24.2.2.1.2(2) in its entirety and substitute in its place the following:

(2) "The dwelling unit is protected throughout by an approved automatic sprinkler system in accordance with 24.3.5. This sprinkler provision shall not apply to a community living arrangement."

6. Add a new subparagraph to 24.2.4.1.1 to read as follows:

24.2.4.1.1 "Doors in the path of travel of a means of escape in Community Living Arrangement facilities shall be not less than 32 in. (81 cm) wide."

7. Add a new subparagraph 24.3.4.1.3.1 to read as follows:

24.3.4.1.3.1 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall apply."

8. Delete Section 24.4 in its entirety and substitute in its place the following:

24.4 **"Community Living Arrangements.**

24.4.1 **General.** The following shall be provided in addition to the requirements of this Chapter for facilities subject to being licensed as a Community Living Arrangement. Where there are conflicts in requirements specified elsewhere in this Chapter, the requirements specified under Section 24.4 shall prevail.

24.4.2 **Address identification.** New and Existing Community Living Arrangement structures shall have approved address numbers, building numbers or approved building identification placed in accordance with the provisions of the *International Fire Code*.

24.4.3 **Means of Egress.**

24.4.3.1 A Community Living Arrangement serving a resident dependent upon a wheelchair or other mechanical device for mobility shall provide at least two (2) exits from the Community Living Arrangement, remote from each other, and that are accessible to the residents.

24.4.3.2 Bedrooms for residents shall be separated from halls, corridors and other rooms by floor to ceiling walls, capable of resisting fire for not less than ½-hour, which is considered to be achieved if the partitioning is finished on both sides with lath and plaster or materials providing a 15-minute thermal barrier. Sleeping room doors shall be substantial doors, such as those of 1¾ in. (4.4-cm) thick, solid-bonded wood core construction or other construction of equal or

greater stability and fire integrity. Any vision panels shall be fixed fire window assemblies in accordance with 8.3.3 or shall be wired glass not exceeding 1296 sq. in (0.84 m²) each in area and installed in approved frames.

- 24.4.3.3 A room shall not be used as a bedroom where more than one-half the room height is below ground level.
- 24.4.3.4 Bedrooms which are partially below ground level shall have adequate natural light and ventilation and be provided with two useful means of egress.
- 24.4.3.5 Bedrooms occupied by residents shall have doors that can be closed. Doors shall be not less than 32 in. (81 cm) wide.
- 24.4.3.6 Any door in the path of travel of a means of means of egress or escape shall be not less than 32 in. (81 cm) wide.
- 24.4.3.7 Residents who need assistance with ambulation shall be provided bedrooms that have access to a ground-level exit to the outside or be provided bedrooms above ground level that have access to exits with easily negotiable ramps or easily accessible lifts.
- 24.4.3.8 **Locks.**
 - 24.4.3.8.1 Bedrooms may have locks on doors provided both the occupant and staff are provided with keys to ensure easy entry. Double-cylinder locks (locks requiring a key on both sides) are prohibited to be used on the bedroom door of a resident.

- 24.4.3.8.2 Exterior doors shall be equipped with locks that do not require keys to open the door from the inside.

24.4.4 **Detection and Alarm Systems**

- 24.4.4.1 A fire alarm system meeting the minimum requirements for Single- and Multiple Station Alarms and Household Fire Alarm Systems per NFPA 72 shall be installed.

24.4.4.2 **Smoke Detection.**

- 24.4.4.2.1 Smoke alarms shall be installed in accordance with the provisions of 9.6.2.10 of this *Code*. Any additional detection/alarm devices shall be as established by O.C.G.A. § [25-2-40](#).
- 24.4.4.2.2 Smoke alarms shall be installed on all levels, including basements but excluding crawl spaces and unfinished attics.
- 24.4.4.2.3 Additional smoke alarms shall be installed for all living areas as defined in 3.3.22.5 of this *Code*.
- 24.4.4.2.4 Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired persons.

24.4.4.3 **Carbon Monoxide Detectors.**

- 24.4.4.3.1 Carbon monoxide detectors shall be provided in the residence where natural gas, LP gas or heating oil is used to heat the residence.

- 24.4.4.3.2 Carbon monoxide detectors shall be provided in the residence if a solid fuel-burning fireplace or fixed heating device is installed the residence.

24.4.5 **Protection.**

- 24.4.5.1 **Portable Fire Extinguishers.** Portable fire extinguishers in accordance with Section 9.9 shall be provided near hazardous areas.

- 24.4.5.1.1 At least one 5 lb. 2A rated multipurpose ABC portable fire extinguisher shall be provided on each occupied floor, and, where applicable, in the basement. The extinguishers shall be installed so as to be readily accessible in accordance with NFPA 10.

- 24.4.5.1.2 Required portable fire extinguishers shall be inspected and maintained annually by a State licensed fire extinguisher technician in accordance with NFPA 10.

- 24.4.5.1.3 Monthly quick check inspections shall be conducted by the staff of the Community Living Arrangement to ensure they are charged and in operable condition.

24.4.6 **Heating, Ventilation and Air Conditioning.**

- 24.4.6.1 Portable space heaters shall not be used. The use of heating devices and equipment shall be regulated by the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.

24.4.6.2 Fire screens and protective devices shall be used with fireplaces, stoves, and fixed heaters.

24.4.6.3 A water temperature monitor or a scald valve shall be installed where necessary to ensure the safety of the residents. Heated water provided for use of residents shall not exceed 120 degrees Fahrenheit at the hot water fixture, unless a cooler temperature is required by the needs of the individual.

24.4.7 **Operating Features.**

24.4.7.1 **Staffing.** The Community Living Arrangement shall have as many qualified and trained employees on duty as shall be needed to safeguard properly the health, safety, and welfare of residents and ensure the provision of services the residents require to be delivered in the Community Living Arrangement.

24.4.7.1.1 Before working independently with residents, each staff member shall be trained and show continuing evidence of competence in fire safety and emergency evacuation procedures. A resident shall not be considered a staff person in the residence in which they live. Also, training of management and staff shall comply with Chapter 4 of the adopted *International Fire Code*.

24.4.7.2 **Evacuation Capabilities.** Community Living Arrangement shall maintain a staffing ratio sufficient to ensure that all residents can meet a prompt evacuation capability as defined in 12-3-3-.03 of Chapter 120-3-3 Rules and Regulations of the Safety Fire Commissioner. Residents who cannot meet the prompt evacuation capability provision shall be provided with a minimum of

one dedicated employee whose primary responsibility is to provide evacuation of the resident in the event of a fire or other emergency. The dedicated employee/employees shall be in close attendance at all times.

24.4.7.3 **Drills.** Fire drills shall be conducted at least quarterly on each shift at alternating times. At least two drills per calendar year shall be during sleeping hours. All fire drills shall be documented and include the names of staff involved. Also, refer to Chapter 4 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

24.4.7.4 **Procedures.** There shall be established procedures and mechanisms for alerting and caring for residents in case of emergencies and for evacuating them to safety. An evacuation plan with clear instructions shall be available within each residence. Also, refer to Chapter 4 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

(w) **Modification to Chapter 26:**

1. Add a new subparagraph 26.3.4.5.3.1 to read as follows:

26.3.4.5.3.1 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall also apply."

2. Add a new paragraph 26.3.6.4 to read as follows:

26.3.6.4 "**Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all lodging or rooming house occupancies in accordance with 9.9 of this *Code*."

(x) **Modification to Chapter 28:**

1. Add a new subparagraph 28.2.5.5.1 to read as follows:

28.2.5.5.1 "The provisions of 28.2.5.5 apply to exterior exit access routes and interior corridors."

2. Add a new subparagraph 28.2.5.6.1 to read as follows:

28.2.5.6.1 "The provisions of 28.2.5.6 apply to exterior exit access routes and interior corridors."

3. Add a new subparagraph 28.3.2.2.1.1 to read as follows:

28.3.2.2.1.1 "The provisions of 28.3.2.2 shall not apply to rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

4. Delete paragraph 28.3.4.5 in its entirety and substitute in its place the following:

28.3.4.5 "A corridor smoke detection system in accordance with O.C.G.A. Sections [25-2-13\(d\)](#) & [25-2-40](#) shall be provided in all interior corridors, halls and passageways.

28.3.4.5.1 The provisions of 28.3.4.5 are not required in hotels and motels protected throughout by an approved supervised automatic sprinkler system installed in accordance with 28.3.5. Dormitory facilities shall still be required to provide a corridor smoke detection system in accordance with O.C.G.A. Sections [25-2-13\(d\)](#) and [25-2-40](#)."

5. Add a new subparagraph 28.3.4.6.1 to read as follows:

28.3.4.6.1 "A smoke alarm shall be mounted on the ceiling or wall at a point centrally located in the corridor, hall or area giving access to each group of rooms used for sleeping purposes. Such smoke alarm shall be listed and meet the installation requirements of NFPA 72, *National Fire Alarm and Signaling Code*, and be powered from the building's electrical system. In addition, 1½-hour emergency power supply source is required for the back-up power of the smoke alarms."

6. Add a new subparagraph 28.3.4.6.2 to read as follows:

28.3.4.6.2 "Each living area within a guestroom or suite which is separated by doors or folding partitions shall be provided with an approved single station smoke alarm in accordance with 9.6.2.10 of this *Code*. The smoke alarm shall be powered from the building's electrical system."

7. Delete subsections 28.7.1, 28.7.2, 28.7.3, and 28.7.5 in their entirety and substitute in their place the following:

28.7.1 **"Emergency Planning and Preparedness.** Hotels and dormitories (Group R-2 occupancies) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(y) **Modification to Chapter 29:**

1. Delete paragraph 29.2.5.3 in its entirety and substitute in its place the following:

29.2.5.3 "Exterior exit access or internal corridors shall be arranged so there are no dead ends in excess of 50 feet (15 m)."

2. Add a new subparagraph 29.3.4.5.3 to read as follows:

29.3.4.5.3 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall also apply."

3. Add a new subparagraph 29.3.4.5.4 to read as follows:

29.3.4.5.4 "A corridor smoke detection system in accordance with O.C.G.A. Sections [25-2-13\(d\)](#) and [25-2-40](#) shall be provided in all interior corridors, halls and passageways.

29.3.4.5.4.1 The provisions of 29.3.4.5.1 do not apply in hotels and motels protected throughout by an approved supervised automatic sprinkler system installed in accordance with 28.3.5.

29.3.4.5.4.2 Dormitory facilities shall be required to provide a corridor smoke detection system in accordance with O.C.G.A. Sections [25-2-13\(d\)](#) and [25-2-40](#)."

4. Delete subsections 29.7.1, 29.7.2, 29.7.3, and 29.7.5 in their entirety and substitute in their place the following:

29.7.1 **"Emergency Planning and Preparedness.** Hotels and dormitories (Group R-2 occupancies) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(z) Modification to Chapter 30:

1. Delete paragraph 30.2.1.3 in its entirety and replace with the following new 30.2.1.3

30.2.1.3 Bathtub, Bathtub-Shower Combinations and Shower Grab Bars.

30.2.1.3.1 Where bathtubs, bathtub-shower combinations, or showers are present in apartments marketed as senior apartments or apartments designated as 55 or older communities, grab bars shall be provided in accordance with the provisions of 24.2.8.

30.2.1.3.2 In apartments not marketed as senior apartments or apartments designated as 55 or older communities sufficient structural supporting shall be installed so that bathtubs, bathtub-shower combinations, or showers are adaptable to meet the provisions of 24.2.8.

30.2.1.3.3 Where requested by a tenant, the apartment owner / management shall install grab bars in accordance with 24.2.8 at no cost to the tenant.

2. Delete item (2) of subsection 30.2.4.4 in its entirety and substitute in its place the following:

(2) "The dwelling unit has direct access to an outside stair complying with 7.2.2 that serves a maximum of two units where both of which are located on the same floor. This does not preclude two stairs serving a floor level with a maximum of four units with an open breezeway connecting and allowing access to either exit stair."

3. Add a new subparagraph 30.3.2.1.3 to read as follows:

30.3.2.1.3 "The provisions of 30.3.2.1 shall not apply to rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage, and a minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

4. Delete the words 'fuel fired' from Table 30.3.2.1.1

5. Delete subparagraph 30.3.4.5 in its entirety and substitute in its place the following:

30.3.4.5 "Approved single station or multiple station detectors continuously powered from the building's electrical system shall be installed in accordance with 9.6.2.10 in every living unit within the apartment building regardless of the number of stories or number of apartments. In addition, a 1½-hour emergency power supply source is required for the back-up power of the detector. When activated, the detector shall initiate an alarm that is audible in the sleeping rooms of that unit. This individual unit detector shall be in addition to any sprinkler system or other detection system that may be installed in the building."

6. Delete paragraph 30.3.6.2.3 in its entirety and substitute in its place the following:

30.3.6.2.3 "Doors that open onto exit access corridors shall be self-closing and self-latching, with a listed pneumatic closure or three heavy-duty spring-loaded hinges."

7. Delete subsection 30.7.1 in its entirety and substitute in its place the following:

30.7.1 "**Emergency Planning and Preparedness.** Residential facilities (Group R-2 occupancies) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, resident training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(aa) **Modifications to Chapter 31:**

1. Delete item (2) of subsection 31.2.4.4 in its entirety and substitute in its place the following:
 - (2) "The dwelling unit has direct access to an outside stair complying with 7.2.2 that serves a maximum of two units where both units are located on the same floor. This does not preclude two stairs serving a floor level with a maximum of four units with an open breezeway connecting and allowing access to either exit stair."
2. Add a new subparagraph 31.3.4.5.2.1 to read as follows:

31.3.4.5.2.1 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall also apply."
3. Add a new subparagraph 31.3.4.5.4.1 to read as follows:

31.3.4.5.4.1 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall also apply."
4. Delete subsection 31.7.1 in its entirety and substitute in its place the following:

31.7.1 **"Emergency Planning and Preparedness.** Residential facilities (Group R-2 occupancies) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, resident training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(bb) **Modifications to Chapter 32:**

Delete paragraph 32.1.1.1 in its entirety and substitute in its place the following:

- 32.1.1.1 **"General.** The requirements of this chapter shall apply to new buildings or portions thereof used as residential board and care occupancies (See 3.3.196.12* and 3.3.214* and their Annex A notes). This designation shall include, but may not be limited to, a personal care home or community living arrangement, as defined in [120-3-3-.03](#) of the Rules and Regulations of the Safety Fire Commissioner.
- 32.1.1.1.1 **Additions, Conversions, Modernizations, Renovations, and Construction Operations.** Additions shall be

separated from any existing structure not conforming to the provisions of Chapter 32 by a fire barrier having not less than a 2-hour fire resistance rating and constructed of materials as required for the addition. (See 4.6.5 and 4.6.7) Doors in fire barriers shall normally be kept closed, however, doors shall be permitted to be held open if they meet the requirements of 7.2.1.8.2, and such doors shall be released upon activation of the building fire alarm system.

32.1.1.1.1.2. **Conversion.** For purposes of this chapter, exceptions for conversions shall apply only for a change of occupancy from an existing residential or health care occupancy.

32.1.1.1.1.3 **Change of Occupancy.** A change from a licensed personal care home to an assisted living community or memory care unit shall be considered a change of occupancy or subclassification and would be required to meet the provisions of Chapter 35 for existing construction. Such changes in occupancy classification or subclassification are considered as proposed (new) buildings and shall be subject to the applicable administrative provisions of Section 103 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

32.1.1.1.4. **Renovations, Alterations, and Modernizations.** (See 4.6.7)

32.1.1.1.5. **Construction, Repair, and Improvement Operations.** (See 4.6.10)"

2. Delete paragraph 32.1.1.4 in its entirety and substitute in its place the following:

32.1.1.4 "Personal Care Homes and Community Living Arrangements with Five or More Residents. A personal care home or community living arrangement with five or more residents, as defined in 120-3 .3-.03 of the Rules and Regulations of the Safety Fire Commissioner, shall comply with the general provisions of 32.1 of this Chapter 32, and with the applicable provisions for residential board and care occupancies as defined in 3.3.196.12 of this *Code*. The provisions of Chapter 32 for large facilities are deemed to

provide for the use of "defend in place" fire response strategies should self-preservation measures not be deemed successful.

32.1.1.4.1 **Goals and Objectives.** The goals and objectives of Sections 4.1 and 4.2 of this *Code* shall be met with due consideration for functional requirements, which are accomplished by limiting the development and spread of a fire to the room of origin and reducing the need for total occupant evacuation except for the room of fire origin.

32.1.1.4.2 **Total Concept.** All new personal care homes, and community living arrangements with five or more residents shall be constructed, maintained, and operated to minimize the possibility of a fire emergency requiring the evacuation of occupants.

32.1.1.4.2.1 Because the safety of personal care home residents or residents of a community living arrangement cannot be adequately ensured by dependence on evacuation of the building, their protection from fire shall be provided by appropriate arrangement of facilities; adequate trained staff (refer to 406.2.1 of the *International Fire Code* as adopted by 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner); and development of operating and maintenance procedures composed of the following:

- (1) Design, construction, and compartmentation
- (2) Provision for detection, alarm, and extinguishment
- (3) Fire protection and planning, training, and drilling programs for the isolation of fire, transfer of occupants to

areas of refuge, or evacuation
of the building."

3. Delete paragraph 32.1.1.5 in its entirety and substitute in its place the following:

32.1.1.5 "All new facilities classified as residential board and care occupancies shall conform to the requirements of this chapter. This chapter is divided into six sections as follows:

- (1) Section 32.1 - General Requirements.
- (2) Section 32.2 - Small Facilities (Sleeping accommodations for not more than six residents. (Includes Personal Care Homes and Community Living Arrangements for five or six residents)
- (3) Section 32.3 - Large Facilities (Sleeping accommodations for seven or more residents. This includes Personal Care Homes, as defined in section 120-3-3-.03 of Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner. It also includes Community Living Arrangements with seven or more residents.)
- (4) Section 32.4 - Additional minimum requirements for an Apartment Building Housing a Board and Care Occupancy.
- (5) Section 32.5 - Community Living Arrangement Facilities (small and large) (As defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner)
- (6) Section 32.7 Operating Features."

4. Delete subsection 32.1.2 in its entirety and substitute in its place the following:

32.1.2 "**Classification of Occupancy.** See 6.1.9 and provisions of this Chapter 32, and the applicable definitions in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner."

5. Delete subparagraph 32.2.1.1.1 in its entirety and substitute in its place the following:

32.2.1.1.1 **"Scope.** This section applies to a community living arrangement with 5 to 6 residents and to residential board and care occupancies, including a personal care home, providing sleeping accommodations for not more than 6 residents. Where there are sleeping accommodations for more than 6 residents of a residential board and care occupancy, including a personal care home or community living arrangement, the occupancy shall be classed as a large facility. The requirements for large facilities are found in Section 32.3. The provisions of 32.5 also apply to community living arrangements. (Also see 3.3.196.12.)"

6. Add a new paragraph 32.2.1.5 to read as follows:

32.2.1.5 **"Classification of Hazards of Contents.** Contents of Residential Board and Care occupancies shall be classified in accordance with the provisions of Section 6.2."

7. Add a new subparagraph 32.2.3.2.6 to read as follows:

32.2.3.2.6 "Residential cooking appliances such as stoves (a maximum of four surface burners or cooking elements) and griddles shall be protected by a listed self-contained residential fire suppression systems located in residential hoods over each cooking surface, with the exhaust hood vented directly to the outside. Automatic disconnects of the fuel source or power source shall be provided. Commercial cooking appliances including fryers shall be protected in accordance with 9.2.3, and shall not be required to have openings protected between food preparation areas and dining areas.

32.2.3.2.6.1 Subject to the approval of the authority having jurisdiction, the protection of residential cooking equipment shall not be required in buildings protected by an automatic sprinkler system as provided in 32.2.3.5. The protection authorized by 32.2.3.5.5 is acceptable for purposes of this section, provided, however, exhaust hood shall still be required to be vented to the outside.

32.2.3.2.6.2 Subject to the approval of the authority having jurisdiction, no protection is required over residential cooking appliances such as grills and

stoves in facilities which have a prompt evacuation capability and having a licensed capacity as determined by the Department of Human Resources of six or less residents."

8. Add new subparagraph 32.2.3.4.5.5 to read as follows:

32.2.3.4.5.5 "Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired persons."

9. Delete subparagraph 32.2.3.5.2 in its entirety and substitute in its place the following:

32.2.3.5.2 "* In conversions, sprinklers shall not be required in small board and care homes, including personal care homes and community living arrangements serving six or fewer residents when all occupants have the ability as a group to move reliably to a point of safety within three minutes.

32.2.3.5.2.1 Where the provisions of 32.2.3.5.2 are not met and maintained, the sprinkler protection requirement may be met through the installation of a sprinkler system complying with 32.2.3.5."

10. Add a new subsection 32.2.3.5.9 to read as follows:

32.2.3.5.9 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all residential board and care occupancies and on each floor of a personal care home or community living arrangement facility in accordance with 9.9."

11. Delete (1) of subparagraph 32.2.3.6.1 and substitute in its place the following:

(1) "The separation walls of sleeping rooms shall be capable of resisting fire for not less than 30 minutes, which is considered to be achieved if the partitioning is finished on both sides with materials such as, but not limited to, ½ inch thick gypsum board, wood lath and plaster, or metal lath and plaster. It shall be acceptable for corridor walls to terminate at a ceiling which is constructed similar to a corridor wall capable of resisting fire for not less than 30 minutes."

12. Add new subparagraph 32.2.5.2.4 to read as follows:

32.2.5.2.4 "Portable electric and liquefied petroleum gas or liquid fuel fired space heating devices designed to be portable are prohibited in all portions of small residential board and care occupancies, including personal care homes and community living arrangements.

32.2.5.2.4.1 In emergency conditions when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufacturer's instructions and the authority having jurisdiction."

13. Delete subparagraph 32.3.1.1 in its entirety and substitute in its place the following:

32.3.1.1.1 "This section applies to residential board and care occupancies, including licensed personal care homes and community living arrangements with more than 6 residents, as defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. Where there are sleeping accommodations for six or less residents, or a community living arrangement for 5 to 6 residents, the occupancy shall be classed as a small facility. The requirements for small facilities are found in Section 32.2.

14. Add a new Section 32.3.1.2 to read as follows:

32.3.1.2 **"Assisted Living Communities and Memory Care Units.**

32.3.1.2.1 This chapter shall not apply to any building, or portion thereof, newly constructed, or substantially renovated, as defined in O.C.G.A. [25-2-14\(d\)](#), so as to be designated and licensed by the Georgia Department of Community Health as an assisted living community or memory care unit, as defined in Section 120-3-3-.03 of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. Refer to Chapter 34 or 35 for the applicable requirements for such facilities."

15. Delete 32.3.1.2 and insert a new 32.3.1.2 to read as follows:

32.3.1.2 **Requirements Based on Evacuation Capability.** Definitions for the classifications of evacuation capability are defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. For purposes of Section 32.3, large facilities are assumed to have an impractical evacuation capability.

16. Add a new item 8 to subparagraph 32.3.2.2.2 to read as follows:

(9) ": Doors to resident rooms may be subject to being locked by the occupant, if they can be unlocked from the opposite side and keys are carried by staff at all times. Additional keys must be available/accessible to the staff."

17. Add a new subparagraph 32.3.2.6.1 to read as follows:

32.3.2.6.1 "Travel distance shall not exceed 35 feet (10.7 m) in any story below the level of exit discharge occupied for public purposes."

18. Add a new subparagraph 32.3.2.6.2 to read as follows:

32.3.2.6.2 "Travel distance shall not exceed 75 feet (22.9 m) in any story below the level of exit discharge not occupied for public purposes."

19. Add a new subparagraph 32.3.2.6.3 to read as follows:

32.3.2.6.3 "Any story below the level of exit discharge occupied for public purposes shall have at least two separate exits provided from each story with a maximum dead-end corridor of 20 feet (6.1 m). Any floor below the level of exit discharge not open to the public and used only for mechanical equipment, storage, and service operations (other than kitchens which are considered part of the residential board and care occupancies) shall have exits appropriate to its actual occupancy in accordance with other applicable sections of this *Code*."

20. Delete paragraph 32.3.2.9 in its entirety and substitute in its place the following:

32.3.2.9 "Emergency lighting in accordance with Section 7.9 of the *Code* shall be provided in means of egress and common areas in all residential board and care occupancies.

32.3.2.9.1 "Where each resident room has a direct exit to the outside of the building at ground level, no emergency lighting shall be required."

21. Add a new subparagraph 32.3.2.11.1 to read as follows:

32.3.2.11.1 "Every stairwell door shall allow reentry from the stairwell to the interior of the building or an automatic release shall be provided to unlock all stairwell doors to allow re-entry. Such automatic release shall be actuated with the initiation of the building fire alarm system or upon loss of power."

22. Add a new subparagraph 32.3.3.1.4 to read as follows:

32.3.3.1.4 "Stairway enclosures shall not be required where a one-story stair connects two levels within a single dwelling unit, resident room or suite."

23. Add a new subparagraph 32.3.3.2.4 to read as follows:

32.3.3.2.4 "The provisions of Table 32.3.3.2.2 shall not apply to rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

24. Delete subparagraph 32.3.3.4.7 in its entirety and substitute in its place the following:

32.3.3.4.7 "**Smoke Alarms.** Each sleeping room shall be provided with an approved single station smoke alarm in accordance with 9.6.2.10. Approved smoke alarms shall be powered by the building's electrical system and be provided with a 1½-hour emergency power source."

32.3.3.4.7.1 Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired residents in personal care homes or Community Living Arrangements."

25. Delete subparagraph 32.3.3.4.8 in its entirety and substitute in its place the following:

32.3.3.4.8 **"Smoke Detection Systems.** All corridors and common spaces shall be provided with smoke detectors in accordance with NFPA 72, *National Fire Alarm and Signaling Code*, arranged to initiate the fire alarm such that it is audible in all sleeping areas. Detectors shall be located in corridors or hallway so there is a detector within 15 feet (4.6 m) of the wall and at least every 30 feet (9.1 m) thereafter. Where a building has more than one floor level, a detector shall be located at the top of each stair and inside each enclosure. (Refer to 3.3.264)

32.3.3.4.8.1 Detectors may be excluded from crawl spaces beneath the building and unused and unfinished attics.

32.3.3.4.8.2 Unenclosed corridors, passageways, balconies, colonnades, or other arrangements where one or more sides along the long dimension are fully or extensively open to the exterior at all times."

26. Delete subparagraph 32.3.3.5.7 in its entirety and substitute in its place the following:

32.3.3.5.7 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all residential board and care occupancies and on each floor of a personal care home or community living arrangement facility in accordance with 9.9."

27. Delete subparagraph 32.3.3.6.6 in its entirety and substitute in its place the following:

32.3.3.6.6 "There shall be no louvers, transfer grilles, operable transoms, or other air passages penetrating such walls or doors other than properly installed heating and utility installations. Unprotected openings shall be prohibited in partitions of interior corridors serving as exit access from resident rooms. Transfer grilles, whether protected by fusible link operated dampers or not, shall not be used in corridor walls or doors between resident rooms and interior corridors.

32.3.3.6.6.1 Existing transoms installed in corridor partitions of resident rooms shall be fixed in the closed position and shall be covered or

otherwise protected to provide a fire-resistance rating at least equivalent to that of the wall in which they are installed."

28. Add a new subparagraph 32.3.5.2.4 to read as follows:

32.3.5.2.4 "Portable electric and liquefied petroleum gas or liquid fuel fired space heating devices designed to be portable are prohibited in all portions of large residential board and care occupancies.

32.3.5.2.4.1 "In emergency conditions when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufactures instructions and the authority having jurisdiction."

29. Delete section 32.5 in its entirety and substitute in its place the following:

32.5 "**Community Living Arrangement Facilities.**

32.5.1 **General.** The following shall be provided in addition to the requirements of this Chapter for facilities subject to being licensed as a Community Living Arrangement. Where there are conflicts in requirements specified elsewhere in this Chapter, the requirements specified under Section 32.5 shall prevail.

32.5.2 Address identification. Community Living Arrangement structures shall have approved address numbers, building numbers or approved building identification placed in accordance with the provisions of the *International Fire Code*.

32.5.3 **Means of Egress.**

32.5.3.1 **Number of Means of Escape.** In any dwelling or dwelling unit of two rooms or more, every sleeping room and every living area shall have not less than one primary

means of escape and one secondary means of escape.

32.5.3.1.1 A secondary means of escape shall not be required where the bedroom or living area has a door leading directly to the outside of the building at or to grade level.

32.5.3.1.2 **Exits for the mobility impaired.** A Community Living Arrangement serving a resident dependent upon a wheelchair or other mechanical device for mobility shall provide at least two (2) exits from the Community Living Arrangement, remote from each other, which are accessible to the residents."

32.5.3.2 **Bedrooms.** Bedrooms for residents shall be separated from halls, corridors and other rooms by floor to ceiling walls. capable of resisting fire for not less than ½-hour, which is considered to be achieved if the partitioning is finished on both sides with lath and plaster or materials providing a 15-minute thermal barrier. Sleeping room doors shall be substantial doors, such as those of 1¾-in. (4.4-cm) thick, solid-bonded wood core construction or other construction of equal or greater stability and fire integrity. Any vision panels shall be fixed fire window assemblies in accordance with 8.3.3 or shall be wired glass not exceeding 1296 in. 2 (0.84 m2) each in area and installed in approved frames.

32.5.3.2.1 A room shall not be used as a bedroom where more than one-

half the room height is below ground level.

32.5.3.2.2 Bedrooms which are partially below ground level shall have adequate natural light and ventilation and be provided with two useful means of egress.

32.5.3.2.3 Bedrooms occupied by residents shall have doors that can be closed. Doors shall be not less than 32 in. (81 cm) wide.

32.5.3.2.4 Any door in the path of travel of a means of means of egress or escape shall be not less than 32 in. (81 cm) wide.

32.5.3.2.5 Residents who need assistance with ambulation shall be provided bedrooms that have access to a ground-level exit to the outside or provided bedrooms above ground level that have access to exits with easily negotiable ramps or easily accessible lifts.

32.5.3.3 **Locks.**

32.5.3.3.1 Bedrooms may have locks on doors provided both the occupant and staff are provided with keys to ensure easy entry. Double-cylinder locks (locks requiring a key on both sides) are prohibited be used on the bedroom door of a resident.

- 32.5.3.3.2 Exterior doors shall be equipped with locks that do not require keys to open the door from the inside.

32.5.4 Detection and Alarm Systems

- 32.5.4.1 A fire alarm system meeting the minimum requirements for Single- and Multiple Station Alarms and Household Fire Alarm Systems per NFPA 72 shall be installed.

32.5.4.2 Smoke Detection.

- 32.5.4.2.1 Smoke alarms shall be installed in accordance with the provisions of 9.6.2.10. Any additional detection/alarm devices shall be as established by O.C.G.A. § [25-2-40](#).

- 32.5.4.2.2 Smoke alarms shall be installed on all levels, including basements but excluding crawl spaces and unfinished attics.

- 32.5.4.2.3 Additional smoke alarms shall be installed for all living areas as defined in 3.3.119 and 3.3.25.5.

- 32.5.4.2.4 Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired persons.

32.5.4.3 Carbon Monoxide Detectors.

- 32.5.4.3.1 Carbon monoxide detectors shall be provided in accordance with 32.3.3.4.9.

32.5.5 **Protection.**

32.5.5.1 **Portable Fire Extinguishers.** Portable fire extinguishers in accordance with 9.9 shall be provided near hazardous areas.

32.5.5.1.1 At least one 2A rated multipurpose ABC fire extinguisher shall be provided on each occupied floor and in the basement that shall be readily accessible.

32.5.5.1.2 Required portable fire extinguishers shall be inspected and maintained annually by a licensed fire safety technician annually in accordance with NFPA 10.

32.5.5.1.3 Monthly quick check inspections shall be conducted by the staff of the Community Living Arrangement to ensure they are charged and in operable condition.

32.5.6 **Heating, Ventilation and Air Conditioning.**

32.5.6.1 Portable space heaters shall not be used.

32.5.6.2 **Fire screens and protective devices shall be used with fireplaces, stoves and fixed heaters.**

32.5.6.3 A water temperature monitor or a scald valve shall be installed where necessary to ensure the safety of the residents. Heated water provided for use of residents shall not exceed 120 degrees Fahrenheit at the hot water fixture, unless a cooler temperature is required by the needs of the individual.

32.5.7 **Operating Features.**

32.5.7.1 **Staffing.** The Community Living Arrangement shall have as many qualified and trained employees on duty as shall be needed to safeguard properly the health, safety, and welfare of residents and ensure the provision of services the residents require to be delivered in the Community Living Arrangement.

32.5.7.1.1 Before working independently with residents, each staff member shall be trained and show continuing evidence of competence in fire safety and emergency evacuation procedures. A resident shall not be considered a staff person in the residence in which they live. (Refer to Chapter 4 of the *International Fire Code* regarding care-giver minimum training requirements.)

32.5.7.2 **Evacuation Capabilities.** Community Living Arrangement shall maintain a staffing ratio sufficient to ensure that all residents can successfully respond to a fire or other emergency using self-preservation or assisted preservation measures as defined by [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. Residents who cannot successfully respond shall be provided with a minimum of one dedicated employee whose primary responsibility is to provide evacuation of the resident in the event of a fire or other emergency. The dedicated employee/employees shall be in close attendance to the affected resident at all times.

32.5.7.3 **Drills.** Fire drills shall be conducted at least quarterly on each shift. At least two drills per calendar year shall be during sleeping hours. All fire drills shall be documented with staffing involved. (See Chapter 4 of the *International Fire Code* regarding fire and emergency evacuation drills.)

32.5.7.4 **Procedures.** There shall be established procedures and mechanisms for alerting and caring for residents in case of emergencies and for evacuating them to safety. An evacuation plan with clear instructions shall be available within each resident room. Each sleeping room shall have a secondary exit, which may be a door or a window usable for escape."

30. Delete subsections 32.7.1, 32.7.2, and 32.7.3 in their entirety and substitute in their place the following:

32.7.1 **"Emergency Planning and Preparedness.** Residential board and care facilities (Group I-1 and R-4 occupancies), including personal care homes and community living arrangements shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, resident training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner. The specific provisions of 32.5.7 shall also apply to community living arrangements."

31. Delete subsection 32.7.4 in its entirety and substitute in its place the following:

32.7.4 **"Smoking.** Smoking regulations shall be adopted and shall include the following minimal provisions.

32.7.4.1 Smoking shall be prohibited in any room, area or compartment where flammable liquids, combustible gases, or oxygen are used or stored and in any other

hazardous location. Such areas shall be posted with 'NO SMOKING' signs.

32.7.4.2 Smoking by residents classified as not responsible shall be prohibited, Exception unless the resident is under direct supervision.

32.7.4.3 Ashtrays of noncombustible material and safe design shall be provided in all areas where smoking is permitted.

32.7.4.4 Metal containers with self-closing cover devices into which ashtrays may be emptied shall be readily available in all areas where smoking is permitted."

32. Add a new paragraph 33.7.5.4 to read as follows:

32.7.5.4 "Wastebaskets and other waste containers shall be of noncombustible or other approved materials."

(cc) **Modifications to Chapter 33:**

1. Delete paragraphs 33.1.4.1 and 33.1.4.2 in their entirety and substitute in their place the following:

33.1.4.1 "**General.** For definitions see Chapter 3, Definitions and [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner (RRSFC). Where there is a difference in definitions, the definitions in [120-3-3-.03](#) shall prevail.

33.1.4.2 **Special Definitions.**

(1) Broad and Care Occupancies, Residential. See RRSFC [120-3-3-.03](#).

(2) Community Living Arrangement. See RRSFC [120-3-3-.03](#)

(3) Evacuation Capability, Impractical. See RRSFC [120-3-3-.03](#).

(4) Evacuation Capability, Prompt. See RRSFC [120-3-3.03](#).

(5) Evacuation Capability, Slow. See RRSFC [120-3-3.03](#).

- (6) Personal Care. See RRSFC [120-3-3-.03](#).
- (7) Personal Care Home. See RRSFC [120-3-3-.03](#).
- (8) Self-preservation. See RRSFC [120-3-3-.03](#).

2. Add new subparagraphs 33.1.1.4.1 through 33.1.1.4.3 to read as follows:

- 33.1.1.4.1 "Community Living Arrangements for five to six residents shall comply with the requirements of Sections 33.2 and 33.5
- 33.1.1.4.2 Community Living Arrangements for seven or more residents shall comply with the requirements of Sections 33.3 and 33.5.
- 33.1.1.4.3 Refer to [120-3-3-.03](#) for the definition of a "Community Living Arrangement."
- 33.1.1.4.4 Existing large personal care homes with 25 or more residents desiring to be licensed as an Assisted Living Community or as a Memory Care Unit, both as defined in [120-3-3-.03](#) of the Rules and Regulations of the Safety Fire Commissioner, shall meet the requirements for a conversion to a large residential board and care occupancy and the applicable provisions for assisted living communities or memory care units as set forth by Chapter 35 of this *Code*. (Also defined in RRSFC [120-3-3-.03](#))."

3. Delete paragraph 33.1.1.5 in its entirety and substitute in its place the following:

- 33.1.1.5 "All existing facilities classified as residential board and care occupancies shall conform to the requirements of this chapter. This chapter is divided into six sections as follows:
 - (1) Section 33.1 - General Requirements.
 - (2) Section 33.2 - Small Facilities (sleeping accommodations for not more than six residents. Includes small personal care homes and community living arrangements.)
 - (3) Section 33.3 - Large Facilities (sleeping accommodations for seven or more residents. This includes existing "personal care homes" as defined in section 120-3-3-.03 of Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner, and not licensed as an "Assisted Living Community" or "Memory Care Unit")

- (4) Section 33.4 - Additional minimum requirements for an Apartment Building Housing a Board and Care Occupancy.
- (5) Section 33.5 - Community Living Arrangement Facilities
- (6) Section 33.7 - Operating Features."

4. Add a new subsection 33.1.9 to read as follows:

33.1.9 "**Classification of Hazards of Contents.** Contents of Residential Board and Care occupancies shall be classified in accordance with the provisions of Section 6.2."

5. Delete paragraph 33.2.1.1 in its entirety and substitute in its place the following:

33.2.1.1 "**Scope.** This section applies to residential board and care occupancies, including community living arrangements with 5 to 6 residents and personal care homes providing sleeping accommodations for not more than six residents. Where there are sleeping accommodations for more than six residents of a residential board and care occupancy or a community living arrangement more than 6, the occupancy shall be classed as a large facility. The requirements for large facilities are found in Section 33.3."

6. Add a new paragraph 33.2.1.5 to read as follows:

33.2.1.5 "**Occupant Load.** The occupant load of small Residential Board and Care occupancies (personal care occupancies) or any individual story or section thereof for the purpose of determining exits shall be the maximum number of persons intended to occupy the floor on the basis of the occupant load factors of Table 7.3.1.2. (Also see 3.3.22.2.1 for Gross Floor Area.)"

7. Add a new subparagraph 33.2.3.2.6 to read as follows:

33.2.3.2.6 "Residential cooking appliances such as stoves and griddles shall be protected by listed self-contained residential fire suppression systems located in residential hoods over each cooking surface, with the exhaust hood vented directly to the outside. Automatic disconnects of the fuel source or power source shall be provided. Commercial cooking appliances including fryers shall be protected in accordance with 9.2.3 and shall not be required to

have openings protected between food preparation areas and dining areas.

33.2.3.2.6.1 "Subject to the approval of the authority having jurisdiction, the protection of residential cooking equipment shall not be required in buildings protected by an automatic sprinkler system as provided in 33.2.3.5. The exhaust hood is still required to be vented to the outside.

33.2.3.2.6.2 "No protection is required over residential cooking appliances such as grills and stoves in facilities which have prompt evacuation capability and have a licensed capacity as determined by the Department of Community Health of six or less residents."

8. Add new subparagraph 33.2.3.4.3.1 to read as follows:

33.2.3.4.3.1 "Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired persons."

9. Add a new subparagraph 33.2.3.4.3.1 to read as follows:

33.2.3.4.3.1 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall also apply.

10. Add new subparagraph 33.2.3.4.5 to read as follows:

33.2.3.4.5 "**Carbon Monoxide Detectors.** Carbon monoxide detectors shall be provided in all community living arrangements where natural gas, LP gas or heating oil is used to heat the residence or where a solid fuel-burning appliance is located in the residence."

11. Delete subparagraph 33.2.3.5.3.7 in its entirety and substitute in its place the following:

33.2.3.5.3.7 "**Impractical and Slow Evacuation Capability.** All slow and impractical evacuation capability facilities shall be protected throughout by an approved, supervised automatic sprinkler system installed in accordance with 33.2.3.5.3."

12. Add new subparagraph 33.2.5.2.4 to read as follows:

33.2.5.2.4 "Portable electric and liquefied petroleum gas or liquid fuel fired space heating devices designed to be portable are prohibited in all portions of small residential board and care occupancies, including personal care homes and community living arrangements.

33.2.5.2.4.1 In emergency conditions when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufactures instructions and the authority having jurisdiction."

13. Add a new subsection 33.2.6 to read as follows:

33.2.6 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all residential board and care occupancies, personal care homes or community living arrangement facilities as follows.

33.2.6.1 Portable fire extinguishers in accordance with Section 9.9 of this *Code* shall be provided near hazardous areas. Also, at least one 2A rated multipurpose ABC fire extinguisher shall be provided on each occupied floor and in the basement, and they shall be readily accessible.

33.2.6.1.2 Required portable fire extinguishers shall be inspected and maintained at least annually by a licensed fire safety technician in accordance with NFPA 10.

33.6.5.1.3 Monthly quick check inspections shall be conducted by the staff of the Community Living Arrangement to ensure they are charged and in operable condition."

14. Delete paragraph 33.3.1.1.1 in its entirety and substitute in its place the following:

33.3.1.1.1 **"Scope.** This section applies to residential board and care occupancies, including personal care homes and community living arrangements providing sleeping accommodations for 7

or more residents. Where there are sleeping accommodations for six or less residents or a community living arrangement for 5 to 6 residents, the occupancy shall be classed as a small facility. The requirements for small facilities are found in Section 33.2."

15. Delete 33.3.1.2.2* in its entirety and substitute in its place the following:

33.3.1.2.2 **"* Impractical.** Large facilities classified as impractical evacuation capability shall meet the requirements of 33.3 for impractical evacuation capability, or the requirements for new large facilities in Chapter 32, unless the authority having jurisdiction has determined equivalent safety is provided in accordance with Section 1.4."

16. Add a new subsection 33.3.1.4 to read as follows:

33.3.1.4 **"Occupant Load.** The occupant load of small Residential Board and Care occupancies or Personal Care occupancies or any individual story or section thereof for the purpose of determining exits shall be the maximum number of persons intended to occupy the floor as determined on the basis of the occupant load factors of Table 7.3.1.2. Gross floor area shall be measured within the exterior building walls with no deductions. (See 3.3.22.2.1)."

17. Add a new subparagraph 33.3.3.1.1.4 to read as follows:

33.3.3.1.1.4 "Enclosure of stairs, smoke proof towers and exit passageways in buildings existing prior to April 15, 1986, shall be fire barriers of at least 20-minute fire-resistance rating with all openings protected in accordance with paragraph 8.3.3 of this *Code* in buildings less than three stories in height. In buildings existing prior to April 15, 1986, more than three stories in height, the enclosure shall not be less than a 1-hour fire-resistance rating with all openings protected in accordance with paragraph 8.3.4.4 of this *Code*."

18. Add a new exception to subparagraph 33.3.2.2.2(10) to read as follows:

33.3.2.2.2(10) "Doors to resident rooms may be subject to being locked by the occupant, if they can be unlocked from the opposite side and keys are carried by staff at all times. Additional keys must be available to and accessible by the staff."

19. Delete subparagraph 33.3.2.5.4 in its entirety and substitute in its place the following:
33.3.2.5.4 "No dead-end corridor shall exceed 35 feet (10.7 m)."
20. Delete subparagraph 33.3.2.6.3.3 in its entirety and substitute in its place the following:
33.3.2.6.3.3 "Travel distance to exits shall not exceed 150 feet (45.7 m) if the exit access and any portion of the building that is tributary to the exit access are protected throughout by approved automatic sprinkler systems. In addition, the portion of the building in which the 150 feet (45.7 m) travel distance is permitted shall be separated from the remainder of the building by construction having not less than a 1-hour fire-resistance rating for buildings not greater than three stories in height and 2-hour for buildings greater than three stories in height."
21. Add a new subparagraph 3 33.3.2.6.3.4 to read as follows:
33.3.2.6.3.4 "No residents shall be located on floors below the level of exit discharge.
33.3.2.6.3.4.1 In facilities existing prior to April 15, 1986, any floor below the level of exit discharge occupied for public purposes shall have exits arranged such that it will not be necessary to travel more than 100 feet (30.5 m) from the door of any room to reach the nearest exit."
22. Add a new subparagraph 33.3.2.6.4 to read as follows:
33.3.2.6.4 "Any floor below the level of exit discharge not open to the public and used only for mechanical equipment, storage, and service operations (other than kitchens which are considered part of the residential board and care occupancies) shall have exits appropriate to its actual occupancy in accordance with other applicable sections of this *Code*."
23. Add a new subparagraph 33.3.2.7.1 to read as follows:
33.3.2.7.1 "At least half of the required exit capacity of upper floors, exclusive of horizontal exits, shall lead directly to the street or

through a yard, court, or passageway with protected openings and separated from all parts of the interior of the building."

24. Delete paragraph 33.3.2.9 in its entirety and substitute in its place the following:

33.3.2.9 **"Emergency Lighting.** Emergency lighting in accordance with Section 7.9 of the *Code* shall be provided in means of egress and common areas in all residential board and care occupancies.

33.3.2.9.1 Where each guestroom has a direct exit to the outside of the building at ground level, no emergency lighting shall be required."

25. Delete 33.3.2.11.1 and insert a new subparagraph 33.3.2.11.1 to read as follows:

33.3.2.11.1 "Every stairwell door shall allow re-entry from the stairwell to the interior of the building or an automatic release shall be provided to unlock all stairwell doors to allow re-entry. Such automatic release shall be actuated with the initiation of the building fire alarm system or upon loss of power."

26. Add a new subparagraph 33.3.2.11.3 to read as follows:

33.3.2.11.3 "Stairway enclosures shall not be required where a one-story stair connects two levels within a single dwelling unit, resident room or suite."

27. Add a new subparagraph 33.3.3.1.4 to read as follows:

33.3.3.1.4 "Any required exit stair which is so located such that it is necessary to pass through the lobby or other open space to reach the outside of the building shall be continuously enclosed down to the lobby level, or to a mezzanine within the lobby.

33.3.3.1.4.1 In existing two-story buildings only, the second floor level may be fire stopped with a fire barrier having at least a 1-hour fire-resistance rating. Vision panels not exceeding 1,296 square inches (8361 cu cm) and installed in steel frames shall be provided in the doors of the fire barrier."

28. Add two new subparagraphs 33.3.3.2.2.1 and 33.3.3.2.2.2 to read as follows:

33.3.3.2.2.1 "The provisions of 33.3.3.2.2 shall not apply to rooms enclosing air handling equipment compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

33.3.3.2.2.2 The provisions of 33.3.3.2.2 shall not apply in existing residential board and care occupancies constructed prior to April 15, 1986, with regard to the location of the equipment only."

29. Delete section 33.3.3.8 to read as follows:

33.3.3.8.1 "A personal care home having a licensed capacity as determined by the Department of Community Health of 16 or less residents shall have residential cooking appliances such as stoves and griddles protected by a listed self-contained residential fire suppression system located in residential hood over each cooking surface, with the exhaust hood vented directly to the outside. Automatic disconnects of the fuel source or power source shall be provided. Commercial cooking appliances including fryers shall be protected in accordance with 9.2.3 and shall not be required to have openings protected between food preparation areas and dining areas.

33.3.3.8.2 A personal care home constructed prior to January 28, 1993, and having a licensed capacity as determined by the Department of Community Health of 16 or less residents may have food preparation facilities in accordance with NFPA 91, Standard for Exhaust Systems for Conveying of Vapors, Gases, Mists, and Noncombustible Particulate Solids, 1983 edition.

33.3.3.8.3 A personal care home constructed prior to January 28, 1993, and having a licensed capacity as determined by the Department of Community Health of 16 residents or less may have food preparation facilities which have a ventilating hood meeting the provisions of NFPA 54, *National Fuel Gas Code*, as specified in Chapters 120-3-14 and 120-3-16, of the Rules and Regulations of the Safety Fire Commissioner, and NFPA 91, *Standard for Exhaust Systems for Conveying of Vapors, Gases, Mists, and*

Noncombustible Particulate Solids, as specified in Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner.

- 33.3.3.8.4 Subject to the approval of the authority having jurisdiction, the protection of residential cooking equipment shall not be required in buildings protected by an automatic sprinkler system as provided in 32.2.3.5. The exhaust hood is still required to be vented to the outside."
30. Add a new subparagraph 33.3.3.4.7.1.1 to read as follows:
- 33.3.3.4.7.1.1 "Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired persons located in Community Living Arrangements."
31. Delete subparagraph 33.3.3.4.7.2 in its entirety and substitute in its place the following:
- 33.3.3.4.7.2 "The provisions of 9.6.2.10.8.1 and 9.6.2.10.8.2 shall also apply."
32. Delete subparagraph 33.3.3.4.8 in its entirety and substitute in its place the following:
- 33.3.3.4.8 **"Smoke Detection Systems.** All corridors and common spaces shall be provided with smoke detectors in accordance with NFPA 72, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, arranged to initiate the fire alarm such that it is audible in all sleeping areas. Detectors shall be located in corridors or hallway so there is a detector within 15 feet (4.6 m) of the wall and at least every 30 feet (9.1 m) thereafter. Where a building has more than one floor level, a detector shall be located at the top of each stair and inside each enclosure.
- 33.3.3.4.8.2 Smoke detection systems may be excluded from crawl spaces beneath the building and unused and unfinished attics.
- 33.3.3.4.8.3 Smoke detection systems shall not be required in unenclosed corridors, passageways, balconies, colonnades, or other arrangements where one or more sides along the long

dimension are fully or extensively open to the exterior at all times."

33. Delete subparagraph 33.3.3.5.2 in its entirety and substitute in its place the following:
 - 33.3.3.5.2 "Sprinkler installation may be omitted in bathrooms where the area does not exceed 55 square feet (5.1 sq. m) and the walls and ceilings, including behind fixtures, are of noncombustible or limited combustible materials providing a 15-minute thermal barrier or in clothes closets, linen closets, and pantries within the facility where the area of the space does not exceed 24 square feet (2.2 sq. m) and the least dimension does not exceed 3 feet (0.91 m) and the walls and ceilings are surfaced with noncombustible or limited combustible materials as defined by NFPA 220, *Standard on Types of Building Construction*, as specified in Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner."
34. Delete subparagraph 33.3.3.5.1.3 in its entirety and substitute in its place the following:
 - 33.3.3.5.1.3 "Automatic sprinklers installed in accordance with NFPA 13D, *Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes*, 1991 edition, as modified by Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner, which were in effect shall be acceptable as a complying sprinkler system."
35. Add a new subparagraph 33.3.3.5.1.4 to read as follows:
 - 33.3.3.5.1.4 "Automatic sprinkler systems installed in existing facilities prior to November 1, 1987, may be continued in use subject to the approval of the authority having jurisdiction as defined in paragraph 3.2.2 of the *Code*."
36. Add new subparagraph 33.3.3.4.9 to read as follows:
 - 33.3.3.4.9 "**Carbon Monoxide Detectors.** Carbon monoxide detectors shall be provided in all community living arrangements where natural gas, LP gas or heating oil is used to heat the residence or where a solid fuel-burning appliance is located in the residence."

37. Delete subparagraph 33.3.3.5.7 in its entirety and substitute in its place the following:
- 33.3.3.5.7 **"Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all residential board and care occupancies and on each floor of a community living arrangement facility in accordance with 9.9."
38. Delete subparagraph 33.3.3.6.1 and subparagraphs to 33.3.3.6.1 in their entirety and substitute in its place the following:
- 33.3.3.6.1 "Access shall be provided from every resident use area to not less than one means of egress that is separated from all other rooms or spaces by walls complying with 33.3.3.6.3 through 33.3.3.6.6.3."
39. Delete subparagraph 33.3.3.6.3 in its entirety and substitute in its place the following:
- 33.3.3.6.3 "Fire barriers required by 33.3.3.6.1 and 33.3.3.6.2 shall have a fire-resistance rating of not less than 30 minutes. Fixed fire window assemblies in accordance with 8.3.3 shall be permitted.
- 33.5.3.6.3.1 The provisions of 33.3.3.6.3 shall not apply where the resident room has a door providing direct exiting at grade or to an open air balcony leading to exiting at grade."
40. Delete subparagraph 33.3.3.6.4 in its entirety and substitute in its place the following:
- 33.3.3.6.4 "Doors in fire barriers required by 33.3.3.6.1 or 33.3.3.6.2 shall have a fire protection rating of not less than twenty (20) minutes and shall have positive latching.
- 33.3.3.6.4.1 Existing 1¾ inch (44.5 mm) thick, solid bonded wood core doors shall be permitted to continue to be used. These doors shall be positive latching.
- 33.3.3.6.4.2 Walls that are required only to resist the passage of smoke, without a fire-resistance rating, shall be permitted to have doors that resist the passage of smoke without a fire protection rating. These doors shall be positive latching.

33.3.3.6.4.3 In existing personal care occupancies existing prior to April 15, 1986, the doors shall be constructed to resist the passage of smoke and shall be at least equal in fire protection to a 1¼ inch (31.8 mm) thick solid bonded core wood door and shall have positive latching."

41. Delete subparagraph 33.3.3.6.5 in its entirety and substitute in its place the following:

33.3.3.6.5 "Walls and doors required by 33.3.3.6.1 and 33.3.3.6.2 shall be constructed to resist the passage of fire and smoke for not less than 30 minutes. There shall be no louvers, transfer grilles, operable transoms, or other air passages penetrating such walls or doors except properly installed heating and utility installations. Unprotected openings shall be prohibited in partitions of interior corridors serving as exit access from resident rooms. Transfer grilles, whether protected by fusible link operated dampers or not, shall not be used in corridor walls or doors between resident rooms and interior corridors.

33.3.3.6.5.1 "Existing transoms installed in corridor partitions of resident rooms shall be fixed in the closed position and shall be covered or otherwise protected to provide a fire-resistance rating at least equivalent to that of the wall in which they are installed."

42. Add new subparagraph 33.3.5.2.4 to read as follows:

33.3.5.2.4 "Portable electric and liquefied petroleum gas or liquid fuel fire space heating devices designed to be portable are prohibited in all portions of large residential board and care occupancies.

33.3.5.2.4.1 In emergency conditions when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufacturer's instructions and the authority having jurisdiction."

43. Delete subsection 33.5 in its entirety and substitute in its place the following:

33.5 "Community Living Arrangement Facilities.

33.5.1 General. The following shall be provided in addition to the requirements of this Chapter for facilities subject to being licensed as a Community Living Arrangement. Where there are conflicts in requirements specified elsewhere in this Chapter, the requirements specified under Section 33.5 shall prevail.

33.5.2 Address identification. Community Living Arrangement structures shall have approved address numbers, building numbers or approved building identification placed in accordance with the provisions of the *International Fire Code*.

33.5.3 Means of Egress.

33.5.3.1 A Community Living Arrangement serving a resident dependent upon a wheelchair or other mechanical device for mobility shall provide at least two (2) exits from the Community Living Arrangement, remote from each other, which are accessible to the residents.

33.5.3.2 Bedrooms for residents shall be separated from halls, corridors and other rooms by floor to ceiling walls. capable of resisting fire for not less than ½-hour, which is considered to be achieved if the partitioning is finished on both sides with lath and plaster or materials providing a 15-minute thermal barrier. Sleeping room doors shall be substantial doors, such as those of 1¾-in. (4.4-cm) thick, solid-bonded wood core construction or other construction of equal or greater stability and fire integrity. Any vision panels shall be fixed fire window assemblies in accordance with 8.3.3 or shall be wired glass not exceeding 1296 in. 2 (0.84 m2) each in area and installed in approved frames.

33.5.3.3 A room shall not be used as a bedroom where more than one-half the room height is below ground level.

33.5.3.4 Bedrooms which are partially below ground level shall have adequate natural light and ventilation and be provided with two useful means of egress.

33.5.3.5 Bedrooms occupied by residents shall have doors that can be closed. Doors shall be not less than 32 in. (81 cm) wide.

33.5.3.6 Any door in the path of travel of a means of means of egress or escape shall be not less than 32 in. (81 cm) wide.

33.5.3.7 Residents who need assistance with ambulation shall be provided bedrooms that have access to a ground-level exit to the outside or provided bedrooms above ground level that have access to exits with easily negotiable ramps or easily accessible lifts.

33.5.3.8 **Locks.**

33.5.3.8.1 Bedrooms may have locks on doors provided both the occupant and staff are provided with keys to ensure easy entry. Double-cylinder locks (locks requiring a key on both sides) are prohibited be used on the bedroom door of a resident.

33.5.3.8.2 Exterior doors shall be equipped with locks that do not require keys to open the door from the inside.

33.5.3.9 Number of Means of Escape. In any dwelling or dwelling unit of two rooms or more, every

sleeping room and every living area shall have not less than one primary means of escape and one secondary means of escape.

33.5.3.9.1 A secondary means of escape shall not be required where the bedroom or living area has a door leading directly to the outside of the building at or to grade level.

33.5.4 Detection and Alarm Systems

33.5.4.1 A fire alarm system meeting the minimum requirements for Single- and Multiple Station Alarms and Household Fire Alarm Systems per NFPA 72, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, shall be installed.

33.5.4.2 Smoke Detection.

33.5.4.2.1 Smoke alarms shall be installed in accordance with the provisions of 9.6.2.10. Any additional detection/alarm devices shall be as established by O.C.G.A. § [25-2-40](#).

33.5.4.2.2 Smoke alarms shall be installed on all levels, including basements but excluding crawl spaces and unfinished attics.

33.5.4.2.3 Additional smoke alarms shall be installed for all living areas as defined in 3.3.22.5.

33.5.4.2.4 Strobe alarms shall be used when required by the needs of the resident, e.g., for hearing impaired persons.

33.5.4.3 **Carbon Monoxide Detectors.**

33.5.4.3.1 Carbon monoxide detectors shall be provided in the residence where natural gas, LP gas or heating oil is used to heat the residence.

33.5.4.3.2 Carbon monoxide detectors shall be provided in the residence if a solid fuel-burning fireplace is installed the residence

33.5.5 **Protection.**

33.5.5.1 **Portable Fire Extinguishers.** Portable fire extinguishers in accordance with 9.9 shall be provided near hazardous areas.

33.5.5.1.1 At least one 2A rated multipurpose ABC fire extinguisher shall be provided on each occupied floor and in the basement that shall be readily accessible.

33.5.5.1.2 Required portable fire extinguishers shall be inspected and maintained annually by a state licensed or permitted fire extinguisher technician annually in accordance with NFPA 10, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

33.5.5.1.3 Monthly quick check inspections shall be conducted by the staff of the Community Living Arrangement to ensure

they are charged and in operable condition.

33.5.6 Heating, Ventilation and Air Conditioning.

33.5.6.1 Space heaters shall not be used.

33.5.6.2 Fire screens and protective devices shall be used with fireplaces, stoves, and heaters.

33.5.6.3 A water temperature monitor or a scald valve shall be installed where necessary to ensure the safety of the residents. Heated water provided for use of residents shall not exceed 120 degrees Fahrenheit at the hot water fixture, unless a cooler temperature is required by the needs of the individual.

33.5.7 Operating Features.

33.5.7.1 **Staffing.** The Community Living Arrangement shall have as many qualified and trained employees on duty as shall be needed to safeguard properly the health, safety, and welfare of residents and ensure the provision of services the residents require to be delivered in the Community Living Arrangement.

33.5.7.1.1 Before working independently with residents, each staff member shall be trained and show continuing evidence of competence in fire safety and emergency evacuation procedures. A resident shall not be considered a staff person in the residence in which they live. (See Chapter 4 of the *International Fire Code*, as adopted by Chapter 120-3-3 of

the Rules and Regulations of the
Safety Fire Commissioner.)

33.5.7.2 **Evacuation Capabilities.** Community Living Arrangement shall maintain a staffing ratio sufficient to ensure that all residents can meet a prompt evacuation capability as defined in [120-3-3-.03](#) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner. Residents who cannot meet a prompt evacuation capability classification shall be provided with a minimum of one dedicated employee whose primary responsibility is to provide evacuation of the resident in the event of a fire or other emergency. The dedicated employee/employees shall be in close attendance at all times.

33.5.7.3 **Drills.** Fire drills shall be conducted at least quarterly on each shift. At least two drills per calendar year shall be during sleeping hours. All fire drills shall be documented with staffing involved. (See Chapter 4 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.)

33.5.7.4 **Procedures.** There shall be established procedures and mechanisms for alerting and caring for residents in case of emergencies and for evacuating them to safety. An evacuation plan with clear instructions shall be available within each residence. Each sleeping room shall have a secondary exit, which may be a door or a window usable for escape."

44. Delete subsections 33.7.1, 33.7.2, and 33.7.3 in their entirety and substitute in their place the following:

33.7.1 **"Emergency Planning and Preparedness.** Residential board and care facilities (Group II and R-4 occupancies), including community living arrangements and personal care homes, shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, resident training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

45. Delete subsection 33.7.4 in its entirety and substitute in their place the following:

33.7.4 **"Smoking.** Smoking regulations shall be adopted and shall include the following minimal provisions.

33.7.4.1 Smoking shall be prohibited in any room, area or compartment where flammable liquids, combustible gases, or oxygen are used or stored and in any other hazardous location. Such areas shall be posted with **"NO SMOKING"** signs.

33.7.4.2 Smoking by residents classified as not responsible shall be prohibited.

33.7.4.2.1 Smoking is permitted by residents classified as not responsible when under direct supervision.

33.7.4.3 Ashtrays of noncombustible material and safe design shall be provided in all areas where smoking is permitted.

33.7.4.4 Metal containers with self-closing cover devices into which ashtrays may be emptied shall be readily available in all areas where smoking is permitted."

46. Add a new paragraph 33.7.5.4 to read as follows:

33.7.5.4 **"Waste Containers.** Wastebaskets and other waste containers shall be of noncombustible or other approved materials."

(dd) **Modifications to reserved Chapter 34.**

1. Insert a new Chapter 34 to read as follows:

"Chapter 34 New Assisted Living Community Occupancies

34.1 General Requirements.

34.1.1 Application.

34.1.1.1 General.

34.1.1.1.1 The requirements of this chapter shall apply to new buildings or portions thereof used as assisted living community occupancies. New buildings or portions thereof used as assisted living community occupancies shall be permitted to meet all the requirements for a limited health care occupancy as prescribed in chapter 18 of this *Code* in lieu of this chapter. (See 1.3.1).

34.1.1.1.2 **Administration.** The provisions of Chapter 1, Administration, shall apply.

34.1.1.1.3 **General.** The provisions of Chapter 4, General, shall apply.

34.1.1.1.4 Buildings, or sections of buildings, that primarily house residents who, in the opinion of the governing body of the facility and the governmental agency having jurisdiction, are capable of exercising judgment and appropriate physical action for self-preservation under emergency conditions shall be permitted to comply with the provisions of Chapter 32 provided they are separated by a fire barrier having not less than a

1-hour fire resistance rating and constructed of materials as required for the addition.

34.1.1.1.5 It shall be recognized that, in buildings providing care for certain types of residents or having a security section, it might be necessary to lock doors and bar windows to confine and protect building inhabitants. In such instances, the authority having jurisdiction shall require appropriate modifications to those sections of this *Code* that would otherwise require means of egress to be kept unlocked.

34.1.1.1.6 The requirements of this chapter shall apply based on the assumption that staff is available in all resident-occupied areas to perform certain fire safety functions as required in other paragraphs of this chapter.

34.1.1.2 * **Goals and Objectives.** The goals and objectives of Sections 4.1 and 4.2 shall be met with due consideration for functional requirements, which are accomplished by limiting the development and spread of a fire to the room of fire origin and reducing the need for occupant evacuation, except from the room of fire origin.

34.1.1.3 **Total Concept.**

34.1.1.3.1 All assisted living community facilities shall be designed, constructed, maintained, and operated to minimize the

possibility of a fire emergency requiring the evacuation of occupants.

34.1.1.3.2 Because the safety of assisted living community occupants cannot be ensured adequately by dependence on evacuation of the building, their protection from fire shall be provided by appropriate arrangement of facilities; adequate, trained staff; and development of operating and maintenance procedures composed of the following:

- (1) Design, construction, and compartmentation
- (2) Provision for detection, alarm, and extinguishment
- (3) Fire prevention and planning, training, and drilling programs for the isolation of fire, transfer of occupants to areas of refuge, or evacuation of the building

34.1.1.4 **Additions, Conversions, Modernization, Renovation, and Construction Operations.**

34.1.1.4.1 **Additions.**

34.1.1.4.1.1 Additions shall be separated from any existing structure not conforming to the provisions

within Chapter 34 by a fire barrier having not less than a 2-hour fire resistance rating and constructed of materials as required for the addition. (See 4.6.5 and 4.6.7.)

34.1.1.4.1.2 Doors in barriers required by 34.1.1.4.1.1 shall normally be kept closed, unless otherwise permitted by 34.1.1.4.1.3.

34.1.1.4.1.3 Doors shall be permitted to be held open if they meet the requirements of 34.2.2.4.

34.1.1.4.2 **Conversion.** For the purposes of this chapter, exceptions for conversions shall apply only for a change of occupancy from an existing health care occupancy to an assisted living community occupancy.

34.1.1.4.3 **Changes of Occupancy.** A change from a personal care home to an assisted living community occupancy shall be

considered a change in occupancy or occupancy sub-classification and would be required to meet the provisions of this Chapter for new construction.

34.1.1.4.4 **Renovations, Alterations, and Modernizations.** See 4.6.7.

34.1.1.4.5 **Construction, Repair, and Improvement Operations.** See 4.6.10.

34.1.2 **Classification of Occupancy.** See [120-3-3.03\(4\), \(14\)](#), and 34.1.4.2.

34.1.3 **Multiple Occupancies.**

34.1.3.1 Multiple occupancies shall comply with 6.1.14 in buildings other than those meeting the requirement of 34.1.3.2.

34.1.3.2 * Sections of assisted living community facilities shall be permitted to be classified as other occupancies, provided that they meet both of the following conditions:

- (1) They are not intended to serve assisted living community occupants or have customary access by assisted living community residents who are incapable of self-preservation.
- (2) They are separated from areas of assisted living community occupancies by construction having a minimum 2-hour fire resistance rating.

34.1.3.3 The requirement of 34.1.3.1 shall not apply to apartment buildings housing assisted living community occupancies in conformance with

Section 34.4. In such facilities, any safeguards required by Section 34.4 that are more restrictive than those for other housed occupancies shall apply only to the extent prescribed by Section 34.4.

34.1.3.4 No assisted living community occupancy shall be located above a nonresidential or non-health care occupancy, unless the assisted living community occupancy and exits therefrom are separated from the nonresidential or non-health care occupancy by construction having a minimum 2-hour fire resistance rating.

34.1.3.5 Any area with a hazard of contents classified higher than that of the assisted living community occupancy and located in the same building shall be protected as required in 34.2.

34.1.3.6 Non-residential-related occupancies classified as containing high hazard contents shall not be permitted in buildings housing assisted living community occupancies.

34.1.4 **Definitions.**

34.1.4.1 **General.** For definitions, see Chapter 3, **Definitions.**

34.1.4.2 **Special Definitions.** A list of special terms used in this chapter follows:

- (1) Assisted Living Community Occupancy. See [120-3-3-.03\(4\)](#).
- (2) Assisted self-preservation. See [120-3-3-.03\(5\)](#).
- (3) Evacuation Capability, Impractical. See [120-3-3-.03\(7\)](#).
- (4) Evacuation Capability, Prompt. See [120-3-3-.03\(8\)](#).

- (5) Evacuation Capability, Slow. See [120-3-3-.03\(9\)](#).
- (6) Personal Care Home. See [120-3-3-.03\(21\)](#).
- (7) Point of Safety. See 3.3.211 of this *Code*.
- (8) Thermal Barrier. See 3.3.31.3 of this *Code*.

34.1.5 **Classification of Hazard of Contents.** The classification of hazard of contents shall be as defined in Section 6.2.

34.1.6 **Minimum Construction Requirements.** Assisted living community facilities shall be limited to the building construction types specified in Table 34.1.6 (see 8.2.1), based on the number of stories in height as defined in 4.6.3.

Table 34.1.6

Table 34.1.6	Number of Stories - <i>See Note b</i>					
Construction Type	Sprinklered <i>See Note a</i>	1	2	3	4-12	12
Type I(442) <i>a c d</i>	YES	X	X	X	X	X

	NO	N.P.	N.P.	N.P.	N.P.	N.P.
Type V(000) <i>a</i>	YES	X	N.P.	N.P.	N.P.	N.P.
	NO	N.P.	N.P.	N.P.	N.P.	N.P.

X = Permitted if sprinklered as required by 32.3.3.5.

NP = Not permitted.

a Building shall be protected throughout by an approved supervised automatic sprinkler system installed in accordance with 9.7.1.1(1), and provided with quick response or residential sprinklers throughout. (See requirements of 34.3.5).

b See requirements of 4.6.3.

c See requirements of 34.1.6.2.1.

d See requirements of 34.1.6.2.2.

34.1.6.1 * **Fire Resistance-Rated Assemblies.** Fire resistance-rated assemblies shall comply with Section 8.3.

34.1.6.2 **Construction Type Limitations.**

34.1.6.2.1 Any building of Type I(442), Type I(332), Type II(222), or Type II(111) construction shall be permitted to include roofing systems involving combustible supports, decking, or roofing, provided that all of the following criteria are met:

- (1) The roof covering shall meet Class A requirements in accordance with ASTM E 108, Standard Test Methods for Fire Tests of Roof Coverings, or ANSI/UL 790, Test Methods for Fire Tests of Roof Coverings.
- (2) The roof shall be separated from all occupied portions of the building by a noncombustible floor assembly having not less than a 2-hour fire resistance rating that includes not less than 2 1/2 in. (63 mm) of concrete or gypsum fill.
- (3) The structural elements supporting the 2-hour fire resistance-rated floor assembly specified in 34.1.6.2(2) shall be required to have only the fire resistance rating required of the building.

34.1.6.2.2 Any building of Type I(442), Type I(332), Type II(222), or Type II(111) construction shall be permitted to include roofing systems involving combustibles supports, decking, or roofing, provided that all of the following criteria are met:

- (1) The roof covering shall meet Class A requirements in accordance with ASTM E 108, *Standard Test Methods for Fire Tests of Roof Coverings*, or ANSI/UL 790, *Test Methods for Fire Tests of Roof Coverings*.
- (2) The roof/ceiling assembly shall be constructed with fire-retardant-treated wood meeting the requirements of NFPA 220, *Standard on Types of Building Construction*.
- (3) The roof/ceiling assembly shall have the required fire resistance rating for the type of construction.

34.1.6.2.3 Any level below the level of exit discharge shall be separated from the level of exit discharge by not less than Type II(111), Type III(211), or Type V(111) construction (see 8.2.1), unless both of the following criteria are met:

- (1) Such levels are under the control of the assisted living community facility.
- (2) Any hazardous spaces are protected in accordance with Section 8.7.

34.1.6.3 All buildings with more than one level below the level of exit discharge shall have all such lower levels separated from the level of exit discharge by not less than Type II(111) construction.

34.1.6.4 Interior nonbearing walls in buildings of Type I or Type II construction shall be constructed of noncombustible or limited-combustible materials, unless otherwise permitted by 20.1.6.4.

34.1.6.5 Interior nonbearing walls required to have a minimum 2-hour fire resistance rating shall be permitted to be fire-retardant-treated wood enclosed within noncombustible or limited-combustible materials, provided that such walls are not used as shaft enclosures.

34.1.6.6 Fire-retardant-treated wood that serves as supports for the installation of fixtures and equipment shall be permitted to be installed behind noncombustible or limited-combustible sheathing.

34.1.7 **Occupant Load.** The occupant load, in number of persons for whom means of egress and other provisions are required, shall be determined on the basis of the occupant load factors of Table 7.3.1.2 that are characteristic of the use of the space, or shall be determined as the maximum probable population of the space under consideration, whichever is greater.

34.2 Means of Egress Requirements.

34.2.1 General.

- 34.2.1.1 Means of egress from resident rooms and resident dwelling units to the outside of the building shall be in accordance with Chapter 7 and this chapter.
- 34.2.1.2 Means of escape within the resident room or resident dwelling unit shall comply with Section 24.2 for one- and two-family dwellings.
- 34.2.1.3 No means of escape or means of egress shall be considered as complying with the minimum criteria for acceptance, unless emergency evacuation drills are regularly conducted using that route in accordance with the requirements of 34.7.3.
- 34.2.1.4 No assisted living community occupancy shall have its sole means of egress or means of escape pass through any nonresidential or non-health care occupancy in the same building.
- 34.2.1.5 All means of egress from assisted living community occupancies that traverse non-assisted living community spaces shall conform to the requirements of this *Code* for assisted living community occupancies, unless otherwise permitted by 34.2.1.6.
- 34.2.1.6 Exit through a horizontal exit into other contiguous occupancies that does not conform to assisted living community egress provisions but do comply with requirements set forth in the appropriate occupancy chapter of this *Code* shall be permitted, provided that the occupancy does not contain high hazard contents.
- 34.2.1.7 Egress provisions for areas of assisted living community facilities that correspond to other occupancies shall meet the corresponding requirements of this *Code* for such occupancies,

and, where the clinical needs of the residents necessitate the locking of means of egress, staff shall be present for the supervised release of occupants during all times of use.

34.2.2 Means of Egress Components.

34.2.2.1 Components Permitted. Components of means of egress shall be limited to the types described in 34.2.2.2 through 34.2.2.10.

34.2.2.2 Doors. Doors in means of egress shall meet all of the following criteria:

- (1) Doors complying with 7.2.1 shall be permitted.
- (2) Doors within individual rooms and suites of rooms shall be permitted to be swinging or sliding.
- (3) No door in any means of egress, other than those meeting the requirement of 34.2.2.2.1 or 34.2.2.2.2, shall be equipped with a lock or latch that requires the use of a tool or key from the egress side.

34.2.2.2.1 Delayed-egress locks in accordance with 7.2.1.6.1 shall be permitted.

34.2.2.2.2 Access-controlled egress doors in accordance with 7.2.1.6.2 shall be permitted.

34.2.2.2.3 Doors that are located in the means of egress from individual resident bedrooms or private living units shall be permitted to have locks where the clinical needs of a resident require

specialized protective security measures provided that staff can readily unlock doors at all times in accordance with 34.2.2.2.4.

34.2.2.2.4 Doors that are located in the means of egress and are permitted to be locked under other provisions of 34.2.2.2.3 shall comply with both of the following:

- (1) Provisions shall be made for the rapid removal of occupants by means of one of the following:
 - (a) Remote control of locks from within the locked smoke compartment
 - (b) Keying of all locks to keys carried by staff at all times
 - (c) Other such reliable means available to the staff at all times
- (2) Only one locking device shall be permitted on each door.

34.2.2.2.5 Doors located in the means of egress that are permitted to be locked under other provisions of Chapter 34, other than those meeting the requirement of 34.2.2.2.1 or 34.2.2.2.2, shall

have adequate provisions made for the rapid removal of occupants by means such as remote control of locks, keying of all locks to keys carried by staff at all times, or other such reliable means available to staff at all times.

34.2.2.2.6 Only one such locking device, as described in 34.2.2.2.5, shall be permitted on each door.

34.2.2.3 **Stairs.** Stairs complying with 7.2.2 shall be permitted.

34.2.2.4 **Smokeproof Enclosures.** Smokeproof enclosures complying with 7.2.3 shall be permitted.

34.2.2.5 **Horizontal Exits.** Horizontal exits complying with 7.2.4 shall be permitted.

34.2.2.6 **Ramps.** Ramps complying with 7.2.5 shall be permitted.

34.2.2.7 **Exit Passageways.** Exit passageways complying with 7.2.6 shall be permitted.

34.2.2.8 **Fire Escape Ladders.** Fire escape ladders complying with 7.2.9 shall be permitted.

34.2.2.9 **Alternating Tread Devices.** Alternating tread devices complying with 7.2.11 shall be permitted.

34.2.2.10 **Areas of Refuge.** Areas of refuge complying with 7.2.12 shall be permitted.

34.2.3 **Capacity of Means of Egress.**

34.2.3.1 The capacity of means of egress shall be in accordance with Section 7.3.

34.2.3.2 Street floor exits shall be sufficient for the occupant load of the street floor plus the required capacity of stairs and ramps discharging onto the street floor.

34.2.3.3 The width of corridors shall be sufficient for the occupant load served but shall be not less than 60 in. (1525 mm).

34.2.4 **Number of Means of Egress.**

34.2.4.1 Means of egress shall comply with the following, except as otherwise permitted by 34.2.4.2:

- (1) The number of means of egress shall be in accordance with Section 7.4.
- (2) Not less than two separate exits shall be provided on every story.
- (3) Not less than two separate exits shall be accessible from every part of every story.

34.2.4.2 Exit access, as required by 34.2.4.1(3), shall be permitted to include a single exit access path for the distances permitted as common paths of travel by 34.2.5.2.

34.2.5 **Arrangement of Means of Egress.**

34.2.5.1 **General.** Access to all required exits shall be in accordance with Section 7.5.

34.2.5.2 **Dead-end Corridors.** Dead-end corridors shall not exceed 30 ft. (9.1 mm).

34.2.5.3 **Common Path.** Common paths of travel shall not exceed 75 ft. (23 m).

34.2.5.4 **Reserved.**

34.2.6 **Travel Distance to Exits.**

34.2.6.1 Travel distance from the door within a room, suite, or living unit to a corridor door shall not exceed 75 ft. (23 m) in buildings not protected throughout by an approved automatic sprinkler system in accordance with 34.3.5.

34.2.6.2 Travel distance from any point within a room, suite, or living unit to a corridor door shall not exceed 125 ft. (38 m) in buildings protected throughout by an approved automatic sprinkler system in accordance with 34.3.5.

34.2.6.3 Travel distance from the corridor door of any room to the nearest exit shall be in accordance with 34.2.6.3.1 or 34.2.6.3.2.

34.2.6.3.1 Travel distance from the corridor door of any room to the nearest exit, measured in accordance with Section 7.6, shall not exceed 150ft. (45.72m).

34.2.6.3.2 Travel distance to exits shall not exceed 200 ft. (61 m) for exterior ways of exit access arranged in accordance with 7.5.3.

34.2.7 **Discharge from Exits.** Exit discharge shall comply with Section 7.7.

34.2.8 **Illumination of Means of Egress.** Means of egress shall be illuminated in accordance with Section 7.8.

34.2.9 **Emergency Lighting.** Emergency lighting in accordance with Section 7.9 shall be provided.

34.2.10 **Marking of Means of Egress.** Means of egress shall be marked in accordance with Section 7.10.

34.2.11 Special Means of Egress Features.

34.2.11.1 Reserved.

34.2.11.2 Lockups. Lockups in residential assisted living community occupancies shall comply with the requirements of 22.4.5.

34.3 Protection.

34.3.1 Protection of Vertical Openings.

34.3.1.1 Vertical openings shall be enclosed or protected in accordance with Section 8.6.

34.3.1.2 Unenclosed vertical openings in accordance with 8.6.9.1 shall be permitted.

34.3.1.3 No floor below the level of exit discharge used only for storage, heating equipment, or purposes other than residential occupancy shall have unprotected openings to floors used for residential occupancy.

34.3.2 Protection from Hazards.

34.3.2.1 Rooms containing high-pressure boilers, refrigerating machinery, transformers, or other service equipment subject to possible explosion shall not be located directly under or adjacent to exits, and such rooms shall be effectively separated from other parts of the building as specified in Section 8.7.

34.3.2.2 Hazardous areas, which shall include, but shall not be limited to, the following, shall be separated from other parts of the building by construction having a minimum 1-hour fire resistance rating, with communicating openings protected by approved self-closing fire doors and be equipped with automatic fire-extinguishing systems:

- (1) Boiler and heater rooms

- (2) Laundries
- (3) Repair shops
- (4) Rooms or spaces used for storage of combustible supplies and equipment in quantities deemed hazardous by the authority having jurisdiction

Exception to (1): Rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes.

34.3.3 Interior Finish.

34.3.3.1 **General.** Interior finish shall be in accordance with Section 10.2.

34.3.3.2 **Interior Wall and Ceiling Finish.** Interior wall and ceiling finish materials complying with Section 10.2 shall be in accordance with the following:

- (1) Exit enclosures - Class A
- (2) Lobbies and corridors - Class B
- (3) Rooms and enclosed spaces - Class B

34.3.3.3 Interior Floor Finish.

34.3.3.3.1 Interior floor finish shall comply with Section 10.2.

34.3.3.3.2 Interior floor finish in exit enclosures and exit access corridors and spaces not separated from them by walls complying with 34.3.6 shall be not less than Class II.

34.3.3.3.3 Interior floor finish shall comply with 10.2.7.1 or 10.2.7.2, as applicable.

34.3.4 **Detection, Alarm, and Communications Systems.**

34.3.4.1 **General.** A fire alarm system shall be provided in accordance with Section 9.6.

34.3.4.2 **Initiation.** The required fire alarm system shall be initiated by each of the following:

- (1) Manual means in accordance with 9.6.2
- (2) Manual fire alarm box located at a convenient central control point under continuous supervision of responsible employees
- (3) Required automatic sprinkler system
- (4) Required detection system

34.3.4.3 **Annunciator Panel.** An annunciator panel, connected to the fire alarm system, shall be provided at a location readily accessible from the primary point of entry for emergency response personnel.

34.3.4.4 **Notification.**

34.3.4.4.1 **Occupant Notification.** Occupant notification shall be provided automatically, without

delay, by internal audible alarm in accordance with 9.6.3.

34.3.4.4.2 **High-Rise Buildings.** High-rise buildings shall be provided with an approved emergency voice communication/alarm system in accordance with 11.8.4.

34.3.4.5 * **Emergency Forces Notification.** Fire department notification shall be accomplished in accordance with 9.6.4.

34.3.4.6 **Detection.**

34.3.4.6.1 **Smoke Alarms.** Approved smoke alarms shall be installed in accordance with 9.6.2.10 inside every sleeping room, outside every sleeping area in the immediate vicinity of the bedrooms, and on all levels within a resident unit.

34.3.4.7 **Smoke Detection Systems.**

34.3.4.7.1 Corridors, spaces open to the corridors, and other spaces outside every sleeping area in the immediate vicinity of the bedrooms other than those meeting the requirement of 34.3.4.7.2, shall be provided with smoke detectors that comply with NFPA 72, *National Fire Alarm and Signaling Code*, and are arranged to initiate an alarm that is audible in all sleeping areas.

34.3.4.7.2 Smoke detection systems shall not be required in unenclosed

corridors, passageways, balconies, colonnades, or other arrangements with one or more sides along the long dimension fully or extensively open to the exterior at all times.

34.3.5 **Extinguishment Requirements.**

34.3.5.1 **General.** All buildings shall be protected throughout by an approved automatic sprinkler system installed in accordance with 9.7.1.1(1) and provided with quick-response or residential sprinklers throughout.

34.3.5.5 **Supervision.** Automatic sprinkler systems shall be provided with electrical supervision in accordance with 9.7.2.

34.3.5.7 **Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in accordance with 9.9.

34.3.6 **Corridors and Separation of Sleeping Rooms.**

34.3.6.1 Access shall be provided from every resident use area to at least one means of egress that is separated from all sleeping rooms by walls complying with 34.3.6.3 through 34.3.6.6.

34.3.6.1.1 Sleeping rooms shall be separated from corridors, living areas, and kitchens by walls complying with 34.3.6.2 through 34.3.6.6.

34.3.6.2 Walls required by 34.3.6.1 or 34.3.6.1.1 shall be smoke partitions in accordance with Section 8.4 having a minimum 1/2-hour fire resistance rating.

34.3.6.3.5 Hazardous areas shall be separated from corridors in accordance with 34.3.2.

34.3.6.4 Doors protecting corridor openings other than from resident sleeping rooms and hazardous areas shall not be required to have a fire protection rating, but shall be constructed to resist the passage of smoke.

34.3.6.4.1 Doors protecting resident sleeping rooms shall have a minimum 20-minute fire protection rating.

34.3.6.5 Door-closing devices shall not be required on doors in corridor wall openings, other than those serving exit enclosures, smoke barriers, enclosures of vertical openings, and hazardous areas.

34.3.6.6 No louvers, transfer grilles, operable transoms, or other air passages, other than properly installed heating and utility installations, shall penetrate the walls or doors specified in 34.3.6.

34.3.7 **Subdivision of Building Spaces.** Buildings shall be subdivided by smoke barriers in accordance with 34.3.7.1 through 34.3.7.21.

34.3.7.1 Every story shall be divided into not less than two smoke compartments, unless it meets the requirement of 34.3.7.4, 34.3.7.5, 34.3.7.6, or 34.3.7.7.

34.3.7.2 Each smoke compartment shall have an area not exceeding 22,500 ft² (2100 m²).

34.3.7.3 The travel distance from any point to reach a door in the required smoke barrier shall be limited to a distance of 200 ft. (61 m).

- 34.3.7.3.1 Additional smoke barriers shall be provided such that the travel distance from a sleeping room corridor door to a smoke barrier shall not exceed 150 ft. (46 m).
- 34.3.7.4 Smoke barriers shall not be required on stories that do not contain an assisted living community occupancy located above the assisted living community occupancy.
- 34.3.7.5 Smoke barriers shall not be required in areas that do not contain an assisted living community occupancy and that are separated from the assisted living community occupancy by a fire barrier complying with Section 8.3.
- 34.3.7.6 Smoke barriers shall not be required on stories that do not contain an assisted living community occupancy and that are more than one story below the assisted living community occupancy.
- 34.3.7.7 Smoke barriers shall not be required in open parking structures protected throughout by an approved, supervised automatic sprinkler system in accordance with 34.3.5.
- 34.3.7.8 Smoke barriers shall be constructed in accordance with Section 8.5 and shall have a minimum 1-hour fire resistance rating, unless they meet the requirement of 34.3.7.9 or 34.3.7.10.
- 34.3.7.9 Where an atrium is used, smoke barriers shall be permitted to terminate at an atrium wall constructed in accordance with 8.6.7(1)(c), in which case not less than two separate smoke compartments shall be provided on each floor.

- 34.3.7.10 Dampers shall not be required in duct penetrations of smoke barriers in fully ducted heating, ventilating, and air-conditioning systems.
- 34.3.7.11 Not less than 15 net ft² (1.4 net m²) per resident shall be provided within the aggregate area of corridors, lounge or dining areas, and other low hazard areas on each side of the smoke barrier.
- 34.3.7.12 On stories not housing residents, not less than 6 net ft² (0.56 net m²) per occupant shall be provided on each side of the smoke barrier for the total number of occupants in adjoining compartments.
- 34.3.7.13 Doors in smoke barriers shall be substantial doors, such as 1 3/4 in. (44 mm) thick, solid-bonded wood-core doors, or shall be of construction that resists fire for a minimum of 20 minutes.
- 34.3.7.14 Nonrated factory- or field-applied protective plates extending not more than 48 in. (1220 mm) above the bottom of the door shall be permitted.
- 34.3.7.15 Cross-corridor openings in smoke barriers shall be protected by a pair of swinging doors or a horizontal-sliding door complying with 7.2.1.14.
- 34.3.7.16 Swinging doors shall be arranged so that each door swings in a direction opposite from the other.
- 34.3.7.17 Doors in smoke barriers shall comply with 8.5.4 and shall be self-closing or automatic-closing in accordance with 7.2.1.8.

34.3.7.18 Vision panels consisting of fire-rated glazing or wired glass panels in approved frames shall be provided in each cross-corridor swinging door and in each cross-corridor horizontal-sliding door in a smoke barrier.

34.3.7.19 Rabbets, bevels, or astragals shall be required at the meeting edges, and stops shall be required at the head and sides of door frames in smoke barriers.

34.3.7.20 Positive latching hardware shall not be required.

34.3.7.21 Center mullions shall be prohibited.

34.3.8 * **Cooking Facilities.** Cooking facilities, other than those within individual residential units, shall be protected in accordance with 9.2.3.

34.3.9 **Standpipes.**

34.3.9.1 **General.** Where required, standpipe and hose systems shall be installed and maintained in accordance with 9.10.

34.3.9.2 In High-Rise Buildings. Class I standpipe systems shall be installed throughout all high-rise buildings.

34.3.9.3 **Roof Outlets.** Roof outlets shall not be required on roofs having a slope of 3 in 12 or greater.

34.4 **Special Provisions.**

34.4.1 **High-Rise Buildings.** High-rise buildings shall comply with Section 11.8.

34.5 * **Suitability of an Apartment Building to House an Assisted living community Occupancy.**

34.5.1 **General.**

34.5.1.1 **Scope.**

34.5.1.1.1 Section 34.5 shall apply to apartment buildings that have one or more individual apartments used as an assisted living community occupancy. (See 34.1.3.2.)

34.5.1.1.2 The provisions of Section 34.5 shall be used to determine the suitability of apartment buildings, other than those complying with 34.5.1.1.4, to house an assisted living community facility.

34.5.1.1.3 The suitability of apartment buildings not used for assisted living community occupancies shall be determined in accordance with Chapter 30.

34.5.1.1.4 When a new assisted living community occupancy is created in an existing apartment building, the suitability of such a building for apartments not used for assisted living community occupancies shall be determined in accordance with Chapter 31.

34.5.1.2 **Requirements for Individual Apartments.**

Requirements for individual apartments used as residential assisted living community occupancies shall be as specified in Section 34.2. Egress from the apartment into the common building corridor shall be considered acceptable egress from the assisted living community facility.

34.5.1.3 *** Additional Requirements.** Apartment buildings housing assisted living community

facilities shall comply with the requirements of Chapter 30 and the additional requirements of Section 34.5, unless the authority having jurisdiction has determined that equivalent safety for housing an assisted living community facility is provided in accordance with Section 1.4.

34.5.1.4 Minimum Construction Requirements.

34.5.1.4.1 In addition to the requirements of Chapter 30, apartment buildings, other than those complying with 34.5.1.4.2, housing assisted living community facilities shall meet the construction requirements of 34.1.3.

34.5.1.4.2 When a new assisted living community occupancy is created in an existing apartment building, the construction requirements of 19.1.6 shall apply.

34.5.2 Means of Egress.

34.5.2.1 The requirements of Section 30.2 shall apply only to the parts of means of egress serving the apartment(s) used as an assisted living community occupancy, as modified by 34.5.2.2.

34.5.2.2 When a new assisted living community occupancy is created in an existing apartment building, the requirements of Section 31.2 shall apply to the parts of the means of egress serving the apartment(s) used as an assisted living community occupancy.

34.5.3 Protection.

34.5.3.1 Interior Finish.

34.5.3.1.1 The requirements of 30.3.3 shall apply only to the parts of means of egress serving the apartment(s) used as an assisted living community occupancy, as modified by 34.5.3.1.2.

34.4.3.1.2 When a new assisted living community occupancy is created in an existing apartment building, the requirements of 31.3.3 shall apply to the parts of the means of egress serving the apartment(s) used as an assisted living community occupancy.

34.5.3.2 Construction of Corridor Walls.

34.5.3.2.1 The requirements of 30.3.6 shall apply only to corridors serving the assisted living community facility, including that portion of the corridor wall separating the assisted living community facility from the common corridor, as modified by 34.5.3.2.2.

34.5.3.2.2 If a new assisted living community occupancy is created in an existing apartment building, the requirements of 31.3.6 shall apply to the corridor serving the residential assisted living community facility.

34.5.3.3 Subdivision of Building Spaces. (Reserved)

34.6 Building Services.

34.6.1 **Utilities.** Utilities shall comply with Section 9.1.

34.6.1.1 Heating, ventilating, and air-conditioning equipment shall comply with Section 9.2.

34.6.1.2 No stove or combustion heater shall be located such that it blocks escape in case of fire caused by the malfunction of the stove or heater.

34.6.1.3 Unvented fuel-fired heaters shall not be used in any assisted living community occupancy.

34.6.3 Elevators, Dumbwaiters, and Vertical Conveyors. Elevators, dumbwaiters, and vertical conveyors shall comply with Section 9.4.

34.6.3.2 * In high-rise buildings, one elevator shall be provided with a protected power supply and shall be available for use by the fire department in case of emergency.

34.6.4 Rubbish Chutes, Incinerators, and Laundry Chutes. Rubbish chutes, incinerators, and laundry chutes shall comply with Section 9.5.

34.7 **Operating Features.**

34.7.1 **Emergency Planning and Preparedness.** Assisted living community facilities shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, resident training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner. The provisions of this Section 34.7 shall be incorporated into the plans, training and safety practices developed by the facility."

34.7.2 **Emergency Plan.**

34.7.2.1 The administration of every assisted living community facility shall have, in effect and

available to all supervisory personnel, written copies of a plan for protecting all persons in the event of fire, for keeping persons in place, for evacuating persons to areas of refuge, and for evacuating persons from the building when necessary.

34.7.2.2 The emergency plan shall include special staff response, including the fire protection procedures needed to ensure the safety of any resident, and shall be amended or revised whenever any resident with unusual needs is admitted to the home.

34.7.2.3 All employees shall be periodically instructed and kept informed with respect to their duties and responsibilities under the plan, and such instruction shall be reviewed by the staff not less than every 2 months.

34.7.2.4 A copy of the plan shall be readily available at all times within the facility.

34.7.3 **Resident Training.**

34.7.3.1 All residents participating in the emergency plan shall be trained in the proper actions to be taken in the event of fire.

34.7.3.2 The training required by 34.7.3.1 shall include actions to be taken if the primary escape route is blocked.

34.7.3.3 If a resident is given rehabilitation or habilitation training, training in fire prevention and the actions to be taken in the event of a fire shall be a part of the training program.

34.7.3.4 Residents shall be trained to assist each other in case of fire to the extent that their physical and mental abilities permit them to do so without additional personal risk.

34.7.4 **Emergency Egress and Relocation Drills.** Emergency egress and relocation drills shall be conducted in accordance with 34.7.4.1 through 34.7.4.6.

34.7.4.1 Emergency egress and relocation drills shall be conducted not less than once per quarter on each shift at alternating times. It is intended that staff and residents be trained and drilled based on fire and other emergencies that may occur during the periods of lowest staffing levels. This may require more than one drill per quarter on shifts with the lowest staffing levels.

34.7.4.2 The emergency drills shall be permitted to be announced to the residents in advance.

34.7.4.3 The drills shall involve the training of residents for the eventual actual evacuation of all residents to an assembly point, as specified in the emergency plan, and shall provide residents with experience in egressing through all exits and means of escape required by the *Code*.

34.7.4.3.1. The assembly point shall be a place outside of the building and shall be located a safe distance from the building being evacuated so as to avoid interference with fire department operations. A refuge area within a smoke compartment in buildings separated by smoke barriers shall be considered a temporary assembly point as part of a staged evacuation.

34.7.4.3.2. Buildings with smoke compartments shall be allowed to train residents to temporarily escape in a staged evacuation to another smoke compartment separated by smoke barriers. Residents shall be allowed to

complete the training exercise on the other side of an adjacent smoke barrier. Residents shall still be trained to eventually complete building evacuation during an actual emergency evacuation. Residents shall be required to participate in one emergency egress and relocation drill per year where they continue to an assembly point outside of the building.

34.7.4.3.3. Residents, as a group, shall be required to complete the evacuation drill to an exit or across a smoke barrier in less than 13 minutes or shall be required to change its group evacuation capability and comply with Section 35.1.8.

34.7.4.4 Exits and means of escape not used in any drill shall not be credited in meeting the requirements of this *Code* for assisted living community facilities.

34.7.4.5 Actual exiting from windows shall not be required to comply with 34.7.4; opening the window and signaling for help shall be an acceptable alternative.

34.7.4.6 Residents who cannot meaningfully assist in their own evacuation or who have special health problems shall not be required to actively participate in the drill. Section 18.7 shall apply in such instances.

34.7.5 **Smoking.**

34.7.5.1 * Smoking regulations shall be adopted by the administration of assisted living community occupancies.

34.7.5.2 Where smoking is permitted, noncombustible safety-type ashtrays or receptacles shall be provided in convenient locations.

34.7.6 * **Furnishings, Mattresses, and Decorations.**

34.7.6.1 New draperies, curtains, and other similar loosely hanging furnishings and decorations shall comply with 34.7.6.1.1 and 34.7.6.1.2.

34.7.6.1.1 New draperies, curtains, and other similar loosely hanging furnishings and decorations in assisted living community facilities shall be in accordance with the provisions of 10.3.1, unless otherwise permitted by 34.7.6.1.2.

34.7.6.1.2 In other than common areas, new draperies, curtains, and other similar loosely hanging furnishings and decorations shall not be required to comply with 34.7.6.1.1 where the building is protected throughout by an approved automatic sprinkler system installed in accordance with 34.2.3.5.

34.7.6.2 * New upholstered furniture within assisted living community facilities shall comply with 34.7.6.2.1 or 34.7.6.2.2.

34.7.6.2.1 New upholstered furniture shall be tested in accordance with the provisions of 10.3.2.1(1) and 10.3.3.

34.7.6.2.2 Upholstered furniture belonging to residents in sleeping rooms shall not be required to be tested, provided that a smoke alarm is installed in such rooms; battery-powered single-station smoke alarms shall be permitted in such rooms.

34.7.6.3 * Newly introduced mattresses within assisted living community facilities shall comply with 34.7.5.3.1 or 34.7.5.3.2.

34.7.6.3.1 Newly introduced mattresses shall be tested in accordance with the provisions of 10.3.2.2 and 10.3.4.

34.7.6.3.2 Mattresses belonging to residents in sleeping rooms shall not be required to be tested, provided that a smoke alarm is installed in such rooms; battery-powered single-station smoke alarms shall be permitted in such rooms.

34.7.7 **Staff.** Staff shall be on duty and in the facility at all times when residents requiring evacuation assistance are present.

34.7.8 **Inspection of Door Openings.** Door assemblies for which the door leaf is required to swing in the direction of egress travel shall be inspected and tested not less than annually in accordance with 7.2.1.15."

(ee) **Modifications to Chapter 35:**

1. Insert a new Chapter 35 to read as follows:

"Chapter 35 Existing Assisted Living Community Occupancies

35.1 General Requirements.

35.1.1 * Application.

35.1.1.1 General.

- 35.1.1.1.1 The requirements of this chapter shall apply to existing buildings or portions thereof used as assisted living community occupancies or with limited applicability for a conversion as further specific specified in Section 35.1.1.4.3 entitled Change of Occupancy.
- 35.1.1.1.2 **Administration.** The provisions of Chapter 1, Administration, shall apply.
- 35.1.1.1.3 **General.** The provisions of Chapter 4, General, shall apply.
- 35.1.1.1.4 Buildings, or sections of buildings, that primarily house residents who, in the opinion of the governing body of the facility and the governmental agency having jurisdiction, are capable of exercising judgment and appropriate physical action for self-preservation under emergency conditions shall be permitted to comply with the provisions of Chapter 33 provided they are separated by a fire barrier having not less than a 1-hour fire resistance rating and constructed of materials as required for the addition.
- 35.1.1.1.5 It shall be recognized that, in buildings providing care for certain types of residents or

having a security section, it might be necessary to lock doors and bar windows to confine and protect building inhabitants. In such instances, the authority having jurisdiction shall require appropriate modifications to those sections of this *Code* that would otherwise require means of egress to be kept unlocked.

35.1.1.1.6 The requirements of this chapter shall apply based on the assumption that staff is available in all resident-occupied areas to perform certain fire safety functions as required in other paragraphs of this chapter.

35.1.1.2 * **Goals and Objectives.** The goals and objectives of Sections 4.1 and 4.2 shall be met with due consideration for functional requirements, which are accomplished by limiting the development and spread of a fire to the room of fire origin and reducing the need for occupant evacuation, except from the room of fire origin.

35.1.1.3 **Total Concept.**

35.1.1.3.1 All assisted living community facilities shall be designed, constructed, maintained, and operated to minimize the possibility of a fire emergency requiring the evacuation of occupants.

35.1.1.3.2 Because the safety of assisted living community occupants cannot be ensured adequately by

dependence on evacuation of the building, their protection from fire shall be provided by appropriate arrangement of facilities; adequate, trained staff; and development of operating and maintenance procedures composed of the following:

- (1) Design, construction, and compartmentation.
- (2) Provision for detection, alarm, and extinguishment.
- (3) Fire prevention and planning, training, and drilling programs for the isolation of fire, transfer of occupants to areas of refuge, or evacuation of the building.

35.1.1.4 Additions, Conversions, Modernization, Renovation, and Construction Operations.

35.1.1.4.1 **Additions.**

35.1.1.4.1.1 Additions shall be separated from any existing structure not conforming to the provisions within Chapter 35 by a fire barrier having not less than a 2-hour fire resistance rating and constructed

of materials as required for the addition. (See 4.6.5 and 4.6.7.)

35.1.1.4.1.2 Doors in barriers required by 35.1.1.4.1.1 shall normally be kept closed, unless otherwise permitted by 35.1.1.4.1.3.

35.1.1.4.1.3 Doors shall be permitted to be held open if they meet the requirements of 35.2.2.4.

35.1.1.6 **Conversion.** For the purposes of this chapter, exceptions for conversions shall apply only for a change of occupancy from an existing personal care home occupancy or health care occupancy to an assisted living community occupancy.

35.1.1.4.3 **Changes of Occupancy.** A change from a personal care home, assisted living, or assisted living facility to an assisted living community occupancy shall be considered a change in occupancy or occupancy sub-classification. The requirements of this chapter shall be limited to only apply to a change of occupancy to an assisted living community from an existing personal care home,

assisted living, or assisted living facility first occupied as such with a certificate of occupancy issued prior to March 31, 2013. Such facility may be permitted to meet all the requirements for a limited health care occupancy as prescribed in chapter 19 of this *Code* in lieu of this chapter.

35.1.1.4.3.1 An existing personal care home, assisted living, or assisted living facility with a certificate of occupancy dated after March 31, 2013, that is applying for a change of occupancy to an assisted living community or any other change of occupancy classification, sub-classification, shall meet the provisions of Chapter 34 New Assisted Living Community Occupancies.

35.1.1.4.4 **Renovations, Alterations, and Modernizations. See 4.6.7.**

35.1.1.4.5 **Construction, Repair, and Improvement Operations. See 4.6.10.**

35.1.2 **Classification of Occupancy. See [120-3-3.03\(4\), \(14\)](#), and 35.1.4.2.**

35.1.3 **Multiple Occupancies.**

35.1.3.1 Multiple occupancies shall comply with 6.1.14 in buildings other than those meeting the requirement of 35.1.3.2.

35.1.3.2 * Sections of assisted living community facilities shall be permitted to be classified as other occupancies, provided that they meet both of the following conditions:

- (1) They are not intended to serve assisted living community occupants or have customary access by assisted living community residents who are incapable of self-preservation.
- (2) They are separated from areas of assisted living community occupancies by construction having a minimum 2-hour fire resistance rating.

35.1.3.3 The requirement of 35.1.3.1 shall not apply to apartment buildings housing assisted living community occupancies in conformance with Section 35.4. In such facilities, any safeguards required by Section 35.4 that are more restrictive than those for other housed occupancies shall apply only to the extent prescribed by Section 35.4.

35.1.3.4 No assisted living community occupancy shall be located above a nonresidential or non-health

care occupancy, unless one following conditions is met:

- (1) The assisted living community occupancy and exits therefrom are separated from the nonresidential or non-health care occupancy by construction having a minimum 2-hour fire resistance rating.
- (2) The assisted living community occupancy is protected throughout by an approved, supervised automatic sprinkler system in accordance with Section 9.7 and is separated therefrom by construction having a minimum 1-hour fire resistance rating.

35.1.3.5 Any area with a hazard of contents classified higher than that of the assisted living community occupancy and located in the same building shall be protected as required in 35.3.2.

35.1.3.6 Non-residential-related occupancies classified as containing high hazard contents shall not be permitted in buildings housing assisted living community occupancies.

35.1.4 **Definitions.**

35.1.4.1 **General.** For definitions, see Chapter 3, Definitions.

35.1.4.2 **Special Definitions.** A list of special terms used in this chapter follows:

- (1) Assisted Living Community Occupancy. See [120-3-3-.03\(4\)](#).
- (2) Assisted self-preservation. See [120-3-3-.03\(5\)](#)

- (2) Evacuation Capability, Impractical. See [120-3-3-.03\(7\)](#).
- (3) Evacuation Capability, Prompt. See [120-3-3-.03\(8\)](#).
- (4) Evacuation Capability, Slow. See [120-3-3-.03\(9\)](#).
- (5) Personal Care Home. See [120-3-3-.03\(21\)](#).
- (6) Point of Safety. See 3.3.211 of this *Code*.
- (7) Thermal Barrier. See 3.3.31.3 of this *Code*.

35.1.5 **Classification of Hazard of Contents.** The classification of hazard of contents shall be as defined in Section 6.2.

35.1.6 **Minimum Construction Requirements.** Assisted living community facilities shall be limited to the building construction types specified in Table 35.1.6 (see 8.2.1), based on the number of stories in height as defined in 4.6.3.

Table 35.1.6

X = Permitted if sprinklered as required by 33.3.3.5 unless otherwise noted.

NP = Not permitted.

a Building shall be protected throughout by an approved supervised automatic sprinkler system installed in accordance with 35.3.5, and the interior walls are covered with lath and plaster or materials providing a 15-minute thermal barrier. (See requirements of 35.3.5).

b See requirements of 4.6.3.

c See requirements of 35.1.6.2.1.

d See requirements of 35.1.6.2.2.

e See requirements of 35.1.6.5.

35.1.6.1 * **Fire Resistance-Rated Assemblies.** Fire resistance-rated assemblies shall comply with Section 8.3.

35.1.6.2 **Construction Type Limitations.**

35.1.6.2.1 Any building of Type I(442), Type I(332), Type II(222), or Type II(111) construction shall be permitted to include roofing systems involving combustible supports, decking, or roofing, provided that all of the following criteria are met:

- (1) The roof covering shall meet Class A requirements in accordance with ASTM E 108, Standard Test Methods for Fire Tests of Roof Coverings, or ANSI/UL 790, Test Methods for Fire Tests of Roof Coverings.
- (2) The roof shall be separated from all occupied portions of the building by a noncombustible floor assembly having not less than a 2-hour fire resistance rating that includes not less than 2 1/2 in. (63 mm) of concrete or gypsum fill.

- (3) The structural elements supporting the 2-hour fire resistance-rated floor assembly specified in 35.1.6.2(2) shall be required to have only the fire resistance rating required of the building.

35.1.6.2.2 Any building of Type I(442), Type I(332), Type II(222), or Type II(111) construction shall be permitted to include roofing systems involving combustible supports, decking, or roofing, provided that all of the following criteria are met:

- (1) The roof covering shall meet Class A requirements in accordance with ASTM E 108, Standard Test Methods for Fire Tests of Roof Coverings, or ANSI/UL 790, Test Methods for Fire Tests of Roof Coverings.
- (2) The roof/ceiling assembly shall be constructed with fire-retardant-treated wood meeting the requirements of NFPA 220, Standard on Types of Building Construction.
- (3) The roof/ceiling assembly shall have the required fire

resistance rating for the
type of construction.

35.1.6.2.3 Any level below the level of exit discharge shall be separated from the level of exit discharge by not less than Type II(111), Type III(211), or Type V(111) construction (see 8.2.1), unless both of the following criteria are met:

- (1) Such levels are under the control of the assisted living community facility.
- (2) Any hazardous spaces are protected in accordance with Section 8.7.

35.1.6.3 All buildings with more than one level below the level of exit discharge shall have all such lower levels separated from the level of exit discharge by not less than Type II(111) construction.

35.1.6.4 Interior nonbearing walls in buildings of Type I or Type II construction shall be constructed of noncombustible or limited-combustible materials, unless otherwise permitted by 20.1.6.4.

35.1.6.5 Any existing building of Type II(111), Type III(211), or Type V(111) construction shall be permitted however, occupants requiring assistance with evacuation from others shall be limited to occupancy on the first and second stories), unless one of the following criteria is met:

- (1) A horizontal exit in combination with a smoke barrier is provided on the third and fourth floor; or,
- (2) The building is protected throughout by an approved supervised automatic sprinkler system installed in accordance with 9.7.1.1(1), and provided with quick response or residential sprinklers throughout.

35.1.6.6 Interior nonbearing walls required to have a minimum 2-hour fire resistance rating shall be permitted to be fire-retardant-treated wood enclosed within noncombustible or limited-combustible materials, provided that such walls are not used as shaft enclosures.

35.1.6.7 Fire-retardant-treated wood that serves as supports for the installation of fixtures and equipment shall be permitted to be installed behind noncombustible or limited-combustible sheathing.

35.1.6.8 * Changes in Group Evacuation Capability. A change in evacuation capability to a slower level shall be permitted where the facility conforms to one of the following requirements:

- (1) The requirements of Chapter 34 applicable to new assisted living community facilities.
- (2) The requirements of Chapter 35 applicable to existing assisted living community facilities for the new evacuation capability, provided that the building is protected throughout by an approved, supervised automatic sprinkler system complying with 35.5 or an increase in staffing to achieve

evacuation of all residents to a point of safety within 13 minutes.

35.1.6.9 Requirements Based on Evacuation Capability.

35.1.6.9.1 Prompt and Slow. Facilities classified as prompt or slow evacuation capability, other than those meeting the requirement of 35.1.6.9.1.1 or 35.1.6.9.1.2, shall comply with the requirements of Section 35, as indicated for the appropriate evacuation capability.

35.1.6.9.1.1 * Facilities where the authority having jurisdiction has determined equivalent safety is provided in accordance with Section 1.4 shall not be required to comply with the requirements of Section 35, as indicated for the appropriate evacuation capability.

35.1.6.9.1.2 Facilities that were previously approved as complying with 35.1.6.9.2 shall not be required to comply with the requirements of

Section 35, as indicated for the appropriate evacuation capability.

35.1.6.9.2 **Impractical.** Facilities classified as impractical evacuation capability shall meet the requirements of Section 35 for impractical evacuation capability, or the requirements for limited care facilities in Chapter 19, unless the authority having jurisdiction has determined equivalent safety is provided in accordance with Section 1.4.

35.1.6.9.3 **Evacuation Capability Determination.**

35.1.6.9.3.1 Facility management shall furnish to the authority having jurisdiction, upon request, an evacuation capability determination using a procedure acceptable to the authority having jurisdiction.

35.1.6.9.3.2 Where the documentation required by 35.1.6.9.3.1 is

not furnished, the evacuation capability shall be classified as impractical.

35.1.7 Occupant Load. The occupant load, in number of persons for whom means of egress and other provisions are required, shall be determined on the basis of the occupant load factors of Table 7.3.1.2 that are characteristic of the use of the space, or shall be determined as the maximum probable population of the space under consideration, whichever is greater.

35.2 Means of Egress Requirements.

35.2.1 General.

35.2.1.1 Means of egress from resident rooms and resident dwelling units to the outside of the building shall be in accordance with Chapter 7 and this chapter.

35.2.1.2 Means of escape within the resident room or resident dwelling unit shall comply with Section 24.2 for one- and two-family dwellings.

35.2.1.3 No means of escape or means of egress shall be considered as complying with the minimum criteria for acceptance, unless emergency evacuation drills are regularly conducted using that route in accordance with the requirements of 35.7.3.

35.2.1.4 No assisted living community occupancy shall have its sole means of egress or means of escape pass through any nonresidential or non-health care occupancy in the same building.

35.2.1.5 All means of egress from assisted living community occupancies that traverse non-

assisted living community spaces shall conform to the requirements of this *Code* for assisted living community occupancies, unless otherwise permitted by 35.2.1.6.

35.2.1.6 Exit through a horizontal exit into other contiguous occupancies that does not conform to assisted living community egress provisions but do comply with requirements set forth in the appropriate occupancy chapter of this *Code* shall be permitted, provided that the occupancy does not contain high hazard contents.

35.2.1.7 Egress provisions for areas of assisted living community facilities that correspond to other occupancies shall meet the corresponding requirements of this *Code* for such occupancies, and, where the clinical needs of the residents necessitate the locking of means of egress, staff shall be present for the supervised release of occupants during all times of use.

35.2.2 Means of Egress Components.

35.2.2.1 **Components Permitted.** Components of means of egress shall be limited to the types described in 35.2.2.2 through 35.2.2.10.

35.2.2.2 **Doors.** Doors in means of egress shall meet all of the following criteria:

- (1) Doors complying with 7.2.1 shall be permitted.
- (2) Doors within individual rooms and suites of rooms shall be permitted to be swinging or sliding.
- (3) No door in any means of egress, other than those meeting the requirement of 35.2.2.2.1 or 35.2.2.2.2, shall be equipped with a lock or latch that

requires the use of a tool or key from the egress side.

35.2.2.2.1 Delayed-egress locks in accordance with 7.2.1.6.1 shall be permitted.

35.2.2.2.2 Access-controlled egress doors in accordance with 7.2.1.6.2 shall be permitted.

35.2.2.2.3 Doors that are located in the means of egress from individual resident bedrooms or private living units shall be permitted to have locks where the clinical needs of a resident require specialized protective security measures provided that staff can readily unlock doors at all times in accordance with 35.2.2.2.4.

35.2.2.2.4 Doors that are located in the means of egress and are permitted to be locked under other provisions of 35.2.2.2.3 shall comply with both of the following:

- (1) Provisions shall be made for the rapid removal of occupants by means of one of the following:
 - (a) Remote control of locks from within the locked smoke compartment

- (b) Keying of all locks to keys carried by staff at all times
- (c) Other such reliable means available to the staff at all times

- (2) Only one locking device shall be permitted on each door.

35.2.2.2.5 Doors located in the means of egress that are permitted to be locked under other provisions of Chapter 35, other than those meeting the requirement of 35.2.2.2.1 or 35.2.2.2.2, shall have adequate provisions made for the rapid removal of occupants by means such as remote control of locks, keying of all locks to keys carried by staff at all times, or other such reliable means available to staff at all times.

35.2.2.2.6 Only one such locking device, as described in 35.2.2.2.5, shall be permitted on each door.

35.2.2.3 **Stairs.** Stairs complying with 7.2.2 shall be permitted.

35.2.2.4 **Smokeproof Enclosures.** Smokeproof enclosures complying with 7.2.3 shall be permitted.

35.2.2.5 **Horizontal Exits.** Horizontal exits complying with 7.2.4 shall be permitted.

35.2.2.6 **Ramps.** Ramps complying with 7.2.5 shall be permitted.

35.2.2.7 **Exit Passageways.** Exit passageways complying with 7.2.6 shall be permitted.

35.2.2.8 **Fire Escape Ladders.** Fire escape ladders complying with 7.2.9 shall be permitted.

35.2.2.9 **Alternating Tread Devices.** Alternating tread devices complying with 7.2.11 shall be permitted.

35.2.2.10 **Areas of Refuge.** Areas of refuge complying with 7.2.12 shall be permitted.

35.2.3 **Capacity of Means of Egress.**

35.2.3.1 The capacity of means of egress shall be in accordance with Section 7.3.

35.2.3.2 Street floor exits shall be sufficient for the occupant load of the street floor plus the required capacity of stairs and ramps discharging onto the street floor.

35.2.3.3 The width of corridors serving an occupant load of 50 or more in facilities having prompt or slow evacuation capability, and all facilities having impractical evacuation capability, shall be sufficient for the occupant load served but shall be not less than 60 in. (1525 mm).

35.2.3.4 The width of corridors serving an occupant load of less than 50 in facilities having prompt or slow evacuation capability shall be not less than 44 in. (1120 mm).

35.2.4 **Number of Means of Egress.**

35.2.4.1 Means of egress shall comply with the following, except as otherwise permitted by 35.2.4.2:

- (1) The number of means of egress shall be in accordance with 7.4.1.1 and 7.4.1.3 through 7.4.1.5.
- (2) Not less than two separate exits shall be provided on every story.
- (3) Not less than two separate exits shall be accessible from every part of every story.

35.2.4.2 Exit access, as required by 35.2.4.1(3), shall be permitted to include a single exit access path for the distances permitted as common paths of travel by 35.2.5.2 and 35.2.5.3.

35.2.5 Arrangement of Means of Egress.

35.2.5.1 **General.** Access to all required exits shall be in accordance with Section 7.5.

35.2.5.2 **Dead-end Corridors.** Dead-end corridors shall not exceed 35 ft. (15 m).

35.2.5.3 **Common Path.** Common paths of travel shall not exceed 110 ft. (35.5 m).

35.2.5.4 **Reserved.**

35.2.6 Travel Distance to Exits.

35.2.6.1 Travel distance from the door within a room, suite, or living unit to a corridor door shall not exceed 75 ft. (23 m) in buildings not protected throughout by an approved automatic sprinkler system in accordance with 35.3.5.

35.2.6.2 Travel distance from any point within a room, suite, or living unit to a corridor door shall not exceed 125 ft. (38 m) in buildings protected throughout by an approved automatic sprinkler system in accordance with 35.3.5.

35.2.6.3 Travel distance from the corridor door of any room to the nearest exit shall be in accordance with 35.2.6.3.1 or 35.2.6.3.2

35.2.6.3.1 Travel distance from the corridor door of any room to the nearest exit, measured in accordance with Section 7.6, shall not exceed 200 ft. (61 m).

35.2.6.3.2 Travel distance to exits shall not exceed 200 ft. (61 m) for exterior ways of exit access arranged in accordance with 7.5.3.

35.2.7 **Discharge from Exits.** Exit discharge shall comply with Section 7.7.

35.2.8 **Illumination of Means of Egress.** Means of egress shall be illuminated in accordance with Section 7.8.

35.2.9 **Emergency Lighting.** Emergency lighting in accordance with Section 7.9 shall be provided.

35.2.10 **Marking of Means of Egress.** Means of egress shall be marked in accordance with Section 7.10

35.2.11 **Special Means of Egress Features.**

35.2.11.1 **Reserved.**

35.2.11.2 **Lockups.** Lockups in residential assisted living community occupancies shall comply with the requirements of 23.4.5.

35.3 **Protection.**

35.3.1 **Protection of Vertical Openings.**

35.3.1.1 Vertical openings shall be enclosed or protected in accordance with Section 8.6.

35.3.1.2 Unenclosed vertical openings in accordance with 8.6.9.1 shall be permitted.

35.3.1.3 No floor below the level of exit discharge and used only for storage, heating equipment, or purposes other than residential occupancy shall have unprotected openings to floors used for residential occupancy.

35.3.2 Protection from Hazards.

35.3.2.1 Rooms containing high-pressure boilers, refrigerating machinery, transformers, or other service equipment subject to possible explosion shall not be located directly under or adjacent to exits, and such rooms shall be effectively separated from other parts of the building as specified in Section 8.7.

35.3.2.2 Hazardous areas, which shall include, but shall not be limited to, the following, shall be separated from other parts of the building by construction having a minimum 1-hour fire resistance rating, with communicating openings protected by approved self-closing fire doors and be equipped with automatic fire-extinguishing systems:

- (1) Boiler and heater rooms
- (2) Laundries
- (3) Repair shops
- (4) Rooms or spaces used for storage of combustible supplies and equipment in quantities deemed hazardous by the authority having jurisdiction

Exception to (1): Rooms enclosing air handling equipment, compressor equipment, furnaces or other heating

equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes.

35.3.3 **Interior Finish.**

35.3.3.1 **General.** Interior finish shall be in accordance with Section 10.2.

35.3.3.2 **Interior Wall and Ceiling Finish.** Interior wall and ceiling finish materials complying with Section 10.2 shall be in accordance with the following:

- (1) Exit enclosures - Class A
- (2) Lobbies and corridors - Class B
- (3) Rooms and enclosed spaces - Class B

35.3.3.3 **Interior Floor Finish.**

35.3.3.3.1 Interior floor finish shall comply with Section 10.2.

35.3.3.3.2 Interior floor finish in exit enclosures and exit access corridors and spaces not separated from them by walls complying with 35.3.6 shall be not less than Class II.

35.3.3.3.3 Interior floor finish shall comply with 10.2.7.1 or 10.2.7.2, as applicable.

35.3.4 **Detection, Alarm, and Communications Systems.**

35.3.4.1 **General.** A fire alarm system shall be provided in accordance with Section 9.6.

34.3.4.2 **Initiation.** The required fire alarm system shall be initiated by each of the following:

- (1) Manual means in accordance with 9.6.2.
- (2) Manual fire alarm box located at a convenient central control point under continuous supervision of responsible employees.
- (3) Required automatic sprinkler system.
- (4) Required smoke and heat detection systems, other than sleeping room smoke alarms.

35.3.4.3 **Annunciator Panel.** An annunciator panel, connected to the fire alarm system, shall be provided at a location readily accessible from the primary point of entry for emergency response personnel.

35.3.4.4 **Notification**

35.3.4.4.1 **Occupant Notification.**
Occupant notification shall be provided automatically, without delay, by internal audible alarm in accordance with 9.6.3.

35.3.4.4.2 **High-Rise Buildings.** High-rise buildings shall be provided with an approved emergency voice communication/alarm system in accordance with 11.8.4.

35.3.4.5 *** Emergency Forces Notification.**

35.3.4.5.1 Fire department notification shall be accomplished in accordance with 9.6.4.

35.3.4.5.2 Where the existing fire alarm system does not provide for automatic emergency forces notification in accordance with 9.6.4, provisions shall be made for the immediate notification of the public fire department by either telephone or other means, or, where there is no public fire department, notification shall be made to the private fire brigade.

35.3.4.5.3 Where a new fire alarm system is installed, or the existing fire alarm system is replaced, emergency forces notification shall be provided in accordance with 9.6.4.

35.3.4.6 **Detection.**

35.3.4.6.1 **Smoke Alarms.** Smoke alarms shall be provided in accordance with 35.3.4.6.1.1, 35.3.4.6.1.2, or 35.3.4.6.1.3.

35.3.4.6.1.1 Each sleeping room shall be provided with an approved smoke alarm in accordance with 9.6.2.10 that is powered from the building electrical system.

35.3.4.6.1.2 Existing battery-powered smoke alarms, rather than building electrical service-powered smoke alarms, shall be accepted where, in the opinion of the authority having jurisdiction, the facility has demonstrated that testing, maintenance, and battery replacement programs ensure the reliability of power to the smoke alarms.

35.3.4.6.1.3 The provisions of 9.6.8.10.1 and 9.6.8.10.2.2 shall also apply.

35.3.4.7 Smoke Detection Systems.

35.3.4.7.1 All living areas, as defined in 3.3.22.5, and all corridors shall be provided with smoke detectors that comply with NFPA 72, *National Fire Alarm and Signaling Code*, and are arranged to initiate an alarm that is audible in all sleeping areas, as modified by 35.3.4.7.2.

35.3.4.7.2 Smoke detection systems shall not be required in unenclosed corridors, passageways, balconies, colonnades, or other arrangements with one or more sides along the long dimension fully or extensively open to the exterior at all times.

35.3.5 Extinguishment Requirements.

35.3.5.1 * General. Where an automatic sprinkler system is installed, for either total or partial building coverage, the system shall be installed in accordance with Section 9.7, as modified by 35.3.5.1.1.

35.3.5.1.1 In buildings four or fewer stories above grade plane, systems in accordance with NFPA 13R, *Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Height*, shall be permitted.

35.3.5.1.1.1 The exemptions found in NFPA 13R for the sprinkling all closets and bathrooms regardless of size or construction shall not be applicable to assisted living community occupancies under this chapter.

35.3.5.2 **Impractical Evacuation Capability.** All facilities having impractical evacuation capability shall be protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1) (full NFPA 13 System) or increase staffing to achieve evacuation of all residents to a point of safety within 13 minutes.

35.3.5.3 **High-Rise Buildings.** All high-rise buildings shall be protected throughout by an approved, supervised automatic sprinkler system in accordance with 35.3.5. Such systems shall initiate the fire alarm system in accordance with Section 9.6.

35.3.5.4 Attics shall be protected in accordance with 35.3.5.4.1 or 35.3.5.4.2

35.3.5.4.1 Where an automatic sprinkler system is installed, attics or areas within attics used for living purposes, storage, or fuel-fired equipment shall be protected with automatic sprinklers that are part of the required, approved automatic sprinkler system in accordance with 9.7.1.1.

35.3.5.4.2 Where an automatic sprinkler system is installed, attics not used for living purposes, storage, or fuel-fired equipment shall meet one of the following criteria:

- (1) Attics shall be protected throughout by a heat detection system arranged to activate the building fire alarm system in accordance with Section 9.6.

- (2) Attics shall be protected with automatic sprinklers that are part of the required, approved automatic sprinkler system in accordance with 9.7.1.1.

35.3.5.5 **Supervision.** Automatic sprinkler systems shall be supervised in accordance with Section 9.7.

35.3.5.6 **Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in accordance with 9.9.

35.3.6 **Corridors and Separation of Sleeping Rooms.**

35.3.6.1 Access shall be provided from every resident use area to not less than one means of egress that is separated from all other rooms or spaces by walls complying with 35.3.6.1.1, 35.3.6.1.3 or 35.3.6.1.4.

35.3.6.1.1 Sleeping rooms shall be separated from corridors, living areas, kitchens and all other areas by walls having a minimum 1/2-hour fire resistance rating.

35.3.6.1.2 Prompt evacuation capability facilities in buildings two or fewer stories in height, where not less than one required means of egress from each sleeping room provides a path of travel to the outside without traversing any corridor or other spaces exposed to unprotected vertical openings, living areas, and kitchens, shall

not be required to comply with
35.3.6.1.1.

35.3.6.1.3 Rooms or spaces, other than sleeping rooms and hazardous areas, shall be separated from corridors by smoke partitions in accordance with Section 8.4, and the provisions of 8.4.3.5 shall not apply.

35.3.6.2 Except for Hazardous areas, in buildings protected throughout by an approved automatic sprinkler system in accordance with 9.7.1.1(1), walls may be smoke partitions in accordance with Section 8.4, and the provisions of 8.4.3.5 shall not apply.

35.3.6.3 Hazardous areas shall be separated from corridors in accordance with 35.3.2.

35.3.6.4 Doors in walls required by 35.3.6.1 or 35.3.6.2 shall comply with 35.3.6.4.1 or 35.3.6.4.2.

35.3.6.4.1 Doors shall have a minimum 20-minute fire protection rating.

35.3.6.4.2 Solid-bonded wood-core doors of not less than 1 3/4 in. (44 mm) thickness shall be permitted to continue in use.

35.3.6.5 Doors in walls required by 35.3.6.1 and 35.3.6.2 shall comply with 35.3.6.5.1 and 35.3.6.6.

35.3.6.5.1 Door-closing devices shall not be required on doors in corridor wall openings, other than those serving exit enclosures, smoke barriers, enclosures of vertical openings, and hazardous areas.

35.3.6.6 No louvers, transfer grilles, operable transoms, or other air passages, other than properly installed heating and utility installations, shall penetrate the walls or doors specified in 34.3.6.

35.3.7 **Subdivision of Building Spaces.** The requirements of 35.3.7.1 through 35.3.7.6 shall be met for all sleeping floors, unless otherwise permitted by 35.3.7.7.

35.3.7.1 Every sleeping room floor shall be divided into not less than two smoke compartments of approximately the same size, with smoke barriers in accordance with Section 8.5, unless otherwise indicated in 35.3.7.4, 35.3.7.5, and 35.3.7.6

35.3.7.1.1 Smoke barriers shall not be required in buildings having prompt or slow evacuation capability where each sleeping room is provided with exterior ways of exit access arranged in accordance with 7.5.3.

35.3.7.2 Each smoke compartment shall have an area not exceeding 22,500 ft² (2100 m²).

35.3.7.3 The travel distance from any point to reach a door in the required smoke barrier shall be limited to a distance of 200 ft. (61 m).

35.3.7.3.1 Additional smoke barriers shall be provided such that the travel distance from a sleeping room corridor door to a smoke barrier shall not exceed 150 ft. (46 m).

35.3.7.4 Smoke barriers shall not be required on stories that do not contain an assisted living community occupancy located above the assisted living community occupancy.

- 35.3.7.5 Smoke barriers shall not be required in areas that do not contain an assisted living community occupancy and that are separated from the assisted living community occupancy by a fire barrier complying with Section 8.3.
- 35.3.7.6 Smoke barriers shall not be required on stories that do not contain an assisted living community occupancy and that are more than one story below the assisted living community occupancy.
- 35.3.7.7 Smoke barriers shall not be required in open parking structures protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1).
- 35.3.7.8 Smoke barriers shall be constructed in accordance with Section 8.5 and shall have a minimum 1-hour fire resistance rating, unless they meet the requirement of 35.3.7.9 or 35.3.7.10.
- 35.3.7.9 Where an atrium is used, smoke barriers shall be permitted to terminate at an atrium wall constructed in accordance with 8.6.7(1)(c), in which case not less than two separate smoke compartments shall be provided on each floor.
- 35.3.7.10 Dampers shall not be required in duct penetrations of smoke barriers in fully ducted heating, ventilating, and air-conditioning systems.
- 35.3.7.11 Not less than 15 net ft² (1.4 net m²) per resident shall be provided within the aggregate area of corridors, lounge or dining areas, and other low hazard areas on each side of the smoke barrier.
- 35.3.7.12 On stories not housing residents, not less than 6 net ft² (0.56 net m²) per occupant shall be

provided on each side of the smoke barrier for the total number of occupants in adjoining compartments.

- 35.3.7.13 Doors in smoke barriers shall be substantial doors, such as 1 3/4 in. (44 mm) thick, solid-bonded wood-core doors, or shall be of construction that resists fire for a minimum of 20 minutes.
- 35.3.7.14 Nonrated factory- or field-applied protective plates extending not more than 48 in. (1220 mm) above the bottom of the door shall be permitted.
- 35.3.7.15 Cross-corridor openings in smoke barriers shall be protected by a pair of swinging doors or a horizontal-sliding door complying with 7.2.1.14.
- 35.3.7.16 Swinging doors shall be arranged so that each door swings in a direction opposite from the other.
- 35.3.7.17 Doors in smoke barriers shall comply with 8.5.4 and shall be self-closing or automatic-closing in accordance with 7.2.1.8.
- 35.3.7.18 Vision panels consisting of fire-rated glazing or wired glass panels in approved frames shall be provided in each cross-corridor swinging door and in each cross-corridor horizontal-sliding door in a smoke barrier.
- 35.3.7.19 Rabbets, bevels, or astragals shall be required at the meeting edges, and stops shall be required at the head and sides of door frames in smoke barriers.
- 35.3.7.20 Positive latching hardware shall not be required.

35.3.7.21 Center mullions shall be prohibited.

35.3.8 * **Cooking Facilities.** Cooking facilities, other than those within individual residential units, shall be protected in accordance with 9.2.3.

35.3.9 **Standpipes.**

35.3.9.1 **General.** Where required, standpipe and hose systems shall be installed and maintained in accordance with 9.10.

35.3.9.2 **In High-Rise Buildings.** Class I standpipe systems shall be installed throughout all high-rise buildings.

35.3.9.3 **Roof Outlets.** Roof outlets shall not be required on roofs having a slope of 3 in 12 or greater.

35.4 **Special Provisions.**

35.4.1 **High-Rise Buildings.** High-rise buildings shall comply with Section 11.8.

35.5 **Reserved.**

35.6 **Building Services.**

35.6.1 **Heating, Ventilating, and Air-Conditioning.**

35.6.1.1 Heating, ventilating, and air-conditioning equipment shall comply with Section 9.2.

35.6.1.2 No stove or combustion heater shall be located such that it blocks escape in case of fire caused by the malfunction of the stove or heater.

35.6.1.3 Unvented fuel-fired heaters shall not be used in any assisted living community occupancy.

35.6.3 **Elevators, Dumbwaiters, and Vertical Conveyors.** Elevators, dumbwaiters, and vertical conveyors shall comply with Section 9.4.

35.6.3.2 * In high-rise buildings, one elevator shall be provided with a protected power supply and shall be available for use by the fire department in case of emergency.

35.6.4 **Rubbish Chutes, Incinerators, and Laundry Chutes.**
Rubbish chutes, incinerators, and laundry chutes shall comply with Section 9.5.

35.7 **Operating Features.**

35.7.1 **Emergency Planning and Preparedness.** Assisted living community facilities shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, resident training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner. The provisions of this Section 35.7 shall be incorporated into the plans, training and safety practices developed by the facility.

35.7.2 **Emergency Plan.**

35.7.2.1 The administration of every residential assisted living community facility shall have, in effect and available to all supervisory personnel, written copies of a plan for protecting all persons in the event of fire, for keeping persons in place, for evacuating persons to areas of refuge, and for evacuating persons from the building when necessary.

35.7.2.2 The emergency plan shall include special staff response, including the fire protection procedures needed to ensure the safety of any resident, and shall be amended or revised whenever any resident with unusual needs is admitted to the home.

35.7.2.3 All employees shall be periodically instructed and kept informed with respect to their duties and responsibilities under the plan, and such instruction shall be reviewed by the staff not less than every 2 months.

35.7.2.4 A copy of the plan shall be readily available at all times within the facility.

35.7.3 Resident Training.

35.7.3.1 All residents participating in the emergency plan shall be trained in the proper actions to be taken in the event of fire.

35.7.3.2 The training required by 35.7.3.1 shall include actions to be taken if the primary escape route is blocked.

35.7.3.3 If the resident is given rehabilitation or habilitation training, training in fire prevention and the actions to be taken in the event of a fire shall be a part of the training program.

35.7.3.4 Residents shall be trained to assist each other in case of fire to the extent that their physical and mental abilities permit them to do so without additional personal risk.

35.7.4 Emergency Egress and Relocation Drills. Emergency egress and relocation drills shall be conducted in accordance with 35.7.4.1 through 35.7.4.6.

35.7.4.1 Emergency egress and relocation drills shall be conducted not less than once per quarter on each shift at alternating times. It is intended that staff and residents be trained and drilled based on fire and other emergencies that may occur during the periods of lowest staffing levels. This may require more than one drill per quarter on shifts with the lowest staffing levels."

35.7.4.2 The emergency drills shall be permitted to be announced to the residents in advance.

35.7.4.3 The drills shall involve the training of residents for the eventual actual evacuation of all residents to an assembly point, as specified in the emergency plan, and shall provide residents with experience in egressing through all exits and means of escape required by this *Code*.

35.7.4.3.1. The assembly point shall be a place outside of the building and shall be located a safe distance from the building being evacuated so as to avoid interference with fire department operations. A refuge area within a smoke compartment in buildings separated by smoke barriers shall be considered a temporary assembly point as part of a staged evacuation.

35.7.4.3.2. Buildings with smoke compartments shall be allowed to train residents to temporarily escape in a staged evacuation to another smoke compartment separated by smoke barriers. Residents shall be allowed to complete the training exercise on the other side of an adjacent smoke barrier. Residents shall still be trained to eventually complete building evacuation during an actual emergency evacuation. Residents shall be required to participate in one emergency egress and relocation drill per year where they continue to an assembly point outside of the building.

35.7.4.3.3. Residents, as a group, shall be required to complete the evacuation drill to an exit or across a smoke barrier in less than 13 minutes or shall be required to change its group evacuation capability and comply with Section 35.1.8.

35.7.4.4 Exits and means of escape not used in any drill shall not be credited in meeting the requirements of this *Code* for assisted living community facilities.

35.7.4.5 Actual exiting from windows shall not be required to comply with 35.7.3; opening the window and signaling for help shall be an acceptable alternative.

35.7.4.6 If the assisted living community facility has an evacuation capability classification of impractical, those residents who cannot meaningfully assist in their own evacuation or who have special health problems shall not be required to actively participate in the drill.

35.7.5 Smoking.

35.7.5.1 * Smoking regulations shall be adopted by the administration of assisted living community occupancies.

35.7.5.2 Where smoking is permitted, noncombustible safety-type ashtrays or receptacles shall be provided in convenient locations.

35.7.6 * Furnishings, Mattresses, and Decorations.

35.7.6.1 New draperies, curtains, and other similar loosely hanging furnishings and decorations shall comply with 35.7.6.1.1 and 35.7.6.1.2.

35.7.6.1.1 New draperies, curtains, and other similar loosely hanging furnishings and decorations in assisted living community facilities shall be in accordance with the provisions of 10.3.1, unless otherwise permitted by 35.7.6.1.2.

35.7.6.1.2 In other than common areas, new draperies, curtains, and other similar loosely hanging furnishings and decorations shall not be required to comply with 35.7.6.1.1 where the building is protected throughout by an approved automatic sprinkler system installed in accordance with 35.3.6.

35.7.6.2 * New upholstered furniture within assisted living community facilities shall comply with 35.7.6.2.1 or 35.7.6.2.2.

35.7.6.2.1 New upholstered furniture shall be tested in accordance with the provisions of 10.3.2.1(1) and 10.3.3.

35.7.6.2.2 Upholstered furniture belonging to residents in sleeping rooms shall not be required to be tested, provided that a smoke alarm is installed in such rooms; battery-powered single-station smoke alarms shall be permitted in such rooms.

35.7.6.3 * Newly introduced mattresses within assisted living community facilities shall comply with 35.7.6.3.1 or 35.7.6.3.2.

35.7.6.3.1 Newly introduced mattresses shall be tested in accordance with the provisions of 10.3.2.2 and 10.3.4.

35.7.6.3.2 Mattresses belonging to residents in sleeping rooms shall not be required to be tested, provided that a smoke alarm is installed in such rooms; battery-powered single-station smoke alarms shall be permitted in such rooms.

35.7.7 **Staff.** Staff shall be on duty and in the facility at all times when residents requiring evacuation assistance are present.

35.7.8 **Inspection of Door Openings.** Door assemblies for which the door leaf is required to swing in the direction of egress travel shall be inspected and tested not less than annually in accordance with 7.2.1.15."

(ff) **Modification to Chapter 36:**

1. Add a new subparagraph 36.3.2.1.3 to read as follows:

36.3.2.1.3 "Rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input shall not be subject to the provisions of 36.3.2.1. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

2. Add a new subparagraph 36.3.5.1.1. to read as follows:

36.3.5.1.1 "Individual tenant spaces located in covered mall buildings shall be provided with electrically supervised control valves. Such control valves shall be located off supply mains to control each individual tenant space.

36.3.5.1.1.1 Multiple tenant spaces shall be permitted to be controlled by one control valve provided the total area covered by the single valve does not exceed 7,500 square feet (696.8 sq. m)."

3. Delete subparagraph 36.4.5.6 in its entirety and substitute in its place the following:

36.4.5.6 **"Emergency Planning and Preparedness.** Bulk merchandising and mercantile occupancies (Group M) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

4. Delete subsections 36.7.1, 36.7.2, 36.7.3, and 36.7.4 in their entirety and substitute in their place the following:

36.7.1 **"Emergency Planning and Preparedness.** Mercantile occupancies (Group M) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.

36.7.2 **Food Service Operations.** Food service operations shall comply with 12.7.2

36.7.3 **Upholstered Furniture and Mattresses.** The provisions of 10.3.2 of this *Code* and Section 805 of the *International Fire Code* shall not apply to upholstered furniture and mattresses in mercantile occupancies.

36.7.4 **Soiled Linen and Trash Receptacles.** The requirements of 10.3.9 of this *Code* for containers for rubbish, waste, or linen with a capacity of 20 gal (75.7 L) or more shall not apply."

(gg) Modification to Chapter 37:

1. Add a new subparagraph 37.3.2.1.3 to read as follows:

37.3.2.1.3 "The provisions of 37.3.2.1 shall not apply to rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

2. Delete subsections 37.7.1, 37.7.2, 37.7.3, and 37.7.4 in their entirety and substitute in their place the following:

37.7.1 **"Emergency Planning and Preparedness.** Mercantile occupancies (Group M) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.

37.7.2 **Food Service Operations.** Food service operations shall comply with 12.7.2

37.7.3 **Upholstered Furniture and Mattresses.** The provisions of 10.3.2 of this *Code* and Section 805 of the *International Fire Code* shall not apply to upholstered furniture and mattresses in mercantile occupancies.

37.7.4 **Soiled Linen and Trash Receptacles.** The requirements of 10.3.8 of this *Code* for containers for rubbish, waste, or linen with a capacity of 20 gal (75.7 L) or more shall not apply."

(hh) **Modification to Chapter 38:**

1. Delete subparagraph 3 8.2.2.2.6 in its entirety and substitute in its place the following:

38.2.2.2.6 "Delayed egress locks complying with 7.2.1.6.1 shall be permitted, provided, however, not more than one such device shall be permitted in the means of egress path involved."

2. Delete subparagraph 38.2.2.2.7 in its entirety and substitute in its place the following:
 - 38.2.2.2.7 "Access-controlled egress doors complying with 7.2.1.6.2 shall be permitted. For elevator lobby exit access doors see 38.2.2.2.3 and 7.2.1.6.3 (14)."
3. Add a new subparagraph 38.3.2.1.1 to read as follows:
 - 38.3.2.1.1 "The provisions of 38.3.2.1 shall not apply to rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."
4. Delete subsections 38.7.1, 38.7.2, 38.7.3, and 38.7.4 in their entirety and substitute in their place the following:
 - 38.7.1 **"Emergency Planning and Preparedness.** Business occupancies (Group B) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.
 - 38.7.2 **Food Service Operations.** Food service operations shall comply with 12.7.2
 - 38.7.3 **Upholstered Furniture and Mattresses.** The provisions of 10.3.2 of this *Code* and Section 805 of the *International Fire Code* shall not apply to upholstered furniture and mattresses in mercantile occupancies.
 - 38.7.4 **Soiled Linen and Trash Receptacles.** The requirements of 10.3.8 of this *Code* for containers for rubbish, waste, or linen with a capacity of 20 gal (75.7 L) or more shall not apply."

(ii) **Modification to Chapter 39:**

1. Add a new subparagraph 39.3.2.1.1 to read as follows:

39.3.2.1.1 "The provisions of 39.3.2.1 shall not apply to rooms enclosing air handling equipment, compressor equipment, furnaces or other heating equipment with a total aggregate input rating less than 200,000 BTU input. Such rooms shall not be used for any combustible storage. A minimum of 30 inches (0.76 m) unobstructed access shall be provided and maintained to equipment and electrical or emergency control panels or devices for emergency response purposes."

2. Delete subsections 39.7.1, 39.7.2, 39.7.3, and 39.7.4 in their entirety and substitute in their place the following:

39.7.1 **"Emergency Planning and Preparedness.** Business occupancies (Group B) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner.

39.7.2 **Food Service Operations.** Food service operations shall comply with 12.7.2

39.7.3 **Upholstered Furniture and Mattresses.** The provisions of 10.3.2 of this *Code* and Section 805 of the *International Fire Code* shall not apply to upholstered furniture and mattresses in mercantile occupancies.

39.7.4 **Soiled Linen and Trash Receptacles.** The requirements of 10.3.8 of this *Code* for containers for rubbish, waste, or linen with a capacity of 20 gal (75.7 L) or more shall not apply."

(jj) **Modification to Chapter 40:**

1. Delete subsection 40.3.5 in its entirety and insert in its place the following:
"40.3.5 Extinguishment Requirements.

40.3.5.1 **Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all industrial occupancies classified as Group F and/or Group H occupancies as in the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, on each floor in accordance with 9.9 of this *Code*.

40.3.5.2 **Automatic fire suppression systems.** Automatic fire suppression systems shall be installed in industrial occupancies as required by the *International Building Code*, adopted by the Georgia Department of Community Affairs, with regard to construction type, area and height requirements, and other features as set forth in Table 1.4.4, **CODES REFERENCE GUIDE**. In addition, automatic fire suppression systems, and/or specialized automatic fire suppression systems, as required by the fire code authority having jurisdiction in accordance with the *International Fire Code* or other codes and standards adopted by the Georgia Safety Fire Commissioner, shall be installed and maintained in accordance with the provisions of the applicable codes and standards."

2. Delete subsections 40.7.1 in its entirety and substitute in its place the following:

40.7.1 **Upholstered Furniture and Mattresses.** The provisions of 10.3.2 of this *Code* and Section 805 of the *International Fire Code* shall not apply to upholstered furniture and mattresses in industrial occupancies.

3. Add new section 40.8 to read as follows: "40.8 Emergency Planning and Preparedness.

40.8.1 **Emergency Planning and Preparedness.** Industrial occupancies otherwise classified under Group F and/or Group H in the *International Fire Code*, shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

40.8.2 **Employee Training and Response Procedures.** Employees in the occupancies listed in Section 404.2 of the *International Fire Code* as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner, shall be trained in the fire emergency procedures described in their fire evacuation and life safety plans. Training shall be based on these plans and as described in Section 404.3 of the noted *International Fire Code*."

(kk) **Modification to Chapter 42:**

1. Delete subsection 42.3.5 in its entirety and substitute in its place the following:
"42.3.5 Extinguishment Requirements.

42.3.5.1 **Portable Fire Extinguishers.** Portable fire extinguishers shall be provided in all storage occupancies in accordance with 9.9.

42.3.5.2 **Automatic fire suppression systems.** Automatic fire suppression systems shall be installed in storage occupancies as required by the *International Building Code*, adopted by the Georgia Department of Community Affairs, with regard to construction type, area and height requirements, and other features as set forth in **Table 1.4.4, CODES REFERENCE GUIDE**. In addition, automatic fire suppression systems, and/or specialized automatic fire suppression systems, as required by the fire code authority having jurisdiction in accordance with the *International Fire Code* or other codes and standards adopted by the Georgia Safety Fire Commissioner, shall be installed and maintained in accordance with the provisions of the applicable codes and standards."
2. Delete subsections 42.9.1 in its entirety and substitute in its place the following:
42.9.1 **"Upholstered Furniture and Mattresses.** The provisions of 10.3.2 of this *Code* and Section 805 of the *International Fire Code* shall not apply to upholstered furniture and mattresses in storage occupancies.
3. Add a new section 42.10 to read as follows: "42.10 Emergency Planning and Preparedness.

42.10.1 **Emergency Planning and Preparedness.** Storage occupancies (Group S) and High Hazard occupancies (Group H) shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

(II) **Modifications to Chapter 43:**

1. Add a new subparagraph 43.1.4.5.1 to read as follows:
43.1.4.5.1 "The provisions of 43.1.4.5 shall specifically apply to compliance with the *International Fire Code (IFC)* and other codes and standards promulgated and adopted with modifications by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire

Commissioner. Accessibility issues shall be addressed in accordance with Chapter 120-3-20 of the Rules and Regulations of the Safety Fire Commissioner. Where any of the provisions of this *Code* chapter require compliance with a building code, it shall be construed that compliance is required as applicable with the *International Building Code (IBC)*, as adopted by the Georgia Board of Community Affairs. Also, refer to [120-3-3-.01](#), [120-3-3-.02](#), [120-3-3-.03](#), and 120-3-3-.04(1) of Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner.

2. Add a new paragraph 43.7.2.6 to read as follows:

43.7.2.6 "The provisions of 43.7.2.4 and 43.7.2.5 shall be permitted to be modified by the authority having jurisdiction provided the intents and purposes of 102.3, 102.4, and 102.6 of the *International Fire Code (IFC)*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner are met."

3. Delete subsections 43.10.1 and 43.10.2 in their entirety and substitute in their place the following:

43.10.1 "**General Requirements.** Table 43.7.3 Hazard Categories and Classifications in 43.7.3 of this *Code* may be utilized as may be deemed appropriate by the authority having jurisdiction in the evaluation of historic buildings.

43.10.2 **Application.** The provisions of Chapter 43 shall be deemed as advisory and may be applied to buildings designated as historic to the degree deemed appropriate by the authority having jurisdiction, provided, however, the application of Chapter 43 and 43.10 provisions shall be coordinated as needed to ensure compliance with the requirements, intents, and purposes of 103.3, 102.4, and 102.6 of the *International Fire Code (IFC)* as adopted with modifications by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner are met."

(mm) **Modifications to Annex A:**

Add a new (4) to A.3.3.196.7 to read as follows:

(4) "Assisted Living Communities"

Delete (5) from A.3.3.196.12 in its entirety and substitute in its place the following:

- (5) "Community Living Arrangements with five or more residents"
- 3. Delete (1) from A.3.3.196.13 in its entirety and substitute in its place the following:
 - (1) "One- and two-family dwellings and Community Living Arrangements with fewer than five residents (Chapter 24)"
- 4. Add a new (4) to A.6.1.5.1 to read as follows:
 - (4) "Assisted Living Communities"
- 5. Delete (5) from A.6.1.9.1 in its entirety and substitute in its place the following:"
 - (5) Community Living Arrangements with five or more residents"

(73) **NFPA 101A, 2013 Edition, *Guide on Alternative Approaches to Life Safety***

Modifications:

(a) **Modifications to Chapter 1:**

- 1. Add a new Section 1.4 to read as follows:
 - 1.4 "This document is recognized strictly as a guide that may be used in evaluating systems or methods to determine equivalent compliance alternatives for buildings, structures and facilities which do not conform to the minimum requirements of the LSC adopted by this Chapter. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards including the *IFC* adopted by this Chapter."

(74) **NFPA 102, 2016 Edition, *Standard for Grandstands, Folding and Telescopic Seating, Tents, and Membrane Structures***

Modifications:

1. The 2016 edition of NFPA 102 is **NOT** adopted. The basic provisions of this standard have been incorporated into the 2018 Edition of NFPA 101, *Life Safety Code* as adopted by this Chapter 120-3-3. The provisions of the adopted *Life Safety Code* shall apply, as appropriate, to new and existing bleachers, grandstands, folding and telescopic seating. The *Life Safety Code* in coordination with the applicable provisions of the adopted edition of the *International Fire Code* shall apply to tents and membrane structures.
2. The following apply to facilities constructed prior to the effective date of the current Chapter of 120-3-3 Rules and regulations of the Safety Fire Commissioner.
 - (a) Facilities constructed after April 1, 1968 but before January 1, 1991, shall be permitted to comply with the 1978 edition of NFPA 102, Standard for Grandstands, Folding, and Telescopic Seating, Tents, and Membrane Structures.
 - (b) Facilities constructed after January 1, 1991, but before January 28, 1993, shall be permitted to comply with the 1986 edition of NFPA 102, Standard for Grandstands, Folding, and Telescopic Seating, Tents, and Membrane Structures.
 - (c) Facilities constructed after January 28, 1993, but before March 09, 2010, shall be permitted to comply with the 1992 edition of NFPA 102, Standard for Grandstands, Folding, and Telescopic Seating, Tents, and Membrane Structures.
 - (d) Facilities constructed after March 09, 2010, but before January 1, 2014, shall be permitted to comply with the 2006 edition of NFPA 102, which had been previously adopted."

(75) NFPA 105, 2019 Edition, Smoke Door Assemblies and Other Opening Protectives

Modifications:

(a) Modifications to Chapter 1:

1. Add a new subsection 1.6 to read as follows:
 - 1.6 "This document is recognized strictly as a recommended practice that may be used in evaluating the use of door assemblies in openings where the passage of smoke is to be governed.

Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

(76) **NFPA 110, 2019 Edition, *Standard for Emergency and Standby Power Systems***

Modifications: None

(77) **NFPA 111, 2019 Edition, *Standard on Stored Electrical Energy Emergency and Standby Power Systems***

Modifications: None

(78) **NFPA 115, 2020 Edition, *Recommended Practice on Laser Fire Protection***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.3 to read as follows:

1.1.3 "This document is recognized strictly as a recommended practice that may be used in evaluating the minimum fire protection criteria for the design, manufacture, installation, and use of lasers and associated equipment. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

(79) **NFPA 120, 2015 Edition, *Standard for Coal Preparation Plants***

Modifications:

- (a) Refer to Chapter 120-3-24, Rules and Regulations of the Safety Fire Commissioner for the application of this Standard and the adopted edition and any modifications.

- (80) **NFPA 122, 2015 Edition, *Standard for Fire Prevention and Control in Metal / Nonmetal Mining and Metal Mineral Processing facilities***

Modifications: None

- (81) **NFPA 130, 2017 Edition, *Standard for Fixed Guideway Transit and Passenger Rail Systems***

Modifications: None

- (82) **NFPA 140, 2018 Edition, *Standard for Motion Picture and Television Production Studio Soundstages and Approved Facilities***

Modifications: None

- (83) **NFPA 150, 2019 Edition, *Standard on Fire and Life Safety in Animal Housing Facilities***

Modifications: None

- (84) **NFPA 160, 2016 Edition, *Standard for Flame Effects Before an Audience***

Modifications: None

- (85) **NFPA 170, 2018 Edition, *Standard for Fire Safety Symbols***

Modifications: None

- (86) **NFPA 204, 2018 Edition, *Standard for Smoke and Heat Venting***

Modifications: None

- (87) **NFPA 211, 2019 Edition, *Standard for Chimneys, Fireplaces, Vents, and Solid Fuel Burning Appliances***

Modifications: None

- (88) **NFPA 214, 2016 Edition, *Standard on Water-Cooling Towers***

Modifications: None

- (89) **NFPA 220, 2018 Edition, *Standard on Types of Building Construction***

Modifications: None

- (90) **NFPA 221, 2018 Edition, *Standard for Fire Walls and Fire Barrier Walls***

Modifications: None

- (91) **NFPA 232, 2017 Edition, *Standard for the Protection of Records***

Modifications: None

- (92) **NFPA 241, 2019 Edition, *Standard for Safeguarding Construction, Alteration, and Demolition Operations***

Modifications: None

- (93) **NFPA 252, 2017 Edition, *Standard Methods of Fire Tests of Door Assemblies***

Modifications: None

- (94) **NFPA 253, 2019 Edition, *Standard Method of Test for Critical Radiant Flux of Floor Covering Systems Using a Radiant Heat Energy Source***

Modifications: None

- (95) **NFPA 257, 2017 Edition, *Standard on Fire Test for Window and Glass Block Assemblies***

Modifications: None

- (96) **NFPA 259, 2018 Edition, *Standard Test Method for Potential Heat of Building Materials***

Modifications: None

- (97) **NFPA 260, 2019 Edition, *Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of Components of Upholstered Furniture***

Modifications: None

- (98) **NFPA 261, 2018 Edition, *Standard Method of Test for Determining Resistance of Mock-Up Upholstered Furniture Material Assemblies to Ignition by Smoldering Cigarettes***

Modifications: None

- (99) **NFPA 262, 2019 Edition, *Standard Method of Test for Flame Travel and Smoke of Wires and Cables for Use in Air-Handling Spaces***

Modifications: None

- (100) **NFPA 265, 2019 Edition, *Standard Methods of Fire Tests for Evaluating Room Fire Growth Contribution of Textile Coverings on Full Height Panels and Walls***

Modifications: None

- (101) **NFPA 268, 2017 Edition, *Standard Test Method for Determining Ignitability of Exterior Wall Assemblies Using a Radiant Heat Energy Source***

Modifications: None

- (102) **NFPA 269, 2017 Edition, *Standard Test Method for Developing Toxic Potency Data for Use in Fire Hazard Modeling***

Modifications: None

Modifications: None

- (162) **NFPA 850, 2015 Edition, *Recommended Practice for Fire Protection for Electric Generating Plants and High Voltage Direct Current Converter Stations***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.1 to read as follows:

1.1.1 "This document is recognized strictly a recommended practice for fire prevention and fire protection for electric generating plants and high voltage direct current converter stations except as specified in 1.1. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

- (163) **NFPA 851, 2010 Edition, *Recommended Practice for Fire Protection for Hydroelectric Generating Plants***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.1 to read as follows:

1.1.1 "This document is recognized strictly a recommended practice for fire prevention and fire protection for hydroelectric generating plants. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards."

(164) **NFPA 853, *Standard for the Installation of Stationary Fuel Cell Power Systems*, 2020 Edition**

(a) **Modifications to Chapter 1:**

1. Add new subsection 1.1.3 to read as follows:

1.1.3 Where the requirements of this standard are in conflict with the International Building Code as adopted by the Georgia Department of Community Affairs or the International Fire Code as adopted and modified by this Chapter, the most restrictive requirements shall apply unless otherwise approved by the State Fire Marshal.

(165) **NFPA 855, *Standard for Installation for Stationary Energy Storage Systems*, 2020 Edition**

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.1 to read as follows:

1.1.1 Where the requirements of this standard are in conflict with the International Building Code as adopted by the Georgia Department of Community Affairs or the International Fire Code as adopted and modified by this Chapter, the most restrictive requirements shall apply unless otherwise approved by the State Fire Marshal.

(166) **NFPA 909, 2017 Edition, *Code for the Protection of Cultural Resource Properties - Museums, Libraries, and Places of Worship***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.5 to read as follows:

1.1.5 "This document is recognized strictly as a recommended practice for fire prevention and fire protection for various cultural resources. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is in the form of a stand-alone enforceable code or standard, however, it is not adopted as a minimum state code or standard. It may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards, or it may be adopted and enforced by a local jurisdiction under local ordinance."

(b) **Modification to Chapter 3:**

1. Delete the definition 3.3.25 for Fire Hazard and substitute in its place the following:

3.3.25 " "Fire Hazard" means for the intents and purposes of this *Code*, an activity, circumstance, condition, situation, combination of materials, material process, use or improper use of heat sources, or that on the basis of applicable documentation, data, or information sources deemed reliable by the authority having jurisdiction, can cause an unwanted fire, a fire out of control, an explosion, or a related condition, such as panic from a fear of smoke, fire, or explosion, that the authority having jurisdiction determines to be a risk to persons, to property, or to the health, safety, and or welfare of the jurisdiction."

(167) **NFPA 914, 2019 Edition, *Code for Fire Protection of Historic Structures***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.3 to read as follows:

1.1.3 "This document is recognized strictly as a recommended practice for fire prevention and fire protection of historic

structures. Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is in the form of a stand-alone enforceable code or standard, however, it is not adopted as a minimum state code or standard. It may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards, or it may be adopted and enforced by a local jurisdiction under local ordinance."

(b) Modifications to Chapter 3:

1. Delete the definition 3.3.30 for Fire Hazard and substitute in its place the following:

3.3.30 " "Fire Hazard" means for the intents and purposes of this *Code*, an activity, circumstance, condition, situation, combination of materials, material process, use or improper use of heat sources, or that on the basis of applicable documentation, data, or information sources deemed reliable by the authority having jurisdiction, can cause an unwanted fire, a fire out of control, an explosion, or a related condition, such as panic from a fear of smoke, fire, or explosion, that the authority having jurisdiction determines to be a risk to persons, to property, or to the health, safety, and or welfare of the jurisdiction."

(168) NFPA 1122, 2018 Edition, *Code for Model Rocketry*

Modifications:

- (a) Refer to Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(169) NFPA 1123, 2018 Edition, *Code for Fireworks Display*

Modifications:

- (a) Refer to Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(170) NFPA 1124, *Code for the Manufacture, Transportation, Storage and Retail Sales of Fireworks and Pyrotechnic Articles*

Modifications:

- (a) Refer to Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(171) **NFPA 1125, 2017 Edition, *Code for the Manufacture of Model Rocket and High Power Rocket Motors***

Modifications:

- (a) Refer to Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(172) **NFPA 1126, 2016 Edition, *Standard for the Use of Pyrotechnics before a Proximate Audience***

Modifications:

- (a) Refer to Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(173) **NFPA 1127, 2018 Edition, *Code for High-Power Rocketry***

Modifications:

- (a) Refer to Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

(174) **NFPA 1142, 2017 Edition, *Standard on Water Supplies for Suburban and Rural Fire Fighting***

(175) **NFPA 1221, 2019 Edition, *Standard for the Installation, Maintenance, and Use of Emergency Services Communications Systems***

Modifications: None

(176) **NFPA 1961, 2013 Edition, *Standard on Fire Hose***

Modifications: None

- (177) **NFPA 1962, 2018 Edition, *Standard for the Inspection, Care, and Use of Fire Hose, Couplings, and Nozzles and the Service Testing of Fire Hose***

Modifications: None

- (178) **NFPA 1963, 2019 Edition, *Standard for Fire Hose Connections***

Modifications: None

- (179) **NFPA 2001, 2018 Edition, *Standard on Clean Agent Fire Extinguishing Systems***

Modifications:

(a) Modification to Chapter 8:

1. Delete subsection 8.1.2 in its entirety and substitute in its place the following:
 - 8.1.2 "All persons who could be expected to inspect, test, or maintain, fire extinguishing systems shall be licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated and thoroughly trained and kept thoroughly trained in the functions they are expected to perform."
2. Delete subsection 8.4 in its entirety and substitute in its place the following:
 - 8.4 "At least annually, all systems shall be thoroughly inspected and tested for proper operation by personnel qualified in the installation and testing of clean agent extinguishing systems and licensed and/or permitted in accordance with Chapter 12 of Title 25 of the Official Code of Georgia Annotated. Discharge tests shall not be required."

- (180) **NFPA 2010, 2015 Edition, *Fixed Aerosol Fire Extinguishing Systems***

Modifications: None

- (181) ***International Wildland-Urban Interface Code (IWUIC)*, 2012 Edition**

Modifications:

(a) Modifications to Chapter 1:

1. Delete section 101.1 in its entirety and substitute in its place the following:

101.1 **"Title.** The *International Fire Code*, 2012 edition, published by the *International Code Council*, shall be known as a *Georgia State Wildland-Urban Interface Code*, hereafter referred to as "this Code"."

2. Delete section 101.2 in its entirety and substitute in its place the following:

101.2 **"Scope.** The provisions of this *Code* shall apply to the construction, alteration, movement, repair, maintenance and use of any building, structure or premises within the wildland-urban interface areas designated by local jurisdictions by ordinance." (Note: See sample Ordinance on page xi of this *Code* for application and designated fire area.)

Buildings or conditions in existence at the time of the adoption of this *Code* are allowed to have their use or occupancy continued, if such condition, use or occupancy was legal at the time of the adoption of this *Code*, provided such continued use does not constitute a distinct danger to life or property.

Buildings or structures moved into or within the jurisdiction shall comply with the provisions of this *Code* for new buildings or structures.

101.2.1 **Appendices.** Provisions in the appendices shall not apply unless specifically adopted by local ordinance."

Amended: F. Aug. 31, 2022; eff. Sep. 1, 2022, as specified by the Agency.

Rule 120-3-3-.05. Obstruction of and Access to Fire Hydrants.

- (1) It shall be unlawful for any person in any manner to obstruct the use of any fire hydrant or place any material or objects as to obstruct its view from the roadway or other approach.
- (2) Hydrant locks shall not be permitted on hydrant valves unless approved in writing by the Fire Chief of the responding fire department.
- (3) Fire hydrants shall be accessible to fire service personnel at all times. No person shall place or maintain any post, fence, vehicle, vegetation, growth, trash, or storage of any other materials that would obstruct the view of or access to a fire hydrant and hinder or prevent its immediate use by fire service personnel.
- (4) A minimum clearance of 36 inches to and around the requirements shall be maintained for the safe and efficient operation of the fire hydrant. The front of the hydrant shall be open to the roadway or approach and the minimum clearance in the rear of the hydrant from discharge nozzle to discharge nozzle shall be no less than three feet. The minimum clearance of three feet out from the hydrant shall be maintained out to the roadway or approach.
- (5) Any roadway in front of the hydrant shall be kept clear of vehicles for fifteen feet in either direction in accordance with § [40-6-203](#) of the Official Code of Georgia Annotated.
- (6) No person shall change the paint color of a fire hydrant from that established or set by the authority having jurisdiction.
- (7) Existing non-movable obstructions such as a pre-existing buildings power poles or other non-movable obstructions located within three feet of the hydrant may remain if in existence prior to the implantation of this regulation. Such obstruction approval shall be documented and records kept on file by local authorities.

Amended: F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency.

Rule 120-3-3-.06. Request for Modification of Specific Requirements.

Upon receipt of a sworn affidavit stating all relevant facts and circumstances and such other information as may be required, the State Fire Marshal may recommend to the Georgia Safety Fire Commissioner that specific requirements of this Chapter and the codes and standards adopted herein be modified to allow alternative arrangements that will secure as nearly equivalent measures as practical for the prevention of injury to persons and property. The Georgia Safety Fire Commissioner in his discretion may accept the State Fire Marshal's recommendation and grant the requested modification.

Rule 120-3-3-.07. Fire Safety Information to be Furnished in Hotels, Motels, Dormitories, Apartments, Community Living Arrangements and Personal Care Homes.

- (1) This Rule shall apply to every new and existing hotel, motel and dormitory that comes within O.C.G.A. Section [25-2-13\(b\)](#); and every apartment building three or more stories in height that comes within O.C.G.A. Section [25-2-13\(b\)](#); and every personal care home licensed for seven or more persons. Provided, however, that nothing herein shall apply to condominiums or any individually owned residential unit within any of the aforesaid buildings.
- (a) Every sleeping room located in any such hotel, motel, dormitory, apartment or personal care home shall contain the following fire safety information on a placard or decal language meeting the requirements of paragraph (2) herein, which shall be prominently affixed on the inside of every exit access door contained in any of the aforesaid rooms. When affixed, said placard or decal shall be unobstructed by curtains, shades or other materials.

Exception: Single story hotels and motels where each guestroom has a door opening directly outside at street or ground level.

"SAFETY TIPS"

1. Never smoke in bed.
2. Locate fire exits on this floor. (Note: Do NOT consider elevators as exits.)
3. Count the number of doors to the nearest exit, and check for any possible obstructions.
4. (When applicable: Locate fire alarm pull stations on this floor.)
5. (When applicable: Locate fire extinguishers on this floor.)
6. Check any windows to see if they can be opened; if so determine how they open.
7. Keep your room key on a table next to your bed.
8. If you leave your room, keep door closed and take your key.
9. Write down the number for the local fire department and keep it next to the phone.

THE LOCAL FIRE DEPARTMENT NUMBER IS _____.

"IN CASE OF FIRE" DON'T PANIC; remain calm.

1. Report fire to front desk or fire department as appropriate.
2. If room is smoky, get on hands and knees (or stomach) and crawl to door.
3. Feel door knob; If **HOT**, do **NOT** open door; if cool, open slowly.
4. If hallway is smoky, stay next to wall and count the doors as you crawl to exit.
5. Do **NOT** use any elevators.
6. Do **NOT** prop open doors to exit staircase.
7. Hang on to handrail and **WALK DOWN** exit staircase.
9. (When applicable: Pull fire alarm as you evacuate.)

"IF YOU CANNOT LEAVE THIS ROOM"

1. Notify (or Call) front desk (or manager, fire department, or other appropriate person) and let them know where you are.
2. Wet sheets, towels or clothing and stuff them in all cracks around doors and vents.
3. (When applicable: Turn on bathroom fan.)
4. Check to see if there is smoke **OUTSIDE** window; if **NO** smoke and if any window can be opened, hang a sheet or light colored material outside.
5. (When applicable: Fill bathtub (or sink) with cold water for firefighting.)
6. Using ice bucket or other container, keep doors and walls wet.
7. If room is smoky, fold a wet towel in a triangle and tie over your nose and mouth; stay low.
8. Make yourself visible to rescue personnel through any window or balcony;
DO NOT JUMP!

9. Keep fighting fire until help arrives; **DON'T GIVE UP!**

FOR YOUR SAFETY, THIS BUILDING HAS THE FOLLOWING:

(List all of the following and any additional items as applicable.)

1. Automatic sprinkler protection in every room.
2. Automatic sprinkler protection in every hallway.
3. Automatic smoke detectors in every room.
4. Automatic smoke detectors in every hallway.
5. Fire extinguishers on every floor.
6. Fire alarm pull stations at every exit.
7. Posted evacuation plans in every room.
8. Pressurized staircase with self-closing doors. (NOTE: In case of fire, do **NOT** prop doors open.)
9. Fire safety staircase with self-closing doors. (NOTE: In case of fire, do **NOT** prop doors open.)
10. Emergency lighting and exit lights.
11. Fire resistant drapery and bedding.
12. An alternative fire exit to the roof. (NOTE: To be used **ONLY** if heavy smoke is encountered when walking **DOWN** the exit staircase.)

- (b) Every owner or manager of any such apartment building shall furnish to all tenants therein the fire safety information specified in subparagraph (a) herein on a placard or decal meeting requirements of paragraph
- (2) herein, and shall request each tenant to affix the placard or decal in a prominent location so as to be visible to the tenant and to any visitors.
 - (2) The information specified in subparagraph (a) of main paragraph (1) herein shall be contained on a placard or decal at least 8-1/2 inches by 14 inches (215.9 mm by 355.6 mm) in size. The text shall be legibly printed in a minimum of twelve-point bold type. The headings contained therein shall be legibly printed in a minimum of 48-point type and the wording shall be in the English language.

Exception No. 1: Fire safety information placards or decals are not required on resident sleeping room doors in personal care homes and apartments provided there are records, signed by the individual residents of the facility, which indicates that they have received the same information as required above in the facilities operations, policy or similar manual. Fire safety information shall be reviewed during Fire Drills performed in accordance with the appropriate occupancy chapter of NFPA 101, Life Safety Code, as adopted by this Chapter.

Exception No. 2: Existing fire safety information placards or decals at least 8-1/2 inches by 14 inches (215. mm by 355.6 mm) in size with legibly printed text in a minimum of twelve-point leaded, one-point type and whose headings are legibly printed in a minimum of 48-point type in the English language.

Example of 48-point type:

"SAFETY TIPS"

Example of 12-point type: Emergency lighting and exit lights.

- (3) The information specified in subparagraph (a) of paragraph (1) herein is intended to be a minimum list of fire safety tips and emergency procedures. The owner or manager of the building may modify the text of the information specified in subparagraph (a) of paragraph (1) herein as follows:
 - (a) To correspond with the structural features of any such building, or any room located therein;
 - (b) To facilitate the communication of such information upon consideration of the age or primary language of the guests, residents or students occupying any such building; and
 - (c) To add other appropriate information to the extent deemed necessary by local fire safety personnel.
- (4) A placard or decal shall be affixed above the call button for every elevator located in any such hotel, motel, dormitory or apartment building which shall state in bold and conspicuous type: "IN THE EVENT OF FIRE, DO NOT USE THIS ELEVATOR." In conjunction with such placard or decal, an evacuation route shall be posted with arrows indicating the direction of the nearest fire exit.

- (4) The editions of the codes and standards adopted under this Chapter 120-3-3 may not be the most currently available editions published by the National Fire Protection Association or the *International Code Council*. For the intents and purposes of O.C.G.A. [25-2-4](#) and the Rules and Regulations of the Safety Fire Commissioner, it is not compliant, practical nor in the best interest of the citizens of Georgia to attempt to promulgate the most current editions of nationally recognized codes or standards when published without the required evaluation and public review. Based on various provisions of O.C.G.A. 25-2 and Article 1 of O.C.G.A. 25-3, local governing bodies of this State are authorized to enact ordinances, regulations, or codes that may be required in order for the jurisdiction to satisfy intents and purposes that are not required of the Commissioner under O.C.G.A. 25-4. Any local ordinances, regulations, or codes enacted by a local governing body shall not be less restrictive or protective than the "state minimum fire safety standards" promulgated in conformance with O.C.G.A. [25-2-4](#) and other provisions of 25-2.

Rule 120-3-7-.03. Definitions.

The terms "Installation" and "Set Up" shall be used interchangeably throughout this Regulation. All other terms which are used in this Regulation shall have the same meaning as defined in O.C.G.A. §§ [8-2-131](#) and [8-2-160](#), in addition to the following:

- (1) "Act" means "The National Manufactured Housing Construction and Safety Standards Act of 1974" ([42 U.S.C. 5401](#) *et seq.*, as amended) and the Rules and Regulations promulgated thereunder;
- (2) "Commissioner" means the Georgia Safety Fire Commissioner.
- (3) "Dispute Resolution" means a program for a timely resolution of disputes between manufactures, retailers and installers of manufactured homes regarding responsibility and for the issuance of appropriate orders for the correction or repairs of defects in the manufactured home that are reported during the 1 year period beginning on the date of installation.
- (4) "Fire Safety Compliance Officer" means an employee of the Safety Fire Division, authorized by the Safety Fire Commissioner to carry out specific responsibilities, including all inspections necessary to administer and enforce O.C.G.A. §§ [8-2-130](#) *et seq.* and [8-2-160](#) *et seq.* and the Rules and Regulations promulgated thereunder;
- (5) "HUD" means the United States Department of Housing and Urban Development;
- (6) "In-Plant Primary Inspection Agency (IPIA)" means a state or private organization which has been accepted by the Secretary in accordance with the requirements of Subpart H of the federal regulations adopted pursuant to the Act. An IPIA evaluates the ability of manufactured home plants to follow approved quality control procedures and provides ongoing surveillance of the manufacturing process;
- (7) "Installation" means the construction of a foundation system and the placement or erection of a manufactured home or mobile home on the foundation system. Such term includes, without limitation, supporting, blocking, leveling, securing, or anchoring such home and connecting multiple or expandable sections of such home. The term "set up" may be used interchangeably with the term "installation";

- (8) "Installer" means a person responsible for performing an installation and who is required to obtain a license pursuant to O.C.G.A. § [8-2-160](#) *et seq.*;
- (9) "Lending Institutions" shall have the same meaning as set forth in O.C.G.A. § [8-2-131\(3\)](#).
- (10) "Manufactured Housing Act" means O.C.G.A. §§ [8-2-130](#) *et seq.*, 8-2-160 *et seq.* and the Rules and Regulations promulgated thereunder;
- (11) "Retail Broker" shall have the meaning set forth in O.C.G.A. § [8-2-131\(8\)](#).
- (12) "Retailer" shall have the meaning set forth in O.C.G.A. § [8-2-131\(9\)](#).
- (13) "Remedial Actions" means the notification and corrective measures required to be taken under Subpart I of the Procedural and Enforcement Regulations adopted pursuant to the Act and under the Rules and Regulations adopted pursuant to O.C.G.A. §§ [8-2-130](#) *et seq.* and 8-2-160 *et seq.*;
- (14) "Safety Fire Division" means the authorized inspection and enforcement authority of the Georgia Safety Fire Commissioner. The Manufactured Housing Section is designated as having the primary responsibility;
- (15) "Secretary" means Secretary of U.S. Department of Housing and Urban Development;
- (16) "Set up" may be used interchangeably with the term "installation." Set up means the construction of a foundation system and the placement or erection of a manufactured home or mobile home on the foundation system. Such term includes, without limitation, supporting, blocking, leveling, securing, or anchoring such home and connecting multiple or expandable sections of such home.
- (17) "Standards" means the Federal Manufactured Home Construction and Safety Standards as promulgated under Section 604 of the Act, ([42 U.S.C. 5403](#), as Part of the Federal Regulations);
- (18) "State Administrative Agency (SAA)" means an agency of a state which has been approved by HUD to carry out the state plan for enforcement of the standards pursuant to Section 623 of the Act ([42 U.S.C. 5422](#)). The Manufactured Housing Section of the Safety Fire Division is the State Administrative Agency for Georgia.

Rule 120-3-7-.05. Standards of Construction.

All manufactured homes produced, assembled, constructed or built in Georgia must conform to the Act and the Rules and Regulations promulgated thereunder by the Secretary as the construction standard for manufactured homes, found in the Title 24 C.F.R. Part 3280, adopted May 11, 1976, as amended. (This standard may be found at 24 C.F.R. 3280 and copies may be obtained from the U.S. Department of Housing and Urban Development, Manufactured Housing Standards Division, 451 Seventh Street, S.W., Washington, D.C. 20410.)

- (1) Each section of each manufactured home shall have a metal label issued by the In-Plant Primary Inspection Agency ("IPIA"), indicating that the manufacturer has certified to the best of the manufacturer's knowledge and belief that the home meets the applicable construction standards of the Act. The label shall be affixed in a permanent manner, generally at the rear of each section of the home.
- (2) In accordance with subsection (1) above, manufactured homes which have been certified as complying with the standards promulgated under the Act, and which have not been damaged by natural forces or otherwise altered in such a manner as to no longer be in compliance with said standards, shall be exempt from the adoption or enforcement by any political subdivision of any other construction standard or from requiring modifications to the design specifications including, but not limited to, the electrical and plumbing systems.

Rule 120-3-7-.06. In-Plant Primary Inspection Agency (IPIA) Inspection Procedures; Disagreements With Procedures.

- (1) Inspections of manufactured homes by the IPIA or the Commissioner's designee will be conducted pursuant to Subpart H of the U.S. Department of Housing and Urban Development's "Manufactured Homes Procedural and Enforcement Regulations" ([24 C.F.R. 3282.351](#), adopted May 11, 1976, as amended).
- (2) Whenever a manufacturer disagrees with a finding by an IPIA acting in accord with Subpart H, the manufacturer may request a Presentation of Views or a Hearing as hereafter provided in Rule [120-3-7-.10](#) of these Rules and Regulations
- (3) Fees in connection with permitting of new manufactured housing plants in Georgia will be in accordance with the following schedule:
 - ° Initial five-day (40-hour) inspection period\$5,000
 - ° Second five-day (40-hour) inspection period.....\$5,000
 - ° Third five-day (40-hour) inspection period.....\$5,000
 - ° Fourth five-day (40-hour) inspection period.....\$5,000 PER DAY
- (4) If certification is not completed after four five-day inspection periods, the representatives of the manufacturer and representatives of the Commissioner will arrange a meeting to evaluate the inspection process.
- (5) For any inspection lasting longer than four five-day inspection periods, the manufacturer will be responsible for additional fees incurred by the inspectors, including cost lodging and per diem costs.

Rule 120-3-7-.07. Consumer Complaint Handling and Remedial Actions.

Consumer complaints and remedial actions will be administered and enforced by the Manufactured Housing Section of the Safety Fire Division in accordance with O.C.G.A. §§ [8-2-130](#) *et seq.*, [8-2-160](#) *et seq.* and with the Manufactured Homes Procedural and Enforcement Regulations, found in Title 24 C.F.R. Part 3282, Subpart F and Subpart I, 42 Fed. Reg. 2580, Jan. 12, 1977, as amended, wherever such is denoted as an SAA responsibility. Presentation of Views or Hearings will be conducted pursuant to Rule [120-3-7-.10](#) of these Rules and Regulations.

- (a) Consumer complaints, including remedial actions, that involve the installation of manufactured homes set up after January 1, 1993 will be administered and enforced by the Manufactured Housing Section of the Safety Fire Division in accordance with O.C.G.A. § [8-2-160](#) *et seq.* and the Rules and Regulations promulgated thereunder. Presentation of Views and Hearings will be conducted pursuant to Rule [120-3-7-.10](#) of the Rules and Regulations.

Rule 120-3-7-.08. Annual License.

- (1) Every manufacturer who manufactures manufactured homes in Georgia and every manufacturer who manufactures manufactured homes outside the State of Georgia and who sells or offers for sale said manufactured homes in Georgia shall apply for and obtain a license from the Manufactured Housing Section of the Safety Fire Division on the prescribed form and accompanied by the fee as provided in O.C.G.A. § [8-2-135\(1\)](#) and [\(2\)](#). For licensing purposes, each plant location shall be treated as a separate entity and shall adhere to all licensing requirements. The applicant for licensure shall specify the

actual physical location where manufactured homes are built or assembled. Every manufacturer receiving a license shall display the license in the place of business and shall make such license available upon request for verification by an authorized representative of the Commissioner.

- (2) Every retailer and retail broker who sells or offers for sale to consumers three (3) or more new or previously owned manufactured or mobile homes in a twelve (12) month period in Georgia shall apply for and obtain a license from the Manufactured Housing Section of the Safety Fire Division on the prescribed form and accompanied by the fee as provided in O.C.G.A. § [8-2-135\(3\) and \(5\)](#). For licensing purposes, each retailer lot or location and retail broker location shall be treated as a separate entity and shall adhere to all licensing requirements. The applicant for licensure shall specify the actual physical address where manufactured or mobile homes are located. Every retailer or retail broker receiving a license shall keep the license in the place of business and shall make such license available upon request for verification by an authorized representative of the Commissioner. The application for said license shall include a complete authorization form prescribed by the Commissioner of Insurance which allows the verification of criminal history by the department.
- (3) Every installer who installs new or previously owned manufactured or mobile homes anywhere within the State of Georgia in accordance with O.C.G.A. § [8-2-161\(1\)](#) shall apply for and obtain a license from the Manufactured Housing Section of the Safety Fire Division, to operate as a licensed installer, on the prescribed form and accompanied by the fee as provided in O.C.G.A. § [8-2-161\(1\)](#). The applicant shall specify an actual physical location where the installer's business is based and where records are maintained. The application for said license shall include a completed authorization form as prescribed by the Commissioner of Insurance which allows the verification of criminal history by the department.
 - (a) The application for licensure for each installer shall be accompanied by proof of successful completion of an installation training course and corresponding examination, authorized or approved by the Commissioner, and designated for licensure. The course must have been taken within 12 months prior to the initial application for licensure. Continuing education courses approved by the Commissioner shall be taken every 24 months thereafter.
 - (b) A licensed installer may employ or contract with other authorized accountable personnel to assist with the installations of manufactured or mobile homes. The licensee shall be required to be at the installation site at all times, unless at least one authorized accountable personnel is continually at the installation site while the installation work is in progress and is accountable to the licensee. The licensee shall be responsible for ensuring that any installation performed under said license be in compliance with the applicable instructions and the licensee shall be responsible for providing remedial action when required. Proof of licensure and/or authorization of accountable personnel, shall be maintained at the installation site at all times for verification by local code officials and authorized representatives

of the Commissioner. The proof may be in the form of the original license, copy of the original license or on a form prescribed by the Commissioner. Local jurisdictions are authorized to require proof of licensure prior to issuing any permits necessary to perform installations of manufactured and mobile homes. "Authorized accountable personnel" is defined as a person or persons who have successfully completed the installation training course, and any applicable continuing education courses, and their corresponding examinations, approved by the Commissioner. A certificate of Completion will be provided by the Manufactured Housing Section of the Safety Fire Division to these individuals upon proof of successful completion of these courses and examinations. Any retailer or retail broker licensed under the provisions of the Manufactured Housing Act who uses the services of or otherwise employs a person, partnership, corporation, entity, etc. that is not licensed as an installer in the State of Georgia shall be subject to the revocation of said retailer's and retail broker's license or other penal measures as prescribed by this Regulation. Any failure to comply with the provisions contained herein shall be considered a violation of the Manufactured Housing Act and be subject to penal measures prescribed by the Commissioner of Insurance, including but not limited to, the revocation of any applicable license.

- (c) An individual who transports a manufactured or mobile home to the site of installation shall be excluded from licensure as an installer provided he or she performs only such temporary blocking as is necessary to stabilize the home and shall not, under these circumstances, be considered to be an installer. However, any further blocking of the home by the carrier shall be considered to be an installation of the unit, and the carrier shall comply with licensure requirements of an installer and the installation must be performed in compliance with O.C.G.A. § [8-2-160](#) et seq. and the applicable rules of the Commissioner. A partial installation of a manufactured or mobile home is not allowed under the Manufactured Housing Act.
- (d) Any installer who is discovered by a state or local inspector to have performed an installation in a manner contrary to the methods indicated by the manufacturers installation instruction manual and Rule [120-3-7-.21](#), as applicable, shall be deemed to be in violation of the Manufactured Housing Act and shall be subject to revocation of his or her license and/or other penal measures as prescribed by the Commissioner of Insurance, this Regulation or other applicable Georgia law.
- (e) In all cases in which the installation is arranged by and/or paid for by the retailer or retail broker, the retailer and retail broker shall assume responsibility for the proper set up of the mobile or manufactured home. Failure to comply with the requirements of this subsection shall be deemed a violation of the Manufactured Housing Act and shall be subject to the revocation of the retailer's or retail broker's license or other penal measures as prescribed by this Regulation or other

applicable Georgia law. This subsection shall not relieve any installer from any responsibilities and applicable penalties.

- (4) Applications for licensure must be approved by the Commissioner or his or her delegate before engaging in any activities contemplated by the Manufactured Housing Act and requiring licensure for manufacturers, retailers, retail brokers or installers. Each license shall be valid from January 1 through December 31 of the year in which the license is issued. License fees shall not be prorated for the remainder of the year in which the application is made but shall be paid for the entire year regardless of the date of application. All licenses are non-transferable regarding ownership and/or location. Any licensed entity changing the business name, or any other information not referenced herein, presented on the original application for licensure shall notify the Manufactured Housing Section of the Safety Fire Division of any change of information contained in the original application for licensure within twenty (20) days and shall complete a revised application.
- (5) Applications for renewal licenses for manufacturers, retailers, retail brokers and installers shall be obtained and submitted to the Manufactured Housing Section of the Safety Fire Division on or before January 1 of each year and shall be accompanied by a completed consent form allowing a criminal history background check by the Safety Fire Commissioner's Office. On or before December 1 of each year, the Manufactured Housing Section of the Safety Fire Division shall forward a Notice of Renewal by electronic mail to each licensee at the last known email address on the records of the Safety Fire Commissioner. After sending the Notice of Renewal by electronic mail, the Manufactured Housing Section shall have no further duty or obligation to notify the licensee of the expiration of annual license. The fee for delinquent renewal applications received after January 10 of each year shall be double the regular annual fee.
- (6) A license may be refused or a license duly issued may be suspended or revoked or the renewal of such license may be refused by the Commissioner if he or she finds that the applicant or the holder of a license:
 - (a) has violated any provision of the Act, the Standards, the Manufactured Homes Act or these Rules and Regulations;
 - (b) has intentionally made any misstatement or misrepresented or concealed any material fact in the application for the license;
 - (c) has obtained or attempted to obtain a license by fraud or misrepresentation;
 - (d) has been determined to have engaged in, or to be engaging in, a fraudulent or dishonest practice or to have demonstrated a lack of trustworthiness or lack of competence;
 - (e) has been convicted by final judgment in any state or federal court of a felony; or

- (f) has willfully failed to comply with or has willfully violated any proper order, rule or regulation issued by the Commissioner or the Secretary.
 - (g) in the case of a license application, if any person having control of the applicant is subject to any of the grounds for refusal stated in subparagraphs (a) through (f) above, the license may be refused. For purposes of this subparagraph, control shall be presumed if the person owns ten percent or more of the applicant, or if the person owns ten percent or more of the voting securities of a corporate applicant.
- (7) Before any license application shall be refused or any license shall be suspended or revoked or the renewal thereof refused as provided for in this Rule, the Commissioner shall give notice of his or her intention to do so to the applicant or the holder of a license in accordance with the Georgia Administrative Procedure Act, O.C.G.A. Chapter 50-13, and O.C.G.A. [25-2-29](#), and applicable Rules and Regulations of the Safety Fire Commissioner.
- (8) In situations where persons otherwise would be entitled to a hearing prior to an order, the Commissioner may issue an order to become effective within twenty (20) days from the date of the order, unless persons subject to the order request a hearing within ten (10) days after receipt of the order. Failure to make a request shall constitute a waiver of any provision contained herein for the hearing.
- (9) Any person who engages in any activities identified by the Manufactured Housing Act as requiring licensure as a manufacturer, retailer, retail broker or installer without having first obtained the appropriate license or who conducts said business without proper licensure or with an expired license shall be deemed to be in violation of the Manufactured Housing Act and shall be subject to the penalties prescribed in O.C.G.A. §§ [8-2-141](#) or [8-2-166](#) after notice and hearing as prescribed by this Regulation.
- (10) Lists of licensees shall be made available to the general public upon request pursuant to the provisions of O.C.G.A. § [50-18-70](#) et seq.

Rule 120-3-7-.10. Procedures for the Presentation of Views or Hearings.

- (1) Request. Upon receipt of a written request for a Presentation of Views or Hearing, the Commissioner shall either grant the relief for which the Presentation of Views or Hearing is requested or shall issue a notice under subparagraph (2) of this Rule. A hearing shall be held only if the Commissioner shall find that the request is made in good faith, that the applicant would be aggrieved and that such grounds otherwise justify holding such hearing.
- (2) Notice. When the Commissioner decides to conduct a Presentation of Views or Hearing, the Commissioner shall provide notice as follows:
 - (a) Notice shall be given at least ten (10) days prior to the date of the proceeding. Notice shall be provided to interested persons to the maximum extent practicable. Direct notice shall be sent by certified mail to the parties involved in the proceeding.
 - (b) The notice shall include a statement of the time, place and nature of the proceeding; reference to the authority under which the proceeding will be held; a statement of the subject matter of the proceeding; the parties and issues involved; and a statement of the manner in which interested persons shall be afforded the opportunity to participate in the proceeding.

- (c) The notice shall designate the official who shall preside over the proceedings and to whom all inquiries should be directed concerning such proceedings.
 - (d) The notice shall state whether the proceedings shall be held in accordance with the provisions of paragraph (4) "Presentation of Views" or paragraph (5) "Hearings" of this Rule.
 - (e) Notwithstanding any other provision, in situations where persons otherwise would be entitled to notice or hearing prior to an order, the Commissioner may issue an order to be effective immediately if the Commissioner has reasonable cause to believe that an act, practice, or transaction is occurring or is about to occur; that the situation constitutes a situation of imminent peril to the public health, safety or welfare; and that the situation therefore imperatively requires emergency action. The emergency order shall contain findings to this effect and reasons for the determination. The order shall contain or be accompanied by a notice of opportunity for hearing which may provide that a hearing will be held if and only if a person subject to the order requests a hearing within ten (10) days of receipt of the order and notice.
- (3) Reporting and transcription. Oral proceedings shall be stenographically or mechanically reported and transcribed, unless the Commissioner and the parties otherwise agree, in which case a summary approved by the presiding officer shall be kept. The original transcript or summary shall be a part of the record and the sole official transcript or summary. The cost of such reporting and transcription may, in the discretion of the Commissioner, be charged to the party seeking a Presentation of Views or Hearing. A copy of the transcript or summary shall be available to any person at a fee established by the Commissioner.
- (4) Presentation of Views.
- (a) A Presentation of Views may be written or oral, and may include an opportunity for oral presentation, whether requested or not, whenever the Commissioner concludes that an oral presentation would be in the public interest, and so states in the notice. The purpose of such presentations shall be to gather information to allow fully informed decision making.
 - (b) Presentation of Views shall not be adversary proceedings. Oral presentations shall be conducted in an informal but orderly manner. The presiding officer shall have the duty and authority to conduct a fair proceeding, to take all necessary action to avoid delay, and to maintain order.
 - (c) In the absence of extraordinary circumstances, an oral Presentation of Views shall not require that testimony be given under oath or affirmation and shall not permit either cross-examination of witnesses by other witnesses or their representatives, or the presentation of rebuttal testimony by persons who have already testified.

The rules of evidence prevailing in courts of law or equity shall not control the conduct of oral Presentation of Views.

- (d) Within ten (10) days after a Presentation of Views, the presiding officer shall refer to the Commissioner all documentary evidence submitted, the transcript, if any, a summary of issues involved and the information presented in the Presentation of Views and the presiding officer's recommendations.
 - (e) The Commissioner shall issue a Final Determination concerning the matters at issue within thirty (30) days of receipt of the presiding officer's summary.
- (5) Hearings. A Hearing is an adversary proceeding and includes an opportunity for the oral and documentary presentation of evidence in accordance with the Georgia Administrative Procedure Act (O.C.G.A. § [50-13-1](#) *et seq.*), the Georgia Insurance Code (O.C.G.A. § [33-2-1](#) *et seq.*) and Chapter 120-3-2 of the Rules and Regulations of Safety Fire Commissioner; except where such provisions are in direct conflict with the Act and the Rules and Regulations promulgated in Title 24 C.F.R. 3282, Subpart D, adopted May 13, 1976, as amended.
- (6) Decision or Final Determination. A Decision or Final Determination, issued by the Commissioner in accordance with paragraphs (f) and (g) of 24 C.F.R. 3292.152, shall include:
- (a) A written statement of findings of fact, with specific references to principal supporting items of evidence in the record and conclusions, as well as the reasons or basis therefore, upon all of the material issues of law or discretion presented on the record; and
 - (b) An appropriate order.

Rule 120-3-7-.11. Request for Extraordinary Interim Relief.

Any person requesting a Presentation of Views or Hearing under Rules [120-3-7-.10\(4\)](#) and [\(5\)](#) may request that the Commissioner provide such interim relief as may be appropriate pending the issuance of a Decision or Final Determination. No interim relief will be granted absent

extraordinary cause shown. The Commissioner shall grant, deny or defer decision of any request for interim relief.

Rule 120-3-7-.12. Dispute Resolution.

Any dispute between a manufacturer, retailer, retail broker, and/or installer of manufactured homes regarding their responsibility for defects in a new manufactured home that is reported during the 1-year period beginning on the date of installation may, by mutual agreement of all of the parties to the dispute, be submitted to the Commissioner for resolution. In that case, the dispute shall be resolved by the Commissioner through the following procedures:

- (a) Based upon an investigation and determination of information received from any credible source concerning defects in a new manufactured home, the Commissioner will issue appropriate written orders to a manufacturer, an installer, a retailer, or a retail broker, for the correction of defects in manufactured homes. As part of his investigation, the Commissioner may order an on-site inspection.
- (b) If the above procedure is utilized and the dispute is not resolved, or if any of the parties to the procedure are dissatisfied with the resolution, an administrative hearing shall be convened pursuant to § [120-3-7-.10](#) and the statutory and regulatory provisions cited therein. Administrative costs may be assessed against the party determined to be responsible.

Rule 120-3-7-.13. Installation Requirements.

- (1) In addition to the licensure requirements of Rule [120-3-7-.08\(3\)](#) of these Regulations, any installer performing any installation of a new or used manufactured or mobile home in the State of Georgia shall first purchase a permit from the Commissioner. The cost of each permit is prescribed in O.C.G.A. § [8-2-164\(2\)](#). Each installer shall provide any information required by the Commissioner to obtain a permit. The installation permit shall be attached by the installer to the panel box of each manufactured or mobile home upon completion of the installation. The prescribed permit shall be designed by the Commissioner. A permit shall be issued only to a licensed installer, and shall not be transferable.
- (2) Whenever the manufacturer's instructions do not stipulate certain installation requirements, or when clarification is needed, or when the manufacturer's instructions state that the issue is left to the regulatory authority having jurisdiction, then the installation instructions incorporated herein by reference in Rule [120-3-7-.21](#) of these Regulations shall be followed. Manufacturers of manufactured homes constructed under the provisions of the Act shall provide an installation manual with each manufactured home as required by the Act. The manual shall describe a foundation and anchorage system and provide instructions for site preparation and utility connections. O.C.G.A. § [8-2-165](#) requires compliance with the manufacturer's installation instructions. Pursuant to O.C.G.A. § [8-2-165](#), previously occupied manufactured and mobile homes which do not have the manufacturer's instructions as required by the Act shall be installed in accordance with said Rule [120-3-7-.21](#) of these Regulations.
 - (a) Each new manufactured home shall bear a data plate to be affixed in a permanent manner near the main electrical panel or other readily accessible and visible location as required by the Act. The data plate shall contain the name of the manufacturer, the serial number and model designation, the date the home was manufactured, the design-approval agency, factory-installed equipment and the wind, roof load, and thermal zones for which the unit was constructed. Local jurisdictions shall not prohibit the placement of any manufactured home built in compliance with the design standards for the zone in effect on the date that the data plate indicates the home was constructed. Manufactured homes shall not be placed in any zone(s) which exceed the design limitation for which the manufactured home was constructed as identified by the data plate.
 - (b) The manufactured or mobile home shall be placed on a properly prepared stand. The site shall have a grade that will allow water to drain away from the home stand, and all organic matter, debris, grass, grass sod and other foreign matter shall be removed where footings or pier foundations are to be installed. A written contractual agreement between the homeowner, the retailer, retail broker and/or installer shall determine which party is to perform the site preparation which shall include proper drainage of water away from the home. The existence of said contractual agreement shall not relieve the installer of the responsibility of set up on a properly prepared stand. Installations of manufactured or mobile homes shall not be performed on improperly prepared stands.

- (c) Pursuant to O.C.G.A. §§ [8-2-167](#) and [43-14-13\(k\)](#), a person licensed as a manufactured or mobile home installer pursuant to these Regulations shall not be subject to the electrical and plumbing licensure requirements of O.C.G.A. Title 43, Chapter 14 when performing the functions specified in O.C.G.A. § [43-14-13\(k\)](#).
- (d) The following shall not be the responsibility of the installer unless contracted in writing by the homeowner and/or dealer/retailer and/or installer to provide for same:
 - 1. Skirting. When required by local jurisdiction and provided pursuant to contractual agreement, skirting shall be installed in accordance with the skirting manufacturer's instructions or Rule [120-3-7-.21\(13\)\(d\)](#) of these Regulations.
 - 2. Masonry curtain walls. Load bearing masonry curtain walls shall not be required by local jurisdictions for manufactured or mobile homes. Non-load bearing masonry curtain walls may be provided by contractual agreement between the homeowner, the dealer/retailer, and/or installer and shall be constructed in accordance with drawings and/or instructions provided in the manufacturer's installation manual, or instructions and other drawings or procedures approved by the Commissioner. Non-load bearing walls shall have no contact with the manufactured home or any portion thereof for the purpose of structural support.
 - 3. Stairs and landings. When required by local jurisdiction and provided by contractual agreement, stairs and landings shall be constructed in accordance with the provisions of the State Minimum Standard Building Codes which are enforced by local jurisdiction.
- (f) These installation requirements established by the Manufactured Housing Act are applicable only to manufactured and mobile homes as defined in O.C.G.A. § [8-2-131](#) and the Act.

Rule 120-3-7-.14. Inspections.

- (1) Local building code inspectors are authorized to make inspections of manufactured and mobile home installations to ensure compliance with O.C.G.A. § [8-2-160](#)*et seq.* and the Rules and Regulations promulgated thereunder. No political subdivision may adopt or enforce any requirement not consistent with these Rules and Regulations.
- (2) The authorized representatives of the Commissioner shall perform any inspections necessary to ensure compliance with O.C.G.A. § [8-2-160](#)*et seq.* The Commissioner or his or her specially appointed designee is the final authority on the correctness of the installation as prescribed in O.C.G.A. § [8-2-160](#)*et seq.* and the Rules and Regulations promulgated thereunder.
- (3) The Commissioner or his or her agent shall perform random inspections on installations performed by each installer each year. The inspections required by this section shall be independent of any requirements under subpart I of Part 3282 of the Manufactured Home Procedural and Enforcement Regulations of the National Manufactured Housing Construction and Safety Standards Act of 1974, [42 U.S.C. Section 5401](#)*et seq.*

Rule 120-3-7-.15. Reports of Manufactured and Mobile Home Installations.

- (a) Each installer licensee of manufactured and mobile homes shall report all installations performed to the Manufactured Housing Section of the Safety Fire Division no later than three business days prior to the completion of the installation and releasing the completed home set to the homeowner for occupancy, on the real-time form prescribed by the Commissioner. Reports submitted to the Commissioner shall also include the permit number as required to be placed on each manufactured or mobile home installed. Reports shall include an accurate reading from a torque probe test within two feet of each corner of the home, and the soil-bearing capacity determined by the installer, and used in the installation of the home's footers and piers. This Rule shall be applicable regardless of the number of installations performed. A report must be filed for each installation performed, regardless of whether the installation is a new home, or a secondary move.
- (b) The Commissioner may require each retailer/broker to submit reports of manufactured and mobile homes sold to consumers as he deems necessary.

Rule 120-3-7-.16. Literature.

At a minimum, the manufacturer's installation instructions and/or homeowners manual must be delivered by the dealer/retailer to the purchaser prior to occupancy of the new home. Signed acknowledgment of receipt of said literature and manual(s) by the consumer shall be obtained by the dealer/retailer at the time the literature is delivered to the consumer, and a copy of the receipt shall be mailed to the **Safety Fire Division** within 45 days of the date on the receipt.

Rule 120-3-7-.18. Installation Instructions.

(1) Installation instructions provided with manufactured homes must be followed for installation. These instructions are designed to be applicable when certain aspects of the manufacturer's installation instructions are not explicit, not stipulated or need clarification, or when the manufacturer's instructions indicate that the requirement may be left to the authority having jurisdiction. The Federal Manufactured Home Construction and Safety Standards Program (24 C.F.R. 3280, 3282 and 3283) requires that all manufactured homes be provided with installation instructions covering foundation, anchoring, utility connections, and other items. Such installation instructions shall be utilized and followed for the installation of all new manufactured homes. Previously occupied manufactured homes and mobile homes which do not have manufacturer's installation instructions shall be installed according to requirements herein. The term mobile home shall be synonymous with the term manufactured home when used herein. Manufactured homes located within rental communities shall not be required to have poured concrete or permanent foundations.

(2) Definitions:

- (a) Anchoring Equipment: Straps, cables, turnbuckles and chains, including tensioning devices, that are used with ties to secure a manufactured home to ground anchors;
- (b) Anchoring System: A combination of ties, anchoring equipment and ground anchors that will, when properly designed and installed, resist the overturning of the home or the moving of the home sideways by wind;
- (c) Footing: That part of the support system that sits directly on the ground at, below or partly below grade to support the piers;
- (d) Ground Anchor: A device at the manufactured home stand designed to transfer manufactured home anchoring loads to the ground;
- (e) Pier: That portion of the support system between the footing and the manufactured home, exclusive of caps and shims. Types of piers include, but are not limited to, the following:
 - 1. Manufactured steel stands;
 - 2. Manufactured concrete stands;
 - 3. Concrete blocks;
 - 4. Other approved or listed equivalent.
- (f) Radius Clips: Means or method to protect strapping from sharp edges during loading.

- (g) Site, Manufactured Home: A parcel of land designed and designated for the location of one manufactured home, its accessory buildings or structures, and accessory equipment for exclusive use of the home;
- (h) Stabilizing Devices: All components of the anchoring and support systems such as piers, footings, ties, anchoring equipment, ground anchors, or any other materials and methods of construction which support and secure the manufactured home to the ground;
- (i) Stand, Manufactured Home: That area of a manufactured home site which has been reserved for placement of a manufactured home;
- (j) Support System: A combination of footings, piers, caps and shims that will, when properly installed, support the manufactured home;
- (k) Tie: Strap, cable or securing device used to connect the manufactured home to ground anchors;
- (l) Vertical Tie: A tie intended to resist the uplifting and overturning forces.

(3) Foundation Systems for New Manufactured Homes.

- (a) A manufactured home foundation system is one constructed in accordance with the foundation system included in the manufacturer's installation instructions.
- (b) The manufacturer or homeowner shall be permitted to design for unusual installation not provided for in these regulations or in the manufacturer's standard installation directions provided the design is approved in writing by a licensed professional engineer or architect and a copy provided to the Manufactured Housing Section of the Safety Fire Division.
- (c) The manufacturer's instructions include a typical foundation system designed by a registered professional engineer or architect to support the anticipated loads specified in the manufacturer's installation instructions for the design zone (including climate) of installation, and shall be deemed to meet the requirements of these regulations. These instructions shall be provided to the homeowner as required by Rule 120-3-7-.18.

(4) Foundation Systems for Previously Owned Manufactured Homes.

- (a) Foundation systems for previously owned manufactured homes shall be according to requirements contained herein. Previously occupied manufactured homes can be installed according to manufacturer's installation instructions if available.

- (b) Subparagraph (7) contains information for the design of manufactured home foundation systems which meet the minimum criteria established in this regulation.
- (c) The manufacturer or homeowner shall be permitted to design for an unusual installation not provided for in the manufacturer's installation instructions, or these Regulations, provided that the design is approved in writing by a licensed professional engineer or architect and a copy sent to the Manufactured Housing Section of the Safety Fire Division and the manufacturer.

(5) Stabilizing Devices and Design.

- (a) Each new or previously owned manufactured home being installed on a manufactured home stand shall have stabilizing devices and shall be installed on a foundation constructed in accordance with the manufacturer's installation instructions for new manufactured homes or standards included within these regulations for previously occupied manufactured homes.
- (b) Stabilizing devices not provided with the manufactured home shall be listed or labeled to meet or exceed the design and capacity requirements of the manufactured home manufacturer's installation instructions and these regulations.

(6) Anchoring.

- (a) Each manufactured ground anchor shall be listed and installed in accordance with the terms of its listing and the anchor manufacturer's instructions and shall include means of attachment of ties meeting the requirements of the manufacturer's installation instructions for new manufactured homes or subparagraph (6)(h) of these regulations for previously occupied manufactured homes.
- (b) Ground anchor manufacturer's installation instructions shall include tensioning adjustments which may be needed to prevent damage to the manufactured home.
- (c) Each ground anchor shall have the manufacturer's identification and listed model identification number marked thereon so that the number is visible after installation.
- (d) Instructions shall accompany each listed ground anchor specifying the types of soil for which the anchor is suitable under the requirements of Section E.
- (e) Ground anchors, including means for attaching ties, shall be located to effectively match the anchoring system instructions provided by the manufactured home manufacturer, or for previously occupied manufactured homes, in accordance with the requirements of this section.

(f) Concrete slabs or footings: If concrete slabs or continuous footings are used in lieu of ground anchors to transfer the anchoring loads to the ground, steel rods cast in concrete, or deadman, or concrete anchors shall be required and shall be capable of resisting loads as specified in subparagraph 6)(g)1.

(g) Anchors:

1. Capacity of Anchors: Each approved single head ground anchor, when installed, shall be capable of resisting an allowable working load at least equal to 3,150 pounds, plus a 50% overload (4,725 pounds), without failure when pulled in the direction of the tie. Anchors designed for connection of multiple ties shall be capable of resisting the combined working load and overload as outlined in this Section. Anchor type and size to be determined by soil probe test. Probe test must be performed within 2 feet of each corner of unit.
2. Anchoring Equipment: Anchoring equipment shall be capable of resisting an allowable working load equal to or exceeding 3,150 pounds and shall be capable of withstanding a 50% overload (4,725 pounds) without failure of either the anchoring equipment or the attached point on the manufactured home. When the stabilizing system is designed by a qualified registered professional engineer or architect, alternative working loads may be used provided the anchoring equipment is capable of withstanding a 50% overload. All anchoring equipment shall be listed or labeled as being capable of meeting all the requirements of this section.
3. Selection of Helical Anchors: Anchor selection shall be based on a determination of the soil class at the depth the anchor helical plate will be installed.
4. Other Anchoring Devices: Other anchoring devices meeting requirements of this section shall be permitted if acceptable to the Manufactured Housing Section of the Safety Fire Division.
5. Depth of Anchors: All anchors shall be installed to the full depth shown in the anchor manufacturer's installation instructions.
6. Anchors installed in line with the pull must be of sufficient additional length to compensate for loss of depth.
7. Anchors are to be placed within 2 feet of each end of each section in Zone I and II. In addition:
 - (i) Zone I anchors must be placed 8 feet on center maximum along the length of both exterior sidewalls.

- (ii) Zone II anchors must be placed 6 feet on center maximum along the length of both exterior sidewalls.
 - (iii) Both Zone I and II must have two longitudinal ties and anchors at each end of each section attached to the main "I" Beams. For pier heights exceeding 49 inches, anchors must be strapped to both "I" Beams. NOTE: Zone II homes produced since July 1994 must have vertical ties at each diagonal tie location.
- 8. Anchor length and/or type must be determined by probe testing all four corners, within two feet of corners. Results may be averaged and used to determine anchors based on the anchor manufacturer's installation and/or user manual requirements.
 - 9. Approved alternate systems of anchoring may be used when proof that the manufacturer has approved such systems is provided.

(h) Ties:

- 1. Strappings or other approved methods or materials shall be used for ties. All ties shall be fastened to ground anchors and drawn tight with turnbuckles or other adjustable tensioning devices or devices supplied with the ground anchor. Strapping must be protected at sharp edges with radius clips. NOTE: Splicing for vertical ties only; overlap strap 12 inches minimum with two clips (one facing each way), double crimp each clip with proper crimping tool.
- 2. Tie materials shall be capable of resisting an allowable working load of 3,150 pounds and shall withstand a 50% overload (4,725 pounds total). Ties shall comply with [24 CFR 3280.306](#).
- 3. Ties shall connect the ground anchor to the top portion of the main structural steel frame (I-beam or other shape) which runs lengthwise under the manufactured home. Ties shall not connect to steel outrigger beams which fasten to and intersect the main structural frame unless specifically stated in the manufacturer's installation instructions.
- 4. Number of Ties: The minimum number of ties per side for various lengths of manufactured homes in Wind Zone I and Wind Zone II shall be in accordance with subparagraph (g).
- 5. Location of Ties: When continuous straps are provided as vertical ties, such ties shall be positioned at rafters and studs. Where a vertical tie and diagonal tie are located at the same place, both ties shall be permitted to be connected

to a single ground anchor, provided that either the anchor used is capable of carrying both loadings, or that the load capacity of the total number of anchors used is equal to 3,150 pounds working load plus 50% overload (4,725 pounds) times the number of ties specified in subparagraph (g).

6. Shearwall and/or other provided ties and/or brackets must be anchored with same anchor as probe test results required for remainder of home.
 7. When longitudinal brackets are provided, strapping material and anchors as described in Subparagraph (g) must be installed.
 8. Special Ties: Clerestory roofs and add-on sections of expandable manufactured homes shall have provisions for vertical ties at the exposed ends. When not originally installed by manufacturer, over-the-roof or vertical ties shall not be required for manufactured homes constructed with "A"Line and shingle roofs.
 9. Alternate Method Using Cable Ties: Connection of the cable frame tie to the manufactured home I beam or equivalent main structural frame member may be by a 5/8 drop-forged closed eye bolt through a hole drilled in the center of the I-beam web or other approved methods. The web shall be reinforced if necessary to maintain designed I-beam strength. Cable ends shall be secured with at least three (3) U bolt-type cable clamps with the U portion of the clamp installed on the short (dead) end of the cable to assure strength equal to that required by Section E(8).
 10. Tensioning Device Design: Tensioning devices such as turnbuckles or yoke-type fasteners shall be ended with a clevis or forged or welded eyes.
 11. Permanency of Connections: Anchoring equipment shall be designed and installed to prevent self-disconnection, lateral deflection or failure.
- (i) Resistance to Weather Deterioration: All portions of the anchor which are exposed to weathering shall have a resistance to weather deterioration. The remainder of the anchoring equipment shall have resistance at least equivalent to that provided by a coating of zinc on steel of not less than 0.30 ounces per square foot on each side of the surface coated, as determined by ASTM Standard Methods of Test for Weight of Coating on Zinc-Coated (Galvanized) Iron or Steel Articles (ASTM A90-81).

(7) Foundation Standards.

- (a) Unless the entire support system is designed by a professional engineer or architect, the support system shall be designed in accordance with this standard.

- (b) Footings shall be sized to support the loads shown in the manufacturer's instructions. Where no manufacturer's instructions are available, subparagraph (7) shall apply.
- (c) All grass and organic material shall be removed from the pier foundation location(s), and the pier foundation placed on stable soil at a depth sufficient to protect the footings from the effects of frost heave. For purpose of the installation of a manufactured or mobile home in the State of Georgia, all footers must be protected from the effects of frost heave. When properly designed by a registered professional engineer, a "floating slab" system may be used above the frost line. The design shall accommodate the anchorage requirements identified within this regulation and/or the manufacturer's installation instructions.
- (d) The pier foundation shall be a 16"x16"x4" solid concrete pad, precast or poured in place, or other approved methods/materials. Where poured concrete foundations are required by local authority for multiple section homes, the footing size shall be 24"x24"x6" filled with poured concrete, or other approved materials/methods. Concrete in footings shall have an ultimate compressive strength of not less than 2500 psi at 28 days. Footer size may vary on piers used with alternate anchoring systems, when installed per system manufacturer's instructions, and marriage wall piers as required by manufacturer's instructions.
 - 1. For the purpose of installing a manufactured/mobile home in the State of Georgia . The bases of concrete or other pad types are to be placed at or below the frost line. Other types of footings such as pans, domes, or open pans are to be placed with the topmost point that serves as the base set at or below the frost line, so as to avoid the effects of frost heave. The frost line in the State of Georgia is determined to be:
 - (i) 4" for the following counties and all counties to the north of these counties: Troup, Meriwether, Pike, Lamar, Monroe, Jones, Baldwin, Washington, Jefferson, and Burke;
 - (ii) 2" for the following counties and all counties to the south of these counties: Harris, Talbot, Upson, Crawford, Bibb, Twiggs, Wilkinson, Johnson, Emanuel, Jenkins, and Screven.
- (e) Footings or pier foundations (unless approved by a registered professional engineer) when required, shall be placed level on firm undisturbed soil or on controlled fill which is free of grass or organic materials to minimum load-bearing capacity of 1000 psf.
- (f) Piers and Spacing:
 - 1. Piers or load-bearing supports or devices shall be designed and constructed to evenly distribute the loads.

2. Double piers are to be placed within 2 feet of each end of each main I-beam, and remaining piers spaced no more than 6 feet on center for the remaining length of each main I-beam.
3. Piers are to be placed on each side of exterior wall opening 4 feet wide or greater (footers at these openings may be 4"x 8"x 16", or equivalent product).
4. Piers shall be placed on each side of exterior door opening (footers may be 4"x 8"x 16", or equivalent). Openings for endwalls with full headers or cross members do not require piers and footings for the openings.
5. The marriage line of multiple section manufactured homes shall be supported by piers spaced no more than 20 feet apart and shall have piers located within 2 feet of each end of the home, under the marriage line, in conjunction with these piers, piers must be placed at each end of openings 6 feet wide or more. Marriage line piers must support both marriage line floor rails. Footers must be a minimum of 16"x 16"x 4" or equivalent.
6. Load-bearing supports or devices shall be listed or approved and shall be designed by a registered professional engineer or architect and shall be approved for the use intended or piers shall be constructed as follows:
 - (i) Piers less than 40 inches in height shall be constructed of open or closed cell, 8 inch by 16 inch, concrete blocks with open cells vertically placed upon the footing. The pier shall be covered with a 2 inch by 16 inch by 8 inch wood or nominal concrete plate.
 - (ii) Piers between 40 inches and 80 inches in height and all corner piers shall be double blocked with blocks interlocked and capped with a 4 inch by 16 inch by 8 inch solid concrete block or equivalent or 2 inch by 8 inch nominal pressure treated wood or hardwood covering the cell area.
 - (iii) Piers over 80 inches in height must be designed and approved by a registered professional engineer.
 - (iv) Steel piers, or other approved piers, when used, shall be in compliance with subparagraph (6)(i) after fabrication to provide corrosion protection.
 - (v) Load bearing and non-load bearing walls constructed on site shall be constructed of concrete, masonry, pressure treated wood or any other approved material or system. Minimum thickness shall be that

required to resist lateral pressure from adjacent earth and support design loads as determined by acceptable engineering practice.

- (vi) Plates, Shims and Wedges: Nominal 2"x 8"x 16" pressure treated wood, hardwood, 4" concrete caps or the equivalent, shall be placed on top of the pier for the purpose of a top plate. Plate must cover cell area in both single or double stack blocks. Any gap between the top plate and the I-beam frame may be filled with pressure treated wood or hardwood, nominal minimum size of 8"x 4"x 1", fitted and driven tight. Wedges shall not occupy more than one inch of vertical space and shall be at least 3" wide and 6" long, fitted from both sides and driven tight together between the I-beam and plate or shim. Wood and wedges may occupy no more than 4" of the space between the pier and main frame.

(8) Placement of Manufactured Homes.

- (a) Clearance Under Homes: A minimum clearance of 12 inches shall be maintained beneath the lowest member of the main frame (I-beam or channel-beam) in the area of utility connections. No more than 25% of the underside of the main frame of the home shall be less than 12 inches above grade.
- (b) Elevated Manufactured Homes: When the manufactured home is installed on a basement or split entry type foundation over a habitable lower-level area, the foundation system shall be designed by a registered professional engineer or architect.

(9) Ventilation of Manufactured Homes.

- (a) Ventilation of Underfloor Areas:
 - 1. Provisions shall be made to minimize condensation in underfloor areas through ventilation openings or other suitable means. A 6 mill poly vapor barrier, or equivalent, must be placed on the ground area in the crawl space. A minimum of 90 percent of the ground area must be covered, not to include area under footers.
 - 2. If combustion air for heat-producing appliance(s) is taken from within the underfloor areas, ventilation shall be adequate to assure proper operation of the appliance(s). This requirement shall take precedence over the provisions of subparagraph (9)(a)1. Note: This is in addition to the crawl space requirement.

3. A minimum of four ventilation openings totaling no less than four square feet of net free vent area, must be provided. One shall be placed at or near each corner as high as practicable. Crawl space ventilation net free requirement shall be calculated as follows:

$a=A/1500$ where:

A=the area of the crawl space, square foot a=the total net free vent space.

If the manufacturer's installation instructions require additional vents or openings, the manufacturer's instructions shall apply.

4. Openings shall provide cross ventilation on at least two opposite sides. The openings shall be covered with corrosion resistant wire mesh not less than 1/8 inches, and not more than 1/2 inches in any dimension or with screened louvered openings to retard entry of dry vegetation, waste materials, or rodents. As an option to individual vents, ventilation can be provided by means of vinyl material which has openings for air ventilation as provided in the minimum requirements above.
- (b) Intake air for ventilation purposes shall not be drawn from underfloor spaces of the home.
 - (c) Moisture producing devices, such as dryers, shall be vented to the atmosphere in such a manner to insure that moisture laden air is carried beyond the perimeter of the home.
 - (d) Skirting: Skirting, if used, shall be installed in accordance with the manufacturer's installation instructions. It shall be secured, as necessary, to assure stability, to minimize vibrations, to minimize susceptibility to wind damage, and to compensate for possible frost heave. Access opening(s) not less than 18 inches in any dimension and not less than 3 square feet in area shall be provided to allow for access and inspection of the home. Such access panel(s) or door(s) shall not be fastened in a manner requiring the use of a special tool to remove or open same. On-site fabrication of skirting shall meet the venting requirements of subparagraph (9)(a).
- (10) Maintenance of Anchoring Systems: The homeowner shall be advised that tie tension should be checked and adjusted when necessary.
 - (11) Plumbing.
 - (a) Each manufactured home site shall be provided with a water supply and sewer located and arranged to permit attachment to the manufactured home in a workmanlike manner.

- (b) When the entire system has been completed, install permanent drain line supports at 4' on center.
- (c) Proper slopes and connector sizes: Drain lines must slope at least 1/4" fall per foot of run. EXCEPTION: 1/8" fall per foot is allowed when a clean out is installed at the upper end of the run. Connect the main drain line to the site sewer hookup. Plumbing drain lines must be supported so as to slope at least 1/4" fall per foot of run or 1/8" fall per foot of run when full-size clean out is located in upper end of line.

(12) Manufactured Home Electrical Connections.

- (a) When a manufactured home consists of two or more sections, all electrical connections from one section to another shall be installed in accordance with the manufacturer's installation requirements. In the absence of manufacturer's instructions, electrical connections shall be made in accordance with the National Electrical Code.
- (b) Manufactured homes may have the service equipment mounted on or in the unit provided such units comply with all of the following conditions:
 - 1. Installed on a private or owner's lot;
 - 2. Permanent utility connections provided;
 - 3. Located on a properly constructed foundation;
 - 4. Unit is properly anchored and tied down;
 - 5. Unit is constructed in accordance with HUD Construction Standards;
 - 6. Service equipment complies with Article 230 and 250 of the Georgia (National) Electrical Code.
- (c) All manufactured home utility services shall be connected to the supply sources with only approved materials.
- (d) When a manufactured home is designed to have a meter mounted on home, the electrical service supply is allowed to be installed directly on the home subject to compliance with subparagraph (12)(b), above.
- (e) Temporary Electrical Service: The authority having jurisdiction shall allow for temporary electrical service for the installation of the manufactured home when the home consists of two or more sections.

(13) Retail Display.

- (a) All manufactured homes and mobile homes displayed for retail sales on dealership or retailer lots shall be stabilized to such a degree as to not allow damage to occur while the home is on display.
 - 1. Piers for multi-section homes shall consist of a minimum of twelve (12) piers and shall be located one under each I-beam in the front of each axle area and at each end of the manufactured home.
 - 2. Piers for single section homes shall consist of a minimum of six (6) piers one located under each I-beam at each end of the home and in front of the axle area.
- (14) Sites Prone to Flooding. Special elevations and anchoring techniques are required when locating a home in an area prone to flooding. Consult an engineer and the local building official to make sure that the design and construction of the foundation system conform to applicable federal, state, and local codes and regulations. The Federal Emergency Management Agency (FEMA) publication FEMA 85, "Manufactured Home Installation in Flood Hazard Areas," contains design and anchoring systems that will allow the foundation system to resist flood forces. This publication is available from FEMA, Washington, DC 20472. Further information may be obtained from the Manufactured Housing Section of the Office of the Insurance and Safety Fire Commissioner. In areas where a community meets the eligibility requirements for the National Flood Insurance Program, the local jurisdiction having authority shall have the authority to change, delete or modify these regulations in order to comply with the National Flood Insurance Program created by the National Flood Insurance Act of 1968, as amended and/or Rules and Regulations of FEMA addressing the installation of manufactured and mobile homes in areas subject to flooding.
- (15) Additional Installation Requirements for Previously Owned Multi-Section Manufactured Homes and Mobile Homes. The floor sections, roof sections and wall sections are to be fitted together tightly. Connections must be sufficiently sealed to prevent air infiltration. Connection of multi-section manufactured homes and mobile homes (two or more sections), when manufacturer's installation instructions are not available shall be as follows:
 - (a) Floor Connection: All floors of multi-section manufactured homes and mobile homes shall be securely fastened together with 5/16 inch lags 4 inches long and 16 inches on center entire length of home. All sections shall be leveled and aligned making sure the floors are even on top.
 - (b) Roof and Ridge Beams: All roof and ridge beams of multi-section manufactured homes and mobile homes shall be securely fastened together.
 - 1. Metal roof connections to be minimum 30 gauge galvanized metal, 12 inches wide, fastened with #8 x 1 1/4 screws minimum, at 4" on center around perimeter of the entire length of the cap.

2. Wood/shingle roofs fastened with one of the following options:
 - (i) Minimum 30 gauge galvanized metal, 10 inches wide by length of roof. Fastened with minimum 1 1/2" fasteners at 4 inches on center along entire perimeter of the cap.
 - (ii) Minimum 5/16 inch by 6 inch lag screws 16 inches on center, entire length of roof.
 - (iii) 1 1/2 inch by 12 inch 26 gauge galvanized metal straps placed within 2 feet of each end and 8 feet on center entire length of units, fastened with # 8 x 1 1/2 inch screws, 5 each side of ridge joint.
- (c) End Walls: End walls of multi-section manufactured homes and mobile homes shall be securely fastened together.
 1. Minimum #8 screws 8 inches on center entire height of end walls, with minimum of 1 inch penetration into the receiving member. If toe screw method is used, must have 1 1/2 inch penetration.
 2. 1/4 inch lag screws 24 inches on center with minimum 1 1/2" penetration into receiving member.
 3. 1 1/2" galvanized strapping placed 12 inches on center, entire height of stud, fastened with #10 nails minimum 2 each end of strap.
 4. Siding and trim pieces are to be installed at the connection of the sections.
- (d) Roof Covering: The joints at the ridge of the roof shall be secured and weather tight.
- (e) Plumbing drain lines must be supported off the ground. Unless specified in other sections of this Rule, all lines under the manufactured home shall be supported every 4' on center.
- (f) Crossover, heating, and other ducts: Heating and duct work is to be connected for proper heating/cooling operation.
 1. Securely connect each end of the crossover duct underneath each section to the dropout connection;
 2. Wrap/cover all seams and joints with approved UL181 tape or equivalent;
 3. Wrap or cover exposed metal with insulation to reduce heat loss;

4. Strap and support crossover duct 4 feet on center minimum. Duct must be supported off the ground.

(16) Miscellaneous.

- (a) Where the means of egress from a manufactured home is not substantially level, such differences in elevation shall be negotiated by stairs or ramps. (Not applicable to egress windows.)
- (b) Auxiliary Structures: All auxiliary structures (such as porches, decks, awning, cabanas, stairs, etc., unless provided and approved by the manufacturer) shall be entirely self-supporting, unless designed and approved by a professional engineer or registered architect. All such structures shall be constructed in accordance with the Georgia State Building Codes or local authority having jurisdiction.

Rule 120-3-7-.19. Compliance With Rules and Regulations; Penalties.

- (1) All persons who engage in activities covered by this Regulation, the Manufactured Homes Act, the Act and Rules and Regulations promulgated thereunder shall do so in conformity therewith. After notice and hearing as provided in accordance with this Regulation, any person who is found to have violated any of the Rules contained in this Chapter shall be subject to the penalties authorized in O.C.G.A. §§ [8-2-130](#) et seq., [8-2-160](#) et seq., and [25-2-37](#), and as may otherwise be authorized by law.
- (2) Procedures to enforce these provisions shall include, but not be limited to, the following:
 - (a) Any person who is in violation of any of these Rules shall be subject to the issuance of an Order to become effective at a later date, subject to the person's right to request a hearing within ten (10) days after that person's receipt of such Order, imposing a fine, suspension, probation not to exceed 12 months, or revocation of licensure.
 - (b) Any person who is in violation of any of these Rules shall be subject to the issuance of an Order requiring said person to appear before him, then and there to show cause, if any there be, why the Commissioner should not impose a fine, suspension, probation not to exceed 12 months, or revocation of licensure.

- (3) Nothing in subparagraph (2), above, shall be construed so as to invalidate the Commissioner's authority to take any action authorized in O.C.G.A. §§ [8-2-130](#) et seq., 8-2-160 et seq., and 25-2-37, and as may otherwise be authorized by law and by these Rules and Regulations, as stated in subparagraph (1), above.

Rule 120-3-7-.20. Forms.

- (1) Unless otherwise indicated, and to the extent provided, each filing required under this Regulation Chapter is to be made on forms or electronic format obtained from the Commissioner.
- (2) Forms may be reproduced and the format of the forms may be altered to accommodate manual or automated processing provided the content is unchanged and the same information is presented in the same order as in the forms or electronic format obtained from the Commissioner.
- (3) Any form filed electronically requiring a signature shall contain the electronic signature of the person filing the form, as defined in O.C.G.A. § [10-12-3](#).
- (4) The Commissioner may approve a method or methods of electronic filing.

Subject 120-3-8. RULES AND REGULATIONS FOR THE PUBLIC PROTECTION CLASSIFICATION (PPC) APPEAL PROCESS.

Rule 120-3-8-.01. Public Protection Classification Appeal Process.

1. Any Georgia State Fire Department certified under Georgia State Firefighter Standard and Training Council may, after being evaluated by ISO and assigned a fire suppression rating, appeal their Public Protection Classification (PPC) Rating. The appeal form can be obtained online or by contacting the Office of Commissioner of Insurance and Safety Fire. The appeal must be in writing. The appeal must be submitted to the Office of Insurance and Safety Fire no later than 30 calendar days from the day ISO issues the PPC Rating.
 - a. The appeal must cite the specific section challenged from the rating categories and a written explanation of the reasons the Fire Department disputes their rating.
2. The Georgia State Insurance Commissioner shall appoint the Georgia State Fire Marshal, or his designee, to review the appeal. The State Fire Marshal shall contact the assigned ISO PPC Rating official and the Fire Department Chief submitting the appeal. The State Fire Marshal shall consider all evidence and statements provided by the rating official and the Fire Department Chief and if necessary, request independent inspection or testing of any disputed facts at the appealing agency's expense. The State Fire Marshal will submit a written conclusionary report of these findings and any adjustments to the PPC to the Commissioner no later than 30-calendar days from the submission date of appeal.
3. The Commissioner shall appoint members to the Georgia PPC Appeal Board, consisting of 7 Fire Department Chiefs and 2 Georgia Licensed Insurance Officials. If both the Fire Department Chief and the rating official disagree with the State Fire Marshal's conclusionary report, the appeal will be forwarded to the Georgia PPC Appeal Board.
 - a. The Commissioner will designate one official as Chairman and one official as secretary.
 - b. The Chairman will be responsible for calling the meeting to order and allowing involved parties adequate time to present their appeal and for the ISO PPC Representative to respond.
 - c. The Secretary will be responsible for selecting and scheduling a hearing date at the Office of Commissioner of Insurance and Safety Fire and notifying all parties in writing of the hearing date and location.
 - d. Upon conclusion of the hearing the Chairman will forward a report to the Commissioner with the Georgia PPC Appeal Board's findings and recommendations. The State Fire Marshal shall forward the Georgia PPC Appeal's Board's findings and any recommended adjustments to the PPC Rating to the appealing entity, the ISO rating official, and the Commissioner.

Subject 120-3-9. RESERVED.

Subject 120-3-10. RULES AND REGULATIONS FOR EXPLOSIVES AND BLASTING AGENTS.

Rule 120-3-10-.01. Promulgation and Purpose.

- (1) These Rules and Regulations for Explosives and Blasting Agents are promulgated and adopted by the Georgia Safety Fire Commissioner as contemplated by and pursuant to authority set forth in O.C.G.A. Sections [25-2-4](#), [25-2-17](#), and [25-8-9](#). The manufacture, possession, transportation, distribution or use of explosives within the State of Georgia except as provided in these Rules and as provided in Chapter 7 of Title 16 of the Official Code of Georgia Annotated is a criminal offense and violators shall be subject to criminal prosecution and forfeiture of property as well as administrative penalties as provided in these Rules.
- (2) The purpose of these Rules and Regulations is to prevent the loss of life, injury of persons, and loss or damage to property in the handling, use, manufacture, storage, and transportation of explosives and blasting agents. These Rules and Regulations supersede former Rules and Regulations promulgated by the Georgia Safety Fire Commissioner pertaining to explosives and blasting agents when such are in conflict with these Rules and Regulations.

Rule 120-3-10-.02. Definitions.

The definitions contained herein are in addition to or in clarification of those contained in the adopted standards.

- (1) "Applicant" is any person representing or affiliated with the owner of a facility that requires the possession or use of explosives.

- (2) "Authority Having Jurisdiction" means the State Fire Marshal of Georgia or his/her designee.
- (3) "Blasting Operation" means the use of explosives in the blasting of stone, rock, ore, or any other natural formation or in any construction or demolition work, but shall not include the use of explosives in agricultural operations and private and personal use of explosives in remote areas for such operations as ditching, land clearing, destruction of beaver dams and other such operations when not within a 750 feet of a roadway or inhabited structure.
- (4) "Blasting Report" is a report that includes the requirements of O.C.G.A. Section [25-8-8](#) and meets the requirements of [120-3-10-.06](#).
- (5) "Bulk storage" means storage of any explosive materials or blasting agents.
- (6) "Commissioner" means the Georgia Safety Fire Commissioner.
- (7) "Competency Card" means the picture identification card issued by the State Fire Marshal establishing an individual's competency in a chosen field of blasting or other use of explosives.
- (8) "DOT" means the United States Department of Transportation.
- (9) "GPSC" means the Georgia Public Service Commission.
- (10) "Individual" means any person, firm, business, partnership, organization, association, corporation, or individual.
- (11) "License" or "Explosives License" means the written authority of the State Fire Marshal, issued pursuant to these rules and regulations to manufacture, possess, store, sell, use, or transport explosives and blasting agents and is required by any person who manufactures, buys, sells, possess, stores, uses, or transports explosives.
- (12) "Licensed Blaster" is a person who through training and experience is qualified to supervise blasting activities in a specific field of blasting and possesses a Level III Competency Card.
- (13) "Manufacturing" means mixing, blending, extruding, assembling, disassembling, chemical synthesis, and other functions involved in making a product or device that is intended to explode.
- (14) "Permit" or "Explosives Permit" means the written authority of the judge of the probate court or designated elected county official, issued pursuant to these regulations to purchase for use, and use only, of a designated amount of explosives. A permit is a single or one-time transaction authorization and may not be used for repeated purchase or for a location other than that specified on the permit.

- (15) "Responsible Person" means the individual or individuals, designated on an explosive license application, that possess, store, or transport explosives and are approved by the State Fire Marshal's Office to engage, under the direct supervision of an explosives license holder, in any use of explosives.
- (16) "Smokeless Propellant" means the propellant referred to in NFPA 495 (2018 Edition) as solid propellants, commonly referred to as smokeless powders, used in small arms ammunition, cannons, rockets, or propellant-actuated devices.

Rule 120-3-10-.03. Administration.

- (1) Requirements for License or Permit
- (a) A License issued by the State Fire Marshal shall be required for the following:
1. For the manufacture of any explosives and blasting agents.
 2. To purchase, to offer for sale, sell, give away or otherwise convey, transport, store, possess, or use (except as authorized for use under a Permit) any explosives or blasting agents, including commercial stocks and the commercial use of smokeless propellant, black powder, and small arms primers.
 3. To maintain any facility for unloading, reloading, or transshipment of explosives or blasting agents.
- (b) Any individual that is issued a license pursuant to these Rules and Regulations is not exempt from obtaining any other license or permit that may be required by other government agencies.
- (c) A Permit issued by the judge of the probate court or designated county official shall be valid under the following conditions:

1. A Permit shall be valid only for personal use and shall not be issued to individuals to conduct commercial blasting or blasting for profit. Commercial blasting or blasting for profit activities requires a license issued by the State Fire Marshal's Office.
2. A Permit shall be valid only for a single transaction and shall only be used in the county where the permit is issued.
3. A Permit shall be valid only for a single transaction and does not authorize storage or transportation. All explosives listed on the Permit must be purchased at one time and used on the day of purchase or returned to the vendor the same day.
4. Explosives purchased under a Permit shall be transported only by an explosives license holder authorized for the transportation of explosives.

(d) The following shall be exempt from License or Permit requirements:

1. Any person may purchase without license or permit and keep on hand for their personal use smokeless propellant powder and small arms primers for hand loading small arms ammunition.
2. All persons or entities moving explosives and blasting agents under the jurisdiction of the Federal Department of Transportation.
3. All members and organizations of the armed forces of the United States or of this state or any of the several states and personnel assigned or attached to such agencies when acting in an official capacity.
4. All law enforcement, fire services and emergency management and regulatory agencies of this State, the United States or any of several states and personnel assigned or attached to such agencies when acting in their official capacity.
5. All persons or entities using explosive materials in medicines and medicinal agents in forms prescribed by the most recent edition of the official United States Pharmacopoeia or the National Formulary.
6. Any individual, who is otherwise authorized to possess explosives pursuant to Article 4 of Chapter 7 of Title 16 of the Official Code of Georgia Annotated, may transport explosives within the State of Georgia without license or permit required by these Rules provided that the point of origin of the shipment was outside the State of Georgia and the transportation of such explosives is in compliance with the regulations governing the

transportation of explosives issued by the United State Department of Transportation.

7. Any individual, who is otherwise authorized to possess explosives pursuant to Article 4 of Chapter 7 of Title 16 of the Official Code of Georgia Annotated, may purchase and possess for sporting, recreational or cultural purposes:
 - (i) Not more than 50 pounds of commercially manufactured black powder,
 - (ii) Percussion caps, safety and pyrotechnic fuses, quills and slow matches, or friction primers.

(2) License and permit fees:

- (a) License fees and Permit fees shall be in accordance with Chapter 2 of Title 25 of the Official Code of Georgia annotated, Section [25-2-4.1](#), and shall be attached to the application and made payable to the Commissioner.

(3) Application for License, Competency Certificate or Permit:

(a) Application for License:

1. The applicant for a license shall, at his or her own expense, furnish the State Fire Marshal with such information as the State Fire Marshal may require.
2. Any Applicant requesting a license shall make application in an approved format to the State Fire Marshal. The Applicant will designate the Responsible Persons in the application.
3. An application to transport, or which includes transportation of explosives and blasting agents, shall be accompanied by an affidavit that the vehicles to be used to transport have been inspected by a qualified person and found to be in safe condition and in compliance with these regulations. Such inspection may be performed by a certified mechanic, an automotive repair or service garage or similarly recognized inspection stations.
4. An application for license for all permanent explosives storage facilities having quantities exceeding 500 pounds shall be accompanied by complete plans and specifications. Plans and specifications shall be submitted in duplicate to and receive approval by the State Fire Marshal before installation is started. Such plans shall be drawn to scale and be of sufficient detail and clarity as necessary to indicate the nature and character of the proposal and its compliance with this Chapter. One set of the plans shall be

retained by the State Fire Marshal and one copy shall be returned to the applicant with the approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the construction site for inspection by authorized representatives of the State Fire Marshal. Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans shall be accompanied with the mandatory plan review fee payable to the Commissioner. The plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Safety Fire Commissioner or his designee.

5. An applicant for a license or for designation as a Responsible Person shall be subject to the following conditions:
 - (i) Shall be subject to a criminal records check.
 - (ii) Shall not have been convicted of a felony.
 - (iii) The Responsible Person shall submit a negative drug screen.
6. An applicant for a license or for designation as a Responsible Person must be 21 years of age and shall not be addicted to the use of, have a history of, or be under the influence of intoxicants, narcotics, controlled substances or other dangerous drugs.
7. Responsible Persons shall provide information to indicate that they have training experience and/or a working knowledge of the safe use of explosives.
8. All applicants for a license or for designation as Responsible Persons shall certify that they are familiar with Chapter 120-3-10 of the Commissioner's Rules and Regulations and NFPA 495.
9. All Applicants for a license shall provide documentation of explosives licenses issued by federal authorities, such as the Bureau of Alcohol, Tobacco and Firearms, or by other states.
10. All Applicants for a license shall list on the application the field(s) of blasting or other use of explosives in which the licensee is to engage. All commercial explosive licenses to use explosives will be issued by the Commissioner in the following specified field(s):
 - (i) Construction,
 - (ii) Surface Mining,

(iii) Underground Mining.

(iv) Special Effects

11. All Responsible Persons shall submit to the Commissioner a notarized certification denoting the specific explosive/blasting field in which he or she has successfully been trained or certified.

12. All Responsible Persons shall obtain, and subsequently retain, a "Competency Card" issued by the Commissioner. The "Competency Card" issued by the Commissioner shall clearly state the blasting field or fields in which the licensee for Responsible Person has been licensed or approved to perform. There will be four levels of certification recognized by the State Fire Marshal's Office.

(i) Level I - Entry level that includes laborers and Bulk Truck Drivers requiring background check and drug testing.

(ii) Level II - Meet Level I requirements and completion of approved curricula.

(iii) Level III - Meet Level II requirements and three years experience in a specific field of blasting.

(iv) Special Effects - Requires that the applicant provide evidence of actual experience in the safe handling and use of explosives for the purpose of creating audible and visual effects for the entertainment industry. This level shall not authorize the use of explosives, fireworks, or pyrotechnics before a proximate audience or within any building or structure. The use of any explosives, fireworks, or pyrotechnics before a proximate audience or within any building or structure requires a license issued pursuant to Rules and Regulations of the Safety Fire Commissioner, Chapter 120-3-22.

(v) The Commissioner will recognize the following curricula, and other equivalent program(s) approved by the Commissioner as minimum requirements for competency training:

(I) I.S.E.E. Level 1, Blasting Fundamentals, which should include all Federal, State and local regulations,

(II) the Surface Blaster Competency Study Course approved by the Georgia Construction Aggregate Association,

- (III) the Certification program developed by the Dimensional Stone Industry or,
- (IV) other programs approved by the Commissioner or his/her designee.
- (V) Any individual possessing a Level III Competency Certification will be required to take continuing education courses approved by the Commissioner and shall take no less than eight (8) hours every two (2) years.
- (VI) Exception to Certification: Applicants for permits to use explosives in agricultural operations and private and personal use of explosives in remote areas for such operations as ditching, land clearing, destruction of beaver dams and other such operations that is not within 750 feet of an occupied structure or roadway.

13. Every Responsible Person must be able to produce a "Competency Card" upon demand of the Commissioner or his or her representative or by any local authority having jurisdiction over blasting activities.

- (i) All applications for licensure for designation as a Responsible Person submitted by an applicant shall include in the application, and the annual renewal application, the full name, date of birth, social security number, and address of the applicant or Responsible Person, photo and address of the applicant, including a one (1) inch horizontal by one and one fourth (1¼) inch vertical photograph with the licensee's or Responsible Person's signature below the photograph. The name of the licensee employing the Responsible Person and employer's business name shall be shown on the application. The application shall indicate such additional information as may be required by the Commissioner or by these rules and regulations. Photographs shall be required and submitted every four years thereafter following the initial date or update of the issuance of a "Competency Card".
- (ii) Those exemptions as are established in Chapter 120-3-10 of the Rules of the Safety Fire Commissioner and Chapter 7 of Title 16 of the Official Code of Georgia Annotated shall apply.

(b) Fire Marshal's action on application for License:

1. Upon receipt of an application for license and before the license is issued, the State Fire Marshal may make, or cause to be made, an investigation for the purpose of ascertaining if all requirements of these rules and regulations have been met by the applicant.
2. If the results of the investigation of the State Fire Marshal are found to be in conformity with the requirements of these rules and regulations, the State Fire Marshal shall issue the license upon the payment of the proper fee therefore.

(c) Posting or Availability of License or Permit:

1. Any license or permit issued shall be posted in a location so that the State Fire Marshal, his representatives and inspectors, or any other authorized person may examine it. Such posting may be in the storage facilities, office area and storage magazines. A license issued to a person without fixed storage facilities shall be available at the operation location.
2. A copy of a license issued pursuant to these Rules that authorizes an individual to transport explosives shall be in the possession of the driver of the vehicle.
3. Any facility that is licensed or permitted pursuant to these Rules is subject to inspection by the State Fire Marshal's Office or their representatives, or any law enforcement or fire service official at any time.
4. A Photostat or mechanically reproduced copy of any license or permit may be used for these purposes.

(d) Presenting Evidence of License or Permit:

1. The license or permit issued shall be presented to vendors or other persons selling or otherwise conveying explosives and blasting agents to the license or permit holder. A Photostat or mechanically reproduced copy of the license may be used for this purpose.

(e) Application for Permit:

1. The applicant for a permit to purchase for use and use only explosives or blasting agents shall make application to the judge of the probate court or designated elected county official in writing on a form provided by the judge of the probate court or designated elected county official or its equivalent. Full identification of the applicant shall be made to the official to whom application is made and shall be subject to the following:

- (i) The applicant shall be subject to a criminal records check.
 - (ii) The applicant shall not have been convicted of a felony.
 - (iii) The applicant shall certify that he or she has a working knowledge of the safe use of explosives and is familiar with the Rules and Regulations of the Commissioner Chapter 120-3-10 and NFPA 495.
 - (iv) The applicant shall certify that the permit will not be used by individuals who conduct commercial blasting or blasting for profit.
 - (v) The applicant shall be at least 21 years of age and shall not be addicted to the use of or under the influence of intoxicants, narcotics, controlled substances or other dangerous drugs.
- (f) Judge of the Probate Court or Designated Elected County Official's action on application for Permit:
- 1. Upon receipt of a duly executed application for a permit to purchase for use, and use only, the judge of the probate court or designated elected county official shall ascertain to his or her satisfaction that the applicant is the true party named in the application, and if satisfied, he or she may grant and issue the permit. Permits will be issued in quintuplicate, one copy for the issuing officer's files, three copies to the applicant including the original, and one copy for forwarding to the State Fire Marshal. The judge of the probate court or designated elected county official may withhold a permit from any individual when he or she deems issuing such a permit not in the best interest of public safety or security.
 - 2. Explosives and blasting agents are to be used only in the county that the permit is issued.
 - 3. This permit does not authorize storage or transportation.
 - 4. No later than the 10th of each month, the judge of the probate court or designated elected county official will provide the State Fire Marshal's Office documentation of all permits that were issued and returned during the previous month.
- (4) Records:
- (a) All persons required by these rules and regulations to obtain a license from the State Fire Marshal shall keep an accurate record of all explosives and blasting agents purchased, received, sold, delivered, on hand, used, or otherwise disposed

of. Records shall be clear and legible. Records shall be maintained for a minimum period of three years as follows:

1. For distributors, dealers, persons giving away or otherwise conveying explosives and blasting agents, including salesmen where delivery is direct from out of the State and no other record of such a sale is maintained in Georgia, the records shall include at least the following:
 - (i) The date of sale or transaction.
 - (ii) The name of person purchasing and/or receiving explosives and blasting agents.
 - (iii) The license or permit number of the person purchasing or receiving explosives and blasting agents, unless the recipient is exempt from requiring a license or permit, in which case the person must be clearly identified by name and agency to show exempt status and the record or sales slip shall be signed by that person.
 - (iv) The quantity and description of explosives and blasting agents sold or otherwise disposed of.
 - (v) The location of the operation where explosives and blasting agents are to be stored, used, delivered to, or otherwise disposed of.
2. For users and other persons possessing and/or storing explosives and blasting agents, the records shall include at least the following:
 - (i) The date of receipt of explosives and blasting agents.
 - (ii) The quantity and description of explosives and blasting agents received.
 - (iii) The date of use or other disposal of explosives and blasting agents and quantity used or disposed of.

(b) Handling of Explosives Permits:

1. Any person who sells, gives away, delivers, or otherwise disposes of or conveys explosives and blasting agents to another person who presents a valid explosives permit shall withdraw two (2) copies of the permit, the original and vendor's copies, at the time of the sale or transaction. The vendor's copy shall be retained by the person selling or disposing of the explosives and blasting agents and the original shall be forwarded to the State Fire Marshal.

2. The person using an explosives permit shall retain the purchaser's copy of the permit which serves as the authorization for him to have the described explosives in his possession.
 3. Within one working day or 24 hours, whichever comes first, of expiration of the one-time use permit, the individual issued the permit will return all unused explosives to the vendor and the expired permit to the issuing judge of the probate court or designated elected county official.
- (5) The Insurance Commissioner may appoint a Blasting Advisory Committee whose role shall be only to be available to the Commissioner to advise on rule changes, review and issue best practices and safety bulletins and provide advice as deemed appropriate by the Commissioner or their designated liaison to the Committee. The Committee shall meet as determined by the Commissioner but no less than twice per year. The Committee will consist of 8 members; four will serve an initial term of 2 years and four will serve 3 years. The Commissioner shall initially appoint a Chairperson to serve a two year term thereafter the Committee shall elect the Chair in January of each alternate year. The membership of the Committee shall include no less than 1 representative from the aggregate mining industry, 1 representative from the utility contractors industry, 1 representative from the explosives industry, 1 representative from the drilling and blasting industry, 1 representative from the vibration analysis industry, 1 representative from law enforcement, 1 representative of the State Fire Marshal, and 1 representative to be selected from a related industry. The duties of the Committee may include;
- (a) A review of incidents involving injury to persons or property damage due to handling, use, manufacture, storage, or transportation of explosives and blasting agents.
 - (b) Communication on issues dealing with best industry practices related to the handling, use, manufacture, storage or transportation of explosives and blasting agents.
 - (c) Peer review of complaints related to the use, handling, manufacture, storage, or transportation of explosives and blasting agents.
 - (d) Peer review of proposed revisions, additions, deletions, or changes to the Georgia Law and/or Rules and Regulations dealing with the use, handling, storage or transportation of explosives and blasting agents; and
 - (e) Any issue as deemed appropriate by the Insurance Commissioner's Office.

Rule 120-3-10-.04. Administrative Action by Commissioner and Hearings.

- (1) Any license, or competency certificate may be refused or a license or competency certificate duly issued may be suspended or revoked, if the Commissioner finds that the applicant for or the holder of the license or competency certificate:
 - (a) Has violated any provision of Chapter 8 of Title 25 of the Official Code of Georgia Annotated, or any other law or regulation of this state, or any federal law or regulation relating to the manufacture, purchase, use, handling, storage, sale or transportation of explosives or blasting agents;
 - (b) Has intentionally misrepresented or concealed any material fact in any application for a license, competency certificate or on any form filed with or submitted to the Commissioner or the State Fire Marshal;
 - (c) Has permitted any person employed by the license or competency certificate applicant or holder, either by direct instruction or by reasonable implication, to violate any provision of Chapter 8 of Title 25 of the Official Code of Georgia Annotated;
 - (d) Has failed to comply with or has violated any order issued by the Commissioner;
 - (e) Has shown a lack of trustworthiness or a lack of competence to act as a licensee or competency certificate holder under Chapter 8 of Title 25 of the Official Code of Georgia Annotated;
 - (f) Has failed to provide documentation or records, or refused to appear in response to any Order entered by the Commissioner or any written demand by the Commissioner, State Fire Marshal or his or her designated representative sent by registered or certified mail or statutory overnight delivery to the last known address of the applicant or holder of a license as shown in the records of the State Fire Marshal;
 - (g) Has been convicted of a felony, or has an officer, director or owner of the applicant for, or holder of, such license or competency certificate who has been convicted of a felony by a final judgment in any jurisdiction of the United States or in any federal court;
 - (h) Has had a license, competency certificate or other authority to engage in the manufacture, sale, storage, use or transportation of explosives or blasting agents,

refused, revoked, suspended or otherwise disciplined, by any lawful licensing authority of any other jurisdiction or by the United States; or,

- (i) Has experienced any event or occurrence involving the manufacture, sale, storage, use or transportation of explosives or blasting agents, resulting in unintended loss or damage to property or resulting in severe bodily injury or loss of life.
- (2) A license or competency certificate which is subject to refusal, suspension or revocation may be issued or placed on probation for a period of not less than three months and not longer than 12 months and shall be subject to immediate revocation for cause at any time without a hearing. Any order of probation shall prescribe the terms of probation.
 - (3) The Commissioner may impose a monetary fine of up to \$1,000.00 against the holder of a license or a competency certificate for each and every violation of a provision of Chapter 8 of Title 25 of the Official Code of Georgia Annotated, any of these rules or regulations or any order of the Commissioner.
 - (4) Any order entered by the Commissioner regarding the refusal, suspension, revocation, or the issuance or placing on probation of any license or competency certificate applicant or holder, or imposing a monetary fine, and any hearing which may result from the same, shall conform insofar as possible to the following:
 - (a) Any order of the Commissioner refusing, suspending or revoking a license or competency certificate to any applicant or holder, or issuing or placing any license or competency certificate on probation, shall be issued in writing and be signed by the Commissioner and shall state its effective date, shall state concisely its intent and purpose, the grounds on which it is based and the provisions of Title 25 of the Official Code of Georgia Annotated or any rule or regulation of the Commissioner upon which it is to be taken;
 - (b) Any order or notice may be served by delivery to the license or competency certificate holder or applicant by delivery in person or by mailing it, postage prepaid, by registered or certified mail or statutory overnight delivery to the principal place of business or the last known address of the applicant for or holder of a license or competency certificate as shown in the records of the State Fire Marshal;
 - (c) Any person aggrieved by any order of the Commissioner refusing, suspending or revoking a license or competency certificate for any applicant or holder, or issuing or placing any license or competency certificate on probation, or imposing a monetary fine, may make a written demand for a hearing if made within ten days of the date of its receipt;
 - (d) Any demand for a hearing shall specify in what respects the person requesting the same is aggrieved and the grounds to be relied upon as a basis for the relief to be demanded at the hearing. Unless postponed by mutual consent or by request and

for good cause shown, the hearing shall be held within 30 days after receipt by the Commissioner for such hearing;

- (e) Pending the hearing and decision following the hearing, the Commissioner may suspend or postpone the effective date of his or her previous action;
- (f) The hearing shall be held at the place designated by the Commissioner and shall be open to the public. Not less than ten days in advance, the Commissioner shall give notice of the time and place of the hearing;
- (g) The Commissioner shall allow any party to the hearing to appear in person or by counsel, to be present during the giving of all evidence, to examine witnesses, to present evidence in support of their own interest and to have subpoenas issued by the Commissioner;
- (h) Formal rules of pleading or evidence need not be observed at any hearing;
- (i) Upon written request seasonably made by any party to the hearing, and at their expense, the Commissioner shall cause a full record of the proceedings to be made. If transcribed a copy of such record shall be furnished to the Commissioner without cost to the Commissioner or the state and shall be a part of the Commissioner's record of the hearing;
- (j) Within 30 days after termination of the hearing or the transcription and furnishing of a copy of the record of such hearing to the Commissioner, if a record is requested, the Commissioner shall make his or her order thereon covering matters involved in the hearing and shall provide a copy of the order to those persons given notice of the hearing;
- (k) The order shall contain a concise statement of the facts as found by the Commissioner, a concise statement of his or her conclusions therefrom, and the effective date of the order, which may affirm, modify or nullify the action theretofore taken; and,
- (l) Any party to the hearing may appeal any order of the Commissioner as provided for by the provisions of Section [25-2-10](#) of the Official Code of Georgia Annotated.

Rule 120-3-10-.05. Special Provisions.

- (1) Any person who by license or permit is authorized to manufacture, sell, possess, transport, distribute or use explosives shall report any incident of larceny, fires, accidental explosions and accidents involving explosives and blasting agents as follows:
 - (a) Within 24 hours of discovering the loss of any explosives or evidence that there has been an attempted theft of any explosives, notify the State Fire Marshal's Office and the nearest regional office of the Georgia Bureau of Investigation (GBI) and the local law enforcement agency having jurisdiction over the location where the loss or attempted theft occurred. The GBI shall also notify the State Fire Marshal's Office of the loss or attempted theft through the GCIC system.
 - (b) In the event of a fire, accidental detonation or other accident involving explosives, immediately notify the officer in charge of the responding local fire services and emergency personnel of the type, quantity and characteristics of explosives involved and of any special precautions or measures which must be taken to protect life or property. As soon as the incident is under control but no later than the next business day after the incident, notify the State Fire Marshal's Office in writing of the facts and circumstances of the incident.
 - (c) In the event of a Fly Rock incident that includes any materials leaving the designated blast site, the State Fire Marshal's Office shall be notified of the event and the circumstances connected to the event within 4 hours of the event. NFPA 495 (2018 Edition), Chapter 11.4 Fly Rock shall be the governing guideline for this requirement.
- (2) Modification of Requirements:
 - (a) Upon receipt of a sworn affidavit from the owner stating all relevant facts and circumstances and such other information as may be required, the State Fire Marshal may recommend to the Commissioner that specific requirements of this Chapter and the NFPA codes, standards and recommended practices adopted herein, be modified to allow alternative arrangements that will secure as nearly equivalent measures as are practical for the prevention of injury to persons and property. The Commissioner in his discretion may accept the State Fire Marshal's recommendation and grant the requested modification.
- (3) Criminal Penalty for Violations:
 - (a) Any person who manufactures, sells, possesses, transports, distributes, or uses an explosive except as provided in Chapter 7 of Title 16 and Chapters 2 and 8 of Title

25 of the Official Code of Georgia Annotated shall be subject to criminal prosecution as provided by law.

- (b) Any person or entity that is issued a license or permit pursuant to these Rules that violates any provision of these Rules shall be subject to the administrative penalties prescribed by law.
- (4) Persons authorized to buy, sell, otherwise convey, possess, handle, use or transport explosives and blasting agents:
 - (a) No person under the age of 21 years old shall be authorized to buy, sell, otherwise convey, possess, store, use, or transport explosives and blasting agents, except for an active duty member of the armed forces of the United States or of this state or any of the several states and personnel assigned or attached to such agencies when acting in an official capacity.

Rule 120-3-10-.06. Standards for Manufacture, Storage, Transportation, Handling and Use of Explosives and Blasting Agents.

Unless otherwise stated in this chapter, the following editions of the codes, standards, recommended practices, guides and methods, as published in the *National Fire Codes (NFC)* by the National Fire Protection Association (NFPA), as adopted and modified herein, and sections of the *International Fire Code (IFC)*, as published by the International Code Council (ICC), as adopted and modified herein, shall be the state minimum fire safety standards for the manufacture, storage, transportation, handling and use of explosives and blasting agents.

- (1) NFPA 495, 2018 Edition, *Explosives Materials Code* Modifications:
 - (a) Modifications to Chapter 3:
 - 1. Delete subsection 3.2.2 in its entirety and substitute in its place the following:

"3.2.2 Authority Having Jurisdiction. The State Fire Marshal of Georgia or his/her designee."

(b) Modification to Chapter 4:

1. Delete section 4.2 in its entirety
2. Delete section 4.3 in its entirety
3. Delete section 4.4 in its entirety
4. Delete section 4.5 in its entirety
5. Delete section 4.6 in its entirety

(c) Modification to Chapter 11:

1. Add a new subsection 11.2.4 to read as follows:

"11.2.4 The velocity/shock wave of any blast shall not exceed 2"PPV at 40Hz or greater. At lower frequencies use the established limits in the vibration criteria as presented in the U.S. Bureau of Mines RI 8507."

2. Add a new subsection 11.3.3 to read as follows:

"11.3.3 The air blast criterion as presented in the US Bureau of Mines RI 8485 defines limits on air overpressure resulting from blasting activities and establishes 140dbL as an acceptable level for compliance related to damage to structures."

- (2) NFPA 498, (2018 Edition), *Safe Havens and Interchange Lots for Vehicles Transporting Explosives*

Modifications: None

- (3) IFC (2018 Edition), *International Fire Code* Modifications:

(a) Modifications to Chapter 56:

1. Delete sections 5601 through 5607 and all related paragraphs there under in their entirety and substitute in their place the following:

"5601 Explosives and blasting. The provisions of Chapter 120-3-10 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and

Regulations for Explosives and Blasting Agents' shall govern the possession, manufacture, storage, handling, sale and use of explosives, explosive materials and small arms ammunitions."

Rule 120-3-10-.07. Blasting Report.

- (1) A Blasting Report consisting of a pre-blast report, drilling log and a post-blast record will be required on all blasting events. Individual company forms may be acceptable when approved by the State Fire Marshal's Office and must provide the information required by O.C.G.A. Section [25-8-8](#).
- (2) The licensed blaster must note on the pre-blast report the proximity to the closest structure or roadway and the distance to the nearest seismograph, when required,
- (3) The pre-blast report must contain documentation of the following information:
 - (a) Company, Company License Number, Date, and Location;
 - (b) Describe Nearest Structure including Distance and Direction from Shot;
 - (c) Type of Shot with Minimum Planned Scaled Distance or Regression Data;
 - (d) Max and Min Borehole depth, Borehole diameter, and Max Charge Weight at Closest Distance;
 - (e) Products, Type of Rock, Pattern with Burden and Spacing, and Powder Factor;
 - (f) Stemming feet, Stemming Type, and Stemming Length Ratio Relative to Burden;
 - (g) Cover/Existing Overburden with Amount and Type, and Direction to Open Face;

- (h) Date of Bulk Explosive Truck Calibration (if used); and
 - (i) Conditions with high fly rock potential, including but not limited to over confined shots, lift shots, outfall/wet conditions, spacing and burden exceeding the depth of any borehole in shot, and/or hole deviation. Document measures taken to compensate for high fly rock potential.
- (4) A drill log shall be maintained on all blasting events to allow the blaster to take the appropriate action if an anomaly occurs. The licensed blaster must have this drill log available before the loading process begins.
 - (5) Stemming material shall consist of properly sized crushed stone. When adequate stemming length is not possible, matting of either earthen cover or a man-made material like synthetic rubber to insure proper confinement is required.
 - (6) A seismograph shall be used at the nearest structure during blasting events that are within 750 feet of the nearest house, public building, school, church, commercial or institutional building and roadway. The velocity/shock wave shall not exceed the established limits of U.S. Bureau of Mines RI 8507; appendix (b).

Exception: Where all pedestrian and vehicular traffic on a roadway can be restricted to a distance of 750 feet or greater from the blast site at the time of the firing of the blast or where a variance is issued by the State Fire Marshal's Office.

- (7) Seismographs will be calibrated by manufacturer certified technician at least of one time per year.
- (8) Bulk metering equipment will be calibrated by a qualified individual on a quarterly basis.
- (9) A signed copy of a blast report for all blasts shall be retained by the blasting firm for a period of three (3) years. Upon request, a copy of the report shall be sent to the State Fire Marshal's Office.
- (10) When blasting activities are conducted within 750 feet of an occupied structure or roadway, charge length shall be held to a maximum of 20 feet per deck and hole size will be limited to a maximum of 4 inches. In addition, there shall be a minimum of 6 foot of earthen cover or a man-made synthetic matting material. All facilities with a valid mining permit issued by the Georgia EPD, Land Branch Division, will be exempt from these requirements.

Subject 120-3-11. RULES AND REGULATIONS FOR FLAMMABLE AND COMBUSTIBLE LIQUIDS.

Rule 120-3-11-.01. Promulgation and Purpose.

- (1) These Rules and Regulations for Flammable and Combustible Liquids are promulgated by the Georgia Safety Fire Commissioner pursuant to O.C.G.A. Sections [25-2-4](#) and [25-2-16](#).
- (2) The purpose of these rules and regulations is to provide precautionary and protective techniques that are reasonable and practical measures for the prevention of injury to persons and property from the storage, transportation and handling of flammable and combustible liquids. These rules and regulations supersede former rules and regulations promulgated by the Georgia Safety Fire Commissioner pertaining to flammable and combustible liquids when such are in conflict with these rules and regulations.

Rule 120-3-11-.02. Definitions.

The definitions contained herein are in addition to and in clarification of the definitions contained in the adopted codes and standards.

- (1) **AUTHORITY HAVING JURISDICTION.** The State Fire Marshal of Georgia.
- (2) **STORAGE TANK.** Any vessel having a liquid capacity that exceeds 230 L (60 gal), is intended for fixed installation, whether on fixed supports or skid supports, and is not used for processing.
- (3) **COMMISSIONER.** The Georgia Insurance and Safety Fire Commissioner.
- (4) **FULL-SERVICE STATION.** Any place of business, or portion thereof, which sells gasoline or diesel fuel at retail and which does not allow customers to dispense the fuel.

- (5) MAJOR MODIFICATION. Where the general layout is modified to effect distance requirements, size of tanks, piping locations or additions to tanks, piping systems, dispensers or islands.
- (6) NFPA. The National Fire Protection Association.
- (7) PERSON. Any individual, firm, partnership, corporation, company, association, joint stock association, and any trustee, receiver, assignee, or personal representative thereof.
- (8) PRIVATE-SERVICE STATION. The portion of a commercial, industrial, governmental, or manufacturing property where liquids used as fuels are stored and dispensed into the fuel tanks of motor vehicles that are used in connection with such businesses, by persons within the employ of such businesses.
- (9) SELF-SERVICE STATION. Any place of business, or portion thereof, which sells gasoline or diesel fuel at retail and which allows customers to dispense the fuel.
- (10) TEMPORARY INSTALLATION. Storage Tanks that are installed for 90 days or less.

Rule 120-3-11-.03. Submission of Plans for Storage Installations.

- (1) Plans for all proposed flammable or combustible liquid storage tank installations, including major modifications at existing facilities, with more than a 60 gallon capacity for Class I Liquids or a 120 gallon capacity for Class II and Class III liquids must be submitted in duplicate to the State Fire Marshal for approval, and must be in compliance with applicable codes and standards prior to commencement of construction. Exception: Plans for storage tank installations with a storage capacity of 660 gallons or less may be submitted to the local fire authority having jurisdiction, where one exists, for approval. Plans for all proposed storage tank installations of more than 660 gallons capacity (other than self-service stations) submitted to the State Fire Marshal shall be accompanied by the mandatory plan review fee pursuant to O.C.G.A. Section [25-2-4.1](#). The check shall be

made payable to the Safety Fire Commissioner. Pursuant to O.C.G.A. Section [25-2-16](#), the plans shall bear the seal and Georgia registration number of the responsible architect or engineer or shall otherwise have the approval of the Commissioner or his designee.

- (2) Plans shall be submitted in duplicate and shall include, at a minimum, the following:
 - (a) Scaled site plan (shall include all buildings and property lines)
 - (b) Storage tank location(s)
 - (c) Tank Drawings (shall include all piping connections and appurtenances)
 - (d) Piping, valve, and associated equipment layout and arrangements
 - (e) Electrical conduit layout and arrangements
 - (f) Corrosion protection (if applicable)
 - (g) Equipment list and specifications (shall include make and model of equipment)
 - (h) Other information necessary to show compliance
- (3) Submissions for aboveground storage tanks shall also include the following:
 - (a) A site approval by a representative of the State Fire Marshal
 - (b) A Fire Safety Analysis completed by the local fire authority
- (4) One set of plans shall be retained by the State Fire Marshal and one copy returned to the applicant with approval or disapproval indicated thereon. A copy of the approved plans shall be kept at the installation site during construction for inspection by authorized representatives of the State Fire Marshal or local authority.
- (5) Construction or the storage tank installation, or associated equipment, shall not commence until the plans have been approved and returned to the applicant.
- (6) Requests for temporary installations must be made to the State Fire Marshal in writing for approval. Requests shall include a letter of intent, name of applicant, location of storage tanks to be installed, how long the storage tank(s) will be located at the requested location and shall also include the following:
 - (a) Site plan (shall include all buildings and property lines)
 - (b) Storage tank location(s) on the site plan
 - (c) Tank Drawings (shall include all piping connections and appurtenances)
 - (d) Piping, valve, and associated equipment layout and arrangements

- (e) Electrical conduit layout and arrangements
- (f) Corrosion protection (if applicable)
- (g) Equipment list and specifications (shall include make and model of equipment)
- (h) Other information necessary to show compliance

If additional time is necessary for a temporary installation beyond the allowable 90 days, extensions shall be requested in writing at the time the original request is made or before the expiration of the temporary approval. Before tanks may be brought to a site, approval of the temporary request must be granted by the State Fire Marshal and a copy of the approval kept on site. No plan review fee is required for temporary installation requests.

Repealed: New Rule of same title adopted. F. Mar. 7, 2008; eff. Mar. 27, 2008.

Amended: F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency

Rule 120-3-11-.04. Self-Service Stations.

- (1) Self-service operations shall be permitted at any service station, including marine self-service fueling stations and aircraft self-service fueling stations, only after a self-service permit has been issued by the State Fire Marshal in accordance with this Rule. A self-service permit shall not exempt the holder thereof from obtaining any other permits or licenses that may be required by other government agencies.
- (2) Application for a self-service station permit shall be made to the State Fire Marshal on the form prescribed and approved by the Commissioner. Applications for self-service station permits shall be submitted by the person, firm, corporation, or partnership responsible for the day to day operations of the facility. Applications submitted by outside parties shall include documentation that the party is acting on behalf of and with the permission of the permit holder. Pursuant to O.C.G.A. Section [25-2-4.1](#), each application for a new self-service station permit shall be accompanied by the mandatory permit fee payable to the

Safety Fire Commissioner. Plans for any proposed station or major modification of any existing station shall be submitted to the State Fire Marshal with the self-service station permit application.

- (a) Plans shall be submitted in duplicate and shall include, at a minimum, the following:
 - (1) Scaled site plan (shall include all buildings and property lines)
 - (2) Storage tank location(s)
 - (3) Tank Drawings (shall include all piping connections and appurtenances)
 - (4) Piping and valve layout and arrangements
 - (5) Electrical conduit layout and arrangements
 - (6) Dispenser arrangements and details
 - (7) Corrosion protection (if applicable)
 - (8) Emergency control locations
 - (9) Equipment list and specifications (shall include make and model of equipment)
 - (10) Fire Extinguisher location(s)
 - (11) Other information necessary to show compliance
 - (b) One set of plans shall be retained by the State Fire Marshal and one copy returned to the applicant with approval or disapproval indicated thereon. A copy of the approved plans shall be kept at the installation site during construction for inspection by authorized representatives of the State Fire Marshal or local authority.
 - (c) Construction or the storage tank installation, or associated equipment, shall not commence until the plans have been approved and returned to the applicant.
- (3) Upon notification of completed construction of a new or modified station, the State Fire Marshal shall direct his authorized representative to inspect the facility. If the authorized representative determines that all requirements for self-service operations contained in this Chapter have been satisfied, to include written certification of tank and pipe leak testing and installation, he may issue a self-service permit.
- (4) The self-service permit shall be posted by the applicant in a conspicuous location on the premises. The self-service permit is nontransferable and shall expire upon a change of ownership, operator, lessee or lessor of the facility. Any issuance of a new self-service

permit to include change of ownership, operator, lessee or lessor, or to replace lost or destroyed permits requires a permit fee pursuant to O.C.G.A. Section [25-2-4.1](#).

- (5) A self-service permit may be revoked for cause after notice and hearing provided in accordance with Rule 120-3-2-.02 of the Rules of Safety Fire Commissioner; provided, however, that the Commissioner may revoke any self-service permit prior to notice and hearing if he determines upon recommendation of the State Fire Marshal that the situation involves an imminent peril to the public health, safety and welfare and that the situation therefore requires emergency action. An emergency revocation shall contain reasons and findings for the determination, and shall be accompanied by a notice of opportunity for a hearing, which may provide that a hearing will be held, if and only if, the aggrieved person requests a hearing within ten (10) days of receipt of the revocation and notice.
- (6) The State Fire Marshal and his authorized representatives may conduct inspections of self-service stations to ascertain whether the stations are operating in compliance with this Chapter.

Rule 120-3-11-.06. Adopted Codes and Standards.

Except to the extent modified herein, the following NFPA Codes and Standards are hereby adopted.

(1) NFPA 30, 2018 Edition, *Flammable and Combustible Liquids Code*

Modifications:

(a) Modifications to Chapter 6:

1. Add a new subsection 6.5.6 to read as follows:

6.5.6 " Signs shall be posted in areas storing or transferring flammable and combustible liquids and shall read:

DANGER - FLAMMABLE LIQUIDS

OPEN FLAMES AND SMOKING

PROHIBITED WITHIN 50 FEET

Lettering shall be white on a red background and shall not be less than 3 inches (76mm) in height and 0.5 inch (12.7 mm) in stroke."

2. Add a new subsection 6.9.6 to read as follows:

6.9.6 " No barrels, drums or combustible materials shall be stored beneath or within 3.3 m (10 ft) of any aboveground storage tank."

(b) Modifications to Chapter 18:

1. Add a new subsection 18.3.1 to read as follows:

18.3.1 " Signs shall be posted in areas where flammable liquids are stored and transferred and shall read:

DANGER - FLAMMABLE LIQUIDS

OPEN FLAMES AND SMOKING

PROHIBITED WITHIN 50 FEET

Lettering shall be white on a red background and shall not be less than 3 inches (76mm) in height and 0.5 inch (12.7 mm) in stroke."

2. Add a new subsection 18.4.10 to read as follows:

18.4.10 " All hoses used within the scope of this code shall be inspected at regular intervals and shall be replaced when they show signs of being deteriorated, weathered or worn."

(c) Modifications to Chapter 21:

1. Add a new subsection 21.3.6 to read as follows:

21.3.6 " Aboveground tanks and aboveground piping shall be kept painted to prevent corrosion and shall be painted a light reflective color."

2. Add a new paragraph 21.7.1.7 to read as follows:

21.7.1.7 " No storage tank shall be filled by gravity from another storage tank unless a suitable device is provided to eliminate the possibility of overflow and a qualified person is in constant attendance and has the means to stop the flow of liquid promptly."

3. Delete paragraph 21.7.2.2 in its entirety and substitute in its place the following:

21.7.2.2 " Aboveground storage tanks used for bulk storage at bulk plants or chemical plants shall be secured and marked in accordance with NFPA 704, 2007 Edition, *Identification of the Hazards of Materials for Emergency Response*, as to identify the fire hazards of the tank and the tank's contents to the general

public and emergency responders. The area in which the tank is located shall be protected from tampering or trespassing with a chain link fence. The fence shall be at least 1.8m (6 ft) high and shall be separated from the tanks by at least 3m (10 ft) and shall have a gate that is secured against unauthorized entry.

Exception: Tanks are not required to be enclosed with a fence if the property on which the tanks are located has a perimeter security fence."

4. Delete subsection 21.8.4 in its entirety and substitute in its place the following:

21.8.4 " Each tank shall be maintained liquidtight. Each tank that is leaking shall immediately be emptied of liquid or repaired in a manner acceptable to the authority having jurisdiction."

(d) Modifications to Chapter 22:

1. Add a new paragraph 22.4.1.9 to read as follows:

22.4.1.9 " For bulk plants and chemical plants only, no aboveground storage tank(s) for Class I flammable liquids shall be erected within 91.4 m (300 ft) of any school, church, hospital, theater, public assembly or public hall. A public hall shall be any building regularly used for public assembly for purposes of amusement, instruction, religious worship or other meetings. Requests for exceptions to this Rule such as the temporary use of skid tanks on construction sites shall be submitted to the State Fire Marshal in accordance with Rule [120-3-11-.08](#)."

2. Delete paragraph 22.11.2.7 in its entirety and substitute in its place the following:

22.11.2.7 " Provisions shall be made for draining water from diked areas. Such drains shall be controlled to prevent liquids, other than storm water, from leaving the diked area."

3. Delete subparagraph 22.11.2.7.1 in its entirety and substitute in its place the following:

22.11.2.7.1 " Control of valves for drainage purposes shall be accessible under fire conditions from outside the dike."

4. Add a new subsection 22.13.5 to read as follows:

22.13.5 " Gauges or other means shall be provided to monitor filling or emptying of aboveground tanks. This means shall be visible and accessible to the delivery operator from the point of delivery."

5. Add a new subsection 22.13.6 to read as follows:

22.13.6 " Aboveground tanks containing Class I, Class II, or Class IIIA liquids shall be filled through a tight fill connection."

6. Add a new subsection 22.13.7 to read as follows:

22.13.7 " Fill connections to aboveground tanks shall have provisions to contain any liquids that may drain from the transfer hose due to connections and disconnections."

(e) **Modifications to Chapter 27:**

1. Delete paragraph 27.3.2 in its entirety and substitute in its place the following:

27.3.2 "**Tightness of Piping.** Piping systems shall be maintained liquidtight. A piping system that has leaks that constitute a hazard shall immediately be emptied of liquid or repaired in a manner acceptable to the authority having jurisdiction."

(f) **Modifications to Chapter 28:**

1. Add a new paragraph 28.3.1.4 to read as follows:

28.3.1.4 " All hoses used within the scope of this code shall be inspected at regular intervals and shall be replaced when they show signs of being deteriorated, weathered or worn."

2. Add a new paragraph 28.3.1.5 to read as follows:

28.3.1.5 " Signs shall be posted in areas where flammable liquids are stored and transferred and shall read:

DANGER - FLAMMABLE LIQUIDS

OPEN FLAMES AND SMOKING

PROHIBITED WITHIN 50 FEET

Lettering shall be white on a red background and shall not be less than 3 inches (76mm) in height and 0.5 inch (12.7 mm) in stroke."

3. Delete section 28.9 in its entirety and substitute in its place the following:

28.9 "* Loading and unloading facilities, for bulk plants, terminals, and chemical plants only, shall be provided with drainage systems or other means to contain spills. These means shall be designed to contain at least 110% of the largest compartment on the loading or off-loading tanker vehicle."

(2) **NFPA 30-A, 2018 Edition, *Code for Motor Fuel Dispensing Facilities and Repair Garages***

Modifications:

(a) **Modifications to Chapter 4:**

1. Add a new subsection 4.2.5 to read as follows:

4.2.5 " Containers and piping shall be identified as to the product stored in them."

2. Add a new subsection 4.2.6 to read as follows:

4.2.6 " Flammable or combustible liquids shall not be introduced into any leaking or condemned, unapproved or non-labeled storage tank or container. Flammable or combustible liquids shall immediately be removed from any leaking or condemned storage tank. A condemned or red tagged system may be restored to service upon proper corrective actions and with the approval of the authority having jurisdiction. Tanks for the storage of flammable and combustible liquids for dispensing or fueling of motor vehicles are generally required to be underground as a prevalent rule. For exceptions see NFPA 30A. In case of a change over from gasoline to diesel or home heating fuel, etc., the system shall be purged to avoid cross contamination, and the authority having jurisdiction shall be so notified."

3. Add a new subsection 4.2.7 to read as follows:

- 4.2.7 " Upon determination by the inspection that a flammable or combustible liquids systems or any part thereof is unsafe to the extent that it endangers life or adjacent properties, the inspector may place an out of service tag (red tag) on the entire system or a specified portion of the system until the dangerous conditions are corrected. The out of service tag (red tag) may be removed only by an authorized representative of the State Fire Marshal's Office."

(b) Modifications to Chapter 6:

1. Add a new subsection 6.2.4 to read as follows:

6.2.4 " Only those dispensers which are designed, or modified by approved means, and approved for self-service dispensing shall be used for such operations."
2. Add a new subsection 6.2.5 to read as follows:

6.2.5 " Dispensers that show serious signs of damage shall be removed from service."
3. Add a new subsection 6.5.4 to read as follows:

6.5.4 " Hoses shall be inspected at regular intervals and shall be replaced when they show signs of being deteriorated, weathered or worn."

(c) Modifications to Chapter 9:

1. Add a new paragraph 9.2.2.7 to read as follows:

9.2.2.7 " During flammable or combustible liquid off loading at public service stations, the area shall be posted and roped or barricaded as appropriate to limit access and prevent or control the source of ignition. The primary responsibility for this safety requirement shall be the truck driver who is delivering the flammable or combustible liquid. However, it shall also be the responsibility of the station attendant to make sure the precautions are followed."
2. Delete paragraph 9.2.5.4 in its entirety and substitute in its place the following:

9.2.5.4 "**Signs.** An appropriate warning sign shall be conspicuously posted on both faces of the dispensing device or such other place that the Commissioner may approve. The warning shall contain language deemed appropriate by the Commissioner. The warning

may be revised as deemed necessary by the Commissioner in order to address health and safety concerns."

3. Delete paragraph 9.2.5.2 in its entirety and substitute in its place the following:

9.2.5.2 "**Fire Extinguishers.** Each motor fuel dispensing facility or repair garage shall be provided with fire extinguishers installed, inspected, and maintained as required by NFPA 10. Extinguishers for outside motor fuel dispensing areas shall be provided according to the extra (high) hazard requirements for Class B hazards, except that maximum travel distance to a 80 B:C extinguisher (or multiple extinguishers of equivalent protection) shall be permitted to be 100 feet."

4. Delete subsection 9.2.7 in its entirety and substitute in its place the following:

9.2.7 "**Housekeeping.** All service station premises shall be kept clean, neat and free from rubbish and trash. Combustible materials other than required stock and supplies shall not be accumulated in storerooms or other areas in or on the premises."

5. Add a new subsection 9.2.10 to read as follows:

9.2.10 "**Restrictions.** All motor fuel or Class I liquids dispensing equipment operators shall be capable and qualified to operate such equipment and shall not, while operating such equipment, be under the influence of intoxicants, narcotics or other dangerous drugs. Persons under the age of 16, persons incapable of dispensing flammable or combustible liquids by reason of physical or mental incapacity, and persons under the influence of intoxicants, narcotics or other dangerous drugs shall not be permitted to dispense such liquids at any service station open or accessible to the public."

6. Add a new subsection 9.4.5:

9.4.5 " A qualified attendant shall be at least 18 years of age, experienced with and physically able to perform the required duties, and not addicted to the use or under the influence of intoxicants, narcotics, or controlled substances. The attendant shall be familiar with all applicable State laws and provisions of these Rules and Regulations. While Class I liquids are being dispensed,

the attendant shall not be assigned nor perform any duties that might cause distraction or prevention of properly supervising the dispensing of Class I liquids."

7. Add a new subsection 9.4.6 to read as follows:

9.4.6 " Appropriate signs indicating self-service operations shall be clearly posted. Any station which has both self-service and full-service operations shall clearly identify each respective area."

8. Add a new subsection 9.4.7 to read as follows:

9.4.7 " The use of portable aboveground skid tanks, with more than a 60 gallon capacity for Class I Liquids or a 120 gallon capacity for Class II or higher liquids shall be prohibited at service stations open to the public."

9. Add a new subsection 9.4.8 to read as follows:

9.4.8 " If the requirements of Section 4.3 in NFPA 30A 2018 Edition cannot be met, Class II and Class III liquids, such as kerosene and fuel oil, may be stored in aboveground tanks with an aggregate capacity not exceeding 560 gallons at service stations open to the public."

10. Add a new subsection 9.4.9 to read as follows:

9.4.9 " The attendant shall, at all times, have a clear and unobstructed view to the dispensers."

11. Add a new subsection 9.4.10 to read as follows:

9.4.10 " Where the attendant view to the dispensers is obstructed, video monitoring of the obstructed dispensing area shall be provided in accordance with the following:

- (1) The attendant shall be in close proximity to the dispensing areas as approved by the authority having jurisdiction.
- (2) There shall be at least two monitors, one on each side of the attendant area in full view of the attendant.
- (3) The cameras used shall have full coverage views of all obstructed fuel dispensing areas.

- (4) The monitors shall have full views of the obstructed dispensing areas displayed at all times.
- (5) If the video monitoring system becomes inoperable, self-service operations at the obstructed dispensers shall cease until the system is brought back into working order.
- (6) The video monitoring shall be approved by the authority having jurisdiction."

12. Delete subsection 9.5.1 in its entirety and substitute in its place the following:

9.5.1 " Unattended self-service facilities shall be permitted to operate as long as such unattended self-service facilities are not open to the public while unattended self-service operations are being conducted. Unattended self-service operations shall be limited to proprietary and fleet fueling.

Exception: Unattended self-service operations shall be allowed at any self-service station during a National Emergency or when the Governor has declared a state of emergency provided that the provisions of 9.5.2 through 9.5.6 and 9.5.9 through 9.5.11 are met."

13. Delete subsection 9.5.5 in its entirety and substitute in its place the following:

9.5.5 " Each such location shall be provided with a public telephone to notify the fire department in the event of an emergency within 100 feet of the dispenser(s). Emergency phone numbers and contact points for owner/operator shall also be provided. The numbers shall be clearly visible to the user."

14. Add a new subsection 9.5.7 to read as follows:

9.5.7 " All dispensers are key or card controlled. For the purpose of this requirement, proprietary cards and fleet fuel cards shall be required."

15. Add a new subsection 9.5.8 to read as follows:

9.5.8 " The owner or operator of such station is responsible for the safe operation of the station."

16. Add a new subsection 9.5.9 to read as follows:

9.5.9 " Each such facility shall have exterior emergency shutoff devices installed in accordance with section 6.7. Such shutoffs shall be clearly marked "Emergency Fuel Shutoff". Such lettering shall be at least 1" high in red coloring on a white background."

17. Add a new subsection 9.5.10 to read as follows:

9.5.10 " Dispensing equipment used at unattended self-service facilities shall be programmed or set to limit uninterrupted fuel delivery to 50 gallons."

18. Add a new subsection 9.5.11 to read as follows:

9.5.11 " Each such facility shall have a valid self-service permit posted."

(d) Modifications to Chapter 11:

1. Add a new subsection 11.4.8 to read as follows:

11.4.8 " Hoses shall be inspected at regular intervals and shall be replaced when they show signs of being deteriorated, weathered or worn."

(e) Modifications to Chapter 12:

1. Add a new subsection 12.2.5 to read as follows:

12.2.5 " Hoses shall be inspected at regular intervals and shall be replaced when they show signs of being deteriorated, weathered or worn."

(f) Modifications to Chapter 14:

1. Delete section 14.1 in its entirety and substitute in its place the following:

14.1 " On-Demand Mobile Fueling (the retail practice of fueling motor vehicles of the general public while the owner's vehicle is parked and might be unattended) shall be prohibited."

2. Delete sections 14.2 - 14.4 in its entirety.

(3) **NFPA 30-B, 2019 Edition, *Code for the Manufacture and Storage of Aerosol Products***

Modifications: None

(4) **NFPA 31, 2016 Edition, *Standard for the Installation of Oil-Burning Equipment***

Modifications: None

(9) **NFPA 36, 2017 Edition, *Standard for Solvent Extraction Plants***

Modifications: None

(10) **NFPA 37, 2018 Edition, *Standard for the Installation and Use of Stationary Combustion Engines and Gas Turbines***

Modifications:

(a) **Modifications to Chapter 6:**

1. Delete subsection 6.8.1 in its entirety and substitute in its place the following:

6.8.1 " Piping shall be in accordance with Chapter 27 of NFPA 30, *Flammable and Combustible Liquids Code*, except that piping shall be steel or other metal and the provisions of 6.8.2 shall apply.

Exception: Nonmetallic piping, excluding nonmetallic flexible connectors as describe in paragraph 6.8.2.1, shall be allowed to be used only underground within the scope of UL 971, Standard for Nonmetallic Underground piping for Flammable Liquids. Nonmetallic piping systems and components shall be listed and installed in accordance with manufacturer's instructions."

(11) **NFPA 326, 2020 Edition, *Standard for the Safeguarding of Tanks and Containers for Entry, Cleaning, or Repair***

Modifications: None

(12) **NFPA 329, 2020 Edition, *Recommended Practice for Handling Releases of Flammable and Combustible Liquids and Gases***

Modifications: None

(13) **NFPA 385, 2017 Edition, *Standard for Tank Vehicle for Flammable and Combustible Liquids***

Modifications:

(a) **Modifications to Chapter 5:**

1. Delete paragraph 5.4.1.1 in its entirety and substitute in its place the following:

5.4.1.1 " The outlets of each cargo tank or compartment used for transportation of Class I, Class II, and Class IIIA liquids having a viscosity less than 45 SUS at 100°F (37.8°C), shall be equipped with a self-closing shutoff valve, designed, installed,

and operated so as to ensure against the accidental escape of contents."

(b) Modifications to Chapter 7:

1. Add a new subsection 7.1.6 to read as follows:

7.1.6 " The name and address of the owner shall appear on the sides of the vehicle. The owner's name shall be in letters at least four inches in height with the address lettering as large as will fit in the space available."

(c) Modifications to Chapter 9:

1. Add a new subsection 9.1.13 to read as follows:

9.1.13 " Vehicles shall be maintained in good operating condition."

2. Add a new subsection 9.1.14 to read as follows:

9.1.14 " Any person driving, attending, making deliveries, filling, discharging or repairing tank vehicles shall not be under the influence of intoxicants, narcotics or other dangerous drugs."

3. Add a new subsection 9.1.15 to read as follows:

9.1.15 " Intoxicating beverages, narcotics and other dangerous drugs shall not be carried in or on tank vehicles."

4. Add a new subsection 9.2.17 to read as follows:

9.2.17 " No Class I liquids shall be transferred from tank trucks to motor vehicle fuel tanks or other tanks or containers on any highway, road, street, or alley, except in an emergency."

5. Add a new subsection 9.2.18 to read as follows:

9.2.18 " Nothing herein shall prohibit the fueling of machinery or vehicles used in road construction and maintenance, firefighting apparatus or vehicles, equipment used by public authorities or the United States Armed Services, or fuel containers used for such vehicles and equipment."

6. Add a new subsection 9.2.19 to read as follows:

9.2.19 " Except for firefighting apparatus, all machinery and vehicle motors shall be shut down while being refueled. Auxiliary motors involved with environmental control in cargo spaces may be kept running if necessary."

7. Add a new subsection 9.2.20 to read as follows:

9.2.20 " All tank vehicles shall be provided with spill kits to mitigate any spills that occur."

Rule 120-3-11-.07. Standards for Transportation of Flammable and Combustible Liquids by other than Tank Vehicle.

- (1) Flammable and combustible liquids transported by other than tank vehicles shall be transported as prescribed by this Chapter. Nothing herein shall supersede any rules, regulations, or other transportation requirements when transportation is under the jurisdiction of DOT or GPSC.
- (2) Persons driving, attending, making deliveries, or otherwise handling flammable liquids while loading or unloading vehicles shall not be under the influence of intoxicants,

narcotics or other dangerous drugs, nor shall same be carried in or on vehicles transporting flammable or combustible liquids.

- (3) Only approved containers shall be used. Metal containers meeting the requirements of and containing products authorized by STB, DOT, or GPSC regulations shall be acceptable for use in transporting flammable or combustible liquids by other than tank vehicles. Containers loaded in or on vehicles shall be securely fastened to prevent slipping or overturning.
- (4) Vehicles shall be in good operating condition and shall not be overloaded. Every vehicle regularly used for transporting flammable or combustible liquids shall be equipped with at least one fire extinguisher having a rating of 20-BC, permanently mounted and readily accessible to the driver.
- (5) Drivers of vehicles transporting flammable or combustible liquids in containers shall be physically able to perform the job, careful, capable, reliable, familiar with traffic laws and the provisions of this Chapter, and shall not be under the influence of intoxicants, narcotics or other dangerous drugs. Smoking shall not be permitted in vehicles when transporting Class I liquids unless all containers loaded thereon are original, unopened containers.
- (6) Vehicles transporting 1,000 pounds gross weight or more of flammable liquids shall carry placards on the front, rear and sides which meet DOT requirements for text, color, and size.

Rule 120-3-11-.08. Request for Modification of Specific Requirements.

Upon receipt of a sworn affidavit from the owner stating all relevant facts and circumstances and such other information as may be required, the State Fire Marshal may recommend to the Commissioner that specific requirements of this Chapter and the NFPA codes, standards and

recommended practices adopted herein, be modified to allow alternative arrangements that will secure as nearly equivalent measures as practical for the prevention of injury to persons and property. The Commissioner, in his discretion, may accept the State Fire Marshal's recommendation and grant the requested modification.

Rule 120-3-11-.09. Compliance with Rules and Regulations; Penalties.

- (1) All persons shall transport, store, handle and use flammable and combustible liquids in conformity with this Chapter. After notice and hearing provided in accordance with Rule 120-3-2-.02 of the Rules of Safety Fire Commissioner, any person who is found to have violated any of the rules contained in this Chapter shall be subject to such penalties as authorized by law.
- (2) The Commissioner may impose a monetary fine of up to \$1,000 against any person, firm, corporation, or partnership responsible for the operation of any facility covered under this Chapter for each violation of these regulations, related statutes, or any order of the Commissioner.

Subject 120-3-12. RULES AND REGULATIONS FOR THE STORAGE AND HANDLING OF ANHYDROUS AMMONIA.

Authority: O.C.G.A. Secs. [25-2-4](#), [25-2-13](#), 25-3-16, [33-2-9](#), [50-13-21](#)

History. See "Notice" on page 2 of the Rules and Regulations of the Safety Fire Department Original Chapter entitled "The Storage and Handling of Anhydrous Ammonia; filed on January 29, 1968; effective April 1, 1968, as specified by the Agency.

Amended: Chapter repealed and a new Chapter entitled "Rules and Regulations for the Storage and Handling of Anhydrous Ammonia" adopted. Filed June 3, 1987; effective June 25, 1987, as specified by the Agency.

Amended: F. Aug. 25, 1992; eff. Sept. 14, 1992.

Editor's Note:

In accordance with the O.C.G.A. Section [50-13-21](#), the contents of this Chapter are not filed with or published by the Secretary of State; only the name and designation is filed, printed, and distributed. These Regulations are on file in the Office of the Commissioner of Insurance, Safety Fire Department and are open for public examination and copying.

Rule 120-3-12-.01. Promulgation and Purpose.

- (1) These Rules and Regulations for the Storage and Handling of Anhydrous Ammonia are promulgated by the Georgia Safety Fire Commissioner in accordance with an Act creating the Office of Georgia Safety Fire Commissioner, Georgia Laws, 1949, p. 1057, as amended.
- (2) The purpose of these Rules and Regulations is to prevent loss of life, injury of persons, and loss or damage to property in the handling, use, manufacture, storage, and transportation of anhydrous ammonia. These rules and regulations supersede former rules and regulations promulgated by the Georgia Safety Fire Commissioner pertaining to anhydrous ammonia when such are in conflict with these rules and regulations.

Amended: F. Dec. 13, 2019; eff. Jan. 1, 2020 as specified by the Agency.

Rule 120-3-12-.02. Administration.

- (1) It is prohibited for any person to manufacture, sell, store, transport, possess, or use anhydrous ammonia, except in conformance with these rules and regulations.
- (2) Requirements for Permit:
 - (a) It is prohibited for any person to manufacture, sell, store, transport, or store for transportation or sale, anhydrous ammonia in the State of Georgia except by authority of a written permit issued by the State Fire Marshal in conformance with these rules and regulations, provided that no person operating under an Interstate Commerce Commission, Department of Transportation or Georgia Public Service Commission permit, and in accordance with the requirement of those agencies, shall be required to obtain a permit from the State Fire Marshal for transportation or storage for transportation of anhydrous ammonia.
 - (b) Application for Permit:
 1. The applicant for a permit required by these rules and regulations shall, at his own expense, furnish in writing such information as the State Fire Marshal may require concerning the purpose for which the permit is requested.
 2. Pursuant to O.C.G.A. Section [25-2-4.1](#), the application for a permit shall be accompanied by the mandatory permit fee, payable to the Safety Fire Commissioner.
 3. Submission of Plans:
 - (i) Complete plans and specification for all systems involving the storage of over 2,000 water gallons of anhydrous ammonia shall be submitted in duplicate to and receive approval by the State Fire Marshal before installation is started. Such plans shall be drawn to

scale and be of sufficient detail and clarity as necessary to indicate the nature and character of the proposed system and its compliance with this Chapter. One copy of the plans shall be retained by the State Fire Marshal and one copy shall be returned to the applicant with the approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the construction site for inspection by authorized representatives of the State Fire Marshal. Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans shall be accompanied by the mandatory plan review fee, payable to the Safety Fire Commissioner. Pursuant to O.C.G.A. Section [25-2-16](#), the plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Safety Fire Commissioner or his designee.

- (ii) For all other systems which require a permit but which involve the storage of 2,000 water gallons or less of anhydrous ammonia, a final inspection shall be obtained from the State Fire Marshal before the permit can be issued.

(3) Records:

- (a) All persons required by these rules and regulations to obtain a permit shall keep an accurate record of each sale or delivery. Such records shall be in clear, legible writing showing the name and address of purchasers, the quantity purchased, and the location of the operation at which said anhydrous ammonia is to be used, stored or delivered. Such records shall be kept by such person, firm or corporation in its principal place of business in this State. These records shall be subject to examination by the State Fire Marshal and/or his authorized assistants. The State Fire Marshal and/or his authorized assistants may at any time require any person, firm or corporation to produce such records for the current calendar year and the immediate preceding full calendar year.

(4) Miscellaneous Provisions:

- (a) It is prohibited for any person to introduce anhydrous ammonia into any container which does not meet the standards of these rules and regulations.
- (b) It is prohibited for any person, firm or corporation to sell, deliver or otherwise convey anhydrous ammonia to any person, firm or corporation not equipped to handle or store same in conformance with the requirements of these regulations.
- (c) It shall be prohibited for any person, firm or corporation to introduce anhydrous ammonia into a tank or container which has previously contained liquefied petroleum gas without written permission from the State Fire Marshal.

(5) Revocation of Permit:

- (a) The State Fire Marshal may revoke a permit or approval issued under the provisions of the law or regulations in the event there has been any false statement or misrepresentation as to material fact in the application upon which the permit or approval was based.
- (b) The permit may be revoked for cause after notice and hearing provided in accordance with Rules 120-3-2-.02 of the Rules of the Safety Fire Commissioner; provided, however, that the Safety Fire Commissioner may revoke any license prior to notice and hearing if he determines, upon recommendation of the State Fire Marshal, that the situation involves an imminent peril to the public health, safety, and welfare and that the situation therefore require emergency action. An emergency revocation shall contain reasons and findings for the determination, and shall be accompanied by a notice of opportunity for a hearing, which may provide that a hearing will be held if and only if the aggrieved person requests a hearing within ten (10) days of receipt of the revocation and notice.

Rule 120-3-12-.03. Definitions.

The definitions contained in this section are in addition to or in clarification of those contained in the adopted standards.

- (1) COMMISSIONER. The Georgia Safety Fire Commissioner.
- (2) AUTHORITY HAVING JURISDICTION. The State Fire Marshal of Georgia.
- (3) ICC. The Interstate Commerce Commission.
- (4) DOT. The United States Department of Transportation.

Note: On April 1, 1967, certain function of the U.S. Interstate Commerce Commission (ICC) were transferred to the U.S. Department of Transportation (DOT). An approval of certification label, marking, tag or other document bearing either marking, ICC or DOT, is acceptable wherever these rules and regulations specify ICC approval.

- (5) GPSC. The Georgia Public Service Commission.
- (6) PERMIT. An anhydrous ammonia permit is the written authority of the State Fire Marshal, issued pursuant to these rules and regulations, to manufacture, sell, transport, or store for transportation or sale, anhydrous ammonia in the State of Georgia.
- (7) PERSON. Any individual, firm, co-partnership, corporation, company, association, joint stock association, and including any trustee, receiver, assignee or personal representative thereof.
- (8) BULK STORAGE. Storage of bulk liquids, 4,000 gallons or more received by a tank vessel, pipeline, tank car, or tank vehicle for the purpose of distributing.

Rule 120-3-12-.04. Special Provisions.

- (1) Reporting of fire or serious accidents:
 - (a) Every person required by these rules and regulations to have a permit and who suffers a fire or serious accident involving anhydrous ammonia shall make report thereof in writing as soon as possible to the State Fire Marshal. A serious accident shall be interpreted to mean one in which loss of life, hospitalization of persons, or loss or damage to property involving \$100.00 or more results from the accident.
- (2) Advising appropriate authorities of situations presenting a hazard to the public:

- (a) Every person required by these rules and regulations to have a permit and having knowledge of a situation or condition involving anhydrous ammonia which creates a hazard to the public shall advise local authorities immediately and the State Fire Marshal as soon as practicable.

(3) Modification:

- (a) Upon receipt of a sworn affidavit from the owner stating all relevant facts and circumstances and such other information as may be required, the State Fire Marshal may recommend to the Commissioner that specific requirements of this Chapter and the NFPA codes, standards and recommended practices adopted herein, be modified to allow alternative arrangements that will secure as nearly equivalent measures as practical for the prevention of injury to persons and property. The Commissioner in his discretion may accept the State Fire Marshal's recommendation and grant the requested modification.

Subject 120-3-13. RULES AND REGULATIONS FOR WELDING GASES.

Authority: O.C.G.A. Secs. [25-2-4](#), [25-2-13](#), [25-2-16](#)

History. See "Notes" on Page 2 of the Rules and Regulations of the Safety Fire Department Original Chapter entitled "Welding Gases" was filed on January 29, 1968; effective April 1, 1968, as specified by the Agency.

Amended: Chapter 120-3-13 has been repealed and a new Chapter 120-3-13, of the same title, adopted. Filed November 10, 1980; effective November 30, 1980.

Amended: Chapter repealed and a new Chapter entitled "Rules and Regulations of Welding Gases" adopted. Filed June 3, 1987; effective June 25, 1987, as specified by the Agency.

Amended: F. Sept. 18, 1992; eff. Oct. 8, 1992

Repealed: New Chapter, same title, adopted. F. Jul. 23, 1998; eff. Aug. 12, 1998.

Editor's Note:

In accordance with the O.C.G.A. Section [50-13-21](#), the contents of this Chapter are not filed with or published by the Secretary of State; only the name and designation is filed, printed, and distributed. These Regulations are on file in the Office of the Commissioner of Insurance, Safety Fire Department and are open for public examination and copying.

Rule 120-3-13-.01. Purpose.

- (1) These Rules and Regulations for Welding Gases are promulgated by the Georgia Safety Fire Commissioner pursuant to O.C.G.A. [25-2-4](#).
- (2) The purpose of these rules and regulations is to provide precautionary and protective techniques that are reasonable and practical measures for the prevention of injury to persons and property from the storage, transportation and handling of welding gases. These rules and regulations supersede former rules and regulations promulgated by the Georgia Safety Fire Commissioner pertaining to welding gases when such are in conflict with these rules and regulations.

Rule 120-3-13-.04. Transportation of Fuel Gas for Welding and Cutting.

- (1) Only approved cylinders and containers as stated in NFPA Standard Number 51, shall be transported. Cylinders and containers loaded in or on vehicles shall be securely fastened to prevent slipping or overturning, and protective caps shall be securely fitted in place whether cylinders or containers are full, partially full or empty.
- (2) Vehicles shall be in good operating condition and shall not be overloaded. Every vehicle regularly used for transporting fuel gas cylinders or containers shall be equipped with at least one fire extinguisher having a rating of 20-BC, permanently mounted and readily accessible to the driver.

- (3) Drivers of vehicles transporting fuel gas for welding and cutting shall be physically able to perform the job, careful, capable, reliable, familiar with traffic laws and the provisions of this Chapter, and shall not be addicted to or under the influence of intoxicants, narcotics or other dangerous drugs.
- (4) Vehicles transporting 1,000 pounds gross weight or more of flammable or nonflammable compressed fuel gas for welding and cutting shall carry placards on the front, rear and sides which meet DOT requirements.

Rule 120-3-14-.03. Reporting of Fires and Serious Accidents.

Every person who owns, operates or is responsible for a natural gas system or appliance covered by this Chapter and who suffers a fire or serious accident involving natural gas shall notify the State Fire Marshal's Office as soon as possible but not later than eight hours of the incident occurring. In addition to the initial notification, every person who owns, operates or is responsible for a natural gas system or appliance covered by this Chapter and who suffers a serious accident involving natural gas shall make a written report thereof to the State Fire Marshal within 72 hours. A serious accident shall be one which results in loss of life, hospitalization, or damage to property involving \$5,000.00 or more. This applies to piping systems as defined in NFPA 54 and CNG dispensing stations as defined in NFPA 52.

Rule 120-3-14-.06. Permit Requirements for Dispensing Compressed Natural Gas for Vehicular Fuel.

- (1) It is prohibited for any person to dispense compressed natural gas in the state of Georgia except by authority of a written permit issued by the State Fire Marshal in conformance with these rules and regulations.
- (2) An application for a permit to dispense compressed natural gas for vehicular fuel shall be submitted to the State Fire Marshal.
- (3) Upon receipt of a properly executed application for a permit to dispense compressed natural gas, the State Fire Marshal may make, or cause to be made, an investigation for the purpose of ascertaining if the requirements of these rules and regulations have been complied with, and issue the permit before the system may begin operation.

Rule 120-3-14-.07. Submission of Plans/Fees.

Complete plans and specifications for all systems involving the storage of motor fuel (CNG) shall be submitted in duplicate to and receive approval by the State Fire Marshal before installation is started. Such plans shall be drawn to scale and be of sufficient detail and clarity as necessary to indicate the nature and character of the proposed system and its compliance with this Chapter. One copy of the plans shall be retained by the State Fire Marshal and one copy shall be returned to the applicant with the approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the construction site for inspection by authorized representatives of the State Fire Marshal. Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans for each storage facility shall be accompanied by a plan review fee payable to the Safety Fire Commissioner. Pursuant to O.C.G.A. Section [25-2-16](#), the plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Safety Fire Commissioner or his designee.

Subject 120-3-16. RULES AND REGULATIONS FOR LIQUEFIED PETROLEUM GASES.

Rule 120-3-16-.01. Promulgation and Purpose.

- (1) These Rules and Regulations governing the distribution, sale, transportation, storage, handling and use of liquefied petroleum gases are promulgated jointly by the Georgia Safety Fire Commissioner pursuant to O.C.G.A. Sections [25-2-4](#) and [25-2-16](#), and the State Fire Marshal pursuant to O.C.G.A. Section [10-1-265](#).
- (2) The purpose of these rules and regulations is to provide precautionary and protective techniques that are reasonable and practical measures for the prevention of injury to persons and property from the storage, transportation and handling of liquefied petroleum gases, and to provide reasonably necessary measures for the protection of the health, welfare, and safety of the public and persons using such materials.
- (3) Pursuant to O.C.G.A. Section [10-1-270](#), no municipality or other political subdivision of this State shall adopt or enforce an ordinance, rule, or regulation in conflict with Article

10 of Chapter 1 of Title 10 of the Official Code of Georgia or with these Rules and Regulations.

- (4) The Safety Fire Commissioner and/or the State Fire Marshal of Georgia shall have the authority to act in all matters related to this Chapter, pursuant to O.C.G.A. Sections [25-2-3](#), [25-2-4](#), [25-2-5](#), and [25-2-16](#).

Rule 120-3-16-.02. Definitions.

The definitions contained herein are in addition to and in clarification of those contained in the adopted codes and standards.

- (1) ASME. The American Society of Mechanical Engineers.
- (2) AUTHORITY HAVING JURISDICTION. The State Fire Marshal of Georgia.
- (3) COMMISSIONER. The Georgia Insurance and Safety Fire Commissioner.
- (4) CONFINED SPACE. For the purpose of this Chapter, a space whose volume is less than 50 cubic feet per 1000 Btu per hour (4.8 m³ per kW) of the aggregate input rating of all appliances installed in that space.
- (5) CYLINDER EXCHANGE OPERATION. This operation, also referred to as cylinder staging racks or cages, requires specific approval. No product transfer takes place at these holding locations. All cylinders, empty or full, are secured in an approved rack or cage. The cylinder inspection, requalification, reconditioning and product transfer takes place at the licensed dealer's distribution plant (see definition in NFPA 58) by the dealer's properly trained personnel. All cylinders are provided with the required markings, labeling and each requalification is duly recorded for compliance with applicable DOT regulations and NFPA 58, Appendix C.

- (6) DEALER IN LIQUEFIED PETROLEUM GAS. Any person who sells or offers to sell liquefied petroleum gas to an ultimate consumer for agricultural, industrial, commercial or domestic use.
- (7) DISPENSING OPERATION. A dispensing facility or vehicle fuel dispenser as defined in NFPA 58 and used to dispense liquefied petroleum gas to the ultimate consumer.
- (8) DOT. The United States Department of Transportation.
- (9) INSTALLATION. The act of installing apparatus, piping, tubing, appliances, and equipment necessary for storing and converting liquefied petroleum gas into flame for light, heat, cooling or power for use by the ultimate consumer.
- (10) NFPA. The National Fire Protection Association.
- (11) PERSON. Any individual, firm, partnership, corporation, company, association, joint stock association, and any trustee, receiver, assignee or personal representative thereof.
- (12) SAFETY FIRE DIVISION. The Safety Fire Division of the Office of Insurance and Safety Fire Commissioner, headed by the State Fire Marshal appointed by the Commissioner.
- (13) ULTIMATE CONSUMER. Any person who is the last to purchase liquefied petroleum gas in its liquid or vapor state for agricultural, industrial, commercial or domestic use.
- (14) UNCONFINED SPACE. For the purpose of this Chapter, a space whose volume is not less than 50 cubic feet Per 1000 Btu per hour (4.8 m³ per kW) of the aggregate input rating of all appliances installed in that space. Rooms communicating directly with the space in which the appliances are installed, through openings not furnished with doors, are considered a part of the unconfined space. All the space that connects to the region that contains the appliance(s) can be combined to calculate the volume, provided there are no doors intervening.
- (15) WALLET CARD. A picture identification card issued by the Georgia State Fire Marshal's Office establishing an individual's certification for a specific area of liquefied petroleum gas industry operations.

Rule 120-3-16-.03. Licenses; Fees and other Requirements.

- (1) Except as provided herein, no person shall manufacture, distribute, sell or store for sale or transportation, liquefied petroleum gas without a license issued by the Safety Fire Division in accordance with this Chapter.
- (2) Only Georgia dealers or owners with a valid license issued by the Safety Fire Division in accordance with this Chapter shall introduce liquefied petroleum gas into a container at any location in the state for storage or dispensing of liquefied petroleum for sale or transportation.
- (3) The required one-time license fee pursuant to O.C.G.A. Section [25-2-4.1](#) shall be submitted with the license application and shall be payable to the Safety Fire Commissioner.
- (4) No license shall be required for:
 - (a) The sale or storage of liquefied petroleum gas in containers meeting DOT specifications and having a maximum water capacity of two and one half (2.5) pounds, such as those used with self-contained hand torches, camp stoves, and similar appliances.
 - (b) Cylinder exchange and dispensing operations conducted by licensed Georgia Dealers at their bulk plants with a current license. Dealers shall provide a listing of locations of the cylinder exchange racks/cages for inspection and compliance with Chapter 8 of NFPA 58 and other applicable codes.
 - (c) Ultimate consumer operations.
- (5) Every entity who desires to be licensed to sell or distribute liquefied petroleum gas in this state shall have located within the state and within close proximity to the area serviced in Georgia storage capacity for a minimum of 30,000 water gallons, except that entities initially licensed prior to July 1, 1990, may continue to operate with the previously approved 18,000 gallons storage facility. If the 30,000 gallon capacity consists of more than one container, then no storage container used to meet this requirement shall be of a size less than 6,000 gallons. Any person who desires a liquefied petroleum gas dealer license as authorized by O.C.G.A. Title 10, Chapter 1, Article 10 and who has not yet acquired the required storage facility may enter into a bulk storage lease agreement with such qualified person on the forms provided by the Safety Fire Division. Such agreement shall be made in triplicate and the license fee shall be the same as stated in subparagraph (3) of this rule. If the required storage facility is leased or rented, then such storage capacity must be dedicated to the exclusive use of the lessee and must include separate piping and loading/unloading facilities.

- (6) Prior to obtaining a license for any of the activities listed in subsection (1) of this Rule, all persons shall furnish the Safety Fire Division with evidence of and shall thereafter maintain the following insurance coverage with an insurer authorized to do business in this State or an insurer regulated pursuant to O.C.G.A. Title 33, Chapter 5, if insurance cannot be obtained from an insurer authorized to do business in this State:
- (a) General liability including products and completed operations:
 - 1. \$1,000,000 combined single limits if the capacity is more than 2,000 gallons.
 - 2. \$500,000 combined single limits if the capacity is 2,000 gallons or less.
 - (b) Motor vehicle liability (when applicable): \$1,000,000 combined single limits.
 - (c) An insurer which provided such coverage shall notify the Commissioner of any change in coverage.
- (7) The name under which a person is licensed shall appear on all delivery tickets, delivery vehicles, and storage facilities. Nothing herein shall prohibit the use of trademarks, symbols or logos in addition to the licensee's name. Nothing herein shall prohibit the use of cash register receipts without the name of the business at portable DOT cylinder filling facilities.
- (8) Any license issued pursuant to this Chapter may be suspended or revoked by the Safety Fire Division in accordance with O.C.G.A. Section [10-1-269](#).

Rule 120-3-16-.04. Training Requirements for Georgia Liquefied Petroleum Gas Industry Workers.

- (1) Each Georgia liquefied petroleum gas industry worker whose primary duties fall within the scope of Georgia Rules and Regulations 120-3-16 shall be trained in proper handling

procedures and shall be certified by the Georgia State Fire Marshal's Office for the particular job function that they perform. The training curriculum shall be the Certified Employee Training Program (CETP) or equivalent program approved by the Georgia State Fire Marshal's Office to include employees engaged as delivery drivers and/or service and installation technicians.

- (a) Existing industry workers whose primary duties fall within the scope of Georgia Rules and Regulations 120-3-16 shall be certified. The Georgia State Fire Marshal's Office may define who is an existing industry worker, determine when an existing industry worker must be certified, and develop the criteria for certification of existing industry workers when documentation of prior certification does not exist. One of the following methods will be used as certification criteria:
 - 1. Written or oral examination
 - 2. Work performance review
 - 3. Observation during performance of the job
 - 4. On the job training
 - (b) New industry workers including seasonal or part-time workers, employed after the effective date of this regulation must comply with certification requirements within 12 months of their original date of hire. Other workers that do not meet the requirements of existing industry workers listed in paragraph 120-3-16-.04(1) (a) above or whose certification has expired as described in subsection 120-3-16-.04(3) must comply with certification requirements within 12 months of the original date of hire, expiration of certification, or re-entry into the liquefied petroleum gas industry. Prior to certification, employees may perform duties for which they have been properly trained as per NFPA 58 and other appropriate regulatory agencies.
- (2) Every Georgia liquefied petroleum gas industry worker must acquire a minimum of six hours of Continuing Education Units (CEU) every three years to maintain their certification.
 - (3) Certification belongs to the Georgia liquefied petroleum gas industry worker and follow the industry worker upon change of employment within the Georgia liquefied petroleum gas industry. A copy of the industry worker's certificate shall be provided to their employer. Certification shall not expire unless:
 - (a) CEUs required by subsection 120-3-16-.04(2) are not maintained
 - (b) Industry Worker's employment within the liquefied petroleum gas industry has lapsed for a period of more than one year

- (c) The Commissioner deems that revocation of the industry worker's certification is necessary due to gross negligence or violation of this regulation
- (4) A wallet card indicating valid certification shall be issued by the Georgia State Fire Marshal's Office to the liquefied petroleum gas industry worker. This wallet card shall be kept with the industry worker at all times during which they are conducting business and shall be made available to authorities, State or Local, upon request. The wallet card shall be issued in the following classes:
 - (a) Class I: Basic Transfer and Handling
 - (b) Class II: Delivery
 - (c) Class III: Service /Installation
 - (d) Class IV: Bulk Operator
 - (e) Class V: Delivery and Service / Installation
- (5) Certain records regarding certification shall be maintained by the appropriate party and maintained as current.
 - (a) The Georgia State Fire Marshal's Office shall:
 - 1. Maintain permanent certification records submitted by the Georgia liquefied petroleum gas industry worker
 - 2. Maintain a database of CEU's
 - 3. Notify Certificate holder of upcoming CEU renewal requirements
 - (b) The Georgia liquefied petroleum gas industry worker shall:
 - 1. Maintain personal CEU's
 - 2. Maintain their wallet card that is issued by the Georgia State Fire Marshal's Office
 - (c) The licensed dealer in liquefied petroleum gas shall:
 - 1. Maintain employee records indicating the status of certified employment base
- (6) A Propane Industry Education Advisory Panel shall be appointed by the Commissioner and shall advise or recommend appropriate continuing education unit curriculum. The panel shall consist of five members: one independent propane marketer, one multi-state propane marketer, one propane industry supplier representative, one at-large member, all

to be appointed by the executive committee of the Georgia Propane Gas Association and a representative of the State Fire Marshal. Each member of the advisory panel will serve a three year term. Members of the advisory panel will elect a chairman and vice chairman. The Vice Chairman shall succeed the Chairman.

Rule 120-3-16-.05. Submission of Plans.

- (1) Complete plans and specifications for all systems involving the aggregate storage capacity of over 2,000 water gallons of liquefied petroleum gas shall be submitted in duplicate to, and receive approval by, the Safety Fire Division before installation is started. Complete plans and specifications for all systems involving storage of any capacity, used for the dispensing of liquefied petroleum gas as vehicular fuel, and located within 50 ft. of any facility dispensing flammable or combustible liquids as outlined in Georgia Rules and Regulations 120-3-11 shall be submitted in duplicate to, and receive approval by, the Safety Fire Division before installation is started. Pursuant to O.C.G.A. Sections [25-2-4.1](#) and [10-1-266](#), the plans shall be accompanied with the plan review fee payable to the Safety Fire Commissioner. Pursuant to O.C.G.A. Section [25-2-16](#), the plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Safety Fire Division.
- (2) Plans shall be submitted in duplicate and shall include, at a minimum, the following:
 - (a) Scaled site plan (shall include all buildings and property lines)
 - (b) Storage container location(s)
 - (c) Container Drawings (shall include all piping connections, valves, and appurtenances)
 - (d) Container Pier Drawings (if applicable)
 - (e) Piping, valve, and associated equipment layout and arrangements

- (f) Electrical conduit layout and arrangements
 - (g) Corrosion protection (if applicable)
 - (h) Equipment list and specifications (shall include make and model of equipment)
 - (i) A copy of the container data plate (picture, rubbing, marking, etc.)
 - (j) Other information necessary to show compliance
- (3) Submissions for storage containers shall also include the following:
- (a) A site approval by a representative of the State Fire Marshal
 - (b) A Fire Safety Analysis completed by the local fire authority
- (4) One set of plans shall be retained by the State Fire Marshal and one copy returned to the applicant with approval or disapproval indicated thereon. A copy of the approved plans shall be kept at the installation site during construction for inspection by authorized representatives of the State Fire Marshal or local authority.
- (5) Construction or the storage container installation, or associated equipment, shall not commence until the plans have been approved and returned to the applicant.
- (6) In lieu of plans, a final inspection shall be obtained from Safety Fire Division for the following:
- (a) All other systems, which may or may not require a license but involve the storage of 2,000 water gallons or less of liquefied petroleum gas, such as, cylinder filling plants open to the public, or dispensing and filling locations at commercial, industrial or mercantile sites.
 - (b) Cylinder exchange racks or cages which do not require a license. Dealers shall provide a listing of locations of the cylinder exchange racks/cages for inspection and compliance with Chapter 8 of NFPA 58 and other applicable codes.

Rule 120-3-16-.06. Reporting of Fires and Accidents.

All owners, managers or operators of all vehicles and equipment covered under this Chapter shall as soon as possible, but in no event later than eight hours of the incident occurring, shall notify the Safety Fire Division of all fires involving such vehicles and equipment and all accidents involving the same that may create a hazard to the public. In addition to the initial notification, all owners, managers or operators of all vehicles and equipment covered under this Chapter shall submit a written report to the Safety Fire Division within seventy-two (72) hours of the incident occurring.

Rule 120-3-16-.07. Adopted Codes and Standards.

Except to the extent modified herein, the following NFPA codes and standards are hereby adopted:

(1) NFPA 54, 2018 Edition, *National Fuel Gas Code*:

Modifications:

(a) Modifications to Chapter 3:

1. Delete subsection 3.3.81 in its entirety and substitute in its place the following:

"3.3.81 Qualified Agency. A Georgia licensed dealer in liquefied petroleum gas that is engaged in and is responsible for (1) the installation, testing, or replacement of gas piping or (2) the connection, installation, testing, repair,

or servicing of appliances and equipment and that has complied with all the requirements of Georgia Rules and Regulations 120-3-16."

2. Add a new subsection 3.3.106 to read as follows:

"3.3.106 Interruption of Service. Any time when there is a disruption in the flow of gas between the gas supply and the distribution piping, or any portion thereof."

(b) Modifications to Chapter 10:

1. Delete subsection 10.22.1 in its entirety and substitute in its place the following:

"10.22.1 Prohibited Installations. Unvented room heaters shall not be installed in bathrooms or bedrooms.

Exception No. 1: One listed wall-mounted unvented room heater equipped with an oxygen depletion safety shutoff system shall be permitted to be installed in a bathroom provided that the input rating shall not exceed 6,000 Btu/hr (1760 W/hr) and combustion and ventilation air is provided as specified in 10.1.2.

Exception No. 2: One listed wall-mounted unvented room heater equipped with an oxygen depletion safety shutoff system shall be permitted to be installed in a bedroom provided that the input rating shall not exceed 10,000 Btu/hr (2930 W/hr) and combustion and ventilation air is provided as specified in 10.1.2.

"NOTE: Exceptions No. 1 and No. 2 are acceptable installations to the Safety Fire Division [refer to 120-3-16-.02 12]."

(2) NFPA 58, 2020 Edition, Standard for the Storage and Handling of Liquefied Petroleum Gases:

Modifications:

(a) Modifications to Chapter 4:

1. Delete Section 4.4 in its entirety and substitute in its place the following:

"4.4 Qualifications of Personnel. Persons who transfer liquid LP-Gas, who are employed to transport LP-Gas, or whose primary duties fall within the scope of this code shall be trained in accordance with Section [120-3-16-.04](#)

of this Rule. Prior to obtaining a license for any of the activities listed in Section [120-3-16-.01](#) of this Rule, new applicant(s) must provide verification that all responsible persons such as owner or manager, and any employee(s) handling LP-Gas, have received and successfully completed safety training in the proper handling and operating procedures of LP Gas. This training shall be maintained and be kept up to date for the applicant's license to remain valid. The Applicant must be the owner or manager of the business applying for the LP-Gas license."

2. Delete subsections 4.4.1 - 4.4.4 in its entirety.

(b) Modifications to Chapter 5:

1. Add a new paragraph 5.2.1.12 to read as follows:

"5.2.1.12 The design, fabrication, and marking provisions for containers and features normally associated with container fabrication, such as container openings, appurtenances required for these openings to make the containers gas tight entities, physical damage protecting devices, and container supports attached to or furnished with the container by the manufacturer shall meet the requirements of this section. All tank distributors or firms who manufacture or sell ASME liquefied petroleum gas containers shall provide each Georgia dealer who purchases such containers with a manufacturer's data sheet for each container as set forth in Section VIII of ASME's Boiler and Pressure Vessel Code. All such data sheets shall be signed by an inspector regularly employed by an insurance company or authorized governmental unit who holds a Certificate of Competency and Commission from the National Board of Boiler and Pressure Vessel Inspectors. All dealers shall file such data sheets as part of their regular records, separated by name of manufacturer and serial number of the container. Such records shall be available during regular office hours for inspection by the Safety Fire Division or authorized agent thereof. This requirement shall also apply to containers which are utilized on trucks, semi-trailers, and trailers. When containers used in this State are purchased by control purchasing departments of companies, corporations, their subdivisions or individuals operating within this State, such records shall be retained by the department, subdivision or individual. Copies of the manufacturer's data sheets shall be available to the representative of the Safety Fire Division upon request."

2. Delete subsection 5.23.2 in its entirety and substitute in its place the following:

"5.23.2 Any appliance originally manufactured for operation with a gaseous fuel other than LP-Gas shall not be used with LP-Gas unless it is converted to use LP-Gas, and is tested for performance with LP-Gas before being placed into use. No person shall use liquefied petroleum gas as a source of pressure in operating spray guns and other equipment not specifically designed or intended to use liquefied petroleum gas."

(c) Modifications to Chapter 6:

1. Add a new subsection 6.1.4 to read as follows:

"6.1.4 General Provisions. Bulk storage facilities, cylinder filling facilities, and cylinder exchange staging areas shall have emergency contact information posted in a prominent location accessible to persons who might notice leaks, fires or other unsafe conditions. For bulk storage and cylinder filling facilities the letters shall be at least 2 inches high using approximately a 1/4 inch stroke. At cylinder exchange staging areas the letters shall be 3/4 inches high using approximately a 1/8 inch stroke. 'No smoking' signs shall be conspicuously posted."

2. Add a new paragraph 6.8.1.8 to read as follows:

"6.8.1.8 Piping, tubing or regulators shall be considered well supported when they are rigidly fastened in their intended position."

3. Add a new subsection 6.24.9 to read as follows:

"6.24.9_Security and Protection Against Tampering. Vaporizers shall have fencing or protection against tampering in accordance with 6.21.4 and protection against vehicle collision."

(d) Modifications to Chapter 7:

1. Add a new paragraph 7.2.2.20 to read as follows:

"7.2.2.20 No person shall introduce LP Gas into a container, evacuate a container, or otherwise modify or tamper with a container without the written permission of the container owner.

Exception: A Georgia dealer in LP-Gas may evacuate a container not owned by such dealer for the purpose of transferring the LP-Gas remaining in the container into a container which is owned by the dealer or the ultimate consumer, provided that the dealer owning the container to be evacuated is notified of the transfer. The Georgia dealer in LP-Gas

evacuating the container shall document such notification and shall maintain a record of the notification for a period not less than three years."

(e) Modifications to Chapter 8:

1. Add a new subsection 8.2.3 to read as follows:

"8.2.3 When cylinders are stored in exchange or storage cages, the name of the lp-gas supplier and the supplier's emergency contact information shall be posted on the front of the cage using letters 3/4 inches high using approximately a 1/8 inch stroke."

(f) Modifications to Chapter 9:

1. Add a new subsection 9.1.3 to read as follows:

"9.1.3 General Provisions."

2. Add a new paragraph 9.1.3.1 to read as follows:

"9.1.3.1 Drivers shall not be addicted to or under the influence of intoxicants or narcotics, and intoxicating beverages shall not be carried on or consumed in transport vehicles."

3. Add a new paragraph 9.1.3.2 to read as follows:

"9.1.3.2 Except during transfer operations, the liquid valve(s) of all tanks and cargo tanks trucks shall be closed by means of self-closing shut-off valves."

4. Add a new paragraph 9.1.3.3 to read as follows:

"9.1.3.3 The transfer of L.P. Gas from vehicle to vehicle at any location which is open to and readily accessible to the public and on any public highway, road, street, or alley is allowed only with approval of the Safety Fire Division except in emergency situations."

5. Add a new paragraph 9.4.6.3 to read as follows:

"9.4.6.3 In addition, the common name of the product or the words 'LIQUEFIED PETROLEUM GAS' shall be marked on the rear and sides of cargo tanks in letters at least 2 inches high using approximately a 1/4 inch stroke, with red letters upon a white background."

6. Add a new paragraph 9.4.6.4 to read as follows:

"9.4.6.4 The name and telephone number of the owner or operator of any vehicle required to be marked shall be displayed on each side of the vehicle in legible lettering."

Rule 120-3-16-.08. Request for Modification of Specific Requirements.

Upon receipt of a sworn affidavit from the owner stating all relevant facts and circumstances and such other information as may be required, the Safety Fire Division may determine that specific requirements of this Chapter and the NFPA codes and standards adopted herein should be modified to allow alternative arrangements that will secure as nearly equivalent measures as practical for the prevention of injury to persons and property. In their discretion, the Georgia Safety Fire Commissioner and the State Fire Marshal may jointly grant the requested modification.

Rule 120-3-16-.09. Inspections.

Authorized representatives of the Safety Fire Division may conduct inspections of all facilities subject to this Chapter. Upon determination by such inspection that a liquefied petroleum gas system or any part thereof is unsafe to the extent that it endangers life or adjacent properties, the inspector may red tag the entire system or a specified portion thereof. The red tag may be removed only by an authorized representative of the Safety Fire Division. Any system or portion of a system that has been red tagged may no longer be used until the red tag has been removed. In the event of a consumer complaint, fire, or explosion, all owners, managers or operators of all vehicles and equipment covered under this Chapter shall promptly and completely make available for inspection at the request of the Safety Fire Division all records regarding delivery receipts, inspections, installations, leak tests, maintenance, service calls, pressure tests, and tank lease agreements.

Rule 120-3-17-.03. Submission of Plans/Fees.

- (1) Complete plans and specifications for all systems involving the storage of liquefied natural or compressed natural gas shall be submitted to and receive approval by the State Fire Marshal before installation is started. Such plans shall be drawn to scale and be of sufficient detail and clarity as necessary to indicate the nature and character of the proposed system and its compliance with this Chapter. The plans shall be submitted to the State Fire Marshal and one copy shall be returned to the applicant with the approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the construction site for inspection by authorized representatives of the State Fire Marshal. Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans shall be accompanied by the mandatory plan review fee payable to the Safety Fire Commissioner. Pursuant to O.C.G.A. Section [25-2-16](#) the plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Safety Fire Commissioner or his designee.

Rule 120-3-17-.04. Reporting of Fires and Serious Accidents.

Every person who owns, operates or is responsible for storage and handling of liquefied natural gas as covered by this Chapter who suffers a fire or serious accident involving liquefied natural

gas shall notify the State Fire Marshal's Office as soon as possible but in no event later than eight hours of the incident occurring. In addition to the initial notification, every person who owns, operates or is responsible for storage of liquefied natural gas as covered by this Chapter shall make a written report thereof to the State Fire Marshal's Office as soon as possible, but in no event later than seventy-two (72) hours. A serious accident shall be one which results in loss of life, hospitalization, or damage to property involving \$5,000.00 or more.

Amended: F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency.

Subject 120-3-18. RULES AND REGULATIONS FOR FIRE SAFETY INSPECTION, OPERATION, LICENSING AND CERTIFICATION OF MOTOR VEHICLE RACETRACKS AND GRANDSTANDS.

Rule 120-3-18-.01. Promulgation and Purpose.

- (1) These Rules and Regulations for fire safety inspections, operation, licensing and certification of Motor Vehicle Racetracks and Grandstands are promulgated by the Georgia Safety Fire Commissioner as specified in the Official Code of Georgia Annotated (O.C.G.A.) Section [43-25-8](#). These are minimum requirements meant to provide reasonable safety to spectators during racing events and do not necessarily include requirements to protect participants and management of the racing activities.
- (2) An on-site inspection of all existing racetracks and all new proposed racetracks shall be made by the State Fire Marshal, the proper local fire official, state inspector, or authorized representative of the Safety Fire Commissioner to determine compliance with the overall requirements as set forth in these regulations. This on-site inspection, along with adherence to the written rules and regulations, shall determine whether such racetrack shall be issued a certificate of occupancy and license.
- (3) The purpose of these rules and regulations is to prevent injury and loss of life to spectators while observing and viewing motor vehicles engaged in contests of speed or endurance.
- (4) These regulations are directed primarily for the construction and operation of motor vehicle racetracks: No attempt has been made to establish specific design in detail for motor vehicle racetracks. It must be realized that the terrain of the racetrack itself could, in some cases, create an undue hazard or on the other hand, promote a particular safety feature with reference to the elevation of the land in relation to the racetrack itself.

Repealed: New Rule with same title adopted. F. June 3, 1987; eff. June 25, 1987, as specified by the Agency.

Repealed: New Rule with same title adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-3-18-.02. Administration.

- (1) It shall be unlawful for any person, firm or corporation to operate any motor vehicle racetrack or other facility, by whatever name called, within this State whereby motor vehicles engage in any contest of speed or endurance unless such racetrack or other facility is designed and constructed in such a manner to conform to the standards set forth herein.
- (2) It shall be unlawful for any person, firm, or corporation to operate or conduct any motor vehicle race or any permanent racetrack or other place where such races are to be held unless there shall first be obtained a license to operate or conduct such races from the Safety Fire Commissioner. Such license shall expire on December 31 of each year. Application for renewal of license shall be made on or before November 30 of each year. Application for license or renewal of license shall be made to the Safety Fire Commissioner and shall include at a minimum the following:
 - (a) A full and complete address of the racetrack or other place desired to be licensed.
 - (b) The name and address of the licensee.
 - (c) The name and address of the promoter of such race or exhibition if applicable.
 - (d) Proof of a valid public liability insurance policy or valid public liability bond in the amounts as specified in O.C.G.A. § [43-25-4](#).
 - (e) An inspection report of the racetrack conducted by the proper local fire official, state inspector, or authorized representative of the Safety Fire Commissioner indicating compliance with applicable laws, regulations, and standards. Inspection requests shall be made 21 calendar days in advance.
 - (f) A diagram of the track indicating all spectator areas.
 - (g) Any further information as may be required by the Safety Fire Commissioner.
- (3) It shall be unlawful for any person, firm or corporation to operate any motor vehicle racetrack or other facility, by whatever name called, within this State without first having a Certificate of Occupancy issued by the State Fire Marshal or the proper local fire or building official. This Certificate of Occupancy shall be issued by the State Fire Marshal or the proper local fire or building official, only when the authority having jurisdiction is satisfied that such Rules and Regulations have been complied with. The fee for such Certificate of Occupancy shall be as specified in O.C.G.A Section [25-2-4.1](#).
- (4) The Certificate of Occupancy shall be valid for the life of the occupancy, provided the internal or external features of the occupancy are not materially altered, the type of

occupancy remains unchanged, and there has been no fire of serious consequence or other hazard discovered.

- (5) All racetrack owners, operators, managers, and promoters shall be familiar with all applicable state laws and the provisions of this Chapter.

Rule 120-3-18-.03. Definitions.

The definitions contained in this section are in addition to, or in clarification of those contained in the adopted standards:

- (1) **AUTHORITY HAVING JURISDICTION:** The State Fire Marshal of Georgia.
- (2) **CROWD CONTROL OFFICER:** A Georgia POST Certified Law Enforcement Officer in good standing and employed by a Georgia Law Enforcement Agency as defined by Georgia POST.
- (3) **DEMOLITION DERBY:** For the purposes of this Chapter a demolition derby shall be a contest in which vehicles purposefully collide with one another with the winner being the last drivable vehicle. A demolition derby is considered a contest of endurance.
- (4) **FENCE AND FENCING:**
 - (a) **SPECTATOR AND DEBRIS FENCE:** For the purposes of this Chapter a Spectator and Debris control fence is a fence erected to aid in preventing debris from the racetrack side from entering the spectator area.
 - (b) **CROWD CONTROL FENCE:** For the purposes of this Chapter a Crowd Control Fence is an approved fence that prevents access by the crowds into restricted areas such as pits, non-spectator areas, the racetrack, run-off areas, and similar areas as designated by the Authority Having Jurisdiction or proper local fire official. For the purposes of this Chapter all fences which are not Spectator and Debris control fences shall be considered a Crowd Control Fence whether or not specifically identified as such in this Chapter.

- (5) **FIRE INSPECTORS:** Qualified and authorized inspectors of the Office of Commissioner of Insurance and Safety Fire and inspectors certified by the Georgia Firefighters Standards and Training Council.
- (6) **FLAGMAN:** As used in this Chapter the term flagman shall mean the person or individuals who are responsible for notifying the racecar drivers by means of a colored flag or other means to start the race or notify racecar drivers that there is a caution or to stop the race. A primary responsibility of the Flagman is to identify and communicate unsafe conditions that are present on the racetrack. May also be known as a "corner worker".
- (7) **GRANDSTANDS:** Any permanent or temporary structure used for the purpose of general assembly outlined in the NFPA as specified by Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3.
- (8) **MOTOR VEHICLE:** As used in this chapter, the term "motor vehicle," shall not be construed to include any motorcycle or other two-wheeled, self-propelled vehicle, nor shall it be construed to include any motor vehicle weighing less than 500 pounds, per §O.C.G.A. [43-25-1](#). For the purposes of this chapter, "Motor vehicle" includes all-terrain vehicles and utility-task vehicles having more than two wheels and a dry weight of 500 pounds or more.
- (9) **MOTOR VEHICLE RACETRACK:** Properties or facilities used for holding motor vehicle races, competitive events, and exhibitions, including dirt and mud courses. As used in this Chapter, the term "racetrack" shall mean motor vehicle racetracks. For the purposes of this chapter, "Motor Vehicle Racetrack" includes properties or facilities where all-terrain vehicles and utility-task vehicles participate in races, competitive events, exhibitions, dirt courses, and mud courses. "Motor Vehicle Racetracks" does not include properties where autocross events or drifting events are held on a transient basis.
- (10) **MUD BOG:** An event in which the winner is determined by distance or time on a mud course.
- (11) **QUALIFIED FIRE FIGHTER:** A certified or registered firefighter as determined by the Georgia Firefighter Standards and Training Council.
- (12) **SAFETY FIRE COMMISSIONER:** The Georgia Commissioner of Insurance and Safety Fire.
- (13) **SPECTATOR:** As used in this Chapter, the term spectator shall mean any individual within the confines of the track who is not an employee, contractor, race participant, emergency worker, or other similar person whether or not an admission price was charged.
- (14) **SPECTATOR AREA:** As used in this Chapter, the term "spectator area" means a specified area within a motor vehicle racetrack intended for admission to the general public, whether or not an admission price is charged, or to which admitted persons of the

general public have unrestricted access, including the grandstands and other general admission seating or viewing areas. Spectator areas shall also include any infield and paddock areas where the general public is allowed admission.

- (15) **STARTER:** As used in this Chapter the term starter shall mean the person who signals or activates a signal for the race to start.
- (16) **TRUCK AND TRACTOR PULL:** A competition which requires trucks and / or tractors to pull a heavy sled along a designated course. This term shall also include competitions where trucks and / or tractors are pulling against one another.

Rule 120-3-18-.04. Inspection Procedures.

- (1) Authorized representatives of the State Fire Marshal, or the proper local fire official may make periodic inspections of each racetrack to determine compliance with the provisions of this Chapter. Results of each inspection shall be provided to the responsible owner/operator.
- (2) The owner or operator of the facility shall be responsible for the correction of noted violations and for maintaining the facility in accordance with these rules and regulations and shall correct all violations prior to any racing event. The State Fire Marshal or their authorized representatives may conduct an inspection of any racetrack facility. This inspection can be made prior to, or during any racing activity with or without prior notice.

Rule 120-3-18-.05. Standards for Grandstands Used for Places of Assembly.

- (1) **New Construction:** All grandstands shall be designed by a Georgia registered architect or engineer and constructed to conform with NFPA 101 as adopted in the Rules and

Regulations of the Safety Fire Commissioner, Chapter 120-3-3. A complete set of plans and specifications shall be reviewed, approved and a construction permit issued by the State Fire Marshal or the proper local fire official prior to construction. A fee as specified in O.C.G.A. Section [25-2-4.1](#) shall be charged for reviewing the plans and specifications. The responsible registered architect or engineer shall notify the State Fire Marshal or the proper local fire official in writing 21 days before the grandstand(s) are 80% complete so that an inspection can be scheduled and conducted. The responsible registered architect or engineer shall notify the State Fire Marshal, the proper local fire official, state inspector, or authorized representative of the Safety Fire Commissioner again in writing 21 days before the grandstand(s) are 100% complete. A certificate of occupancy shall be issued upon compliance with all construction standards. A fee as specified in O.C.G.A. Section [25-2-4.1](#) shall be charged for the certificate of occupancy.

- (2) Existing Grandstands: Existing grandstands shall comply with NFPA 101 as adopted in Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3.
- (3) Maintenance of Grandstands: The grandstand area shall be properly maintained at all times, and combustibles, flammable and combustible liquids, and LP-Gas cylinders shall not be stored on or below the grandstand(s). The owner or operator shall provide for not less than an annual inspection and required maintenance of each outdoor grandstand to ensure safe conditions. At least biennially, the inspection shall be performed by a professional engineer, registered architect, or individual certified by the manufacturer. The owner or operator shall provide a copy of the inspection report and certification that the inspection has been performed to the State Fire Marshal.
- (4) Exit Illumination: When races are conducted after sundown, lighting of all exit ways, aisles and walkways of the grandstand(s) shall be provided as required in NFPA 101 as adopted in Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3.
- (5) Portable Grandstands: Portable grandstands shall comply with NFPA 101 as adopted in Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3.

Rule 120-3-18-.06. Standards for Concession and Dining Areas.

- (1) Concession areas, including dining areas, shall comply with NFPA 101 Life Safety Code and NFPA 96 Standard for Ventilation Control and Fire Protection of Commercial

Cooking Operations as adopted in Rules and Regulations of The Safety Fire Commissioner Chapter 120-3-3.

- (2) Whenever an existing kitchen hood or exhaust system is altered or replaced it shall be altered or replaced in full compliance with all applicable sections of NFPA 96 Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations as adopted in Rules and Regulations of The Safety Fire Commissioner Chapter 120-3-3.
- (3) Prior to a license being issued, fire-extinguishing equipment for the protection of grease removal devices, hood exhaust plenums, and exhaust duct systems shall be provided by the owner or operator.
- (4) Cooking equipment that produces grease-laden vapors and that might be a source of ignition of grease in the hood, grease removal device, or duct shall be protected by fire extinguishing equipment.
- (5) Upon activation of any fire-extinguishing system for a cooking operation, all sources of fuel and electrical power that produce heat to all equipment requiring protection by that system shall automatically shut off.
- (6) Upon activation of an automatic fire-extinguishing system, an audible alarm or visual indicator shall be provided by the owner or operator to show that the system has activated.
- (7) Where a fire alarm signaling system is serving the occupancy where the extinguishing system is located, the activation of the automatic fire-extinguishing system shall activate the fire alarm signaling system.
- (8) At least one Class K fire extinguisher shall be provided by the owner or operator and installed as required by NFPA 96 and NFPA 10.

Rule 120-3-18-.07. Motor Vehicle Racetracks.

- (1) General Requirements for all Motor Vehicle Racetracks
 - (a) All barriers, fencing, guard rails, and deflectors required under this Chapter shall be inspected by facility owners and / or operators prior to each racing event or exhibition. Damaged, deteriorated, or missing components shall be repaired or

replaced prior to any activities subject to the license of the facility. All inspections, deficiencies, and repairs shall be documented by the facility owners and / or operators. These documents shall be maintained by the facility for a minimum of three years and shall be made available to the authority having jurisdiction upon request.

- (b) The owner or lessee of any real property upon which exists a motor vehicle racetrack or other place subject to this chapter shall inform the Safety Fire Commissioner within ten days of any damage caused to any guardrail, post, or other device which has for its purpose the prevention of injury or loss of life to spectators at the racetrack or other place. Until any such damage is repaired and the repairs are approved by fire inspectors, there shall be no activities subject to the license of the facility permitted on such racetrack or other place.
- (c) Prior to each racing event or exhibition, racetracks shall be inspected by the facility owners or operators for any obstructions or debris. All obstructions or debris which may cause a vehicle to lose control under racing conditions and endanger spectators shall be removed prior to the racing event. Such inspections shall be documented by the facility owners and / or operators.
- (d) Any person including, but not limited to, staff, crew, press, and photographers with pit and track access shall be provided with a means to be readily identifiable. Such means may include displayed credentials, identified vests, shirts, or other means approved by the State Fire Marshal.
- (e) Where required by this Chapter, spectator and debris control fences shall have catch cables installed as follows:
 - (1) There shall be a minimum of four catch cables, equally spaced along the height of the fence.
 - (2) The bottom strand of catch cable shall be a minimum of 3/4 inch diameter.
 - (3) The remaining strands of catch cables shall be a minimum of 3/8 inch diameter.
 - (4) Catch cables shall be corrosion resistant.
 - (5) Catch cables shall be rigidly anchored, with anchor points designed by a Georgia registered architect or engineer to withstand the maximum anticipated load generated during a vehicular impact.
 - (6) Catch cables shall not be anchored to fence posts.
 - (7) Catch cables may be supported by fence posts and shall be installed to allow for absorption of vehicular impact.

(2) Circular, Oval, and Similar Racetracks

- (a) This subsection applies to circular, oval, and similar racetracks.
- (b) Spectator Exposure: Guard rails shall be designed to be reasonably effective in preventing vehicle penetration and redirecting errant vehicles. The minimum requirements for guard rail posts shall be six inches by six inches and of treated timbers or the equivalent, embedded a minimum of four feet and exposed a minimum of three feet, and placed on a maximum 6-foot centers. These posts shall be embedded in holes packed tightly with gravel and dirt. The guard rails shall be constructed two inches thick by eight inches wide oak planking or the equivalent. There shall be at least four such guard rails. The first guard rail shall be placed even with the top of the post, and the other three rails shall be at one-inch intervals to constitute the required four, two inch by eight inch rails. Guard rails shall be provided to protect spectator and other occupied areas where the design, layout or ground level of the areas must be protected as determined by the authority having jurisdiction. Guard rails or the equivalent are required on both sides of the track where spectators are permitted in the infield.
- (c) The Spectator Area(s) shall be maintained by the owner/operator of the facility. Spectator areas shall be located behind a spectator and debris control fence. This fence shall be constructed of heavy gauge wire mesh, installed on a minimum of 2 5/8 inch (outside diameter) or a minimum of 2 inch (inside diameter) pipe or equivalent. The fence posts shall be installed on a maximum eight-foot centers. All wire fences shall be grounded. These posts shall be embedded in a minimum of four feet of gravel and dirt. The fence shall be a minimum of 15 feet above track level. This fence shall be so designed, constructed, and erected to withstand normal crowd control use and deflection of debris from the racetrack side, and shall be provided with catch cables installed in accordance with this Chapter.
- (d) Where metal posts are used, the wire shall be affixed to the post by lacing or attaching the wire to the post with wire of the same gauge as the wire fence. Where wood is used, the wire shall be affixed to the post with wire staples, the same size as the wire. The wire shall be hung loosely in a fashion that will permit a basket-type arresting system. This fence shall be constructed to prohibit spectators' access to the track area. No spectator(s) shall be permitted on the racetrack during trial runs, testing or racing events.
- (e) Non-Spectator Exposed Area: Adequate metal deflectors, similar to those in highway construction and equivalent in strength, are permitted where there is no spectator exposure as determined by the authority having jurisdiction.
- (f) The pit areas shall be properly segregated from spectator exposure and where necessary, physical barricades made of adequate fencing material shall be installed. Spectator and debris control fencing in accordance with 120-3-18-.07(2)(b) shall be provided for all spectator areas located within the pit areas.

Close policing and supervision of the pit area shall be enforced at all times. Adequate type and size portable fire extinguishers shall be installed throughout the pit area. This need shall be determined by the on-site inspection.

- (g) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.
- (h) Flagman shall be at least 18 years of age and shall not be under the influence of intoxicants, narcotics, and other dangerous drugs while performing their duties. Flagmen shall be provided with a working area that will ensure their safety at all times. The flagman in control of the event shall be provided with a means to prevent the flagman from being struck by any debris which may come from the racetrack. The flagman's vantage point shall provide a view of the entire racetrack. The flagman shall not be permitted to work on the track surface under any circumstances while racing events are in progress.
- (i) Prior to each racing event or exhibition track surfaces shall be inspected and maintained in good condition.

(3) Drag Strips

- (a) This subsection applies to drag strips.
- (b) No person shall be allowed in the competition or staging area except event officials, drivers, and pit crew members.
- (c) Guardrails shall be designed to be reasonably effective in preventing vehicle penetration and redirecting errant vehicles. The minimum requirement for guard rail posts shall be of the highway type "I" beam with guard rail posts on a maximum of 12-foot centers or equivalent. Posts shall be embedded in a minimum of 3 feet in concrete and exposed a minimum of 2 feet. The guard rail shall be mounted on the "I" beam beginning at the top of the "I" beam and secured with bolts and nuts a minimum of 5/8 inch diameter. Guardrails shall be erected on both sides of the strip to extend from the start to finish line. Where spectators or automobile parking are permitted beyond the finish line, the guard rail shall be extended to include these areas. Guardrails shall be erected no more than 3 feet from the edge of the racetrack surface. The entire racing strip shall be paved.
- (d) Crowd Control Fence: A crowd control fence shall be installed a minimum of 20 feet from the guard rails. The fence shall be of the heavy chain link fence type. The fence shall be a minimum of 48 inches high and mounted on steel posts a minimum of 1 1/2 inch inside diameter and on a maximum of 8-foot centers. A metal top rail shall be installed the entire length of the fence. The fence shall be installed in such a manner to ensure that spectators are not permitted on the

racetrack. No spectator shall be permitted on the racetrack side of the fence during time trial runs, testing or racing events. All wire fences and metal guard rails shall be grounded.

- (e) The racing pit area shall be properly segregated from spectator exposure and where necessary, physical barricades made of adequate fencing material shall be installed. Where a physical barricade is impractical due to the pit area location or movement of the vehicles, crowd control officers shall be provided in numbers as needed to adequately provide spectator segregation and safe passage of spectators and the general public through the area. Close policing and supervision of the racing pit area shall be required at all times. Adequate type and size portable fire extinguishers shall be installed throughout the racing pit area. This need shall be determined by the on-site inspection.
 - (f) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.
 - (g) The starter shall be at least 18 years of age and shall not be under the influence of intoxicants, narcotics, and other dangerous drugs while performing their duties. The starter's vantage point shall provide a view of the entire racetrack.
 - (h) Prior to each racing event or exhibition racetrack surfaces shall be inspected and maintained in good condition.
 - (i) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.
- (4) Road Course Racetracks
- (a) This subsection applies to road course racetracks.
 - (b) Spectator Exposure: Guard rails shall be designed to be effective in preventing vehicle penetration and redirecting errant vehicles. Double row guard rails or other barriers shall offer similar protection such as reinforced concrete, earthen embankments, or other approved barriers shall be provided in primary spectator areas. The guard rails shall be made of steel or other materials of equivalent strength. Spacing, strength, and installation requirements shall be similar to those used in highway construction. The height, spacing, and strength shall be determined by the Inspector. A fence shall be installed not less than 25 feet behind the racetrack guard rail for spectator control. The fence shall be constructed of adequate wire to prohibit spectator access to the immediate racetrack area. The

minimum height of this fence shall not be less than 48 inches. All wire fences and metal guard rails shall be grounded.

(1) *the 25-foot distance between the racetrack guard rails and the spectator control fence shall be reduced to a minimum of five feet when the guard rail is four feet below the spectator area elevation.*

- (c) Fences shall be installed on 2 5/8 inch outside diameter steel posts or the equivalent and on a maximum of 10-foot centers and embedded in a minimum of 30 inches of concrete. A suitable metal railing or the equivalent shall be firmly secured at the top of each fence and shall run the entire length of the fence in the primary spectator areas.
 - (d) The racing pit area shall be properly segregated from spectator exposure and where necessary, physical barricades made of adequate fencing material shall be installed. Where a physical barricade is impractical due to the pit area location or movement of the vehicles, crowd control officers shall be provided in numbers as needed to adequately provide spectator segregation and safe passage of spectators and / or the general public through the area. Close policing and supervision of the racing pit area shall be required at all times. Adequate type and size portable fire extinguishers shall be installed throughout the racing pit area. This need shall be determined by the on-site inspection.
 - (e) Flagman shall be at least 18 years of age and shall not be under the influence of intoxicants, narcotics, and other dangerous drugs while performing their duties. Flagmen shall be provided with a working area that will ensure their safety at all times. The flagman in control of the event shall be provided with a means to prevent the flagman from being struck by any debris which may come from the racetrack. The flagman in control of the event shall be provided with a means of constant and immediate communication with other flagman to monitor racetrack areas which are not in view of the flagman in control. The flagman shall not be permitted to work on the racetrack surface under any circumstances while racing events are in progress.
 - (f) Prior to each racing event or exhibition racetrack surfaces shall be inspected and maintained in good condition.
 - (g) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.
- (5) Mud Bogs and Demolition Derbies
- (a) This subsection applies to mud bogs and demolition derbies.

- (b) Demolition Derbies that occur on licensed racetracks under this chapter shall comply with the requirements for that facility type and are exempt from the requirements of this section.
 - (c) No person shall be allowed in the competition or staging area except event officials, drivers, and pit crew members.
 - (d) All vehicles competing in mud bogs shall be equipped with a kill switch that is readily accessible to the driver and a tethered kill switch. One kill switch that combines these functions shall satisfy this requirement.
 - (e) Spectators shall be separated from the course edge by at least 50 feet. An approved means shall be provided to prevent spectators from approaching within 50 feet of the course edge.
 - (1) *Spectators may be separated from the course by less than 50 feet only where the course is equipped with a 1/2 inch restraining cable installed not more than 10 feet from the course edge and a secondary adequate means to prevent spectators from approaching within 20 feet of the restraining cable. The cable shall be securely anchored to 6x6 inch posts and set at a minimum of 48 inches height. Posts shall be spaced by not more than 8 feet on center installed with at least 36 inches firmly buried.*
 - (f) The starter shall be at least 18 years of age and shall not be under the influence of intoxicants, narcotics, and other dangerous drugs while performing their duties. The starter's vantage point shall provide a view of the entire course.
 - (g) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.
- (6) Truck and Tractor Pulls
- (a) This subsection applies to truck and tractor pulls.
 - (b) No person shall be allowed in the competition or staging area except event officials, drivers, and pit crew members.
 - (c) All vehicles competing in truck and tractor pulls shall be equipped with a kill switch that is readily accessible to the driver and a tethered kill switch. One kill switch that combines these functions shall satisfy this requirement. An additional kill switch that is tethered from the sled to the truck or tractor shall also be provided to shut off truck or tractor power in the event of sled separation from the truck or tractor.

- (d) Spectators shall be separated from the course edge by at least 100 feet. A means shall be provided to prevent spectators from approaching within 100 feet of the course edge.
- (e) The starter shall be at least 18 years of age and shall not be under the influence of intoxicants, narcotics, and other dangerous drugs while performing their duties. The starter's vantage point shall provide a view of the entire course.
- (f) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.

(7) Monster Truck Events

- (a) This subsection applies to monster truck events.
- (b) No person shall be allowed in the competition or staging area except event officials, drivers, and pit crew members.
- (c) All vehicles competing in monster truck events shall be equipped with three remote ignition interrupters; one controlled by the event safety official, one in the cab of the vehicle readily accessible to the driver, and one installed on the back of the vehicle.
- (d) For monster truck events held in arenas, where spectators are elevated above the area floor by at least five feet, spectators shall be separated from the course edge by at least 50 feet. Where spectators are elevated less than five feet above the arena floor, spectators shall be separated from the course edge by at least 100 feet.
- (e) For monster truck events held outdoors, spectators shall be separated from the course edge by at least 100 feet. Additionally, a temporary earthen barrier or approved equivalent means shall be provided around the course perimeter to slow any vehicle which may leave the course in an uncontrolled manner during the event. Earthen barriers shall be at least five feet high and designed to not act as a ramp.
- (f) The starter shall be at least 18 years of age and shall not be under the influence of intoxicants, narcotics, and other dangerous drugs while performing their duties. The starter's vantage point shall provide a view of the entire course.

(8) All-Terrain Vehicle and Utility-Task Vehicle Racetracks

- (a) This subsection applies to all-terrain vehicle racetracks and utility-task vehicle racetracks.

- (b) All terrain-vehicle and utility-task vehicle racetracks shall have designated spectator areas.
- (c) Spectator areas shall have a means to prevent spectators from entering within 25 feet of the racetrack edge.
- (d) The entire racetrack shall be constantly monitored and policed to ensure spectators remain in the designated spectator areas. Persons monitoring and policing the racetrack shall be provided with a means of constant and immediate communication with each other.

Repealed: New Rule with same title adopted. F. June 3, 1987; eff. June 25, 1987, as specified by the Agency.

Amended: F. Dec. 31, 1992; eff. Jan. 20, 1993.

Repealed: New Rule entitled "Motor Vehicle Racetracks" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-3-18-.08. Fire Suppression Equipment, and Personnel and Ambulance Service.

- (1) The following shall be considered mandatory minimum requirements for all facilities covered under this Chapter unless granted a variance by the Commissioner of Insurance and Safety Fire pursuant to OCGA [25-2-12\(e\)\(12\)](#).
 - (a) Mobile unit(s) providing a general firefighting and emergency response capable of reaching any point of the racetrack and/or grandstand(s) area(s) within two minutes after the receipt or observation of an emergency shall be on location and in service during all racing events where spectators are in attendance. If the two-minute response time cannot be achieved due to crowd size, topography, geography, facility size or for any other reason, additional Mobile Units shall be required. This unit shall be equipped with a minimum of two (2) 25-lb. Dry Chemical extinguishers. A complete First-Aid Kit shall be on the mobile unit and readily available at all times. At least two (2) qualified fire fighters shall be assigned to operate each unit.
 - (b) All fire extinguishers installed shall be located and be recognizable so as to be readily available to anyone. Fire extinguishers shall be distributed and maintained in accordance with NFPA 10 as adopted in Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-23 and O.C.G.A. Title 25, Chapter 12. Fire extinguishers shall be inspected, tested, and maintained in accordance with NFPA

10 as adopted in Rules and Regulations of the Safety Fire Commissioner Chapter 120-3-3.

- (c) At all racetracks and courses regulated by this Chapter, at least one (1) Georgia licensed Advanced Life Support (ALS) ambulance licensed in accordance with O.C.G.A. Title 31, Chapter 11, Article 2 shall be on location prior to any of the following commencing:

- (1) Any racing event
- (2) Time trials when spectators are present
- (3) Testing when spectators are present.

When only one ambulance licensed in accordance with O.C.G.A. Title 31, Chapter 11, Article 2, is on location and must leave, the event shall stop and not be restarted until such an ambulance has been returned to the racetrack.

- (d) Each racetrack facility shall maintain a minimum of two (2) private vehicle roads for ingress and egress. Each road shall have at least two (2) lanes that shall permit two-way traffic.
- (e) Areas in which emergency fire trucks, wreckers, and ambulances must operate shall be free, accessible, and serviceable at all times.
- (f) Subject to the approval of the Authority Having Jurisdiction, events sanctioned and governed by national and international organizations shall be permitted to utilize firefighting personnel not recognized by Georgia Firefighters Standards and Training Council, provided that such personnel provide documentation and certification that the individual is a firefighter in good standing with their state certifying agency or department when no certifying agency exists.

Rule 120-3-18-.09. Emergency Evacuation Plan.

The owner/operator shall be solely responsible to create and maintain a current emergency evacuation plan and to secure crowd control officers. These personnel shall be responsible for ensuring that all spectators standing or seated remain in designated spectator areas. Designated

aisles and other means of egress established shall continuously maintained free of all obstructions and impediments to full instant use at all times. The entire spectator area shall be zoned to ensure that a crowd control officer shall not have more than 2500 spectators under their jurisdiction. Where spectators number less than 2500, at least one (1) crowd control officer shall be assigned. Crowd control officers shall be thoroughly trained in crowd control and fire extinguisher type and application.

The crowd control officer shall constantly patrol their responsible area to make sure that control is maintained at all times. In the event of an emergency, the crowd control officer shall assist spectators in their zone to evacuate the area safely to a pre-designated place and then assist other officers as required to secure the area.

Repealed: New Rule with same title adopted. F. June 3, 1987; eff. June 25, 1987, as specified by the Agency.

Repealed: New Rule entitled "Emergency Evacuation Plan" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-3-18-.10. Reporting and Investigations of Accidents, Injuries, Fatalities and Fire.

- (1) The Safety Fire Commissioner shall be notified should the following events occur. The notification shall be made by the quickest means available, but in no case shall notification be made later than 8 hours after the occurrence of the event. Any event which results in a fatality shall be reported immediately at 1-800-282-5804. A follow-up written report shall be submitted electronically by the racetrack licensee via the online portal available at www.oci.georgia.gov within 24 hours of the event occurring.
 - (a) A report shall be completed and submitted when:
 - (1) A fatality is experienced from any cause;
 - (2) A race car injures a spectator, racing official, participant, member of the assisting crew of a participant, employee of the racetrack, or other person;
 - (3) Any injury or fatality is caused by a failure of grandstands, guardrails, or fences;
 - (4) Any injury or fatality is caused by a fire or from the fear of fire;
 - (5) Any injury or fatality is caused from panic.
 - (b) A report shall be completed and submitted on any fire which occurs within the boundaries of the racetrack.

- (1) *This fire report is not required for carburetor fires, brake fires, and electrical fires that involve race cars and which do not create a hazard to the spectators.*
- (c) The report shall include the following information at a minimum:
 - 1.) The name, date of birth, telephone number, and address of the injured parties;
 - 2.) The name, date of birth, telephone number, and address of any drivers involved, where applicable;
 - 3.) A list of any confirmed witnesses, including names and contact information;
 - 4.) The known circumstances of the event.
- (2) Investigators of the State Fire Marshal's Investigations Unit shall investigate any of the following incidents:
 - (a) When a race car injures a spectator, racing official, member of the assisting crew of a participant, employee of the racetrack, or other person;
 - (b) Any injury or fatality caused by a failure of grandstands, guardrails, or fences;
 - (c) Any injury or fatality caused by a fire or from the fear of fire;
 - (d) Any injury or fatality caused from panic;
 - (e) A fatality from any cause.

History. Original Rule entitled "Storage and Handling of Flammable and Combustible Liquids" adopted. F. Aug. 17, 1970; eff. Jun. 16, 1970, as specified by the Agency.

Repealed: New Rule with same title adopted. F. June 3, 1987; eff. June 25, 1987, as specified by the Agency.

Repealed: New Rule entitled "Reporting and Investigations of Accidents, Injuries, Fatalities, and Fire" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-3-18-.11. Storage and Handling of Flammable and Combustible Liquids.

- (1) The storage, handling and dispensing of Flammable and Combustible Liquids at racetracks shall be in accordance with the Rules and Regulations of the Safety Fire Commissioner, Chapter 120-3-11.
- (2) Special provisions for racetracks having defined pit areas where flammable or combustible liquids are handled, stored, or dispensed to competition vehicles:
 - (a) Storage in each vehicle assigned pit area shall not exceed thirty (30) gallons of fuel in approved containers of not more than three (3) ten-gallon capacity containers, except where the approved organizations sanction and rules provide for a greater quantity, and such variation is made known and approved by the authority having jurisdiction.
 - (b) The allowed pit storage shall be located or protected so as to provide maximum protection from physical damage and accidental overturning of portable fuel containers. "No Smoking or Open Flames" signs shall be prominently posted.
 - (c) Prior to the start of any event, the portable storage containers may be filled and placed in a designated area outside the pit area. Such area shall be secured from unauthorized entry and tampering and shall be designed to prohibit the flow of spilled liquid to any other area. Diking or natural protection is acceptable, but the diked area or natural barriers shall be capable of handling 110% of the maximum total quantity of liquid which will be placed in the area. While containers with fuel are in the area, adequate firefighting equipment and personnel shall be stationed in the immediate vicinity and with primary duty to maintain security of the area. Container openings shall have adequate caps or lids to minimize the escape of vapors. A fully approved safety container is recommended but where sanctioning and organization rules permit, open top, dump type containers with a semi-tight cap or cover may be used.
 - (d) Aboveground tanks for the storage of flammable or combustible liquids shall be installed in accordance with Rules of the Safety Fire Commissioner Chapter 120-3-11. Aboveground tanks shall have a means to prohibit the flow of spilled liquid into any area open to spectators or other areas not directly associated with dispensing of the liquids.
 - (e) Each vehicle-assigned pit area shall have at least one (1) portable Dry Chemical fire extinguisher 20 B.C. available that meets the requirements of 120-3-18-.07(3). Such extinguishers shall be checked by the senior racetrack official or an appointed representative prior to the start of daily events.
 - (f) Each racetrack shall be equipped with sufficient spare portable extinguishers as called for above to provide for one (1) spare for every ten (10) extinguishers in the pit area. Such spares shall not be in the pit area, but shall be located so as to be available to replace expended units as quickly as possible. All spares shall be checked by the senior racetrack official or an appointed representative prior to the start of daily events. Expended extinguishers shall be replaced immediately.

(3) Special Provisions for Drag Strips

- (a) Each Drag Strip shall provide defined areas for storage, handling, and dispensing of flammable and combustible liquids for competition vehicles. Such areas shall be secured from unauthorized entry and tampering and supervised to restrict or control spectators in the immediate area where flammable and combustible liquids are stored, dispensed or handled. "No Smoking or Open Flames" signs shall be prominently posted.
- (b) Flammable and Combustible Liquids intended for competition vehicles, or any vehicle to be driven on the strip, shall be stored in approved safety containers, except that small quantities of additives may be stored in original containers provided pouring can be done without spilling. All such flammable and combustible liquids shall be kept within the area assigned to the vehicle or other defined area approved by the authority having jurisdiction and shall be located or protected so as to provide maximum protection from physical damage and accidental overturning of portable fuel containers. "No Smoking or Open Flames" signs shall be prominently posted.

Repealed: New Rule entitled "Storage and Handling of Flammable and Combustible Liquids" adopted. F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-3-18-.12. Storage, Handling and Use of Liquefied Petroleum Gases.

- (1) Storage, handling, and use of liquefied petroleum gases shall be in accordance with Rules of the Safety Fire Commissioner Chapter 120-3-16, NFPA 54, and NFPA 58.
- (2) Portable or temporary installations for concession stands.
 - (a) Portable cylinders for the storage of liquified petroleum shall be located outside the concession stands. They shall be placed on a firm, level, non-combustible foundation and shall be protected from accidental striking, vehicular impact, or overturning. Such protection may be by Vehicular Barrier Protection as specified in NFPA 58 or by securing the cylinder to the sidewall of the concession stand, if the storage capacity of the cylinder does not exceed 125 gallons.
 - (b) Portable cylinders connected for use in concession areas in grandstands shall be located so that if a gas leak develops, the gas cannot be trapped in a low area or

closed space. Protection as described in the above paragraph shall be provided, as necessary.

- (c) Portable equipment shall be maintained and kept in proper operating condition. Connections for cylinders and appliances shall be inspected by facility operators prior to hook-up to ensure flares, flare nuts, or other type connectors are in good condition, and if not, they must be repaired or replaced before connections are made.
- (d) All appliances, pipe or tubing, cylinders, regulators, and other equipment shall be approved for use with liquefied petroleum gases and where appropriate shall bear the approval seal or symbol of the approving agency. All equipment shall be inspected by facility operators prior to use and shall be kept in good operating condition.

Rule 120-3-18-.15. Penalties, Suspension or Revocation of License.

- (a) The Safety Fire Commissioner is authorized to suspend or revoke the license of any person who operates or conducts motor vehicle races or exhibitions without complying with this chapter, subject to the person's right to request a hearing within ten (10) days after that person's receipt of an Order imposing revocation or suspension of licensure.
- (b) The Safety Fire Commissioner is authorized to immediately suspend operations at any racetrack in Georgia that is or should be licensed under these Regulations and applicable statutes when the Commissioner or designees observe conditions at a racetrack which present an emergency posing immediate threat to life, health, or safety of the spectators and the general public. For the purposes of this sub-chapter, refusal by representatives of the racetrack or facility to grant entry to an authorized representative of the State Fire Marshal for purposes of inspections or investigations constitutes grounds for emergency suspension.
- (c) The Commissioner may impose a monetary fine of up to \$1,000 against the holder of a license for each violation of these regulations, related statutes, or any order of the Commissioner.

Subject 120-3-19. RULES AND REGULATIONS FOR ENFORCEMENT OF THE GEORGIA FIRE SPRINKLER ACT.

Rule 120-3-19-.01. Promulgation and Purpose.

- (1) The Georgia Safety Fire Commissioner in accordance with the authority set forth in the Official Code of Georgia Annotated, Section [25-11-12](#) promulgates these Rules and Regulations of the Safety Fire Commissioner entitled, "Rules and Regulations for the Enforcement of the Georgia Fire Sprinkler Act."
- (2) The purpose of these rules and regulations is to establish the State's minimum requirements for persons who design, install, alter, inspect, maintain, test, service and/or repair water-based fire protection sprinkler systems except for those water-based automatic sprinkler systems for use in single-family dwellings or limited water-based systems permitted to be connected directly to a domestic water supply system as allowed by NFPA Life Safety Code which has been adopted by the Commissioner's Rules and Regulations.

Cite as Ga. Comp. R. & Regs. R. 120-3-19-.01

Authority: O.C.G.A. Sec. [33-2-9](#).

History. Original Rule entitled "Authority" adopted. F. Dec. 22, 1982; eff. Jan. 11, 1983.

Repealed: New Rule entitled "Promulgation and Purpose" adopted. F. Nov. 7, 2001; eff. Nov. 27, 2001.

Rule 120-3-19-.02. Application.

Whenever the provisions of this Chapter of the Rules and Regulations of the Georgia Safety Fire Commissioner offer alternatives, as far as fire safety requirements are concerned, that were not permissible under previous editions of any Rules and Regulations of the Georgia Safety Fire Commissioner covering the same subject matter, the provisions of this Chapter may be used by the Authority Having Jurisdiction in determining whether a building is in compliance with the provisions of O.C.G.A. Title 25, Chapter 2, of the Georgia Code, and the Rules and Regulations promulgated thereunder.

Rule 120-3-19-.03. Definitions.

- (1) "**Authority having jurisdiction**" means the organization, office, or individual responsible for approving equipment, an installation, or a procedure.
- (2) "**Certificate**" or "**certificate of competency**" means the document issued by the Commissioner to a certificate holder who has demonstrated adequate technical knowledge and ability to design in accordance with recognized standards as adopted by the Commissioner and to perform and supervise the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems.
- (3) "**Certificate Holder**" means an individual who has been issued a certificate of competency by the Commissioner.
- (4) "**Commissioner**" means the Georgia Safety Fire Commissioner.
- (5) "**Construction documents**," "**Documents for construction**" or "**Construction shop drawings**" means documents which set and dictate the installation parameters of water-based fire protection systems.
- (6) "**Contract documents**" means the written and/or graphical guideline(s), prepared by a registered architect or engineer, which establish but does not dictate specific criteria for the design parameters of water-based fire protection systems.
- (7) "**Direct supervision**," or "**Supervision**" means to personally superintend the design and/or installation of water-based fire protection systems, by personally regulating the activity of a project through intermittent and verifiable personal contact at an installation or installations in progress.
- (8) "**Documents**" means those materials used for reference purposes which direct or confirm direction or agreement.
- (9) "**Employed full time**" means a minimum of thirty and one half hours of paid service per week, per employer.
- (10) "**Fire protection sprinkler contractor**" means an individual, partnership, corporation, association, limited liability company, limited liability partnership, joint venture or other business entity that supervises, performs, or supervises and performs the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems. Such term does not include local building officials, fire inspectors, or insurance inspectors when acting in their official capacities.
- (11) "**Fire protection sprinkler contractor license**" means the document issued by the Commissioner to the fire protection sprinkler contractor which authorizes the fire protection sprinkler contractor to engage in the business of fabrication, installation, repair, alteration, maintenance, or inspection of water-based fire protection systems.
- (12) "**Fire protection sprinkler system**" means an integrated system of overhead and underground piping designed in accordance with fire protection engineering standards.

The installation includes one or more automatic water supplies. The portion of the system above ground is a network of specially sized or hydraulically designed piping installed in a building, structure, or area, generally overhead, to which sprinklers are attached in a systematic pattern. The valve controlling each system riser is located in the system riser or its supply piping. The system is usually activated by heat from a fire and discharges water over the fire area.

- (13) **"Fire protection system designer"** means a person who develops construction shop drawings, construction documents and/or documents for construction pertaining to water-based fire protection systems.
- (14) **"Fire protection system designer license"** means a document issued by the Commissioner which authorizes the fire protection system designer to engage in the business of producing construction shop drawings, construction documents and/or documents for construction pertaining to water-based fire protection systems.
- (15) **"Fire protection system inspector"** means an individual who performs inspections only on water-based fire protection systems in accordance with applicable codes and standards as adopted by the Commissioner. Such term does not apply to state, local, and insurance inspectors while acting in their official capacities.
- (16) **"Fire protection system inspector's license"** means a document issued by the Commissioner, which authorizes the fire protection system inspector to engage in the business of inspecting water-based fire protection systems.
- (17) **"Fire pump"** means a pump supplying water at the flow and pressure required by water-based fire protection systems.
- (18) **"Foam-water spray system"** means a special system pipe connected to a source of foam concentrate and to a water supply and equipped with foam-water spray nozzles for fire protection agent discharge (foam and water sequentially in that order or in reverse order) and distribution over the area to be protected. System operation arrangements parallel those for foam-water sprinkler systems.
- (19) **"Foam-water sprinkler system"** means a special system pipe connected to a source of foam concentrates and to a water supply and equipped with appropriate discharge devices for fire protection agent discharge and distribution over the area to be protected. The piping system is connected to the water supply through a control valve that is usually actuated by operation of automatic detection equipment installed in the same area as the sprinklers. When this valve opens, water flows into the piping system, and foam concentrate is injected into the water. The resulting foam solution discharging through the discharge devices generates and distributes foam. Upon exhaustion of the foam concentrate supply, water discharge will follow and continue until manually shut off. Existing deluge sprinkler systems that have been converted to the use of aqueous film forming foam are classified as foam-water sprinkler systems.

- (20) "**Inspection**" means a visual examination of a water-based fire protection system or portion thereof to verify that it appears to be in operating condition and is free of physical damage.
- (21) "**Maintenance**" means work performed to keep equipment operable or to make repairs without altering the operation of the water-based system.
- (22) "**Private fire service main**" means that pipe and its appurtenances on private property that are one or more of the following:
- (a) Between a source of water and the base of the system riser for water-based fire protection systems;
 - (b) Between a source of water and inlets to foam-making systems;
 - (c) Between a source of water and the base elbow of private hydrants or monitor nozzles;
 - (d) Used as fire pump suction and discharge piping outside of a building; and
 - (e) Beginning at the inlet side of the check valve on a gravity or pressure tank.
- (23) "**Private water tank**" means a tank supplying water for water-based fire protection systems which is located on private property.
- (24) "**Single-family dwelling**" means any one- and two- family dwelling or one- and two-family row houses (townhouses) separated by a two hour fire wall.
- (25) "**Standpipe system**" means an arrangement of piping, valves, hose connections, and allied equipment installed in a building or structure with the hose connections located in such a manner that water can be discharged in streams or spray patterns through attached hoses and nozzles for the purpose of extinguishing a fire, thus protecting a building or structure, its contents, and its occupants. This is accomplished by connection to water supply systems or by pumps, tanks, and other equipment necessary to provide an adequate supply of water-to-hose connections.
- (26) "**Superintend**" means the act of directing others' work.
- (27) "**Testing**" means a procedure used to determine the status of a system as intended by conducting periodic physical checks on water-based fire protection systems such as, but not limited to, waterflow tests, fire pump tests, alarm tests, and trip tests of dry pipe, deluge, or preaction valves. These tests follow up on the original installation acceptance test(s) at intervals specified in the appropriate standards related to such systems, as adopted by other Rules and Regulations of the Safety Fire Commissioner.
- (28) "**Water-based fire protection system**" means any one system or any combination of a number of systems designed to deliver water to an apparatus designed to extinguish or

retard the advancement of fire. Such systems include fire protection sprinkler systems, standpipe systems, private fire service mains, fire pumps, private water tanks, water supply fixed systems, foam-water spray systems, and foam-water sprinkler systems. The term "fire sprinkler system" is used interchangeably with this term.

- (29) **"Water-spray fixed system"** means a special fixed pipe system connected to a reliable fire protection water supply and equipped with water-spray nozzles for specific water discharge and distribution over the surface or area to be protected. The piping system is connected to the water supply through an automatically or manually activated valve that initiates the flow of water. An automatic valve is activated by operation of automatic detection equipment installed in the same area as the water-spray nozzles.

Rule 120-3-19-.04. Powers and Duties of the Commissioner; Delegation of Authority.

- (1) The Commissioner is charged with the duty and responsibility for the enforcement of this chapter.
- (2) Any authority, power, or duty vested in the Commissioner by any provision of this chapter may be exercised, discharged, or performed by any deputy, assistant, or other designated employee acting in the Commissioner's name and by his or her delegated authority.
- (3) The Commissioner may, at his or her discretion, have the competency and license test prepared by others.
- (4) The Commissioner is authorized to enter into a reciprocal agreement with the state fire commissioner or state fire marshal of other states for the waiver of the competency test of any applicant resident in such other jurisdiction, provided that:
 - (a) The laws of the other jurisdiction are substantially similar to this chapter; and
 - (b) The applicant has no place of business within this state nor is an officer, director, stockholder, or partner in any corporation or partnership doing business in this jurisdiction as a fire protection sprinkler contractor.

Rule 120-3-19-.05. Application to Become Certificate Holder; Certificate Fee; Demonstration of Applicant's Competence and Knowledge; Limitations on Issuance of Certificate; Expiration and Renewal of Certificate.

- (1) Any individual desiring to become a certificate holder shall submit to the Commissioner a completed application on forms prescribed by the Commissioner. Such individual shall remit with his or her application a non-refundable certificate fee of \$100.00 plus a one-time filing fee of \$50.00 except as otherwise provided by Chapter 11 of Title 25 of the Official Code of Georgia Annotated and this Chapter of the Rules and Regulations. Such fee shall not be prorated for portions of a year.
- (2) Prior to obtaining a certificate, the applicant shall demonstrate his or her competence and knowledge of water-based fire protection systems by:
 - (a) successfully completing a competency test by current certification by NICET at Level III or Level IV in automatic sprinkler system layout and/or by successfully completing such other or additional examinations as the Commissioner may designate. For renewal of such certificate, proof of maintaining NICET Certification at or above Level III in Automatic Sprinkler System Layout is required; and
 - (b) submitting to the Commissioner a certification from either the state fire commissioner or state fire marshal of another jurisdiction whenever a reciprocal agreement has been entered into between the jurisdiction and the State of Georgia pursuant to the provisions of this chapter.
- (3) If the applicant has paid the required fees and has met one of the requirements of subsection (2) of this section, the Commissioner shall issue a certificate of competency in the name of the applicant, unless such applicant has been cited under other provisions of this chapter. Such certificate shall expire annually on December 31st of each year and shall be nontransferable from company to company or person to person.
- (4) In no case shall a certificate holder be allowed to obtain a certificate of competency for more than one fire protection sprinkler contractor or more than one office location at a time. If the certificate holder should leave the employment of a fire protection sprinkler contractor or change office locations, he or she must notify the Commissioner in writing within 30 days.
- (5) A certificate holder desiring to renew his or her certificate shall submit a renewal application to the Commissioner and remit therewith a renewal fee of \$100.00 for the upcoming year, between August 1st and no later than December 1st of the current year.

Rule 120-3-19-.06. Licensing of Each Location; Application; Fee; Prerequisites.

- (1) Where a fire protection sprinkler contractor has multiple office locations for the purpose of design, installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems, each location shall be separately licensed under the provisions of these regulations.
- (2) Any organization or individual desiring to become a fire protection sprinkler contractor shall submit to the Commissioner a completed application on forms prescribed by the Commissioner. Such organization or individual shall remit with his or her application a nonrefundable license fee of \$50.00 plus a filing fee of \$50.00. Such fee shall not be prorated for portions of a year.
- (3) Prior to obtaining a sprinkler contractor's license, the applicant shall:
 - (a) Submit to the Commissioner a copy of all and all current certificates of competency held by employees of the applicant; and
 - (b) Submit to the Commissioner proof of comprehensive liability insurance coverage. The liability insurance policy shall provide coverage in an amount not less than \$1 million and shall cover any loss to property or personal injury caused by the fire sprinkler contractor. The policy must be purchased from an insurer authorized to do business in the State of Georgia.
- (4) A fire protection sprinkler contractor license shall expire annually on December 31st of each year. A license holder desiring to renew his or her license shall submit a renewal application to the Commissioner and remit a renewal fee of \$50.00 for the upcoming year, between August 1st and no later than December 1st of the current year.

Rule 120-3-19-.07. Inspectors License.

- (1) Any individual desiring to become a fire protection sprinkler system inspector shall submit to the Commissioner a completed application on the prescribed forms. Such individual shall remit with his or her application a nonrefundable license fee of \$50.00 plus a fee of \$50.00. Such fees shall not be prorated for portions of a year.
- (2) Prior to obtaining a license, the applicant shall demonstrate evidence of his or her competence and employment by a sprinkler contractor by possessing at minimum a NICET Level II Certification in Inspection and Testing of Water-Based Systems or an equivalent certification acceptable to the Commissioner.
- (3) The applicant shall submit to the Commissioner proof of employment by a licensed fire protection sprinkler contractor who has comprehensive liability insurance coverage. The liability insurance policy shall provide coverage in an amount not less than \$1 million and shall cover any loss to property or personal injury caused by the fire protection sprinkler inspector. The policy must be purchased from an insurer authorized to do business in Georgia.
- (4) A fire protection sprinkler system inspector license shall expire annually on December 31st of each year. A license holder desiring to renew his or her license shall submit a renewal application to the Commissioner and remit a renewal fee of \$50.00 for the upcoming year, between August 1st and no later than December 1st of the current year.
- (5) Individuals possessing valid waivers issued by the Commissioner prior to the effective date of these Rules and Regulations shall have twelve months from the issuance date of the waiver to obtain NICET Level II Certification in Inspection and Testing of Water-Based Systems or an equivalent certification acceptable to the Commissioner. No waivers shall be issued or renewed after the effective date of these rules and regulations.
- (6) Individuals who have not yet satisfied the requirements of these Rules and Regulations as they pertain to inspector licenses shall work under the direct supervision of a NICET Level II Certified individual or approved equivalent until such time they possess a NICET Level II Inspector Certification or approved equivalent certification.
- (7) "Direct supervision," or "Supervision" means to personally superintend the design and/or installation of water-based fire protection systems, by personally regulating the activity of a project through intermittent and verifiable personal contact at an installation or installations in progress.

Rule 120-3-19-.08. Fire Protection System Designer License.

- (1) Any individual desiring to become a fire protection system designer shall submit to the Commissioner a completed application on forms prescribed by him or her. Such individual shall remit with his or her application a nonrefundable license fee of \$50.00 plus a onetime filing fee of \$50.00. Such fee shall not be prorated for portions of a year.
- (2) Prior to obtaining a license, the applicant shall demonstrate his or her competence and knowledge of water-based fire protection systems by:
 - (a) meeting the provisions of Chapter 15 of Title 43 of the Official Code of Georgia Annotated; or
 - (b) providing proof that all work elements necessary for NICET Level II Certification in Automatic Sprinkler System Layout have been passed. Current license holders shall have twenty-four months from the adoption of these rules and regulations to meet this requirement. If this requirement is not met within the time allotted, the license shall be returned to the Commissioner's office within ten working days after the twenty-four months have lapsed, and shall become null and void. The license shall not be re-issued until the foregoing requirement is met.
- (3) A fire protection system designer license shall expire on December 31st of each year. A license holder desiring to renew his or her license shall submit a renewal application to the Commissioner and remit a renewal fee of \$50.00 for the upcoming year, between August 1st and no later than December 1st of the current year.

Rule 120-3-19-.09. Requirement that Installation, Repair, etc., Be Performed or Supervised by Certificate Holder.

- (1) No person shall act as a fire protection sprinkler contractor unless a certificate holder is employed full time, in office or on site or combination thereof, to supervise or perform the installation, repair, alteration, addition, maintenance, or inspection of water-based fire protection systems.
- (2) Supervision shall be verified by the following method: Signed and dated documentation verifying visits to the project site, by the Certificate of Competency holder or their designee who is authorized by the Certificate of Competency holder to sign the site supervision form on behalf of the Certificate of Competency holder. Such documentation shall be kept on the site and shall be available to any Code Official on demand. The Certificate of Competency holder or their designee as described above, and the owner or owner's representative or the general contractor's representative shall sign such documentation. Such documentation shall be on forms prescribed by the Safety Fire

Commissioner. Such verification is required unless waived by the Authority Having Jurisdiction, in writing.

- (3) Upon project completion, the Certificate of Competency holder shall sign and date the documentation verifying that the completed installation meets all applicable codes and standards adopted by the Safety Fire Commissioner. The Authority Having Jurisdiction shall not waive the requirement, at project completion, for a signed verification indicating that the completed installation meets all applicable codes and standards.
- (4) If the only certificate holder employed by a fire protection sprinkler contractor leaves the employment of the fire protection contractor, the contractor shall notify the Commissioner in writing within 30 days. A new certificate holder must be employed by a fire protection sprinkler contractor within 30 days of such notice.
- (5) No fire protection sprinkler contractor shall permit any person under his or her employment or control to install, repair, alter, maintain, or inspect any water-based fire protection system unless such person is a certificate holder or is under the supervision of a certificate holder employed by the contractor.
- (6) Only fire protection sprinkler contractors or certificate of competency holders shall alter or renovate water-based fire protection systems except as otherwise provided by Chapter 11 of Title 25 of the Official Code of Georgia Annotated and this Chapter of the Rules and Regulations.
- (7) Individuals employed by the building owner or a representative of the building owner may repair leaks, repair broken fittings, or perform other routine maintenance that does not alter the piping arrangement or operation of a water-based fire protection system.
- (8) Installations shall conform to the Rules and Regulations for the State Minimum Fire Safety Standards as adopted by the Commissioner unless otherwise permitted by Chapter 11 of Title 25 of the Official Code of Georgia Annotated and this Chapter of the Rules and Regulations.
- (9) Installations not required by the codes and standards adopted by the Safety Fire Commissioner and whose design criteria and installation requirements have been enacted into law by local county or municipal ordinance, shall be allowed. All other non-code required systems shall meet minimum standards as adopted by the Commissioner, unless otherwise permitted by other sections of this chapter.
- (10) It shall be unlawful for any person to begin installation of a fire sprinkler system on any proposed or existing building or structure which comes under the classification in Official Code of Georgia Annotated Section [25-2-13\(b\)\(1\)](#) or which comes under the jurisdiction of the Office of the Commissioner pursuant to Official Code of Georgia Annotated Section [25-2-12](#) without first having drawings of the designed system approved by the appropriate authority having jurisdiction unless otherwise allowed by the Authority Having Jurisdiction; in writing.

Rule 120-3-19-.10. Review of Water-based Fire Protection Shop Drawings.

- (1) Water-based fire protection shop drawings shall be reviewed for code compliance with the state minimum standards by a certificate of competency holder.
- (2) The reviewing certificate holder's signature, printed name, and certificate number indicating such compliance shall be indicated on all submitted plans.
- (3) Non-code compliance dictated by bid documents shall be reported in the following manner. Non-code compliant shop drawings dictated by bid documents plans and or specifications shall list deficiencies printed or typed, item by item, along with codes and/or standards violated on a departmental form. In addition, the following information shall be provided as set forth in the following order:
 - (a) the name of the facility and project;
 - (b) the complete physical address of the project including the city and county;
 - (c) the owner's name;
 - (d) the responsible architect's or engineer's name responsible for producing the non-code compliant bid documents including their Georgia registration number, business name, business address and business telephone number; and
 - (e) the Sprinkler Contractor's name, Certificate of Competency holder's name, and Certificate of Competency number and signature. The foregoing items shall be provided and outlined on a departmental form by the Certificate of Competency holder, as stated above and shall be submitted with the shop drawings.

Rule 120-3-19-.11. Preparation of Water-based Fire Protection System Documents for Construction by Designers.

- (1) Only licensed fire protection system designers or other designers under their direct supervision shall prepare water-based fire protection system documents for construction.

Certificate of competency holders shall be allowed to prepare water-based fire protection system documents, for construction, for their sprinkler contractor.

- (2) All documents shall be representative of code complying water-based fire protection systems complying with the Rules and Regulations for the State Minimum Fire Safety Standards as adopted by the Commissioner unless otherwise permitted by this Chapter of the Rules and Regulations.
- (3) All shop drawings shall meet minimum standards of the Rules and Regulations for the State Minimum Fire Safety as adopted by the Commissioner, except for the following:
 - (a) shop drawings not meeting the codes and standards adopted by the Commissioner whose design has been enacted into law by local county or municipal ordinance;
 - (b) non-code compliant shop drawings dictated by bid documents of a registered professional engineer or architect. Information regarding such shop drawings shall be provided as specified in [120-3-19-.10](#); or
 - (c) non-required systems whose installations do not conform with the provisions of the Rules and Regulations for the State Minimum Fire Safety Standards may be installed if:
 1. approved by the Authority Having Jurisdiction; and
 2. such installations are reported to and filed with the local responding fire department and the Authority Having Jurisdiction; and
 3. such installations are identified as required by the Authority Having Jurisdiction.
- (4) The licensed fire protection system designer's signature, printed name, and license number shall be indicated on the shop drawings.

Rule 120-3-19-.12. Individuals Authorized to Inspect and Maintain Systems.

- (1) All inspections, testing and maintenance of water-based fire protection systems shall be done in accordance with the requirements of NFPA 25 as adopted by the Georgia Safety Fire Commissioner's Rules and Regulations Chapter 120-3-3. All inspections, maintenance, and testing required by NFPA 25 and/or other appropriate standards adopted by Chapter 120-3-3 shall only be performed by licensed fire protection system

inspectors, certificate of competency holders, or representatives of the building owner as applicable, unless exempted by this chapter.

- (2) Representatives of the building owner shall indicate in writing to the Authority Having Jurisdiction their intent to do such inspections and shall provide to the Authority Having Jurisdiction proof of knowledge and expertise pertaining to the systems to be inspected by providing:
 - (a) the name and physical location of the facility/facilities to be tested, inspected and maintained by the owner's representative(s);
 - (b) the names and qualifications of the individual(s) conducting such inspections, testing and maintenance which shall be submitted to the Commissioner for evaluation;
 - (c) the qualifications for each such individual which shall be set forth in as much detail as possible, including but not limited to, an exacting and detailed outline of their qualifications with dates, type and length of related experience;
 - (d) resumes prepared by each such individual including a statement describing and setting forth their personal qualifications to do the inspections, testing and maintenance; and
 - (e) a detailed description of each such individual's knowledge of NFPA 25.
- (3) Said representatives of the building owner are exempt only from the license requirements specified in Code Section [25-11-6](#). All work conducted by said representatives shall be done in accordance with the minimum State Standards as adopted by the Safety Fire Commissioner.
- (4) Duly authorized manufacturers' representatives while they are acting in their official capacities are exempt from this chapter.
- (5) Inspections and maintenance of water-based fire protection systems owned by a firm, business, or corporation and installed on property under control of the firm, business, or corporation may be performed by an employee of the firm, business, or corporation if annual inspection and maintenance of the water-based system are performed by a current certificate of competency holder or inspector as defined in this chapter. Said employees are exempt from the license requirements specified in Code Section [25-11-6](#).

Rule 120-3-19-.14. Valid License Required for Installation or Repair of Underground Facilities or Piping Connected to Water-based Fire Protection Sprinkler Systems; Proof of Contractor's Competency as Requirement for License or Building Permit; Effect of Chapter on Other Laws Regulating Work of Contractors.

- (1) The installation or repair of any underground facilities or piping which connects to and furnishes water for the water-based fire protection system shall be performed only by a licensed utility contractor, fire protection sprinkler contractor, or licensed plumber in accordance with the minimum fire safety standards adopted by the Commissioner. The installing contractor shall be responsible for the installation of proper underground facilities and piping which provide an adequate flow of water from the fire protection water supply to the water-based fire protection system.
- (2) Evidence of inspection shall be given to the owner or his or her representative in the form of a letter indicating the inspector or certificate of competency holder and the license number or certificate number.
- (3) Before any local building official shall issue any license or building permit which authorizes the construction of any building or structure containing a water-based fire protection system, such local official shall require a copy of a valid fire protection sprinkler contractor license from the fire protection sprinkler contractor. The fire protection sprinkler contractor shall be required to pay any fees normally imposed for local licenses or permits, but the local official shall impose no requirements on the fire protection sprinkler contractor to prove competency other than proper evidence of a valid certificate of competency, as issued by the Commissioner.
- (4) Nothing in this chapter limits the power of a municipality, county, or the state to require the submission and approval of plans and specifications or to regulate the quality and character of work performed by contractors through a system of permits, fees, and inspections otherwise authorized by law for the protection of the public health and safety.

Rule 120-3-19-.17. Cease and Desist Order Against Violators; Penalty for Violations; Order Requiring Compliance; Revocation of Certificate for Failure to Comply with Order.

- (1) Whenever the Commissioner shall have reason to believe that any individual is or has been engaged in any conduct in violation of any provisions of this chapter, the Commissioner, his or her deputy, his or her assistant, or other designated persons may issue and deliver to the individual an order to cease and desist in such conduct in violation.
- (2) Violation of any provision of this chapter or the failure to comply with a cease and desist order is cause for a revocation of any certificate or license issued by the Commissioner for a period of no less than six months and no more than five years. No holder of a certificate or license whose certificate or license has been revoked by order of the

Commissioner shall be entitled to obtain another certificate or license for the period of revocation from the effective date of such order. Any order of the Commissioner revoking a certificate or license shall revoke any certificate or license issued prior to the effective date of such order. Any final order issued by the Commissioner under this subsection may be appealed as provided by law.

- (3) Any person who violates this chapter or any rule, regulation, or order issued by the Commissioner under this chapter shall be subject to a civil penalty imposed by the Commissioner of not more than \$1,000.00 for a first offense, not less than \$1,000.00 and not more than \$2,000.00 for a second offense, and not less than \$2,000.00 or more than \$5,000.00 for a third or subsequent offense for each day a violation persists after such person is notified of the Commissioner's intent to impose such penalty and the right to a hearing with respect to same.
- (4) Any order shall contain or be accompanied by a notice of opportunity for hearing which may provide that a hearing will be held if and only if a person subject to the order requests a hearing within ten days of receipt of the order and notice. The order and notice shall be served by delivery by the Commissioner or his or her agent or by registered or certified mail, return receipt requested. Any person who fails to comply with any order under this subsection is guilty of a misdemeanor and may be punished by law.

Rule 120-3-19-.18. Additional Grounds for Revocation or Suspension of Licenses.

In addition to the grounds set forth in Official Code of Georgia Section [25-11-16](#), it shall be cause for revocation or suspension of any certificate or license issued by the Commissioner if it is determined that the holder has done any one of the following:

- (a) Rendered inoperative a water-based fire protection system covered by this chapter, except during a reasonable time during which the system is being repaired, altered, added to, maintained, or inspected;
- (b) Falsified any record required to be maintained by this chapter or rules or regulations adopted pursuant to this chapter or current fire codes enforced by the Commissioner;
- (c) Improperly installed, repaired, serviced, modified, altered, inspected, or tested a water-based fire protection system;

- (d) While holding a certificate or license, allowed another person to use the holder's license or certificate or the holder's license or certificate number;
- (e) While holding a certificate or license, used a certificate or licence or certificate number or license number other than his or her own valid certificate or license or certificate number or license number;
- (f) Used credentials, methods, means, or practices to impersonate a representative of the Commissioner or the state fire marshal or any local fire chief, fire marshal, or other fire authority having jurisdiction;
- (g) Failed to maintain the minimum insurance coverage as set forth in this chapter; or
- (h) Failed to maintain the minimum requirements to obtain a certificate of competency or other licenses.

Rule 120-3-19-.19. Failure to Renew Certificate or License.

The failure to renew a certificate or license by the expiration date as set forth in this chapter will cause the certificate or license to become inoperative. A certificate or license which is inoperative because of the failure to renew, shall be restored upon payment of all applicable fees plus a penalty of not more than \$250.00 if said fees are paid within ninety days of expiration. After a certificate or license has been inoperative for a period of greater than ninety days because of a failure to renew, no new certificate or license shall be issued unless an initial application is made.

Subject 120-3-20. ACCESS TO AND USE OF PUBLIC FACILITIES BY HANDICAPPED PERSONS.

Authority: O.C.G.A. Secs. [33-2-9](#), [25-2-1](#), *et seq.*

History. Original Chapter entitled "Access to and Use of Public Facilities by Handicapped Persons"adopted. F. June 5, 1997; eff. June 25, 1997.

Editor's Note:

In accordance with the O.C.G.A. Section [50-13-21](#), the contents of this Chapter are not filed with or published by the Secretary of State; only the name and designation is filed, printed, and distributed. These Regulations are on file in the Office of the Commissioner of Insurance, Safety Fire Department and are open for public examination and copying.

Rule 120-3-20-.01. Promulgation and Purpose.

- (1) These rules and regulations of the Safety Fire Commissioner are promulgated to establish the State's minimum accessibility requirements of buildings, structures and facilities as

specified in O.C.G.A. § [30-3-7\(g\)](#) and shall be entitled "Access To and Use of Public Facilities by Handicapped Persons."

- (2) A primary purpose of these rules and regulations is to further the policy of the State of Georgia to encourage and enable persons with disabilities or elderly persons to participate fully in the social and economic life of Georgia and to eliminate, insofar as possible, unnecessary physical barriers encountered by persons with disabilities or elderly persons whose ability to participate in the social and economic life of this state is needlessly restricted when such persons cannot readily use government buildings, public buildings, and facilities used by the public under the jurisdiction of the Safety Fire Commissioner.
- (3) Unless otherwise stated in this chapter of the rules and regulations of the Safety Fire Commissioner, the following meets the 2010 Americans with Disabilities Act (ADA) Standards for Accessible Design and shall be the minimum standards for Accessibility to buildings, structures and facilities by individuals with disabilities under the Americans with Disabilities Act ("ADA") of 1990. These rules are to be applied during the design, construction, and alteration of buildings and facilities covered by Titles II and III of the ADA to the extent required by regulations issued by Federal agencies, including the Department of Justice and the Department of Transportation, under the ADA.

Repealed: New Rule of same title adopted. F. Dec. 12, 2014; eff. Jan. 1, 2015.

Rule 120-3-20-.02. Application.

- (1) If the start date for construction is on or after March 15, 2012, all newly constructed or altered State and local government facilities must comply with the 2010 ADA Standards for Accessible Design. Before that date and after June 24, 1997, Chapter 120-3-20 is applicable. All other applications for accessibility are prescribed by O.C.G.A. § [30-3-3](#).
- (2) The following minimum adopted standards apply to both State and local government facilities (Title II) and public accommodations and commercial facilities (Title III). The minimum adopted standards consist of ADA Chapters 1 and 2 and Chapters 3 through 10 of the 2004 ADAAG (36 CFR part 1191, appendices B and D, adopted as part of both Title II and Title III 2010 ADA Standards for Accessible Design).
 - (a) State and local government facilities must follow the requirements of the minimum standards adopted herein and referencing the 2010 ADA Standards for Accessible Design, including both the Title II regulations at [28 CFR 35.151](#); and the 2004 ADAAG at 36 CFR part 1191, appendices B and D.

- (b) Public accommodations and commercial facilities must follow the requirements of the minimum standards adopted herein and referencing the 2010 Standards for Accessible Design, including both the Title III regulations at 28 CFR part 36, subpart D; and the 2004 ADAAG at 36 CFR part 1191, appendices B and D.
- (c) In the few instances where requirements between the regulation and the 2004 ADAAG differ, the requirements of [28 CFR 35.151](#) or 28 CFR, part 36, subpart D, prevail.
 - (d) (Regarding the 2% of total rental apartments or the minimum of one rental apartment required to be fully accessible or adaptable in apartment complexes of 20 or more units as defined under Section .03(8) of this chapter, the provisions of a Type A unit found in Chapter 10 of the 2003 edition of the ANSI A117 shall be met. 50% of this number of fully accessible or adaptable rental apartment units required by this paragraph shall be adaptable for a roll-in shower stall.
- (3) Pursuant to O.C.G.A. § [30-3-3](#), all government buildings, public buildings, and facilities receiving permits for construction or renovation after July 1, 1995, shall comply with the rules and regulations adopted by the Safety Fire Commissioner which meet ADAAG and establish the minimum state standards for accessibility.
- (4) The Board of Regents of the University System of Georgia ("Board of Regents") and the local governing authority having jurisdiction over the buildings not subject to the jurisdiction of the Safety Fire Commissioner as specified in O.C.G.A. § [30-3-7](#), after consultation with state rehabilitation agencies and other sources as they might determine, are authorized to promulgate such rules, regulations, and procedures as might reasonably be required to implement and enforce their responsibilities under Chapter 3 of Title 30 provided they are not less restrictive than those established by this Chapter.

Rule 120-3-20-.03. Definitions.

- (1) "ADAAG" means the Americans with Disabilities Act Accessibility Guidelines for Buildings and Facilities issued by the United States Architectural and Transportation Barriers Compliance Board as set forth in the Federal Register.
- (2) "Adaptable" is further explained as follows:

- (a) Adaptable refers to features provided for but not actually installed. Such adaptability makes it possible for features required by ADAAG to be added for the occupant without major structural alteration;
 - (b) Items not installed at the time of construction under the adaptable provisions of ADAAG, and items installed which might need to be removed to provide access, must be installed or removed by the owner at the owner's expense when the dwelling is rented to a person with disabilities, within 30 days after his or her application for occupancy is approved by the owner.
- (3) "Safety Fire Commissioner" means the Safety Fire Commissioner provided for in Chapter 2 of Title 25.
- (4) "Covered multifamily dwelling" means a building which had first occupancy after March 31, 1993, and consists of four or more units and has an elevator or the ground floor units of a building which consists of four or more units and does not have an elevator.
- (5) "Existing Building" means buildings, structures, facilities or conditions which are already in existence or constructed and officially authorized prior to the effective date of the adoption of this Chapter. This definition shall apply to all situations covered by this chapter except where otherwise noted by this chapter.
- (6) "Facilities" shall include, but is not limited to, walkways, sidewalks, curbs, parking lots, parks, stadiums, coliseums, and any other man-made or developed area used by the public.
- (7) "Government buildings" means all buildings, structures, streets, sidewalks, walkways, and access thereto, which are used by the public or in which persons with disabilities or elderly persons may be employed, that are constructed, leased, or renovated in whole or in part by use of state, county, or municipal funds or the funds of any political subdivisions of the state, and, to the extent not required otherwise by federal law or regulations and not beyond the power of the state to regulate, all buildings and structures used by the public which are constructed or renovated in whole or in part by use of federal funds.
- (8) "Public buildings" means all buildings, structures, streets, sidewalks, walkways, and access thereto, which are used by the public or in which persons with disabilities or elderly persons may be employed, that are constructed or renovated by the use of private funds, including rental apartment complexes of 20 units or more and temporary lodging facilities of 20 units or more, but excluding covered multifamily dwellings; provided, however, that this chapter shall require fully accessible or adaptable units in only 2 percent of the total rental apartments, or a minimum of one, whichever is greater, and this chapter shall apply to only 5 percent of the total temporary lodging units, or a minimum of one, whichever is greater; provided, further, that this chapter shall not apply to a private single-family residence or to duplexes or any complex containing fewer than 20 units, or to residential condominiums. Regarding the 2% of the total rental apartments or

the minimum of one rental apartment required to be fully accessible or adaptable, the provisions of a Type A unit found in Chapter 10 of the 2003 edition of the ANSI A117 shall be met. Fifty percent of the fully accessible or adaptable rental apartment units required by this paragraph shall be adaptable for a roll-in shower stall.

- (9) "Used by the public" as applied to .03(8) of this chapter, shall not include those elements of covered multi-family dwelling complexes used only by members of the immediate dwelling community and their guests, as described in the Federal Fair Housing Amendments Act of 1988 cited in Article 4 of Title 8 of the Official Code of Georgia Annotated.
- (10) "Reasonable number" for all government buildings, public buildings, and facilities receiving permits for construction or renovation after July 1, 1995, as used in O.C.G.A. § [30-3-4](#), shall mean the minimum number as established by ADAAG.
- (11) "Reasonable number" for all government buildings, public buildings, and facilities receiving permits for construction or renovation after July 1, 1987, but before July 1, 1995, as used in O.C.G.A. § [30-3-4](#), shall be defined for each of the following standards to mean:
 - (a) "Accessible parking spaces for persons with disabilities (American National Standards Institute [ANSI] 4.6.1) in a reasonable number" means the minimum required by the 2010 ADA Standards for Accessible Design, but not less than the number determined as follows:
 - 1. With a total of 1-400 parking spaces provided, then a minimum number of 1 space or 2 percent of the total provided shall be designated as accessible parking spaces in accordance with [120-3-20-.06](#), whichever is greater.
 - 2. With a total of 401 or more parking spaces is provided, then a minimum number of 8 spaces plus 1 percent of the total provided above 401.
 - (b) "Accessible entrances (ANSI 4.14) in a reasonable number" means that all primary entrances usually considered major points of pedestrian flow must be accessible to and usable by persons with disabilities;
 - (c) "Accessible toilet rooms, bathrooms, bathing facilities, and shower rooms (ANSI 4.22) in a reasonable number" means that for every floor which is to be made accessible to and usable by persons with disabilities at least one toilet room, bathroom, bathing facility, and shower room at a reasonable location shall conform to ANSI 4.22; and
 - (d) "Accessible seating, tables, and work surfaces (ANSI 4.30) in a reasonable number" means the minimum required by the 2010 ADA Standards for Accessible Design, but not less than the following:

1. With a total of 1-50 seats provided, then a minimum number of 2 adjacent spaces shall be provided for wheelchair users.
2. With a total of 51-400 seats provided, then a minimum number of 4 spaces shall be provided including 2 adjacent spaces for wheelchair users.
3. With a total of 401 or more seats provided, then a minimum even number of spaces shall be provided including not less than 1 percent of the total number of spaces located throughout all price ranges or locations, or both.

(12) "Renovation" means:

- (a) If any specific component of an elevator is replaced or moved from its existing location to a different location, then the specific component shall be required to meet the ANSI A117.1 Standard, as specified in this Code section, as it applies to that specific component, including an accessible route as defined in the ANSI A117.1 Standard;
- (b) Any component of a building, structure, or facility, which is replaced, except for the purpose of repair, or moved, shall be required to meet the ANSI A117.1 Standard as specified in this Code section, including an accessible route as defined in the ANSI A117.1 Standard; or
- (c) The resurfacing, restriping, or repainting of any parking facility, whether or not such resurfacing, restriping, or repainting is required to have a permit from the appropriate political subdivision.

Rule 120-3-20-.05. Request for Modification of Specific Requirements.

- (1) In order to receive an exemption from complying fully with a particular standard or specification established herein, the following shall be met:
 - (a) The person who owns or controls the use of any government building, public building, or facility subject to the requirements of this chapter, shall provide a sworn written statement indicating all circumstances of which the governing authority needs to consider in order to appropriately determine whether full compliance with any particular standard or specification set forth in this chapter is impractical;
 - (b) The posting of the request for the modification of a particular standard or specification herein shall be made in accordance with the provisions of Title 50; and
 - (c) Within 45 days of such determination, a written record shall be made by the Safety Fire Commissioner having jurisdiction over building in question setting forth the reasons why it is impractical for the person subject to this chapter to comply fully with the particular standard or specification at issue and also setting forth the extent to which the government building, public building, or facility shall conform with the standard or specification.
- (2) The Safety Fire Commissioner or, where applicable, the Board of Regents or the local governing authority having jurisdiction over the buildings in question shall be responsible for making a final determination as to whether or not an exemption shall be granted.

Rule 120-3-22-.02. Definitions.

The definitions contained herein are in addition to and in clarification of the definitions contained in the adopted codes and standards.

- (1) "Commissioner" means the Georgia Safety Fire Commissioner.
- (2) "Consumer fireworks" shall have the same meaning as set forth in O.C.G.A. § [25-10-1\(a\)\(1\)](#). Consumer fireworks do not include those items listed in O.C.G.A. § [25-10-1\(b\)](#).
- (3) "Consumer fireworks retail sales facility" shall have the same meaning as provided for by NFPA 1124; provided, however, that such term shall not include a tent, canopy, or membrane structure.
- (4) "Distributor" means any person, firm, corporation, association, or partnership which sells consumer fireworks directly to the consumer or to other distributors.
- (5) "Fireworks distributor license" means the license issued by the Safety Fire Commissioner that a distributor must maintain in order to legally sell consumer fireworks.
- (6) "Fireworks or Pyrotechnics Exhibitions or Displays before a Proximate Audience" means any exhibition or display of fireworks, or any use of pyrotechnic special effects, that occurs within a building or structure or before an audience closer to the pyrotechnic devices than permitted by NFPA 1123, *Code for Fireworks Display*.
- (7) "NFPA" means the National Fire Protection Association.
- (8) "Nonprofit group" means any entity exempt from taxation under Section 501(c)(3) of the Internal Revenue Code of 1986, any entity incorporated under Chapter 3 of Title 14, the 'Georgia Nonprofit Corporation Code,' or a sponsored organization of a public or private elementary school or secondary school in the state.
- (9) "Person" means any individual, firm, partnership, corporation, company, association, joint stock association, and any trustee, receiver, assignee, or personal representative thereof.
- (10) "Proper Identification" means a document issued by a governmental agency containing a description of the person or such person's photograph, or both, and giving such person's date of birth, including a passport, military identification card, driver's license, or identification card authorized under Code Sections [40-5-100](#) through [40-5-104](#).
- (11) "Public exhibition or display of fireworks" means the use of pyrotechnics, display fireworks, consumer fireworks, or any combination of these for any purpose relating to the amusement or entertainment of the public that does not occur within a building or structure or before a proximate audience; provided that such term shall not include the private, personal use of consumer fireworks by the public.

- (12) "Qualified Individual" means an individual including but not limited to a Georgia registered architect, a Georgia registered fire protection engineer, a Georgia registered professional engineer, a local building official, a local fire official, an individual certified as a Georgia certified fire inspector or an individual who has a national certification from a national codes organization acceptable to the State Fire Marshal.
- (13) "State Fire Marshal" means the State Fire Marshal of Georgia or his or her designee.
- (14) "Store" shall have the same meaning as provided for by NFPA 1124; provided, however, that such term shall only include such buildings with at least 4,000 square feet of retail display space and wherefrom:
- (a) No more than 25 percent of the retail display space is used for consumer fireworks and items or products as provided for under O.C.G.A. § [25-10-1\(b\)](#); and
 - (b) Other items or products which are not consumer fireworks or items or products as provided for under O.C.G.A. § [25-10-1\(b\)](#) are sold; and provided, further, that such term means a person, firm, corporation, association, or partnership with more than one mercantile location, where all such mercantile locations are collectively known to the public by the same name or share central management.
- (15) "Wholesale" means the sale of consumer fireworks within the State of Georgia for resale by others.

Amended: F. Dec. 13, 2019; eff. Jan. 1, 2020, as specified by the Agency.

Rule 120-3-22-.03. Submission of Plans for Storage Installations.

Plans for all proposed storage facilities of fireworks or modifications of any existing storage facility shall be submitted to the Commissioner as required in Chapter 10 of Title 25 of the Official Code of Georgia Annotated.

- (1) At least two sets of plans for storage facilities shall be submitted, drawn to scale and shall be of sufficient clarity and detail to indicate the location, setting, construction, distances and such other information as necessary to indicate compliance with the requirements of this Chapter.

- (2) The plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Commissioner or his designee.
- (3) Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans shall be accompanied by the mandatory plan review fee payable to the Commissioner.
- (4) One set of plans shall be retained by the Commissioner and one copy shall be returned to the applicant with approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the construction site for inspection by authorized representatives of the Commissioner.
- (5) Construction shall not commence until the plans have been approved and returned to the applicant.

Rule 120-3-22-.04. Submission of Plans and Licensing of Fireworks Manufacturers.

- (1) Manufacturing operations shall be permitted only after a fireworks manufacturer's license has been issued by the Commissioner in accordance with this rule. A manufacturer's license shall not exempt the holder thereof from obtaining any other permits or licenses that may be required by other government agencies.
- (2) Application for a fireworks manufacturer's license shall be made to the Commissioner annually on the form provided and shall be accompanied by a license fee pursuant to O.C.G.A. Section [25-2-4.1](#).
- (3) Plans for all proposed manufacturing facilities or modification of any existing manufacturing facilities shall be submitted to the Commissioner with the fireworks manufacturer's application as provided in O.C.G.A. Section [25-10-3](#).
 - (a) At least two sets of plans for fireworks manufacturing facilities shall be submitted, drawn to scale, and shall include a general arrangement layout, location, safety control devices or arrangements, electrical and ventilation arrangements,

construction details, emergency control arrangements and such other details, information and specifications as necessary to indicate safe operations.

- (b) The plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Commissioner or his designee.
 - (c) Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans shall be accompanied by the mandatory plan review fee payable to the Commissioner.
 - (d) One set of plans shall be retained by the Commissioner and one copy shall be returned to the applicant with approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the construction site for inspection by authorized representatives of the Commissioner.
 - (e) Construction shall not commence until the plans have been approved and returned to the applicant.
- (4) Upon receipt of a fireworks manufacturer's license application, the Commissioner shall direct his authorized representative to inspect the facility. If the authorized representative determines that all requirements for the manufacturing of fireworks contained in this Chapter have been satisfied, he may recommend that the license be processed.
- (5) Upon receipt of the inspection report, the Commissioner shall examine the application and inspection report. If all requirements contained in this Chapter have been satisfied, he shall issue a fireworks manufacturer's license that shall be posted by the applicant in a conspicuous location on the premises. The manufacturer's license is nontransferable and shall expire on December 31 of each year or upon a change in the name, ownership or location of the facility. The current license number shall be recorded on all invoices, shipments, and similar transactions. The license authorizes the manufacture of any fireworks not prohibited by Congress or any federal agency; the possession, transportation, and storage of any such fireworks by any manufacturer thereof; the possession, transportation, or distribution of any such fireworks to a distributor located outside the State; the sale of such fireworks by any such manufacturer to a distributor located outside this State; or the possession and transportation of such fireworks by any manufacturer or contractor or common carrier from the point of manufacture within this State to any point outside this State.
- (6) A fireworks manufacturer's license may be revoked for cause after notice and hearing provided in accordance with Rule 120-3-2-.02 of the Rules of Safety Fire Commissioner; provided, however, that the Commissioner may revoke any license prior to notice and hearing if he determines that the situation involves an imminent peril to the public health, safety and welfare and that the situation therefore requires emergency action. An emergency revocation shall contain reasons and findings for the determination, and shall be accompanied by a notice of opportunity for a hearing, which may provide that a

hearing will be held if and only if the aggrieved person requests a hearing within ten (10) days of receipt of the revocation and notice.

Rule 120-3-22-.05. Submission of Plans for Consumer Fireworks Retail Sales Facilities.

1. Plans for all proposed consumer fireworks retail sales facilities or major modifications of any existing consumer fireworks retail sales facility in which the total quantity of consumer fireworks on hand at any time will exceed 1,000 pounds gross packaged product weight shall be submitted to, and receive the approval of, the State Fire Marshal prior to consumer fireworks being sold or offered for sale at retail in accordance with the following:
 - (a) Plans shall be submitted in duplicate.
 - (b) Plans shall be drawn to scale, shall be of sufficient clarity and detail, and shall include all information necessary to indicate compliance with the requirements of this Chapter and NFPA 1124 entitled, *Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles*.
 - (c) The plans shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Commissioner or his designee.
 - (d) Pursuant to O.C.G.A. Section [25-2-4.1](#), the plans shall be accompanied by the mandatory plan review fee payable to the Commissioner.
 - (e) One set of plans shall be retained by the Commissioner and one copy shall be returned to the applicant with approval or disapproval indicated thereon. A copy of the approved plans shall be kept available at the CFRS facility and shall be made available to authorized representatives of the State Fire Marshal or qualified individual at the time of inspection.

Rule 120-3-22-.07. Reporting of Fires and Accidents.

- (1) All owners, managers or operators of all vehicles, equipment, consumer fireworks retail sales facilities, consumer fireworks retail sales stands, consumer fireworks stores, and manufacturing and storage facilities covered under this Chapter shall, as soon as possible but in no event later than eight hours of such incident occurring, notify the Commissioner's Office of all fires involving such manufacturer's vehicles, equipment or facilities and all accidents involving the same that may create a hazard to the public from fire, explosion or related risk. In addition to the initial notification, but in no event later than seventy-two (72) hours, all owners, managers or operators of all vehicles, equipment, consumer fireworks retail sales facilities, consumer fireworks retail sales stands, consumer fireworks stores, and manufacturing and storage facilities covered under this Chapter shall submit a written report to the Commissioner's Office of all fires involving such vehicles, equipment, consumer fireworks retail sales facilities, consumer fireworks retail sales stands, consumer fireworks stores, manufacturing or storage facilities, and all accidents involving the same that may create a hazard to the public from fire, explosion or related risk.

- (2) All holders of permits for display or exhibitions of fireworks or pyrotechnics shall, as soon as possible but in no event later than eight hours of such incident occurring, notify the Commissioner's Office of all fires, explosions, or other incidents of any type which result in personal injuries or property damage occurring at a display or exhibition of fireworks or pyrotechnics pursuant to the permit.

Rule 120-3-22-.08. State Minimum Fire Safety Codes and Standards.

Unless otherwise stated in this Chapter, the following editions of the codes, standards, recommended practices, guides and methods, as published in the *National Fire Codes (NFC)* by the National Fire Protection Association (NFPA), as adopted and modified herein shall be the State's minimum fire safety standards related to the manufacturing, storage, transportation, and use of display fireworks and consumer fireworks, the retail sales of consumer fireworks, fireworks or pyrotechnics exhibitions and displays, and the use of flame effects before a proximate audience.

(1) NFPA 160, 2016 Edition, Standard for the Use of Flame Effects Before a Proximate Audience

Modifications:

(a) Modifications to Chapter 5:

1. Delete subsection 5.1.1 in its entirety and substitute in its place the following:

"5.1.1 Permit Required. A use permit issued by the authority having jurisdiction shall be required for the use of flame effects before a proximate audience or within any building or structure.

(2) NFPA 1123, 2018 Edition, Code for Fireworks Display

Modifications:

(a) **Modifications to Chapter 3:**

1. Delete subsection 3.3.15 in its entirety and substitute in its place the following:

"3.3.15 Fireworks. Any combustible or explosive composition or any substance or combination of substances or article prepared for the purpose of producing a visible or audible effect by combustion, explosion, deflagration, or detonation, including blank cartridges, firecrackers, torpedoes, skyrockets, bombs, sparklers, and other combustibles and explosives of like construction, as well as articles containing any explosive or flammable compound and tablets and other devices containing an explosive substance. The term 'fireworks' shall not include:

- (a) Model rockets and model rocket engines designed, sold, and used for the purpose of propelling recoverable aero models, toy pistol paper caps in which the explosive content averages 0.25 grains or less of explosive mixture per paper cap or toy pistols, toy cannons, toy canes, toy guns, or other devices using such paper caps; nor shall the term 'consumer fireworks' or 'fireworks' include ammunition consumed by weapons used for sporting and hunting purposes; and,
- (b) Wire or wood sparklers of 100 grams or less of mixture per item; other sparkling items which are nonexplosive and nonaerial and contain 75 grams or less of chemical compound per tube or a total of 500 grams or less for multiple tubes; snake and glow worms; smoke devices; or trick noise makers which include paper streamers, party peppers, string peppers, snappers, and drop pops each consisting of 0.25 grains or less of 81 explosive mixture."

2. Delete subsection 3.3.15.1 in its entirety and substitute in its place the following:

"3.3.15.1 Consumer Fireworks. Any small fireworks devices containing restricted amounts of pyrotechnic composition, designed primarily to produce visible or audible effects by combustion, that comply with the construction, chemical composition, and labeling regulations of the United States Consumer Product Safety Commission as provided for in Parts 1500 and 1507 of Title 16 of the Code of Federal Regulations, the United States Department of Transportation as provided for in Part 172 of Title 49 of the Code of Federal Regulations, and the American Pyrotechnics Association as

provided for in the 2001 American Pyrotechnics Association Standard 87-1, and additionally shall mean Roman candles. The term 'consumer fireworks' shall not include:

- (a) Model rockets and model rocket engines designed, sold, and used for the purpose of propelling recoverable aero models, toy pistol paper caps in which the explosive content averages 0.25 grains or less of explosive mixture per paper cap or toy pistols, toy cannons, toy canes, toy guns, or other devices using such paper caps; nor shall the term 'consumer fireworks' or 'fireworks' include ammunition consumed by weapons used for sporting and hunting purposes; and,
 - (b) Wire or wood sparklers of 100 grams or less of mixture per item; other sparkling items which are nonexplosive and nonaerial and contain 75 grams or less of chemical compound per tube or a total of 500 grams or less for multiple tubes; snake and glow worms; smoke devices; or trick noise makers which include paper streamers, party peppers, string peppers, snappers, and drop pops each consisting of 0.25 grains or less of explosive mixture."
3. Delete subsection 3.3.15.2 in its entirety and substitute in its place the following:

"3.3.15.2 Display Fireworks. Any large fireworks devices that are explosive materials intended for use in fireworks displays and designed to produce visible or audible effects by combustion, deflagration, or detonation, as set forth in Part 555 of Title 27 of the Code of Federal Regulations, Part 172 of Title 49 of the Code of Federal Regulations, and American Pyrotechnics Association Standard 87-1. Display fireworks are described as Fireworks, UN0335 and are classified as Explosives, 1.3G by the U.S. Department of Transportation.

(b) **Modifications to Chapter 8:**

1. Add a new paragraph 8.1.3.6 to read as follows:

"8.1.3.6 The operator shall be present and shall personally supervise all phases of the public exhibition or display of fireworks."

2. Add a new subsection **8.1.9.3** to read as follows:

"8.1.9.3 The pyrotechnics operator shall be present and shall personally supervise all phases of the public exhibition or display of fireworks."

(c) **Modifications to Chapter 10:**

1. Delete subsection 10.1.1 in its entirety and substitute in its place the following:

"10.1.1 The operator shall be at least 21 years old. Prior to performing the public exhibition or display of fireworks, the operator or the operator's employer shall obtain a permit issued by the judge of the probate court of the county in which the public exhibition or display of fireworks is to be held in accordance with all applicable state laws."

2. Delete subsection 10.1.2 in its entirety and substitute in its place the following:

"10.1.2 An operator shall provide evidence of actual experience as an operator or assistant to the authority having jurisdiction. This evidence shall include the following:

- (a) " At least five different affidavits signed by the local fire official or officials responsible for the area or areas that the operator has actively participated in all phases of a public exhibition or display of fireworks in which there were no personal injuries or property damage.
- (b) " A statement providing full details of any such public exhibitions or displays of fireworks in which said operator has participated which resulted in personal injuries or property damage, or an affidavit by the operator certifying that said operator has never participated in any such public exhibition or display of fireworks which resulted in personal injuries or property damage."

3. Delete subsection 10.1.3 in its entirety and substitute in its place the following:

"10.1.3 An operator shall provide evidence to the authority having jurisdiction that he/she possess at least one of the following:

- (a) " Certificate(s) of training totaling 20 hours related to fireworks from national organization(s) that promote safety in fireworks displays, or
- (b) " Licensure for fireworks displays by another state which administers a competency test accepted by the Commissioner, or

(c) " Other training, testing and/or experience acceptable to the Commissioner."

4. Add a new subsection 10.1.4 to read as follows:

"10.1.4 The individual pyrotechnic operator who will actually conduct the public exhibition or display of fireworks must provide to the authority having jurisdiction proof of employment by said person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks."

5. Delete section 10.2 in its entirety and substitute in its place the following:

"10.2 All assistants shall be at least 18 years old. Each operator shall complete a form on each assistant for each permit being applied for that provides the assistant's age, date of birth, and states the operator's satisfaction as to the qualifications of that assistant."

6. Delete subsection 10.3.1 in its entirety and substitute in its place the following:

"10.3.1 Prior to performing the public exhibition or display of fireworks, the person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks shall obtain and provide a copy of a display permit to conduct a firework(s) display issued by the judge of the probate court of the county in which the public exhibition or display of fireworks is to be held, pursuant to O.C.G.A. Section [25-10-4\(a\)](#) to the authority having jurisdiction."

7. Delete subsection 10.3.2 in its entirety and substitute in its place the following:

"10.3.2 Proof of a bond in the principal sum of \$10,000.00, payable to the county in which the public exhibition or display of fireworks is being held and conditioned for the payment of damages which may be caused either to persons or to property by reason of the public exhibition or display of fireworks must be provided or, alternatively, evidence be provided that the applicant carries proper liability insurance for bodily injury in the amount of not less than \$25,000.00 for each person and \$50,000.00 for each accident and for property damage in the amount of not less than \$25,000.00 for each accident and \$50,000.00 aggregate, purchased from an insurer authorized to do business in Georgia, or an insurer regulated pursuant to O.C.G.A. Title

33, Chapter 5, if insurance cannot be obtained from an insurer authorized to do business in Georgia."

8. Delete subsection 10.3.4 in its entirety with no substitution.
9. Add a new section 10.4 to read as follows:

"**10.4** Prior to performing the public exhibition or display of fireworks, the person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks shall provide to the authority having jurisdiction the name and qualifications of every operator and assistant who will participate in the public exhibition or display of fireworks."

10. Add a new subsection 10.4.1 to read as follows:

"**10.4.1** Prior to performing the public exhibition or display of fireworks, the person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks shall provide to the authority having jurisdiction a statement signed by the individual pyrotechnic operator who will actually conduct the public exhibition or display of fireworks certifying the operator's satisfaction with the qualifications of each such assistant."

(3) **NFPA 1124, 2006 Edition, Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles**

Modifications:

(a) **Modifications to Chapter 7:**

1. Add a new subsection 7.3.25 to read as follows:

"**7.3.25 Required Signs**"

2. Add a new paragraph 7.3.25.1 to read as follows:

"**7.3.25.1** Every licensed distributor selling consumer fireworks shall have within the retail display area for consumer fireworks at least one sign which reads as follows:

PLEASE CHECK YOUR LOCAL ORDINANCES PRIOR TO USING OR

IGNITING CONSUMER FIREWORKS

PLEASE USE CONSUMER FIREWORKS IN ACCORDANCE WITH
THEIR

AFFIXED CAUTION AND WARNING LABELS

PLEASE BE A GOOD NEIGHBOR AND BE MINDFUL THAT

UNANNOUNCED IGNITION NEAR SOME MILITARY VETERANS
AND OTHER

PERSONS AND NEAR SOME PETS CAN BE TRAUMATIC"

3. Add a new subparagraph 7.3.25.1.1 to read as follows:

"7.3.25.1.1 Such signs shall be at least 22 inches by 28 inches in size, be printed in at least 40 point boldface type in a color contrasting from such sign's background color, and kept free from obstruction and in plain sight of customers."

4. Add a new paragraph 7.3.25.2 to read as follows:

"7.3.25.2 Signs shall be posted throughout the retail display area and shall read:

Pursuant to O.C.G.A. [25-10-2](#), it is unlawful to:

Sell consumer fireworks to any person under 18 years of age. Persons purchasing consumer fireworks must provide the seller proper identification at the time of purchase

Use consumer fireworks indoors or within the right of way of a public road, street, highway, or railroad of this state.

Use or ignite, possess, and transport consumer fireworks by any person under 18 years of age."

5. Add a new paragraph 7.3.25.3 to read as follows:

"7.3.25.3 Consumer fireworks retail sales facilities, stores, and stands which sell or offer for sale any balloon, bag, parachute, or other similar device which requires fire underneath for propulsion or any floating water lantern or wish lantern which uses a flame to create a lighting effect shall have signs

posted throughout the retail display area and customer check out areas which shall read as follows:

Pursuant to O.C.G.A. [25-10-10](#), it is unlawful to release or cause to be released any balloon, bag, parachute, or other similar device which requires fire underneath for propulsion or to release or cause to be released any floating water lantern or wish lantern which uses a flame to create a lighting effect in any public waterway, lake, pond, stream, or river.

(4) **NFPA 1126, 2016 Edition, Standard for the Use of Pyrotechnics before a Proximate Audience**

Modifications:

(a) **Modifications to Chapter 3:**

1. Delete subsection 3.3.39 in its entirety and substitute in its place the following:

"3.3.43 Proximate Audience. An audience closer to pyrotechnic devices than permitted by NFPA 1123, *Code for Fireworks Display* or an audience within a building or structure where pyrotechnic devices are used.

(b) **Modifications to Chapter 6:**

1. Add a new subsection 6.1.5 to read as follows:

"6.1.5 Prior to performing the fireworks or pyrotechnics exhibition or display before a proximate audience, the person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks shall obtain and provide a copy of a display permit to conduct a proximate audience firework(s) display issued by the judge of the probate court of the county in which the public exhibition or display is to be held, pursuant to O.C.G.A. Section [25-10-4\(b\)](#) to the authority having jurisdiction."

2. Add a new subsection 6.1.6 to read as follows:

"6.1.6 Proof of a bond in the principal sum of \$10,000.00, payable to the county in which the display is being held and conditioned for the payment of damages which may be caused either to persons or to property by reason of the display must be provided or, alternatively, evidence be provided that the applicant carries proper liability insurance for bodily injury in the amount of not less than \$25,000.00 for each person and \$50,000.00 for each

accident and for property damage in the amount of not less than \$25,000.00 for each accident and \$50,000.00 aggregate, purchased from an insurer authorized to do business in Georgia, or an insurer regulated pursuant to O.C.G.A. Title 33, Chapter 5, if insurance cannot be obtained from an insurer authorized to do business in Georgia."

3. Add a new subsection 6.1.7 to read as follows:

"**6.1.7** The person, firm, corporation, association or partnership desiring to conduct a fireworks or pyrotechnics exhibition or display before a proximate audience must provide a copy of the license or amended license issued by the Commissioner to the authority having jurisdiction that indicates that the individual pyrotechnic operator(s) who will actually conduct the proximate audience display or exhibition is licensed under the person, firm, corporation, association or partnership."

4. Delete subsection 6.5.1 in its entirety and substitute in its place the following:

"**6.5.1** All pyrotechnic operators shall be at least 21 years old. Prior to performing the fireworks or pyrotechnics exhibition or display before a proximate audience, the operator or the operator's employer shall obtain a permit issued by the judge of the probate court of the county in which the public exhibition or display is to be held in accordance with all applicable state laws. In addition, each operator shall provide evidence of actual experience as an operator or assistant to the authority having jurisdiction. This evidence shall include the following:

- (a) " At least five different affidavits signed by the local fire official or officials responsible for the area or areas that the pyrotechnic operator has actively participated in all phases of a fireworks or pyrotechnics exhibition or display before proximate audiences in which there were no personal injuries or property damage.
- (b) " A statement providing full details of any fireworks or pyrotechnics exhibitions or displays before proximate audiences in which said pyrotechnic operator has participated which resulted in personal injuries or property damage, or an affidavit by the pyrotechnic operator certifying that said operator has never participated in any such displays or exhibitions which resulted in personal injuries or property damage."

5. Delete paragraph 6.5.1.1 in its entirety and substitute in its place the following:

"6.5.1.1 Each operator shall provide evidence to the authority having jurisdiction that he/she possess at least one of the following:

- (a) " Certificate(s) of training totaling 20 hours related to fireworks from national organization(s) that promote safety in fireworks displays, or
- (b) " Licensure for fireworks displays by another state which administers a competency test accepted by the Commissioner, or
- (c) " Other training, testing and/or experience acceptable to the Commissioner."

6. Delete paragraph 6.5.1.2 in its entirety.

7. Delete subsection 6.5.2 in its entirety and substitute in its place the following:

"6.5.2 All assistants shall be at least 18 years old. In addition, a form shall be completed on each assistant for each permit being applied for that provides the assistant's full name, age, date of birth, address, previous experience, and certifies in writing the operator's satisfaction as to the qualifications of that assistant."

8. Add a new subsection 6.5.3 to read as follows:

"6.5.3 Prior to performing the fireworks or pyrotechnics exhibition or display before a proximate audience, the person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks shall provide to the authority having jurisdiction the name and qualifications of every operator and assistant who will participate in the display or exhibition."

9. Add a new subsection 6.5.4 to read as follows:

"6.5.4 Prior to performing the fireworks or pyrotechnics exhibition or display before a proximate audience, the person, firm, corporation, association or partnership desiring to conduct a public exhibition or display of fireworks shall provide to the authority having jurisdiction a statement signed by the individual pyrotechnic operator who will actually conduct the display or exhibition certifying the operator's satisfaction with the qualifications of each such assistant."

(c) **Modifications to Chapter 8:**

1. Add a new subsection 8.6.7 to read as follows:

"8.6.7 The pyrotechnics operator shall be present and shall personally supervise all phases of the proximate audience display or exhibition."

(4) ***International Fire Code (IFC)***

Modifications:

- (a) Refer to Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner, for adopted edition and any modifications.

Rule 120-3-22-.09. Licensing Requirements for Fireworks or Pyrotechnics Exhibitions or Displays before a Proximate Audience.

- (1) The applicant for a license must satisfy the Commissioner that all of the following requirements are met before the Commissioner issues a license for fireworks or pyrotechnic exhibitions or displays before a proximate audience:
 - (a) The applicant shall submit a completed application on a form prescribed by the Commissioner.
 - (b) The applicant shall submit to the Commissioner proof of a valid comprehensive liability insurance policy purchased from an insurer authorized to do business in Georgia, or an insurer regulated pursuant to O.C.G.A. Title 33, Chapter 5, if insurance cannot be obtained from an insurer authorized to do business in Georgia. The coverage must include bodily injury and property damage, products

liability, completed operations, and contractual liability. The proof of insurance must also be provided before any license can be renewed. The minimum amount of said coverage shall be \$1 million or such other amount as specified by the Commissioner. An insurer which provided such coverage shall notify the Commissioner of any change in coverage in writing which falls below the minimal insurance requirements of this regulation.

- (c) The applicant shall submit to the Commissioner a list naming each pyrotechnic operator that shall use pyrotechnics or pyrotechnic special effects before a proximate audience or within a building or structure pursuant to the license. Each pyrotechnic operator listed on the application for a license shall give his or her full name, age, date of birth, address, and written permission for a criminal background investigation. The applicant must submit evidence that each such pyrotechnic operator is qualified in accordance with NFPA 1126, *Standard for the Use of Pyrotechnics before a Proximate Audience* as adopted and modified herein.
 - (d) Any natural person applying for a license, and each pyrotechnic operator listed on the application for a license, must give their permission for a criminal background investigation.
 - (e) The applicant shall pay the required licensing fee as prescribed in Code Section [25-10-5](#).
 - (f) The applicant shall comply with all other applicable portions of these regulations and standards adopted hereunder.
 - (g) The applicant shall provide any other information deemed necessary by the Commissioner.
- (2) The licensee must apply for, and receive, an amended license issued by the Commissioner for any additional pyrotechnic operator employed by a person, firm, corporation, association, or partnership and who is not listed on the original license application. The applicant for an amended license must comply with the requirements of subsections (c) and (d), above, as to the additional pyrotechnic operator.
- (3) The licensee must notify the Commissioner in writing within 10 days of the date the licensee withdraws sponsorship of a pyrotechnic operator who is listed on the license application. The reason for the licensee's withdraw of sponsorship must be stated.

Rule 120-3-22-.10. Licensing Requirements for Distributors of Consumer Fireworks.

- (1) An applicant for a fireworks distributor license must submit a completed application before a license will be issued.
- (2) An application for initial license or annual license renewal must be received by the State Fire Marshal's office and contain the following items before the license application will be considered complete:
 - (a) The appropriate application on a form prescribed by the Commissioner;
 - (b) Proper identification showing that said applicant is at least 18 years of age;
 - (c) Proof of a valid public liability and product liability insurance policy which provides coverage limits of at least \$2 million to cover losses, damages, or injuries which might result from the selling of consumer fireworks and which is provided by an insurer authorized to do business in Georgia or procured through a surplus line broker licensed to pursuant to Title 33;
 - (d) The appropriate license fee as required by Code Sections [25-10-5.1\(b\)\(1\)](#) or [25-10-5.1\(d\)\(1\)](#), whichever is applicable, payable to the Safety Fire Commissioner; and
 - (e) Documentation, in the form of an inspection report on a form approved by the State Fire Marshal, that an inspection has been conducted by a qualified individual indicating the consumer fireworks retail sales facility or consumer fireworks retail sales store for which an application for license has been received meets the minimum fire safety and construction requirements of the 2006 edition of the National Fire Protection Association (NFPA) 1124 entitled, *Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles* and as modified herein this chapter. An application for initial license or annual license renewal for distributors selling consumer fireworks from a store shall identify each store location to which an initial or annual license is applicable; and
 - (f) Signed and notarized Citizenship Affidavit Form (GID-276-EN); and
 - (g) A copy of the front and back of a secure and verifiable form of identification (list of acceptable forms can be found on the Commissioner's website)

- (3) The initial license fee for a fireworks distributor license for a consumer fireworks retail sales facility or wholesale distribution facility shall be \$5,000.00, payable to the Safety Fire Commissioner. Such initial license shall expire on January 31 of the year after such initial license was issued or as provided for in O.C.G.A. Section [25-10-5.1\(b\)\(2\)](#).
- (4) The annual renewal license fee for a fireworks distributor license for a consumer fireworks retail sales facility or wholesale distribution facility shall be \$1,000.00, payable to the Safety Fire Commissioner. Such annual license shall expire on January 31 of the year after such annual license was issued or as provided for in O.C.G.A. Section [25-10-5.1\(b\)\(2\)](#).
- (5) The initial license fee for a fireworks distributor license for a store shall be \$1,500.00 in addition to \$250.00 per store location, payable to the Safety Fire Commissioner. Additional store locations may be added to the initial license prior to the expiration of such license upon payment of \$250.00 per added store location. The initial license shall expire on January 31 of the year after the initial license was issued or as provided for in O.C.G.A. Section [25-10-5.1\(d\)\(1\)](#).
- (6) The annual renewal license fee for a fireworks distributor license for a store shall be \$1,000.00 in addition to \$100.00 per store location, payable to the Safety Fire Commissioner. Additional store locations may be added to the annual license prior to the expiration of such license upon payment of \$250.00 per added store location. The annual license shall expire on January 31 of the year after the annual license was issued or as provided for in O.C.G.A. Section [25-10-5.1\(d\)\(2\)](#).
- (7) A distributor shall submit a completed application for annual renewal of license by December 1 in the year preceding the expiration date of such initial or annual license. When an initial license is issued to a distributor on or after December 1, then such distributor shall apply for an annual license by the first business day of the next year.
- (8) A fireworks distributor license shall be nontransferable.
- (9) A fireworks distributor license shall be void upon a change in the ownership or upon a change of location of the consumer fireworks retail sales facility or store location.

Rule 120-3-22-.11. Sales of Consumer Fireworks.

- (1) Except as provided for herein, the sale of consumer fireworks at retail or wholesale locations shall be permitted only after the seller has obtained a fireworks distributor license.
- (2) The fireworks distributor license shall be posted at a prominent location within each location which sells consumer fireworks
- (3) The wholesale sale of consumer fireworks shall be conducted from a distribution facility as defined in NFPA 1124, 2006 edition entitled, *Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles*, and shall not be conducted from a consumer fireworks retail sales facility, store, or temporary stand.
- (4) A consumer fireworks retail sales facility or store shall meet the minimum fire safety and construction requirements of the 2006 edition of the National Fire Protection Association (NFPA) 1124 entitled, *Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles* and as modified herein this chapter. In accordance with the *International Building Code* (IBC), consumer fireworks retail sales facilities and stores having a maximum quantity of consumer fireworks on hand exceeding 500 pounds gross packaged product weight shall have installed an NFPA 13 compliant automatic sprinkler system designed as an Ordinary Hazard Group 2 hazard facility. Where consumer fireworks retail sales facilities and stores have both a maximum quantity of consumer fireworks on hand exceeding 500 pounds gross packaged product weight and a ceiling height exceeding 16 feet, the required NFPA 13 compliant automatic sprinkler system shall be designed as an Extra Hazard Group 1 hazard facility.
- (5) It shall be unlawful for any person, firm, corporation, association, or partnership to sell consumer fireworks or any items defined in paragraph (2) of subsection (b) of Code Section [25-10-1](#) to any person under 18 years of age.
- (6) Any person selling any consumer fireworks at the consumer fireworks retail sales facility or store shall be at least 18 years of age; provided however, it shall be lawful for any person who is 16 or 17 years of age to sell or to offer for sale at retail any consumer fireworks, provided that such person is serving as an assistant to a distributor selling consumer fireworks from a temporary consumer fireworks retail sales stand or the nonprofit group directly participating in the operation of a temporary consumer fireworks retail sales stand.
- (7) The holder of a wholesale consumer fireworks distributor license shall provide to the Commissioner the names and addresses of all fireworks retailers located in the State of Georgia to which that license holder sells consumer fireworks.

Rule 120-3-22-.12. Purchase of Consumer Fireworks.

Any individual purchasing fireworks from a consumer fireworks retail sales facility, consumer fireworks retail sales store or a temporary consumer fireworks retail sales stand shall:

- (1) Make all purchases in-person and through a face-to face sale;
- (2) Be a minimum of 18 years of age; and
- (3) Provide proper identification to the seller at the time of such purchase. Such identification shall contain at a minimum the following:
 - (a) A description of the person or such person's photograph, or both; and
 - (b) The individuals' date of birth.

Rule 120-3-22-.13. Use of Fireworks.

Consumer fireworks may be used, ignited, or caused to be ignited on any day between the hours of 10:00 A.M. and 11:59 P.M. unless during such times the noise from such use or ignition is not in compliance with a noise ordinance of a county or municipal corporation.

Exception 1: Consumer fireworks may be used, ignited, or caused to be ignited on January 1, the last Saturday and Sunday in May, July 3, July 4, the first Monday in September, and December 31 of each year after the time of 10:00 A.M. and up to and including the time of 11:59 P.M.; and on January 1 of each year beginning at the time of 12:00 Midnight and up to and including the ending time of 1:00 A.M.

Exception 2: *After having obtained a special use permit as provided for in O.C.G.A. § [25-10-2\(a\)\(3\)\(D\)](#).*

Rule 120-3-22-.14. Unlawful Activity.

- (1) It shall be unlawful to use fireworks, consumer fireworks, or any items defined in paragraph (2) of subsection (b) of Code Section [25-10-1](#) indoors or within the right of way of a public road, street, highway, or railroad of this state.
- (2) It shall be unlawful for any person, firm, corporation, association, or partnership to sell or offer for sale consumer fireworks at a consumer fireworks retail sales facility, consumer fireworks retail sales store or a temporary consumer fireworks retail sales stand or wholesale distribution facility without maintaining the appropriate license.
- (3) It shall be unlawful for any person, firm, corporation, association, or partnership to sell consumer fireworks or any items defined in paragraph (2) of subsection (b) of Code Section [25-10-1](#) to any person under 18 years of age.
- (4) It shall be unlawful to sell consumer fireworks from any motor vehicle or from a trailer towed by a motor vehicle, or from a tent, canopy, or membrane structure.
- (5) It shall be unlawful for any person under 18 years of age to use or ignite or cause to be ignited or to possess, manufacture, transport, or store consumer fireworks, except that it shall be lawful for any person who is 16 or 17 years of age to possess or transport consumer fireworks, provided that such person is serving as an assistant to a distributor selling consumer fireworks from a temporary consumer fireworks retail sales stand or the nonprofit group directly participating in the operation of a temporary consumer fireworks retail sales stand and is not transporting such consumer fireworks on a highway which constitutes a part of The Dwight D. Eisenhower System of Interstate and Defense Highways.
- (6) It shall be unlawful to release or cause to be released any balloon, bag, parachute, or other similar device which requires fire underneath for propulsion or to release or cause to be released any floating water lantern or wish lantern which uses a flame to create a lighting effect in any public waterway, lake, pond, stream, or river.

Rule 120-3-22-.15. Compliance with Rules and Regulations; Penalties.

- (1) All persons shall, manufacture, transport, and store fireworks in conformity with this Chapter. After notice and hearing provided in accordance with Rule 120-3-2-.02 of the Rules of Safety Fire Commissioner, any person who is found to have violated any of the rules contained in this Chapter shall be subject to such penalties as authorized by law and regulation.
- (2) Any person who knowingly and willfully makes a false, fictitious, or fraudulent statement of representation in an application executed pursuant to Code section [25-10-5.1](#) shall be guilty of a violation of Code Section [16-10-20](#).
- (3) Any and all consumer fireworks distributors licenses may be suspended, revoked, refused, or be subject to nonrenewal if the Commissioner finds that a licensee or applicant has:
 - (a) Violated any provision of this Chapter and O.C.G.A. 25-10; or failed to comply with a cease and desist order issued by the Commissioner or his or her authorized representative
 - (b) Failed to maintain the minimum insurance coverage as set forth in O.C.G.A. [25-10-5.1\(a\)\(B\)](#);
 - (c) Made a material misstatement or misrepresentation or committed a fraud in obtaining or attempting to obtain a license; or
 - (d) Failed to notify the Safety Fire Commissioner, in writing, within 30 days after a change of residence, principal business address, or name.

Subject 120-3-23. RULES AND REGULATIONS FOR INSTALLATION, INSPECTION, RECHARGING, REPAIRING, SERVICING AND TESTING OF PORTABLE FIRE EXTINGUISHERS OR FIRE SUPPRESSION SYSTEMS.

Rule 120-3-23-.01. Promulgation and Purpose.

- (1) These rules and regulations for the installation, inspection, recharging, repairing, servicing or testing of portable fire extinguishers and fire suppression systems are promulgated by the Georgia Safety Fire Commissioner in accordance with the Official Code of Georgia Annotated §§ [25-12-15](#), [33-2-9](#), and [50-13-21](#).
- (2) The purpose of these rules and regulations is to establish minimum qualifications and standards for companies and their technicians who install, inspect, recharge, repair, service, maintain or test portable fire extinguishers or fire suppression systems and to provide for reasonable and practical measures for protecting persons and property from injury due to portable fire extinguishers or fire suppression systems that are not properly installed, inspected, recharged, repaired, serviced, maintained or tested.

Rule 120-3-23-.02. Definitions.

- (1) "**Acceptable**" means having been inspected by the Commissioner or his/her representative and approved for the intended usage.
- (2) "**Approved**" means in addition to being acceptable, as defined herein, a device, practice, or method mandated by a coexistent authority of the Commissioner (such as the D.O.T.).
- (3) "**Approved Training**" means any training or continuing education made available by an official company or individual specifically qualified and insured to provide such training (including equipment manufacturers) as acceptable to the Commissioner.
- (4) "**Clean Agent**" means an electrically non-conducting, volatile, or gaseous fire-extinguishing agent that does not leave a residue upon evaporation.
- (5) "**CO₂(Carbon Dioxide)**" means a colorless, odorless, electrically non-conductive inert gas suitable for use in portable extinguishers or fire systems.
- (6) "**Commissioner**" means the Georgia Safety Fire Commissioner or his/her designated representative.
- (7) "**Continuing Education**" means education, information or training derived from participating and successfully completing a course, class or seminar pertaining to the fire protection industry for the purpose of increasing one's aptitude, knowledge or skill in a particular area or task which is acceptable to and approved by the Commissioner prior to receiving credit units.

- (8) "**Credit Units**" means actual hours of active participation in a course, class or seminar pertaining to the fire protection industry for the purpose of increasing one's aptitude, knowledge or skill in a particular area or task. One hour of personal course contact acceptable to the Commissioner will equal one credit unit.
- (9) "**DOT**" means the United States Department of Transportation.
- (10) "**EMT**" means electrical metallic tubing used for enclosing detection cables, remote pull stations, gas shut offs and electrical wiring.
- (11) "**Engineered Special Hazard Fire Suppression System**" means any fire suppression system having pipe lengths, number of fittings, number and types of nozzles, suppression agent flow rates, and nozzle pressures as determined by calculations derived from the appropriate standards of the National Fire Protection Association, whether those calculations are performed by hand or by a computer program or by other method of calculation. These systems may consist of other components, including, but not limited to, detection devices, alarm devices, and control devices as tested and approved by a nationally recognized testing laboratory and shall be manufacturer listed as compatible with the fire suppression system involved.
- (12) "**Fire Suppression System**" means any fire-fighting system employing a suppression agent for the purpose of controlling, suppression, or extinguishing a fire in a specific hazard. The suppression agent shall be a currently recognized agent or water additive required to control, suppress, or extinguish a fire. The term fire suppression system shall include engineered special hazard and pre-engineered fire suppression systems as defined in these rules and regulations and shall not include those systems addressed in Chapter 11 of Title 25 of the Official Code of Georgia Annotated.
- (13) "**Firm**" means any corporation, business, person, partnership, organization, association, contractor, individual or other entity, engaged in the business of installing, inspecting, altering, maintaining, recharging, repairing or servicing fire extinguishers and fire suppression systems.
- (14) "**Full Time Employee**" means an individual who works for the firm and is on payroll for a minimum of thirty and one half hours of paid service per week, per employer.
- (15) "**High Pressure Cylinder**" means cylinders and cartridges containing nitrogen or compressed gases at a service pressure higher than 500 psi (3447 kPa) at 70°F (21°C).
- (16) "**Hydrostatic Testing**" means cylinder pressure testing by water jacketed test pressure means.
- (17) "**Industrial Fire Suppression System**" means a pre-engineered automatic fire extinguishing system provided for the protection of property or equipment as described by the manufacturer other than those systems covered under the definition of kitchen or restaurant fire suppression system.

- (18) "**Inspection**" means a thorough examination which is part of the designated or prescribed maintenance of a fire extinguisher or of a fire suppression system to give maximum assurance that the fire extinguisher or fire suppression system is in its proper location, appropriately sized for the hazard it is intended to cover, there is no physical or chemical damage to prevent its proper operation, the extinguisher or system is fully charged and is in proper operating condition. Such procedure shall only be conducted by a properly permitted technician unless otherwise exempted by Chapter 12 of O.C.G.A. Title 25 or by this Chapter. It includes a thorough examination by inspection and any necessary repair or replacement of components as well as, revealing if hydrostatic testing is required.
- (19) "**Kitchen or Restaurant Fire Suppression System**" means an automatic fire extinguishing system provided for the protection of grease removal devices, hoods, duct systems, cooking equipment and listed for such use as outlined in National Fire Protection Association Standard 96, *Standard for Removal of Smoke and Grease-Laden Vapors from Commercial Cooking Equipment* edition as adopted and modified by Chapter 120-3-3 Rules and Regulations of the Safety Fire Commissioner, and systems classified under UL300A.
- (20) "**License**" means the document issued by the Commissioner which authorizes a firm to engage in the business of installation, repair, alteration, recharging, inspection, maintenance, service or testing of fire suppression systems or portable fire extinguishers.
- (21) "**Low Pressure Cylinder**" means those cylinders having an operating or service pressure of 500 psi (3447 kPa) or lower at 70°F (21°C).
- (22) "**Maintenance**" means a thorough examination of the portable fire extinguisher or fire suppression system. It is intended to give maximum assurance that a fire extinguisher or fire suppression system will operate effectively and safely. It includes a thorough examination by inspection and any necessary repair or replacement of components as well as, revealing if hydrostatic testing is required.
- (23) "**Manufacturer's Certification**" means certification derived from participating and successfully completing a training course issued by the manufacturer or other designated agent or representatives authorized by the original equipment manufacturer.
- (24) "**NAFED**" means National Association of Fire Equipment Distributors.
- (25) "**NFPA**" means National Fire Protection Association.
- (26) "**NICET**" means National Institute for Certification in Engineering Technologies and, when used in this regulation, refers to the Special Hazards Systems program areas.
- (27) "**Permit**" means the document issued by the Commissioner which authorizes an individual to install, inspect, repair, recharge, service, or test fire suppression systems or portable fire extinguishers as a direct result of meeting the minimum qualifications herein for which the individual has applied.

- (28) **"Portable Fire Extinguisher"** means a portable device containing an extinguishing agent that can be expelled under pressure for the purpose of suppressing or extinguishing a fire. The device must be listed by a nationally recognized testing laboratory. The device must bear a manufacturer's name and serial number. The listings, approvals, and serial numbers may be stamped on the manufacturer's identification and instruction plate or on a separate plate of the testing laboratory soldered or attached to the extinguisher shell in a permanent manner as set forth by the listing or approving organization.
- (29) **"Pre-Engineered Fire Suppression System"** means any system having predetermined flow rates, nozzle pressures, and quantities of an extinguishing agent. These systems have specific pipe sizes, maximum and minimum pipe lengths, flexible hose specifications, number of fittings, and number and types of nozzles prescribed by a nationally recognized testing laboratory. The hazards protected by these systems are specifically limited as to the type and size by the testing laboratory based upon actual fire tests. Limitations on hazards that can be protected by these systems are contained in the manufacturer's installation manual, which is referenced as part of the listing.
- (30) **"RIN"** means the current retester identification number issued by the DOT or its designated agency, to retest facilities that can then legally perform cylinder requalifications. Only the DOT or its designated agency has the authority to issue such numbers in the United States.
- (31) **"Service"** means the performance of an inspection, installation, maintenance or repair of a portable fire extinguisher or fire suppression system.
- (32) **"Service Location"** means any location where the inspection, installation, or repair is performed on any portable fire extinguisher or fire suppression system covered by these rules and regulations including mobile service vehicles.
- (33) **"Standard"** means any official NFPA publication pertaining to the fire protection industry and addressed in this Chapter.
- (34) **"Visual Inspection"** means a monthly "quick check" to determine that a portable fire extinguisher or fire suppression system cylinder is available and has not been discharged. A visual inspection is intended to give reasonable assurance that the extinguisher or system cylinder is fully charged and operable. A visual inspection is done by verifying the extinguisher or system cylinder is in its designated place, it has not been actuated or tampered with, and there is no obvious physical damage or condition that would prevent its operation. This inspection may be conducted by the equipment owner, his/her employee or a written designated representative of the equipment owner and is not to be confused with inspections conducted under the designated or prescribed maintenance procedures of a portable fire extinguisher or fire suppression system.

History. Original Rule entitled "Definitions" adopted. F. July 23, 1992; eff. August 12, 1992.

Repealed: New Rule of same title adopted. F. Oct. 11, 2007; eff. Oct. 31, 2007.

Rule 120-3-23-.03. General Requirements Related to Licenses, Amended Licenses, Permits, Amended Permits, Renewals and Associated Fees.

- (1) The licenses and permits required by O.C.G.A. Title 25, Chapter 12 and these rules and regulations shall be issued by the Commissioner for each license year beginning January 1 and expiring December 31 of the same year. The application for the renewal of a license or permit shall be filed by November 1.
- (2) A license or permit which is invalid because of failure to renew it, shall be restored upon payment of the applicable fee plus a penalty equal to the applicable fee if said fees are paid within ninety (90) days of expiration. After ninety (90) days, the firm and the employees thereof must apply for new licenses and permits as required for an initial license or permit.
- (3) Any firm or individual holding a valid license or permit desiring to perform an activity not covered by the current permit may submit an application for an amended license or permit at any time between January 1 and November 1.
- (4) The provisions of this Chapter relating to the requirements for obtaining a license or permit shall also apply to applications for an amended license or amended permit and for the renewal of a license or the renewal of a permit. The fee for an amended license, an amended permit, a renewal of a license or the renewal of a permit shall be fifty dollars (\$50.00) and twenty-five dollars (\$25.00) respectively. The fees for an amended license or permit shall not apply if the new activity or activities are included in an application for a renewal of the annual license or permit.
- (5) In addition to the provision of paragraph (4), the application for renewal of a firm's license or an individual's permit must be accompanied by the following:
 - (a) Proof of training equaling a total of required credit units each year as follows:
 - i. A minimum of eight (8) credit units must be received each year by a minimum of one full time employee of the firm in each type of license area filed and license type being requested.

Exception: NICET acceptable CPD Continuing Professional Development will be acceptable.
 - ii. A minimum of eight (8) credit units must be received each year by each employee for each type of permit application filed and permit type being requested.

Exception: NICET acceptable CPD Continuing Professional Development will be acceptable.

- (b) Proof of other training or applicable documentation regarding the activity or activities desired to be included on the new amended license or new amended permit.
- (6) If any employee should leave the employment of the firm or change office locations, the registered agent of the firm shall notify the Commissioner in writing within 5 business days. The individual's license(s) and/or permit(s) shall be returned to the State Fire Marshal's office with this notification. Failure to provide such notification and returned permit(s) and/or license(s) shall constitute a violation of this Chapter and shall be subject to the provisions of Rules [120-3-23-.15](#) and [120-3-23-.16](#). Such permit(s) and/or license(s) shall become null and void immediately upon notification. A new permit and or license shall not be re-issued until the requirements of this Chapter for such permit or license are met.

Rule 120-3-23-.04. Requirements for Portable Fire Extinguisher License.

A firm may obtain a license to install, inspect, repair, recharge, service or test portable fire extinguishers upon meeting the following requirements:

- (a) The applicant for a license to install, inspect, service and test portable fire extinguishers has completed an application form acceptable to the Commissioner.
- (b) The applicant for a license to install, inspect, service and test portable fire extinguishers has paid an annual license fee of fifty dollars (\$50.00) and a one time non-refundable filing fee of fifty dollars (\$50.00) to the Commissioner.
- (c) The applicant for a license to install, inspect, service and test portable fire extinguishers has submitted evidence of the firm's registration as a current Georgia Corporation.
- (d) The applicant for a license to install, inspect, service and test portable fire extinguishers has submitted to the Commissioner a certificate of liability insurance listing the physical address of the business that provides proof of a valid comprehensive liability insurance

policy purchased from an insurer or surplus lines broker authorized to do business in Georgia. The certificate of liability insurance shall list the Insurance Commissioner as the certificate holder to the address of the Safety Fire Division, 2 Martin Luther King Drive, 620 West Tower, Atlanta, GA 30334. The coverage must include bodily injury and property damage, products liability, completed operations, and contractual liability. The minimum amount of said coverage shall be one million dollars (\$1,000,000.00), provided, however, the amount of insurance required may be higher if so specified by the Commissioner. An insurer which provides such coverage shall notify the Commissioner of any change in coverage.

- (e) The applicant for a license to install, inspect, service and test portable fire extinguishers has submitted to the State Fire Marshal's Office the following:
 - 1. A letter on company letter head indicating the areas the company intends to provide services.
 - 2. A minimum of three (3) samples of all service tags, maintenance labels, test labels, service collars, non-compliance tags and high pressure cylinder stamps to be used by the company as indicated by the above service letter received, meeting the requirements of Rule [120-3-23-.14](#). Where stamps are allowed to be utilized, ink stamped impressions showing the applicant's DOT (RIN) number shall be submitted with a copy of the firm's DOT approvals and renewals. Tags, labels and collars may be printed and established for any period of time. However, after each printing, a minimum of three newly printed sample tags, labels and collars must be forwarded to the State Fire Marshal's office as indicated in this paragraph and under Rule [120-3-23-.14](#).
- (f) The applicant for a license to install, inspect, service or test portable fire extinguishers has submitted to the Commissioner evidence of compliance with one of the following:
 - 1. The applicant has maintained a valid permit issued by the Commissioner to install, inspect, service or test portable fire extinguishers for a minimum of a three year period; or
 - 2. Proof of one full time employee of the firm that has maintained a valid permit issued by the Commissioner to install, inspect, service or test portable fire extinguishers for a minimum of a three year period.
- (g) The applicant for a license to install, inspect, service or test portable fire extinguishers has submitted to the Commissioner evidence of compliance with one of the following:
 - 1. Current certification as a Portable Fire Extinguisher Technician by the National Association of Fire Equipment Distributors (NAFED); or
 - 2. Proof of one full time employee of the firm with documentation of current certification as a Portable Fire Extinguisher Technician by the National Association of Fire Equipment Distributors (NAFED); or

3. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 4. Proof of one full time employee of the firm with documentation of current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 5. Current certification from the manufacturer of the portable fire extinguisher denoting the portable fire extinguisher and areas in which the applicant has been successfully trained and certified.
 6. Proof of one full time employee of the firm with current certification from the manufacturer of the portable fire extinguisher denoting the portable fire extinguisher and areas in which the applicant has been successfully trained and certified.
- (h) An inspection by means as determined by the Commissioner has determined that the minimum equipment listed below for the activities the applicant requested to be licensed to perform was present at the service location and/or in each mobile service vehicle utilized by the firm.
1. Proper wrenches with non-serrated jaws or strap wrenches.
 2. Non-serrated needle nose pliers or valve puller.
 3. Inspection light suitable for internal inspection of extinguisher cylinders.
 4. Accurate weighing scales in pound increments for extinguisher cylinder inspection and filling.
 5. Accurate weighing scales in ounce increments for extinguisher cartridge inspection and/or filling.
 6. Fixed vise appropriately sized for its intended use.
 7. A supply of extinguishing agent(s) or compatibly listed agent(s) appropriate for the types of extinguishers the firm requests to fill, and facilities for the proper storage of extinguishing agents as set forth by the specifications from the agent manufacturer.
 8. Commercial dry nitrogen supply with a dew point of -60°F (-51°C) or lower (CGA nitrogen specification G10.1, grades D through P) and pressure regulator with supply and regulated pressure gages calibrated and suitable for properly pressurizing portable fire extinguishers.

9. Equipment shall be on hand at the stationary facility location and each service vehicle for leak testing pressurized extinguishers. Use of a spray bottle containing a soap solution for leak testing pressurized extinguishers is permitted.
 10. A supply of adapters, fittings, tools and equipment required for properly servicing, repairing, maintaining and/or recharging all extinguishers the firm solicits or accepts for service, repair, maintenance or recharge. These needs shall be based on the service or recharge specifications of the extinguisher manufacturer and is not intended to prohibit the use of compatibly listed parts meeting the specifications of the extinguisher manufacturer.
 11. Closed recovery system(s) and storage to remove and store dry chemicals and/or clean agent from extinguisher cylinders during servicing.
 12. Inventory of manufacturer or compatibly listed spare parts for all extinguishers the firm solicits or accepts for service, repair, maintenance or recharge based on the service or recharge specifications of the extinguisher manufacturer.
 13. A copy of the applicable standards of the National Fire Protection Association currently adopted by the Commissioner, and copies of installation, service and maintenance manuals from the manufacturer of each make or brand of extinguisher or system the firm installs, services, recharges, repairs, or maintains.
 14. A supply of required service, maintenance and test tags meeting the provisions of Rule [120-3-23-.14](#) of this Chapter.
 15. Appropriate replacement extinguishers for exchange if extinguishers are removed for service.
- (i) If the applicant includes in the request for a license the request for hydrostatic testing of low pressure DOT or non-DOT regulated extinguisher cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15., the applicant must possess low pressure hydrostatic testing equipment as follows:
1. Appropriate, hydrostatic test equipment for low-pressure extinguishercylinders and hoses equipped with a shutoff nozzle as well as manuals in accordance with DOT and the applicable NFPA Standards.
 2. Approved drying method for low-pressure extinguishercylinders and hoses equipped with a shutoff nozzle after the hydrostatic test in accordance with DOT requirements and NFPA 10.
 3. Adequate safety cage for hydrostatic testing of low pressure extinguishercylinders and hoses equipped with a shutoff nozzle in accordance with DOT requirements and NFPA 10.

4. Low-pressure hydrostatic test labels for DOT or non-DOT regulated extinguisher cylinders containing at least the minimum information required by paragraph (5) of Rule [120-3-23-.14](#).

Exception to (i): The provisions in subparagraph (i) shall not apply to a primary firm that accepts low-pressure extinguisher cylinders for hydrostatic testing by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually hydrostatically testing the cylinder must properly label the cylinder in conformance with paragraph (5) of Rule [120-3-23-.14](#) of this Chapter. The primary firm must properly tag the fire extinguisher in accordance with Rule [120-3-23-.14](#).

- (j) If the applicant includes in the request for a license for the hydrostatic testing of high-pressure DOT regulated extinguisher cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15., the applicant must submit with the application a copy of its DOT approvals and renewals.

Exception: The provisions in subparagraph (j) shall not apply to a firm that accepts high-pressure cylinders for hydrostatic testing by another firm which is licensed and equipped to provide this service. The firm actually hydrostatically testing the cylinder must properly stamp the cylinder with their current DOT (RIN) number when required by DOT regulations.

- (k) If the applicant includes in the request for a license activities that involve the transfer of clean agent fire suppression agents, in addition to the minimum equipment listed in subparagraphs (h)1.-15., the applicant must have the following equipment:
 1. Listed clean agent filling equipment/pumping station and/or closed recovery system at the clean agent recharge location only for each type of clean agent being utilized.
 2. Chemical supply tank(s) for each type of clean agent extinguisher being serviced.

Exception to (k): The provisions in (k) shall not apply to the primary firm that accepts clean agent extinguishers for recharge by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually recharging and servicing the extinguisher must properly install a service collar onto the clean agent extinguisher cylinder in conformance with paragraph (5) of Rule [120-3-23-.14](#) of this Chapter. The primary firm must tag the clean agent fire extinguisher after conducting a proper maintenance inspection on the clean agent fire extinguisher.

- (l) If the applicant includes in the request for a license the service, maintenance, repair or recharge of CO₂ fire extinguishers the following equipment shall be provided at the service location(s) in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15., the firm must have the following equipment:

1. A CO₂ cascade system for proper filling of CO₂ portable fire extinguisher cylinders; or
2. An approved electric pump system for proper filling of CO₂ portable fire extinguisher cylinders; or
3. An approved pneumatic pump system for proper filling of CO₂ portable fire extinguishers cylinders; or
4. An alternate system for proper filling of CO₂ portable fire extinguisher cylinders based on new technology may be used provided the level of safety prescribed by the appropriate standard is not lowered and the system is approved by the Commissioner after being evaluated.
5. If the applicant includes in the request for a license to service or recharge CO₂ fire extinguishers, then in addition to one of the four items above, equipment which allows for the complete immersion of the valve assembly shall be on hand at the stationary facility location for leak testing pressurized CO₂ portable fire extinguisher cylinders.

Exception to (l): The provisions in (l) shall not apply to a primary firm that accepts CO₂ extinguishers for recharge by secondary firm which is licensed and equipped to provide this service provided the primary firm tags the CO₂ fire extinguisher after conducting a proper maintenance inspection on the CO₂ fire extinguisher.

- (m) Nothing shall preclude the Commissioner from verifying by an announced or unannounced re-inspection of the service location and/or in each mobile service vehicle utilized by the firm that such equipment listed and required in subparagraphs (h) through (l) exists and is readily available. The Commissioner may give the registered agent of the firm up to 30 days as deemed appropriate by him/her to correct any deficiencies discovered by such inspection. Furthermore, nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (g) and experience as required in subparagraph (f).

Rule 120-3-23-.05. Requirements for Portable Fire Extinguisher Technician Permit.

An individual may obtain a permit to install, inspect, repair, recharge, service or test portable fire extinguishers upon meeting the following requirements.

- (a) The applicant for a permit to install, inspect, repair, recharge, service or test portable fire extinguishers has submitted a completed permit application form acceptable to the Commissioner.
- (b) The applicant for a permit to install, inspect, repair, recharge, service or test portable fire extinguishers has paid an annual permit fee of twenty-five dollars (\$25.00) and a one time non-refundable filing fee of twenty-five dollars (\$25.00) to the Commissioner if the applicant is a new employee of the firm.
- (c) The applicant for a permit to install, inspect, repair, recharge, service or test portable fire extinguishers has submitted evidence of employment by a firm properly licensed to install, inspect, service and test portable fire extinguishers.
- (d) The applicant for a permit to install, inspect, repair, recharge, service or test portable fire extinguishers has submitted to the Commissioner the following required for processing of the permit:
 - 1. A current color headshot digital photograph, taken with a three (3) Megapixel camera or better, and saved at the lowest resolution available in a jpeg or jpg format.
 - 2. A completed signature form attached to the application containing three (3) individual signatures of the applicant within the designated areas. The signatures shall be a true representation of the applicant's normal signature and shall be in black ink using a medium point pen. Fine point pens shall not be acceptable.
- (e) The applicant for a permit to install, inspect, repair, recharge, service or test portable fire extinguishers has submitted to the Commissioner evidence of compliance with one of the following:
 - 1. Certification as a Portable Fire Extinguisher Technician by the National Association of Fire Equipment Distributors (NAFED); or
 - 2. Certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 - 3. Current certification from the manufacturer of the portable fire extinguisher denoting the portable fire extinguisher and areas in which the applicant has been successfully trained and certified.
- (f) Nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (e).

Rule 120-3-23-.06. Requirements for Pre-Engineered Kitchen or Restaurant Fire Suppression System License.

- (1) A firm may obtain a license to install, inspect, repair, recharge, service or test pre-engineered kitchen or restaurant fire suppression systems upon meeting the following requirements:
 - (a) The applicant for a license to install, inspect, service and test pre-engineered kitchen or restaurant fire suppression systems has completed an application form acceptable to the Commissioner.
 - (b) The applicant for a license to install, inspect, service and test pre-engineered kitchen or restaurant fire suppression systems has paid an annual license fee of fifty dollars (\$50.00) and a one time non-refundable filing fee of fifty dollars (\$50.00) to the Commissioner.
 - (c) The applicant for a license to install, inspect, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted evidence of the firm's registration as a current Georgia Corporation.
 - (d) The applicant for a license to install, inspect, service and test pre-engineered kitchen or restaurant fire suppression systems has submitted to the Commissioner a certificate of liability insurance listing the physical address of the business that provides proof of a valid comprehensive liability insurance policy purchased from an insurer or surplus lines broker authorized to do business in Georgia. The certificate of liability insurance shall list the Insurance Commissioner as the certificate holder to the address of the Safety Fire Division, 2 Martin Luther King Drive, 620 West Tower, Atlanta, GA 30334. The coverage must include bodily injury and property damage, products liability, completed operations, and contractual liability. The minimum amount of said coverage shall be one million dollars (\$1,000,000.00), provided, however, the amount of insurance required may be higher if so specified by the Commissioner. An insurer which provides such coverage shall notify the Commissioner of any change in coverage.
 - (e) The applicant for a license to install, inspect, service and test pre-engineered kitchen or restaurant fire suppression systems has submitted to the State Fire Marshal's Office the following:
 1. A letter on company letter head indicating the areas the company intends to provide services.

2. A minimum of three (3) samples of all service tags, maintenance labels, test labels, non-compliance tags and high pressure cylinder stamps to be used by the company as indicated by the above service letter received, meeting the requirements of Rule [120-3-23-.14](#). Where stamps are allowed to utilized, ink stamped impressions showing the applicants DOT (RIN) number shall be submitted with a copy of the firm's DOT approvals and renewals. Tags and labels may be printed and established for any period of time. However, after each printing, a minimum of three newly printed sample tags or labels and collars must be forwarded to the State Fire Marshal's office as indicated in this paragraph and under Rule [120-3-23-.14](#).

(f) The applicant for a license to install, inspect, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:

1. The applicant has maintained a valid permit issued by the Commissioner to install, inspect, service or test pre-engineered kitchen or restaurant fire suppression systems for a minimum of a three year period; or
2. Proof of one full time employee of the firm that has maintained a valid permit issued by the Commissioner to install, inspect, service or test pre-engineered kitchen or restaurant fire suppression systems for a minimum of a three year period.

Exception to (f): Applicants that meet the provisions of subparagraph (g)1. or (g)6. denoted below.

(g) The applicant for a license to install, inspect, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:

1. Current certification from the manufacturer of the pre-engineered kitchen or restaurant fire suppression system denoting the specific system and areas in which the applicant has been successfully trained and certified; or
2. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level III, Technician certification exam requirements for Special Hazards Suppression Systems; or
3. Current certification as a Pre-Engineered Kitchen Fire Extinguishing System Technician by the National Association of Fire Equipment Distributors (NAFED); or

4. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 5. Proof of one full time employee of the firm with documentation of current certification as a Pre-Engineered Kitchen Fire Extinguishing System Technician by the National Association of Fire Equipment Distributors (NAFED); or
 6. Proof of one full time employee of the firm with documentation of current certification from the manufacturer of the pre-engineered kitchen or restaurant fire suppression system denoting the specific system and areas in which the full time employee has been successfully trained and certified; or
 7. Proof of one full time employee of the firm with documentation of notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level III, Technician certification exam requirements for Special Hazards Suppression Systems; or
 8. Proof of one full time employee of the firm with documentation of current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner.
- (h) An inspection by means as determined by the Commissioner has determined that the minimum equipment listed below for the activities the applicant requested to be licensed to perform was present at the service location and/or in each mobile service vehicle utilized by the firm.
1. Proper wrenches with non-serrated jaws or strap wrenches.
 2. Non-serrated needle nose pliers or valve puller.
 3. Inspection light suitable for internal inspection of pre-engineered kitchen or restaurant fire suppression system cylinders.
 4. Accurate weighing scales in pound increments for pre-engineered kitchen or restaurant fire suppression system cylinders inspection and filling.
 5. Accurate weighing scales in ounce increments for pre-engineered kitchen or restaurant fire suppression system cartridge inspection and/or filling.
 6. Fixed vise appropriately sized for its intended use.
 7. A supply of extinguishing agent(s) or compatibly listed agent(s) appropriate for the types of pre-engineered kitchen or restaurant fire suppression

systems the firm requests to fill, and facilities for the proper storage of extinguishing agents as set forth by the specifications from the agent manufacturer.

8. Commercial dry nitrogen supply with a dew point of -60°F (-51°C) or lower (CGA nitrogen specification G10.1, grades D through P) and pressure regulator with supply and regulated pressure gages calibrated and suitable for properly pressurizing pre-engineered kitchen or restaurant fire suppression system.
9. Equipment shall be on hand at the stationary facility location and each service vehicle for leak testing pressurized pre-engineered kitchen or restaurant fire suppression system cylinders. Use of a spray bottle containing a soap solution for leak testing pressurized system cylinders or their installations is permitted.
10. A supply of adapters, fittings, tools and equipment required for properly servicing, repairing, maintaining and or recharging all systems the firm solicits or accepts for service, repair, maintenance or recharge. These needs shall be based on the service or recharge specifications of the pre-engineered kitchen or restaurant fire suppression system manufacturer and is not intended to prohibit the use of compatibly listed parts meeting the specifications of the pre-engineered kitchen or restaurant fire suppression system manufacturer.
11. Inventory of manufacturer or compatibly listed spare parts to include system detector and control parts as applicable for all pre-engineered kitchen or restaurant fire suppression systems the firm solicits or accepts for service, repair, maintenance or recharge based on the service or recharge specifications of the systems manufacturer.
12. A copy of the applicable standards of the National Fire Protection Association currently adopted by the Commissioner, and copies of installation, service and maintenance manuals from the manufacturer of each make or brand of pre-engineered kitchen or restaurant fire suppression system the firm installs, services, recharges, repairs, or maintains.
13. A supply of required service, maintenance and test tags meeting the provisions of Rule [120-3-23-.14](#) of this Chapter.
14. Pipe threader and associated tools and dies.
15. Appropriate replacement cylinders for exchange if pre-engineered kitchen or restaurant fire suppression system cylinders are removed for service.

- (i) If the applicant includes in the request for a license the request for hydrostatic testing of low pressure DOT or non-DOT regulated pre-engineered kitchen or restaurant fire suppression system cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15. the applicant must possess low pressure hydro testing equipment as follows:
1. Appropriate, hydrostatic test equipment for low-pressure cylinders as well as manuals in accordance with DOT and the applicable NFPA Standards.
 2. Adequate safety cage for hydrostatic testing of low pressure pre-engineered kitchen or restaurant fire suppression system cylinders in accordance with DOT requirements and the applicable NFPA Standards.
 3. Low-pressure hydrostatic test labels for DOT or non-DOT regulated pre-engineered kitchen or restaurant fire suppression system cylinders containing at least the minimum information required by paragraph (5) of Rule [120-3-23-.14](#) of this Chapter.

Exception to (i): The provisions in subparagraph (i) shall not apply to a primary firm that accepts low-pressure pre-engineered kitchen or restaurant fire suppression system cylinders for hydrostatic testing by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually hydrostatically testing the cylinder must properly label the cylinder in conformance with paragraph (5) of Rule [120-3-23-.14](#) of this Chapter.

- (j) If the applicant includes in the request for a license for the hydrostatic testing of high-pressure DOT regulated pre-engineered kitchen or restaurant fire suppression system cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15., the applicant must submit with the application a copy of its DOT approvals and renewals.

Exception: The provisions in subparagraph (j) shall not apply to a primary firm that accepts high-pressure pre-engineered kitchen or restaurant fire suppression system cylinders for hydrostatic testing by firm which is licensed and equipped to provide this service. The firm actually hydrostatically testing the cylinder must properly stamp the cylinder with their current DOT (RIN) number when required by and in conformance with DOT regulations.

- (k) Nothing shall preclude the Commissioner from verifying by an announced or unannounced re-inspection of the service location and/or in each mobile service vehicle utilized by the firm that such equipment listed and required in subparagraphs (h) through
- (j) exists and is readily available. The Commissioner may give the registered agent of the firm up to 30 days as deemed appropriate by him/her to correct any

deficiencies discovered by such inspection. Furthermore, nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (g) and experience as required in subparagraph (f).

- (2) Any license issued under the provisions of subparagraph (g)1. or subparagraph (g)6. due to certification received from the manufacturer shall be considered a restricted license to only allow the firm and the permit holder(s) to install, inspect, service and test those pre-engineered kitchen or restaurant fire suppression systems whom certification is received and filed with the Commissioner. Such restricted license shall not constitute any additional approvals as a license for the installation, inspection servicing or testing of any other pre-engineered kitchen or restaurant fire suppression system. In addition, such license will automatically restrict the firm's permit applicant(s) and permit holder(s) activities operating under the firm's license regardless of their qualifications.

Rule 120-3-23-.07. Requirements for Pre-Engineered Kitchen or Restaurant Fire Suppression System Technician Permit.

- (1) An individual may obtain a permit to install, inspect, repair, recharge, service or test pre-engineered kitchen or restaurant fire suppression systems upon meeting the following requirements:
 - (a) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted a completed permit application form acceptable to the Commissioner.
 - (b) The applicant for a permit to install, inspect, repair, recharge, service, or test pre-engineered kitchen or restaurant fire suppression systems has paid an annual permit of twenty-five dollars (\$25.00) and a one time non-refundable filing fee of twenty-five dollars (\$25.00) to the Commissioner if the applicant is a new employee of the firm.
 - (c) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted evidence of employment by a firm properly licensed to install, inspect, service and test pre-engineered kitchen fire suppression systems.

- (d) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted to the Commissioner the following required for processing of the permit:
 - 1. A current color headshot digital photograph, taken with a three (3) Megapixel camera or better, and saved at the lowest resolution available in a jpeg or jpg format.
 - 2. A completed signature form attached to the application containing three (3) individual signatures of the applicant within the designated areas. The signatures shall be a true representation of the applicant's normal signature and shall be in black ink using a medium point pen. Fine point pens shall not be acceptable.
 - (e) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered kitchen or restaurant fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:
 - 1. Current certification from the manufacturer of the pre-engineered kitchen or restaurant fire suppression system denoting the specific system and areas in which the applicant has been successfully trained and certified; or
 - 2. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level II, Technician certification exam requirements for Special Hazards Suppression Systems; or
 - 3. Current certification as a Pre-Engineered Kitchen Fire Extinguishing System Technician by the National Association of Fire Equipment Distributors (NAFED); or
 - 4. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner,
 - (f) Nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (e).
- (2) Any permit issued under the provisions of subparagraph (e)1. due to certification received from the manufacturer shall be considered a restricted permit to only allow the firm's permit holder(s) to install, inspect, service and test those pre-engineered kitchen or restaurant fire suppression systems whom certification is received and filed with the Commissioner under the firm's license. Such restricted permit shall not constitute any additional approvals as a permit for the installation, inspection, servicing or testing of any other pre-engineered kitchen or restaurant fire suppression system regardless of the permit holder's qualifications.

Rule 120-3-23-.08. Requirements for Pre-Engineered Industrial Fire Suppression System License.

- (1) A firm may obtain a license to install, inspect, repair, recharge, service or test pre-engineered industrial fire suppression systems upon meeting the following requirements:
 - (a) The applicant for a license to install, inspect, service and test pre-engineered industrial fire suppression systems has completed an application form acceptable to the Commissioner.
 - (b) The applicant for a license to install, inspect, service and test pre-engineered industrial fire suppression systems has paid an annual license fee of fifty dollars (\$50.00) and a one time non-refundable filing fee of fifty dollars (\$50.00) to the Commissioner.
 - (c) The applicant for a license to install, inspect, service and test pre-engineered industrial fire suppression systems has submitted evidence of the firm's registration as a current Georgia Corporation.
 - (d) The applicant for a license to install, inspect, service and test pre-engineered industrial fire suppression systems has submitted to the Commissioner a certificate of liability insurance listing the physical address of the business that provides proof of a valid comprehensive liability insurance policy purchased from an insurer or surplus lines broker authorized to do business in Georgia. The certificate of liability insurance shall list the Insurance Commissioner as the certificate holder to the address of the Safety Fire Division, 2 Martin Luther King Drive, 620 West Tower, Atlanta, GA 30334. The coverage must include bodily injury and property damage, products liability, completed operations, and contractual liability. The minimum amount of said coverage shall be one million dollars (\$1,000,000.00), provided, however, the amount of insurance required may be higher if so specified by the Commissioner. An insurer which provides such coverage shall notify the Commissioner of any change in coverage.
 - (e) The applicant for a license to install, inspect, service and test pre-engineered industrial fire suppression systems has submitted to the State Fire Marshal's Office the following:
 1. A letter on company letter head indicating the areas the company intends to provide services.

2. A minimum of three (3) samples of all service tags, maintenance labels, test labels, non-compliance tags and high pressure cylinder stamps to be used by the company as indicated by the above service letter received, meeting the requirements of Rule [120-3-23-.14](#). Where stamps are allowed to utilized, ink stamped impressions showing the applicants DOT (RIN) number shall be submitted with a copy of the firm's DOT approvals and renewals. Tags and labels may be printed and established for any period of time. However, after each printing, a minimum of three newly printed sample tags and labels must be forwarded to the State Fire Marshal's office as indicated in this paragraph and under Rule [120-3-23-.14](#).
- (f) The applicant for a license to install, inspect, service or test pre-engineered industrial fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:
1. The applicant has maintained a valid permit issued by the Commissioner to install, inspect, service or test pre-engineered industrial fire suppression systems for a minimum of a three year period; or,
 2. Proof of one full time employee of the firm that has maintained a valid permit issued by the Commissioner to install, inspect, service or test pre-engineered industrial fire suppression systems for a minimum of a three year period.
- Exception to (f):* Applicants that meet the provisions of subparagraph (g)1. or subparagraph (g)6. denoted below.
- (g) The applicant for a license to install, inspect, service and test pre-engineered industrial fire suppression systems has submitted to the Commissioner evidence of compliance with the following:
1. Current certification from the manufacturer of the pre-engineered industrial fire suppression system denoting the specific system and areas in which the applicant has been successfully trained and certified; or
 2. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level III, Technician certification exam requirements for Special Hazards Suppression Systems; or
 3. Current certification as a Pre-Engineered Industrial Fire Extinguishing System Technician by the National Association of Fire Equipment Distributors (NAFED); or

4. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 5. Proof of one full time employee of the firm with documentation of current certification as a Pre-Engineered Industrial Fire Extinguishing System Technician by the National Association of Fire Equipment Distributors (NAFED); or
 6. Proof of one full time employee of the firm with documentation of current certification from the manufacturer of the pre-engineered industrial fire suppression system denoting the specific system and areas in which the full time employee has been successfully trained and certified; or
 7. Proof of one full time employee of the firm with documentation of notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level III, Technician certification exam requirements for Special Hazards Suppression Systems; or
 8. Proof of one full time employee of the firm with documentation of current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner.
- (h) An inspection by means as determined by the Commissioner has determined that the minimum equipment listed below for the activities the applicant requested to be licensed to perform was present at the service location and/or in each mobile service vehicle utilized by the firm.
1. Proper wrenches with non-serrated jaws or strap wrenches.
 2. Non-serrated needle nose pliers or valve puller.
 3. Inspection light suitable for internal inspection of pre-engineered industrial fire suppression system cylinders.
 4. Accurate weighing scales in pound increments for pre-engineered industrial fire suppression system cylinder inspection and filling.
 5. Accurate weighing scales in ounce increments for pre-engineered industrial fire suppression system cartridge inspection and/or filling.
 6. Fixed vise appropriately sized for its intended use.
 7. A supply of extinguishing agent(s) or compatibly listed agent(s) appropriate for the types of pre-engineered industrial fire suppression systems the firm

requests to fill, and facilities for the proper storage of extinguishing agents as set forth by the specifications from the agent manufacturer.

8. Commercial dry nitrogen supply with a dew point of -60°F (-51°C) or lower (CGA nitrogen specification G10.1, grades D through P) and pressure regulator with supply and regulated pressure gages calibrated and suitable for properly pressurizing pre-engineered industrial fire suppression system.
 9. Equipment, which allows for the complete immersion of a cylinder, shall be on hand at the stationary facility location for leak testing pressurized pre-engineered industrial fire suppression system cylinders. Service vehicles may use a spray bottle containing a soap solution for leak testing pressurized system cylinders or their installations.
 10. A supply of adapters, fittings, tools and equipment required for properly servicing, repairing, maintaining and or recharging all pre-engineered industrial fire suppression systems the firm solicits or accepts for service, repair, maintenance or recharge. These needs shall be based on the service or recharge specifications of the pre-engineered industrial fire suppression system manufacturer and is not intended to prohibit the use of compatibly listed parts meeting the specifications of the pre-engineered industrial fire suppression system manufacturer.
 11. Inventory of manufacturer or compatibly listed spare parts to include system detector and control parts as applicable for all pre-engineered industrial fire suppression systems the firm solicits or accepts for service, repair, maintenance or recharge based on the service or recharge specifications of the systems manufacturer.
 12. A copy of the applicable standards of the National Fire Protection Association currently adopted by the Commissioner, and copies of installation, service and maintenance manuals from the manufacturer of each make or brand of pre-engineered industrial fire suppression system the firm installs, services, recharges, repairs, or maintains.
 13. A supply of required service, maintenance and test tags meeting the provisions of Rule [120-3-23-.14](#) of this Chapter.
 14. Pipe threader and associated tools and dies.
 15. Appropriate replacement cylinders for exchange if pre-engineered industrial fire suppression system cylinders are removed for service.
- (i) If the applicant includes in the request for a license the request for hydrostatic testing of low pressure DOT or non-DOT regulated pre-engineered industrial fire

suppression system cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15., the applicant must possess low pressure hydrostatic testing equipment as follows:

1. Appropriate, hydrostatic test equipment for low-pressure cylinders as well as manuals in accordance with DOT and the applicable NFPA Standards.
2. Approved drying method for low-pressure pre-engineered industrial fire suppression system cylinders after the hydrostatic test in accordance with DOT requirements and the applicable NFPA Standards.
3. Adequate safety cage for hydrostatic testing of low pressure pre-engineered industrial fire suppression system cylinders in accordance with DOT requirements and the applicable NFPA Standards.
4. Low-pressure hydrostatic test labels for DOT or non-DOT regulated pre-engineered industrial fire suppression system cylinders containing at least the minimum information required by Paragraph (5) of Rule [120-3-23-.14](#) of this Chapter.

Exception to (i): The provisions in subparagraph (i) shall not to apply to a primary firm that accepts low-pressure pre-engineered industrial fire suppression system cylinders for hydrostatic testing by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually hydrostatically testing the pre-engineered industrial fire suppression system cylinder must properly label the cylinder in conformance with paragraph (5) of Rule [120-3-23-.14](#) of this Chapter. The primary firm must properly tag the pre-engineered industrial fire suppression system after proper inspection and maintenance is performed.

- (j) If the applicant includes in the request for a license for the hydrostatic testing of high-pressure DOT regulated pre-engineered industrial fire suppression system cylinders, in addition to the appropriate minimum equipment in listed in listed in subparagraphs (h)1.-15., the applicant must submit with the application a copy of its DOT approvals and renewals.

Exception: The provision in subparagraph (j) shall not apply to a primary firm that accepts high-pressure pre-engineered industrial fire suppression system cylinders for hydrostatic testing by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually hydrostatically testing the pre-engineered industrial fire suppression system cylinder must properly stamp the cylinder with their current DOT (RIN) number when required by and in conformance with this Chapter and DOT regulations.

- (k) If the applicant includes in the request for a license activities that involve the transfer of clean agent pre-engineered industrial fire suppression agents, in addition to the minimum equipment listed in subparagraphs (h)1.-15., the applicant must have the following equipment:
1. Listed clean agent filling equipment/pumping station and/or closed recovery system at the clean agent recharge location only for each type of clean agent being utilized.
 2. Chemical supply tank(s) for each type of clean agent extinguisher being serviced.

Exception to (k): The provisions in (k) shall not apply to the primary firm that accepts clean agent pre-engineered industrial fire suppression system cylinders for recharge by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually recharging and servicing the pre-engineered industrial fire suppression system cylinders must properly install a service collar onto the pre-engineered industrial fire suppression system cylinders in conformance with paragraph (5) of Rule [120-3-23-.14](#) of this Chapter. The primary firm must tag the pre-engineered industrial fire suppression system cylinders with their company tag in conformance with Rule [120-3-23-.14](#) of this Chapter after conducting a proper maintenance inspection.

- (l) If the applicant includes in the request for a license the service, maintenance, repair or recharge of CO₂ pre-engineered fire suppression systems the following equipment shall be provided at the service location(s) in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-15., the applicant must have the following equipment:
1. CO₂ cascade system for proper filling of CO₂ pre-engineered industrial fire suppression system cylinders; or
 2. An approved electric pump system for proper filling of CO₂ pre-engineered industrial fire suppression system cylinders; or
 3. An approved pneumatic pump system for proper filling of CO₂ pre-engineered industrial fire suppression system cylinders; or
 4. An alternate system for proper filling of CO₂ pre-engineered industrial fire suppression system cylinders based on new technology may be used provided the level of safety prescribed by the appropriate standard is not lowered and the system is approved by the Commissioner after being evaluated.

5. Approved drying method for low-pressure pre-engineered industrial fire suppression system cylinders after the hydrostatic test in accordance with DOT requirements and the applicable NFPA Standards.
6. Equipment shall be on hand at the stationary facility location and each service vehicle for leak testing pressurized pre-engineered industrial fire suppression system cylinders. Use of a spray bottle containing a soap solution for leak testing pressurized pre-engineered industrial fire suppression system cylinders is permitted.

Exception to (l): The provisions in subparagraph (l) shall not apply to a primary firm that accepts CO₂ pre-engineered industrial fire suppression system cylinders for recharge by a secondary firm which is licensed and equipped to provide this service provided the primary firm tags the CO₂ fire extinguisher after conducting a proper maintenance inspection on the CO₂ pre-engineered industrial fire suppression system cylinders.

- (m) Nothing shall preclude the Commissioner from verifying by an announced or unannounced re-inspection of the service location and/or in each mobile service vehicle utilized by the firm that such equipment listed and required in subparagraphs (g) through (k) exists and is readily available. The Commissioner may give the registered agent of the firm up to 30 days as deemed appropriate by him/her to correct any deficiencies discovered by such inspection. Furthermore, nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (g) and experience as required in subparagraph (f).
- (2) Any license issued under the provisions of subparagraph (g)1. or subparagraph (g)6. due to certification received from the manufacturer shall be considered a restricted license to only allow the firm and the permit holder(s) to install, inspect, service and test those pre-engineered industrial fire suppression systems whom certification is received and filed with the Commissioner. Such restricted license shall not constitute any additional approvals as a license for the installation, inspection servicing or testing of any other pre-engineered industrial fire suppression system. In addition, such license will automatically restrict the firm's permit applicant(s) and permit holder(s) activities operating under the firm's license regardless of their qualifications.

Rule 120-3-23-.09. Requirements for Pre-Engineered Industrial Fire Suppression System Technician Permit.

- (1) An individual may obtain a permit to install, inspect, repair, recharge, service or test pre-engineered industrial fire suppression system upon meeting the following requirements:
 - (a) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered industrial fire suppression systems has submitted a completed permit application form acceptable to the Commissioner.
 - (b) The applicant for a permit to install, inspect, repair, recharge, service, or test pre-engineered industrial fire suppression systems has paid an annual permit of twenty-five dollars (\$25.00) and a one time non-refundable filing fee of twenty-five dollars (\$25.00) to the Commissioner if the applicant is a new employee of the firm.
 - (c) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered industrial fire suppression systems has submitted evidence of employment by a firm properly licensed to install, inspect, service and test pre-engineered industrial fire suppression systems.
 - (d) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered industrial fire suppression systems has submitted to the Commissioner the following required for processing of the permit:
 1. A current color headshot digital photograph, taken with a three (3) Megapixel camera or better, and saved at the lowest resolution available in a jpeg or jpg format.
 2. A completed signature form attached to the application containing three (3) individual signatures of the applicant within the designated areas. The signatures shall be a true representation of the applicant's normal signature and shall be in black ink using a medium point pen. Fine point pens shall not be acceptable.
 - (e) The applicant for a permit to install, inspect, repair, recharge, service or test pre-engineered industrial fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:
 1. Current certification from the manufacturer of the pre-engineered industrial fire suppression system denoting the specific system and areas in which the applicant has been successfully trained and certified.
 2. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level II,

Technician certification exam requirements for Special Hazards Suppression Systems.

3. Current certification as a Pre-Engineered Industrial Fire Extinguishing System Technician by the National Association of Fire Equipment Distributors (NAFED).
 4. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner.
- (f) Nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (e).
- (2) Any permit issued under the provisions of subparagraph (e)1. due to certification received from the manufacturer shall be considered a restricted permit to only allow the firm's permit holder(s) to install, inspect, service and test those pre-engineered industrial fire suppression systems whom certification is received and filed with the Commissioner under the firm's license. Such restricted permit shall not constitute any additional approvals as a permit for the installation, inspection servicing or testing of any other pre-engineered industrial fire suppression system regardless of the permit holder's qualifications.

Rule 120-3-23-.10. Requirements for Engineered Special Hazard Fire Suppression System License.

- (1) A firm may obtain a license to install, inspect, repair, recharge, service or test engineered special hazard fire suppression systems upon meeting the following requirements:
 - (a) The applicant for a license to install, inspect, service and test engineered special hazard fire suppression systems has completed an application form acceptable to the Commissioner.
 - (b) The applicant for a license to install, inspect, service and test engineered special hazard fire suppression systems has paid an annual license fee of fifty dollars (\$50.00) and a one time non-refundable filing fee of fifty dollars (\$50.00) to the Commissioner.

- (c) The applicant for a license to install, inspect, service and test engineered special hazard fire suppression systems has submitted evidence of the firm's registration as a current Georgia Corporation.
- (d) The applicant for a license to install, inspect, service and test engineered special hazard fire suppression systems has submitted to the Commissioner a certificate of liability insurance listing the physical address of the business that provides proof of a valid comprehensive liability insurance policy purchased from an insurer or surplus lines broker authorized to do business in Georgia. The certificate of liability insurance shall list the Insurance Commissioner as the certificate holder to the address of the Safety Fire Division, 2 Martin Luther King Drive, 620 West Tower, Atlanta, GA 30334. The coverage must include bodily injury and property damage, products liability, completed operations, and contractual liability. The minimum amount of said coverage shall be one million dollars (\$1,000,000.00), provided, however, the amount of insurance required may be higher if so specified by the Commissioner. An insurer which provides such coverage shall notify the Commissioner of any change in coverage.
- (e) The applicant for a license to install, inspect, service and test engineered special hazard fire suppression systems has submitted to the State Fire Marshal's Office the following:
 - 1. A letter on company letter head indicating the areas the company intends to provide services.
 - 2. A minimum of three (3) samples of all service tags, maintenance labels, test labels, non-compliance tags and high pressure cylinder stamps to be used by the company as indicated by the above service letter received, meeting the requirements of Rule [120-3-23-.14](#). Where stamps are allowed to utilized, ink stamped impressions showing the applicants DOT (RIN) number shall be submitted with a copy of the firm's DOT approvals and renewals. Tags and labels may be printed and established for any period of time. However, after each printing, a minimum of three newly printed sample tags and labels must be forwarded to the State Fire Marshal's office as indicated in this paragraph and under Rule [120-3-23-.14](#).
- (f) The applicant for a license to install, inspect, service or test engineered industrial fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:
 - 1. The applicant has maintained a valid permit issued by the Commissioner to install, inspect, service or test engineered industrial fire suppression systems for a minimum of a three year period; or,
 - 2. Proof of one full time employee of the firm that has maintained a valid permit issued by the Commissioner to install, inspect, service or test

engineered industrial fire suppression systems for a minimum of a three year period.

Exception to (f): Applicants that meet the provisions of subparagraph (g)1. or subparagraph (g)7. denoted below.

- (g) The applicant for a license to install, inspect, service and test engineered special hazard fire suppression systems has submitted to the Commissioner evidence of compliance with one of the following:
1. Current certification from the manufacturer of the engineered special hazard fire suppression system denoting the specific system and areas in which the applicant has been successfully trained and certified.
 2. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting certification at or above Level IV in Special Hazards Suppression Systems.
 3. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 4. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level III, Technician certification exam requirements for Special Hazards Suppression Systems and has maintained a current license for the past five years.
 5. Proof of one full time employee of the firm with documentation of current certification from the manufacturer of the engineered special hazard fire suppression system denoting the specific system and areas in which the full time employee has been successfully trained and certified.
 6. Proof of one full time employee of the firm with documentation of notification from the National Institute of Certification in Engineering Technologies (NICET) denoting certification at or above Level IV in Special Hazards Suppression Systems.
 7. Proof of one full time employee of the firm with documentation of current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner.
 8. Proof of one full time employee of the firm with documentation of notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level III, Technician certification exam requirements for Special Hazards

Suppression Systems and has maintained a current license for the past five years.

- (h) An inspection by means as determined by the Commissioner has determined that the minimum equipment listed below for the activities the applicant requested to be licensed to perform was present at the service location and/or in each mobile service vehicle utilized by the firm.
1. Proper wrenches with non-serrated jaws or strap wrenches.
 2. Non-serrated needle nose pliers or valve puller.
 3. Inspection light suitable for internal inspection of engineered special hazard fire suppression system cylinders.
 4. Accurate weighing scales in pounds increments for engineered special hazard fire suppression system cylinder inspection and filling.
 5. Accurate weighing scales in ounce increments for engineered special hazard fire suppression system cartridge inspection and/or filling.
 6. Fixed vise appropriately sized for its intended use.
 7. A supply of extinguishing agent(s) or compatibly listed agent(s) appropriate for the types of engineered special hazard fire suppression systems the firm requests to fill, and facilities for the proper storage of extinguishing agents as set forth by the specifications from the agent manufacturer.
 8. Commercial dry nitrogen supply with a dew point of -60°F (-51°C) or lower (CGA nitrogen specification G10.1, grades D through P) and pressure regulator with supply and regulated pressure gages calibrated and suitable for properly pressurizing engineered special hazard fire suppression system.
 9. Equipment shall be on hand at the stationary facility location for leak testing pressurized non-CO₂ engineered special hazard fire suppression system cylinders. A leak detector is acceptable. In addition, a spray bottle containing a soap solution for leak testing pressurized system cylinders or their installations.
 10. A supply of adapters, fittings, tools and equipment required for properly servicing, repairing, maintaining and or recharging all engineered special hazard fire suppression systems the firm solicits or accepts for service, repair, maintenance or recharge. These needs shall be based on the service or recharge specifications of the engineered special hazard fire suppression system manufacturer and is not intended to prohibit the use of compatibly

listed parts meeting the specifications of the engineered special hazard fire suppression system manufacturer.

11. Closed recovery system(s) and storage to remove and store dry chemicals and/or clean agent where required by the manufacturer from engineered special hazard fire suppression system cylinders during servicing.
 12. Inventory of manufacturer or compatibly listed spare parts to include system detector and control parts as applicable for all engineered special hazard fire suppression systems the firm solicits or accepts for service, repair, maintenance or recharge based on the service or recharge specifications of the systems manufacturer.
 13. A copy of the applicable standards of the National Fire Protection Association currently adopted by the Commissioner, and copies of installation, service and maintenance manuals from the manufacturer of each make or brand of engineered special hazard fire suppression system the firm installs, services, recharges, repairs, or maintains.
 14. A supply of required service, maintenance and test tags meeting the provisions of Rule [120-3-23-.14](#) of this Chapter.
 15. Pipe threader and associated tools and dies.
 16. Appropriate replacement cylinders for exchange if engineered special hazard fire suppression system cylinders are removed for service.
- (i) If the applicant includes in the request for a license the request for hydrostatic testing of low pressure DOT or non-DOT regulated engineered special hazard fire suppression system cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-16., the applicant must possess low pressure hydro testing equipment as follows:
1. Appropriate, hydrostatic test equipment for low-pressure cylinders as well as manuals in accordance with DOT and the applicable NFPA Standards.
 2. Approved drying method for low-pressure engineered special hazard fire suppression system cylinders after the hydrostatic test in accordance with DOT requirements and the applicable NFPA Standards.
 3. Adequate safety cage for hydrostatic testing of low pressure engineered special hazard fire suppression system cylinders in accordance with DOT requirements and the applicable NFPA Standards.

4. Low-pressure hydrostatic test labels for DOT or non-DOT regulated engineered special hazard fire suppression system cylinders containing at least the minimum information required by paragraph (5) of Rule [120-3-23-.14](#) of this Chapter.

Exception to (i): The provision in subparagraph (i) shall not apply to a primary firm that accepts low-pressure engineered special hazard fire suppression system cylinders for hydrostatic testing by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually hydrostatically testing the engineered special hazard fire suppression system cylinder must properly label the cylinder in conformance with paragraph (5) of Rule [120-3-23-.14](#) of this Chapter.

- (j) If the applicant includes in the request for a license for the hydrostatic testing of high-pressure DOT regulated engineered special hazard fire suppression system cylinders, in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-16., the applicant must submit with the application a copy of its DOT approvals and renewals.

Exception: The provision in subparagraph (j) shall not apply to a primary firm that accepts high-pressure engineered special hazard fire suppression system cylinders for hydrostatic testing by a secondary firm which is licensed and equipped to provide this service. The secondary firm actually hydrostatically testing the engineered special hazard fire suppression system cylinder must properly stamp the cylinder with their current DOT (RIN) number in conformance with this Chapter and DOT regulations.

- (k) If the applicant includes in the request for a license activities that involve the transfer of clean agent engineered special hazard fire suppression agents, in addition to the minimum equipment listed in subparagraphs (h)1.-16., the applicant must have the following equipment:
 1. Listed clean agent filling equipment/pumping station and/or closed recovery system at the clean agent recharge location only for each type of clean agent being utilized.
 2. Chemical supply tank(s) for each type of clean agent extinguisher being serviced.

Exception to (k): The provisions in (k) shall not apply to a primary firm that accepts Clean agent engineered special hazard fire suppression system cylinders for recharge by a secondary firm which is licensed and equipped to provide this service. The primary firm must properly tag the engineered

special hazard fire suppression system cylinders with their company tag in conformance with Rule [120-3-23-.14](#) of this Chapter.

(l) If the applicant includes in the request for a license the service, maintenance, repair or recharge of CO₂ engineered special hazard fire suppression systems the following equipment shall be provided at the service location(s) in addition to the appropriate minimum equipment listed in subparagraphs (h)1.-16., the applicant must have the following equipment:

1. CO₂ cascade system for proper filling of CO₂ engineered special hazard fire suppression system cylinders; or
2. An approved electric pump system for proper filling of CO₂ engineered special hazard fire suppression system cylinders; or
3. An approved pneumatic pump system for proper filling of CO₂ engineered special hazard fire suppression system cylinders; or
4. An alternate system for proper filling of CO₂ engineered special hazard fire suppression system cylinders based on new technology may be used provided the level of safety prescribed by the appropriate standard is not lowered and the system is approved by the Commissioner after being evaluated.

Exception to (l): The provisions in subparagraph (l) shall not apply to a primary firm that accepts CO₂ engineered special hazard fire suppression system cylinders for recharge by a secondary firm which is licensed and equipped to provide this service. The primary firm must properly tag the engineered special hazard fire suppression system cylinders with their company tag in conformance with Rule [120-3-23-.14](#) of this Chapter.

(m) Nothing shall preclude the Commissioner from verifying by an announced or unannounced re-inspection of the service location and/or in each mobile service vehicle utilized by the firm that such equipment listed and required in subparagraphs (h) through (l) exists and is readily available. The Commissioner may give the registered agent of the firm up to 30 days as deemed appropriate by him/her to correct any deficiencies discovered by such inspection. Furthermore, nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (g) and experience as required in subparagraph (f).

(2) Any license issued under the provisions of subparagraph (g)1. or subparagraph (g)5. due to certification received from the manufacturer shall be considered a restricted license to only allow the firm and the permit holder(s) to install, inspect, service and test those engineered special hazard fire suppression systems whom certification is received and

filed with the Commissioner. Such restricted license shall not constitute any additional approvals as a license for the installation, inspection servicing or testing of any other engineered special hazard fire suppression system. In addition, such license will automatically restrict the firm's permit applicant(s) and permit holder(s) activities operating under the firm's license regardless of their qualifications.

Rule 120-3-23-.11. Requirements for Engineered Special Hazard Fire Suppression System Technician Permit.

- (1) An individual may obtain a permit to install, inspect, repair, recharge, service or test engineered special hazard fire suppression systems upon meeting the following requirements:
 - (a) The applicant for a permit to install, inspect, repair, recharge, service or test engineered special hazard fire suppression systems has submitted a completed permit application form acceptable to the Commissioner.
 - (b) The applicant for a permit to install, inspect, repair, recharge, service, or test engineered special hazard fire suppression systems has paid an annual permit of twenty-five dollars (\$25.00) and a one time non-refundable filing fee of twenty-five dollars (\$25.00) to the Commissioner if the applicant is a new employee of the firm.
 - (c) The applicant for a permit to install, inspect, repair, recharge, service or test engineered special hazard fire suppression systems has submitted evidence of employment by a firm properly licensed to install, inspect, service and test engineered special hazard fire suppression systems.
 - (d) The applicant for a permit to install, inspect, repair, recharge, service or test engineered special hazard fire suppression systems has submitted to the Commissioner the following required for processing of the permit:
 1. A current color headshot digital photograph, taken with a three (3) Megapixel camera or better, and saved at the lowest resolution available in a jpeg or jpg format.
 2. A completed signature form attached to the application containing three (3) individual signatures of the applicant within the designated areas. The signatures shall be a true representation of the applicant's normal signature

and shall be in black ink using a medium point pen. Fine point pens shall not be acceptable.

- (e) The applicant for a permit to install, inspect, repair, recharge, service or test engineered special hazard fire suppression systems has submitted to the Commissioner evidence of compliance with subparagraphs 1., 2., 3. or 4. Nothing shall preclude the Commissioner from verifying such evidence of certification or exam requirements.
 - 1. Current certification from the manufacturer of the engineered special hazard fire suppression system denoting the specific system and areas in which the applicant has been successfully trained and certified; or
 - 2. Notification from the National Institute for Certification in Engineering Technologies (NICET) denoting certification at or above Level III in Special Hazards Suppression Systems; or
 - 3. Current certification or testing by other nationally recognized organizations as deemed appropriate and acceptable by the Commissioner; or
 - 4. Notification from the National Institute of Certification in Engineering Technologies (NICET) denoting the successful completion of Level II, Technician certification exam requirements for Special Hazards Suppression Systems and has maintained a current permit for the past five years.
 - (f) Nothing shall preclude the Commissioner from verifying such evidence of notification, certification or testing as required in subparagraph (e).
- (2) Any permit issued under the provisions of subparagraph (e)1 due to certification received from the manufacturer shall be considered a restricted permit to only allow the firm's permit holder(s) to install, inspect, service and test those engineered special hazard fire suppression systems whom certification is received and filed with the Commissioner under the firm's license. Such restricted permit shall not constitute any additional approvals as a permit for the installation, inspection, servicing or testing of any other engineered special hazard fire suppression system regardless of the permit holder's qualifications.

Rule 120-3-23-.12. Requirements for Technician Training Provisional Permit.

To provide for a training program, an individual may obtain a provisional permit. Such permit shall not permit an individual to install, inspect, recharge, repair, service or test fire suppression systems or portable fire extinguishers without the direct and immediate supervision of a person whom is properly permitted by the Commissioner to install, inspect, recharge, repair, service or test fire suppression systems or portable fire extinguishers. A provisional permit may be issued to an applicant upon meeting the following requirements:

- (a) The applicant for a provisional permit to install, inspect, repair, recharge, service or test portable fire extinguishers, pre-engineered kitchen fire suppression systems, pre-engineered industrial fire suppression systems and/or engineered special hazard fire suppression systems under the direct and immediate supervision of a person whom is properly permitted by the Commissioner has submitted a completed provisional permit application form acceptable to the Commissioner.
- (b) The applicant for a provisional permit to install, inspect, repair, recharge, service or test portable fire extinguishers, pre-engineered kitchen fire suppression systems, pre-engineered industrial fire suppression systems and/or engineered special hazard fire suppression systems under the direct and immediate supervision of a person whom is properly permitted by the Commissioner has paid an annual permit of twenty-five dollars (\$25.00) for each permit type and a one time non-refundable filing fee of twenty-five dollars (\$25.00) to the Commissioner if the applicant is a new employee of the firm.
- (c) The applicant for a provisional permit to install, inspect, repair, recharge, service or test portable fire extinguishers, pre-engineered kitchen fire suppression systems, pre-engineered industrial fire suppression systems and/or engineered special hazard fire suppression systems under the direct and immediate supervision of a person whom is properly permitted by the Commissioner has submitted evidence of employment by a firm properly licensed to install, inspect, service and test portable fire extinguishers, pre-engineered kitchen fire suppression systems, pre-engineered industrial fire suppression systems and/or engineered special hazard fire suppression systems.
- (d) The applicant for a permit to install, inspect, repair, recharge, service or test portable fire extinguishers, pre-engineered kitchen fire suppression systems, pre-engineered industrial fire suppression systems and/or engineered special hazard fire suppression systems under the direct and immediate supervision of a person whom is properly permitted by the Commissioner has submitted to the Commissioner the following required for processing of the permit:
 - 1. A current color headshot digital photograph, taken with a three (3) Megapixel camera or better, and saved at the lowest resolution available in a jpeg or jpg format.
 - 2. A completed signature form attached to the application containing three (3) individual signatures of the applicant within the designated areas. The signatures shall be a true representation of the applicant's normal signature and shall be in black ink using a medium point pen. Fine point pens shall not be acceptable.

History. Original Rule entitled "Requirements for Technician Training Provisional Permit" adopted. F. Oct. 11, 2007; eff. Oct. 31, 2007.

Rule 120-3-23-.13. Adopted Codes and Standards.

- (1) Any portable fire extinguisher s required by any state law, state rule or regulation or by any locally adopted law, ordinance, code or standard must be installed, inspected, repaired, recharged, serviced, or tested only by a properly licensed firm and permitted technician in accordance with the applicable state law, state rule or regulation or any locally adopted law, ordinance, code or standard.
- (2) Any fire suppression system s required by any state law, state rule or regulation or by any locally adopted law, ordinance, code or standard must be installed, inspected, repaired, recharged, serviced, or tested only by a properly licensed firm and permitted technician in accordance with the applicable state law, state rule or regulation or any locally adopted law, ordinance, code or standard except as otherwise provided for in this Chapter.
- (3) Any portable fire extinguisher or any fire suppression system service record tag shall meet the provisions of paragraphs (2) and (3) of Rule [120-3-23-.14](#) and shall also have noted on it the following by the service technician:
 - (a) The agent weight.
 - (b) The hydrostatic testing due date for the cylinder as applicable.
- (4) Any portable fire extinguisher that has not been maintained in accordance with NFPA 10 or any fire suppression system that has not been maintained in its original design capacity or any fire suppression system that has been expanded to meet an expanded hazard without meeting the manufacturer's installation requirements shall be tagged with a non-compliance tag meeting the provisions of paragraph (7) of Rule [120-3-23-.14](#). Records of inspections, tests, and maintenance of the system(s) and its components shall be made available to the authority having jurisdiction by the following methods:
 - (a) Maintained at the firm's business address for review by the authority having jurisdiction for a minimum period of two years.
 - (b) On non-compliant or impaired portable fire extinguishers and non-compliant or impaired fire suppression systems, a copy of the inspection report shall be forwarded to the authority having jurisdiction by the firm.
- (5) The fire suppression system control panels requiring batteries shall note battery replacement due date on the service tag as applicable. The control panel batteries shall also be marked in permanent marking ink with the date of the battery installation.

(6) **NFPA 10, *Standard for Portable Fire Extinguishers***

History. Original Rule entitled "Adopted Codes and Standards" adopted. F. Oct. 11, 2007; eff. Oct. 31, 2007.

Rule 120-3-23-.14. Specifications for Service Tags, Maintenance Labels, Test Labels, Service Collars, Non-Compliance Tags and High Pressure Cylinder Stamp Filing Requirements.

- (1) A basic service record tag is required to be attached on all portable fire extinguishers or any fire suppression systems required by any state law, state rule or regulation or by any locally adopted law, ordinance, code or standard.
- (2) A new service record tag shall be attached to each portable fire extinguisher and to each fire suppression system by a wire, plastic retainer, or be self adhering when a new portable fire extinguisher or fire suppression system is put into service or each time any service is performed. The tags which are affixed directly to the portable fire extinguisher shell or to a fire suppression system cylinder by adhesion shall be applied to the back of such units so as not to obstruct or interfere with the manufacturer's instructions or existing labels. Where a multiple cylinder fire suppression system is involved, the tag

requirements shall apply to each cylinder, each control head, each hand pull and control panel where applicable. Basic service record tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office. A basic service record tags shall be light yellow in color at least three (3) inches by five and one-half (5 1/2) inches and shall contain the following information:

- (a) Name of the firm installing or servicing the portable fire extinguisher.
 - (b) The street address of the firm installing or servicing the portable fire extinguisher.
 - (c) The mailing address of the firm installing or servicing the portable fire extinguisher if different from the street address.
 - (d) The phone number of the firm installing or servicing the portable fire extinguisher.
 - (e) The license number of the firm installing or servicing the portable fire extinguisher.
 - (f) The name and permit number of the technician who installed or serviced the portable fire extinguisher.
 - (g) Serial number of the portable fire extinguisher installed or serviced.
 - (h) Clear indication of the service performed on the portable fire extinguisher.
 - (i) Indication of the type of portable fire extinguisher involved.
 - (j) The month and year the service was performed.
 - (k) The words, "DO NOT REMOVE".
- (3) A new service record tag shall be attached to each fire suppression system by a wire, plastic retainer, or be self adhering when a new fire suppression system is put into service or each time any service is performed. The tags which are affixed directly to the fire suppression system cylinder by adhesion shall be applied to the back of such units so as not to obstruct or interfere with the manufacturer's instructions or existing labels. Where a multiple cylinder fire suppression system is involved, the tag requirements shall apply to each cylinder, each control head, each hand pull and control panel where applicable. Basic service record tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office. A basic service record tags shall be light blue in color at least three (3) inches by five and one-half (5 1/2) inches and shall contain the following information:
- (a) Name of the firm installing or servicing the fire suppression system.
 - (b) The street address of the firm installing or servicing fire suppression system.

- (c) The mailing address of the firm installing or servicing the fire suppression system if different from the street address.
 - (d) The phone number of the firm installing or servicing the fire suppression system.
 - (e) The license number of the firm installing or servicing the fire suppression system.
 - (f) The name and permit number of the technician who installed or serviced the fire suppression system.
 - (g) Serial number of the cylinder(s) of a fire suppression system installed or serviced.
 - (h) Clear indication of the service performed on the fire suppression system.
 - (i) Indication of the type of fire suppression system involved.
 - (j) The month and year the service was performed.
 - (k) The words, "DO NOT REMOVE".
- (4) A six-year maintenance label shall be required on each portable fire extinguisher or fire suppression system where such maintenance is required. The six-year maintenance label shall be affixed on the exterior of the portable fire extinguisher or fire suppression system cylinder(s). Each time the six-year service is performed, the previously affixed label shall be removed prior to affixing a new tag. This label shall not be used for recording hydrostatic test information. Six-year maintenance label may be printed and established for any period of time. After each printing, a minimum of three sample labels must be forwarded to the State Fire Marshal's office. The six-year maintenance label shall be a blue metallic, self-voiding decal and shall contain the following information:
- (a) The name of the firm performing the six-year maintenance.
 - (b) The license number of the firm performing the six-year maintenance.
 - (c) The permit number of the technician performing the six-year maintenance.
 - (d) The initials of the technician performing the six-year maintenance.
 - (e) The month, day and year the six-year maintenance was performed.
 - (f) The words, "SIX-YEAR MAINTENANCE RECORD".
- (5) A low-pressure hydrostatic test label shall be required on each portable fire extinguisher or fire suppression system where such test is required. The low-pressure hydrostatic test label shall be affixed on the exterior of the portable fire extinguisher or fire suppression system cylinder(s). Each time the low-pressure hydrostatic test is performed, the previously affixed label shall be removed prior to affixing a new tag. This label shall not

be used for recording six-year maintenance information. Low-pressure hydrostatic test tags may be printed and established for any period of time. After each printing, a minimum of three sample labels must be forwarded to the State Fire Marshal's office. The low-pressure hydrostatic test label shall be a silver metallic, self-voiding decal and shall contain the following information:

- (a) The name of the firm performing the low-pressure hydrostatic test.
 - (b) The license number of the firm performing the low-pressure hydrostatic test.
 - (c) The permit number of the technician performing the low-pressure hydrostatic test.
 - (d) The initials of the technician performing the low-pressure hydrostatic test.
 - (e) The month, day and year the low-pressure hydrostatic test was performed.
 - (f) The words "LOW-PRESSURE HYDROSTATIC TEST RECORD".
- (6) A verification of service collar shall be required to be located around the neck of each portable fire extinguisher each time the portable fire extinguisher is opened up for any type of maintenance or for any other service. A new verification of service collar shall be installed and the previously provided verification of service collar removed each time internal service is performed for any purpose. The verification of service collar shall not interfere with the operation of the portable fire extinguisher. Verification of service collars may be printed and established for any period of time. After each printing, a minimum of three sample collars must be forwarded to the State Fire Marshal's office. The verification of service collar shall be a singular piece of uninterrupted material forming a hole of a size that will not permit the collar assembly to move over the neck of the container unless the valve assembly of the portable fire extinguishers is completely removed and shall contain the following information:
- (a) The name of the firm performing the internal service.
 - (b) The license number of the firm performing the internal service.
 - (c) The permit number of the technician performing the six-year maintenance.
 - (d) The initials of the technician performing the internal service.
 - (e) The month and year the internal service was performed.

Exception No. 1: Stored pressure system cylinders that have undergone maintenance before November 2007.

Exception No. 2: Non-stored pressure cylinders such as cartridge cylinders for cartridge-operated systems do not require a "Verification of Service" collar for the cartridge.

(7) A Non-compliance record tag shall be required on any fire extinguisher or fire suppression system that has not been maintained in its original design capacity or has been expanded to meet an expanded hazard without meeting the manufacturer's installation requirements. The non-compliance tag shall be attached to the fire extinguisher or fire suppression system by a wire or plastic retainer. These tags shall not be affixed directly to the extinguisher shell or to a system cylinder by adhesion. Where a multiple cylinder system is involved, the tag requirements shall apply to each cylinder, each control head, each hand pull and control panel as applicable. The non-compliance tag shall remain on the portable fire extinguisher or fire suppression system until it is in compliance with the applicable standards of the National Fire Protection Association referenced in Rule [120-3-23-.11](#). Non-compliance record tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office. A non-compliance record tag shall be red in color and shall be at least three (3) inches by five and one-half (5 1/2) inches and shall contain the following information:

- (a) Name of the firm servicing the portable fire extinguisher or fire suppression system.
- (b) The street address of the firm servicing the portable fire extinguisher or fire suppression system.
- (c) The mailing address of the firm servicing the portable fire extinguisher or fire suppression system if different from the street address.
- (d) The phone number of the firm servicing the portable fire extinguisher or fire suppression system.
- (e) The license number of the firm servicing the portable fire extinguisher or fire suppression system.
- (f) The name and permit number of the technician who serviced the portable fire extinguisher or fire suppression system.
- (g) Serial number of the portable fire extinguisher or as appropriate, the cylinder(s) of a fire suppression system.
- (h) Clear indication of the reason for the non-compliance on the portable fire extinguisher or fire suppression system.
- (i) Indication of the type of portable fire extinguisher or fire suppression system involved.
- (j) The month and year the service was performed.
- (k) The words, "DO NOT REMOVE".

- (8) All high pressure cylinders shall be stamped with the firms current DOT (RIN) number in accordance with and when required by DOT regulations. A copy of the firm's DOT approvals and renewals shall be provided with the application request for a license for the hydrostatic testing of any high-pressure DOT regulated cylinders.

Rule 120-3-23-.15. Cease and Desist Order Against Violators; Order Requiring Compliance; Suspension or Revocation of Licenses and Permits for Failure to Comply with Order; Penalties for Violations.

- (1) Whenever the Commissioner shall have reason to believe that any individual is or has been engaged in any conduct in violation of any provision of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter or any other rule or regulation adopted and promulgated pursuant thereto, the Commissioner, his or her deputy, his or her assistant, or other designated persons may issue and deliver to the individual an order to cease and desist in such conduct in violation.
 - (a) An order of suspension shall state the period of time of such suspension, which period may not be in excess of two year from the date of such order.
 - (b) An order of revocation shall state the period of time of such revocation, which period may not be in excess of five years from the date of the order.
 - (c) Such order shall effect suspension or revocation of the license or permit then held by the person. During such period no license or permit shall be issued to such person.
- (2) Any order shall contain or be accompanied by a notice of opportunity for hearing which may provide that a hearing will be held if and only if a person subject to the order requests a hearing within ten days of receipt of the order and notice. The order and notice shall be served by delivery by the Commissioner or his or her agent or by registered or certified mail, return receipt requested. Any person who fails to comply with any order under this subsection is guilty of a misdemeanor and may be punished by law.
- (3) Violation of any provision of this chapter or the failure to comply with a cease and desist order is cause for denial, non-renewal, revocation or suspension of any license or permit issued by the Commissioner. No holder of a license or permit whose license or permit has been revoked or suspended by order of the Commissioner shall be entitled to obtain another license or permit for the period of revocation or suspension from the effective date of such order. If, during the period between the beginning of proceedings and the

entry of an order of suspension or revocation by the Commissioner, a new license or permit has been issued to the person so charged, the order of the Commissioner revoking or suspending a license or permit shall revoke or suspend any license or permit issued prior to the effective date of such order with respect to such new license or permit held by such person. Any final order issued by the Commissioner under this subsection may be appealed as provided by law.

- (4) Any person who violates any provision of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter or any other rule, regulation, or order issued by the Commissioner under this chapter shall be subject to a civil penalty imposed by the Commissioner in the amounts as specified in O.C.G.A. § [25-12-18](#) for each day a violation persists after such person is notified of the Commissioner's intent to impose such penalty and the right to a hearing with respect to same.

History. Original Rule entitled "Cease and Desist Order Against Violators; Order Requiring Compliance; Suspension or Revocation of Licenses and Permits for Failure to Comply with Order; Penalties for Violations" adopted. F. Oct. 11, 2007; eff. Oct. 31, 2007.

Rule 120-3-23-.16. Enforcement; Additional Grounds for Revocation or Suspension of Licenses and Permits.

- (1) The violation of any provision of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter or any other rule or regulation adopted and promulgated pursuant thereto, by any person who possesses a license or permit is cause for revocation or suspension of such licenses or permit by the Commissioner.
- (2) It shall be unlawful for any firm or individual to install, inspect, recharge, repair, service, or test a portable fire extinguisher, as defined by these rules and regulations in this state except in conformity with the provisions of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter, any current fire code or standard enforced by the Commissioner or regulation adopted and promulgated pursuant thereto,
 - (a) It shall be unlawful for any firm or individual to install, inspect, recharge, repair, service, or test a portable fire extinguisher in which the individual technician or firm is not properly licensed or permitted. Every licensee or permittee must be able to produce a valid license or valid permit, as appropriate, upon demand of the Commissioner or his representative or by any local authority having jurisdiction for fire protection or prevention or by any person for whom the licensee or permittee solicits to perform any of the activities covered by this Chapter.
 - (b) It shall be unlawful for any firm or individual to install, inspect, recharge, repair, service or test any portable fire extinguisher without attaching the required tag or tags as required by these this Chapter.

- (c) It shall be unlawful for any individual not to complete the required tag or tags in detail, including the actual month, day and year the work was performed on the portable fire extinguisher.
- (3) It shall be unlawful for any firm or individual to install, inspect, recharge, repair, service, or test any fire suppression system, as defined by these rules and regulations in this state except in conformity with the provisions of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter, any current fire code or standard enforced by the Commissioner or any other rule or regulation adopted and promulgated pursuant thereto,
 - (a) It shall be unlawful for any firm or individual to install, alter, inspect, recharge, repair, service, or test a fire suppression system in which the individual technician or firm is not properly licensed or permitted. Every licensee or permittee must be able to produce a valid license or valid permit, as appropriate, upon demand of the Commissioner or his representative or by any local authority having jurisdiction for fire protection or prevention or by any person for whom the licensee or permittee solicits to perform any of the activities covered by this Chapter.
 - (b) It shall be unlawful for any firm or individual to install, alter, inspect, recharge, repair, service or test any fire suppression system without attaching the required tag or tags as required by this Chapter.
 - (c) It shall be unlawful for any individual not to complete the required tag or tags in detail, including the actual month, day and year the work was performed on the fire protection system.
- (4) It shall be unlawful for any firm or individual to use a tag not meeting the specifications set forth in this Chapter under Rule [120-3-23-.14](#).
- (5) It shall be unlawful for any firm or individual to use credentials, methods, means, or practices to impersonate a representative of another competing firm.
- (6) It shall be unlawful for any firm or individual to fail to maintain the minimum comprehensive liability insurance coverage as set forth in paragraph (3) of section [25-12-11](#) of Chapter 12 of Title 25 of the Official Code of Georgia and in this Chapter.
- (7) It shall be unlawful for any firm or individual to falsify any record required to be maintained by Chapter 12 of Title 25 of the Official Code of Georgia, NFPA code or standard or this Chapter.
- (8) It shall be unlawful for any individual with a provisional permit to install, inspect, recharge, repair, service or test a fire suppression system s or portable fire extinguisher s without the direct and immediate supervision of a person whom is properly permitted by the Commissioner to install, inspect, recharge, repair, service or test such fire suppression system or portable fire extinguisher.

- (9) In addition to the grounds set forth above in paragraphs (1) through (8), it is specific cause for revocation or suspension of an individual's license by the Commissioner if he determines that an individual who works for the licensee has:
- (a) Improperly installed, recharged, repaired, serviced, or tested a portable fire extinguisher;
 - (b) Rendered inoperative a portable fire extinguisher covered by these rules and regulations, except during a reasonable time the portable fire extinguisher is being inspected, recharged, repaired, serviced, or tested;
 - (c) Improperly installed, added to, altered, recharged, repaired, maintained, serviced, or tested a fire suppression system;
 - (d) Rendered inoperative a fire suppression system covered by these rules and regulations, except during a reasonable time the fire suppression system is being installed, altered, recharged, repaired, maintained, serviced, or tested;
 - (e) Falsified any record required to be maintained by any provision of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter, current fire code or standard enforced by the Commissioner or any other rule or regulation s promulgated pursuant thereto;
 - (f) While holding a permit or license, allowed another person to use the permit or license, permit number or license number, used a license or permit, or used a license number or permit number other than his/her own valid license or permit or license number or permit number;
 - (g) Used or permitted the use of any license or license number by an individual or organization other than his/her own valid license or license number;
 - (h) Used or permitted the use of any permit or permit number by an individual or organization other than his/her own valid permit or permit number;
 - (i) Used credentials, methods, means, or practices to impersonate a representative of the Commissioner or the State Fire Marshal or any other local fire chief, fire marshal, or other fire authority having jurisdiction;
 - (j) Failed to maintain the minimum comprehensive liability insurance coverage as set forth in paragraph (3) of section [25-12-11](#) of Chapter 12 of Title 25 of the Official Code of Georgia and in these rules and regulations.
 - (k) Failed to maintain the minimum requirements to obtain a license.
 - (l) Engaged in the business of installing, inspecting, recharging, repairing, servicing, or testing portable fire extinguishers or fire suppression systems except in

conformity with the provisions of Chapter 12 of Title 25 of the Official Code of Georgia and this Chapter.

- (10) In addition to the grounds set forth above in paragraphs (1) through (8), it is specific cause for revocation or suspension of an individual's permit by the Commissioner, if he/she determines that the permit holder has:
- (a) Improperly installed, recharged, repaired, serviced, or tested a portable fire extinguisher;
 - (b) Rendered inoperative a portable fire extinguisher covered by these rules and regulations, except during a reasonable time the portable fire extinguisher is being inspected, recharged, repaired, serviced, or tested;
 - (c) Improperly installed, altered, recharged, repaired, maintained, serviced, or tested a fire suppression system;
 - (d) Rendered inoperative a fire suppression system covered by these rules and regulations, except during a reasonable time the fire suppression system is being installed, altered, recharged, repaired, maintained, serviced, or tested;
 - (e) Falsified any record required to be maintained by Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter, current fire code or standard enforced by the Commissioner or any other rule or regulation;
 - (f) While holding a permit or license, allowed another person to use the permit or license, permit number or license number, used a license or permit, or used a license number or permit number other than his/her own valid license or permit or license number or permit number;
 - (g) Used or permitted the use of any license or license number by an individual or organization other than his/her own valid license or license number;
 - (h) Used or permitted the use of any permit or permit number by an individual or organization other than his/her own valid permit or permit number;
 - (i) Used any credential(s), method(s), means, or practice(s) to impersonate a representative of the Commissioner or State Fire Marshal or any local fire chief, fire marshal, or other fire authority;
 - (j) Failed to maintain the minimum requirements to obtain a permit.
 - (k) Engaged in the business of installing, inspecting, recharging, repairing, servicing, or testing portable fire extinguishers or fire suppression systems except in conformity with the provisions of Chapter 12 of Title 25 of the Official Code of Georgia and this Chapter.

- (11) Any person, firm or corporation shall be guilty of a misdemeanor if or when they willfully or intentionally:
- (a) Violate any provision of Chapter 12 of Title 25 of the Official Code of Georgia, this Chapter, current fire code or standard enforced by the Commissioner or any order, rule, or regulation of the Commissioner promulgated pursuant thereto;
 - (b) Obliterate the serial number on a fire suppression system or portable fire extinguisher for the purpose of falsifying service records;
 - (c) Improperly install, recharge, repair, service, or test any such fire suppression system or any such portable fire extinguisher;
 - (d) Allow another person to use their permit, license, permit number or license number;
 - (e) Use or permitted the use of any license, permit, license number or permit number by an individual or organization other than his/her own valid license or permit or license number or permit number;
 - (f) Use or permitted the use of any license, permit, license number or permit number by an individual or organization other than the one to whom the license is issued;
 - (g) Use any credential(s), method(s), mean(s), or practice(s) to impersonate a representative of the Commissioner or State Fire Marshal or any local fire chief, fire marshal, or other fire authority; or
 - (h) Engage in the business of installing, inspecting, recharging, repairing, servicing, or testing portable fire extinguishers or fire suppression systems except in conformity with the provisions of Chapter 12 of Title 25 of the Official Code of Georgia and this Chapter.

Rule 120-3-23-.17. Local Jurisdictions.

- (1) Nothing in Chapter 12 of Title 25 of the Official Code of Georgia or in these rules and regulations limits the power of a municipality, a county, or the state to require the submission and approval of plans and specifications or to regulate the quality and character of work performed by contractors through a system of permits, fees, and inspections otherwise authorized by law for the protection of the public health and safety.

- (2) No municipality or county shall impose any other requirements on persons licensed or permitted by the Commissioner as set forth in Chapter 12 of Title 25 of the Official Code of Georgia to prove competency to conduct any activity covered by said license or permit.
- (3) The provisions of this chapter do not apply to fire chiefs, fire marshals, fire inspectors, or insurance company inspectors with regard to the routine visual inspection of fire suppression systems or portable fire extinguishers.
- (4) The provisions of these rules and regulations do not apply to any firm that engages only in the routine visual inspection of fire suppression systems or portable fire extinguishers owned by the firm and installed on property under the control of said firm. Any individual employed by a firm or governmental entity that engages in installing, inspecting, recharging, repairing, servicing, or testing of portable fire extinguishers or fire suppression systems owned by the firm and installed on property under the control of said firm shall remain subject to the rules and regulations adopted pursuant to this Chapter.
- (5) The fees required by this chapter shall not apply to employees of federal, state, or local governments or to members of legally organized fire departments while acting in their official capacities.
- (6) Any official of any municipality or county who discovers violations or receives complaints should report the information to the Safety Fire Division of the Commissioner of Insurance.

Rule 120-3-23-.19. Failure to Renew Certificate, Permit or License.

The failure to renew a certificate or license by the expiration date as set forth in this chapter will cause the certificate or license to become inoperative. A certificate or license which is inoperative because of the failure to renew, shall be restored upon payment of all applicable fees

plus a penalty of not more than \$250.00 if said fees are paid within ninety days of expiration. After a certificate or license has been inoperative for a period of greater than ninety days because of a failure to renew, no new certificate or license shall be issued unless an initial application is made.

Rule 120-3-23-.20. Request for Modification of Specific Requirements.

Upon receipt of a sworn affidavit stating all relevant facts and circumstances and such other information as may be required, the State Fire Marshal may recommend to the Georgia Safety Fire Commissioner that specific requirements of this Chapter and the codes and standards adopted herein be modified to allow alternative arrangements that will secure as nearly equivalent measures as practical for the prevention of injury to persons and property. The Georgia Safety Fire Commissioner in his or her discretion may accept the State Fire Marshal's recommendation and grant the requested modification.

Rule 120-3-23-.21. Effective Dates.

The provisions of Chapter 12 of Title 25 of the Official Code of Georgia became effective on July 1, 1991. The issuance of licenses and permits required by Chapter 12 under these revised Rules and Regulations shall be in full compliance with this Chapter upon its effective date.

Exception No. 1. For renewal of current licenses and current permits issued prior to January 1, 2008, successful passage of the current state testing for portable fire extinguishers and pre-engineered restaurant fire suppression system will be accepted as compliance with paragraph (g) under Rule [120-3-23-.04](#), paragraph (e) under Rule [120-3-23-.05](#), paragraph (g) under Rule [120-3-23-.06](#), and paragraph (e) under Rule [120-3-23-.07](#). State testing under reprinted NAFED test for compliance requirements for licenses and permits shall cease by September 1, 2008. Effective October 1, 2008, applicants who previously relied on state testing will be required to instead seek certification from NAFED or to otherwise comply with the requirements of these regulations, as amended.

Exception No. 2: For renewal of current licenses and current permits issued prior to January 1, 2008, for pre-engineered industrial fire suppression systems and engineered special hazard fire successful systems, a maximum of 4 hours in each area of approved training or other training acceptable to this office will be accepted for compliance with paragraph (5) under Rule [120-3-](#)

[23-.03](#) if received after January 1, 2005, but prior to January 1, 2007. Any training hours previously approved by this office received after January 1, 2007, will receive full credit hours for appropriate and approved training for compliance with paragraph (5) under Rule [120-3-23-.03](#).

Exception No. 3: For renewal of current licenses and current permits issued prior to October 1, 2007, for engineered fire suppression systems under the existing company name, compliance with paragraph (g)4. under Rule 120-3-23-.10 and (e)4. under Rule [120-3-23-.11](#) is not required provided the current company licenses and its technicians current permits have been maintained and have not lapse from the date issued. A maximum of 4 hours of approved training or other training acceptable to this office will be accepted for compliance with paragraph (5) under Rule [120-3-23-.03](#) if received after January 1, 2005, but prior to January 1, 2007, for the renewal of current licenses and current permits for engineered fire suppression systems. Any training hours previously approved by this office received after January 1, 2007, will receive full credit hours for appropriate and approved training for compliance with paragraph (5) under Rule [120-3-23-.03](#).

Exception No. 4: The service record tag requirement of paragraph (3) of Rule [120-3-23-.14](#) shall be effective upon the adoption of this Chapter with the exception of the new color blue. Blue service record tag requirements of paragraph (3) of Rule [120-3-23-.14](#) shall be effective January 1, 2009. All companies will be required to submit blue service record tags by January 1, 2009, even if they have received a license for the 2009 calendar year. A yellow service record tag meeting the requirements of paragraph (3) of Rule [120-3-23-.14](#) will be acceptable for any system serviced before January 1, 2009.

Subject 120-3-24. RULES AND REGULATIONS FOR LOSS PREVENTION DUE TO COMBUSTIBLE DUST EXPLOSIONS AND FIRE.

Rule 120-3-24-.01. Promulgation and Purpose.

- (1) These rules and regulations of the Safety Fire Commissioner entitled, "Rules and Regulations for the State Minimum Fire Safety Standards for Loss Prevention Due to Combustible Dust Explosions and Fire," are promulgated as specified in the Official Code of Georgia Annotated, (O.C.G.A.) Section [25-2-4](#).
- (2) The primary purpose of these rules and regulations is to establish the state minimum fire safety standards for specific industry groups that have experienced either frequent combustible dust incidents or combustible dust incidents with catastrophic consequences and prescribe technical requirements related to building construction and to provide safety measures for operations to prevent and mitigate fires and dust explosions in facilities that handle combustible particulate solids. It further develops requirements for the training of employees to assist them in identifying fire hazards, developing safety procedures, evacuation plans, conducting safety drills and requires the reporting of manufacturing processes, incidents of fire, employee training, the practice of and participation in fire safety and emergency evacuation drills.

Rule 120-3-24-.02. Application.

- (1) (a) Pursuant to O.C.G.A. [25-2-4](#), rules and regulations adopted by the Safety Fire Commissioner shall have the force and effect of law and shall have statewide application as being the state minimum fire safety standards and shall not require adoption by a municipality or county. The governing authority of any municipality or county in this state is authorized to enforce the state minimum fire safety standards on all buildings and structures that have operations involving the manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust for those specific industry groups that have experienced either frequent combustible dust incidents or combustible dust incidents with catastrophic consequences and are identified by the Standard Industrial Classification (SIC) Code listed in (b) under this Rule. Regardless of enforcement by local governing authorities, any business which that has under its control, facilities where the manufacturing, processing, and/or

handling combustible particulate solids are taking place shall comply with this Chapter including those manufacturing processes that create combustible dust except as specified herein.

- (b) For the purpose of this Chapter, operations involving the manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust for specific industry groups that have experienced either frequent combustible dust incidents or combustible dust incidents with catastrophic consequences are as follows:

<u>SIC</u>	<u>NAICS</u>	<u>Industries with either frequent or catastrophic combustible dust incidents:</u>
2046	311221	Wet Corn Milling
4911	221112	Electric Services -- Establishments engaged in the generation, transmission, and/or distribution of electric energy for sale
2041	311211	Flour and Other Grain Mill Products
2493	321219	Reconstituted Wood Products
2899	325510, 325998	Chemicals and Chemical Preparations, Not Elsewhere Classified
2099	311212	Prepared foods and miscellaneous food specialties, not elsewhere classified
3471	332813	Electroplating, Plating, Polishing, Anodizing, and Coloring

- (c) Notwithstanding paragraph (b), these regulations do not cover those operations and installation governed by other specific regulations promulgated for specific processes and purposes specified in Title 25 of the Official Code of Georgia. These regulations are not applicable to any building or structure which is used exclusively for agricultural purposes as defined in paragraph (4.1) of Code Section [1-3-3](#) of the Official Code of Georgia and which is located in an unincorporated area. Furthermore, this regulation shall not be applicable to any building or structure that is covered under the Federal regulations [29 CFR 1910.272](#), of the Occupational Safety and Health Administration entitled "Grain Handling Facilities."
- (d) The provisions of this Chapter reflect what is believed to be necessary to provide an acceptable degree of protection from the hazards addressed by this Chapter and the standards adopted therein at the time this Chapter was promulgated. Unless otherwise specified, the provisions of this Chapter or the standards adopted herein, the adopted Codes and standards shall not apply to facilities, equipment, structures, or installations that existed or were approved for construction prior to March 7, 2008.
- (e) Any new construction modification or renovation shall comply with the new construction provisions and operation provisions established within this Chapter and the standards adopted herein whether such construction requires permitting or

approval at the state or local level. Any modification or renovation of existing equipment or any installation of new equipment or any new processes shall comply with the new provisions established within this Chapter and the standards adopted herein whether such modification, renovation of existing equipment or any installation of new equipment or any new processes requires permitting or approval at the state or local level.

- (f) This standard shall apply to facilities on which construction has begun and where specified in the Codes and standards adopted herein, the provisions of such Code or standard shall be retroactive.
 - (g) The retroactive requirements of the Codes and standards adopted herein shall be permitted to be modified if their application clearly would be impractical in the judgment of the authority having jurisdiction, and only where it is clearly evident that a reasonable degree of safety is provided.
 - (h) Pursuant to O.C.G.A. [25-2-13\(f\)](#), the municipal governing authority in any incorporated area or the county governing authority in any unincorporated area of the state shall have the authority to enact such ordinances as it deems necessary to perform fire safety inspections and related activities for those buildings and structures not covered by O.C.G.A. [25-2-13](#) and are covered by this Chapter.
- (2) Whenever the provisions of this chapter of the Rules and Regulations of the Safety Fire Commissioner offer alternatives, as far as fire safety requirements are concerned, that were not permissible under previous editions of any Rules and Regulations of the Safety Fire Commissioner covering the same subject matter, the provisions of this chapter may be used by the authority having jurisdiction in determining whether a building is in compliance with the provisions of O.C.G.A. Title 25, Chapter 2, and the rules and regulations promulgated there under.

Rule 120-3-24-.03. Definitions.

- (1) "Authority Having Jurisdiction" shall mean for the purpose of this chapter, the organization, office, or individual responsible for approving equipment, materials, an installation, or a procedure.
- (2) "Building Official" shall mean for the purpose of this chapter, the officer or other designated authority charged with the administration and enforcement of the International Building Code, or a duly authorized representative.
- (3) "Business" shall mean, for the purpose of this chapter, any firm corporation, business, person, partnership, organization, association, contractor, individual or other entity, engaged in manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust.
- (4) "Combustible Dust" shall mean, for the purpose of this chapter, any finely divided solid material that is 420 microns or smaller in diameter (material passing a U.S. No. 420 microns or smaller in diameter (material passing a U.S. No. 40 Standard Sieve) and presents a fire or explosion hazard when dispensed and ignited in air. (From NFPA 654)
- (5) "Combustible Particulate Solid" shall mean, for the purpose of this chapter, any combustible solid material, composed of distinct particles or pieces, regardless of size, shape, or chemical composition. Combustible particulate solids include dusts, fibers, fines, chips, chunks, flakes, or mixtures of these.
- (6) "Commissioner" shall mean, for the purpose of this chapter, the Georgia Safety Fire Commissioner or his/her designated representative.
- (7) "Existing Building" shall mean for the purpose of this chapter, buildings, structures, facilities or conditions which are already in existence or constructed and officially authorized prior to March 7, 2008. This definition shall apply to all situations covered by this chapter except where otherwise noted by this chapter or as otherwise deemed a proposed building or structure as specified in Chapter 2 of Title 25.
- (8) "Fire Chief" shall mean for the purpose of this chapter, the chief officer of the fire department serving the jurisdiction, or a duly authorized representative.
- (9) "Fire Official" shall mean for the purpose of this chapter, the fire chief or other designated authority charged with the administration and enforcement of the codes and standards adopted herein, or a duly authorized representative.
- (10) "Fire Wall" shall mean, for the purpose of this chapter and O.C.G.A. Code Sections [25-2-4](#) and [25-2-13](#), walls of any approved noncombustible materials and have sufficient structural stability under fire conditions to allow collapse of construction on either side without collapse of the wall for the duration of time indicated by the required fire-resistance rating.

- (11) "Full Time Employee" shall mean, for the purpose of this chapter, an individual who works for the firm and is on payroll for a minimum of thirty and one half hours of paid service per week, per employer.
- (12) "ICC Code" shall mean, for the purposes of the Safety Fire Commissioner's Rules and Regulations, any of the codes, or portions thereof, as published by the International Code Council (ICC) and as adopted and modified as set forth in this Chapter or any other chapter of the Safety Fire Commissioner's Rules and Regulations.
- (13) "Material Safety Data Sheet (MSDS)" shall mean for the purpose of this chapter, a form containing data regarding the properties of a particular substance. An important component of product stewardship and workplace safety, it is intended to provide workers and emergency personnel with procedures for handling or working with that substance in a safe manner, and includes information such as physical data (melting point, boiling point, flash point, etc.), toxicity, health effects, first aid, reactivity, storage, disposal, protective equipment, and spill handling procedures. The exact format of an MSDS can vary from source to source.
- (14) "NFPA Code or Standard" shall mean, for the purposes of the Safety Fire Commissioner's Rules and Regulations, any of the codes and /or standards, or portions thereof, as published by the National Fire Protection Association (NFPA) and as adopted and modified in this chapter or any other chapter of the Safety Fire Commissioner's Rules and Regulations.
- (15) "Occupied Story" shall mean, for the purpose of this chapter and the codes and standards adopted herein, a story subject to be by people on a regular basis. Stories used exclusively for mechanical equipment rooms, elevator penthouses and similar spaces are not occupiable stories.
- (16) "Primary Level of Exit Discharge" shall mean, for the purpose of this chapter that story which is level with or above finished grade by more than 50% of the cubic volume of the occupiable story. Building levels below the primary level shall not count as a story in determining the height of a building.
- (17) "Stories" shall mean, for the purpose of O.C.G.A. Section [25-2-13\(b\)\(1\)](#) and the codes and standards adopted herein, that level starting at the primary level of exit discharge and ending at the highest occupiable story. A building level below the primary level shall not count as a story in determining the height of a building.

Amended: ER. 120-3-24-0.14-.03 adopted. F. and eff. June 25, 2009, the date of adoption.

Amended: ER. 120-3-24-0.15-.03 adopted. F. and eff. October 19, 2009, the date of adoption.

Amended: Permanent Rule of same title adopted. F. Feb. 17, 2010; eff. Mar. 9, 2010.

Rule 120-3-24-.04. Registration of Industry and Manufacturing Processes and Compliance with Codes and Standards Adopted.

- (1) All new and existing facilities that have operations involving the manufacturing, processing, and/or handling combustible particulate solids shall register by electronic means with the Commissioner including any industry that has manufacturing processes which create combustible dust. So as to allow for an orderly implementation of the on line data registration and reporting system, entities are directed to the following link <http://www.gainsurance.org/safetymfg/home.aspx> to determine exact registration and reporting dates for industries of concern. The particular industry will be identified by posting the SIC Codes (Standard Industrial Classification Codes) that appear in a company's disseminated EDGAR filings (the Electronic Data Gathering, Analysis, and Retrieval system) that indicates the company's type of business. The posting will provide a minimum of 30 days notice prior to the due date of their first electronic report. Such notification will begin no later than July 1, 2010. Each facility of the industry type posted for the notification for registering and reporting shall use the same link; <http://www.gainsurance.org/safetymfg/home.aspx> to complete the registration process and file any additional data or report required to be filed that has been deemed necessary by the Commissioner to ensure compliance with these rules and regulations.

- (a) Registration shall indicate the following regarding the individual industry facility and information shall be kept current:

Industry Information Geo Code Location

Facility Name: Latitude:

Physical Address: Street, City, Zip code Longitude:

Mailing Address: Street, City, Zip code County:

Main Telephone Number Census Tract:

SIC and NAICS Codes Census Block:

- (b) Registration shall indicate the following regarding the individual whom management has designated to be responsible for filing electronic reports as required by this Chapter. This individual shall be known as the "Authorized Agent" and contact information for the Authorized Agent shall be kept current:

Authorized Agent

Contact name:

Telephone Number:

E-mail Address:

- (c) Other information deemed necessary by the Commissioner which may include but is not limited to emergency information, equipment type, possible ignition sources, process/industry type corporate and physical facility information.
- (2) Material safety data sheets for products being processed or used during the manufacturing process shall be kept on file and readily available and accessible upon request and/or in the event of an emergency and shall contain all pertinent data regarding the properties of the particular substances involved in the manufacturing process. Such data sheets shall provide information for workers and emergency personnel on procedures for handling or working with that substance in a safe manner, and shall includes information such as physical data (melting point, boiling point, flash point, etc.), toxicity, health effects, first aid, reactivity, storage, disposal, protective equipment, and spill handling procedures. All material safety data sheets on file shall be made current anytime there is an update, addition, or modification to existing material safety data sheets or when there are changes in the materials being process, stored, or handled.
- (3) Detailed information shall be recorded and kept on file anytime changes occur in the operation process, new equipment is introduced, changes occur in existing equipment, and/or changes occur in the materials being processed, stored, or handled. This information shall be readily available and accessible upon request and/or in the event of an emergency.
- (4) In addition, all operations of manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust covered under this Chapter shall comply with the provisions specified herein with the exclusion of the existing building construction as specified. Any new construction modification or renovation shall comply with the new construction provisions and operation provisions established within this Chapter and the standards adopted herein whether such construction requires permitting or approval at the state or local level. Any modification or renovation of existing equipment or any installation of new equipment or any new processes shall comply with the new provisions established within this Chapter and the standards adopted herein whether such modification, renovation of existing equipment or any installation of new equipment or any new processes requires permitting or approval at the state or local level.

Rule 120-3-24-.05. Fire Safety Information and Training to be Reported.

- (1) Management responsible for employee's safety shall designate an individual to be responsible for filing electronic reports as required by this Chapter. This individual shall be known as the "Authorized Agent" and contact information for the Authorized Agent shall be kept current.
- (2) Designated individual shall electronically report on an annual basis that the following required items have been addressed and completed where applicable:

Initial training for new employees

Annual refresher training for employees

Emergency plans have been developed, reviewed and updated

Monthly notification of hazards is provided to employees

Emergency response team training

Emergency response team drills

- (3) Verification by written affidavit certifying annually that the required emergency plans, drills, training and monthly notifications have been completed for the past calendar year will be required to be uploaded.

Rule 120-3-24-.06. State Minimum Fire Safety Standards with Modifications.

- (1) Unless otherwise stated in this chapter, the edition of the *International Fire Code (IFC)*, and the following editions of the codes, standards, recommended practices, guides and methods, as published in the *National Fire Codes (NFC)* by the National Fire Protection Association (NFPA), as adopted and modified in this Chapter, shall be herein established as the state minimum fire safety standards for all buildings and structures that have operations involving the manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust. Where any of the adopted publications of the NFPA references NFPA 1 or NFPA 5000, it shall be construed that such references apply to the *International Fire Code (IFC)* or the *International Building Code (IBC)* respectively, as adopted by this Chapter, Chapter 120-3-3 and the Georgia Department of Community Affairs. Where the IFC or IBC does not specifically address the referenced issue, NFPA 1 or NFPA 5000 may be applied subject to the approval of the authority having jurisdiction.

(2) ***International Fire Code (IFC), 2006 Edition***

Modifications:

(a) **Modifications to Chapter 1:**

1. Delete section 101.1 in its entirety and substitute in its place the following:

"101.1 Title. The *International Fire Code*, 2006 edition, published by the International Code Council, when used in conjunction with this Chapter, shall be known as a *Georgia State Minimum Fire Prevention Code*, hereafter referred to as 'this code'."

2. Delete section 101.3 in its entirety and substitute in its place the following:

"101.3 Purpose and intent. The primary purpose of this *Code*, as adopted, is to provide, along with other adopted codes and standards, for the reasonable minimum protection of life and property from the hazards created by fire, smoke, explosion, or panic created from a fear of fire or smoke. It is intended that the purposes of this *Code* be accomplished by:

- (1) Coordinating application and enforcement of its provisions with those of other applicable laws, rules, regulations, codes, and standards; and,
- (2) By coordinating the application of its provisions, where possible, with educational programs or efforts designed to bring about changes in high risk attitudes and behaviors that are the root causes of most fire related problems in Georgia; and
- (3) By encouraging or requiring informational and awareness programs designed to make the citizens of Georgia aware of their responsibilities for compliance with this *Code* as well as the other Rules and Regulations of the Safety Fire Commissioner. The intent of

this *Code* is to establish the minimum requirements, consistent with nationally recognized good practice, for providing a reasonable level of life safety and property protection from the hazards of fire, explosion, or dangerous conditions in new and existing buildings, structures, and premises and to provide safety to fire fighters and emergency responders during emergency operations."

3. Add an exception to section 102.1 to read as follows:

"Exception: This *Code* does not apply to one- and two-family dwellings or one- and two-family row houses (townhouses) separated by a 2-hour fire wall containing not more than three dwelling units per structure."

4. Add an exception to section 102.2 to read as follows:

"Exception: This *Code* does not apply to one- and two-family dwellings or one- and two-family row houses (townhouses) separated by a 2-hour fire wall containing not more than three dwelling units per structure."

5. Delete section 102.3 in its entirety and substitute in its place the following:

"102.3 Change of use or occupancy. No change shall be made in use or occupancy of any building or structure that would place the structure in a different division of the same group or occupancy or in a different group of occupancies, unless such structure is made to comply with the requirements of this *Code*, as may be applicable, as well as those of the *International Building Code (IBC)*, as adopted by the Department of Community Affairs. Pursuant to O.C.G.A. [25-2-14](#), due to a change of use or occupancy of a building or structure the building or structure shall be treated as a proposed (new) building. (Refer to 103.3 of this *Code* regarding the requirements applicable to proposed (new) buildings and structures.)"

6. Delete section 102.4 in its entirety and substitute in its place the following:

"102.4 Application of the building code. The design and construction of proposed (new) buildings and structures shall comply with the *International Building Code (IBC)*, as modified and adopted by the Georgia Department of Community Affairs. Repairs, alterations, additions, changes in use of occupancy classification, or changes in buildings or structures required by provisions of the *IFC*, and which are within the scope of the *IBC*, shall be made in accordance with the *IBC*, for purposes of this Chapter..

7. Delete section 102.5 in its entirety and insert in its place the following:

"102.5 Historic Buildings. Refer to 102.1 and 102.2 regarding the application of this *Code* to existing buildings. Except to the extent required by applicable laws of Georgia, the provisions of this *Code* are not mandatory for buildings or structures identified and

classified by the state, or as appropriate, a local jurisdiction, as historic buildings when such buildings or structures are judged by the fire code official to be safe and in the public interest of health, safety and welfare. When evaluating the safety of historic buildings the fire official should consult O.C.G.A. Title 8, Chapter 2 Article 3 entitled, 'Uniform Act for the Application of Building and Fire Related Codes to Existing Buildings,' and the provisions of O.C.G.A. Sections [25-2-13\(b\)\(3\)](#) & [25-2-13\(b\)\(4\)](#), and NFPA Standard 914, *Code for Fire Protection of Historic Structures*, as adopted by this Chapter as a recommended practice."

8. Delete section 102.6 in its entirety and substitute in its place the following:

"102.6 Referenced codes and standards. Where the provisions of this *Code* or the standards referenced thereby and in Chapter 45 of this *Code* do not apply to the specific subjects, situations or conditions encountered that involve risks to life and property from the hazards of fire, panic from fear of fire or smoke, or related hazards, compliance with the applicable chapters of the Rules and Regulations of the Safety Fire Commissioner shall be evidence of compliance with this *Code*."

9. Add a new section 102.10 to read as follows:

"102.10 Coordination of provisions. This *Code* shall apply to all buildings, structures and facilities as provided in subsections 102.1 and 102.2, and shall be utilized in conjunction with codes and standards specified in **Table 102.10** entitled, "**CODES REFERENCE GUIDE**."

Table 102.10: CODES REFERENCE GUIDE

10. Delete section 103 and all sections there under in their entirety and substitute in its place the following:

"SECTION 103

GENERAL PROVISIONS FOR EXISTING AND PROPOSED (NEW) BUILDINGS.

"103.1 General Provisions. The administration, enforcement and penalty provisions of O.C.G.A. Title 25, Chapter 2, and the administrative provisions of the various chapters of the Rules and Regulations of the Safety Fire Commissioner shall apply to and regulate the application and enforcement of this *Code* by the Safety Fire Division of the Office of the Safety Fire Commissioner.

NOTE: Nothing herein shall be construed as prohibiting any local jurisdiction from adopting the deleted portions of Chapter 1 of this *Code* for local purposes, provided, however, local amendments shall not be less restrictive than this *Code*, and other codes and standards as adopted by the various chapters of the Rules and Regulations of the Safety Fire Commissioner.

103.1.1 The provisions of O.C.G.A. Title 25, Chapter 2, and other applicable state laws, and the applicable provisions of various chapters of the Rules and Regulations of the Safety Fire Commissioner regarding the requirements for certificates, licenses, permits, plan reviews, inspections, approvals, fees, etc. shall apply and are in addition to any requirements of local jurisdictions. Local authorities having jurisdiction need to be consulted to determine if rules and regulations of the local jurisdiction regarding the requirements for local certificates, licenses, permits, plan reviews, inspections, approvals, fees, etc. also apply.

103.1.1.1 The administrative, operational, and maintenance provisions of this *Code*, with regard to the Safety Fire Division of the Office of the Georgia Safety Fire Commissioner, shall be limited to the scope and intents and purposes of the Official Code of Georgia Annotated (O.C.G.A.) Title 25, Chapter 2, and the Commissioner's Rules and Regulations.

103.1.1.1.1 Pursuant to O.C.G.A. [25-2-13\(d\)](#), every person who owns or controls the use of any building, part of a building, or structure described in O.C.G.A. [25-2-13\(b\)\(1\)](#), which because of floor area, height, location, use or intended use as a gathering place for large groups, or use or intended use by or for the aged, the ill, the incompetent, or the imprisoned, constitutes a special hazard to property or to the life and safety on account of fire or panic from fear of fire, must so construct, equip, maintain, and use such building or structure as to afford every reasonable and practical precaution and protection against injury from such hazards. No person who owns or controls the use or occupancy of such a building or structure shall permit the use of the premises so controlled for any such specially hazardous use unless he has provide d such precautions against damage to property or injury to persons by these hazards as are found and determined by the Commissioner in the manner described in O.C.G.A. [25-2-13\(d\)](#) to be reasonable and practical.

103.2Existing buildings. Every building and structure existing as of April 1, 1968, which building or structure is listed in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) shall comply with the minimum fire safety standards in the Rules and Regulations of the Safety Fire Commissioner promulgated pursuant to O.C.G.A. 25-2 which were in effect at the time such building or structure was constructed.

Exception 1: Any nonconformance noted under the electrical standards adopted at the time such building or structure was constructed shall be corrected in accordance with the current electrical standards adopted pursuant to O.C.G.A. 25-2.

Exception 2: A less restrictive provision contained in any subsequently adopted minimum fire safety standard pursuant to O.C.G.A. 25-2, may be applied to any existing building or structure.

103.2.1 Existing buildings to be deemed a proposed building. For the purposes of O.C.G.A. [25-2-14\(b\)](#), any existing building or structure listed in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which comes under the jurisdiction of the Office of the Safety Fire Commissioner, pursuant to O.C.G.A. [25-2-12](#), shall be deemed to be a proposed (new) building in the event such building or structure is subject to substantial renovation, a fire or other hazard of serious consequence, or a change in the classification of occupancy. The term "substantial renovation", for purposes of this subsection means any construction project involving exits or internal features of such building or structure costing more than the building's or structure's assessed value

according to county tax records at the time of such renovation (O.C.G.A. [25-2-14](#)). Where a change of classification is involved, also refer to 102.3 of this *Code*.

103.3 Proposed (new) buildings and additions to existing buildings:

103.3.1 Pursuant to O.C.G.A. [25-2-14.1\(b\)](#), every proposed building and structure listed in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) shall comply with the adopted minimum fire safety standards that were in effect on the date that plans and specifications therefore were received by the state fire marshal, the proper local fire marshal, or state inspector for review and approval.

103.3.2 Plans and specifications for all proposed buildings which come under classification in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which come under the jurisdiction of the Office of the Safety Fire Commissioner pursuant to O.C.G.A. [25-2-12](#) shall be submitted to and receive approval by either the state fire marshal, the proper local fire marshal, or state inspector before any state, municipal, or county building permit may be issued or construction started (O.C.G.A. [25-2-14\(a\)](#)). All such plans and specifications submitted as required by O.C.G.A. [25-2-14\(a\)](#) shall be accompanied by a fee in the amount provided in O.C.G.A. [25-2-4.1](#) and shall bear the seal and Georgia registration number of the drafting architect or engineer or shall otherwise have the approval of the Commissioner.

103.3.3 Pursuant to O.C.G.A. [25-2-37\(a\)](#), it shall be unlawful for any person to begin construction on any proposed building or structure which comes under the classification in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which comes under the jurisdiction of the Office of the Safety Fire Commissioner pursuant to O.C.G.A. [25-2-12](#) without first having plans approved in accordance with O.C.G.A. [25-2-14](#).

103.4 Proposed building construction and completion. Pursuant to O.C.G.A. [25-2-14\(b\)](#), a complete set of plans and specifications approved as set forth in 103.3 shall be maintained on the construction site, and construction shall proceed in compliance with the state minimum fire safety standards under which such plans and specifications were approved. The owner of any such building or structure or his authorized representative shall notify the state fire marshal, the proper local fire marshal, or state inspector upon completion of approximately 80 percent of the construction thereof and shall apply for a certificate of occupancy when construction of such building or structure is completed.

103.5 Certificate of occupancy required. Pursuant to O.C.G.A. [25-2-14\(c\)](#), every building or structure which comes under classification in paragraph (1) of subsection (b) of O.C.G.A. [25-2-13](#) and which comes under the jurisdiction of the Office of the Safety Fire Commissioner pursuant to O.C.G.A. [25-2-12](#) shall have a certificate of occupancy issued by the state fire marshal, the proper local fire marshal, or state inspector before such building or structure may be occupied. Such certificates of occupancy shall be issued for each business establishment within the building, shall carry a charge in the

amount provided in O.C.G.A. [25-2-4.1](#), shall state the occupant load for such business establishment or building, shall be posted in a prominent location within such business establishment or building, and shall run for the life of the building, except as provided in O.C.G.A. [25-2-14\(d\)](#). (See 103.2.1 of the IFC, as adopted by this Chapter.)"

11. The provisions of section 105, PERMITS, are not adopted for purposes of this Chapter. Local governing authorities may adopt the provisions for local purposes. Refer to section 103.3 with regard to permits required by the Rules and Regulations of the Safety Fire Commissioner.

12. Delete section 107.6 in its entirety and substitute in its place the following:

"107.6 Overcrowding and Life Safety Hazards. Overcrowding or admittance of any person beyond the approved capacity of a building or a portion thereof shall not be allowed. The Fire Code Official, upon finding any overcrowded conditions or obstructions in aisles, passageways or other means of egress, or upon finding any condition which constitutes a life safety hazard, shall be authorized to cause the event to be stopped until such condition or obstruction is corrected. A structure, building, individual room or designated portion thereof shall be deemed to be overcrowded if the number of occupants exceeds one person per 5 sq. ft. of open net floor area of such room or space when fixed seating is not provided. In addition, a structure, building, room or designated portion thereof shall be deemed overcrowded if the total number of occupants exceeds the exit capacity of the structure, building, room or area involved."

13. The provisions of section 108, BOARD OF APPEALS, are not adopted for purposes this Chapter. Local governing authorities may adopt the provisions for local purposes.

14. Delete section 109.3 and all sections there under in their entirety and substitute in its place the following:

"109.3 Violation penalties. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate used under provisions of this *Code*, shall be guilty of violation of Code Section [25-2-37](#) of the Official Code of Georgia Annotated. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

109.3.1 Abatement of violation. In addition to the imposition of the penalties herein described, the fire code official is authorized to institute appropriate action to prevent unlawful construction or to restrain, correct or abate a violation; or to prevent illegal occupancy of a structure or premises; or to stop an illegal act, conduct of business or occupancy of a structure on or about any premises.

(b) **Modifications to Chapter 2:**

1. Delete section 201.3 in its entirety and substitute in its place the following:

"201.3 Terms defined in other codes. Where terms are not defined in this *Code* and are defined in the *International Building Code (IBC)*, the *International Fuel Gas Code (IFGC)*, the *International Mechanical Code (IMC)*, or codes and standards of the National Fire Protection Association (NFPA), as adopted by this Chapter and other Rules and Regulations of the Safety Fire Commissioner, such terms shall have the meanings ascribed to them as in those codes and standards."

2. Add the following definitions to section 202:

"Day-care Center- A day-care facility subject to licensure or commission by the Department of Human Resources where more than 12 clients receive care."

"Group Day-care Home- A day-care facility subject to licensure or commission by the Department of Human Resources where at least seven but not more than 12 clients receive care."

"Personal Care Home/Assisted Living Facility- Any building or part thereof that is used for the lodging or boarding of residents, not related by blood or marriage to the owners or operators, for the purpose of providing personal care services and licensed as a personal care home or assisted living facility."

"Residential Occupancies. Occupancies, as specified in the scope of this standard, include the following, as defined in Chapter 2 of this *Code*, or the *IBC*, or by State law, or by the Rules and Regulations of the Georgia Safety Fire Commissioner:

- (1) Apartment buildings,
- (2) Lodging and rooming houses,
- (3) Board and care facilities,
- (4) Hotels, motels, and dormitories,
- (5) Personal care homes and assisted living facilities,
- (6) Day-care centers and group day-care homes."

(c) **Modifications to Chapter 3:**

1. Delete section 303.5 in its entirety and substitute in its place the following:

"303.5 Fire Extinguishers. There shall be at least one portable fire extinguisher complying with Section 906 and with a minimum 2-A:40-B:C rating within 25 feet (7620 mm) of each asphalt (tar) kettle during the period such kettle is being utilized, and a minimum of one additional portable fire extinguisher with a minimum 3-A:40-B:C rating on the roof being covered."

2. Add new exceptions 4, 5, 6, 7 and 8 to section 308.3.7 to read as follows:

"4. In Group A public assembly occupancies having an occupant load greater than 300, a minimum ceiling height of 25 feet and that are protected throughout by an approved, supervised automatic sprinkler system installed in accordance with NFPA 13, as adopted by this Chapter, pyrotechnic special effect devices shall be permitted to be used on stages before proximate audiences for ceremonial or religious purposes, as part of a demonstration in exhibits, or as part of a performance, provided that precautions satisfactory to the authority having jurisdiction are taken to prevent ignition of any combustible material and use of the pyrotechnic device complies with NFPA 1126, *Standard for the Use of Pyrotechnics before a Proximate Audience*, as adopted by Chapter 120-3-22 Rules and Regulations of the Safety Fire Commissioner. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration shot of all types of devices being used in the display.

5. In Group A public assembly occupancies having an occupant load greater than 300, a minimum ceiling height of 25 feet and that are protected throughout by an approved, supervised automatic sprinkler system installed in accordance with NFPA 13, as adopted by this Chapter, flame effects before an audience shall be permitted in accordance with NFPA 160, *Standard for Flame Effects Before an Audience*, as adopted by Chapter 120-3-22 Rules and Regulations of the Safety Fire Commissioner. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration of all types of devices being used in the display.

6. On stages and platforms as a necessary part of a performance in public assembly occupancies having an occupant load greater than 300, a minimum ceiling height of 25 feet and that are protected throughout by an approved, supervised automatic sprinkler system installed in accordance with NFPA 13, as adopted by this Chapter. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration of all types of devices being used in the display.

7. In Group A public assembly occupancies having an occupant load greater than 100 with fixed seating, a minimum ceiling height of 25 feet and that have a minimum of two certified fire fighters on site with proper fire fighting equipment as determined by the local fire official, pyrotechnic special effect devices shall be permitted to be used on

stages before proximate audiences for ceremonial or religious purposes, as part of a demonstration in exhibits, or as part of a performance, provided that precautions satisfactory to the authority having jurisdiction are taken to prevent ignition of any combustible material and use of the pyrotechnic device complies with NFPA 1126, *Standard for the Use of Pyrotechnics before a Proximate Audience*, as adopted by Chapter 120-3-22 Rules and Regulations of the Safety Fire Commissioner. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration shot of all types of devices being used in the display.

8. In public assembly occupancies having an occupant load greater than 100 with fixed seating, a minimum ceiling height of 25 feet and that have a minimum of two certified fire fighters on site with proper fire fighting equipment as determined by the local fire official, flame effects before an audience shall be permitted in accordance with NFPA 160, *Standard for Flame Effects Before an Audience*, as adopted by this Chapter. The ceiling height may be lowered to a minimum of 15 feet upon approval of the authority having jurisdiction having witnessed a demonstration of all types of devices being used in the display."

3. Add a new section 308.7 to read as follows:

"308.7 Portable Cooking Equipment. Portable cooking equipment that is not flue-connected shall be permitted only as follows:

- (1) Equipment fueled by small heat sources that can be readily extinguished by water, such as candles or alcohol-burning equipment, including solid alcohol, shall be permitted to be used, provided that precautions satisfactory to the authority having jurisdiction are taken to prevent ignition of any combustible materials.
 - (2) Candles shall be permitted to be used on tables used for food service where securely supported on substantial noncombustible bases located to avoid danger of ignition of combustible materials and only where approved by the authority having jurisdiction.
 - (3) Candle flames shall be protected.
 - (4) "Flaming sword" or other equipment involving open flames and flamed dishes, such as cherries jubilee or crêpe suzette, shall be permitted to be used, provided that precautions subject to the approval of the authority having jurisdiction are taken.
 - (5) Listed and approved LP-Gas commercial food service appliances shall be permitted to be used where in accordance with NFPA 58, Liquefied Petroleum Gas Code."
4. Delete section 310.1 and all sections there under in their entirety and substitute in its place the following:

"310.1 General. The smoking or carrying of a lighted pipe, cigar, cigarette or any other type of smoking paraphernalia or material is prohibited in buildings, structures, or areas, or portions of buildings, structures, or areas, as indicated in this section, or in any other section of this *Code* or in any other code or standard, as adopted by the Rules and Regulations of the Safety Fire Commissioner."

5. Add a new section 316 to read as follows: "SECTION 316 LABORATORIES,

316.1 **General.** Laboratories in which chemicals are used shall comply with NFPA 45, as adopted by this Chapter.

Exception: Laboratories in I-2 (healthcare) occupancies and in medical and dental offices, shall comply with NFPA 99, as adopted by this Chapter."

(d) **Modifications to Chapter 4:**

1. Add a new paragraph 4 and renumber the remaining paragraphs in section 404.2 to read as follows:

"404.2 Where required. An approved fire safety and evacuation plan shall be prepared and maintained for the following occupancies and buildings.

1. Group A, other than Group A occupancies used exclusively for purposes of religious worship that have an occupant load less than 2,000.
2. Group B buildings having an occupant load of 500 or more persons or more than 100 persons above or below the lowest level of exit discharge.
3. Group E.
4. Group F.
5. Group H.
6. Group I.
7. Group R-1.
8. Group R-2 college and university buildings.
9. Group R-4.

10. High-rise buildings.
 11. Group M buildings having an occupant load of 500 or more persons or more than 100 persons above or below the lowest level of exit discharge.
 12. Covered malls exceeding 50,000 square feet (4645 m²) in aggregate floor area.
 13. Underground buildings.
 14. Buildings with an atrium and having an occupancy in Group A, E or M."
2. Delete section 405 and all sections there under in their entirety and substitute in its place the following:

"SECTION 405

EMERGENCY EVACUATION DRILLS

405.1 General. Emergency evacuation drills complying with the provisions of this section shall be conducted at least annually in the occupancies listed in Section 404.2 or when required by the fire code official. Drills shall be designed in cooperation with the local authorities.

405.2 Frequency. Required emergency evacuation drills shall be held at the intervals specified in Table 405.2 or more frequently where necessary to familiarize all occupants with the drill procedure.

405.3 Leadership. Responsibility for the planning and conduct of drills shall be assigned to competent persons designated to exercise leadership.

405.4 Time. Drills shall be held at unexpected times and under varying conditions to simulate the unusual conditions that occur in case of fire.

405.5 Record keeping. Records shall be maintained on site and available for inspection by the Fire Code Official of all required emergency evacuation drills for three years. Such records shall include the following information:

1. Identity of the person conducting the drill.
2. Date and time of the drill.
3. Notification method used.

4. Staff members on duty and participating.
5. Number of occupants evacuated.
6. Special conditions simulated.
7. Problems encountered.
8. Weather conditions when occupants were evacuated.
9. Time required to accomplish complete evacuation. Records of drills conducted shall be maintained

<p style="text-align: center;">TABLE 405.2</p> <p style="text-align: center;">FIRE AND EVACUATION DRILL</p> <p style="text-align: center;">FREQUENCY AND PARTICIPATION</p>		
GROUP OR OCCUPANCY	FREQUENCY	PARTICIPATION
Group A	Quarterly	Employees
Group Bc	Annually	Employees
Group Ee	Monthly ^a	All occupants
Group F & H	Annually on each shift	Employees
Group I	Quarterly on each shift	Employees ^b
Group R-1	Quarterly on each shift	Employees
Group R-2d	Four annually	All occupants
Group R-4	Quarterly on each shift	Employees ^b
High-rise buildings	Annually	Employees

- a. The frequency shall be allowed to be modified in accordance with Section 408.3.2.
- b. Fire and evacuation drills in residential care assisted living facilities shall include complete evacuation of the premises in accordance with Section 408.10.5. Where occupants receive habilitation or rehabilitation training, fire prevention and fire safety practices shall be included as part of the training program.
- c. Group B buildings having an occupant load of 500 or more persons or more than 100 persons above or below the lowest level of exit discharge.

d. Applicable to Group R-2 college and university buildings in accordance with Section 408.3.

e. Drills shall be reported electronically to the Office of the Safety Fire Commissioner.

405.6 Notification. Where required by the fire code official, prior notification of emergency evacuation drills shall be given to the fire code official.

405.7 Initiation. Where a fire alarm system is provided, emergency evacuation drills shall be initiated by activating the fire alarm system.

405.8 Accountability. As building occupants arrive at the assembly point, efforts shall be made to determine if all occupants have been successfully evacuated or have been accounted for.

405.9 Recall and reentry. An electrically or mechanically operated signal used to recall occupants after an evacuation shall be separate and distinct from the signal used to initiate the evacuation. The recall signal initiation means shall be manually operated and under the control of the person in charge of the premises or the official in charge of the incident. No one shall reenter the premises until authorized to do so by the official in charge."

3. Add an exception to section 406.2 to read as follows:

"Exception: Child care-giver training. A minimum of five hours initial fire safety training and recommendation for receipt of a certificate of merit for successful completion of the training shall be required for all directors, operators and all staff members of day-care centers and group day-care homes as defined by the Life Safety Code adopted by this Chapter. The curriculum for the fire safety training shall receive written approval by the State Fire Marshal's Office and be taught by an instructor registered with the Safety Fire Commissioner's Office. All staff members shall receive this training within 90 days from receipt of a license, being commissioned or the opening of a new center or home. Any new staff member shall receive a minimum of five hours initial fire safety training and recommendation for receipt of a certificate of merit for successful completion of the training within 90 days of employment. In addition, a minimum of two hours fire safety refresher training recommendation for receipt of a certificate of merit for successful completion of the training shall be required for all directors, operators and all staff members of day-care centers and group day-care homes every three years from the date initial training is received. The curriculum for the fire safety refresher training shall receive written approval by the State Fire Marshal's Office and be taught by an instructor registered with the Safety Fire Commissioner's Office."

4. Add new sections 408.2.3 and 408.2.3.1 to read as follows:

"408.2.3 Crowd Managers. Assembly occupancies having occupant loads of 100 or more shall be provided with a minimum of one trained crowd manager or crowd manager supervisor. Where the occupant load exceeds 250, additional trained crowd managers or crowd manager supervisors shall be provided at a ratio of 1:250, crowd manager/supervisor to occupants, respectively, unless otherwise permitted by the following:

(1) This requirement shall not apply to assembly occupancies used exclusively for religious worship with an occupant load not exceeding 2000.

(2) With the exception of assembly occupancies noted above where alcoholic beverages are consumed, the ratio of trained crowd managers to occupants shall be permitted to be reduced where, in the opinion of the authority having jurisdiction, the existence of an approved, supervised sprinkler system and the nature of the event warrant.

408.2.3.1 The crowd manager shall receive approved training in crowd management techniques."

5. Delete sections 408.4 through 408.11 all sections there under in their entirety and substitute in their place the following:

"408.4 Group F occupancies. Group F occupancies shall comply with the requirements of Sections 408.4.1 through 408.4.4 and Sections 401 through 407.

408.4.1 Plans and diagrams. In addition to the requirements of Section 404 and Section 407.6, plans and diagrams shall be maintained in approved locations indicating any hazardous areas within the facility and locations of exits.

408.4.2 Plan updating. The plans and diagrams required by Section 408.4.1 shall be maintained up to date and the fire code official and fire department shall be informed of all major changes.

408.4.3 Emergency response team. Responsible persons shall be designated as the on-site emergency response team and trained to be liaison personnel for the fire department. These persons shall aid the fire department in preplanning emergency responses, identifying hazardous locations and be familiar with the chemical nature of any hazardous material stored on site. An adequate number of personnel for each work shift shall be designated.

408.4.3.1 Disaster training. Malfunctions of the process should be simulated and emergency actions undertaken. Disaster drills that simulate a major catastrophic situation

should be undertaken periodically with the cooperation and participation of public fire, police, and other local community emergency units nearby cooperating plants if involved.

408.4.4 Employee Training. The requirements of Sections 408.4.4.1 thru 408.4.6 shall be for new employees and shall be also be applied retroactively with a completion date of January 1, 2011, for existing employees.

408.4.4.1 Initial Training. Initial training shall be provided to employees and contractors who are involved in operating, maintaining, and supervising facilities that handle combustible particulate solids. Initial training shall ensure that all employees are knowledgeable about the following:

- (1) Hazards of their workplace
- (2) General orientation, including plant safety rules
- (3) Process description
- (4) Equipment operation, safe startup and shutdown, and response to upset conditions
- (5) The necessity for proper functioning of related fire and explosion protection systems
- (6) Equipment maintenance requirements and practices
- (7) Housekeeping requirements
- (8) Emergency response plans

408.4.4.2 Re fresher Training. Emergency plans and procedures, including information that is covered in Section 408.4.4.1, shall be provided to and reviewed annually by all employees and contractors who are involved in operating, maintaining, and supervising facilities that handle combustible particulate solids.

408.4.5 Notification of Hazards. Notification of hazards shall be by means of internal written or electronic correspondence, postings of information at conspicuous locations and/or by other means to disseminate information to employees to ensure they are knowledgeable about the hazards of their workplace. Required notifications shall include such topics as prescribed in 408.4.4.1.

408.4.5.1 Notification Frequency. All employees shall receive monthly notification of hazards and safety information related to the industry's operation.

408.4.6 Certification. For those industries having operations involving the manufacturing, processing, and/or handling combustible particulate solids including

manufacturing processes that create combustible dust listed under Rule [120-3-24-.02\(1\)\(b\)](#), the employer's authorized agent shall electronically file to the Safety Fire Commissioner a written affidavit certifying annually that the training and monthly notifications required by Section 408.4.4.1 have been completed for the past calendar year.

408.4.7 Emergency drills. Emergency drills of the on-site emergency response team shall be conducted on a regular basis but not less than once annually. Records of drills conducted shall be maintained on site and available for inspection by the Fire Code Official.

408.5 Group H occupancies. Group H occupancies shall comply with the requirements of Sections 408.5.1 through 408.5.4 and Sections 401 through 407.

408.5.1 Plans and diagrams. In addition to the requirements of Section 404 and Section 407.6, plans and diagrams shall be maintained in approved locations indicating the approximate plan for each area, the amount and type of HPM stored, handled and used, locations of shutoff valves for HPM supply piping, emergency telephone locations and locations of exits.

408.5.2 Plan updating. The plans and diagrams required by Section 408.5.1 shall be maintained up to date and the fire code official and fire department shall be informed of all major changes.

408.5.3 Emergency response team. Responsible persons shall be designated as the on-site emergency response team and trained to be liaison personnel for the fire department. These persons shall aid the fire department in preplanning emergency responses, identifying locations where HPM is stored, handled and used, and be familiar with the chemical nature of such material. An adequate number of personnel for each work shift shall be designated.

408.5.3.1 Disaster training. Malfunctions of the process should be simulated and emergency actions undertaken. Disaster drills that simulate a major catastrophic situation should be undertaken periodically with the cooperation and participation of public fire, police, and other local community emergency units nearby cooperating plants if involved.

408.5.4 Employee Training. The requirements of Sections 408.5.4.1 thru 408.5.6 shall be for new employees and shall be also be applied retroactively with a completion date of January 1, 2011, for currently existing employees.

408.5.4.1 Initial Training. Initial training shall be provided to employees who are involved in operating, maintaining, and supervising facilities that handle combustible

particulate solids. Initial training shall ensure that all employees are knowledgeable about the following:

- (1) Hazards of their workplace
- (2) General orientation, including plant safety rules
- (3) Process description
- (4) Equipment operation, safe startup and shutdown, and response to upset conditions
- (5) The necessity for proper functioning of related fire and explosion protection systems
- (6) Equipment maintenance requirements and practices
- (7) Housekeeping requirements
- (8) Emergency response plans

408.5.5 Notification of Hazards. All employees shall receive monthly notification of hazards and safety information related to the industry's operation.

408.5.5.1 Notification Frequency. Notification of hazards shall be by means of internal written or electronic correspondence, postings of information at conspicuous locations and/or by other means to disseminate information to employees to ensure they are knowledgeable about the hazards of their workplace. Monthly notifications can include such topics as prescribed in 408.5.4.1.

408.5.6 Certification. For those industries having operations involving the manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust listed under Rule [120-3-24-.02\(1\)\(b\)](#), the employer's authorized agent shall electronically file to the Safety Fire Commissioner a written affidavit certifying annually that the training and monthly notifications required by Section 408.5.4.1 have been completed for the past calendar year.

408.5.7 Emergency drills. Emergency drills of the on-site emergency response team shall be conducted on a regular basis but not less than once every three months. Records of drills conducted shall be maintained and available for inspection by the Fire Code Official.

408.6 Group I-1 occupancies. Group I-1 occupancies shall comply with the requirements of Sections 408.6.1 through 408.6.5 and Sections 401 through 406.

408.6.1 Fire safety and evacuation plan. The fire safety and evacuation plan required by Section 404 shall include special staff actions including fire protection procedures necessary for residents and shall be amended or revised upon admission of any resident with unusual needs.

408.6.2 Staff training. Employees shall be periodically instructed and kept informed of their duties and responsibilities under the plan. Such instruction shall be reviewed by the staff at least every two months. A copy of the plan shall be readily available at all times within the facility.

408.6.3 Resident training. Residents capable of assisting in their own evacuation shall be trained in the proper actions to take in the event of a fire. The training shall include actions to take if the primary escape route is blocked. Where the resident is given rehabilitation or habilitation training, training in fire prevention and actions to take in the event of a fire shall be a part of the rehabilitation training program.

Residents shall be trained to assist each other in case of fire to the extent their physical and mental abilities permit them to do so without additional personal risk.

408.6.4 Drill frequency. Emergency evacuation drills shall be conducted at least six times per year, two times per year on each shift. Twelve drills shall be conducted in the first year of operation. Drills are not required to comply with the time requirements of Section 405.4.

408.6.5 Resident participation. Emergency evacuation drills shall involve the actual evacuation of residents to a selected assembly point.

Exception: Actual exiting from windows shall not be required. Where a drill scenario includes the escape from windows, Opening the window and signaling for assistance shall be acceptable.

408.7 Group I-2 occupancies. Group I-2 occupancies shall comply with the requirements of Sections 408.7.1 and 408.7.2 and Sections 401 through 406. Drills are not required to comply with the time requirements of Section 405.4.

408.7.1 Evacuation not required. During emergency evacuation drills, the movement of patients to safe areas or to the exterior of the building is not required.

408.7.2 Coded alarm signal. When emergency evacuation drills are conducted after visiting hours or when patients or residents are expected to be asleep, a coded announcement is allowed instead of audible alarms.

408.8 Group I-3 occupancies. Group I-3 occupancies shall comply with the requirements of Sections 408.8.1 through 408.8.4 and Sections 401 through 406.

408.8.1 Employee training. Employees shall be instructed in the proper use of portable fire extinguishers and other manual fire suppression equipment. Training of new staff shall be provided promptly upon entrance on duty. Refresher training shall be provided at least annually.

408.8.2 Staffing. Group I-3 occupancies shall be provided with 24-hour staffing. Staff shall be within three floors or 300 feet (9144 mm) horizontal distance of the access door of each resident housing area. In Use Conditions 3, 4 and 5, as defined in Chapter 2, the arrangement shall be such that the staff involved can start release of locks necessary for emergency evacuation or rescue and initiate other necessary emergency actions within 2 minutes of an alarm.

Exception: Staff shall not be required to be within three floors or 300 feet (9144 mm) in areas in which all locks are unlocked remotely and automatically in accordance with Section 408.4 of the *International Building Code*.

408.8.3 Notification. Provisions shall be made for residents in Use Conditions 3, 4 and 5, as defined in Chapter 2, to readily notify staff of an emergency.

408.8.4 Keys. Keys necessary for unlocking doors installed in a means of egress shall be individually identifiable by both touch and sight.

408.9 Group R-1 occupancies. Group R-1 occupancies shall comply with the requirements of Sections 408.8.1 through 408.8.3 and Sections 401 through 406.

408.9.1 Evacuation diagrams. A diagram depicting two evacuation routes shall be posted on or immediately adjacent to every required egress door from each hotel, motel or dormitory sleeping unit.

408.9.2 Emergency duties. Upon discovery of a fire or suspected fire, hotel, motel and dormitory employees shall perform the following duties:

1. Activate the fire alarm system, where provided.
2. Notify the public fire department.
3. Take other action as previously instructed.

408.9.3 Fire safety and evacuation instructions. Information shall be provided in the fire safety and evacuation plan required by Section 404 to allow guests to decide whether

to evacuate to the outside, evacuate to an area of refuge, remain in place, or any combination of the three.

408.10 Group R-2 occupancies. Group R-2 occupancies shall comply with the requirements of Sections 408.10.1 through 408.10.3 and Sections 401 through 406.

408.10.1 Emergency guide. A fire emergency guide shall be provided which describes the location, function and use of fire protection equipment and appliances accessible to residents, including fire alarm systems, smoke alarms, and portable fire extinguishers. The guide shall also include an emergency evacuation plan for each dwelling unit.

408.10.2 Maintenance. Emergency guides shall be reviewed and approved in accordance with Section 401.2.

408.10.3 Distribution. A copy of the emergency guide shall be given to each tenant prior to initial occupancy.

408.11 Group R-4 occupancies. Group R-4 occupancies shall comply with the requirements of Sections 408.11.1 through 408.11.5 and Sections 401 through 406.

408.11.1 Fire safety and evacuation plan. The fire safety and evacuation plan required by Section 404 shall include special staff actions, including fire protection procedures necessary for residents, and shall be amended or revised upon admission of a resident with unusual needs.

408.11.2 Staff training. Employees shall be periodically instructed and kept informed of their duties and responsibilities under the plan. Such instruction shall be reviewed by the staff at least every two months. A copy of the plan shall be readily available at all times within the facility.

408.11.3 Resident training. Residents capable of assisting in their own evacuation shall be trained in the proper actions to take in the event of a fire. The training shall include actions to take if the primary escape route is blocked. Where the resident is given rehabilitation or habilitation training, training in fire prevention and actions to take in the event of a fire shall be a part of the rehabilitation training program. Residents shall be trained to assist each other in case of fire to the extent their physical and mental abilities permit them to do so without additional personal risk.

408.11.4 Drill frequency. Emergency evacuation drills shall be conducted a total of six times per year, two of which occur twice a year on each shift. Twelve drills shall be conducted in the first year of operation. Drills are not required to comply with the time requirements of Section 405.4.

408.11.5 Resident participation. Emergency evacuation drills shall involve the actual evacuation of residents to a selected assembly point and shall provide residents with experience in exiting through all required exits. All required exits shall be used during emergency evacuation drills.

Exception: Actual exiting from windows shall not be required. Opening the window and signaling for help shall be an acceptable alternative.

408.12 Covered mall buildings. Covered mall buildings shall comply with the provisions of Sections 408.12.1 through 408.12.3.

408.12.1 Lease plan. A lease plan shall be prepared for each covered mall building. The plan shall include the following information in addition to that required by Section 404.3.2:

1. Each occupancy, including identification of tenant.
2. Exits from each tenant space.
3. Fire protection features, including the following:
 - 3.1. Fire department connections.
 - 3.2. Fire command center.
 - 3.3. Smoke management system controls.
 - 3.4. Elevators and elevator controls.
 - 3.5. Hose valves outlets.
 - 3.6. Sprinkler and standpipe control valves.
 - 3.7. Automatic fire-extinguishing system areas.
 - 3.8. Automatic fire detector zones.
 - 3.9. Fire barriers.

408.12.1.1 Approval. The lease plan shall be submitted to the fire code official for approval, and shall be maintained on site for immediate reference by responding fire service personnel.

408.12.1.2 Revisions. The lease plans shall be revised annually or as often as necessary to keep them current. Modifications or changes in tenants or occupancies shall not be made without prior approval of the fire code official and building official.

408.12.2 Tenant identification. Each occupied tenant space provided with a secondary exit to the exterior or exit corridor shall be provided with tenant identification by business name and/or address. Letters and numbers shall be posted on the corridor side of the door, be plainly legible and shall contrast with their background.

Exception: Tenant identification is not required for anchor stores.

408.12.3 Maintenance. Unoccupied tenant spaces shall be:

1. Kept free from the storage of any materials.
2. Separated from the remainder of the building by partitions of at least 0.5-inch-thick (12.7 mm) gypsum board or an approved equivalent to the underside of the ceiling of the adjoining tenant spaces.
3. Without doors or other access openings other than one door that shall be kept key locked in the closed position except during that time when opened for inspection.
4. Kept free from combustible waste and be broom swept clean."

(e) Modifications to Chapter 5:

1. Add a new section 501.5 to read as follows:

"**501.5** Where buildings or facilities fall under the jurisdiction of the Georgia Safety Fire Commissioner as set forth in the Official Code of Georgia Annotated (O.C.G.A.), Title 25, Chapter 2, except for State owned facilities, it is intended that the provisions of Chapter 5 that primarily relate to fire department response, access to facilities, access to building interiors, key boxes, premises identification, fire department connection locations, and fire hydrant locations be administered by the local Fire Chief and/or Fire Code Official responsible for providing fire or other emergency response to the buildings or facilities. With regard to State owned facilities, that are not provided with a facility fire department, it is intended that the local Fire Chief and/or Fire Code Official have input in the planning of facilities with regard to the noted provisions covered by Chapter 5."

2. Delete section 503.1.1 in its entirety and substitute in its place the following:

"**503.1.1 Buildings and facilities.** Approved fire apparatus access roads shall be provided for every facility, building or portion of a building hereafter constructed or moved into or within the jurisdiction as determined by the local Fire Chief and/or Fire

Code Official of the responding fire department or agency. The fire apparatus access road shall comply with the requirements of this section and shall extend to within 150 feet (45.7 m) of all portions of the facility or any portion of the exterior wall of the first story of the building as measured by an approved route around the exterior of the building or facility."

"Exception:The local Fire Chief and/or Fire Code Official of the responding fire department or agency is authorized to increase the dimension of 150 feet (45.7 m) where:

"1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3.

"2. Fire apparatus access roads cannot be installed because of location on property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided.

"3. There are not more than two Group R-3 or Group U occupancies."

3. Add a new section 504.1.1 to read as follows:

"504.1.1 Access Doors. For fire fighting purposes, there shall be at least one access door in each 100 linear feet (30.5 m) or major fraction thereof of the exterior walls which face the access roadways required by Section 503, unless otherwise required in this code section. In exterior walls designed with continuous rolling dock doors, which face access roadways, there shall be at least one access door in each 200 linear feet (61 m) or fraction thereof. Required access doors shall be a minimum of 3 feet (0.9 m) wide and 6 feet 8 inches (2 m) high and shall be accessible without use of a ladder. Rolling doors are acceptable for such purposes in buildings protected throughout by an approved automatic sprinkler system(s) unless otherwise approved for unsprinklered buildings by the local Fire Chief and /or Fire Code Official."

4. Delete section 508.5.1 in its entirety and substitute in its place the following:

"508.5.1 Where required. Where a portion of the facility or building hereafter constructed or moved into or within the jurisdiction is more than 500 feet (152 m) from a hydrant on a fire apparatus access road, as measured by an approved route around the exterior of the facility or building, on-site fire hydrant mains shall be provided where required by the local Fire Chief and/or Fire Code Official of the responding fire department or agency.

"Exceptions:

"1. For group R-3 and Group U occupancies, the distance requirement shall be 600 feet (183 m).

"2. For buildings equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1 or 903.3.1.2, the distance requirement shall be 600 feet (183 m)."

(f) **Modifications to Chapter 6:**

1. Add a new section 601.3 to read as follows:

"601.3 Where reference is made in this *Code* to the *International Electrical Code*, it shall be construed as referencing NFPA 70, *National Electrical Code (NEC)* as adopted by this Chapter."

2. Delete section 603.1.4 in its entirety and substitute in its place the following:

"603.1.4 Fuel Oil. The grade of fuel oil used in a burner shall be that for which the burner is approved and as stipulated by the manufacturer. The use of crankcase oil or any other oil containing gasoline shall not be used except as permitted in NFPA 31, *Standard for the Installation of Oil-Burning Equipment*, as adopted by Chapter 120-3-11, Rules and Regulations of the Safety Fire Commissioner."

3. Delete section 603.4 in its entirety and substitute in its place the following. Section 603.4.1 remains unchanged.

"603.4 Portable heaters. Liquefied petroleum gas fuel fired, or liquid fuel fired space heating devices designed to be portable are prohibited in all portions of occupancies in Groups A, E, F, I, R-1, R-2, R-3 and R-4.

Exceptions:

1. In emergency conditions, when approved by the authority having jurisdiction, equipment designed to be portable may be used for a specified time provided such equipment is properly protected and separated from combustibles as specified by the manufacturer's instructions and the authority having jurisdiction.
2. Listed and approved unvented fuel-fired heaters in one- and two- family dwellings and portable outdoor gas-fired heating appliances used outside one- and two-family dwellings.
3. Portable outdoor gas-fired heating appliances are allowed in accordance with Section 603.4.2."

4. Add a new section 603.4.2 to read as follows:

603.4.2 Portable outdoor gas-fired heating appliances. Portable gas-fired heating appliances located outdoors shall be in accordance with Sections 603.4.2.1 through 603.4.2.3.4.

603.4.2.1 Location. Portable outdoor gas-fired heating appliances shall be located in accordance with Sections 603.4.2.1.1 through 603.4.2.1.4.

603.4.2.1.1 Prohibited locations. The storage or use of portable outdoor gas-fired heating appliances is prohibited where any of the following exist:

1. Inside any occupancy when connected to the fuel gas container.
2. Inside tents, canopies and membrane structures.
3. On exterior balconies in accordance with NFPA 58.

603.4.2.1.2 Clearance to buildings. Portable outdoor gas-fired heating appliances shall be located at least 5 feet from buildings.

603.4.2.1.3 Clearance to combustible materials. No portion of portable outdoor gas-fired heating appliances shall be located beneath, or closer than 5 feet to combustible overhangs, awnings, sunshades or similar combustible attachments buildings and combustible decorations.

603.4.2.1.4 Proximity to exits. Portable outdoor gas-fired heating appliances shall not be located within 10 feet of exits or exit discharges.

603.4.2.2 Installation and operation. Portable outdoor gas-fired heating appliances shall be installed and operated in accordance with Sections 603.4.2.2.1 through 603.4.2.2.4.

603.4.2.2.1 Listing and approval. Only listed and approved heating appliances utilizing a fuel gas container that is integral to the appliance shall be used.

603.4.2.2.2 Installation and maintenance Portable outdoor gas-fired heating appliances shall be installed and maintained in accordance with the manufacturer's instructions.

603.4.2.2.3 Tip-over switch. Portable gas-fired heating appliances shall be equipped with a tilt or tip-over switch that automatically shuts off the flow of gas if the appliance is tilted more than 15 degrees from vertical.

603.4.2.2.4 Guard against contact. The heating element or combustion chamber shall be permanently guarded so as to prevent accidental contact by persons or material.

603.4.2.3 Gas container. Fuel gas containers for portable outdoor gas-fired heating appliances shall comply with Sections 603.4.2.3.1 through 603.4.2.3.4.

603.4.2.3.1 Approved containers. Only approved U.S. DOT or ASME gas containers shall be used.

603.4.2.3.2 Container replacement. Replacement of gas containers in the heating appliance shall not be conducted while the public is present.

603.4.2.3.3 Container capacity. The maximum individual capacity of gas containers used in connection with portable gas-fired heating appliances shall not exceed 20 pounds.

603.4.2.3.4 Indoor storage prohibited. Gas containers shall not be stored inside of buildings except in accordance with Section 3809.9."

5. Delete section 605.10 and substitute in its place the following: Sections 605.10.1 through 605.10.4 remain unchanged.

"605.10 Portable, electric space heaters. Portable, electric heaters are prohibited in all portions of occupancies in Groups A, E, F, R-1, R-2, and R-4. Where permitted, portable electric space heaters shall comply with Sections 605.10.1 through 605.10.4."

6. Add a new section 605.11 to read as follows:

"605.11 Separation from Transformers. Space separation for transformers shall be as follows:

"(1) Transformer pad locations shall be a minimum of 10 feet (3 m) from any building, building overhangs, canopies, exterior walls, balconies, exterior stairs and/or walkways connected to the building.

"(2) Transformer pad edges shall be not less than 14 feet (4.3 m) from any doorway.

"(3) Transformer pad edges shall be not less than 10 feet (3 m) from any window or other opening.

"(4) If the building has an overhang, the 10 foot (3 m) clearance shall be measured from a point below the edge of the overhang only if the building is three stories or less. If the building is four stories or more, the 10 foot (3 m) clearance shall be measured from the outside building wall.

"(5) Fire escapes, outside stairs, and covered walkways attached to or between buildings, shall be considered as part of the building.

"Exception No. 1: For (1), transformer pads may be located closer to noncombustible walls than the above required minimum clearances upon written approval of the authority having jurisdiction, however, in no case shall the transformer location be less than 3 feet (0.9 m) from the building.

"Exception No. 2: Transformer pads existing prior to December 31, 1994, are exempted from this requirement. When buildings are modified, reductions in space separations may be less than the above required minimum clearances upon written approval of the authority having jurisdiction."

7. Delete sections 609.1 and 609.2 in their entirety and substitute in their place the following:

"609.1 General.Commercial kitchen exhaust hoods and residential cooking appliances in commercial and public buildings shall comply with the requirements of NFPA 96, *Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations*, as adopted by this Chapter.

8. Delete section 609.2 in its entirety and substitute in its place the following:

"609.2 Where required.A commercial hood complying with NFPA 96 shall be installed at or above all commercial cooking appliances and domestic cooking appliances used for commercial purposes that produce grease laden vapors.

Exception:Except as provided for in the scoping provisions subsection 1.1.4 of NFPA 96 as adopted by this Chapter."

(g) **Modifications to Chapter 7:**

1. Add a new section 703.5 to read as follows:

"703.5 Barrier Identification. All fire and/or smoke barriers or walls shall be effectively and permanently identified with signs or stenciling above a decorative ceiling and/or in concealed spaces with letters a minimum of 2 inches (51 mm) high on a contrasting background spaced a maximum of 12 feet (3.7 m) on center with a minimum of one per wall or barrier. The hourly rating shall be included on all rated barriers or walls. Suggested wording '() Hour Fire and Smoke Barrier-Protect All Openings.'

"Exception:Existing stenciling acceptable to the authority having jurisdiction."

2. Delete section 704.1 in its entirety and substitute in its place the following:

"704.1 Enclosures. The provisions of NFPA 101 as adopted by this Chapter shall govern the enclosures requirements of vertical shafts, including but not limited to stairways and service and utility shafts. (Refer to Table 102.10, CODES REFERENCE GUIDE)"

3. Delete Table 704.1 in its entirety.
4. Delete section 704.2 in its entirety and substitute in its place the following:

"704.2 Opening protectives. The provisions of NFPA 101, *Life Safety Code*, as adopted by this Chapter, shall govern the protection of openings in fire rated enclosures and barriers, including the self-closing or automatic closing of opening protectives."

(h) Modifications to Chapter 8:

1. Delete section 801.1 in its entirety and substitute in its place the following:

"SECTION 801 GENERAL, 801.1 Scope. The provisions of NFPA 101, *Life Safety Code*, as adopted by this Chapter, shall govern interior finish and interior trim in proposed (new) and existing buildings. Sections 805, 806, 807, and 808 of this *Code* shall govern decorative vegetation, decorative materials other than decorative vegetation, and furniture and furnishings in proposed (new) and existing buildings. (Refer to Table 102.10, CODES REFERENCE GUIDE)"

(i) Modifications to Chapter 9:

1. Delete section 901.4.2 in its entirety and substitute in its place the following:

"901.4.2 Provisions in excess of the minimum *Code* requirements shall, as a minimum, be installed to meet the provisions of the currently adopted code(s) and/or standard(s) which may be applicable to the provision at the time of its installation. Any non-required fire protection system which is added onto, or interconnected with, any required fire protection system (of a similar type), shall be designed, installed, and maintained in accordance with the provisions of the currently adopted code(s) and/or standard(s) which may be applicable to the provision at the time of its installation.

"Exceptions:

"1. Other installations not conforming with the provisions of the currently adopted code(s) and/or standard(s) applicable to the provision at the time of its installation if such installations are reported and filed with the local responding fire department and the authority having jurisdiction. In addition such systems shall be identified as required by the authority having jurisdiction.

"2. Non-required systems designed, reviewed, installed and approved in accordance with local codes and/or ordinances."

2. Add a new section 901.6.3 to read as follows:

"901.6.3 Automatic sprinkler systems and other water based fire extinguishing systems, including fire pumps, required or installed, shall be maintained in accordance with NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*, adopted by this Chapter. A certificate of inspection, as specified by NFPA 25, shall be retained on file at the facility and shall be made available to the Fire Code Official upon request for review for a period of at least three years."

3. Delete section 901.7.2 and substitute in its place the following:

"901.7.2 Tag Required.

(a) A tag shall be used to indicate that a system, or portion thereof, has been removed from service.

(b) For water based fire protection systems the tagging provisions of NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*, as adopted by this shall apply."

4. Delete section 903.2 in its entirety and substitute in its place the following:

"903.2 Where required. (a) Approved automatic sprinkler systems for proposed (new) and existing buildings and structures shall be installed as required by the applicable provisions of NFPA 101, *Life Safety Code*, as adopted by this Chapter, provided, however, the *International Building Code* shall govern the requirements for sprinkler protection that is related to minimum building construction types. (Refer to **Table 102.10, CODES REFERENCE GUIDE**) In addition, an automatic sprinkler system may be required by other NFPA standards adopted by this Chapter or other Rules and Regulations of the Safety Fire Commissioner."

Exception: Spaces or areas in telecommunications buildings used exclusively for telecommunications equipment, associated electrical power distribution equipment, batteries and standby engines, provided those spaces or areas are equipped throughout with a supervised automatic fire alarm system, and are separated from the remainder of the building by fire barriers consisting of walls and floor/ceiling assemblies having a fire resistance rating of not less than 2-hours.

NOTE: NFPA 76, *Recommended Practice for the Fire Protection of Telecommunications Facilities*, should be consulted. Refer to the edition adopted as a recommended practice by this Chapter."

5. Add a new section 903.2.1 to read as follows:

"903.2.1 The requirements for the installation, design, and testing of automatic sprinkler systems shall be as applicable, NFPA 13, *Standard for the Installation of Sprinkler Systems*, NFPA 13D, *Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes*, or NFPA 13R, *Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Height*, as adopted and modified by this Chapter."

6. Delete section 904.2.1 in its entirety and substitute in its place the following:

"904.2.1 Commercial hood and duct systems. Each required commercial kitchen exhaust hood and duct system required by Section 610 to have a commercial hood complying with NFPA 96 shall be protected with an approved automatic fire-extinguishing system installed in accordance with this code."

7. Delete section 904.11 in its entirety and substitute in its place the following: "904.11 Fire Protection for Cooking Operations."

"904.11.1 The requirements for as well as the design, installation, protection and maintenance of cooking equipment, shall be as required by NFPA 101, *Life Safety Code* and NFPA 96, *Standard for the Ventilation Control and Fire Protection of Commercial Cooking Operations*, as adopted by this Chapter. (Refer to Table 102.10, CODES REFERENCE GUIDE)"

"904.11.2 Fire suppression systems approved for the protection of commercial cooking equipment shall be designed, installed, and maintained in accordance with the applicable standards adopted in this Chapter."

8. Delete section 905.1 in its entirety and substitute in its place the following:

"905.1 General. The State's minimum requirements for standpipe systems shall be as required by this *Code*, and the *International Building Code*. Standpipe systems shall be designed, installed and tested in accordance with NFPA 14, *Standard for the Installation of Standpipe, and Hose Systems* as adopted by this Chapter. (Refer to Table 102.10, CODE REFERENCE GUIDE)"

9. Delete section 906.1 in its entirety and substitute in its place the following:

"906.1 Portable Fire Extinguishers - General. Portable fire extinguishers shall be installed in all buildings, structures and facilities falling under this *Code* and O.C.G.A. 25-2. For any other building, structure, facility, or condition or special hazard, portable fire extinguishers shall be provided as may be required by this *Code* in Table 906.1, or by

various codes and standards adopted by this Chapter. (Refer to Table 102.10, CODES REFERENCE GUIDE)."

10. Delete section 906.2 in its entirety and substitute in its place the following:

"906.2**General requirements.** The selection, distribution, installation, and maintenance of portable fire extinguishers shall comply with NFPA 10, *Standard for Portable Fire Extinguishers*, as adopted by this Chapter.

Exceptions:

"1. The maximum travel distance to reach an extinguisher shall not apply to the spectator seating portions of Group A-5 occupancies."

2. Thirty-day inspections shall not be required and maintenance shall be allowed to be once every three years for dry-chemical or halogenated agent portable fire extinguishers that are supervised by a listed and approved electronic monitoring device, provided that all of the following conditions are met:

(a) Electronic monitoring shall confirm that extinguishers are properly positioned, properly charged and unobstructed.

(b) Loss of power or circuit continuity to the electronic monitoring device shall initiate a trouble signal.

(c) The extinguishers shall be installed inside of a building or cabinet in a noncorrosive environment.

(d) Electronic monitoring devices and supervisory circuits shall be tested every three years when extinguisher maintenance is performed.

(e) A written log of required hydrostatic test dates for extinguishers shall be maintained by the owner to ensure that hydrostatic tests are conducted at the frequency required by NFPA 10.

3. In Group E occupancies, in lieu of locating fire extinguishers in corridors and normal paths of travel as specified in NFPA 10, *Standard for Portable Fire Extinguishers*, fire extinguishers may be located in rooms that open directly onto such corridors and pathways provided all of the following are met:

(a) The room in which such extinguishers are placed are located in close proximity to that portion of the corridor where a fire extinguisher would otherwise be placed in accordance with NFPA 10; *Standard for Portable Fire Extinguishers*,

(b) A sign which states in white letters at least one inch in height on a red background, 'FIRE EXTINGUISHER LOCATED IN THIS ROOM,' is placed on the corridor wall immediately adjacent to the entrance way of each such room so that it can be clearly seen at all times;

(c) The rooms in which such extinguishers are placed shall be constantly supervised during school hours; and

(d) Those rooms cannot be subject to being locked at any time the building is occupied."

11. Delete section 906.9 in its entirety and substitute in its place the following:

"**906.9 Height above floor.** Portable fire extinguishers having a gross weight not exceeding 40 pounds (18 kg) shall be installed so that its top is not more than 54 inches and not less than 48 inches above the floor. Hand-held portable fire extinguishers having a gross weight exceeding 40 pounds (18 kg) shall be installed so that its top is not more than 3.5 feet (1067 mm) above the floor. The clearance between the floor and the bottom of installed hand-held extinguishers shall not be less than 4 inches (102mm)."

12. Delete section 907.1 in its entirety and substitute in its place the following, while retaining existing subsections:

"**907.1 Fire Alarm Systems - General.** The State's minimum requirements for fire alarm systems shall be as required by NFPA 101, *Life Safety Code* as adopted by this Chapter. Fire alarm systems shall be installed, tested, and maintained in accordance with NFPA 72, *National Fire Alarm Code*, as adopted by this Chapter."

13. Delete sections 907.2 through 907.16 in their entirety and without substitution.

14. Delete section 909.1 in its entirety and substitute in its place the following:

"**909.1 Scope and purpose.** This section applies to mechanical or passive smoke control systems when they are required for proposed (new) buildings or portions thereof by provisions of the *Life Safety Code (LSC)* or this *Code*, as adopted by this Chapter, or by provisions of the *International Building Code (IBC)*, as adopted by the Department of Community Affairs. The purpose of this section is to establish minimum requirements for the design, installation, and acceptance testing of smoke control systems that are intended to provide a tenable environment for the evacuation or relocation of occupants. These provisions are not intended for the preservation of contents, the timely restoration of operations, or for assistance in fire suppression or overhaul activities. Smoke control systems regulated by this section serve a different purpose than the smoke- and heat-venting provisions found in Section 910. Mechanical smoke control systems shall not be considered exhaust systems under Chapter 5 of the *International Mechanical Code (IMC)*."

15. Delete section 909.2 in its entirety and substitute in its place the following:

"909.2 General design requirements. Buildings, structures, or portions thereof required by provisions of the *Life Safety Code (LSC)* or this *Code*, as adopted by this Chapter, or by provisions of the *International Building Code*, as adopted by the Department of Community Affairs, to have a smoke control system or systems shall have such systems designed in accordance with the applicable requirements of Section 909 of this *Code* and the generally accepted and well established principles of engineering relevant to the design. The construction documents shall include sufficient information and detail to describe adequately the elements of the design necessary for the proper implementation of the smoke control systems. These documents shall be accompanied with sufficient information and analysis to demonstrate compliance with these provisions."

16. Add a new section 909.2.1 to read as follows:

"909.2.1 Smoke Control. For the purposes of 909.2 the following publications shall be considered as providing the generally accepted and well established principals of engineering relevant to design of required smoke control systems.

(1) NFPA 92A, *Standard for Smoke Control Systems Utilizing Barriers and Pressure Differences*

(2) NFPA 92B, *Standard for Smoke Management Systems in Malls, Atria, and Large Areas*

(3) NFPA SPP-53, *Smoke Control in Fire Safety Design*

(4) ASHRAE/SFPE, *Design of Smoke Management Systems*

(5) ASHRAE, *Guideline 5: Guideline for Commissioning Smoke Management Systems*"

(6) NFPA 101, *Life Safety Code* (For non-mandatory guidance involving systems for existing detention and correction facilities refer to A.23.3.1.3 of the 2000 Edition)

17. Add a new section 914.7.3 to read as follows:

"914.7.3 Limited Use Special Amusement Buildings: Special amusement buildings not open to the public in excess of 45 days shall be permitted, provided all of the following conditions are met:

1. Portable fire extinguishers with a minimum of a 2A: 10B :C rating are placed at each activity or viewing station;

2. A smoke detection system is placed throughout the facility with a detector located at each activity or viewing station and located throughout corridors and halls not to exceed a spacing more than 15 feet (4.6 m) from a wall or more than 30 feet (9.1 m) on center;
3. Emergency lighting shall be provided which will cause illumination of the means of egress upon activation of the fire alarm, any required smoke detector, or upon loss of power;
4. Personnel dedicated for the sole purpose of providing a fire watch shall be stationed at each activity or viewing station. Such personnel shall be provided with a direct communication device for communication with all other stations throughout the facility. In addition such personnel shall be provided with appropriate training for the operation of portable fire extinguishing equipment;
5. Communication to the responding fire department of emergency dispatch center is available from the facility;
6. The facility shall be posted prohibiting smoking with smoking receptacles located a minimum of 15 feet (9.1 m) from the structure;
7. A fire tour is conducted throughout the structure every hour and documentation of the time the tour was conducted including the name of personnel conducting the fire tour is maintained. Such documentation shall be readily available to the code official upon request."

(j) **Modifications to Chapter 10:**

1. Delete sections 1001 through 1027 in their entirety and substitute in their place the following:

"1001.1 General. Proposed (new) and existing buildings or portions thereof shall be provided with means of egress and related safeguards as set forth by NFP A 101, *Life Safety Code*, as adopted by this Chapter. (Refer to Table 102.10, CODES REFERENCE GUIDE)"

2. Add the following section 1001.2 to read as follows:

"1001.2 Overcrowding and Life Safety Hazard Prevention. Overcrowding or admittance of any person beyond the approved capacity of a building or a portion thereof shall not be allowed. It is the responsibility of the manager and the person in charge of a building, structure, or portion thereof not to allow an overcrowded condition or any condition which constitutes a life safety hazard to exist, and to take prompt action to remedy an overcrowded condition or life safety hazard when

evidence of such a condition is noted, or when advised or ordered by the Fire Code Official or his/her representative. (Refer to 107.6)"

3. Delete section 1028.1 in its entirety and substitute in its place the following:

"1028.1 General. The means of egress and related safeguards for buildings and structures or portions thereof shall be maintained in accordance with this section and with the provisions of NFPA 101, *Life Safety Code*, as adopted by this Chapter."

4. Delete section 1028.4 in its entirety and substitute in its place the following:

"1028.4 Exit signs, emergency lighting, and emergency power systems. Exit signs shall be properly maintained and shall be operable when a building or structure is occupied. Emergency lighting and emergency power for exit signs shall be maintained so as to be in a state of operational readiness at any time a building or structure is occupied. Emergency generators and power systems shall be tested and maintained as set forth by 604.3 of this Code."

(k) Modifications to Chapter 11:

1. Delete section 1103.5 in its entirety and substitute in its place the following:

"1103.5 Dispensing of flammable and combustible liquids. No dispensing, transfer or storage of flammable or combustible liquids shall be permitted inside any building or structure.

"Exceptions:

"1. As provided in Chapter 34 of this *Code*, provided the provisions are not less protective than the provisions of any applicable codes and standards adopted by the Rules and Regulations of the Safety Fire Commissioner.

"2. When the procedures used follow the guidelines and requirements set forth in NFPA 410 - *Standard for Aircraft Maintenance*, adopted by this Chapter."

2. Delete sections 1106.1 through 1106.21.1 in their entirety and substitute in their place a new paragraph 1106.1 to read as follows:

"1106.1 Aircraft motor vehicle fuel-dispensing stations and Airport Fuel Systems. All aircraft motor vehicle fuel-dispensing stations and airport fuel systems shall be in accordance with Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids'."

3. Delete section 1107.1 in its entirety and substitute in its place the following:

"1107.1 General. Helistops and heliports shall be maintained in accordance with Section 1107. Helistops and heliports on buildings or structures shall be constructed in accordance with the *IBC* and the requirements set forth by NFPA 418, *Standard for Heliports*, adopted by this Chapter."

(l) **Modification to Chapter 22:**

1. Delete sections 2201.1 through 2201.6 in their entirety and substitute in their place a new paragraph 2201.1 to read as follows:

"2201.1 Scope. Automotive motor fuel-dispensing facilities, marine motor fuel-dispensing facilities, fleet vehicle motor fuel-dispensing facilities and repair garages shall be in accordance with Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids'."

Exception: This chapter shall apply to hydrogen motor fuel-dispensing and generation facilities as specified in section 2209 and repair garages where referenced by subsection 406.6, entitled, 'Repair Garages,' of the *International Building Code*.

2. Delete sections 2203 through 2208 and all other paragraphs there under and section 2210 all other paragraphs there under in their entirety without substitution.

(m) **Modification to Chapter 27:**

1. Add two new exceptions 11 and 12 to section 2701.1 to read as follows:

"11. Storage, transportation, use, dispensing, mixing and handling of Flammable and Combustible Liquids as outlined in Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids.'

12. Storage, handling, and transportation of liquefied petroleum gas (LP-Gas) and the installation of LP-gas equipment pertinent to systems for such use as outlined Chapter 120-3-16 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Liquefied Petroleum Gases'."

2. In Table 2703.11.1, add superscript "k" to Oxidizers in the Material column and add the following footnote "k" to read as follows:

"k. Group M occupancies with Class 2 and Class 3 oxidizers exceeding these quantities shall include fire protection in accordance with section 7.4 of NFPA 430, *Code for the Storage of Liquid and Solid Oxidizers* adopted by this Chapter."

(n) **Modifications to Chapter 33:**

1. Delete sections 3301 through 3307 and all related paragraphs there under in their entirety and substitute in their place the following:

"3301. Explosives and blasting. The provisions of Chapter 120-3-10 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Explosives and Blasting Agents' shall govern the possession, manufacture, storage, handling, sale and use of explosives, explosive materials and small arms ammunitions."

2. Delete section 3308.1 in its entirety and substitute in its place the following:

"3308.1 GENERAL PROVISIONS. In addition to the requirements of this Section for the display of fireworks the provisions of O.C.G.A. Title 25, Chapter 2, and Chapter 120-3-22, Rules and Regulations of the Safety Fire Commissioner, shall apply. Where there may be a conflict between a provision of this Section and a provision of the above referenced law or regulation, the provision of the above referenced law or regulation shall apply. Nothing in this chapter shall be construed to prohibit the use of fireworks by railroads or other transportation agencies for the signal purposes or illumination, or the sale or use of blank cartridges for a show or theater, or for signal or ceremonial purposes in athletics or sports or for the use by military organizations."

3. Delete section 3308.11 in its entirety and substitute in its place the following:

"3308.11 Retail display and sale. (a) Fireworks as defined in the Official Code of Georgia (O.C.G.A.) Title 25, Chapter 10 in 25-10-1 (a)(1) shall not be made available for sale at retail or wholesale, except as provided in O.C.G.A. 25-10. (b) Non-explosive sparkling devices as defined in O.C.G.A. [25-10-1\(b\)](#) are permitted for retail sales to the public, provided, however, it is unlawful for any such devices to be sold to any person under 18 years of age (O.C.G.A. [25-10-2\(b\)\(1\)](#)). In addition, it is unlawful to sell such items to any person by any means other than an in-person, face-to-face sale. Further, such person shall provide proper identification to the seller at the time of such purchase. The term 'proper identification' means any document issued by a governmental agency containing a description of the person, such person's photograph, or both, and giving such person's date of birth and includes without being limited to, a passport, military identification card, driver's license, or an identification card authorized under O.C.G.A. Sections [40-5-100](#) through [40-5-104](#). (c) In areas where devices are stored or displayed for retail sales, at least one pressurized-water type portable fire extinguisher complying with NFPA 10, as adopted by this Chapter shall be located not more than 20 feet and not closer than 15 feet from the storage or display location. In addition, "NO SMOKING" signs complying with Section 310 shall be conspicuously posted in areas of such storage or display, unless in a building where smoking is clearly marked as prohibited."

(o) **Modification to Chapter 34:**

1. Add a new nonapplicability paragraph number 10 to section 3401.2 to read as follows:

"10. The storage, transportation, use, dispensing, mixing and handling of Flammable and Combustible Liquids as outlined in Chapter 120-3-11 Rules and Regulations of the Safety Fire Commissioner entitled, 'Rules and Regulations for Flammable and Combustible Liquids'."

(p) **Modifications to Chapter 38:**

1. Delete Chapter 38 in its entirety and substitute in its place the following:

"CHAPTER 38 LIQUEFIED PETROLEUM GASES.The provisions relating to the storage and handling of liquefied petroleum gases shall be those in NFPA 58, *Liquefied Petroleum Gas Code*, as adopted by Chapter 120-3-16, Rules and Regulations of the Safety Fire Commissioner. (Refer to Table 102.10), CODES REFERENCE GUIDE)"

(q) **Modifications to Chapter 45:**

1. Delete Chapter 45 in its entirety and substitute in its place the following:

"CHAPTER 45 REFERENCED STANDARDS. Replace the ICC EC - 06 ICC *Electrical Code* reference with the *Georgia State Minimum Standard Electrical Code (National Electrical Code)*. The following are the section numbers where such references exist:

603.1.3, 603.1.7, 603.5.2, 604.2.16.1, 604.2.16.2, 605.1, 605.3, 605.4, 605.9, 606.16, 904.3.1, 907.6, 909.11, 909.12.1, 909.16.3, 1106.3.4, 1204.2.3, Table 1304.1, 1404.7, 1503.2.1, 1503.2.1.1, 1503.2.1.4, 1503.2.5, 1504.6.1.2.2, 1504.9.4, 1604.5, 1703.2.1, 1803.7.1, 1803.7.2, 1803.7.3, 1903.4, 2004.1, 2201.5, 2205.4, 2208.8.1.2.4, 2209.2.3, 2211.3.1, 2211.8.1.2.4, 2403.12.6.1, 2404.15.7, 2606.4, 2703.7.3, 2703.8.7.1, 2703.9.4, 2704.7, 2705.1.5, 3003.7.6, 3003.8, 3003.16.11, 3003.16.14, 3203.7, 3203.7.2, 3403.1, Table 3403.1.1, 3403.1.3, 3404.2.8.12, 3404.2.8.17, 3406.2.8, 3503.1.5, 3503.1.5.1, 3606.5.5, 3606.5.6, 3704.2.2.8

Replace the NFPA Standard Reference numbers with the year edition with the same NFPA Standard Reference numbers and titles however; each year edition shall be those as adopted by the Rules and Regulations of the Georgia Safety Fire Commissioner Chapters 102-3-3, 120-3-10, 120-3-11 and 120-3-12. The following are the Standard Reference numbers and the section numbers where such references exist:

NFPA National Fire Protection Association; Batterymarch Park; Quincy, MA

02269

(3) **NFPA 10, 2007 Edition, *Standard for Portable Fire Extinguishers***

Modifications:

(a) **Modifications to Chapter 7:**

1. Delete 7.1.4.1 in its entirety and insert in its place the following:

"7.1.4.1 Service tags, maintenance labels, test labels, service collars, non-compliance tags and high pressure cylinder stamps shall be attached to each portable fire extinguisher as specified in Chapter 120-3-23 Rules and Regulations of the Safety Fire Commissioner or as otherwise specified in its requirements.

- (4) **NFPA 11, 2005 Edition, *Standard for Low-, Medium-, and High-Expansion Foam***
Modifications: None

- (5) **NFPA 12, 2008 Edition, *Standard on Carbon Dioxide Extinguishing Systems***
Modifications: None

- (6) **NFPA 12A, 2009 Edition, *Standard on Halon 1301 Fire Extinguishing Systems***
Modifications: None

- (7) **NFPA 13, 2010 Edition, *Standard for the Installation of Sprinkler Systems***
Modifications:

(a) **Modification to Chapter 4:**

1. Add a new Section 4.5 to read as follows:

"4.5 Modification of Existing Sprinkler Systems. In existing sprinkler systems, heads may be relocated from original installation locations. All alterations or modifications to existing branch lines shall be submitted with hydraulic calculations if work is outside of scope of subsections 4.5.1 through 4.5.4. New hydraulic data nameplate shall be placed on any modified system at the riser or sectional valve along with the existing hydraulic data nameplate.

"4.5.1 One additional sprinkler may be added to an original installation location if the additional sprinkler is in a remotely located or non-communicating compartment from the existing or relocated sprinkler.

"4.5.2 Two sprinklers may be added to an existing branch line if the additional sprinklers are in remotely located or non-communicating compartments from the existing or relocated sprinkler.

"4.5.3 New branch lines added to existing cross mains shall be sized the same as the existing branch lines.

"4.5.4 No more than two heads shall be supplied from 1 inch (25.4 mm) pipe unless the existing system was calculated to supply more than two heads. In such case, the calculated maximum for 1 inch (25.4 mm) pipe shall take precedence."

(b) Modification to Chapter 8:

1. Add an Annex A.8.15.4.1 to 8.15.4.1 to read as follows:

"A.8.15.4.1 It is the intent of this section to apply the requirement for draft stops and closely spaced sprinklers to openings in fire rated floor/ceiling assemblies. It is not the intent of this section to require draft stops and closely spaced sprinklers to the perimeter around mezzanines, raised platforms, lofts or other places where stairs or escalators ascend to a floor or landing that is open to the space below.

2. Renumber existing 8.15.4.2 to 8.15.4.2.1 and add a new 8.15.4.2.2 to read as follows:

"8.15.4.2.2 Draft stops required by Section 8.15.4.1 shall not be required in Light and Ordinary Hazard Occupancies utilizing quick response sprinklers throughout."

3. Add a new exception to paragraph 8.15.5.3 to read as follows:

"Exception: Sprinklers may be omitted from elevator machine rooms which are two-hour fire rated and are provided with smoke detection interconnected to the building fire alarm system."

(c) Modification to Chapter 16:

1. Delete subparagraph 16.2.5.1.2(3) in its entirety and substitute in its place the following:

"(3) Shelves shall be slatted using a minimum nominal 2 inch (51 mm) thick by maximum nominal 6 inch (152.4 mm) wide slat held in place by spacers secured to the racks that maintain a minimum 2 inch (51 mm) opening between each slat."

(d) Modification to Chapter 17:

1. Delete subparagraph 17.2.5.1.2(3) in its entirety and substitute in its place the following:

"(3) Shelves shall be slatted using a minimum nominal 2 inch (51 mm) thick by maximum nominal 6 inch (152.4 mm) wide slat held in place by spacers secured to the racks that maintain a minimum 2 inch (51 mm) opening between each slat."

(e) Modification to Chapter 18:

1. In Table 18.4(d), change the number of sprinklers in the 25.2 Nominal K-factor rows from "12 (see Note 2)" to "15 (see Note 5)" and add the following Note 5: "5. The design area shall consist of the hydraulically most demanding area of 15 sprinklers, consisting of five sprinklers on each of three branch lines. The design area shall include a minimum operating area of 1,200 square feet (111.5 sq m)."

(f) Modification to Chapter 22:

1. Add a new 22.1.2.1 to read as follows:

"22.1.2.1 Where plan review notes returned with submitted plans or comments on submitted plans by the authority having jurisdiction (AHJ), indicating the need for corrections, such corrections shall be made by the Fire Protection Sprinkler Designer. Only after the needed corrections are made and shown on corrected plans shall changes by installation personnel be allowed. Corrected plans shall be kept at the project site and shall be firmly attached to the set of plans stamped as approved with comments by the AHJ. Submitted plans returned without the approval stamp of the AHJ shall have corrections made and be resubmitted to the AHJ for review and approval. The installation of a system shall not be allowed where plans have been returned without an approval stamp until corrected plans have been submitted, reviewed, and stamped as approved by the AHJ."

2. Add new items to subsection 22.1.3 to read as follows:

"(47) Type of construction, (i.e. obstructed or unobstructed as defined in Section 3.7), and the distance between the sprinkler deflector and the structure in exposed structure areas.

"(48) Indicate the system is a NFPA 13 designed system.

"(49) Owner's Certificate, provided in accordance with Section 4.3.

"(50) Name, number and signature of Certificate of Competency & Designer."

3. Add a new subsection 22.4.4.10.3 to read as follows:

"22.4.4.10.3 There shall be a minimum 10 psi (0.69 bar) cushion between the hydraulically calculated sprinkler system demand and supply when there is a backflow prevention device present.

"Exception: 10 psi (0.69 bar) cushion may be lowered with permission of the authority having jurisdiction."

4. Add a new subparagraph 22.4.4.10.4 to read as follows:

"22.4.4.10.4 There shall be a minimum 15 psi (1.03 bar) cushion between the hydraulically calculated sprinkler system demand and supply in systems that do not have a backflow prevention device.

"Exception: 15 psi (1.05 bar) cushion may be lowered with permission of the authority having jurisdiction."

(g) Modification to Chapter 23:

1. Add a new paragraph 23.2.1.3 to read as follows:

"23.2.1.3 A water test taken to determine the period of highest demand and made not more than six months prior to plan submittal shall be submitted to the authority having jurisdiction with all new system designs."

(8) NFPA 14, 2007 Edition, *Standard for the Installation of Standpipe, and Hose Systems*

Modifications:

(a) Modifications to Chapter 1:

1. Delete Section 1.1 in its entirety and substitute in its place the following:

"1.1 Scope. The State's minimum requirements for standpipes shall be established by the *IFC* and *IBC* (Refer to Table 102.10, CODES REFERENCE GUIDE found in Chapter 120-3-3 Rules and Regulations) of the *IFC*, as adopted by Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner). In addition, the requirements for occupant hoses are eliminated for new and existing buildings subject to the approval of the

authority having jurisdiction. Where the installation of standpipes and/or hose systems is required, this standard covers the minimum requirements for the installation of standpipes and hose systems for buildings and structures. This standard does not cover requirements for periodic inspection, testing, and maintenance of standpipe systems. (*See NFPA 25, Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems.*)"

(b) Modification to Chapter 7:

1. Delete 7.8.1 in its entirety and substitute in its place the following:

"7.8.1 Hydraulically designed standpipe systems shall be designed to provide the waterflow rate required by Section 7.10 at a minimum residual pressure of 100 psi (6.9 bar) at the outlet of the hydraulically most remote 2-1/2 inch (65 mm) hose connection and 65 psi (4.5 bar) at the outlet of the hydraulically most remote 1-1/2 (38 mm) hose station.

Exception No. 1: Where the local Fire Chief or local Fire Code Official having fire suppression jurisdiction permits lower than 100 psi (6.9 bar) for 2-1/2 inch (65 mm) hose connections, based upon local suppression tactics, the pressure shall be permitted to be reduced to not less than 65 psi (4.5 bar).

Exception No. 2: Where the building is protected throughout by a supervised automatic sprinkler system and the building is not a high-rise, as defined in 3.3.9, the minimum residual pressure provisions shall not be mandatory when the standpipe system piping is a minimum of eight inches (8") nominal diameter.

Exception No. 3: Existing high-rise buildings, as defined in 3.3.9, that are protected throughout by a supervised automatic sprinkler system shall be permitted a reduction of the minimum residual pressure requirement of 100 psi (6.9 bar) at the hydraulically most remote 2-1/2 inch (63.5 mm) hose connection to 65 psi (4.5 bar)."

2. Delete 7.8.2.1 in its entirety and substitute in its place the following:

"7.8.2.1 Pipe schedule designed standpipe systems shall have piping sized in accordance with the pipe schedule in Table 7.8.2.1 to provide the required waterflow rate at a minimum residual pressure of 100 psi (6.9 bar) at the topmost 2-1/2 inch (65 mm) hose connection and 65 psi (4.5 bar) at the topmost 1-1/2 inch (38 mm) hose connection. Exception No. 1: Where the local Fire Chief or local Fire Code Official having fire

suppression jurisdiction permits lower than 100 psi (6.9 bar) for 2-1/2 inch (65 mm) hose connections, based upon local suppression tactics, the pressure shall be permitted to be reduced to not less than 65 psi (4.5 bar).

Exception No. 2: Where the building is protected throughout by a supervised automatic sprinkler system and the building is not a high-rise, as defined in 3.3.9, the minimum residual pressure provisions shall not be mandatory when the standpipe system piping is a minimum of eight inches (8") nominal diameter.

Exception No. 3: Existing high-rise buildings, as defined in 3.3.9, that are protected throughout by a supervised automatic sprinkler system shall be permitted a reduction of the minimum residual pressure requirement of 100 psi (6.9 bar) at the hydraulically most remote 2-1/2 inch (63.5 mm) hose connection to 65 psi (4.5 bar)."

(c) Modification to Chapter 9:

1. Add a new subsection 9.1.6 to read as follows:

"9.1.6 A letter certifying that all pressure restricting and pressure reducing equipment is installed and set per NFPA requirements and manufacturer's instructions shall be presented to the inspector along with test certificates at the time of final inspection."

(9) NFPA 15, 2007 Edition, *Standard for Water Spray Fixed Systems for Fire Protection*

Modifications: None

(10) NFPA 16, 2007 Edition, *Standard for the Installation of Foam-Water Sprinkler and Foam-Water Spray Systems*

Modifications: None

(11) NFPA 17, 2009 Edition, *Standard for Dry Chemical Extinguishing Systems*

Modifications:

(a) Modification to Chapter 1:

1. Delete Section 1.6 in its entirety and substitute in its place the following:

"1.6 * Qualifications. Only persons who are properly trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, shall be considered competent to design, install, and service dry chemical systems."

(b) Modification to Chapter 9:

1. Delete subsection 9.7.2 in its entirety and substitute in its place the following:

"9.7.2 Only persons trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, shall be considered competent to design, install, and service dry chemical extinguishing systems, in accordance with this standard and the manufacturer's instructions."

(c) Modification to Chapter 11:

1. Delete subsection 11.4.2 in its entirety and substitute in its place the following:

"11.4.2 Systems shall be recharged by persons who are properly trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, in accordance with the manufacturer's listed installation and maintenance manual."

(12) NFPA 17A, 2009 Edition, *Standard for Wet Chemical Extinguishing Systems*
Modifications:

(a) Modification to Chapter 7:

1. Delete Section 1.7 in its entirety and substitute in its place the following:

"1.7 * Qualifications. Only persons who are properly trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, shall be considered competent to design, install, and service wet chemical systems."

2. Delete subsection 7.3.3* in its entirety and substitute in its place the following:

"7.3.3 * At least semiannually, maintenance shall be conducted by persons who are trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire

Commissioner, in accordance with the manufacturer's listed installation and maintenance manual."

3. Delete subsection 7.4.2 in its entirety and substitute in its place the following:

"7.4.2 Systems shall be recharged by persons who are properly trained and licensed under the requirements of Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, in accordance with the manufacturer's listed installation and maintenance manual."

4. Add a new paragraph 7.5.2.4 to read as follows:

"7.5.2.4 Each stored pressure system agent cylinder that has undergone maintenance or hydrostatic testing that includes internal examination, or that has been recharged shall have 'Verification of Service' collar located around the neck of the cylinder. The collar shall contain a single circular piece of uninterrupted material forming a hole of a size that will not permit the collar assembly to move over the neck of the cylinder unless the valve is completely removed. The collar shall not interfere with the operation and actuation of the system cylinder. The 'Verification of Service' collar shall comply with the requirements of NFPA 10, *Standard for Portable Fire Extinguishers*, as adopted by Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner.

"Exception No. 1: Stored pressure system cylinders undergoing maintenance before March 1, 2002.

"Exception No. 2: Non-stored pressure cylinders such as cartridge cylinders for cartridge-operated systems do not require a "Verification of Service. collar for the cartridge."

(13) **NFPA 18, 2006 Edition, *Standard on Wetting Agents***

Modifications: None

(14) **NFPA 18A, 2007 Edition, *Standard on Water Additives for Fire Control; and Vapor Mitigation***

Modifications: None

(15) **NFPA 20, 2010 Edition, *Standard for the Installation of Stationary Pumps for Fire Protection***

Modifications:

(a) **Modification to Chapter 4:**

1. Add a new paragraph 4.6.4.3 to read as follows:

"4.6.4.3 At 150% rated capacity or below, the pump suction supply shall not drop below 20 psi (1.38 bar).

Exception: Suction supply pressure may be lowered upon approval of the authority having jurisdiction."

(16) **NFPA 22, 2008 Edition, *Standard for Water Tanks for Private Fire Protection***

Modifications: None

(17) **NFPA 24, 2010 Edition, *Standard for the Installation of Private Fire Service Mains and Their Appurtenances***

Modifications:

(a) **Modifications to Chapter 4:**

1. Delete 4.1.3 (10) in its entirety and substitute in its place the following:

"(10) Size, location, and piping arrangement of fire department connections as approved by the local Fire Chief or the local Fire Code Official having jurisdiction."

- (b) **Modifications to Chapter 13:** 1. Delete Section 13.1 in its entirety and substitute in its place the following:

"13.1 Private Service Mains.

"13.1.1 No pipe smaller than a nominal 8 inches (203 mm) in diameter shall be used to supply more than one hydrant or one hydrant on dead end mains over 500 feet (152 m). "Exception: Other installations, new or existing, acceptable to and approved by the authority having jurisdiction. NOTE: Pipe sizing should be based upon good engineering practices based on the projected water demand, fire fighting capabilities and water supply characteristics.

"13.1.2 No pipe smaller than a nominal 8 inches (203 mm) in diameter shall be used to supply one hydrant and automatic extinguishing systems.

"Exception: Other installations, new or existing, acceptable to and approved by the authority having jurisdiction. NOTE: Pipe sizing should be based upon good engineering practices based on the projected water demand, fire fighting capabilities and water supply characteristics.

"13.1.3 No pipe smaller than a nominal 8 inches (203 mm) in diameter shall be used to supply more than one hydrant and automatic extinguishing systems on looped mains over 1,000 feet (305 m).

"Exception: Other installations, new or existing, acceptable to and approved by the authority having jurisdiction, the approval shall include a letter from the local responding fire department. NOTE: Pipe sizing should be based upon good engineering practices based on the projected water demand, fire fighting capabilities and water supply characteristics."

(18) NFPA 25, 2008 Edition, Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems

Modifications:

(a) Modifications to Chapter 4:

1. Delete subsection 4.3.1 in its entirety and substitute in its place the following:

"4.4.1 Records of inspections, tests, and maintenance of the system(s) and its components shall be made available to the authority having jurisdiction by the following methods:

(1) Maintained on site for review by the authority having jurisdiction for a minimum of a three year period.

(2) On non-compliant or impaired systems a copy of the inspection report shall be forwarded to the authority having jurisdiction by the owner and/or the occupant."

2. Add a new subsection 4.3.6 to read as follows:

"4.4.6 Tagging.

4.4.6.1 Inspection Tag.

(a) After inspection and testing, an Inspection Tag shall be completed indicating all work that has been done, and then attached to the system in such a position as to permit convenient inspection and not hamper its activation or operation. A new Inspection Tag shall be attached to each system each time an inspection and test service is performed.

(b) Inspection Tags must be **GREEN** in color having a minimum dimension of 133 mm (5 1/4 inches) in height and 67 mm (2 5/8 inches) in width.

(c) Inspection tags shall bear the following information in an easily read format:

1. **'DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL.'** This particular information shall be in a minimum of 10pt type and in all capital letters.

2. The licensed Fire Sprinkler Contractor's name and physical address;

3. The license number of the Fire Sprinkler Contractor;

4. The license number of the fire sprinkler inspector;

5. The licensed fire sprinkler inspector's signature;

6. The day, month and year (to be punched);

7. The facility name and address.

(d) Inspection Tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office.

(e) An Inspection Tag shall only be removed by an authorized representative of a licensed fire sprinkler contractor.

(f) Should impairments or noncompliance items be found, the licensed inspector shall notify the building owner or his representative and the authority having jurisdiction in writing of all noncompliance items and/or impairments found. A fire sprinkler system compliance Inspection Tag shall not be installed on each system until the impairments or

noncompliance items have been corrected and each system has been re-inspected and found to be in a state of operational readiness.

4.4.6.2 Noncompliance Tag.

(a) If a fire sprinkler system is found in noncompliance with the applicable NFPA standards, a completed Noncompliance Tag shall be attached to the main control valve of each system to indicate that corrective action is necessary.

(b) Noncompliance Tags must be YELLOW in color having a minimum dimension of 133 mm (5 1/4 inches) in height and 67 mm (2 5/8 inches) in width.

(c) Noncompliance Tags shall bear the following information in an easily read format:

1. 'DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL-SYSTEM NOT IN COMPLIANCE WITH NFPA STANDARDS.' This particular information shall be in a minimum of 10pt type and in all capital letters.

2. The licensed Fire Sprinkler Contractor's name and physical address;

3. The license number of the Fire Sprinkler Contractor;

4. The license number of the fire sprinkler inspector;

5. The licensed fire sprinkler inspector's signature;

6. The day, month and year (to be punched);

7. The noncompliance issue(s);

8. The facility name and address.

(d) Noncompliance Tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office.

(e) The signature of the licensee on a Noncompliance Tag certifies the impairments listed on the label cause the system to be out of compliance with NFPA standards.

(f) A Noncompliance Tag shall only be removed by an authorized representative of a licensed fire sprinkler contractor upon re-inspection of the fire sprinkler system.

(g) A letter of noncompliance conditions shall be sent to the building owner or authorized representative within five working days of the date of the inspection.

4.4.6.3 Impairment Tag.

(a) Should impairments constitute an emergency impairment as defined in this standard, then the inspector shall complete and attach an Impairment Tag to the main control valve of each system and the fire department connection to indicate that corrective action is necessary.

(b) Impairment Tags must be RED in color having a minimum dimension of 133 mm (5 1/4 inches) in height and 67 mm (2 5/8 inches) in width.

(c) Impairment Tags shall bear the following information in an easily read format:

1. 'DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL.'
This particular information shall be in a minimum of 10pt type and in all capital letters.

2. The licensed Fire Sprinkler Contractor's name and physical address;

3. The license number of the Fire Sprinkler Contractor;

4. The license number of the fire sprinkler inspector;

5. The licensed fire sprinkler inspector's signature;

6. The day, month and year (to be punched);

7. The emergency impairment(s);

8. The facility name and address.

(d) Impairment Tags may be printed and established for any period of time. After each printing, a minimum of three sample tags must be forwarded to the State Fire Marshal's office.

(e) The signature of the licensee on an Impairment Tag certifies the impairments listed on the label cause the system to be out of compliance with NFPA standards.

(f) An Impairment Tag shall only be removed by an authorized representative of a licensed fire sprinkler contractor upon re-inspection of the fire sprinkler system.

(g) A letter of emergency impairment conditions shall be sent to the building owner or authorized representative and to the occupant within 24 hours of the time of the inspection. The building owner and/or occupant shall notify the authority having jurisdiction within 24 hours of the time of the impairment notification."

(b) Modifications to Chapter 6:

1. Add a new exception to subsection 6.1 to read as follows:

"Exception: In new and existing buildings, the requirements for hose for occupant use are eliminated, subject to the approval of the authority having jurisdiction."

(19) NFPA 30, 2008 Edition, *Flammable and Combustible Liquids Code*

Modifications: None

(20) NFPA 30B, 2007, *Code for the Manufacture and Storage of Aerosol Products*

Modifications: None

Modifications: None

(32) **NFPA 53, 2004 Edition, *Recommended Practice on Materials, Equipment, and Systems Used in Oxygen-Enriched Atmospheres***

Modifications:

(a) **Modifications to Chapter 1:**

1. Delete section 1.1 in its entirety and substitute in its place the following:

"1.1 Scope. This document establishes the minimum criteria for the safe use of oxygen (liquid/gaseous) and the design of systems for use in oxygen and oxygen-enriched atmospheres (OEAs)."

(33) NFPA 54, 2009 Edition, *National Fuel Gas Code*

Modifications: None

(34) NFPA 55, 2010 Edition, *Standard for the Storage, Use, and Handling of Compressed and Liquefied Gases in Portable Cylinders*

Modifications: None

(35) NFPA 58, 2008 Edition, *Liquefied Petroleum Gas Code* Modifications: None

(36) NFPA 59, 2008 Edition, *Utility LP-Gas Plant Code* Modifications: None

(37) NFPA 61, 2008 Edition, *Standard for the Prevention of Fires and Dust Explosions in Agricultural and Food Processing Facilities*

Modifications:

(a) Modifications to Chapter 12:

1. Delete section 12.5 in its entirety and substitute in its place the following:

"12.5 Emergency Planning and Preparedness. Each facility shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by this Chapter."

(38) NFPA 68, 2007 Edition, *Standard on Explosion Protection by Deflagration Venting*

Modifications:

(a) Modifications to Chapter 6:

1. Delete subsection 6.8.2 in its entirety and substitute in its place the following:

"6.8.2 A vent duct shall have a cross sectional area at least as great as that of the vent itself but shall be limited to no more than 150% of the vent itself at any point in the vent duct. [Hey]"

(b) **Modifications to Chapter 7:**

1. Delete equation 7.2.2.6 in its entirety and substitute in its place the following:

$$\Delta A_i = A_v \cdot \left[\frac{(0.0075) \cdot M^{0.6} \cdot K_G^{0.5}}{M^{0.3} \cdot V \cdot P_{red}^{0.2}} \right]$$

(7.2.2.6)

where:

A_v = vent area calculated by Equation 7.2.2

M = mass of vent panel (kg/m²)

2. Delete equation 7.3.3.2 in its entirety and substitute in its place the following:

$$A_v = [(0.127 \log_{10} K_G - 0.0567) P_{int}^{0.582} + 0.175 P_{int}^{0.572} (P_{stat} - 0.1)] V^{2/3}$$

(7.3.3.2)

where:

$K_G \leq 550$ bar-m/sec

$P_{red} \leq 2$ bar and at least 0.05 bar $> P_{stat}$

$P_{stat} \leq 0.5$ bar

$V \leq 1000$ m³

Initial pressure before ≤ 0.2 bar ignition

3. Delete subparagraph 7.3.3.6.1 in its entirety and substitute in its place the following:

"7.3.3.6.1 When the mass of the vent panel is less than or equal to 40 kg/m², Equation 7.3.3.6.2 shall be used to determine whether an incremental increase in vent area is needed and the requirements of 7.3.3.7 shall be used to determine the value of the increase."

4. Delete equation 7.3.3.6.2 in its entirety and substitute in its place the following:

$$M_T = \left[6.67 \cdot (P_{red})^{0.2} \cdot (n^{0.3}) \cdot \left(\frac{V}{K_G^{0.5}} \right) \right]^{1.67}$$

(7.3.3.6.2)

where:

M_T = threshold mass (kg/m²)

P_{red} = bar

n = number of panels

$V > 1 \text{ m}^3$

5. Delete equation 7.3.3.7 in its entirety and substitute in its place the following:

$$\Delta A_v = A_v \cdot \left[\frac{(0.0075) \cdot M^{0.6} \cdot K_G^{0.5}}{n^{0.3} \cdot V' \cdot P_{red}^{0.2}} \right]$$

(7.3.3.7)

where:

M = mass of vent panel (kg/m²)

A_v = vent area calculated by Equation 7.3.3.2

(c) Modification to Chapter 8:

1. Delete paragraph 8.2.7.1 in its entirety and substitute in its place the following:

"8.2.7.1 When the mass of the vent panel is less than or equal to 40 kg/m², Equation 8.2.7.2 shall be used to determine whether an incremental increase in vent area is needed and the requirements of 8.2.8 shall be used to determine the value of that increase."

2. Delete equation 8.2.7.2 in its entirety and substitute in its place the following:

$$M_T = \left[6.67 \cdot (P_{red}^{0.2}) \cdot (n^{0.3}) \cdot \left(\frac{V}{K_s^{0.5}} \right) \right]^{1.67}$$

(8.2.7.2)

where:

M_T = threshold mass (kg/m²)

P_{red} = bar

n = number of panels

V = volume (m³)

3. Add a new paragraph 8.2.7.3 to read as follows:

"8.2.7.3 Where M is greater than 40 kg/m², it shall be permitted to use the procedure provided in Annex G."

4. Delete subsection 8.2.8 in its entirety and substitute in its place the following:

"8.2.8 For M > M_t, the required vent area, A_{v3}, shall be calculated as follows:"

5. Delete equation 8.2.8 in its entirety and substitute in its place the following:

$$A_{v3} = A_{v2} \cdot \left[1 + \frac{(0.0075) \cdot M^{0.6} \cdot K_{st}^{0.5}}{n^{0.3} \cdot P' \cdot P_{red}^{0.2}} \right]$$

(8.2.8)

where:

A_{v2} = vent area calculated by Section 8.2.2.6, Equation 8.2.6.7, or Equation 8.2.6.8, as applicable

M = mass of vent panel (kg/m^2)

6. Delete Table 8.5.10 in its entirety and substitute in its place the following:

Table 8.5.10 Combination Rules and Limitations for NFPA 68 Dust Models	
Model	Application
Vent ducts	$0.8 \leq P_0 \leq 1.2$ bar-abs Panel density $\leq 40 \text{ kg/m}^2$ Allow partial volume $1 \leq L/D \leq 6$ (calculate vent duct effect last)
Partial volume	Allow vent duct Panel density $\leq 40 \text{ kg/m}^2$ $0.8 \leq P_0 \leq 1.2$ bar-abs $1 \leq L/D \leq 6$ (calculate vent duct effect last)
Elevated initial pressure	No vent duct Panel density $\leq M_T$ and $\leq 40 \text{ kg/m}^2$ $0.2 \leq P_0 \leq 4$ bar-g Full volume deflagration $1 \leq L/D \leq 6$ (calculate elevated initial pressure effect last)

Panel inertia	$0.8 \leq P_0 \leq 1.2 \text{ bar-a}$ Panel density $\leq 40 \text{ kg/m}^2$ Allow partial volume $I \leq L/D \leq 6$
---------------	--

7. Delete paragraph 8.7.1 (2) in its entirety and substitute in its place the following:

"8.7.1 (2) Locate the vents as shown in Figure 8.7.1(c) and Figure 8.7.1(d), and bags are either completely removed or shortened so that they do not extend below the top of the vent for a distance of one vent diameter from the vent. In addition, the bags which extend below the top of the vent shall be verified by test to be rigid enough to remain in place during venting, or shall be restrained from passing through the vent. For this case, the vent area shall be permitted to be calculated on the basis of the dirty side only; that is, calculate the volume below the tube sheet, and subtract out the volume occupied by the bags."
8. Delete paragraph 8.7.1 (3) in its entirety and substitute in its place the following:

"8.7.1 (3) Locate the vents such that the bottom of the vent(s) is below the bottom of the bags, as shown in Figure 8.7.1(e). For this case, the volume used to calculate the vent area shall be the entire volume (clean and dirty) below the tube sheet."
9. Delete Figure 8.7.1 (e) in its entirety and substitute in its place the following:

FIGURE 8.7.1(e) Venting of Dust Collectors — Alternative Arrangement 3.

FIGURE 8.7.1(e) Venting of Dust Collectors - Alternative Arrangement 3.

(d) **Modification to Annex A:**

1. Delete subparagraph A.7.3.3.6.2 in its entirety and substitute in its place the following:

"A.7.3.3.6.2 Where \dot{m} is greater than 40 kg/m^2 , it is necessary to perform testing or apply alternative explosion protection methods per **NFPA 69**, *Standard on Explosion Prevention Systems*."

2. Delete subsection A.8.2.7 in its entirety and substitute in its place the following:

"A.8.2.7 Where \dot{m} is greater than 40 kg/m^2 , see Annex G for guidance."

(e) **Modification to Annex G:**

1. Add a new section K. 1 (121) to read as follows:

"(121) Hey, "Pressure relief of dust explosions through large diameter ducts and effect of changing the position of the ignition source", H. Loss Prev. Process Ind., 1991, Vol 4, July, pg 217"

(39) **NFPA 69, 2008 Edition, *Standard on Explosion Prevention Systems***

Modifications: None

(40) **NFPA 70, 2008 Edition, *National Electrical Code***

Modifications:

(a) **Modifications to Article 210, Section 210.8:**

1. Add a new subparagraph (6) to Section 400.8(B) to read as follows:

"(6) Within 6 feet of a sink or basin, excluding those listed in Section 517.21."

(b) **Modifications to Article 210, Section 210.13:**

1. Delete Section 210.13(B) in its entirety and substitute in its place the following:

"(B) Dwelling Unit Bedrooms. All 120-volt, single phase, 15- and 20-ampere branch circuits supplying outlets installed in dwelling unit bedrooms shall be protected by a listed arc-fault circuit interrupter to provide protection of the branch circuit.

FPN: For information on types of arc-fault circuit interrupters, see UL 1699-1999, *Standard for Arc-Fault Circuit Interrupters*.

Exception: The location of the arc-fault circuit interrupter shall be permitted to be at other than the origination of the branch circuit in compliance with (a) and (b):

(a) The arc-fault circuit interrupter installed within 18 m (6 ft) of the branch circuit overcurrent device as measured along the branch circuit conductors

(b) The circuit conductors between the branch circuit overcurrent device and the arc-fault circuit interrupter shall be installed in a metal raceway or a cable with a metallic sheath. "

(c) **Modifications to Article 400, Section 400.7:**

1. Add a new Section 400.7(C) to read as follows:

"(C) Tested and listed portable surge protection devices may be utilized on personal computers, word processors, memory typewriters and other similar electronic devices which provide or process electronic information provided they are installed and utilized in accordance with their listings and permanently affixed to reduce the

risk of physical damage. The basic standard used to investigate products in the category is UL 1449, 'Transient Voltage Suppressors'."

(41) NFPA 70B, 2006 Edition, *Recommended Practice for Electrical Equipment Maintenance*

Modifications:

(a) Modifications to Chapter 1:

1. Add a new subsection 1.1.3 to read as follows:

"1.1.3 This document is recognized strictly as a recommended practice that may be used in evaluating the effectiveness of electrical equipment within its scope.

Recommendations may be based on the document where deemed appropriate by the authority having jurisdiction. The document is not in the form of a stand-alone enforceable code or standard, however, it may be used in conjunction with and in the support of applicable provisions of other adopted codes or standards.

Exception: Facilities that have operations involving the manufacturing, processing, and/or handling combustible particulate solids including manufacturing processes that create combustible dust shall comply with this standard as a mandatory requirement"

(42) NFPA 70E, 2009 Edition, *Standard for Electrical Safety in the Workplace*

Modifications: None

(43) NFPA 72, 2007 Edition, *National Fire Alarm Code*

Modifications:

(a) Modification to Chapter 1:

1. Delete Section 1.1 in its entirety and substitute in its place the following:

"1.1 Scope. This code covers the application, installation, performance, and maintenance of fire alarm systems and their components whether such system or component is required or not.

1.1.1 Where the requirements of this code have technical differences and requirements from those established by Chapter 120-3-20 of the Safety Fire Commissioner's Rules and Regulations for Accessibility to Buildings and Facilities, the technical provisions and requirements of Chapter 120-3-20 shall take precedence over the requirements of this code where applicable."

(b) Modifications to Chapter 4:

1. Add a new Exception No. 2 to subsection 4.4.5 to read as follows:

"Exception No. 2: Existing building installations acceptable to the authority having jurisdiction."

(c) Modifications to Chapter 5:

1. Add a new subparagraph 5.7.3.1.4 to read as follows:

"5.7.3.1.4 Alternate locations of smoke detectors as allowed by the LSC and acceptable to the authority having jurisdiction may be utilized and considered to be in compliance with this code."

(d) Modification to Annex A:

1. Delete A.7.4.3.2 in its entirety and substitute in its place the following:

"A.7.4.3.2 For example, in critical care patient areas, it is often desirable to not have an audible fire alarm even at reduced private mode levels. Another example would be classrooms for small children in day care or educational occupancies, where verbal communication is vital between caregivers or teachers and children during drills or during an actual fire or other emergency condition. Audible alarms often frighten small children and valuable time may be lost while trying to calm such children. Also, audible alarms at or near locations, where clear communications is required, may present a problem. A school office or a receptionist desk common to various occupancies are examples. An additional example of where an audible fire alarm could be a problem would be high noise level work areas where an audible signal needed to overcome background noise at one time of the day would be excessively loud and potentially dangerous at another time of lower ambient noise. A sudden increase of more than 30 dB over 0.5 seconds is considered to cause sudden and potentially dangerous fright. Each case requires individual consideration by the authority having jurisdiction."

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.1.9 to read as follows:

"1.1.9 This recommended practice shall be mandatory and shall be used in evaluating systems or devices installed for the purposes of safeguarding life and/or property against the hazards of static electricity."

(45) **NFPA 79, 2007 Edition, *Electrical Standard for Industrial Machinery***

Modifications: None

(46) **NFPA 80, 2010 Edition, *Standard for Fire Doors and Other Opening Protectives***

Modifications: None

(47) **NFPA 80A, 2007 Edition, *Recommended Practice for Protection of Buildings from Exterior Fire Exposures***

Modifications:

(a) **Modifications to Chapter 1:**

1. Delete section 1.1 in its entirety and substitute in its place the following:

"1.1 Scope. This recommended practice shall be mandatory and addresses separation distances between buildings to limit exterior fire spread based on exterior openings and other construction features."

(48) **NFPA 85, 2007 Edition, *Boiler and Combustion Systems Hazards Code***

Modifications: None

(49) **NFPA 86, 2007 Edition, *Standard for Ovens and Furnaces***

Modifications: None

(50) **NFPA 90A, 2009 Edition, *Standard for the Installation of Air-Conditioning and Ventilating Systems***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.3.1 to read as follows:

"1.3.1 The *International Mechanical Code*, as adopted by the Georgia Department of Community Affairs (DCA), shall be the primary applicable Code and this standard shall only be utilized as a supplement where the *International Mechanical Code* does not address the specific issue."

(51) **NFPA 90B, 2009 Edition, *Standard for the Installation of Warm Air Heating and Air-Conditioning Systems***

Modifications:

(a) **Modifications to Chapter 1:**

1. Add a new subsection 1.3.1 to read as follows:

"1.3.1 The *International Mechanical Code*, as adopted by the Georgia Department of Community Affairs (DCA), shall be the primary applicable Code and this standard shall only be utilized as a supplement where the *International Mechanical Code* does not address the specific issue."

(52) **NFPA 91, 2004 Edition, *Standard for Exhaust Systems for Air Conveying of Vapors, Gases, Mists, and Noncombustible Particulate Solids***

Modifications: None

(53) **NFPA 92A, 2009 Edition, *Standard for Smoke-Control Systems Utilizing Barriers and Pressure Differences***

Modifications:

(a) **Modifications to Chapter 3:**

1. Add a new definition to be inserted alphabetically to Chapter 3 to read as follows:

"Existing. That which was already in existence on January 28, 1993."

(b) **Modifications to Chapter 4:**

1. Add a new section 4.8 to read as follows:

"4.8 For smoke control/smoke removal systems, each smoke compartment shall be

designed for and have a minimum of 10 air changes per hour.

Exception No. 1: Atrium spaces as specified in NFPA 101, Life Safety Code.

Exception No. 2: Existing systems may be designed for a minimum of six air changes per hour."

(54) **NFPA 92B, 2009 Edition, Standard for Smoke Management Systems in Malls, Atria, and Large Spaces**

Modifications: None.

(55) **NFPA 96, 2008 Edition, Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations**

Modifications:

(a) **Modification to Chapter 1:**

1. Delete subsection 1.1.3 in its entirety and substitute in its place the following:

"1.1.3 This standard shall apply to all commercial cooking equipment used for commercial cooking operations."

2. Delete subsection 1.1.4 in its entirety and substitute in its place the following:

"1.1.4 This standard shall not apply to residential cooking equipment located in a single dwelling unit or to cooking equipment in facilities where all of the following are met:

- (1) Only residential cooking equipment such as stoves, ranges or cooking surfaces traditionally used in dwelling units are being utilized.

- (2) The defined residential cooking equipment contains a maximum of four standard surface cooking elements and is not used for frying operations.
- (3) The defined residential equipment is used for food warming, limited cooking, rehabilitation training or in a home economic education classroom setup.
- (4) The residential cooking equipment is protected by a listed self-contained residential fire suppression system located in an approved residential hood which is vented directly to the outside and providing protection to each cooking surface.

Exception to (4): The self-contained fire suppression system for the defined residential cooking equipment need not be provided where protection is provided by an approved automatic sprinkler system protecting the cooking surface, subject to approval of the authority having jurisdiction. Required use of automatic disconnects of the fuel source or power source is subject to approval of the authority having jurisdiction.

- (5) The facility is not an assembly occupancy.

Exception to (5) Church facilities with a single residential stove or range complying with (2) above.

- (6) Fire Extinguishers are located in all kitchen areas in accordance with NFPA 10, *Standard for Portable Fire Extinguishers*."

3. Add a new subsection 1.1.5 to read as follows:

"1.1.5 This standard shall not apply for conditions existing prior to the effective date of this standard subject to the authority having jurisdiction where a notarized statement that no frying operations will be preformed is provided."

(b) **Modification to Chapter 10:**

1. Delete subsection 10.2.3 in its entirety and substitute in its place the following:

"10.2.3 Automatic fire extinguishing systems shall comply with UL 300, *Standard for Fire Testing of Fire Extinguishing Systems for Protection of Restaurant Cooking Areas*, or other equivalent standards and shall be

installed in accordance with the requirements of the manufacturer's installation and maintenance manual.

Exception No. 1: Systems (dry or wet chemical) installed prior to 1998, and which are in compliance with the manufacturer's listing. These systems shall be red tagged as non-UL 300 compliant and must be replaced to a UL 300 compliant system when any of the following apply:

- a. Appliance arrangement has been modified, or the hazard has been modified to create a higher risk since the initial system installation.*
- b. The system is discharged.*
- c. The system is due for 6-year maintenance or is due hydro-testing.*
- d. If listed manufacturer's replacement parts, or the required extinguishing agent, are needed but are not available."*

2. Delete subsection 10.2.6 in its entirety and substitute in its place the following:

"10.2.6 Automatic fire extinguishing systems shall be installed by competent personnel meeting Chapter 120-3-23, Rules and Regulations of the Safety Fire Commissioner, licensing and permit requirements, in accordance with the manufacturer's instructions, and the following applicable standard(s):

- (1) NFPA 12, *Standard on Carbon Dioxide Extinguishing Systems*
- (2) NFPA 13, *Standard for the Installation of Sprinkler Systems*
- (3) NFPA 17, *Standard for Dry Chemical Extinguishing Systems*
- (4) NFPA 17A, *Standard for Wet Chemical Extinguishing Systems"*

3. Delete paragraph 10.10.1 in its entirety and substitute in its place the following:

"10.10.1* Portable fire extinguishers shall be installed in kitchen cooking areas in accordance with 4.3.2 of NFPA 10 and shall be specifically listed for such use. An approved type portable fire extinguisher and a placard as required by 4.3.2.2 of NFPA 10 shall be installed within 5 feet of each means of manual activation for the exhaust hood fire-suppression system."

4. Delete Section 13.2 in its entirety and substitute in its place the following:

"13.2 Design Restrictions. All recirculating systems shall comply with the requirements of Section 13.2. Recirculating systems shall be limited to outdoor vending areas or rooms that are fully sprinklered."

(56) NFPA 101, 2000 Edition, *Life Safety Code*

Modifications:

The 2000 Edition of the *Life Safety Code* is adopted with modifications so as to be applicable to proposed (new) and existing buildings and structures. Unless noted otherwise herein, operational provisions such as fire drills, emergency egress and relocation drills, development of fire or emergency plans, and regulation of contents of the various provisions of NFPA 101, *Life Safety Code* shall not be applicable to proposed (new) or existing buildings, structures, facilities, or conditions. The operational provisions of the *International Fire Code (IFC)*, as adopted by the Chapter 120-3-3 of the Rules and Regulations of the Safety Fire Commissioner shall apply to proposed (new) and existing buildings, structures, facilities, and conditions.

- (a) Refer to Chapter 120-3-3, Rules and Regulations of the Safety Fire Commissioner, for the adopted edition and any modifications except as specifically noted herein.

(b) Modification to Chapter 40:

1. Delete Chapter 40 in its entirety and substitute in its place the following:

"40 INDUSTRIAL OCCUPANCIES

40.1 General Requirements.

40.1.1 Application.

40.1.1.1 The requirements of this chapter shall apply to both new and existing industrial occupancies.

40.1.1.2 Industrial occupancies shall include factories making products of all kinds and properties used for operations such as processing, assembling, mixing, packaging, finishing or decorating, repairing, and similar operations.

40.1.1.3 Incidental high hazard operations protected in accordance with Section 8.7 and 40.3.2 in occupancies containing low or ordinary hazard contents shall not be the basis for high hazard industrial occupancy classification.

40.1.2 **Multiple Occupancies.** All multiple occupancies shall be in accordance with 6.1.14.

40.1.3 **Special Definitions.** Special terms applicable to this chapter are defined in Chapter 3.

40.1.4 **Classification of Occupancy.** Classification of occupancy shall be in accordance with 6.1.12.

40.1.4.1 **Subclassification of Occupancy.** Each industrial occupancy shall be subclassified according to its use as described in 40.1.4.1.1, 40.1.4.1.2, and 40.1.4.1.3.

40.1.4.1.1 **General Industrial Occupancy.** General industrial occupancies shall include the following:

- (1) Industrial occupancies that conduct ordinary and low hazard industrial operations in buildings of conventional design that are usable for various types of industrial processes
- (2) Industrial occupancies that include multistory buildings where floors are occupied by different tenants, or buildings that are usable for such occupancy and, therefore, are subject to possible use for types of industrial processes with a high density of employee population

40.1.4.1.2 **Special-Purpose Industrial Occupancy.** Special-purpose industrial occupancies shall include the following:

- (1) Industrial occupancies that conduct ordinary and low hazard industrial operations in buildings designed for, and that are usable only for, particular types of operations
- (2) Industrial occupancies that are characterized by a relatively low density of employee population, with much of the area occupied by machinery or equipment

40.1.4.1.3 **High Hazard Industrial Occupancy.** High hazard industrial occupancies shall include the following:

(1) Industrial occupancies that conduct industrial operations that use high hazard materials or processes or house high hazard contents

(2) Industrial occupancies in which incidental high hazard operations in low or ordinary occupancies that are protected in accordance with Sections 6.2, 8.4 and 40.3.2 are not required to be the basis for overall occupancy classification

40.1.4.2 Change of Industrial Occupancy Subclassification. Changing from one subclassification of industrial occupancy to another shall be permitted only if the structure, building, or portion thereof conforms to the requirements of this chapter that apply to new construction for the new use.

40.1.5 Classification of Hazard of Contents. Classification of hazard of contents shall be in accordance with Section 6.2.

40.1.6 Minimum Construction Requirements. For new construction and additions to existing buildings or structures, the minimum construction requirements and construction types allowed by the International Building Code as adopted and modified by the Georgia Department of Community Affairs shall be met.

40.1.7 Occupant Load. The occupant load, in number of persons for whom means of egress and other provisions are required, shall be determined on the basis of the occupant load factors of Table 7.3.1.2 that are characteristic of the use of the space, or shall be determined as the maximum probable population of the space under consideration, whichever is greater.

40.2 Means of Egress Requirements.

40.2.1 General.

40.2.1.1 Each required means of egress shall be in accordance with the applicable portions of Chapter 7.

40.2.1.2 Normally unoccupied utility chases that are secured from unauthorized access and are used exclusively for routing of electrical, mechanical, or plumbing equipment shall not be required to comply with the provisions of Chapter 7

40.2.2 Means of Egress Components.

40.2.2.1 **Components Permitted.** Components of means of egress shall be limited to the types described in 40.2.2.2 through 40.2.2.13.

40.2.2.2 Doors.

40.2.2.2.1 Doors complying with 7.2.1 shall be permitted.

40.2.2.2.2 Delayed-egress locks complying with 7.2.1.6.1 shall be permitted.

40.2.2.2.3 Access-controlled egress doors complying with 7.2.1.6.2 shall be permitted.

40.2.2.2.4 Approved existing horizontal-sliding fire doors shall be permitted in the means of egress under the following conditions:

- (1) They are held open by fusible links.
- (2) The fusible links are rated at not less than 165°F (74°C).
- (3) The fusible links are located not more than 10 ft (3050 mm) above the floor.
- (4) The fusible links are in immediate proximity to the door opening.
- (5) The fusible links are not located above a ceiling.
- (6) The door is not credited with providing any protection under this *Code*.

40.2.2.3 Stairs.

40.2.2.3.1 Stairs shall comply with 7.2.2 and shall be permitted to be modified as follows:

- (1) Noncombustible grated stair treads and noncombustible grated landing floors shall be permitted.
- (2) Industrial equipment access stairs in accordance with 40.2.5.2 shall be permitted.

40.2.2.3.2 Spiral stairs complying with 7.2.2.2.3 shall be permitted.

40.2.2.3.3 Existing winders complying with 7.2.2.2.4 shall be permitted.

40.2.2.4 **Smokeproof Enclosures.** Smokeproof enclosures complying with 7.2.3 shall be permitted.

40.2.2.5 Horizontal Exits.

40.2.2.5.1 Horizontal exits complying with 7.2.4 shall be permitted.

40.2.2.5.2 In horizontal exits where the opening is protected by a fire door assembly on each side of the wall in which it is located, one fire door shall be of the swinging type, as provided in 7.2.4.3.6, and the other shall be permitted to be an automatic-sliding fire door that shall be kept open whenever the building is occupied.

40.2.2.6 **Ramps.** Ramps shall comply with 7.2.5, except that industrial equipment access ramps shall be permitted to be in accordance with 40.2.5.2.

40.2.2.7 **Exit Passageways.** Exit passageways complying with 7.2.6 shall be permitted.

40.2.2.8 **Escalators and Moving Walks.** Existing previously approved escalators and moving walks complying with 7.2.7 and located within the required means of egress shall be permitted.

40.2.2.9 **Fire Escape Stairs.** Existing fire escape stairs complying with 7.2.8 shall be permitted.

40.2.2.10 Fire Escape Ladders.

40.2.2.10.1 Fire escape ladders complying with 7.2.9 shall be permitted.

40.2.2.10.2 Fixed industrial stairs in accordance with the minimum requirements for fixed stairs in ANSI A1264.1, *Safety Requirements for Workplace Floor and Wall Openings, Stairs and Railings Systems*, shall be permitted where fire escape ladders are permitted in accordance with 7.2.9.1.

40.2.2.11 Slide Escapes.

40.2.2.11.1 Approved slide escapes complying with 7.2.10 shall be permitted as components in 100 percent of the required means of egress for both new and existing high hazard industrial occupancies.

40.2.2.11.2 Slide escapes permitted by 40.2.2.11.1 shall be counted as means of egress only where regularly used in emergency egress drills to ensure that occupants are familiar with their use through practice.

40.2.2.12 **Alternating Tread Devices.** Alternating tread devices complying with 7.2.11 shall be permitted.

40.2.2.13 **Areas of Refuge.** Areas of refuge complying with 7.2.12 shall be permitted.

40.2.3 **Capacity of Means of Egress.** Capacity of means of egress shall comply with either of 40.2.3.1 or 40.2.3.2.

40.2.3.1 The capacity of means of egress shall be in accordance with Section 7.3.

40.2.3.2 In industrial occupancies, means of egress shall be sized to accommodate the occupant load as determined in accordance with 40.1.7; spaces not subject to human occupancy because of the presence of machinery or equipment shall not be included in the computation.

40.2.4 **Number of Means of Egress.** See also Section 7.4.

40.2.4.1 The number of means of egress shall comply with either 40.2.4.1.1 or 40.2.4.1.2.

40.2.4.1.1 Not less than two means of egress shall be provided from every story or section, and not less than one exit shall be reached without traversing another story.

40.2.4.1.2 A single means of egress shall be permitted from any story or section in low and ordinary hazard industrial occupancies, provided that the exit can be reached within the distance permitted as a common path of travel specified in Table 40.2.5.

40.2.4.2 In new buildings, floors or portions thereof with an occupant load of more than 500 shall have the minimum number of separate and remote means of egress specified by 7.4.1.2.

40.2.4.3 Areas with high hazard contents shall comply with Section 7.11.

40.2.5 Arrangement of Means of Egress. Means of egress, arranged in accordance with Section 7.5, shall not exceed that provided by Table 40.2.5.

Table 40.2.5 Arrangement of Means of Egress					
	General Industrial Occupancy		Special-Purpose Industrial Occupancy		
Level of Protection	ft	m	ft	m	High Hazard Industrial Occupancy
Dead-End Corridor					
Protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1)	50	15	50	15	Prohibited, except as permitted by 7.11.4
Not protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1)	50	15	50	15	Prohibited, except as permitted by 7.11.4
Common Path of Travel					
Protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1)	100	30	100	30	Prohibited, except as permitted by 7.11.4
Not protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1)	50	15	50	15	Prohibited, except as permitted by 7.11.4

40.2.5.1 Ancillary Facilities.

40.2.5.1.1 New ancillary facilities shall be arranged to allow travel in independent directions after leaving the ancillary facility so that both

means of egress paths do not become compromised by the same fire or similar emergency.

40.2.5.1.2 New ancillary facilities in special-purpose industrial occupancies where delayed evacuation is anticipated shall have not less than a 2-hour fire resistance-rated separation from the predominant industrial occupancy, and shall have one means of egress that is separated from the predominant industrial occupancy by 2-hour fire resistance-rated construction.

40.2.5.2 Industrial Equipment Access.

40.2.5.2.1 Industrial equipment access doors, walkways, platforms, ramps, and stairs that serve as a component of the means of egress from the involved equipment shall be permitted in accordance with the applicable provisions of Chapter 7, as modified by Table 40.2.5.2.1.

Table 40.2.5.2.1 Industrial Equipment Access Dimensional Criteria	
Feature	Dimensional Criteria
Minimum horizontal dimension of any walkway, landing, or platform	22 in. (560 mm) clear
Minimum stair or ramp width	22 in. (560 mm) clear between rails
Minimum tread width	22 in. (560 mm) clear
Minimum tread depth	10 in. (255 mm)
Maximum riser height	9 in. (230 mm)
Handrails shall be permitted to terminate, at the required height, at a point directly above the top and bottom risers.	
Maximum height between landings	12 ft (3660 mm)
Minimum headroom	6 ft 8 in. (2030 mm)
Minimum width of door openings	22 in. (560 mm) clear

40.2.5.2.2 Any means of egress component permitted by 40.2.5.2.1 shall serve not more than 20 people.

40.2.6 **Travel Distance to Exits.** Travel distance, measured in accordance with Section 7.6, shall not exceed that provided by Table 40.2.6.

Table 40.2.6 Maximum Travel Distance to Exits

	General		Special-Purpose		High Hazard	
	Industrial		Industrial		Industrial	
	Occupancy		Occupancy		Occupancy	
Level of Protection	ft	m	ft	m	ft	m
Protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1)	250	76*	400	122	75	23
Not protected throughout by an approved, supervised automatic sprinkler system in accordance with 9.7.1.1(1)	200	61	300	91	NP	NP
NP: Not permitted.						
*In single-story buildings, a travel distance of 400 ft (122 m) is permitted, provided that a performance-based analysis demonstrates that safe egress can be accomplished.						

40.2.7 Discharge from Exits. Discharge from exits shall be in accordance with Section 7.7.

40.2.8 Illumination of Means of Egress. Means of egress shall be illuminated in accordance with Section 7.8 or with natural lighting that provides the required level of illumination in structures occupied only during daylight hours.

40.2.9 Emergency Lighting.

40.2.9.1 Emergency lighting shall be provided in accordance with Section 7.9, except as otherwise exempted by 40.2.9.2.

40.2.9.2 Emergency lighting shall not be required for the following:

- (1) Special-purpose industrial occupancies without routine human habitation
- (2) Structures occupied only during daylight hours, with skylights or windows arranged to provide the required level of illumination on all portions of the means of egress during such hours

40.2.10 Marking of Means of Egress. Means of egress shall have signs in accordance with Section 7.10.

40.2.11 Special Means of Egress Features.

40.2.11.1 Reserved.

40.2.11.2 Lockups.

40.2.11.2.1 Lockups in new industrial occupancies shall comply with the requirements of 22.4.5.

40.2.11.2.2 Lockups in existing industrial occupancies, other than approved existing lockups, shall comply with the requirements 23.4.5.

40.3 Protection.

40.3.1 Protection of Vertical Openings. Any vertical opening shall be protected in accordance with Section 8.2.5, unless otherwise permitted by one of the following:

(1) In special-purpose industrial and high hazard industrial occupancies where unprotected vertical openings exist and are necessary to manufacturing operations, such openings shall be permitted beyond the specified limits, provided that every floor level has direct access to one or more enclosed stairs or other exits protected against obstruction by any fire or smoke in the open areas connected by the unprotected vertical openings.

(2) Approved existing open stairs, existing open ramps, and existing escalators shall be permitted where connecting only two floor levels.

(3) Approved, existing unprotected vertical openings in buildings with low or ordinary hazard contents that are protected throughout by an approved automatic sprinkler system in accordance with 9.7.1.1 shall be permitted, provided that the following conditions exist:

(a) The vertical opening does not serve as a required exit.

(b) All required exits consist of outside stairs in accordance with 7.2.2, smokeproof enclosures in accordance with 7.2.3, or horizontal exits in accordance with 7.2.4.

(4) Vertical openings in accordance with 8.2.5.8 shall be permitted.

40.3.2 Protection from Hazards.

40.3.2.1 All high hazard industrial occupancies, operations, or processes shall have approved, supervised automatic extinguishing systems in accordance with Section 9.7 or other protection appropriate to the particular hazard, such as explosion venting or suppression.

40.3.2.2 Protection in accordance with 40.3.2.1 shall be provided for any area subject to an explosion hazard in order to minimize danger to occupants in case of fire or other emergency before they have time to use exits to escape.

40.3.2.3 Activation of the fire extinguishing or suppression system required by 40.3.2.1 shall initiate the required building fire alarm system in accordance with 40.3.4.3.4.

40.3.2.4 Hazardous areas in industrial occupancies protected by approved automatic extinguishing systems in accordance with Section 9.7 shall be exempt from the smoke-resisting enclosure requirement of 8.4.1.2.

40.3.3 Interior Finish.

40.3.3.1 **General.** Interior finish shall be in accordance with Section 10.2.

40.3.3.2 **Interior Wall and Ceiling Finish.** Interior wall and ceiling finish materials complying with Section 10.2 shall be Class A, Class B, or Class C in operating areas and shall be as required by 7.1.4 in exit enclosures.

40.3.3.3 Interior Floor Finish.

40.3.3.3.1 Interior floor finish in exit enclosures and in exit access corridors shall be not less than Class II.

40.3.3.3.2 Interior floor finish in areas other than those specified in 40.3.3.3.1 shall not be required to comply with Section 10.2.

40.3.4 Detection, Alarm, and Communications Systems.

40.3.4.1 **General.** A fire alarm system shall be required in accordance with Section 9.6 for industrial occupancies, unless the total capacity of the building is under 100 persons and, of these, fewer than 25 persons are above or below the level of exit discharge.

40.3.4.2 **Initiation.** Initiation of the required fire alarm system shall be by any of the following means:

- (1) Manual means in accordance with 9.6.2.1(1)
- (2) Approved automatic fire detection system in accordance with 9.6.2.1(2) throughout the building, plus a minimum of one manual fire alarm box in accordance with 9.6.2.5
- (3) Approved, supervised automatic sprinkler system in accordance with 9.6.2.1(3) throughout the building, plus a minimum of one manual fire alarm box in accordance with 9.6.2.5

40.3.4.3 Notification.

40.3.4.3.1 The required fire alarm system shall meet one of the following criteria:

- (1) It shall provide occupant notification in accordance with 9.6.3.
- (2) It shall sound an audible and visible signal in a constantly attended location for the purposes of initiating emergency action.

40.3.4.3.2 Positive alarm sequence in accordance with 9.6.3.4 shall be permitted.

40.3.4.3.3 Existing presignal systems in accordance with 9.6.3.3 shall be permitted.

40.3.4.3.4 In high hazard industrial occupancies, as described in 40.1.4.1.3, the required fire alarm system shall automatically initiate an occupant evacuation alarm signal in accordance with 9.6.3.

40.3.5 Extinguishment Requirements.

40.3.5.1 Portable fire extinguishes shall be provided in accordance with NFPA 10. Such extinguishes shall be maintained operational and serviced on an annual basis by a licensed fire extinguisher technician meeting the provisions of Title 25 Chapter 12 of the Official Code of Georgia Annotated.

40.3.5.2 High Hazard Industrial occupancies shall be protected throughout by an approved supervised automatic sprinkler system installed by a

licensed fire sprinkler contractor meeting the provisions of Title 25 Chapter 11 of the Official Code of Georgia Annotated.

Exception: Other automatic fire suppression systems approved by the authority having jurisdiction for the protection of life and property may be accepted for partial or total protection.

40.3.6 Corridors. The provisions of 7.1.3.1 shall not apply.

40.4 Special Provisions - High-Rise Buildings.

40.4.1 The automatic sprinkler requirements of 11.8.2.1 shall be required for high-rise industrial occupancies, except for general low hazard or special-purpose industrial occupancies.

40.5 Building Services.

40.5.1 Utilities. Utilities shall comply with the provisions of Section 9.1.

40.5.2 Heating, Ventilating, and Air-Conditioning. Heating, ventilating, and air-conditioning equipment shall comply with the provisions of Section 9.2.

40.5.3 Elevators, Escalators, and Conveyors. Elevators, escalators, and conveyors shall comply with the provisions of Section 9.4.

40.5.4 Rubbish Chutes, Incinerators, and Laundry Chutes. Rubbish chutes, incinerators, and laundry chutes shall comply with the provisions of Section 9.5.

40.6 Special Provisions for Aircraft Servicing Hangars.

40.6.1 The requirements of Sections 40.1 through 40.5 shall be met, except as modified by 40.6.1.1 through 40.6.1.4.

40.6.1.1 There shall be not less than two means of egress from each aircraft servicing area.

40.6.1.2 Exits from aircraft servicing areas shall be provided at intervals not exceeding 150 ft (46 m) on all exterior walls.

40.6.1.3 Where horizontal exits are provided, doors shall be provided in the horizontal exit fire barrier at intervals not exceeding 100 ft (30 m).

40.6.1.4 Where dwarf, or "smash," doors are provided in doors that accommodate aircraft, such doors shall be permitted for compliance with 40.6.1.1 through 40.6.1.3.

40.6.2 Means of egress from mezzanine floors in aircraft servicing areas shall be arranged so that the travel distance to the nearest exit from any point on the mezzanine does not exceed 75 ft (23 m), and such means of egress shall lead directly to a properly enclosed stair discharging directly to the exterior, to a suitable cutoff area, or to outside stairs.

40.6.3 Dead ends shall not exceed 50 ft (15 m) for other than high hazard contents areas and shall not be permitted for high hazard contents areas.

40.7 Operating Features.

40.7.1 Emergency Planning and Preparedness. Industrial occupancies otherwise classified under Group F and/or Group H in the *International Fire Code* shall develop policies, procedures, plans, staff training, and safety practices for the protection of life prior to and during an emergency condition. Such policies, procedures, plans, staff training, and safety practices shall be developed and implemented in accordance with applicable provisions of Chapter 4 of the *International Fire Code*, as adopted by this Chapter.

40.7.2 Employee Training and Response Procedures. Employees in the occupancies listed in Section 404.2 of the *International Fire Code* shall be trained in the fire emergency procedures described in their fire evacuation and fire safety plans. Training shall be based on these plans and as described in Section 404.3 of the *International Fire Code*.

40.7.3 Upholstered Furniture and Mattresses. The provisions of 10.3.2 shall not apply to upholstered furniture and mattresses.

Rule 120-3-24-.07. Request for Modification of Specific Requirements.

Upon receipt of a sworn affidavit stating all relevant facts and circumstances and such other information as may be required, the State Fire Marshal may recommend to the Georgia Safety Fire Commissioner that specific requirements of this Chapter and the codes and standards adopted herein be modified to allow alternative arrangements that will secure as nearly equivalent measures as practical for the prevention of injury to persons and property. The

Georgia Safety Fire Commissioner in his discretion may accept the State Fire Marshal's recommendation and grant the requested modification.

Subject 120-3-25. RULES AND REGULATIONS FOR ESCALATORS AND ELEVATORS.

Rule 120-3-25-.01. Promulgation and Purpose.

- (1) These rules and regulations of the Safety Fire Commissioner entitled, "Rules and Regulations for escalators and elevators" are promulgated to establish the State's minimum fire safety codes and standards for escalators and elevators as specified in the Official Code of Georgia Annotated, (O.C.G.A.) Section [8-2-1](#).
- (2) A primary purpose of these rules and regulations is to establish the state minimum safety codes and standards for the prevention of loss of life, injury and structural damage in all buildings, structures and other locations governed by state regulations.

Repealed: New Rule entitled "Promulgation and Purpose" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.02. Application.

- (1) Pursuant to O.C.G.A. [8-2-1](#), rules and regulations adopted by the Safety Fire Commissioner shall have the force and effect of law and shall have statewide application

as being the state minimum fire safety codes and standards for escalators and elevators and shall not require adoption by a municipality or county.

- (a) Pursuant to O.C.G.A. Section [25-15-1](#), the Office succeeded to all rules and regulations of the Department of Labor which were in effect on June 30, 2012, or were scheduled to go into effect on or after July 1, 2012, which related to the functions transferred to the Office pursuant to either Chapter 15 of Title 25 or Part 6 of Article 1 of Chapter 2 of Title 8. The Office has the authority to modify the Escalator and Elevator regulations or promulgate new regulations pursuant to O.C.G.A. Sections [8-2-104](#), [25-15-1](#), [33-2-9](#) and [50-13-21](#).
- (b) The primary purpose of these rules and regulations is to promote consumer protection through state regulation of elevators, dumbwaiters, escalators, manlifts, and moving walks as adopted by these regulations listed below:
- (c)
 - (1) ASME A17.1, 2019 Edition, American National Standard Safety Code for elevators, escalators, dumbwaiters, moving walks, with such revisions, amendments, and interpretations thereof as are made, approved and adopted by the Council of the Standard.

Copies may be obtained from the American Society of Mechanical Engineers, 22 Law Drive, Box 2300, Fairfield, NJ 07007. The state amendments to this Code are as follows: Note - Except for Testing and Inspection Requirements, Existing Hydraulic Jack Requirements and QEI Requirements. See Rule [120-3-25-.14](#).

- (2) ASME A17.2, 2020 Edition of the Inspector's Manual for Elevators, with such revisions, amendments and interpretations thereof as are made, approved and adopted by the Standards Committee. (See (c)(1) herein to order copies)
- (3) ASME A17.3, 2020 Edition of the Safety Code for Existing Elevators and Escalators, with such revisions, amendments, and interpretations thereof as are made, approved and adopted by the Standards Committee. (See (c)(1) herein to order copies.)
- (4) ASME A17.7, 2007 Performance-Based Safety Code for Elevators and Escalators.
- (5) ASME A17.6, 2017 Standard for Elevator Suspension, Compensation and Governor Systems.
- (6) ICC/ANSI A117.1, 2017 Edition, American National Standard for Building and Facilities, Providing Accessibility and Usability for Physically Handicapped People and Rule 120-3-20 as approved by the State Fire

Marshal's office. Copies may be obtained from the State Fire Marshal's office. (See note below)

Note - ICC/ANSI A117.1, Section 409 is a recommended Standard only. Exception taken to Section 407.4.6.2.2.

- (7) ASME B20.1, 2020 Edition of the Safety Standards For Conveyors and related equipment with such revisions, amendments and interpretations thereof as are made, approved and adopted by the Standards Committee.
- (8) ASME A90.1, 2015 Edition of the Safety Standards for Manlift, with such revisions, amendments and interpretations thereof as are made, approved, and adopted by the Standards Committee. (See (c)(1) herein to order copies.)
- (9) ANSI A10.4, 2016 Edition and ANSI A10.5, 2020 Edition for the Safety Requirements for Personnel Hoists and Employee Elevators used for construction and demolition and Safety Standard for Construction Hoist, with such revisions, amendments, and interpretations thereof as are made, approved, and adopted by the Council of the Standard. (See (c)(1) herein to order copies)
- (10) National Electrical Code, State adopted Edition, with such revisions, amendments and interpretations thereof as are made, approved and adopted by the Standards Committee. Copies may be obtained from the National Fire Protection Association, 1 Battery March Park, Post Office Box 9101, Quincy, MA 02269.
- (11) The International Building Code, State approved Edition, with such revisions, amendments and interpretations thereof as are made, approved and adopted by the Standards Committee. Copies may be obtained from the International Code Council, Birmingham District Office, 900 Montclair Road, Birmingham, AL 35213-1206.
- (12) NFPA Section 101, Life Safety Code, State adopted Edition of the National Fire Protection Association, with such revisions, amendments and interpretation thereof as are made, approved and adopted by the Standards Committee. (See (c)(9) herein to order copies.)
- (13) ASME A18.1, 2020 Edition of the Safety Standard for Platform Lifts and Stairway Chairlifts, with such revisions, amendments and interpretations thereof as are made, approved and adopted by the Standards Committee. (See (c)(1) herein to order.)

- (14) ANSI A92.10, 2009 (R2014) Edition of the American National Standard for Transport Platforms, with such revisions, amendments, and interpretations thereof as are made, approved and adopted by the Standards Committee. Copies may be obtained from the American National Standards Institute, 11 West 42nd St, New York, NY 10036

Amended: F. June 10, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-3-25-.03. Definitions.

- (1) Accident means an unplanned or unscheduled event that results in property damage and/or personal injury.
- (2) Act is Part 6 of Article 1 of Chapter 2 of Title 8 of the Official Code of Georgia, *O.C.G.A. Sections* [8-2-100](#) through [8-2-109.1](#).
- (3) Approved means that which is acceptable to the Office.
- (4) Board is the Advisory Committee as described in *Section* [8-2-109](#) of the Act.
- (5) Certified Inspector is an inspector, by reason of experience and knowledge, considered qualified by the Office. The minimum experience shall be established by these rules. Knowledge shall be evidenced by approved written and oral examinations, acceptable to and administered by the Office.
- (6) Cessation order is the official order stopping an action by an individual or company.
- (7) Citation is the written document by which a person or company is summoned or cited.
- (8) The Commissioner is the Commissioner of Insurance and Safety Fire, and.
- (9) the Office is the Office of the Commissioner of Insurance and Safety Fire.
- (10) Dormant Elevator means an elevator that is intact and on the premises and the equipment is entirely disconnected in an approved manner.
- (11) Elevators as used in these Rules means, Elevators, Escalators, Dumbwaiters, Material lifts, Manlifts, Moving Walks, or Platform Lifts (Wheelchair Lifts) or Stairway

Chairlifts where the Rule is applicable in accordance with the adopted Codes and Standards.

- (12) Hand powered one-man elevator is an elevator having a car platform area of not more than five square feet and a rated load of not more than three hundred pounds and which is operated from the car only by pulling on a stationary rope located in the hoistway and passing through or adjacent to the car platform. It is for the exclusive use of certain designated operating and maintenance employees and installed in a grain or feed mill or similar structure not accessible to the general public.
- (13) Inspection means the official determination by a certified inspector of the condition of all parts of the equipment meet the applicable code which determines the safe operation of an elevator.
- (14) Personnel Hoist is those elevators used during construction to carry workers. Such elevators are temporary and shall not become a permanent part of the structure.
- (15) Personal Injury, as used in *O.C.G.A. § [8-2-106\(a\)](#)*, means bodily injury, sickness, or disease sustained by any person by reason of the operation or malfunction of an elevator, escalator, manlift moving walk or power dumbwaiter, platform lifts or stairway chairlifts including death at any time resulting therefrom. Personal Injury does not include false arrest, detention, imprisonment, confinement, slander, libel, violation of privacy or any mental disease, disability or disorder not accompanied by physical injury at the time of the incident.
- (16) Property Damage, as used in *O.C.G.A. § [8-2-106\(b\)](#)*, means physical injury to, or destruction of tangible property to the structure or operational parts (including safety equipment and devices) of an elevator, escalator, manlift, moving walk or power dumbwaiter, sustained by reason of accident or malfunction, other than routine wear and tear.
- (17) Special Purpose Personnel Elevator is an elevator permanently installed to provide vertical transportation of authorized personnel. Such elevators are typically installed in Grain Elevators, Radio Antennas and Bridge Towers.
- (18) Deleted for future use.
- (19) Temporary Inspection is the inspection by a certified inspector of an elevator to be used on a temporary basis.
- (20) Elevator Contractor - Any person, firm, or corporation who possesses an "Elevator Contractor's Certification" in accordance with the provisions of *Rule [120-3-25-.21](#)* and who is engaged in the business of erecting, constructing, installing, altering, servicing, repairing or maintaining elevators or related conveyance equipment covered by this chapter.

- (21) Elevator Mechanic - Any person who possesses an elevator mechanic certification in accordance with the provisions of *Rule [120-3-25-.21](#)*.
- (22) Certification, Elevator Contractor (Class I, Class IR) - A certification issued to an elevator contractor who has proven qualifications and ability, and who has been authorized by the Office to possess this type of Certification. It shall entitle the holder thereof to engage in the business of erecting, constructing, installing, altering, servicing, testing, repairing or maintaining elevators or related conveyance equipment covered by this Chapter.
- (23) Certification, Elevator Contractor (Class II) - A certification issued to an elevator contractor who has proven qualifications and ability, and who has been authorized by this Office to possess this type of Certification. It shall entitle the holder thereof to engage in the business of servicing, testing, repairing or maintaining elevators or related conveyance equipment covered by this Chapter.
- (24) Certification, Elevator Contractor, Limited (Class III) - A certification issued to an elevator contractor who has proven qualifications and ability, and who has been authorized by the Office to possess this type of Certification. It shall entitle the holder thereof to engage in the business of erecting, constructing, installing, altering, servicing, testing, repairing or maintaining residential dumbwaiters, elevators, platform lifts and stairway chairlifts.
- (25) Certification, Elevator Contractor, Limited (Class IIIR) - A certification issued to an elevator contractor who has proven qualifications and ability, and who has been authorized by the Office to possess this type of Certification. It shall entitle the holder thereof to engage in the business of erecting, constructing, installing, altering, servicing, testing, repairing or maintaining residential platform lifts and stairway chairlifts.
- (26) Certification, Elevator Mechanic (Class I, Class IR) - A certification issued to a person who has proven qualifications and ability, and who has been authorized by the Office to work on conveyance equipment. It shall entitle the holder to install, service, repair, test, maintain and perform electrical work on elevators or related conveyance equipment covered by this Chapter.
- (27) Certification, Elevator Mechanic (Class II) - A certification issued to a person who has proven qualifications and ability, and who has been authorized by the Office to work on conveyance equipment. It shall entitle the holder to service, repair, test and maintain elevators or other conveyance equipment covered in this Chapter. The Class II Mechanic shall be employed by a Class II Elevator Contractor or owner user.
- (28) Certification, Elevator Mechanic (Class III) - A certification issued to a person who has proven qualifications and ability, and who has been authorized by the Office to work on residential platform lifts and stair chairlifts. It shall entitle the holder to install, alter, service, repair, test, maintain and perform electrical work on residential elevators, platform lifts and stair chairlifts.

- (29) Certification, Elevator Mechanic (Class IIIR) - A certification issued to a person who has proven qualifications and ability, and who has been authorized by the Office to work on residential platform lifts and stair chairlifts. It shall entitle the holder to install, alter, service, repair, test, maintain and perform electrical work on residential elevators, platform lifts and stair chairlifts.
- (30) Private Residence - A single unit of a multiple facility or a detached dwelling designed for, inhabited by, and accessible only to one person or that person's family.
- (31) LULA Elevator - A passenger elevator limited in size, capacity, travel and speed. These elevators shall comply with ASME A17.1, Section 5.2 (Capacity, Speed, Travel, Etc.) and ICC/ANSI A117.1, Section 407.4 (Car Size, Power Operation, Signal Location, Etc.).

Rule 120-3-25-.05. Qualification of Inspectors.

- (1) All persons inspecting elevator equipment shall be tested for compliance with Georgia statutes and regulations governing escalators and elevators and shall be certified inspectors.
- (2) All persons eligible for certification by the Office must have a minimum of three (3) years' experience in the installation, repair, maintenance or inspection of elevators and be a current QEI (Qualified Elevator inspector).
- (3) All private inspection firms inspecting elevators in the State of Georgia shall have a minimum of \$500,000 general liability insurance issued by a company acceptable to the Office.
- (4) All private inspection firms certified by the Office to inspect elevators shall provide the Office of the Insurance and Safety Fire Commissioner a copy of a signed contract for each inspection location and a list of equipment to be inspected. The contract shall give the initial inspection date and expiration date.
- (5) Inspection reports shall be sent electronically. Any reports not sent electronically will have a \$5.00 entry fee charged per inspection report.

Repealed: New Rule entitled "Qualification of Inspectors" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.06. Responsibility of Elevator Operations and Maintenance.

- (1) The person, firm or corporation installing, repairing, relocating or altering an elevator shall be responsible for its safe operation, test and maintenance until the elevator is inspected and approved by a certified deputy inspector.
- (2) The owner of the equipment shall be responsible for the safe operation and proper maintenance of the elevator. Maintenance records required by the Maintenance Control Program shall be maintained at the location for a period of three (3) years, with the exception of the five (5) year testing, which will be kept for five (5) years. The records shall contain, but not be limited to, all tests, inspections and other maintenance duties referred to in the latest adopted version of ASME A17.1. The records that are kept in electronic format shall also be maintained on site as a printed copy.
- (3) The holder of the operating permit shall be responsible for all Code required testing and Code compliance.

- (4) The company holding a temporary operating permit shall be responsible for the safe operation and maintenance of the elevator during the period that the temporary operating permit is in force.
- (5) All operating permits shall be posted in the elevator car or a sign shall be posted in the car or in the elevator lobby, in a conspicuous location, stating where the permit is located on premises. Operating permits for other equipment shall be posted on or near the control panel or a sign stating where the permit is located.
- (6) A Certificate of Inspection shall be conspicuously placed inside each elevator within 72" of the centerline of frame and 72" inches above the elevator cab floor, in a permanently mounted frame with a clear glass or plastic removable cover. The frame shall be sized to provide full visibility of a 2 1/2" x 3" certificate. The cover shall be secured by one or more tamper resistant screws. The Inspection Certificate shall be signed and dated for each inspection, by the authorized inspector and replaced at each succeeding inspection. The Inspection Certificate is required in addition to the operating permit. On all other equipment (dumbwaiters, escalators, etc.) the Inspection Certificate shall be placed in a location where it will be visible to the users of the equipment.
- (7) All companies performing escalator and moving walk maintenance repair shall have trained personnel and equipment for measuring the "Performance Step Index" on or before January 1, 2003.
- (8) An elevator which is inactive for one year, or as removed from service by the owner/user shall be classified as a dormant elevator and placed out of service in accordance with ASME A17.1 Definition Section for "Installation placed out of service."
- (9) Before a dormant elevator can be placed in service it shall be inspected by a certified deputy inspector and shall conform to requirements of the applicable standard.
- (10) Owners who places elevators in dormant status shall notify the Office within 10 days of the change in status.
- (11) Escalators shall not be used as stairs in any location. They will be barricaded with a secure barricade at both the top and bottom landing when temporarily shut down for any reason.

Repealed: New Rule entitled "Responsibility of Elevator Operations and Maintenance" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.07. Reporting of Accidents.

- (1) All incidents involving Personal Injury or Property Damage sustained by reason of the operation or malfunction of an elevator, escalator, manlift, moving walk or power dumbwaiter, platform lifts and stairway chairlifts, including death shall be reported by the owner, operator, lessee, or Maintenance Company as follows:
 - (a) For incidents in which actual Personal Injury or Property Damage is observed or reported by the owner, operator, lessee, or maintenance company at the scene at the time of the incident, immediately by telephone to the Office on the same day or by noon the next business day. The elevator, escalator, manlift, moving walk, or power dumbwaiter, platform lifts and stairway chairlifts, involved shall be taken immediately out of service and no work will be done to the equipment unless otherwise advised (see subparagraph (2) below).
 - (b) For all other incidents becoming known as the owner, operator, lessee, or maintenance company not at the scene at the time of the incident (including belated reports of Personal Injury after the person alleging injury has departed the scene without notifying the owner, operator, lessee, or maintenance company) by telephone not later than noon the next business day after the incident becomes known to the owner, operator, lessee, or maintenance company. The elevator, escalator, manlift, moving walk, or power dumbwaiter involved shall be taken immediately out of service unless otherwise advised (see subparagraph (2) below).
 - (c) For all incidents, the owner, operator, lessee shall file a written report, including witness statements, within seven days of the date of the incident or of the date the incident became known to the owner, operator, lessee, or maintenance company, whichever is later.
- (2) Upon receiving a telephonic report or emailed report, the Office may at its discretion determine whether or not to investigate an incident. At the time of the report, the Office shall inform the owner, operator, lessee, maintenance company, or agent reporting the incident whether the Office be investigating and when the elevator, escalator, manlift, moving walk or power dumbwaiter, platform lifts and stairway chairlifts, involved may be repaired or put back in service. In its discretion, the Office may require a telephonic conference with the certified elevator mechanic or Maintenance Company prior to making a decision to investigate an incident.
- (3) All telephonic and written reports for accidents involving personal injury shall include the name(s), address, phone number and injuries of the person(s) injured and any witnesses. It will also include a description of the accident.

Repealed: New Rule entitled "New, Altered or Relocated Elevators" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.09. Temporary Use of Permanent Elevators, Temporary Construction Elevators and Transport Platforms During Construction.

- (1) An elevator contractor may request a temporary operating permit to allow the use of a passenger or freight elevator before its completion for carrying workmen, authorized personnel or materials. Such elevator shall not be used until it has been inspected and approved by a certified deputy inspector and the required fee has been paid. The operating permit shall be issued for a period not to exceed ninety days. Renewals may be granted at the discretion of the Office, and upon inspection by a certified deputy inspector.
- (2) Personnel Hoist Used During Construction.
 - (a) Personnel hoist shall be installed and maintained in accordance with the latest accepted edition of the American National Standard A10.4 or the latest edition of the Rules adopted by the Commissioner.
 - (b) An operating permit shall be required. Double cage units on a common tower shall require an operating permit for each cage.
 - (c) Personnel hoist used during construction shall be inspected every ninety days and after each jump, by a certified deputy inspector.
 - (d) The following sections outline the minimum requirements, regular maintenance and approved safety practices for elevators as provided for in the Georgia Laws Regulating Elevators. All Existing features or components of the elevators shall

comply with this law and the rules proposed by the Board and adopted by the Commissioner.

- (e) Certified Inspectors shall use the latest adopted edition of the ANSI A90.1, ANSI A10.4 or ANSI A92.10 codes and standards with such revision, amendments, and interpretation.
- (f) All Temporary Transport Platforms shall meet the requirements of ANSI A10.4 Section 5.
- (g) All Temporary Transport Platforms shall meet the requirements as set forth in ANSI A10.4 Section 17.

Rule 120-3-25-.10. Existing Freight Elevators.

- (1) Existing freight elevators shall comply with the following descriptions:
 - (a) Freight elevators with operating stations in the car, which allow personnel to ride shall comply with ASME A17.3, the standards for existing elevators.
 - (b) Material Lifts (other than those that fall under the requirements of ASME A17.1) that do not allow personnel to ride and does not have an operating station in the car, shall comply with ASME B20.1, the standards for conveyors and related equipment.

Repealed: New Rule of same title adopted. F. Dec. 12, 2014; eff. Jan. 1, 2015.

Repealed: New Rule entitled "Existing Freight Elevators" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.11. Notice of Hearing and Penalties.

- (1) Cessation Order.

- (a) The Office may issue a written order for the cessation of operation of elevators, escalators, moving walks and all other equipment covered by these regulations when it has been determined to be hazardous, unsafe, or the failure to comply with any of the provisions of these rules or the safety act. Operation shall not resume until such violations are corrected to the satisfaction of the Commissioner or the Commissioner's authorized representative.
 - (b) In the event a person knowingly commits a violation or allows a violation to be committed after being issued a cessation order, or warning the Commissioner or the Commissioner's authorized representative may initiate a Citation as stated below.
- (2) Issuance of Citation or Notice of Administrative Proceeding:
- (a) If upon inspection by an inspector or deputy inspector;
 - 1. An elevator, escalator, dumbwaiter, manlift, or moving walk, platform lifts and stairway chairlifts, is deemed to be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Elevator Law or Rules, or
 - 3. When a written warning or citation has been issued and the violation continues, then the deputy inspector shall issue the violator a citation stating the date, time and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
 - (b) If upon receiving information from any source, the Chief Inspector determines that there is a reasonable belief that:
 - 1. An elevator, escalator, manlift, dumbwaiter, or moving walk platform lifts and stairway chairlifts, may be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Elevator Law or these Rules, or
 - 3. When a warning has been issued, and the violation is a continuing violation, the Chief Inspector or the Director, Safety Engineering, on behalf of the Office, may issue Notice of Administrative Proceeding stating the date, time, and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
 - (c) The Director, Safety Engineering, upon review of a citation issued under subsection (a) above, may, in his sole discretion, dismiss the citation and substitute

therefore a Notice of Administrative Proceeding pursuant to subsection (b) above on the same, similar, or different violation, as required by the evidence.

- (d) The Commissioner, upon review of a Citation or Notice of Administrative Proceeding, in his sole discretion, may refer the matter to the appropriate prosecuting official for criminal or injunctive relief as permitted under law. In such event, the Commissioner may, in his sole discretion, elect to dismiss, suspend, or continue with the civil penalty proceeding.

(3) Hearing Procedure:

- (a) If request for a hearing is not received from the respondent within the allotted time, the Director, Safety Engineering, on behalf of the Commissioner, may without further process impose a civil penalty not greater than the total of civil penalties set forth on the citation or in the Notice of Administrative Proceeding. An administrative order under the authority of the Commissioner may be issued to collect the civil penalty assessed.
- (b) If a hearing request is received in response to a Citation or Notice of Administrative Proceeding, further actions or proceedings shall be governed by the Georgia Administrative Procedure Act, O.C.G.A. Chapter 50-13, O.C.G.A. [25-2-29](#), and applicable Rules and Regulations of the Commissioner.
- (c) All hearings, whether before the Commissioner or an appointed adjudicator, shall be conducted in accordance with the statutes and regulations cited in the preceding sub-paragraph, including the applicable Rules and Regulations of the Commissioner.
- (d) The decision of an appointed adjudicator made after a hearing shall be an initial agency decision within the meaning of O.C.G.A. § [50-13-41\(d\)](#) and shall be subject to review by the Commissioner, Insurance and Safety Fire, as set forth in O.C.G.A. §50-1341(e). A hearing before the Commissioner shall be the final agency decision in the matter and shall be subject to judicial review as set forth in O.C.G.A. § [50-13-19](#).

(4) Guidelines for Imposition of Civil Penalties:

- (a) Any person, firm, partnership, corporation or other business entity, which violates this part, shall be subject to the imposition of civil penalties. Each day on which a violation occurs shall constitute a separate offense. Repeat offenders, whom a violation occurs, shall constitute a separate offense. Repeat offenders, including those who refuse to adhere to orders of the inspectors, exceed the limitations of operating permits, or refuse to adhere to the requirements of these rules and regulations, may be referred to appropriate prosecuting official for criminal (misdemeanor) or injunction relief as permitted under law. Serious violations, including those causing serious bodily injury or death, or which exhibit gross

negligence or serious disregard for public safety, may also be referred appropriate prosecuting official for criminal (misdemeanor) or injunctive relief as permitted under law.

- (b) Notwithstanding the recommended minimum penalties set forth below, a serious violation, including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may receive the maximum penalty of \$5,000.00 for each violation including a first offense. The imposition of a penalty for a violation of this part shall not excuse the violation or permit it to continue.
 - (c) The deputy inspector issuing a Citation shall, at the time of issuance, specify a recommended civil penalty amount for each specific violation in accordance with these Rules and Regulations. The Director is charged with the responsibility to insure that recommended penalties for violations are graduated with the more serious violations receiving the heavier penalty and with assuring uniformity of recommended penalties such that offenders in similar circumstances with similar violations receive similar penalty recommendation. In this regard, the Director may dismiss a Citation and issue a Notice of Administrative Proceeding solely for the purpose of making an appropriate penalty recommendation.
 - (d) The recommended civil penalty set forth in the Citation or Notice of Administrative Proceeding shall be given great deference by the appointed adjudicator. The minimum recommended penalties set forth below is normally for the first offense with only one violation being cited. The appointed adjudicator shall, after hearing the case, consider factors in mitigation of the violation as well as those in aggravation. The appointed adjudicator shall impose a penalty less than the recommended minimum penalty only upon finding unusually significant mitigating factors, and shall set forth those factors in the order. The appointed adjudicator may impose a penalty substantially greater than the Office recommended penalty upon finding significant aggravating factors associated with violations, and shall set forth those factors in the order. The appointed adjudicator shall consider the provision of these Rules and Regulations guiding the assessment of penalties. In particular, the appointed adjudicator shall, in cases involving structural damage, bodily injury, or death; or continued operation after an unsafe condition is detected or after the equipment is taken out of service by an inspector or deputy inspector, consider the imposition of separate penalties for each day of violation. No penalty exceeding \$5,000.00 for each violation and each day of violation shall be assessed.
 - (e) The appointed adjudicator may, in addition to a civil penalty, recommend in the order that the Commissioner suspend for a period of time or indefinitely, operating certificate, permits to install, or certificates for contractors.
- (5) Minimum recommended penalties.

(a) Specific violations:

1. Operating equipment without an operating certificate. (O.C.G.A. § [8-2-103](#))

First offense \$250.00

Second offense \$500.00

2. Operating equipment in an unsafe condition. (O.C.G.A. § [8-2-101](#))

First offense \$500.00

Second offense \$1000.00

3. Failure to permit access for the purpose of inspecting or investigating equipment. (O.C.G.A. § [8-2-102](#))

First offense \$500.00

Second offense \$1000.00

4. Failing to notify the Chief Inspector of any accidents involving structural damage or injury as defined in the definition section. (O.C.G.A. § [8-2-106](#))

First offense \$500.00

Second offense \$1000.00

5. Failing to notify the Chief Inspector of an accident which involved death. (O.C.G.A. § [8-2-106](#))..... \$5000.00

6. Placing unit back in service, which has been Red Tagged and placed out of service by a deputy inspector, without first having the unit inspected. (O.C.G.A. § [8-2-102](#))

First offense \$1000.00

Second offense \$2500.00

7. Placing a unit which has been involved in an accident back in service prior to having the unit inspected or otherwise cleared. (O.C.G.A. § [8-2-106](#), Rule [120-3-25-.07](#))

First offense \$1000.00

Second offense \$2500.00

8. Turning equipment over for use without a final acceptance inspection.
(O.C.G.A. § [8-2-101](#))

First offense \$500.00

Second offense \$1000.00

9. Installing equipment without a permit. (Rules [120-3-25-.08](#) &.22)

First offense Double Permit Fee

Second offense..... Triple Permit Fee

10. Inspecting without qualifications. ([120-3-25-.22](#))

First offense \$500.00

Second offense \$1000.00

11. Using construction elevators or personnel hoist without first obtaining a permit or receiving an inspection. (Rule [120-3-25-.21](#))

First offense Double permit fee

Second offense Triple permit fee

(b) General Violations:

1. Violating adopted Codes, Standards, Rules, Regulations or Order. (Rule 120-3-25)

First offense \$250.00

Second offense \$500.00

2. Certified company performing an activity, which violates the law or regulations.

Any Offense \$2500.00 and Suspension of Certificate

3. Any third repeated offense might subject the violator to the maximum civil penalty permitted under the Act.... \$5000.00

Rule 120-3-25-.14. Fees.

- (1) Payment of required fees and civil penalties imposed under these rules and regulations shall be made in accordance with instructions and forms on the website of the Commissioner of Insurance and Safety Fire. In determining acceptable methods of payment, the Commissioner should consider all relevant factors, including the

convenience of the parties, the availability of better means of payment through enhanced technology, the need for efficient administration of the law, and the cost to the agency.

(2) Once permits are processed by this office, no refunds will be issued.

(3) Fees shall be paid in accordance with the following schedule:

(a) Certification - Examination:

1. Inspector \$100.00
2. Elevator Mechanic \$100.00

(b) Certification - Annual:

1. Inspector \$50.00
2. Class I Elevator Contractor \$300.00
3. Class II Elevator Contractor \$200.00
4. Class III Elevator Contractor \$100.00

(c) Certification - Bi-Annual Renewal:

1. Elevator Mechanic \$50.00

(d) Installation Permits:

1. Passenger or Freight base price, per unit \$400.00
Plus, each opening \$50.00
2. Dumbwaiters and material lifts, per unit \$250.00
3. Escalator, per unit \$500.00
4. Workmen's hoist, per unit \$500.00
5. Workmen's hoist, tower rise, per jump \$150.00
6. Private residence elevators \$400.00
Plus, each opening \$50.00
7. Private residence platform lifts (wheelchair lifts) and stairway chairlifts,
first unit permitted at single residence \$250.00

any additional units at time of permitting \$50.00 per unit

8. Belt Manlift \$250.00

9. Special purpose personnel elevators and wheelchair lifts, per unit
..... \$250.00

(e) One acceptance inspection is included in the installation permit fee. All additional permit inspections shall be at two hundred fifty (\$250.00) dollars per hour. Elevator Construction Permits shall expire two (2) years from the date of issue, if the permit has shown no action. Elevator Construction Permit Certificates shall expire no more than six (6) months from the date of completion of the permit. If the permit is open more than two (2) years with no action, it will therefore be cancelled.

(f) Major Alteration Permits:

1. Each Alteration - One item as outlined in the Standard, per unit
..... \$240.00

2. Each additional alteration as outlined in the Standard, per unit
..... \$120.00

3. Maximum alteration fee, per unit \$1,200.00

(g) The acceptance inspection fee is included in the major alteration permit fee. The alterations acceptance inspection will not change the normal inspection or the operating permit due date.

(h) Additional permit inspections shall be at the rate of two hundred fifty dollars (\$250.00) per hour.

(i) Operating Permit:

1. Operating permit - one year, price per unit \$65.00

2. Temporary operating permit, per unit \$100.00

(j) Inspection by a certified inspector of the Office:

1. Initial inspection of a temporary elevator, per unit \$200.00

2. Periodic inspection of a temporary elevator used during construction, per unit \$50.00

3. Annual fee for inspections are based upon number of openings per unit.

101 to 110 openings	\$445.00
91 to 100 openings	\$420.00
81 to 90 openings	\$395.00
71 to 80 openings	\$370.00
61 to 70 openings	\$345.00
51 to 60 openings	\$320.00
41 to 50 openings	\$295.00
31 to 40 openings	\$270.00
21 to 30 openings	\$245.00
11 to 20 openings	\$220.00
10 openings	\$195.00
9 openings	\$170.00
8 openings	\$145.00
7 openings	\$120.00
6 openings	\$95.00
5 openings	\$85.00
4 openings	\$75.00
3 openings	\$65.00
2 openings	\$55.00

- (k) All third and subsequent inspections shall be at two hundred fifty (\$250.00) dollars per elevator for routine inspections.
 - (l) Appeal hearings before the Board, per Appeal \$500.00
 - (m) The Office may bill applicants for operating certificates prior to the issuance of such certificates.
- (4) The Office may provide services or perform inspections not otherwise specified in the fee structure. The charge for this service shall be at the rate of \$250.00 per visit, per elevator.
- (5) The Office will allow licensed private inspection companies with valid commissioned inspectors to perform permit inspections on residential equipment that falls under the scope of ASME A18.1, latest adopted addition.
- (a) No inspection will be allowed as in (5) above prior to the installer obtaining the required permit and two sets of approved stamped drawings from this Office. These are required to be at the site of the prior to any inspection.
 - (b) These inspections shall be subject to audit by the Office.

- (c) Both the installer and the inspection company will be responsible for ensuring that the installation meets all state adopted regulations and that all testing has been completed. The inspection company is responsible for supplying a copy of this report to the installer. An electronic copy of this report shall be sent to the Office prior to the equipment being placed in service.
- (d) Any inspection of residential equipment that falls under the scope of ASME A18.1 not performed by a licensed private inspection companies with commissioned inspectors shall be performed by a State Deputy Inspector.

Amended: F. June 10, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-3-25-.15. Existing Installation (General).

- (1) The minimum requirements for regular maintenance and safety practices for existing elevators as provided for in the Safety Act and Rules. All existing features or components of the elevator shall comply with the Rules as adopted by the Commissioner.
- (2) All existing elevators having a travel of more than 25' 0" shall have "Fire Emergency Service" complying with ASME A17.1 1987 Edition as a minimum.
- (3) A permanent decal or metal tag shall be affixed to the lift equipment, in the machine room, control space, machine space, pits, hoistway required to be tested by ASME A17.1, Section 8.6 of the Standard. This decal or tag shall be affixed to the affected equipment when new installations, alterations, or periodic tests are conducted, as required by the Standard. This decal or tag must indicate the date of the test, and the name of the person or firm which performed the test and type of test performed. A decal will not be acceptable when the Standard requires a metal tag. At the time of new installation, alteration, or periodic tests, additional data shall be provided to the building owner or his representative. This document shall include the date of the test, the name of the person or firm conducting the tests and all pertinent data relating to the test.
- (4) Mass transit equipment shall have a routine and a periodic inspection as defined by ASME A17.1 latest adopted edition, as modified by OCGA Section [8-2-102](#).
- (5) Existing Hydraulic Elevators are exempted from the requirements of Rule 8.6.5.8 for five (5) years. Elevators shall have all work required for compliance with ASME A17.3, Section 4.3.3 completed within five (5) years of the effective date of this regulation.

Failure to complete work within the required time period will result in the elevator being removed from service until such work is completed, unless the cylinder is replaced.

- (6) Existing escalators shall meet the Performance Step Indexing requirements of ASME A17.3, Rule 5.1.11 within two (2) years of the effective date of this Rule revision.
- (7) State Elevator Inspectors are not required to meet 8.11, QEI-1 requirements.
- (8) Existing passenger elevators shall meet the Restricted Opening of Hoistway Doors or Car Doors as required by ASME A17.3, Rule 2.7.5 within two (2) years of the effective date of this Rule revision.
- (9) All existing automatic passenger and freight elevators shall comply with ASME A17.3 Section 3.10.12 within three (3) years of the effective date of this rule.
- (10) All elevators shall have emergency key access at all landings that is no greater in height than the applicable code requires.

Repealed: New Rule entitled "Existing Installations - Dumbwaiters" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.20. New Installation (General).

- (1) The following sections outline the minimum requirements, regular maintenance and approved safety practices for elevators as provided for in the Georgia Laws Regulating Elevators. All Existing features or components of the elevators shall comply with this law and the rules proposed by the Board and adopted by the Commissioner.
- (2) Certified Inspectors shall use the latest adopted edition of the ASME A17.2 inspector's manual with such revision, amendments, and interpretation.
- (3) All new elevators machine rooms shall not have sprinklers in these rooms if they are separated from the building with a minimum of a two hour fire separation and have smoke detectors in accordance with NFPA. If these rooms do not have the two hour minimum fire separation they shall have sprinkler protection conforming to the

requirements NFPA and shall be provided with means to automatically disconnect the main power supply to the affected elevator prior to the application of water as required by ASME A17.1, unless prohibited by the building code as covered in Section 3007 or 3008. The machine room door shall swing outward from the machine room. Elevator machine rooms must have conditioned air (heated and cooled) to maintain a temperature range between 55 and 90 degrees Fahrenheit, with a maximum relative humidity of 85%.

- (4) Elevator machine rooms and machinery spaces shall be enclosed with fire barriers constructed in accordance with Section 707 or horizontal assemblies constructed in accordance with Section 711, or both. The fire-resistance rating shall be not less than two hours. Openings in the fire barriers shall be protected with assemblies having a fire protection rating not less than that required for the hoistway enclosure doors. Exceptions:
 1. Where machine rooms and machinery spaces do not meet the required fire resistance rating, they shall require sprinklers and shunt trip breaker in accordance with NFPA 72.
- (5) All machine rooms, machinery spaces, control rooms, control spaces, and elevator electrical spaces must meet electrical clearances as set in NFPA 70 with the room/spaces access doors closed. This will include all machine rooms, machinery spaces, control rooms, control spaces, and elevator electrical spaces that have fused elevator and cab light disconnects.
- (6) All residential elevators will be required to have a machine room, control room, machinery space, or control space with proper electrical clearance as set in NFPA 70 with the door in the closed position with the exception of machine room less elevators that have all equipment located in the hoistway.
- (7) All new elevators shall have a Fireman Emergency Keybox. The keybox is to be a minimum 5.375" wide by 9" high by 2" deep. Front cover shall be hinged on the right side. Lock and key shall be uniform with Lock and Key, Catalogue #25460 or equivalent. Box may either be flush or recessed mounted. Front cover shall be engraved with 1/4" high letters and shall read in capitals "FIRE DEPARTMENT USE ONLY." Engraving shall be filled with color which will be readily conspicuous. Location of key-box shall be at each bank of elevators in the lobby normally used as a place of entrance to the building. As a minimum, the keybox shall contain the key to the elevator machine room, the elevator hoistway access key, and necessary keys to operate Fireman's Emergency Return System. The key shall be available to Group 1, Group 2 and Group 3 levels of security. This keybox shall be located within sight of the elevator(s) with all required keys at the designated level of Phase I recall.
- (8) All new elevators shall be prohibited from providing side emergency exits as detailed in ASME A17.1 Rule 2.14.1.10 provided the elevators are in full compliance with paragraphs (10) and (11) below.

- (9) All new elevators shall have the means in the elevator controller for a qualified elevator mechanic to electrically move a stalled elevator to the nearest landing. Key pads or control boxes used for this function shall be permanently installed.
- (10) All elevators shall have emergency key access at all landings that is no greater in height than the applicable code requires.
- (11) Other Devices - Gravity elevators, hand elevators, incline elevators, multideck elevators, observation elevators, moving walks, material lifts and dumbwaiters with automatic transfer devices and screw column elevators shall meet the requirements of the Codes, as references by these rules.
- (12) Reserved for future use
- (13) All new escalators installed after January 1, 2002, shall comply with the latest adopted edition of ASME A17.1.
- (14) All variance requests from the law, rules or standards on new, altered or modernized elevator, escalator, dumbwaiter, material lift, manlift, moving walk, wheelchair lift, or stairway chairlift shall be reviewed by the Elevator Advisory Board Members and recommendations given to the Safety Inspection Section. These variance requests shall be submitted to Board Members by Safety Inspection staff for email ballot within three (3) days from the date received. Board Members shall return their votes to approve or disapprove within ten (10) days. The majority of the returned votes are to be considered the recommendation of the Board.
- (15) Reserved for future use
- (16) ASME A17.1, Section 5.3 shall be modified to read as follows:

5.3.1.8.3 Clearance Between Doors or Gates and Landing Sills and Car Doors or Gates.
The clearance between the hoistway doors or gates and the hoistway edge of the landing sill shall not exceed 19 mm (3/4 in.). The distance between the hoistway face of the landing door or gate shall not exceed 75 mm (3 in.).

History. Original Rule entitled "New Installation - Wheelchair Lift" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Repealed: New Rule entitled "New Installation - Platform Lifts (Wheelchair Lift) and Stairway Chairlifts" adopted. F. Dec. 12, 2014; eff. Jan. 1, 2015.

Repealed: New Rule entitled "New Installation (General)" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Amended: F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Amended: F. June 10, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-3-25-.21. New Installation - Platform Lifts (Wheelchair Lift) and Stairway Chairlifts.

- (1) All existing wheelchair lifts and stair lifts installed before January 1, 2002, including temporary installed and portable lifts shall comply with ASME A117.1 and A17.1.
- (2) All new wheelchair lifts and stair lifts installed after January 1, 2002, including temporary installed and portable lifts shall comply with ASME A18.1 and A117. If these lifts penetrate a floor, they shall be in a fire rated hoistway and shall comply with Rule 120-3-25 - .19(5).
- (3) Residential platform lifts (wheelchair lifts) and stairway chairlifts may be installed and placed into service prior to inspection once the permit and stamped drawings are obtained by the installation company. The installation and testing shall be done to the requirements of ASME A18.1, the latest adopted version. The installation and testing will be done by a Class IIIR elevator mechanic and a test report signed by them showing that both the installation and all tests required in Section 10 of the Code have been completed. A copy of the permit will be posted at the location and a copy of the test report will be emailed to safety engineering. The permit inspection, to include all testing will be conducted as soon as possible after the installation by a certified elevator mechanic of the company that installed the equipment.

History. Original Rule entitled "Certificate to Perform Elevator Installations, Alterations, Repairs, Maintenance or Inspections" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Amended: F. Jan. 10, 2014; eff. Jan. 30, 2014.

Repealed: New Rule of same title adopted. F. Dec. 12, 2014; eff. Jan. 1, 2015.

Repealed: New Rule entitled "New Installation - Platform Lifts (Wheelchair Lift) and Stairway Chairlifts" adopted. F. Dec. 4, 2020; eff. Dec. 29, 2020, as specified by the Agency.

Rule 120-3-25-.22. Certificate to Perform Elevator Installations, Alterations, Repairs, Maintenance or Inspections.

- (1) Elevator Contractor (Class I): Any persons, firms, partnerships, corporations or companies wishing to engage in the business of installation, alteration, service, replacement or maintenance of elevators, dumbwaiters, escalators, moving walks, residential elevators, platform lifts, and/or stairway chairlifts shall apply for Certification by the Office on a form provided by the Office. They shall receive Certification prior to permitting any work or engaging in any business activity.
- (2) Elevator Contractor (Class IR): Any persons, firms, partnerships, corporations or companies wishing to engage in the business of installation, alteration, service, replacement or maintenance of ASME A17.1, Section 4 and 5.7 elevators, temporary construction elevator and material lifts or separately cab interiors and phones, shall apply for Certification by the Office on a form provided by the Office. They shall receive Certification prior to permitting any work or engaging in any business activity.

- (3) Elevator Contractor (Class II): Any persons, firms, partnerships, corporations or companies wishing to engage in the business of alteration, service, replacement or maintenance of elevators, dumbwaiters, escalators, moving walks, residential elevators, platform lifts, and/or stairway chairlifts shall apply for Certification by the Office on a form provided by the Office. They shall receive Certification prior to permitting any work or engaging in any business activity.
- (4) Elevator Contractor (Class III): Any persons, firms, partnerships, corporations or companies wishing to engage in the business of installation, alteration, service, replacement or maintenance of residential dumbwaiters, elevators, platform lifts, and/or stairway chairlifts shall apply for Certification by the Office on a form provided by the Office. They shall receive Certification prior to permitting any work or engaging in any business activity.
- (5) Elevator Contractor (Class IIIR): Any persons, firms, partnerships, corporations or companies wishing to engage in the business of installation, alteration, service, replacement or maintenance of residential platform lifts, and/or stairway chairlifts shall apply for Certification by the Office a form provided by the Office. They shall receive Certification prior to permitting any work or engaging in any business activity.
- (6) Elevator Contractor's Certification shall expire twelve (12) months following the date of issuance after April 1, 2014.
- (7) Qualifications of Elevator Contractor.
 - (a) No Certification shall be granted to any person or firm who has not proven their qualifications and abilities. Applicants for Elevator Contractor's Certification must demonstrate the following qualifications:
 - (b) Elevator Contractor Class I, Class IR and II shall submit proof of Elevator Mechanic Certification. All Class II Elevator Contractors shall employ Class I or Class II Elevator Mechanics.
 - (c) Elevator Contractor Class III and Class IIIR shall submit proof of Elevator Mechanics Certification.
 - (d) Elevator Contractors shall have insurance as required by Rule [120-3-25-.22](#).
- (8) The application for Elevator Contractor Certification shall contain the following information:
 - (a) The Class of the Certification requested.
 - (b) Name and address of business.
 - (c) Such other information as the Office may require.

- (9) The application for Elevator Mechanic shall contain the following information:
- (a) Name and address of the applicant and company where employed.
 - (b) The Certification class requested by the applicant.
 - (c) The number of years the applicant has engaged in the business of installing, maintaining and/or servicing elevators, escalators and/or platform lifts and stairway chairlifts.
 - (d) Documentation of all training or classes applicant has attended in the last year.
 - (e) Such other information as the Office may require.
- (10) All elevator mechanics installing, altering, repairing, maintaining, or servicing elevators, escalators, moving walks, dumbwaiters, material lifts, residential elevators, platform (wheelchair) lifts and stairway chairlifts after January 1, 2006 shall have a "Certificate of Authorization" issued by the Office.
- (11) Approval of training programs for Certification and Recertification of elevator mechanics. The Elevator Advisory Board shall review and approve all certification and recertification programs. The Office of Insurance and Safety Fire Commissioner shall prepare a testing program.
- (12) Renewal applications. Applicants renewing their Certification shall provide the following information:
- (a) Certification number.
 - (b) Documentation of training, certification and classes successfully completed in the previous year [eight (8) hours minimum], including Code updates using a pre-approved or recognized training program.
- (13) Qualification of Class I Elevator Mechanic.
- (a) Certification shall be granted to any person with a minimum of three (3) years for all except for Class IIIR shall be one (1) year experience and who is employed by a company holding a State Certification and has proven their qualifications and abilities. Applicants must demonstrate the following qualifications:
 - (b) Certificate(s) of completion and successfully passing the mechanic examination of a nationally recognized training program for the elevator industry such as the National Elevator Industry Educational Program, Certified Elevator Technician Program or the equivalent of an apprenticeship program for the elevator mechanics registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor or a State Apprenticeship Program.

- (c) Any person who furnishes the Office with acceptable proof they have worked as an elevator constructor, maintenance person, or repair person may, upon making application for Certification and paying the fee, be entitled to receive a Certification without an examination at the discretion of the Office. They shall have worked under direct and immediate supervision of an elevator contractor certified to do business in this state. The person must make application within one (1) year of the effective date of these Rules and Regulations.
- (d) A Certification may be issued to an individual holding a valid Certification or License from a state having a standard substantially equal to those of this Chapter.

(14) Qualification of Class IR Elevator Mechanic.

- (a) Certification shall be granted to any person with a minimum of three (3) years' experience and who is employed by a company holding a State Certification and has proven their qualifications and abilities. Applicants must demonstrate the following qualifications:
- (b) Certificate(s) of completion and successfully passing the mechanic examination of a nationally recognized training program for the elevator industry such as the National Elevator Industry Educational Program, Certified Elevator Technician Program or the equivalent of an apprenticeship program for the elevator mechanics registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor or a State Apprenticeship Program.
- (c) Any person who furnishes the Department with acceptable proof they have worked as an elevator constructor, maintenance person, or repair person may, upon making application for Certification and paying the fee, be entitled to receive a Certification without an examination at the discretion of the Department. They shall have worked under direct and immediate supervision of an elevator contractor certified to do business in this state. The person must make application within one (1) year of the effective date of these Rules and Regulations.
- (d) A Certification may be issued to an individual holding a valid Certification or License from a state having a standard substantially equal to those of this Chapter.

(15) Qualification for Class II Elevator Mechanic.

- (a) Same as (11)(a).
- (b) The mechanic shall provide documentation proving they have been trained in the service, repair and maintenance of the equipment they will be working on.

(c) Same as (11)(c).

(d) Same as (11)(d).

(16) Qualification for Class III Elevator Mechanic.

(a) Same as (11)(a).

(b) Same as (11)(b).

(c) Same as (11)(c).

(d) Same as (11)(d).

(17) Qualification for Class IIIR Elevator Mechanic.

(a) Same as (11)(a).

(b) Same as (11)(b).

(c) Same as (11)(c).

(d) Same as (11)(d).

(18) Issuance and Renewal of Certification.

(a) Upon approval of a mechanic's application, the Office may issue Certification(s), all of which shall be renewed bi-annually. The Certification(s) will expire on July 1, not more than two (2) years from the date of issue.

(b) Whenever an emergency exists, and upon request, the Office may waive all requirements.

(c) A Certified Elevator Contractor shall notify the Office when there are no Certified personnel available to perform elevator work. The Certified Elevator Contractor may request the Office issue Temporary Elevator Mechanic Certifications to personnel employed by the Certified Elevator Contractor who have an acceptable combination of documented experience and education to perform elevator work. The temporary certification will expire after six (6) months. Only three (3) temporary certification will be issued per person, per company.

(d) The renewal of all Certifications granted under the provisions of this Section shall be conditional upon the submission of a certificate of completion of a course designed to ensure the continuing education of Certified Personnel. Such course shall consist of not less than eight (8) hours of instruction.

- (e) The courses shall be taught by instructors who are qualified and approved by the Office.
 - (f) A mechanic who is unable to complete the education course required under this Section prior to the expiration of their Certification due to a temporary disability may apply for a waiver from the Office.
- (19) Suspension and Revocation of Certification.
- (a) A Certification issued pursuant to this Chapter may be suspended or revoked by the Office upon verification that one or more of the following exists:
 - 1. Any false statement as to material matter in the application.
 - 2. Violation of any provision of this Chapter.
 - 3. Fraud or misrepresentation in securing a Certification.
 - (b) No Certification for a company or person shall be suspended, or revoked, until after a hearing before the Office upon notice to the person and/or company of a least ten (10) days at the last known address appearing on the Certification, served personally or by registered mail.
 - (c) Any company or person whose Certification is revoked or suspended may appeal such determination to the Office within thirty (30) days.
 - (d) Any company or person certified to perform an activity, who violates this part, after notice and hearing, may cause such company or person's Certification to be suspended and such company or person may receive a penalty not to exceed \$5,000.00 per violation.

Rule 120-3-25-.23. Insurance Requirements.

- (1) Class I, Class IR and Class II Elevator Contractors shall submit to the Office an original or certified copy of an insurance policy issued by an insurance company authorized to do business in this State to provide general liability coverage of at least one million dollars (\$1,000,000.00) for injury or death of one person and one million dollars (\$1,000,000.00)

for injury or death of any number of persons in any one (1) occurrence, with the coverage of at least five hundred thousand dollars (\$500,000.00) for property damage in any one (1) occurrence and the statutory workers compensation insurance coverage.

- (2) Class III and IIIR Elevator Contractors shall submit to the Office an original or certified copy of an insurance policy issued by an insurance company authorized to do business in this State to provide general liability coverage of at least five hundred thousand dollars (\$500,000.00) for injury or death of one (1) person and at least five hundred thousand dollars (\$500,000.00) for injury or death of any number of persons in any one (1) occurrence, with the coverage of at least two hundred fifty thousand dollars (\$250,000.00) for property damage in any one (1) occurrence and the statutory workers compensation insurance coverage.
- (3) Private Elevator Inspectors shall submit to the Office an original or certified copy of an insurance policy issued by an insurance company authorized to do business in this State to provide Professional Errors and Omissions Insurance coverage of at least one million dollars (\$1,000,000.00) for injury or death of one person and one million dollars (\$1,000,000.00) for injury or death of any number of persons in any one (1) occurrence, with the coverage of at least five hundred thousand dollars (\$500,000.00) for property damage in any one (1) occurrence and the statutory workers compensation insurance coverage.
- (4) Such policies must be issued by an insurance company authorized to do business in the State of Georgia by the Insurance Commissioner with a Best Policyholders rating of "A-" or better and with a financial size rating of Class V or larger.

Subject 120-3-26. RULES AND REGULATIONS FOR BOILERS AND PRESSURE VESSELS.

Rule 120-3-26-.01. Promulgation and Purpose.

- (1) These rules and regulations of the Safety Fire Commissioner entitled, "Rules and regulations for boilers and pressure vessels" are promulgated to establish the State's minimum fire safety codes and standards for boilers and pressure vessels as specified in the Official Code of Georgia Annotated, (O.C.G.A.) Section [25-15-10](#).
- (2) A primary purpose of these rules and regulations is to establish the state minimum safety codes and standards for the prevention of loss of life and property from explosions, fire or

related hazards in all buildings, structures and other locations governed by state regulations.

Repealed: New Rule of same title adopted. F. Mar. 16, 2015; eff. Apr. 5, 2015.

Repealed: New Rule entitled "Promulgation and Purpose" adopted. F. Dec. 31, 2020; eff. Jan. 20, 2021.

Rule 120-3-26-.02. Application.

- (1) Pursuant to O.C.G.A. [25-2-10](#), rules and regulations adopted by the Safety Fire Commissioner shall have the force and effect of law and shall have statewide application as being the state minimum fire safety codes and standards for boilers and pressure vessels and shall not require adoption by a municipality or county.
- (2) Pursuant to O.C.G.A. Section [25-15-1](#), the Office succeeded to all rules and regulations of the Department of Labor which were in effect on June 30, 2012, or were scheduled to go into effect on or after July 1, 2012, which related to the functions transferred to the Office pursuant to either Chapter 15 of Title 25 or Part 6 of Article 1 of Chapter 2 of Title 8. The Office has authority to modify the Boiler and Pressure Vessel regulations or promulgate new regulations pursuant to O.C.G.A. Sections [25-15-1](#), [25-15-13](#), [33-2-9](#) and [50-13-21](#).
- (3) The primary purpose of these rules and regulations is to promote consumer protection through state regulation of the construction, installation, inspection, maintenance, and repair of boilers and pressure vessels.
- (4) All Editions of the Codes and Standards shall also include revisions, amendments, and interpretations made, approved and adopted by the Codes or Standards Society as adopted by these regulations listed below:
 - (a) The 2021 American Society of Mechanical Engineers Boiler and Pressure Vessel Code. Copies of the Code may be obtained from said Society at 22 Law Drive, Box 2300, Fairfield, New Jersey 07007-2300.
 - (b) The 2021 Edition of the National Board Inspection Code. Copies of this Code may be obtained from the National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, Ohio 43229.
 - (c) ASME B31.1 as adopted by ASME Section I Boiler Pressure Piping and Piping Systems as described in B31.1.
 - (d) The 2021 Edition of the ASME CSD-1, Controls and Safety Devices for Automatically Fired Boilers less than 12,500,000 BTU/hr. and State adopted

Edition of the National Fire Protection Association (NFPA) 85, Boiler and Combustion System Hazard Code for boilers over 12,500,000 BTU/hr., NFPA 87 Recommended Practice for Fluid Heaters, NFPA 54 National Fuel Gas Code and all other adopted and related NFPA Codes (see below definition of Code). ASME CSD-1 Boiler Controls and Safety Devices may be obtained from the American Society of Mechanical Engineers, 345 East 47th Street, New York, NY 10017. The National Fire Protection Association Standards may be obtained from National Fire Protection Association, Batterymarch Park, Quincy, MA 02269.

- (e) The 2019 ASME PVHO-1 Pressure Vessels for Human Occupancy and 2019 ASME PVHO-2 In-Service Guidelines. This Code may be ordered from ASME, 22 Law Drive, Box 2300, Fairfield, NY 07007.

Rule 120-3-26-.03. Definition of Terms.

- (1) Accumulation Test - A test by which the capacity of the safety or safety relief valves are checked to ensure the pressure of the boiler does not rise six percent above the highest setting of any valve, and in no case six percent above the maximum allowable working pressure.
- (2) Alteration - A change in any item described on the original manufacturer's data report which affects the pressure capability of the boiler or pressure vessel. Nonphysical changes such as an increase in the maximum allowable working pressure (internal or external) or design temperature of a boiler or pressure vessel shall be considered an alteration. A reduction in minimum temperature such that additional mechanical tests are required shall also be considered an alteration.
- (3) The Commissioner is the Commissioner of Insurance and Safety Fire.
- (4) Approved - Approved by the Commissioner or his designee.
- (5) Authorized Inspection Agency - one of the following:
 - (a) The State of Georgia Safety Engineering Section, of the Office of Insurance and Safety Fire Commissioner, or

- (b) Any insurance company which has been licensed to write boiler and pressure vessel insurance and to provide all inspection services required by such company in this State, or
 - (c) An Owner-User Inspection Agency.
- (6) Cessation order - is the official order stopping of an action by an individual or company.
 - (7) Certificate of Competency - A certificate issued to a person who has passed the examination prescribed by the Board.
 - (8) Certificate Inspection - An inspection, the report of which is used by the Chief Inspector as justification for issuing, withholding, or revoking the Inspection Certificate. This certificate inspection shall be as complete an inspection as possible.
 - (9) Chief Inspector - The chief boiler and pressure vessel Engineer appointed by the Safety Fire Commissioner.
 - (10) Citation - is the act by which a person or company is so summoned or cited.
 - (11) Code-ASME Boiler and Pressure Vessel Code Sections I, III Division 1 and Division 2, IV, VIII Division 1, 2 and Division 3, and X, National Board Inspection Code, Controls and Safety Devices (CSD-1), National Fire Protection Association Code (NFPA) Sections 31, 54, 58, 70, 85, 87 and 211 for boilers and pressure vessels Code.
 - (12) Commission - National Board - The Commission issued by the National Board of Boiler and Pressure Vessel Inspectors to a holder of a Certificate of Competency who desires to make inspections in accordance with the National Board Bylaws and whose employer submits the Inspector's application to the National Board for such Commission.
 - (13) Condemned Boilers and Pressure Vessels - Condemned boilers and pressure vessels declared unfit for further use by the Chief Inspector or Commissioner shall immediately be stamped with three X's over the ASME code symbol stamp or immediately above the front manway, or on the front head of a fire tube boiler, or over the object identification number.
 - (14) Deputy Inspector - Any Inspector appointed by the Commissioner under the provision of the Act.
 - (15) Electric Boiler - A power boiler or heating boiler in which the source of heat is electricity.
 - (16) External Inspection - An inspection made when a boiler or pressure vessel is in operation or idle.

- (17) Existing Installation - Includes any boiler constructed, installed, placed in operation, or contracted for before January 1, 1986; and any pressure vessel constructed; installed, placed in operation, or contracted for before January 1, 1986.
- (18) Fitting or Appliance - The terms "Fittings" and "Appliances" shall be taken to mean such necessary safety devices as are attached to a boiler and/or pressure vessel for safety purposes.
- (19) Georgia State Special - A boiler or pressure vessel which is of a special design which cannot or has not been constructed to the Code.
- (20) Heating Boiler - A steam or vapor boiler operating at pressures not exceeding 15 psig or temperatures not exceeding 250 degrees Fahrenheit.
- (21) Heat Recovery Boiler - A steam boiler for operation at pressures not exceeding 15 psig.
- (22) High Pressure High Temperature Water Boiler - Means a water boiler operating at pressures exceeding 160 psig or temperatures exceeding 250 degrees Fahrenheit.
- (23) Hobby - An activity pursued outside of one's regular work, primarily for pleasure and receive no monetary gain.
- (24) Hot Water Heating Boiler - A boiler in which no steam is generated, from which hot water is circulated for heating purposes and then returned to the boiler, and which operates at a pressure not exceeding 160 psig and/or a temperature of 250 degrees Fahrenheit at or near the boiler outlet.
- (25) Hot Water Supply Boiler - A boiler or heater completely filled with water that furnishes hot water to be used externally to itself at pressures not exceeding 160 psig or a temperature not exceeding 250 degrees Fahrenheit for hot water supply boilers, or temperatures not exceeding 210 degrees Fahrenheit for hot water supply heaters.
- (26) Inspector - The Chief Inspector, Deputy Inspector, Special Inspector, or Owner- User Inspector.
- (27) Installation of Boilers and Pressure Vessels - When referred to in this Chapter shall include all fittings, appliances and/or appurtenances.
- (28) Internal Inspection - As complete an examination as can reasonably be made of the internal and external surfaces of a boiler or pressure vessel while it is shut down and manhole plates, handhole plates, or other inspection openings are removed as per the Inspector's requirements.
- (29) Insurance Company - An insurance company which has been licensed or registered by the appropriate authority of a state of the United States or a Province of Canada to write boiler and pressure vessel insurance and to provide all inspection services required by this State.

- (30) Investigative Board - The Investigative Board shall be made up of the Chief Inspector and two members of the Boiler Board appointed by the Chairman of the Boiler Board.
- (31) Jurisdiction - A State, Commonwealth, County, or Municipality of the United States or a Province of Canada, which has adopted one or more sections of the ASME Code, one of which is Section I, and maintains a duly constituted department bureau or division for the purpose of enforcement of such Code.
- (32) Lined Potable Water Heater - A water heater with a corrosion resistant lining used to supply potable hot water and exceeding any of the following:
 - (a) A heat input of 200,000 BTU per hour;
 - (b) A water temperature of 210 degrees Fahrenheit; or
 - (c) A nominal water containing capacity of 120 gallons.
- (33) Miniature Boiler - A power boiler or high-temperature water boiler which does not exceed the following limits:
 - (a) 16 inches inside diameter of shell;
 - (b) 20 sq. ft. heating surface (not applicable to electric boilers);
 - (c) 5 cu. ft. gross volume exclusive of casing and insulation;
 - (d) 100 psig maximum allowable working pressure.
- (34) National Board - The National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, Ohio 43229.
- (35) National Board Inspection Code. The manual for Boiler and Pressure Vessel Inspectors published by the National Board and adopted by the Board.
- (36) New Boiler or Pressure Vessel Installation - All boilers constructed, installed, placed in operation, or contracted for after December 31, 1986. All pressure vessels constructed, installed, placed in operation, or contracted for after December 13, 1986.
- (37) Non-standard Boiler or Pressure Vessel - A boiler or pressure vessel that does not bear the ASME stamp and National Board Number.
- (38) Owner or User - Any person, firm, or corporation legally responsible for the safe installation, operation, and maintenance of any boiler or pressure vessel within the jurisdiction.
- (39) Owner-User Inspector - An Inspector continuously employed by a company owning and operating pressure vessels in this State for the purpose of making inspections of pressure vessels used or to be used by such company, but not for resale, and providing such

company complies with the requirements of the Official Code of Georgia Annotated, Section [25-15-10](#) of the Boiler and Pressure Vessel Law.

- (40) Owner/User Inspection Agency - An owner or user of pressure vessels who maintains a regularly established inspection department, whose organization and inspection procedures shall meet the requirements of the boiler and pressure vessel Rules and are acceptable to the Office Of Insurance and Safety Fire Commissioner.
- (41) Portable Boiler - A boiler which is primarily intended for temporary location and the construction and usage permits it to be readily moved from one location to another.
- (42) Power Boiler - Means a boiler in which steam or other vapor is generated at a pressure of more than 15 psig.
- (43) PSIG - Pounds per square inch gauge.
- (44) Reinstalled Boiler or Pressure Vessel - A boiler or pressure vessel removed from its original setting and reinstalled at the same location, or at a new location without change of ownership.
- (45) Repair - The work necessary to restore a boiler or pressure vessel to a safe and satisfactory operating condition provided there is no deviation from the original design.
- (46) Secondhand Boiler or Pressure Vessel - A boiler or pressure vessel which has changed both location and ownership since last used.
- (47) Steam Heating Boiler - A steam boiler for operation at pressures not exceeding 15 psig.
- (48) Special Inspection - Any inspection performed by the State other than a regularly scheduled inspection, and includes instances where the original inspection was rescheduled due to the owner's or user's failure to prepare the boiler or pressure vessel after notification.
- (49) Special Inspector - An Inspector holding a Georgia Commission, and who is regularly employed by an insurance company authorized to insure against loss of boilers or pressure vessels in this State.
- (50) Standard Boiler or Pressure Vessel - A boiler or pressure vessel which bears the ASME stamp and National Board Number, except cast iron boilers which will not be registered with the National Board.
- (51) Unfired Steam Boiler - An unfired pressure vessel or system of unfired pressure vessels intended for operation at a pressure in excess of 15 psig steam for the purpose of producing and controlling an output of thermal energy.

- (52) Waste Heat Boiler - An unfired pressure vessel or system of unfired pressure vessels intended for operation in excess of 15 psig steam for the purpose of producing and controlling an output of thermal energy.

Rule 120-3-26-.05. Certificate of Competency and Examination.

- (1) Applicants for a certificate of competency shall satisfy the requirements of this Section.
- (2) In order to take the Georgia Board of Boiler and Pressure Vessel Rules' Examination, an applicant shall meet one of the following qualifications:

- (a) A degree in engineering plus one year of experience in design, construction, operation, or inspection of high pressure boilers and pressure vessels;
 - (b) An associate degree in mechanical technology plus two years of experience in design, construction, operation, or inspection of high pressure boilers and pressure vessels;
 - (c) The equivalent of a high school education plus four years of experience in one of the following:
 - 1. In high-pressure boiler and pressure vessel construction or repair,
 - 2. As an operating engineer in charge of high-pressure boiler operations, or
 - 3. As an Inspector of high-pressure boilers and pressure vessels.
- (3) Applications for the examination are available from the Commissioner and shall contain an accurate education and employment history.
- (4) The Examination for a Certificate of Competency is prepared and graded by the National Board; and
 - (a) covers the construction, installation, operation, maintenance, and repair of boilers and pressure vessels and their appurtenances;
 - (b) is given on the first Wednesday and one-half day Thursday in March, June, September, and December at a site selected by the Commissioner; and
 - (c) Is administered upon payment of a fee of fifty dollars (\$50.00), which is also required when the examination is retaken by an unsuccessful applicant.
 - (d) Successful applicants will be issued a Certificate of Competency by the Chief Inspector, when such applicant passes the examination.
- (5) When Commissioned by the National Board, and requested by the employer, Inspection Agency a Georgia Commission bearing the signature of the Chief Inspector, will be issued.
- (6) Request for Georgia Commissions, are processed upon proof of a Commission issued by the National Board and a twenty-five dollar (\$25.00) fee.
- (7) Georgia Commissions are valid through December 31, at which time each inspector or inspection agency shall submit a request to renew and a twenty-five dollar (\$25.00) filing fee.
- (8) The Georgia Commission shall be returned (by the employing company) to the Chief Inspector upon termination of employment of any Inspector.

- (9) A Georgia Commission may be suspended or revoked by the Board for incompetence, untrustworthiness, or willful falsification of any statement in an application or inspection report.
- (10) Owner/User Inspector for unfired pressure vessels.
 - (a) Owner/User Inspectors must meet all of the above requirements (1) through (9).

Rule 120-3-26-.06. State Inspection Fees.

- (1) All boilers and hot water heaters:
 - (a) Up to and including 30 boiler horsepower\$30.00
 - (b) 31 boiler horsepower to 50 boiler horsepower \$50.00
 - (c) 51 boiler horsepower to 100 boiler horsepower \$75.00
 - (d) 101 boiler horsepower to 200 boiler horsepower \$100. 00
 - (e) All boilers over 200 boiler horsepower \$150.00
 - (f) Inspection fees will be charged for any trip made by the inspector for the purpose of certificate inspection, permit inspection, follow-up inspection, insurance cancellation inspection, internal and/ or external inspection.
- (2) In the event a special inspection or hydrostatic test is made, an additional fee of \$100.00 per hour and all traveling expenses incurred in connection with the inspection will be charged. The expenses shall be governed by the regulations for traveling expenses established for State officials. In cases where one trip is made to inspect two or more locations for two or more parties, the traveling expenses shall be prorated between the parties on the basis of the number of objects inspected and the time consumed for each inspection on both.
- (3) Fees for joint reviews of ASME stamps and National Board Repair Stamp Holders.
 - (a) Fee for all reviews... \$1500.00. The fee will be paid prior to the review being scheduled. Fees include time and expenses up to a maximum of two days. Any

review that is extended to more than two days, time and expenses will be charged as stated in (b) below.

- (b) All services rendered other than as stated in (a) above, \$100.00 per hour. (The hourly rate with all expenses will be charged and billed after the service is rendered.)
- (4) Permit fee for installation of new boilers and installation of second- hand boilers and pressure vessels: (For all boilers, hot water heaters, or used unfired pressure vessels found to have been installed without an installation permit, the installation permit fee will be doubled.) Once permits are processed by this office, no refunds will be issued.
 - (a) All pressure vessels and boilers up to and including 30 boiler Horsepower \$100.00
 - (b) 31 boiler horsepower to 50 boiler horsepower \$200.00
 - (c) 51 boiler horsepower to 100 boiler horsepower \$300.00
 - (d) 101 boiler horsepower to 200 boiler horsepower \$400.00
 - (e) All boilers over 200 boiler horsepower \$500.00
- (5) Georgia State Special Permits \$500.00 This fee must accompany the request for a State Special permit. All inspections for a State Special Permit will be conducted by a Deputy Inspector.
- (6) Operating Permit Fees:
 - (a) Power boilers and high pressure, high temperature water boilers, annual fee \$50.00
 - (b) Low pressure steam or vapor heating boilers, biennial fee \$50.00
 - (c) Hot water heating and hot water supply boilers biennial fee \$50.00
 - (c) Pressure Vessel, triennial fee \$30.00
- (7) The owner, user, agent, or installer is responsible to ensure accessibility to the equipment for inspection, equipment is ready for inspection (as required), and necessary people are available when scheduled. Failure to meet any of the above requirements will cause owner, user, agent, or installer to be charged \$100.00 per hour including travel time. This fee must be paid prior to any rescheduled or completed inspections at that location.

(8) Payment of fees for inspections and operating permits.

- (a) Inspection fees or operating permit fees shall be paid to validate the operating permit. Fees not paid within sixty (60) calendar days of completion of such inspection shall cause the suspension of the operating permit until such time that all fees are paid. When an operating permit is suspended for lack of payment, the Deputy Inspector shall reinspect the boiler, water heaters or pressure vessels. This inspection fee will be charged and collected prior to reinstating the operating permit.
- (b) Inspection fees or operating permit fees shall be paid within or operating permit fees unpaid within sixty (60) calendar days shall bear interest at the rate of 1.5 percent per month or any fraction of a month. Interest shall continue to accrue until the Commissioner receives all amounts due, including interest.

Authority: O.C.G.A §§ [25-15-17](#), [25-15-13](#), [25-15-25](#), [25-15-27](#).

History. Original Rule entitled "New Installation of Boilers and Installation of Secondhand Boilers or Pressure Vessels. Amended" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Repealed: New Rule entitled "New Installation of Boilers and Installation of Secondhand Boilers or Pressure Vessels" adopted. F. Mar. 16, 2015; eff. Apr. 5, 2015.

Repealed: New Rule entitled "State Inspection Fees" adopted. F. Dec. 31, 2020; eff. Jan. 20, 2021.

Rule 120-3-26-.07. State Inspection Fees New Installation of Boilers and Installation of Secondhand Boilers or Pressure Vessels.

- (1) The company or person responsible for the installation of the boiler or secondhand pressure vessel is required to obtain an installation permit for the boiler or pressure vessel prior to any work being performed. A "Request to Install a Boiler or Pressure Vessel" along with the installation fee and any drawings, calculations, or ASME Code Data Reports as applicable will be forwarded to the Office of Insurance and Safety Fire Commissioner, Safety Engineering Section. Boilers or pressure vessels that are ASME Code stamped and National Board registered need only the ASME Data Report. A request for a Georgia State Special must be accompanied by all design documents. No boilers or pressure vessels shall be sold to be installed in the State unless the boiler or pressure vessel meets all adopted Codes, Standards, and/or these Rules.
- (2) All boiler installations shall meet all requirements of ASME, the NBIC, and CSD-1. Boilers 12,500,000 BTU/hr and over shall meet any additional requirements of NFPA85. All fluid heaters shall meet the requirements of NFPA 87.
- (3) A Deputy Inspector, prior to the vessel being used must inspect all completely new and secondhand packaged boilers and secondhand pressure vessels installed. The company or person performing the installation is responsible for notifying the Safety Engineering Section when the boiler or secondhand pressure vessel is ready for inspection.

- (4) All Permits that have not had any action toward the installation shall expire 24 months after the issue date. The expiration date shall be shown on the permit. The monies for the expired permit shall be forfeited and the file closed out. The installer shall be required to resubmit for another permit in accordance with paragraph (1) above and Rule [120-3-26-.05\(4\)](#), when a file has been closed out.
- (5) Water heaters must have a check valve installed in the cold water supply line at the heater.
- (6) All low pressure steam heating, water heating or hot water supply boilers as described in Rule [120-3-26-.02](#) must have a type "B" vent. The vent must be double wall galvanized or other corrosion resistant material, or as specified by the boiler manufacturer.
- (7) All high pressure power boilers for steam, water or oil as described in Rule 120-3-26.02 must have a single wall welded stack at least .056 inches thick (16 gage), or double wall manufactured corrosion resistant stack, or as specified by the boiler manufacturer. The double wall must be UL listed for the temperature specified by the boiler manufacturer.
- (8) All stack clearance from combustible material shall be as specified in NFPA Standard 31, 54, or 58 as applicable.
- (9) All steam boilers over 15 psi and over 10 boiler horsepower must be in a 2 hr. fire rated room, (except for Group F Occupancy). All heating boilers installed in places of Assembly (Group A), or place of Hazardous Occupancy (Group H) must be in a 2 hr. fire rated room.
- (10)
 - (a) Each boiler room containing one or more boilers or hot water heaters or pressure vessels from which carbon monoxide can be produced shall be equipped with a carbon monoxide detector with a manual reset. The requirements of this subsection apply to boiler rooms in which new installations or reinstallations of one or more boilers are completed.
 - (1) The carbon monoxide detector will alarm at 50 ppm and boiler(s) shall be interlocked to disable the burners when the measured level of carbon monoxide rises above 200 ppm.
 - (2) The carbon monoxide detector shall disable the burners upon loss of power to the detector.
 - (3) When the carbon monoxide detector trips in the boiler room, the detector should be interlocked with all boilers or hot water heaters or pressure vessels installed in the space to secure the fuel burning equipment thus stopping the production of carbon monoxide.
 - (4) The carbon monoxide detector shall be calibrated every eighteen months after installation or in accordance with the manufacturer's

recommendations, whichever is more frequent. A record of calibration shall be posted at or near the boiler or be readily accessible to an inspector.

- (5) The carbon monoxide detector shall be installed and function in accordance with all other regulations and standards adopted by the Commissioner.
- (6) Any boiler room that is monitored by a full-time boiler operator is exempt from the safety shutdown, as defined in ASME CSD-1. The presence of a full-time boiler operator does not exempt such boilers from the alarm requirement.

Amended: F. Jan. 13, 2022; eff. Jan. 1, 2022, as specified by the Agency.

Rule 120-3-26-.08. Boiler and Pressure Vessel Inspection Requirements.

- (1) On and after January 1, 1986, each boiler and pressure vessel used or proposed to be used within this State, except for boilers and pressure vessels exempted under O.C.G.A. Section [25-15-16](#), shall be thoroughly inspected as to their construction, installation, and condition as follows:
 - (a) Power boilers and high pressure, high temperature water boilers shall receive a permit (certificate) inspection annually. The inspection shall be an internal inspection where construction permits; otherwise, it shall be as complete an inspection as possible. These boilers will also receive an external inspection while under pressure, if possible.
 - (b) Low pressure steam or vapor boilers shall receive a permit inspection biennially.
 - (c) Hot water heating and hot water supply boilers shall receive a permit inspection biennially.
 - (d) Pressure vessels shall receive a permit inspection triennial with an internal inspection at the discretion of the Inspector.

- (e) All certificate inspections under this section shall be done in accordance with the NBIC, Parts 1 & 2. The boiler owners and user shall be responsible for ensuring that the installation, maintenance, operation, and testing of controls and safety devices are in accordance with the manufacturer's requirements. The maintenance and testing of controls and safety devices shall be conducted by a contractor with a valid certificate of authority with the appropriate classification. The inspector will witness or review that all controls and safety devices have been tested to manufactures requirements. Appendix C in the current adopted edition of CSD-1 is an example of a report or checklist. If the boiler is governed by a different standard, it will be used as a guide to which controls and safety devices and systems need to be tested.
 - (f) The Commissioner, the Chief Inspector, or any Deputy Inspector shall have free access during reasonable hours to any premises in the State where boilers or pressure vessels are being constructed, installed, operated, maintained, or repaired for the purpose of performing any required safety inspections in accordance with the Boiler and Pressure Vessel Safety Act, Chapter 15 of Title 25 and these Rules and Regulations. Any owner, user or other person responsible for boilers or pressure vessels that denies access to Inspectors shall be in violation of the Act.
 - (g) An internal boiler inspection may be increased from an annual inspection frequency to eighteen (18) months for Black Liquor Boilers and a twenty-four (24) month inspection frequency for a Power Boiler by approval of the Office of Insurance and Safety Fire Commissioner. An employee delegated by the industrial facility shall apply for the extension. The following information shall be sent to the office for review:
 - (1) Operator training.
 - (2) Boiler maintenance records.
 - (3) Water chemistry.
 - (4) Letter of approval of extension from an authorized inspection agency. State inspector may be present with the in-service inspector during the internal Inspection, these expenses will be the responsibility of the industrial plant. A copy of the in-service inspector's detailed summary report of this inspection will be supplied to this office within 30 days of inspection. If a Black Liquor Boiler, a copy of the ESP test (Emergency Shutdown Procedure) will also be supplied.
- (2) Cessation orders on unsafe equipment or equipment operating in violation of these Rules.
- (a) The Commissioner or his authorized representative may issue a written order for the temporary cessation of operation of a boiler or pressure vessel if it has been determined after inspection to be hazardous or unsafe. Operation shall not resume

until such conditions are corrected to the satisfaction of the Commissioner or his authorized representative.

- (b) If a boiler or pressure vessel is found to be operating after a cessation order has been issued, and/or prior to the required inspections, a penalty may be assessed as specified in Rules [120-3-26-.05](#) and/or [120-3-26-.18](#) as applicable.
 - (c) Any person aggrieved by an order or an act of the Commissioner or the Chief Inspector may appeal in accordance with O.C.G.A. Section [25-15-28](#).
- (3) **Reserved.**
- (4) All boilers or pressure vessels overdue for inspection as specified by Rule [120-3-26-.07](#), by more than 6 months, a State Deputy Inspector shall inspect such boilers or pressure vessels and may invoice the Owner/User for a special inspection as specified by Rule 1203-26-.05(2), in addition to the standard inspection fees.

Rule 120-3-26-.09. Notification of Inspection.

- (1) All insurance companies shall notify the Chief Inspector, within thirty days, of all boilers or pressure vessels on which Insurance is written or canceled, not renewed or suspended.
- (2) Special inspectors to notify Chief Inspector of unsafe boilers and pressure vessels.
 - (a) If an inspector, upon first inspection, finds that a boiler or pressure vessel, or any appurtenance thereof, is in such condition that he would refuse to issue an inspection certificate, the Inspector shall immediately notify the Chief Inspector and submit a report on the defects.
 - (b) If, upon inspection, an Inspector finds a boiler or pressure vessel to be unsafe for further operation, he shall promptly notify the owner or user, stating what repairs or other corrective measures are needed. The Inspector shall immediately notify his supervisor or the Chief Inspector. Until such corrections have been made, no further operations of the boiler or pressure vessel involved shall be permitted. If an inspection certificate for the object is required and is in force, it shall be suspended by the Chief Inspector. When reinspection establishes that the necessary repairs have been made or corrective actions have been taken and that

the boiler or pressure vessel is safe to operate, the Chief Inspector shall be notified. At that time, an inspection certificate, where applicable, may be issued.

- (c) If an Inspector, while making a required inspection, becomes aware of any other boilers or pressure vessels on the premises which are not registered in accordance with applicable law, he shall report this information to the owner or user of the boiler pressure vessel and to the Chief Inspector within thirty days.
- (3) Owner-User: Each Owner-User inspection agency as required by the provision of the Act and these Rules and Regulations shall:
- (a) conduct inspections of pressure vessels utilizing only qualified inspection personnel, as provided in this Chapter;
 - (b) retain on file, at the location where the equipment is inspected, a true copy of each of the latest inspection reports signed by the Inspector;
 - (c) execute and deliver to the Chief Inspector a true report of each inspection together with appropriate requirements or recommendations that result from such inspections;
 - (d) promptly notify the Chief Inspector of any pressure vessel which does not meet the applicable requirements;
 - (e) maintain inspection records which will include a list of each pressure vessel covered by the Act, showing a serial number and such abbreviated descriptions as may be necessary for identification, the date of last inspection of each unit and approximate date for the next inspection record is compiled. Such inspection record shall be readily available for examination by the Chief Inspector or his authorized representative during business hours.
 - (f) If upon an external inspection there is evidence of a leak or crack, sufficient covering of the pressure vessel shall be removed to permit the Inspector to satisfactorily determine the safety of the boiler or pressure vessel. If the covering cannot be removed at that time, he may order the operation of the pressure vessel stopped until such time as the covering can be removed and proper examination made. The Chief Inspector shall be notified immediately.
- (4) All boiler or pressure vessels overdue for inspection as specified by Rule 120-3-.26 -.07, by more than 6 months, a State Deputy Inspector shall inspect such boilers or pressure vessels and may invoice the Owner/User for a special inspection as specified by Rule 120-326-.05(2), in addition to the standard fee.

Rule 120-3-26-.12. Non-Vaporizing Fluid Heaters.

- (1) A non-vaporizing fluid heater is a heater designed to not vaporizes a fluid in a closed system.

- (2) The owner shall insure that a non-vaporizing fluid heater is constructed in accordance with current adopted editions of the ASME Boiler and Pressure Vessel Code and is National Board registered.
- (3) The installation shall have stop valves located at an accessible point in the supply and return pipe connections as near to the heater as practicable.
- (4) The owner shall ensure that a non-vaporizing fluid heater has the following as a minimum:
 - (5) One operating temperature control and one high limit temperature control.
 - (6) An ASME relief device to be of sufficient capacity to relieve the excess fluid as a result of thermal expansion, verified by engineering calculations provided by the owner.
 - (7) A thermometer graduated to no less than 133% of the expected operating temperature.
 - (8) A pressure gauge graduated to no less than 150% of the expected operating pressure.
 - (9) A low level or flow sensing device suitable for operating conditions.
- (10) The owner shall ensure that a fuel train meets the requirements of State laws and regulations and the current adopted edition of CSD-1 or NFPA 87.

Rule 120-3-26-.13. Georgia State Special Boilers and Pressure Vessels.

If a boiler or pressure vessel is of special design and one that cannot be constructed to the ASME Code, the owner shall forward welding procedures and welder certifications details of the proposed construction, including shop drawing, material specifications, calculations, to the Chief Inspector for approval. All such boilers and pressure vessels must be inspected and hydrostatically tested and documented on forms provided by the Commissioner. The owner's application shall be certified by a registered professional engineer or an appropriate ASME stamps holder.

Rule 120-3-26-.14. Non-Conforming or Non-Standard Boilers and Pressure Vessels.

- (1) Boilers or unfired pressure vessels that do not conform to the ASME code may be operated as a hobby or for educational or historical purposes only, provided an inspection in accordance with these Rules is made annually. Lap Seam boilers under this section are limited to 100 psig.
- (2) Boilers or unfired pressure vessels normally located outside this State may be, upon application to the Commissioner, permitted to operate for a period not exceeding 7 days provided the object has an operating certificate from the State in which it is normally operated.
- (3) Non-standard boilers, or pressure vessels being installed or reinstalled in the State shall receive a State Special Permit and an operating permit prior to the operation of the boiler, or pressure vessel.
- (4) No boiler, or unfired pressure vessel shall be installed in a system or operated in a service that the boiler or pressure vessel is not designed and manufactured to the intended service, (as specified on the data report or receive a State Special Permit for that intended service).
- (5) A miniature hobby locomotive boiler is designed to be operated on a narrow gauge track of less than twenty-four (24) inches.
- (6) At the initial inspection of a miniature hobby locomotive boiler, the owner shall provide the Chief Inspector with design specifications and calculations for review and acceptance.
- (7) The owner shall ensure that a miniature hobby locomotive boiler has the following minimum equipment:
 - (a) A pressure gauge graduated to approximately 1.5 times the operating pressure, but no more than 4 times the operating pressure.
 - (b) A means to extinguish the fire in the fire box, if a low water condition exists.
 - (c) Two means of feeding water to the boiler, one of which shall be operable while the locomotive is stationary.
 - (d) A water level gauge glass located so that the top of the bottom nut of the gauge glass is approximately 10% of the distance between the crown sheet and the shell, but not less than ½ inch above the crown sheet.

- (e) Two safety valves set no more than 10% above the operating pressure for boiler fabricated after the effective date of the rules. The capacity of the safety valves shall be equal to or greater than the calculated steam generating capacity of the boiler.
- (8) Triennially, during the certificate inspection, the owner shall hydrostatically test the Boiler per the NBIC, in the presence of the inspector. All certificate inspections, both internal and external, will be conducted to the current adopted edition of the NBIC, Part 2, and all boiler laws and regulations with the exception of Ultrasonic thickness reading, which will not be done, unless noted on the inspection report, when visually evidenced during the internal inspection.
- (9) All repairs will be conducted by an "R" stamp holder in accordance to the current adopted edition of the NBIC, Part 3.

Amended: F. June 10, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-3-26-.15. Boiler and Pressure Vessel Repair or Alteration.

- (1) Repairs and alterations to Boilers and Pressure Vessels shall be performed in accordance with the National Board Inspection Code or as otherwise specified by the jurisdiction. All repair facilities must have a valid contract with an approved inspection agency.
- (2) When repairs or alterations are to be made, permission shall be obtained from an inspector and shall be done in accordance with the latest edition of the National Board inspection code by an authorized repair facility holding a valid National Board "R" stamp or jurisdictional approval for owner/users repairing their own boilers or pressure vessels. Welded repairs to cast iron boilers, pressure vessels or parts thereof shall not be allowed.
- (3) A request for permission to restamp the boiler or pressure vessel shall be made to the Chief Inspector and proof of the original stamping shall accompany the request.

The Chief Inspector may grant such authorization. Restamping, authorized by the Chief Inspector, shall be done only in the presence of an Inspector and shall be identical to the original stamping except for the ASME Code symbol stamp.

- (4) The repair facility shall provide the Chief Inspector with a copy of a completed R-1 repair form with the inspector's signature when a welded repair has been done within 30 days of the repair. An electronic or paper copy is acceptable.
 - (a) The repair stamp holder shall complete a repair form on all welded repairs. The distribution shall be to the owner/user and jurisdiction and others as required by the National Board Inspection Code within 30 days of the repair. An electronic or paper copy is acceptable.
 - (b) An R-2 report for alternation shall be completed on all alterations and distributed in accordance with the National Board Inspection Code. The Chief inspector will receive a copy within 30 days. An electronic or paper copy is acceptable.
- (5) The repair facility shall register all R-1 and R-2 forms with the National Board.

Rule 120-3-26-.16. Reinstallation of Certain Boilers and Pressure Vessels.

- (1) A Boiler or Pressure Vessel that is not constructed pursuant to the ASME Code or is not registered with the National Board shall not be reinstalled at any location in this State, when the reinstallation is accompanied by a change of ownership of the boiler or pressure vessel unless the Owner, User receives a State Special Permit.
- (2) Secondhand boilers or pressure vessels cannot be installed unless an application for "Permit to Install" has been approved by the Chief Inspector followed by a certificate inspection by a Deputy Inspector.
- (3) When a standard boiler or pressure vessel located in this jurisdiction has been removed outside the jurisdiction for temporary use or repair, application shall be made for a permit to install by the owner or user to the Chief Inspector for permission to reinstall the boiler or pressure vessel in the jurisdiction.

Rule 120-3-26-.17. Boiler and Pressure Vessel Construction.

- (1) All boilers and pressure vessels must be manufactured in accordance with Sections I, IV, VIII and X of the ASME Code. Shop inspection of boilers and pressure vessels (except cast iron boilers and unfired UM pressure vessels) is mandatory and must be made by Inspectors holding National Board Commissions.
- (2) Rules for construction and stamping must comply with the Code and with National Board stamping and registration. In addition to the above requirements, electric boilers shall have the underwriter's laboratories' label.
- (3) Cast Iron /Cast Aluminum Boilers are not required to be registered with the National Board.
- (4) The code stamping shall not be concealed by lagging or paint and shall be exposed at all times unless a suitable record is kept of the location of the stamping so that it may be readily uncovered when required, or there has been a duplicate name plate attached on the outside cover.

Rule 120-3-26-.18. Certificate of Authority to Install, Maintain and/or Service Boilers.

- (1) All companies as contractors or individuals as owner/users, who install, maintain or service boilers shall have a certificate of authority for the activity performed. Certificate of Authority must be renewed every two years, on or before January 1st. The activity performed shall be Class I for power, high pressure hot water boilers, high temperature fluid heaters, Class II shall be for hot water or steam heating boilers, and Class III shall be for hot water supply boilers or lined potable water heaters. A -1 after the class number shall indicate owner/user location only. An asterisk (**) after the class number shall indicate a restriction, the restriction will be specified on the certificate

- (2) All companies as contractors or individuals as owner/users who perform one or more of the above activities on power boilers, high pressure high temperature water boilers, high temperature fluid heaters, hot water or steam heating boilers, hot water supply boilers, electric boilers, heat recovery boilers, lined potable water heaters, miniature boilers, unfired steam boilers, or waste heat boilers as defined by O.C.G.A. Chapter 15 of Title 25 shall be required to show their competency by examination given by Safety Engineering for the scope of work being performed.
- (3) Each Applicant will provide documentation which shows experience and training in the area where certification is requested. The documentation will be evaluated by Safety Engineering for competency prior to administering the exam.
- (4) Installing equipment is the act of connecting piping and/or electrical circuits to the equipment and set the equipment up for use. Electrical circuits may be connected, by the installer, from the electrical disconnect to the equipment. All piping that is not connected to a water supply system, sanitary drainage system or storm drainage systems, may be connected by the installer.
- (5) Maintenance and Servicing is defined as keeping the equipment in good working order: Any person or company who performs maintenance and service to equipment, shall be responsible for the following: cleaning, replacement of component parts with like parts, testing, blowing down, checking for proper operation, testing equipment after maintenance and service has been performed and starting or stopping of equipment or any other boiler related activity.
 - (a) Owner/users who perform only the daily operation of the equipment by starting and stopping, blowing down, testing of safety devices or other related equipment operation practices shall be exempt.
- (6) It shall be the responsibility of the owners/users or lessees to ensure the company, contractor and/or persons performing the work has the proper certificate of authority.
- (7) It shall be the responsibility of all owners/users or lessees who are not exempted under paragraph (2) to have persons within their organization qualified and have a certificate of authority to perform installations, maintenance or service on their own boilers, or they may contract companies who have a certificate of authority to perform the scope of work requested.
- (8) All installations shall meet the applicable ASME Code, CSD-1 and state adopted standards (see [300-6-1-.01](#)).
- (9) All maintenance and servicing shall meet the applicable requirements of ASME CSD-1, State adopted Standards, Manufacturer requirements and good Engineering Practice. Also may meet the requirements of ASME Sections VI and VII.
- (10) The fee for the certificate of authority shall be \$50.00 for the original issue and for each renewal.

- (11) All procedures to implement the rules in this section shall be approved by the advisory committee.
- (12) This section shall be effective January 1, 2021 and required to be fully implemented by January 1, 2022.

Rule 120-3-26-.19. Preparation for Certificate Inspection.

- (1) The owner or user shall prepare each boiler or pressure vessel for inspection, and shall prepare for and apply a hydrostatic or pressure test, whenever necessary, on the date arranged by the Inspector.
- (2) Boilers - The owner or user shall prepare a boiler for internal inspection in the following manner:
 - (a) Water shall be drained off and the boiler washed thoroughly;
 - (b) Manhole and handhole plates, washout plugs, and inspection plugs in water column connections shall be removed as required by the Inspector, and the furnace and combustion chambers shall be cooled and thoroughly cleaned;
 - (c) All grates of internally fired boilers shall be removed;
 - (d) Insulation or brickwork shall be removed as required by the Inspector in order to determine the condition of the boiler, headers, furnace, supports, or other parts;
 - (e) The pressure gauge shall be removed for testing, as required by the Inspector;
 - (f) Any leakage of steam or hot water into the boiler shall be prevented by disconnecting the pipe or valve at the most convenient point or any appropriate means approved by the Inspector, and
 - (g) Before opening the manhole or handhole covers and entering any parts of the steam generating unit connected to a common header with other boilers, the nonreturn and steam stop valves shall be closed, tagged, and preferably padlocked, and drain valves or cocks between the two valves opened. The feed valves shall be closed, tagged, and preferably padlocked, and drain valves or cocks located between the two valves opened. After draining the boiler, the blowoff valves shall be closed, tagged, and preferably padlocked. Blowoff lines, where practicable,

shall be disconnected between pressure parts and valves. All drains and vent lines shall be opened.

- (3) Pressure Vessels. Pressure vessels shall be prepared for inspections to the extent deemed necessary by the Inspector and the applicable procedures outlined in Rule [120-3-26-.17\(2\)](#).
- (4) No employer or owner/user shall permit entry to nor shall an employee or inspector enter a boiler furnace, drum, or header or pressure vessel until all requirements of the Occupational Safety and Health Administration, Office of Insurance and Safety Fire Commissioner, [29 CFR 1910.146](#), Permit-Required Confined Space Standard, requirements have been met, and until the plant inspector or supervisor and the person entering the boiler or pressure vessel have confirmed all stop valves on inlet and outlet piping (not vented to the atmosphere have been closed and tagged. Where not valved off and tagged, the piping shall be disconnected or blanked. In addition, plant personnel shall make appropriate test to assure there is no oxygen deficiency or hazardous or toxic gases in the boiler drums or pressure vessels to be entered by the inspector. Prior to and during entry an approved person must be outside the boiler or pressure vessel to ensure confined space procedures are complied with.
- (5) Boilers and pressure vessels improperly prepared for inspection. If a boiler or pressure vessel has not been properly prepared for an internal inspection, or if the owner or user failed to comply with the requirements for a pressure test as set forth in these Rules, the Inspector may decline to make the inspection or test and the inspection certificate shall be withheld or suspended until the owner or user complies with the requirements.
- (6) Removal of covering to permit inspection. If the boiler or pressure vessel is jacketed so that the longitudinal seams of shells, drums, or domes cannot be seen, sufficient jacketing, setting wall, or other form of casing or housing shall be removed to permit reasonable inspection of the seams and other areas necessary to determine the condition and safety of the boiler or pressure vessel provided such information cannot be determined by other means.
- (7) Lap Seam Cracks. The shell or drum of a boiler or pressure vessel in which a lap seam crack is discovered along a longitudinal riveted joint, shall be immediately discontinued from use. Patching shall be prohibited. (A "Lap seam crack" is defined as a crack found in a lap seam, extending parallel to the longitudinal joint and located either between or adjacent to rivet holes.)
- (8) Pressure Tests.
 - (a) A hydrostatic pressure test, when applied to boilers, shall not exceed one and one-half times the maximum allowable working pressure. The pressure shall be under proper control so that in no case shall the required test pressure be exceeded by more than six percent.

- (b) A hydrostatic pressure test, when applied to pressure vessels, shall be a minimum of one and one-half times the maximum allowable working pressure except as permitted by ASME Code Section VIII, Division 1.
- (c) During a hydrostatic test, the safety valve or valves shall be removed or gagged; if gagged, each valve disk shall be held to its seat by means of a testing clamp and not by screwing down the compression screw upon the spring. A Plug device designed for this purpose may be used.
- (d) The minimum temperature of the water used to apply a hydrostatic test shall be not less than 70 degrees Fahrenheit and the maximum metal temperature during inspection shall not exceed 120 degrees Fahrenheit.
- (e) When a hydrostatic test is applied to determine tightness, the pressure shall be equal to the normal operating pressure but not exceed the release pressure of the safety valve having the lowest release setting.
- (f) When the contents of the vessel prohibit contamination by any other medium or when a hydrostatic test is not possible, other testing media may be used providing the precautionary requirements of the applicable section of the ASME Code are followed.

Rule 120-3-26-.20. Notice of Hearing and Penalties.

(1) Cessation Order.

- (a) The Office may issue a written order for the cessation of operation of a boiler or pressure vessel when it has been determined to be hazardous, unsafe, or the failure to comply with any of the provisions of these rules or the safety act. Operation shall not resume until such violations are corrected to the satisfaction of the Commissioner or the Commissioner's authorized representative.
- (b) In the event a person knowingly commits a violation or allows a violation to be committed after being issued a cessation order, or warning the Commissioner or the Commissioner's authorized representative may initiate a Citation as stated below.

(2) Issuance of Citation or Notice of Administrative Proceeding:

- (a) If upon inspection by an inspector or deputy inspector;
 - 1. A boiler or pressure vessel is deemed to be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Boiler & Pressure Vessel Laws or Rules, or
 - 3. When a written warning citation has been issued and the violation continues, then the deputy inspector shall issue the violator a citation stating the date, time and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
 - (b) If upon receiving information from any source, the Chief Inspector determines that there is a reasonable belief that:
 - 1. A boiler or pressure vessel may be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Boiler and Pressure Vessel Law or these Rules, or
 - 3. When a warning has been issued, and the violation is a continuing violation, the Chief Inspector or the Director, Safety Engineering, on behalf of the Office, may issue Notice of Administrative Proceeding stating the date, time, and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
 - (c) The Director, Safety Engineering, upon review of a citation issued under subsection (a) above, may, in his sole discretion, dismiss the citation and substitute therefore a Notice of Administrative Proceeding pursuant to subsection (b) above on the same, similar, or different violation, as required by the evidence.
 - (d) The Commissioner, upon review of a Citation or Notice of Administrative Proceeding, in his sole discretion, may refer the matter to the appropriate prosecuting official for criminal or injunctive relief as permitted under law. In such event, the Commissioner may, in his sole discretion, elect to dismiss, suspend, or continue with the civil penalty proceeding.
- (3) Hearing Procedure:
- (a) If request for a hearing is not received from the respondent within the allotted time, the Director, of Safety Engineering, on behalf of the Commissioner, may without further process impose a civil penalty not greater than the total of civil penalties set forth on the citation or in the Notice of Administrative Proceeding.

An administrative order under the authority of the Commissioner may be issued to collect the civil penalty assessed.

- (b) Upon receipt of a request for a hearing pursuant to any Citation or Notice of Administrative Proceeding, further actions or proceedings shall be governed by the Georgia Administrative Procedure Act, O.C.G.A. Chapter 50-13, O.C.G.A. § [25-2-29](#), O.C.G.A. § [25-15-28](#), and applicable Rules and Regulations of the Commissioner.
 - (c) All hearings, whether before the Commissioner or an appointed adjudicator, shall be conducted in accordance with the statutes and regulations cited in the preceding subparagraph.
 - (d) The decision of an appointed adjudicator made after a hearing shall be an initial agency decision as set forth in O.C.G.A. § [50-13-41\(d\)\(2\)](#) and shall be subject to review by the Commissioner, as set forth in O.C.G.A. § [50-13-41\(d\)\(3\)](#).
 - (e) A decision made after a hearing before the Commissioner shall be the final agency decision in the matter and shall be subject to judicial review as set forth in O.C.G.A. § [50-13-19](#).
- (4) Guidelines for Imposition of Civil Penalties:
- (a) Any person, firm, partnership, corporation or other business entity, which violates this part, shall be subject to the imposition of civil penalties. Each day on which a violation occurs shall constitute a separate offense. Repeat offenses, when a violation occurs, shall constitute a separate offense. Repeat offenders, including those who refuse to adhere to orders of the inspectors, exceed the limitations of operating permits, or refuse to adhere to the requirements of these rules and regulations, may be referred to the appropriate prosecuting official for criminal (misdemeanor) or injunction relief as permitted under law. Serious violations, including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may also be referred to the appropriate prosecuting official for criminal (misdemeanor) or injunctive relief as permitted under law.
 - (b) Notwithstanding the recommended minimum penalties set forth below, a serious violation, including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may receive the maximum penalty of \$5,000.00 for each violation including a first offense. The imposition of a penalty for a violation of this part shall not excuse the violation or permit it to continue.
 - (c) The deputy inspector issuing a Citation shall, at the time of issuance, specify a recommended civil penalty amount for each specific violation in accordance with these Rules and Regulations. The Director is charged with the responsibility to

insure that recommended penalties for violations are graduated with the more serious violations receiving the heavier penalty and with assuring uniformity of recommended penalties such that offenders in similar circumstances with similar violations receive similar penalty recommendation. In this regard, the Director may dismiss a Citation and issue a Notice of Administrative Proceeding solely for the purpose of making an appropriate penalty recommendation.

- (d) The recommended civil penalty set forth in the Citation or Notice of Administrative Proceeding shall be given great deference by the appointed adjudicator. The minimum recommended penalties set forth below is normally for the first offense with only one violation being cited. The appointed adjudicator shall, after hearing the case, consider factors in mitigation of the violation as well as those in aggravation. The appointed adjudicator shall impose a penalty less than the recommended minimum penalty only upon finding unusually significant mitigating factors, and shall set forth those factors in the order. The appointed adjudicator may impose a penalty substantially greater than the Office recommended penalty upon finding significant aggravating factors associated with violations, and shall set forth those factors in the order. The appointed adjudicator shall consider the provision of these Rules and Regulations guiding the assessment of penalties. In particular, the appointed adjudicator shall, in cases involving structural damage, bodily injury, or death; or continued operation after an unsafe condition is detected or after the equipment is taken out of service by an inspector or deputy inspector, consider the imposition of separate penalties for each day of violation. The appointed adjudicator shall not assess a penalty exceeding \$5,000.00 for each violation and each day of violation.
- (e) The appointed adjudicator may, in addition to a civil penalty, recommend in the order that the Commissioner suspend for a period of time or indefinitely, operating certificate, permits to install, or certificates for contractors.

(5) Minimum recommended penalties.

(a) Specific Violations:

1. Operating equipment without an operating certificate. (O.C.G.A. Section [25-15-26](#) & Rule [120-3-26-.09](#))

First offense \$250.00

Second offense \$500.00
2. Operating equipment in an unsafe condition. (O.C.G.A. Section [25-15-22](#) & Rule [120-3-26-.09](#))

First offense \$500.00

Second offense \$1000.00

3. Failure to permit access for the purpose of inspecting or investigating equipment. (O.C.G.A. Section [25-15-23](#) & Rule [120-3-26-.07](#))

First offense \$500.00

Second offense \$1000.00

4. Failing to notify the Chief Inspector of any violation involving structural damage or injury. (O.C.G.A. Section [25-15-10](#) & Rule [120-3-26-.08](#))

First offense \$500.00

Second offense \$1000.00

Offense involved in death \$5000.00

5. Placing unit back in service, which has been "Red Tagged" and placed out of service by a deputy inspector without first having the unit inspected. (O.C.G.A. [25-15-10](#) & Rule 120-26-18)

First offense \$1000.00

Second offense \$2500.00

6. Placing unit back in service, which has been involved in an accident prior to first having the unit inspected. (O.C.G.A. Section [25-15-10](#) & Rule [120-3-26.10](#))

First offense \$1000.00

Second offense \$2500.00

7. Turning equipment over for use without a final acceptance inspection. (O.C.G.A. Section [25-15-14](#) & Rule [120-3-26-.07](#))

First offense \$500.00

Second offense \$1000.00

8. Installing equipment without a permit. (O.C.G.A. Section [25-15-14](#) & Rule [120-3-26-.07](#))

First offense Double Permit Fee

Second offense..... Triple Permit Fee

9. Inspecting without qualifications. (Rule [120-3-26-.10](#))

First offense \$500.00

Second offense \$1000.00

(b) General Violations:

1. Violating adopted Codes, Standards, Rules, Regulations or Orders.
(O.C.G.A. Section 2515-14 & Rule [120-3-26-.01](#))

First offense \$250.00

Second offense \$500.00

2. Certified company performing an activity which violates the law or regulations: (O.C.G.A. Section [25-15-14](#) & Rule [120-3-26-.16](#))

Any Offense \$2500.00 and Suspension of Certificate

Any third repeated offense might subject the violator to the maximum civil penalty permitted under the Act (\$5,000.00).

Authority: O.C.G.A. §§ [25-15-26](#), [25-15-13](#), [25-15-31](#).

History. Original Rule entitled "Exceptions. Amended" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Repealed: New Rule entitled "Safety/Safety Relief Valves" adopted. F. Mar. 16, 2015; eff. Apr. 5, 2015.

Repealed: New Rule entitled "Notice of Hearing and Penalties" adopted. F. Dec. 31, 2020; eff. Jan. 20, 2021.

Amended: F. June 10, 2022; eff. July 1, 2022, as specified by the Agency.

Rule 120-3-26-.21. Safety/Safety Relief Valves.

- (1) Minimum Relieving Capacity, Safety Valve, and/or Safety Relief Valves.

TABLE 1

MINIMUM POUNDS OF STEAM PER HOUR PER SQUARE FOOT OF SURFACE

	Firetube Boilers	Watertube Boilers
Boiler Heating Surface		
Hand Fired	5	6
Stoker Fired	7	8
Oil, Gas, or Pulverized Fuel Fired	8	10
Waterwall Heating Surface		
Hand Fired	8	8
Stoker Fired	10	12
Oil, Gas, or Pulverized Fuel Fired	14	16

- (a) These numbers may not be adequate for boilers installed after 1976 or for boilers with updated fuel burning equipment. If in doubt, an accumulation test is recommended.
 - (b) When a boiler is fired only by a gas giving a heat value not in excess of 200 BTU per cu. ft., the minimum safety valve or safety relief valve relieving capacity may be based in the value given for hand-fired boilers above.
- (2) The minimum relieving capacity of the valve or valves shall be governed by the capacity marking on the boiler vessel, or the minimum valve capacity in pounds per hour shall be the greater of that determined by dividing the maximum BTU output at the boiler nozzle obtained by the firing of any fuel determined on the basis of the pounds of steam generated per hour per square foot of boiler heating surface as given in Table 1. In many cases, a greater relieving capacity of valves will have to be provided than the minimum specified by these Rules.

Example: $\text{BTU/hr} = \text{lbs/hr} \times 1000 = \text{BTU/hr}$

- (3) The minimum safety valve or safety relief valve relieving capacity for electric boilers shall be 3 - 1/2 pounds per hour per kilowatt input.
- (4) No person shall attempt to remove or do any work on any safety appliance prescribed by these Rules and Regulations while the appliance is subject to pressure, excluding setting or resetting of safety valves or safety relief valves.
- (5) Should any of those appliances be removed for repair during an outage of a boiler or pressure vessel, they shall be reinstalled and in proper working order before the object is again placed in service.

- (6) No person shall alter any safety or safety relief devices in any manner to maintain a working pressure in excess of that stated on the boiler or pressure vessel inspection certificate.
- (7) Alterations to, resetting, recalibration of, or repairs to safety or safety relief valves shall be made only by an organization which holds a valid certificate of authorization for use of the National Board "VR" stamp or by an owner user's maintenance organization, approved by the Chief Inspector which is limited to repairing of only those valves for its own use.

Repealed: New Rule entitled "Safety/Safety Relief Valves" adopted. F. Dec. 31, 2020; eff. Jan. 20, 2021.

Rule 120-3-26-.22. Exceptions.

- (1) Boilers and pressure vessels exempted from the requirements of the Safety Act. The following is in addition to the exceptions listed in O.C.G.A. Section [25-15-16](#).
- (2) Espresso coffee and similar machine boilers, providing these boilers meet the following requirements:
 - (a) The boilers shall be manufactured and tested to a National Standard, and
 - (b) shall not be more than (3) three U.S. gallons in size, and
 - (c) shall not operate more than 15 pounds per square inch, (PSI) and have a safety relief valve set to relieve at or below 15 psig.
 - (d) The boiler shall not be repaired by welding.
- (3) Boilers with outlets open to the atmosphere when there are no valves or restriction in the outlet system and pressure cannot rise to above 0 psig at maximum operating condition and temperature cannot rise above 212 degrees Fahrenheit.
- (4) Hot water supply heaters with storage capacity of six gallons or less and 400,000 BTU/hr. or less used for spas or swimming pools with open systems (unrestricted flow) shall meet all requirements of an adopted standard and ASME CSD-1 as applicable for construction, installation, repairs, or alterations.

Subject 120-3-27. RULES AND REGULATIONS FOR AMUSEMENT RIDE SAFETY.

Rule 120-3-27-.01. Authority and Purpose.

- (a) Pursuant to O.C.G.A. Section [25-15-1](#), the Office succeeded to all rules and regulations of the Department of Labor which were in effect on June 30, 2012, or were scheduled to go into effect on or after July 1, 2012, which related to the functions transferred to the Office pursuant to either Chapter 15 of Title 25 or Part 6 of Article 1 of Chapter 2 of Title 8. The Office has authority to modify the Boiler and Pressure Vessel regulations or promulgate new regulations pursuant to O.C.G.A. Sections [25-15-1](#), [25-15-53](#), [33-2-9](#) and [50-13-21](#).
- (b) The primary purpose of these rules and regulations is to promote the safe assembly, disassembly, repair, maintenance, use, operation, and inspection of all amusement rides.

Authority: O.C.G.A. Secs. [25-15-1](#), [25-15-53](#), [33-2-9](#), [50-13-21](#).

History. Original Rule entitled "Authority and Purpose" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.02. Definition of Terms.

- (1) "Annual Inspection" is the official inspection of a ride or device made by the Chief Inspector or his designee.
- (2) "A.N.S.I." means American National Standards Institute.
- (3) "Approved" means acceptable to the Commissioner. Any product certified or classified, or labeled, or listed by a nationally recognized testing agency may be deemed to be acceptable, unless specifically banned by order of the Commissioner.
- (4) "A.S.T.M." means the American Society of Testing Materials.
- (5) Backwash - The process of thoroughly cleansing the filter media and elements by reverse flow.
- (6) Backwash Cycle - The time required to thoroughly backwash the filter media and elements and the contents of the filter vessel on vacuum systems also the time to drain the filter element and washing of the medium.
- (7) Backwash Rate - The rate of application of water through a filter during the cleaning cycle, normally expressed in U.S. gallons per minute per square foot of effective filter area.
- (8) Cartridge - A replaceable porous element:

- (a) Depth-Type Cartridge: A filter cartridge, with media not less than 3/4 inch (.18 cm) thick, which relies on penetration of particulates into the media to achieve their removal and to provide adequate holding capacity for the cartridge.
 - (b) Surface-Type Cartridge: A filter cartridge, with media less than 3/4 inch (.18 cm) thick, which relies on retention of particulates on the surface of the cartridge to achieve their removal.
- (9) "Child" means a person 12 years of age and under.
- (10) "Containing Device" means a strap, belt, bar, gate or other safety device designed to prevent accidental or inadvertent dislodgement of a passenger from a ride which does not actually provide physical support.
- (11) "Commissioner" means the Commissioner of Labor of the State of Georgia or his authorized representative.
- (12) Deck, Above Ground - Any structure that is on top of or adjacent to the outer edges of the landing pool wall that can support one or more persons in a sitting or upright position.
- (13) Splash Pool Decks - Those areas surrounding a pool or flume which are specifically constructed or installed for use by sliders.
- (14) "Department" means Georgia Department of Labor.
- (15) Factor of Safety - The ultimate load divided by the safe load or the ultimate strength divided by the allowable stress.
- (16) Filter - A device that separates solid particles from water by recirculating it through a porous substance.
- (17) Filter Agitation - The mechanical or manual movement to dislodge the filter aid and dirt from the filter element.
- (18) Filter Cycle - The operating time between cleaning or backwash cycles.
- (19) Filter Element - A device within a filter tank designed to entrap solids and conduct water to a manifold collection header, pipe or similar conduit. Filter elements usually consist of a septum and septum support.
- (a) Permanent Filter Media: A finely graded material (such as sand or anthracite) which removes filterable particles from the water.
 - (b) Filter Aid: A type of finely divided medium used to coat a septum type filter - usually diatomaceous earth, processed perlite, or similar material.

- (20) Filtration Flow - The rate of flow, in volume per time (gpm, gph), through the filter system installed according to manufacturer's instructions with new clean media.
- (21) Filtration Rate - The rate of filtration of water through a filter during the filter cycle expressed in U.S. gallons per minute per square foot of effective filter area.
- (22) Floor - The interior bottom surface of the splash pool, consisting of that surface from a horizontal plane up to a maximum of a 46 degree slope.
- (23) "Guardian" means a person 16 years of age and over.
- (24) "Guardian Restriction" means a condition placed on a major ride where a passenger must be accompanied on the ride by a guardian.
- (25) JTU - Jackson Turbidity Unit, a means of measuring water clarity.
- (26) Loads - Loads are classified as static and dynamic static loads are forces that are applied slowly and then remain nearly constant. One example is weight or dead load. Dynamic loads are forces that vary with time.
- (27) "Major Alteration" means a change in the type or capacity of an amusement ride or amusement device or a change in the structure or mechanism that materially affects its functions or operation. This includes, but is not limited to changing its mode of transportation from non-wheeled to a truck or flat-bed mount, and changing its mode of assembly or other operational functions from manual to mechanical or hydraulic.
- (28) "Major Breakdown" means a stoppage of operation resulting from damage, failure, or breakage of a stress bearing part of a ride or device.
- (29) Pinching Hazard - Any configuration of components that would pinch or entrap the fingers or toes of a child or adult.
- (30) Primary Structural Members - Any part of the flume or pool structure that carries or retains any static load or stress caused by water pressure or structure weight.
- (31) Puncture Hazard - Any surface or protrusion that would puncture a child's or an adult's skin under casual contact.
- (32) Recessed Steps - A riser/tread or series of risers/treads extending down from the deck with the bottom riser/tread terminating at the landing pool wall, thus creating a "stair well".
- (33) Recessed Treads - A series of vertically spaced cavities in the landing pool wall creating step holes.
- (34) Removable - Capable of being taken away from the main unit with the use of only simple tools, such as a screwdriver, pliers, or wrench.

- (35) "Ride Action"- A term which shall be used to describe the movements and/or motions of an amusement ride which are generated for amusement purposes; and/or the bodily actions/reactions experienced by the passengers which are a result of the said movements/motions. Bodily actions/reactions which are a result of the commission of an act(s) of malicious negligence and/or horseplay shall not be construed as resultant of ride action.
- (36) "Ride Operator" means any person or persons actually engaged in or directly controlling an amusement ride.
- (37) "Rope", "Wire Rope" and "Cable" are interchangeable, but not interchangeable with the terms for fiber rope and manila rope.
- (38) "Safety Factor" or "Factor of Safety" means ratio of the ultimate load for a member or part to the allowable or working load for a member or part.
- (39) "Safety Retainer" means a secondary safety wire rope, bar attachment or other device designed to prevent parts of an amusement ride or amusement attraction from becoming disengaged from the mechanism or from tipping or tilting in a manner to cause hazard to persons riding on, or in the vicinity of, an amusement ride or amusement attraction.
- (40) Safety Walls - That part of the flume designed to keep a slider within the geometric confines of the flume.
- (41) Secondary Structural Members - Any part of the flume or pool structure that is not subjected to a load caused by water pressure or structure weight (that is, rigidizing members).
- (42) (a) "Serious Personal Injury" means death, dismemberment, visible significant disfigurement, visible significant or permanent loss of use of a body organ, member, function or system, compound fractures, visible uncontrolled bleeding, heart attack, stroke, or unconsciousness likely attributable to trauma to the head, as a result of the operation or malfunction of an amusement ride.
- (b) "Personal Injury" means sustained bodily harm resulting in medical treatment such as trauma, cuts, bruises, burns and sprains, but does not include Minor Injury/Illness or any mental disease or disorder not accompanied by physical injury at the time of the incident, and further does not include false arrest, detention, imprisonment, confinement, slander, libel, violation of privacy or mental distress.
- (c) "Minor Injury/Illness" means physical or mental incidents such as fainting, bruising, or minor lacerations for which treatment is limited to rest, cleansing, dispensation of over-the-counter medication, plastic adhesive bandage strips, fluids by mouth, or similar assistance.

- (d) "Property Damage" means physical injury to, or destruction of tangible property to the structure or operational parts (including safety equipment and devices) of an amusement ride, sustained by reason of accident or malfunction, other than routine wear and tear, but does not include damage to personal property.
- (43) Septum - That part of the filter element consisting of cloth, wire screen, or other porous material on which the filter medium or aid is deposited.
- (44) "Shall" means a mandatory requirement.
- (45) Shallow Areas - Portions of a pool ranging in water depth from 3 feet (91 cm) to 5 feet (1.52 m).
- (46) Splash Pool - A landing pool at the end of the slide from which bathers exit to the deck.
- (47) Stress - Force per unit of area.
- (48) Top Pool (or Starting Pool) - A shallow trough or pool at the top of the slide wherein the slider begins his or her descent.
- (49) Toxic - Having an adverse physiological effect on humans.
- (50) Tread Contact Surface - Foot contact surfaces of ladder, step, stair, or ramp.
- (51) Turnover - The period of time (usually in hours) required to circulate a volume of water equal to the volume of water in the landing pool.
- (52) Wall - That structure that supports the landing pool liner or the surface of a flume that is within 45 degrees of vertical.
- (53) Wall Closure - The fastening device that connects the flume wall ends.
- (54) "Water Amusement Ride" is an amusement ride or attraction which utilizes water as the primary entertainment medium, and moreover, the customer is either fully or partially immersed in water.
- (55) Water Line - The water line is defined in one of the following ways:
- (a) Skimmer System - The water line shall fall in the midpoint of the operating range of the skimmers.
 - (b) Overflow System - The water line shall be established by the height of the overflow rim.
- (56) "Water Flume" - A sloped trough-like or tubular structure of varying slope and direction usually made of fiberglass or coated concrete which utilizes water as a lubricant and/or the method of regulating rider speed.

Authority: O.C.G.A. Sec. [25-15-53](#).

History. Original Rule entitled "Administration"adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.04. Rules; Regulations; Rider Responsibility; Warnings and Signage.

- (1) Every owner, ride operator and the public using an amusement ride shall comply with these rules and regulations as they apply.
- (2) An amusement ride which is not in compliance with this Chapter shall not be used or occupied.
- (3) Where only individual units of a ride, such as cars, seats, or other carriers are defective and not in compliance with this Chapter, such units shall be taken out of service and clearly marked with a red tag reading "Out of Service"; provided, however, such defects do not jeopardize the safety of the entire ride.
- (4) The Chief Safety Engineer or his designee, upon presenting credentials to the owner/operator, is authorized without prior notice to inspect and investigate during regular working hours and at other reasonable times, and within reasonable limits and

manner, any establishment, assembly area, or other area where amusement rides or amusement attractions are assembled or are in use.

- (a) Inspection includes, but is not limited to, a review of necessary documents, observance and/or inspection of ride assembly or setup.
 - (b) Inspection of the ride is to include; foundation, blocking, fuel containers, mechanical condition and safe operation of the ride.
- (5) Recommended passenger restrictions and limitations, where applicable, such as but not limited to, height, weight, age, passenger placement, or other appropriate restrictions shall be provided to the end user by the manufacturer or seller of the amusement ride or device. In the event the manufacturer is unwilling or unable to provide said restrictions, thereby rendering himself in non-compliance with this Law and A.S.T.M. Standards, the said restrictions and/or limitation must be established by the owner and/or manager and shall be acceptable to the Office.
- (6) The Commissioner or his designee in accordance with (5) above shall maintain a list containing approved height restrictions for major rides.
- (7) All ride patrons shall:
 - (a) Obey all posted signs, including but not limited to, warning signs, instruction signs, and directions signs, which are not inconsistent with these rules;
 - (b) Obey the instructions of ride attendants;
 - (c) Properly use all safety equipment provided;
 - (d) Act in a responsible manner while using an amusement ride, device or attraction;
 - (e) Refrain from acting in any manner that may cause or contribute to injury to self or others;
 - (f) Not participate or use an amusement ride, device or attraction while under the influence of alcohol or any intoxicating substance; and
 - (g) Be subject to any or all of the following penalties for violation of this Section A:
 - 1. Removal from the ride, device or attraction and barred from returning that day;
 - 2. Removal from the amusement owner's property and barred from returning that day;
 - 3. Subject to a civil penalty up to a maximum of \$100 per infraction to be assessed in accordance with the civil penalty provisions of these rules.

- (8) All ride patrons, if the patron is a minor, the patron's parent or guardian, shall report in writing to the amusement owner or his designee any injury sustained on an amusement ride prior to leaving the amusement owner's premises, unless the ride patron (or parent or guardian) is unable to file the report because of the severity of the injuries, in which case the report shall be filed as soon as reasonably possible.
- (9) Sign Requirements:
- (a) Warnings and directions shall be based upon the standards of the American Society of Testing Materials (ASTM) or the American National Standards Institute (ANSI), or, if expressly approved by the Commissioner, other nationally recognized technical or scientific authority in the amusement ride or carnival ride industry.
 - (b) Signs shall be displayed in a public and conspicuous place on or near the ride, device or attraction in letters clearly visible from at least a distance of 15 feet.
 - (c) Rider responsibilities and potential penalties shall be posted in at least one public and conspicuous location on the premises of the amusement owner.

Authority: O.C.G.A. Sec. [25-15-53](#), [25-15-61](#), [25-15-66](#).

History. Original Rule entitled "Rules; Regulations; Rider Responsibility; Warnings and Signage" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.05. Prohibited Use.

- (1) The Office shall order in writing, a temporary cessation of operation of an amusement ride, if it has been determined after inspection to be hazardous or unsafe. Operation shall not be resumed until such conditions are corrected to the satisfaction of the Office.
- (2) No person shall knowingly use or permit to be used, an amusement ride which is not properly assembled or which is defective or unsafe in any of its parts, components, controls, or safety equipment.
- (3) No amusement ride, exclusive of water amusement rides, manufactured after January 1, 1986, shall be placed in service unless:
 - (a) It complies with ASTM Standard F698-83.
 - (b) The manufacturer supplies the owner with a manual containing the operation procedures established by ASTM Standard F770- 82.
 - (c) The manufacturer certifies that the ride has been tested to the standards established by aSTM Standard F846-83.

- (d) The manufacturer supplies the owner with a maintenance procedures manual as established by ASTM Standard F853-85.
 - (e) At which time provisions are made for, and adopted by ASTM Standards pertaining to amusement rides, said standards shall be applicable to water amusement rides immediately upon adoption and approval of said standards.
- (4) During a lightning storm, a period of tornado alert or warning, or fire, or when violence, riot, or other civil disturbance occurs or threatens in an amusement park, or in an area adjacent thereto, passengers shall be unloaded or evacuated from the ride and the ride shall be shut down and secured immediately. Operation shall not resume until the situation has returned to a normal, safe operation condition.
- (5) Exemptions: The following rides or attractions are exempted from the provisions of this Act:
- (a) Unpowered, nonmechanized playground equipment including, but not limited to: swings, seesaws, slides, stationary springmounted animal features, jungle gyms, rider - propelled merry-go rounds, climbers, trampolines, moon walks and live rides, zip lines, and inflatables.
 - (b) Any single passenger manually, mechanically, or electrically operated, coin-actuated ride, which is customarily placed singly, or in groups, in a public location and which does not normally require the supervisions or services of an operator.
- (6) An amusement ride which is exposed to wind or storm with lightning or wind gusts above that recommended by the manufacturer, shall not be operated except to release or discharge occupants.
- (7) If the inspector finds that an amusement ride presents an imminent danger he will attach to such ride a red tag reading "Out of Service" and secure said ride. Such notice shall not be removed until the ride is made safe and then only by the inspector issuing the red tag.
- (8) The amusement ride shall not be used while the inspector's out of service red warning tag is posted.

Rule 120-3-27-.06. Medical and First Aid, Fatalities, Personal Injury, and Accidents.

- (1) Medical and First Aid. The owner and operator shall ensure the availability of medical aid.
 - (a) While the venue is open or has patrons on the site, in the absence of an infirmary, clinic, or hospital available adjacent to the site or within one-half mile of the rides and attractions, one or more adequately trained and certified individuals shall be available on premises at all times with appropriate skills to render first aid and cardiopulmonary resuscitation. In addition, first aid supplies recommended and approved by the American Red Cross or by a consulting physician shall be readily available.
 - (b) At the site office or other appropriate place, the telephone numbers for physician, hospital, ambulance and local fire and police services shall be conspicuously posted for use by the staff and public in the event of emergency.
- (2) Accidents involving fatalities or serious personal injury. In the event of an accident involving fatalities, serious personal injury, or personal injury requiring inpatient overnight hospitalization, and of which the owner or operator has knowledge (Authority: O.C.G.A. § [25-15-61](#)):
 - (a) The ride or activity shall be shut down and immediately taken out of service;
 - (b) The ride or activity shall be secured to prevent operation until the Office has conducted a full investigation; and
 - (c) The accident shall be immediately reported to the Office by telephone, and shall be augmented by a detailed written report submitted by certified mail or similar means not later than the close of the next business day following the accident.
 - (d) If at the time of the telephonic report, the owner or operator and a qualified repair technician present sufficient information to the Office, the Office may, in its discretion, permit the ride or activity to be promptly repaired and put back into service without an investigation and inspection. The Department shall make a record of such decision and record it upon the written report submitted concerning the accident.
- (3) Accidents in which further safe operations may be compromised. In the event of an accident involving either personal injury or property damage and of which the owner or operator has knowledge in which there is a discernible risk that further safe operation of the ride or activity may be compromised (Authority: O.C.G.A. [25-15-53](#)):
 - (a) The ride or activity shall be shut down and immediately taken out of service;
 - (b) The ride or activity shall be secured to prevent operation until the Office has conducted a full investigation; and

- (c) The accident shall be immediately reported to the Office by telephone, and shall be augmented by a detailed written report submitted by certified mail or similar means not later than the close of the next business day following the accident.
 - (d) If, at the time of the telephonic report, the owner or operator and a qualified repair technician present sufficient information to the Office, the Department may, in its discretion, permit the ride or activity to be promptly repaired and put back into service without an investigation and inspection. The Office shall make a record of such decision and record it upon the written report submitted concerning the accident.
- (4) All other accidents or incidents. In order to evaluate the overall safety of regulated rides and activities, and to permit the identification of trends which may permit the effective prevention of accidents, all other accidents and incidents involving personal injury or property damage, but not including minor personal injury/illness, sustained by reason of the operation or malfunction of a ride or activity shall be reported as follows (Authority, O.C.G.A. Sec. [25-15-53](#)):
- (a) The accident or incident shall be reported in writing to the Office within 30 days of the accident or incident, or within 30 days after the owner or operator knows a belated report of personal injury. In the alternative, such reports may be accumulated and submitted on a monthly basis.
 - (b) The report shall summarize the accident or incident; shall note any equipment repair or adjustment accomplished; and shall include any witness statements taken.

Authority: O.C.G.A. Sec. [25-15-61](#).

History. Original Rule entitled "Medical and First Aid, Fatalities, Personal Injury, and Accidents. Amended "adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.07. Inspection Fee and Permit.

- (1) Before commencing operations in 1986 and in each year thereafter, an owner shall make application to the Office containing information as required by the Office. The application, when filed, shall be accompanied by a certificate of insurance, bond, or other security indicating that the owner has complied with the amusement Rules and Regulations for the State of Georgia.
- (2) No amusement ride or amusement park ride or slide shall be operated without a permit, except that a ride covered by a valid permit to operate for the preceding year may continue to operate for the current year, until reinspected. This carry-over permit shall be known as a temporary permit.

- (3) All stationary amusement rides and amusement park slides shall be inspected by the Office before they are originally put into operation for the public's use and thereafter at least once every year, unless authorized to operate on a temporary permit.
- (4) Upon receiving an application there will be a one-time charge of \$50.00 for processing of the permit.
- (5) The Office shall charge an annual inspection fee of \$65.00 for each slide, aerial lift or amusement ride.
- (6) After inspection, if the amusement ride is found to comply with this Chapter, the Office shall authorize the ride for use by the public provided the inspection fee has been paid.
- (7) No amusement ride shall be used at any time or location unless prior notice of intent to use the same has been given to the Commissioner.
- (8) Notice of planned schedules shall:
 - (a) Be in writing;
 - (b) Identify the ride;
 - (c) State the intended dates and location of use; and
 - (d) Be mailed to the Office of Insurance and Safety Fire, Safety Engineering Section on or before January 1 of each year, on a form furnished by the Office.
 - (e) In the event a special inspection is made, an additional fee of \$75.00 per hour and all traveling expenses incurred in connection with the inspection will be charged.
 1. The expenses shall be governed by the regulations for traveling expenses established for state officials. In cases where a trip is made to inspect two or more parties, the traveling expenses shall be prorated between the parties on the basis of time and expenses incurred for each inspection.
 2. A special inspection is any non-routine inspection which includes but is not limited to:
 - (i) Failure to report a schedule change after scheduling an inspection.
 - (ii) All violation follow-up inspections which require a special trip to verify compliance.
 - (iii) Scheduling an inspection with less than 72 hours notice.
- (9) A copy of the permit issued by the Office shall be continuously displayed at the entrance to the park when the ride is in use. The permit shall be encased in such a manner as to be

protected from weather conditions. Duplicate of such permits shall be issued by the Office.

- (10) The owner of an amusement ride shall notify the Commissioner when ownership is transferred to another owner. In such a case, the new owner shall obtain a new permit.

Rule 120-3-27-.08. Insurance, Bond or Other Security.

- (1) No person shall operate a ride unless at the time, there is in existence:
 - (a) A policy of insurance in an amount not less than (one million dollars) \$1,000,000 insuring the owner or operator against liability for injury to persons arising out of the operation of the amusement ride; or
 - (b) A bond in a like amount provided, however, that the appropriate liability of the surety under such bond shall not exceed the face amount thereof; or
 - (c) Cash or other security acceptable to the Office.
- (2) The policy shall be procured from one or more insurers acceptable to the Office.

Rule 120-3-27-.09. Operation, Amusement Rides.

- (1) The ride operator shall be at least 16 years of age.
- (2) The ride operator shall operate no more than one mechanical ride at any given time as provided by the A.S.T.M. Standards or manufacturers specifications.
- (3) The ride operator shall be properly trained before he is assigned the duties of operating a ride.
- (4) The ride operator shall have knowledge of the use and function of all normal and emergency operating controls and the proper use of the ride.

- (5) The ride operator shall be in the immediate vicinity of the amusement ride operating controls at all times during normal operations of the ride. This Rule shall not be construed to prohibit passengers from using amusement ride operating controls designed for use by a passenger.
- (6) The ride operator shall exercise reasonable control over the amusement ride to prevent dangerous actions by passengers.
- (7) The ride operator shall watch for apparent impending mechanical failures of the amusement ride.
- (8) The ride owner of an amusement ride shall insure that his or her ride is operated in a manner which precludes foreseeable mischievous use of the ride.
- (9) The ride operator shall not operate any ride when under the influence of drugs or alcohol.
- (10) The ride operator or maintenance personnel shall lock-out the electrical disconnect switch when restoration of electrical power to an amusement ride could create a hazard to persons during the performance of maintenance, repair, inspection, or an emergency evacuation of passengers and insure that it remains locked-out until such time that restoration of power will not create a hazard.
- (11) An amusement ride shall not be overcrowded or loaded in excess of its safe carrying capacity.
- (12) Amusement rides shall not be operated at an unsafe speed or at any speed beyond that recommended by the manufacturer.
- (13) Signal systems for the starting and stopping of amusement rides shall be provided where the operator of the ride does not have a clear view of the point at which passengers are loaded or unloaded.
- (14) Any code of signals adopted for the operation of any amusement ride shall be printed and kept posted at both the operator's and the signalman's stations. All persons who use these signals shall be carefully instructed in their use.
- (15) Signals for the movement or operation of an amusement ride shall not be given until all passengers and other persons who may be endangered are in a position of safety.
- (16) Voice communication shall be provided between the ride operators at the entrance, intermediate points and the termination of an amusement ride where voice communication could provide improved control of the ride by reducing a hazardous condition created by distance or lack of visibility between these points.
- (17) Where a ride exposes a passenger to high speed, substantial centrifugal force or a high degree of excitement, the owner shall post a conspicuous warning sign at the entrance to the ride advising the public of risk to passengers.

- (18) The sign required by (17) above shall be at least two feet by two feet in sharply contrasting colors.
- (19) The sign required by (17) above shall read as follows or express an equivalent warning:
 - (a) The following people should not ride this ride:
 - 1. Those with heart conditions;
 - 2. Pregnant women;
 - 3. Those with back ailments.
- (20) The owner or ride operator shall have the right to refuse any member of the public admission to a ride if his bearing or conduct will endanger himself or other members of the public.
- (21) The owner or ride operator shall have the right to refuse admittance to any ride if the intended passenger's health or physical condition makes it unsafe for him to use the ride.
- (22) The owner or ride operator shall refuse a passenger seeking admission to a major ride if the passenger cannot meet a guardian or height restriction if the ride is subject to such a restriction. Legible signs to this effect shall be posted in full view of the public seeking admission to rides.
- (23) The owner or ride operator of an amusement ride shall not permit a person obviously under the influence of alcohol or narcotics to be admitted to any amusement ride.
- (24) A suitable number of containers shall be provided in and around amusement rides. Excessive accumulations of trash or refuse shall be promptly removed.
- (25) All parts of amusement devices and temporary structures used by passengers or customers shall be maintained in a clean condition.

Rule 120-3-27-.10. Maintenance and Inspection Records.

- (1) The owner shall retain at all times up-to-date maintenance records for each amusement ride.
- (2) These records shall contain the following information:
 - (a) Date and nature of all inspections;

- (b) Any violation of the rules and type of action taken to rectify the violation;
 - (c) All breakdowns or repairs of any major mechanical part.
- (3) Maintenance of equipment shall be in accordance with this Chapter; and any replacements thereof shall be in conformity with this Chapter. Only those bolts of grade 5 or better will be used except where stronger grade bolts are required by manufacturer.
 - (4) Repairs: In accordance with manufacturers recommendations only those procedures acceptable will be allowed.
 - (5) An amusement ride shall be inspected and tested on each day when it is intended to be used. The inspection and test shall be made by a qualified person experienced and instructed in the proper assembly and operation of the device and shall be performed before the ride is put into normal operation.
 - (6) The inspection and test shall include the operation of control devices, speed-limiting devices, brakes and other equipment provided for safety.
 - (7) All amusement rides shall have an operating manual. The owner of an amusement ride shall operate the ride in accordance with the manufacturer's operating manual. In the absence of a manufacturer's operating manual, the owner shall write an approved operating manual. Where any conflict occurs between the operating manual and this Chapter, this Chapter shall prevail. The operating manual shall be kept with the amusement ride and shall be available for use by the office of Safety Engineering at all times.
 - (8) Welding of parts upon which safe operation depends, will be in accordance to AWS Standards welding & brazing procedures done by welders qualified to those procedures, procedures shall be provide by the manufacturer.
 - (9) The requirements for welding procedures and welder qualifications use, AWS D1.1, D1.2, D1.3, D1.6 and C3.4 (American Welding Society Standards for the welding of steel, aluminum, sheet metal and stainless steel and torch brazing.)

Rule 120-3-27-.11. Rebuilt and Modified Rides.

If an amusement ride is materially rebuilt or so modified as to change its original action:

- (a) The ride shall be re-identified by a different name or identification number or both;

- (b) The ride shall be subject to all other provisions of this Chapter as if it were a new ride not previously used.

Rule 120-3-27-.12. Assembly and Disassembly.

- (1) The assembly and disassembly of an amusement ride shall be done by or under the supervision of a qualified person.
- (2) Assembly work shall be performed in a proper and workmanlike manner. Parts shall be properly aligned and shall not be bent, distorted, cut or otherwise injured to force a fit. Parts requiring lubrication shall be lubricated in course of assembly. Fastening and locking devices, such as bolts, cap screws, cotter pins and lock washers shall be installed where required for safe operation. Nuts shall be drawn tight, cotter pins shall be spread and lock nuts firmly set.
- (3) Parts which are excessively worn or which have been materially damaged shall not be used. Close visual inspection of parts shall be made during assembly to discover such wear or damage and immediate inspection of fastening devices shall be made after assembly to assure that they have been properly installed.
- (4) Persons engaged in the assembly or disassembly of amusement rides shall be provided with and shall use tools of proper size and design to enable the work to be done in a proper manner. Broken, damaged and unsuitable tools shall not be used.
- (5) Assembly and disassembly of amusement rides shall be done under light conditions sufficient to permit the work to be properly performed and inspected.
- (6) A sufficient number of persons to do the work properly shall be engaged for the assembly or disassembly of amusement rides. Persons not so engaged shall be prevented from entering the area in which the work may create a hazard.
- (7) The owner of an amusement ride shall comply with the manufacturer's construction manual for the assembly and disassembly of the ride. The manufacturer's construction manual shall be kept with the amusement ride and shall be available for use by the Safety Engineering Section.

Rule 120-3-27-.13. Manufacturer's Information.

- (1) No new amusement ride shall be placed in service unless the following information as applicable is provided to the ride owner by the manufacturer of the ride.
- (2) The required information shall be legibly impressed on a metal plate or equivalent and readily visible at the appropriate ride.
 - (a) A manufacturer's unique serial number or code affixed to the ride in a permanent fashion;
 - (b) A manufacturer's unique serial number or code assigned to each manufactured ride type of the same structural design or components;
 - (c) The date (month, year) that the given ride met the manufacturer's required construction specifications;
 - (d) The maximum revolutions per minute, the maximum feet per second, or miles per hour;
 - (e) The capacity of the ride in terms of total passenger weight or the number of passengers;
- (3) Water ride data plates shall contain a location number of the ride or flume and the maximum dispatch time interval.
- (4) The ride owner shall maintain all of the information described in (2) above and make it available to the Commissioner upon his request.
- (5) Where any conflict occurs between the manufacturer's information or recommendations of (2) above and other provisions of these rules, the other provisions of this Chapter shall prevail.

Rule 120-3-27-.14. Brakes and Stops.

- (1) On an amusement ride or amusement attraction where coasting renders the operation dangerous, either during the period while the ride or attraction is being loaded or unloaded or in the case of power failure or other unforeseeable situation a method of braking shall be provided.

- (2) If cars or other components of an amusement ride or amusement attraction may collide in such a way as to cause personal injuries upon failure of normal controls, emergency brakes sufficient to prevent these collisions shall be provided in accordance with the manufacturer's design.
- (3) On amusement rides or amusement attractions which make use of inclined tracks, automatic anti-rollback devices shall be installed to prevent backward movement of the passenger carrying units in case of failure of the propelling mechanism.

Rule 120-3-27-.15. Internal Combustion Engines.

- (1) Internal combustion engines for amusement rides shall be of adequate type, design and capacity to handle the design load.
- (2) Where fuel tanks of internal combustion engines for amusement rides are not of adequate capacity to permit uninterrupted operation during normal operating hours, the amusement ride shall be closed down and unloaded or evacuated during the refueling procedure. The fuel supply shall not be replenished while the engine is running.
- (3) Where an internal combustion engine for an amusement ride is operated in an enclosed area, the exhaust fumes shall be discharged to the outside.
- (4) Internal Combustion engines for amusement rides shall be located to permit proper maintenance and shall be protected by guards, fencing or enclosure.

Rule 120-3-27-.16. Wire Rope.

- (1) Wire rope on amusement rides shall be thoroughly examined periodically. Wire rope found to be damaged shall be replaced with new rope of proper design and capacity as per the manufacturer's data tag. Any of the following conditions shall be cause for rope replacement:
 - (a) In running ropes, six randomly distributed broken wires in one rope lay or three broken wires in one strand in one rope lay.

- (b) In pendants or standing ropes, evidence of more than one broken wire in one rope lay.
- (c) Abrasion, scrubbing or peening causing loss of more than 1/3 of the original diameter of the outside diameter of the outside individual wires.
- (d) Severe corrosion.
- (e) Kinking, crushing, birdcaging, or other damage resulting in distortion of the rope structure.
- (f) Heat damage.
- (g) Reduction from normal diameter of more than 3/64 inch for diameters up to and including 3/4 inch, 1/16 inch for diameters 7/8 inch to 1 1/8 inches, 3/32 inch for diameters 1/4 inches to 1 1/2 inches.
- (h) Birdcaging or other distortion resulting in some members of the rope structure carrying more load than others.
- (i) Noticeable rusting or development of broken wires in the vicinity of attachments.

When this condition is localized in an operational rope, it may be eliminated by making a new attachment.

- (2) Wire ropes used to support, suspend, bear or control forces and weights involved in the movement and utilization of tubs, cars, chairs, seats, gondolas, other carriers, the sweeps, or other supporting members of an amusement ride shall not be lengthened or repaired by splicing except by a licensed cable splicer for aerial tramways.

Rule 120-3-27-.17. Hydraulic Systems.

- (1) Hydraulic systems and other related equipment used in connection with amusement rides shall be free of leaks and maintained to ensure safe operation at all times.
- (2) An amusement ride which depends upon hydraulic pressure to maintain safe operation shall be provided with a positive means of preventing loss in hydraulic pressure that could result in injury to a passenger.

- (3) Hydraulic lines shall be guarded so that sudden leaks or breakage will not endanger the passenger or the public.

Rule 120-3-27-.18. Pressure Vessels, i.e., Vacuum Tanks.

- (1) Air compressor tanks, storage tanks and appurtenances used in connection with amusement devices shall be designed and constructed in accordance with Section VIII of the ASME Code; and shall also be equipped and maintained to ensure safe operation.
- (2) Air compressor tanks and other receivers used in connection with air compressors shall comply with the Rules of the National Board Inspection Code of the Boilers and Pressure Vessel Code.
- (3) Air compressor tanks and other air receivers used in connection with air compressors shall be inspected operationally at least once a year and internally when considered necessary by a qualified inspector and a record of each inspection shall be kept.
- (4) Air compressor tanks and other air receivers used in connection with air compressors shall have the maximum allowable working pressure conspicuously marked thereon.

Rule 120-3-27-.19. Passenger Tramways.

- (1) Aerial Passenger Tramways, ANSI B77.1 - 2011 and addendum to Aerial Passenger Tramways, ANSI B-77.1a - 2012 are hereby adopted as a rule with the modifications as indicated below.
 - (a) Each owner engaged in passenger tramway operations shall protect the public by complying with ANSI B-77.1 and B-77.1a.
 - (b) Where any conflict occurs between the rule referenced in (1) above and any other rule in this Chapter, the latter shall prevail.

Rule 120-3-27-.20. Electrical Equipment.

- (1) The National Electrical Code, NFPA 70 1984, latest adopted version is hereby adopted as a rule and all future amendments shall be accepted as adopted.
- (2) This document may be purchased from the National Fire Protection Association, Battermarch Park, Quincy, MA 02269.
- (3) All electrical wiring and equipment used for amusement rides or for lighting shall be installed and maintained in accordance with the Rule adopted in (1) above.
- (4) The outlets of electrical power lines carrying more than 120 volts shall be clearly marked to show their voltage.
- (5) All electrical transformer substations shall be properly enclosed and proper warning signs shall be posted.
- (6) Electrical wiring and equipment located outdoors shall be of such quality and so constructed or protected that exposure to weather will not interfere with its normal operation.
- (7) Elevated power lines crossing access or other roads within the grounds of a carnival or amusement park shall be so suspended as to provide a vertical clearance of at least twelve feet from the road surface or three feet above any vehicle used within the grounds of a carnival or amusement park. A horizontal clearance of at least three feet shall be provided on each side of the normal passage space of vehicles.

Authority: O.C.G.A. Sec. [25-15-59](#).

History. Original Rule entitled "Electrical Equipment "adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.21. Grounding.

- (1) No overcurrent protection device shall be installed in neutral or grounding conductors.
- (2) Where electrical power is supplied for an amusement ride by a generating system, the generator and all equipment shall be properly grounded.
- (3) All receptacles and attachment plugs shall be of the grounding type.

- (4) Each electrically powered amusement ride shall be effectively grounded. The grounding shall be made effective as to all non-current carrying metal parts which may become energized and which are exposed to contact by any persons.
- (5) Grounding which does not have a resistance to ground of 25 ohms or less shall be augmented by one additional electrode of any of the types specified in Section 250-53 of the Rule referenced in Rule 120-3-27-.21.

Cite as Ga. Comp. R. & Regs. R. 120-3-27-.21

Authority: O.C.G.A. Sec. [25-15-59](#).

History. Original Rule entitled "Grounding" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.22. Construction.

- (1) An owner/operator shall furnish a certified stress analysis and other pertinent data deemed necessary by the Office for new, redesigned and all existing rides for which this information may be requested. Such stress analysis and other data pertinent to the design, structure, factors of safety or performance characteristics shall be acceptable to the Office. Failure of owner/operator to submit the requested information shall be cause for the Chief Safety Inspector to deny issuance of a permit to operate.
- (2) Structural materials and construction of rides shall conform to established engineering practices, procedures, standards and specifications. If a designer or manufacturer of equipment wishes to use materials not covered by these regulations or by reference to existing standards, such information concerning these materials or methods shall be submitted to the Office. The design details, materials and construction features shall provide safety factors acceptable to the Office.
- (3) All amusement rides shall be designed, constructed and installed so as to withstand any normal stresses to which they may be subjected.
- (4) Before being used by the public, amusement rides shall be placed or secured with blocking, cribbing, outriggers, guys or other means necessary to be stable under all operating conditions.
- (5) All amusement rides, such as, but not limited to, passenger tramways, where restoration of electrical power could create a hazard, shall be provided with a main disconnect switch capable of being locked only in the "Off" position.
- (6) The path of travel of an amusement ride shall have a clearance adequate to ensure that a passenger on the ride cannot be injured by contacting any structural member or other fixed object when the passenger is in the riding position.
- (7) All amusement rides, buildings, tents or trailers excluding water flumes with enclosed sides used for amusement assembly shall be provided with emergency lighting fixtures

clearly marking exit routes with suitable lighting to allow safe exit from same in the event of a power failure or fire.

- (8) Location. General layouts shall be established so that continuous traffic patterns will exist. Box canyons formed by rides and attractions or concession booths may not be located immediately in front of hazardous equipment. The layouts shall be such to prevent traffic patterns through the concession booth back yards. The intermingling of water lines and electrical lines shall be avoided. Long guy wires or narrow braces utilized for ride, attraction or booth support shall be clearly marked with streamers or other devices to attract attention when located in traffic patterns.
- (9) All structures used in connection with amusement rides shall be so designed and constructed as to carry safely all loads to which such structures may normally be subjected.

Authority: O.C.G.A. Sec. [25-15-56](#).

History. Original Rule entitled "Construction" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.23. Means of Access and Egress.

- (1) Safe and adequate means of access and egress from amusement rides shall be provided.
- (2) At least two means of egress remote from each other shall be provided from each floor, tier, room or balcony in structures which house amusement rides.
- (3) Access to the means of egress shall be marked by readily visible signs in all cases where the egress is not immediately visible to the passengers.
- (4) No egress shall be less than 22 inches in width.
- (5) The width of a stairway shall be taken as the length of the treads between the stringers. The width of a doorway shall be taken as the width of the door.
- (6) The maximum travel distance from the most remote point in any room or enclosed space to an open safe outside space shall be not greater than that listed below:
 - (a) 100 feet in unsprinklered construction;
 - (b) 150 feet in sprinklered construction; and
 - (c) 25 feet in dead ends.
- (7) Means of access and egress shall have protection from adjacent hazards and protection from falling by use of rails, enclosures, barriers or similar means.

- (8) Means of access and egress shall be free from debris, obstructions, projections, slipping, tripping and other hazards.
- (9) The head clearance in passageways shall not be less than seven feet.
- (10) Means of access or egress shall have either stairways or ramps and connecting landings or platforms where the public enter or leave an amusement ride that is above or below grade.
- (11) Stairways, passageways, ramps, landings, or platforms shall be not less than 22 inches in width for single lane passages or 44 inches width for double lane passages. Landings or platforms shall not be less than three feet long measured in the direction of travel.
- (12) Stair treads shall be at least eight inches deep exclusive of nosing and the height of rise shall not exceed eight inches. Between any two connecting levels the treads shall be of uniform depth and the risers shall be of uniform height.
- (13) Handrails shall be provided on both sides of all stairways of four or more risers connecting adjoining levels whose difference in elevation is 30 inches or more.
- (14) Handrails shall be provided on both sides of landings, platforms or ramps 30 inches or more above grade.
- (15) Handrails shall be at least 30 inches above the ramp surface or nose of step and 42 inches above the landings.
- (16) The distances between handrails shall not be less than 18 inches for a single lane passage and 36 inches for a double lane passage.
- (17) Two intermediate rails spaced equally apart or equivalent construction to prevent a passenger from falling through shall be provided with all handrails.
- (18) Stairways and ramps requiring handrails in accordance with (13) and (14), which are more than eight feet wide, shall be provided with railings dividing the widths into not more than eight feet and not less than the widths of (11) above.
- (19) When ride entrances are provided, ride entrances shall have a passenger waiting line retaining chain, bar, gate or device.
- (20) All stairways, ramps, accesses and egresses shall be lighted sufficiently to allow for safe entry and exit.
- (21) Fencing of all rides is mandatory and will be kept at a normal distance of 36 inches from the ride and must meet the manufacturers recommendations or Office approval.

Rule 120-3-27-.24. Walkways and Ramps.

- (1) Walkways and ramps shall be erected with a slope not greater than one in ten except that when approved nonslip surfaces are provided, the grade may be increased to a maximum of one in eight.
- (2) Elevators, Dumbwaiters, Escalators and Moving Walks, ANSI/ASME Code 17.1 latest adopted version is hereby adopted as a rule and all future amendments shall be accepted as adopted.

This document may be purchased from the American National Standards Institute, 25 W 43rd Street, 4th Floor, New York, NY 10036.

- (3) Each owner of an amusement ride which uses an elevator, escalator or moving walk as part of ride shall comply with (2) above.

Rule 120-3-27-.25. Buildings and Structures as Part of an Amusement Ride.

- (1) The subchapter shall apply to the construction of buildings and structures that are a functional part of an amusement ride. To be a functional part of an amusement ride, the building or structure shall be a contributing factor to the amusement, pleasure, thrill or excitement of the ride.
- (2) The maximum height of any amusement device in which passengers are transported shall not exceed forty feet in frame construction, one hundred feet in unprotected noncombustible and heavy timber mill construction, and shall not be limited in fireproof construction.

Rule 120-3-27-.26. Fire Prevention.

- (1) All enclosed amusement park buildings over one story in height shall be constructed or protected to furnish not less than one hour fire resistance rating; except where roof framing and decking are specifically permitted to be of non-combustible or mill type construction. No styrofoam will be used inside buildings such as spook houses, etc.
- (2) All structures located within 20 feet of lot lines or within 20 feet of other structures on the same lot, shall be of protected noncombustible or protected masonry enclosed construction or better.
- (3) In addition to the fire extinguisher and firefighting equipment required by the use and occupancy of each building and structure under the provisions of the Rule every amusement ride building or structure, when required by the Commissioner, shall be provided with a system of fire hydrants and fire lines.
- (4) Fabrics constituting part of an amusement ride shall be flame resistant to meet the following field test: the application of a flame from a 3/4 inch paraffin candle for a period of one minute which does not cause the fabric to flash, nor support combustion, nor continue to flame for more than two seconds or glow for more than 30 seconds after the removal of the test flame.
- (5) Approved fire extinguishers in accordance with NFPA 10, 2002 shall be provided at the following locations to secure reasonable and adequate protection from fire hazards:
 - (a) At or near all operating gasoline or diesel engines;
 - (b) At or near all Operators' Stands excluding water flumes;
 - (c) At each food handling booth where cooking is done.
- (6) Flammable waste such as oily rags and other flammable materials shall be placed in covered metal containers which shall be kept in easily accessible locations. Such containers shall not be kept at or near exit.
- (7) Gasoline and other flammable liquids and flammable gases when stored shall be kept in reasonably cool and ventilated places. Such liquids shall be in approved containers. Smoking and the carrying of lighted cigars, cigarettes, or pipes is prohibited within 50 feet or in any area where such liquids or gases are stored, or are transferred from one container to another.
- (8) The fire limits shall comprise the areas containing congested business, commercial manufacturing and industrial uses or in which such uses are developed.
- (9) All other areas not included in the fire limits shall be designated as outside fire limits.
- (10) Fire wall separation: The building or structure or addition thereto shall be so located and constructed that every exterior wall with an adjacent fire separation of less than three feet shall be a noncombustible fire wall or shall be protected by a noncombustible fire

wall having a fire resistant rating of at least four hours. The roof covering shall have at least a Class "B" rating.

- (11) Open space with fire rated walls separation: The building or structure or addition thereto shall be so located and constructed that every exterior wall with an adjacent fire separation of more than three feet but less than 30 feet, shall be a noncombustible fire resistance rated wall. The fire resistance rating of the wall and the fire resistance rating of opening protectives for all openings in the wall shall be as shown in the table below.
- (12) The fire resistance rated wall shall be so constructed that it will remain structurally in place, against an exterior exposing fire, for the duration of time indicated by the required fire resistance rating. When the fire rated wall is adjacent to a flat roof, it shall be constructed with a parapet, and the roof covering shall be at least Class "B" roofing.

Fire Resistance Rating of Exterior Walls

Width of fire separation adjacent to exterior wall	Fire resistance rating of exterior wall	Fire resistance rating of exterior opening protectives
More than 3 ft. but less than 6 ft.	3 hour	3 hour
6 ft. or more but less than 11 feet	2 hour	1 ½ hour
11 ft. or more but less than 30 ft.	1 hour	¾ hour

- (13) Storm enclosures: Storm enclosures may be erected of frame construction not more than 10 feet in height and not more than 3 feet wider than the entrance doors which they serve, provided they do not project more than 6 feet beyond the building line.
- (14) Roof coverings: All roof coverings shall be constructed of Class "A", Class "B" or Class "C" roofings.

History. Original Rule entitled "Fire Prevention" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.27. Water Flumes, Structural Design.

- (1) Structural Design. The slides structural design and materials shall be in accord with generally accepted good structural engineering practices and shall provide a durable structure which will safely sustain all weights and pressures (dead load, live load, liquid, hydrostatic and earth pressures) for the expected operating life of the structure. The flumes and pools shall be watertight and their surfaces shall be inert, nontoxic, smooth

and easy to clean. The flumes shall be designed or ventilated, or both, to prevent a possible hazardous concentration of toxic disinfectant fumes.

- (2) Dimensional Design: All curves, turns and tunnels within the path of a slide flume shall be designed so that body impact with the walls of the flume or ceiling of a tunnel does not present a hazard. The slide flume shall be banked to keep the slider's body safely inside the flume or curve under all foreseeable circumstances.
- (3) All slopes within the path of the slide flume shall be designed so that the slider's speed does not exceed a level where a safe equilibrium of dynamic forces cannot be maintained on any curve or turn within that path, as specified by (2) above.
- (4) In sections of the elevated flumes where, contrary to intended use, a slider may stop, there shall be safety walls or other provisions to keep the slider from falling out of the flume.
- (5) The construction, the dimensions and the mechanical attachment of slide flume bed components shall be such that the surface of the slide flume is continuous and smooth for the entire length.
- (6) Wall thickness of flumes should be designed so that the continuous and combined action of hydrostatic, dynamic and static loads and normal environmental deterioration do not cause structural failures which could result in injury.
- (7) Flume exit sections shall be designed to assure safe entry speeds, angles and stopping distances.
- (8) The distance between the centerline of a flume exit and a splash pool side wall shall be at least 5 feet. The distance between sides of adjacent flume terminuses shall be at least 6 feet center line to center line. The distance between a flume exit and the opposite side of the splash pool, excluding steps, shall be at least 20 feet.
 - (a) High-Speed Slides: Special provisions shall be made in flume exit design, pool depth and pool width, measured from flume exit, to safely accommodate slide specifically designed with greater slopes or other special features which allow an unusually rapid descent.
 - (b) Multiple-exit slides: Multiple-exit slides shall have parallel exits or be constructed so that their centerlines do not intersect for a distance of at least 20 feet from the exists of each flume. If slides with nonparallel exits discharge bathers at a high speed, the centerlines should not intersect for at least 30 feet.
- (9) A flume exit system shall provide safe entry into the splash pool. Present practices for safe entry include a water backup, a deceleration distance and an altitude control. Other methods are acceptable as long as safe exit velocities and proper user attitudes are assured under normal use.

- (10) Splash pool depth at the end of a flume shall be at least 3 feet. This depth shall be maintained in front of the flume for a distance of at least 20 feet, from which point the splash pool floor may have a constant slope upward to the minimum water depth. These slopes shall be no more than 1 foot in 7 feet. If special exit systems that assure safe exit from the flume and safe entry to the splash pool are used, the 3-foot depth and minimum maintenance distance for this depth can be waived.
- (11) Decks along the exit side of the splash pool which have the function of providing an exit route only for sliders, shall be a minimum of 5 feet in width. If the deck is utilized by both sliders exiting the plunge pool and observers, the said deck shall be a minimum of 10 feet in width. All deck surfaces shall have a slip-resistant surface and shall be sloped away from the plunge pool so as to prohibit surface water from entering the plunge pool.

The said slope shall not exceed 1 foot in 7 feet.

- (a) Provisions shall be made to eliminate standing water at all deck areas adjacent to the entrance at the top of the flume.
 - (b) Decks along the side opposite the pump reservoir shall be at least 4 feet wide and shall have the same slip resistance and drainage requirements as top and splash pool decks.
 - (c) The pump reservoir area shall be accessible, for cleaning and maintenance, by a 3-foot minimum width walkway deck.
- (12) A 4-foot minimum width walkway, walkway steps, or stairway shall be provided between the plunge pool and the top of the flume. Walkways and steps shall be well drained, non-slippery and separated from the flume by a physical barrier, set back far enough from the operating flume so that users cannot contact it on the way down.
- (13) All stairways used as part of a slide shall not retain standing water and should conform to the requirements of local building codes.
- (14) Visitor and Spectator Areas: The spaces used by visitors and spectators shall be distinctly and absolutely separated from those spaces used by sliders. Visitors and spectators in street clothes may be allowed within the perimeter enclosure if they are confined to an area separated from the space the sliders use.
- (15) Typical Posted User Safety Warnings for Slide Operational Use:
 - (a) No running, standing, kneeling, rotating, tumbling, or stopping in flumes or tunnels.
 - (b) No diving from flume at any time.
 - (c) Never use this slide when under the influence of alcohol or drugs.

- (d) Only one person at a time. Obey instructions of top pool supervisor and lifeguard at all times.
- (e) Never form chains unless authorized by slide manager or by posted instructions.
- (f) Keep hands inside the flume.
- (g) Leave the landing pool promptly after exiting from slide.
- (h) Keep all glasses, bottles and food away from pools.

Rule 120-3-27-.28. Circulation Systems.

- (1) All water impounding flumes or rides using lakes with adequate fresh water inlets and outlets to prevent contamination shall not be required to comply with the following requirements on circulation.
- (2) The filtration system shall be of adequate size to maintain water quality/clarity at a level not to exceed .5 J.T.U.'s (Jackson Turbidity Units) at all times.
- (3) All equipment shall have installation and operation instructions posted in the immediate area of the equipment.
- (4) Appropriate gauges shall be provided on both the influent and effluent sides of the filtration pumps/filters in order to assess the efficiency of said filter.
- (5) Materials used in the circulation system shall comply with the requirements of the latest joint National Swimming Pool Institute - National Sanitation Foundation standards.

Rule 120-3-27-.29. Filters.

- (1) All water impounding flumes or rides using lakes with adequate fresh water inlets and outlets to prevent contamination shall not be required to comply with the following requirements on filtration.

- (2) Filters shall be designed to maintain pool water under anticipated operating conditions in accordance with guidelines.
- (3) A means for releasing air which enters the filter tank shall be provided. This may be automatic or manual. Where an upflow design is used, air must be expelled through the filter tank. Any filters incorporating an automatic internal air release as their principal means of air release must have lids which provide a slow and safe release of pressure. Any separation tank used in conjunction with a filter tank shall have a manual means of air release or a lid which provides a slow and safe release of pressures.
- (4) A statement warning personnel not to start the filter pump without first opening the air release shall be clearly visible on the separation tank in the area of the air release.
- (5) Piping furnished with the filter shall be capable of withstanding three times the working pressure. The suction piping shall not collapse when flow on the suction side of the pump is completely shut off.

Authority: O.C.G.A. Sec. [25-15-59](#).

History. Original Rule entitled "Circulation Systems" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.30. Pumps.

- (1) Pumps and motors shall be provided to circulate the water in the splash pool and slide. Performance of all filter pumps shall meet the conditions of flow required for filtering and cleaning (if applicable) the filters against the total head developed by the complete system. Flume pumps and motors shall be of adequate size, as specified by the flume manufacturer, and shall meet all National Swimming Pool Institute standards for swimming pool pumps.
- (2) The pump suction header shall have a gauge which indicates vacuum. The gauge shall be installed as close to the pump inlet as possible.
- (3) All pressure filter systems shall have suitable removable strainers or screens before all circulation pumps to remove solids, debris, hair, lint, and other materials.
- (4) Pump units shall be accessible for inspection and service.
- (5) All motors shall be, as a minimum, an open drip-proof enclosure (as defined by the latest National Electrical Manufacturers Association standards).
- (6) All motors shall have thermal overload protection.
- (7) The motor frame shall be properly grounded.

- (8) Pumps used on slides shall comply with the latest joint National Swimming Pool Institute-National Sanitation Foundation performance standards in effect at the time the pump is installed.

Authority: O.C.G.A. Sec. [25-15-59](#).

History. Original Rule entitled "Pumps" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.31. Inlets and Outlets.

- (1) Pool inlets and outlets shall produce a uniform circulation of water to maintain a uniform disinfectant residual.
- (2) The number and location of pool inlets shall be adequate and appropriate to insure that uniform water quality, as described herein, is maintained at all times.
- (3) At least one outlet shall be provided at the lowest point of the floor to completely drain the entire floor. When the main outlets for pool pump suction are installed in the pool floor near one end, the spacing shall not be greater than 20 feet (6.1 m) on centers, and an outlet shall be provided not more than 15 feet (4.57 m) from each side wall. The total velocity through grate openings shall not exceed 2 feet per second (61 cm/second). Grate openings shall be designed to prevent fingers and toes, etc., from being trapped in the openings.
- (4) Outlets on pump suction, except those for skimmers shall be covered with suitable protective grates that cannot be removed except with tools.
- (5) An over-the-rim spout, if used shall not create a hazard. Its open end shall have no sharp edges and shall not protrude more than 2 inches (5.1 cm) beyond the edge of the pool.
- (6) Inlets from the circulation system shall not project enough to cause harm to the splash pool user.

Authority: O.C.G.A. Sec. [25-15-59](#).

History. Original Rule entitled "Inlets and Outlets" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.32. Piping.

- (1) The size of the slide circulation piping shall permit the rated flows for filtering and cleaning without exceeding the total head developed by the pump at the rated flow.

- (2) The water velocity shall not exceed 10 feet per second (3.05 m/second) for discharge piping, except for copper pipe where the velocity shall not exceed 8 feet per second (2.4 m/second) and asbestos cement pipe, where the velocity shall not exceed 6 feet per second (1.83 m/second). Suction velocity for all piping shall not exceed 6 feet per second (1.88 m/second).

History. Original Rule entitled "Piping"adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.33. Waste Water Disposal.

- (1) Overflow water shall be returned to the filter system or discharged to a waste system approved by local authorities. Where perimeter overflow water discharges into a sanitary sewer, a suitable air gap at least 1 1/2 times the discharge diameter shall be provided to create a gravity drip which has no direct mechanical connection into the sewer.
- (2) When an air gap is impractical, a relief manhole with a grated cover shall be constructed in the perimeter overflow main waste line, the clear area of which shall be twice the area of the main waste piping. It shall be at a level so that the waste flow in the line will rise in the manhole and overflow at ground level not less than 2 feet (61 cm) below the level of the perimeter overflow lip.

Rule 120-3-27-.34. Water Quality.

- (1) Water impounded by the ride owner and used as an integral part of a water amusement ride, whether it be a part of a water contact ride or a water noncontact ride, which could expose the public to a safety or health hazard shall be maintained in a safe and sanitary condition in accordance with this section.
- (2) The owner of any water amusement ride as described in (1) above shall provide evidence of the sanitary condition of such water when requested by the Safety Engineering Section.
- (3) In order to maintain the safe and sanitary condition of water in a water amusement ride the owner of a water amusement ride shall disinfect with chlorine or other approved disinfecting agent.
- (4) Impounded water, when in use, shall be:

- (a) Sufficiently clear to permit the bottom of the water reservoir at its deepest point to be visible from an outside edge of the reservoir;
- (b) Aesthetically pleasing; and
- (c) Free of floating or suspended matter, except those items used specifically as part of the amusement.

Authority: O.C.G.A. Sec. [25-15-59](#).

History. Original Rule entitled "Water Quality" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.35. Disinfectant and Chemical Feeders.

- (1) Disinfectants used in flume and pool water shall provide a disinfecting residual in the pool water. Chlorine or chlorine compounds are most frequently used for this purpose, but other bactericidal agents or apparatuses are acceptable if registered by the U. S. Environmental Protection Agency.
- (2) Adequate and appropriate equipment for introducing a disinfectant into the recirculating system shall be provided. This equipment shall be of sufficient capacity to maintain appropriate disinfectant residual levels at all times. The DPD (diethyl-p-phenylenediamine) or other suitable free chlorine test method is suggested as a means of testing for the free chlorine residual.
- (3) Feeding equipment shall be capable of permanently and precisely feeding the required quantity of disinfecting agent to the pool water. The disinfecting material used shall be subject to field-testing procedures.
- (4) Chemical Operational Parameters; National Swimming Pool Institute Standards set forth the suggested operational parameters for proper chemical treatment and maintenance of both flume and pool waters. Because of high aeration rates and potentially high slider loads in the lower pool, tests for water quality and chemical balance shall be made every two hours the facility is operating. Proper water balance shall be obtained each day before the facility is opened to the public.
- (5) Recommendations on the Use of Elemental Chlorine and Operational Procedures: Although chlorine solution (hypochlorite) is preferable from a safety standpoint, gaseous chlorine may be approved as the disinfectant.
- (6) Hypochlorinators or other adjustable-output rate chemical-feeding equipment shall conform to the joint National Swimming Pool Institute-National Sanitation Foundation Standard #19, relating to "Adjustable Output Rate Chemical Feeding Equipment and Flow Thru Chemical Feeding Equipment for Swimming Pools."

- (7) Equipment and Installation: Chlorination equipment shall be located so that an equipment failure or malfunction will have a minimum effect on an emergency evacuation of patrons.
- (8) The chlorinator, cylinders of chlorine, hypochlorite and associated equipment shall be housed in a reasonable open building with a leak detection system set at or slightly above ground for the detection of chlorine gas. Cylinders shall be securely fastened to a wall or post. Except for chemicals used to check chlorine leaks, no other chemicals shall be stored in the chlorine enclosure.
- (9) Chlorine cylinders must be handled with care. Valve protection caps and valve outlet caps must be in place at all times, except when the cylinder is connected for use. Cylinders must not be dropped and shall be protected from falling objects. Cylinders shall be used on a first-in, first-out basis. Fresh washers shall be used each time a cylinder is connected.
- (10) As soon as a container is empty, the valve shall be closed and the lines disconnected. The outlet shall be promptly capped and the valve protection hood attached. The open end of the disconnected line shall be plugged or capped promptly to keep atmospheric moisture out of the system.
- (11) Although chlorine suppliers make every effort to furnish chlorine in properly conditioned cylinders, chlorine gas leaks may still occur. Operating personnel shall be informed about leak-control procedures.
- (12) Enclosures shall be located at ground or above ground level. If the enclosure must be installed below grade, it shall have airtight ducts from the bottom of the enclosure to atmosphere in an unrestricted area, a motor-driven exhaust fan capable of producing at least one air change per minute and automatic louvers of good design near the top of the enclosure for admitting fresh air. The enclosure shall be inaccessible to casual slide users and, if possible, locked. All keys shall be kept on the premises so that they will be readily available when needed by servicing personnel.
- (13) Containers may be stored indoors or outdoors. Full and empty cylinders shall be segregated and tagged.
- (14) An automatic chlorine leak detector shall be installed, especially in below-grade installations.
- (15) Respirators approved by the National Institute for Occupational Safety and Health shall be provided for protection against chlorine.
- (16) At least one approved self-contained breathing apparatus shall be provided. Respiratory equipment shall be mounted outside the chlorine enclosure and filter cartridges replaced after each use.

- (17) Elemental chlorine feeders shall be activated by a booster pump, with recirculated water. The booster pump shall be electrically or mechanically interlocked to the filter pump to prevent the feeding of chlorine when the recirculation pump is not running.
- (18) Connections from the cylinders to the system depend on the type of chlorinator used and shall comply with the chlorinator manufacturer's recommendation.
- (19) Electrical switches for the control of artificial lighting and ventilation shall be on the outside of the enclosure, adjacent to the door.
- (20) Responsibility for Chlorination and Water Treatment: A specific person on each shift shall be responsible for disinfection and water treatment operations and shall be thoroughly trained in the performance of routine operations, including emergency procedures and leak-control problems. If possible, these people should complete training courses on swimming pool operations, given through local departments of health. A typical reference text available for such training is Swimming Pool Operators Handbook, published by the National Swimming Pool Foundation. This text is available through the National Swimming Pool Institute, 200 K Street, N. W., Washington, D.C. 20006. Another reference is Swimming Pools-Safety and Disease Control Through Proper Design and Operation. This manual is available through the Environmental Health Services Division, Center for Environmental Health, Centers for Disease Control, Atlanta, Georgia 30333. As an alternative, they should be trained by a professional operator. The facility shall not be in operations without such a person in attendance. No one else shall be responsible for chlorination or water treatment operations.
- (21) A safety chart shall be posted in or near the chlorine enclosure, and a second chart shall be in the pool office near the telephone. Such charts are available from many suppliers and from the Chlorine Institute, 342 Madison Avenue, New York, New York 10017. The telephone number of the chlorine supplier shall be shown on these charts.
- (22) Responsibility for Circulation and Filter System Operation. A specific person on each shift shall be made responsible for circulation and filter system operation, checks, maintenance, backwash and cleaning. This person shall be trained by a professional operator or an expert in swimming pool operations and shall carry out all scheduled cleanings and maintenance on the circulation and filter systems.

Rule 120-3-27-.36. Electrical Safety and Lighting.

- (1) The latest National Electrical Code, as published by the National Fire Protection Association, or a local code, whichever is more restrictive, shall be used for the wiring

and grounding of all electrical equipment associated with a slide and for the grounding of all metallic appurtenances.

- (2) Whenever slides are operated after dark, artificial lighting shall be provided in upper and lower pool and deck areas, walkways, stairways, and flumes, as recommended by local codes or The Illuminating Engineering Society Lighting Handbook.

Rule 120-3-27-.37. Operation, Water Slides.

- (1) Personnel responsible for the operation of disinfecting equipment shall be properly trained in equipment operation, field test procedures, and emergency procedures.
- (2) The manufacturer or the general contractor of the slide shall provide the operator with a detailed written operational manual, or guide, for all phases of operations and normal maintenance of each component of the system. The guide shall be kept in a secure area and made available to each employee as needed. This guide shall include, as a minimum, the following information:
 - (a) Customer safety rules to be posted at the entrance to flumes;
 - (b) Required training or certification levels of upper and lower pool supervisors;
 - (c) The number and type of operating personnel;
 - (d) Specific work statements for each employee;
 - (e) Recommendations on the safe handling of crowds during emergencies;
 - (f) Slide maintenance and cleanup;
 - (g) Disinfectant operation;
 - (h) Chlorine cylinder changing procedure (if applicable);
 - (i) Pump operating instructions;
 - (j) Backwash procedure;
 - (k) Operating instructions for vacuum filters (if applicable);
 - (l) Filter pit draining and cleaning procedure;

- (m) Water test instructions - frequency of testing, method of test, interpretation of results;
- (n) Filter checks;
- (o) Record-keeping for health department;
- (p) First-aid reports;
- (q) Emergency phone numbers;
- (r) Equipment and operational trouble-shooting instructions;
- (s) Safe repair practices for flume and decks.

History: Original Rule entitled "Operation, Water Slides" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.38. Competence of Operators.

- (1) Having properly trained and conscientious employees on site is the most important safety factor in the operation of slides.
- (2) At least one person who has completed the Standard First Aid and Personal Safety course, as offered by the American National Red Cross, or the equivalent shall be on duty at all times during operating hours. This person shall also be competent in carrying out any emergency procedures peculiar to the slide he or she is operating.
- (3) Splash Pool Supervisor: The principal function of the lower pool supervisor is to serve as a lifeguard. The lower pool supervisor shall be qualified in life-saving techniques through Red Cross training or the equivalent. He or she shall also control crowds in the splash pool by keeping sliders moving into and out of the lower pool as quickly and in as orderly a manner as possible; and shall control any horseplay, running, or unsafe behavior in the lower flumes, the splash pool and on the pool decks.
- (4) Upper Pool Supervisor: The principal functions of the pool supervisor are to control crowds and sliders starting from the upper pool and flume, control the timing of each person on the slide and supervise all visible portions of the flumes.

Authority: O.C.G.A. Sec. [25-15-60](#).

History: Original Rule entitled "Competence of Operators" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.39. Emergency Procedures.

- (1) The need for emergency planning in areas of public recreation has been demonstrated by past experience. Being prepared for problems is the best method of minimizing their consequences. Therefore, a written plan for emergencies shall be carefully devised and kept up-to-date. All employees shall be trained and drilled periodically in the execution of the plan. During operational hours, a person qualified through American National Red Cross training in both first-aid and life-saving techniques shall be on duty at all times.
- (2) The emergency plan shall encompass crowd control and safe evacuation, drownings, electrical shock, heat prostration, fractures, poisonings, cuts and burns, neck and back or spinal injuries and exposure to chlorine gas. Each of these situations is addressed in the latest American National Red Cross handbook on first aid, a copy of which shall be on hand at the same location as the emergency plan, the first-aid kit, and the emergency telephone numbers.
- (3) Each park shall have available the following first-aid supplies:
 - (a) First-Aid Kit. A standard 24-unit kit stocked and readily accessible for use;
 - (b) A stretcher and blankets;
 - (c) A standard plywood backboard or other acceptable splint, made to the specification of the American National Red Cross, for persons with back and neck injuries;
 - (d) An area or room shall be set aside for the emergency care of casualties.
- (4) Every park shall have posted by the phone a list of current emergency numbers, such as the nearest available facilities, ambulance service, hospital, rescue squad, police department, fire department, and the nearest local facility with capabilities to handle a major chlorine gas leak. One of the most effective methods of control of emergencies is to plan for them in the original design of the facility. Health and safety officials should review and comment on the original plans and layouts before a building permit is issued.
- (5) Two types of emergency situations for which evacuation procedures shall be developed are:
 - (a) Major release of chlorine gas;
 - (b) Power outage during night time operation.

History. Original Rule entitled "Emergency Procedures" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.40. Power Outage.

Each facility shall have an emergency plan for use in the event of a night time power outage. Battery-operated emergency lighting packs are available as standard building electrical items. In addition, portable lights and bullhorns shall be available to personnel at all times, and an evacuation plan shall be devised. Personnel shall be drilled regularly in execution of the plan.

Rule 120-3-27-.41. Kart Rules and Regulations.

- (1) Mandatory rules and regulations for every owner, manager, and operator who provides for the operation and use of all types of mechanically operated karts which carry or convey passengers along, around, or over a fixed or restricted route or course or within a defined area for the purpose of giving its passengers amusement, pleasure, thrills or excitement shall comply with the Georgia Amusement Ride Safety Act, the Georgia Laws and Rules for Regulating and Licensing Amusement Rides Chapter 15 of Title 25 and this Section.
 - (a) Definition of terms used in this section:
 1. The term "kart" means a powered vehicle used for amusement along, around or over a fixed restricted route or course or within a defined area including vehicles commonly called go karts and similar vehicles.
 2. The term "kart ride" includes all karts, kart track, refueling areas, spectator areas, and all other areas used in any manner for the operation of karts.
 - (b) Where a kart is defective and not in compliance with this provision, such units shall be taken out of service and clearly marked with a red tag reading "Out of Service."
 - (c) The Chief Safety Inspector or his designee, upon presenting credentials to the owner/operator, is authorized without prior notice to inspect and investigate during regular working hours and at other reasonable times, and within reasonable limits and manner, any kart, kart track, or other area of the kart rides.
 1. Inspection includes, but is not limited to, a review of necessary documents, observance and/or inspection of the karts, kart track or any portion of the kart ride.
 2. Inspection of the ride is to include: track design, track operation, kart design, fuel containers, mechanical condition and safe operation of the ride.

- (d) The Office shall order in writing, a temporary cessation of operation of the kart ride, if it has been determined after inspection to be hazardous or unsafe or the failure to comply with any of the other provisions of the Chapter or the regulations promulgated thereunder including, but not limited to, the requirements set forth in Section .04 of this Chapter. Operation shall not be resumed until such conditions are corrected to the satisfaction of the Office.

(2) Track Operations.

- (a) All karts that are operated on a kart track shall have bumpers, wheels and body parts that are compatible.
- (b) No kart shall be operated during a lightning storm, a period of tornado alert or warning, fire, riot or other civil disturbance in the amusement park or in an area adjacent thereto. Passengers shall be unloaded and evacuated from the ride and the ride shut down until normal, safe operational conditions are established.
- (c) All kart tracks shall be monitored during its operation either directly by attendants or indirectly by electronic visual and audio means acceptable to the Office.
- (d) A kart that is losing oil or fuel shall immediately be removed from the kart track and be repaired prior to returning to operation on the kart track.
- (e) Karts may only be operated by persons within the heights limits set by the manufacturer. If no height limit is set by the manufacturer, height limit shall be no less than 52 inches.
- (f) Karts designed for single or dual riders shall use a shoulder harness and belt restraint system acceptable to the Office.
- (g) All loose clothing and hair longer than shoulder length must be secured prior to operating any kart. Fully enclosed shoes must be worn by operators and passengers at all times during operation of a kart.
- (h) A person who is smoking shall not be permitted to operate a kart.
- (i) Track attendants shall not allow riders to leave their vehicles either in the pit or on the track unless assisted by a track or pit attendant.
- (j) Where a kart track exposes a passenger or operator to high speed, or a high degree of excitement, the owner shall post a conspicuous warning sign at the entrance to the kart track advising the public of risk to passengers.
- (k) The sign required by (j) above shall be at least two feet by two feet in sharply contrasting colors.

(l) The sign required by (j) shall read as follows or express an equivalent warning:

"The following people should not ride this ride.

1. Those with heart conditions
2. Pregnant women
3. Those with back or neck ailments"

(m) Every kart track shall have a sign posted at the ticket window or track entrance and in the pit area that conveys at least the following rules and regulations.

1. Height limit as specified by manufacturer, or no less than 52 inches.
2. Keep both hands on the wheel and both feet in the kart at all times. Do not get out of kart unless track attendant is present.
3. All loose clothing and hair longer than shoulder length must be secured. Fully enclosed shoes must be worn by operators and passengers at all times during operation of kart.
4. No smoking in karts or pit area.
5. Persons under the influence of intoxicants will not be allowed to operate karts.

(n) The use of private karts or vehicles will be prohibited on kart or other vehicle tracks while open to the general public.

(3) Kart Designs:

- (a) The speed of every kart shall be set at a limit of not more than 20 mph, and not to exceed the maximum speed for which the track is designed and acceptable to the Department.
- (b) Where the design of a kart enables the readjustment of its speed, the means of adjusting the speed shall not be accessible to the operator of the kart.
- (c) The seat, back rest, seat belts and leg area of every kart shall be so designed as to retain the driver inside the kart in the event of a collision or overturn.
- (d) No more than one person shall occupy a kart at one time unless the kart is designed and equipped with a seat belt system that is intended for two persons.

- (e) All karts shall be provided with sufficient guards to prevent anyone from coming in contact with drive chains, belts, hot muffler, engine parts or any rotating parts.
 - (f) The steering wheel and its hub and all exposed components on a kart shall be padded to minimize the risk of injury to an occupant in the event of a collision or overturns.
 - (g) All karts shall have headrests of roll bars which must be of sufficient height and strength so as to provide the occupant with protection in the event a kart should roll over.
 - (h) A kart shall be provided with impact absorbing bumpers, or energy absorption body parts.
 - (i) Kart wheels shall be so enclosed or guarded so that the wheels of another kart cannot interlock with or ride over the wheels of another kart.
 - (j) The kart fuel tank shall be so designed and mounted that it cannot be damaged or spill any fuel in the event of collision or the kart overturning.
 - (k) All karts shall have sufficient muffler systems installed so as to prevent any undue noise levels which will interfere with the track operations, adjacent businesses, residential areas or damage the hearing of employees or patrons.
 - (l)
 - 1. Daily inspections shall be made on all karts prior to operation. It shall include but not limited to: tires, padding, steering, frame welds, spindles, axles, safety belts, roll bars, gasoline tank condition, brake and gas pedal operation, etc., as recommended by the kart manufacturer and acceptable to the Office.
 - 2. Weekly as recommended by manufacturer and acceptable to the Office.
 - 3. Monthly as recommended by manufacturer and acceptable to the Office.
 - 4. Annually as recommended by manufacturer and acceptable to the Office.
- (4) Track Design:
- (a) The design of the kart track shall be consistent with the kart manufacturer's recommendations and acceptable to the Office.
 - (b) A kart track shall:
 - 1. Have a hard and smooth surface as recommended by kart manufacturer.

2. Provide road grip sufficient to enable a kart to be driven safely at maximum speed and be free of ruts, holes or bumps, water, oil, etc.
 3. Track Bank-may be banked on turns only, minimum of 2 degrees and maximum 4 degrees.
 4. Straight-away length must be flat, except two (2) degrees allowed for drainage.
 5. Track width must be a minimum of 16 feet wide and maximum 25 feet wide. On an oval track the turns should be a minimum of 5 feet wider than straight-away. The minimum radius of the turns is 15 feet.
 6. Signs that indicate one direction of travel of karts shall be posted at various locations around the kart track perimeter. Signs that indicate no "U"turn must be posted at various locations.
- (c) White or yellow lines at least four inches in width shall be used to mark all inside and outside edges of a kart track except where barriers are provided along the inside and outside edges of the kart track.
- (d)
1. A kart track shall be equipped with ABC dry chemical fire extinguishers of a minimum of 5 pounds capacity.
 2. A fire extinguisher shall be located within seventy feet of all areas of the track and one fire extinguisher shall be kept in the pit and in the refueling area.
 3. The location of each fire extinguisher shall be prominently marked and the fire extinguisher easily accessible.
- (e) Refueling of karts shall be at a designated location remote from any area that is accessible to the public and must comply with NEC 70-510, 511, 514 and other applicable codes.
- (f)
1. The shoulder of every kart track shall be level with the kart track or guarded to prevent the kart from leaving the track.
 2. The spectator area shall have a smooth and firm surface up to at least 15 feet from the edge of the kart track.
 3. Each barrier on a kart track shall:
 - (i) Be so constructed that a kart colliding with a barrier at maximum speed will:

- (I) Safely come to a full stop, or
 - (II) Be guided safely back to the proper part of the kart track;
 - (ii) Be so designed as to prevent a kart from overturning or running over or under the barrier after its contact with the barrier, and;
 - (iii) Be constructed of materials that will not readily ignite.
- (g)
- 1. Every kart track shall be surrounded by a fence that is at least 48 inches in height and be set back from the track at least 36 inches from the inside face of the barrier.
 - 2. The requirements above may be met by natural barriers that provide the same degree of protection as the fence.
 - 3. Gates will be located for easy supervision by attendants while the track is open, and locked when track is closed.
- (5) Pit or pit areas:
- (a) Must be fenced or have a barrier.
 - (b) Separate entrance and exit lanes required.
- (6) Spectator Area must be separated from track and pit areas by fence or barriers that are built sufficient to withstand full impact from kart or other type of vehicle traveling at full speed.
- (7) Electric - Lighting:
- (a) All electric will comply with NFPA 70 and all revisions.
 - (b) Lighting for night operation will comply with all applicable codes acceptable to the Office.
- (8) In addition, track design will incorporate all industry accepted standards of safety. Proposals for construction in the State of Georgia will be submitted to the Office of Insurance and Safety Fire Commissioner Safety Engineering Section and other appropriate agencies before construction begins. All building support items, etc., must be approved by appropriate agencies. These items listed above are minimum requirements.

Authority: O.C.G.A. Secs. [25-15-1](#) *in seq.*

History. Original Rule entitled "Kart Rules and Regulations" adopted. F. Sep. 4, 2013; eff. Sept. 24, 2013.

Rule 120-3-27-.42. Imposition of Civil Penalties.

(1) Issuance of Citation or Notice of Administrative Proceeding:

- (a) If, upon inspection by an inspector or deputy inspector,
 - 1. An amusement ride is deemed to be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Amusement Ride Safety Law or these rules, or
 - 3. When a written warning has been issued and the violations continues, then the deputy inspector shall issue the violator a Citation stating the date, time and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
- (b) If, upon receiving information from any source, the Chief Inspector determines that there is a reasonable belief that:
 - 1. An amusement ride may be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Amusement Ride Laws or these rules, or
 - 3. When a warning has been issued, the violation is a continuing violation, the Chief Inspector or the Director, Safety Engineering, on behalf of the Office, may issue Notice of Administrative Proceeding stating the date, time and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
- (c) The Director, Safety Engineering, upon review of a citation issued under subsection (a) above, may, in his sole discretion, dismiss the Citation and substitute therefore a Notice of Administrative Proceeding pursuant to subsection (b) above on the same, similar or different violations, as required by the evidence.
- (d) The Commissioner of Labor, upon review of a Citation or Notice of Administrative Proceeding, in his sole discretion, may refer the matter to the appropriate prosecuting official for criminal or injunctive relief as permitted under law. In such event, the Commissioner may, in his sole discretion, elect to dismiss, suspend, or continue with the civil penalty proceeding.

(2) Hearing Procedure:

- (a) If a request for a hearing is not received from the respondent within the allotted time, the Director, Safety Engineering, on behalf of the Commissioner, may without further process impose a civil penalty not greater than the total of civil penalties set forth on the Citation or in the Notice of Administrative Proceeding. An administrative order under the authority of the Commissioner may be issued to collect the civil penalty assessed. If the civil penalty is not paid; the Commissioner may authorize the Director to file appropriate legal action in the name of the Commissioner through the Attorney General to collect the civil penalty.
- (b) Upon receipt of a request for a hearing pursuant to any Citation or Notice of Administrative Proceeding, the Director, Safety Engineering, shall determine, in his sole discretion, whether the hearing shall be held before the Commissioner of Insurance and Safety Fire, or referred to the Office of State Administrative Hearings. If the hearing is to be before the Commissioner, the Director shall set a date and time for the hearing and shall cause the case file to be referred to the Attorney General for legal representation of the Office. If the Director determines that a hearing before the Commissioner is not warranted, the matter shall be referred to the Office of State Administrative Hearings pursuant to O.C.G.A. [50-13-41\(a\)\(1\)](#). The case file for an OSAH proceeding may be referred to staff counsel within the Department or to the Attorney General for representation of the Department. The Office of State Administrative Hearings will set the date, time and place of hearing as prescribed by OSAH Rules.
- (c) All hearings, whether before the Commissioner or before the Office of State Administrative Hearings, shall be subject to the powers and procedures set forth in the Administrative Procedure Act, including but not limited to O.C.G.A. [50-13-13](#) and [50-13-15](#).
- (d) The decision of an administrative law judge made after a hearing before the Office of State Administrative Hearings shall be the initial agency decision as set forth in O.C.G.A. [50-13-41\(d\)](#) and shall be subject to review by the Commissioner of Insurance and Safety Fire, as set forth in O.C.G.A. [50-13-41\(e\)](#). A hearing before the Commissioner shall be the final agency decision in the matter and shall be subject to judicial review as set forth in O.C.G.A. [50-13-19](#).

(3) Guidelines for imposition of civil penalties:

- (a) Any person, firm partnership, corporation or other business entity, which violates this part, shall be subject to the imposition of civil penalties. Each day on which a violation occurs shall constitute a separate offense. Repeat offenders, including those who refuse to adhere to orders of inspectors, exceed the limitations of operating permits, or refuse to adhere to the requirements of these rules and regulations, may be referred appropriate prosecuting official for criminal (misdemeanor) or injunctive relief as permitted under law. Serious violations,

including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may also be referred appropriate prosecuting official for criminal (misdemeanor) or injunctive relief as permitted under law.

- (b) Notwithstanding the recommended minimum penalties set forth below, a serious violation, including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may receive the maximum penalty of \$5,000.00 for each violation including a first offense. The imposition of a penalty for a violation of this part shall not excuse the violation or permit it to continue.
- (c) The deputy inspector issuing a Citation shall, at the time of issuance, specify a recommended civil penalty amount for each specific violation in accordance with these Rules and Regulations. The Director, Safety Engineering, is charged with the responsibility to ensure that recommended penalties for violations are graduated with the more serious violation receiving the heavier penalty and with assuring uniformity of recommended penalties such that offenders in similar circumstances with similar violations receive similar penalty recommendations. In this regard, the Director may dismiss a Citation and issue a Notice of Administrative Proceeding solely for the purpose of making an appropriate penalty recommendation.
- (d) The recommended civil penalty set forth in the Citation or Notice of Administrative Proceeding shall be given great deference by the Hearing Officer. The *minimum* recommended penalties set forth below are normally for first offenses with only one violation being cited. The Hearing Officer shall, after hearing the case, consider factors in mitigation of the violations as well as those in aggravation. The Hearing Officer shall impose a penalty less than the recommended *minimum* penalty only upon finding unusually significant mitigating factors, and shall set forth those factors in the order. The Hearing Officer may impose a penalty substantially greater than the department's recommended penalty upon finding significant aggravating factors associated with the violation, and shall set forth those factors in the order. The Hearing officer shall consider the provisions of these Rules and Regulations guiding the assessment of penalties. In particular, the Hearing Officer, shall, in cases involving continued operation of equipment without valid operating certificates; continued operation of equipment after failing to notify the department of an accident involving structural damage, bodily injury, or death; or continued operation after an unsafe condition is detected or after the equipment is taken out of service by an inspector or deputy inspector, consider the imposition of separate penalties for each day of violation. The Hearing Officer shall not assess a penalty exceeding \$5,000.00 for each violation or each day of a continuing violation. (e) The Hearing Officer may, in addition to a civil penalty, recommend in the order

that the Commissioner suspend for a period of time or indefinitely, operating certificates, permits to install, or certificates for contractors.

(4) Minimum recommended penalties:

(a) Specific violations:

1. Operating equipment without a certificate of inspection or permit.

(Authority: O.C.G.A. Secs. [25-15-55](#) and [25-15-56](#))

First offense\$250.00

Second offense \$500.00

2. Operating equipment in an unsafe condition. (Authority: O.C.G.A. Sec. [25-15-66](#))

First offense\$500.00

Second offense\$1000.00

3. Failure to permit free access for the purpose of inspecting or investigating equipment.

(Authority: O.C.G.A. Sec. [25-15-67](#))

First offense\$500.00

Second offense\$1,000.00

4. Failure to notify the Chief Inspector of any accidents involving serious personal injury.

(Authority: O.C.G.A. Sec. [25-15-61](#))

First offense\$500.00

Second offense\$1000.00

5. Failing to notify the Chief Inspector of an accident which involves death. (Authority: O.C.G.A. Sec. [25-15-61](#))

First offense\$2500.00

Second offense\$4500.00

6. Placing ride back in service which has been "Red-Tagged" or placed out of service by a deputy inspector, without first having the unit inspected.

(Authority: O.C.G.A. Sec. [25-15-66\(a\)](#))

First offense\$1000.00

Second offense\$2500.00

7. Placing ride back in service which has been involved in an accident prior to first having the unit inspected or otherwise cleared.

First offense\$1000.00

Second offense\$2500.00

(Authority: O.C.G.A. Sec. [25-15-61](#))

(b) General violations:

1. Violating adopted Code, Standards, Rules, Regulations or Order.

(Authority: O.C.G.A. Sec. [25-15-66\(c\)](#)(2))

First offense\$250.00

Second offense\$500.00

2. Failure to file a required report. Each report constitutes a separate violation.

(Authority: O.C.G.A. Secs. 34-12-18(c)(2) and [25-15-66\(c\)](#)(2))

First offense\$250.00

Second offense\$500.00

3. Any third repeated offense may subject the violator to the maximum civil penalty permitted under the Act (\$5,000.00).

(Authority: O.C.G.A. Sec. [25-15-61](#))

Rule 120-3-27-.43. Special Situations.

Exemptions from Standards and Regulations approved by the Office. The owner/operator of the following equipment shall be exempt from applying for a permit or inspection. The owner/operator shall meet all other requirements of the Safety Act and these Rules.

- (a) Mechanical bulls, climbing walls, human powered equipment or attractions, including but not limited to space balls, orbitrons, air supported structures, paddle boats, water cycles, bicycles and all rental boats.
- (b) Playground equipment located at businesses, including but not limited to soft play areas, single or multi-passenger rides which are passenger operated or controlled, and may be electrically, mechanically, or manually powered, which do not normally require the supervision or services of an operator or attendant.
- (c) Single waterslides and similar non-mechanical attractions at municipal, county, state or community operated swimming pools.

Rule 120-3-27-.44. Bungee Jumping.

This rule specifies and gives guidance on the site, design, testing of equipment, management of the operation, operating procedures, emergency provisions, and procedures for Bungee Jumping. Bungee Jumping will be restricted to permanent structures, constructed solely for the purpose of Bungee Jumping. **BUNGEE JUMPINGFROM HOT AIR BALLOONS, BLIMPS, CRANES, OR OTHER MOBILEFACILITIES ARE PROHIBITED.** This shall include stationary towers that are utilizing construction baskets and construction hoisting equipment. This rule is applicable to all operators of Bungee Jumping for public use.

Rule 120-3-27-.45. Definitions.

The definitions in the Official Code of Georgia Annotated Sections [25-15-51](#) and 120-3-27-.45, of the Georgia Rules will apply and in addition the following shall apply:

- (a) **AIR BAG** - A device which cradles the body and which uses an air release breather system to dissipate the energy due to a fall, thereby allowing the person to land without an abrupt stop or bounce.
- (b) **BINDING OF CORD** - Material used to hold the bungee cord threads in place.
- (c) **BUNGEE CATAPULTING** - The jumper is held on the ground while the bungee cord is stretched. When the jumper is released, he/she is propelled upwards.
BUNGEECATAPULTING IS PROHIBITED.
- (d) **BUNGEE CORD** - The elastic rope to which the jumper is attached. It lengthens and shortens and thus produces the bouncing action.
- (e) **BUNGEE JUMPING** - When a person falls from a height and the descent is limited by attachment to the bungee cord.
- (f) **CORD** - See Bungee Cord.
- (g) **DEFINED AREA** - The area designated for the bungee jump by the owner or operator and approved by the Department.
- (h) **DYNAMIC LOADING** - The load placed on the rigging and attachments by the initial free fall of the jumper and the bouncing movements of the jumper.
- (i) **EQUIPMENT** - Power or manually operated devices to raise, lower and hold loads.
- (j) **FENCE** - A permanent or temporary structure designed and constructed to restrict people, animals and objects from entering the designated bungee jumping area.
- (k) **INCIDENT** - An event that results in injury to a person, or an event that causes damage or loss of process (jumping interrupted or stopped).
- (l) **JUMP AREA** - The maximum designed area in all directions for the movement of the jumper.
- (m) **JUMP DIRECTION** - (Forward or Backward) The direction in which a jumper jumps upon leaving the platform from the jump point.
- (n) **JUMP HARNESS** - An assembly to be worn by a jumper, which is attached to a bungee cord.
- (o) **JUMP HEIGHT** - The distance from the jump platform to the bottom of the jump zone.
- (p) **JUMP MASTER** - A person who has responsibility for the bungee jumping operation and who prepares the jumper for the actual jump.
- (q) **JUMP OPERATOR** - A person who assists the jump master to prepare a jumper for jumping and operates the lowering system.

- (r) **JUMP POINT** - The position from which the jumper leaves the platform.
- (s) **JUMP ZONE** - The space bounded by the maximum designed movements of the jumper or any part of the jumper.
- (t) **JUMPER** - The person who falls or jumps from a height attached to a bungee cord.
- (u) **JUMPER WEIGHT** - The weight of the jumper only, determined by the jump master on a calibrated scale, traceable to a National Standard.
- (v) **LANDING AREA** - The surface area of a net, pad, air bag or water directly under where the jumper lands.
- (w) **LATERAL DIRECTION** - The area measured at 90 degrees to the designed jump direction.
- (x) **LOWERING SYSTEM** - Any manual or mechanical equipment capable of lowering a jumper to the designated landing area.
- (y) **LOADED LENGTH** - The length of the bungee cord when extended to its fullest designed length.
- (z) **PLATFORM** - The area attached to a structure from which jumper falls or jumps.
- (aa) **PREPARATION AREA** - The area where the jumper is prepared for jumping. The preparation area shall be separate from the jump area.
- (bb) **RIGGING SYSTEM** - The bungee cord plus any webbing or rope connected to the bungee cord which is of variable lengths set by the jump master for each jumper.
- (cc) **RECOVERY AREA** - An area next to the landing area, where the jumper may recover from the jump before returning to the public area.
- (dd) **SAFE WORKING LOAD (SWL)** - The maximum rated load as determined by the manufacturer which can be safely handled under specified conditions, by a machine, equipment or component of the rigging system.
- (ee) **SAFETY BELT** - A belt designed to fit around the waist of a person which can be attached to either an anchor point or safety line.
- (ff) **SAFETY HARNESS** - An assembly to be worn by an operator. It is designed to be attached to a safety line and prevent the jump site operator from falling.
- (gg) **SAFETY HOOK** - A hook with a latch to prevent rigging or loads from accidentally slipping off the hook.
- (hh) **SAFETY LINE** - A line used to connect a safety harness or belt to an anchor point.

- (ii) **SAFETY SPACE** - A space extending beyond the jump zone as a safety factor.
- (jj) **SITE OPERATING MANUAL** - The document containing the procedures and forms for the operation of all bungee jumping activities and equipment.
- (kk) **STRUCTURE** - A permanent structure constructed solely for the purpose of bungee jumping.
- (ll) **TANDEM JUMPING** - The practice of two people harnessed together while jumping simultaneously from the same jump platform. **TANDEM JUMPING IS PROHIBITED.**
- (mm) **TESTING AUTHORITY** - An organization acceptable to the department for the purpose of testing the performance of bungee cords.
- (nn) **UNLOADED LENGTH** - The length of the bungee cord without load or stress applied.

Rule 120-3-27-.46. Site and Operating Approval.

- (1) The operator shall obtain a permit from the Department of Labor, Safety Engineering Section to operate on the site. The initial permit fee shall be \$5,000.00. Each permit shall be renewed annually, at a cost of \$1,000.00.
- (2) Each site shall be inspected by the Department quarterly, at a cost of \$500.00. The cost of one quarterly inspection shall be included in the annual permit renewal.
- (3) Site Plan and Equipment Design and Construction:
 - (a) A report shall contain site plans, safety zones, drawings and specifications of equipment and structures which shall be submitted to the department prior to construction.
 - (b) Inspections shall be conducted at the discretion of the department.
- (4) The owner shall provide a certificate of insurance to the department covering any spectator, and any patron in bungee jumping in the amount of one million dollars (\$1,000,000.00) per occurrence.

Rule 120-3-27-.47. Safety Space.

- (1) Each bungee jump site shall maintain a side safety space of twenty (20) feet in all directions.
- (2) Where jumps occur over water, the water shall be at least nine (9) feet deep. The vertical safety space shall be at least sixty (60) inches above the water. However, if the depth of the water is greater than nine (9) feet, no vertical safety space is needed.
- (3) Where jumps occur over land an air bag or net is used. The vertical safety space shall be at least sixty (60) inches above the air bag or net.

Rule 120-3-27-.48. Permanent Platform.

- (1) The Safe Working Load (SWL) shall be determined by the maximum weight on the platform at any one time, with a safety factor of not less than five (5) times the maximum designed platform weight.
- (2) When the platform is not an integral part of the structure, the attachment devices and the part of the structure to which they are attached, shall have a safety factor of at least five (5) over the total load.
- (3) The platform shall have a non-slip surface.
- (4) The platform shall have anchor points for safety harnesses, designed and placed to best suit the movements of anyone on the platform.
- (5) The platform shall be fitted with a permanent fence separate from the jump point to contain the jumper during preparation.
- (6) There shall be a gate across the jump point which shall remain closed when a jumper is not present.
- (7) The jump master shall stop the jumping operation when the wind speed affects the safe operations on the jump platform and/or the recovery area.

Rule 120-3-27-.50. Bungee Cord Requirements.

- (1) The operating length of a bungee cord at its maximum designed dynamic load shall not exceed four (4) times its unloaded length.
- (2) The cord material and sheathing to be used shall be clearly specified in the site operating manual.
- (3) The cord and its non-metallic connectors shall be destroyed when one of the following conditions occur:
 - (a) Exposure today light exceeds 250 hours. This does not apply when the cord cover or sleeve fully protects all of the cord from visible and ultra-violet exposure.
 - (b) Six (6) months from the date of manufacture.
 - (c) Evidence of threads exhibiting wear, such as bunched threads, uneven tension between threads or thread bands.
 - (d) Broken threads in excess of five percent (5%).
 - (e) After contact with solvents, corrosive or abrasive substances.
 - (f) Any other flaws found.
 - (g) As the bungee cord stretches over the course of its jump life, the dynamic load required to extend the bungee to four (4) times its unloaded length will reduce. When this dynamic Toad reduces to less than the maximum designed dynamic load, the cord shall be destroyed.
 - (h) After a maximum of five hundred (500) jumps using that cord.

- (i) When the cord or its connectors are not in compliance with the manufacturer's specifications.
 - (j) Any particular cord shall not be used for successive jumps. At least five (5) minutes must be provided between jumps from a particular cord, to allow the cord to fully return to its original unloaded length.
- (4) Bungee cords must be examined daily. Before starting the day's operations, the jump master shall visually inspect the entire length and circumference of the bungee cord for signs of wear. The inspection shall be repeated at least four (4) times during daily operation and recorded in the site log.
- (a) When unexpected changes in bungee cord performance occur, the bungee cord is to be replaced immediately. The bungee cord shall be subjected to inspection and testing as required in these regulations.

Rule 120-3-27-.53. Hardware.

- (1) Carabineers shall be the screw gate type, manufactured of hardened steel, with at least a minimum breaking load of 6,000 pounds.
- (2) Pulleys and shackles shall be manufactured of hardened steel and shall have a minimum breaking load of at least 6,000 pounds.
- (3) All pulleys shall be compatible with the rope size.
- (4) Webbing shall be flat or tubular mountaineering webbing or equivalent with a minimum breaking load of at least 6,000 pounds. If military specification cords are used, all webbing will have redundant connections.

Subject 120-3-28. RULES AND REGULATIONS FOR CARNIVAL RIDES.

Rule 120-3-28-.01. Purpose.

These rules establish minimum safety standards for the installation, assembly, repair, maintenance, use, operation, disassembly, and inspection of amusement rides at carnivals and fairs. These safety standards are for the protection of the employees and the general public using these rides.

Cite as Ga. Comp. R. & Regs. R. 120-3-28-.01

Rule 120-3-28-.03. Definitions.

Those definitions as listed in Chapter 15 of Title 25 and:

- (a) "Approved" means in compliance with these Rules and Regulations.

- (b) "A.S.T.M."- the American Society of Testing Materials.
- (c) "Average Adult Passenger" means for the purpose of design, a person weighing 170 Pounds.
- (d) "Average Child Passenger" means, for the purpose of design, a child weighing 75 Pounds and is 12 years of age or under.
- (e) "Carnival" means an enterprise principally devoted to offering amusement or entertainment to the public in, upon, or by means of amusement rides in any number or combination, whether or not associated with other structures or forms of public attraction, and which is located at a temporary location.
- (f) "Commissioner" means the Safety Fire Commissioner or his/her designee.
- (g) "Engineer" means licensed mechanical engineer.
- (h) "Engineering evaluation" an evaluation completed by a licensed mechanical engineer of all structural components and all sub-systems of the ride. This shall include but not limited to electrical, mechanical, hydraulic, pneumatic systems, safety restraints, fencing, stairs, platforms and welding.
- (i) "Fair" means an enterprise principally devoted to the exhibition of the products of agriculture or industry and at or in connection with which amusement rides are provided.
- (j) "Guardian" means a person 16 years of age or over.
- (k) "Guardian Restrictions" means a condition placed on a ride where a child passenger must be accompanied on the ride by a guardian.
- (l) "National Electrical Code" means the NFPA, NEC 70 Code.
- (m) "Manager" means a person having possession, custody, or managerial control of an amusement ride at a carnival or fair, whether as owner, lessee, agent, or otherwise.
- (n) "Pinching Hazard" means any configuration of components that would pinch or entrap the fingers or toes of a person.
- (o) "Puncture Hazard" means any surface or provision that would puncture a person's skin under casual contact.
- (p) "Ride Operator" means a person who controls or has the duty to control the operation of one or more rides causing such rides to go and stop or perform its entertaining function. The ride operator shall not operate more than one (1) ride at a time.
- (q) "Rated Capacity" means a capacity established by the design engineer for the normal loading and operation of a ride, or in the absence thereof, as established by the Commissioner, after inspection and determination.

- (r) "Ride".
1. "Major Ride" means a device to carry a specific number of passengers, adults, or children, either by power or gravity, in cars or other suitable fixtures for conveying persons.
 2. "Kiddie Ride" means a device designed primarily for use by children but which may accommodate adults.
 3. "Miscellaneous Ride" means any other ride not specifically provided for, described, or defined in these rules.
- (s) "Rope", "Wire Rope", and "Cable" are interchangeable terms except where the term fiber rope is used.
- (t) "Safety Factor" or "Factor of Safety" means the ratio of the ultimate or breaking strength of a member or piece of material to the actual working stress or to the maximum permissible or safe load stress or when in use.
- (u) "Safety Devices."
1. "Restraining Device" means a safety belt, harness, chain, bar, or other device which affords actual physical support, retention, or restraint to the passenger of a ride.
 2. "Containing Device" means a strap, belt, bar, gate, or other safety device designed to prevent accidental or inadvertent dislodgment of a passenger from a ride but which does not actually provide physical support.
 3. "Safety Retainer" means a secondary safety cable, bar, attachment, or other device from becoming disengaged from the mechanism or from tipping or tilting in a manner to cause hazards to persons riding on, or in the vicinity of, a ride.
 4. "Chains" should be referred to according to the material from which they are constructed; alloy steel chains, wrought iron chains, commonly known as hardware chains.
- (v) "Serious Personal Injury" means death, dismemberment, visible significant disfigurement, visible significant or permanent loss of use of a body organ, member, function or system, compound fractures, visible uncontrolled bleeding, heart attack, stroke, or unconsciousness likely attributable to trauma to the head, as a result of the operation or malfunction of a carnival ride.
- (w) "Personal Injury" means sustained bodily harm resulting in medical treatment such as trauma, cuts, bruises, burns and sprains, but does not include Minor Injury/Illness or any mental disease or disorder not accompanied by physical injury at the time of the incident and further does not include false arrest, detention, imprisonment, confinement, slander, libel, violation of privacy or mental distress.

- (x) "Minor Injury/Illness" means physical or mental incidents such as fainting, bruising, or minor lacerations for which treatment is limited to rest, cleansing, dispensation of over-the-counter medication, plastic adhesive bandage strips, fluids by mouth, or similar assistance.
- (y) "Property Damage" means physical injury to, or destruction of tangible property to the structure or operational parts (including safety equipment and devices) of a carnival ride, sustained by reason of accident or malfunction, other than routine wear and tear, but does not include damage to personal property.

Amended: F. Dec. 28, 2017; eff. Jan. 1, 2018, as specified by the Agency.

Rule 120-3-28-.04. Owner/Operator Responsibility; Rider Responsibility; Warnings and Signage.

- (1) Every manager of a carnival ride shall comply with or effect compliance with all provisions of these rules and regulations, and every employer and employee shall comply with all provisions which concern or affect his conduct.
- (2) Each owner, manager, or lessee is responsible for filing one of the following with the Office of Insurance and Safety Fire Commissioner prior to any ride being placed into operation:
 - (a) A certificate of insurance against liability for injury to persons arising out of the operation of the carnival or fair ride in the amount of at least one million (\$1,000,000) dollars.
 - (b) A bond for and in the same amount as stated in (a) above.
 - (c) Cash or other security acceptable to the Department for and in the amount as stated in (a) above.
- (3) All ride patrons shall:
 - (a) Obey all posted signs, including but not limited to, warning signs, instruction signs, and directions signs, which are not inconsistent with these rules:
 - (b) Obey the instructions of ride attendants;
 - (c) Properly use all safety equipment provided;
 - (d) Act in a responsible manner while using a carnival ride, device or attraction;

- (e) Refrain from acting in any manner that may cause or contribute to injury to self or others;
 - (f) Not participate or use a carnival ride, device or attraction while under the influence of alcohol or any intoxicating substance; and
 - (g) Be subject to any or all of the following penalties for violation of this Section A:
 - 1. Removal from the ride, device or attraction and barred from returning that day;
 - 2. Removal from the carnival owner's property and barred from returning that day;
 - 3. Subject to a civil penalty up to a maximum of \$100 per infraction to be assessed in accordance with the civil penalty provisions of these rules.
- (4) All ride patrons, or, if the patron is a minor, the patron's parent or guardian, shall report in writing to the carnival owner or his designee any injury sustained on a carnival ride prior to leaving the carnival owner's premises, unless the ride patron (or parent or guardian) is unable to file the report because of the severity of the injuries, in which case the report shall be filed as soon as reasonably possible.
- (5) Sign Requirements:
- (a) Warnings and directions shall be based upon the standards of the American Society of Testing Materials (ASTM) or the American National Standards Institute (ANSI), or, if expressly approved by the Commissioner, other nationally recognized technical or scientific authority in the amusement ride or carnival ride industry.
 - (b) Signs shall be displayed in a public and conspicuous place on or near the ride, device or attraction in letters clearly visible from at least a distance of 15 feet.
 - (c) Rider responsibilities and potential penalties shall be posted in at least one public and conspicuous location on the premises of the carnival owner.

Rule 120-3-28-.05. Application for Permit.

- (1) No carnival ride shall be operated at any time or location unless a permit is issued by the Office.
- (2) Each owner, manager, or lessee shall apply for a permit on or before January 1 of each year, on a form furnished by the Office. The following must accompany the application:
 - (a) Certificate of insurance, bond, or securities;
 - (b) List identifying each ride;
 - (c) Itinerary with intended dates and locations of use;
 - (d) An inspection fee of \$65.00 for each ride;
 - (e) An annual permit fee of \$50.00;
 - (f) The form of payment must be a certified check or money order made payable to the Office of Insurance and Fire Safety Commissioner.
- (3) In situations where an emergency booking makes the notification period impossible, the Office shall be notified by telephone at least 72 hours prior to set up and this notification shall be confirmed in writing.
- (4) In cases where an owner and/or manager finds it necessary to change his itinerary for any cause after having reported his itinerary to the Office, he shall notify the Office of the changes immediately.
- (5) In the event a special inspection is made, an additional fee of \$75.00 per hour and all traveling expenses incurred in connection with the inspection will be charged. The expenses shall be governed by the regulations for traveling expenses established for State Officials. In cases where one trip is made to inspect two or more locations for two or more parties, the traveling expenses shall be prorated between the parties on the basis of time and expenses incurred for each inspection. A special inspection is any non-routine inspection which includes but is not limited to:
 - (a) Failure to report a schedule change after scheduling an inspection.
 - (b) All violation follow-up inspections which require a special trip to verify compliance.
 - (c) Scheduling an inspection with less than 72 hours notice.
- (6) Carnival rides may be required to be inspected by an authorized person each time they are assembled or disassembled in accordance with regulations and standards established under this article.
- (7) All rides entering the state as of January 1, 2018 and intended to be utilized shall have an engineering evaluation completed within the last 12 months by a licensed mechanical

engineer on the ride. All structural material and components of rides shall conform to recognized engineering practices, procedures, standards, and specifications. All ride components and their sub systems (electrical, mechanical, hydraulic, pneumatic systems) shall be during the last 12 utilized tion of the definition of "ee done bb part of this evaluation and shall meet ride manufactures requirements. The data shall include, but not limited to, the following materials, parts, or components of rides; structural materials including bars; cables; chains; ropes; rods; tubing; pipes; girders; braces; fittings; fasteners; trusses; pressure vessels; piping; gears; clutches; speed reducers; welds; bearings couplings; carriers such as tubs, cars, chairs, gondolas, or seating and carrying apparatus of any description; axles, hangers, pivots, safety bars, belts, harnesses, chains, gates; or other restraining, containing, or retaining devices. Any recommend repairs, or additional tests recommended by the engineer shall be completed prior to submission of this report. A report from the engineer shall be submitted to this office at the time of application of the permit or when any new or used ride is brought into the state and added to the itinerary.

Authority: O.C.G.A. §§ [25-15-83](#), [25-15-85](#).

History. Original Rule entitled "Application for Permit. Amended" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Amended: F. Dec. 28, 2017; eff. Jan. 1, 2018, as specified by the Agency.

Rule 120-3-28-.06. Notice of Hearing and Penalties.

(1) Issuance of Citation or Notice of Administrative Proceeding:

- (a) If, upon inspection by an inspector or deputy inspector,
 - 1. A carnival ride is deemed to be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Carnival Ride Safety Law or these rules, or
 - 3. When a written warning has been issued and the violations continues, then the deputy inspector shall issue the violator a Citation stating the date, time and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
- (b) If, upon receiving information from any source, the Chief Inspector determines that there is a reasonable belief that:
 - 1. A carnival ride may be in an unsafe condition,
 - 2. The owner, operator, user, contractor, or installer has not complied with the Carnival Ride Laws or these rules, or

3. When a warning has been issued, the violation is a continuing violation, the Chief Inspector or the Director, Safety Engineering, on behalf of the Office, may issue Notice of Administrative Proceeding stating the date, time and place of the violation, the specific violation, the recommended penalty, and shall offer the respondent the opportunity for a hearing as set forth in this section.
- (c) The Director, Safety Engineering, upon review of a citation issued under subsection (a) above, may, in his sole discretion, dismiss the Citation and substitute therefore a Notice of Administrative Proceeding pursuant to subsection (b) above on the same, similar, or different violations, as required by the evidence.
- (d) The Commissioner, upon review of a Citation or Notice of Administrative Proceeding, in his sole discretion, may refer the matter to the appropriate prosecuting official for criminal or injunctive relief as permitted under law. In such event, the Commissioner may, in his sole discretion, elect to dismiss, suspend, or continue with the civil penalty proceeding.

(2) Hearing Procedure:

- (a) If a request for a hearing is not received from the respondent within the allotted time, the Director, Safety Engineering, on behalf of the Commissioner, may without further process impose a civil penalty not greater than the total of civil penalties set forth on the Citation or in the Notice of Administrative Proceeding. An administrative order under the authority of the Commissioner may be issued to collect the civil penalty assessed. If the civil penalty is not paid, the Commissioner may authorize the Director to file appropriate legal action in the name of the Commissioner through the Attorney General to collect the civil penalty.
- (b) Upon receipt of a request for a hearing pursuant to any Citation or Notice of Administrative Proceeding, the Director, Safety Engineering, shall determine, in his sole discretion, whether the hearing shall be held before the Commissioner of Insurance or referred to the Office of State Administrative Hearings. If the hearing is to be before the Commissioner, the Director shall set a date and time for the hearing and shall cause the case file to be referred to the Attorney General for legal representation of the Office Department. If the Director determines that a hearing before the Commissioner is not warranted, the matter shall be referred to the Office of State Administrative Hearings pursuant to O.C.G.A. [50-13-41\(a\)\(1\)](#). The casefile for an OSAH proceeding may be referred to staff counsel within the Department or to the Attorney General for representation of the Department. The Office of State Administrative Hearings will set the date, time and place of hearing as prescribed by OSAH Rules.
- (c) All hearings, whether before the Commissioner or before the Office of State Administrative Hearings, shall be subject to the powers and procedures set forth in

the Administrative Procedure Act, including but not limited to O.C.G.A. [50-13-13](#) and [50-13-15](#).

- (d) The decision of an administrative law judge made after a hearing before the Office of State Administrative Hearings shall be the initial agency decision as set forth in O.C.G.A. [50-13-41\(d\)](#) and shall be subject to review by the Commissioner as set forth in O.C.G.A. [50-13-41\(e\)](#). A hearing before the Commissioner shall be the final agency decision in the matter and shall be subject to judicial review as set forth in O.C.G.A. [50-13-19](#).

(3) Guidelines for imposition of civil penalties:

- (a) Any person, firm partnership, corporation or other business entity, which violates this part, shall be subject to the imposition of civil penalties. Each day on which a violation occurs shall constitute a separate offense. Repeat offenders, including those who refuse to adhere to orders of inspectors, exceed the limitations of operating permits, or refuse to adhere to the requirements of these rules and regulations, may be referred appropriate prosecuting official for criminal (misdemeanor) or injunctive relief as permitted under law. Serious violations, including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may also be referred appropriate prosecuting official for criminal (misdemeanor) or injunctive relief as permitted under law.
- (b) Notwithstanding the recommended minimum penalties set forth below, a serious violation, including those causing serious bodily injury or death, or which exhibit gross negligence or serious disregard for public safety, may receive the maximum penalty of \$5,000.00 for each violation including a first offense. The imposition of a penalty for a violation of this part shall not excuse the violation or permit it to continue.
- (c) The deputy inspector issuing a Citation shall, at the time of issuance, specify a recommended civil penalty amount for each specific violation in accordance with these Rules and Regulations. The Director, Safety Engineering, is charged with the responsibility to ensure that recommended penalties for violations are graduated with the more serious violations receiving the heavier penalty and with assuring uniformity of recommended penalties such that offenders in similar circumstances with similar violations receive similar penalty recommendations. In this regard, the Director may dismiss a Citation and issue a Notice of Administrative Proceeding solely for the purpose of making an appropriate penalty recommendation.
- (d) The recommended civil penalty set forth in the Citation or Notice of Administrative Proceeding shall be given great deference by the Hearing Officer. The *minimum* recommended penalties set forth below are normally for first offenses with only one violation being cited. The Hearing Officer shall, after

hearing the case, consider factors in mitigation of the violations as well as those in aggravation. The Hearing Officer shall impose a penalty less than the recommended *minimum* penalty only upon finding unusually significant mitigating factors, and shall set forth those factors in the order. The Hearing Officer may impose a penalty substantially greater than the department's recommended penalty upon finding significant aggravating factors associated with the violation, and shall set forth those factors in the order. The Hearing Officer shall consider the provisions of these Rules and Regulations guiding the assessment of penalties. In particular, the Hearing Officer, shall, in cases involving continued operation of equipment without valid operating certificates; continued operation of equipment after failing to notify the department of an accident involving structural damage, bodily injury, or death; or continued operation after an unsafe condition is detected or after the equipment is taken out of service by an inspector or deputy inspector, consider the imposition of separate penalties for each day of violation. The Hearing Officer shall not assess a penalty exceeding \$5,000.00 for each violation or each day of a continuing violation.

- (e) The Hearing Officer may, in addition to a civil penalty, recommend in the order that the Commissioner suspend for a period of time or indefinitely, operating certificates, permits to install, or certificates for contractors.

(4) Minimum recommended penalties:

(a) Specific violations:

1. Operating equipment without a certificate of inspection or permit.
(Authority: O.C.G.A. [25-15-88](#) and [25-15-89](#))

First offense\$250.00

Second offense\$500.00

2. Operating equipment in an unsafe condition. (Authority: O.C.G.A. [25-15-96](#))

First offense\$500.00

Second offense\$1000.00

3. Failure to permit free access for the purpose of inspecting or investigating equipment.

(Authority: O.C.G.A. [25-15-97](#))

First offense\$500.00

Second offense\$1,000.00

4. Failure to notify the Chief Inspector of any accidents involving serious personal injury. (Authority: O.C.G.A. [25-15-91](#) and [120-3-28-.14](#))

First offense\$500.00

Second offense\$1000.00

5. Failing to notify the Chief Inspector of an accident which involves death. (Authority: O.C.G.A. [25-15-91](#))

First offense\$2500.00

Second offense\$4500.00

6. Placing ride back in service which has been "Re d-Tagged" or placed out of service by a deputy inspector, without first having the unit inspected. (Authority: O.C.G.A. [25-15-96\(a\)](#))

First offense\$1000.00

Second offense\$2500.00

7. Placing ride back in service which has been involved in an accident prior to first having the unit inspected or otherwise cleared. (Authority: O.C.G.A. [25-15-91](#))

First offense\$1000.00

Second offense\$2500.00

(b) General violations:

1. Violating adopted Code, Standards, Rules, Regulations or Order. (Authority: O.C.G.A. [25-15-96\(c\)\(2\)](#))

First offense\$250.00

Second offense\$500.00

2. Failure to post required signage such as, but not limited to, age, weight or height restrictions. Each day constitutes a separate violation. (Authority: O.C.G.A. [25-15-96\(c\)\(2\)](#))

First offense\$250.00

Second offense\$500.00

3. Failure to file a required report. Each report constitutes a separate violation. (Authority: O.C.G.A. [25-15-96\(c\)\(2\)](#))

First offense\$250.00

Second offense\$500.00

4. Any third repeated offense may subject the violator to the maximum civil penalty permitted under the Act (\$5,000.00).

Rule 120-3-28-.07. Identification and Rating Plates.

Every carnival ride shall be identified by a trade or descriptive name and an identification number, and there shall be firmly attached thereto in a readily visible location on a metal plate upon which there is legibly impressed the name and number of the ride, its model number if any, and the name and address of its manufacturer. Upon the same or another metal plate so attached, there shall be legibly impressed the maximum safe number of passengers and the maximum safe speed.

Rule 120-3-28-.08. Rebuilt and Modified Rides.

If an carnival ride which has withstood a performance test as required is thereafter materially rebuilt or so modified as to change its original action:

- (a) The ride shall be re-identified by a different name or identification number or both;
- (b) The ride shall be subject to all other provisions of this Chapter as if it were a new device not previously used.

Rule 120-3-28-.09. Control of Operation.

- (1) Carnival rides shall be operated only by competent operators at least 16 years of age.
- (2) Every operator shall have knowledge of the use and function of all normal operating controls, signal systems, and safety devices applicable to the ride and of the proper use, function, capacity, and speed of the particular ride which he is operating. An operator shall be in the immediate vicinity of the operating controls during operation and shall have complete control of the ride at all times while being operated for the public's use. When the ride is shut down, provisions shall be made to prevent operation by the public.
- (3) No person other than the trained operator shall be permitted to handle such controls during normal operation. This provision does not apply to carnival rides designed to be operated or controlled by a passenger.

Rule 120-3-28-.10. Overspeeding and Overloading.

A ride shall not be loaded beyond its rated capacity nor shall it be operated at an unsafe speed or at any speed other than that prescribed by the design engineer or manufacturer. When this information is not obtainable, the criteria for safe operating speeds and rated capacity shall be established by the Office.

Cite as Ga. Comp. R. & Regs. R. 120-3-28-.10

Authority: O.C.G.A. Sec. [25-15-83](#).

History. Original Rule entitled "Overspeeding and Overloading" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.11. Medical and First Aid.

The owner and operator shall ensure the availability of medical and first aid.

- (a) While the venue is open or has patrons on the site, in the absence of an infirmary, clinic, or hospital available adjacent to the site or within one-half mile of the rides and attractions, one or more adequately trained and certified individuals shall be available on premises at all times with appropriate skills to render first aid and cardiopulmonary resuscitation. In addition, first aid supplies recommended and approved by the American Red Cross or by a consulting physician shall be readily available.
- (b) At the site office or other appropriate place on the site, the telephone numbers for physician, hospital, ambulance and local fire and police services shall be conspicuously posted for use by the staff and public in the event of emergency.

Cite as Ga. Comp. R. & Regs. R. 120-3-28-.11

History. Original Rule entitled "Medical and First Aid. Amended" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.12. Fatalities, Personal Injury, and Accidents.

- (1) Accidents involving fatalities or serious personal injury. In the event of an accident involving fatalities, serious personal injury, or personal injury requiring immediate overnight hospitalization, and of which the owner or operator has knowledge (Authority: O.C.G.A. Sec. [25-15-91](#)):
 - (a) The ride or activity shall be shut down and immediately taken out of service;
 - (b) The ride or activity shall be secured to prevent operation until the Office has conducted a full investigation; and
 - (c) The accident shall be immediately reported to the Office by telephone, and shall be augmented by a detailed written report submitted by certified mail or similar means not later than the close of the next business day following the accident.
- (2) Accidents in which further safe operations may be compromised. In the event of an accident involving either personal injury or property damage in which there is a Discernible risk that further safe operation of the ride or activity may be compromised (Authority: O.C.G.A. Sec. [25-15-91](#)):
 - (a) The ride or activity shall be shut down and immediately taken out of service;
 - (b) The ride or activity shall be secured to prevent operation until the Office has conducted a full investigation; and
 - (c) The accident shall be immediately reported to the Office by telephone, and shall be augmented by a detailed written report submitted by certified mail or similar means not later than the close of the next business day following the accident.

- (d) If, at the time of the telephonic report, the owner or operator and a qualified repair technician present sufficient information to the Office, the Office may, in its discretion, permit the ride or activity to be promptly repaired and put back into service without an investigation and inspection. The Office shall make a record of such decision and record it upon the written report submitted concerning the accident.
- (3) All other accidents or incidents. In order to evaluate the overall safety of regulated rides and activities, and to permit the identification of trends which may permit the effective prevention of accidents, all other accidents and incidents involving personal injury or property damage, but not including minor personal injury/illness, sustained by reason of the operation or malfunction of a ride or activity shall be reported as follows (Authority, O.C.G.A. Sec. [25-15-91](#)):
- (a) The accident or incident shall be reported in writing to the Office within 30 days of the accident or incident, or within 30 days after a belated report of personal injury becomes known by the owner or operator. In the alternative, such reports may be accumulated and submitted on a monthly basis.
 - (b) The report shall summarize the accident or incident; shall note any equipment repair or adjustment accomplished; and shall include any witness statements taken.

Rule 120-3-28-.13. Inspections.

All inspections will be conducted in accordance with the applicable sections as follows:

- (a) ASTM (American Society of Testing Materials);
- (b) Standard Building Code;
- (c) National Electrical Code;
- (d) The Rules and Regulations as adopted by the Board and approved by the Commissioner;
- (e) As a minimum upon the ride manufacturer's specification and recommendations.

- (f) The requirements for welding procedures and welder qualifications use, AWS D1.1, D1.2, D1.3, D1.6 and C3.4 (American Welding Society Standards for the welding of steel, aluminum, sheet metal and stainless steel and torch brazing.)

Rule 120-3-28-.14. Mechanical Failure Reports.

The owner and/or manager of an amusement ride shall report any major breakdown to the Office within 24 hours after occurrence of the incident by telephone or other media of immediate communication. The owner and/or manager shall confirm this report in writing within seven (7) days after the occurrence of the reportable incident. Upon being advised of such an incident, the Commissioner or his authorized agent, after reviewing the circumstances, may order the ride or device to be withheld from operation, and in such cases the Office shall conduct an immediate investigation. The ride shall be released for repair and operation only after a thorough and complete investigation by the Office.

Rule 120-3-28-.16. Load Tests.

- (1) When the inspector deems necessary, a load test may be required prior to use on the following rides:
 - (a) Rides having suspended passenger seats or spaces;
 - (b) Rides normally operated at speeds or with movements creating severe centrifugal forces;

- (c) Rides so elevated that structural failure is likely to cause passengers to be injured by falling;
 - (d) Rides as to which the Office has ordered a test upon finding it necessary to assure safety.
- (2) Evidence of Test. Unless a load test is made in the presence of a representative of the Office, they may accept a certified copy of such test made by a person qualified to perform such test, showing whether the ride withstood the test without failures in any material respect and setting forth such other relevant information as the Office may require. Until such a statement is so filed, it shall be presumed that the ride has not withstood the test as required.
- (3) Nature of Test. Each passenger seat or space shall be weighed with at least 170 pounds dead weight, except that in rides intended only for small children of which each seat or space shall be weighed with at least 75 pounds. While so loaded the ride shall be so operated at maximum normal speed as to test the full operation of all control devices, speed limiting devices, brakes, and other equipment provided for safety.
- (4) Effect of Test. If the Ride fails to withstand load test, it shall be deemed unsafe and shall not be used until it has withstood a subsequent load test without failure in any material respect. If the ride has withstood a load test without failure in any material respect, it shall be required to be so tested again only if rebuilt or modified or if there are reasonable grounds to believe that a further test is necessary to assure safety and the Office orders such test to be made.

Authority: O.C.G.A. Sec. [25-15-85](#).

History. Original Rule entitled "Load Tests" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.17. Design Criteria.

Structural material and construction of rides shall conform to recognized engineering practices, procedures, standards, and specifications. The design, materials, and construction features shall incorporate safety factors acceptable to the Office. If a designer or manufacturer of equipment wishes to use materials not now covered by these rules or by reference to existing standards, full information concerning these materials or methods shall be submitted to the Office. The design, detail, materials, and construction features shall provide safety factors acceptable to the Office.

- (a) Manufacturers' analyses. Before a new carnival ride is put into operation for the public's use, or whenever any additions or alterations are made which change the structure, mechanism, classification, or capacity of any ride or device, the owner shall file with the Office a notice of his intention and shall furnish design data, safety factors, materials utilized, stress analysis is, and other pertinent data deemed necessary by the Office. This

information shall also be furnished by the manager for existing rides if required by the Office. Such stress analysis and other data pertinent to the design, structure, factors of safety, or performance characteristics shall be in accordance with accepted engineering practices acceptable to the Office and written in English. Such data may be requested for, but not limited to, the following materials, parts, or components of rides; structural materials including bars; cables; chains; ropes; rods; tubing; pipes; girders; braces; fittings; fasteners; trusses; pressure vessels; piping; gears; clutches; speed reducers; welds; bearings couplings; carriers such as tubs, cars, chairs, gondolas, or seating and carrying apparatus of any description; axles, hangers, pivots, safety bars, belts, harnesses, chains, gates; or other restraining, containing, or retaining devices. Data shall be furnished at the request of the Office on forces generated by acceleration, or deceleration centrifugal action, inertia kinetic, or other forces either constant, reversible, or eccentric.

- (b) Rating. Manufacturers shall identify the capacity of a carnival ride in terms of number of passengers and operating speed. This information shall be included on the identification and rating plates.
- (c) Seating and Carrying Devices.
 - 1. Tubs, cars, chairs, seats, gondolas, and other carriers used on rides shall be designed and constructed as strong as practicable. The interior and exterior parts with which passengers may come in contact with shall be smooth, rounded, free from sharp, rough or splintered edges or corners, and with no protruding screws or projections which might cause injury. Parts upon or against which passengers might be thrown by action of the ride shall be adequately padded to prevent or minimize the possibility of injury. The upholstery or decoration shall be permitted.
 - 2. Propellers or other moving parts or decorations attached to tubs, cars, chairs, seats, gondolas, and other carriers shall be securely fastened to such equipment and keyed or otherwise secured so that they cannot come off during operation of the ride. Vanes, canopies, or other attachments which might become disengaged shall be secured with safety straps to prevent their flying away in case of breakage or dislocation.
- (d) Speed Limiting. An carnival ride capable of exceeding its maximum safe operating speed shall be provided with a maximum speed-limiting device.
- (e) Brakes and Stops.
 - 1. On a ride where coasting renders the operation dangerous, either during the period while the ride is being loaded or unloaded or in case of power failure or other unforeseeable situation, a method of breaking shall be provided.
 - 2. If cars or other components of an amusement ride may collide in such a way as to cause personal injuries upon failure of normal controls, emergency brakes sufficient to prevent such collisions shall be provided.

3. On rides which make use of inclined tracks; automatic anti-rollback devices shall be installed to prevent backward movement of the passenger carrying units in case of failure of the propelling mechanism.

(f) Retaining, Restraining, and Containing Safety Devices.

1. Safety Retainer. Tubs, cars, chairs, seats, gondolas, or other carriers on a ride that depends upon a single means of attachment or support shall be equipped with safety retainers to prevent a carrier from being catapulted from the ride and to prevent any action of the carrier which might throw the occupants from the carrier if it becomes disengaged from its support or attachment.
2. Restraining Safety Devices. Restraining devices used on tubs, cars, chairs, seats, gondolas, or other carriers on a ride, wherein the forces generated by the action of the ride require retention, restraint or actual physical support of the passenger, shall be designed, constructed, and installed to withstand impact and forces of a minimum of 850 pounds per passenger.
3. Containing Safety Devices. On a ride design where, after inspection by the Office, it is deemed necessary to install safety devices to prevent accidental or inadvertent dislodgement of a passenger from any tub, car, chair, seat, gondola, or other carrier, a containing device shall be installed. This device shall be designed to withstand minimum forces of 850 pounds for the exclusive use of children, or the design load, whichever sets the greater minimum force.
4. Recommended passenger restrictions and limitations, where applicable, such as but not limited to, height, weight, age, passenger placement, or other appropriate restrictions shall be provided to the end user by the Manufacturer or seller of the amusement ride or device. In the event the manufacturer is unwilling or unable to provide said restrictions, thereby rendering himself in non-compliance with this law and ASTM Standards, the said restrictions and/or limitation must be established by the owner and/or manager and shall be acceptable to the Office.

(g) Motors, Motor Circuits, and Controllers shall be manufactured and utilized in accordance with Article 430, National Electric Code. Any motor operating with greater than 50 volts shall have its frame grounded with a conductor.

(h) Safety Stop Circuits. Electrical safety stop circuits shall be closed circuits so in case of power failure, the system will cause the ride to which the circuit pertains to fail safe. Circuits shall be all metallic.

(i) Stairways, Landings and Ramps.

1. Adequate stairways or ramps and the necessary landings and platforms shall be provided where people enter or leave a ride that is above or below grade or floor level at entrance to or exit from such ride. The design and construction of stairways,

ramps, and railings shall conform to OSHA Standards for Walking-Working surfaces, except the requirement regarding the placement of stairway railings and guards. All stairs with more than one step shall have standard handrails or railings on both sides regardless of width, and when stairways are 88 inches or greater in width, a railing shall be placed approximately in the center. The construction of the standard railings and handrails shall be in accordance with the OSHA Rules and Regulations.

2. Design of Stairways, Landings and Ramps. Stairways, landings, and ramps shall be designed, constructed, and maintained so as to sustain safely a live load of at least 90 pounds per square foot.
 3. Stairways, Ramps, and Platforms. Stairways and ramps shall be at least 21 inches wide. Stair treads shall be at least 9 inches deep exclusive of nosing and the height of rise shall not exceed 8 inches. Between any two levels the treads shall be of uniform depth and the risers of uniform height.
- (j) Signal Systems shall be provided and utilized for controlling, starting, and stopping of a ride when the operator of the ride does not have a clear view of the point where passengers are loaded or unloaded. Where the need for coded signals is required, the code of signals adopted for operations of the ride shall be printed and kept posted at both the operator's and signalman's stations. Persons who use the signals shall be instructed in their use and shall be trained to understand thoroughly their operation and meaning. Signal systems shall be tested on each day prior to operation of the ride. A ride requiring a signal system shall not operate if the system is not performing correctly. Signals for the movement of operation of an amusement ride shall not be given until all passengers and other persons who may be endangered are in a position of safety.
- (k) General Environment.
1. Hazardous Weather and Riot. During a lightning storm, high wind storm, a period of tornado warning; fire, or when violence, riot, or civil disturbance occurs or threatens in or is a direct threat to a fair or carnival lot, passengers shall be unloaded or evacuated from a ride and the ride shut down and secured immediately. Operations shall not resume until the situation has returned to a normal safe operating condition.
 2. Illumination. Access and exit to and from amusement rides shall be provided with illumination by natural or artificial means of no less than 5 foot candles measured at grade level. No less than 10 foot candles of illumination shall be provided at work levels for assembly and disassembly of amusement rides.
 3. A separate or emergency source of illumination shall be provided, excluding flashlights, in all portable trailers used as fun houses, dark rides, etc.
- (l) Fire Prevention and Protection.

1. Fire Resistance of Fabrics. Fabrics constituting part of an amusement ride shall be fire-resistant to meet the following standards: Two strips or test sections either of the fabric used or other fabric identical therewith shall be tested. Each strip shall not be less than 6 inches wide and 12 inches long. Each strip shall be thoroughly dry and shall then be subjected to an open flame applied to the lower edge while the strip is held vertically for twelve seconds. Neither strip shall flame for more than two seconds after the test flame is removed from contact nor shall the average length of char exceed 2 1/2 inches. Such a test is not required by this section if other evidence of the required degree of fire resistance is accepted by the Office as sufficient.
 2. Fire Extinguishers. Approved fire extinguishers shall be provided at or within fifty (50) feet of the operator station to secure reasonable and adequate protection from fire hazards.
 3. Flammable Waste. Flammable waste such as oily rags and other flammable materials shall be placed in a covered metal container which shall be kept in easily accessible location.
 4. Flammable Liquids and Gases. Gasoline and other volatile liquids and flammable gases when stored shall be kept in reasonably cool and ventilated places. Such liquids shall be in approved safety cans. Smoking and the carrying of lighted cigars, cigarettes, or pipes is prohibited in any area where such liquids or gases are stored or are transferred from one container to another.
- (m) Cleanliness. A suitable number of metal containers for refuse shall be provided in and around all amusement rides. Excessive accumulations of trash or rubbish shall be promptly removed. All parts of amusement rides used by passengers or customers shall be maintained in a clean condition.
- (n) Equipment. Equipment used in connection with any ride shall be constructed, equipped and maintained to insure safe operation.
- (o) Oil and Hydraulic Systems. Oil and hydraulic systems and other related equipment used in connection with amusement rides shall be free of leaks and maintained to insure safe operation at all times. Such systems shall have a dumping or bypass valve that shall be drilled and sealed at 125% of working pressure by the manufacturer and witnessed by a representative of the Office. Such systems shall be inspected at least annually and must be inspected before being put into service. All pressure gauges shall have the maximum safe working pressures conspicuously marked thereon. All systems shall have a manual lowering valve.
- (p) Pressure Vessels. Pressure Vessels used in conjunction with rides that meet the following criteria must be constructed in accordance with the ASME Code, repaired in accordance with the National Board Inspection Code, and safety inspected by a state inspector once each year.

(q) Machinery and Machine Guarding.

1. General Requirements are as follows: machinery used in or with an amusement ride shall be enclosed, barricaded, or otherwise effectively guarded against contact. Guards removed for maintenance purposes shall be replaced before normal operation is resumed. One or more methods of machine guarding shall be provided to protect the public from injury. An example of double guarding is public barriers and gear shielding. Guards shall be fixed to the machine where possible and secured elsewhere if for any reason attachment to the machine is not possible. The guard or barrier shall be such that it does not offer an accident hazard in itself. Barriers shall be securely stacked or sandbagged to prevent movement or tip over by the public falling, pressing, or stumbling against them, and be at least 30 inches high. The barriers shall be located to keep the public at least six feet away from all major or spectacular rides, and at least three feet away from all kiddie rides. Ride entrances shall have a passenger waiting line retaining chain, bar gate, or device. All machinery designed for a fixed location shall be securely anchored to prevent walking or moving. All rides containing or having a mounting or mountings that would catch, wind up, or entangle long hair shall have attached warning signs.
2. Mechanical Power Transmission. All power transmission devices and associated moving parts shall be shielded, enclosed, or barricaded to protect the public.

- (r) Welding, Cutting, and Brazing. No welding, cutting, or brazing shall be accomplished where the public can directly observe the process or be hit by sparks or flying materials generated by the process. Any welding, cutting, and brazing accomplished when the general public is in attendance, shall be accomplished behind temporary erected solid barriers. The ends of these shall be overlapped to prevent any direct exposure. If the operation cannot be shielded, the manager shall provide a means of keeping the public away from the point of work for a distance of 35 feet for all soldering, brazing, cutting, and gas welding up to 1/2 inch, 50 feet for all gas welding over 1/2 inch, and 150 feet for all welding utilizing electrodes up to 3/16 inch diameter. All larger arc welding operations shall be accomplished behind solid shielding or prior to or after public attendance hours.

Cite as Ga. Comp. R. & Regs. R. 120-3-28-.17

Authority: O.C.G.A. Sec. [25-15-83](#).

History. Original Rule entitled "Design Criteria. Amended" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.18. Operations.

(1) Assembly and Disassembly.

- (a) Competent Supervision. The assembly and disassembly of an amusement device or a temporary structure shall be done by or under the immediate supervision of a

person experienced and instructed in the proper performance of such work in respect to the device or structure.

- (b) **Quality of Assembly Work.** Assembly work shall be performed in a proper and workmanlike manner. Parts shall be properly aligned and shall not be bent, distorted, cut or otherwise injured to force a fit. Parts requiring lubrication shall be lubricated in the course of assembly. Fastening and locking devices, such as bolts, cap screws, cotter pins, lock washers, etc., shall be installed where required for dependable operation. Nuts shall be drawn tight, cotter pins shall be spread, and lock nuts firmly set. Welding of parts upon which safe operation depends will be in accordance to AWS Standards welding & brazing procedures done by welders qualified to those procedures, procedures shall be provide by the manufacturer.
 - (c) **Quality and Inspection of Parts.** Parts which are excessively worn or which have been materially damaged shall not be used. Close visual inspection of parts shall be made during assembly to discover such wear or damage and immediate inspection of fastening devices shall be made after assembly to discover such wear or damage and immediate inspection of fastening devices shall be made after assembly to assure that they have been properly installed.
 - (d) **Tools and Equipment.**
 - 1. Persons engaged in the assembly or disassembly of amusement devices shall be provided with and shall use tools of proper size and design to enable the work to be done safely. Broken, damaged, and unsuitable tools shall not be used. Electrically operated tools shall be grounded during use.
 - 2. Ladders, scaffolds, and safety belts used in assembly or disassembly work shall be of such design, material, and construction as to provide reasonable and adequate protection to the persons using them.
 - 3. Fiber rope used in assembly or disassembly work shall be standard quality manila or equivalent in strength.
 - 4. Tackle blocks shall be of a size to fit the rope. All load-carrying equipment shall be designed and constructed throughout to support the intended load.
 - (e) **Persons in Work Area.** A sufficient number of persons to do the work properly shall be engaged for the assembly or disassembly of amusement devices. Persons not so engaged in this work and who may create a hazard shall be prevented from entering the work area.
- (2) **Location.** The general layouts shall be established such that continuous traffic patterns will exist. Box canyons formed by rides and concession booths shall be avoided. The egress of a ride or booth shall not be located immediately in front of hazardous equipment. The layouts shall be such that traffic patterns through the concession areas

shall minimize traffic over any water or electrical lines. The intermingling of water lines and electrical lines shall be avoided. Long guy wires or narrow braces utilized for ride, or booth support shall be clearly marked with streamers or other devices to attract attention.

(a) Temporary Ride. A ride shall be placed on solid footings to be secured to prevent shifting, tipping, swaying, or erratic motion. No cement, brick, or similar type blocks shall be permitted, unless approved by the Office. Provisions pertinent to erratic motion or sway does not apply to a ride designed to permit flotation characteristics or flexibility. Use of shim blocks shall be kept to a minimum. Depression in the ground near the ride footings shall be filled and tamped and adequate means of drainage provided to prevent water from collecting and softening supporting areas in case of rain. The areas surrounding the ride shall be clear and kept free from trash and tripping hazards. A daily inspection of the ride motion and footing shall be made.

(b) Public Protection.

1. An carnival ride shall not be used or operated while any person is so located as to be endangered by it. Areas in which persons may be so endangered should be fenced, barricaded, or otherwise guarded against public intrusion.
2. Temporary booths shall not be located under aerial amusement rides. Temporary booths utilized for cooking food shall be located such that at least 10 feet of clearance exists on two sides for the use of fire equipment or other emergency vehicles, and shall not be located within 10 feet of amusement rides. A minimum clearance of six feet shall exist between an exterior ride and walls, building, and other structures. At least twelve feet of clearance shall be maintained between major and spectacular rides and at least three feet between all kiddie rides.
3. At no time shall a ride be assembled, disassembled, or operated within the minimum clearance of power transmission lines as stated below, except when the transmission lines have been de-energized and disconnected or locked out.
 - (i) For lines rated 50KV or below, minimum clearance between the lines and any part of lifting crane, ride structure, or equipment shall be ten feet.
 - (ii) For lines rated over 50KV, minimum clearance between the lines and the lifting crane, ride structure, or equipment shall be ten feet plus 0.4 inches for each 1KV over 50KV.
 - (iii) During assembly or disassembly a person shall be designated to observe clearance of the equipment and give timely warning for all maneuvers where it is difficult to maintain the desired clearance by visual means.

- (3) The manager shall insure that there exists in the immediate vicinity a device or devices (for example; ladder, fire truck, or hydraulic lift) which are available for emergency removal of passengers from elevated amusement rides that will not operate.
- (4) Leveling and Alignment. Corner posts, central column or support structures of a ride designed to operate on a perpendicular axis shall be plumb and secured so that the path of the sweeps or platforms shall be level and operate on a true horizontal plane at right angles to the axis of the pivot. A ride whose carriers are designed to operate on a horizontal axis shall be leveled so that the carriers will orbit in a true perpendicular plane. The base of a ride employing a combination of orbiting planes or a ride whose carriers operate normally in a plane other than true horizontal or vertical shall be leveled, plumbed, and secured so that they will not tip or shift and will be stable under the most adverse operating conditions, except for a ride designed to operate properly whether the base is plumb or level or not.
- (5) Internal Combustion Power Sources.
 - (a) Internal combustion power sources shall be of adequate type, design, and capacity to handle the design load.
 - (b) Fuel tanks should be of adequate capacity to permit uninterrupted operation during normal operating hours and have caps that will not leak fuel if over turned. Where it is impossible to provide tanks of proper capacity for a complete day, the ride shall be shut down and unloaded or evacuated during the refueling procedure. Under no circumstance shall the fuel supply be replenished while the engines are running.
 - (c) An enclosed area in which an internal combustion engine is operated shall be ventilated. Exhaust fumes from the engine shall be discharged outside the area. The equipment shall be properly grounded.
 - (d) Internal combustion power sources shall be located in a manner permitting proper maintenance and shall be protected either by guards, fencing, or enclosure to prevent exposure to hazard and to secure the equipment from the public.
 - (e) A manager shall provide and maintain portable fire extinguishers of the classification, capacity, and number prescribed by the Office.
 - (f) A manager shall store and handle liquid petroleum gas employed either as fuel for internal combustion engines, for heat, or for illumination in a manner approved by the Office.
 - (g) A manager shall store and handle flammable liquids in accordance with the standards of the Office. Bulk storage (quantities above 60 gallons) will not be permitted in the area accessible to the public.

Cite as Ga. Comp. R. & Regs. R. 120-3-28-.18

Authority: O.C.G.A. Sec. [25-15-83](#).

History. Original Rule entitled "Operations" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.19. Maintenance.

- (1) General. All equipment relative to carnival rides shall be given periodic maintenance service. This shall include proper lubrication and cleaning of machinery, engines, and motors. Worn mechanical parts and machinery shall be periodically inspected for loose fasteners. Lockout devices shall be engaged prior to inspecting or servicing a piece of equipment. Equipment and structure for amusement rides shall be kept free from protruding nails, loose nails, splintered wood, loose and wobbly seats, and rough, loose, or dangerous arm rests.
- (2) Wire rope:
 - (a) shall be thoroughly examined. Wire rope found to be damaged shall be condemned and replaced with new rope of proper design and capacity as per data tag that is attached. Any of the following conditions shall be cause for rope replacement.
 1. In running ropes, six randomly distributed broken wires in one rope lay, or three broken wires in one strand in one rope lay. A rope lay is the length along the rope in which one strand makes a complete revolution around the rope.
 2. In pendants or standing ropes, (ropes bearing the entire load and subjected to constant pressure and surge shocks) evidence of more than one broken wire in one rope lay.
 3. Abrasion, scrubbing, or peeling causing loss of more than 1/3 of the original diameter of the outside wires.
 4. Severe corrosion.
 5. Severe kinking, severe crushing, or other damage resulting in distortion of the rope structure.
 6. Heat damage resulting from a torch or arc caused by contact with electrical wires.
 7. Reduction from normal diameter of more than 3/64 inch for diameters up to and including 3/4 inch; 1/16 inch for diameters 7/8 inch to 1 1/8 inches; 3/32 inch for diameters 1 1/4 inches to 1 1/2 inches. Marked reduction in diameter indicating deterioration of the core resulting in lack of proper

support for the load carrying strands. Excessive rope stretch or elongation may be an indication of internal deterioration.

8. Bird-caging or other distortion resulting in some members of the rope structure carrying more load than others.
 9. Noticeable rusting or developing of broken wires in the vicinity of attachments. If this condition is localized in an operating rope, the section in question can be eliminated by making a new attachment. This may be done rather than replacing the entire rope.
 10. All wire rope used to support, suspend, bear, or control forces and weight shall be double clamped.
- (b) Wire ropes used to support, suspend, bear, or control forces and weights involved in the movement and utilization of tubs, cars, chairs, seats, gondolas, other carriers, the sweeps, or other supporting members of a ride shall not be lengthened or repaired by splicing.
 - (c) Couplings, sockets, and fittings shall be a design and type approved by the Office and installed in accordance with the instructions or specifications of the designer, engineer, or manufacturer.
- (3) Wood Components. Footings, splices, uprights, track timbers, ledgers, sills, laps, bracing flooring, and all other wood components of rides shall be inspected for deterioration, cracks, or fractures. Emphasis shall be given to insuring tight nails, bolts, lag bolts, and other fasteners. Wood members found to be defective shall be removed and replaced with material of equal or greater strength and capacity.
 - (4) Housekeeping. An adequate number of containers for refuse shall be provided in and around all amusement rides. Excessive accumulation of trash and refuse shall be promptly removed. All parts of amusement rides used by the public shall be maintained in a clean condition. All walkways between amusement rides shall be kept free from debris, obstructions, or other hazards.
 - (5) Electric Motors. Electric motors exposed to water shall be given a dielectric test annually to insure a safe operation and the results are to be kept with the carnival.
 - (6) Wire Rope Rollers, Drums, and Sheaves. The mechanical devices that brake, control, or come in contact with wire rope, such as rollers, drums, and sheaves shall be examined on a periodic basis to insure cleanliness and safe conditions. Mechanical devices with broken chips, undue roughness, or uneven wear shall be replaced immediately.
 - (7) Articulation and Bearings.

- (a) The articulating pinions, frames, sweeps, eccentrics, and other mechanical members shall be inspected for wear, out or around, cracks, and other signs of deteriorations, and shall be kept in good repair.
 - (b) All main center spindles not visible to the naked eye shall be X-rayed or other approved means, by an accredited testing laboratory and one copy of the results of such tests shall be forwarded to the Office. Test results shall have listed the date of the test, name of the ride owner, and serial number for identification of the ride.
 - (c) Bear surfaces, ball joints, and other single or multiple direction mechanical surfaces shall be kept well lubricated and clean and inspected for out of round or out of spherical and shall be kept in good repair.
 - (d) Gear alignment and gear drives shall be kept in good repair.
- (8) Electrical Wiring. Motor wiring, general service circuitry, decorative wiring, festoon wiring, and concession stand wiring shall be inspected for insulation wear, fraying, or other signs of deterioration such as cracking. Secure tape repairs may be used; however, use of tape repairs shall be kept to a minimum. Wire clips on articulating devices shall be kept in good repair, and wires at elbows and at the end of articulating devices shall be emphasized during inspection.
- (9) Safety Devices. Retaining, restraining and containing devices shall be inspected to insure they can continuously fulfill their function. Worn and damaged areas shall be repaired immediately or shall be cause for immediate replacement.
- (10) Hydraulic Systems. The system is to be checked for leaks, damaged pipes, and worn or deteriorated hoses.
- (11) All welding will be in accordance to AWS Standards welding & brazing procedures done by welders qualified to those procedures. The procedures shall be provided by the manufacturer.

Authority: O.C.G.A. Sec. [25-15-83](#).

History. Original Rule entitled "Maintenance. Amended" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.20. Electrical.

Electrical conductors and electrical equipment installed and utilized on or around carnival rides shall conform to the latest adopted edition of National Electrical Code, NFPA 70. The following rules are stated for emphasis and clarification and are supplement to the National Code. If any conflict exists or appears to exist, the National Code shall have precedence.

- (a) Installation. Portable electrical systems required by amusement rides shall be installed by a qualified electrician.
- (b) Grounding. A carnival shall not operate until all grounding electrodes, equipment, and safety grounding connections are secured, polarized, and tested. The grounding conductors shall conform to the National Electrical Code, as revised. Article 250 Grounding, Paragraph 250-94 Alternating Current Systems and 250-95 Size of Equipment Grounding Conductors. The path to ground from circuits, equipment and conductor enclosures shall (1) be permanent and continuous and (2) shall have ample carrying capacity to conduct currents liable to be imposed on it, and (3) shall have impedance sufficiently low to limit the potential ground and to facilitate the operation of the over-current devices in the circuit.
 - 1. Service Ground. Equipment or generators operating from a separate supply or supplies which are located closer than 8 feet and all service equipment within itself shall be bonded together. The service ground shall be established by connecting the grounding conductor to the service entrance neutral bar in the hot truck or generator and to an approved type service grounding electrode such as ground rods. A sufficient number of ground rods shall be spaced not less than 6 feet apart and at secure depth to obtain and maintain 25 ohms or less resistance to ground. A resistance of 3 ohms or less shall exist when grounding to a water system.
 - 2. Generator Grounding. Where electrical power is supplied for an amusement ride by a privately operated generating system, the generator and all equipment shall be properly grounded if the system incorporated a ground.
 - 3. Circuit and Equipment Safety. From the service entrance neutral bar, the circuit grounded and equipment safety grounding conductors shall be continuous and separate throughout the entire system. The portable outlet and terminal boxes shall contain a service ground through grounded receptacles for both circuit and safety. The equipment safety grounding conductors shall be attached to each ride such that a grounding resistance of 25 ohms or less is obtained. Separate steel tracks or steel framework, such as relief coaster tracks or big slides, shall have grounding the same as the service equipment.
- (c) Current Limiting Devices. Conductors shall be fused or protected to their current carrying capacities. No more than 6 disconnect switches are to be in the hot truck or generator unless a main switch is provided. All distribution lines from hot trucks or generators shall be either 100 amp. capacity. No fuses or current limiting devices shall be installed in the neutral or grounding conductors. Motors and lighting circuits shall be fused separately.
- (d) High Voltage Lines. The outlets of electric power lines carrying more than 120 volts shall be clearly marked to show their voltages.
- (e) Outdoor Apparatus and Wiring. Electrical apparatus and wiring located outdoors shall be of such quality and so constructed or protected that exposure to weather will not interfere with its normal operation.

- (f) Elevated Lines. Elevated power lines crossing access or other roads within the grounds of a carnival or fair shall be suspended as to provide minimum vertical clearance of 12 feet from the road surface and minimum horizontal clearance of 3 feet on each side of the normal passage space of vehicles.
- (g) Bus Bars. Bus bars shall be located low or near the bottom of the cabinet. Separate bus bars shall be provided for grounding neutral and phase conductors. Color codes painted on inside and outside of box, but not on contact surfaces of bus bars, are to be:

Ground-Green With Yellow Strip 1st Phase-Black

Neutral-White or Natural Gray 2nd Phase-Red

3rd Phase-Blue

On a 4 wire delta connected secondary, the phase conductor having the higher voltage to ground shall be arranged. These color codes are to carry on through all connected wiring from service through portable power outlets and terminal boxes. Buses shall not be less than 200 ampere capacity. The load terminals in a switchboard or panel board shall be located so that it will be unnecessary to reach across or beyond a live bus (hot bus) to make a local connection.

- (h) Portable Power Outlet and Terminal Box. Boxes are to be rain tight and kept locked during the time when the general public is in the area. Wood boxes may be used if insulated on all sides with fire resistant material or painted with insulating varnish. The service power shall be connected to the box by receptacles mounted on the exterior wall which includes the safety grounding. The distribution within the box shall be accomplished by neutral terminal bar(s) and circuit breakers or fuses. The branch circuits which include the equipment safety grounding shall obtain their power through receptacles mounted on the exterior of the box. The exterior openings of the receptacles must be at least 6 inches above ground level and provided with a protective cover, draining eave, or canvas that will avoid the possibility of rain on the receptacle. If it is required to run conductors directly through an opening on the wall of the box for additional service or to obtain required amperage, the opening(s) shall be color coded and shall be sized to prevent public accessibility to the interior of the box. The fuses or breakers in the boxes shall be secured permanently in place, and all connections to the bus bars within the boxes shall be made with threaded screws and lugs of the proper size to fasten in place.
- (i) Power Sources. Electrical power sources shall be located in a manner permitting proper maintenance and shall be protected either by guards, fencing, or enclosure to prevent exposure to hazard and to secure the equipment from the public.

History. Original Rule entitled "Electrical" adopted. F. Jan. 10, 2014; eff. Jan. 30, 2014.

Rule 120-3-28-.21. Daily Inspection.

The carnival rides shall be inspected each day they are intended to be used. This inspection shall be made by a person experienced and instructed in the proper assembly and operation of the device and shall be performed before the device is put into normal operation. The inspection and test shall include the operation of control devices, speed limiting devices, brakes, and other equipment provided for safety. A record of each inspection and test shall be made at once upon completion of the test and shall be kept with the device and available to the Office. An operator or manager shall not knowingly use, or permit to be used, a ride which is not properly assembled or which is defective or unsafe in any of its parts, controls, or safety equipment.

Rule 120-3-28-.22. Special Situations.

- (1) This Code is to provide for the safety of life and limb and to promote the public welfare. Where a rule because of practical difficulty cannot be complied with literally or where its literal application would cause undue hardship, the Office may upon written request, grant exceptions, but only when it is clearly evident that reasonable safety is assured.
- (2) In the event that an unsafe condition is discovered during the course of a safety inspection on a carnival device and the manufacturer of that device is no longer in business and cannot be contacted for specific repairs, the Office shall determine the necessary requirements needed in order to return the carnival device to safe operating conditions.
- (3) Exemptions from Standards and Regulations approved by the Office. The owner/operator of the following equipment shall be exempt from applying for a permit or inspection. The owner/operator shall meet all other requirements of the Safety Act and these Rules.
 - (a) Mechanical bulls, climbing walls, human powered equipment or attractions, including but not limited to space balls, orbitrons, air supported structures, paddle boats, water cycles, bicycles.
